16 subsections or parts of tables.

14

15 Be it ordained by the People of the City and County of San Francisco:

16

17 Section 1. Background and Findings.

18

19 (a) Nonprofit organizations currently deliver approximately \$1.4 billion in essential  
20 services on behalf of the City and County of San Francisco. The City currently relies on more  
21 than 600 nonprofits that contract with various City departments to deliver a variety of services,  
22 including, but not limited to, health services, early education services, family support services,  
23 and homelessness and housing services.

23

24 (b) City departments contracting with nonprofits are responsible for monitoring the  
25 delivery and quality of services under the terms of the contract. While most nonprofits deliver

25

1 high-quality services in alignment with contracted expectations, there are some nonprofits that  
2 are not performing adequately.

3 (c) There is a need to enhance oversight of nonprofits providing services on behalf of  
4 the City to ensure the City is receiving high quality results from nonprofit contractors.

5 (d) There is currently a lack of clarity among some nonprofits and City departments  
6 regarding appropriate escalation processes and tools for underperforming nonprofits. Further,  
7 many nonprofit service providers have reported that it is difficult to do business with the City  
8 due to burdensome compliance and reporting requirements. Such requirements have the  
9 potential to discourage nonprofits from seeking contracts with the City or to even abandon  
10 existing contracts.

11 (e) The City has an obligation to manage and monitor nonprofit contractors'  
12 compliance and performance, to adopt policies and practices that support these nonprofit  
13 organizations in their performance under City contracts, and to ensure the City meets its  
14 contractual obligations for timely payment, contract processing, and adequate flexibility to  
15 enable nonprofits to perform their work.

16 (f) The City has taken steps to standardize and coordinate fiscal and compliance  
17 monitoring practices across departments that contract with nonprofits to ensure consistent  
18 oversight of essential services. But the City does not currently have a standardized or  
19 coordinated programmatic and performance monitoring policy.

20 (g) The Controller's efforts to standardize and coordinate the City's business practices  
21 with nonprofits have been and will continue to be informed by community involvement and a  
22 racial equity lens.

23 (h) To address these issues, this ordinance adds Administrative Code Section 10.6-1,  
24 which requires the Controller to establish standards for measurable performance goals for  
25 contracts with nonprofit organizations, create a standardized Citywide programmatic and

1 performance monitoring policy, and perform an annual review of departments' compliance  
2 with the program. This ordinance also requires that departments contracting with nonprofits  
3 adhere to the standards established by the Controller when entering into and managing their  
4 agreements.

5  
6 Section 2. Article I of Chapter 10 of the Administrative Code is hereby amended by  
7 revising Section 10.6 and adding Section 10.6-1, to read as follows:

8 **SEC. 10.6. AUDITS AND INVESTIGATIONS BY CONTROLLER – TO BE**  
9 **PERFORMED AS REQUIRED BY CHARTER.**

10 The Controller shall audit the accounts, operations, and activities of all boards,  
11 commissions, offices officers, and employees departments of the City and County, charged in any  
12 manner with the custody, collection, or disbursement of funds, as provided by Section ~~3.303~~  
13 3.105 of the Charter. ~~He or she~~ The Controller shall monitor the level and effectiveness of services  
14 rendered ~~investigate the unit cost of all work done~~ by the City and County as provided in ~~Section~~  
15 ~~3.301~~ of the Charter and shall also make all investigations and reports provided for ~~in Chapter 6~~  
16 ~~of this Code by ordinance.~~

17  
18 **SEC. 10.6-1. MONITORING OF NONPROFITS CONTRACTING WITH THE CITY.**

19 (a) By September 1, 2024, the Controller shall adopt Citywide standards that departments must  
20 comply with when contracting with nonprofit organizations. The standards shall include requirements  
21 for establishing the measurable objectives to be included in contracts with nonprofits; regular financial  
22 and performance reporting requirements applicable to nonprofits; standard reporting timeframes and  
23 expected elements for ongoing departmental monitoring of nonprofits; a process departments must  
24 follow when entering into and managing their contracts with nonprofits and reporting monitoring  
25 results to the Controller; and recommendations for departments with the goal of making it easier for

1 nonprofits to do business with the City. The Controller shall have discretion to revise these standards  
2 as the Controller deems necessary to achieve the goals of standardizing and ensuring adequate  
3 Citywide programmatic and performance monitoring of nonprofit organizations and clarifying  
4 departments' obligation to appropriately monitor their contracts with nonprofits.

5 (b) The Controller shall be responsible for administering a Citywide nonprofit contractor  
6 corrective action policy to ensure compliance with City funding requirements, accountability, and  
7 reliable service delivery. By September 1, 2024, the Controller shall conduct a review of current  
8 standards for corrective action and issue a Citywide policy that establishes clear procedures for  
9 identifying areas of concern or poor performance by nonprofit contractors. The policy may include,  
10 among other things, specific procedures for identifying nonprofit contractors in need of technical  
11 assistance, multi-departmental coordination, and/or escalation protocols including but not limited to  
12 audits of nonprofit performance or financial practices.

13 (c) By September 1, 2024, the Controller shall complete a review of the publicly available  
14 information the City has about its nonprofit contracted services, including spending, performance, and  
15 types of services provided. At the conclusion of the review, the Controller shall issue a report to the  
16 Mayor and the Board of Supervisors recommending any policy changes that the Controller concludes  
17 would improve public access to this information in the future. Concurrent with the September 1, 2024  
18 report, the Controller shall publish a directory webpage documenting where and how to access existing  
19 public information about nonprofit contracted services. The Controller shall maintain and update this  
20 directory webpage as additional public information is made transparent through the recommendations  
21 in the report, including information gathered by the Controller through the annual review required in  
22 subsection (d) below.

23 (d) Each fiscal year, beginning with Fiscal Year 2025-2026, the Controller shall conduct a  
24 review of department compliance with the Controller's established performance standards and shall  
25 submit a report summarizing the review to the Mayor and the Board of Supervisors. The Controller

1 may limit the annual review to specific departments, service areas, or contracts as the Controller  
2 deems appropriate to achieve the goal of ensuring adequate Citywide programmatic and performance  
3 monitoring of nonprofit organizations.

4 (e) Starting with Fiscal Year 2023-2024, nonprofit organizations that receive a total of at least  
5 \$750,000 in funding from the City in any fiscal year must submit to the City an audited balance sheet  
6 and the related statement of income and cash flows for that fiscal year, certified by an independent  
7 accounting firm as accurately presenting the financial position of the organization. The Controller  
8 shall establish procedures and deadlines for submission of such audit materials to the City and  
9 distribution of such audit materials to City departments. This subsection (e) does not limit the authority  
10 of the City, through the Controller or any other part of City government, as otherwise authorized by  
11 law, to conduct a fiscal review or require alternate documents demonstrating sound financial controls  
12 in the absence of an audit, including for nonprofit organizations receiving less than a total of \$750,000  
13 from the City within a fiscal year.

14  
15 Section 3. Effective Date. This ordinance shall become effective 30 days after  
16 enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the  
17 ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board  
18 of Supervisors overrides the Mayor's veto of the ordinance.

19  
20 Section 4. Scope of Ordinance. In enacting this ordinance, the Board of Supervisors  
21 intends to amend only those words, phrases, paragraphs, subsections, sections, articles,  
22 numbers, punctuation marks, charts, diagrams, or any other constituent parts of the Municipal  
23 Code that are explicitly shown in this ordinance as additions, deletions, Board amendment  
24 additions, and Board amendment deletions in accordance with the "Note" that appears under  
25 the official title of the ordinance.

**LEGISLATIVE DIGEST**

[Administrative Code - Monitoring of Nonprofits That Contract With the City]

**Ordinance amending the Administrative Code to clarify the Controller’s audit and monitoring responsibilities with respect to nonprofit organizations contracting with the City; directing the Controller to establish measurable performance goals for contracts with nonprofit organizations; directing the Controller to periodically review and, as necessary, revise policies regarding contractors’ compliance with City requirements; and requiring the Controller to perform an annual review of departments’ compliance with policies for auditing and monitoring nonprofit organizations.**

Existing Law

Administrative Code Section 10.6 currently requires the Controller to audit certain contracts to ensure proper disbursement of funds.

Amendments to Current Law

The ordinance revises Administrative Code Section 10.6 to clarify that the Controller’s auditing responsibilities extend to operations, activities, and effectiveness of services rendered by third-parties contracting with the City. The ordinance also adds a new section 10.6-1 that requires the Controller establish and adopt Citywide standards for departments to follow when contracting with nonprofit organizations. New section 10.6-1 also requires the Controller to administer a new corrective action policy for underperforming nonprofits and to review and, if necessary, improve public access to information about nonprofit contracted services.

# Monitoring of Nonprofits that Contract with the City

Rules Committee – November 27, 2023

File #230973

**CITY & COUNTY OF SAN FRANCISCO**

Office of the Controller  
City Performance Unit

Laura Marshall: [Laura.Marshall@sfgov.org](mailto:Laura.Marshall@sfgov.org)

## Background and Rationale

- The City funds **\$1.7 billion** in services delivered by 600+ nonprofit providers annually.
- City departments are responsible for **monitoring the delivery and quality of contracted services**.
  - The City has standardized and coordinated fiscal and compliance monitoring practices but **does not currently have standardized or coordinated programmatic and performance monitoring**.
- Many nonprofits deliver **high quality services**; yet there are some that are not performing adequately, and there is a lack of clarity among nonprofits and City departments regarding **appropriate escalation processes** and tools for underperforming nonprofits.
- There is a need to enhance oversight of nonprofits to ensure the City is receiving high quality results from nonprofit contractors.

## Overview of the Ordinance: **Monitoring Policy**

The ordinance directs the Controller's Office to:

- Establish standards for how departments should **establish measurable performance objectives** within contracts with nonprofit organizations.
- Establish standards for how departments should carry out **consistent and regular monitoring** of contract performance, including:
  - Expected elements for regular monitoring (e.g., site visits).
  - Requirements for regular **reporting** processes and timeframes.
  - Considerations regarding ongoing oversight, including regular **engagement and communication** with contractors.

### Current State

Most contracts include performance measures, and most departments have **standard practices** for contract monitoring.

Practices for establishing measures and conducting monitoring **vary both within and across departments.**

Many departments **focus on compliance**, with less attention on performance due to pressures from external funders and limited staff capacity.

## Overview of the Ordinance: **Corrective Action**

The ordinance directs the Controller's Office to:

- Update the existing **Citywide Corrective Action Policy** to:
  - Establish clear procedures for identifying issues of poor performance.
  - Institute multi-departmental **coordination** and/or **escalation** protocols.
  - Ensure connections to **technical assistance** are available.

### Current State

The existing Citywide Corrective Action Policy has primarily been used to address **financial** concerns with nonprofit contractors.

There is a strong **link between programmatic poor performance and financial concerns**.

Over 50% of nonprofits receive funding from 2 or more departments, which speaks to a need for **coordination**.

Currently, there are **no central technical assistance resources** focusing on programmatic performance.

## Overview of the Ordinance: **Transparency**

The ordinance directs the Controller's Office to:

- Conduct a review of **publicly available information** about nonprofit contracted services including spending, performance, and types of services provided.
  - Issue a **report to the Mayor and Board** recommending policy changes to improve public access to this information.
  - Develop a **directory webpage** documenting where and how to access existing public information.
- Following implementation of program monitoring policies, perform an **annual review of departments' compliance** with the program.

### Current State

SF Open Data shares robust information about contracted services but this **information can be confusing** to the general public and does not tell a clear story about the results of \$1.7 billion in contracts.

Recent legislation **mandates new compliance reporting for nonprofits** and City Administrator is developing procedures for making that information publicly available now.

The Controller's Office issues an annual report of nonprofit fiscal monitoring results, but the **scale and breadth of contracts** means reporting about program monitoring may be limited.

## Overview of the Ordinance: Audits

The ordinance directs the Controller's Office to:

- Develop policies and procedures to ensure that nonprofit organizations receiving at least \$750,000 in funding from the City **submit audited financial statements**.

### Current State

City departments gather and review CPA audits as part of fiscal monitoring.

- The State requires any nonprofit with **\$2 million** in annual revenues to conduct a CPA audit.
- The Federal government requires any recipient of at least \$750,000 in Federal funds to participate in the **"single audit."**
- By internal policy, **some departments require CPA audits** of nonprofit contractors at lower thresholds, e.g., \$500,000 in department funding.

Of 600+ nonprofits, approximately **80** received between \$750,00 and \$2 million last fiscal year and may be subject to this change (though a portion likely already conduct a CPA audit).

## Implementation Plan

In anticipation of the ordinance, the Controller's Office launched background research and policy development, in coordination with a policy group of departmental and nonprofit leadership.

By **September 1, 2024**, the Controller's Office will:

1. Develop and distribute a **new policy** setting standards for contract performance monitoring.
2. Update and distribute existing **Citywide Corrective Action Policy** to outline escalation paths for underperforming contracts and nonprofits.
3. Publish a report and webpage outlining currently available **public information about nonprofit services**, including spending, performance, and types of services provided.
4. Develop a **program implementation plan** to ensure adoption of the policy and outline the roles and duties of the Controller's Office in ongoing oversight of the process.

Thank you.

Any questions?

BOARD of SUPERVISORS

Dear Victor Young,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Russell Wilson  
San Francisco, CA 94118

Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Janet Gamble  
San Francisco, CA 94115

Dear Victor Young,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Laurence Bardoff  
San Francisco, CA 94115

Dear Victor Young,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Spencer Camp  
San Francisco, CA 94105

---

Dear Supervisors,

Please see the attached 70 letters from member of the public regarding:

**File No. 230973** - Ordinance amending the Administrative Code to clarify the Controller's audit and monitoring responsibilities with respect to nonprofit organizations contracting with the City; directing the Controller to establish measurable performance goals for contracts with nonprofit organizations; directing the Controller to periodically review and, as necessary, revise policies regarding contractors' compliance with City requirements; and requiring the Controller to perform an annual review of departments' compliance with policies for auditing and monitoring nonprofit organizations.

Regards,

**Richard Lagunte**

**Office of the Clerk of the Board**

**San Francisco Board of Supervisors**

Dear Victor Young,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Breux Walker

Dear Victor Young,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Jane Spray  
San Francisco, CA 94118

I plan to give public comment at the October 19 meeting: [Can't make it](#)

**I oppose the Marina Improvement and Remediation Project.**

Message

Dear Mayor London Breed, Rec and Park Commissioners, David Chiu-City Attorney, Board of Supervisors, PG&E, PROSAC, and RPD Project Staff,

(My family and) I oppose the Marina Improvement and Remediation Project.

I (we) join nearly 2,700 people who signed a petition opposing this plan.

What we want:

- Abandon plans for a new yacht harbor in front of the Marina Green!
- Clean up toxins in Gas House Cove!
- Renegotiate settlement with PG&E to use funding for restoring and maintaining existing East Harbor facilities!

We attended the August RDP meetings and are concerned we are not being heard!

- The current plan provides a nominal amount of dredging and leaves 85% of the toxic waste in place.
- Residents from the entire Bay Area and all over the world come to the Marina to enjoy the view. Detrimental changes to the area are not isolated to Marina residents.
- Iconic views that attract millions in revenue-generating tourism will be forever eliminated by building a big yacht harbor across the entire Marina Greens. Think America's Cup, Alcatraz Triathlon, and Fleet Week.
- Already horrendous flooding in the Marina during storms may be exacerbated since the project design has not been coordinated with the PUC at this stage.

The diversity of the city is not represented due to bad communication!

- The city is not being transparent; we had to find out from neighbors and other residents about the toxins in the water and full details of the plan
- The diversity of users of the Marina Green is not being represented. Communications by RPD were limited to residents within 1000 feet of the project, yet residents citywide use the Marina Green for recreation.
- The necessary reviews and approvals haven't been completed, yet RPD has publicly referred to it as a "done deal," discouraging feedback.

Please STOP the Marina Improvement and Remediation Project in its current form before it's too late!

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Catherine Dean  
San Francisco, CA 94147

Dear Victor Young,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Ellen Grantz  
San Francisco, CA 94117

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Alisa Somera,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure

consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Michelle Hughes  
San Francisco, CA 94123

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Alisa Somera,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure

consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
ashley wessinger  
San Francisco, CA 94123

Dear Alisa Somera,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure

consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
ashley wessinger  
San Francisco, CA 94123

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Sally Fay Cottingham

Dear Board of Supervisors,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Richard Parina

Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.

I hope you will vote in support of this legislation.

Sincerely,  
Laurence Bardoff  
San Francisco, CA 94118

Dear Board of Supervisors,

I am writing to you to express my support of Supervisor Stefani's Nonprofit Auditing Ordinance and urge you to vote in support of it.

The City currently spends \$1.7 billion on contracts with over 600 nonprofits. While many of these organizations provide valuable services to our communities, the City's lack of guidelines for these contracts has resulted in waste and redundancy.

By requiring the Controller to develop guidelines on metrics that must be included in City contracts, it will ensure consistency across the variety of contracts that nonprofits have with the city, thereby enabling that nonprofits to best deliver against clear metrics. Not only is this good governance to hold nonprofits accountable for results, it is needed to enable the City to measure progress towards addressing its most pressing problems, including homelessness and the drug and mental health crisis.

Finally, the high profile collapse of Baker Places and corruption discovered at United Council of Human Services highlights the need for increased oversight of service providers to ensure money is accounted for and is being used effectively to provide our most vulnerable the help they need.

Ultimately, this legislation will help improve oversight of taxpayer money, address the issues faced by nonprofits contracting with the City, and increase public access to information around nonprofit contracts.
