8. Proposed Grant Project Summary:

The Ryan White Ending the HIV Epidemic grant (ETHE) is a new grant from HRSA (Health Resources and Services Administration) the funder of our Ryan White HIV services grants. The major 57 Ryan White Parts A and B recipients were targeted this funding by HRSA. HIV Health Services submitted a comprehensive, competitive grant application for this funding last fall, applying for the maximum amount of funding \$4 Million and receiving \$1 Million - which was the largest amount awarded to other Part A areas in our Tier. The goals of the ETHE funding is very similar to that our local Getting to Zero campaign: to reduce new HIV infections to zero (the CDC funded portion of the ETHE grant addresses this) and to increase Viral Load Suppression and to address and remove health disparities among communities who may experience these. HIV Health Services focused our application and the allocated funding from our grant award to programs that would work to address health disparates and improve viral load suppression overall, but most particularly focusing on the following target populations living with HIV: transgender women (particularly transgender women of color), persons experiencing homelessness, persons who inject drugs, African-American clients, Latinx clients, and persons experiencing incarceration.

- c2. If no indirect costs are included, what would have been the indirect costs? n/a
- 12. Any other significant grant requirements or comments:

We respectfully request for approval to accept and expend these funds retroactive to March 01, 2020. The Department received the letter of funding allocation on February 20, 2020. Delay was due to the award (\$1 million) amount being significantly less than application (\$4 million) amount. Section had to reprioritize on which programs to funds.
