12 the Director, in his or her discretion, may issue or deny the extension or impose new or modified  
13 conditions on the permit extension.

15 addition, when, in the judgment of the Director of Public Works, the public interest or  
16 convenience will be served by the removal of the dirt, debris, materials and equipment or any  
17 portion thereof from the street or sidewalk space the Director shall modify, condition, or revoke  
18 the permit accordingly.

19                   SEC. 724.1. TEMPORARY OCCUPANCY OF STREET-FEES TO BE PAID.

20                   (a) No permit shall be issued to a private or public entity for the temporary  
21 occupancy of the street for building construction operations unless a fee and public right-of-way

25 to the fee, the permit applicant shall pay a public right-of-way occupancy assessment of \$ 29.55, per

1 month, per 20 linear feet, or fraction thereof, occupied as measured parallel with the face of curb. For  
2 purposes of calculating fees and assessment costs, the Department shall use one-month increments  
3 even though the permittee may occupy for less than a one-month term.

4 (b) For temporary street space occupancy for any purpose other than a  
5 building construction operation, the fee shall be ~~\$30~~ \$50 per day with no assessment cost. Unless  
6 specified otherwise, such occupation is subject to all provisions of Sections 724 et seq.

7 (c) Nonprofit organizations with tax exempt status under the Internal  
8 Revenue Code shall be exempt from payment of the fee where the street occupancy is  
9 necessary for the development of low and moderate income housing as defined by the United  
10 States Department of Housing and Urban Development.

11 (d) Refund. If a permittee elects to relinquish all or a portion of the occupied street  
12 space prior to termination of the permit, the permittee may seek a refund of fees and occupancy  
13 assessment from the Department. There shall be no fee charged for a refund request. Refunds shall be  
14 issued based only on one-month increments.

15 (e) Fee and Assessment Review. Beginning with fiscal year 2003-2004, the permit  
16 fee and street occupancy assessment set forth in this Section may be adjusted each year, without further  
17 action by the Board of Supervisors, to reflect changes in the relevant Consumer Price Index, as  
18 determined by the Controller. No later than April 15th of each year, the Director shall submit its  
19 current fee and occupancy assessment schedule to the Controller, who shall apply the price index  
20 adjustment to produce a new fee schedule and occupancy assessment for the following year. No later  
21 than May 15th of each year, the Controller shall file a report with the Board of Supervisors reporting  
22 the new fee schedule and occupancy assessment and certifying that: (a) the permit fees produce  
23 sufficient revenue to support the costs of providing the services for which the permit fee is assessed,  
24 and (b) the permit fees do not produce revenue which is significantly more than the costs of providing  
25

1 the services for which each permit fee is assessed. Notwithstanding the above, the Board of  
2 Supervisors, in its discretion, may modify the street occupancy assessment at any time.

3 (f) Additional Fees. In instances where administration of this permit program or  
4 inspection of a street space occupancy is or will be unusually costly to the Department, the Director, in  
5 his or her discretion, may require an applicant or permittee to pay any sum in excess of the amounts  
6 charged above. This additional sum shall be sufficient to recover actual costs incurred by the  
7 Department and shall be charged on a time and materials basis. The Director also may charge for any  
8 time and materials costs incurred by other agencies, boards, commissions, or departments of the City  
9 in connection with the administration or inspection of the street space occupancy. Whenever additional  
10 fees are charged, the Director, upon request of the applicant or permittee, shall provide in writing the  
11 basis for the additional fees and an estimate of the additional fees.

12 SEC. 724.2. TEMPORARY OCCUPANCY OF STREET-PERMITTEE TO REPAIR  
13 DEFECTS.

14 The permittee shall be required, ~~forthwith upon issuance of the permit, and the~~

16 keep in repair, that part of the ~~roadway~~ public right-of-way and associated public infrastructure,  
17 including, but not limited to streets signs and parking meters, for which said permit is issued ~~and in~~  
18 ~~all parts of the sidewalk fronting on the premises owned by or leased to the permittee or his principal,~~  
19 which may be or become a hazard to any member of the public lawfully using the same during  
20 the time for which said permit shall be issued or upon termination or expiration of said permit.  
21 The permittee assumes this responsibility regardless of the cause of said defects and whether  
22 said defects ~~existed prior to the issuance of the permit or~~ develop while said permit is in effect. It  
23 shall be presumed that all defects were caused by the permittee unless the permittee can demonstrate  
24 otherwise to the satisfaction of the Director.

25 SEC. 724.3. ~~DEPOSIT REQUIRED.~~ PLACARDS AND SIGNS.

1           ~~———— A refundable cash deposit of a minimum of \$10 per linear foot of the sidewalk frontage~~  
2 ~~of area occupied shall be required as a guaranty that the permittee will remove all dirt, debris,~~  
3 ~~materials and equipment from the street in the allotted time and restore the pavement or sidewalk to an~~  
4 ~~acceptable condition. The Department of Public Works shall determine the amount of the cash deposit~~  
5 ~~based upon the condition of existing facilities and the potential damage thereto. If not so removed and~~  
6 ~~restored, the Director, after five days' notice in writing posted on the premises, may use as much of the~~  
7 ~~guaranty money as is necessary for cleaning the street, removing materials and equipment, and~~  
8 ~~restoring the pavement. For continuous building operations, a security bond, approved as to form by~~  
9 ~~the City Attorney, may be accepted in lieu of a cash deposit to guarantee that the work herein described~~  
10 ~~will be faithfully executed. The permittee shall deposit additional funds as required to maintain the~~  
11 ~~deposit in the above specified amount.~~

12           (a) Placards. A permittee shall display a placard at the site subject to a street space  
13 occupancy permit. The placard shall be mounted on the exterior of the fronting property, or where the  
14 site is vacant or it is impractical to mount the placard on the fronting property, the permittee may  
15 attach the placard on a post, pole, wall, or other object. A permittee shall mount the placard in a  
16 location where members of the public can easily read the required information but cannot tamper with  
17 the placard. The permittee shall mount the placard 72 hours in advance of the occupancy authorized in  
18 the permit, shall keep the placard posted for the entire term of the permit, and shall remove the it  
19 immediately upon termination of the permit. All information contained on the placard shall be legible.

22 and stop dates and hours of use, a geographic description of the street space occupied under the  
23 permit, the permit number, and the Department's street space hotline telephone number. The  
24 Department shall provide a placard to each permittee. It shall be the responsibility of the permittee to  
25 insert the required information, mount the placard, and ensure proper maintenance of the placard. If

1 any required information on a placard must be modified, the permittee shall obtain a new placard  
2 rather than change the information on the existing placard.

3 (b) Signs. Signs containing the same information as required for placards shall be  
4 posted every 20 linear feet of occupied space with at least one sign at each end of the occupied space.  
5 The permittee shall post signs 72 hours in advance of the occupancy authorized in the permit and  
6 remove such signs upon the termination of the permit. A permittee must maintain signs during the  
7 entire term of occupancy and during the hours specified in the permit. If any information required on a  
8 sign must be modified, the permittee shall install new signs rather than change the information on the  
9 existing sign. If signs are removed, modified, or altered in any way, it shall be the permittee's  
10 responsibility to install new signs containing the required information.

11 (c) Good neighbor policy. Notwithstanding the above, if a permittee does not  
12 require use of the permit area for all hours covered by the permit, the permittee, ~~at his or her option,~~  
13 ~~may shall~~ allow members of the public to park vehicles in legal parking spaces. Rules governing the

4 such orders, policies, regulations, rules, or standard plans and specifications as he or she deems
