Be it ordained by the People of the City and County of San Francisco:

Section 1. Land Use and Environmental Findings.

(a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. 211263 and is incorporated herein by reference. The Board affirms this determination.

(b) On February 3, 2022, the Planning Commission, in Resolution No. 21066, adopted findings that the actions contemplated in this ordinance are consistent, on balance, with the City's General Plan and eight priority policies of Planning Code Section 101.1. The Board adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the Board of Supervisors in File No. 211263, and is incorporated herein by reference. Pursuant to Planning Code Section 302, the Board of Supervisors finds that this ordinance will serve the public necessity, convenience and welfare for the reasons set forth in Planning Commission Resolution No. 21066, recommending approval of the proposed designation, which is incorporated herein by reference.

Section 2. General Findings.

Pursuant to this ordinance, Massage Establishments, except for Sole Practitioner Massage Establishments, that are proposed to be located on the first or second floor in certain commercial districts are subject to a Conditional Use Authorization requirement, as set forth in Planning Code Section 303. Conditional Use Authorization serves a number of purposes, including the assurance that a proposed activity will be neighborhood-serving and will not be detrimental to the health, safety, convenience or general welfare of persons

1 residing or working in the vicinity. A Massage Establishment seeking a Conditional Use  
2 Authorization may be eligible to participate in the Community Business Priority Processing  
3 Program, pursuant to Planning Code Section 303.2. This Program provides for priority  
4 processing of eligible Conditional Use Authorization applications and a reduced application  
5 fee.

8 Section 145.4 in Article 1.2; Section 183 in Article 1.7; Sections 202.2, 210.1, 210.2 and 210.3  
9 in Article 2; Sections 303, 311, and 342.1 in Article 3; Sections 710-745 and 750-764 in Article  
10 7; and Sections 811, 812, 827, 829, 840, 841, 848, 890.28, 890.60 and 890.114 in Article 8, to

10 **SEC. 303. CONDITIONAL USES.**

11 \* \* \* \*

12 (n) **Massage Establishments.** With respect to Massage Establishments that are  
13 subject to Conditional Use authorization, in addition to the criteria set forth in subsection (c)  
14 above, the Commission shall make the following findings:

15 ~~(1) Whether the applicant has obtained, and maintains in good standing, a permit for a~~  
16 ~~Massage Establishment from the Department of Public Health pursuant to Section 29.10 of the Health~~  
17 ~~Code;~~

18 (21) Whether the use’s façade is transparent and open to the public.

19 Permanent transparency and openness are preferable. Elements that lend openness and  
20 transparency to a façade include:

21 (A) active street frontage of at least 25 feet in length where 75% of that  
22 length is devoted to entrances to commercially used space or windows at the pedestrian eye-  
23 level;

24 (B) windows that use clear, untinted glass, except for decorative or  
25 architectural accent;

1 (C) any decorative railings or decorative grille work, other than wire  
2 mesh, which is placed in front of or behind such windows, should be at least 75% open to  
3 perpendicular view and no more than six feet in height above grade;

4 (32) Whether the use includes pedestrian-oriented lighting. Well lit  
5 establishments where lighting is installed and maintained along all public rights-of-way  
6 adjacent to the building with the massage use during the post-sunset hours of the massage  
7 use are encouraged:

8 (43) Whether the use is reasonably oriented to facilitate public access. Barriers  
9 that make entrance to the use more difficult than to an average service-provider in the area  
10 are to be strongly discouraged. These include (but are not limited to) foyers equipped with  
11 double doors that can be opened only from the inside and security cameras.

12 **Exceptions.** A Massage Establishment shall not require a Conditional Use  
13 authorization if the Massage Establishment satisfies one or more of the following conditions:

14 (1) The massage use is accessory to a Principal Use, if the massage use is accessed  
15 by the Principal Use and

16 ~~—— (A) the Principal Use is a Dwelling Unit and the massage use conforms to the~~  
17 ~~requirements of Section 204.1, for Accessory Uses for Dwelling Units in All Districts; or~~

18 ~~—— (B) the Principal Use is a *Tourist* Hotel, not including a Residential Hotel; a~~  
19 ~~Personal Service; a Health Service; that contains 100 or more rooms or an Institutional Use as~~  
20 defined in this Code.

21 (2) The only massage service provided is ~~e~~Chair/Foot mMassage, such service is  
22 visible to the public, and customers are fully clothed at all times.

23 ~~(3) It is a Sole Practitioner Massage Establishment, as defined in Section 29.5 of the~~  
24 ~~Health Code.~~

4 **SEC. 811. CHINATOWN VISITOR RETAIL DISTRICT.**

5 The Chinatown Visitor Retail Neighborhood Commercial District extends along Grant  
6 Avenue between California and Jackson Streets. This district contains a concentration of  
7 shopping bazaars, art goods stores and restaurants which attract visitors and shoppers and  
8 contribute to the City's visual and economic diversity. Grant Avenue provides an important link  
9 between Downtown retail shopping and the Broadway, North Beach and Fisherman's Wharf  
10 areas.

11 This district is intended to preserve the street's present character and scale and to  
12 accommodate uses primarily appealing to visitors (e.g. tourist gifts shops, jewelry stores, art  
13 goods, large restaurants). In order to promote continuous retail frontage, entertainment,  
14 financial services, ~~medical~~health service, automotive, and drive-up uses are restricted. Most  
15 commercial uses, except financial services are permitted on the first two stories.  
16 Administrative services, (those not serving the public) are prohibited in order to prevent  
17 encroachment from downtown office uses. There are also special controls on restaurants and  
18 tourist hotels. Building standards protect and complement the existing small-scale  
19 development and the historic character of the area.

20 The height limit applicable to the district will accommodate two floors of housing or  
21 institutional use above two floors of retail use. Existing residential units are protected by  
22 prohibition of upper-story conversions and limitation on demolition. Accessory dwelling units  
23 are permitted within the district pursuant to Subsection 207(c)(4) of this Code.

**SEC. 840. MUG – MIXED USE-GENERAL DISTRICT.**

The Mixed Use-General (MUG) District is largely comprised of the low-scale, production, distribution, and repair (PDR) uses mixed with housing and small-scale retail. The MUG is designed to maintain and facilitate the growth and expansion of small-scale light manufacturing, wholesale distribution, arts production and performance/exhibition activities, general commercial and neighborhood-serving retail and personal service activities while protecting existing housing and encouraging the development of housing at a scale and density compatible with the existing neighborhood.

Housing is encouraged over ground floor commercial and PDR uses. New residential or mixed use developments are encouraged to provide as much mixed-income family housing as possible. Existing group housing and dwelling units would be protected from demolition or conversion to nonresidential use by requiring conditional use review. Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of this Code.

Nighttime entertainment, movie theaters, adult entertainment and heavy manufacturing uses are not permitted. Office is restricted to the upper floors of multiple story buildings.

**REVISED LEGISLATIVE DIGEST**  
(Amended in Committee, 12/6/2021)

[Planning Code - Massage Establishment Zoning Controls]

**Ordinance amending the Planning Code to revise Massage Establishment zoning controls, including, among other things, to 1) add Sole Practitioner Massage Establishments to the definition of Health Services in Articles 1 and 8 and remove it from the definition of Massage Establishments; 2) regulate Massage Establishments generally consistent with Health Services, with some exceptions; 3) eliminate the three-month period to establish abandonment of certain nonconforming Massage Establishment uses; 4) prohibit Personal Services uses for three years at any location where a Massage Establishment use was closed due to a violation of the Planning Code or Health Code; 5) eliminate the exception from the conditional use authorization requirement for massage uses accessory to a dwelling unit; 6) rename Medical Services to Health Services in Article 8 and make other conforming amendments; and 67) delete related provisions that have expired through the passage of time; affirming the Planning Department’s determination under the California Environmental Quality Act; and making findings of consistency with the General Plan and the eight priority policies of Planning Code, Section 101.1, and public necessity, convenience, and general welfare findings pursuant to Planning Code, Section 302.**

Existing Law

Section 102 of the Planning Code<sup>1</sup> defines Sole Practitioner Massage Establishments as a type of Massage Establishment.

Section 202(a) provides that where a Massage Establishment is required to close as a result of a Planning Code or the Health Code violation, no new Massage Establishment may be approved at the site for three years.

Sections 102 and 145.4 refer to Medical Services.

Section 303(n) requires that when considering a conditional use authorization for a Massage Establishment, the Planning Commission shall consider whether the applicant has a permit from the Department of Public Health under Section 29.10 of the Health Code. Section 303 also excepts accessory use Massage Establishments located in “tourist hotels” with 100 or more rooms or located in accessory dwelling units from the conditional use authorization requirement.

Section 342.1 excludes massage uses from its definition of Medical Services.

Zoning tables in Articles 2, 7 and 8 generally require Massage Establishments to obtain conditional use authorization.

---

<sup>1</sup> All references to Code sections refer to the Planning Code unless otherwise stated.

Section 890.60 defines Solo Practitioner Massage Establishments as a type of Massage Establishment and exempts them from the conditional use requirement for Massage Establishments in Article 8 districts.

Section 890.114 defines the use category “Medical Service.”

#### Amendments to Current Law

The ordinance would amend Sections 102 and 890.60 to remove Sole Practitioner Massage Establishments from the definition of Massage Establishment, and would add them to the definition of Health Services.

The ordinance would also amend Sections 102 and 145.4 to replace outdated references to “Medical Services” with references to “Health Services.”

The ordinance would amend Section 202(a) to require that where a Massage Establishment is required to close as a result of a Planning Code or the Health Code violation, no new Massage Establishment or Personal Service may be approved at the site for three years.

The ordinance would amend Section 303(n) to delete whether a Massage Establishment holds a permit from the Department of Public Health under Section 29.10 of the Health Code from the factors for consideration of a conditional use authorization. It would also amend Section 303(n) to except Massage Establishments in all Hotels from otherwise an applicable conditional use authorization requirement, and would delete the exception from the conditional use authorization requirement for Massage Establishments in accessory dwelling units.

The ordinance would amend Section 342.1 to delete the provision excluding massage uses from its definition of Medical Services.

The ordinance would amend various zoning district controls in Articles 2, 7 and 8 to align zoning controls for Massage Establishments with existing zoning controls for Health Services in those districts, except that 1) Massage Establishments would be not permitted on the 3rd floor and above, and 2) Massage Establishments that are accessory to a Hotel, Personal Service or Health Service would be principally permitted on all floors.

The ordinance would amend Section 890.114 to rename Medical Service to Health Service, and would make a conforming amendment to Section 890.28.

### Planning Code Amendment

#### Amendments in the Duplicate Ordinance

The proposed Ordinance would amend the Planning Code to allow Massage Use as an Accessory Use to Health Services.

#### Amendments in the Original Ordinance<sup>1</sup>

The proposed Ordinance would amend the Planning Code to revise Massage Establishment zoning controls, including, among other things, to 1) add Sole Practitioner Massage Establishments to the definition of Health Services in Articles 1 and 8 and remove it from the definition of Massage Establishments; 2) regulate Massage Establishments generally consistent with Health Services, with some exceptions; 3) eliminate the three-month period to establish abandonment of certain nonconforming Massage Establishment uses; 4) prohibit Personal Services uses for three years at any location where a Massage Establishment use was closed due to a violation of the Planning Code or Health Code; 5) eliminate the exception from the conditional use authorization requirement for massage uses accessory to a dwelling unit; 6) rename Medical Services to Health Services in Article 8 and make other conforming amendments; and 7) delete related provisions that have expired through

<sup>1</sup> Board File 210381, which contains these amendments, became effective on January 21, 2022. The online Planning Code may not have been updated yet to reflect the changes made in that Ordinance.

the passage of time; affirming the Planning Department's determination under the California Environmental Quality Act; and making findings of consistency with the General Plan and the eight priority policies of Planning Code, Section 101.1, and public necessity, convenience, and general welfare findings pursuant to Planning Code, Section 302.

### **The Way It Is Now:**

Massage Establishments are permitted as an Accessory Use to Hotel, Personal Service, and Institutional Uses.

### **The Way It Would Be:**

In addition to Hotels, Personal Service, and Institutional Uses, Massage Establishments would also be permitted as an Accessory Use to a Health Service use.

## **Background**

On April 13, 2021, Supervisor Ronen introduced [Board File 210381](#) that amended Massage Establishment zoning controls and regulated them more similarly to Health Services such as dentists, psychiatrists, chiropractors, and other licensed health care professionals. The Ordinance appeared in front of the Planning Commission on June 3, 2021, during which time the Commission unanimously recommended approval with staff modification.<sup>2</sup> At the Land Use and Transportation Committee hearing on December 6, 2021, Supervisor Peskin, at the request of Supervisor Ronen, duplicated the original file and included an amendment that would allow Massage Use as an Accessory Use to Health Services. Because this amendment was not considered by the Planning Commission on June 3, 2021, the duplicated Board File required rereferral to the Planning Commission for review and recommendation. Since Planning Commission has already considered all the other amendments in the attached Ordinance, only the amendment that allows Massage Establishments as accessory to Health Services is under consideration at this time.

## **Issues and Considerations**

### **Massage Establishments versus Sole Practitioners**

Massage Establishments and Sole Practitioners both provide massage services, but one of the key differences is business ownership. Massage Establishments employ Massage Practitioners, but the business owner may or may not be a Massage Practitioner. Sole Practitioners are self-employed and operate independently of any relationship to a Massage Establishment. Another difference relates to the number of permitted Massage Practitioners at any given location, which is unlimited for Massage Establishments and only up to two for Sole Practitioners.

---

<sup>2</sup> The Executive Summary for the original Ordinance is included as Exhibit C of this report.

## Massage Establishments as an Accessory Use

Supervisor Ronen's original Ordinance (effective January 21, 2022) permitted Massage Establishments as an Accessory Use to Hotels and Personal Services on all floors. This Ordinance proposes a similar exception to allow Massage Establishments as an Accessory Use to Health Services, subject to underlying class of districts provisions such as square footage maximums. Some Health Services uses, including chiropractor or acupuncture offices, often staff Massage Practitioners. Without the proposed Ordinance, only Sole Practitioners would be permitted where Health Services are allowed.

## General Plan Compliance

The proposed Ordinance builds on Supervisor Ronen's recent ordinance further aligning Massage Establishments with other Health Services. The Department of Public Health (DPH) would continue to review the business operations and licensing of Massage Establishments. Under this Ordinance, the Planning Code would still review Massage Establishments based on their land use and allow them as accessory to Health Services.

## Racial and Social Equity Analysis

The Planning Code amendments in the proposed Ordinance further align Massage Establishments with other Health Services, such as dentists, psychiatrists, and chiropractors. The original Ordinance allowed exceptions for Hotels and Personal Services, but did not consider Health Services. The duplicate Ordinance remedies this by also allowing Massage Establishments as Accessory Use to Health Services. This treats Massage Practitioners more equitably by allowing them to operate within more compatible uses. Future Ordinances should consider eliminating the Conditional Use Authorization requirement for Massage Establishments altogether to make them more on par with other Health Services.

## Implementation

The Department has determined that this ordinance will not impact our current implementation procedures.

## Recommendation

The Department recommends that the Commission *approve* the proposed Ordinance and adopt the attached Draft Resolution to that effect.

## Basis for Recommendation

The Department supports the overall goals of this Ordinance because it builds on previous efforts to make Massage Establishments more permissible throughout the city. This Ordinance would allow Massage Establishments as an Accessory Use to Health Services, such as dentists, psychiatrists, chiropractors, and other licensed health care professionals. This amendment is similar to how Massage Establishments are now permitted as Accessory Use to Hotels, Personal Services, and Institutional Uses.

## Required Commission Action

The proposed Ordinance is before the Commission so that it may approve it, reject it, or approve it with modifications.

## Environmental Review

The proposed amendments are not defined as a project under CEQA Guidelines Section 15378 and 15060(c)(2) because they do not result in a physical change in the environment.

## Public Comment

The Planning Department has received one letter of support from the Small Business Commission, sharing support for the amendment to allow Massages Establishments as an Accessory Use to Health Services.

RE: BOS File No. 211263 – Planning Code – Massage Establishment Zoning Controls

Small Business Commission Recommendation to the Board of Supervisors: **Support.**

Dear Ms. Calvillo,

On December 13, 2021, the Small Business Commission (SBC or Commission) heard BOS File No. 211263 – Planning Code – Massage Establishment Zoning Controls. Amy Beinart, Legislative Aide to Supervisor Ronen, provided the Commission with an update on the original legislation, BOS. File No. 210381, and reviewed the set of amendments going back to the Planning Commission for review in BOS. File No. 211263. The SBC voted (7-0) to recommend that the Board of Supervisors support the new amended legislation.

The Commission has been actively engaged in addressing the challenges that massage practitioners and establishments face within the current planning code. The Commission previously supported BOS. File No. 210381 which addressed many of these challenges, including classifying massage uses as compatible with personal services. The Commission is in support of BOS. File 211263 which would clarify and permit massage uses alongside health services. These amendments will help to codify massage services with personal services (salons, cosmetic services, health spas) and health services (chiropractic care, acupuncture).

The Commission is appreciative of the offices of Supervisor Ronen and Supervisor Mandelman for these proposals which support small businesses in the City and County of San Francisco.

Thank you for considering the Commission's recommendation. Please feel free to contact me should you have any questions.

Sincerely,

RE: BOS File No. 210381 - Planning Code - Massage Establishment Zoning Controls

Small Business Commission Recommendation: **Approval**  
This motion passed 6 to 0, with 1 absent.

Dear Ms. Calvillo,

On May 24, 2021, the Small Business Commission (SBC) conducted a duly noticed public hearing at a regularly scheduled meeting for BOS File No. 210381 - Planning Code - Massage Establishment Zoning Controls introduced by Supervisor Ronen and co-sponsored by Supervisor Mandelman.

These amendments to the Planning Code now properly align Massage Therapy with Health Services as it has become an integral part of today's delivery of healthcare. In addition to pain management and premier athletes utilizing massage to maintain peak performance, massage has also become a critical part of neonatal and cancer recovery care. Many Chiropractic and Acupuncture clinics include massage to increase the recovery and health of their patients.

In 2019, the Office of Small Business issued the [Massage Regulatory Topic Paper](#) to provide the background and justification for needed to revise Massage Establishment zoning controls and to align the classification of Massage Establishment with Health Services.

In 2014, the California legislature passed AB-1147 which fully returned land use controls to local jurisdictions regarding massage establishments. This was responsive to many localities reporting that they were not able to effectively regulate the massage establishments in their respective areas. BOS Ordinance Nos. 73-15 and 72-15 were subsequently passed in 2015 that established the current regulatory structure and amended the Planning Code to significantly restrict the number of zoning districts both General Massage Establishments and Sole Practitioner Establishments could legally operation or approximately ~40% of Commercial Zoning Districts.<sup>1</sup> Of the 91, 62 are on the first story only. All General Massage Establishments must also apply for a permit to operate through the Conditional Use Authorization application process. All Sole Practitioner massage establishments are principally permitted in the same zoning districts where General Massage Establishments are allowed to operate in however, they required to engage in the Neighborhood Notification Process.

The American Massage Therapy Association (AMTA) estimates in 2021 that nationally, massage therapists are mostly female at an estimated 86% and 81% of massage therapists describe themselves as

---

<sup>1</sup> [Opening and Operating Massage Establishments in San Francisco: Issues, Considerations, and Policy Options](#)  
(page 11)

sole practitioners.<sup>2</sup> This is supported by a 2017 report on the Diversity of Healthcare Occupations from the Department of Health and Human Services (HHS), which states that nationally, 82% of all massage therapists are estimated to be female<sup>3</sup>.

The federal Bureau of Labor Statistics (BLS) estimated in May of 2020 that 1370 massage therapists were employed in the San Francisco, Oakland, Hayward metro area<sup>4</sup>. Using that information, we can estimate that ~1,230 female massage therapists are employed in the San Francisco, Oakland, Hayward metro area. BLS also reported that in 2020, massage therapists earned a yearly median income of \$59,400 in the San Francisco, Oakland, Hayward metropolitan area<sup>20</sup>. Importantly, according to a 2020 report from the Department of Housing and Urban Development, an annual salary of \$97,600 would put a single adult in the low-income bracket<sup>5</sup>.

Noting the demographic make-up of these small businesses, the Small Business Commission determines amending the Planning Code for Massage Therapy is aligned with the goal of Prop H and Save our Small Business ordinance which is to reduce the barriers in opening a business for this industry and this industry is as equally important as the retail, and restaurants industry.

The Small Business Commission expresses its great appreciation to Supervisor Ronen, her aide Paul Monge, Planning staff, Veronica Flores and Aaron Starr, Jennifer Callewaert, Department of Public Health and Victoria Wong, City Attorney.

Thank you for considering the Commission's recommendation. Please feel free to contact me should you have any questions.

Board File No. 210381

**Planning Commission Recommendation: Approval with Modification**

Dear Ms. Calvillo and Supervisors Ronen and Mandleman,

On April 12, 2021, the Planning Commission conducted a duly noticed public hearing at a regularly scheduled meeting to consider the proposed Ordinance, introduced by Supervisors Ronen and Mandleman that would amend the Planning Code to revise Massage Establishment zoning controls. At the hearing the Planning Commission recommended approval with modification.

The Commission's proposed modifications were as follows:

1. Allow an exception for Massage Establishments on any floor within a Personal Service.
2. In zoning districts where Health Services are currently not permitted but Massage Establishments are, retain the existing more permissive Massage Establishment controls.
3. Clerical amendment to copy the Hotel exception footnote reference to all applicable floors within Zoning Control Tables.

The proposed amendments are not defined as a project under CEQA Guidelines Section 15378 and 15060(c)(2) because they do not result in a physical change in the environment.

Supervisor, please advise the City Attorney at your earliest convenience if you wish to incorporate the changes recommended by the Commission.

Please find attached documents relating to the actions of the Commission. If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,

### Planning Code Amendment

The proposed Ordinance would amend the Planning Code to revise Massage Establishment zoning controls, including, among other things, to 1) add Sole Practitioner Massage Establishments to the definition of Health Services in Article 7; 2) regulate Massage Establishments consistent with Health Services, except that where zoning for Health Services is more permissive, Massage Establishments shall require conditional use authorization on the second floor and are not permitted on the third floor and above unless located within a Hotel; 3) eliminate the three-month period to establish abandonment of certain nonconforming Massage Establishment uses; 4) prohibit Personal Services uses for three years at any location where a Massage Establishment use was closed due to a violation of the Planning Code or Health Code; 5) eliminate the exception from the conditional use authorization requirement for massage uses accessory to a dwelling unit; and 6) delete related provisions that have expired through the passage of time.

The Way It Is Now:	The Way It Would Be:
The recent Planning Code reorganization effort changed the name of Medical Service to Health Services. In some places, the Planning Code still references “Medical Service”.	All remaining references to “Medical Service” would be replaced with “Health Service”.

<p>Sole Practitioners are included as part of the definition of Massage Establishments.</p>	<p>Sole Practitioners would now be included as part of the definition of Health Services.</p>
<p>Massage Establishment Zoning Control Table permissions vary per floor according to each Zoning District.</p>	<p>Massage Establishments would be regulated like Health Services, generally as follows:</p> <ul style="list-style-type: none"> <li>• Principally permitted on the first floor</li> <li>• Conditionally permitted on the second floor</li> <li>• Not permitted on the third floor and above</li> </ul> <p>However, in the cases where Health Services are more permissive than what is listed above for the second floor or higher, Massage Establishments would still require Conditional Use Authorization on the second floor and would not be permitted on the third floor or above.</p> <p>The only exception to the above restrictions is that Massage Establishments would be principally permitted on all floors for Hotels.</p>
<p>Nonconforming Massage Establishments that are discontinued for one of the reasons listed below would be considered an abandonment if they are discontinued for a period of three months. Such scenarios include:</p> <ul style="list-style-type: none"> <li>• nonconforming for being located within 1,000 feet of another Massage Establishment, or</li> <li>• no longer permitted in that Zoning District.</li> </ul>	<p>This three-month abandonment period for certain nonconforming Massage Establishments would be eliminated. As a result, nonconforming Massage Establishments would have the same abandonment provisions as all other land uses.</p>
<p>No new Massage Establishments are permitted for at least three years at any location where a previous Massage Establishment was closed due to a violation of the Planning or Health Codes.</p>	<p>New Personal Services would also not be permitted for at least three years at any location where a Massage Establishment use was closed due to a violation of the Planning or Health Codes.</p>

The Conditional Use Authorization exception for Massage Establishments accessory to a Tourist Hotel would be amended to exempt all Hotels, regardless of the number of hotel rooms.</p>

subject to the notification requirements of Planning Code Section 311.	Neighborhood Commercial District would be eliminated.
The Code includes outdated references and typographical errors.	The Ordinance would update references and correct typographical errors.

## Background

The regulatory landscape of Massage Establishments has evolved for the past two decades in response to changing State requirements, the stigma associated with Massage Establishments, and the desire to regulate Massage Establishments more consistently. In 2003, the Board of Supervisors passed an Ordinance to move the licensing and regulation of Massage Practitioners from the Police Code to the Health Code. This was the first significant move in aligning massage therapy with other Health Services. In 2006, the Board of Supervisors then legislated for Massage Establishments to require Conditional Use Authorizations in most Commercial Districts. This was primarily in response to the challenges of Massage Establishments regulated differently in various Zoning Districts. Around this time, there was also a rise in both legitimate and illegitimate Massage Establishments opening throughout the city. The Conditional Use Authorization requirement was intended to address the illegitimate massage establishments.

In 2015, the Board of Supervisors passed an Ordinance that defined Massage Establishment as its own unique land use,<sup>1</sup> potentially adding to the stigma of Massage Establishments since they were called out separately from other uses. Additionally, that same Ordinance restricted where Massage Establishments would be permitted. A companion Ordinance also amended Article 29 of the Health Code to strengthen review of Massage Establishments, to establish licensing and reporting requirements, and to incorporate State human trafficking information posting requirements into local law for enforcement purposes. All these efforts were to help ensure there were no illegal activities at Massage Establishments. The Department of Public Health (DPH) has since created a robust Massage Program and been more involved in recent years, actively revoking licenses from businesses where such illicit activity is found. This results in less of this type of bad behavior within Massage Establishments, making it an appropriate time to revisit stringent review of Massage Establishments in the past. The proposed Ordinance would revise land use regulations by treating Massage Establishments more similarly to other Health Services.

## Issues and Considerations

### Massage Establishments versus Sole Practitioners

Massage Establishments and Sole Practitioners both provide massage services, but one of the key differences is business ownership. Massage Establishments employ Massage Practitioners, but the business owner may or may not be a Massage Practitioner. Sole Practitioners are self-employed and operate independently of any relationship to a Massage Establishment. Another difference relates to the number of permitted Massage Practitioners at any given location, which is unlimited for Massage Establishments and only up to two for Sole

---

<sup>1</sup> [Board File 141303. Ordinance 73-15](#)

Practitioners. The proposed Ordinance would amend the Planning Code to provide more flexibility for both Massage Establishments and Sole Practitioners alike.

Historically, Massage Establishments were regulated by the Police Code due to concerns over illicit activities at some Massage Establishments. In 2014, licensing and regulation of Massage Establishments was transferred to the DPH marking the first significant moves in associating Massage Establishments with other Health Services.<sup>2</sup> Beginning in 2006, new Massage Establishments proposed in Commercial Districts required Conditional Use Authorization. Because of its complicated history, Massage Establishments would continue to have a greater lens of scrutiny compared to other Health Services to ensure no human trafficking or illicit activities occur. However, regulating Massage Establishments more restrictively still suggests that these are different than other Health Services.

### **Consistent Review with Other Health Services**

For ground floor locations, the proposed Ordinance would regulate Massage Establishments the same as Health Services by principally permitting them on the ground floor when Health Services are principally permitted; however, Massage Establishments would require Conditional Use Authorization on the second floor and be prohibited on the third floor and above regardless of Health Service controls. Exception to this rule occurs when a Health Service is conditionally permitted or not permitted on the first or ground floor, in which case Massage Establishments would have similar controls. Another exception to Conditional Use requirements on the second floor for Massage Establishments is when the use is located within a Hotel. In those instances, the Massage Establishment is principally permitted on all floors. To address lingering concerns about illicit activities, the proposed Ordinance would maintain separate use definitions for Massage Establishment and Health Service. Having two definitions would limit Massage Establishments from being located on upper floors.

This methodology has produced some unintended consequences. There are a handful of zoning districts where Health Services are currently not permitted. As proposed, the Ordinance would no longer permit Massage Establishments where they are currently conditionally permitted in a few zoning districts such as the Chinatown Visitor Retail District or the Haight Street Neighborhood Commercial Zoning District. The Department is aware of at least one proposal, located at 811 Clay Street, that would directly be impacted by this Ordinance. The project submitted their application in September 2020 seeking to change from their existing Chair/Foot Massage land use to a Massage Establishment. The project has yet to appear in front of the Planning Commission. If enacted, the proposed change to Massage Establishment at this property would no longer be allowed.

### **Eliminate Conditional Use Authorizations in the Future**

Overall, the Ordinance does make Massage Establishments more permissive throughout the city; however, the Ordinance still requires Conditional Use Authorizations for Massage Establishments when Health Services are principally permitted on the second floor. The Department understands the hesitancy in fully integrating Massage Establishments as part of the definition of Health Services due to past violations related illicit activity or human trafficking within Massage Establishments; however, land use regulations are not the best tool in combatting illicit activity. Further, DPH's new Massage Program and increased involvement has resulted in less of

---

<sup>2</sup> [Board File 030995. Ordinance 268-03](#)

this type of bad behavior within Massage Establishments. As the City has become more comfortable with the new relaxed land use controls for massage uses, the Department recommends revisiting them again to see if both massage types could be included under the Health Services definition.

## Licensing and Review

The State of California established the California Massage Therapy Council (CAMTC) in 2008 and authorized it to implement a statewide massage certification program. At the time, the State also limited the local land use controls, which made it difficult for the City to regulate Massage Establishments effectively. The State regulated Massage Establishments until 2014 when Massage Establishment review and regulations were returned to the local level. Since that time, DPH has regulated the review of Massage Establishments and required all Massage Practitioners to have one of the following licenses to operate in San Francisco:

- A license issued by the CAMTC
- A Massage Practitioner Permit issued by the Director of Public Health

DPH no longer issues new Massage Practitioner Permits and requires all Massage Practitioners to have an active license from the CAMTC. However, previously issued Massage Practitioner Permits are still recognized and honored.

DPH has an extensive Massage Establishment application and review process. The application includes background checks and information for all Massage Practitioners and their respective CAMTC license or DPH Massage Practitioner Permit status. This makes the Conditional Use Authorization finding related to whether the applicant has obtained, and maintains in good standing, a permit for a Massage Establishment from DPH redundant. Removing this requirement allows the Planning Department to rightfully focus on the land use aspect and leave the business operations and licensing review to DPH.

## Massage Establishments Accessory to Dwelling Units

Once the State returned review and regulation of Massage Establishments back to the City, additional legislation was passed to help DPH more effectively regulate Massage Establishments. Part of these efforts included new operating requirements for all Massage Establishments and Sole Practitioners.<sup>3</sup> One of these new operating requirements restricted Massage Establishments from operating within a residence. The Planning Code still includes a Conditional Use Authorization exception for Massage Establishments that are accessory to a Dwelling Unit, which is misleading for the public and prospective Massage Practitioners. The Ordinance removes this specific Conditional Use Authorization exception to be more consistent with the Health Code.

## Massage Establishments and Hotels

The hospitality industry had previously been associated with attracting illicit activities and conducting human trafficking.<sup>4</sup> To combat this, the Hotel Council has worked to proactively to end human trafficking. Some recent and ongoing efforts include:

- partnering with the Department on the Status of Women, including work on the topic of how to spot

---

<sup>3</sup> [Board File 141302, Ordinance 72-15](#)

<sup>4</sup> [Office of Small Business, Massage Regulatory Topic Paper](#)

- Human Trafficking,
- implementing mandatory training programs for all Hotel members on how to spot human trafficking and how to respond safely and appropriately, and
- building long-term working relationships with the Police Department on the prevention of human trafficking.

According to the Hotel Council, all these efforts help prevent illicit activities and human trafficking to the point that they do not really see this type of behavior in Hotels.

Tourist Hotels with 100 rooms or more are currently exempt from Conditional Use Authorizations. The hotel industry has changed since this Conditional Use Authorization exemption was first introduced. Whereas spas and Massage Establishments were previously only found in larger Hotels, now there are also smaller, boutique-like Hotels that also offer spas and Massage Establishments as part of their amenities. The Conditional Use Authorization exemption as written is overly restrictive and should be expanded to all Hotels in response to recent changes in the hotel industry.

Further, Hotels usually do not have their spas or Massage Establishments on the first or second floors, which is primarily dedicated to the lobby space, conference rooms, or restaurants. Not permitting Massage Establishments on the third floor or above may inadvertently penalize existing Hotels who are interested in expanding their spas and Massage Establishments. The proposed Ordinance also prevents any new Hotels from including Massage Establishments on the third floor and above. Given the square footage allocation limitation and the Hotel Council's proactive approach in preventing illicit activities and human trafficking as described above, providing Hotels with more flexibility with respect to what floor Massage Establishments are allowed is appropriate.

### **General Plan Compliance**

The proposed Ordinance aligns Massage Establishments with other Health Services, thereby making the former more permissible throughout the city. DPH would continue to review the business operations and licensing of Massage Establishments. Under this Ordinance, the Planning Code would review Massage Establishments based on their land use and leave review of their merits to the experts at DPH.

### **Racial and Social Equity Analysis**

Understanding the benefits, burdens, and opportunities to advance racial and social equity that proposed Planning Code amendments provide is part of the Department's Racial and Social Equity Initiative. This is also consistent with the Mayor's Citywide Strategic Initiatives for equity and accountability and with the forthcoming Office of Racial Equity, which will require all Departments to conduct this analysis.

The Planning Code amendments in the proposed Ordinance to align Massage Establishments with other Health Services, such as dentists, psychiatrists, and chiropractors treats Massage Establishments more equitably. Firstly, the Ordinance would regulate Massage Establishments more consistently throughout the city rather than varying controls from one zoning district to the next. Secondly, in the past, Massage Establishments were regulated differently than other health-related services in hopes of combatting and preventing illicit activity or human trafficking. Oftentimes, this inequitable practice added to the stigma of Massage Establishments since they were

reviewed and treated differently by the City. This practice also unintentionally punished the majority of Massage Establishments that were not participating in the illegal activities. However, regulating Massage Establishments as its own land use was not always effective as seen through the number of Health and Planning Code violations in the past. The number of such violations diminished after DPH established their Massage Program, which was created after the State relinquished controls back to the local level. This additional oversight at the City level abated and prevented many potential violations. As such, this is now the prime opportunity to regulate Massage Establishments more similarly to other Health Services, rather than treating Massage Establishments as its own separate land use. The proposed Ordinance takes a step in this direction but still includes a higher level of scrutiny for Massage Establishments compared to Health Services. Future Ordinances should consider eliminating the Conditional Use Authorization requirement for Massage Establishments altogether to make them more on par with other Health Services. Until that is the case, Massage Establishments may continue to be thought of as only tangentially related to Health Services and not fully integrated into this land use category.

The Ordinance especially benefits Sole Practitioners since these would now be classified under Health Services and would be more permissible throughout the city. Sole Practitioners were previously classified under Massage Establishments and were either not permitted or required Conditional Use Authorization in many zoning districts. This change is extra impactful for these small business Sole Practitioners who would now have more locational opportunities under this Ordinance. Further, the flexibility of what floors Sole Practitioners are allowed removes the barrier of securing a first-floor commercial space that is often too large and too expensive for the Sole Practitioners. Collectively, the Ordinance makes way for more equitable review of Massage Establishments and Sole Practitioners.

## Implementation

The Department has determined that this Ordinance will impact our current implementation procedures in the following ways:

- The Ordinance would increase the number of zoning districts where Massage Establishments would be allowed and make them principally permitted on the first floor. This change may potentially result in fewer hearings overall since Massage Establishments would not require a Conditional Use Authorization if proposed on the first floor.
- The Ordinance would require Conditional Use Authorizations for Massage Establishments that are proposed on the second floor (in uses other than Hotels). However, Massage Establishments may qualify for the Community Business Priority Processing Program (CB3P). If eligible, such Conditional Use Authorization review would be streamlined and appear in front of the Planning Commission within 90 days of filing and placed on the consent calendar.

The above implementation impacts may generally offset each other, but collectively would be implemented without increasing permit costs or review time since it is anticipated the majority of Massage Establishments would generally be located on the first floor.

## Recommendation

The Department recommends that the Commission *approve with modifications* the proposed Ordinance and adopt the attached Draft Resolution to that effect. The Department's proposed recommendations are as follows:

1. Allow an exception for Massage Establishments on any floor within a Personal Service.
2. In zoning districts where Health Services are currently not permitted but Massage Establishments are, retain the existing more permissive Massage Establishment controls.
3. Clerical amendment to copy the Hotel exception footnote reference to all applicable floors within Zoning Control Tables.

### **Basis for Recommendation**

The Department supports the overall goals of this Ordinance because it would treat Massage Establishments more similarly to other Health Services such as dentists, psychiatrists, chiropractors, and other licensed health care professionals. Further, the Ordinance would regulate Massage Establishments more consistently throughout the city. However, the additional policy recommendations could further support Massage Establishments in the city.

#### **Recommendation 1: Allow an exception for Massage Establishments on any floor within a Personal Service.**

As written, the Ordinance would prevent full-service gyms (such as The Equinox or The Bay Club) from including new Massage Establishments as part of their amenities. Like Hotels, gyms historically have not had any Massage Establishment violations. Therefore, the same exception for Hotels should also be extended to gyms. The gym definition is being eliminated and will be housed under Personal Service per the Mayor's Small Business Recovery Act, which is currently pending at the Board of Supervisors.<sup>5</sup> Therefore, the proposed modification lists "Personal Service" which includes an array of land uses such as salons, cosmetic services, and tattoo parlors. The Ordinance currently includes a three-year prohibition of new Personal Services at sites where there are any Health or Planning Code violations. The proposed modification, in conjunction with this prohibition, would be a safeguard against any non-gym Personal Services that are found to be in violation with the Health or Planning Codes. A preview of this proposed modification is included in Exhibit C.

#### **Recommendation 2: In zoning districts where Health Services are currently not permitted but Massage Establishments are, retain the existing more permissive Massage Establishment controls.**

There are a handful of zoning districts where Health Services are not permitted on the first floor for varying reasons related to each specific district. In some of these zoning districts, Massage Establishments are either permitted or conditionally permitted on certain floors. The general approach of applying existing Health Service controls to Massage Establishments creates unintended consequences in zoning districts that currently allow Massage Establishments on some floors. Specifically, this includes:

- Haight Street Neighborhood Commercial District, first floor,
- North Beach Neighborhood Commercial District, first floor,
- Folsom Street Neighborhood Commercial District, second floor,
- Regional Commercial District, second floor, and
- Chinatown Visitor Retail District, first floor and third floor and above.

---

<sup>5</sup> [Board File 210285](#)

As written, the Ordinance results in a few zoning districts that would be more restrictive for Massage Establishments. The Department is aware of at least one proposal that would be directly impacted by the Ordinance if enacted. The Ordinance should instead ensure that all changes are either the same or less restrictive than the current Massage Establishment controls.

**Recommendation 3: Clerical amendment to copy the Hotel exception footnote reference to all applicable floors within Zoning Control Tables.**

The drafted Ordinance includes a footnote reference for Massage Establishments for the third floor and above noting that a Massage Establishment is principally permitted on any floor if located within a Hotel. This footnote in the proposed Ordinance should also be included on the first and second floors where Massage Establishments are conditionally permitted. (Note: the draft in Exhibit C assumes that the first recommendation related to also extending an exception to Personal Services is also taken.) Despite Section 303 already listing the Conditional Use exception for Massage Establishments located within Hotels, the Zoning Control Table may be misleading for general members of the public if viewed alone. This clerical amendment would avert potential confusion and be more consistent with our footnote practice in the Planning Code.

## Required Commission Action

The proposed Ordinance is before the Commission so that it may approve it, reject it, or approve it with modifications.

## Environmental Review

The proposed amendments are not defined as a project under CEQA Guidelines Section 15378 and 15060(c)(2) because they do not result in a physical change in the environment.

## Public Comment

As of the date of this report, the Planning Department has received three public comments in support of the proposed Ordinance, including from DPH, the Hotel Council, and the Massage Council. The Massage Council commended the Ordinance's overall efforts to support Massage Establishments opening and operating in San Francisco. Both DPH and the Hotel Council also noted support of the exception for Hotels, stating that having Massage Establishments on the second floor and above for Hotels is a hotel industry standard. Further, the Hotel Council emphasized they have worked extensively with their members to train all Hotel employees on how to safely identify human trafficking and appropriately respond.

2. In zoning districts where Health Services are currently not permitted but Massage Establishments are, retain the existing more permissive Massage Establishment controls.
3. Clerical amendment to copy the Hotel exception footnote reference to all applicable floors within Zoning Control Tables.

## Findings

Having reviewed the materials identified in the preamble above, and having heard all testimony and arguments, this Commission finds, concludes, and determines as follows:

The proposed Ordinance would review Massage Establishments more similarly to Health Services.

The proposed Ordinance will make review of Massage Establishments more consistent throughout the city.

Section 1. Land Use and Environmental Findings.

(a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. \_\_\_\_\_ and is incorporated herein by reference. The Board affirms this determination.

(b) On \_\_\_\_\_, the Planning Commission, in Resolution No. \_\_\_\_\_, adopted findings that the actions contemplated in this ordinance are consistent, on balance, with the City’s General Plan and eight priority policies of Planning Code Section 101.1. The Board adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the Board of Supervisors in File No. \_\_\_\_\_, and is incorporated herein by reference.

(c) Pursuant to Planning Code Section 302, the Board of Supervisors finds that this ordinance will serve the public necessity, convenience and welfare for the reasons set forth in Planning Commission Resolution No. \_\_\_\_\_, recommending approval of the proposed designation, which is incorporated herein by reference.

Section 2. General Findings.

Pursuant to this ordinance, Massage Establishments, except for Sole Practitioner Massage Establishments, that are proposed to be located on the first or second floor in certain commercial districts are subject to a Conditional Use Authorization requirement, as set forth in Planning Code Section 303. Conditional Use Authorization serves a number of purposes, including the assurance that a proposed activity will be neighborhood-serving and will not be detrimental to the health, safety, convenience or general welfare of persons residing or working in the vicinity. A Massage Establishment seeking a Conditional Use

1 Authorization may be eligible to participate in the Community Business Priority Processing  
2 Program, pursuant to Planning Code Section 303.2. This Program provides for priority  
3 processing of eligible Conditional Use Authorization applications and a reduced application  
4 fee.

5  
6 Section 3. The Planning Code is hereby amended by revising Section 102 in Article 1;  
7 Section 145.4 in Article 1.2; Section 183 in Article 1.7; Sections 202.2, 210.1, 210.2, 210.3,  
8 and 249.36 in Article 2; Sections 303 311, and 342.1 in Article 3; Sections 710-745 and 750-  
9 764 in Article 7; and Sections 811, 812, 827, 829, 840, 841, 848, 890.28, and 890.114 in

3           \* \* \* \*

4           (n) **Massage Establishments.** With respect to Massage Establishments that are  
5 subject to Conditional Use authorization, in addition to the criteria set forth in subsection (c)  
6 above, the Commission shall make the following findings:

7                   ~~(1) Whether the applicant has obtained, and maintains in good standing, a permit for a~~  
8 ~~Massage Establishment from the Department of Public Health pursuant to Section 29.10 of the Health~~  
9 ~~Code;~~

10                   (21) Whether the use's façade is transparent and open to the public.  
11 Permanent transparency and openness are preferable. Elements that lend openness and  
12 transparency to a façade include:

13                           (A) active street frontage of at least 25 feet in length where 75% of that  
14 length is devoted to entrances to commercially used space or windows at the pedestrian eye-  
15 level;

16                           (B) windows that use clear, untinted glass, except for decorative or  
17 architectural accent;

18                           (C) any decorative railings or decorative grille work, other than wire  
19 mesh, which is placed in front of or behind such windows, should be at least 75% open to  
20 perpendicular view and no more than six feet in height above grade;

21                   (32) Whether the use includes pedestrian-oriented lighting. Well lit  
22 establishments where lighting is installed and maintained along all public rights-of-way  
23 adjacent to the building with the massage use during the post-sunset hours of the massage  
24 use are encouraged:

1           (43) Whether the use is reasonably oriented to facilitate public access. Barriers  
2 that make entrance to the use more difficult than to an average service-provider in the area  
3 are to be strongly discouraged. These include (but are not limited to) foyers equipped with  
4 double doors that can be opened only from the inside and security cameras.

5           **Exceptions.** A Massage Establishment shall not require a Conditional Use  
6 authorization if the Massage Establishment satisfies one or more of the following conditions:

7           (1) The massage use is accessory to a Principal Use, if the massage use is accessed  
8 by the Principal Use and

9           ——— ~~(A) the Principal Use is a Dwelling Unit and the massage use conforms to the~~  
10 ~~requirements of Section 204.1, for Accessory Uses for Dwelling Units in All Districts; or~~

11           ——— ~~(B) the Principal Use is a Tourist Hotel that contains 100 or more rooms~~ or an  
12 Institutional Use as defined in this Code.

13           (2) The only massage service provided is ~~e~~Chair/Foot mMassage, such service is  
14 visible to the public, and customers are fully clothed at all times.

15           (3) It is a Sole Practitioner Massage Establishment, as defined in Section 29.5 of  
16 the Health Code.

20           \* \* \* \*

21           (b) **Applicability.** Except as indicated herein, all building permit applications in  
22 Residential, NC, NCT, and Eastern Neighborhoods Mixed Use Districts for a change of use;

25 of an authorized or unauthorized residential unit shall be subject to the notification and review

1 procedures required by this Section 311. In addition, all building permit applications that would  
2 establish Cannabis Retail or Medical Cannabis Dispensary uses, regardless of zoning district,  
3 shall be subject to the review procedures required by this Section 311. Notwithstanding the  
4 foregoing or any other requirement of this Section 311, a change of use to a Child Care  
5 Facility, as defined in Section 102, shall not be subject to the review requirements of this  
6 Section 311. Notwithstanding the foregoing or any other requirement of this Section 311,

**SEC. 811. CHINATOWN VISITOR RETAIL DISTRICT.**

The Chinatown Visitor Retail Neighborhood Commercial District extends along Grant Avenue between California and Jackson Streets. This district contains a concentration of shopping bazaars, art goods stores and restaurants which attract visitors and shoppers and contribute to the City's visual and economic diversity. Grant Avenue provides an important link between Downtown retail shopping and the Broadway, North Beach and Fisherman's Wharf areas.

This district is intended to preserve the street's present character and scale and to accommodate uses primarily appealing to visitors (e.g. tourist gifts shops, jewelry stores, art goods, large restaurants). In order to promote continuous retail frontage, entertainment, financial services, ~~medic~~health service, automotive, and drive-up uses are restricted. Most commercial uses, except financial services are permitted on the first two stories. Administrative services, (those not serving the public) are prohibited in order to prevent encroachment from downtown office uses. There are also special controls on restaurants and tourist hotels. Building standards protect and complement the existing small-scale development and the historic character of the area.

The height limit applicable to the district will accommodate two floors of housing or institutional use above two floors of retail use. Existing residential units are protected by prohibition of upper-story conversions and limitation on demolition. Accessory dwelling units are permitted within the district pursuant to Subsection 207(c)(4) of this Code.

**SEC. 840. MUG – MIXED USE-GENERAL DISTRICT.**

The Mixed Use-General (MUG) District is largely comprised of the low-scale, production, distribution, and repair (PDR) uses mixed with housing and small-scale retail. The MUG is designed to maintain and facilitate the growth and expansion of small-scale light manufacturing, wholesale distribution, arts production and performance/exhibition activities, general commercial and neighborhood-serving retail and personal service activities while protecting existing housing and encouraging the development of housing at a scale and density compatible with the existing neighborhood.

Housing is encouraged over ground floor commercial and PDR uses. New residential or mixed use developments are encouraged to provide as much mixed-income family housing as possible. Existing group housing and dwelling units would be protected from demolition or conversion to nonresidential use by requiring conditional use review. Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of this Code.

Nighttime entertainment, movie theaters, adult entertainment and heavy manufacturing uses are not permitted. Office is restricted to the upper floors of multiple story buildings.

Section 1. Land Use and Environmental Findings.

(a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of Supervisors in File No. \_\_\_\_\_ and is incorporated herein by reference. The Board affirms this determination.

(b) On \_\_\_\_\_, the Planning Commission, in Resolution No. \_\_\_\_\_, adopted findings that the actions contemplated in this ordinance are consistent, on balance, with the City's General Plan and eight priority policies of Planning Code Section 101.1. The Board adopts these findings as its own. A copy of said Resolution is on file with the Clerk of the Board of Supervisors in File No. \_\_\_\_\_, and is incorporated herein by reference.

(c) Pursuant to Planning Code Section 302, the Board of Supervisors finds that this ordinance will serve the public necessity, convenience and welfare for the reasons set forth in Planning Commission Resolution No. \_\_\_\_\_, recommending approval of the proposed designation, which is incorporated herein by reference.

Section 2. General Findings.

Pursuant to this ordinance, Massage Establishments, except for Sole Practitioner Massage Establishments, that are proposed to be located on the first or second floor in certain commercial districts are subject to a Conditional Use Authorization requirement, as set forth in Planning Code Section 303. Conditional Use Authorization serves a number of purposes, including the assurance that a proposed activity will be neighborhood-serving and will not be detrimental to the health, safety, convenience or general welfare of persons residing or working in the vicinity. A Massage Establishment seeking a Conditional Use

1 Authorization may be eligible to participate in the Community Business Priority Processing  
2 Program, pursuant to Planning Code Section 303.2. This Program provides for priority  
3 processing of eligible Conditional Use Authorization applications and a reduced application  
4 fee.

5  
6 Section 3. The Planning Code is hereby amended by revising Section 102 in Article 1;  
7 Section 145.4 in Article 1.2; Section 183 in Article 1.7; Sections 202.2, 210.1, 210.2, 210.3,

1  
2           **SEC. 303. CONDITIONAL USES.**

3           \* \* \* \*

4           **(n) Massage Establishments.** With respect to Massage Establishments that are  
5 subject to Conditional Use authorization, in addition to the criteria set forth in subsection (c)  
6 above, the Commission shall make the following findings:

7                   ~~(1) Whether the applicant has obtained, and maintains in good standing, a permit for a~~  
8 ~~Massage Establishment from the Department of Public Health pursuant to Section 29.10 of the Health~~  
9 ~~Code;~~

10                   (2) Whether the use's façade is transparent and open to the public.  
11 Permanent transparency and openness are preferable. Elements that lend openness and  
12 transparency to a façade include:

13                           (A) active street frontage of at least 25 feet in length where 75% of that  
14 length is devoted to entrances to commercially used space or windows at the pedestrian eye-  
15 level;

16                           (B) windows that use clear, untinted glass, except for decorative or  
17 architectural accent;

18                           (C) any decorative railings or decorative grille work, other than wire  
19 mesh, which is placed in front of or behind such windows, should be at least 75% open to  
20 perpendicular view and no more than six feet in height above grade;

21                   (3) Whether the use includes pedestrian-oriented lighting. Well lit  
22 establishments where lighting is installed and maintained along all public rights-of-way  
23 adjacent to the building with the massage use during the post-sunset hours of the massage  
24 use are encouraged:

1           (43) Whether the use is reasonably oriented to facilitate public access. Barriers  
2 that make entrance to the use more difficult than to an average service-provider in the area  
3 are to be strongly discouraged. These include (but are not limited to) foyers equipped with  
4 double doors that can be opened only from the inside and security cameras.

5           **Exceptions.** A Massage Establishment shall not require a Conditional Use  
6 authorization if the Massage Establishment satisfies one or more of the following conditions:

7           (1) The massage use is accessory to a Principal Use, if the massage use is accessed  
8 by the Principal Use and

9           ——— ~~(A) the Principal Use is a Dwelling Unit and the massage use conforms to the~~  
10 ~~requirements of Section 204.1, for Accessory Uses for Dwelling Units in All Districts; or~~

11           ——— ~~(B) the Principal Use is a Tourist Hotel, Personal Service that contains 100 or~~  
12 ~~more rooms~~ or an Institutional Use as defined in this Code.

13           (2) The only massage service provided is ~~e~~Chair/~~m~~Foot ~~m~~Massage, such service is  
14 visible to the public, and customers are fully clothed at all times.

15           (3) It is a Sole Practitioner Massage Establishment, as defined in Section 29.5 of  
16 the Health Code.

**SEC. 811. CHINATOWN VISITOR RETAIL DISTRICT.**

The Chinatown Visitor Retail Neighborhood Commercial District extends along Grant Avenue between California and Jackson Streets. This district contains a concentration of shopping bazaars, art goods stores and restaurants which attract visitors and shoppers and contribute to the City's visual and economic diversity. Grant Avenue provides an important link between Downtown retail shopping and the Broadway, North Beach and Fisherman's Wharf areas.

This district is intended to preserve the street's present character and scale and to accommodate uses primarily appealing to visitors (e.g. tourist gifts shops, jewelry stores, art goods, large restaurants). In order to promote continuous retail frontage, entertainment, financial services, ~~medical~~health service, automotive, and drive-up uses are restricted. Most commercial uses, except financial services are permitted on the first two stories. Administrative services, (those not serving the public) are prohibited in order to prevent encroachment from downtown office uses. There are also special controls on restaurants and

1 tourist hotels. Building standards protect and complement the existing small-scale  
 2 development and the historic character of the area.

3 The height limit applicable to the district will accommodate two floors of housing or  
 4 institutional use above two floors of retail use. Existing residential units are protected by  
 5 prohibition of upper-story conversions and limitation on demolition. Accessory dwelling units  
 6 are permitted within the district pursuant to Subsection 207(c)(4) of this Code.

**SEC. 840. MUG – MIXED USE-GENERAL DISTRICT.**

The Mixed Use-General (MUG) District is largely comprised of the low-scale, production, distribution, and repair (PDR) uses mixed with housing and small-scale retail. The MUG is designed to maintain and facilitate the growth and expansion of small-scale light manufacturing, wholesale distribution, arts production and performance/exhibition activities, general commercial and neighborhood-serving retail and personal service activities while protecting existing housing and encouraging the development of housing at a scale and density compatible with the existing neighborhood.

Housing is encouraged over ground floor commercial and PDR uses. New residential or mixed use developments are encouraged to provide as much mixed-income family housing as possible. Existing group housing and dwelling units would be protected from demolition or conversion to nonresidential use by requiring conditional use review. Accessory Dwelling Units are permitted within the district pursuant to subsection 207(c)(4) of this Code.

Nighttime entertainment, movie theaters, adult entertainment and heavy manufacturing uses are not permitted. Office is restricted to the upper floors of multiple story buildings.

Re: Request for Tourist Hotel Exemption to 2<sup>nd</sup> Floor Massage Legislation

Dear Commissioners and City Officials,

On behalf of the Hotel Council of San Francisco and our Board of Directors, I am writing to ask for your support to include an exemption for tourist hotels in the current legislation being discussed to restrict massage establishments above the second floor of buildings. While we understand the intent behind the legislation, the restriction of establishments above the 2<sup>nd</sup> floor will have significant unintended consequences for our hotels who operate spas on higher floors.

We would like to thank Supervisor Ronen, Legislative Aide Paul Monge, Office of Small Business Director Regina Dick-Endrizzi, and San Francisco Planning Department Senior Planner Veronica Flores for meeting with us to discuss the legislation details and solicit feedback.

The Hotel Council has had a long-term relationship with the Department on the Status of Women including work on the topic of how to spot Human Trafficking. The Council was recognized by the Friends of the Commission on the Status of Women with a CEDAW Award for our work to end Human Trafficking. Our hotel members have implemented mandatory training programs and we have close long-term working relationships with the San Francisco Police Department on the prevention of Human Trafficking.

Most of our hotel companies have signed ECPAT-USA's "The Code". ECPAT-USA is the first U.S.-based nonprofit to work on the issue of commercial sexual exploitation of children. The Tourism Child-Protection Code of Conduct is the only voluntary set of business principles travel and tour companies can implement to prevent child sex tourism and trafficking of children. The Code is a joint venture between the tourism private sector and ECPAT. <https://www.ecpatusa.org/code-members>. Our hotels also have partnerships with the [Polaris Project](#) and [Vital Voices](#).

Our industry also has significant resources available for hotels including [No Room for Human Trafficking](#) and [Human Trafficking Tool-Kits](#).

Again, the Hotel Council requests an exemption for tourist hotels from the 2<sup>nd</sup> floor restriction currently being proposed. I am available at (415) 309-0666 if you have any questions.

Sincerely,

Thanks for reaching back out Paul. Please see below for a statement from DPH. Please let me know if you have any additional questions.

DPH was consulted about this issue. Having massage business above the 2nd floor in hotels is a tourist hotel industry standard and therefore, DPH does not oppose this amendment.

Thank you,

Arielle

To Whom it May Concern,

I am writing to you on behalf of the San Francisco Massage Community Council in support of Supervisor Ronen's proposed changes to the San Francisco Massage ordinance. We look forward to working with Supervisor Ronen and the Board of Supervisors in assuring that these new changes properly support massage businesses and practitioners in San Francisco.

As the background section of the ordinance overview makes clear, current massage business owners must "complete onerous permit applications and engage in cost-prohibitive conditional use and neighborhood notification processes", and that these costly requirements "lead many to choose work outside of the City, to leave the industry, or most troublingly, to work outside of current regulatory controls".

While this is clearly harmful to massage professionals, it is also harmful to the economic vitality of the city. And, we strongly agree that there is a clear opportunity to enable massage businesses to open and operate in San Francisco while simultaneously "ensuring the continued abatement of illicit sex work and human trafficking".

We look forward to working with Supervisor Ronen and the Board of Supervisors in improving San Francisco's massage ordinance and revitalizing San Francisco's post-pandemic economy.

Sincerely,

Candace Combs

Dear Supervisors Melgar, Peskin and Preston,

Our Diamond Heights Community Association (DHCA) Board voted to support the amendments to the Public Works Code for Street Tree Planting and Removal Code brought forth by the Sierra Club Program of San Francisco. Both the Sierra Club letter and our Board support letter are attached.

Thank you for working on amending the Code since it is so important to improve the protection and maintenance of street trees in San Francisco.

## San Francisco Group, SF Bay Chapter

Serving San Francisco County

Date: November 19, 2021  
To: San Francisco Board of Supervisors  
Subject: File # 210836, Public Works Code - Street Tree Planting and Removal

---

Dear Supervisors,

The Sierra Club's San Francisco Group is concerned about the possible negative consequences of some of the proposed revisions to San Francisco's Public Works Code Street Tree Planting and Removal - Article 16. These revisions could have the unintended impacts of:

1. increased existing inequities in the distribution of San Francisco's street trees;
2. reduced civic engagement;
3. inadequate ability to penalize illegal tree removal and tree abuse; and
4. departmental overreach by allowing DPW to require the removal of trees on private property and not currently under their jurisdiction.

There is much that is good in this proposed legislation. Therefore, we suggest the following amendments to this legislation to strengthen its benefits for San Francisco's urban forest.

These include:

1. increase equity in replacing removed trees;
2. restore public involvement in decisions regarding removal of trees;
3. empower the Department of Public Works to enforce penalties; and
4. remove the expansion of DPW jurisdiction over trees on private property.

### **Background**

#### 1. Revision to Require Replacement of Removed Trees

This proposed revision requires Public Works to plant replacement Street Trees within 120 days of removal in the same location or nearby.

##### Positive Consequence

Currently, there is no timeline to replace a street tree that has been removed. Tree wells can sit empty for years or are sometimes paved over altogether. We support a mandatory timeline for replacing a tree that has been removed.

### Negative Consequence

However, the Department of Public Works currently lacks the ability to keep up replanting to match the rate of removals.<sup>1</sup> Additionally, there is a disparate tree canopy distribution against the percentage of people of color in San Francisco.<sup>2</sup>

If the Department of Public Works is forced to prioritize planting only in neighborhoods where a tree is removed, this means that neighborhoods which are already green will continue to have trees, while those that do not have trees, will not be prioritized.

### Recommended Amendments

Keep the 120-day replanting requirement. But for every tree replaced in a neighborhood that exceeds the City's average of 13.7% canopy, *also* require the planting of a tree of equal size in a disadvantaged neighborhood below this percentage.

#### 2. Revision to Eliminate Administrative Objections

This proposed revision eliminates the public's right to file administrative objections to proposed removals of Hazard Street Trees. In other words, DPW would be allowed to declare a tree a hazard and remove it immediately, without the public's ability to bring their own expert testimony to bear on this decision.

### Negative Consequences

- a. This revision is unnecessary. Trees that are an immediate danger to the public can already be taken down under the category of "Emergency Removal" with no public process. By entirely removing public process for "hazard" trees, DPW sets up the potential for future abuse by Departmental leadership. This is a serious concern given that our City's most recent Director of Public Works had a systematic program of removal of a species of tree that he did not favor.
- b. Additionally, some of the most innovative City projects are the result of civic engagement, *e.g.*, Mission Verde along the 24<sup>th</sup> Street Corridor. Reducing public process reduces the likelihood of community involvement and partnership at a time our City needs maximum civic engagement in its work toward climate resilience.

### Recommendation

Strike this proposed revision as unnecessary.

#### 3. Revisions Related to Development and Construction

There are two proposed revisions designed to target illegal removals and tree injury that currently are rampant and yet unpenalized. Unfortunately, the proposed changes do not adequately address this issue or empower Public Works to enforce penalties.

### Recommended Amendments

- a. In construction projects, require developers to put up a bond several times the value of the tree on a pro rata basis (*e.g.*, 5x the value of the tree if a project is \$1mil or above; 2x the value of the tree if it is \$250k or less). If the tree is injured during construction, this bond is transferred into the City's Street Tree Planting Fund. By pro-rating, homeowners and small businesses are still encouraged to engage in development.
- b. Whether during construction or otherwise, if a tree is removed illegally, require the actor to replace it based on a biomass replacement formula, and authorize the Department of Public Works to enact a lien to ensure compliance.

<sup>2</sup> See <https://www.treeequityscore.org/reports/place/san-francisco-ca/>

#### 4. Revision Related to Trees on Private Property

Although Article 16 deals with “street trees”, a proposed revision would give DPW the right to enter private property, determine that a privately-owned tree is a hazard tree, and require its removal with no right for appeal on the part of the private property owner.

##### Negative Consequence

It is concerning that a proposed revision impacting trees not along a public right of way would fall under the jurisdiction of Public Works. Further, because Public Works seeks to remove public process around the determination of hazard trees, the result is that the private property owner would have no choice but to comply and have the tree removed.

##### Recommendation

This provision should be struck, and considered as a separate, voter-approved, ballot measure.

#### **Other amendments to consider**

The legislation could further be strengthened by including:

- Reference to climate change and the need to be a climate resilient City;
- Reference to trees and tree canopy as an issue of environmental justice;
- The inadequacy of 1:1 tree replacement (i.e. replacing a mature tree with a sapling); and
- The enforcement of tree care for trees planted for construction projects; for example, often trees are planted but then not maintained and frequently die.

#### **Why is it so important to protect and increase our urban tree canopy?**

The Sierra Club believes that biodiversity, native vegetation, and green infrastructure like trees and shrubs are all critical components in our fight for climate resilience. At 13.7%, San Francisco’s is the smallest urban canopy of any major city in the United States, yet our City is failing to come close to the goals of our Urban Forest Plan - a plan that is expressly relied upon in our City’s climate action strategies.<sup>3</sup> The above recommendations and additional proposed revisions are the bare minimum San Francisco must implement to begin to address our need for increased tree canopy as a matter of climate resilience and environmental justice.

We look forward to hearing your response to our recommendations and thank you for your attention to this matter.

Sincerely,

*Becky Evans*

**Re:** Supervisors File # 210836, Public Works Code - Street Tree Planting and Removal

Dear Supervisors Melgar, Peskin and Preston,

Our Diamond Height Community Association (DHCA) Board requests that you and the Board of Supervisors support the Sierra Club San Francisco Group's recommended changes to the San Francisco's Public Works Code Street Tree Planting and Removal - Article 16.

The current changes under consideration are good but could go further to clarify the code. Our DHCA Board agrees with the changes recommended by the San Francisco Group of the Sierra Club stated in the attached letter. As indicated in the letter, the amendments would:

1. Increase equity in replacing removed trees
2. Restore public involvement in decisions regarding removal of trees
3. Empower the Department of Public Works to enforce penalties
4. Remove the expansion of DPW jurisdiction over trees on private property.

Thank you for considering the amendments brought forth by the San Francisco Group of the Sierra Club

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

My name is Lauren. I'm a California Certified Massage Therapist, with over 1,000 hour of training, who specializes in prenatal and postpartum bodywork. Hopefully this committee understands that CAMTC includes fingerprinting and Live Scan background check. I carry full professional liability insurance through ABMP, accept FSA payment, and provide coded superbills for health insurance reimbursement. I'm also a low-income, queer, solo parent to a 7 year old SFUSD student (receiving his second COVID vaccine at the time of this hearing). My practice has been serving the community for over 20 years. **Massage is health care**. Full stop. California and San Francisco's health departments both recognized this in prioritizing massage therapists as 1A health care providers for early COVID vaccine eligibility. It's time that we are treated as such. The legislation sponsored by Supervisors Ronen and Mandelman is a small step in that direction.

My practice has been closed since March 2020. It has been nearly impossible to find an affordable space in the District 8 community that I have lived and worked in for over 20 years that meets the overly restrictive regulations of the planning department. As one of the most established perinatal bodywork professionals in the area, my income has *never* exceeded 60% of the area median income. And over the past two years I have been living below the poverty level with my child struggling to reopen my integrative wellness practice. Our small businesses aid community health, often at a lower cost and in a more culturally competent way than traditional healthcare environments. We should honor this by providing equity in licensing that is fully in line with acupuncturists, chiropractors, and physical therapists.

Three amendments I would like to suggest:

- We need to prioritize the ability for massage establishments (both solo practitioners and those with a handful of employees) to operate in spaces with adequate ventilation. Ground floor spaces tend not to have any operable windows, while second and third floor neighborhood offices have multiple windows. Ventilation is key to our ability to work safely. Please do not make it more arduous for us to serve our community in safety.
- The conditional use authorization process for larger massage establishments needs to be added to the expedited process list. Waiting three to six months while paying rent on a space is simply not at all realistic for most of us as we seek to expand our very small businesses.
- The fee structure needs to be amended to reflect the financial reality of our profession. Even those of us who have been fortunate enough to expand our practices with a handful of staff to meet community needs rarely make *anywhere* near the AMI. Yet we are being asked to pay more in annual licensing fees than a lawyer does.

I urge this committee to support the proposed revisions as soon as possible. Please allow those

of us who have been dedicated to community health and wellness to operate in a fair, equitable, and safe way. Please help us reopen our practices, restart our local neighborhood economies, and attain self-sufficiency through this healing work as soon as possible. Thank you for your attention to this important work.
