LEGISLATIVE DIGEST

[Aboveground Storage Tank Fees]

Ordinance amending San Francisco Health Code Sections 1102 and 1176 by adding aboveground storage tank definitions and fees

Existing Law

In order to protect public health and the environment, Article 21 of the Health Code establishes a comprehensive program for regulation of facilities that handle hazardous materials. The program is implemented and administered by the Department of Public Health. Existing law establishes fees to support such programs; such fees cover program costs as required by Section 10.19-3 of the Administrative Code.

There currently exist no fees for aboveground petroleum storage tank facilities.

Amendments to Current Law

The proposed amendments would add definitions and fees for aboveground petroleum storage tanks.

Background Information

California Health and Safety Code Sections 25270 et seq. authorize the local Unified Program Agency (in San Francisco, the Department of Public Health) to regulate and charge fees for these facilities.
