Title of Project
San Francisco Alternative Fuels Readiness Project

Project Location
City and County of San Francisco

Project Description (brief paragraph, see instructions in Application Manual)
<p>The San Francisco Alternative Fuels Planning Project is a collaboration of the City and County of San Francisco, the San Francisco Clean Cities Coalition, and EV Communities Alliance. The Project goal is to accelerate the adoption of Alternative Fuel Vehicles (AFV) and promote the use of Alternative Fuel Infrastructure (AFI) in the San Francisco area. Measurable objectives include: increased AFV sales, decreased GHG, criteria pollutants, and fuel use, and increased jobs and economic activity. Key activities over a 24 month period include: 1) Development of comprehensive data on AFV/AFI utilization; 2) Preparation of a City/County AFV Readiness Plan addressing AFI permitting, deployment, maintenance, and inspection, and promotion of AFV-friendly public policies and incentives; 3) Development of comprehensive AFV outreach activities, including: a) four training sessions on Alternative Fuel infrastructure and vehicles for fleet operators, planners, first responders, and decision makers; b) two AFV educational workshops for consumers; c) two Alt Fuel Vehicle Expos serving 20,000 attendees; and d) two "Ride and Drive" events providing 500 individual driving experiences to spur AFV sales and awareness. Please note that the \$60,000 in match funding for this project originates from the U.S. DOE as a contract with the San Francisco Clean Cities Coalition, which is operated by the City's Department of Environment. Time and materials paid for by DOE Clean Cities to advance Alternative Fuels Project goals are designated as in-kind match.</p>
