## EXHIBIT B - GRANT TERMS AND CONDITIONS

### SURRENDERED AND ABANDONED VESSEL EXCHANGE (SAVE) GRANT PROGRAM

#### 1. PURPOSE OF THE PROGRAM:

Pursuant to its authority under Harbors and Navigation Code (HNC) section 525(1)(a), the Division of Boating and Waterways (DBW) wishes to contract with Grantee for the removal and disposal of:

- a. Abandoned property as described in HNC 522 (below) within Grantee's jurisdiction as listed in Exhibit A.

**HNC Section 522:** "Any hulk, derelict, wreck, or parts of any ship, vessel, or other watercraft sunk, beached, or allowed to remain in an unseaworthy or dilapidated condition upon publicly owned submerged lands, salt marsh, or tidelands within the corporate limits of any municipal corporation or other public corporation or entity having jurisdiction or control over those lands, without its consent expressed by resolution of its legislative body, for a period longer than 30 days without a watchman or other person being maintained upon or near and in charge of the property, is abandoned property."

- b. Surrendered vessels as defined in HNC 526.1

**HNC Section 526.1:** "surrendered vessel" means a recreational vessel that the verified titleholder has willingly surrendered to a willing public agency under both of the following conditions:

- (a) The public agency has determined, in its sole discretion, that the vessel is in danger of being abandoned, and therefore has a likelihood of causing environmental degradation or becoming a hazard to navigation.
  - (b) The decision to accept a vessel is based solely on the potential of the vessel to likely be abandoned and cause environmental degradation or become a hazard to navigation."
- c. Wrecked or dismantled vessels, or parts thereof, or any other partially submerged object that pose a substantial hazard to navigation, from navigable waterways or adjacent public property, or private property with the landowner's consent.
  - d. The funds provided under this Agreement **shall not** be utilized for surrender, abatement, removal, storage, or disposal of commercial vessels. Commercial vessels include those vessels for which the most recent registration or documentation was commercial, even though that registration or documentation may have lapsed.
  - e. If Grantee is reimbursed for the costs related to the surrender, abatement, removal, storage, and/or disposal of an eligible water hazard by the registered or legal owner or other person or entity known to have an interest in the water hazard, then the water hazard shall no longer be eligible for funding under this Agreement. Grantee shall notify DBW in writing of such reimbursement and shall return all funds disbursed by DBW to Grantee with respect to such water hazard immediately.
  - f. Vessels listed in Exhibit F Application/Scope of Work are considered solely a demonstration of the agency's need for funding, not an approval that the individual vessels are eligible for SAVE funding.

2. **RIGHT OF INSPECTION**

Grantee shall allow DBW and other state agency representatives, at any reasonable time, to inspect any site where Grantee or its subcontractors are performing work under this Agreement.

3. **ANNUAL MEETING**

Should the Grantee or representative be unable to attend the meeting and cannot provide a substitute from the agency, the Grantee must forward a letter to DBW stating the reason why they cannot attend. DBW must grant approval in writing in order for the Grantee not to be in breach of this Agreement for failure to attend.

Grantee agrees to complete the scope of work submitted in its application in a timely fashion.

4. **HAZARDOUS MATERIALS**

Grantee shall be responsible for securing any necessary or prudent studies, permits, or authorizations associated with treatment, removal, storage, or any other handling of hazardous substances including, but not limited to, toxic waste, petroleum waste, asbestos, and similar substances, prior to the removal of any vessel and water hazard pursuant to this Agreement.

Grantee shall be responsible for the proper and lawful handling, abatement, removal, storage, and/or disposal of any hazardous substances encountered in the execution of this Agreement.

5. **TITLES AND LIENS**

**Objective 1: Prevention**

5. Does your agency participate in the Vessel Turn-in Program (VTIP)?  Yes  No
6. How does your agency actively promote, self-turn in, end-of-life and VTIP? Select all that apply. (Answer only if you selected 'Yes' to Q 5.)

**Number of brochures distributed Per Year at:**

- Events [100-150]
- Marinas (list)
- Boat owners [50]
- Other

**Publicity Efforts:**

- Advertised on your website
- Agency newsletters
- PSAs, billboards
- Social media
- Other [Brochure in the office brochure rack. Also run a Dock Captain Program where bert]

**7. What is your agency's plan for increasing the number of turned in vessels the next calendar year? (Answer only if you selected 'Yes' to Q 5.)**

The Marina will have used all it's SAVE funds from last fiscal year by the end of May, once Lind Marine schedules to remove the surrendered vessels.

The Marina then has 5 - 6 abandoned vessels due to cancellation of non payment or unseaworthiness. Next would be nine (9) surrendered vessels ready to be removed once all berthholders submit the release form and turn in the pink slips to their vessels.

Once these fourteen (14) vessels are removed I have a long wait list of persons that want to turn in their vessels through this grant program. The Marina office receives calls weekly regarding the VTIP program.

The Marina does advertise VTIP in our monthly newsletter to let the berthers know there is another option instead of walking away from their vessels when they cannot afford to repair or pay the berth fee anymore.

I believe with the funding we receive for the Fiscal Year of 2021/2022 we will have easy twenty (20) or more boats that will take part and turn in their vessels.

**8. How often does your agency coordinate with local boating groups or marinas to inform them of the vessel turn-in program? Describe activities and identify groups/marina's contacted in the last calendar year. (Answer only if you selected 'Yes' to Q 5.)**

The San Francisco Marina holds a annual Tenant Event in which time we have the Dock Captain's in the Marina run a table with the Vessel Turn-In Program brochure and they help the berthholders understand this option - this is when we hand out the most brochures for VTIP.

The Harbormaster and the Marina Business Manager began a group called BAMO (Bay Area Marina Operators) which meet every two - three months.

We meet with local marina's and agencies to discuss issues such as abandoned vessels by tenants and other. We have invited numerous Marina's to join in these meetings to discuss such issues. The Department of Boating and

Waterways has also come and presented on the SAVE/VTIP grant at one of the BAMO meetings.

**Objective 1: Prevention**

9. Do you accept VTIP surrendered vessels from boaters outside your jurisdiction?  Yes  No

If so, how many surrendered vessels have you received in the last calendar year?

If not, identify why?

Currently this fiscal year, we have needed all the funding for the berthholders and we don't have the funds left to go outside our jurisdiction.

We have had a few wind storms over the past storm which has torn up a lot of the vessels that berth in the East Marina increasing the need for VTIP at the Marina.

10. Describe how your agency monitors abandoned vessel activity in your jurisdiction. Select all that apply.

- Routine patrol of jurisdiction
- Visit marinas/dockwalks
- Direct contact with boat owners
- Check vessel registration
- Check seaworthiness (listing, occupancy, trash, bilge running, operable lights)
- Abandoned vessel mapping and tracking
- Multi-agency coordination
- Utilize NASA data

11. Describe additional methodologies, if any (besides participation in VTIP) your agency use to prevent abandoned vessels in its jurisdiction?

Daily Dock Checks

The Marina now has Seaworthy Test, where if staff has not seen the vessel used from six months to a year than the berthholder needs to drive the boat out of the marina and back to the berth. The Marina now has a Park Ranger onsite in the evenings when marina staff is gone, they watch the docks for any unknown vessels arriving.

Security Cameras are now viewable on the Harbor Masters' and Marina Business Managers work laptop so if we receive a report of an unknown vessel we can confirm or deny entry to the Park Ranger.

**Objective 2: Control**

12. Describe methodologies, if any, you have implemented to control and prevent abandoned vessels from entering your jurisdiction from other areas.

The BAMO group is helpful in controlling the abandoned vessels that we have seen. Since all members of the BAMO group have each other's emails; for example, if a vessel leaves Marina "A" and they skipped out on their payment or they did not pass a seaworthy inspection, Marina "A" will contact the group to keep an eye out for said vessel. So the other Marina's can have staff keep a watch out for these vessels.

The SF Marina office also keeps a log on a sharable spreadsheet with staff with any vessels we have had issues with as guests or non payers so they can watch out for these too.

13. Does your agency collaborate with neighboring SAVE grantees manage abandoned and surrendered vessels?  Yes  No

If yes, list agencies and describe collaboration.

**14. Does your agency have any special circumstances and/or conditions that contribute to abandoned vessels in your jurisdiction? Explain circumstances/conditions.**

The City and County of San Francisco have completed the agreement with PG&E for funding of the East Basin Renovation at the San Francisco. Now that the financial agreement has been met, planning will now begin. The Marina predicts within two (2) years or less the East Basin will be closed down. As some of these vessels have not moved in years; we are expecting an influx of abandoned vessels. The SF Marina will be providing berthholders with a list of Marina's accepting vessels and give enough warning so they have time to vacate, but we do not expect all persons to follow the rule and vacate.

**Objective 5: SNHAP**

15. Does your agency have a Submerged Navigational Hazard Abatement Plan (SNHAP)?  Yes  No

If Yes, attach copy.

[29351\\_0\\_380\\_Hazard Abatement Plan.pdf](#)

16. Identify the detailed process in your SNHAP for the control and abatement of submerged, wrecked or abandoned vessels. Identify the detailed process in your SNHAP for the abatement of navigational hazards.
- If the Vessel is moored at a location that presents a hazard and is able to be towed, it will be towed and moored at a safe moorage. Marina staff will contact DMV or the Coast Guard for unknown vessel owner's information. Owner of unknown vessel will be contracted through phone call, email, and/or mail. If owner fail to pay the cost incurred or fail to remove boat from the Marina, Marina staff will follow the San Francisco Marina Small Craft Harbor to sell the vessel through an auction and dispose it.

Removal of vessels:

Both unknown boats and boats that are being abandoned by berthholders due to non-payment will be removed from the Marina following these procedures:

- The Marina makes and documents all attempts to contact the vessel owner for delinquent dockage fee payment. If the owner's contact information is on file or found through the DMV or USCG, the Marina staff sends certified letters warning of actions to be taken 90 days in advance of any auction.
- Notify Marine Line Service and provide informa

17. Identify the SNHAP's detailed process and funding source for the control/abatement of non-vessel related water hazards, hazardous floating debris (such as logs), submerged objects, and abandoned piers and pilings.

When staff patrol the West and East Basins of the San Francisco Marina if Floating Debris is found such as logs, to their capacity they will tow to safe place as so no one will be able to damage their vessel with it. The log depending on size will be cut up and disposed of or we will place on a dock and call the Core of Engineers to schedule a pickup.

We have had three vessels sink in the past five years that the berthholder abandoned, in the first case the engine was still at the bottom of the water and we were able to use VTIP funding to reimburse for removal. The next two vessels sank during the big wind storms we had over a year ago, unfortunately we did not receive VTIP funding so the cost came out of the San Francisco Marina Fiscal Year Operations Budget - which can take a large piece of the budget.

If pilings are found staff will tow to safe location and contact Forestry Department to dispose of,

which would come out of the Marina's Budget or we would contact Core of Enginners to remove when they are in the area.

We removed the wave attenuator to the West Basin in 2020 due to continuous storm damage and high repair costs. This was a high cost that came out of the Marina's annual dredging budget.

**Questions 18 - 21a**

Has your agency been involved in abatement activities during the past 3 calendar years?  Yes  No

If so, answer the following:

Yearly average number of abandoned vessels removed and destroyed over the past 3 calendar years.

- 18. What was the average cost to remove and destroy abandoned vessels of 30' or less last calendar year?
- 18 a. What was the average cost to remove and destroy abandoned vessels 30' or less in the past 3 calendar years?
- 19. What was the average cost to remove and destroy abandoned vessels 31' or more last calendar year?
- 19 a. What was the average cost of disposal to remove and destroy abandoned vessels 31' or more in the past 3 calendar years.

Has your agency been involved in surrendered vessel activities during the past 3 calendar years?  Yes  No

If so, answer the following:

Yearly average number of surrendered vessels removed and destroyed over the past 3 calendar years. 10

- 20. What was the average cost to receive and destroy surrendered vessels 30' or less over the past 3 calendar years? 9,500.00
- 20 a. What was the average cost to receive and destroy surrendered vessels 30' or less last calendar year? 5,000.00
- 21. What was the average cost to receive and destroy surrendered vessels 31' or more in the past 3 calendar years? 9,500.00
- 21 a. What was the average cost to receive and destroy surrendered vessels 31' or more last calendar year? 6,500.00

**Questions 22 - 30**

22. Identify the last three SAVE grants awarded and the percentage of unspent funding that was left in each grant.

**ONLY LIST CLOSED GRANTS**

Name of SAVE grants awarded	Year Awarded	Amount Awarded	Percentage of funding left over
SURRENDERED AND ABANDONED VESSEL EXCHANGE (SAVE-19)	2,020	88,000.00	0.00
SURRENDERED AND ABANDONED VESSEL EXCHANGE (SAVE-16)	2,017	100,600.00	30.00
ABANDONED WATERCRAFT ABATEMENT FUND	2,015	7,200.00	0.00

23. Identify the number of personnel currently working in the program with more than 2 years' experience managing the SAVE program. 2

24. What process/method/practice have you implemented in the last 24 months to reduce the cost of removal and destruction of abandoned or surrendered vessels?

1. Marina staff have their own zone in the Marina that they are in charge of and since they walk the zone/docks on each shift they are aware when a new vessel is in the Marina that shouldn't be.  
 2. BAMO group started in 2019  
 3. Link to VTIP is on the San Francisco Marina website  
 4. Stricter transient policy; all documents must be submitted prior to making a reservation and payment is only taken via credit card.

25. Does your agency have additional funding sources (other than SAVE) for disposal of abandoned vessels in the event you run out of grant funding or are not awarded the full grant request?  Yes  No

If yes, list We have had two vessels on a waitlist to be turned and they sank during a storm and to bring the vessel back to surface comes out of the San Francisco Marina Operations Funding.

26. Do you or a partner agency have abandoned vessel storage capabilities that can be used by your agency at no cost to SAVE?  Yes  No

27. Does your agency have access/ability to dispose of vessels at a local or neighboring landfill?  Yes  No

28. Number of current abandoned vessels in your jurisdiction ready to be destroyed? 6

How were these vessels identified? These are vessels that bertholders have recently stopped making payments on; the vessels are in unseaworthy/horrible conditions and most likely will not sell at a lien sale.

29. Number of current surrendered vessels in your jurisdiction ready to be destroyed? 9

How were these vessels identified? These bertholders are on a waitlist to turn in the vessel as soon as we funding as all of these vessels are owned by bertholders who can no longer take care of their vessels and have reached out to us to surrender it.

30. Did you collaborate with marinas in your jurisdiction to identify the existing abandoned or number of potential surrendered vessels listed in your budget?  Yes  No

If yes, list marinas.
