Objective and Methodology

Research Objective:

- Gain an understanding of the housing needs of justice involved adults in San Francisco

Research Method: Mixed Methods

- Qualitative
 - 12 focus groups – 22 hours, 87 participants
- Quantitative
 - Survey – 284 respondents

Key Takeaways

QUALITATIVE – THEMES

1. The Impact of Addiction
 - Addiction leading to homelessness
 - Addiction leading to incarceration
2. Financial Instability
3. Reentry Planning and Hopelessness

QUANTITATIVE

HOUSING INSTABILITY & THE JUSTICE SYSTEM

Unstably housed includes those residing in emergency shelters, transitional housing, staying with family and friends, treatment programs or places not meant for habitation. HNJA survey respondents reported:

76%

Were unstably housed prior to their most recent incarceration

47%

Did not know where they were going to live upon release.

96%

Were unstably housed upon release

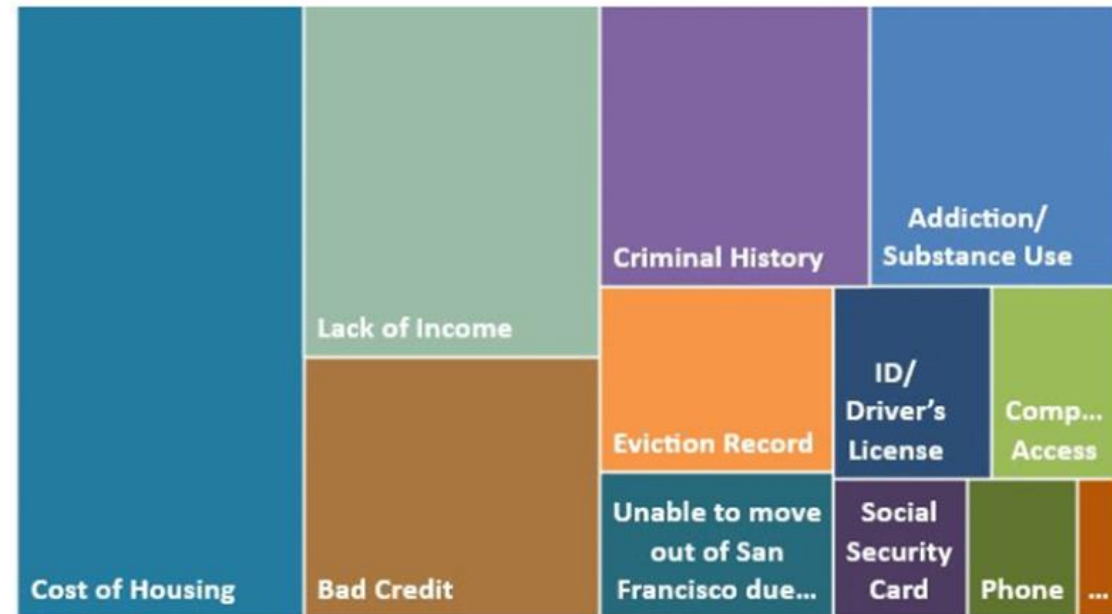

73%

Were unstably housed at the time of the HNJA survey

Recommendations

1. SHARED GOAL TO ADDRESS HOUSING NEEDS
2. EXPAND THE FRAMEWORK: MOVING BEYOND HOUSING FIRST AND HARM REDUCTION
3. BUILD A RECOVERY SYSTEM OF CARE
4. FUND A STABILIZATION CENTER
5. INCREASE FINANCIAL LITERACY
6. BOLSTER TRANSITIONAL HOUSING
