B	Our City retirees are facing a financial crisis! Over 14,000 City retirees, many who are over 80 years of age with average pensions of less than \$1000 per month, face cuts of up to \$700 and more per year from their current pensions unless Proposition B is approved.	12 16 15 5
B	Proposition B doesn't require the City to pay any additional tax dollars for many years because over \$1 billion in surplus funding exists in the Retirement System to meet pension obligations. Proposition B keeps City pensions in line with other government jurisdictions. Proposition B does not increase current pensions. Proposition B will avoid the prospect that many older retirees will suffer a severe decline in the pensions they currently receive.	13 13 11 10 12 10
B	Proposition B is fair both to retirees and to the City. It protects elderly retirees from the severe financial hardship that will result from a significant decrease in their current pension benefits. These cuts for many pensioners on fixed incomes can only increase the serious problems that the elderly face in dealing with rising costs of daily necessities, trying to find a way to pay for costly drugs and medical expenses, and having their HMOs withdrawing medical services. And it doesn't cost the City additional tax dollars!	14 12 12 13 15 10 11
	Vote Yes on Proposition B. It is fair to the City. It is fair to the City's retirees.	18
