The intent of this Section 303.2 is to expedite the review and hearing process for these vital small and mid-size public notice and input or the review times of other applications, and to build upon the success of the Community Business Priority Processing Program by expediting and ensuring that all eligible projects are considered accordingly, while preserving critical opportunities for community input and accountability to the legal

(4) The Calle 24 Special Use District is still in its infancy, and due to its unique history and special identity the projects within its boundaries require special enhancement, and support its character. It is, therefore, exempted from the priority processing provisions of this Section 303.2.

Businesses spend significant time and money for permits to install:

- Door actuators, wheelchair lifts, or other elements constructed for compliant with accessibility standards
