1 Neighborhood-Serving Business. A neighborhood-serving business cannot be defined by the
2 type of use, but rather by the characteristics of its customers, types of merchandise or service, its size,
3 trade area, and the number of similar establishments in other neighborhoods. The primary clientele of
4 a "neighborhood-serving business," by definition, is comprised of customers who live and/or work
5 nearby.

6 While a neighborhood-serving business may derive revenue from customers outside the
7 immediately surrounding neighborhood, it is not dependent on out-of-neighborhood clientele.

8 A neighborhood-serving use provides goods and/or services which are needed by residents and
9 workers in the immediate neighborhood to satisfy basic personal and household needs on a frequent
10 and recurring basis, and which if not available require trips outside of the neighborhood.

11 A use may be more or less neighborhood-serving depending upon its trade area. Uses that, due
12 to the nature of their products and service, tend to be more neighborhood-serving are those which sell
13 convenience items such as groceries, personal toiletries, magazines, and personal services such as
14 cleaners, laundromats, and film processing. Uses that tend to be less neighborhood-oriented are those
15 which sell more specialized, more expensive, less frequently purchased comparison goods such as
16 automobiles and furniture.

17 For many uses (such as stores selling apparel, household goods, and variety merchandise),
18 whether a business is neighborhood-serving depends on the size of the establishment: the larger the
19 use, the larger the trade area, hence the less neighborhood-oriented.

20 Whether a business is neighborhood-serving or not also depends in part on the number and
21 availability of other similar establishments in other neighborhoods: the more widespread the use, the
22 more likely that it is neighborhood-oriented.

6 (f) For buildings in C-3-G and C-3-S Districts, other than those designated as
7 Significant or Contributory pursuant to Article 11 of this Code, additional square footage above
8 that permitted by the base floor area ratio limits set forth above may be approved for
9 construction of dwellings on the site of the building affordable for 20 years to households
10 whose incomes are within 150 percent of the median income as defined herein, in accordance
11 with the conditional use procedures and criteria as provided in Section 303 of this Code. For
12 buildings in the C-3-G District designated as Significant or Contributory pursuant to Article 11
13 of this Code, additional square footage above that permitted by the base floor area ratio limits
14 set forth above up to the ~~g~~G~~ross~~ ~~f~~F~~loor~~ ~~a~~A~~rea~~ of the existing building may be approved, in
15 accordance with the conditional use procedures and criteria as provided in Section 303 of this
16 Code, where: ~~(i)~~ (1) TDRs (as defined by Section 128(a)(5)) were transferred from the lot
17 containing the Significant or Contributory building prior to the effective date of the amendment
18 to Section 124(f) adding this paragraph when the floor area transferred was occupied by a
19 non-profit corporation or institution meeting the requirements for exclusion from ~~G~~G~~ross~~ ~~F~~F~~loor~~
20 ~~A~~A~~rea~~ calculation ~~under Section 102.9(b)(15) of this Code;~~ ~~(ii)~~ (2) the additional square footage
21 includes only the amount necessary to accommodate dwelling units and/or group housing
22 units that are affordable for not less than 50 years to households whose incomes are within 60
23
24
25

1 percent of the median income as defined herein together with any social, educational, and
2 health service space accessory to such units; and ~~(iii)~~ (3) the proposed change in use to
3 dwelling units and accessory space and any construction associated therewith, if it requires
4 any alternation to the exterior or other character defining features of the Significant or
5 Contributory Building, is undertaken pursuant to the duly approved Permit to Alter, pursuant to
6 Section 1110.2, provided, however, that the procedures otherwise required for a Major
7 Alteration as set forth in ~~Sections 1111.2-1111.6~~ 1111.4 and 1111.5 and shall be deemed
8 applicable to any such Permit to Alter.

9 (1) Any dwelling approved for construction under this provision shall be deemed
10 a "designated unit" as defined below. Prior to the issuance by the Director of the Department
11 of Building Inspection ("Director of Building Inspection") of a site or building permit to construct
12 any designated unit subject to this Section, the permit applicant shall notify the Director of
13 Planning and the Director of Property in writing whether the unit will be an owned or rental unit
14 as defined in Section 401 of this Code.

15 (2) Within 60 days after the issuance by the Director of Building Inspection of a
16 site or building permit for construction of any unit intended to be an owned unit, the Director of
17 Planning shall notify the City Engineer in writing identifying the intended owned unit, and the
18 Director of Property shall appraise the fair market value of such unit as of the date of the
19 appraisal, applying accepted valuation methods, and deliver a written appraisal of the unit to
20 the Director of Planning and the permit applicant. The permit applicant shall supply all
21 information to the Director of Property necessary to appraise the unit, including all plans and
22 specifications.

1 (3) Each designated unit shall be subject to the provisions of Section 413 of this
2 Code. For purposes of this Subsection and the application of Section 413 of this Code to
3 designated units constructed pursuant to this Subsection, the definitions set forth in Section
4 401 of this Code shall apply, with the exception of the following definitions, which shall
5 supersede the definitions of the terms set forth in Section 401:

6 (A) "Base price" shall mean 3.25 times the median income for a family of
7 four persons for the County of San Francisco as set forth in California Administrative Code
8 Section 6932 on the date on which a housing unit is sold.

9 (B) "Base rent" shall mean 0.45 times the median income for the County
10 of San Francisco as set forth in California Administrative Code Section 6932 for a family of a
11 size equivalent to the number of persons residing in a household renting a designated unit.

12 (C) "Designated unit" shall mean a housing unit identified and reported to
13 the Director by the sponsor of an office development project subject to this Subsection as a
14 unit that shall be affordable to households of low or moderate income for 20 years.

15 (D) "Household of low or moderate income" shall mean a household
16 composed of one or more persons with a combined annual net income for all adult members
17 *which that* does not exceed 150 percent of the qualifying limit for a median income family of a
18 size equivalent to the number of persons residing in such household, as set forth for the
19 County of San Francisco in California Administrative Code Section 6932.

20 (E) "Sponsor" shall mean an applicant seeking approval for construction
21 of a project subject to this Subsection and such applicants' successors and assigns.

1 (g) The allowable ~~g~~Gross ~~f~~Floor ~~a~~Area on a lot which is the site of an unlawfully
2 demolished building that is governed by the provisions of Article 11 shall be the ~~g~~Gross ~~f~~Floor
3 ~~a~~Area of the demolished building for the period of time set forth in, and in accordance with the
4 provisions of, Section ~~1114~~ 1116 of this Code, but not to exceed the basic floor area permitted
5 by this Section.

6 (h) In calculating the permitted floor area of a new structure in a C-3 District, the lot on
7 which an existing structure is located may not be included unless the existing structure and
8 the new structure are made part of a single development complex, the existing structure is or
9 is made architecturally compatible with the new structure, and, if the existing structure is in a
10 Conservation District, the existing structure meets or is made to meet the standards of Section
11 1109(c), and the existing structure meets or is reinforced to meet the standards for seismic
12 loads and forces of the ~~1975~~ Building Code. Determinations under this Paragraph shall be
13 made in accordance with the provisions of Section 309.

14 (i) In calculating allowable gross floor area on a preservation lot from which any TDRs
15 have been transferred pursuant to Section 128, the amount allowed herein shall be decreased
16 by the amount of gross floor area transferred.

17 (j) Within any RSD, SPD, SLR, SLI or SSO District, ~~l~~Live/~~w~~Work ~~u~~Units constructed
18 above the floor area ratio limits ~~in pursuant to~~ Section ~~102-9(b)(19)~~ (Floor Area Ratio, subsection
19 (b)(19)) of this Code shall be subject to the following conditions and standards:

20 (1) Considering all ~~d~~Dwelling ~~u~~Units and all ~~l~~Live/~~w~~Work ~~u~~Units on the lot,
21 existing and to be constructed, there shall be no more than one ~~l~~Live/~~w~~Work ~~u~~Unit and/or
22 ~~d~~Dwelling ~~u~~Unit per 200 square feet of lot area, except that, for projects in the RSD District
23
24
25

1 which will exceed 40 feet in height, and therefore are required to obtain conditional use
2 approval, the allowable density for ~~d~~Dwelling ~~#~~Units and ~~L~~ive/~~w~~ork ~~#~~Units shall be
3 established as part of the conditional use determination; and

4 (2) The parking requirement for ~~L~~ive/~~w~~ork ~~#~~Units subject to this subsection
5 shall be equal to that required for dwelling units within the subject district.

6 (k) For buildings in C-3-G and C-3-S Districts that are not designated as Significant or
7 Contributory pursuant to Article 11 of this Code, additional square footage above that
8 permitted by the base floor area ratio limits set forth above may be approved for construction
9 of a project, or portion thereof, that constitutes a Student Housing project, as defined in
10 Section 102.36 of this Code. Such approval shall be subject to the conditional use procedures
11 and criteria in Section 303 of this Code.

12 (l) In the Cesar Chavez/Valencia Streets Medical Use Special Use District, as
13 described in Section 249.68 of this Code, the basic floor area ratio limit shall be 2.6 to 1,
14 subject to Conditional Use Authorization of a ~~h~~Hospital, ~~medical center or other medical~~
15 ~~institution.~~

16 **SEC. 127. TRANSFER OF PERMITTED BASIC GROSS FLOOR AREA.**

17 (a) **When Allowed.** The maximum permitted ~~g~~Gross ~~f~~Floor ~~a~~Area for any building or
18 development on a lot may be increased by transfer to such lot of basic ~~g~~Gross ~~f~~Floor ~~a~~Area
19 that is permitted *in the Zoning Control Table for the district in which the lot is located under Section*
20 *124 of this Code* but unbuilt upon an adjacent lot ~~which~~ that is occupied by ~~an~~ historical,
21 architectural or aesthetic landmark that has been so designated by the Board of Supervisors
22 pursuant to Article 10 of this Code. For the purposes of this Section, an "adjacent lot" is one
23
24
25

1 ~~which~~ that either abuts for a distance not less than 25 feet along a side or rear lot line of the lot
2 to which the basic gross floor area transfer is made (hereinafter referred to as the "transferee
3 lot"), or would so abut for such a distance if not separated solely by a street or an alley.

4 (b) **Amount of TDR Available for Transfer.** The maximum TDR available for transfer
5 from a Transfer Lot consists of the difference between (1) the allowable gross floor area
6 permitted on the Transfer Lot by Section 124 and (2) the gross floor area of the development
7 located on the Transfer Lot.

8 (c) **Eligibility of Development Lots and Limitation on Use of TDR on Development**
9 **Lots.** TDR may be used to increase the allowable ~~g~~Gross ~~f~~Floor ~~a~~Area of a development on a
10 Development Lot if the following requirements and restrictions are satisfied:

11 (1) Transfer of Development Rights shall be limited to the following:

12 (A) The Transfer Lot and the Development Lot are located in a C-3
13 Zoning District; or

14 (B) the Transfer Lot contains a Significant building and is located in the
15 South of Market Extended Preservation District, as set forth in Section 819, and the
16 Development Lot is located in a C-3 District; or

17 (C) the Transfer Lot is in a P District adjacent to a C-3 District and meets
18 the requirements established in subsection (a)(4) above and the Development Lot is located
19 in a C-3 District; or

20 (D) the Transfer Lot is located in any C-3 District and contains an
21 individual landmark designated pursuant to Article 10 and the Development Lot is located in
22 any C-3 District.

1 (2) TDR may not be transferred for use on any lot on which is or has been
2 located a Significant or Contributory building; provided that this restriction shall not apply if the
3 designation of a building is changed to Unrated; nor shall it apply if the Historic Preservation
4 Commission finds that the additional space resulting from the transfer of TDR is essential to
5 make economically feasible the reinforcement of a Significant or Contributory building to meet
6 the standards for seismic loads and forces of the Building Code, in which case TDR may be
7 transferred for that purpose subject to the limitations of this Section and Article 11, including
8 Section 1111.6. Any alteration shall be governed by the requirements of Sections 1111 to
9 1111.6.

10 (3) Notwithstanding any other provision of this Section, development on a
11 Development Lot is limited by the provisions of this Code, other than those on floor area ratio,
12 governing the approval of projects, including the requirements relating to height, bulk,
13 setback, sunlight access, and separation between towers, and any limitations imposed
14 pursuant to Section 309 review applicable to the Development Lot. The total allowable gross
15 floor area of a development on a Development Lot may not exceed the limitation imposed by
16 Section 123(c).

17 (d) **Limitations.** No transfer of permitted gross floor area shall serve to increase the
18 total gross floor area permitted under this Code on the adjacent lot and the transferee lot
19 taken together, either presently or prospectively. No building permit application shall be
20 approved by the *Planning* Department *of City Planning* at any time, nor shall any building
21 permit be issued by any City department at any time, if the result of such approval or issuance
22 would be to increase the total permitted ~~g~~Gross ~~f~~Floor ~~a~~Area of both such lots taken together
23
24
25

1 above such total as calculated on the basis of the floor area ratio limits prevailing at that time
2 for such lots.

3 (e) **Completed Transfers.** Any transfer of permitted ~~g~~Gross ~~f~~Floor ~~a~~Area completed
4 prior to the effective date of this Section shall be effective notwithstanding the location of the
5 transferee lot outside the C-3-O District and notwithstanding the aggregate transfer of more
6 than ½ the gross floor area permitted on the adjacent lot under the basic floor area ratio limit,
7 provided all other conditions of this Section have been met.

8 (f) **Restrictions on Transfer.** Any restrictions or limitations imposed upon any lot by virtue
9 of the transfer of ~~g~~Gross ~~f~~Floor ~~a~~Area permitted by this Section shall remain in effect
10 notwithstanding an amendment of this Section which removes authorization for such a
11 transfer.

12 **SEC. 128. TRANSFER OF DEVELOPMENT RIGHTS IN C-3 DISTRICTS.**

13 (a) **Definitions.**

14 (1) "Development Lot." A lot to which TDR may be transferred to increase the
15 allowable gross floor area of development thereon beyond that otherwise permitted by *Section*
16 *124 the Zoning Control Table for the district in which the lot is located.*

17 (2) "Owner of Record." The owner or owners of record in fee.

18 (3) "Preservation Lot." A parcel of land on which is either (A) a Significant or
19 Contributory building (as designated pursuant to Article 11); or (B) a Category V Building that
20 has complied with the eligibility requirement for transfer of TDR as set forth in Section
21 1109(c); or (C) a structure designated an individual landmark pursuant to Article 10 of this
22 Code. The boundaries of the Preservation Lot shall be the boundaries of the Assessor's lot on
23
24
25

1 which the building is located at the time the ordinance or, as to Section 1109(c), resolution,
2 making the designation is adopted, unless boundaries are otherwise specified in the
3 ordinance.

4 (4) "Transfer Lot." A Preservation Lot located in a C-3 District from which TDR
5 may be transferred. A lot zoned P (public) may in no event be a Transfer Lot unless a building
6 on that lot is (A) owned by the City and County of San Francisco; and (B) located in a P
7 District adjacent to a C-3 District; and (C) designated as an individual landmark pursuant to
8 Article 10 of this Code, designated as a Category I Significant Building pursuant to Article 11
9 of this Code, or listed on the National Register of Historic Places; and (D) the TDR proceeds

13 excess of what is permitted by right in Table 151.1, shall be reviewed by the Planning
14 Commission as a Conditional Use.

16 (g) **RC, RTO NC, ~~C-M~~, and Mixed Use Districts, and the Broadway, Divisadero,**
17 **Excelsior-Outer Mission, Fillmore, North Beach, and Upper Market Street Neighborhood**

19 Broadway, Divisadero, Excelsior-Outer Mission, Fillmore, North Beach, and Upper Market Street
20 NCDs RED, RED-MX, and WMUG, any request for accessory parking in excess of what is
21 principally permitted in Table 151.1, but which does not exceed the maximum amount stated
22 in Table 151.1, shall be reviewed by the Planning Commission as a Conditional Use. In MUG,
23
24
25

1 WMUG, MUR, MUO, RED, RED-MX, and SPD Districts, any project subject to Section 329
2 and that requests residential accessory parking in excess of that which is principally permitted
3 in Table 151.1, but which does not exceed the maximum amount stated in Table 151.1, shall
4 be reviewed by the Planning Commission according to the procedures of Section 329.
5 Projects that are not subject to Section 329 shall be reviewed under the procedures detailed
6 in ~~s~~Subsection (h) below.

7 (1) In granting such Conditional Use or exception per Section 329 for parking in

9 following affirmative findings according to the uses to which the proposed parking is
10 accessory:

11 * * * *

12 **(C) Parking for Non-Residential Uses.**

13 (i) Projects that provide more than 10 spaces for non-residential
14 uses must dedicate *5% percent* of these spaces, rounded down to the nearest whole number,
15 to short-term, transient use by vehicles from certified car sharing organizations per Section
16 166, vanpool, rideshare, taxis, or other co-operative auto programs. These spaces shall not
17 be used for long-term storage nor satisfy the requirement of Section 166, but rather to park
18 them during trips to commercial uses. These spaces may be used by shuttle or delivery
19 vehicles used to satisfy ~~s~~Subsection (B).

20 (ii) Retail uses larger than 20,000 square feet, including but not
21 limited to grocery, hardware, furniture, consumer electronics, greenhouse or nursery, and
22 appliance stores, which sell merchandise that is bulky or difficult to carry by hand or by public
23
24
25

1 transit, shall offer, at minimal or no charge to its customers, door-to-door delivery service
2 and/or shuttle service. This is encouraged, but not required, for retail uses less than 20,000
3 square feet.

4 (iii) Parking shall be limited to short-term use only.

5 (iv) Parking shall be available to the general public at times when

8 **SEC. 155. GENERAL STANDARDS AS TO LOCATION AND ARRANGEMENT OF OFF-**
9 **STREET PARKING, FREIGHT LOADING AND SERVICE VEHICLE FACILITIES.**

10 * * * *

11 (d) All off-street freight loading and service vehicle spaces in the C-3, ~~C-M~~, DTR, MUO,
12 WMUO, MUG, WMUG, MUR, and South of Market Mixed Use Districts shall be completely
13 enclosed and access from a public street or alley shall be provided by means of a private
14 service driveway, which is totally contained within the structure. Such a private service
15 driveway shall include adequate space to maneuver trucks and service vehicles into and out
16 of all provided spaces, and shall be designed so as to facilitate access to the subject property
17 while minimizing interference with street and sidewalk circulation. Any such private service
18 driveway shall be of adequate width to accommodate drive-in movement from the adjacent
19 curb or inside traffic lane but shall in no case exceed 30 feet. Notwithstanding the foregoing, if
20 an adjacent street or alley is determined by the Zoning Administrator to be primarily used for
21 building service, up to four off-street freight or loading spaces may be allowed to be
22 individually accessible directly from such a street or alley, pursuant to the provisions of
23
24
25

1 Section 309 in a C-3 District, the provisions of Section 307(g) in a South of Market Mixed Use
2 District, the provisions of Section 309.1 in a DTR District, the provisions of Section 329 for
3 projects subject to Section 329 in a MUO, WMUO, MUG, WMUG, or MUR District, or by

7 (s) **Off-Street Parking and Loading in C-3 Districts.** In C-3 Districts, restrictions on
8 the design and location of off-street parking and loading and access to off-street parking and
9 loading are necessary to reduce their negative impacts on neighborhood quality and the
10 pedestrian environment.

11 (1) **Ground floor or below-grade parking and street frontages with active
12 uses.**

13 (A) All off-street parking in C-3 Districts (both as accessory and principal
14 uses) shall be built no higher than the ground-level (up to a maximum ceiling height of 20 feet
15 from grade) unless an exception to this requirement is granted in accordance with Section 309
16 and ~~s~~Subsection 155(s)(2) or a conditional use is authorized in accordance with Section 303
17 and ~~s~~Subsection 155(s)(3) below.

18 (B) Parking located at or above ground level shall conform to the street
19 frontage requirements of Section 145.1(c), and shall be lined with active uses, as defined by
20 Section 145.4 (~~d e~~), to a depth of at least 25 feet along all ground-level street frontages,
21 except for space allowed for parking and loading access, building egress, and access to
22 mechanical systems.

1 (C) Parking allowed above the ground-level in accordance with an
2 exception under Section 309 or a conditional use in accordance with Section 303 as
3 authorized by Subsections 155(s)(2) or 155(s)(3) shall be entirely screened from public rights-
4 of-way in a manner that accentuates ground floor retail and other uses, minimizes louvers and
5 other mechanical features and is in keeping with the overall massing and architectural
6 vocabulary of the building's lower floors. So as not to preclude conversion of parking space to
7 other uses in the future, parking allowed above the ground-level shall not be sloped and shall
8 have a minimum clear ceiling height of nine feet.

9 * * * *

10 (4) **Parking and Loading Access.**

11 (A) **Width of openings.** Any single development is limited to a total of two
12 façade openings of no more than 11 feet wide each or one opening of no more than 22 feet
13 wide for access to off-street parking and one façade opening of no more than 15 feet wide
14 for access to off-street loading. Shared openings for parking and loading are encouraged. The
15 maximum permitted width of a shared parking and loading garage opening is 27 feet.

16 (B) **Porte cocheres.** Porte cocheres to accommodate passenger loading and
17 unloading are not permitted except as part of a hotel, inn, or hostel use. For the purpose of
18 this Section, a "porte cochere" is defined as an off-street driveway, either covered or
19 uncovered, for the purpose of passenger loading or unloading, situated between the ground
20 floor façade of the building and the sidewalk.

1 **SEC. 156. PARKING LOTS.**

2 * * * *

3 (b) **Conditional Use.**

4 (1) Where parking lots are specified in Articles 2, or 7, or 8 of this Code as a use
5 for which eConditional #Use approval is required in a certain district, such eConditional #Use
6 approval shall be required only for such parking lots in such district as are not qualified as
7 accessory uses under Section 204.5 of this Code. The provisions of this Section 156 shall,
8 however, apply to all parking lots whether classified as accessory, principal, or conditional
9 uses.

10 (2) (~~e~~) In considering any application for a eConditional #Use for a parking lot for
11 a specific use or uses, where the amount of parking provided exceeds the amount classified
12 as accessory parking in Section 204.5 of this Code, the Planning Commission shall consider
13 the criteria set forth in Section 157.

14 * * * *

15 (f) No permanent parking lot shall be permitted in C-3 and NCT Districts; temporary
16 parking lots may be approved as eConditional #Uses, except in the C-3-0(SD) District,
17 pursuant to the provisions of Section 303 for a period not to exceed five years from the date of
18 approval. No new parking lots may be approved in the C-3-0(SD) District, however
19 eConditional #Use approval for a two-year extension of existing parking lots in the C-3-0(SD)
20 District may be approved pursuant to this subsection provided that they meet the
21 requirements of subsection (i).

22 * * * *

1 (h) **Interior Landscaping and Street Trees.**

2 (1) All permanent parking lots are required to provide ~~1~~ one tree per ~~5~~ five
3 parking spaces in a manner that is compliant with the applicable water use requirements of
4 Administrative Code Chapter 63 and a minimum of 20% percent permeable surface, as defined
5 by Section 102.33, Permeable Surfaces. The trees planted in compliance with this Section
6 shall result in canopy coverage of 50% percent of the parking lots' hardscape within 15 years
7 of the installations of these trees. Permeable surfaces and grading shall be coordinated so
8 that stormwater can infiltrate the surface in areas with less than 5% percent slope.

9 (2) All parking lots shall meet the street tree requirements specified in Section
10 138.1(c)(1).

11 (i) Extension of Existing Parking Lots in the C-3-0(SD) District. The conditions of
12 approval for the extension of an existing parking lot in the C-3-0(SD) District shall include the
13 following:

14 (1) a minimum of one parking space for car sharing vehicles meeting all of the
15 requirements in Section 166 for every 20 spaces in said lot;

16 (2) a minimum of two Class 2 bicycle parking spaces for every 50 linear feet of
17 frontage in a highly visible area on the property adjacent to a public sidewalk or ~~shall attain~~
18 approval attained from the appropriate City agencies to install such bicycle parking on a public
19 sidewalk on the same block;

20 (3) interior landscaping compliant with the requirements in ~~s~~ subsection (h)
21 above, provided that if a site permit has been approved by the Planning Department for
22 construction of a building on the subject lot that would replace the parking lot in less than two
23
24
25

1 years, the trees may be planted in movable planters and the lot need not provide permeable
2 surfaces described in ~~§~~ subsection (h).

3 **SEC. 159. REQUIRED OFF-STREET PARKING NOT ON THE SAME LOT AS THE**
4 **STRUCTURE OR USE SERVED.**

5 (a) Required off-street parking spaces for one-family and two-family dwellings in R
6 Districts shall be located on the same lot as the dwelling served, or in a *Private Automobile*
7 *Parking Garage* ~~community garage as described defined~~ in Section ~~102 209.7(a)~~ of this Code.

8 (b) Required off-street parking spaces for all other dwellings shall be located on the
9 same lot as the dwelling served, as an accessory use, or within a walking distance of 600
10 feet, as either a principal or a conditional use, depending upon the use provisions applicable
11 to the district in which such parking is located.

12 (c) Required off-street parking spaces for all uses other than dwellings shall be located
13 on the same lot as the use served, as an accessory use, or within a walking distance of 800
14 feet, as either a principal or a conditional use, depending upon the use provisions applicable
15 to the district in which such parking is located.

16 (d) Walking distance for purposes of Subsections (b) and (c) above shall mean the
17 distance from an outside entrance of a structure or use or part thereof, to each off-street
18 parking space assigned to such structure or use or part thereof, along the shortest, most
19 convenient pedestrian walkway open to the user or users of such off-street parking space.

20 (e) In order to be credited toward the requirements of this Code, any off-street parking
21 space located as above on a lot other than the lot on which the structure or use to be served
22 is located must be available for the actual lifetime of the structure or use to be served. Such
23
24
25

1 availability shall be assured either by ownership of both the lot containing the structure or use
2 to be served and the lot containing the off-street parking space by at least one common
3 owner, or by a lease or other instrument providing for the availability of the parking space for
4 not less than the actual lifetime of the structure or use to be served; an attested copy of any
5 such instrument shall be filed with the Planning Department ~~of City Planning~~ prior to approval
6 by said Department of any building permit application affected by this arrangement for
7 provision of required off-street parking. In addition, in either case, a document in a form
8 approved by the City Attorney shall be executed by the parties concerned, and by the Zoning
9 Administrator, and recorded in the office of the County Recorder, serving as a notice of the
10 restrictions under this Code applying to both the lot containing the structure or use to be
11 served and to the lot containing the off-street parking space, by virtue of this arrangement for
12 provision of required off-street parking.

18 The following provisions shall apply to conditional uses:

19 (a) **Definition.** For the purposes of this Section, a permitted conditional use shall refer
20 to:

21 (1) Any use or feature authorized as a conditional use pursuant to Article 3 of
22 this Code, provided that such use or feature was established within the time limits specified as

25

1 a eCondition of Approval authorization or, if no time limit was specified, within a reasonable

10 and except where time limits are otherwise specified as a eCondition of Approval authorization,
11 any permitted conditional use may continue in the form in which it was authorized, or in the
12 form in which it lawfully existed either on the effective date of this Code or the effective date of
13 any amendment imposing new conditional use requirements upon such use or feature, unless
14 otherwise provided in this Section or in Article 2 of this Code.

15 (c) **Enlargements, ~~or~~ Alteration, or Intensification.**

16 (1) A permitted conditional use may not be significantly altered, enlarged, or

18 provisions of Article 3 of this Code.

19 (2) **Internet Services Exchange.** With regard to an Internet Services Exchange as
20 defined in Section 102 209.6(e), any physical alteration ~~which~~ that will enlarge or expand the
21 building for the purpose of intensifying the use shall be deemed to be significant under this
22 section, and any increase in the size of electrical service to the building ~~which~~ that will require
23
24
25

1 a permit from the Department of Building Inspection shall be deemed to be significant under
2 this ~~s~~Section.

3 (3) **Formula Retail.** With regard to Formula Retail uses, a change of owner or

17 authorized via a Conditional Use from the Commission.

18 (4) **Power Plant.** A Power Plant use, as defined in Section 102, shall, whether
19 nonconforming or conditionally permitted, require conditional use authorization in order to enlarge,
20 intensify, or extend the use if such changes would expand a power plant use, make it more permanent,
21 or substantially change the use. An intensification of use shall include the following changes, without
22 limitation and in addition to the criteria set forth in Article 1.7 of the Planning Code:

1 (A) An increase in output capability by more than 10 percent (either an increase
2 in capacity or increase in planned or permitted output per year);

3 (B) A change in type of fuel;

4 (C) A greater than 5 percent increase in the volume of monthly discharge of
5 waste water into the sewer or into the San Francisco Bay, or an increase in the temperature of existing

20 Beach Neighborhood Commercial District, the period of non use for a Restaurant use, as
21 defined in Section 102 790.91, to be deemed discontinued shall be three years.

1 A permitted conditional Formula Retail use which is discontinued for a period of 18

7 (1) A permitted conditional use may be changed to another use listed in Section
8 102 and ~~Articles 2,~~ 7 or 8 of this Code as a principal use for the district in which it is located
9 and the new use may thereafter be continued as a permitted principal use.

10 (2) A permitted conditional use may be changed to another use listed in Section
11 102 and ~~Articles 2,~~ 7 or 8 of this Code as a conditional use for the district in which the property

15 permitted or prohibited by the Zoning Control Table for the district in which the lot is located
16 ~~Articles 2, 7 or 8 of this Code~~. If a permitted conditional use has been wrongfully changed to
17 another use in violation of the foregoing provisions and the violation is not immediately
18 corrected when required by the Zoning Administrator, the wrongful change shall be deemed to
19 be a discontinuance or abandonment of the permitted conditional use.

20 (4) Once a permitted conditional use has been changed to a principal use
21 permitted in the district in which the property is located, or brought closer in any other manner
22 to conformity with the use limitations of this Code, the use of the property may not thereafter
23
24
25

1 be returned to its former permitted conditional use status, except upon approval of a new
2 conditional use application pursuant to the provisions of Article 3 of this Code.

3 (5) In the North Beach Neighborhood Commercial District, any use that exceeds
4 the use size provisions of Section 121.2(a) or 121.2(b) may be changed to a new use only

12 intensity except as provided in Section 181 for ~~n~~Nighttime ~~e~~Entertainment uses activities within
13 the RSD, MUG, MUR, or SLR Districts. The degree of nonconformity shall be deemed to be

16 intensification of a Formula Retail use as defined in Section 178(c) is determined to be a
17 change or modification that increases the degree of nonconformity of the use.

18 (b) Except as limited in this Subsection, a nonconforming use may be reduced in size,
19 extent or intensity, or changed to a use that is more widely permitted by the use districts of the
20 City than the existing use, subject to the other applicable provisions of this Code. Except as

16 (e) A nonconforming use may be converted to a ~~d~~Dwelling ~~u~~Unit and to two or more
17 ~~d~~Dwelling ~~u~~Units with ~~e~~Conditional ~~u~~Use authorization, in a district where such use is principally
18 permitted, without regard to the requirements of this Code with respect to residential density or

20 standards specified in Section 307(h) through the procedures of that Section, provided the
21 nonconforming use is eliminated by such conversion, provided further that the structure is not
22 enlarged, extended or moved to another location, and provided further that the requirements
23
24
25

1 of the Building Code, the Housing Code and other applicable portions of the Municipal Code

17 circumstances ~~which that~~ last lawfully existed prior to the ~~creation of the live/work unit, or prior to~~
18 ~~the~~ change from office use, shall be subject to the provisions of this Article, and the restored
19 nonconforming use shall be considered to have existed continuously since its original
20 establishment, prior to the ~~live/work unit or~~ change to ~~o~~Office use, for purposes of this Article.

21 (g) If a nonconforming use has been wrongfully changed to another use in violation of
22 any of the foregoing provisions, and the violation is not immediately corrected when required
23
24

4 **SEC. 183. NONCONFORMING USES: DISCONTINUANCE AND ABANDONMENT.**

5 Whenever a nonconforming use has been changed to a conforming use, or

9 thereafter shall be in conformity with the use limitations of this Code for the district in which
10 the property is located. Where no enclosed building is involved, discontinuance of a

? (1) Any lawful use in this category in a building having an assessed valuation of
13 \$250 or more on the effective date of this Code, or such later date as the use becomes
14 nonconforming, shall have a period of permitted continuance of 10 years from the date at
15 which the property was placed in a residential zoning classification, if such a period of

22
23
24
25

1 (6) (vi) Covenants, Conditions, and Restrictions: If the property
2 will be condominiumized, the project sponsor must provide the Planning Department with a
3 copy of the Covenants, Conditions, and Restrictions ("CC&R") that will be filed with the State.

4 ~~(7) As provided for in Section 209.1(m), a proposed project that meets all~~
5 ~~of the requirements under this Section may be principally permitted. As provided for in Section~~

7 ~~subsection (4), a Conditional Use Authorization is required.~~

8 (8) (E) Density: For the purpose of qualifying for and receiving additional density
9 at a density ratio or number of dwelling units not exceeding twice the number of dwelling units
10 otherwise permitted, the project sponsor shall enter into a contract with the City
11 acknowledging that the additional density received under Section 209.1(m) or (o) is a form of

5 controls of the subject zoning district;

6 (iii) No residential uses shall be permitted;

8 gross square feet each; an exception to this rule applies for larger PDR spaces on the ground floor, as
9 described in subsection (E) below

10 (v) An S.E.W. building may contain units larger than 1,500 square feet on
11 the ground floor as long as each such unit contains a principal PDR use. For the purposes of this
12 Section, a PDR use is defined in Section 102 of this Code. Such PDR units may be independently
13 accessible from the street.

14 (vi) After the issuance of any certificate of occupancy or completion for
15 the building, any merger, subdivision, expansion, or other change in gross floor area of any unit shall
16 be permitted only as long as the provisions of this subsection (D) and (E) are met.

17 (B) S.E.W. units may be established only in new buildings or in buildings for
18 which a first certificate of occupancy or completion was issued after January 19, 2009.

19 (C) Where permitted, S.E.W. Buildings are exempt from the controls in Sec. 230
20 limiting demolition of industrial buildings.

21 (D) S.E.W. projects shall provide a PDR Business Plan in accordance with the
22 requirements of Section 219.1(c)(9).

1 (E) In considering the approval of a S.E.W. project, the Planning Commission
2 should consider the likely viability of the new PDR space that the development creates, as influenced by
3 such facts as the content of the project sponsor's PDR Business Plan and whether the project sponsor
4 has the commitments of established PDR tenants and/or a demonstrated relationship with
5 organizations established in the PDR community.

6 **SEC. 218.2 202.3. LIMITATION ON CHANGE IN USE OR DEMOLITION OF GENERAL**
7 **GROCERY STORE USE.**

8 Notwithstanding any other provision of this Article, a change in use or demolition of a
9 ~~g~~General ~~g~~Grocery ~~s~~Store use, ~~a retail sales use~~ as set forth in Section ~~218(a)~~ 102 and as further

7 * * * *

8 (c) **Limitation on Conversions.**

9 (1) No owner of a property used as an Automotive Service Station shall change
10 the use of the property to a different type of use without first applying for and receiving either a
11 eConditional ~~#~~Use authorization from the Planning Commission or a conversion determination
12 from the Zoning Administrator. Such authorizations shall be in addition to any other permit or
13 authorization required for a proposed service station conversion under any applicable City,
14 State, or Federal law or regulation. Automotive Service Stations that front on Primary Transit
15 Streets or Citywide Pedestrian Network Streets, as designated in the General Plan, shall be
16 exempt from the conversion limitations of this Section. The procedures for service station

18 conditional use and variance actions.

19 (2) Either the Planning Commission or the Zoning Administrator shall determine
20 at a public hearing whether an applicant is entitled to convert the service station, depending
21 on the grounds on which the permit is sought. The Planning Commission shall make
22 eConditional ~~#~~Use authorization determinations based on the criteria set forth in Subsection
23
24
25

1 (d). The Zoning Administrator shall make service station conversion determinations under the
2 grounds set forth in Subsection (e). An applicant may, but need not, apply to the Planning

4 Zoning Administrator for a conversion authorization pursuant to Subsection (e), provided that
5 if either one approves the application at the first hearing held on it, no hearing shall be
6 necessary before the other. The procedures for service station conversion hearings shall be
7 as described in Sections 306 through 306.5 and 306.8 of this Code for conditional use action
8 (Planning Commission hearings) and variance action.

9 (d) **Criteria for Planning Commission Conditional Use Authorization.** In acting on
10 any application for eConditional #Use authorization for conversion, the Commission shall
11 consider the following criteria in lieu of the criteria set forth in Section 303(c) of this Code.

13 (3) In making determinations under Subsection (1)(B), the Planning Commission
14 shall consider the following factors:

15 (A) If the proposed use is a #Residential use, the total number of units to
16 be provided and the number of those units that are affordable units;

17 (B) If the proposed new use is a eCommercial use, the types of goods
18 and services to be offered and the availability of comparable products and services in the
19 vicinity;

20 (C) The importance of the street on which the service station fronts to
21 walking, cycling, and public transit, and the impact of automobile access and egress to the
22
23
24

1 service station and of the proposed new uses and structures on the safety and comfort of
2 pedestrians, cyclists, and transit riders;

3 (D) The relative environmental dangers posed by the current and
4 proposed uses including, but not limited to, the quality and character of waste generated,
5 noxious or offensive emissions, fire and explosion hazards and noise, and whether the service
6 station conversion would facilitate the cleanup of existing contamination at the property;

7 (E) The relative employment opportunities offered by the service station
8 and the proposed new use;

9 (F) The relative amount of taxes or other revenues to be received by the
10 City or other governmental bodies from service station use and the proposed new use;

11 (G) The compatibility of the existing service station and of the proposed
12 new use or structure with the General Plan and area plan urban design policies and the street
13 frontage standards of this Code; and

14 (H) Whether the service station use and the proposed use are permitted
15 principal uses, conditional uses, or nonconforming uses.

16 (e) **Criteria for Zoning Administrator Conversion Determination.** The Zoning
17 Administrator shall approve the application and authorize the service station conversion if the
18 Zoning Administrator determines from the facts presented that the owner of the subject
19 property is not earning a ~~f~~Fair ~~r~~Return on ~~i~~Investment, *as defined in Section 102*. The owner
20 shall bear the burden of proving that the owner is not earning a ~~f~~Fair ~~r~~Return on ~~i~~Investment.

21 (1) **Application.** A property owner's application under this Section shall be
22 signed by the owner or an authorized representative of the owner and, under penalty of

4 (B) A written statement from an independent Certified Public Accountant
5 summarizing the applicant's financial records, including the property appraisal and stating the
6 return on investment calculated pursuant to ~~this~~ Section 102;

9 (D) Such other financial information as the Zoning Administrator may
10 reasonably determine is necessary to make the determination provided for in this Section.

11 (2) **Rebuttable Presumption.** There shall be a rebuttable presumption that the
property owner is earning a ~~f~~Fair ~~r~~Return on ~~i~~Investment if the property owner has earned at
13 least a ~~9~~ nine percent return on the property owner's total investment in the property for the
14 24-month period immediately preceding the filing of the application, or in the case of a service
15 station business that ceased operations after October 12, 1989, for the 24-month period
16 immediately preceding the date the service station ceased operations. The property owner
17 may rebut this presumption by offering evidence demonstrating that because of special facts
18 regarding his or her property the property owner is not earning a ~~f~~Fair ~~r~~Return on ~~i~~Investment
19 or that because of special demonstrated circumstances the applicant would not earn a fair
20 return on investment from service station use during that 12-month period after the filing of the
21 service station conversion application.

16 permitted by this Section.

17 **SEC. 205.2. TEMPORARY USES: ONE- OR TWO-YEAR LIMIT.**

18 A temporary use may be authorized for a period not to exceed two years for any of the
19 following uses:

20 (a) Temporary structures and uses incidental to the construction of a group of buildings
21 on the same or adjacent premises;

1 (b) Rental or sales office incidental to a new residential development, not including the
2 conduct of a general real estate business, provided, that it be located within the development,
3 and in a temporary structure or part of a dwelling. A temporary use may be authorized for a
4 period not to exceed one year (including any extensions) for the following year.

5 (c) In any M-1 or M-2 District, an ~~Automobile~~ ~~Wrecking~~ use operation covered by as
6 defined in Section 102 225(p) of this Code, provided, if the operation would be a conditional use
7 in the district in question, that the Zoning Administrator determines the operation will meet
8 within 90 days of commencing operation all conditions applicable to such use in that district.

9 **SEC. 205.4. TEMPORARY USES: INTERMITTENT ACTIVITIES.**

10 An intermittent activity is an outdoor use which, while occasional, occurs with some
11 routine or regularity. Intermittent activities include, but are not limited to, the following uses:
12 mobile food facilities, farmers markets, and open-air craft markets. Such uses typically require
13 additional authorization(s) from other City Departments. An intermittent activity may be
14 authorized as a temporary use for a period not to exceed one year.

15 (a) In all Districts other than RH, RM, RED, and RTO Districts an intermittent activity is
16 permissible if it satisfies all of the following conditions:

17 (1) It shall not be located within a ~~B~~building as defined in Section 102 102.3 of this
18 Code.

19 (2) It shall not be located on the property for more than either: (i) ~~six~~ (6) calendar
20 days for longer than 12 hours per day in any ~~seven~~ 7-day period; or (ii) ~~three~~ (3) calendar days
21 for longer than 24 hours per day in any ~~seven~~ 7-day period. At the time of application, the
22
23
24
25

1 applicant shall designate in writing which of the foregoing options shall apply to the activity.
2 No changes shall be made during the authorization period without first filing a new application.

3 (A) The time periods referenced in Subsection (a)(2) each constitute
4 complete calendar days and apply without regard to whether the activity is open to the public
5 or whether the activity is located on the subject property for consecutive days.

6 (B) Days of unused authorization cannot be stored or credited, and any
7 portion of a day that the intermittent activity is located at the subject property shall count
8 toward the 12-hour or the 24-hour limit of Subsection (a)(2).

9 (C) This Subsection (a)(2) shall not apply to any ~~m~~Mobile ~~f~~Food ~~f~~Facility
10 located within a Public (P) District that together with any directly adjoining P District(s)
11 contains more than one ~~(1)~~ acre.

12 (3) It shall be open for business only during the hours of operation permitted as a
13 principal use for the District in which it is located, if any such hourly limits exist.

14 (4) If located in a District that is subject to any of the neighborhood notification
15 requirements as set forth in Section 312 of this Code, notification pursuant to Section 312 shall
16 be required as follows:

17 (A) Notification shall be required if the vending space, as defined below,
18 would exceed 300 square feet.

19 (B) Notification shall be required if any portion of the vending space would
20 be located within 50 feet of an RH, RM, RED, or RTO District. Distances to RH, RM, RED,
21 and RTO Districts shall be measured from the extreme perimeter of any vending space to the
22 nearest property line of any parcel which is partially or wholly so zoned.

(C) For purposes of this Section, "Vending Space" shall be defined as the entire area within a single rectangular perimeter formed by extending lines around the extreme limits of all carts, vehicles, tables, chairs, or other equipment associated with all intermittent activities located on the parcel.

(D) Notwithstanding Subsections (4)(A) and (B) above, and in order to eliminate redundant notification, notification shall not be required for the resumption of an intermittent activity or the extension of time for an intermittent activity when all of the following criteria are met: (i) an intermittent activity is currently authorized on the property or has been authorized on the property within the 12 months immediately preceding the filing of an application for resumption or extension; (ii) the existing or recent intermittent activity lawfully exceeds or exceeded the thresholds of Subsections (4)(A) and/or (B), above, and was the subject of neighborhood notice under Section 312 at the time of its establishment; and (iii) the intermittent activity would not further exceed the thresholds of Subsections (4)(A) and/or (B), above.

(b) An intermittent activity is allowed in a RH, RM, RED, and RTO District only if it: (1) satisfies all the conditions set forth in Subsection (a); and (2) is located on a parcel that contains or is part of a *Hospital medical institution*, as defined in Section 102-209.3(a), or a ~~p~~*Post-Secondary e*~~E~~*ducational i*~~I~~*nstitution*, as defined in Section 102-209.3(i). An intermittent activity authorized under this Subsection shall not operate between the hours of 10:00 p.m. to 7:00 a.m.

SEC 206. (RESERVED).

1 **SEC. 207. DENSITY OF DWELLING UNITS *IN R-DISTRICTS.***

2 The density of dwelling units permitted in the various R-Districts shall be as set forth in
3 *the Zoning Control Table for the district in which the lot is located Sections 207.1, 207.2, 207.5 and*
4 *209.1 of this Code.* The term "*dDwelling #Unit*" is defined in Section 102-102.7 of this Code.

5 **SEC. 207.1. RULES FOR CALCULATION OF DWELLING UNIT DENSITIES.**

6 In districts that establish a maximum dwelling unit density, the following rules shall apply
7 in the calculation of dwelling unit densities under this Code:

8 (a) The entire amount of lot area per *dDwelling #Unit* specified by the Code shall be
9 required for each *dDwelling #Unit* on the lot. A remaining fraction of one-half or more of the
10 minimum amount of lot area per *dDwelling #Unit* shall be adjusted upward to the next higher
11 whole number of *dDwelling #Units*.

12 (b) Where permitted by this Code, two or more of the dwelling and other housing uses
13 specified in the Code may be located on a single lot, either in one structure or in separate
14 structures, provided that the specified density limits are not exceeded by the total of such
15 combined uses. Where *dDwelling #Units* and *gGroup #Housing* are combined, the maximum
16 permitted density for *dDwelling #Units* and for *gGroup #Housing* shall be prorated to the total
17 lot area according to the quantities of these two uses that are combined on the lot.

18 (c) Where any portion of a lot is narrower than five feet, such a portion shall not be
19 counted as part of the lot area for purposes of calculating the permitted dwelling density.

20 (d) No private right-of-way used as the principal vehicular access to two or more lots
21 shall be counted as part of the lot area of any such lot for purposes of calculating the
22 permitted dwelling unit density.

1 (e) Where a lot is divided by a use district boundary line, the dwelling unit density limit
2 for each district shall be applied to the portion of the lot in that district, and none of the
3 dWelling #Units attributable to the district permitting the greater density shall be located in
4 the district permitting the lesser density.

5 (f) For projects that are not located in any RH-1 or RH-2 zoning district, or are not
6 seeking and receiving a density bonus under the provisions of California Government Code
7 Section 65915, where 20 percent or more of the dWelling #Units on-site are "Affordable
8 Units," the on-site Affordable Units shall not count towards the calculation of dwelling unit
9 density. This Planning Code Section does not provide exceptions to any other Planning Code
10 requirements such as height or bulk. For purposes of Section 207.1, "Affordable Units" shall
11 be defined as meeting (1) the criteria of Section 406(b); (2) the requirements of Section 415 et
12 seq. for on-site units; or (3) restricted units in a project using California Debt Limit Allocation
13 Committee (CDLAC) tax-exempt bond financing and 4 percent tax credits under the Tax
14 Credit Allocation Committee (TCAC). If a project sponsor proposes to provide "Affordable
15 Units" that are not restricted by any other program, in order to receive the benefit of the
16 additional density permitted under this Subsection (f) or Subsection (g), the project sponsor
17 shall elect and the Planning Department and MOHCD shall be authorized to enforce,
18 restricting the units as affordable under Planning Code Section 415.6 up to a maximum of 20
19 percent of the units in the principal project. The project sponsor shall make such election
20 through the procedures described in Section 415.5(g) including submitting an Affidavit of
21 Compliance indicating the project sponsor's election to pursue the benefits of Subsection (f) or
22 (g) and committing to 20% on-site units restricted under Section 415.6 prior to approval by the
23
24

1 Planning Commission or Planning Department staff. If a project sponsor obtains the
2 exemption from the density calculation for Affordable Units provided in this subsection, the
3 exemption shall be recorded against the property. Any later request to decrease the number
4 of Affordable Units shall require the project to go back to the Planning Commission or
5 Planning Department, whichever entity approved the project as a whole.

6 (g) In RTO Districts, on-site ~~d~~ Dwelling ~~u~~ Units that are "Affordable Units," as defined in
7 Subsection (f), shall not count toward density calculations or be limited by lot area.

8 (h) Double Density for Senior Housing in RH, RM, and RC Districts. Senior Housing, as
9 defined in and meeting all the criteria and conditions defined in Section 102 of this Code, is permitted
10 up to twice the dwelling unit density otherwise permitted for the District.

11 Projects in RC Districts or within one-quarter of a mile from an RC or NC-2 (Small-Scale
12 Neighborhood Commercial District) zoned area or higher, including named Neighborhood
13 Commercial Districts, and located in an area with adequate access to services including but not limited
14 to transit, shopping, and medical facilities, shall be principally permitted. Projects in RH and RM
15 Districts located more than one-quarter of a mile from an RC or NCD-2 (Small-Scale Neighborhood
16 Commercial District) zoned area or higher, including named Neighborhood Commercial Districts,
17 shall require Conditional Use authorization.

18 **SEC. 207.2. SECOND UNITS.**

19 (a) Second units, as defined and referred to in Government Code Section 65852.2, are
20 precluded in RH-1(D) and RH-1 zoned areas, except ~~for where second units are currently~~
21 ~~permitted under Section 209.1(m) or (n) for~~ units designed for and occupied by senior citizens
22
23
24
25

1 ("Senior Housing" as defined by Section 102) and except as may hereafter be permitted by later
2 amendments to this Code governing second units.

3 * * * *

4 (15) There are no large districts suitable for the provision of second units, but
5 instead there are small subareas which must be reviewed on a case-by-case basis with
6 community participation in the review process. A case-by-case review is needed in order to
7 determine those areas of the City where the traffic congestion problems described above
8 would be least likely to occur and where second units may therefore be permitted without
9 adverse impact to the public. Furthermore:

10 (A) The Planning Code presently permits a secondary unit in all single-
11 family homes in RH-1(S) (House, One-Family with Minor Second Unit), RH-2 (House, Two-
12 Family) and RH-3 (House, Three-Family) Districts no matter what the lot size. Second units in
13 single-family homes are permitted in all other multifamily residential districts (all RM and RC
14 Districts), depending on the size of the lot.

15 (B) The Planning Code ~~Section 209.1(e)~~ permits the mapping of the RH-
16 1(S) (House, One-Family with Minor Second Unit) District. These RH-1(S) Zoning Districts
17 provide for a two-family dwelling with the second dwelling limited to 600 square feet of net
18 floor area. The second unit remains subordinate to the owner's unit and the structures retain
19 the appearance of single-family dwellings. The RH-1(S) Zoning District has been mapped in
20 four areas of the City. Additional mapping of the RH-1(S) Zoning District may be used to
21 legalize existing secondary units in single-family homes and to increase the number of
22 secondary units.

1 (C) Dwellings specifically designed for and occupied by senior citizens
2 (*“Senior Housing”*) are presently permitted at a density ratio or number of ~~d~~Dwelling ~~#~~Units not
3 exceeding twice the number of ~~d~~Dwelling ~~#~~Units otherwise permitted as a principal use in the
4 district by the ~~City~~ Planning Code (~~Section 209.1(m) and (n)~~).

6 **SEC. 207.6. REQUIRED MINIMUM DWELLING UNIT MIX IN RTO, RCD, NCT, DTR, AND**
7 **EASTERN NEIGHBORHOODS MIXED USE DISTRICTS.**

8 * * * *

9 (b) **Applicability.**

10 (1) This Section shall apply in the RTO, RCD, NCT, DTR, and Eastern
11 Neighborhoods Mixed Use Districts.

12 (2) This Section shall apply to all applications for building permits and/or
13 Planning Commission entitlements *that which* propose the creation of five or more ~~d~~Dwelling
14 ~~#~~Units.

15 (3) This Section does not apply to buildings for which 100 percent of the
16 residential uses are: ~~g~~Group ~~h~~Housing, ~~d~~Dwelling ~~#~~Units *that which* are provided at below
17 market rates pursuant to Section 406(b)(1) of this Code, Single Room Occupancy (*SRO*) Units,
18 Student Housing (*as defined in Sec. 102.36*), (*all as defined in Section 102 of this Code*) or housing
19 specifically and permanently designated for seniors or persons with physical disabilities.

20 * * * *

1 **SEC. 208. DENSITY LIMITATIONS FOR GROUP HOUSING.**

2 Except for single room occupancy units in the South of Market Mixed Use Districts, the
 3 density limitations for ~~g~~Group ~~h~~Housing, as described in Sections ~~102 209.2(a), (b), and (c),~~
 4 790.88(b) and 890.88(b) of this Code, shall be as follows:

5 (a) The maximum number of ~~b~~Bedrooms on each ~~l~~Lot shall be as specified in the
 6 ~~Zoning Control Table following~~ table for the ~~d~~District in which the ~~l~~Lot is located, except that in
 7 RTO, RTO-M, RCD, UMU, MUG, WMUG, MUR, MUO, WMUO, RED, RED-MX, SPD, DTR,
 8 and all NCT ~~d~~Districts the density of ~~g~~Group ~~h~~Housing shall not be limited by lot area, and
 9 except that for ~~l~~Lots in NC Districts, the group housing density shall not exceed the number of
 10 ~~b~~Bedrooms permitted in the nearest Residential District provided that the maximum density
 11 not be less than the amount permitted by the ratio specified for the NC District in which the lot
 is located.

(b) For purposes of calculating the maximum density for gGroup hHousing as set forth herein in this Section 208, the number of bBedrooms on a lLot shall in no case be considered to be less than one bBedroom for each two beds. Where the actual number of beds exceeds an average of two beds for each bBedroom, each two beds shall be considered equivalent to one bBedroom.

(c) The rules for calculation of dwelling unit densities set forth in Section 207.1 shall also apply in calculation of the density limitations for gGroup hHousing, except that in NC

1 Districts, any remaining fraction of one-half ½ or more of the maximum amount of lot area per
2 ~~b~~Bedroom shall be adjusted upward to the next higher whole number of ~~b~~Bedrooms.

3 (d) The group housing density in all RTO Districts and all NCT Districts, as listed in
4 Section 702.1(b), shall not be limited by lot area, but by the applicable requirements and
5 limitations elsewhere in this Code, including but not limited to height, bulk, setbacks, open
6 space, and exposure, as well as by the Residential Design Guidelines in RTO ~~d~~Districts, other
7 applicable design guidelines, applicable elements and area plans of the General Plan, and
8 design review by the Planning Department.

9 **SEC. ~~209. 206.~~ DESCRIPTION AND PURPOSE OF RESIDENTIAL AND RESIDENTIAL-**
10 **COMMERCIAL DISTRICTS.**

11 The following statements of description and purpose outline the main functions of the
12 Residential and Residential-Commercial (Residential) Districts in the zoning plan for San
13 Francisco, supplementing the statements of purpose contained in Section 101 of this Code.

14 (a) Purpose. These ~~d~~Districts are established for purposes of implementing the
15 Residence element and other elements of the General Plan, according to the objectives,
16 principles, and policies stated therein. Among these purposes are the following:

17 (a) (1) Preservation, improvement, and maintenance of the existing housing
18 stock through protection of neighborhood environments and encouragement of sound
19 ownership practices and rehabilitation efforts;

20 (b) (2) Recognition and protection of the architectural characteristics and
21 densities of existing residential areas;

1 (e) (3) Maximizing of housing choice by assuring the availability of quality owner
2 and rental housing of various kinds, suitable for a whole range of household types, lifestyles,
3 and economic levels;

4 (d) (4) Encouragement of residential development that will meet outstanding
5 community needs, provide adequate indoor and outdoor spaces for its occupants, and relate
6 well to the character and scale of existing neighborhoods and structures; and

7 (e) (5) Promotion of balanced and convenient neighborhoods having appropriate
8 public improvements and services, suitable nonresidential activities that are compatible with
9 housing and meet the needs of residents, and other amenities that contribute to the livability
10 of residential areas.

11 *Additional purposes for Eastern Neighborhoods and South of Market Mixed Use Districts are listed in*
12 *Article 8 of this Code.*

13 **(b) Uses and Features Permitted in Residential and Residential-Commercial Districts. The**
14 **uses and features permitted in Residential and Residential-Commercial Districts are listed in the**
15 **Zoning Control Tables in Sections 209.1 through 209.4**

16 **SEC. 209.1. 206.1 RH (RESIDENTIAL, HOUSE) DISTRICTS.**

17 These ~~d~~Districts are intended to recognize, protect, conserve, and enhance areas
18 characterized by dwellings in the form of houses, usually with one, two, or three units with
19 separate entrances, and limited scale in terms of building width and height. Such areas tend
20 to have similarity of building styles and predominantly contain large units suitable for family
21 occupancy, considerable open space, and limited nonresidential uses. The RH Districts are
22 composed of five separate classes of districts, as follows:

1 **RH-1(D) Districts: One-Family (Detached Dwellings).** These dDistricts are
2 characterized by lots of greater width and area than in other parts of the City, and by single-
3 family houses with side yards. The structures are relatively large, but rarely exceed 35 feet in
4 height. Ground level open space and landscaping at the front and rear are usually abundant.
5 Much of the development has been in sizable tracts with similarities of building style and
6 narrow streets following the contours of hills. In some cases, private covenants have
7 controlled the nature of development and helped to maintain the street areas.

8 **RH-1 Districts: One-Family.** These dDistricts are occupied almost entirely by single-
9 family houses on lots 25 feet in width, without side yards. Floor sizes and building styles vary,
10 but tend to be uniform within tracts developed in distinct time periods. Though built on
11 separate lots, the structures have the appearance of small-scale row housing, rarely
12 exceeding 35 feet in height. Front setbacks are common, and ground level open space is
13 generous. In most cases, the single-family character of these dDistricts has been maintained
14 for a considerable time.

15 **RH-1(S) Districts: One-Family with Minor Second Unit.** These dDistricts are similar in
16 character to RH-1 Districts, except that a small second dwelling unit has been installed in
17 many structures, usually by conversion of a ground-story space formerly part of the main unit
18 or devoted to storage. The second unit remains subordinate to the owner's unit and may
19 house one or two persons related to the owner or be rented to others. Despite these
20 conversions, the structures retain the appearance of single-family dwellings.

21 **RH-2 Districts: Two-Family.** These dDistricts are devoted to one-family and two-
22 family houses, with the latter commonly consisting of two large flats, one occupied by the
23
24
25

owner and the other available for rental. Structures are finely scaled and usually do not exceed 25 feet in width or 40 feet in height. Building styles are often more varied than in single-family areas, but certain streets and tracts are quite uniform. Considerable ground-level open space is available, and it frequently is private for each unit. The ~~d~~Districts may have easy access to shopping facilities and transit lines. In some cases, ~~g~~Group ~~h~~Housing and institutions are found in these areas, although nonresidential uses tend to be quite limited.

RH-3 Districts: Three-Family. These ~~d~~Districts have many similarities to RH-2 Districts, but structures with three units are common in addition to one-family and two-family houses. The predominant form is large flats rather than apartments, with lots 25 feet wide, a fine or moderate scale, and separate entrances for each unit. Building styles tend to be varied but complementary to one another. Outdoor space is available at ground level, and also on decks and balconies for individual units. Nonresidential uses are more common in these areas than in RH-2 Districts.

6 **SEC. ~~209.2.~~ 206.2. RM (RESIDENTIAL, MIXED) DISTRICTS.**

7 These dDistricts are intended to recognize, protect, conserve, and enhance areas
8 characterized by a mixture of houses and apartment buildings, covering a range of densities
9 and building forms according to the individual district designations. Despite the range of
10 densities and building sizes, most structures are of a scale that respects the traditional lot
11 patterns, open spaces, and articulation of façades typical of San Francisco neighborhoods.
12 These dDistricts provide unit sizes and types suitable for a variety of households, and contain
13 supporting nonresidential uses. The RM Districts are composed of four separate classes of
14 districts, as follows:

15 **RM-1 Districts: Low Density.** These dDistricts contain a mixture of the dwelling types
16 found in RH Districts, but in addition have a significant number of apartment buildings that
17 broaden the range of unit sizes and the variety of structures. A pattern of 25-foot to 35-foot
18 building widths is retained, however, and structures rarely exceed 40 feet in height. The
19 overall density of units remains low; buildings are moderately scaled and segmented, and
20 units or groups of units have separate entrances. Outdoor space tends to be available at
21 ground and upper levels regardless of the age and form of structures. Shopping facilities and
22 transit lines may be found within a short distance of these districts. Nonresidential uses are
23 often present to provide for the needs of residents.
24
25

1 **RM-2 Districts: Moderate Density.** These dDistricts are generally similar to RM-1
2 Districts, but the overall density of units is greater and the mixture of building types and unit
3 sizes is more pronounced. Building widths and scales remain moderate, and considerable
4 outdoor space is still available. The unit density permitted requires careful design of new
5 structures in order to provide adequate amenities for the residents. Where nonresidential uses
6 are present, they tend to offer services for wider areas than in RM-1 Districts.

7 **RM-3 Districts: Medium Density.** These dDistricts have some smaller structures, but
8 are predominantly devoted to apartment buildings of 6, 8, 10, or more units. Most of these
9 districts are close to downtown and have been developed in this manner for some time. The
10 units vary in size, but tend to be smaller than in RM-1 and RM-2 Districts. Many buildings
11 exceed 40 feet in height, and in some cases additional buildings over that height may be
12 accommodated without disruption of the district character. Although lots and buildings wider
13 than 25 or 35 feet are common, the scale often remains moderate through sensitive façade
14 design and segmentation. Open spaces are smaller, but decks and balconies are used to
15 advantage for many units. Supporting nonresidential uses are often found in these areas.

16 **RM-4 Districts: High Density.** These dDistricts are devoted almost exclusively to
17 apartment buildings of high density, usually with smaller units, close to downtown. Buildings
18 over 40 feet in height are very common, and other tall buildings may be accommodated in
19 some instances. Despite the intensity of development, distinct building styles and moderation
20 of façades are still to be sought in new development, as are open areas for the residents.
21 Group housing is especially common in these districts, as well as supporting nonresidential
22 uses.

SEC. 209.3. 206.3 RC (RESIDENTIAL-COMMERCIAL) DISTRICTS.

These dDistricts are intended to recognize, protect, conserve, and enhance areas characterized by structures combining rResidential uses with neighborhood-serving eCommercial uses. The predominant rResidential uses are preserved, while provision is made

1 for supporting eCommercial uses, usually in or below the ground story, that meet the frequent
 2 needs of nearby residents without generating excessive vehicular traffic. The compact,
 3 walkable, transit-oriented and mixed-use nature of these dDistricts is recognized by no off-
 4 street parking requirements. The RC Districts are composed of two separate districts, as
 5 follows:

6 **RC-3 Districts: Medium Density.** These dDistricts provide for a mixture of medium-
 7 density dDwellings similar to those in RM-3 Districts, with supporting eCommercial uses. Open
 8 spaces are required for dDwellings in the same manner as in RM-3 Districts, except that rear
 9 yards need not be at ground level and front setback areas are not required.

10 **RC-4 Districts: High Density.** These dDistricts provide for a mixture of high-density
 11 dDwellings similar to those in RM-4 Districts with supporting eCommercial uses. Open spaces
 12 are required for dDwellings in the same manner as in RM-4 Districts, except that rear yards
 13 need not be at ground level and front setback areas are not required.

1 **SEC. 209.4. 206.4 RTO (Residential Transit Oriented) DISTRICTS.** These dDistricts are
2 intended to recognize, protect, conserve, and enhance areas characterized by a mixture of
3 houses and apartment buildings, covering a range of densities and building forms. RTO and
4 RTO-M Districts are composed of multi-family moderate-density areas, primarily areas
5 formerly designated RM and RH-3, and are well served within short walking distance,
6 generally less than one-quarter mile, of transit and neighborhood commercial areas. Transit
7 available on nearby streets is frequent and/or provides multiple lines serving different parts of
8 the City or region. Limited small-scale neighborhood-oriented retail and services is common
9 and permitted throughout the neighborhood on eCorner parcels Lots only to provide goods and
10 services to residents within walking distance, but the districts are otherwise residential. Only
11 retail compatible with housing, generally those permitted in NC-1 Districts, is permitted and
12 auto-oriented uses are not permitted. Hours of operation are restricted and off-street parking
13 is not permitted for these very locally-oriented uses.

14 A fine-grain pattern of 25-foot to 35-foot building widths is prevalent, and structures
15 typically range from two to five stories in height. While some one- and two-family structures
16 are present, the character of the dDistrict is primarily of structures with three or more units of a
17 range of sizes and types suitable for a variety of households. Buildings are moderately scaled
18 and segmented, and units or groups of units have separate entrances directly from the street.
19 The overall residential density is regulated by the permitted and required height, bulk,
20 setbacks, and open space of each parcel, along with residential design guidelines. Because of
21 the high availability of transit service and the proximity of retail and services within walking
22 distance, many households do not own cars; it is common that not every dDwelling #Unit has

1 a parking space and overall off-street residential parking is limited. Open space is provided on
2 site, in the form of rear yards, decks, balconies, roof-decks, and courtyards, and is augmented
3 by nearby public parks, plazas, and enhanced streetscapes.

~~SEC. 209.10. RESERVED.~~

~~SEC. 210.1. C-1 DISTRICTS: NEIGHBORHOOD SHOPPING.~~

~~These districts are intended for the supplying of retail goods and personal services at convenient locations to meet the frequent and recurring needs of nearby residents. These districts are usually surrounded by residential areas of relatively low density of development, often in outlying areas of the City, and the size and use of commercial buildings in these districts are intended to be consistent with those residential densities. Close concentrations of complementary commercial uses are encouraged, with minimum interruption by open uses and nonretail enterprises.~~

~~210.2.~~ 210.1. C-2 DISTRICTS: COMMUNITY BUSINESS.

These districts serve several functions. ~~On a larger scale than the C-1 Districts,~~ They provide convenience goods and services to ~~residential~~ Residential areas of the City, both in outlying sections and in closer-in, more densely built communities. In addition, some C-2 Districts provide comparison shopping goods and services on a general or specialized basis to a Citywide or a regional market area, complementing the main area for such types of trade in downtown San Francisco. The extent of these districts varies from smaller clusters of stores to larger concentrated areas, including both shopping centers and strip developments along major thoroughfares, and in each case the character and intensity of commercial development are intended to be consistent with the character of other uses in the adjacent areas. In C-2

Districts, the emphasis is upon compatible retail uses, but a wider variety of goods and services is included to suit the longer-term needs of customers and greater latitude is given for the provision of automobile-oriented uses.

10 **SEC. ~~210.2, 210.3~~ C-3 DISTRICTS: DOWNTOWN COMMERCIAL.**

11 Downtown San Francisco, a center for City, regional, national, and international
12 commerce, is composed of four separate districts, as follows:

13 **C-3-O District: Downtown Office.** This district, playing a leading national role in
14 finance, corporate headquarters, and service industries, and serving as an employment center
15 for the region, consists primarily of high-quality office development. The intensity of building
16 development is the greatest in the City, resulting in a notable skyline symbolizing the area's
17 strength and vitality. The district is served by City and regional transit reaching its central
18 portions and by automobile parking at peripheral locations. Intensity and compactness permit
19 face-to-face business contacts to be made conveniently by travel on foot. Office development
20 is supported by some related retail and service uses within the area, with inappropriate uses
21 excluded in order to conserve the supply of land in the core and its expansion areas for further
22 development of major office buildings.

23 **C-3-O(SD) District: Downtown Office Special Development.** This area south of
24 Market Street and east of Third Street comprises the southern side of the core central
25 business district, and is similar to and generally indistinguishable from the C-3-O District in
26 terms of uses and character. The area is centered on the Transbay Transit Center. This

1 district permits densities that exceed those in the C-3-O district and contains the tallest height
2 limits in the City, reflecting its unparalleled public transportation access and geographically
3 central position in the downtown.

4 **C-3-R District: Downtown Retail.** This dDistrict is a regional center for comparison
5 shopper retailing and direct consumer services. It covers a compact area with a distinctive
6 urban character, consists of uses with cumulative customer attraction and compatibility, and is
7 easily traversed by foot. Like the adjacent Downtown Office District, this district is well-served
8 by City and regional transit, with automobile parking best located at its periphery. Within the
9 dDistrict, continuity of retail and consumer service uses is emphasized, with encouragement
10 of pedestrian interest and amenities and minimization of conflicts between shoppers and
11 motor vehicles. A further merging of this dDistrict with adjacent, related districts is anticipated,
12 partially through development of buildings that combine retailing with other functions.

13 **C-3-G District: Downtown General Commercial.** This dDistrict covers the western
14 portions of downtown and is composed of a variety of uses: Retail, offices, hotels,
15 entertainment, clubs and institutions, and high-density residential. Many of these uses have a
16 Citywide or regional function, although the intensity of development is lower here than in the
17 downtown core area. As in the case of other downtown districts, no off-street parking is
18 required for individual commercial buildings. In the vicinity of Market Street, the configuration
19 of this dDistrict reflects easy accessibility by rapid transit.

20 **C-3-S District: Downtown Support.** This dDistrict encompasses Yerba Buena
21 Gardens, which includes San Francisco's Convention Center, hotels, museums and cultural
22 facilities, housing, retail, and offices arranged around public gardens and plazas. The dDistrict
23
24
25

continues to accommodate important supporting functions such as wholesaling, printing, building services, and secondary office space. It also contains unique housing resources. The District is within walking distance of rapid transit on Market Street, and is served by transit lines on Third, Fourth, Mission and Folsom streets.

15 **SEC. 210.7 210.3. PDR DISTRICTS: PURPOSE**

16 These ~~d~~Districts provide space for a wide variety of PDR (production, distribution, and
17 repair) and other non-residential activities in districts where these uses are free from inherent
18 economic and operational competition and conflicts with housing, large office developments,
19 and large-scale retail, which are not permitted in these districts. Other uses that share
20 operational characteristics with PDR uses are permitted in these districts, as they require
21 large flexible spaces and prefer separation from intensive housing districts. PDR-zoned land
22 is also an important reservoir of space in San Francisco for new and evolving industry and
23 activity types that cannot be foreseen today and cannot practically function or compete for
24 space in a typical downtown office or neighborhood commercial environment. Business and
25 activities allowed in PDR Districts generally share a need for flexible operating space that
26 features large open interior spaces, high ceilings, freight loading docks and elevators, floors
27 capable of bearing heavy loads, and large (often uncovered exterior) storage areas. These
28 uses are often not ideally compatible with housing for operational reasons, including the need

1 for significant trucking and delivery activities, 24-hour operation, and emission of noise, odors,
2 and vibrations. Importantly, PDR uses are limited in the amount of rent they can afford relative
3 to office, retail, and residential uses, yet are important sectors of the City's economy.

4 ~~SEC. 210.8.~~ **PDR-1-B District.: Light Industrial Buffer.** The intent of this ~~d~~District is to create
5 a buffer area between residential neighborhoods and light industrial areas, primarily in the
6 Bayview Hunters Point neighborhood. Thus, this ~~d~~District prohibits residential uses and limits
7 ~~o~~Office, ~~r~~Retail, and ~~i~~Institutional uses. Generally, all other uses are permitted. This zone
8 allows for less intensive production, distribution, and repair activities that will not compromise
9 the quality of life of nearby residents. These uses generate less external noise, odors, and
10 vibrations and engage in fewer trucking activities than those permitted in PDR-2 districts.
11 Uses in this ~~d~~District are generally conducted completely within enclosed structures. Small-
12 scale ~~r~~Retail and ~~o~~Office uses are permitted, as are other activities that may serve well to
13 buffer existing residential neighborhoods from areas of concentrated industrial operations. In
14 considering any new land use not contemplated in this District, the Zoning Administrator shall
15 take into account the intent of this District as expressed in this Section and in the General
16 Plan.

17 ~~SEC. 210.9.~~ **PDR-1-D: Design.** The intention of this ~~d~~District is to retain and encourage less-
18 intensive production, distribution, and repair businesses, especially the existing clusters of
19 design-related businesses. Thus, this ~~d~~District prohibits ~~r~~Residential ~~uses~~ and ~~o~~Office ~~uses~~, and
20 limits, ~~r~~Retail and ~~i~~Institutional uses. Additionally, this ~~d~~District prohibits heavy industrial uses,
21 which generate external noise, odors, and vibrations and engage in frequent trucking
22 activities. Generally, all other uses are permitted. In considering any new land use not
23
24
25

1 contemplated in this District, the Zoning Administrator shall take into account the intent of this
2 District as expressed in this Section and in the General Plan.

3 ~~SEC. 210.10.~~ **PDR-1-G: General.** The intention of this ~~d~~District is to retain and encourage
4 existing production, distribution, and repair activities and promote new business formation.
5 Thus, this ~~d~~District prohibits ~~r~~Residential and ~~o~~Office uses, and limits ~~r~~Retail and ~~i~~Institutional
6 uses. Additionally, this ~~d~~District allows for more intensive production, distribution, and repair
7 activities than PDR-1-B and PDR-1-D but less intensive than PDR-2. Generally, all other uses
8 are permitted. In considering any new land use not contemplated in this District, the Zoning
9 Administrator shall take into account the intent of this District as expressed in this Section and
10 in the General Plan.

11 ~~SEC. 210.11.~~ **PDR-2: Core Production, Distribution, and Repair.** The intent of this ~~d~~District
12 is to encourage the introduction, intensification, and protection of a wide range of light and
13 contemporary industrial activities. Thus, this ~~d~~District, prohibits new housing, large office
14 developments, large-scale retail, and the heaviest of industrial uses, such as incinerators.
15 Generally, all other uses are permitted. The conservation of existing flexible industrial
16 buildings is also encouraged. ~~This These~~ ~~d~~Districts permits certain non-industrial, non-
17 residential uses, including small-scale ~~r~~Retail and ~~o~~Office, ~~e~~Entertainment, certain institutions,
18 and similar uses that would not create conflicts with the primary industrial uses or are
19 compatible with the operational characteristics of businesses in the area. Light industrial uses
20 in ~~these this~~ ~~d~~Districts may be conducted entirely within an enclosed structure, partly within
21 enclosed structures, or some functions may occur entirely in open areas. These uses may
22 require trucking activity multiple times per day, including trucks with up to 18 wheels or more,
23
24
25

and occurring at any time of the day or night. As part of their daily operations, PDR activities in these areas may emit noises, vibrations, odors, and other emissions, as permitted by law. Within the requirements of local, state, and federal health and safety regulations, and within the stipulation of this eCode, which may impose additional use size maximums and minimum distance requirements on certain activities, raw materials used for production, manufacturing, repair, storage, research, and distribution may be stored on site and may include chemical, biological, and other hazardous, explosive, or flammable materials. In considering any new land use not contemplated in this District, the Zoning Administrator shall take into account the intent of this District as expressed in this Section and in the General Plan.

1 ~~SEC. 212. ADDITIONAL REQUIREMENTS FOR USES IN CERTAIN C AND M DISTRICTS.~~

2 ~~In the following C and M Districts, the permitted uses indicated in Sections 215 through 227~~
3 ~~shall be subject to the additional requirements contained in this Section 212.~~

4 ~~(a) Uses in Enclosed Buildings. In C 2 Districts, all permitted uses, and all storage, servicing,~~
5 ~~fabricating, processing or repair uses accessory thereto, shall be conducted within enclosed buildings,~~
6 ~~with the exceptions of:~~

7 ~~(1) Those uses indicated by an asterisk (*) in the column for the district;~~

8 ~~(2) Accessory off street parking and loading areas where permitted;~~

9 ~~(3) Accessory outdoor dining areas where permitted;~~

10 ~~(4) Accessory recreation areas where permitted; and,~~

11 ~~(5) Mobile Food Facilities as defined in Section 102.34.~~

12 ~~(b) Drive-up Facilities. In C 3 Districts, a Drive-up Facility, as defined in Section 790.30 of~~
13 ~~this Code, shall not be permitted.~~

14 ~~(c) Required Ground-floor Commercial Frontage in C-3 Districts.~~

15 ~~(1) Purpose. The purpose of this section is to assure continuity of retail and consumer~~
16 ~~service uses in the C-3-R District, and in other important commercial streets in C-3 Districts.~~

17 ~~(2) Applicability.~~

18 ~~(A) In the C-3-R District, along any block frontage that is entirely within such~~
19 ~~district or partly in such district and partly in the C-3-O District, where such block frontage faces a~~
20 ~~street 40 feet or more in width;~~

21 ~~(B) On building frontages facing Destination Alleyways, as defined in the~~
22 ~~Downtown Streetscape Plan;~~

1 ~~(C) Along any street frontage facing Market Street in all C-3 Districts except the~~
2 ~~Van Ness and Market Downtown Residential Special Use District.~~

3 ~~(3) Controls.~~

4 ~~(A) Ground Story. Permitted uses listed in Sections 218 and 221 shall be located~~
5 ~~facing such street in the ground story of any building. At least 1/2 the total width of any new or~~
6 ~~reconstructed building, parallel to and facing such street, shall be devoted at the ground story to~~
7 ~~entrances, show windows or other displays of such uses.~~

8 ~~(B) All Levels. All other permitted uses shall be located either on stories above~~
9 ~~or below the ground story or at a distance of not less than 20 feet behind each street frontage at the~~
10 ~~ground story. No more than 1/3 the width of any lot, parallel to and facing such street, shall be devoted~~
11 ~~to entrances to such other permitted uses.~~

12 ~~(d) Hazardous, Noxious, or Offensive Uses Prohibited. No use listed as permitted in any C~~
13 ~~District or M-1 District shall include any use that is hazardous, noxious or offensive for reasons~~
14 ~~described in Section 202(c) of this Code.~~

15 ~~SEC. 213. USES PERMITTED IN C, M, AND PDR DISTRICTS.~~

16 ~~(a) The uses listed in Sections 215 through 227 are permitted in C, M, and PDR Districts as~~
17 ~~indicated by the following symbols in the respective columns for each district:~~

18 ~~P: Permitted as a principal use in this district.~~

19 ~~C: Subject to approval by the City Planning Commission as a conditional use in this district as~~
20 ~~provided in Section 303 of this Code.~~

21 ~~NA: This listing not applicable to this district, as the same use is listed subsequently for the~~
22 ~~district with fewer restrictions.~~

1 ~~Blank Space: Not permitted in this district.~~

2 ~~(b) The Section titles are intended only as an aid to use of this Code and are not binding as to~~
3 ~~interpretation of these Sections. In general, but not in all cases, uses that are more widely permitted in~~
4 ~~C, M, and PDR Districts are listed in earlier Sections. Uses listed in an earlier Section shall not~~
5 ~~include any use first specifically listed in a later Section. Where the same use is listed as permitted two~~
6 ~~or more times for the same district, with different restrictions, the permitted listing with the fewest~~
7 ~~restrictions shall prevail for that district.~~

8 ~~(c) Determinations as to the classification of uses not specifically listed shall be made in the~~
9 ~~manner indicated in Sections 202 and 307(a) of this Code.~~

10 ~~(d) Reference should be made to Sections 204 through 204.5 for regulations pertaining to~~
11 ~~accessory uses permitted for principal and conditional uses listed in Sections 215 through 227.~~

12 ~~(e) Reference should also be made to the other Articles of this Code containing provisions~~
13 ~~relating to definitions, off street parking and loading, dimensions, areas and open spaces,~~
14 ~~nonconforming uses, height and bulk districts, signs, historic preservation, and other factors affecting~~
15 ~~the development and alteration of properties in these use districts.~~

16 **SEC. 210.5. 210.4 M Districts: Industrial**

17 ~~SEC. 210.4. M-1 Districts: Light Industrial. These are one of two types of districts providing land~~
18 ~~for industrial development.~~ In general, the M-1 Districts are more suitable for smaller industries
19 dependent upon truck transportation, while the M-2 Districts are more suitable for larger
20 industries served by rail and water transportation and by large utility lines. In M-1 Districts,
21 most industries are permitted, but some with particularly noxious characteristics are excluded.
22
23
24
25

1 The permitted industries have certain requirements as to enclosure, screening, and minimum
 2 distance from Residential Districts.

3 ~~SEC. 210.6.~~ **M-2 Districts: Heavy Industrial.** These ~~d~~Districts are the least restricted as to
 4 use and are located at the eastern edge of the City, separated from residential and
 5 commercial areas. The heavier industries are permitted, with fewer requirements as to
 6 screening and enclosure than in M-1 Districts, but many of these uses are permitted only as
 7 conditional uses or at a considerable distance from Residential Districts. Most of the land
 8 zoned M-2 is controlled by the Port of San Francisco.

 (2) C required for properties within the Third Street Formula Retail Restricted Use District (§786), which includes properties fronting Third Street between Williams Avenue and Paul Street.

SEC. 234.211. P (Public) Districts.

1 (a) In addition to the use districts otherwise established by this Code, there shall also
2 be in the City a Public Use District herein referred to as a "P District," to apply to land that is
3 owned by a governmental agency and in some form of public use, including open space.

4 (b) The purpose of designating such land as a P District on the Zoning Map is to relate
5 the Zoning Map to actual land use and to the Master General Plan with respect to such land.
6 Any lot in a P District may be occupied by a principal use listed in Section 211.1 ~~234.1~~, or by a
7 conditional use listed in Section 211.2 ~~234.2~~, subject to applicable regulations of this Code.
8 Principal uses not identified under Sections 211.1 and 211.2 of this Code are not permitted in any P
9 District including the limitations of Section 290 for OS (Open Space) Districts; provided, however, that
10 on any lot in a P District, which lot is within 1/4 mile of the nearest NC 1 or Individual Area
11 Neighborhood Commercial District as described in Article 7 of this Code, no accessory nonpublic use
12 shall be permitted, unless such use or feature complies with the controls which are applicable in any
13 NC 1 or Individual Area Neighborhood Commercial District or Restricted Use Subdistrict located
14 within 1/4 mile of the lot, excluding the provisions of zoning category .83, as defined in Section 790.80
15 of Article 7.

16 **SEC. ~~234.1~~, 211.1. PRINCIPAL USES PERMITTED, P DISTRICTS.**

17 The following uses are principally permitted in all P Districts when found to be in conformity
18 with the General Plan:

19 (a) Structures and uses of governmental agencies not subject to regulation by this
20 Code.

1 (b) Public structures and uses of the City and County of San Francisco, and of other
2 governmental agencies that are subject to regulation by this Code, including Neighborhood
3 Agriculture, as defined in *Planning Code* Section 102.35 *of this Code*; and,

4 (c) Accessory nonpublic uses, which in P Districts may or may not be related to the
5 principal use, provided that they meet the following standards:

6 (1) If the accessory nonpublic use is located on a lot with an OS Height and Bulk
7 designation per Section 290 of this Code, it shall occupy a de minimis amount of space so that it does
8 not detract from the lot's principal or exclusive purpose as open space. In no case may accessory
9 nonpublic uses occupy more than 1/3 of the total lot area occupied by the principle use;

10 (2) If the accessory nonpublic use is located on a lot without an OS Height and Bulk
11 designation, it shall not occupy more than 1/3 of the total occupied floor area of the principle use;

12 (3) If the accessory nonpublic use is located within 1/4 mile of a Restricted Use
13 Subdistrict listed in Article 2 or 7, then no use prohibited in such Subdistrict may be permitted as an
14 accessory nonpublic use;

15 (4) The accessory nonpublic use is principally permitted within the closest non-
16 Residential District. The closest non-Residential district is defined as the non-Residential zoning
17 district that is the shortest distance between any area occupied by the accessory nonpublic use and a
18 parcel with a non-Residential zoning designation. If there is more than one non-Residential district that
19 meets this definition, the more permissive zoning district shall apply; and,

20 (5) The proposed Accessory use is not a Formula Retail use as defined in Section 102 of
21 this Code.

22 (d) Neighborhood Agriculture, as defined in Section 102 of this Code;
23
24
25

1 (e) City Plazas, as defined in Section 94.1 of the Administrative Code.

2 (f) Any temporary use identified in Sections 205 et seq. of this Code, regardless of the zoning
3 district specified in that Section but subject to the time limits specified in that Section for such
4 temporary use;

5 (g) Any temporary use not considered in Subsection (f) above for which an enabling action is
6 taken by either the Board of Supervisors, the Recreation and Parks Commission, the Municipal
7 Transportation Agency Board of Directors, or other City Board or Commission with jurisdiction over
8 the property. Temporary uses authorized under this Subsection (g) shall be:

9 (A) Limited to a renewable period of no more than three years as approved by the
10 Zoning Administrator, and

11 (B) Be of a nature such that the property on which the temporary use is located can be
12 readily returned to the state in which it existed immediately prior to the commencement of the
13 temporary use.

14 ~~when in conformity with the Master Plan and the provisions of other applicable codes, laws,~~
15 ~~ordinances and regulations; provided, however, that on any lot in a P District, which lot is within 1/4~~
16 ~~mile of the nearest NC 1 or Individual Area Neighborhood Commercial District or Restricted Use~~
17 ~~Subdistrict described in Article 7 of this Code, no accessory nonpublic use shall be permitted, unless~~
18 ~~such use or feature complies with the controls which are applicable in any NC 1 or Individual Area~~
19 ~~Neighborhood Commercial District located within 1/4 mile of the lot, excluding the provisions of zoning~~
20 ~~category .82, as defined in Section 790.80 of this Code.~~

21 **SEC. 234.2. 211.2. CONDITIONAL USES, P DISTRICTS.**

1 The following uses shall require Conditional Use authorization from ~~be subject to approval~~
2 ~~by the City Planning Commission, as provided in Section 303 of this Code, unless otherwise~~
3 ~~permitted under Section 211.1 of this Code:~~

4 (a) For any P District, Social Service and Philanthropic Facility, Child Care Facility, School,
5 Post-Secondary Educational Institution, Religious Institution, Community Facility, Open Recreation

20 shall be reviewed and approved as part of the building permit and be the basis for further
21 alterations or expansions of the structure.

1 **SEC. 241. DOLORES HEIGHTS SPECIAL USE DISTRICT.**

2 In order to preserve and provide for an established area with a unique character and
3 balance of built and natural environment, with public and private view corridors and
4 panoramas, to conserve existing buildings, plant materials and planted spaces, to prevent
5 unreasonable obstruction of view and light by buildings or plant materials, and to encourage
6 development in context and scale with established character and landscape, there shall be a
7 Dolores Heights Special Use District as designated on Sectional Map No. 7 SU07 of the
8 Zoning Map *of the City and County of San Francisco*. In this ~~a~~District, all provisions of the ~~City~~
9 Planning Code applicable in RH-1 Districts shall continue to apply except that rear yard and
10 height limit provisions of this Section 241 shall be substituted for rear yard and height limit
11 provisions found elsewhere in this Code.

12 (a) The minimum rear yard depth shall be equal to 45 percent of the total depth of the
13 lot on which building is situated, but in no case shall the rear yard be less than 25 feet deep.

14 (b) No portion of a building shall exceed a height of 35 feet above the existing grade of
15 the lot, with the intent that the building shall be contained within an envelope that slopes
16 upward or downward with the slope of the property. The "height of a building" for purposes of
17 this Section, shall be measured in the manner described in Section ~~260 102.12~~ of ~~the City~~
18 *Planning this* Code, whether the lot being measured slopes upward or downward from the
19 street.

20 (c) Variances may be granted from the rear yard and height limit provisions in
21 Paragraphs (a) and (b) above in accordance with procedures specified in Section 305 of *this*
22
23
24
25

1 ~~the City Planning~~ Code provided that no such variance shall permit a building to have a height
2 in excess of that otherwise permitted in an RH-1 District.

3 **SEC. 243. VAN NESS SPECIAL USE DISTRICT.**

4 (a) **General.** A Special Use District entitled the Van Ness Special Use District, the
5 boundaries of which are shown on Sectional Map No. SU02 of the Zoning Map *of the City and*
6 *County of San Francisco*, is hereby established for the purposes set forth below.

7 (b) **Purposes.** In order to implement the objectives and policies of the Van Ness
8 Avenue Area Plan, a part of the General Plan, which includes ~~(i)~~ (1) creation of a mix of
9 residential and commercial uses on the boulevard, ~~(ii)~~ (2) preservation and enhancement of
10 the pedestrian environment, ~~(iii)~~ (3) encouragement of the retention and appropriate
11 alteration of architecturally and historically significant and contributory buildings, ~~(iv)~~ (4)
12 conservation of the existing housing stock, ~~(v)~~ (5) enhancement of the visual and urban design
13 quality of the street, and ~~(vi)~~ (6) the establishment of an area appropriate for a medical center
14 use (the "Van Ness Medical Use Subdistrict") to support citywide and regional health care at
15 the transit nexus of Van Ness Avenue and Geary Boulevard, the following controls are
16 imposed in the Van Ness Special Use District.

17 (c) **Controls.** All provisions of the ~~City~~ Planning Code applicable to an RC-4 District
18 shall apply except as otherwise provided in this Section.

19 (1) **Basic Floor Area Ratio.** The basic floor area ratio limit shall be 7.0 to 1 in
20 the 130-foot height district and at the hospital site within the Van Ness Medical Use
21 Subdistrict, and 4.8:1 in the 80-foot height district. These limits shall apply to dwellings
22 notwithstanding Section 124(b) of this Code, including floor space used for nonaccessory off-
23
24
;

1 street parking, driveways, and maneuvering areas. The floor area ratio may be increased to
2 up to 7.5:1 for a medical office building if located within the Van Ness Medical Use Subdistrict.
3 For definitions of ~~f~~Floor ~~a~~Area ~~r~~Ratio and ~~g~~Gross ~~f~~Floor ~~a~~Area, see Sections ~~102.11 and 102.9,~~
4 ~~respectively~~. The provisions allowing a floor area premium set forth in Section 125(a) shall not
5 apply in the Van Ness Special Use District.

6 (2) **Housing Density.** The restrictions on density set forth in the Zoning Control
7 Tables Sections 207, 207.1, 208, 209.1 and 209.2 of this Code shall not apply.

8 (3) **Height and Bulk Restrictions.** See Height and Bulk Map No. HT02. See
9 Section 270 of this Code for bulk limits. However, medical centers within the Van Ness
10 Medical Use Subdistrict subject to otherwise applicable standards for bulk limits per Section
11 270 and 271(c)(2) shall be permitted to exceed such standards to allow for unique massing
12 and volume required for medical facilities, if authorized as a Conditional Use pursuant to
13 Section 303 of this Code, in lieu of findings otherwise required under Section 271 of this
14 Code.

15 (4) **Awnings, Canopies, and Marquees.** Medical centers within the Van Ness
16 Medical Use Subdistrict subject to otherwise applicable standards for awnings per Section
17 136.1 of this Code shall be permitted to exceed such standards to allow for coverage of
18 patient drop-off and entry areas.

19 (5) **Medical Centers** within the Van Ness Medical Use Subdistrict subject to
20 otherwise applicable standards for obstructions over streets or alleys per ~~s~~Section 136(c)(1)(B)
21 of this Code shall be permitted to exceed such standards for vertical dimensions and
22
23
24
25

1 horizontal projections for architectural features to provide visual interest, achieve appropriate
2 articulation of building façades, and reduce pedestrian level wind currents.

3 (6) **Rear Yards.** The requirements of this Code applicable to rear yards may be
4 modified or waived by the Zoning Administrator pursuant to Section 307(g) if all of the
5 following conditions are met:

6 (A) The interior block open space formed by the rear yards of abutting
7 properties will not be adversely affected; and

8 (B) A comparable amount of usable open space is provided elsewhere on
9 the lot or within the development where it is more accessible to residents; and

10 (C) The access of light and air to abutting properties will not be
11 significantly impeded.

12 This provision shall be administered pursuant to the procedures *that which* are
13 applicable to variances, as set forth in Sections 306.1 through 306.5 and 308.2 of this Code.

14 (7) **Required Setbacks.** Setbacks for buildings exceeding a height of 50 feet
15 shall be regulated as provided in Section 253.2 of this Code.

16 (8) **Limitation of Nonresidential Uses.**

17 (A) **Residential Uses; Ratio Established.** In newly constructed
18 structures, nonresidential uses shall only be permitted if the ratio between the amount of net
19 additional occupied floor area for residential uses, as defined in this paragraph below, to the
20 amount of occupied floor area for nonresidential uses in excess of the occupied floor area of
21 structures existing on the site at the time the project is approved is 3 to 1 or greater. In
22 additions to existing structures *that which* exceed 20 percent of the gross floor area of the
23
24
25

1 existing structure, nonresidential uses shall be permitted in the addition in excess of 20
2 percent only if the ratio between the amount of occupied floor area for residential use, as
3 defined in this paragraph below, to the area of occupied floor area for nonresidential use is 3
4 to 1 or greater. This residential use ratio shall not apply to development sites in the Van Ness
5 Special Use District ~~that which~~ have less than 60 feet of street frontage on Van Ness Avenue
6 and have no street frontage other than the Van Ness Avenue frontage. For purposes of this
7 Section, "nonresidential uses" shall mean any use not defined as a Residential Use in Section 102
8 and principally or conditionally permitted in the Van Ness Special Use District. ~~except Dwelling Uses~~
9 ~~or Group Housing).~~

10 (B) **Reduction of Ratio of Residential Uses for Affordable Housing.**

11 The Planning Commission may modify the Van Ness Special Use District residential to
12 nonresidential use ratio between Golden Gate Avenue and California Street as a conditional
13 use in one of the following ways:

14 (i) **In-Lieu Fee.** By conditional use, the developer may elect to
15 fulfill the obligation to build housing by paying an in-lieu fee to the Affordable Housing Fund as
16 provided in Section 413 of this Code. No more than a 50 percent reduction of the required
17 housing for a specific project can be fulfilled by paying an in-lieu fee. Use of these funds shall
18 provide affordable housing within 2,000 feet of the Van Ness Special Use District. The in-lieu
19 fee shall be determined by the following formula:

20 (1) $(\text{Lot Area} \times \text{FAR})/4 \times 3 =$
21 Residential SQ. FT.
22 Requirement

1 (2) Residential SQ. FT.

2 Requirement - Residential SQ.

3 FT. Developed = LOSS

4 (3) LOSS x \$15 = In-Lieu Fee

5
6 (ii) **Providing Affordable Housing.** By conditional use, the
7 developer may reduce up to 50 percent of the required amount of on-site housing by
8 maintaining a portion of that housing as permanently affordable for the life of the project.
9 Affordable units shall be managed by a nonprofit housing agency through a duly executed
10 agreement between the project sponsor, the nonprofit agency, and the Planning Department.
11 The mix of affordable units retained in the project shall conform to the overall dwelling unit
12 size mix of the project. The portion of retained residential ~~that which~~ shall be affordable will be
13 determined by calculating the number of market rate units ~~that which~~ could be subsidized by
14 the amount of "in-lieu fee" calculated in Paragraph (i) above. The number of square feet of
15 affordable housing shall be calculated in the following manner:

16 (1) In-Lieu Fee Square Feet of
17 Affordable Housing
18 \$30/square foot = Retained in the
19 subsidy Project

20
21 (iii) **Annual Reporting, Evaluation, and Adjustments to**
22 **Affordability and Fee Calculations.** The Department shall report annually to the Planning
23
24

1 Commission on the activity and utilization of Section 243(~~dc~~)(8)(B). Based on an evaluation of
2 this report, the Planning Commission may initiate a modification or deletion of Section
3 243(~~dc~~)(8)(B). The dollar amounts used in the calculation for Paragraphs (i) and (ii) of this
4 Subsection shall be subject to annual adjustments in accord with Section 413.6(1) of this
5 Code. Affordability shall be defined by rents or sale prices affordable by households with no
6 more than 80 percent of median income standards developed by HUD.

7 (iv) If the *Planning* Commission finds that taking into consideration
8 projects constructed since the effective date of the Van Ness Special Use District and the
9 housing development potential remaining in the District the overall objective of adding a
10 substantial increment of new housing on Van Ness Avenue will not be significantly
11 compromised, the Commission may by conditional use modify the 3:1 housing ratio or may
12 modify the rules regarding the timing and location of linked projects if in addition to Section
13 303(c) standards of this Code it finds that:

14 (1) The project is to provide space for expansion of an
15 established business from an adjacent site (for this purpose two sites separated by an alley
16 shall be deemed to be adjacent); or,

17 (2) The project is to provide space for an institutional, hotel,
18 medical, cultural, or social service use meeting an important public need which cannot
19 reasonably be met elsewhere in the area; and

20 (3) Housing cannot reasonably be included in the project
21 referred to in (1) and (2) above.

1 The Commission shall consider the feasibility of requiring the project to be constructed
2 in such a manner that it can support the addition of housing at some later time.

3 ****

4 (D) **Nonconforming Uses.** A use which existed lawfully at the effective
5 date of this Section and which fails to conform to the use limitation of Section 243(~~dc~~)(8)(A)
6 above, shall be considered a nonconforming use and subject to the provisions of Sections 180
7 through 188 of this Code, including the provisions of Section 182 regarding change of use,
8 except as follows:

9 (i) In calculating the cost of structural alterations pursuant to
10 Section 181(b)(4), the cost of reinforcing the building to meet the standards for seismic loads
11 and forces of the 1975 Building Code shall not be included; and

12 (ii) Notwithstanding the provisions of Section 181(b), the structure
13 occupied by the nonconforming use may be enlarged by an amount equal to 20 percent of the
14 gross floor area of the existing structure.

15 (E) **Demolitions.** All demolitions of buildings containing residential use
16 and all conversions from residential uses to nonresidential uses above the ground floor shall
17 be permitted only if authorized as a conditional use under Section 303 of this Code, unless the
18 Director of the Department of Building Inspection or the Chief of the Bureau of Fire Prevention
19 and Public Safety determines that the building is unsafe or dangerous and that demolition is
20 the only feasible means to secure the public safety. When considering whether to grant a
21 conditional use permit for the demolition or conversion, in lieu of the criteria set forth in
22 ~~Planning Code~~ Section 303 of this Code, consideration shall be given to the adverse impact on
23
24

1 the public health, safety and general welfare of the loss of housing stock in the ~~the~~ District and to
2 any unreasonable hardship to the applicant if the permit is denied. The definition of residential
3 use shall be as set forth in Section 243(~~dc~~)(8)(A), but shall not include any guest room in a
4 building classified as a residential hotel subject to the Residential Hotel Unit Conversion and
5 Demolition Ordinance.

6 A ~~e~~Conditional ~~Use permit authorization~~ shall not be required if the demolition permit is
7 sought in order to comply with a court order directing or permitting the owner to demolish a
8 building because it is unsafe. No person shall be permitted to construct anything on the site of
9 a demolished building subject to such an order for a period of two years unless (a) the
10 proposal is for at least the same number and size of dwelling units and guest rooms and the
11 same amount of nonresidential floor area as that which was demolished or (b) the applicant
12 requests and is granted an exemption from this requirement on the ground that the applicant
13 has demonstrated that (1) the need for demolition did not arise because of the deliberate or
14 unreasonable neglect of the maintenance of the building, or that (2) the restrictions would
15 cause undue hardship to the property owner or that (3) the restrictions would leave the
16 property without any substantial remaining market value or reasonable use.

17 (9) **Residential Parking.** Projects with parking which exceeds the amount
18 permitted in Section 151.1 for an RC District shall be permitted if:

19 (A) the project was approved prior to the effective date of this Ordinance
20 No. 232-14;

21 (B) the project builds no more parking than the amount approved; and
22
23
24
25

1 (C) the project proceeds to construction within three years of the effective
2 date of this Ordinance No. 232-14.

3 (10) **Medical Center Parking.** Notwithstanding any contrary provision of this
4 Code, the maximum parking provisions for the Van Ness Medical Use Subdistrict shall not
5 exceed the lesser of 990 spaces or 125% percent of the minimum number of spaces required
6 by Code in the aggregate for the Cathedral Hill Campus which, for purposes of this
7 ~~subsection~~, shall be the Van Ness Medical Use District and Assessor's Block 0690, Lot 016,
8 located at 1375 Sutter Street. Any parking sought up to this maximum but that exceeds the
9 parking provisions outlined elsewhere in this Code may only be granted by the Planning
10 Commission as a Conditional Use Aauthorization.

11 (11) **Medical Center Loading.** Loading standards for medical centers within the
12 Van Ness Medical Use Subdistrict applicable under Section 154(b) of this Code may be
13 reduced from the required minimum dimensions through a Conditional Use Aauthorization,
14 provided that the dimensions provided will be sufficient to meet the reasonably foreseeable
15 loading demands associated with the proposed facility

16 (12) **Adult Entertainment Businesses Enterprises.** ~~Adult Businesses per Section 102~~
17 ~~of this Code The uses described in Section 221(k) of this Code~~ are not permitted.

18 (13) **Entertainment Uses.** Nighttime Entertainment and Arts Activities, as defined in
19 Section 102 Other Entertainment Uses as defined in Section 790.38 of this Code shall require
20 notification as set forth in Section 312 of this Code.

21 (14) **Medical Center Street Frontages.** If authorized as a Conditional Use
22 under Section 303 of this Code, a medical center within the Van Ness Medical Use Subdistrict
23
24
25

1 may deviate from the street frontage requirements of Section 145.1 of this Code, so long as
2 the Planning Commission finds that the proposed street frontages otherwise achieve the
3 intended purposes of Section 145.1 to "preserve, enhance and promote attractive, clearly
4 defined street frontages that are pedestrian-oriented, fine-grained, and which are appropriate
5 and compatible with the buildings and uses" in the surrounding areas.

6 **(15) Reduction of Ground Level Wind Currents.**

7 (A) New buildings and additions to existing buildings shall be shaped, or
8 other wind baffling measures shall be adopted, so that the development will not cause year-
9 round ground level wind currents to exceed, more than 10 percent of the time, between 7:00
10 a.m. and 6:00 p.m., the comfort level of 11 m.p.h. equivalent wind speed in areas of
11 pedestrian use and seven m.p.h. equivalent wind speed in public seating areas. When pre-
12 existing ambient wind speeds exceed the comfort levels specified above, the building shall be
13 designed to reduce the ambient wind speeds in efforts to meet the goals of this requirement.

14 (B) An exception to this requirement may be permitted but only if and to
15 the extent that the project sponsor demonstrates that the building or addition cannot be
16 shaped or wind baffling measures cannot be adopted without unduly restricting the
17 development potential of the building site in question.

18 (i) The exception may permit the building or addition to increase
19 the time that the comfort level is exceeded, but only to the extent necessary to avoid undue
20 restriction of the development potential of the site.

1 (ii) Notwithstanding the above, no exception shall be allowed and
2 no building or addition shall be permitted that causes equivalent wind speeds to reach or
3 exceed the hazard level of 26 m.p.h. for a single hour of the year.

4 (C) For the purposes of this Section, the term "equivalent wind speed"
5 shall mean an hourly wind speed adjusted to incorporate the effects of gustiness or turbulence
6 on pedestrians.

7 (d) **Van Ness Medical Use Subdistrict – Conditional Use for Medical Center.**

8 Within the Van Ness Medical Use Subdistrict, the boundaries of which are shown on
9 Sectional Map No. SU02 of the Zoning Map, medical facilities affiliated with the same
10 institution, separated only by a street or alley, shall be considered a single medical center for
11 purposes of this section.

12 (~~H~~) The "Van Ness Medical Use Subdistrict" shall be defined as the area shown on
13 Sectional Map No. SU02, to provide medical services by a licensed medical provider. The
14 purpose of the Subdistrict is to allow for the development of a seismically compliant medical
15 facility with unique design requirements not otherwise permitted within the Van Ness Special
16 Use District. To the extent provided in Section 243, deviations from the controls of Section
17 243 shall be permitted in the Subdistrict relating to bulk, FAR, parking, loading, projections
18 and obstructions over streets and alleys, and street frontage due to the unique requirements
19 of new medical centers.

20 **SEC. 247. DOWNTOWN SUPPORT SPECIAL USE DISTRICT.**

21 (a) **Purpose.** In order to provide that a certain area within the C-3-S District be able to
22 be developed for ~~H~~H Hotel use with an increased basic floor area ratio of 7.5 to 1, there shall be
23
24
;

1 a "Downtown Support Special Use District" (also referred to as the "C-3-S (SU) District") as
2 designated on ~~Zoning~~ Sectional Map SU01 of the Zoning Map. Development at densities above
3 the basic floor area ratio of 7.5:1 in this special use district will not be permitted.

4 (b) **Requirements.** The basic and maximum floor area ratio of the C-3-S (SU) District,
5 after purchase of all market-rate, available TDR within the C-3-S District, shall be 7.5:1.
6 Where there are fewer square feet of TDR within the C-3-S District available than the
7 Planning Commission determines is required for a project, the Planning Commission may, as
8 part of a Section 309 review, authorize a project sponsor to make a monetary contribution
9 towards the preservation of a Landmark building within the C-3 area in an amount to be
10 determined by the Commission. For purposes of this Section 247, the C-3 area shall include
11 any C-3 District and any P District adjacent thereto. All other provisions of this Code
12 applicable to the C-3-S District shall apply in the C-3-S (SU) District.

13 **SEC. 248. TRANSIT CENTER C-3-O(SD) COMMERCIAL SPECIAL USE DISTRICT.**

14 A Special Use District entitled the "Transit Center C-3-O(SD) Commercial Special Use
15 District" is hereby established for a portion of the C-3-O(SD) district in the downtown area
16 around the Transbay Transit Center within the City and County of San Francisco, the
17 boundaries of which are designated on Sectional Map No. ~~7~~ SU01 of the Zoning Maps of the
18 City and County of San Francisco. The following provisions shall apply within the Special Use
19 District:

20 * * * *

21 (b) **Definitions of "Commercial Use."**

1 (1) "Commercial Use" shall mean any use other than a Residential Use, as defined
2 in Section 102 of this Code, ~~than dwellings and other housing uses~~ permitted in the underlying
3 zoning district, ~~and shall include any permitted or conditional use described in Sections 217 through~~
4 ~~226 and shall also include hotel uses permitted as conditional uses per Sections 216(b) and 303(g).~~

5 (c) **Controls.**

6 (1) All new development on lots larger than 15,000 square feet in the Special
7 Use District shall include not less than 2 gross square feet of principally or conditionally
8 permitted commercial uses for every 1 gross square foot of dwellings or other housing uses.

9 (d) **Exceptions.** Exceptions to the controls in ~~s~~Subsection (c) may be granted by the
10 Planning Commission according to the procedures in Section 309 only if the Commission
11 makes one of the following affirmative findings:

12 (1) That the development consists of multiple buildings on a single lot or
13 adjacent lots that are entitled as a single development project pursuant to Section 309, and
14 that commercial uses account for greater than 50% percent of the project's aggregate total
15 gross floor area for all buildings and where the project sponsor demonstrates that it is
16 infeasible or impractical to construct commercial uses on the footprint of the portion of the site
17 dedicated to dwellings and/or other housing uses due to the size and configuration of that
18 portion of the lot; or

19 (2) That the footprint of the portion of the site dedicated to dwellings and/or other
20 housing uses is less than 15,000 square feet and the lot contains existing buildings which are
21 to be retained.

1 **SEC. 249.1. FOLSOM AND MAIN RESIDENTIAL/COMMERCIAL SPECIAL USE**
2 **DISTRICT.**

3 (a) **Purpose.** In order to convert an under-utilized and outmoded industrial area to a
4 unique residential neighborhood close to downtown which will contribute significantly to the
5 City's housing supply, create tapered residential buildings, provide an appropriate mixture of
6 retail sales and personal services to support new residential development, provide a buffer of
7 office and parking use between the bridge and freeway ramps and the housing sites, and
8 allow the existing industrial, service and office uses to remain, there shall be the Folsom and
9 Main Residential/Commercial Special Use District as designated on Sectional Map No. ISU01
10 of the Zoning Map of the City and County of San Francisco.

11 (b) **Controls.** The following zoning controls are applicable in the
12 Residential/Commercial Special Use District.

13 ****

14 (2) **Uses.**

15 (A) Permitted uses are ~~(i) those listed in Sections 209.1 and 209.2 of this Code~~
16 ~~and (ii) those permitted in an RC-4 District,~~ plus the uses listed in subsubsection (e)(1)(B) below;
17 provided that, for newly constructed buildings or additions of 20 ~~twenty~~ percent (~~20%~~) or more
18 of an existing building's gross floor area, at least six net square feet of residential use is
19 provided for each one net square foot of non-residential use on any lot. Additions of less than
20 20 ~~twenty~~ percent (~~20%~~) of a building's gross floor area are exempt from the six to one
21 residential requirements. Once granted, this exemption from the residential development
22 requirement for building additions may not be repeated for any single property. Any addition of
23
24
25

1 more than 20 ~~twenty~~ percent (~~20%~~) of gross square feet of building area shall be required to
2 provide the housing on a ~~6 to 1~~ six-to-one basis for all of the additional building area. All areas
3 used for parking for either residential or non-residential uses shall be excluded in the
4 calculation of the residential/non-residential ratio. For the purposes of application of this 6 to 1
5 ratio, ~~Hotels, inns or hostels~~ as defined under Section 102 209.2(d) and (e) shall be considered
6 a non-residential rather than a residential use.

7 (B) The use provisions applicable to an RC-4 District shall be applicable
8 to the "Residential/Commercial" Subdistrict with the following modifications or additions:

9 (i) all uses defined as Institutional uses listed under Section 102 209.3
10 (~~"Institutions"~~) shall be permitted as of right as principal uses;

15 telecommunications and internet communication co-location, web-hosting and other similar
16 facilities, provided such uses are primarily conducted within enclosed buildings;

17 (iii) (iv) Automotive uses, as defined in Section 102 in lieu of Section
18 209.7, automotive uses shall be those permitted in Section 223(a), Section 223(m) (except that such use
19 shall be permitted as a principal use for only five (5) years after the construction of the
20 building, after which a Conditional Use authorization shall be required), and Private Auto
21 Parking Lots, as defined in Section 102 of this Code Section 223(p) (except that such parking lot shall
22 be a conditional use limited to two years per each conditional use authorization);

1 ~~(iv) (v) Section 209.8 shall not be applicable; Planned Unit~~
2 Developments, Arts Activities, and Mortuaries, as defined in Code Section 102, are not permitted.

21 shall be permitted as conditional uses;

1 *(xiii) (xiv) Internet Service Exchanges all uses listed in Section 227(r)*

2 shall be permitted as of right as principal uses.

3 (C) A nonconforming use may be changed to any equally or more
4 conforming use without providing the 6 to 1 ratio of required residential space.

5 (D) No use, even though listed as a permitted use or otherwise allowed,
6 shall be permitted in the Residential/Commercial Subdistrict which, by reason of its nature or

12 impact pedestrian spaces or movement, transit service, bicycle movement, or the overall
13 traffic movement in the district; ~~(D) (iv) that~~ accommodating off-street parking does not
14 degrade the overall urban design quality of the project; ~~(E) (v) that~~ parking does not diminish
15 the quality and viability of existing or planned streetscape enhancements; ~~(F) (vi) that~~ for
16 residential projects of 50 units or more, all residential accessory parking in excess of 0.5
17 spaces per unit is stored and accessed by mechanical stackers or lifts, valet, or other space-

19 and discourages the use of vehicles for commuting for daily errands; ~~(G) (vii) that~~ projects that
20 provide 10 or more spaces for non-residential uses dedicate 5% percent of those spaces,
21 rounded down, to short-term, transient use by vehicles from certified car sharing organizations
22 per Section 166, vanpool, rideshare, taxis, or other co-operative auto programs; ~~(H) (viii) that~~

3 provided by a project in the Special Use District. Should impact fees, rather than in kind
4 provision of infrastructure improvements, be provided in whole or part, such fees shall be
5 deposited in the Market & Octavia Community Improvements Fund as proposed to be
6 established by the Area Plan. Fees deposited in the Market & Octavia Community
7 Improvements Fund, as proposed to be established by the Area Plan, may be used to support
8 the indoor community facility.

15 (d) **Waller Street.** The project sponsor shall gain approval for the use of Waller Street
16 from the Board of Supervisors prior to issuance of a building or site permit.

17 (e) **Expiration.** ~~If a site or building permit has not been issued and construction~~
18 ~~commenced on the mixed-use project described above, the provisions of this Special Use~~
19 ~~District shall expire five years from the effective date of this legislation.~~

1 **SEC. 249.33. VAN NESS & MARKET DOWNTOWN RESIDENTIAL SPECIAL USE**
2 **DISTRICT.**

3 (a) **Purpose.** There shall be a Van Ness & Market Downtown Residential Special Use
4 District, which is comprised of the parcels zoned C-3-G in the Market Octavia Better
5 Neighborhoods Plan area, and whose boundaries are designated on Sectional Map No. 2SU02
6 and 7SU07 of the Zoning Map of the City and County of San Francisco. This dDistrict is
7 generally comprised of parcels focused at the intersections of Van Ness Avenue at Market
8 Street and South Van Ness Avenue at Mission Street, along with parcels on both sides of
9 Market and Mission Streets between 10th and 12th Streets. This dDistrict is intended to be a
10 transit-oriented, high-density, mixed-use neighborhood with a significant residential presence.
11 This area is encouraged to transition from largely a back-office and warehouse support
12 function to downtown into a more cohesive downtown residential district, and serves as a
13 transition zone to the lower scale residential and neighborhood commercial areas to the west
14 of the C-3. A notable amount of large citywide commercial and office activity will remain in the
15 area, including government offices supporting the Civic Center and City Hall. This area was
16 initially identified in the Downtown Plan of the General Plan as an area to encourage housing
17 adjacent to the downtown. As part of the city's Better Neighborhoods Program, this concept
18 was fully articulated in the Market and Octavia Area Plan, and is described therein.

19 (b) **Use Controls.**

20 (1) **Non-residential Uses.** For newly-constructed buildings or additions which
21 exceed 20 percent or more of an existing structure's gross floor area, non-residential uses are
22 not permitted above the ~~4th~~ fourth story, and at least two occupied square feet of residential
23
24
25

1 use shall be provided for each occupied square foot of non-residential use. In order to
2 accommodate local government office uses near City Hall, publicly-owned or leased buildings
3 or lots are exempted from the requirements of this ~~s~~Subsection.

4 (2) **Residential Density.** There shall be no density limit for residential uses by
5 lot area, but by the applicable requirements and limitations elsewhere in this Code, including
6 but not limited to height, bulk, setbacks, open space, and exposure, as well as by the Market
7 & Octavia Area Plan Fundamental Principals for Design, other applicable design guidelines,
8 applicable elements and area plans of the General Plan, and design review by the Planning
9 Department. The limitations set forth in the Zoning Control Table for the district in which the lot is
10 located of ~~Section 215~~ shall not apply.

11 (3) **Residential Affordable Housing Program.** All projects in this ~~d~~District shall
12 be subject to all the terms of Section 415 and following of the Inclusionary Affordable Housing
13 Program. Notwithstanding the foregoing, projects within the Van Ness and Market Downtown
14 Residential Special Use District shall at a minimum fulfill the requirements to the levels
15 specified in this section. Should Section 415 require greater contributions to the affordable
16 housing program, those requirements shall supercede this section. Proposed exceptions to
17 ~~these requirements due to hardships associated with construction type, specifically heights~~
18 ~~above 120 feet, are not applicable in this Special Use District because parcels are receiving~~
19 ~~an up zoning through increased density and benefits through the general transformation of the~~
20 ~~district to a transit oriented neighborhood with a mixed use character. Requirements and~~
21 ~~administration of this program shall follow the conditions outlined in Section 415 of *the*~~
22 ~~*Planning this*~~ Code unless otherwise specified in this ~~s~~Section.

(A) **Payment of Affordable Housing Fee.** Except as provided in Section 415.5(g) *of this Code*, all development projects subject to Section 415 et seq. in the Van Ness Market Special Use District shall be required to pay an Affordable Housing Fee under Section 415.5 equivalent to 20 percent of the number of units in the principal project.

(B) **Alternatives to Payment of Affordable Housing Fee.** If a project sponsor both qualifies for and chooses to meet the requirements through an Alternative to the Program, the project sponsor may choose one of the Alternatives in Section 415.5(g).

(i) **On Site Housing Requirements and Benefits.** For projects that qualify for and choose to fulfill the requirements of Section 415 through the provision of onsite housing, the Planning Department shall require that 12% percent of all units constructed on the project site shall be affordable to qualifying households so that a project applicant must construct .12 times the total number of units produced in the principal project. If the total number of units is not a whole number, the project applicant shall round up to the nearest whole number for any portion of .5 or above.

(ii) **Compliance Through Off-Site Housing Development.** For projects that qualify for and choose to fulfill the requirements of Section 415 through the provision of off-site housing, the Planning Department shall require that 20% percent of all units constructed on the project site shall be affordable to qualifying households so that a project applicant must construct .20 times the total number of units produced in the principal project. If the total number of units is not a whole number, the project applicant shall round up to the nearest whole number for any portion of .5 or above.

1 **(4) Open Space Provider.** The off-site open space permitted by this Section
2 may be provided individually by the project sponsor or jointly by the project sponsor and other
3 project sponsors, provided that each square foot of jointly developed open space may count
4 toward only one sponsor's requirement. With the approval of the Planning Commission, a
5 public or private agency may develop and maintain the open space, provided that (A) ~~(i)~~ the
6 project sponsor or sponsors pay for the cost of development of the number of square feet the
7 project sponsor is required to provide, (B) ~~(ii)~~ provision satisfactory to the Commission is
8 made for the continued maintenance of the open space for the actual lifetime of the building
9 giving rise to the open space requirement, and (C) ~~(iii)~~ the Commission finds that there is
10 reasonable assurance that the open space to be developed by such agency will be developed
11 and open for use by the time the building, the open space requirement of which is being met
12 by the payment, is ready for occupancy.

13 **(A) Off-Site Provision of Required Open Space.** Up to 40 percent of
14 usable open space required by Sections 135 and 138 may be provided off-site if it is within the
15 SUD or within 900 feet of the project site and meets the standards described below for
16 publicly accessible open space described below.

17 **(B) Publicly-Accessible Open Space Standards.**

18 **(C) Open space must be of one or more of the following types:**

19 (i) An unenclosed park or garden at street grade or following the
20 natural topography, including improvements to hillsides or other unimproved public areas
21 according to the Market & Octavia Area Plan;

1 (ii) An unenclosed plaza at street grade, with seating areas and
2 landscaping and no more than 10 percent of the floor area devoted to food or beverage
3 service;

5 standards described in Section 827(g)(3)(A) - (E) of this Code;

6 (iv) A terrace or roof garden with landscaping;

7 (v) Streetscape improvements with landscaping and pedestrian
8 amenities that result in additional space beyond the pre-existing sidewalk width and conform
9 to the Market & Octavia Area Plan, such as sidewalk widening or building setbacks; and

10 (vi) Streetscape improvements with landscaping and pedestrian
11 amenities on alleyways from building face to building face, beyond basic street tree planting or
12 street lighting as otherwise required by this Code, in accordance with the Market & Octavia
13 Area Plan.

14 ****

15 (E) **Maintenance.** Open spaces shall be maintained at no public
16 expense, except as might be provided for by any community facilities district that may be
17 formed. The owner of the property on which the open space is located shall maintain it by
18 keeping the area clean and free of litter and keeping in a healthy state any plant material that
19 is provided. Conditions intended to assure continued maintenance of the open space for the
20 actual lifetime of the building giving rise to the open space requirement may be imposed in
21 accordance with the provisions of Section 309.1 of this Code.

22 ****

1 (5) **Lot Coverage.** The rear yard requirements of Section 134 *of this Code* shall
2 not apply. Lot coverage is limited to 80 percent at all residential levels except on levels in
3 which all residential units face onto a public right-of-way. The unbuilt portion of the lot shall be
4 open to the sky except for those obstructions permitted in yards per Section 136(c) *of this*
5 *Code*. Exceptions to the 20 percent open area may be granted pursuant to the procedures of
6 Section 309 for conversions of existing non-residential structures where it is determined that
7 provision of 20 percent open area would require partial demolition of the existing non-
8 residential structure.

9 (6) **Floor Area Ratio.**

10 (A) The maximum FAR allowed, except as allowed in this Section, shall
11 be that described in Section 123(~~C~~), provided that it shall not be greater than 9:1. The

19 exceed the maximum ratio described in Section 123(c) *of this Code* through participation in the
20 Van Ness and Market Affordable Housing and Neighborhood Infrastructure Program,
21 according to the procedures described in Section 424.

1 (ii) Notwithstanding the provisions of Sections 127 and 128 *of this*
2 *Code*, projects in this Special Use District are not eligible to acquire Transferable Development
3 Rights from a Transfer Lot or Lots pursuant to the provisions of Sections 127 *and* - 128 for that
4 increment of FAR above the base FAR limit in Section 124 up to the maximum FAR described
5 in Section 123(c). Instead, a project may pay to the City's Citywide Affordable Housing Fund
6 thirty dollars (\$30) per additional gross square foot for that increment of FAR above the base
7 FAR limit in Section 124 up to the maximum FAR described in Section 123(c). Any monies
8 deposited into the Citywide Affordable Housing Fund shall be administered as provided for in
9 Section 415 et seq.

4 the provisions of Section 140 shall only be granted upon a determination that the proposed
5 design provides adequate access to air and light consistent with the intent of Section 140.

6 (b) **The Development Agreement for the Trinity Plaza Development Project.** This

22 explicitly state that by transferring density, the providing lot is foregoing all rights to develop on
23
24
25

1 the providing lot the number of units and amount of non-residential square footage
2 transferred. In all cases, lots receiving density transfers will continue to be subject to all
3 relevant controls and guidelines notwithstanding new maximum allowed density. The NSR

15 (3) **Temporary Structures.** The Zoning Administrator may authorize a
16 temporary structure without a public hearing provided that the structure is occupied by a use

18 **SEC. 253. REVIEW OF PROPOSED BUILDINGS AND STRUCTURES EXCEEDING A**
19 **HEIGHT OF 40 FEET IN RH DISTRICTS, OR MORE THAN 50 FEET IN RM AND RC**
20 **DISTRICTS.**

22 RC District, established by the use district provisions of Article 2 of this Code, wherever a
23
24
25

1 height limit of more than 40 feet in a RH District, or more than 50 feet in a RM or RC District,
2 is prescribed by the height and bulk district in which the property is located, any building or
3 structure exceeding 40 feet in height in a RH District, or 50 feet in height in a RM or RC
4 District, shall be permitted only upon approval by the Planning Commission according to the

8 (b) Commission review of proposals.

9 (1) In reviewing any such proposal for a building or structure exceeding 40 feet

12 Commission shall consider the expressed purposes of this Code, of the RH, RM, or RC
13 Districts, and of the height and bulk districts, set forth in Sections 101, ~~206 through 206.3~~ 209.1,
14 209.2 209.3, and 251 hereof, as well as the criteria stated in Section 303(c) of this Code and
15 the objectives, policies and principles of the ~~Master~~ General Plan, and may permit a height of
16 such building or structure up to but not exceeding the height limit prescribed by the height and
17 bulk district in which the property is located.

18 (2) ~~(1) On narrow streets and alleys.~~ In reviewing a proposal for a building
19 exceeding 50 feet in RM and RC districts, the Planning Commission may require that the
20 permitted bulk and required setbacks of a building be arranged to maintain appropriate scale
21 on and maximize sunlight to narrow streets (rights-of-way 40 feet in width or narrower) and
22 alleys.

1 **SEC. 260. HEIGHT LIMITS: MEASUREMENT.**

2 (a) **Method of Measurement.** The limits upon the height of buildings and structures
3 shall be as specified on the Zoning Map. In the measurement of height for purposes of such
4 limits, the following rules shall be applicable:

5 (1) The point above which such measurements shall be taken shall be as
6 specified ~~in the definition of "height" in this Code as follows.~~

7 (A) In the case of either (B) or (C) below, such point shall be taken at the
8 centerline of the building or, where the building steps laterally in relation to a street that is the basis
9 for height measurement, separate points shall be taken at the centerline of each building step.

10 (B) Where the lot is level with or slopes downward from a street at the centerline
11 of the building or building step, such point shall be taken at curb level on such a street. This point shall
12 be used for height measurement only for a lot depth not extending beyond a line 100 feet from and
13 parallel to such street, or beyond a line equidistant between such street and the street on the opposite
14 side of the block, whichever depth is greater. Measurement of height for any portion of the lot
15 extending beyond such line shall be considered in relation to the opposite (lower) end of the lot, and
16 that portion shall be considered an upward sloping lot in accordance with Subsection (C) below,
17 whether or not the lot also has frontage on a lower street.

18 (C) Where the lot slopes upward from a street at the centerline of the building or
19 building step, such point shall be taken at curb level for purposes of measuring the height of the closest
20 part of the building within 10 feet of the property line of such street; at every other cross-section of the
21 building, at right angles to the centerline of the building or building step, such point shall be taken as
22 the average of the ground elevations at either side of the building or building step at that cross-section.

1 The ground elevations used shall be either existing elevations or the elevations resulting from new
2 grading operations encompassing an entire block. Elevations beneath the building shall be taken by
3 projecting a straight line between ground elevations at the exterior walls at either side of the entire
4 building in the same plane.

5 (D) Where the lot has frontage on two or more streets, the owner may choose the
6 street or streets from which the measurement of height is to be taken, within the scope of the rules
7 stated above.

8 Where the height limits for buildings and structures are established by this Code, the upper
9 points to be taken for measurement of height shall be as prescribed in the provisions relating to such
10 height limits.

11 (2) The upper point to which such measurement shall be taken shall be the
12 highest point on the finished roof in the case of a flat roof, and the average height of the rise in
13 the case of a pitched or stepped roof, or similarly sculptured roof form, or any higher point of a
14 feature not exempted under Subsection (b) below. For any building taller than 550 feet in
15 height in the S-2 Bulk District, the height of the building shall be measured at the upper point
16 of all features of the building and exempted features in such cases shall be limited to only
17 those permitted in Subsection (b)(1)(M) and which are permitted by the Planning Commission
18 according to the procedures of Section 309.

19 (3) In cases where the height limit is 65 feet or less and a street from which
20 height measurements are made slopes laterally along the lot, or the ground slopes laterally on
21 a lot that also slopes upward from the street, there shall be a maximum width for the portion of
22 the building or structure that may be measured from a single point at curb or ground level,
23
24

1 according to the definition of "height," as specified in the following table. These requirements
2 shall not apply to any property to which the bulk limitations in Section 270 of this Code are
3 applicable.

9 **SEC. 263.28. SPECIAL EXCEPTIONS: SALI DISTRICTS IN THE 40-55-X HEIGHT AND**
10 **BULK DISTRICT.**

11 ****

(c) **Controls.**

13 (1) **Additional Height Permitted.** In SALI Districts in the 40-55-X Height and
14 Bulk District, buildings are limited to a maximum height of 40 feet unless all of the following
15 criteria are met, in which case they may extend to a maximum height of 55 feet:

16 (A) At least one ~~s~~Story of the ~~b~~Building, as defined in Section 102.23,
17 located on the First ground sStory or above, as defined in Section 102.24 under the definition for
18 Story, is designated for the exclusive use of Arts Activities, as defined in Section 102.2. If the
19 First Story ground floor is designed for the use of Arts Activities, it shall also be permitted to
20 contain lobbies, egress, building services, and other features necessary for the operation of
21 the building and permitted uses elsewhere in the building.

1 (B) Any such story dedicated to arts activities pursuant to ~~s~~Subsections
2 (2) and (3) below, regardless of its location within the building, shall have a minimum floor-to-
3 floor height of 15 feet.

4 (2) **Timing of Designation.** In the case of the new construction of a building that
5 extends beyond 40 feet in height, exclusive of permitted obstructions under Section 260(b),
6 any designated arts activity story shall be established prior to the issuance of a first building
7 permit or along with any associated Planning Commission action, whichever occurs first. In
8 the case of buildings that were constructed prior to the effective date of this Section that would
9 be expanded such that they would extend beyond 40 feet in height, exclusive of permitted

21 feet in height, exclusive of permitted obstructions under Section 260(b).

1 Section 4. Article 3 of the Planning Code is hereby amended by amending Sections

18 servicing uses in the area; and

19 (B) ~~(ii)~~ The proposed use will serve the neighborhood, in whole or
20 in significant part, and the nature of the use requires a larger size in order to function; and

22 in discrete elements which respect the scale of development in the district; and
23
24

15 (3) ~~That s~~Such use or feature as proposed will comply with the applicable
16 provisions of this Code and will not adversely affect the General Plan; and

17 (4) ~~With respect to applications filed pursuant to Article 7 of this Code, that s~~Such use
18 or feature as proposed will provide development that is in conformity with the stated purpose
19 of the applicable *Neighborhood Commercial Use* District; and

20 (5) The use or feature satisfies any criteria specific to the use or feature in Subsections
21 (g), et seq. of this Section. ~~(A) With respect to applications filed pursuant to Article 7, Section 703.2(a),~~
22 ~~for a movie theater use as defined in Planning Code Section 790.64, an Adult Entertainment use as~~
23
24
25

1 ~~defined in Planning Code Section 790.36, or Other Entertainment uses as defined in Planning Code~~
2 ~~Section 790.38, that such use or feature will:~~

3 ~~(i) Not be located within 1,000 feet of another such use, if the proposed~~
4 ~~use or feature is an Adult Entertainment Use, as defined by Section 790.36 of this Code; and/or~~

5 ~~(ii) Not be open between two a.m. and six a.m.; and~~

6 ~~(iii) Not use electronic amplification between midnight and six a.m.; and~~

7 ~~(iv) Be adequately soundproofed or insulated for noise and operated so~~
8 ~~that incidental noise shall not be audible beyond the premises or in other sections of the building and~~
9 ~~fixed source equipment noise shall not exceed the decibel levels specified in the San Francisco Noise~~
10 ~~Control Ordinance.~~

11 ~~(B) Notwithstanding the above, the Planning Commission may authorize a~~
12 ~~conditional use which does not satisfy the criteria set forth in (5)(A)(ii) and/or (5)(A)(iii) above, if facts~~
13 ~~presented are such to establish that the use will be operated in such a way as to minimize disruption to~~
14 ~~residences in and around the district with respect to noise and crowd control.~~

15 ~~(C) The action of the Planning Commission approving a conditional use does not~~
16 ~~take effect until the appeal period is over or while the approval is under appeal.~~

17 ~~(6) With respect to applications for live/work units in RH, RM and RTO Districts filed~~
18 ~~pursuant to Section 209.9(f) or 209.9(h) of this Code, that:~~

9 **(f) Conditional Use Abatement.** The Planning Commission may consider the possible
10 revocation of a conditional use or the possible modification of or placement of additional
11 conditions on a conditional use when the Planning Commission determines, based upon
12 substantial evidence, that the applicant for the conditional use had submitted false or
13 misleading information in the application process that could have reasonably had a substantial
14 effect upon the decision of the Commission or the conditional use is not in compliance with a
15 condition of approval, is in violation of law if the violation is within the subject matter
16 jurisdiction of the Planning Commission, or operates in such a manner as to create
17 hazardous, noxious or offensive conditions enumerated in Section 202(c) if the violation is
18 within the subject matter jurisdiction of the Planning Commission and these circumstances
19 have not been abated through administrative action of the Director, the Zoning Administrator
20 or other City authority. Such consideration shall be the subject of a public hearing before the
21 Planning Commission but no fee shall be required of the applicant or the subject conditional
22 use operator.

1 (1) Public Hearing. The Director of Planning or the Planning Commission may
2 seek a public hearing on conditional use abatement when the Director or Commission has
3 substantial evidence submitted within one year of the effective date of the Conditional Use
4 authorization that the applicant for the conditional use had submitted false or misleading
5 information in the application process that could have reasonably had a substantial effect
6 upon the decision of the Commission or substantial evidence of a violation of conditions of
7 approval, a violation of law, or operation which creates hazardous, noxious or offensive
8 conditions enumerated in Section 202(c).

9 (2) Notification. The notice for the public hearing on a conditional use abatement
10 shall be subject to the notification procedure ~~as~~ described in Sections 306.3 and 306.8 except
11 that notice to the property owner and the operator of the subject establishment or use shall be
mailed by regular and certified mail.

13 (3) Consideration. In considering a conditional use revocation, the Commission
14 shall consider whether and how the false or misleading information submitted by the applicant
15 could have reasonably had a substantial effect upon the decision of the Commission, or the
16 Board of Supervisors on appeal, to authorize the conditional use, substantial evidence of how
17 any required condition has been violated or not implemented or how the conditional use is in
18 violation of the law if the violation is within the subject matter jurisdiction of the Planning
19 Commission or operates in such a manner as to create hazardous, noxious or offensive
20 conditions enumerated in Section 202(c) if the violation is within the subject matter jurisdiction
21 of the Planning Commission. As an alternative to revocation, the Commission may consider
22 how the use can be required to meet the law or the conditions of approval, how the
23
24
j

1 hazardous, noxious or offensive conditions can be abated, or how the criteria of Section
2 303(c) can be met by modifying existing conditions or by adding new conditions which could
3 remedy a violation.

4 (4) **Appeals.** A decision by the Planning Commission to revoke a conditional
5 use, to modify conditions or to place additional conditions on a conditional use or a decision
6 by the Planning Commission refusing to revoke or amend a conditional use, may be appealed
7 to the Board of Supervisors within 30 days after the date of action by the Planning
8 Commission pursuant to the provisions of Section 308.1(b). The Board of Supervisors may
9 disapprove the action of the Planning Commission in an abatement matter by the same vote
10 necessary to overturn the Commission's approval or denial of a conditional use. The Planning
11 Commission's action on a conditional use abatement issue shall take effect when the appeal
12 period is over or, upon appeal, when there is final action on the appeal.

13 (5) **Reconsideration.** The decision by the Planning Commission with regards to
14 a conditional use abatement issue or by the Board of Supervisors on appeal shall be final and
15 not subject to reconsideration within a period of one year from the effective date of final action
16 upon the earlier abatement proceeding, unless the Director of Planning determines that:

17 (A) There is substantial new evidence of a new conditional use
18 abatement issue that is significantly different than the issue previously considered by the
19 Planning Commission; or

20 (B) There is substantial new evidence about the same conditional use
21 abatement issue considered in the earlier abatement proceeding, this new evidence was not
22 or could not be reasonably available at the time of the earlier abatement proceeding, and that
23
24
25

1 new evidence indicates that the Commission's decision in the earlier proceeding has not been
2 implemented within a reasonable time or raises significant new issues not previously
3 considered by the Planning Commission. The decision of the Director of Planning regarding
4 the sufficiency and adequacy of evidence to allow the reconsideration of a conditional use
5 abatement issue within a period of one year from the effective date of final action on the
6 earlier abatement proceeding shall be final.

7 (g) **Hotels and Motels.** ~~(1)~~ With respect to applications for development of tourist
8 hotels and motels, the Planning Commission shall consider, in addition to the criteria set forth
9 in Subsections (c) and (d) above:

10 ~~(1)~~ ~~(A)~~ The impact of the employees of the hotel or motel on the demand in the
11 City for housing, public transit, child_care, and other social services. To the extent relevant,
the Commission shall also consider the seasonal and part-time nature of employment in the
13 hotel or motel;

14 ~~(2)~~ ~~(B)~~ The measures that will be taken by the project sponsor to employ
15 residents of San Francisco in order to minimize increased demand for regional transportation;

16 ~~(3)~~ ~~(C)~~ The market demand for a hotel or motel of the type proposed; and

17 ~~(4)~~ ~~(D)~~ In the Transit Center C-3-O(SD) Commercial Special Use District, the
18 opportunity for commercial growth in the Special Use District and whether the proposed hotel,
19 considered with other hotels and non-commercial uses approved or proposed for major
20 development sites in the Special Use District since its adoption would substantially reduce the
21 capacity to accommodate dense, transit-oriented job growth in the District.

1 (2) ~~Notwithstanding the provisions of Subsection (g)(1) above, the Planning Commission~~
2 ~~shall not consider the impact of the employees of a proposed hotel or motel project on the demand in~~
3 ~~the City for housing where:~~

4 (A) ~~The proposed project would be located on property under the jurisdiction of~~
5 ~~the San Francisco Port Commission; and~~

6 (B) ~~The sponsor of the proposed project has been granted exclusive rights to~~
7 ~~propose the project by the San Francisco Port Commission prior to June 1, 1991.~~

8 (3) ~~Notwithstanding the provisions of Subsection (g)(1) above, with respect to the~~
9 ~~conversion of residential units to tourist hotel or motel use pursuant to an application filed on or before~~
10 ~~June 1, 1990 under the provisions of Chapter 41 of the San Francisco Administrative Code, the~~
11 ~~Planning Commission shall not consider the criteria contained in Subsection (g)(1) above; provided,~~
12 ~~however, that the Planning Commission shall consider the criteria contained in Subsection (g)(1)(B) at~~
13 ~~a separate public hearing if the applicant applies for a permit for new construction or alteration where~~
14 ~~the cost of such construction or alteration exceeds \$100,000. Furthermore, no change in classification~~
15 ~~from principal permitted use to conditional use in Section 216(b)(i) of this Code shall apply to hotels or~~
16 ~~motels that have filed applications on or before June 1, 1990 to convert residential units to tourist units~~
17 ~~pursuant to Chapter 41 of the San Francisco Administrative Code.~~

18 **(h) Internet Services Exchange.**

19 (1) With respect to application for development of Internet Services Exchange as
20 defined in Section 102, 209.6(e), the Planning Commission shall, in addition to the criteria set
21 forth in Subsection (c) above, find that:

1 (A) The intensity of the use at this location and in the surrounding
2 neighborhood is not such that allowing the use will likely foreclose the location of other
3 needed neighborhood-serving uses in the area;

4 (B) The building in which the use is located is designed in discrete
5 elements, which respect the scale of development in adjacent blocks, particularly any existing
6 residential uses;

7 (C) Rooftop equipment on the building in which the use is located is
8 screened appropriately.

9 (D) The back-up power system for the proposed use will comply with all
10 applicable ~~f~~Federal, ~~s~~State, regional, and local air pollution controls.

11 (E) Fixed-source equipment noise does not exceed the decibel levels
specified in the San Francisco Noise Control Ordinance.

13 (F) The building is designed to minimize energy consumption, such as
14 through the use of energy-efficient technology, including without limitation, heating, ventilating
15 and air conditioning systems, lighting controls, natural ventilation and recapturing waste heat,
16 and as such commercially available technology evolves;

17 (G) The project sponsor has examined the feasibility of supplying and, to
18 the extent feasible, will supply all or a portion of the building's power needs through on-site
19 power generation, such as through the use of fuel cells or co-generation;

20 (H) The project sponsor shall have submitted design capacity and
21 projected power use of the building as part of the conditional use application; and
22
23
24
25

1 (2) As a condition of approval, and so long as the use remains an Internet
2 Services Exchange, the project sponsor shall submit to the Planning Department on an
3 annual basis power use statements for the previous twelve-month period as provided by all
4 suppliers of utilities and shall submit a written annual report to the Department of Environment
5 and the Planning Department which shall state: (a) the annual energy consumption and fuel
6 consumption of all tenants and occupants of the Internet Services Exchange; (b) the number
7 of all diesel generators located at the site and the hours of usage, including usage for testing
8 purposes; (c) evidence that diesel generators at the site are in compliance with all applicable
9 local, regional, ~~s~~State, and ~~f~~Federal permits, regulations and laws; and (d) such other
10 information as the Planning Commission may require.

11 (3) The Planning Department shall have the following responsibilities regarding
12 Internet Services Exchanges:

13 (A) Upon the effective date of the requirement of a ~~e~~Conditional ~~u~~Use
14 ~~permit authorization~~ for an Internet Services Exchange, the Planning Department shall notify
15 property owners of all existing Internet Services Exchanges that the use has been reclassified
16 as a conditional use;

17 ~~(B) Upon the effective date of the requirement of a ~~e~~Conditional ~~u~~Use~~
18 ~~permit authorization~~ for an Internet Services Exchange, the Planning Department shall submit
19 to the Board of Supervisors and to the Director of the Department of Building Inspection a
20 written report covering all existing Internet Services Exchanges and those Internet Services
21 Exchanges seeking to obtain a ~~e~~Conditional ~~u~~Use ~~permit authorization~~, which report shall state
22 the address, assessor's block and lot, zoning classification, square footage of the Internet
23
24
25

1 Services Exchange constructed or to be constructed, a list of permits previously issued by the
2 Planning and/or Building Inspection Departments concerning the Internet Services Exchange,
3 the date of issuance of such permits, and the status of any outstanding requests for permits
4 from the Planning and/or Building Inspection Departments concerning Internet Services
5 Exchange; and

6 (C) Within three years from the effective date of the requirement of a
7 ~~e~~Conditional ~~#~~Use ~~permit~~ authorization for an Internet Services Exchange, the Planning
8 Department, in consultation with the Department of Environment, shall submit to the Board of
9 Supervisors a written report, which report shall contain the Planning Commission's evaluation
10 of the effectiveness of the conditions imposed on Internet Services Exchanges, and whether it
11 recommends additional or modified conditions to reduce energy and fuel consumption, limit air
12 pollutant emissions, and enhance the compatibility of industrial uses, such as Internet
13 Services Exchanges, located near or in residential or commercial districts.

15 (j) Change in Use or Demolition of Movie Theater Uses.

16 (1) With respect to a change in use or demolition of a ~~m~~Movie ~~t~~Theater use as
17 ~~set forth~~ defined in Sections ~~102 221.1~~, 703.2(b)(1)(B)(ii), 803.2(b)(1)(B)(iii) or 803.3(b)(1)(B)(ii),
18 in addition to the criteria set forth in Subsections (c) and (d) above, the Commission shall
19 make the following findings:

20 (A) Preservation of a ~~m~~Movie ~~t~~Theater use is no longer economically
21 viable and cannot effect a reasonable economic return to the property owner.
22
23
24
25

1 (~~i~~) For purposes of defining "reasonable economic return," the
2 Planning Commission shall be guided by the criteria for Fair Return on Investment "~~fair return on~~
3 ~~investment~~" as set forth in Section 102 228.4(a); and

4 (B) The change in use or demolition of the ~~m~~Movie ~~t~~Theater use will not
5 undermine the economic diversity and vitality of the surrounding ~~Neighborhood Commercial~~
6 District; and

7 (C) The resulting project will preserve the architectural integrity of
8 important historic features of the movie theater use affected.

10 (l) Change in Use or Demolition of General Grocery Store Uses.

11 (1) With respect to a change in use or demolition of ~~g~~General ~~g~~Grocery ~~s~~Store
12 use as ~~set forth defined~~ in Sections 102 218.2, 703.2(b)(1)(B)(iii), 803.2(b)(1)(B)(iv) or 803.3
13 (b)(1)(B)(iii) of this Code which use exceeds 5,000 gross square feet, in addition to the criteria
14 set forth in Subsections (c) and (d) above, the Commission shall make the following findings:

15 (A) Preservation of a ~~g~~General ~~g~~Grocery ~~s~~Store use is no longer
16 economically viable and cannot effect a reasonable economic return to the property owner.
17 The Commission may disregard the above finding if it finds that the change in use or
18 replacement structure in the case of demolition will contain a general grocery store that is of a
19 sufficient size to serve the shopping needs of nearby residents and offers comparable
20 services to the former general grocery store.

1 (i) For purposes of defining "reasonable economic return," the Planning
2 Commission shall be guided by the criteria for *Fair Return on Investment* "~~Fair~~~~Return~~ on
3 ~~Investment~~" ~~as~~ set forth in Section 102 228.4(a); and

4 (B) The change in use or demolition of the ~~g~~General ~~g~~Grocery ~~s~~Store use
5 will not undermine the economic diversity and vitality of the surrounding neighborhood.

6 **(m) Tobacco Paraphernalia Establishments.**

7 (1) With respect to a Tobacco Paraphernalia Establishment, as defined in
8 Section 102 227(v) of this Code, in addition to the criteria set forth in Subsections (c) and (d)
9 above, the Commission shall make the following findings:

10 (A) The concentration of such establishments in the particular zoning
11 district for which they are proposed does not appear to contribute directly to peace, health,
12 safety, and general welfare problems, including drug use, drug sales, drug trafficking, other
13 crimes associated with drug use, loitering, and littering, as well as traffic circulation, parking,
14 and noise problems on the district's public streets and lots;

15 (B) The concentration of such establishments in the particular zoning
16 district for which they are proposed does not appear to adversely impact the health, safety,
17 and welfare of residents of nearby areas, including fear for the safety of children, elderly and
18 disabled residents, and visitors to San Francisco; and

19 (C) The proposed establishment is compatible with the existing character
20 of the particular district for which it is proposed.

21 **(n) Massage Establishments.**

1 (1) With respect to Massage Establishments that are subject to Conditional Use
2 authorization, as defined in Sections 102 218.1, 790.60, and 890.60 of this Code, in addition to
3 the criteria set forth in Subsection (c) above, the Commission shall make the following
4 findings:

5 (A) Whether the applicant has obtained, and maintains in good standing,
6 a permit for a Massage Establishment from the Department of Public Health pursuant to
7 Section ~~1908~~ 29.25 of the San Francisco Health Code;

8 (B) Whether the use's *façade façade* is transparent and open to the public.
9 Permanent transparency and openness are preferable. Elements that lend openness and
10 transparency to a *façade* include:

11 (i) active street frontage of at least 25' *feet* in length where 75%
12 *percent* of that length is devoted to entrances to commercially used space or windows at the
13 pedestrian eye-level;

14 (ii) windows that use clear, untinted glass, except for decorative or
15 architectural accent;

16 (iii) any decorative railings or decorative grille work, other than wire
17 mesh, which is placed in front of or behind such windows, should be at least 75 percent open
18 to perpendicular view and no more than six feet in height above grade;

19 (C) Whether the use includes pedestrian-oriented lighting. Well lit
20 establishments where lighting is installed and maintained along all public rights-of-way
21 adjacent to the building with the massage use during the post-sunset hours of the massage
22 use are encouraged:
23
24
25

1 (D) Whether the use is reasonably oriented to facilitate public access.
2 Barriers that make entrance to the use more difficult than to an average service-provider in
3 the area are to be strongly discouraged. These include (but are not limited to) foyers equipped
4 with double doors that can be opened only from the inside and security cameras.

5 (o) **Eating and Drinking Uses.** ~~(1) Conditional Use Criteria.~~ With regard to a
6 ~~Conditional Use~~ authorization application for a Restaurant, Limited-Restaurant and Bar uses

10 ~~25%~~ percent of the total commercial frontage as measured in linear feet within the immediate
11 area of the subject site. For the purposes of this Section of the Code, the immediate area shall
12 be defined as all properties located within 300' of the subject property and also located within
13 the same zoning district.

14 (p) Adult Business and Other Entertainment Uses.

15 (1) With respect to conditional use authorization applications for Adult Business and
16 Other Entertainment uses, such use or feature shall:

17 (A) If the use is an Adult Business, it shall not be located within 1,000 feet of
18 another such use; and/or

19 (B) Not be open between two a.m. and six a.m.; and

20 (C) Not use electronic amplification between midnight and six a.m.; and

21 (D) Be adequately soundproofed or insulated for noise and operated so that
22 incidental noise shall not be audible beyond the premises or in other sections of the building and fixed-

1 source equipment noise shall not exceed the decibel levels specified in the San Francisco Noise Control
2 Ordinance.

3 (2) Notwithstanding the above, the Planning Commission may authorize a conditional
4 use which does not satisfy the criteria set forth in (q)(1)(B) and/or (q)(1)(C) above, if facts presented
5 are such to establish that the use will be operated in such a way as to minimize disruption to residences
6 in and around the district with respect to noise and crowd control.

7 (3) The action of the Planning Commission approving a conditional use does not take
8 effect until the appeal period is over or while the approval is under appeal.

9 (q) Power Plants. The controls of this Subsection shall apply to all Power Plants in M-1, M-2,
10 and PDR-1-G, and PDR-2 Districts, including any intensification of a Power Plants as described in
11 Section 178(c)(2).

13 Plant, the Commission shall consider the conditional use authorization requirements set forth in
14 Subsection (c) above and, in addition, shall only approve an application for a Conditional Use
15 authorization if facts are presented to establish that, on the basis of the record before the Commission:

16 (A) The benefits to the City's energy system resulting from the energy generated
17 by the proposed power plant cannot be obtained in a reasonable time from a technically and
18 economically feasible power plant and/or energy conservation project that would have materially fewer
19 potential environmental impacts considering, but not limited to, the following: (i) Emissions of criteria
20 air pollutants and greenhouse gas emissions; (ii) Storm-water and wastewater discharges; and (iii)
21 noise and vibration impacts.

1 (B) A newly proposed Power Plant use would not directly and adversely impact
2 existing or reasonably foreseeable adjoining land uses, or, as applied to a prior nonconforming use,
3 the extension of the power plant use or the increase in intensity of the use would not result in increased
4 direct and adverse impacts on existing or reasonably foreseeable adjoining land uses; and

5 (C) Granting Conditional Use authorization would not reasonably be expected to
6 leave known contamination in place in such a way that would prolong or increase public health risks
7 associated with such contamination at levels inconsistent with a risk-based remediation consistent with
8 the proposed power plant use; and

9 (D) Granting Conditional Use authorization would not reasonably be expected
10 to preclude future redevelopment and reuse of the property for non-power plant uses.

11 (2) Written Findings. The Planning Commission shall make detailed written findings
12 explaining the basis for its decision under this Section.

13 (3) Severability. In the event that a court or agency of competent jurisdiction holds that
14 Federal or State law, rule, or regulation invalidates any clause, sentence, paragraph of this Section or
15 the application thereof to any person or circumstances, it is intended that the court or agency sever
16 such clause, sentence, paragraph or section so that the remainder of this Section shall remain in effect.

14 (1) In addition to the standard permit review process, the design of projects for
15 all new construction shall be subject to design review and approval by Department staff. A
16 detailed design review will be initiated by Department staff working with the project sponsor, at

1 **SEC. 317. LOSS OF DWELLING UNITS THROUGH MERGER, CONVERSION, AND**
2 **DEMOLITION.**

3 (a) **Findings.** San Francisco faces a continuing shortage of affordable housing. There
4 is a high ratio of rental to ownership tenure among the City's residents. The General Plan
5 recognizes that existing housing is the greatest stock of rental and financially accessible
6 residential units, and is a resource in need of protection. Therefore, a public hearing will be
7 held prior to approval of any permit that would remove existing housing, with certain
8 exceptions, as described below. The Planning Commission shall develop a Code
9 Implementation Document setting forth procedures and regulations for the implementation of
10 this Section 317 as provided further below. The Zoning Administrator shall modify economic
11 criteria related to property values and construction costs in the Implementation Document as
12 warranted by changing economic conditions to meet the intent of this Section.

13 (b) **Definitions.** For the purposes of this Section 317, the terms below shall be defined
14 as follows:

19 gGroup hHousing, or SRO to Student Housing is also considered a conversion of a
20 Residential Unit. Notwithstanding the foregoing, the change of use or occupancy of a
21 dDwelling uUnit, gGroup hHousing, or SRO to Student Housing is not considered a conversion
22 of a Residential Unit if the dDwelling uUnit, gGroup hHousing or SRO will be Student Housing

6 of the criteria in Subsections (b)(2)(B) and (b)(2)(C), by up to 20% of their values should it

5 Planning Commission may reduce the numerical element of this criterion by up to 20% of its
6 value should it deem that adjustment is necessary to implement the intent of this Section 317,
7 to conserve existing housing and preserve affordable housing.

8 (8) "Rear ~~Facade Facade~~" *is defined in Section 102 of this Code shall mean that*
9 *portion of the Facade facing the part of a lot that most closely complies with the applicable Planning*

2 evaluation, a categorical exemption or a preliminary project assessment for the project on or
3 before the effective date of Ordinance No. 18-14, or, for new development subject to a
4 redevelopment plan, development agreement, interagency cooperation agreement, or other
5 agreement entered into by the City, the project sponsor submits proof that the sponsor has

18 (d) **Credits.** When determining the number of gross square feet of use to which the
19 TIDF applies, the Department shall provide the following credits:

20 (1) **Prior Use Credits.** There shall be a credit for prior uses eliminated on the
21 site. The credit shall be calculated according to the following formula:

1 (A) There shall be a credit for the number of gross square feet of use
2 being eliminated by the new development, multiplied by an adjustment factor to reflect the
3 difference in the fee rate of the use being added and the use being eliminated. The
4 adjustment factor shall be determined by the Department as follows:

5 (i) The adjustment factor shall be a fraction, the numerator of
6 which shall be the fee rate which the Department shall determine, in consultation with the
7 MTA, if necessary, applies to the economic activity category in the most recent calculation of
8 the TIDF Schedule approved by the Board or Supervisors for the prior use being eliminated by
9 the project.

10 (ii) The denominator of the fraction shall be the fee rate for the use
11 being added, as set forth in the most recent calculation of the TIDF Schedule approved by the
12 Board of Supervisors.

13 (B) A credit for a prior use may be given only if the prior use was active
14 on the site within five years before the date of the application for a building or site permit for
15 the proposed use.

16 (C) As of September 4, 2004, no sponsor shall be entitled to a refund of
17 the TIDF on a building for which the fee was paid under the former Chapter 38 of the San
18 Francisco Administrative Code.

19 (D) Notwithstanding the foregoing, the adjustment factor shall not exceed
20 one.

21 (2) **Policy Credits.** Development projects that meet the criteria outlined in
22 Subsection 411.3(d)(2)(B) may receive Policy Credits, subject to the following limitations:
23
24
25

1 (A) **Limit on Available Policy Credits.** When making a determination
2 under this Article for the amount of TIDF owed, the Department shall allocate available Policy
3 Credits, described in Section 411.3(d)(2)(B); as follows:

4 (i) No development project shall receive a Policy Credit under
5 Section 411.3(d)(2)(B) if the total amount of credits received by development projects under
6 that section would exceed 3% of the total anticipated TIDF revenue for the current Fiscal
7 Year. To the extent Policy Credits allowed in any Fiscal Year are not allocated, the
8 unallocated amount shall be carried over to the next Fiscal Year. The amount to be carried
9 over to the next Fiscal Year shall be calculated based upon 3% of the sum of the actual TIDF
10 revenues collected during the current Fiscal Year and the total amount of policy credits
11 granted during the current Fiscal Year.

12 (ii) In no event shall the Policy Credits for a single development
13 exceed 100% of the total TIDF that would otherwise be due.

14 (B) The Planning Department shall maintain and shall make available on
15 the Planning Department's website, a list showing:

16 (i) All development projects receiving Policy Credits under Section
17 411.3(d)(2)(C) of this Article, and, if applicable, the date(s) of approval and the issuance of
18 any building or site permit;

19 (ii) The total amount of Policy Credits received with respect to each
20 listed development project;

21 (iii) Any Policy Credits allocated to a development project the site
22 permit for which is modified, cancelled, revoked, or has expired;

1 (iv) Such other information as the Department may determine is
2 appropriate.

3 (C) **Available Policy Credits.** The following development projects may
4 receive Policy Credits, subject to the limitations set forth in Section 411.3(d)(2)(A):

5 (i) **Small Businesses.** Businesses that either occupy or expand
6 any preexisting non-residential space, provided that: (a) the gross square footage of such
7 non-residential space is not greater than 5,000 square feet, and (b) the business is not
8 formula retail, as defined in this Code. Only the gross square footage dedicated to such
9 business shall be eligible for the Policy Credit.

10 (ii) **Reduced Parking Developments.** In zoning districts that set a
11 parking maximum, development projects that provide a lower number, or ratio, of off-street
12 parking than permitted on an as-of-right basis without conditional use authorization in Table
13 151.1 of this Code. The credit shall be determined by the Department as follows:

Max. Allowed in Planning Code Table 151.1	50% Max. less	of or	More than 50% but less than 60% of Max.	60% or more but less than 75% of Max.	75% or more but less than 90% of Max.	90% or Max. or more
TIDF Credit	90%		80%	50%	20%	0%

18 (D) **Process for Allocation of Policy Credits.** The Policy Credits
19 described in this Section shall be allocated to qualifying development projects by the Zoning
20 Administrator at the moment their first entitlement is approved by the Planning Commission or
21 the Planning Department. In addition, the following considerations shall apply:

1 (i) If a development project is modified for any reason after it is first
2 approved, and such modification would result in a potential increase in the amount of Policy
3 Credits allocated to it, the development project shall maintain the credits allocated on the list
4 described in Section 411.3(d)(2)(B)(A)(v). Any additional credit may only be allocated at the
5 time such modification is approved, subject to the limits of Section 411.3(d)(2)(A)(i).

6 (ii) If a development project is modified for any reason after it is
7 first approved, and such modification would result in a potential decrease in the amount of
8 Policy Credits allocated to it, the remainder Policy Credits shall become available for other
9 qualifying development projects during the approval period on account of such a modification.

10 (iii) The maximum amount of Policy Credits available for the
11 approval period shall be increased by the amount of Policy Credits allocated to a development
12 project for which an issued site or building permit has been finally cancelled or revoked, or
13 has expired, with the irrevocable effect of preventing construction of the development.

14 (3) **Limitation.** In no event shall the combined Policy Credits and Prior Use
15 Credits for a single development exceed 100% of the total TIDF that would otherwise be due.

18 **SEC. 607.1. NEIGHBORHOOD COMMERCIAL AND RESIDENTIAL-COMMERCIAL**
19 **DISTRICTS.**

20 Signs located in Neighborhood Commercial Districts shall be regulated as provided
21 herein, except for those signs which are exempted by Section 603 of this Code or as more
22 specifically regulated in a Special Sign District under Sections 608 et seq. In the event of
23
24
25

1 conflict between the provisions of Section 607.1 and other provisions of Article 6, the
2 provisions of Section 607.1 shall prevail in Neighborhood Commercial and Residential-
3 Commercial Districts, ~~provided, however, that with respect to properties also located in the Upper~~
4 ~~Market Special Sign District, the provisions of Section 608.16 of this Code shall prevail.~~

5 In each such Special Sign District, signs, other than those signs exempted by Section
6 603 of this Code, shall be subject to the special controls in Sections 608.1 through 608.16,
7 respectively, in addition to all other or, if so expressly specified in those Sections in lieu of
8 other applicable sign provisions of this Code. In the event of inconsistency with any other
9 provision of Article 6, the most restrictive provision shall prevail unless this Code specifically
10 provides otherwise.

11 (a) **Purposes and Findings.** In addition to the purposes stated in Sections 101 and
12 601 of this Code, the following purposes apply to Neighborhood Commercial and Residential-
13 Commercial Districts. These purposes constitute findings that form a basis for regulations and
14 provide guidance for their application.

15 (1) As Neighborhood Commercial and Residential-Commercial Districts change,
16 they need to maintain their attractiveness to residents, customers and potential new
17 businesses alike. Physical amenities and a pleasant appearance will profit both existing and
18 new enterprises.

19 (2) The character of signs and other features projecting from buildings is an
20 important part of the visual appeal of a street and the general quality and economic stability of
21 the area. Opportunities exist to relate these signs and projections more effectively to street
22 design and building design. These regulations establish a framework that will contribute
23
24

1 toward a coherent appearance of Neighborhood Commercial and Residential-Commercial
2 Districts.

3 (3) Neighborhood Commercial and Residential-Commercial Districts are typically
4 mixed use areas with commercial units on the ground or lower stories and residential uses on
5 upper stories. Although signs ~~and other advertising devices~~ are essential to a vital commercial
6 district, they should not be allowed to interfere with or diminish the livability of residential units
7 within a Neighborhood Commercial District or in adjacent residential districts.

8 (4) The scale of most Neighborhood Commercial and Residential-Commercial
9 Districts as characterized by building height, bulk, and appearance, and the width of streets
10 and sidewalks differs from that of other commercial and industrial districts. Sign sizes should
11 relate and be compatible with the surrounding district scale.

12 (b) **Signs or Sign Features Not Permitted in NC and RC Districts.** Roof signs as
13 defined in Section 602.16 of this Code, wind signs as defined in Section 602.22 of this Code,
14 and signs on canopies, as defined in Section 136.1(b) of this Code, are not permitted in NC
15 and RC Districts. No sign shall have or consist of any moving, rotating, or otherwise physically
16 animated part, or lights that give the appearance of animation by flashing, blinking, or
17 fluctuating, except as permitted by Section 607.1(i) of this Code. In addition, all signs or sign
18 features not otherwise specifically regulated in this Section 607.1 shall be prohibited.

19 (c) **Identifying Signs.** Identifying signs, as defined in Section 602.10, shall be
20 permitted in all Neighborhood Commercial and Residential-Commercial Districts subject to the
21 limits set forth below.

1 (1) One sign per lot shall be permitted and such sign shall not exceed 20 square
2 feet in area. The sign may be a freestanding sign, if the building is recessed from the street
3 property line, or may be a wall sign or a projecting sign. The existence of a freestanding
4 identifying sign shall preclude the erection of a freestanding business sign on the same lot. A
5 wall or projecting sign shall be mounted on the first-story level; a freestanding sign shall not
6 exceed 15 feet in height. Such sign may be nonilluminated, indirectly illuminated, or directly
7 illuminated.

8 (2) One sign identifying a shopping center or shopping mall shall be permitted
9 subject to the conditions in Paragraph (1), but shall not exceed 30 square feet in area. Any
10 sign identifying a permitted use listed in zoning categories .40 through .70 in Section 703.2(a)
11 in an NC District shall be considered a business sign and subject to Section 607.1(f) of this
Code. Such signs may be nonilluminated, indirectly illuminated, or directly illuminated during
13 the hours of operation of the businesses in the shopping center or shopping mall.

14 (d) **Nameplates.** One nameplate, as defined in Section 602.12 of this Code, not
15 exceeding an area of two square feet, shall be permitted for each noncommercial use in NC
16 Districts.

18 602.7, ~~shall, where permitted by the zoning controls for the individual NC districts, conform to the~~
19 ~~requirements of this subsection~~ are not permitted in Neighborhood Commercial and Residential-
20 Commercial Districts, except in the Inner Sunset Neighborhood Commercial District where they are
21 ~~not permitted, as provided for below. In NC Districts where such signs are permitted, general~~
22 ~~advertising signs may be either a wall sign or freestanding, provided that the surface of any~~
23
24
25

1 ~~freestanding sign shall be parallel to and within three feet of an adjacent building wall. In either case,~~
2 ~~the building wall shall form a complete backdrop for the sign, as the sign is viewed from all points from~~
3 ~~a street or alley from which it is legible. No general advertising sign shall be permitted to cover part or~~
4 ~~all of any windows. Any extension of the copy beyond the rectangular perimeter of the sign shall be~~
5 ~~included in the calculation of the sign, as defined in Section 602.1(a) of this Code.~~

6 ~~(1) NC-2, NCT-2, NC-S, and named NC and NCT Districts. No more than one general~~
7 ~~advertising sign shall be permitted per lot or in NC-S Districts, per district. Such sign shall not exceed~~
8 ~~72 square feet in area nor exceed 12 feet in height. Such sign may be either nonilluminated or~~
9 ~~indirectly illuminated.~~

10 ~~(2) NC-3 and NCT-3 Districts. No more than one general advertising sign not~~
11 ~~exceeding 300 square feet or two general advertising signs of 72 square feet each shall be permitted~~

14 ~~whichever is lower, if a wall sign, or the adjacent wall or the top of the adjacent wall if a freestanding~~
15 ~~sign, whichever is lower.~~

16 ~~(A) NC-3 and NCT-3 Districts. Signs may be either nonilluminated or indirectly~~
17 ~~illuminated.~~

19 (h) **Special Sign Districts.** Additional controls apply to certain Neighborhood
20 Commercial and Residential-Commercial Districts that are designated as Special Sign Districts.
21 Special Sign Districts are described within Sections 608.1 through 608.11 of this Code and
22 with the exception of Sections 608.1, 608.2 and 608.11, their designations, locations and
23
24

2 San Francisco.

3 (i) **Restrictions on Illumination.** Signs in Neighborhood Commercial and Residential-
4 Commercial Districts shall not have nor consist of any flashing, blinking, fluctuating or
5 otherwise animated light except those moving or rotating or otherwise physically animated
6 parts used for rotation of barber poles and the indication of time of day and temperature, and

17 Commercial Districts, the following additional requirements shall apply:

18 ~~(1) **Public Areas.** No sign shall be placed upon any public street, alley, sidewalk, public~~
19 ~~plaza or right of way, or in any portion of a transit system, except such projecting signs as are~~
20 ~~otherwise permitted by this Code and signs, structures, and features as are specifically approved by the~~
21 ~~appropriate public authorities under applicable laws and regulations not inconsistent with this Code~~
22 ~~and under such conditions as may be imposed by such authorities.~~

1 (2) ~~Maintenance.~~ *Every sign pertaining to an active establishment shall be adequately*
2 *maintained in its appearance. When the activity for which the business sign has been posted has ceased*
3 *operation for more than 90 days within the Chinatown Mixed Use Districts, all signs pertaining to that*
4 *business activity shall be removed after that time.*

5 (3) (1) Temporary Signs. The provisions of Section 607.1(g) of this Code shall

10 (a) ~~General.~~ *Signs located within the Van Ness Special Use District, with the exception of the*
11 *Civic Center Special Sign District as shown in Sectional Map SSD, shall be regulated by the provisions*
12 *of Article 6 and those set forth below, except for those signs which are exempt pursuant to Section 603.*
13 *In the event of conflict between the provisions of this Section and those of Article 6, the provisions of*
14 *this Section shall prevail in the Van Ness Special Use District.*

15 (b) ~~Purposes.~~ *In addition to the purposes stated in Sections 101 and 601 of this Code, the*
16 *following purposes apply to the Van Ness Special Use District. These purposes constitute findings that*
17 *form a basis for regulations and provide guidance for their application.*

18 (1) ~~As Van Ness Avenue changes from an automotive oriented area to a mixed use,~~
19 ~~predominantly residential district, it needs to maintain its attractiveness to business customers and~~
20 ~~residents alike. Physical amenities and a pleasant appearance will benefit both existing and new~~
21 ~~enterprises.~~

1 ~~(2) The character of signs and other features projecting from buildings is an important~~
2 ~~part of the visual appeal of a street and the general quality and economic stability of the area.~~
3 ~~Opportunities exist to relate these signs and projections more effectively to street design and building~~
4 ~~design. These regulations establish a framework that will contribute toward a coherent appearance of~~
5 ~~the Van Ness Special Use District.~~

6 ~~(3) The Van Ness Special Use District is intended to be a mixed use area with~~
7 ~~commercial units on the ground or lower stories and residential uses on upper stories. Although signs~~
8 ~~and other advertising devices are essential to a vital commercial district, they should not be allowed to~~
9 ~~interfere with or diminish the livability of residential units within the Van Ness Special Use District or~~
10 ~~in adjacent residential districts.~~

11 ~~(4) The scale of the Van Ness Special Use District as characterized by building height,~~
12 ~~bulk, and appearance, and by the width of streets and sidewalks, differs from that of other commercial~~
13 ~~and industrial districts. Sign sizes should relate and be compatible with the surrounding district scale.~~

14 ~~(c) Controls.~~

15 ~~(1) Signs or Sign Features Not Permitted in the Van Ness Special Use District. Roof~~

20 ~~wall sign or a projecting sign. A wall sign or projecting sign shall be mounted at or below the level of~~
21 ~~the lowest residential windowsill or 25 feet, whichever is lower. Such sign may be nonilluminated,~~
22 ~~indirectly illuminated, or directly illuminated. For the purposes of this Section, "wall signs" shall be~~

1 ~~defined as signs placed flat against a building wall with its copy parallel to the wall to which it is~~
2 ~~attached and not protruding more than the thickness of the sign cabinet.~~

3 ~~(B) One name plate, as defined in Section 602.12, not exceeding an area of six~~
4 ~~square feet, shall be permitted for each resident and occupant of the building.~~

6 ~~shall be permitted in the Van Ness Special Use Districts as provided below. General advertising signs~~
7 ~~may be either a wall sign or a freestanding sign, provided that the surface of any freestanding sign~~
8 ~~shall be parallel to and within three feet of an adjacent building wall. The building wall shall form a~~
9 ~~complete backdrop for the wall sign, as the sign is viewed from those points on a street or alley from~~
10 ~~which it is legible. Signs painted directly on a building wall shall be considered general advertising~~
11 ~~signs for the purposes of this Section. No general advertising sign shall be permitted to cover part or~~
12 ~~all of any window. No more than one general advertising sign of 300 square feet or two general~~
13 ~~advertising signs of 72 square feet each shall be permitted per lot. The height of any such sign shall not~~
14 ~~exceed 36 feet, or the height of the wall to which it is attached or before which it is placed, or the~~
15 ~~height of the lowest residential windowsill located on the wall to which the sign is attached or before~~
16 ~~which it is placed, whichever is lowest. Signs may be either non illuminated, directly or indirectly~~
17 ~~illuminated. All general advertising signs shall conform to the provisions of Section 5408 of the~~
18 ~~California Business and Professions Code, including the requirement that no advertising display shall~~
19 ~~be placed within 100 feet from another advertising display on the same side of Van Ness Avenue.~~

20 ~~(4) Business Signs. Business signs, as defined in Section 602.3, shall be permitted~~
21 ~~subject to the following restrictions:~~

7 ~~shall not exceed 45 feet, or the height of the wall to which it is attached, or the height of the lowest of~~
8 ~~any residential windowsill on the wall to which the sign is attached, whichever is lower. Such signs may~~
9 ~~be nonilluminated, indirectly, or directly illuminated.~~

10 (C) ~~Projecting Signs.~~ ~~The area of any projecting sign shall not exceed 36 square~~
11 ~~feet. The height of the sign shall not exceed 24 feet, or the height of the wall to which it is attached, or~~
12 ~~the height of the lowest of any residential windowsill on the wall to which the sign is attached,~~

16 ~~awnings and marquees in lieu of projecting signs. The area of such sign copy shall not exceed 60~~
17 ~~square feet. Such sign copy may be nonilluminated, indirectly illuminated or directly illuminated.~~

18 (E) ~~Freestanding Signs and Sign Towers.~~ ~~Freestanding signs and sign towers~~

21 ~~stations, only the following signs are permitted:~~

1 ~~(7) Additional Controls. Additional sign controls apply to certain areas of the Van Ness~~
2 ~~Special Use District designated as Special Sign Districts. Special Sign Districts are described within~~
3 ~~Sections 608.1 through 608.11 of this Code and, with the exception of Sections 608.1, 608.2 and~~
4 ~~608.11, their designations, locations and boundaries are provided on Sectional Map SSD of the Zoning~~
5 ~~Map of the City and County of San Francisco.~~

6 ~~(8) Automotive sales and service signs within the Automotive Special Use District which~~
7 ~~have all required permits but which do not comply with the controls for new signs established in~~
8 ~~Section 607.3 of this Code shall be permitted to remain as nonconforming uses and shall be permitted~~
9 ~~to modify the signage text to describe new automobile ownerships and dealerships that may occur from~~
10 ~~time to time.~~

11 ~~(d) Landmark Buildings. Notwithstanding any other provision of this Code to the contrary, any~~
12 ~~sign which is presently located upon or was once located upon a structure within the Van Ness Special~~
13 ~~Use District which is designated a landmark under Section 1004 may be replaced and/or restored~~
14 ~~subject to the limits set forth below.~~

15 ~~(1) The sign may not exceed the size, shape and number of the sign(s) being replaced~~
16 ~~and/or restored.~~

17 ~~(2) The sign may be a wall, projecting, or freestanding sign.~~

18 ~~(3) The height of the sign may not exceed 80 feet from the sidewalk elevation.~~

19 ~~(4) The sign must be in the same location of the sign being replaced and/or restored.~~

20 ~~(5) The sign may not be located on the roof.~~

21 ~~(6) The sign may not cover or partially block any window.~~

22 ~~(7) The light of the sign may not be flashing, intermittent, or moving.~~

1 (8) ~~The features of the sign including size, shape and illumination must be reviewed and~~
2 ~~approved in accordance with the procedures for the application of a Certificate of Appropriateness~~
3 ~~under Section 1006 of this Code and subject to the discretion of the City Planning Commission. Both~~
4 ~~the Landmark Preservation Advisory Board and the City Planning Commission have the authority to~~
5 ~~modify any features of the sign in order to preserve the historical nature of the building.~~

6 **~~SEC. 607.4. NORTH OF MARKET RESIDENTIAL SPECIAL USE DISTRICT.~~**

7 ~~Signs located in the RC 4 portion of the North of Market Residential Special Use District shall~~
8 ~~be regulated as provided herein, except for those signs which are exempted by Section 603 of this Code.~~

9 ~~(a) Business Signs. Business signs, as defined in Section 602.3, shall be permitted subject to the~~
10 ~~regulations set forth below:~~

11 ~~(1) Window Signs. The total area of all window signs, as defined in Section 602.1(b),~~
12 ~~shall not exceed 1/3 of the area of the window on or in which the signs are located. Such signs may be~~
13 ~~nonilluminated, indirectly illuminated, or directly illuminated.~~

14 ~~(2) Wall Signs. The area of all wall signs shall not exceed three square feet per foot of~~
15 ~~street frontage occupied by the use measured along the wall to which the signs are attached, or 150~~
16 ~~square feet for each street frontage, whichever is less. The height of any wall sign shall not exceed 24~~
17 ~~feet, or the height of the wall to which it is attached, or the height of the lowest of any residential~~

19 ~~nonilluminated, indirectly, or directly illuminated.~~

20 ~~(3) Projecting Signs. The number of projecting signs shall not exceed one per business.~~
21 ~~The area of such sign, as defined in Section 602.1(a), shall not exceed 32 square feet. The height of the~~

2 the sign shall project more than 75 percent of the horizontal distance from the street property line to
3 the curblineline, or six feet, six inches, whichever is less. Such signs may be nonilluminated, indirectly, or
4 directly illuminated.

5 ~~(4) Sign Copy on Awnings and Marquees. Sign copy may be located on permitted~~
6 ~~awnings or marquees in lieu of projecting signs. The area of such sign copy, as defined in Section~~
7 ~~602.1(c), shall not exceed 40 square feet. Such sign copy may be nonilluminated, or indirectly~~
8 ~~illuminated.~~

9 ~~(5) Freestanding Signs and Sign Towers. With the exception of automotive service~~
10 ~~station signs, which are permitted subject to the provisions of Section 606(c)(1) of this Code, one~~
11 ~~freestanding sign or sign tower per lot shall be permitted in lieu of a projecting sign if the building or~~
12 ~~buildings are recessed from the street property line. The existence of a freestanding business sign shall~~
13 ~~preclude the erection of a freestanding identifying sign on the same lot. The area of such freestanding~~
14 ~~sign or sign tower, as defined in Section 602.1(a), shall not exceed 30 square feet, nor shall the height~~
15 ~~of the sign exceed 24 feet. No part of the sign shall project more than 75 percent of the horizontal~~
16 ~~distance from the street property line to the curblineline, or six feet, whichever is less. Such signs may be~~
17 ~~nonilluminated or indirectly illuminated, or during business hours, may be directly illuminated.~~

21 ~~to the following regulations:~~

1 ~~(1) One sign per lot shall be permitted and such sign shall not exceed 20 square feet in~~
2 ~~area. The sign may be a freestanding sign, if the building is recessed from the street property line, or~~
3 ~~may be a wall sign or a projecting sign. The existence of a freestanding identifying sign shall preclude~~
4 ~~the erection of a freestanding business sign on the same lot. A wall or projecting sign shall be mounted~~
5 ~~on the first story level; a freestanding sign shall not exceed 15 feet in height. Such sign may be~~
6 ~~nonilluminated, indirectly illuminated, or directly illuminated.~~

7 ~~(d) Signs or Sign Features Not Permitted in the North of Market Residential Special Use~~
8 ~~District. Roof signs as defined in Section 602.16 of this Code, wind signs as defined in Section 602.22~~
9 ~~of this Code and general advertising signs as defined in Section 602.7 are not permitted. In addition, no~~
10 ~~sign shall have or consist of any moving, rotating, or otherwise physically animated part or any lights~~
11 ~~that give the appearance of animation by flashing, blinking or fluctuating. All signs or sign features not~~
12 ~~otherwise specifically regulated in this Section shall be prohibited.~~

13 ~~**SEC. 608.10. ON AND NEAR MARKET STREET FROM THE CENTRAL SKYWAY OVERPASS**~~
14 ~~**TO DIAMOND STREET.**~~

15 ~~There shall be a special sign district known as the Upper Market Special Sign District in the~~
16 ~~vicinity of Market Street from the Central Skyway overpass to Diamond Street as designated on~~
17 ~~Sectional Map SSD of the Zoning Map of the City and County of San Francisco. The original copy of~~
18 ~~said Sectional Map with this Special Sign District indicated thereon is on file with the Clerk of the~~
19 ~~Board of Supervisors under File No. 324 76 2. With respect to said Special Sign District, the following~~
20 ~~regulations shall apply:~~

1 ~~(a) Purposes and Findings. In addition to the purposes stated in Sections 101 and 601 of this~~
2 ~~Code, the following purposes apply to the Upper Market Special Sign District. These purposes~~
3 ~~constitute findings that form a basis for these regulations and provide guidance for their application.~~

4 ~~(1) In November 1962, the electorate of San Francisco voted approval of an investment~~
5 ~~in a City and regional rapid transit system that will run beneath Market Street, including a city~~
6 ~~subway along Upper Market. In June 1968, the electorate approved a bonded indebtedness of~~
7 ~~\$24,500,000, including payment for reconstruction and improvement of Market Street from the Central~~
8 ~~Skyway overpass to the vicinity of Castro Street. The street is being rebuilt at public expense, with~~
9 ~~special paving, furnishings and landscaping. When rebuilt, this portion of Market Street will have~~
10 ~~heavy concentrations of pedestrians, and will increase in importance as a transit and shopping~~
11 ~~corridor. It is a purpose of the Upper Market Special Sign District to further this public endeavor.~~

12 ~~(2) As the street is rebuilt, the area is attracting and will continue to attract investments,~~
13 ~~development and design efforts in reliance upon the promise of a street of high quality. Both existing~~
14 ~~and new enterprises will be strengthened by the high standards of their environment and by the joint~~
15 ~~efforts of owners and business people.~~

16 ~~(3) The character of signs along the street and of other features projecting from~~
17 ~~buildings is especially significant to street appearance and to the general quality and economic~~
18 ~~stability of the area. Opportunities exist to relate these signs and projections more effectively to the~~
19 ~~street design and to the design of buildings, and it is a purpose of these regulations to set a framework~~
20 ~~that will contribute toward those ends.~~

21 ~~(4) The standards established by these regulations are reasonable standards related to~~
22 ~~the unique nature of the Upper Market area and to its present and future needs. Where removal or~~
23
24
25

1 ~~alteration of existing signs is required, the periods for removal or alteration allow adequate time for~~
2 ~~amortization of the signs, consistent with other improvements along the street. The removal or~~
3 ~~alteration will help to promote equality among establishments, adding greater significance to the~~
4 ~~improvement efforts.~~

5 ~~(5) The standards established by these regulations are deemed to be minimum~~
6 ~~requirements, forming a basic framework for development and remodeling. They are not intended in~~
7 ~~any way to preclude further design refinement or review by individuals or duly constituted~~
8 ~~organizations which might consider more restrictive requirements as to any aspects limited herein, or~~
9 ~~as to additional aspects such as materials, color, graphics, types of representation, relationship of~~
10 ~~signs to one another and to architectural features, or the general quality of design. It is anticipated that~~
11 ~~private efforts along such lines will and should be made for the further improvement of the Upper~~
12 ~~Market area.~~

13 ~~(b) General Advertising Signs. Except as specified in Subsection 608.10(f) below:~~

14 ~~(1) No general advertising sign shall be permitted at any location within said Special~~
15 ~~Sign District; and~~

16 ~~(2) No general advertising sign shall be located within 200 feet of said Special Sign~~
17 ~~District, if any portion of a face of such sign would be visible from any point on a street, alley or plaza~~
18 ~~within the Special Sign District.~~

19 ~~(c) Roof Signs. Notwithstanding the exceptions stated in Subsection 607(b) of this Code, no roof~~
20 ~~sign shall be permitted within said Special Sign District.~~

21 ~~(d) Projection of Signs and Other Features. Within said Special Sign District:~~

1 ~~(1) No projection shall exceed a horizontal distance of six feet beyond any street~~
2 ~~property line. This limitation shall apply to signs and to all other features including but not limited to~~
3 ~~marquees, awnings and canopies, with the sole exception of flagpoles for flags of any nation or~~
4 ~~political subdivision.~~

5 ~~(2) Projecting signs for each establishment shall be limited to one sign on each street~~
6 ~~frontage occupied by the establishment, in addition to any signs that are placed flat upon or otherwise~~
7 ~~integrated in the design of marquees and awnings.~~

8 ~~(e) Height and Extension Above Roofline. Within said Special Sign District, all of the~~
9 ~~following limitations shall apply:~~

10 ~~(1) Notwithstanding the exceptions stated in Subsection 607(g) of this Code, no sign~~
11 ~~attached to a building shall extend or be located above the roofline of the building to which it is~~
12 ~~attached.~~

13 ~~(2) A projecting sign attached to a building with lettering or other inscription arranged~~
14 ~~in a vertical manner shall have a maximum height of 50 feet or the roofline of the building to which it is~~
15 ~~attached, whichever is the lesser.~~

16 ~~(3) Except as provided in Paragraph 608.10(e)(5) below, all other signs attached to a~~
17 ~~building shall be located no higher than the windowsill level of the lowest story (if any) that has a~~
18 ~~window or windows on the building facade on which the signs are placed, exclusive of the ground story~~
19 ~~and mezzanine, provided that no such sign shall in any case exceed a height of 50 feet or the roofline of~~
20 ~~the building to which it is attached, whichever is the lesser.~~

1 ~~(4) In addition, except as provided in Paragraph 608.10(e)(5) below, uniformity of~~
2 ~~height shall be maintained in both the upper and lower edges of signs placed flat upon or essentially~~
3 ~~parallel to each facade of a single building.~~

4 ~~(5) As to the requirements of Paragraphs 608.10(e)(3) and (4) above, deviation from the~~
5 ~~requirements may be permitted to the extent an alternative placement of signs is made necessary by the~~
6 ~~location of arches, entrances and other architectural features, as determined by the Zoning~~
7 ~~Administrator, or for the purpose of installing special lighting effects and temporary holiday~~
8 ~~decorations.~~

9 ~~(6) The maximum height for freestanding signs shall be 24 feet.~~

10 ~~(f) Public Areas. No sign or other structure or feature shall be placed upon any public street,~~
11 ~~alley or public plaza, or in any portion of a transit system, except such signs, structures and features as~~
12 ~~are specifically approved by the appropriate public authorities under applicable laws and regulations~~
13 ~~not inconsistent with this Code and under such conditions as may be imposed by such authorities.~~

14 ~~o the extent an alternative placement of signs is made necessary by the location of arches, entrances~~
15 ~~and other architectural features, as determined by the Zoning Administrator, or for the purpose of~~
16 ~~installing special lighting effects and temporary holiday decorations.~~

17 ~~(6) The maximum height for freestanding signs shall be 24 feet.~~

18 ~~(f) Public Areas. No sign or other structure or feature shall be placed upon any public street,~~
19 ~~alley or public plaza, or in any portion of a transit system, except such signs, structures and features as~~
20 ~~are specifically approved by the appropriate public authorities under applicable laws and regulations~~
21 ~~not inconsistent with this Code and under such conditions as may be imposed by such authorities.~~

1 Section 7. Article 7 of the Planning Code is hereby amended by adding Section 701.3
2 and amending Section 799, to read as follows:

LEGISLATIVE DIGEST
(Substituted 1/13/2015)

[Planning Code - Consolidate Definitions, Reorganize Article 2, and Make Other Nonsubstantive Changes to Update, Clarify, and Simplify Code Language.]]

Ordinance amending the Planning Code to consolidate definitions into Section 102, reorganize Article 2 to create Zoning Control Tables, and make nonsubstantive changes to various sections in Articles 1, 2, 3, 4, 6, 7, and 8 in order to update, clarify, and simplify Code language; affirming the Planning Department's California Environmental Quality Act determination; and making findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

Existing Law

Article 1 of the Planning Code contains development standards for all zoning districts in the City, such as rear yard and front yard setbacks, open space requirements, parking ratios, and the like. While Article 1 is the primary section for Planning Code definitions, definitions are found in almost every Article of the Code. Use definitions are located in Articles 2, 7, and 8. Many of the definitions are duplicative or overlap.

Article 2 contains use and residential density controls for Residential (R), Commercial (C), Manufacturing (M), and Production Distribution and Repair (PDR) Districts. Articles 7 and 8 contain zoning control tables for the City's Neighborhood Commercial Districts (NCDs) and Mixed Use Districts (MUDs). Zoning control tables include a summary of use controls as well as development standards. Each zoning district has its own table and divides the uses into vertical controls (i.e., uses are separated by story).

Amendments to Current Law

All use definitions and "universal" definitions (i.e., definitions that are not specific to one Article or Section of the Code or that are general terms) have been moved into Article 1. Location and operational conditions have been separated out from use definitions and put into Article 2. The use tables in Article 2 have been replaced with zoning control tables similar to those found in Articles 7 and 8. However, rather than giving each zoning district its own table, similar zoning districts – such as RH (Residential, House) or RM (Residential, Mixed) – are grouped into one table; and the tables are not divided up into vertical controls as they are in NCDs and MUDs because, for the most part, uses in these districts are not regulated by story. The Article 2 tables also include the use controls as well as development standards for the particular zoning district.

Background Information

The Planning Code has maintained the same basic structure since 1986, when the Article 7 NCD controls were added to the Code. Prior to that time, all development standards and

general definitions were located in Article 2, and use definitions and use controls were located in Article 2. For its time, Article 7 was a dramatically new way of organizing the Code and thinking about land use, primarily because it used vertical controls to regulate uses. However, because of the structural differences between Articles 2 and 7, and the desire to more closely regulate retail and service uses, Article 7 was given its own set of use definitions. When Article 8 was added to the Code, it followed the same format as Article 7, along with adding its own list of use definitions. We now have four sets of use definitions in the Code: one for R Districts and one for C, M and PDR Districts in Article 2; one for NCDs in Article 7; and one for MUDs in Article 8. Many of these uses overlap and some are exact copies, while other use definitions are exclusive to that particular Article.

This legislation is the first phase of a three-phased reorganization of the Code that primarily is nonsubstantive. The ultimate goal is to (1) reorganize Article 2 so that it is easier to use, (2) rationalize use definitions by consolidating them into one section of the Code, and (3) have all zoning districts reference one set of use definitions. This first phase consolidates all definitions into one location (Section 102) and reorganizes Article 2 into a format similar to Articles 7 and 8. The second and third phases that will come later will delete the use definitions in Articles 7 and 8 and modify those Articles so that they reference the consolidated use definitions in Section 102.

This three-phase approach breaks up the proposal so that it is not overwhelming and reduces the potential for errors and oversights. While this temporarily will make the Planning Code longer and redundant in parts, the Planning Commission believes that breaking up the proposal into three phases is essential to ensuring a process that is as transparent and efficient as possible.

Planning Commission Recommendation: Approval with Modifications**

Dear Ms. Calvillo and Supervisor Wiener,

It is with great pride and pleasure that I transmit to you the Article 2 Reorganization and Simplification Ordinance. This Ordinance, which was initiated by the Planning Commission on July 24, 2014, would amend the Planning Code to consolidate definitions into Section 102 of the Planning Code, reorganize Article 2 to create Zoning Control Tables, and make nonsubstantive changes to various sections in Articles 1, 2, 3, 4, 6, 7 and 8 in order to update, clarify, and simplify Code language.

On November 20, 2014, the Planning Commission conducted duly noticed public hearings at regularly scheduled meeting and voted unanimously to approve this Ordinance with modifications. Those modifications, which can be found in the attached adoption resolution, have already been incorporated into the Ordinance by the City Attorney's office.

The proposed amendments are not defined as a project under CEQA Guidelines Sections 15378 and 1506(c)(2) because it does not result in a physical change in the environment.

Department understands that Supervisor Wiener would like to take over sponsorship of this Ordinance. Supervisor, please advise the Clerk of the Board at your earliest convenience if you wish to take over sponsorship.

Please find attached documents relating to the actions of the Commission. The red line version of this Ordinance, along with two copies of the Ordinance, and a copy of this transmittal will be delivered to the Office of the Clerk of the Board's later today. FINDINGS

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

1. At over 1,336 pages and including over 100 zoning districts, the Planning Code is a large and complicated document. This complexity, some of which is necessary, can make it difficult to effectively implement and interpret the City's land use regulations. It also makes it difficult for members of the community to effectively engage in the City's development process. The Commission finds that consolidating use definitions and making the Planning Code easier to use by creating zoning control tables for all zoning districts will help address these issues.
2. The Commission finds that standardizing how zoning districts are organized will aid future community planning efforts by providing a clear framework for existing land use regulations and use definitions.
3. The Commission finds that Zoning Control Tables are a more user friendly way to convey zoning information in the Planning Code, and one of the main components of this ordinance is to remove the existing use tables in Article 2, and replace them with zoning controls tables modeled after the ones found in Articles 7 and 8 of the Planning Code.
4. This Ordinance is phase one of a three phase approach that will eventually lead to all zoning districts in the City referencing one set of use definitions. The Commission finds that this three phase approach will help ensure that the proposed ordinances are not overwhelming for Staff, the Commission and members of the public, and that it will reduce the potential for errors and oversights.
5. The Commission finds that while this Ordinance is extremely large, it is not seeking to make any substantive policy changes to the City's land use controls that have not already been reviewed and voted on by this Commission.
6. The Commission finds that Staff has thoroughly reviewed and vetted the proposed Ordinance, and has held or attended several community meetings to seek input and answer questions on the proposed changes. This effort, which has taken over a year to complete, has created a more complete and accurate Ordinance; however as with any large undertaking small errors and typos are inevitable. As such, the Commission has included in its recommendation a provision that allows Planning Staff to continue to refine the proposed Ordinance.
7. **General Plan Compliance.** The proposed Ordinance and the Commission's recommended modifications are consistent with the Objectives and Policies of the General Plan:

OBJECTIVE 10

ENSURE A STREAMLINED, YET THOROUGH, AND TRANSPARENT DECISION-MAKING PROCESS.

Policy 10.1

Create certainty in the development entitlement process, by providing clear community parameters for development and consistent application of these regulations.

The proposed Ordinance will bring more consistency to the Planning Code by consolidating uses into one section of the Code. This will ensure that each zoning district references one definition for a particular use. The proposed Ordinance will also reorganize Article 2 so that the zoning controls for each district are displayed in an easy to understand, more complete and consistent table. Both of these improvements will help bring certainty to the development process by providing clear community parameters for development and consistent application of these regulations.

8. **Planning Code Section 101 Findings.** The proposed amendments to the Planning Code are consistent with the eight Priority Policies set forth in Section 101.1(b) of the Planning Code in that:

1. That existing neighborhood-serving retail uses be preserved and enhanced and future opportunities for resident employment in and ownership of such businesses enhanced;

The proposed Ordinance would not have a negative effect on neighborhood-serving retail uses.

2. That existing housing and neighborhood character be conserved and protected in order to preserve the cultural and economic diversity of our neighborhoods;

The proposed Ordinance would not have a negative effect on existing housing or neighborhood character.

3. That the City's supply of affordable housing be preserved and enhanced;

The proposed Ordinance would not have a negative effect on the City's supply of affordable housing.

4. That commuter traffic not impede MUNI transit service or overburden our streets or neighborhood parking;

The proposed Ordinance would not result in commuter traffic impeding MUNI transit service or overburdening the streets or neighborhood parking.

5. That a diverse economic base be maintained by protecting our industrial and service sectors from displacement due to commercial office development, and that future opportunities for resident employment and ownership in these sectors be enhanced;

The proposed Ordinance would not cause displacement of the industrial or service sectors due to office development, and future opportunities for resident employment or ownership in these sectors would not be impaired.

6. That the City achieve the greatest possible preparedness to protect against injury and loss of life in an earthquake;

The proposed Ordinance would not have an impact on City's preparedness against injury and loss of life in an earthquake.

7. That the landmarks and historic buildings be preserved;

The proposed Ordinance would not have a negative effect on the City's Landmarks and historic buildings.

8. That our parks and open space and their access to sunlight and vistas be protected from development;

The proposed Ordinance would not have a negative effect on the City's parks and open space access to sunlight and vistas.

9. **Planning Code Section 302 Findings.** The Planning Commission finds from the facts presented that the public necessity, convenience and general welfare require the proposed amendments to the Planning Code as set forth in Section 302.

PLANNING CODE AMENDMENT

The proposed Ordinance would amend the Planning Code to consolidate definitions into Section 102, reorganize Article 2 to create Zoning Control Tables, and make nonsubstantive changes to various sections in Articles 1, 2, 3, 4, 6, 7 and 8 in order to update, clarify, and simplify Code language.

The Way It Is Now:

- Article 2 of the Planning Code contains use and residential unit density controls for Residential (R), Commercial (C), Manufacturing (M) and Production Distribution and Repair (PDR) Districts. See Exhibit C for sample of the existing Article 2 use charts.
- Articles 7 and 8 contain zoning control tables for the City's Neighborhood Commercial Districts (NCDs) and Mixed Use Districts (MUDs). Zoning control tables include a summary of use controls as well as development standards. Each zoning district has its own table, and divides the uses into vertical controls (i.e. uses are regulated by story). See Exhibit D for sample of an Article 7 zoning control table.
- Article 1 contains development standards for all zoning districts in the City, such as rear yard and front yard setbacks, open space requirements, parking ratios and the like.
- Section 102 is the primary Section for definitions in the Planning Code, but definitions - especially use definitions - are found in almost every Article of the Planning Code. Use definitions are located in Articles 2, 7 and 8. Many of the use definitions are duplicative or overlap.

The Way It Would Be:

The proposed legislation would:

- Replace the use tables in Article 2 with zoning control tables, similar to those found in Articles 7 and 8; however, rather than giving each zoning district its own table, similar zoning districts, such as all RH (Residential, House) or all RM (Residential, Mixed) zoning districts, would be grouped into one table. These charts would not be divided up into vertical controls like they are in the NCDs and MUDs, because uses in these districts, for the most part, are not regulated by

story. The tables also include the use controls as well as development standards for that particular zoning district. See page 175 of Exhibit B (Proposed Ordinance) for an example of the proposed Zoning Control Tables.

- Move all use definitions and “universal definitions” (definitions that are not specific to one Article or Section of the Code or that are general terms, such as Planning Department, Board of Supervisors, Façade, etc.) into Section 102 (page 2, Exhibit B), and separate out location and operational conditions from use definitions and place them in Section 202.2 (page 130, Exhibit B). Eventually, the goal is to have all zoning districts reference one set of use definitions, and operation and location controls.

BACKGROUND

Overall Goals and Phasing

The goals of this proposal are to reorganize Article 2 so that it is easier to use, rationalize use definitions by consolidating them into one section of the Code and have all zoning districts reference one set of use definitions. To do this, the Department is proposing a three phase approach. The first phase would consolidate all definitions into one location (Section 102) and to reorganize Article 2 into a format similar to Articles 7 and 8. The second and third phases would delete use definitions in Articles 7 and 8 and modify those Articles so that they reference the consolidated use definitions in Section 102.

The three phase approach is proposed for two reasons. The first is to break up the proposal so that it isn't overwhelming for staff, the Commission or members of the public. While the majority of the changes to the Code in this process will be non-substantive, each phase will require an ordinance that is several hundred pages long. This phase alone is over 460 pages long. The second reason is to reduce the potential for errors and oversights. Breaking up this process into three phases will allow staff to focus on fewer sections at a time. While this will temporarily make the Planning Code longer and in parts redundant, Staff believes that breaking up the proposal into phases is essential to ensuring a process that is as transparent and efficient as possible.

How Did We Get Here?

The Planning Code maintained the same basic structure until 1986 when the NCD controls were added to the Code in Article 7. Prior to that, all development standards and general definitions were located in Article 1, use definitions and use controls were located in Article 2.

For its time, Article 7 was a dramatically new way of organizing the Planning Code and thinking about land use, primarily because it used vertical controls to regulate uses; however, because of the structural differences between Articles 2 and 7, and the desire to more closely regulate retail and service uses, Article 7 was given its own set of use definitions. When Article 8 was added to the Code, it followed the same format as Article 7 along with adding its own list of use definitions. Today we have four sets of use definitions in the Planning Code; one for R Districts and one for C, M and PDR Districts in Article 2, one for NCDs in Article 7, and one for MUDs in Article 8. Many of these uses overlap and some are exact copies, while other use definitions are exclusive to that particular Article.

Use Chart vs. Zoning Control Table

The use charts used in Article 2 define and list the various land uses permitted in R, C, M, and PDR Districts in one chart. The chart includes the use definition and indicates if the use is permitted, requires conditional use authorization or is not permitted. One advantage of this format is that it allows you to see all of the districts where a particular use is permitted in one table. The main disadvantage is that

these charts do not also include development standards or other relevant controls for particular uses. To find those, the user has search through other sections of the Planning Code, which often means sorting through several paragraphs of code in order to find the information. Further, because the definition for each use is located within the use charts, these charts are difficult to format and cumbersome to use. It also requires some use definitions to be listed twice, once for Residential districts (RH, RM, RTO, RC) and once for Commercial districts (C, M, and PDR).

Zoning control tables found in Articles 7 and 8 list land uses as well as basic development standards and controls, providing the user a single table that outlines the basic parameters of a particular zoning district. If more information is needed about a development standard, the section where that standard is found is listed in the zoning control table for reference. Also, uses are listed in a separate section (790 and 890 respectively) so that they only need to be listed once, and because the use definition is not in the table, they are more succinct and easier to understand.

While there is an advantage to being able to see all of the districts where a use is permitted in one chart, experience has shown that the zoning controls tables in Articles 7 and 8 are more user friendly than the use charts used in Article 2. Further, should the need ever arise, use charts can always be developed as a Planning Department publication rather than being included in the Planning Code. Staff developed the proposed zoning control tables for Article 2 in the attached Ordinance based on the tables in Articles 7 and 8, but refined them to be more space efficient and user friendly.

Proposed Definition Structure

Articles 2, 7, and 8 also have different ways of categorizing land uses. In addition to providing an organizational structure, use categories are sometimes used to identify special controls or prohibitions. The chart below compares the how the three articles currently categorize their uses.

Article 2	Articles 7/8
Dwellings.....	Residential Use
Other Housing.....	Residential Use
Institutions.....	Institutional
Retail Sales and Personal Service.....	Retail Sales and Service
Massage Establishments.....	Retail Sales and Service
Offices.....	Non-Retail Sales and Service/ Office
Laundering Facilities.....	Retail Sales and Service
Assembly and Entertainment.....	Retail Sales and Service/ Assembly, Recreation, Arts and Entertainment
Home and Business Services.....	Non-Retail Sales and Service/ Home and Business Service
Automotive.....	Retail Sales and Service/ Automotive Services and/or Vehicle Parking
Animal Services.....	Retail Sales and Service
Wholesale, Storage Distribution etc.....	N/A: Refers to Industrial/PDR uses in Article 2
Manufacturing and processing.....	N/A: Refers to Industrial/PDR uses in Article 2

To maintain continuity with the current Code, Staff organized the uses in the Code using existing terms and groupings. The result is eight main use categories with several sub categories as shown below:

- **Agriculture**
- **Industrial**
- **Institutional:** Education, Healthcare and Community
- **Sales and Service:** Retail, Non-Retail
- **Residential**
- **Entertainment, Arts and Recreation:** Non-Commercial, Retail
- **Automotive:** Non-Retail, Retail
- **Utility and Infrastructure**

For a chart showing a complete listing of the proposed uses divided into their use categories, please see Exhibit F.

The purpose behind using these new use categories is twofold. The first is to maintain continuity with the way use definitions are currently categorized, which will help lessen the need for significant policy changes. The second is to provide a way to organize the uses through the various use districts. The new zoning tables in Article 2 will use the eight use categories to list the uses, reducing the size of each table. For example, in RH districts Industrial uses are not permitted. Rather than listing all Industrial type uses in the RH Zoning Control Table and indicating them as NP, the use table will show just the use category "Industrial" as not permitted in all RH Districts. The same would be true for Retail Sales and Service Uses in C Districts, which are primarily permitted. Rather than listing out all Retail Sales and Service Uses, only those that have specific provisions would be listed individually. Otherwise all Retail Sales and Service Uses would be shown as permitted. Please see page 178 of the proposed Ordinance (Exhibit B) for an example.

Use Characteristic vs. Use

With this Ordinance, use characteristics would be more clearly defined and delineated in the Code. There are two types of use characteristics, residential and commercial. Residential use characteristics include Student Housing and SROs. Commercial use characteristics include Drive Thru Facility, Formula Retail, Open Air Sales, Out Door Activity Area, Walk-Up Facility, and Water Borne Commerce. Use Characteristics are not stand alone uses that can be approved on their own, and are regulated separately from the use itself since they are not inherent to the use. For instance a Restaurant can be Formula Retail and a Drive Thru Facility, but those characteristics are not inherent to the Restaurant use. You can also have a Restaurant without those characteristics. Similarly, Student Housing and SROs can be either dwelling units or part of a group housing development. Residential Use Characteristics are listed at the beginning of *Residential and Standards Uses* table and Commercial Characteristics are listed at the beginning of ever *Non-Residential Standards and Uses* table for commercial districts.

Outreach and Process to Date

The Department originally presented this effort to the Planning Commission on June 20, 2013. At that time, the Department gave an overview of how the Planning Code had grown over time from about 18 pages in the 1930s to the 1336+ page Code we have today, and how that growth added both necessary and unnecessary complexity to the Code. Staff also discussed the proposed organizational structure of the new Article 2 including the proposed use categories, the use of zoning control tables and consolidating definitions into Section 102. After that presentation, the Department held two community outreach meetings, one on August 9, 2013 and one on August 14, 2013. At those meetings, the Department gave an overview of the proposal to a few interested community members and took feedback on the proposed

reorganization. The Department spent the next few months further refined the proposed Ordinance based on the outreach meetings, comments from the Commission and further analysis of the Planning Code. Prior to coming to this Commission for initiation, the proposed Ordinance has been reviewed internally by both current planning and citywide staff, and the Zoning Administrator and Assistant Zoning Administrator have each been consulted in the development process. The Ordinance also went through a five month review by the City Attorney's office.

After the Ordinance was initiated by the Planning Commission on July 24, 2014 two community organizations (the Coalition for San Francisco Neighborhoods and The Cow Hollow Neighborhood Association) requested that Staff attend their land use committee meetings and discuss the proposed Ordinance. Staff met with the Coalition for San Francisco Neighborhoods (CSFN) on August 11, 2014. Coalition Members and Staff went over a list of questions and proposed modifications to the Ordinance, many of which have been incorporated into the revised Ordinance before the Commission today. Staff also met with the Cow Hollow Neighborhood Association on August 14, 2014 and went over the proposed changes and answered questions from the group's land use committee. The discussion was fairly general, but the group was primarily concerned about any changes that may be happening to the RH zoned neighborhoods.

Use Changes/Consolidations

The Code currently has an estimated 315 separate uses listed in the Code; the proposed Ordinance reduces that number down to 116 (See Exhibits E and F). Staff was able to achieve this dramatic reduction because a significant number of uses appear twice in the Code (once in Article 7 and once in Article 8) or in some case four times, such as Hospitals (twice in Article 2, once in Article 7 and once in Article 8). Staff attempted to maintain as many of the existing uses as possible; however because there are so many uses in the Code, and the Code is such a complicated document, Staff did have to make some decisions that involved deleting or consolidating certain uses. The following is a summary of the uses in the eight new use-categories and the various changes that were made to uses in the process of consolidation.

Agricultural Uses

There are three Agricultural uses in the Code; Neighborhood Agriculture, Large-Scale Urban Agriculture and Greenhouses. Agricultural uses are widely permitted uses. In R Districts Neighborhood Agriculture is principally permitted, while Large Scale Urban Agriculture and Greenhouses require conditional use authorization. More intensive areas, such as PDR and M Districts, permit all types of Agricultural uses as of right. Greenhouses are prohibited in C-3 Districts; otherwise Agricultural uses are permitted as of right in all C-3 Districts. The operational controls for Agricultural Uses were moved from the use definitions in Section 102.34 to Section 202.2(c).

The following is a list of changes made to the definitions of Agricultural Uses in this Ordinance.

- **Greenhouse** is a use currently found in the Planning Code, but there is no definition for it; therefore, a definition for Greenhouse was developed by staff using definitions found in the dictionary and on the internet. The proposed new Greenhouse definition is as follows:

Greenhouse. An Agricultural use that involves the cultivation of plants inside a glass building. This definition does not include accessory structures located in a required rear yard that comply with Section 136(c)(22) of this Code.

Automotive Uses

Automotive Uses are divided into two subsections; Retail Automotive Use and Non-Retail Automotive Use. The Retail Automotive Use includes Automotive Repair, Automotive Sale or Rental, Automobile Service Station, Automotive Wash, Gas Station, Public Parking Garage, Public Parking Lot, Vehicle Storage Garage, and Vehicle Storage Lot. Non-Retail Automotive includes Ambulance Services, Parcel Delivery Service, Private Parking Garage, Private Parking Lot, and Vehicle Tow Service. Several of the existing automotive uses have been consolidated or removed, and the operational and location controls for all Automotive Uses have been moved to Section 202.2. The proposed changes to Automotive Uses are as follows:

- **Consolidation and Simplification of Automotive Uses.** The NE Ordinance (BF110548), which was split up into smaller ordinances after the commission's review, removed overly specific automotive use definitions that dealt with auto repair and maintenance in Article 2 (Planning Code Section 223), and replaced them with references to the more general automotive use definitions in Article 8. These changes have not been adopted by the Board of Supervisors yet, but the Planning Commission voted to recommend approval of these amendments on May 3, 2012 (Resolution 18615), and staff has included these changes in this Ordinance. The consolidation of these uses doesn't significantly impact how these uses are regulated.
- **Parking Definitions.** Currently, the Planning Code has 13 different parking definitions; three in Article 2, two in Article 7, six in Article 8. Most of these are duplicate definitions, and the uses primarily differentiate between whether or not the parking is public or private, and whether or not it is located on an open lot or in a garage. Article 8 has most of the variation and specification; parking uses are divided into six different uses.¹ These uses are distinguished not only by whether or not the parking is public or private, or located on an open lot or in a garage, but also the by the user of the parking. For instance, "Auto Parking Lot, Community Residential" is a private parking lot for use only by residents and visitors of residents of the vicinity. Internal discussion with current planning staff and a search of the Department's database revealed that this type of distinction was rarely used, and that this level of differentiation seemed unnecessary, difficult to implement and difficult to enforce. Based on this, and the limited impact on removing the definitions, staff felt that it was appropriate to reduce the number of parking definitions to four², eliminating the distinction of who can use the parking. Staff believes that these four definitions will sufficiently addresses the land use impacts associated with parking in all zoning districts.

Entertainment, Arts and Recreation Uses

This use category replaces Assembly and Entertainment use category in Article Two and the Assembly, Recreation, Arts and Entertainment category in Article 8. There is no separate category for entertainment uses in Article 7, which placed these types of uses under Retail Sales and Services. This category also includes several uses that were either not categorized into larger use categories in Article 2, or which were previously included in Section 102. This use category is also broken into two sub-use categories including Retail Entertainment, Arts and Recreation and Non-Commercial Entertainment, Arts and Recreation. The proposed changes in this use category are as follows:

¹ Auto Parking Lot, Community Residential (890.7); Auto Parking Garage, Community Residential (890.8); Auto Parking Lot, Community Commercial (890.6); Auto Parking Garage, Community Commercial (890.10); Auto Parking Lot, Public (890.11); Auto Parking Garage, Public (890.12).

² Parking Lot, Private; Parking Lot, Public; Parking Garage, Private; Parking Garage, Public

- **Non-Commercial Entertainment, Arts and Recreation.** This use category was created for two uses that did not fit into the definition of a retail or commercial use. These two uses are Open Recreation Area and Passive Outdoor Recreation Area. Their definitions have not changed.
- **Adult Entertainment.** This use has been moved to the Retail Sales and Service use category, and is now called an Adult Business. Often when entertainment uses are mentioned in the Planning Code, it is usually followed by the caveat "except for Adult Entertainment." Since this use is often excluded from the Entertainment Use category, Staff made the decision to remove it from Entertainment and Recreation category and place it in the Retail Sales and Services category. The name was also changed to Adult Business to reflect its new category. This does not change the way the uses is regulated in the Planning Code, or the Police Code.
- **Amusement Game Arcade.** The proposed Ordinance removes the Amusement Game Arcade as a separate use and consolidates it into General Entertainment. Amusement Game Arcade was added as a separate use to the Planning Code in the 1980s because of concerns over the proliferation of video game arcades in the City, and the perceived impact that they had on the City's teenage population. While video game arcades are making a small comeback as a novelty use, Staff finds that the land use impacts associated with arcades is similar to other general entertainment uses and does not need to be called out as a separate use in the Code.
- **General Entertainment.** This is a new use definition derived from some of the less impactful uses in the Other Entertainment use definition currently in Articles 7 and 8 (790.38 and 890.37). This new use definition includes billiard halls, bowling alleys, skating rinks, mini-golf and video game arcades. Removed from this definition are the uses that are already included in the definition of Nighttime Entertainment and Arts Activities, both of which are found in Section 102 as separate definitions.
- **Livery Stable.** This was previously included in the Animal Services use category located in Section 224. Currently, Animal Services includes Kennels, Cat Boarding, Riding Academies/Livery Stable, and Animal Hospital. Animal Services is not proposed as a use category in this Ordinance. Most uses that were in this category are being move to the Retail Sales and Service use category, with the exception of Livery Stables, which has more in common with recreation and entertainment uses.

Industrial Use Category

Industrial Use category is primarily made up of the uses currently listed in Article 2 (Sections 225), the one exception is Light Manufacturing, which is listed in both Articles 2 and 8. Most of these uses are only permitted in M and PDR Districts; however Light Manufacturing is currently permitted in all C-3 Districts and will continue to be permitted in all C-3 districts with this Ordinance. In addition to the operational and location requirements for Industrial uses being moved to Section 202.2(d), the following changes were made to uses found in the Industrial Use Category:

- **Grain Elevator.** There was no definition for Grain Elevator in the Planning Code, but it does appear as a separate use in Section 225(g). Staff developed a definition for this use based several other definitions found in the dictionary and on the internet. The proposed definition is as follows:

Grain Elevator. An Industrial Use defined as a storage facility for grain that contains a bucket elevator or a pneumatic conveyor that scoops up grain from a lower level and deposits it in a silo

or other storage facility. This use also covers the entire elevator complex including, but not limited to, receiving and testing offices, weighbridges, and storage facilities.

- **Volatile Materials Storage.** This is a new definition that was created by merging Inflammable³ Material Storage (Section 225(d)) and Explosive Storage (Section 225(e)). The impacts of this are minor, but do require that Inflammable Material Storage uses receive CU authorization from the Planning Commission in M-2 Districts, where previously this use was principally permitted.
- **Manufacturing Uses.** Currently, Article 2 has 31 different Manufacturing Use categories for C, M and PDR Districts (Section 226), while Article 8 has one; Light Manufacturing (Section 890.54). The existing controls for manufacturing uses in M and PDR districts are such that the uses could not be condensed down to only a couple of uses without making substantial changes to how those uses are regulated; however Staff was able to condense them down to 11⁴ uses. Staff based the new manufacturing uses on how existing manufacturing uses are controlled in PDR districts, and the type of manufacturing that occurs. For example, uses that deal with the manufacturing and processing of food, fiber and beverages are grouped into Food Fiber and Beverage Processing 1 & 2. Staff chose to group manufacturing uses based on PDR controls primarily because these controls were recently updated based on community input⁵. Moreover, there are more properties zoned PDR than M⁶, and PDR is a more modern zoning category.

Condensing these definitions into 11 categories had little impact on M-2 Districts; however there are some more significant impacts to M-1 properties. Mostly uses became more permissive, while one uses - Battery Manufacturing - became prohibited⁷. These changes are detailed below:

Was Prohibited, now Permitted in M-1: Curing, smoking, or drying fish; manufacture of cereals, distilled liquors, felt or shoddy, hair or hair products, pickles, sauerkraut, vinegar, yeast, soda or soda compounds, structural clay products, meat products, and fish oil. (now Food, Fiber and Beverage Processing 1); Blast Furnace (now Heavy Manufacturing 1).

Was Permitted, now Prohibited in M-1: Battery Manufacturing (now Heavy Manufacturing 3)

Was Prohibited, now Permitted with CU in M-1: Production or refining of petroleum products. (now Heavy Manufacturing 2)

Institutional Uses

The new Institutional Use category is divided into three subcategories including Education, Healthcare and Community. These uses are currently found in 209.3 and 217, the Institutional Use sections in the

³ Inflammable is often confused as an antonym to flammable, however it means capable of burning or easily set on fire.

⁴ Automobile Assembly, Food Fiber and Beverage Processing 1 and 2, Heavy Manufacturing 1, 2, 3, Light Manufacturing, Metal Workshop, Livestock Processing 1 and 2, and Ship Yard.

⁵ Board File 131205, Enactment Number 071-14, Effective 6/23/14

⁶ There are 71 properties zoned M-1 and only 58 properties zoned M-2, while there are 283 properties with a PDR zoning.

⁷ An internet search for this uses did not find any battery manufacturing within the City of San Francisco. It is unlike that this change will have any impact on existing businesses.

current Article 2. These uses appear in Articles 7 and 8 as Institutional uses as well. The following is a listing of the changes made to Institutional uses in the proposed Ordinance:

- **Institutional Use Groupings.** Other Large Institution (790.50), Other Small Institution (790.51) and Other Institutions (890.50) are grouping of institutional uses used in Articles 7 and 8, respectively. These groupings have been removed and replaced with the following uses; Child Care Facility, Social Service or Philanthropic Facility, School, Post-Secondary Educational Institution, Religious Institution, Community Facility, and Private Community Facility. Removing these use groupings allows continuity with current regulations in Article 2 districts and removes duplicate or redundant use definitions. It also allows these uses to be regulated separately in Article 7 and 8 districts should the need arise in the future.
- **School.** School is a new use definition that is made up of two existing use definitions; Elementary School and Secondary School. Staff merges these two uses into one use because their land use impacts are similar and they are currently regulated the same in all zoning districts. School is a different use than Post-Secondary Education Institutions, which is currently a separate use and would continue to be a separate use should this Ordinance move forward.

Residential Uses

Residential Uses includes Dwelling Units, Group Housing, Residential Hotels, Live Work Units⁸ and Senior Housing. These uses were previously included in Section 209.1 and 215 of Article 2. The definitions for these uses have not changed; however the use currently known as "Dwellings Specifically Designed for and Occupied by Senior Citizens" has been renamed "Senior Housing" and its location operational standards are now located in Section 202.2(f).

Sales and Service Use Category

Sales and Service Use category is divided into two subcategories; Retail and Non-Retail. These uses are mostly found in Articles 7 and 8 (790 and 890 respectively) but they are also found in Article 2 as Commercial Establishments in Section 209.8, Retail Sales and Service in Section 218, and Offices in 219. Retail uses are defined as "... uses that involve the sale of goods, typically in small quantities or services directly to the ultimate consumer or end user with some space for retail service on site..." This uses includes uses such as Restaurant, Bars, Gyms and Jewelry Stores. A Non-Retail Sales and Service use is defined as "...uses that involve the sale of goods or services to other businesses rather than the end user, or that do not provide for direct sales to the consumer on site." This use category includes things like General Office, Catering, Laboratory and Commercial Storage. This distinction is particularly important in NC, RC and some C-3 Districts that seek to have retail uses on the ground floor and non-retail uses on the upper floors.

Sales and Service is by far the largest use category in the Code and includes 45 different uses (32 for Retail and 13 for Non-Retail). This is primarily due to Articles 7 and 8, which regulate Sales and Service uses more specifically than other zoning districts. Except for Amusement Game Arcade (see discussion above) and Hardware Store (see discussion below) all retail uses have been maintained in this Ordinance, and some uses like Cat Boarding, Animal Hospitals and Hotel⁹ have been added to the Retail Sales and

⁸ Live/Work Units are no longer permitted in San Francisco; however the use definition is maintained in the Planning Code for the Live/Work units that legally established when the use was permitted.

⁹ Animal Uses were previously listed in Section 224 as "Animal Services" and Hotels, previously known as Tourist Hotels, were listed in Sections 209.2 and 216 as "Other Housing."

Service Use category. The following is a listing of the changes made to the uses in the Retail and Non-Retail Sales and Service Use categories:

Retail Sales and Service Uses

- **Trade Shop.** The Trade Shop definitions in Articles 7 and Article 8 are essentially the same, and a similar use is found in Article 2 called "Home and Business Service" (Section 222). The proposed Ordinance uses the definition in Articles 7 and 8, which covers all of the uses listed in Article 2 except for Catering and Hardware Stores. Staff decided to keep Catering out of the Trade Shop definition and make Catering its own use because Trade Shops are considered a retail use and Catering is not (A Catering use with a retail function is defined as a Restaurant). This is particularly important in Neighborhood Commercial Districts (Article 7) where retail uses are encouraged and in some cases required on the ground floor, while non-retail uses are typically discouraged or prohibited. Staff removed Hardware Stores from the Trade Shop definition because this use is already covered in the General Retail Sales and Service use definition, it is not defined anywhere in the Code, and it is not listed as a separate use anywhere else in the Code.

Trade Shops are considered to be PDR uses¹⁰, so removing Catering and Hardware Stores from the Trade Shop definition also removed them from the list of PDR uses. However, because Catering is becoming its own use, it can be listed individually as a PDR use, and the proposed Ordinance does that. Hardware Store on the other hand is not being given its own use definition and instead is being grouped with General Retail Sales and Service, which is not a PDR use; therefore Hardware Stores will no longer be considered a PDR use should this Ordinance become law. The impacts of this change are listed below:

- Hardware Stores would be subject to the gross floor area limitations for Retail in PDR Districts; however Storage Yards, which includes contractor supply yards, would still be considered a PDR use and not subject to those restrictions.
- Hardware Stores would no longer be able to locate on the ground floor in a space greater than 2,500 sq. ft. within a Small Enterprise Workspace (SEW).
- Hardware Stores would be considered a retail use for the purposes of calculating TIDF (Transportation Impact Development Fee).
- **Personal Services.** Staff divided Personal Service into two new use categories, which include Personal Service and Instructional Service. Currently, Personally Service is defined as:

A retail use which provides grooming services to the individual, including salons, cosmetic services, tattoo parlors, and health spas, or instructional services not certified by the State Educational Agency, such as art, dance, exercise, martial arts, and music classes.

This definition was split into two as follows:

Service, Personal. A Retail Sales and Services Use that provides grooming services to the individual, including salons, cosmetic services, tattoo parlors, and health spas, bathhouses, and steam rooms.

¹⁰A PDR use is a Production, Distribution and Repair Use. These uses are encouraged in PDR Districts, unlike retail and other commercial uses.

Service, Instructional. A Retail Sales and Service Use that includes instructional services not certified by the State Educational Agency, such as art, dance, exercise, martial arts, and music classes.

Staff split this definition into two uses at the request of Supervisor Tang, who is seeking to regulate Personal Services differently than Instructional Services in certain neighborhoods in her district. While it would add another use definition to the Code, this change allows more flexibility in how these uses are regulated.

- **Cat Boarding** is a use currently in the Code, but which did not have a definition. Staff derived the proposed definition based on the definition for Kennel, which is currently found in Section 224(c). The proposed new definition is as follows:

Cat Boarding. A Retail Sales and Service Use that provides boarding only for cats.

Non-Retail Sales and Service Uses

- **Administrative Services** (790.106 and 890.106) is a non-retail sales and service use not open to the public, and was originally added to the Code to allow for clerical services to locate within Neighborhood Commercial Districts. It was intended to be distinct from a General Office use, which is not permitted in neighborhood commercial districts. Professional Services (790.108, 890.108) is a similar use, but is a retail use and open to the public. It also includes administrative and clerical uses in addition to real-estate brokers, advertising agencies, public relation agencies and the like. In order to accommodate for both the retail and non-retail aspects of these two uses and to clarify the difference between these uses, staff changes the names of these uses to Non-Retail Professional Services (previously Administrative Services) and a Retail Professional Service (previously Professional Services). The Department continued to have internal discussions as to whether or not these uses distinctions are needed anymore, and there is an effort to reexamine how we regulate office uses in Neighborhood Commercial Districts; however, for this Ordinance, Staff has maintained these uses in order to avoid making larger policy changes.
- **Office Use** is currently defined in section 890.70 and includes general office uses as well as Professional Services (now Retail Professional Services) and Administrative Services (now Non-Retail Professional Services). Staff maintained this term, Office Use, because it is used in other areas of the Planning Code (Section 320) but removed the text that defined general office uses and used it to create a separate General Office definition. In its place staff put a reference to the new General Office use definition; now an Office Use is defined as "A grouping of uses that includes General Office, Retail Professional Services and Non-Retail Professional Services..." This allows General Offices uses to be regulated separately from Retail and Non-Retail Professional Services.

Utility and Infrastructure Uses

As the name suggest, Utility and Infrastructure Use category contains uses for the City's utility and infrastructure uses, including Community Recycling Center, Internet Service Exchange, Public Transportation Facility, Public Utilities Yard, Wireless Telecommunications Service (WTS) Facility, and Utility Installation. These uses were previously listed under "Public Facilities and Utilities" in Section 209.6 and "Other Uses" in Section 227. Other than grouping these uses into one single category and

renaming Wireless Telecommunications Facility to Wireless Telecommunications Service Facility¹¹, Staff has not proposed any significant changes to these definitions.

NE Legislation.

Staff also included changes that were part of the Northeast Ordinances¹² even though they have not yet been adopted into the Code. Staff felt that it was appropriate to include these changes because they were reviewed and recommended by the Commission, and are included in the pending Northeast Ordinances that were reintroduced at the Board this past month. Further, these Ordinances are scheduled to be heard at the Land Use Committee on October 20.

The following is a summary of the proposed changes in the NE Ordinance that have been included in this proposed Ordinance:

- Consolidate definitions of Awning, Canopy, and Marquee (Sections 136, 136.1, 136.2, 136.3)
- Make awning and sign controls for RC (Residential, Commercial) districts consistent with those for NC (Neighborhood Commercial) Districts (Sections 136.1, 136.2, 243, 249.5, 607.1, 607.3, 607.4 and Table 209.3)
- Make parking requirements in C-3 (Downtown, Commercial) and RC districts consistent with those of NCT (Neighborhood Commercial Transit) districts (Sections 151.1 and 243, and Tables 209.3 and 210.2)
- Make surface parking lots a nonconforming use in C-3-S districts (Sections 156 and 184)
- Remove horsepower limits for machines in accessory uses in C (Commercial) Districts, add operating conditions (Section 204.3)
- Eliminate the conditional use requirement for high residential density in C-3 Districts (Table 210.2 and Section 214)
- Consolidate Automotive Uses with those in NC and Mixed Use Districts (Sections 102 and 223)
- Nonconforming surface parking lots in C-3 districts built before 1985 are no longer grandfathered in, and will now be required to be converted to another use, or seek conditional use approval to continue as a parking lot. Previously, these parking lots were allowed to operate in perpetuity.
- New conditionally-permitted uses that replace nonconforming uses in NC districts will now require conditional use approval. Previously, these uses were allowed to convert to any principally permitted or conditionally permitted use as of right.

Modifications Since Initiation

Since the Ordinance was initiated by the Planning Commission, Staff has continued to review and correct the proposed Ordinance and has incorporated some suggestions and correction from members of the public. The vast majority of these changes are clerical and do not substantively alter the proposed Ordinance. A list of the changes can be found in Exhibit G.

¹¹ This name change was done to make the Planning Code consistent with other codes and Planning Department Documents.

¹² Originally Board Files 110547, 110548, subsequently reintroduced as Board Files 120471, 120472, and 120474. Planning Department Case # 2011.0533TZ. The Planning Commission had its final hearing on these Ordinances on 5/17/12.

REQUIRED COMMISSION ACTION

The proposed Resolution is before the Commission so that it may recommend approval or disapproval to initiate the Planning Code amendments.

RECOMMENDATION

The Department recommends that the Commission recommend approval with modifications of the proposed Ordinance to the Board of Supervisors. The proposed modifications are as follows:

- Allow Staff to continue to find and fix typos, incorrect or missing references and other non-substantive changes in consultation with the City Attorney's office.

Clerical Amendments

1. **Page 175, Line 8:** Text for RH-2 height limits should be moved to RH-2 Zoning Column.
2. **Page 233, Lines 24-25:** Reference to old Code sections should be replaced with the following text, "...such that the combined floor area of any and all uses permitted by the Zoning Control Table for PDR-Districts may not exceed the limits stated in the table below for any given lot."
3. **Page N/A, Line N/A:** Add Section 219.1(c)(2) to the Ordinance and fix reference to Small Enterprise Workspace: Should be: Section 102 ~~Section 227(t)~~.
4. **Page 419, Line 14:** Add section 320(f) to correct reference. "Section 219" should be changed to "Office Use as defined in Section 102"

BASIS FOR RECOMMENDATION

At over 1336 pages and including over 100 zoning districts, the Planning Code is a large and complicated document. This complexity, some of which is necessary, can make it difficult to effectively implement and interpret the City's land use regulations. It also makes it difficult for members of the community to effectively engage in the City's development process. The Department strongly believes that consolidating use definitions and making the Planning Code easier to use by creating zoning control tables for all zoning districts will help mitigate these issues. Further, standardizing how zoning districts are organized will aid future community planning efforts by providing a clear framework for existing land use regulations and use definitions.

Staff's Recommended Modification

Staff has thoroughly reviewed and vetted the proposed Ordinance, and has held or attended several community meetings to seek input and answer questions on the proposed changes. This effort, which has taken over a year to complete, has created a more complete and accurate Ordinance; however as with any large undertaking small errors and typos are inevitable. Staff is asking that the Commission included in their recommendation a provision that allows Planning Staff to continue to refine the proposed Ordinance as part of their motion. Any changes would be limited to non-substantive changes and have to be vetted by the City Attorney's office.

ENVIRONMENTAL REVIEW

This Ordinance is not defined as a project under CEQA Guidelines Sections 15378 and 1506(c)(2) because it does not result in a physical change in the environment.

PUBLIC COMMENT

The Department held two community outreach meetings on the propose Ordinance, and attended the Coalition for San Francisco Neighborhoods (CFSN) Land Use Committee meeting and the Cow Hollow Neighborhood Association Land Use Committee meeting. Overall the reception was positive; however there was a concern that more substantive changes would be made in the Ordinance and that the Ordinance was large and confusing. In response to some of the concerns raised by CSFN, the Department modified some parts of the Ordinance to clarify language.

The Department received a resolution from CSFN stating its opposition to the proposed Ordinance because of what they see as four unresolved issue. The Department sent a response to the resolution on October 10, 2014 (Exhibit H). The Cathedral Hill Neighborhood Association sent a letter in support of CFSN resolution.

The Department also received a letter from the Miraloma Park Improvement Club asking that the adoption of the Article 2 Ordinance be delayed because believes that the Ordinance "will change 'student housing' from an Institutional to a Residential 'characteristic use,' which will get this institutional use granted automatically in residential areas without a conditional use permit." The Department responded to this letter on 10/15/14 in an attempt to correct this misunderstanding. (Exhibit H)

BACKGROUND

The Planning Commission initiated the Article 2 Reorganization Ordinance on July 24th, 2014 and held an adoption hearing on October 23, 2014. At the adoption hearing, the Planning Commission voted to continue the adoption of the proposed Ordinance for four weeks so that the Staff could conduct one more public outreach meeting. That outreach meeting was held on Monday, November 10th at the Planning Department. During the meeting, Staff went over a list of requested changes by the Coalition for San Francisco Neighbors (CSFN), which they outlined in a letter sent to Planning Department Staff and the Planning Commission on November 4, 2014 (see Exhibit C). Other attendees, including Doug Engmann and Caroline Guibert, also proposed additional amendments. At the end of the meeting, Staff and the meeting attendees came to a consensus on which changes should be included. These changes are outline below under the Proposed Amendments section.

CURRENT PROPOSAL

The proposed Ordinance would amend the Planning Code to consolidate definitions into Section 102, reorganize Article 2 to create Zoning Control Tables, and make nonsubstantive changes to various sections in Articles 1, 2, 3, 4, 6, 7 and 8 in order to update, clarify, and simplify Code language.

REQUIRED COMMISSION ACTION

The proposed Resolution is before the Commission so that it may recommend approval or disapproval to the Board of Supervisors.

PROPOSED AMENDMENTS

The following are proposed amendments that came out of the November 4th outreach meeting, and continued review of the proposed Ordinance by Staff (see Exhibit C for emails from CSFN and Doug Engmann). All page number and line references correspond to the latest version of the Ordinance, which is published online with this memo. Code sections are also provided to allow cross reference with earlier versions of the Ordinance.

Amendments proposed by CSFN (see Exhibit C):

1. Page 132, line 6: Section 202.1(a), add the following text to the end of the paragraph in Section 202.1(a):

In the "§ Reference" column add "§311 and Residential Design Guidelines". In the following control columns add the following text:

Subject to the Residential Design Guidelines. Other design guidelines that have been approved by the Planning Commission may also apply.

Amendments proposed by Doug Engmann (see Exhibit C):

At the end of the RM Zoning Control Table add the following new footnote:

(7) C required if the Group Housing is affiliated with and operated by a Hospital or an Institutional Educational Use as defined in Section 102.

PROPOSED RECOMMENDATION

The Department recommends that the Commission recommend approval with modifications of the proposed Ordinance to the Board of Supervisors. The proposed modifications are as follows:

1. Adopt amendments 1-8 listed above.
2. Allow Staff to continue to find and fix typos, incorrect or missing references and other non-substantive changes in order to maintain consistency with existing Planning Code controls in consultation with the City Attorney's office.
3. Reconcile the proposed Ordinance with recently adopted ordinances, including but not limited to:
 - a. Board File 120796: Divisadero Street NCD
 - b. Board File 120814: Fillmore Street NCD
 - c. Board File 120881: NE Ordinance
 - d. Board File 140844: Formula Retail Ordinance

BASIS FOR RECOMMENDATION

At over 1336 pages and including over 100 zoning districts, the Planning Code is a large and complicated document. This complexity, some of which is necessary, can make it difficult to effectively implement and interpret the City's land use regulations. It also makes it difficult for members of the community to effectively engage in the City's planning and development process. The Department strongly believes that consolidating use definitions and making the Planning Code easier to use by creating zoning control tables for all zoning districts will help mitigate these issues. Further, standardizing how zoning districts are organized will aid future community planning efforts by providing a clear framework for existing land use regulations and use definitions.

Recommendation 1: Adopt amendments 1-8 listed above.

Amendments 1-3: These recommendations were suggested by the CSFN and agreed to by Staff. While not substantive changes, staff finds that the recommendations will help clarify how the tables are to be used, how height is calculated, and will also direct users to the Residential Design Guidelines for RH and RM Districts.

Amendment 4: As Mr. Engman pointed out, a “sleeping room” is not defined in the Building Code; however it is a term used throughout the Buildings Code, and there are several requirements for sleeping rooms in the Building Code. The revised definition will more accurately reference how the Building Code uses the term “sleeping room.”

Amendment 5: Based on discussions Staff had with Mr. Engman at the outreach meeting, Staff agrees that substituting the word “profit” with “financial gain” will encompass a broader list of ways commercial activities can operate. Profit has a specific financial definition, and not all businesses are profitable.

Amendment 6: Household is a term used throughout the Planning Code; however it is used inconsistently and in different contexts. After further considerations, Staff is recommending that this term be removed from Section 102 and placed back in Article 4 as a definition specific to that article.

Amendment 7: As Ms. Guibert pointed out at the outreach meeting, the provision identifying Groups Housing associated with an Institutional Use as a Residential Uses is specific to Article 4 for purposes of calculating fees. However, Group Housing approved as part of a CU for an institution is currently considered an Institutional Use for entitlement purposes. Adding the proposed language will clarify this and maintain current controls.

Amendment 8: Group Housing is currently principally permitted in RC and RM districts; however, Groups Housing associated with Hospitals and Educational Uses requires a CU. While there may be a rational policy reason to treat all Group Housing the same since their land use impacts are similar, existing Planning Code controls differentiate between who occupies the housing. This recommendation is consistent with Staff’s stated commitment to not making any substantive policy changes.

Recommendation 2: Allow Staff to continue to find and fix typos, incorrect or missing references and other non-substantive changes.

Staff has thoroughly reviewed and vetted the proposed Ordinance, and has held or attended several community meetings to seek input and answer questions on the proposed changes. This effort, which has taken over a year-and-a-half to complete has created a more complete and accurate Ordinance; however as with any large undertaking small errors and typos are inevitable. Staff is asking that the Commission included in their recommendation a provision that allows Planning Staff to continue to refine the proposed Ordinance as part of their motion. Any changes would be limited to non-substantive changes and have to be vetted by the City Attorney’s office.

Recommendation 3: Reconcile the proposed Ordinance with recently adopted ordinances.

The ordinances listed in Recommendation 3 are currently moving through the Board of have been recently approve by the Board. In order to ensure that this Ordinance does not remove any change made by those ordinances staff is explicitly recommending that this Ordinance be reconcile with recently adopted ordinances.

RECOMMENDATION: Approve with Modifications
