1 [Public Works Code - Public Improvements as Gifts]

2
3 **Ordinance amending the Public Works Code, by adding Section 791, to allow the**
4 **Director of the Department of Public Works, subject to specified requirements, to**
5 **accept certain public improvements as public gifts and dedicate such improvements to**
6 **public use; and making environmental findings.**

7 NOTE: Additions are *single-underline italics Times New Roman*;
8 deletions are *strike-through italics Times New Roman*.
9 Board amendment additions are double-underlined;
10 Board amendment deletions are ~~strikethrough normal~~.

11 Be it ordained by the People of the City and County of San Francisco:

12 Section 1. Findings.

13 (a) Consistent with the Better Streets Policy of Administrative Code Sections 98.1 et
14 seq., the Better Streets Plan, Neighborhood Plans, and streetscape design standards, the
15 Board of Supervisors finds that it is in the public interest to encourage property owners to
16 voluntarily construct and install public improvements outside of the frontage of the owner's
17 property on the City's public right-of-way. This legislation provides a mechanism to
18 accomplish this and simplify the existing permitting scheme.

19 (b) The Planning Department has determined that the actions contemplated in this
20 ordinance comply with the California Environmental Quality Act (California Public Resources
21 Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
22 Supervisors in File No. 130251 and is incorporated herein by reference.

23 Section 2. The San Francisco Public Works Code is hereby amended by adding
24 Section 791, to read as follows:

1 **SEC. 791. PUBLIC IMPROVEMENTS GIFT ACCEPTANCE AND PUBLIC**
2 **DEDICATION.**

3 **(a) Definitions.**

4 "Immediate Property Frontage" refers to that portion of the public right-of-way from the back
5 of curb to the adjacent property line for the length of the entire property.

6 "Public Improvements" shall be defined as physical improvements to the public right-of-way
7 intended to promote pedestrian and bicycle safety, to provide increased sidewalk area for pedestrians,
8 and to promote environmentally sound street design, and to enhance the aesthetic appeal of streets.
9 Such improvements include, but shall not be limited to, sidewalk widening, sidewalk widening at
10 corners, medians, raised pedestrian crossings, and bicycle facilities, and are generally described in the
11 Better Streets Plan or its successor document, Neighborhood Plans, or neighborhood streetscape plans.

12 **(b) Gift Acceptance of Public Improvements.** Notwithstanding the limit on administrative
13 acceptance of public gifts in Administrative Code Section 10.100-305, the Director of Public Works is
14 authorized to accept as gifts on behalf of the City and County of San Francisco certain Public
15 Improvements within the Department's permitting and maintenance jurisdiction subject to the
16 limitations as set forth in this Section 791. Such gift acceptance is subject to all other laws, rules, and
17 regulations governing acceptance of public gifts. All such gifts shall be made by an irrevocable offer of
18 dedication.

19 **(c) Location of Public Improvements and Consistency with Applicable Plans.**

20 (1) The subject Public Improvements shall be located on the public right-of-way outside of the
21 Immediate Property Frontage of the property owner and be consistent with the Better Streets Plan or
22 applicable Neighborhood Plan or neighborhood streetscape plan. Generally, such Public
23 Improvements shall be within 500 feet of the Immediate Property Frontage.

24 (2) Notwithstanding the locational requirement of Subsection (c)(1) above, a gift of Public
25 Improvements also may be made if the owner constructs a sidewalk bulb-out within the Immediate

1 Property Frontage. Such sidewalk bulb-out shall satisfy all other provisions of this Section. Any such
2 gift shall be applicable only to that additional portion of sidewalk necessary to construct the sidewalk
3 bulb-out in relation to the: (a) then existing official sidewalk width if the sidewalk width remains
4 unchanged within the Immediate Property Frontage or (b) new official sidewalk width if the sidewalk
5 width within the Immediate Property Frontage has been expanded. With the exception of that
6 additional portion of sidewalk necessary to construct the sidewalk bulb-out as set forth above, the
7 property owner shall be solely responsible for such Improvements in accordance with Public Works
8 Code Section 706. In such instances, the Department of Public Works official maps shall delineate the
9 division of responsibility between the City and the property owner.

10 (3) If the subject Public Improvements specified in Subsection (c)(1) result in expansion of
11 sidewalk width outside of the Immediate Property Frontage and such sidewalk improvements meet all
12 the standard City requirements for sidewalk design and materials, then while the Department may
13 accept such Public Improvements as a gift, then the fronting owner shall be solely responsible for such
14 Improvements in accordance with Public Works Code Section 706.

15 (4) Notwithstanding the requirement of Subsection (c)(3) above, a gift of Public Improvements
16 may include a sidewalk bulb-out outside of the Immediate Property Frontage. Any such gift shall be
17 applicable only to that additional portion of sidewalk necessary to construct the sidewalk bulb-out in
18 relation to the: (a) then existing official sidewalk width if the sidewalk width remains unchanged
19 outside of the Immediate Property Frontage or (b) new official sidewalk width if the sidewalk width
20 outside the Immediate Property Frontage has been expanded and such sidewalk improvements meet all
21 the standard City requirements for sidewalk design and materials. With the exception of that
22 additional portion of sidewalk necessary to construct the sidewalk bulb-out as set forth above, the
23 fronting owner shall be solely responsible for such Improvements in accordance with Public Works
24 Code Section 706. In such instances, the Department of Public Works official maps shall delineate the
25 division of responsibility between the City and the fronting owner.

1 (5) If the subject Public Improvements to be located on the sidewalk portion of the public right-
2 of-way outside of the Immediate Property Frontage of the property owner are not improvements that
3 meet all the standard City requirements for design and materials or are comprised of any form of
4 encroachment, including street furniture, then the Director, in his or her discretion, may decline to
5 accept all or a portion of such Public Improvements as a gift. In such instances, the Director may
6 process the permitting and approval of such Public Improvements in accordance with applicable
7 provisions of the Public Works Code and may issue a permit or permits to: (a) the property owner if the
8 property owner assumes permit responsibility for the nonstandard design and materials or
9 encroachments. In such instances, the Director also may process the permitting and approval
10 of such Public Improvements in accordance with applicable provisions of the Public Works
11 Code and may issue a permit or permits to: (b) the fronting owner(s) if such fronting owner(s)
12 consent to assume responsibility for the nonstandard design and materials or encroachments; or (c)
13 both.

14 (d) Limitation of Gift Acceptance to Department of Public Works Jurisdiction. The Public
15 Improvements subject to the gift acceptance shall be only those improvements within the Department's
16 permitting and maintenance jurisdiction. Public Improvements that fall within the maintenance
17 jurisdiction of other departments shall not be subject to the terms of this Section.

18 (e) Public Improvements Subject to All Other Applicable City Approvals. The Public
19 Improvements shall be subject to all City Department reviews, approvals, and permitting that otherwise
20 would apply to such projects.

21 (f) Departmental Approval by Street Improvement Permit. The Department shall approve
22 such Public Improvements pursuant to a street improvement permit as set forth in Public Works Code
23 Article 2.4 for accepted streets or Article 9 for unaccepted streets and said permit shall be
24 accompanied by security as required by the Department. Said permit may be combined with other
25 Departmental permits associated with the subject project.

1 (g) Gift to Include Cost of Maintenance. The gift for such Public Improvements shall be
2 accompanied by a maintenance endowment of at least 20% of the estimated cost of construction of the
3 Improvements as determined by the City Engineer; provided, however, that the Director may reduce
4 the cost of this endowment, but in no case shall the reduction be less than 10% of the cost of
5 construction of the Improvements. The Department shall deposit all such maintenance funds into a
6 public improvement gift maintenance account.

7 (h) Public Improvement Gift Maintenance Fund. There is hereby created a Public
8 Improvement Gift Maintenance Fund wherein all funds received under the provisions of this Section
9 shall be deposited. Said fund shall be a Category 8 fund in accordance with Administrative
10 Code Section 10.100-1. All expenditures from the Fund shall be for administrative, engineering,
11 legal, or technical work related to the maintenance of such improvements and equipment directly
12 related to such maintenance, including but not limited to labor costs and any future construction
13 associated with the Public Improvements. All such expenditures are hereby appropriated for said
14 purposes.

15 (i) Acceptance and Dedication of Public Improvements. The Board of Supervisors delegates
16 authority to the Director of Public Works to accept and dedicate the Public Improvements for public
17 use, designate them for any or all public street and roadway purposes, and accept the Improvements
18 for City maintenance and liability purposes once the City Engineer has determined that the Public
19 Improvements have been constructed according to City standard and the satisfaction of the Department
20 and are ready for their intended use.

21 (j) DPW Regulations. In addition to the requirements set forth in this Section, the Director
22 may adopt such orders, policies, regulations, rules, or standard plans and specifications as he or she
23 deems necessary in order to preserve and maintain the public health, safety, welfare, and convenience.
24 Such orders, policies, regulations, or rules may include, but are not limited to, permit application
25 materials, site conditions, accessibility of sidewalks and streets, submission of as-built plans as a

1 precondition to acceptance. When such orders, policies, regulations or rules will affect the operations
2 and enforcement of the Municipal Transportation Agency, the Director of the Department of Public
3 Works shall consult with and provide an opportunity to comment to the Municipal Transportation
4 Agency prior to adoption of such orders, policies, regulations, or rules.

5 Section 3. Effective Date. This ordinance shall become effective 30 days from the
6 date of passage.

7 Section 4. This section is uncodified. In enacting this Ordinance, the Board intends to
8 amend only those words, phrases, paragraphs, subsections, sections, articles, numbers,
9 punctuation, charts, diagrams, or any other constituent part of the Public Work Code that are
10 explicitly shown in this legislation as additions, deletions, Board amendment additions, and
11 Board amendment deletions in accordance with the "Note" that appears under the official title
12 of the legislation.

LEGISLATIVE DIGEST
(5/21/2013, Substituted)

[Public Works Code - Public Improvements as Gifts]

Ordinance amending the San Francisco Public Works Code, by adding Section 791, to allow the Director of the Department of Public Works, subject to specified requirements, to accept certain public improvements as public gifts and dedicate such improvements to public use; and making environmental findings.

Existing Law

Administrative Code Sections 98.1 et seq. set forth the City's Better Streets Policy and establish the Better Streets Plan as the governing document for the design and dimensions of all pedestrian and streetscape elements. Administrative Code Section 1.52 provides that when any portion of a roadway or street of at least one continuous block has been constructed in accordance with City standards as certified by the City Engineer, the Board of Supervisors by Ordinance shall accept the street for City maintenance and liability purposes, subject to the exception discussed below. San Francisco also follows this process when there are portions of newly constructed street or roadway portions of less than one block or other public works or improvements in the public right-of-way constructed to City standards and placed under the jurisdiction of the Department of Public Works for City maintenance and liability purposes. Administrative Code Section 1.52 and Public Works Code Section 706 place the duty on a property owner to keep the public sidewalk adjacent to the owner's property in good repair and condition. Administrative Code Section 10.100-305 establishes a \$10,000 limit on administrative acceptance of gifts to the City. Gifts above that value require approval of the Board of Supervisors via Resolution.

Amendments to Current Law

This legislation would add Public Works Code Section 791 to create a streamlined process for the Director of the Department of Public Works (DPW) to permit the construction of and accept public improvements designed in accordance with the Better Streets Plan and City standards as gifts to the City even if the cost for such improvements exceeds the administrative gift acceptance level of \$10,000. The Ordinance would apply primarily to public improvements, such as sidewalk widening, pedestrian bulb-outs, and street medians, constructed outside of the owner's/permittee's property frontage and would be limited to those improvements within DPW's permitting jurisdiction. The legislation would specify that if the owner/permittee constructs any pedestrian bulb-out as part of this program, DPW would: (1) assume the maintenance of the additional sidewalk area associated with the bulb-out that extends beyond the existing or expanded official sidewalk width and (2) delineate the division

of maintenance responsibility between the City and the adjacent property owner on its official sidewalk width maps. The owner/permittee would remain responsible for all other public improvements within his or her immediate property frontage in accordance with the Public Works Code. If the permittee constructs a widened sidewalk outside of his or her property frontage that meets the City's standard sidewalk design parameters and constitutes the new official sidewalk width, then property owners adjacent to the expanded sidewalk are responsible for this area in accordance with Public Works Code Section 706. If all or a portion of the public improvements outside of the owner's/permittee's property frontage do not meet City standards or constitute encroachments, such as street furniture, then the DPW Director is authorized to reject this portion of the gift and address these improvements through the applicable permit program in the Public Works Code.

The Ordinance also would delegate to the DPW Director the authority to dedicate such improvements for public use, designate them for public right-of-way purposes, and accept them for City maintenance and liability without further Board of Supervisors action. The Ordinance would provide that any public gift of such improvements include a maintenance endowment of at least 20% of the construction cost of the improvements though the DPW Director would have the authority to reduce this endowment to no less than 10% of the cost. This endowment would be placed in a public improvement gift maintenance fund to be used exclusively for maintenance and other City actions directly connected with the improvements.

Background Information

This legislation is intended to facilitate and simplify the process for property owners to construct public improvements outside of their immediate property frontage in order to enhance pedestrian-friendly public amenities in a neighborhood. It also provides a convenient approach for property owners to construct such improvements in lieu of paying City impact fees, which otherwise would have been set aside for similar City-constructed public improvements at a later date. Consequently, this Ordinance allows for the more efficient and expedient neighborhood delivery of public improvements that are consistent with the City's Better Streets Plan, neighborhood plans, and streetscape design standards.

The Board of Supervisors finds and declares that it is in the public interest to officially recognize walking as an important component of our transportation system, and as a key component to creating livable and suitable communities.

Therefore the Board of Supervisors established the Pedestrian Safety Advisory Committee. This Advisory Committee, composed of concerned and informed residents, will provide a source of expertise on issues concerning pedestrian safety, convenience, ambiance, and planning.

Dear Supervisor Wiener,

The San Francisco Pedestrian Safety Advisory Committee unanimously endorses and strongly supports Supervisor Wiener's new legislative package.

PSAC supports Supervisor Wiener's proposed resolution urging interagency cooperation, communication and collaboration between the Public Utilities Commission, Department of Public Works, Municipal Transportation Agency, and Planning (File 130255).

PSAC also supports the proposed ordinance amending the San Francisco Public Works Code regarding Public Improvements as Gifts (File 130251). In addition, PSAC supports the establishment of a Street Design Review Committee (File 130252) and ordinance amending the Fire Code (File 130253).

We appreciate Supervisor Wiener's legislative assistant Mr. Andres Power presenting to our Committee on April 9th, and want to follow up on our request that a PSAC representative seat be established on the proposed Street Design Committee. PSAC completely agrees with Supervisor Wiener's statements regarding fragmented responsibility and the need to streamline pedestrian safety efforts. PSAC commends Supervisor Wiener's excellent leadership on this deadly serious issue. PSAC welcomes the opportunity to continue working with all members of the Board of Supervisors to make the streets of San Francisco safer. Thank you.

Sincerely,

Zack Marks

Subject: Fiscal Impact

Hi,

Based on our initial review and discussions with DPW, we determined that File 13-0251 regarding public improvements as gifts to the City had fiscal impact. Please note that this legislation was introduced on March 12, 2013, and originally assigned under 30 day rule to Land Use and Economic Development Committee. However, based on our further more detailed review of this legislation, we now have determined that this legislation is not likely to have fiscal impact on the City.

Please don't hesitate to contact me if you have any questions. Thanks so much,
