You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

ASPomrantz

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2, 3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Sabina Kugel

Subject: Extremely Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:12:40 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Provs, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jointly and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:16:49 AM

cc: Pcwa, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jointly and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Michael Feinberg

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Alexandra Lazar

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has became the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:21:10 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Anne Landman

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing those symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:22:02 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Mrs Margaret Werner
Port Washington, NY

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Pinnero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Nicole Skyer

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:25:19 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dr get cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jointly and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:27:18 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:28:22 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Eva Kaplan

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:29:11 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:20:02 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Antisemitism Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:31:11 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufiza Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:31:45 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely, Dr. Josefa Ben-Arieh

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:34:35 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
June Rudy

Subject: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra - Physician's Assistant, Mufiza Khalid
Date: Tuesday, January 28, 2025 11:35:07 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Preva, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to ‘support a positive patient experience.’

Sadly, in January 2025, a patient’s experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician’s Assistant, Mufiza Khalid, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer’s political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you ‘are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.’

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today’s climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
DAVID

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Robert Borsato
Please be on the right side of history!!

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:38:22 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Bonnie Reiter

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:39:46 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:40:46 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jointly and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Human terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Laura Hirschhorn

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arrafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Michael B. Harris, MD

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:43:54 AM

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing those symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

S Odere

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Jessica Cogan

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists and their actions, including the murders, torture, & sexual atrocities committed on October 7 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. & international venues (1), this healthcare professional has publicly aligned herself with rhetoric & actions that, at a minimum, are anti-American and justify & glorify terrorism, violence, & hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is a highly charged symbol that represents the wearer's political affiliation with Hamas & the pro-terrorism movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks & thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre & kidnapping of Jews on October 7 2023, the keffiyeh has been the uniform worn by Hamas terrorists & their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, & LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism & Jew-hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within & beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing & medical assistance to all human beings on an equal & non-discriminatory basis.

Please respond to this issue and also update your website to reflect this intent.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jaustify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:46:52 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufiia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Human terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by ... Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Doria Wosk

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Martin Lurie

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Diane Linton

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Bensil Ilifshitz

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:50:05 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:50:40 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Gillian

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:51:01 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Miriam Bloom

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:52:31 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Perea, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing those symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Barbara Silverstein

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Alexandra Tawfik

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:53:11 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dr. Mona Morstein

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Deborah Briggs

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

The keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Sue Dimbert

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:50:41 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you "are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all."

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Becca Ramati

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:56:58 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2, 3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 11:58:12 AM

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Marci Langhaum

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely, Peggy Cottrell

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.' Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin. There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023. By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate. There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3) It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel. Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide. Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers. According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.' By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values. Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5) Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community. In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6) Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis. We await a response to this issue and request that you update your website to reflect this intent. Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

SHIFRA NEUMANN

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:01:56 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely, Nancy Cohen-Vardy

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 10,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Iris Fidel

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Rina Pinchevsky

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:06:43 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Subject: Re: Offensive Inappropriate Symbols Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:07:15 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Concentra Medical:

It is with disappointment and alarm that I write to you in reference to an employee's unprofessional and offensive attire. You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries. Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, though, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that **the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika**. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, **since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.**

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Sandra J Delopoulos

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 10,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Jennifer Geller

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:07:59 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Portero Hill Concentra
Date: Tuesday, January 28, 2025 12:10:01 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Haman terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you "are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all."

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:11:44 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Powa, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, justify and glorify terrorism, violence, hate and are fundamentally anti American.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged political symbol that represents the wearer's affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this healthcare worker creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Healthcare workers should be inclusive and respectful to all patients, not just those that they support. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to implement and enforce its values to ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish patients and staff. Its presence in your clinic leaves Jewish patrons feeling alienated and unwelcome. (6)

Thank you for addressing this critical matter with the urgency and seriousness it deserves. Hate has no place in the medical profession and certainly not at a Concentra practice devoted to providing healing and treating all human beings equally and respectfully.

We await a response to this issue and request that you retrain your employees and update your website to reflect this intent.

Sincerely,

Esther R. Nash, MD

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:12:54 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Abby Levin

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2, 3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:38:00 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Human terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:17:14 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Perea, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:18:44 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Human terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Robyn Regenbaum

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by ... Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the professional and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Abby

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jaustify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you "are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all."

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent. We cannot allow the proliferation of hateful symbols in the public domain.

Sincerely,

Rose F.Berliner

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:22:19 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

-Jennifer Jacobs

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:22:36 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jointly and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Human terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Jerilyn Rogin

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 10,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Caren Hammerman

Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Lisa Dickens

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Very Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra Medical
Date: Tuesday, January 28, 2025 12:26:22 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Jill Citron

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:28:46 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)
It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.
Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.
According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'
By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Undersized that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)
Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.
In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)
Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.
We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Judith Schwartz

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:29:50 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Daphne

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by ... Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Pintero Hill, are designed to ‘support a positive patient experience.’

Sadly, in January 2025, a patient’s experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician’s Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer’s political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you ‘are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.’

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today’s climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Barbara Perkal

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2026 12:32:40 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
The Essig Family

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Miriam Klein

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jointly and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Cheryl DeSure

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:20:47 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jointly and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Sb

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:28:02 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufhia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2026 12:45:01 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufhia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2.3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

S. Stein

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Daphna Ross

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:47:38 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Perea, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

David Daniel

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:52:11 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern !!!!Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:52:10 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
L. Yastrab

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:52:48 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Mojdeh

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:53:53 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
