Honorable Members
Board of Supervisors
City and County of San Francisco
1 Dr. Carlton B. Goodlett Place, Room 244
San Francisco, California 94102

**Statement of the Results
City and County of San Francisco
Consolidated Presidential Primary Election – March 5, 2024**

I, John Arntz, Director of Elections, certify that I have canvassed the ballots cast in the Consolidated Presidential Primary Election held on Tuesday, March 5, 2024, in the City and County of San Francisco (City), in the manner required by Division 15 of the California Elections Code.

I certify that I began the canvass immediately upon the close of the polls and, as a result of the tabulation of all votes recorded, present a complete record entitled "Statement of the Results of the San Francisco Consolidated Presidential Primary Election – March 5, 2024." I also certify that 233,465 voters cast ballots; therefore, 46.61% of San Francisco's 500,856 registered voters participated in this election.

In accordance with California Elections Code section 15374, I certify that this Statement of the Results provides the total number of votes cast for each candidate, and for and against each proposition. The precinct detail of all votes cast appears in the Statement of the Vote, which is posted on the Department of Elections' website at sfelections.org/results and is incorporated by reference into this Statement of the Results.

This Statement of the Results includes tables in Attachment 1 that list the total votes cast in each contest, and for and against each proposition, and are organized as follows:

A. Party-Nominated Office for President

1. Democratic Party
2. Republican Party
3. American Independent Party
4. Peace and Freedom Party
5. Libertarian Party
6. Green Party

B. Political Party Central Committees

1. Democratic Party County Central Committee, Assembly District 17
2. Democratic Party County Central Committee, Assembly District 19
3. Republican Party County Central Committee, Assembly District 17
4. Republican Party County Central Committee, Assembly District 19

C. Voter-Nominated Offices

1. United States Senator (Full Term)
2. United States Senator (Partial Term)
3. United States Representative, District 11
4. United States Representative, District 15
5. State Senator, District 11

6. State Assemblymember, District 17
7. State Assemblymember, District 19

D. Nonpartisan Offices

1. Judge of the Superior Court, Seat 1
2. Judge of the Superior Court, Seat 13

E. State Proposition

1. Proposition 1, "Authorizes \$6.38 billion in bonds to build mental health treatment facilities for those with mental health and substance use challenges; provides housing for the homeless. Legislative statute."

F. City Ballot Measures

1. A, "Affordable Housing Bonds"
2. B, "Police Officer Staffing Levels Conditioned on Amending Existing or Future Tax Funding"
3. C, "Real Estate Transfer Tax Exemption and Office Space Allocation"
4. D, "Changes to Local Ethics Laws"
5. E, "Police Department Policies and Procedures"
6. F, "Illegal Substance Dependence Screening and Treatment for Recipients of City Public Assistance"
7. G, "Offering Algebra 1 to Eighth Graders"

For the March 2024 election, voters received two-card ballots according to voters' political party preferences. Voters without political party preferences received ballots that did not list candidates for president or central committees. Voters without political party preferences who requested "crossover" ballots associated with one of the three political parties allowing for crossover voting (American Independent, Democratic, and Libertarian) received a ballot listing the presidential contest for the requested party and no central committee contests.

Ballots included the following contests and measures:

- Card 1:** Party Nominated Office for President, Democratic or Republican Political Party County Central Committees (organized according to State Assembly Districts 17 and 19), voter nominated offices for United States Senator (full term ending January 3, 2031), United States Senator (partial term ending January 3, 2025), and United States Representative District 11 or District 15.
- Card 2:** Voter nominated offices for State Senator District 11, State Assemblymember District 17 or 19, non-partisan contests for Judges of Superior Court for Seats 1, and 13, State Proposition 1, and City Ballot Measures A – G.

This Statement of the Results omits the contests for U.S. Representative in Districts 2 and 12, State Senator District 7, State Assembly in Districts 12 and 18 since these districts include no voters registered in San Francisco. The boundary for the City and County of San Francisco includes small, uninhabited areas of Angel Island and Alameda Island. The district boundaries of the referenced federal and state offices have been drawn to incorporate these small areas of San Francisco's territory on the islands.

The area of San Francisco on the southeast side of Angel Island is within the boundaries for U.S. Representative District 2 and State Assemblymember District 12. The area of San Francisco on the northwest side of Alameda Island is within the boundaries for U.S. Representative District 12, State Senate District 7, and State Assembly District 18. Other than these uninhabited Census blocks on the islands attributed to San Francisco, the referenced districts lie entirely within Marin and Alameda Counties, respectively.

SHA-512 Cryptographic Hash Algorithm

The Department of Elections applied a SHA-512 cryptographic function to reports associated with this election to establish the integrity of the results in a verifiable manner. Attachment 2 provides information regarding the SHA-512 hash values for all electronic files associated with the final, certified results reports.

Voting System and Election Transparency

The City's voting system allows for increased election transparency through the posting of images of voted ballots, equipment logs, and other election reports, all of which have been posted with the final election results on the Department's website, sfelections.org.

Voted ballot images

The City's voting system captures images of each voted ballot cast in an election. This creates a visual history of how ballots were marked. After each election, the Department posts the ballot images on its website, allowing members of the public to view each voted ballot cast in the City. Prior to posting the ballot images, the Department reviews the images and redacts identifying information that voters may have placed on ballot cards.

AuditMark

In addition to the voting system capturing images of voted ballot cards, the system also adds an explanation at the bottom of each ballot image indicating how the voting equipment interpreted and tallied each vote mark. These explanations, or AuditMarks, provide the public with information on how the voting system operates in relation to the recording and reporting of every vote cast in this election. This means that for every oval with a mark inside the voting target, even for partial marks, the voting system adds an explanation to the images of voted ballots of how the system understood and registered the markings within each oval.

Ballot Audit and Review

The Department will post an online application that allows the public to sort the ballot images according to precinct, contest, and district. The City is the first jurisdiction in the country to utilize this application, known as "Ballot Audit and Review."

Cast Vote Record

The Department posted a "Cast Vote Record" that lists each vote recorded on each ballot card associated with all contests and propositions. The data provided in the Cast Vote Record is captured from the ballots as the ballots are scanned by the voting equipment and before vote tabulation occurs, allowing members of the public to tabulate votes from specific precincts, districts, etc., and to compare with the official election results.

Attachments

Attachment 1 provides tables that list the votes cast in each contest and for or against each proposition.

Attachment 2 is the list of SHA-512 hashes associated with each final elections results report.

Attachment 3 is the report from the manual tallies that the Department conducted on randomly selected polling place, vote-by-mail, and provisional ballots to confirm the voting equipment operated properly, and accurately counted and reported election results.

In witness whereof, I hereby affix my hand and seal this 22nd day of March in 2024.

John Arntz, Director of Elections

March 22, 2024

**March 5, 2024, Consolidated Presidential Primary Election
Results of 1% Post-Election Manual Tallies**

Pursuant to state elections law, the San Francisco Department of Elections (Department) is required to conduct a manual tally of all ballots cast in 1% of San Francisco's polling places and 1% of the vote-by-mail ballots cast, and may also manually tally 1% of provisional ballots cast, as part of the Official Canvass of the election. The Department compares the results of the manual tallies to the results reports generated by the voting equipment used to tabulate ballot cards. The purpose of the manual tallies is to verify the accuracy of the voting equipment used in the election. Upon completion of the 1% manual tallies, the Department prepares a report on the results of the manual tallies and includes the report in the certification of the Official Canvass for the election.

The following is a report on the results of the manual tallies of 1% of the polling place, vote-by-mail, and provisional ballots cast in the March 5, 2024, Consolidated Presidential Primary Election.

Random Selection of Precincts

On March 18, 2024, the Department conducted a random selection of precincts and batches for the manual tallies in accordance with California Elections Code section 15360.

Five days prior to selecting the precincts and batches for the manual tallies, the Department issued a press release and posted a public notice on its website, *sfelections.org*, and outside its office, announcing the date, time, and place of the random selection of precincts and batches. Additionally, the Department webcast the random selection process and posted the recording on its website.

For the March 2024 election, the Department was required to conduct a manual tally of ballots cast in a minimum of five precincts, to represent 1% of San Francisco's 501 polling places included in the election, nine VBM batches to represent 1% of 751 batches of vote-by-mail ballots and, one PV batch to represent 1% of the 19 batches of provisional ballots. State elections law also requires a manual tally of votes cast to be conducted on all contests present in the election.

The random selection was divided into three categories. The first category was for selecting five precincts for ballots cast at the polling places. The second category was for selecting nine batches (or boxes) of Vote-By-Mail (VBM) ballots. The third category was for selecting one batch (or box) for the Provisional (PV) ballots.

Using three 10-sided dice, the Department randomly selected the precincts and the VBM batches to be tallied in full. For the random selection of one batch of PV ballots required two 10-sided dice. After the five precincts and nine VBM batches were selected, all contests were determined to be included in both sets and there was no need to select additional precincts or batches. For the PV ballots, there was no need to select additional batches since all contests were included in the initial selection. The list of randomly selected precincts and batches, and contests tallied in each precinct is provided in Part I.

Results of 1% Post-Election Manual Tally

Conducting the 1% Manual Tallies

The 1% manual tallies of randomly selected precincts and batches began on Monday, March 18, 2024, and was completed on Thursday, March 20, 2024. The manual tallies were conducted in the Department's warehouse at Pier 31, which is located along The Embarcadero. The manual tallies were open to public observation both in person and via live streaming on the Department's website at sfelections.org/live.

For each selected precinct and batch, Department personnel manually tallied votes cast on the ballots, including polling place ballots cast using the Ballot Scanning Machines (BSM), and accepted VBM and PV ballots, including the ballots issued at the Department's City Hall Voting Center. The manual counts were then compared against the results reports generated from the voting system. If there were any discrepancies between the two tallies, the Department sought resolution or explanations for these discrepancies and documented the resolutions using Manual Tally Incident forms.

Department personnel worked in four, four-person teams to manually tally votes on polling place ballots, VBM, and PV ballots. Each team was assigned one precinct or one batch to count at a time. After all the votes for a contest had been counted, a supervisor verified whether the manual count matched the machine count. If all the vote counts matched, the team proceeded to the next contest until all the contests on the card had been counted.

Results of the 1% Manual Tallies

A "variance" means any difference between the machine tally and the manual tally for a contest, including, but not limited to, differences due to machine malfunction, operator error, or voter error in marking a ballot. Upon completion of the manual tallies associated with ballots cast in San Francisco for the March 5, 2024 Consolidated Presidential Primary Election, the Department found no variances. The results of the 1% manual tallies confirm that the voting equipment used in the March 2024 election accurately tabulated and reported votes cast for contests appearing on the official ballot.
