Subrecipients (and any Second-Tier Subrecipients) agree to cooperate with any assessments, national evaluation efforts, or information or data collection requests, including, but not limited to, the provision of any information required for the assessment or evaluation of any activities within this project.

**31. Published Written and Web-based Materials**

Subrecipients shall provide the Cal OES Program Specialist with a copy of any curricula, training materials, proposed publications, reports, or any other written materials that will be published, including web-based materials and website content, resulting from this Grant Subaward at least forty-five working days prior to the targeted dissemination date. Any written, visual, or audio publications, with the exception of press releases, whether published at the grantee's or government's expense, shall contain the following statements: "This project was supported by Grant No. CQ23 19 0380, awarded by the Bureau of Justice Assistance. The Bureau of Justice Assistance is a component of the Department of Justice's Office of Justice Programs, which also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice."

TL

**32. Press Releases**

Subrecipients (and any Second-Tier Subrecipients) shall transmit to the Cal OES Program Specialist copies of all official award-related press releases at least fifteen working days prior to public release. Advance notice permits time for coordination of release of information by Cal OES where appropriate and to respond to press or public inquiries.

### **33. Copyright; Data rights**

Subrecipients (and any Second-Tier Subrecipients) acknowledge that OJP reserves a royalty-free, non-exclusive, and irrevocable license to reproduce, publish, or otherwise use, and authorize others to use (in whole or in part, including in connection with derivative works), for Federal purposes: (1) any work subject to copyright developed under a Grant Subaward; and (2) any rights of copyright to which a Subrecipient (at any Second-Tier Subrecipient) purchases ownership with Federal support.

Subrecipients (and any Second-Tier Subrecipients) acknowledge that OJP has the right to (1) obtain, reproduce, publish, or otherwise use the data first produced under a Grant Subaward; and (2) authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes. "Data" includes data as defined in Federal Acquisition Regulation (FAR) provision 52.227-14 (Rights in Data – General).

It is the responsibility of the Subrecipient (and any Second-Tier Subrecipient) to ensure that the provisions of this condition are included in any Grant Subawards (and any Second-Tier Subrecipient) under this award.

Subrecipients (and any Second-Tier Subrecipients) have the responsibility to obtain from Subrecipients, contractors, and subcontractors (if any) all rights and data necessary to fulfill the Subrecipient's obligations to the Government under this Grant Subaward. If a proposed Subrecipient, contractor, or subcontractor refuses to accept terms affording the Government such rights, the Subrecipient shall promptly bring such refusal to the attention of the Cal OES Program Specialist for the Grant Subaward and not proceed with the agreement in question without further authorization from Cal OES.

### **34. Generally Accepted Laboratory Practices**

Subrecipients (and any Second-Tier Subrecipients) shall ensure that any forensic laboratory, forensic laboratory system, medical examiner's office, or coroner's office that will receive any portion of the Grant Subaward uses generally accepted laboratory practices and procedures as established by accrediting organizations or appropriate certifying bodies.

#### **a. External Investigations**

Subrecipients (and any Second-Tier Subrecipients) shall ensure that requirements associated with 34 U.S.C. section 10562(4) (which relate to processes in place to conduct independent external investigations into allegations of serious negligence or misconduct by employees or contractors) are satisfied with respect to any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility in the State that will receive a

portion of the grant amount.

b. Accreditation

Subrecipients (and any Second-Tier Subrecipients) shall ensure that any forensic laboratory or forensic laboratory system (not including any medical examiner's office or coroner's office) that will receive any portion of the award either is accredited, or will use a portion of this award to prepare and apply for accreditation by not more than two years from the award date of this award.

Additionally, with respect to accreditation, the Subrecipient (and any Second-Tier Subrecipient) shall ensure that for any Grant Subaward it makes under this award, it will require in a legally-binding and enforceable writing, such as the Grant Subaward documentation (for example, Grant Subaward terms and conditions), that its Subrecipient: (1) if accredited, must continue to demonstrate such accreditation as a condition of receiving or using the Grant Subaward funds; or (2) if not accredited, must use the Grant Subaward funds to prepare and apply for accreditation.

The Coverdell statute (see 34 U.S.C. section 10562(2)) and the Paul Coverdell Forensic Science Improvement Grants Program solicitation state certain requirements and guidance associated with proper accreditation and regarding what BJA will consider to be acceptable documentation of accreditation. The Subrecipient is to contact the Cal OES Program Specialist for clarification or guidance if it should have any question as to what constitutes proper accreditation for the purposes of the Coverdell program. Grant Subaward funds may not be used under this Grant Subaward by a forensic laboratory or forensic laboratory system with accreditation (or by such laboratory to obtain accreditation) that BJA determines not to be consistent with the Coverdell law and the solicitation or to be otherwise deficient.

Subrecipients (and any Second-Tier Subrecipients) agree to notify Cal OES promptly upon any change in the accreditation status of any forensic science laboratory or forensic laboratory system that receives funding under this Grant Subaward.

**35. Use of Funds; No Research**

Funds provided under this Grant Subaward shall be used only for the purposes and types of expenses set forth in the Request for Application. Funds shall not be used for general law enforcement functions or non-forensic investigatory functions, and shall not be used for research or statistical projects or activities. Use of Grant Subaward funds for construction of new facilities is restricted by statute. Any questions concerning this provision should be directed to the Cal OES Program Specialist prior to incurring the expense or commencing the activity in question.

To ensure compliance with the Government Performance and Results Act (Pub. L. No. 103-62) and the GPRA Modernization Act of 2010 (Pub. L. No. 111-352), program performance under this Grant Subaward is measured by the following: (1) percent reduction in the average number of days from the submission of a sample to a forensic science laboratory to the delivery of test results to a requesting office or agency (calculated by reporting the average number of days to process a sample at the beginning of the grant period versus the average number of days to process a sample at the end of the grant period); (2) percent reduction in the number of backlogged forensic cases (calculated by reporting the number of backlogged forensic cases at the beginning of the grant period versus the number of backlogged forensic cases at the end of grant period), if applicable to the Grant Subaward; and (3) the number of forensic science or medical examiner/coroner's office personnel who completed appropriate training or educational opportunities with these Coverdell funds, if applicable to the Grant Subaward. Subrecipients (and any Second-Tier Subrecipients) are required to collect and report data relevant to these measures.

### **36. Forensic Science or Medical Examiner Services Fees**

Subrecipients (and any Second-Tier Subrecipients) understand and agree that, throughout the Grant Subaward Performance Period, it must promptly notify Cal OES if it either starts or stops charging fees for forensic science or medical examiner services, or if it revises its method of allocating fees received for such services to program income. Notice must be provided in writing to the Cal OES Program Specialist within fifteen business days of implementation of the change.

### **37. External Investigations**

Subrecipients (and any Second-Tier Subrecipients) acknowledge that, as stated in the solicitation for the Paul Coverdell Forensic Science Improvement Grants Program, BJA assumes that Subrecipients (and Second-Tier Subrecipients) of Coverdell funds will make use of the process referenced in their certification as to external investigations and will refer allegations of serious negligence or misconduct substantially affecting the integrity of forensic results to government entities with an appropriate process in place to conduct independent external investigations, such as the government entity (or entities) identified in the grant application. The Subrecipient shall submit the following information as part of its final report: (1) the number and nature of any allegations of serious negligence or misconduct substantially affecting the integrity of forensic results received during the Grant Subaward; (2) information on the referrals of such allegations (e.g., the government entity or entities to which referred, the date of referral); (3) the outcome of such referrals (if known as of the date of the report); and (4) if any such allegations were not referred, the reason(s) for the non-referral. Should the project period for this award be extended, the Subrecipient shall submit the above information as to subsequent twelve-month periods every twelve months thereafter (as part of a semi-

annual progress report) until the close of the Grant Subaward, at which point the Subrecipient shall submit the required information as to any period not covered by prior reports as part of its final report. The Subrecipient understands and agrees that funds may be withheld (including funds under future awards), or other related requirements may be imposed, if the required information is not submitted on a timely basis.

### **38. Subrecipient Integrity and Performance Matters**

Subrecipients (and any Second-Tier Subrecipients) must comply with any and all applicable requirements regarding reporting of information on civil, criminal, and administrative proceedings connected with (or connected to the performance of) either this OJP award or any other grant, cooperative agreement, or procurement contract from the federal government. Under certain circumstances, Subrecipients of OJP awards are required to report information about such proceedings, through the federal System for Award Management (known as "SAM"), to the designated federal integrity and performance system (currently, "FAPIS").

The details of Subrecipient obligations regarding the required reporting (and updating) of information on certain civil, criminal, and administrative proceedings to the federal designated integrity and performance system (currently, "FAPIS") within SAM are posted on the OJP website at <https://ojp.gov/funding/FAPIS.htm> (Award condition: Recipient Integrity and Performance Matters, including Recipient Reporting to FAPIS), and are incorporated by reference here.

### **39. Gross Income**

Subrecipients (and any Second-Tier Subrecipients) understand and agree that gross income (revenues) from fees charged for forensic science or medical examiner services constitutes program income (in whole or in part), and that program income must be determined, used, and documented in accordance with the provisions of 2 C.F.R. 200.307, including as applied in the Department of Justice (DOJ) Grants Financial Guide, as it may be revised from time to time. Subrecipients (and any Second-Tier Subrecipients) further understand and agree that both program income earned during the Grant Subaward Performance Period and expenditures of such program income must be reported to Cal OES and are subject to monitoring.

Subrecipients (and any Second-Tier Subrecipients) understand and agree that program income earned during the Grant Subaward Performance Period may be expended only for permissible uses of funds specifically identified in the Request for Application for the Paul Coverdell Forensic Science Improvement Grants Program. The Subrecipient further understands and agrees that program income earned during the Grant Subaward Performance Period may not be used to supplant State or local government funds, but instead may be used only to increase the amount of funds that would, in the absence of Federal funds or program income, be available from State or local government sources for the permissible uses of funds listed in the

Request for Application.

Subrecipients (and any Second-Tier Subrecipients) understand and agree that program income that is earned during the final one hundred twenty (120) days of the Grant Subaward Performance Period may, if appropriate, be obligated (as well as expended) for permissible uses during the one hundred twenty-day (120-day) period following the end of the Grant Subaward Performance Period. The Subrecipient further understands and agrees that any program income earned during the Grant Subaward Performance Period that is not obligated and expended within one hundred twenty (120) days of the end of the Grant Subaward Performance Period must be returned to Cal OES.

#### **40. Federal, State and Local Environmental Laws and Regulations**

Subrecipients (and any Second-Tier Subrecipients) agree to comply with all Federal, State, and local environmental laws and regulations applicable to the development and implementation of the activities to be funded under this Grant Subaward.

##### **a. Environmental Assessment (EA)**

The activities the Subrecipient (and any Second-Tier Subrecipient) has proposed to conduct under this Grant Subaward fall within the scope of a BJA Programmatic EA that complies with the National Environmental Policy Act (NEPA). These activities have been determined not to have a significant impact on the quality of the human environment.

##### **b. Modifications**

Throughout the term of this Grant Subaward, Subrecipients (and any Second-Tier Subrecipients) agree that for any activity that is the subject of a completed EA, it will inform Cal OES of (1) any change(s) that it is considering making to the previously assessed activity that may be relevant to environmental impact; or (2) any proposed new activities or changed circumstances that may require assessment as to environmental impact, such as new activities that involve the use of chemicals or involve construction or major renovation. Subrecipients (and any Second-Tier Subrecipients) will not implement a proposed change or new activity until BJA, with the assistance of Cal OES, has determined whether the proposed change or new activity (or changed circumstances) will require additional review under NEPA. Approval for implementation will not be unreasonably withheld as long as any requested modification(s) is consistent with eligible program purposes and found acceptable under a BJA-conducted environmental impact review process.

#### **41. Unmanned Aircraft Systems**

The Subrecipient (and any Second-Tier Subrecipients) agrees that no funds under this Grant Subaward (including via subcontract or subaward, at any tier) may be used

for unmanned aircraft systems (UAS), which includes unmanned aircraft vehicles (UAV), or for any accompanying accessories to support UAS.

The San Francisco Police Department Crime Lab has a backlog in Firearms and toolmark and Gun Shot residue cases and is working toward re-establishment and re-accreditation of Controlled Substances Analysis that will be addressed using Coverdell grant funds.

Thirty two thousand, five hundred and fifteen dollars (\$32,515) will be spent on continuing education and training for the Association of Firearm and Toolmark Examiners (AFTE), Robert F. Borkenstein Alcohol and Highway Safety Training, California Association of Criminalists (CAC) training, California Criminalistics Institute (CCI) training, the Center for Forensic Science Research and Education (CFSRE), the Association of Forensic Quality Assurance Managers (AFQAM), the American Chemical Society (ACS), and the Shooting, Hunting, Outdoor Trade (SHOT) Show in the areas of general criminalistics, forensic alcohol interpretation and testimony, firearm and toolmark identification, trace and impression evidence analysis, distance determination, serial number restorations, instrumental analysis and interpretation and chemical analysis.

Six thousand seven hundred ninety -two dollars (\$6,792) will be spent on the purchase of six hood filters for casework processing.

Fourteen thousand nine hundred and thirty-eight dollars (\$14,938) will be spent on the purchase of seven desktop computers for casework processing.

Six thousand one hundred and fifty-two dollars (\$6,152) will be spent on the purchase of eight pipette repeaters for casework processing.

One thousand and ninety-two dollars (\$1,092) will be spent on recommended forensic textbooks to prepare analysts for certification examinations.

Ten thousand seven hundred and eighty-six dollars (\$10,786) will be spent on the purchase of two microscope cameras for casework processing.

## Grant Subaward Programmatic Narrative

Grant Subaward #: CQ2319 0380

Subrecipient: City and County of San Francisco

Coverdell grant funds will be utilized for six purposes:

- 1) Continuing education and training for staff to meet accreditation requirements.
- 2) Purchase of six hood filters for the proper ventilation of fumes during casework processing.
- 3) Purchase of seven desktop computers for casework processing in firearms, trace, Forensic Chemistry, and general criminalistics areas.
- 4) Purchase of two microscope cameras for documentation during casework processing.
- 5) Purchase of eight pipette repeaters for use in casework processing requiring the use of accurate and precisely measured volumes.
- 6) Purchase discipline specific forensic textbooks for certification testing preparation.

The SFPD Crime Lab offers forensic services in Firearm and Toolmark Identification, Gun Shot Residue Analysis, DNA and Kinship Analysis, Forensic Breath Alcohol Analysis and is in the process of resuming Controlled Substances (seized drugs) Analysis. Coverdell funds will be used to support staff by providing funding for continuing education opportunities in the disciplines in which the laboratory

provides services. The Association of Firearm and Toolmark Examiners (AFTE), Robert F. Borkenstein Alcohol and Highway Safety Training, the California Criminalistics Institute (CCI), the California Association of Criminalists (CAC), the Center for Forensic Science Research and Education (CFSRE), the Association of Forensic Quality Assurance Managers (AFQAM), the American Chemical Society (ACS), and the Shooting, Hunting, Outdoor Trade (SHOT) Show provide discipline specific training in which attendance at these meetings and trainings will ensure continuing education requirements for accreditation are met in all disciplines.

The laboratory is equipped with both bench top and large industrial chemical fume hoods throughout the building. The bench top hoods allow for continued casework processing in additional areas of the laboratory. The bench top hoods are equipped with changeable filters allowing for continued safe and proper ventilation during the various steps of casework processing. Additionally, desktop computers will be purchased to assist analysts as they process casework in the disciplines in which the laboratory provides services.

The Forensic Chemistry Section Seized Drug Analysis Unit will train and utilize different validated techniques in the analysis of seized drug evidence. To that

end one of those techniques includes the utilization of microcrystalline testing. The laboratory is equipped with polarized light microscope that will be used for this purpose, but they need the applicable camera accessory that would allow for the photo documentation of crystal forms. This photo documentation will be required to be in compliance with accreditation requirements of reviewable data.

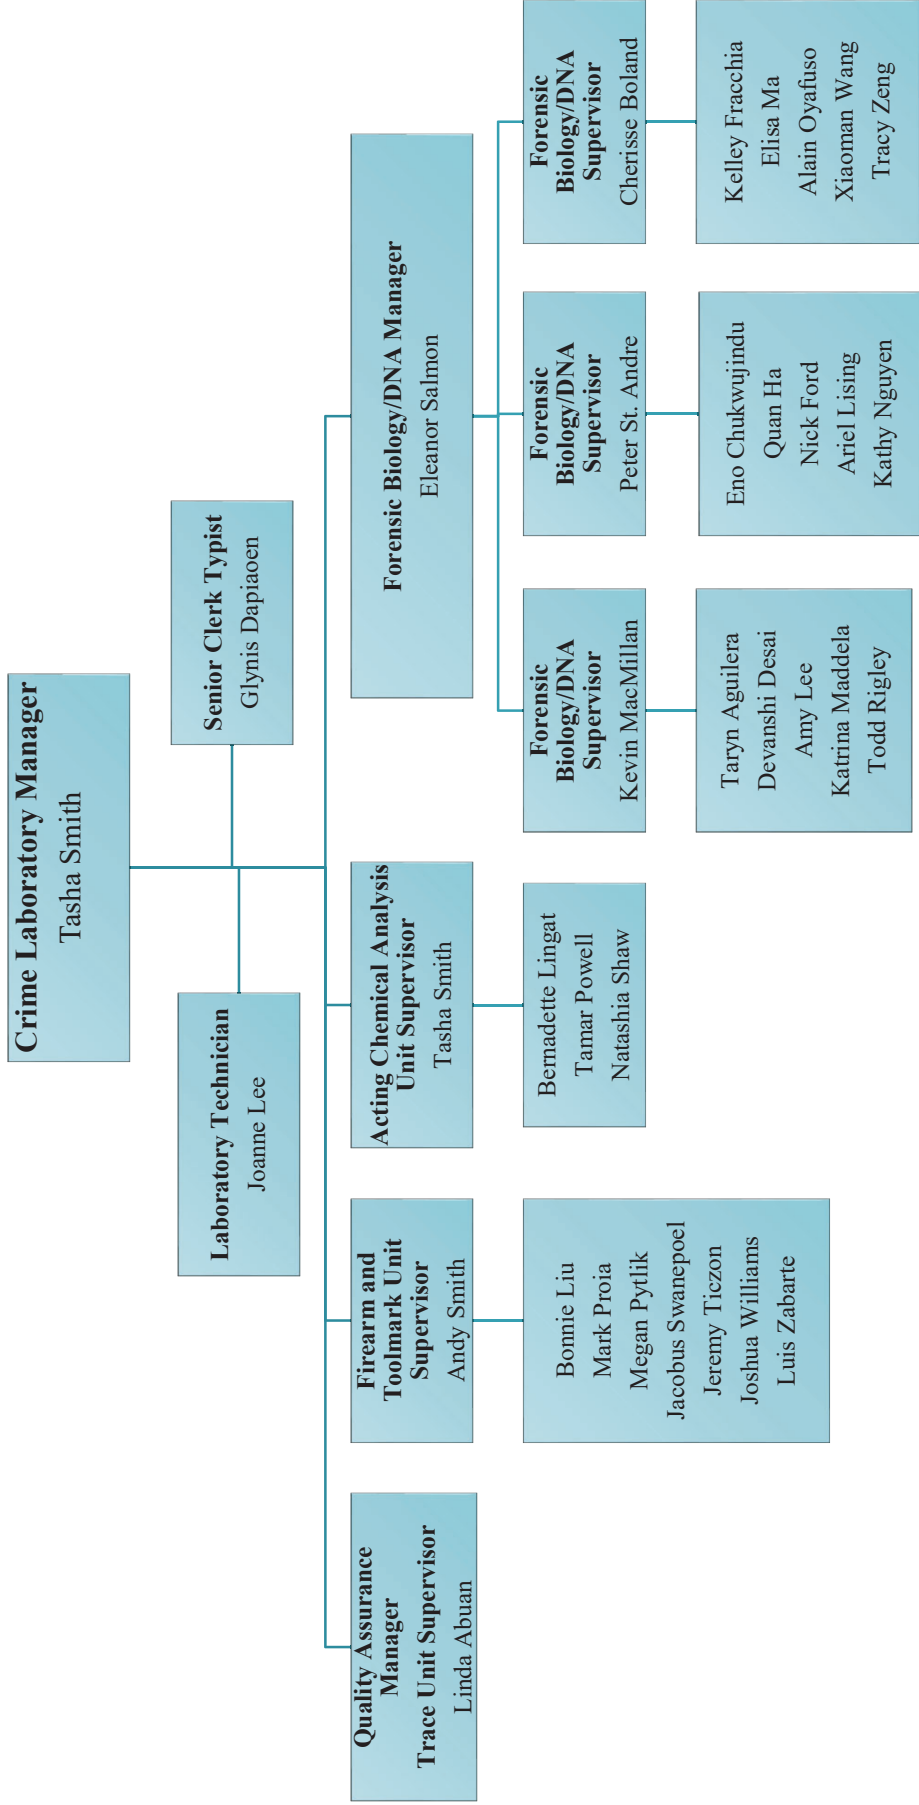

Accurate and reliable measurements are a pivotal and necessary aspect of the delicate and precise work that is performed within the analytical disciplines of the Crime Lab. Preparation of reagents, solvent dilutions, and testing materials used in casework are dependent on such accurate measurements in all disciplines. The purchase of repeater pipettes will be used for this purpose throughout the laboratory.

Discipline specific certification is encouraged by our leadership team and department. To further encourage and support analysts who wish to seek and be successful in obtaining their discipline specific certifications, Coverdell funds will be utilized to purchase recommended forensic textbooks to prepare analysts for certification examinations.

### Out-of-State Travel Request

Grant Subaward #: CQ2319 0380

Subrecipient: City and County of San Francisco, ~~Police Department~~ TL

Traveler(s): 2 people, to be determined

Travel Dates: 05/26/2024 to 05/31/2024 Destination: Anchorage, Alaska

Purpose of Trip: Association of Firearm and Toolmark Examiners Training

- Conference/training not available in California - Attach brochures or registration information
- Victim advocacy
- Other - Attach any applicable documentation

**Justification:**

Continuing education is vital in maintaining an awareness of the current technological advances within one's forensic specialty. For the forensic discipline of Firearms and Toolmarks there is only 1 opportunity per year to receive extended and professional educational training. The Association of Firearm and Toolmark Examiners (AFTE) annual training seminar is that opportunity. Given that this is just a yearly conference the AFTE changes the conference location each year. This conference is the best opportunity for an examiner to receive their required continuing education credits and to maintain certification for those that require it. Finally, the benefits to the examiner and the knowledge he/she brings back from attending this conference in person are tremendous.

**I hereby certify that the out of state travel is necessary for the accomplishment of the Grant Subaward.**

# Robert F. Borkestein Courses

## Alcohol Course

### Alcohol and Highway Safety Course Description

The Indiana University Alcohol Borkestein Course is typically a one-week expert-level program of on-campus instruction and interaction, on medico-legal alcohol topics.

The primary emphasis of the program is on alcohol chemistry pharmacology and physiology in relation to traffic safety, covering basic alcohol chemistry and physiology, principles of measurement of alcohol in blood and breath, and presentation of alcohol information in the courtroom. The program is presented twice annually (May and December) on the Indiana University main campus in Bloomington, IN as an activity of the Robert F. Borkestein Center for Studies of Law in Action in the IU Department of Criminal Justice.

The Course currently consists of 18 elements presented by ten visiting faculty members and the Course Manager over six days. Faculty presentations and other Course elements include lectures, question and answer, panel discussion with faculty-registrants, and tutorial sessions led by individual faculty members. The program also includes an initial Course orientation, welcoming faculty/student dinner, and a wine and cheese reception courtesy of the Criminal Justice Department.

This course, which was originated by Robert F. Borkestein in the 1950's, was primarily intended for professionals who administer or perform blood or breath tests to determine blood alcohol content. Enrollment in the course is limited to those technical and scientific personnel who manufacture, operate or maintain instruments, perform tests or manage blood or breath alcohol programs, or who provide expert testimony in alcohol litigation or hearings.

Neither the Center nor the course receives financial support from Indiana University. Both are entirely funded by the revenues generated from course enrollments. Please contact the Center administrator for questions about additional courses for other groups outside our current enrollment.

## **In Person Course Features**

Information is provided to Course participants mainly through:

- An extensive electronic Course notebook, with additional resource materials provided on-line
- Formal lectures and informal discussions
- PowerPoint presentations
- Questions-and-answers sessions
- Panel discussions

There are also after-hours social events, scheduled free-time, refreshment breaks. The Course Manager is present on-site throughout the Course to assist any registrant as needed, to maintain adherence to the schedule, to introduce faculty, and to coordinate the presentations as well as gather input for the daily review tests. Of particular value are the frequent, informal interactions among the registrants (approximately 60) and among registrants, faculty, and the Course managers. The Course schedule is closely adhered to. However, there is time for social events and relaxation on and off-campus. Housing is on-campus in the first-class hotel operated within the Indiana Memorial Union – the world's first and largest student union complex, with a complete physical fitness center and many other splendid facilities. An Indiana University certificate of satisfactory completion of the Course is conferred by the Center on each registrant who meets the Course requirements, and is presented at the end of the Course. AACCC Accent credits are also now available for the course (30 hours).

## **Course Contents**

The Borkenstein Course begins with a brief orientation to the Course, Indiana University, and Bloomington by retired IU Criminal Justice Professor and Center Director Kip Schlegel; Center Executive Director Dr. Barry Logan; and Borkenstein Course Manager Randy Beaty.

### **\*Special Note**

The mission of this course as envisioned by our Founder is to educate individuals involved in the implementation of scientific programs of testing and calibration for blood and breath alcohol

programs. There is a policy restricting attorney registration in the program. Attorneys can refer to other programs designed exclusively for the defense bar, such as the National College for DUI Defense (<https://ncdd.com> <<https://www.ncdd.com/>> ), or the Chemistry and the Law section of the American Chemical Society (<https://www.chemistryandthelaw.org> <<https://www.chemistryandthelaw.org/>> ) that provide excellent training programs more suited to the defense bar.

## **18. Restrictions and Certifications Regarding Non-disclosure Agreements and Related Matters**

The foregoing is not intended, and shall not be understood by the agency making this Grant Subaward, to contravene requirements applicable to Standard Form 312 (which relates to classified information), Form 4414 (which relates to sensitive compartmented information), or any other form issued by a federal department or agency governing the nondisclosure of classified information.

- a. In accepting this Grant Subaward, Subrecipients (and any Second-Tier Subrecipients):

## **19. Reclassification of Various Statutory Provisions to a New Title 34 of the United States Code**

On September 1, 2017, various statutory provisions previously codified elsewhere in the U.S. Code were editorially reclassified (that is, moved and renumbered) to a new Title 34, entitled "Crime Control and Law Enforcement." The reclassification encompassed a number of statutory provisions pertinent to OJP awards (that is, OJP grants and cooperative agreements), including many provisions previously codified in Title 42 of the U.S. Code.

Effective as of September 1, 2017, any reference in this award document to a statutory provision that has been reclassified to the new Title 34 of the U.S. Code is to be read as a reference to that statutory provision as reclassified to Title 34. This rule of construction specifically includes references set out in award conditions, references

set out in material incorporated by reference through award conditions, and references set out in other award requirements.

## **20. OJP Training Guiding Principles**

Any training or training materials that the Subrecipient (and any Second-Tier Subrecipients) – develops or delivers with OJP award funds must adhere to the OJP Training Guiding Principle for Grantee and Subgrantees available at <https://ojp.gov/funding/Implement/TrainingPrinciplesForGrantees-Subgrantees.htm>.

## **21. All Grant Subawards must have Specific Federal Authorization**

Subrecipients (and any Second-Tier Subrecipients) must comply with all applicable requirements for authorization of any Grant Subaward. This condition applies to agreements that – for purposes of federal grants administrative requirements -- OJP considers a "Grant Subaward" (and therefore does not consider a procurement "contract").

The details of the requirement for authorization of any Grant Subaward are posted on the OJP website at <https://ojp.gov/funding/Explore/SubawardAuthorization.htm>.

## **22. Requirements Related to System for Award Management and Universal Identifier Requirements**

Subrecipients (and any Second-Tier Subrecipients) must comply with applicable requirements regarding the System for Award Management (SAM), currently accessible at <https://www.sam.gov/>. This includes applicable requirements regarding registration with SAM, as well as maintaining the currency of information in SAM.

Subrecipients also must comply with applicable restrictions for Second-Tier Subawards, including restrictions on Grant Subawards to entities that do not acquire and provide (to Subrecipients) the unique entity identifier required for SAM registration.

The details of the Subrecipients' obligations related to SAM and to unique entity identifiers are posted on the OJP website at <https://ojp.gov/funding/Explore/SAM.htm>. (Award condition: System for Award Management (SAM) and Universal Identifier Requirements), and are incorporated by reference here.

This condition does not apply to a Grant Subaward to an individual who received the Grant Subaward as a natural person (i.e., unrelated to any business or non-profit organization that he or she may own or operate in his or her name).

### **23. Restrictions on "Lobbying"**

In general, as a matter of federal law, federal funds awarded by OJP may not be used by Subrecipients (and any Second-Tier Subrecipients), either directly or indirectly, to support or oppose the enactment, repeal, modification, or adoption of any law, regulation, or policy, at any level of government. See 18 U.S.C. 1913. (There may be exceptions if an applicable federal statute specifically authorizes certain activities that otherwise would be barred by law.)

Another federal law generally prohibits federal funds awarded by OJP from being used by Subrecipients (and any Second-Tier Subrecipients), to pay any person to influence (or attempt to influence) a federal agency, a Member of Congress, or Congress (or an official or employee of any of them) with respect to the awarding of a federal grant or cooperative agreement, subgrant, contract, subcontract, or loan, or with respect to actions such as renewing, extending, or modifying any such award. See 31 U.S.C. 1352. Certain exceptions to this law apply, including an exception that applies to Indian tribes and tribal organizations.

Should any question arise as to whether a particular use of federal funds by a Subrecipient (or any Second-Tier Subrecipient) would or might fall within the scope of these prohibitions, the Subrecipient is to contact Cal OES for guidance, and may not proceed without the express prior written approval of Cal OES.

### **24. Specific Post-award Approval Required to Use a Noncompetitive Approach in any Procurement Contract that would Exceed \$250,000**

Subrecipients (and any Second-Tier Subrecipients) must comply with all applicable requirements to obtain specific advance approval to use a noncompetitive approach in any procurement contract that would exceed the Simplified Acquisition Threshold (currently, \$250,000). This condition applies to agreements that -- for purposes of federal grants administrative requirements -- OJP considers a procurement "contract" (and therefore does not consider a subaward).

The details of the requirement for advance approval to use a noncompetitive approach in a procurement contract under an OJP award are posted on the OJP website at <https://ojp.gov/funding/Explore/NoncompetitiveProcurement.htm>.

### **25. Requirements Pertaining to Prohibited Conduct Related to Trafficking in Persons (including reporting requirements and OJP Authority to Terminate Grant Subaward)**

Subrecipients (and any Second-Tier Subrecipients) must comply with all applicable requirements (including requirements to report allegations) pertaining to prohibited conduct related to the trafficking of persons, whether on the part of Subrecipients (and any Second-Tier Subrecipients), or individuals defined (for purposes of this condition) as "employees" of Subrecipients (and any Second-Tier Subrecipients).

The details of the Subrecipients' obligations related to prohibited conduct related to trafficking in persons are posted on the OJP website at <https://ojp.gov/funding/Explore/ProhibitedConduct-Trafficking.htm>. (Award condition: Prohibited conduct by recipients and subrecipients related to trafficking in persons (including reporting requirements and OJP authority to terminate award)), and are incorporated by reference here.

## **26. Reporting Potential Fraud, Waste, and Abuse, and Similar Misconduct**

Subrecipients (and any Second-Tier Subrecipients) must promptly refer to Cal OES any credible evidence that a principal, employee, agent, Subrecipient, contractor, subcontractor, or other person has, in connection with funds under this Grant Subaward— (1) submitted a claim that violates the False Claims Act; or (2) committed a criminal or civil violation of laws pertaining to fraud, conflict of interest, bribery, gratuity, or similar misconduct.

Potential fraud, waste, abuse, or misconduct involving or relating to funds under this Grant Subaward must also be reported to Cal OES. Additional information is available from the DOJ OIG website at <https://oig.justice.gov/hotline>.

## **27. Limit on Use of Grant Funds for Grantees' Employees' Salaries**

With respect to this Grant Subaward, federal funds may not be used to pay cash compensation (salary plus bonuses) to any employee of the Grant Subaward recipient at a rate that exceeds 110% of the maximum annual salary payable to a member of the federal government's Senior Executive Service (SES) at an agency with a Certified SES Performance Appraisal System for that year. (A Grant Subaward recipient may compensate an employee at a higher rate, provided the amount in excess of this compensation limitation is paid with non-federal funds.)

This limitation on compensation rates allowable under this Grant Subaward may be waived on an individual basis at the discretion of the OJP official indicated in the program announcement under which this Grant Subaward is made.

## **28. Uploading DNA Profiles to Combined DNA Index System (CODIS)**

Subrecipients (and any Second-Tier Subrecipients) agree to upload eligible DNA profiles to Combined DNA Index System ("CODIS," the DNA database operated by the FBI) by a government DNA laboratory with access to CODIS if award funds are used for DNA testing of evidentiary materials. With the exception of Forensic Genetic Genealogy, no profiles generated under this award may be entered or uploaded into any non-governmental DNA database without prior express written approval from BJA. Award funds may not be used for the purchase of DNA equipment and supplies unless the resulting DNA profiles may be accepted for entry into CODIS. Booking agencies should work with their state CODIS agency to ensure all requirements are met for participation in Rapid DNA (see National Rapid DNA Booking Operational Procedures Manual).

## **29. Use of Funds for Forensic Genealogy Testing**

Subrecipients (and any Second-Tier Subrecipients) agree to adhere to the United States Department of Justice Interim Policy Forensic Genealogical DNA Analysis and Searching (<https://www.justice.gov/olp/page/file/1204386/download>), and must collect and report the metrics identified in Section IX of that document to Cal OES when utilizing award funds for forensic genealogy testing must adhere to the United States Department of Justice Interim Policy Forensic Genealogical DNA Analysis and Searching (<https://www.justice.gov/olp/page/file/1204386/download>), and must collect and report the metrics identified in Section IX of that document to Cal OES.

## **30. Information and/or Data Requests**

Subrecipients (and any Second-Tier Subrecipients) agree to cooperate with any assessments, national evaluation efforts, or information or data collection requests, including, but not limited to, the provision of any information required for the assessment or evaluation of any activities within this project.

## **31. Published Written and Web-based Materials**

Subrecipients shall provide the Cal OES Program Specialist with a copy of any curricula, training materials, proposed publications, reports, or any other written materials that will be published, including web-based materials and website content, resulting from this Grant Subaward at least forty-five working days prior to the targeted dissemination date. Any written, visual, or audio publications, with the exception of press releases, whether published at the grantee's or government's expense, shall contain the following statements: "This project was supported by Grant No. CQ23 19 0380, awarded by the Bureau of Justice Assistance. The Bureau of Justice Assistance is a component of the Department of Justice's Office of Justice Programs, which also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice."

## **32. Press Releases**

Subrecipients (and any Second-Tier Subrecipients) shall transmit to the Cal OES Program Specialist copies of all official award-related press releases at least fifteen working days prior to public release. Advance notice permits time for coordination of release of information by Cal OES where appropriate and to respond to press or public inquiries.

### **33. Copyright; Data rights**

Subrecipients (and any Second-Tier Subrecipients) acknowledge that OJP reserves a royalty-free, non-exclusive, and irrevocable license to reproduce, publish, or otherwise use, and authorize others to use (in whole or in part, including in connection with derivative works), for Federal purposes: (1) any work subject to copyright developed under a Grant Subaward; and (2) any rights of copyright to which a Subrecipient (at any Second-Tier Subrecipient) purchases ownership with Federal support.

Subrecipients (and any Second-Tier Subrecipients) acknowledge that OJP has the right to (1) obtain, reproduce, publish, or otherwise use the data first produced under a Grant Subaward; and (2) authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes. "Data" includes data as defined in Federal Acquisition Regulation (FAR) provision 52.227-14 (Rights in Data – General).

It is the responsibility of the Subrecipient (and any Second-Tier Subrecipient) to ensure that the provisions of this condition are included in any Grant Subawards (and any Second-Tier Subrecipient) under this award.

Subrecipients (and any Second-Tier Subrecipients) have the responsibility to obtain from Subrecipients, contractors, and subcontractors (if any) all rights and data necessary to fulfill the Subrecipient's obligations to the Government under this Grant Subaward. If a proposed Subrecipient, contractor, or subcontractor refuses to accept terms affording the Government such rights, the Subrecipient shall promptly bring such refusal to the attention of the Cal OES Program Specialist for the Grant Subaward and not proceed with the agreement in question without further authorization from Cal OES.

### **34. Generally Accepted Laboratory Practices**

Subrecipients (and any Second-Tier Subrecipients) shall ensure that any forensic laboratory, forensic laboratory system, medical examiner's office, or coroner's office that will receive any portion of the Grant Subaward uses generally accepted laboratory practices and procedures as established by accrediting organizations or appropriate certifying bodies.

#### **a. External Investigations**

Subrecipients (and any Second-Tier Subrecipients) shall ensure that requirements associated with 34 U.S.C. section 10562(4) (which relate to processes in place to conduct independent external investigations into allegations of serious negligence or misconduct by employees or contractors) are satisfied with respect to any forensic laboratory system, medical examiner's office, coroner's office, law enforcement storage facility, or medical facility in the State that will receive a

portion of the grant amount.

b. Accreditation

Subrecipients (and any Second-Tier Subrecipients) shall ensure that any forensic laboratory or forensic laboratory system (not including any medical examiner's office or coroner's office) that will receive any portion of the award either is accredited, or will use a portion of this award to prepare and apply for accreditation by not more than two years from the award date of this award.

Additionally, with respect to accreditation, the Subrecipient (and any Second-Tier Subrecipient) shall ensure that for any Grant Subaward it makes under this award, it will require in a legally-binding and enforceable writing, such as the Grant Subaward documentation (for example, Grant Subaward terms and conditions), that its Subrecipient: (1) if accredited, must continue to demonstrate such accreditation as a condition of receiving or using the Grant Subaward funds; or (2) if not accredited, must use the Grant Subaward funds to prepare and apply for accreditation.

The Coverdell statute (see 34 U.S.C. section 10562(2)) and the Paul Coverdell Forensic Science Improvement Grants Program solicitation state certain requirements and guidance associated with proper accreditation and regarding what BJA will consider to be acceptable documentation of accreditation. The Subrecipient is to contact the Cal OES Program Specialist for clarification or guidance if it should have any question as to what constitutes proper accreditation for the purposes of the Coverdell program. Grant Subaward funds may not be used under this Grant Subaward by a forensic laboratory or forensic laboratory system with accreditation (or by such laboratory to obtain accreditation) that BJA determines not to be consistent with the Coverdell law and the solicitation or to be otherwise deficient.

Subrecipients (and any Second-Tier Subrecipients) agree to notify Cal OES promptly upon any change in the accreditation status of any forensic science laboratory or forensic laboratory system that receives funding under this Grant Subaward.

**35. Use of Funds; No Research**

Funds provided under this Grant Subaward shall be used only for the purposes and types of expenses set forth in the Request for Application. Funds shall not be used for general law enforcement functions or non-forensic investigatory functions, and shall not be used for research or statistical projects or activities. Use of Grant Subaward funds for construction of new facilities is restricted by statute. Any questions concerning this provision should be directed to the Cal OES Program Specialist prior to incurring the expense or commencing the activity in question.

To ensure compliance with the Government Performance and Results Act (Pub. L. No. 103-62) and the GPRA Modernization Act of 2010 (Pub. L. No. 111-352), program performance under this Grant Subaward is measured by the following: (1) percent reduction in the average number of days from the submission of a sample to a forensic science laboratory to the delivery of test results to a requesting office or agency (calculated by reporting the average number of days to process a sample at the beginning of the grant period versus the average number of days to process a sample at the end of the grant period); (2) percent reduction in the number of backlogged forensic cases (calculated by reporting the number of backlogged forensic cases at the beginning of the grant period versus the number of backlogged forensic cases at the end of grant period), if applicable to the Grant Subaward; and (3) the number of forensic science or medical examiner/coroner's

office personnel who completed appropriate training or educational opportunities with these Coverdell funds, if applicable to the Grant Subaward. Subrecipients (and any Second-Tier Subrecipients) are required to collect and report data relevant to these measures.

### **36. Forensic Science or Medical Examiner Services Fees**

Subrecipients (and any Second-Tier Subrecipients) understand and agree that, throughout the Grant Subaward Performance Period, it must promptly notify Cal OES if it either starts or stops charging fees for forensic science or medical examiner services, or if it revises its method of allocating fees received for such services to program income. Notice must be provided in writing to the Cal OES Program Specialist within fifteen business days of implementation of the change.

### **37. External Investigations**

Subrecipients (and any Second-Tier Subrecipients) acknowledge that, as stated in the solicitation for the Paul Coverdell Forensic Science Improvement Grants Program, BJA assumes that Subrecipients (and Second-Tier Subrecipients) of Coverdell funds will make use of the process referenced in their certification as to external investigations and will refer allegations of serious negligence or misconduct substantially affecting the integrity of forensic results to government entities with an appropriate process in place to conduct independent external investigations, such as the government entity (or entities) identified in the grant application. The Subrecipient shall submit the following information as part of its final report: (1) the number and nature of any allegations of serious negligence or misconduct substantially affecting the integrity of forensic results received during the Grant Subaward; (2) information on the referrals of such allegations (e.g., the government entity or entities to which referred, the date of referral); (3) the outcome of such referrals (if known as of the date of the report); and (4) if any such allegations were not referred, the reason(s) for the non-referral. Should the project period for this award be extended, the Subrecipient shall submit the above information as to subsequent twelve-month periods every twelve months thereafter (as part of a semi-

annual progress report) until the close of the Grant Subaward, at which point the Subrecipient shall submit the required information as to any period not covered by prior reports as part of its final report. The Subrecipient understands and agrees that funds may be withheld (including funds under future awards), or other related requirements may be imposed, if the required information is not submitted on a timely basis.

### **38. Subrecipient Integrity and Performance Matters**

Subrecipients (and any Second-Tier Subrecipients) must comply with any and all applicable requirements regarding reporting of information on civil, criminal, and administrative proceedings connected with (or connected to the performance of) either this OJP award or any other grant, cooperative agreement, or procurement contract from the federal government. Under certain circumstances, Subrecipients of OJP awards are required to report information about such proceedings, through the federal System for Award Management (known as "SAM"), to the designated federal integrity and performance system (currently, "FAPIS").

The details of Subrecipient obligations regarding the required reporting (and updating) of information on certain civil, criminal, and administrative proceedings to the federal designated integrity and performance system (currently, "FAPIS") within SAM are posted on the OJP website at <https://ojp.gov/funding/FAPIS.htm> (Award condition: Recipient Integrity and Performance Matters, including Recipient Reporting to FAPIS), and are incorporated by reference here.

### **39. Gross Income**

Subrecipients (and any Second-Tier Subrecipients) understand and agree that gross income (revenues) from fees charged for forensic science or medical examiner services constitutes program income (in whole or in part), and that program income must be determined, used, and documented in accordance with the provisions of 2 C.F.R. 200.307, including as applied in the Department of Justice (DOJ) Grants Financial Guide, as it may be revised from time to time. Subrecipients (and any Second-Tier Subrecipients) further understand and agree that both program income earned during the Grant Subaward Performance Period and expenditures of such program income must be reported to Cal OES and are subject to monitoring.

Subrecipients (and any Second-Tier Subrecipients) understand and agree that program income earned during the Grant Subaward Performance Period may be expended only for permissible uses of funds specifically identified in the Request for Application for the Paul Coverdell Forensic Science Improvement Grants Program. The Subrecipient further understands and agrees that program income earned during the Grant Subaward Performance Period may not be used to supplant State or local government funds, but instead may be used only to increase the amount of funds that would, in the absence of Federal funds or program income, be available from State or local government sources for the permissible uses of funds listed in the

Request for Application.

Subrecipients (and any Second-Tier Subrecipients) understand and agree that program income that is earned during the final one hundred twenty (120) days of the Grant Subaward Performance Period may, if appropriate, be obligated (as well as expended) for permissible uses during the one hundred twenty-day (120-day) period following the end of the Grant Subaward Performance Period. The Subrecipient further understands and agrees that any program income earned during the Grant Subaward Performance Period that is not obligated and expended within one hundred twenty (120) days of the end of the Grant Subaward Performance Period must be returned to Cal OES.

#### **40. Federal, State and Local Environmental Laws and Regulations**

Subrecipients (and any Second-Tier Subrecipients) agree to comply with all Federal, State, and local environmental laws and regulations applicable to the development and implementation of the activities to be funded under this Grant Subaward.

##### **a. Environmental Assessment (EA)**

The activities the Subrecipient (and any Second-Tier Subrecipient) has proposed to conduct under this Grant Subaward fall within the scope of a BJA Programmatic EA that complies with the National Environmental Policy Act (NEPA). These activities have been determined not to have a significant impact on the quality of the human environment.

##### **b. Modifications**

Throughout the term of this Grant Subaward, Subrecipients (and any Second-Tier Subrecipients) agree that for any activity that is the subject of a completed EA, it will inform Cal OES of (1) any change(s) that it is considering making to the previously assessed activity that may be relevant to environmental impact; or (2) any proposed new activities or changed circumstances that may require assessment as to environmental impact, such as new activities that involve the use of chemicals or involve construction or major renovation. Subrecipients (and any Second-Tier Subrecipients) will not implement a proposed change or new activity until BJA, with the assistance of Cal OES, has determined whether the proposed change or new activity (or changed circumstances) will require additional review under NEPA. Approval for implementation will not be unreasonably withheld as long as any requested modification(s) is consistent with eligible program purposes and found acceptable under a BJA-conducted environmental impact review process.

#### **41. Unmanned Aircraft Systems**

The Subrecipient (and any Second-Tier Subrecipients) agrees that no funds under this Grant Subaward (including via subcontract or subaward, at any tier) may be used

for unmanned aircraft systems (UAS), which includes unmanned aircraft vehicles (UAV), or for any accompanying accessories to support UAS.

## Grant Subaward Budget Narrative

Grant Subaward #: CQ2319 0380

Subrecipient: City and County of San Francisco

The San Francisco Police Department Crime Lab has a backlog in Firearms and toolmark and Gun Shot residue cases and is working toward re-establishment and re-accreditation of Controlled Substances Analysis that will be addressed using Coverdell grant funds.

Thirty two thousand, five hundred and fifteen dollars (\$32,515) will be spent on continuing education and training for the Association of Firearm and Toolmark Examiners (AFTE), Robert F. Borkenstein Alcohol and Highway Safety Training, California Association of Criminalists (CAC) training, California Criminalistics Institute (CCI) training, the Center for Forensic Science Research and Education (CFSRE), the Association of Forensic Quality Assurance Managers (AFQAM), the American Chemical Society (ACS), and the Shooting, Hunting, Outdoor Trade (SHOT) Show in the areas of general criminalistics, forensic alcohol interpretation and testimony, firearm and toolmark identification, trace and impression evidence analysis, distance determination, serial number restorations, instrumental analysis and interpretation and chemical analysis.

Six thousand seven hundred ninety -two dollars (\$6,792) will be spent on the purchase of six hood filters for casework processing.

## Grant Subaward Budget Narrative

Grant Subaward #: CQ2319 0380

Subrecipient: City and Couty of San Francisco

Fourteen thousand nine hundred and thirty-eight dollars (\$14,938) will be spent on the purchase of seven desktop computers for casework processing.

Six thousand one hundred and fifty-two dollars (\$6,152) will be spent on the purchase of eight pipette repeaters for casework processing.

One thousand and ninety-two dollars (\$1,092) will be spent on recommended forensic textbooks to prepare analysts for certification examinations.

Ten thousand seven hundred and eighty-six dollars (\$10,786) will be spent on the purchase of two microscope cameras for casework processing.

## Grant Subaward Programmatic Narrative

Grant Subaward #: CQ2319 0380

Subrecipient: City and County of San Francisco

Coverdell grant funds will be utilized for six purposes:

- 1) Continuing education and training for staff to meet accreditation requirements.
- 2) Purchase of six hood filters for the proper ventilation of fumes during casework processing.
- 3) Purchase of seven desktop computers for casework processing in firearms, trace, Forensic Chemistry, and general criminalistics areas.
- 4) Purchase of two microscope cameras for documentation during casework processing.
- 5) Purchase of eight pipette repeaters for use in casework processing requiring the use of accurate and precisely measured volumes.
- 6) Purchase discipline specific forensic textbooks for certification testing preparation.

The SFPD Crime Lab offers forensic services in Firearm and Toolmark Identification, Gun Shot Residue Analysis, DNA and Kinship Analysis, Forensic Breath Alcohol Analysis and is in the process of resuming Controlled Substances (seized drugs) Analysis. Coverdell funds will be used to support staff by providing funding for continuing education opportunities in the disciplines in which the laboratory

provides services. The Association of Firearm and Toolmark Examiners (AFTE), Robert F. Borkestein Alcohol and Highway Safety Training, the California Criminalistics Institute (CCI), the California Association of Criminalists (CAC), the Center for Forensic Science Research and Education (CFSRE), the Association of Forensic Quality Assurance Managers (AFQAM), the American Chemical Society (ACS), and the Shooting, Hunting, Outdoor Trade (SHOT) Show provide discipline specific training in which attendance at these meetings and trainings will ensure continuing education requirements for accreditation are met in all disciplines.

The laboratory is equipped with both bench top and large industrial chemical fume hoods throughout the building. The bench top hoods allow for continued casework processing in additional areas of the laboratory. The bench top hoods are equipped with changeable filters allowing for continued safe and proper ventilation during the various steps of casework processing. Additionally, desktop computers will be purchased to assist analysts as they process casework in the disciplines in which the laboratory provides services.

The Forensic Chemistry Section Seized Drug Analysis Unit will train and utilize different validated techniques in the analysis of seized drug evidence. To that

end one of those techniques includes the utilization of microcrystalline testing. The laboratory is equipped with polarized light microscope that will be used for this purpose, but they need the applicable camera accessory that would allow for the photo documentation of crystal forms. This photo documentation will be required to be in compliance with accreditation requirements of reviewable data.

Accurate and reliable measurements are a pivotal and necessary aspect of the delicate and precise work that is performed within the analytical disciplines of the Crime Lab. Preparation of reagents, solvent dilutions, and testing materials used in casework are dependent on such accurate measurements in all disciplines. The purchase of repeater pipettes will be used for this purpose throughout the laboratory.

Discipline specific certification is encouraged by our leadership team and department. To further encourage and support analysts who wish to seek and be successful in obtaining their discipline specific certifications, Coverdell funds will be utilized to purchase recommended forensic textbooks to prepare analysts for certification examinations.

Purpose of Trip: Association of Firearm and Toolmark Examiners Training

- Conference/training not available in California - Attach brochures or registration information
- Victim advocacy
- Other - Attach any applicable documentation

### Justification:

Continuing education is vital in maintaining an awareness of the current technological advances within one's forensic specialty. For the forensic discipline of Firearms and Toolmarks there is only 1 opportunity per year to receive extended and professional educational training. The Association of Firearm and Toolmark Examiners (AFTE) annual training seminar is that opportunity. Given that this is just a yearly conference the AFTE changes the conference location each year. This conference is the best opportunity for an examiner to receive their required continuing education credits and to maintain certification for those that require it. Finally, the benefits to the examiner and the knowledge he/she brings back from attending this conference in person are tremendous.

# Robert F. Borkenstein Courses

## Alcohol Course

### Alcohol and Highway Safety Course Description

The Indiana University Alcohol Borkenstein Course is typically a one-week expert-level program of on-campus instruction and interaction, on medico-legal alcohol topics.

The primary emphasis of the program is on alcohol chemistry pharmacology and physiology in relation to traffic safety, covering basic alcohol chemistry and physiology, principles of measurement of alcohol in blood and breath, and presentation of alcohol information in the courtroom. The program is presented twice annually (May and December) on the Indiana University main campus in Bloomington, IN as an activity of the Robert F. Borkenstein Center for Studies of Law in Action in the IU Department of Criminal Justice.

The Course currently consists of 18 elements presented by ten visiting faculty members and the Course Manager over six days. Faculty presentations and other Course elements include lectures, question and answer, panel discussion with faculty-registrants, and tutorial sessions led by individual faculty members. The program also includes an initial Course orientation, welcoming faculty/student dinner, and a wine and cheese reception courtesy of the Criminal Justice Department.

This course, which was originated by Robert F. Borkenstein in the 1950's, was primarily intended for professionals who administer or perform blood or breath tests to determine blood alcohol content. Enrollment in the course is limited to those technical and scientific personnel who manufacture, operate or maintain instruments, perform tests or manage blood or breath alcohol programs, or who provide expert testimony in alcohol litigation or hearings.

Neither the Center nor the course receives financial support from Indiana University. Both are entirely funded by the revenues generated from course enrollments. Please contact the Center administrator for questions about additional courses for other groups outside our current enrollment.

## **In Person Course Features**

Information is provided to Course participants mainly through:

- An extensive electronic Course notebook, with additional resource materials provided on-line
- Formal lectures and informal discussions
- PowerPoint presentations
- Questions-and-answers sessions
- Panel discussions

There are also after-hours social events, scheduled free-time, refreshment breaks. The Course Manager is present on-site throughout the Course to assist any registrant as needed, to maintain adherence to the schedule, to introduce faculty, and to coordinate the presentations as well as gather input for the daily review tests. Of particular value are the frequent, informal interactions among the registrants (approximately 60) and among registrants, faculty, and the Course managers. The Course schedule is closely adhered to. However, there is time for social events and relaxation on and off-campus. Housing is on-campus in the first-class hotel operated within the Indiana Memorial Union – the world's first and largest student union complex, with a complete physical fitness center and many other splendid facilities. An Indiana University certificate of satisfactory completion of the Course is conferred by the Center on each registrant who meets the Course requirements, and is presented at the end of the Course. AACCCredit credits are also now available for the course (30 hours).

## **Course Contents**

The Borkenstein Course begins with a brief orientation to the Course, Indiana University, and Bloomington by retired IU Criminal Justice Professor and Center Director Kip Schlegel; Center Executive Director Dr. Barry Logan; and Borkenstein Course Manager Randy Beaty.

### **\*Special Note**

The mission of this course as envisioned by our Founder is to educate individuals involved in the implementation of scientific programs of testing and calibration for blood and breath alcohol

programs. There is a policy restricting attorney registration in the program. Attorneys can refer to other programs designed exclusively for the defense bar, such as the National College for DUI Defense (<https://ncdd.com> <<https://www.ncdd.com/>> ), or the Chemistry and the Law section of the American Chemical Society (<https://www.chemistryandthelaw.org> <<https://www.chemistryandthelaw.org/>> ) that provide excellent training programs more suited to the defense bar.

**TO:** Board of Supervisors Budget and Finance Committee

**DATE:** October 10, 2024

**SUBJECT:** Accept and Expend Grant - Retroactive - California Governor's Office of Emergency Services - Paul Coverdell Forensic Science Improvement Program - \$72,275

The San Francisco Police Department (SFPD) is submitting a retroactive resolution for the Paul Coverdell Forensic Science Improvement Program grant in the amount of \$72,275 from the Governor's Office of Emergency Services (Cal OES) to pay for training and procure equipment for the Criminology Laboratory, with the project period beginning on April 1, 2024, through June 30, 2025. The grant provides funding for the Crime Lab to maintain accreditation for forensic services and reduce case backlogs.

SFPD applied for the Coverdell grant on December 6, 2023, and Cal OES approved SFPD's application on May 14, 2024. While SFPD budgets each Coverdell grant in the Annual Appropriation Ordinance and the award is usually less than \$100,000, we are seeking retroactive approval because the state requires us to have Proof of Authority for the grant agreement to satisfy this grant condition after receiving each grant award.

SFPD respectfully requests retroactive approval to accept and expend the Cal OES Coverdell grant.
