(continued from July 10, 2013)

Department:
Public Utilities Commission (PUC)

EXECUTIVE SUMMARY

Legislative Objectives

- The proposed resolution would approve an emergency contract under Administrative Code Section 6.60 to Shimmick Construction Company, Inc. to perform necessary repairs and rehabilitation of the existing North Shore Force Main in an amount not-to-exceed \$7,000,000.

Key Points

- On March 20, 2012, corrosion and joint separation in the North Shore Force Main caused sewage overflow onto the roadway near The Embarcadero and Mission Street intersection. On March 22, 2012, the Public Utilities Commission (PUC) declared an emergency for this immediate repair and retained Cal State Constructors, Inc., with whom PUC had an existing contract. Cal State Constructors, Inc. completed this work on April 23, 2012, for a total cost of \$575,529.
- On June 12, 2012, the PUC issued a second emergency declaration for the immediate repair of additional leaks detected in segments of the North Shore Force Main under The Embarcadero between Jackson and Howard Streets.
- On June 18, 2012, Shimmick Construction Company, Inc. submitted a bid for \$4,140,500; and the PUC approved a not to exceed contract for \$4,200,000 on July 23, 2012. As of July 2, 2013, all repairs have been completed, except for minor sidewalk restoration work on The Embarcadero.

Fiscal Impacts

- The total project costs of not-to-exceed \$7,000,000 are \$2,800,000 or 67% more than the original not-to-exceed \$4,200,000 contract with Shimmick Construction Company, Inc. To date, Shimmick Construction Company, Inc. has incurred expenditures totaling \$4,480,128 and the PUC estimates additional expenditures of \$2,519,872, for a total of \$7,000,000.
- All expenses will be funded from PUC's capital budget, funded through the wastewater ratepayers.

Recommendations

- On July 10, 2013, the Budget and Finance Committee amended the proposed resolution to (a) reflect the actual cost for the original emergency work from \$600,000 to \$575,529 and (b) increase the requested emergency authorization by \$575,529 from \$7,000,000 to \$7,575,529, in order to include the initial emergency North Shore Force Main repairs that have already been incurred near The Embarcadero and Mission Street intersection.
- Approve the proposed resolution, as previously amended.

MANDATE STATEMENT/BACKGROUND**Mandate Statement**

In accordance with Administrative Code Section 6.60, an emergency contract awarded by a City department that exceeds \$250,000 requires approval by the Board of Supervisors. Administrative Code provisions also authorize department heads responsible for such emergency work to award and proceed with emergency contracts, which are not subject to the City's regular competitive bidding procedures. The Administrative Code defines an emergency as a sudden, unforeseeable and unexpected occurrence or a discovery of a condition involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss or damage to, life, health, property or essential public services.

Background

San Francisco has three major force mains:¹ North Shore, Channel, and Westside. The North Shore Force Main is a 36-inch diameter sewer pipe that carries approximately 20% of the City's sewer flow from the North Shore Drainage Basin in the northeast portion of San Francisco to the Southeast Water Pollution Control Plant for wastewater treatment. The North Shore Force Main ends at the intersection of Stuart and Howard Streets and is 7,700 feet long. None of the three major force mains currently have redundancies.² Thus, if any force main is taken out of service for an extended period of time, untreated sewage could overflow into the San Francisco Bay.

On March 20, 2012, the North Shore Force Main failed due to corrosion and joint separation,³ causing sewage to flow onto the roadway surface near The Embarcadero and Mission Street intersection and requiring the North Shore Force Main to be operated at a substantially reduced capacity.

On March 22, 2012, the PUC declared an emergency for the immediate repair of the North Shore Force Main leak and, in accordance with Administrative Code Section 6.60, awarded a sole-source contract to Cal State Constructors, Inc., with whom PUC had an existing contract for repairs. According to Ms. Bessie Tam, PUC Project Manager, Cal State Constructors, Inc. provided an estimate of \$463,825 prior to beginning their work based on the assumption that only one leak near Mission Street existed. According to Ms. Tam, PUC did not request approval from the Board of Supervisors for this initial emergency contract work.

On April 6, 2012, Cal State Constructors, Inc. began repairs on the North Shore Force Main near The Embarcadero and Mission Street intersection. Work was completed on weekends and in the evenings, such that the North Shore Force Main was taken out of service for 24-hours at a time during actual repairs. When not being repaired, the North Shore Force Main was operating

¹ A Force Main is a pressurized main pipe that can carry water, sewage, and other materials.

² Prior to the subject emergency, PUC initiated a new capital project to provide redundancy to the North Shore Force Main. On April 24, 2012, the PUC approved the award of a \$15,488,000 contract to KJ Woods Construction, Inc. to build a redundant force main to the North Shore Force Main, which is expected to be completed at the end of 2013 or early 2014. After the redundant force main is completed, flow can be diverted to the new force main and the existing force main can be taken out of service for complete inspections and repairs.

³ Pipes are installed in sections and joined together. For example, a pipeline that is 1,000-feet long is made up of 50-foot pieces. Each 50-foot piece is joined together at "joint" locations. Joint separations are separations at the joints between each section of pipe, which would allow the material inside the pipe to leak out.

at a reduced capacity. This emergency repair work was completed on April 23, 2012. On June 25, 2012, the PUC received an invoice from Cal State Constructors, Inc. for \$575,529. According to Ms. Tam, the discrepancy between Cal State Constructors, Inc.'s initial estimate of \$463,825 and the actual expenditures of \$575,529 that has now been paid to Cal State Constructors, Inc. was due to additional costs required to install seals at multiple leaks found by Cal State Constructors, Inc. inside the North Shore Force Main.

The proposed resolution states on Page 1, line 9 that this emergency contract with Cal State Constructors, Inc. cost a total of \$600,000. On July 10, 2013, the Budget and Finance Committee amended the proposed resolution to reflect the actual total cost of \$575,529.

On April 23, 2012, the PUC began to conduct additional dye tests to determine the sources of the various leaks in the North Shore Force Main. According to Ms. Tam, it took approximately six weeks to schedule the leak tests, await the laboratory results, then analyze and evaluate the results to conclude that additional leaks existed along the entire length of the pipe.

On June 4, 2012, PUC's Wastewater Enterprise determined a need for a second emergency declaration for the immediate repair of additional leaks detected in segments of the North Shore Force Main under The Embarcadero between Jackson Street and Howard Street. Ms. Tam advises that the remaining repairs of the North Shore Force Main, estimated to cost \$7,000,000, were based on PUC's preliminary estimates, together with the Department of Public Works (DPW) estimates. On June 12, 2012, the PUC officially declared this second emergency.

PUC requested proposals from two contractors for design and construction of a new pipe inside the existing pipe (a method called "lining") for approximately 3,000-feet of the North Shore Force Main. Ms. Tam stated that although emergency contracts are exempt from the City's regular bidding process, the PUC nonetheless requested qualifications and construction estimates from two qualified contractors who had performed similar types of work for the PUC.

On June 18, 2012, (a) Shimmick Construction Company, Inc. submitted a bid for \$4,140,500 and (b) NTK Construction, Inc. submitted a bid for \$4,000,000. According to Ms. Tam, Shimmick Construction Company, Inc. was selected because of their prior experience in addressing emergency construction contracts and because of their having more qualified staff resources available to perform the needed repair work.

On July 23, 2012, the PUC issued a notice to proceed to Shimmick Construction Company, Inc. for a not to exceed \$4,200,000. According to Ms. Tam, Shimmick Construction Company, Inc. immediately identified substantial differences between the assumed and actual site conditions, including finding an abandoned underground storage tank, unidentified utilities, and old wharfs under The Embarcadero, which required additional work from the contractor to remove or support these items prior to construction. This resulted in an additional cost of \$2,800,000, over the \$4,200,000 not previously anticipated, for a total cost of \$7,000,000.

According to Ms. Tam, all of the repairs were anticipated to be completed by July 1, 2013. However, as of July 2, 2013, some minor sidewalk restoration work on The Embarcadero still requires completion pending material delivery.

DETAILS OF PROPOSED LEGISLATION

Based on a declaration of emergency by the PUC on June 12, 2012, the proposed resolution would approve an emergency contract awarded by the PUC to Shimmick Construction Company, Inc. to perform the necessary repairs and rehabilitation of the North Shore Force Main for a total contract amount not to exceed \$7,000,000.

Previously, on March 22, 2012, the PUC declared a separate emergency to allow immediate repair of a leak in the North Shore Force Main detected at the intersection of The Embarcadero and Mission Street. The emergency work was successfully performed by Cal State Constructors, Inc. at a total cost of \$575,529.

Subsequent dye-testing work on the North Shore Force Main showed that additional leaks were occurring along the entire length of the North Shore Force Main on The Embarcadero between Jackson Street and Howard Street. Therefore, on June 12, 2012, the PUC declared a second emergency for the construction of a new pipe in the North Shore Force Main along The Embarcadero. The PUC subsequently selected Shimmick Construction Company, Inc. to perform the emergency work with an initial contract award of \$4,200,000. Under Administrative Code Section 6.60, an emergency contract awarded by a City department that exceeds \$250,000 requires approval by the Board of Supervisors. As previously noted, the current contract costs are estimated to total \$7,000,000.

FISCAL IMPACTS

According to Ms. Tam, as of January 25, 2013, Shimmick Construction Company, Inc. had submitted invoices to SFPUC totaling \$4,480,128, which have now been fully paid.

In addition, Ms. Tam advises that Shimmick Construction Company, Inc. presently estimates additional expenditures of \$2,519,872 (\$1,500,000 for labor and \$1,019,872 for equipment and materials) to complete the emergency work, for a total estimated cost of \$7,000,000, as shown in the Table below.

**Actual Expenditures to Date and
Estimated Future Expenditures**

Item	Actual invoices to date	Estimated additional Expenditures to be incurred	Total Estimated Expenditures
Total	\$4,480,128	\$2,519,872	\$7,000,000

The total estimated project costs of not-to-exceed \$7,000,000 are \$2,800,000 or 67% more than the original not-to-exceed \$4,200,000 contract with Shimmick Construction Company, Inc. However, Ms. Tam explains that this cost increase is justified because Shimmick Construction Company, Inc. encountered additional costs due to unanticipated site conditions, traffic and

operational restrictions, weather impacts, and time delays. Ms. Tam also advises that the actual cost to be incurred by Shimmick Construction Company, Inc. is closer to the original preliminary \$7,000,000 estimate by DPW engineers and PUC management at the time of the emergency declaration.

Ms. Tam advises that all of these emergency repair costs have been and will be paid from the 2013 Wastewater Revenue Bonds, which were issued for the costs of planning, design, construction, and improvements of various capital improvement projects and is funded through the wastewater ratepayers.

The proposed resolution had not included a request for approval of the original emergency repairs to the North Shore Force Main near The Embarcadero and Mission Street Intersection, which as discussed above, were completed under a sole-source emergency contract with Cal State Constructors, Inc., on April 23, 2012, at a cost of \$575,529. According to Ms. Tam, a separate emergency resolution has not been submitted to the Board of Supervisors for approval of such emergency repairs. In accordance with the City's Administrative Code Section 6.60, an emergency contract awarded by a City department that exceeds \$250,000 requires approval by the Board of Supervisors. Therefore, on July 10, 2013, the Budget and Finance Committee amended the proposed resolution from a not-to-exceed amount of \$7,000,000 which reflects the total costs to be incurred under the PUC's second emergency declaration to a not-to-exceed of \$7,575,529 in order to reflect the \$575,529 costs of the original emergency repairs of the North Shore Force Main.

RECOMMENDATIONS

1. On July 10, 2013, the Budget and Finance Committee amended the proposed resolution to (a) reflect the actual cost for the original emergency work from \$600,000 to \$575,529 and (b) increase the requested emergency authorization by \$575,529 from \$7,000,000 to \$7,575,529, in order to include the initial emergency North Shore Force Main repairs that have already been incurred near The Embarcadero and Mission Street intersection.
2. Approve the proposed resolution, as previously amended.

SUBJECT: Declaration of Emergency: Repair North Shore Force Main

On March 20, 2012, the SFPUC Wastewater Enterprise's Operations requested an emergency be declared to immediately repair a leak detected at the intersection of Mission Street and The Embarcadero from the existing North Shore Force Main, which has failed due to joint separation at several locations, causing sewerage to flow to the roadway surface and requiring the force main to be operated at a substantially reduced capacity. This force main is a critical conveyance pipeline that does not have any redundancy.

It is in the best interest of the City to declare an emergency for this work in the interest of public health and safety. This emergency work will be performed with an existing Job-Order-Contract.

I am therefore declaring the existence of an emergency. I trust that this meets with your concurrence and approval.

SUBJECT: Update on North Shore Force Main Emergencies
 Agenda Item 5E / Scheduled for July 24, 2012

The North Shore Force Main conveys all of the dry weather raw sewage from the North Shore Drainage Basin to the Southeast Water Pollution Control Plant for treatment. It is a 36 inch steel pipe with no redundancy. If this line were to be out of service for more than a day, we would be forced to discharge primary treated flow in violation of our permit. On April 24th, 2012, you approved the award of a contract to build a redundant force main, but it will not be completed until next year.

The following is an update of the recent emergencies attributed to the North Shore Force Main. Both emergency declaration letters are attached for reference.

On March 20, 2012, the SFPUC Wastewater Enterprise requested an emergency be declared to immediately repair a leak detected at the intersection of Mission Street and the Embarcadero from the existing North Shore Force Main, which had failed due to joint separation at several locations, causing sewage to flow onto the roadway surface requiring the force main to be operated at substantially reduced capacity. As mentioned above, this force main is a critical conveyance pipeline that does not have any redundancy.

The leak at the Mission and Embarcadero was repaired at a total contract cost of \$600,000.00

On June 4, 2012, the SFPUC Wastewater Enterprise's Operations, requested an emergency be declared to immediately repair additional leaks detected in segments of the North Shore Force Main under The Embarcadero, between Jackson Street and Howard Street. Although the leak near Mission Street has been repaired, subsequent dye-testing of the force main indicated that additional leaks are occurring along the entire length of the pipe; therefore, additional emergency repair work is necessary.

We received two contractor proposals for a design/build contract to fix the leaks. We are currently negotiating teams with Shimmick Construction, the lowest bidder, for an initial contract amount of \$4.2 Million.

It is in our interest to fix this line for the long term, even with a new line, because we need the redundancy to facilitate maintenance and prevent such emergencies in the future.

Any undefined term used in this AGREEMENT shall be given the definition set forth in the General Conditions (Document 00700).

- 1.02 Contractor's General Responsibilities. CONTRACTOR shall provide a fully functional, complete and operational Project constructed in accordance with the Contract Documents, including but not limited to, all investigations, analyses, surveys, engineering, procurement, materials, labor, workmanship, construction and erection, commissioning, equipment, shipping, subcontractors, material suppliers, permits, insurance, bonds, fees, taxes, duties, documentation, spare parts, materials for initial operation, security, disposal, startup, testing, training, warranties, guarantees, and all incidentals.
- 1.03 Compliance with Laws.
- A. CONTRACTOR shall keep itself fully informed of and comply with the Charter, ordinances and regulations of the CITY and other local agencies having jurisdiction over the Work, and all federal and state laws and regulations in any manner affecting the Contract Documents, the performance of the Work, or those persons engaged therein.

The Work shall be Substantially Complete within 120 days, beginning with and including the official date of Notice to Proceed as established by the GENERAL MANAGER, and Finally Complete in accordance with Article 9 of the General Conditions (Document 00700) within 30 consecutive calendar days after the date the CITY issues a Notice of Substantial Completion.

- 2.03 Liquidated Damages. The CITY and CONTRACTOR further understand and agree that the actual cost to CITY which would result from CONTRACTOR's failure to complete the Work within the Contract Time is extremely difficult, if not impossible, to determine. Accordingly, CONTRACTOR and the CITY agree that as liquidated damages for delay (but not as a penalty), CONTRACTOR shall pay the CITY the amounts set forth in Document 00802 (Contract Time and Liquidated Damages) for each calendar day that expires after the above Contract Times and the Work remains incomplete.

CONTRACTOR agrees that any person performing labor in the provision of the Work shall be paid not less than the highest general prevailing rate of wages as so determined. If federal funds are involved, where the minimum rate of pay for any classification differs among State, City and Federal wage rate determinations, the highest of the three rates of pay shall prevail. This indemnification shall not be valid in the instance where the loss is caused by the sole negligence or intentional tort of any person indemnified herein.

ARTICLE 6 – RIGHTS AND REMEDIES

- 6.01 General. The provisions of the Contract Documents shall not limit the duties, obligations, rights and remedies otherwise imposed or available by law or in equity. No action or failure to act shall in any way abridge the rights and obligations of the Parties to the Contract Documents, or condone a breach thereunder, unless expressly agreed to by the Parties in writing. All remedies provided in the Contract Documents shall be taken and construed as cumulative; that is, in addition to each and every other remedy herein provided, the CITY shall have any and all equitable and legal remedies that it would in any case have.
- 6.02 No Waiver. No waiver of any breach of any provision of the Contract Documents shall be held to be a waiver of any other or subsequent breach. The only waiver by the CITY shall be a waiver in writing that explicitly states the item or right being waived.
- 6.03 CITY's Remedies for False Claims and Other Violations. The Contractor or any Subcontractor or Supplier who fails to comply with the terms of this AGREEMENT, who violates any provision of Chapter 6 of the Administrative Code or rules and regulations adopted per that Chapter, who submits false claims, or who violates against any governmental entity a civil or criminal law relevant to its ability to perform under or comply with the terms and conditions of the AGREEMENT, may be subject to monetary penalties and may be declared an irresponsible bidder and debarred by operation of statute. Supplementary provisions in the Contract Documents shall not be deemed to be in conflict. It is expressly agreed by and between CONTRACTOR and the CITY that

ARTICLE 8 – GOVERNING LAW AND VENUE

INTER-OFFICE MEMORANDUM

DATE: July 17, 2012

TO: SFPUC Commissioners

THROUGH: Ed Harrington, General Manager *EH*

FROM: Tommy T. Moala, AGM Wastewater Enterprise *574*

SUBJECT: Update on North Shore Force Main Emergencies
Agenda Item 5E / Scheduled for July 24, 2012

The North Shore Force Main conveys all of the dry weather raw sewage from the North Shore Drainage Basin to the Southeast Water Pollution Control Plant for treatment. It is a 36 inch steel pipe with no redundancy. If this line were to be out of service for more than a day, we would be forced to discharge primary treated flow in violation of our permit. On April 24th, 2012, you approved the award of a contract to build a redundant force main, but it will not be completed until next year.

The following is an update of the recent emergencies attributed to the North Shore Force Main. Both emergency declaration letters are attached for reference.

On March 20, 2012, the SFPUC Wastewater Enterprise requested an emergency be declared to immediately repair a leak detected at the intersection of Mission Street and the Embarcadero from the existing North Shore Force Main, which had failed due to joint separation at several locations, causing sewage to flow onto the roadway surface requiring the force main to be operated at substantially reduced capacity. As mentioned above, this force main is a critical conveyance pipeline that does not have any redundancy.

The leak at the Mission and Embarcadero was repaired at a total contract cost of \$600,000.00

On June 4, 2012, the SFPUC Wastewater Enterprise's Operations, requested an emergency be declared to immediately repair additional leaks detected in segments of the North Shore Force Main under The Embarcadero, between Jackson Street and Howard Street. Although the leak near Mission Street has been repaired, subsequent dye-testing of the force main indicated that additional leaks are occurring along the entire length of the pipe; therefore, additional emergency repair work is necessary.

We received two contractor proposals for a design/build contract to fix the leaks. We are currently negotiating teams with Shimmick Construction, the lowest bidder, for an initial contract amount of \$4.2 Million.

It is in our interest to fix this line for the long term, even with a new line, because we need the redundancy to facilitate maintenance and prevent such emergencies in the future.

SUBJECT: Declaration of Emergency: Repair of North Shore Force Main

On June 4, 2012, the SFPUC Wastewater Enterprise's Operations requested an emergency be declared to immediately repair additional leaks detected in segments of the North Shore Force Main under The Embarcadero, between Jackson Street and Howard Street. Previously, an emergency was declared on March 22, 2012, for a leak detected in the same force main at Mission Street and The Embarcadero. Although the leak near Mission Street has been repaired, subsequent dye-testing of the force main indicated that additional leaks are occurring along the entire length of the pipe; therefore, additional emergency repair work is necessary. This force main is a critical conveyance pipeline without redundancy.

It is in the best interest of the City to declare an emergency for this work to protect public health and safety.¹ This emergency work is estimated to cost \$7,000,000.

I am therefore declaring the existence of an emergency, and requesting an agenda item for Board of Supervisor's approval. I trust this meets with your concurrence and approval.
