Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Keffiyeh is the new swastika — not a religious or other protected symbol. Like a MAGA hat — they have no place on Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 12:57:34 PM

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to ‘support a positive patient experience.’

Sadly, in January 2025, a patient’s experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician’s Assistant, Mufiia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer’s political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you ‘are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.’

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today’s climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Galit

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
O Rayek

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Pomona Hill Concentra
Date: Tuesday, January 28, 2025 1:01:48 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Pomona, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Pomona Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Raychell Larkin

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Please get back to me as soon as possible, as I am a commercial insurance broker and need to know your position and your plan of action so that I can give appropriate guidance to my Workers Comp clients with high deductible or self insured programs.

Sincerely,

Mathi Fuchs

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely, Stacey Esti Cooper

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2026 1:12:49 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufiia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Elie Hirt

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing those symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:16:36 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

M. E. Bowers

It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Molly Ratner

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

Subject: Urgent: Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:21:26 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Perea, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Fawn Rich

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:25:11 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jointly and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you "are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all."

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:27:35 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 10,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:27:33 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Nili Gittig

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:34:00 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to ‘support a positive patient experience.’

Sadly, in January 2025, a patient’s experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician’s Assistant, Mufiia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer’s political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you ‘are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.’

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today’s climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomfotting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Amira Cohen

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:36:26 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Powa, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you "are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all."

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

G Reich

It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Rachelle Abramowitz

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Wearing symbols, whose subtext is applauding terror and slaughter certainly qualifies as compromising the care offered by your facility.
In January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:39:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Fran and Arnold Lederman

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Petrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing those symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:46:27 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing those symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Harris Paltrowitz

The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Catherine Winchild

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:48:51 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing those symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:51:12 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Nira Weiss

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to ‘support a positive patient experience.’

Sadly, in January 2025, a patient’s experience was far from positive - seeing an employee in a keffiyeh - a modern day form of pro-terrorism specifically directed at Jewish people. Professionals should keep their politics out of the workplace. All patients should feel welcomed and safe at Potrero.

Thank you,
Randi Cunningham

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
I. Geller

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:54:07 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Onir Spiegel

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:56:55 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Ramona Gamzeltova

Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Elaine Meister

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 1:59:59 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

(4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Joan Slabiak

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:02:22 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you "are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all."

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Hagit

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 3:06:16 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:08:05 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Provs, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming commonplace, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Petrero Hill Concentra
Date: Tuesday, January 28, 2025 2:09:36 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Petra, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Petrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Nan Sterman

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:11:32 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:16:36 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dalia Horowitz

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:15:43 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Abby

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Nancy Frankenberg

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Daniel Goldring

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:20:13 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Stacey Frenkel

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries. Lois Silverman, a Jewish woman from Boston, started the company back in the 1980s, previously know as Comprehensive Rehabilitation Associates then CRA Managed Care.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:22:32 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Ari Vanderwalde

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:29:33 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to ‘support a positive patient experience.’

Sadly, in January 2025, a patient’s experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician’s Assistant, Murtiza Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer’s political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you ‘are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.’

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today’s climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Brook principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Pamela Chanin

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:30:49 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Human terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you "are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all."

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:33:10 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Frima Ackerhalt

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Karin Ninburg

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Deena Feller

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:41:44 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jointly terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Inappropriate Terrorism Symbolism Worn by Healthcare Professional
Date: Tuesday, January 28, 2025 2:45:48 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Concentra Medical:

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufhia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: partisan political symbols worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:48:08 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Sarah Wald

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Naomi Levinson

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Pioneer Hill Concentra
Date: Tuesday, January 28, 2025 2:52:50 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely, Ruth A Harrison

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:56:39 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Perea, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Judith Brenner

Subject: Urgent: Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:58:27 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 3:00:31 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Bruce Broder

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 3:06:04 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries. Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.' Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin. There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023. By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate. There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3) It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel. Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide. Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers. According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.' By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values. Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5) Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community. In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6) Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis. We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 3:12:01 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Tracey Schwartz

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 3:14:07 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

cc: Perea, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employeees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing those symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Linda Landesman

Dear Concentra Medical:

Healthcare is for helping people. Keffiyeh's are symbols of violence and terror. They are antithetical to your mission!

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Miriam Kosowsky, Esq.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

This display of blatant antisemitism cannot be tolerated and this bigot antisemite must be fired now. He should not be taking care of anyone. He is subhuman and does not contribute to the good of society.

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jostify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Ilene Levin-Dando

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 10,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 3:38:15 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Perea, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing those symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Lillian F Miselewicz

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and jostify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

Accrediting to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Subject: Urgent: Concentra Medical Center Hosts Employee Wearing Pro-Hamas Symbol at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 5:44:10 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufiza Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Ann Slochowsky

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Nancy Brandes

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 2:47:28 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Dear Concentra Medical:

As you know, you have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Of Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 8:48:56 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Laura Oxztel Mack

Subject: What can we do about Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 3:52:28 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Stacy Shanskhalil

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 8:56:39 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Michael Savenky

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as those would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Alisa Berger
Lawrence, NY

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Haman terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you "are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all."

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

Protected free speech quite deliberately excludes hate speech and incitement to violence, as you well know. That is not a plausible argument.

Federal laws are being
violated, as well, the antiterrorism act, the civil rights act of 1964, Title VI, Title VII and various other hate crimes statutes are being flouted.

Failure to obey these laws opens you up to prosecution, lawsuits, loss of federal funds

We await a response to this issue and request that you update your website to reflect this intent.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 4:01:24 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive whom she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Amy Ovadia

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 4:03:23 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Lerer

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 4:05:35 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Stephanie Fox

Subject: Urgent: Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2026 4:06:37 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Cena Alsergel

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sharon

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Haman terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Subject: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 4:11:22 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorism, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 10,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Nor Silber

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Muftia Khalil, who also sported a pro-Palestinian pin.

There are few things more discomforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Hamutal Bonen

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 4:17:42 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive whom she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Subject: Urgent Concern: Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 4:20:58 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to "support a positive patient experience."

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,

Subject: Urgent Concern! Inappropriate Symbolism Worn by Healthcare Professional at Potrero Hill Concentra
Date: Tuesday, January 28, 2025 4:31:47 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

cc: Press, City Council

Dear Concentra Medical:

You have been known for more than 35 years as a leader in the world of health care, especially workplace injuries.

Your centers, like the one at Potrero Hill, are designed to 'support a positive patient experience.'

Sadly, in January 2025, a patient's experience was anything but positive when she came into the center and was treated by a keffiyeh-wearing Physician's Assistant, Mufita Khalil, who also sported a pro-Palestinian pin.

There are few things more disconforting than being seen by a healthcare professional wearing a piece of cloth specifically worn to signify support for radical Islamic terrorists, including the murders, torture, and sexual atrocities committed, most recently on October 7, 2023.

By wearing a keffiyeh, a symbol currently banned from many U.S. and international venues (1), this healthcare professional has publicly aligned herself with rhetoric and actions that, at a minimum, are anti-American and justify and glorify terrorism, violence, and hate.

There can be no doubt that the keffiyeh is no longer simply a piece of clothing. It is now a highly charged symbol that represents the wearer's political affiliation with Hamas and the pro-Palestine movement. It has become a modern-day swastika. It was made iconic by Yasser Arafat, who was responsible for 19,000 separate terrorist attacks and thousands murdered. It was also made iconic by Leila Khaled, the first woman to participate in airplane hijackings. (2,3)

It has become the clarion symbol of Hamas terrorists who seek the destruction of the only democratic country and our U.S. ally, Israel.
Moreover, since the barbaric massacre and kidnapping of Jews on October 7, 2023, the keffiyeh has been the uniform worn by Hamas terrorists and their supporters worldwide.

Likely, Concentra would not allow its employees to drape themselves in Confederate or KKK flags or to wear Nazi swastikas or pins at work, as these would threaten African American, Latin-X, Jewish, and LGBTQ+ customers.

According to your own website, you 'are guided by … Orange Book principles, providing quality care and a positive experience by living out our core values of a healing focus, a selfless heart, and a tireless resolve. Our colleagues provide welcoming, respectful, and skillful care to deliver and preserve access to high-quality health services for all.'

By wearing a keffiyeh in a healthcare role, this PA creates a hostile environment for Jewish patients. This would not be tolerated for any other ethnic or religious group. Wearing these symbols of terrorism and Jew hatred is antithetical to your mission and does nothing to support your core values.

Understand that a healthcare position should be inclusive to all patients and not just those that she supports. The PA in question should also be made aware that the terrorist organization for which she shows support includes a genocidal ideology to murder all Jews and obliterate the democratic state of Israel. (4,5)

Now is a critical moment for Concentra to reinforce its values and ensure that all personnel understand the broader implications of their actions both within and beyond the medical community.

In today's climate, where antisemitism is dangerously on the rise and violence against Jewish communities is becoming alarmingly common, this symbol is nothing short of a threat to Jewish customers. Its presence in your clinic leaves Jewish patrons feeling alienated and unsafe. (6)

Thank you for addressing this urgent matter with the gravity it deserves. Hate has no place in the profession and certainly not at a Concentra practice devoted to providing healing and medical assistance to all human beings on an equal and non-discriminatory basis.

We await a response to this issue and request that you update your website to reflect this intent.

Sincerely,
Kim Blizmeres
