ORDINANCE NO.

1	[Public Works, Subdivision Codes - Fee Modification and Waiver]
2	
3	Ordinance amending the Public Works and Subdivision Codes to modify certain permit
4	fees, including waiving fees for café tables and chairs and display merchandise
5	registrants and certain minor sidewalk encroachments that are appurtenant building
6	features, and affirming the Planning Department's determination under the California
7	Environmental Quality Act.
8	NOTE: <b>Unchanged Code text and uncodified text</b> are in plain Arial font.
9	Additions to Codes are in <u>single-underline italics Times New Roman font</u> . Deletions to Codes are in strikethrough italics Times New Roman font. Board amendment additions are in <u>double-underlined Arial font</u> .
10	Board amendment deletions are in strikethrough Arial font. Asterisks (* * * *) indicate the omission of unchanged Code
11	subsections or parts of tables.
12	
13	Be it ordained by the People of the City and County of San Francisco:
14	
15	Section 1. Environmental Findings and Fee Study.
16	(a) The Planning Department has determined that the actions contemplated in this
17	ordinance comply with the California Environmental Quality Act (California Public Resources
18	Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
19	Supervisors in File No. 250608 and is incorporated herein by reference. The Board affirms
20	this determination.
21	(b) Public Works prepared a fee study that analyzed various permit fees and other fee
22	charges. A copy of said study is on file with the Clerk of the Board of Supervisors in File
23	No. 250608.
24	
25	

1	Section 2. Articles 2.1, 2.4 (Subarticle IV), and 15 of the Public Works Code are
2	hereby amended by revising Sections 2.1.1, 2.4.41, 2.4.42, 724.1, and 724.7, and deleting
3	Section 788, to read as follows:
4	SEC. 2.1.1. FEES.
5	Notwithstanding the permit fee provisions listed elsewhere in this Code, the permit fee
6	and assessment schedule for the permit categories and uses specifically listed below shall be:
7	(a) Street Flower Market Permit pursuant to Article 5 (Sections 155 et seq.): \$103.36
8	administrative fee and inspection fee of \$6.75 per square foot of occupancy;
9	(b) Tables and Chairs <i>Permit<u>Registration</u> pursuant to Article 5.2 (Sections 176 et seq.)</i> :
10	administrative fee of \$52 for permit renewal without prior Department enforcement action and \$104
11	for new permits or permit renewal resulting from prior Department enforcement action; and inspection
12	fee of \$4.80 per square foot of occupancy for renewal permits without prior Departmental enforcement
13	action, \$5.67 per square foot of occupancy for new permits, and \$6.77 per square foot of occupancy for
14	permit renewal resulting from prior Departmental enforcement action, except that all fee(s) in this
15	subsection (b) shall be \$0 for permits commencing on or after April 1, 2026 all fees are waived;
16	(c) Display Merchandise <u><i>Permit<u>Registration</u></i> pursuant to Article 5.<u>32</u> (Sections <u>183176</u> et</u>
17	seq.): \$112.95 administrative fee and inspection fee of \$7.34 per square foot of occupancy, except that
18	the inspection fee in this subsection (c) shall be \$0 for permits commencing on or after April 1, 2026all
19	fees are waived;
20	(d) Street Improvement Permit in an accepted or unaccepted right-of-way in order to
21	satisfy requirements under Sections 416, 706, 708, and 724.2: \$ <del>1,010.2,033.77</del> permit fee;
22	(1) Street Improvement Permit for Sidewalk Repair that is not the subject of a
23	Departmental Notice to Repair: \$ <del>29.6735.45</del> per 100 square feet permit fee;
24	
25	

Mayor Lurie BOARD OF SUPERVISORS

1	(e) Special Sidewalk Permit pursuant to Section 703.1: \$ <del>704.90</del> 833.13 permit fee;
2	\$250.39295.44 for existing special sidewalk or if needed in conjunction with a street improvement
3	permitStreet Improvement Permit;
4	(f) Automobile Runway (Driveway) Permits (also known as Curb Reconfiguration
5	Permits) pursuant to Sections 715 et seq. <u>:</u>
6	(1) Standard Permit: \$120.43 permit fee; and
7	(2) Over-wide Driveway Permit (30+ feet): \$969.30 for new permit fee; \$250.39
8	for existing driveway or if needed in conjunction with a street improvement permitStreet
9	Improvement Permit;
10	(g) Additional street space permit under Section 724:
11	(1) New Permit: \$704.90; <u>and</u>
12	(2) Permit Renewal/Extension: \$398.73;
13	(h) Minor Sidewalk Encroachment Permits (also known as Minor Encroachment
14	Permits) pursuant to Section 723.2; <u>:</u>
15	(1) Standard Minor Encroachment Permit: \$ <del>1,683.45<u>1</u>,988.87</del> permit fee; if
16	existing or if needed in conjunction with a street improvementStreet Improvement Permit (except
17	shoring) \$239.84283.62; and, if applicable pursuant to Section 723.2(n), the annual public right-
18	of-way occupancy assessment fee;
19	(2) Underground Storage Tank Abandonment: \$275.80 permit fee;
20	(3) Underground Vault, which shall be comprised of (A) a permit fee of
21	\$1,745.97 and (B) an annual public right-of-way occupancy assessment fee per square foot of
22	occupied space;
23	(4) Permits for Tier 2 Love Our Neighborhoods Projects pursuant to Section
24	723.1: \$500 permit application fee for a permit applicant that is a community-based
25	organization, nonprofit organization, community benefits district, or merchants' association;

1	(5) Pipe Barrier Permit pursuant to Section 723.1:
2	(A) Standard Permit: \$969.30 permit fee; and
3	(B) Security Bollard Barrier: \$1,943.80 permit fee; and
4	(6) Appurtenant Building Features as defined in Section 723.2: no fee;
5	(i) Debris Box Permit pursuant to Section 725:
6	(1) 7-day Permit: \$83.12 permit fee; and
7	(2) Annual Permit: \$551.62 permit fee;
8	(j) Street Encroachment Permit (also known as a Major Encroachment Permit)
9	pursuant to Section 786:
10	(1) \$ <del>6,533.75<u>7,721.49</u> permit fee and the annual public right-of-way occupancy</del>
11	assessment fee in Section 786.7; and
12	(2) Permits for Tier 3 Love Our Neighborhoods Projects pursuant to Section
13	723.1: \$1,000 permit application fee for a permit applicant that is a community-based
14	organization, nonprofit organization, community benefits district, or merchants' association;
15	(k) Commemorative Plaque Permit pursuant to Section 789.2: \$1,162.63 permit fee;
16	(I) If any of the abovementioned permits are a pipe barrier permit referenced above under
17	Section 2.1.1(h)(5) is associated with a Street Improvement Permit; but that pipe barrier permit
18	does not specifically reference a Street Improvement Permit, the permit fee is the Street
19	Improvement Permit fee plus \$ <del>133.20</del> 257.62 for each <u>pipe barrier</u> permit <del>unless the fee for said</del>
20	permit is less, in which case the additional fee is the lower permit fee amount;
21	(m) Under permit categories in subsections (d), (e), or (f), if the permit is associated
22	with a Department of Public Works Notice to Repair, the permit fee is \$ <del>330.32678.32</del> per
23	permit;
24	(n) Under permit categories in subsections (e) or (h)(1), if the permit is associated with
25	a subdivision map approval, the permit fee is \$133.20 per permit;

1 (o) Sidewalk width change fee, minimum per block or less: \$3,8754,043.46, with \$1,375 of 2 this fee allocated to the Planning Department for its review; 3 (p) Nighttime work permit fee: \$171.64203.26; (q) Preapplication meeting or staff consultation fee: \$404.76 for the first two hours or 4 portion thereof and \$202.38 for each additional hour or portion thereof; 5 6 (r) Autonomous Delivery Device Testing fees pursuant to Section 794: 7 (1) Application fee: for one device - \$860; for two devices - \$1,540; and for 8 three devices - \$1,995; (2) Permit extension fee: for one device - \$555; for two devices - \$1,010; and 9 for three devices - \$1,465; and 10 (3) Referrals to Department of Public Health: The Department of Public Health 11 12 may charge up to \$191 per hour for referrals sent by Public Works pursuant to Section 794; 13 (s) Curbside Parklet Fee. The permit and license fees for the types of Curbside Shared Space Permits issued pursuant to Administrative Code Chapter 94A and Public Works Code 14 15 Section 793 et seq. are as follows, with one-half of the fees allocated to the San Francisco Municipal Transportation Authority, and one-half of the fees allocated to Public Works. The 16 17 permit and license fees shall be due and payable as provided in Chapter 94A of the 18 Administrative Code. (1) Public Parklet fees: 19 20 (A) Permit fee of \$1,000 for the first parking space and \$250 for each 21 additional parking space; (B) Annual license fee of \$100 per parking space; and 22 (2) Movable Commercial Parklet fees: 23 24 (A) Permit fee of \$2,000 for the first parking space and \$1,000 for each 25 additional parking space;

1	(B) Annual license fee of \$1,500 per parking space; <u>and</u>
2	(3) Fixed Commercial Parklet fees:
3	(A) Permit fee of \$3,000 for the first parking space and \$1,500 for each
4	additional parking space;
5	(B) Annual license fee of \$2,000 per parking space; and
6	(t) Review of Contractor Parking Plan:
7	(1) Under Section 724 (Temporary Occupancy of Street/Street Space):
8	\$869.58; <u>and</u>
9	(2) Under Section 2.4.20 (Excavation): \$712.71.
10	
11	SEC. 2.4.41. ADMINISTRATIVE FEE.
12	Each applicant shall pay to the Department a fee of \$ <del>66135.90</del> for each permit issued
13	for a small excavation project, a fee of \$ <del>83<u>171.35</u> for each block contained in a medium</del>
14	excavation project, or a fee of \$ <del>110</del> 226.89 for each block contained in a large excavation
15	project. Said fees shall compensate the Department for the cost incurred to administer the
16	provisions of this Article. If the Director grants a permit extension or amendment pursuant to
17	Sections 2.4.20.2 or 2.4.20.3, the permittee shall pay a fee of \$66135.90 for any block for
18	which the permit has been extended or amended to cover the cost of additional permit review
19	and administration. In instances where a contractor parking plan is required, the applicant
20	shall pay a non-refundable fee of \$138 <del>.00</del> per permit for Departmental review of the plan, and
21	an additional \$55 <del>.00</del> per permit each time the permittee requests a modification to the permit
22	that will impact on-street parking unless the modified permit results in a reduction of the
23	amount of on-street parking that is impacted.
24	

## 25 SEC. 2.4.42. INSPECTION FEE.

Mayor Lurie BOARD OF SUPERVISORS

1 Each applicant shall pay to the Department a fee of \$1631.91 for each permit issued for 2 a small utility excavation project and \$640 for a small general excavation project related to 3 *buildings*, a fee of \$55 for each calendar day of a medium excavation project, or a fee of \$81 4 for each calendar day of a large excavation project. An applicant shall pay an inspection fee of 5 \$189.08 per hour for inspection of underground tank removal, side sewer, or boring/monitoring wells. 6 Said fee shall compensate the Department for the cost of the inspection and regulatory 7 services provided to such applicant when *he or she the applicant* becomes a permittee pursuant 8 to this Article. No inspection fees shall be collected from a municipal excavator when: (a) the 9 municipal excavator pays the Department to manage and inspect the construction or (b) the 10 excavation is to construct, replace, or repair Municipal Railway tracks. If the Director grants a permit extension pursuant to Section 2.4.20.2, the permittee shall pay \$1631.91 for a small 11 12 utility excavation project, \$640 for a small general excavation project related to building, or the 13 appropriate fees for a medium or large excavation project for each additional calendar day for which the permit is extended to cover the cost of additional permit inspection. If the Director 14 15 grants a permit amendment pursuant to Section 2.4.20.3 that results in additional permit 16 inspection, the permittee shall pay the fees specified above for permit extensions. In instances 17 where a contractor parking plan is required, the permittee shall pay a non-refundable fee of 18 339.00 per permit for Departmental inspection regarding implementation of the plan and per modified permit unless the permit results in a reduction of the amount of on-street parking that 19 20 is impacted.

- 21
- 22

#### SEC. 724.1. TEMPORARY OCCUPANCY OF STREET – FEES TO BE PAID.

(a) No permit shall be issued to a private or public entity for the temporary occupancy
of the street for building construction operations unless a fee and public right-of-way
occupancy assessment are paid. The fee shall be \$26.11, per month, per 20 linear feet, or

fraction thereof, occupied as measured parallel with the face of curb. In addition to the fee, the permit applicant shall pay a public right-of-way occupancy assessment of \$173.26, per month, per 20 linear feet, or fraction thereof, occupied as measured parallel with the face of curb. For purposes of calculating fees and assessment costs, the Department shall use one-month increments even though the permittee may occupy for less than a one-month term. In instances where a contractor parking plan is required, the applicant shall pay the following non-refundable fees:

8 (1) an administrative fee of \$135 per permit for Departmental review of the plan, 9 and an additional \$55 each time the permittee requests a modification to the permit that will 10 impact on street parking unless the permit results in a reduction of the amount of on-street 11 parking that is impacted; and

(2) an inspection fee of \$446 per permit for Departmental inspection regarding
 implementation of the plan and per modified permit unless the modified permit results in a
 reduction of the amount of on-street parking that is impacted.

(b) For temporary street space occupancy for any purpose other than a building
 construction operation, the fee shall be \$95.48112.27 per day with no assessment cost. Unless
 specified otherwise, such occupation is subject to all provisions of Sections 724 et seq.

(c) Nonprofit organizations with tax exempt status under the Internal Revenue Code
 shall be exempt from payment of the fee where the street occupancy is necessary for the
 development of low- and moderate-income *moderate income* housing as defined by the United
 States Department of Housing and Urban Development.

(d) **Refund**. If a permittee elects to relinquish all or a portion of the occupied street
space prior to termination of the permit, the permittee may seek a refund of fees and
occupancy assessment from the Department. There shall be no fee charged for a refund
request. Refunds shall be issued based only on one-month increments.

Mayor Lurie BOARD OF SUPERVISORS

1 (e) Fee and Assessment Review. Beginning with fiscal year 2012-2013, the permit 2 fee and street occupancy assessment set forth in this Section 724.1 may be adjusted each 3 year, without further action by the Board of Supervisors, to reflect changes in the relevant 4 Consumer Price Index, as determined by the Controller. No later than April 15 of each year, 5 the Director shall submit the current fee and occupancy assessment schedule to the 6 Controller, who shall apply the price index adjustment to produce a new fee schedule and 7 occupancy assessment for the following year. No later than May 15 of each year, the 8 Controller shall file a report with the Board of Supervisors reporting the new fee schedule and 9 occupancy assessment and certifying that: (a1) the permit fees produce sufficient revenue to 10 support the costs of providing the services for which the permit fee is assessed, and (b1) the permit fees do not produce revenue which is significantly more than the costs of providing the 11 12 services for which each permit fee is assessed. Notwithstanding the above, the Board of 13 Supervisors, in its discretion, may modify the street occupancy assessment at any time.

14 (f) Additional Fees. In instances where administration of this permit program or 15 inspection of a street space occupancy is or will be unusually costly to the Department, the 16 Director, in the Director's discretion, may require an applicant or permittee to pay any sum in 17 excess of the amounts charged above. This additional sum shall be sufficient to recover 18 actual costs incurred by the Department and shall be charged on a time and materials basis. 19 The Director also may charge for any time and materials costs incurred by other agencies, 20 boards, commissions, or departments of the City in connection with the administration or 21 inspection of the street space occupancy. Whenever additional fees are charged, the Director, upon request of the applicant or permittee, shall provide in writing the basis for the additional 22 23 fees and an estimate of the additional fees.

- 24
- 25

# SEC. 724.7. TEMPORARY OCCUPANCY OF STREET – ADDITIONAL PERMIT REQUIRED.

3 (a) Any person seeking to close off more than the designated parking lane width, as established in Section 724, and more than  $\frac{1}{2}$  one-half of the official sidewalk width along the 4 5 boundary of the fronting property must apply for an additional temporary street occupancy 6 permit as provided for herein. A revocable permit for additional temporary street occupancy 7 shall not be issued unless an application therefor is made to the Director of Public Works, and 8 a fee and a public right-of-way assessment cost, as set forth in Section 724.8, are paid. The 9 content of applications shall be in accordance with the policies, rules, and regulations of the 10 Director of Public Works. All applications shall be on forms prescribed therefor and shall contain or be accompanied by all information required to assure the presentation of pertinent 11 12 facts for proper consideration of the case. The application shall include both a reasonable 13 estimate of the duration of construction, and an explanation of why an additional temporary 14 street occupancy permit of the particular dimensions requested is necessary, and shall be 15 accompanied by a nonrefundable additional permit application fee of \$353833.13. Requests for 16 extensions of the original term shall be treated as new applications except that the application fee shall be \$200471.51. 17

(b) No additional temporary street occupancy permit shall have a term of more than six
months nor less than one month from the date of issuance. At the end of the original term or
of any subsequent extension, the permittee may apply to the Director of Public Works for an
extension not to exceed six months in duration. The Director of Public Works, in *his or her<u>the</u> Director's* discretion, may approve, conditionally approve, or disapprove the request for an
extension. Said decision will be appealable to the Board of Appeals.

24

25

(c) Applicants for additional street space shall make a written request for such permit
 no sooner than 30 days prior to initiation of the proposed occupation of additional street
 space.

(d) Notwithstanding the time period for occupancy and permit requests specified
above, an additional street space permit may be obtained on a daily basis, but in no case
shall such occupancy extend beyond a *2two*-week term. The fee for such daily permits shall
be \$50 per day with no assessment cost. An applicant shall make a written request for such
daily permit no sooner than *3three* days prior to initiation of the proposed occupation of
additional street space.

(e) Unless otherwise specified, all provisions of Sections 724 et seq. shall be
applicable to additional street space occupancy.

12

#### 13 **SEC. 788. FEES.**

(a) Fees, payable to the Department of Public Works, shall be assessed for investigating and 14 15 processing the street vacation request filed under this Code. Said fees shall consist of an initial 16 payment of \$2,500, paid at the time of filing an application for street vacation, plus an additional sum needed to equal the actual cost to Department of Public Works of checking the maps, plans and reports, 17 18 and conducting an investigation incidental thereto. Nonprofit organizations with tax exempt status under the Internal Revenue Code, that have filed applications on or after January 1, 1985, shall be 19 exempt from payment of the initial \$2,500 payment where the street vacation is necessary for the 20 21 development of senior citizen housing. 22 (b) Payment of fees charged under this Code does not waive the fee requirements of other 23 ordinances and rules and regulations pursuant thereto. 24 (c) There is hereby created a Street Vacation Fund wherein all funds received under the 25 provisions of this Section shall be deposited. All expenditures from the Fund shall be for engineering or

Mayor Lurie BOARD OF SUPERVISORS

1 technical investigations and equipment directly related to the investigation and processing of the street 2 vacation request filed under this Code, and all such expenditures are hereby appropriated for said 3 purposes. 4 Section 3. Division I, Article 3, of the Subdivision Code is hereby amended by revising 5 6 Section 1315, to read as follows: 7 SEC. 1315. FEES. 8 (a) Fees, payable to the Department of Public Works, shall be charged for checking 9 and processing the maps, plans and reports, lot line adjustments, certificates of compliance, 10 amended maps, records of survey, certificates of correction, and other actions and procedures set forth in California Government Code #Section 66451.2. Said fees shall be due 11 12 at the time of filing an application. Failure to pay such fees shall result in a return of the 13 application as incomplete to the applicant. The fee schedule is as follows: (1) Air Space (four lots or less) is  $\frac{8,598.0016,969.79}{8,598.0016,969.79}$  with a fee of 500.00 for 14 15 each additional lot; (2) Lot Subdivision "Final Map", including Vesting Tentative/Final Subdivision Map, 16 and whether condominium conversion or new construction of five or more units or lots is 17 18 \$<del>8,437.00</del>16,651.90; (3) Condominium Conversion of four units or less is \$<del>8,336.00</del>16,452.18; 19 20 (4) Parcel Map new construction of four lots or less is \$7,770.0015,335.44; 21 (5) Lot Merger Re-subdivision is \$6,943.00; (6) Amended Map is \$<del>2,704.00</del>5,337.92; 22 23 (7) Lot Line Adjustment is \$2,704.005,337.92; 24 (8) Lot Merger is \$2,581.00; (9) Certificate of compliance is \$2,139.004,222.36; 25

1	(10) Certificate of correction is \$ <del>2,139.00<u>4,222.36;</u></del>
2	(11) Record of survey is \$ <i>507.00<u>1,010.39</u>;</i>
3	(12) Survey Monument Setting is \$3,100 <del>.00</del> ; <i>and</i>
4	(13) <u>Corner Record is \$35.03;</u>
5	(14) Incomplete Application Submittal is \$295.44;
6	(15) Project Application Reinstatement is \$1,027.60;
7	(16) Sidewalk Width Change or Street Vacation, minimum per block or less is
8	<u>\$4,043.46; and</u>
9	(17) Other actions not specified above, shall be based on actual costs that the
10	Department incurs in administering and processing the action or procedure and shall be
11	charged on a time and materials basis. The Department shall provide the applicant with a
12	written estimate of said costs at the time of application, and the applicant shall pay such fees
13	prior to the time that the application is deemed complete. To the extent that the estimated fees
14	do not cover actual costs, any outstanding amount due shall be a condition of the
15	Department's final decision on the action or procedure. To the extent that the estimated fees
16	exceeded the actual costs, the Department shall refund the excess amount to the applicant
17	within a reasonable period after the Department's final decision on the action or procedure.
18	(b) A fee of \$250 shall be charged to defray costs of an appeal under Section 1314 of
19	this Code.
20	(c) Payment of fees charged under this Code does not waive the fee requirements of
21	other ordinances and rules and regulations pursuant thereto.
22	(d) There is hereby created a Subdivision Fund wherein all funds received under the
23	provisions of this Section <u>1315</u> shall be deposited. All expenditures from the Fund shall be for
24	engineering or technical investigations and equipment directly related to the checking and
25	

processing of the maps, plans, reports, and parcel map waivers filed under this Code, and all
 such expenditures are hereby appropriated for said purposes.

3

#### (e) Additional Fees.

(1) In instances where administration or processing of any application, action, or 4 5 procedure is or will exceed the fee amount established pursuant to subsection (a), the 6 Director, in *his or her the Director's* discretion, may require an applicant or permittee to pay a 7 sum in excess of the subject fee amounts. This additional sum shall be sufficient to recover 8 actual costs that the Department incurs and shall be charged on a time and materials basis. 9 The Director also may charge for any time and materials costs that other agencies, boards, 10 commissions, or departments of the City, including the City Attorney's Office, incur in connection with the processing or administration of a particular application, action, or 11 12 procedure. Whenever additional fees are or will be charged, the Director, upon request of the 13 applicant or permittee, shall provide in writing the basis for the additional fees or an estimate 14 of the additional fees to be charged.

15 \*

\* \*

16

Section 4. Effective Date. This ordinance shall become effective 30 days after
enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the
ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board
of Supervisors overrides the Mayor's veto of the ordinance.

21

Section 5. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors
intends to amend only those words, phrases, paragraphs, subsections, sections, articles,
numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal
Code that are explicitly shown in this ordinance as additions, deletions, Board amendment

1	additions, and Board amendment deletions in accordance with the "Note" that appears under
2	the official title of the ordinance.

#### LEGISLATIVE DIGEST

[Public Works, Subdivision Codes - Fee Modification and Waiver]

Ordinance amending the Public Works and Subdivision Codes to modify certain permit fees, including waiving fees for café tables and chairs and display merchandise registrants and certain minor sidewalk encroachments that are appurtenant building features, and affirming the Planning Department's determination under the California Environmental Quality Act.

#### Existing Law

The Public Works and Subdivision Codes contain various permit fees and other charges. Most of these fees and charges adjust annually based on the applicable consumer price index after Public Works staff and the Controller's Office conduct a Board of Supervisorsestablished fee analysis process. If there is a proposal to increase permit fees and other charges in excess of the consumer price index formula, then the Board of Supervisors legislatively considers such increased fees and charges. Pending legislation defines appurtenant building features as a type of minor sidewalk encroachment under Public Works Code Section 723.2.

#### Amendments to Current Law

This ordinance would amend the Public Works and Subdivision Codes to increase certain Public Works permit fees and other charges. This legislation waives all fees associated with registrants for café tables and chairs and display merchandise. The ordinance also would waive the permit fee for appurtenant building features, a minor sidewalk encroachment. This legislation would adopt environmental findings under the California Environmental Quality Act.

#### **Background Information**

The fee increases in this legislation are for permits where the City costs associated with the permits exceed the consumer price index escalation. The fee waivers in this ordinance are associated with the PermitSF streamlining program.

Urban Analytics – Fee Study Sensitivity Analysis	Appendix C

## **1. EXECUTIVE SUMMARY**

NBS performed a User Fee Study (Study) for the San Francisco Department of Public Works (Public Works). The purpose of this report is to present the findings and recommendations of the various fee analyses performed and provide Public Works and the City/County Board of Supervisors with the information needed to update and establish user and regulatory fees for service. Throughout the process, the Study afforded much effort to ensure that not only are the fees and charges reasonable and equitable, but that they also meet industry standards and uphold the statutory requirements of the State of California.

California cities, counties, and special districts may impose user and regulatory fees for services and activities they provide through provisions set forth in the State Constitution, Article XIII C § 1. Under this legal framework, a fee may not exceed the reasonable cost of providing the service or performing the activity. For a fee to qualify as such, it must relate to a service or activity performed at the request of an individual or entity upon which the fee is imposed, or their actions specifically cause the local government agency to perform additional activities. In this instance, the service or underlying action causing the local agency to perform the service is either discretionary and/or is subject to regulation. As a discretionary service or regulatory activity, the user fees and regulatory fees considered in this Study fall outside of the definition and statutory requirement to impose general taxes, special taxes, and fees as a result of property ownership.

The main reason for conducting this Study was twofold: (1) first, to ensure that existing fees do not exceed the costs of providing the service, and (2) second, to provide an opportunity for the Board of Supervisors to re-align fee amounts with localized cost recovery policies.

## 1.1 Findings

This Study examined user and regulatory fees charged by the Public Works Bureau of Street-Use and Mapping, which includes fees for Permits, Inspection, and Subdivision and Mapping, as well as the Bureau of Urban Forestry. Additionally, the Study included one inspection fee within the Bureau of Street & Environmental Services' Community Preservation and Blight Reduction Act. The Study identified an estimated \$16.9 million per year in eligible costs for recovery from fees, compared to approximately \$9.5 million currently collected from fees. The following table provides a summary of the Study's results:

Fee Category	Annual Estimated Revenues at Current Fee	Annual Estimated Revenues at Full Cost Recovery Fee	Annual Cost Recovery Surplus/ Deficit	Existing Cost Recovery Percentage
Bureau of Street-Use and Mapping				
Permits & Inspection divisions	3,885,875	8,827,262	(4,941,387)	44%
Subdivision and Mapping division	3,705,870	6,117,075	(2,411,205)	61%
Bureau of Urban Forestry	1,232,973	1,316,983	(84,010)	94%
Bureau of Street & Environmental Services - Community Preservation and Blight Reduction Act	690,880	699,093	(8,213)	99%
Total	\$ 9,515,598	\$ 16,960,412	\$ (7,444,814)	56%

#### Table 1. Report Summary

As shown in Table 1 on the previous page, Public Works is recovering approximately 56% of the costs associated with providing user and regulatory fee-related services. Should the Board adopt fees at 100% of the full cost recovery amounts determined by this Study, an additional \$7.4 million in costs could be recovered.

However, Section 2.2.3 later explains, there may be other local policy considerations that support adopting fees at less than the calculated full cost recovery amount. Since this element of the Study is subjective, NBS provided the maximum potential of fee amounts at 100% full cost recovery for Public Works to consider. Once the Board of Supervisors has reviewed and evaluated the results of the Study, Public Works can set fees at appropriate cost recovery levels according to local policy goals and considerations.

## 1.2 Fee Study Sensitivity Analysis

As part of the scope of this project, NBS subcontracted with a San Francisco local business enterprise (LBE) consulting firm, Urban Analytics, to perform a review of the benefits of different types of fees for service activities through an analysis of potential market sensitivities to those fees and the interaction of those fees with established Public Woks goals and policies. A memorandum provided by Urban Analytics has been provided as an Appendix to this report which documents the results of the sensitivity analysis.

## 1.3 Report Format

This report documents the analytical methods and data sources used in the Study, presents findings regarding current levels of cost recovery achieved from user and regulatory fees, and provides a comparative survey of fees to neighboring agencies for similar services. The report is organized into the following sections:

- Section 2 Outlines the general framework, approach, and methodology of the Fee Study.
- Sections 3 through 5 Discusses the results of the cost of service analysis performed. The analysis includes: (1) fully burdened hourly rate(s); (2) calculation of the costs of providing service; and, (3) the cost recovery performance of each fee category.
- Section 6 Presents the conclusions of the analysis provided in the preceding sections.
- Appendices to this report Include additional details of the analysis performed, a comparison
  of the fees imposed by neighboring agencies for similar services and the Urban Analytics fee
  study sensitivity analysis.

## **2. INTRODUCTION AND FUNDAMENTALS**

## 2.1 Scope of Study

The following is a summary of the fees evaluated during the Study:

- Bureau of Street-Use and Mapping
  - Permits & Inspection divisions
  - Subdivisions and Mapping division
- Bureau of Urban Forestry
- Bureau of Street & Environmental Services
  - $\circ$   $\;$  Community Preservation and Blight Reduction Act  $\;$

The fees examined in this report specifically exclude development impact fees, utility rates, and any special tax assessments which fall under a different set of statutory and procedural requirements from the body of user and regulatory fees analyzed in this Study. The Study also excludes facility and equipment rental rates, as well as most fines and penalties imposed by Public Works for violations of its requirements or codes.<sup>1</sup>

## 2.2 Methods of Analysis

Three phases of analysis were completed for Public Works:

### 2.2.1 COST OF SERVICE ANALYSIS

This cost of service analysis is a quantitative effort that compiles the full cost of providing governmental services and activities. There are two primary types of costs considered: direct and indirect costs. Direct costs are those that specifically relate to an activity or service, including the real-time provision of the service. Indirect costs are those that support the provision of services in general but cannot be directly or easily assigned to a singular activity or service.

#### Direct Costs:

- **Direct personnel costs** Salary, wages and benefits expenses for personnel specifically involved in the provision of services and activities to the public.
- Direct non-personnel costs Discrete expenses attributable to a specific service or activity performed, such as contractor costs, third-party charges, and materials used in the service or activity.

<sup>&</sup>lt;sup>1</sup> According to the California Constitution Article XIII C § 1 (e) (4) and (5), the Public Works is not limited to the costs of service when charging for entrance to or use of government property, or when imposing fines and penalties.

#### Indirect Costs:

- Indirect personnel costs Personnel expenses supporting the provision of services and activities. This can include line supervision and departmental management, administrative support within a department, and staff involved in technical support activities related to the direct services provided to the public.
- Indirect non-personnel costs Expenses other than labor involved in the provision of services. In most cases, these costs are allocated across all services provided by a department, rather than directly assigned to individual fee/rate categories.
- Overhead costs These are expenses, both labor and non-labor, related to department wide support services. The amount of overhead costs included in this Study were sourced from the Indirect Cost Plan prepared by Public Works. Countywide overhead costs as typically sourced from a Countywide Cost Allocation Plan were omitted from this analysis as directed by Public Works.

All cost components in this Study use annual (or annualized) figures, representing a twelve-month cycle of expenses incurred in the provision of all services and activities.

Nearly all the fees reviewed in this Study require specific actions on the part of Public Works staff to provide the service or conduct the activity. Since labor is the primary underlying factor in these activities, the Study expresses the full cost of service as a fully burdened cost per labor hour. NBS calculated a composite, fully burdened, hourly rate for each Bureau or division included in the Study. This rate serves as the basis for further quantifying the average full cost of providing individual services and activities. Determining the fully burdened labor rate requires two data sets: (1) the full costs of service, and (2) the number of staff hours available to perform those services. NBS derived the hours available based on the complete list of all employees.

The total number of paid labor hours for each employee was derived from the City & County of San Francisco's Memoranda of Understandings & Labor Agreements. These available hours represent the amount of productive time available to provide both fee-recoverable and non-fee recoverable services and activities. Available labor hours divided into the annual full costs of service equal the composite, fully burdened, labor rate. Some agencies may also use the resulting rates for purposes other than setting fees, such as calculating the full cost of general services or structuring a cost recovery agreement with another agency or third party.

NBS also assisted Public Works in estimating the staff time for the services and activities listed in the published fee schedule. Since Public Works does not systematically track the service time of activities at the individual fee-level, NBS relied on interviews and questionnaires to develop the necessary data sets of estimated labor time. In many cases, Public Works provided estimates of the average amount of time (in minutes and hours) it took to complete a typical service or activity considered on a per-occurrence basis.

It should be noted that the development of these time estimates was not a one-step process but required careful review by both NBS and managers to assess the reasonableness of such estimates. Based on the results of this review, Public Works reconsidered its time estimates until all parties were comfortable that the fee models reasonably reflected the average service level provided. Finally, the fully burdened labor rate(s) calculated in earlier steps were applied at the individual fee level time estimates, yielding an average total cost of providing each fee for service or activity. The graphic below provides a visual representation of the steps discussed in this section.

#### 2.2.2 FEE ESTABLISHMENT

The fee establishment process includes a range of considerations, including the following:

Addition to and deletion of fees – The Study provided the Department with the opportunity
to propose additions and deletions to their current fee schedules, as well as re-name, reorganize, and clarify which fees were to be imposed. Many of these fee revisions allowed for
better adherence to current practices, as well as the improvement in the calculation,
application, and collection of the fees owed by an individual. Some additions to the fee
schedule were simply the identification of existing services or activities performed by Public
Works staff for which no fee is currently charged.

San Francisco Department of Public Works User Fee Study

- Revision to the structure of fees In most cases, the focus was to re-align the fee amount to
  match the costs of service and leave the current structure of fees unchanged. However, in
  several cases, fee categories and fee names had to be simplified or re-structured to increase
  the likelihood of full cost recovery or to enhance the fairness of how the fee is applied to the
  various types of fee payers.
- Documentation of the tools used to calculate special cost recovery –Public Works' fee schedule should include the list of fully burdened rates developed by the Study. Documenting these rates in the fee schedule provides an opportunity for the Board of Supervisors to approve rates for cost recovery under a "time and materials" approach. It also provides clear publication of those rates so that all fee payers can readily reference the basis of any fee amounts. The fee schedule should provide language that supports special forms of cost recovery for activities and services not included in the adopted master fee schedule. In these rare instances, published rates are used to estimate a flat fee or bill on an hourly basis, which is at the department director's discretion.

#### 2.2.3 COST RECOVERY EVALUATION

The NBS fee model compares the existing fee for each service or activity to the average total cost of service quantified through this analysis. Here are the possible outcomes of the fee analysis:

- Cost recovery rate of 0% This signifies that there is currently no current recovery of costs from fee revenues (or insufficient information available for evaluation).
- Cost recovery rate of 100% This means that the fee currently recovers the full cost of service.
- Cost recovery rate between 0% and 100% This indicates partial recovery of the full cost of service through fees.
- Cost recovery rate greater than 100% This means that the fee exceeds the full cost of service. User fees and regulatory fees should not exceed the full cost of service.

In all cases, the cost recovery rate achieved by a fee should not be greater than 100%. In most cases, imposing a fee above this threshold could change the definition of the charge from a cost of service based fee to a tax which has other procedural requirements, such as ballot protest or voter approval.

NBS provided the framework for setting "recommended" or "target" level of cost recovery for each fee, established at either 100% or any amount less than the calculated full cost of service. Targets and recommendations reflect discretion on the part of the agency based on a variety of factors, such as existing Public Works policies and agency-wide or departmental revenue objectives, economic goals, community values, market conditions, level of demand, and others.

A general method of selecting an appropriate cost recovery target is to consider the public and private benefits of the service or activity in question, such as:

- To what degree does the public at large benefit from the service?
- To what degree does the individual or entity requesting, requiring, or causing the service benefit?

When a service or activity benefits the public at large, there is generally little to no recommended fee amount (i.e., 0% cost recovery), reinforcing the fact that a service which truly benefits the public is best funded by general resources of Public Works, such as revenues from the General Fund (e.g., taxes). Conversely, when a service or activity wholly benefits an individual or entity, the cost recovery is generally closer to or equal to 100% of cost recovery from fees collected from the individual or entity.

In some cases, a strict public-versus-private benefit judgment may not be sufficient to finalize a cost recovery target. Any of the following factors and considerations may influence or supplement the public-versus-private benefit perception of a service or activity:

- If optimizing revenue potential is an overriding goal, is it feasible to recover the full cost of service?
- Will increasing fees result in non-compliance or public safety problems?
- Are there desired behaviors or modifications to behaviors of the service population helped or hindered through the degree of pricing for the activities?
- Does current demand for services support a fee increase without adverse impact to the community served or current revenue levels? In other words, would fee increases have the unintended consequence of driving away the population served?
- Is there a good policy basis for differentiating between the type of user (e.g., residents vs. non-residents, residential vs. commercial, non-profit entities, and business entities)?
- Are there broader Public Works objectives that merit a less than full cost recovery target from fees, such as economic development goals and local social values?

NBS provided the cost of service calculation based on 100% full cost recovery and the framework for Public Works' use to adjust the amount of cost recovery in accordance with its broader goals as they pertain to code compliance, cost recovery, economic development, and social values.

### 2.2.4 COMPARATIVE FEE SURVEY

Appendix B presents the results of the Comparative Fee Survey for Public Works. Policy makers often request a comparison of their jurisdictional fees to those of surrounding or similar communities. The purpose of a comparison is to provide a sense of the local market pricing for services, and to use that information to gauge the impact of recommendations for fee adjustments.

In this effort, NBS worked with Public Works to choose five comparative agencies – cities of Berkeley, Los Angeles, Oakland, Sacramento and Seattle. It is important to keep the following in mind when interpreting the general approach to, and use of, comparative survey data:

- Comparative surveys do not provide information about cost recovery policies or procedures inherent in each comparison agency.
- A "market-based" decision to price services below the full cost of service calculation is the same as deciding to subsidize that service.
- Comparative agencies may or may not base their fee amounts on the estimated and reasonable cost of providing services. NBS did not perform the same level of analysis of the comparative agencies' fees.
- The results of comparative fee surveys are often non-conclusive for many fee categories. Comparison agencies typically use varied terminology for the provision of similar services.

San Francisco Department of Public Works User Fee Study NBS made every reasonable attempt to source each comparison agency's fee schedule from their respective websites and compile a comparison of fee categories and amounts for the most readily comparable fee items that match the Public Works' existing fee structure.

#### 2.2.5 DATA SOURCES

The following data sources were used to support the cost of service analysis and fee establishment phases of this Study:

- Public Works' Adopted Budget for Fiscal Year 2023-2024 with a COLA adjustment to bring labor costs in line with FY 25.
- A complete list of all Public Works personnel, salary/wage rates, regular hours, paid benefits, and paid leave amounts provided by the Finance Department
- Prevailing fee schedules
- Annual workload data provided by each fee program evaluated in the Study

Public Works' adopted budget serves as an important source of information that affects the cost of service results. NBS did not audit or validate Public Works' financial documents and budget practices, nor was the cost information adjusted to reflect different levels of service or any specific, targeted performance benchmarks. This Study accepts Public Works' budget as a legislatively adopted directive describing the most appropriate and reasonable level of Public Works spending. NBS consultants accept the Board of Supervisors' deliberative process and Public Works' budget plan and further assert that through this legislative process, Public Works has yielded a reasonable and valid expenditure plan to use in setting cost-based fees.

## **3. BUREAU OF STREET-USE AND MAPPING (BSM)**

The Bureau of Street-Use and Mapping (BSM) ensures that residents and visitors in San Francisco experience a safe, accessible, and aesthetically pleasing public right of way. The staff is organized into five divisions: Permits, Mapping, Inspection, Special Projects, and Administration. This Study focused on the Permits, Inspection and Mapping divisions of BSM.

- The Permits & Inspection divisions ensure that City sidewalks and streets are safe and accessible by permitting and inspecting the use of the public right-of-way, including the installation and inspection of sidewalks.
- The Subdivision and Mapping division processes and reviews all subdivision projects that occur in San Francisco, including all condominium conversions. Additionally, the division provides surveying services for all city agencies and maintains the official map of the City and County of San Francisco.

### 3.1 Cost of Service Analysis

NBS developed composite, fully burdened, hourly rates for the Bureau of Street-Use and Mapping as shown in table 2 below:

Cost Element	BSM Public Information/ Phone and Counter Duty	BSM Non-fee Related Services	BSM Permits & Inspection Direct Fees for Service	BSM Subdivision and Mapping Direct Fees for Service	Total	
Labor	\$-	\$ 2,139,966	\$ 6,984,679	\$ 2,518,503	\$ 11,643,147	
Recurring Non-Labor	-	5,658	18,466	6,659	30,783	
CCSF Overhead	-	1,279,974	4,177,735	1,506,388	6,964,098	
Allocated Common Activities	1,912,998	1,731,322	5,650,897	2,037,574	11,332,791	
Department Total	\$ 1,912,998	\$ 5,156,920	\$ 16,831,778	\$ 6,069,123	\$ 29,970,818	
Fully Burdened Hourly Rate			\$ 229	\$ 238		
	Reference: Direct Hours Only		73,537	25,529		

#### Table 2. Fully Burdened Hourly Rate

As shown, the total cost of BSM is approximately \$30 million per year. However, the results of the cost of service analysis identified \$16.8 million in eligible costs for recovery from fee for service activities provided by the Permits & Inspection divisions, and \$6.1 million in eligible costs for recovery from fee for service activities provided by the Subdivision and Mapping division. All subsequent cost of service calculations at the individual fee level for these divisions assume a fully burdened hourly rate of **\$229** for the Permits & Inspection divisions, and **\$238** for the Subdivision and Mapping division.

Based on interviews with staff, the analysis segregated the total cost of services into four primary services categories: (1) Public Information/Phone and Counter Duty; (2) Non-fee Related Services; (3) Permits & Inspection Direct Fees for Service; and, (4) Subdivision and Mapping Direct Fee for Service. In order to clarify the underlying costs and assumptions used to calculate the fully burdened hourly rate, here is a summary of the descriptions for each cost category:

- BSM Public Information/Phone and Counter Duty Activities associated with responding to
  phone calls and general information requests that support the development review process.
  Typically, some portion of costs for the provision of general public information and assistance
  do not apply toward recovery from fees and are considered a basic function of governmental
  services to the public. The portion of costs indirectly attributable to fee for service activity has
  been included in Permitting & Inspection and Subdivision & Mapping Direct Fees for Service
  columns, while the remaining costs should not be considered in the calculation of fees for
  services.
- BSM Non-fee Related Services Costs associated with Staff's time spent on non-fee related services. These activities have alternate funding sources, therefore should not be considered in the calculation of fees for services.
- BSM Permits & Inspection Direct Fees for Service This category includes Staff time spent providing routine permitting and inspection fee for service activities, therefore, 100% of these costs are recoverable from fees for service.
- BSM Subdivision and Mapping Direct Fees for Service This category includes Staff time spent providing routine subdivision and mapping fee for service activities, therefore, 100% of these costs are recoverable from fees for service.

The fully burdened hourly rate involves significant analytical and policy-related decisions regarding the inclusion of categorized activity costs. The decision to either include or exclude certain costs toward recovery in fees for service stems from the basic fee setting parameters set forth by industry standard fee calculation methods and the California State Constitution. State statutes require that any new fee that is levied or any existing fee that is increased should not exceed the estimated amount required to provide the service for which the charge is levied.

### 3.2 Fee Establishment

The following is a summary of the overall changes to the Permits & Inspection fee schedule:

- Deletion of fees that are no longer used or needed:
  - o Debris Box
  - Sign Printing
  - News Racks
- Reorganization of fee categories or clarification of fee names to create a more user-friendly fee structure:
  - Banners split fee into processing vs inspection.
  - Contractor Parking Plan excavation fee split into separate administrative, inspection and modification fees.
  - Mobile Food Facilities split new application with one (1) location into separate filing, notification and inspection fees. Added in "Each additional location" and "Modification of location, or hours of operations" fee categories for clarification on how the fees are intended to be charged.
- Addition of new fee categories, notated as "New" in the Current Fee column of Appendix A.1.
  - o Major Encroachment added at risk and City Attorney fee sub-categories.
  - Minor Sidewalk Encroachment added a public hearing fee.

San Francisco Department of Public Works User Fee Study

- Publishing Inspection fees for: nighttime work, overwide driveway, pipe barriers, security bollards, sidewalk repair, and special sidewalk.
- Street Improvement split minimum submittal fee into a simple vs complex category.
- Street Space added occupancy assessment fee
- Transient Shelters added a fee for exiting location when no public notice is required

The following is a summary of the overall changes to the Subdivision and Mapping fee schedule:

- Deletion of fees that are no longer used or needed, such as flood letter request.
- Reorganization of fee categories or clarification of fee names to create a more user-friendly fee structure, such as displaying the additional fee for sidewalk legislation, and street vacation.
- No new fees were added at this time.

### 3.3 Cost Recovery Evaluation

Appendix A.1 and A.2 presents the results of the detailed cost recovery analysis of fees for the Bureau of Street-Use and Mapping. In the Appendix, the "Cost of Service per Activity" column establishes the maximum adoptable fee amount for the corresponding service identified in the "Fee Name" list.

Currently, approximately 51% of the total cost of providing BSM services is being recovered from fees. As Table 3 shows, approximately \$7.6 million is collected per year in revenue at the current fee amounts. At full cost recovery and the same demand level for these services, approximately \$14.9 million could be recovered.

Fee Category	nual Estimated Revenues at Current Fee	Annual Estimated Revenues at Full Cost Recovery Fee	Annual Cost Recovery Surplus/ Deficit	Existing Cost Recovery Percentage
Bureau of Street-Use and Mapping				
Permits & Inspection divisions	3,885,875	8,827,262	(4,941,387)	44%
Subdivision and Mapping division	3,705,870	6,117,075	(2,411,205)	61%
Total	\$ 7,591,745	\$ 14,944,337	\$ (7,352,592)	51%

#### Table 3. Cost Recovery Outcomes

NBS provided a full cost of service evaluation and the framework for considering fees, while it is up to Public Works and the Board to determine the appropriate cost recovery levels at or below full cost amounts.

In addition to the "Annual Estimated Revenues at Current Fee" amount shown above, the Permits & Inspection divisions also collect approximately \$7.1 million in revenue from occupancy assessment/street space rentals. NBS did not evaluate these fees based on the stipulations of California Constitution Article XIII C § 1 (e) (4) which may consider these occupancy assessment fees as part of the "entrance to or use of government property" exemption from the definition of a charge as a tax, therefore they would not be limited to the cost of providing services.

## 4. BUREAU OF URBAN FORESTRY (BUF)

The Bureau of Urban Forestry (BUF) enhances the City's green infrastructure by preserving and growing the trees and plants that make up San Francisco's urban forest. The Bureau also repairs tree-related sidewalk damage and provides emergency tree response.

## 4.1 Cost of Service Analysis

NBS developed a composite, fully burdened, hourly rate for the Bureau of Urban Forestry as shown in table 4 below:

Cost Element	BUF Non-fee Related Services		BUF Direct Permitting & Inspection Fees for Service		Total	
Labor	\$	448,145	\$	541,485	\$	989,629
Recurring Non-Labor		36,571		44,189		80,760
CCSF Overhead		196,119		236,966		433,085
Allocated Common Activities		227,544		274,936		502,480
Bureau Total	\$	908,378	\$	1,097,576	\$	2,005,954
Fully Burdened Hourly Rate		n/a	\$	205		
	Referenc	e: Direct Hours Only	5,358			

#### Table 4. Fully Burdened Hourly Rate

As shown, the total cost of BUF is approximately \$2 million per year. However, the results of the cost of service analysis identified \$1 million in eligible costs for recovery from fee for service activities. All subsequent cost of service calculations at the individual fee level for these divisions assume a fully burdened hourly rate of **\$205**.

Based on interviews with staff, the analysis segregated the total cost of services into two primary services categories: (1) Non-fee Related Services; and (2) Direct Permitting & Inspection Fees for Service. In order to clarify the underlying costs and assumptions used to calculate the fully burdened hourly rate, here is a summary of the descriptions for each cost category:

- BUF Non-fee Related Services Costs associated with Staff's time spent on non-fee related services. These activities have alternate funding sources, therefore should not be considered in the calculation of fees for services.
- BUF Direct Permitting & Inspection Fees for Service This category includes Staff time spent providing routine permitting and inspection fee for service activities, therefore, 100% of these costs are recoverable from fees for service.

The fully burdened hourly rate involves significant analytical and policy-related decisions regarding the inclusion of categorized activity costs. The decision to either include or exclude certain costs toward recovery in fees for service stems from the basic fee setting parameters set forth by industry standard fee

calculation methods and the California State Constitution. State statutes require that any new fee that is levied or any existing fee that is increased should not exceed the estimated amount required to provide the service for which the charge is levied.

## 4.2 Fee Establishment

The following is a summary of the overall changes to the Permitting & Inspection fee schedule:

- No fees were deleted at this time
- Reorganization of fee categories or clarification of fee names to create a more user-friendly fee structure:
  - Sidewalk Landscaping recategorized the list of per application based on property count fees into a "non-construction related" category. To account for the difference in the level of service required for "construction related" activities, a new set of fee categories was added based on lineal feet of frontage.
  - In-lieu Tree Fee to provide the fee payor with a better understanding of what is included, the fee was broken up into the time staff spends processing the request and then adding in the pass through cost of the tree itself and the cost of watering.
- Addition of new fee categories, notated as "New" in the Current Fee column of Appendix A.3.<sup>2</sup>
  - o Construction related sidewalk landscaping
  - New planting (standalone, no tree removal permit)
  - o Re-inspection fee / additional site visit

### 4.3 Cost Recovery Evaluation

Appendix A.3 presents the results of the detailed cost recovery analysis of fees for the Bureau of Urban Forestry. In the Appendix, the "Cost of Service per Activity" column establishes the maximum adoptable fee amount for the corresponding service identified in the "Fee Name" list.

Currently, approximately 94% of the total cost of providing services is being recovered from fees. As Table 5 shows, approximately \$1.2 million is collected per year in revenue at the current fee amounts. At full cost recovery and the same demand level for these services, approximately \$1.3 million could be recovered.

Fee Category	Revenues at	Annual Estimated Revenues at Full Cost Recovery Fee	Annual Cost Recovery Surplus/ Deficit	Existing Cost Recovery Percentage
Bureau of Urban Forestry	1,232,973	1,316,983	(84,010)	94%

#### **Table 5. Cost Recovery Outcomes**

NBS provided a full cost of service evaluation and the framework for considering fees, while it is up to Public Works and the Board to determine the appropriate cost recovery levels at or below full cost amounts.

<sup>&</sup>lt;sup>2</sup> Refer to Section 2.2, *Methods of Analysis*, for additional discussion on the Study's approach to adding, deleting, and revising fee categories.

## **5. BUREAU OF STREET & ENVIRONMENTAL SERVICES (SES)**

The Bureau of Street & Environmental Services' (SES) Community Preservation and Blight Reduction Act aims to reduce the number of blighted properties in San Francisco neighborhoods. A blighted property is one that is under significant deterioration or disrepair. It is a dilapidated building or an abandoned lot that is inadequately maintained and an eyesore in the neighborhood. The ordinance specifically focuses on conditions of blight visible from the street or sidewalk. These properties can attract illegal activities, cause general neighborhood instability, are a public nuisance, and can endanger the health and safety of its residents and neighbors. Enforcement of anti-blight provisions is vital to ensuring the quality of life in San Francisco and the City can take action to rehabilitate these properties.

## 5.1 Cost of Service Analysis

Upon notification of a blighted property, Public Works will send an inspector to assess the property to determine if enforcement of the Blight Ordinance is warranted. If violations are found, an action notice will be issued to abate the blighted property and an inspection fee will be assessed. If owners fail to correct the blighted issue, additional notice of violations will be assessed. Due to the punitive nature of most of the charges in the Blight Ordinance, the focus of this Study was the cost of service of the initial inspection fee only.

Based on interviews with the Public Works staff responsible for performing the inspection, the time it takes to complete the initial inspection is approximately 2.5 hours. To determine the total cost of providing this service, the average fully burdened cost per hour of an inspector performing these services was calculated using the base hourly rate of a SES Inspector, multiplied by the bureau and department overhead, as well as the fringe benefits and paid time off overhead rates calculated by Public Works staff in the FY 2022-23 indirect cost plan. For purposes of this analysis, all subsequent fees for service assume a fully burdened hourly rate of **\$130**.

## 5.2 Cost Recovery Evaluation

Appendix A.4 presents the results of the cost recovery analysis of inspection fee assessed as part of the Bureau of Street & Environmental Services' Community Preservation and Blight Reduction Act. In the Appendix, the "Cost of Service per Activity" column establishes the maximum adoptable fee amount for the corresponding service identified in the "Fee Name" list.

Currently, approximately 99% of the total cost of providing services is being recovered from fees. As Table 6 shows, approximately \$691,000 is collected per year in revenue at the current fee amounts. At full cost recovery and the same demand level for these services, approximately \$700,000 could be recovered.

Fee Category	Annual Estimated	Annual Estimated	Annual Cost	Existing Cost	
	Revenues at	Revenues at Full	Recovery Surplus/	Recovery	
	Current Fee	Cost Recovery Fee	Deficit	Percentage	
Bureau of Street & Environmental Services - Community Preservation and Blight Reduction Act	690,880	699,093	(8,213)	99%	

#### Table 6. Cost Recovery Outcomes

NBS provided a full cost of service evaluation and the framework for considering fees, while it is up to Public Works and the Board to determine the appropriate cost recovery levels at or below full cost amounts.

## 6. CONCLUSION

Based on the outcomes of the Cost of Service Analysis, Fee Establishment, and Cost Recovery Evaluation presented in this Study, the proposed Master Fee Schedule has been prepared by Public Works for implementation and included in the accompanying Staff Report.

As discussed throughout this report, the intent of the proposed fee schedule is to improve Public Works' recovery of costs incurred to provide individual services, as well as adjust fees where the fees charged exceed the average costs incurred. Predicting the amount to which any adopted fee increases will affect revenue is difficult to quantify. For the near-term, Public Works should not count on increased revenues to meet any specific expenditure plan. Experience with the revised fee amounts should be gained first before revenue projections are revised. However, unless there is some significant, long-term change in activity levels, proposed fee amendments should enhance cost recovery performance over time, providing the ability to stretch other resources further for the benefit of the public at-large.

The Master Fee Schedule should become a living document, but handled with care:

- A fundamental purpose of the fee schedule is to provide clarity and transparency to the public and to staff regarding fees imposed by Public Works. Once adopted by the Board of Supervisors, the fee schedule is the final word on the amount and method in which fees should be charged and supersedes all previous fee schedules. If it is discovered that the master document is missing certain fees, those fees will eventually need to be added to the master fee schedule and should not exist outside the consolidated, master framework.
- Public Works should consider adjusting these user fees and regulatory fees on an annual basis to keep pace with cost inflation. For all fees and charges, for example, an annual Consumer Price Index adjustment could be applied to the new fee schedule. Conducting a comprehensive user fee study is not an annual requirement, and only becomes worthwhile over time as shifts in organization, local practices, legislative values, or legal requirements result in significant change.

As a final note, it is worth mentioning the path that fees, in general, have taken in the State of California. In recent years, there has been more public demand for the precise and equitable accounting of the basis for governmental fees and a greater say in when and how they are charged. It is likely that in the future, user and regulatory fees will require an even greater level of analysis and supporting data to meet the public's growing expectations. An agency's ability to meet these new pressures will depend on the level of technology they invest in their current systems. Continuous improvement and refinement of time tracking abilities will greatly enhance Public Works' ability to set fees for service and identify unfunded activities in years to come.

Disclaimer: In preparing this report and the opinions and recommendations included herein, NBS has relied on a number of principal assumptions and considerations with regard to financial matters, conditions and events that may occur in the future. This information and assumptions, including the Public Works's budgets, time estimate data, and workload information from Public Works staff, were provided by sources we believe to be reliable; however, NBS has not independently verified such information and assumptions. While we believe NBS' use of such information and assumptions is reasonable for the purpose of this report, some assumptions will invariably not materialize as stated herein and may vary significantly due to unanticipated events and circumstances. Therefore, the actual results can be expected to vary from those assumed by us or provided to us by others.

# APPENDIX C

Fee Study Sensitivity Analysis

# Memorandum

To: Bruce Robertson, Deputy Director for Financial Management and Administration, San Francisco Department of Public Works From: David Mealy RE: San Francisco Department of Public Works Fee Study Sensitivity Analysis Date: May 23, 2023 CC: Nicole Kissam, NBS; Lauren Guido, NBS

## Introduction

As part of the scope of the Fee Study for the San Francisco Department of Public Works (the Department), NBS and Urban Analytics were asked to facilitate the Department's review of the benefits of different types of fees for service activities through an analysis of potential market sensitivities to those fees and the interaction of those fees with established Department goals and policies. This memorandum sets out the results of our sensitivity analysis.

## Summary

Permit fees are a cost recovery mechanism for public agencies, compensating for the time and materials needed to ensure projects meet public safety and regulatory requirements. Fee reductions, deferrals, waivers and rebates are employed in San Francisco and elsewhere to further particular public policies, provide needs-based assistance on a case-by-case basis, offset past inequities for defined populations and as an emergency response tool. Revenue forgone from fee reduction, waivers and rebates can be treated as non-recoverable, be capped to limit budget impact, be offset by outside funding, be provided in return for other impact mitigation, or simply be treated as a cost necessary to achieve larger public policy goals; however, the forgone revenue cannot be recaptured from increased fees on other fee-payers.

San Francisco has implemented a number of innovative policies to reduce permitting costs in response to the economic hardships caused by the COVID-19 pandemic, including permit streamlining, notification waivers and business license, permit and tax waivers. Some of these and other policies have been extended post-pandemic to ameliorate the impact fees may have on particular public policy goals intended to rebuild San Francisco's economic resilience and increase housing supply.

# Background

The initial scope for this task was developed in conjunction with Department staff in late 2019, a time when soaring costs for both housing and commercial space were raising concerns about the affordability of the City for residents and small businesses. The focus of this portion of the fee study at the time was on potential impacts related to the retention of both businesses and affordable housing in the City.

In the intervening three years, the shelter-in-place requirements brought on by the COVID pandemic upended the local economy by virtually eliminating most local activity related to office, retail, restaurant, tourism, hospitality, the arts and sports for much of that period. The pandemic also brought to the fore social equity issues around exposure to COVID for essential service workers, often people of color living in close quarters because of the lack of housing affordability. Beyond the pandemic, racial justice and systemic racism became a major and ongoing public concern with the deaths of numerous Black Americans at the hands of law enforcement as well as with racist attacks here and elsewhere on Asian Americans and Pacific Islanders.

The City established the Office of Racial Equity (ORE) as a division of the Human Rights Commission in 2019 and required all departments within the City to prepare a Racial Equity Action Plan in two phases. The first phase, completed in January 2021, focused on the internal dynamics and operations of City departments and the second phase focusses on how they deliver services and community programs. The ORE is charged with implementing, among other things, a Racial Equity Policy Analysis Tool for Legislation at the Board of Supervisors to illuminate the impact of policy on communities of color as well as a Budget Equity Tool to assess how the City budget decisions and priorities benefit and/or burden communities, specifically communities of color.

The challenges of retaining small businesses and residents that were top-of-mind in 2019 remain a major concern today. These issues have been exacerbated by the pandemic-caused economic shutdown and subsequent layoffs in technology, restaurant, hospitality and other industry sectors, leading in part to a 7.5% decline in San Francisco's population<sup>1</sup> – conditions that are a near inverse of

the overheated economy three years ago. The following analysis will focus on particular tools – costrecovery adjustments, waivers, deferrals and rebates – related to permit fees that have been employed by San Francisco and other cities.

## Analysis

User fees and regulatory fees in California must be adopted by the elected governing body during a public hearing<sup>2</sup> and may not exceed the full cost of providing services for which the fee is charged<sup>3</sup>. In other words, the cost recovery rate achieved by a fee may not be greater than 100%. Local governments will typically select cost recovery targets that meet local priorities. Targets can be applied to fee programs such as recreation services, or to individual fees such as a building permit for a water heater.

A general means of selecting an appropriate cost recovery target is to consider the public and private benefits of the service or activity in question:

- To what degree does the public at large benefit from the service?
- To what degree does the individual or entity requesting, requiring, or causing the service benefit?

When a service or activity completely benefits the public at large, significantly lowered fee amounts as relates to costs of providing services typically apply. A low or 0% cost recovery policy for a service or fee program reflects a policy directive to subsidize a service, utilizing general funds from taxes or other sources than fees to finance the services provided. Conversely, when a service or activity completely benefits an individual or entity, there is generally closer or equal to 100% of cost recovery from fees collected from the individual or entity.

Each governing body establishes fee amounts in accordance with local community goals including code compliance, financial constraints, economic development, social values, and equity considerations. Once fees are established, waivers, deferrals, reductions and rebates are all additional tools and incentives that can be applied in response to particular circumstances such as economic need, racial and social equity or disaster response.

# Targeted Fee Mitigation

While the Covid pandemic is generally considered to be behind us, and the public health shut-down orders have ended, the City's economy is still reeling from the pandemic for several reasons: most businesses had to close for some time during the pandemic and many never re-opened; some re-

opened but owe back rent and City fees that were deferred; many businesses are open but don't have clientele, staff, cash flow, tourist spending, etc. that they had before the pandemic began.

According to a recent report by the San Francisco Controller's Office<sup>4</sup>, businesses located in the downtown core were decimated by the pandemic and some have not rebounded,<sup>5</sup> with office vacancies above 25%. A significant number of office workers have been laid off, not fully returned to downtown offices or are working hybrid schedules while many employers have given up or sublet their San Francisco office leases or shut down altogether Although the public-health crisis is largely over, many San Francisco businesses of all types, especially downtown and in industrial areas, small and homegrown, and those in low-income communities, are still struggling and likely will be for the foreseeable future.

To identify where businesses most in need of economic support are located, the San Francisco County Transportation Authority developed a map identifying "communities of concern" by several demographic measures at a census block group level that is useful for this purpose<sup>6</sup>. In addition, the San Francisco Controller's Office released The Status of the Re-Opening of the San Francisco Economy in November 2022<sup>7</sup> that shows new business licenses by type pre- and post-Covid. A 2015 collaboration between U.C. Berkeley's Urban Displacement Project and the Mayor's Office of Housing and Community Development produced a map of gentrification and displacement risk by census tract<sup>8</sup>. The San Francisco Office of Cannabis' Equity Applicant program uses a map to qualify applicants by residency in particular census tracts with 17% or more of households at or below the federal poverty level<sup>9</sup>. There are a number of broad strategies in furtherance of racial and social equity goals in Oakland and Alameda County described in reports from PolicyLink<sup>10</sup> and the Dellums Institute<sup>11</sup>.

The San Francisco Department of Public Health tracking of Covid by neighborhood<sup>12</sup> shows the highest rates of infection, hospitalizations and death were and continue to be in low-income communities of concern. The data also shows significant overlap between negative economic impacts from the pandemic with low-income communities of concern that also experienced the City's highest rates of Covid infection and death. As the City evaluates ways to mitigate the Department's fee impacts a focus should be maintained on historically underserved, low-income, disproportionately BIPOC (Black, Indigenous and People of Color) neighborhoods as defined by SFCTA, SFDPH, and others.

In addition to geographic targeting of fee mitigation, it is also important to look at the variety and types of businesses that interface with the Department, pay permit fees, and may also be impacted

by the post-Covid struggle to regain a foothold in the City. Many retailers, food and hospitality, and sales/service providers downtown, in neighborhood commercial districts, and especially in communities of concern, still do not have sufficient clientele, staff or cash flow to be stable or thrive.

Restaurants (primarily) were thrown a lifeline during the pandemic by being allowed to open "Shared Spaces" or "parklets" on City streets and sidewalks. The Department administers this program which has evolved over time in terms of locations, construction and material requirements, permit costs, etc. The initial permit fees were waived during the pandemic and legislation was recently introduced to eliminate permit fees for "curbside" Shared Spaces entirely<sup>13</sup>. Other recently passed legislation extends the grace period for an additional 120 days for permit applicants to operate under pandemic Shared Spaces permits and convert the shared spaces use into a post-pandemic permit.

Many businesses quickly opened shared spaces with materials on hand, only to find after opening that they didn't meet the evolving criteria (for example, spaces on the street near intersections had to remove the upper "ceilings" so fire trucks could navigate around corners safely)<sup>14</sup>. The cost of building the spaces, then altering them, was too expensive for some businesses, and many were removed or abandoned. But these spaces effectively saved the life of San Francisco neighborhoods by enabling residents to gather safely outdoors, eat together with family and friends, and bring activity back to the streets. While not without controversy, the Shared Spaces program (also the JAM program – Just Add Music – that allows live music in Shared Spaces) was a success story that came out of the pandemic and helped keep neighborhood commercial districts alive. Whether the recently-introduced legislation passes, fee mitigation could be prioritized in low-income communities of concern that had a harder time building and maintaining Shared Spaces due to long-standing poor street conditions and exacerbated economic challenges. The same prioritization could be applied to fee mitigation for stand-alone outdoor tables and chairs.

Food trucks were key to feeding residents safely during the pandemic, either individually or collectively in outdoor food hubs. While they also come with some controversy (some feel they compete unfairly with near-by brick-and-mortar restaurants), food trucks can add economic and social life to City streets, in parks, and in the downtown core. Fee mitigations could be applied to permit applications for food trucks located in communities of concern, in neighborhood parks, and downtown to help bring vitality to areas that are struggling or that need more "eyes on the streets".

Street vendors also fall within the Department's permitting purview. The City has stepped up permit requirements and enforcement recently due to complaints about an increase in unpermitted and unmanaged street vendors around the City. These actions have been noted by the City's Office of

Racial Equity as problematic because street vendors may be targeted unfairly due to ethnicity, immigrant status and/or locations. The Office issued an analysis<sup>15</sup> that discourages permit requirements/enforcement and instead recommends designing enforcement based on the needs of the vendors.

Businesses in industrial areas zoned as PDR (Production, Distribution and Repair) - are experiencing a lack of basic City services (street and sidewalk construction, repair and maintenance, parking enforcement, timely SF311 report responses, pedestrian infrastructure upkeep, safety oversight, etc.) that are prioritized in commercial and residential areas in part because of pandemic-related budget and staff shortages. This leads to economic hardship for PDR businesses as well as potential danger to workers and clients.

PDR areas often are located in communities of concern that have been historically underserved long before the pandemic. For example, in the Bayview, many streets are deemed "unaccepted" as public rights-of-way by the City and therefore are not maintained by City agencies including the Department. As a result, public infrastructure and roadway conditions do not meet City standards nor serve employers and workers in these areas. These conditions themselves may have occurred due to under-investment, red-lining and other longstanding policies that were (and continue to be) the product of social inequality and racism<sup>16</sup>. Businesses on these and other streets in industrial areas rely on the Department for basic upkeep of public rights-of-way but often do not receive the services that their commercial and residential counterparts receive, even though they are subject to the same permit fees and taxes. Many of these PDR businesses are food-service related (for example non-profits like Meals on Wheels and the SF Produce Market, family-owned firms like BiRite and Legacy Businesses like Wilcox Foods) while others are large anchor businesses like Amazon and Prologis; many have workers that arrive at night and by public transportation and most have delivery and distribution requirements that rely on public infrastructure.

While the Department issues permits for General Excavation and Major Encroachments for new building construction, the November 2022 SF Controller's Economic Report highlighted a weakening housing market and decline in residential permit activity. Housing-related fee mitigation opportunities could help reverse this trend. The Board of Supervisors recently passed legislation to allow 4 and 6-unit dwellings in RH (residential housing) zones throughout the City. The legislation is intended to increase housing availability and affordability for City residents. However, the City's Office of Racial Equity reviewed the legislation<sup>17</sup> and noted concerns that low-income communities of color may be inadvertently negatively impacted by this legislation because the cost would be so high

that only the most expensive units could be built, perpetuating exclusionary zoning and worsening the City's racial wealth gap.

# Other Forms of Fee Mitigation

Annually in May, the Department and DBI waive 18 of the 23 permit fees normally charged for awning replacement and pedestrian lighting as part of a Small Business Month support program. These waivers apply to small businesses (100 or fewer employees) submitting over-the-counter permit applications for these storefront improvements during May; the applicant submits a simple one-line affidavit attesting to their employee count<sup>18</sup>. The City has also implemented the "First Year Free" program to waive certain first-year permit, license and business registration fees from November 2021 through June 2023<sup>19</sup>.

In 2020, the City implemented voter-approved Proposition H, the Save Our Small Businesses Initiative, imposing a number of amendments to the Planning Code and the Business and Tax Regulations Code<sup>20</sup>. These include a coordinated, simplified and expedited 30-day review process among City departments for storefront commercial uses principally permitted in Neighborhood Commercial Districts and Neighborhood Commercial Transit (NCT) Districts, elimination of neighborhood notifications for most storefront land use changes in Neighborhood Commercial Districts, and other changes intended to provide small businesses with added flexibility in adapting their operations to current conditions. To the extent that they reduce the number of fee-based permits required for covered projects, these changes could have the effect of reducing fees <sup>21</sup>. The Initiative implemented a waiver for fees charged by any City department for additional reviews that result from errors in that department's interpretation of code requirements or their determination of required approvals <sup>22</sup>.

The City has instituted a number of programs offering financial assistance to small businesses affected by the pandemic. Among these is a program funding business license and registration fee deferrals for restaurants, subsequently turned into one-year fee waivers, and two-year business license and registration fee waivers for entertainment venues; both types of businesses also received waivers of their payroll taxes for 2020<sup>23</sup>. These fee waivers are limited to businesses with qualifying permit types and gross receipts under certain amounts.

San Francisco also offers a cannabis equity program similar to those in Los Angeles, Oakland and elsewhere that includes priority permit processing and application and cannabis business permit fee waivers<sup>24</sup>.

On March 23, 2023, Mayor Breed announced a new legislative proposal of over 100 changes in the Planning Code to facilitate easier permitting for small businesses, encourage economic recovery and growth, and fill commercial vacancies. This comes after passing Prop H in 2020 (Save Our Small Business Initiative) and the Small Business Recovery Act (expanded provisions in Prop H to NCTs and other commercial areas, added use flexibility, deleted the definition for a few uses so they fall under General Retail, etc.). According to the Mayor's office, "...since the City began implementing Proposition H in January 2021, over 3,500 businesses have benefited from the program, which allows more commercial projects to be processed within a shorter timeframe as over-the-counter permit applications are processed immediately upon submission". In addition, Prop H and the Small Business Recovery Act enabled the Office of Small Businesses to add two new Small Business Permit Specialist positions in March 2022 that have supported over 870 business owners with researching permit requirements, serving as a main point of contact for permits being routed through multiple agencies, and resolving permitting questions. A new Permit Center<sup>25</sup> opened in July 2021 and offers 23 distinct service areas through the Planning Department, Department of Building Inspection, Department of Public Health and Department of Public Works, among others. The Mayor's office says, "By centralizing services in one place, customers can move between permitting departments efficiently, resulting in a better experience and improved government function. Since the start of this year, the Permit Center has served an average of 191 customers per day and provides on average 531 services daily".

As of April 2023, the Mayor's new legislative proposal had not been introduced at the Board of Supervisors so the additional code changes are not yet available for review. In her announcement<sup>26</sup> the Mayor gives some information as to how her proposal will be applied to permit changes to expand small business reforms tailored to neighborhood commercial areas – they include:

- Reduce the number of barriers small businesses experience when trying to open a new storefront or expand into a new space;
- Provide small business entrepreneurs greater flexibility to adapt to the changing times caused not only by the pandemic, but also due to shifts in consumer behavior as seen globally;
- Allow more businesses to open without going through the months-long Conditional Use Authorization process by principally permitting more uses throughout the City, and reducing the ability for appeals to cause even longer delays;
- Allow more business use types to open on the ground floor to provide more options in filling vacant commercial ground floor spaces;

• Address challenges for venues that provide entertainment and/or alcohol, as well as for businesses that offer outdoor patios for patrons

These all appear to be changes to Planning/Building permit processes but there may be changes to the Department permitting included as well. It should also be noted that these changes are focused on easing permitting for small businesses, while the Department permit fee mitigations we are discussing may apply to other sorts of businesses as well as small businesses.

As noted previously, San Francisco recently implemented business license and registration fee waivers as well as payroll tax waivers for entertainment venues and restaurants in response to the widespread economic damage done to those business sectors by the pandemic. These waivers represent foregone general fund revenue in an amount that was somewhat predictable based on the number of permits for establishments that fall within the revenue limits, and were authorized by the Board of Supervisors as a citywide response to a citywide issue. The City also allows annual fee waivers for certain storefront improvements by small businesses, at a minimal cost to the City.

# Conclusions

Fee waivers and reductions through permit consolidation has been a prominent strategy with respect to small businesses as the City emerges from the pandemic. This strategy can be extended to meet racial and social equity goals as well by, among other means, geographic targeting of fee waivers and permit streamlining.

While the actual delineation of neighborhoods and communities would be determined in close collaboration with individuals, organizations and representatives in those communities, several tools are available to facilitate such targeting.

Examples of equity programs that could incorporate fee waivers include:

- Legacy and Anchor Business Retention:
  - Legislation passed in 2021 established a Neighborhood Anchor Business Registry which is managed, in addition to the Legacy Business Program, by the Office of Small Business for businesses located at or near their original location for over 15 years. Assistance offered to Anchor Businesses must be consistent with the City's racial equity and language access goals. Permit fee waivers or rebates could be offered to Anchor Businesses located in communities of concern.

- Anti-Displacement:
  - Aging-in-place programs: fee waivers for improvements required to enable elderly residents to remain in their homes or with their families; the target communities could be geographic areas identified as experiencing displacement having large elderly populations.
  - Retention of long-time residents: waivers of permit fees for long-time residents buying homes in their neighborhoods, targeting communities experiencing high levels of displacement with residential longevity established through public records, neighborhood organizations or other means.
- Anti-Racism:
  - First-time homebuyers from previously redlined areas, areas that experienced displacement through urban renewal and redevelopment, segregated public housing developments or other areas in which homeownership was closed off for communities of color could be provided with fee waivers for home renovations for a period of time after a home purchase; eligibility criteria would be developed in conjunction with the communities affected.

Waivers and reductions have been demonstrated as reasonable to effective, especially in communities of concern. Fee deferrals are not recommended because many businesses still owe what they deferred during the pandemic and may never be able to pay, let alone future deferred fees. Fee rebates are not very helpful because they require paying the full fees at the outset, and many businesses (some new and some existing but struggling) still can't afford them.

Gross receipts may not be an appropriate measure for fee mitigations post-pandemic because most businesses took a big hit during Covid and many have not fully come back, so their gross receipts may not be an accurate measure for the foreseeable future. On the other hand, fee mitigation could be directed to businesses that stayed afloat but whose gross receipts dropped by a significant percentage between 2019 – 2023 (50% for example).

As discussed previously, businesses that are deemed small (less than 100 employees), Legacy Businesses and Anchor Businesses could be prioritized for Department fee waivers or reductions, especially in communities of concern, or where new business licenses are still lagging post-pandemic according to the SF Controller's Office.

Recognizing that Department fees are only part of the permit and regulatory fees that apply to most commercial and residential projects, fee waivers implemented solely by the Department in the

absence of similar waivers of other departmental fees would be less effective than a coordinated fee waiver program across all departments. Coordinated fee reductions through permit consolidation, streamlining and expediting, such as those implemented through Proposition H, would serve a similar end. The "First Year Free" small business fee waivers program may serve as a model for the application of fee waivers in other circumstances, including meeting City goals for racial and social equity.

Permit fee waivers that are part of broader multi-departmental programs to achieve economic, racial and social equity goals will require Citywide administration to establish eligibility criteria and provide consistent and funded program administration across departments. There are a number of programs in San Francisco – pandemic-related business assistance and public health outreach, cannabis equity, affordable housing, homeless assistance – that are interdepartmental in nature and may provide useful models.

## NOTICE OF PUBLIC HEARING

## BUDGET AND APPROPRIATIONS COMMITTEE BOARD OF SUPERVISORS OF THE CITY AND COUNTY OF SAN FRANCISCO

NOTICE IS HEREBY GIVEN THAT the Board of Supervisors of the City and County of San Francisco's Budget and Appropriations Committee will hold a public hearing to consider the following proposal and said public hearing will be held as follows, at which time all interested parties may attend and be heard:

Time: 10:00 a.m.

### Location: Legislative Chamber, Room 250, located at City Hall 1 Dr. Carlton B. Goodlett Place, San Francisco, CA 94102

Subject: File No. 250608. Ordinance amending the Public Works and Subdivision Codes to modify certain permit fees, including waiving fees for café tables and chairs and display merchandise registrants and certain minor sidewalk encroachments that are appurtenant building features, and affirming the Planning Department's determination under the California Environmental Quality Act.

If this legislation passes, fees for street improvement permits in an accepted or unaccepted right-ofway in order to satisfy requirements under Public Works Code, Sections 416, 706, 708, and 724.2, will increase from \$1,010 to \$2,033.77; street improvement permit fees for sidewalk repair that is not the subject of a Departmental Notice to Repair will increase from \$29.67 to \$35.45 per 100 square feet; special sidewalk permit fees will increase from \$704.90 to \$833.13, and from \$250.39 to \$295.44 for an existing special sidewalk or if needed in conjunction with a Street Improvement Permit; standard minor encroachment permits will increase from \$1,683.45 to \$1,988.87, and from \$239.84 to \$283.62 if existing or if needed in conjunction with a Street Improvement Permit (except shoring); street encroachment permit (also known as a major encroachment permit) fees will increase from \$6,533.75 to \$7,721.49; if a pipe barrier permit is associated with a Street Improvement Permit, but that pipe barrier permit does not specifically reference a Street Improvement Permit, the additional fee for each pipe barrier permit will increase from \$133.20 to \$257.62 for each pipe barrier permit; street improvement permits, special sidewalk permits, and automobile runway (driveway) permits associated with a Department of Public Works Notice to Repair, the permit fee will increase from \$330.32 to \$678.32 per permit; sidewalk width change fees, minimum per block or less, will increase from \$3,875 to \$4,043.46; and nighttime work permits will increase from \$171.64 to \$203.26.

Administrative fees for each permit issued for a small excavation project and any block for which the permit has been extended or amended will increase from \$66 to \$135.90,

each block contained in a medium excavation project will increase from \$83 to \$171.35, and each block contained in a large excavation project will increase from \$110 to \$226.89.

Fees for each permit issued to a small utility excavation project and any permit extension will increase from \$16 to \$31.91 and a \$640 fee will be established for a small general excavation project related to buildings. An inspection fee of \$189.08 per hour will be established for inspection of underground tank removal, side sewer, or boring/monitoring wells.

Fees for temporary street space occupancy for any purpose other than a building construction operation will increase from \$95.48 to \$112.27 per day.

The nonrefundable additional permit application fee for temporary street occupancy will increase from \$353 to \$833.13, and applications to request extension of original terms of temporary street occupancy permits will increase from \$200 to \$471.51

Fees payable to Public Works for air space for four lots or less will increase from \$8,598 to \$16,969.79; Lot Subdivision "Final Map", including Vesting Tentative/Final Subdivision Map, and whether condominium conversion or new construction of five or more units or lots from \$8,437 to \$16,651.90; Condominium Conversion of four units or less from \$8,336 to \$16,452.18; Parcel Map new construction of four lots or less from \$7,770 to \$15,335.44; Amended Map from \$2,704 to \$5,337.92; Lot Line Adjustment from \$2,704 to \$5,337.92; certificate of compliance from \$2,139 to \$4,222.36; certificate of correction from \$2,139 to \$4,222.36; record of survey from \$507 to \$1,010.39; and fees will be established for corner record at \$35.03, incomplete application submittal at \$295.44, Project Application Reinstatement at \$1,027.60, and sidewalk width change or street vacation, minimum per block or less at \$4,043.46.

In accordance with Administrative Code, Section 67.7-1, persons who are unable to attend the hearing on this matter may submit written comments prior to the time the hearing begins. These comments will be made as part of the official public record in this matter and shall be brought to the attention of the Board of Supervisors. Written comments should be addressed to Angela Calvillo, Clerk of the Board, City Hall, 1 Dr. Carlton B. Goodlett Place, Room 244, San Francisco, CA, 94102 or sent via email (board.of.supervisors@sfgov.org). Information relating to this matter is available in the Office of the Clerk of the Board or the Board of Supervisors' Legislative Research Center (https://sfbos.org/legislative-research-center-lrc). Agenda information relating to this matter will be available for public review on Friday, June 13, 2025.

For any questions about this hearing, please contact the Assistant Clerk for the Budget and Appropriations Committee:

Ordinance amending the Park Code to authorize the Recreation and Park Department to add a cost recovery surcharge.to

a cost recovery surcharge to the fees for the use of City golf courses, outdoor event facilities, picnic areas, and athletic fields, to help cover

related to maintaining those City properties; and affirming the Planning Department's determination under the

determination under the California Environmental Quality Act. If this legislation passes, cost recovery fees will be established for each player using City Golf Courses of \$4 per nine holes, or \$6 per 18 holes, as an additional surcharge to cover operating costs related to the Golf Courses; an additional surcharge of 10% for the use of the parks for outdoor events, to cover operating

events, to cover operating costs related to the outdoor

event facilities; an additional surcharge of \$5 for picnics with up to 100 participants, and \$25 for picnics with more than 100 participants, to cover operating costs related to the picnic areas; and an additional surcharge of \$1 per bour for the upo

and an additional surcharge of \$1 per hour for the use of the athletic fields to cover operating costs related to the athletic fields. In accordance with Administrative Code, Section 67.7-1, persons who are unable to attend the hearing on this matter may submit written comments prior to the time the hearing begins. These comments will be made as part of the official public

as part of the official public record in this matter and shall be brought to the attention of the Board of Supervisors.

Written comments should be addressed to Angela Calvillo,

Clerk of the Board, City Hall, 1 Dr. Carlton B. Goodlett Place Room 244, San Francisco

CA. 94102 or sent via email

CA, 94102 or sent via email (board.of.supervisors@stgov. org).
