"San Fran Board Agenda File 250291. The Truth Behind San Fran's "Bay Area Urban Areas Security Initiative". A Program Designed to Adjust the Maladjusted to a Broken System of Exploitation is Not a Solution to Treat the Victims of Targeted Violence and Terrorism, it turns them into a commodity."

San Francisco 05/19/2025. Looks like Global Organized Crime has come up with another clever scheme to funnel tax-dollars to their Corporate Partners involved in Human Management and Housing by creating a new Commodity Class of Human Beings, "Victims of targeted violence and terrorism". With the San Fran Board voting, https://sfbos.org/sites/default/files/bag052025_agenda.pdf, to approve a receiving a grant, file 250291 <https://sfgov.legistar.com/LegislationDetail.aspx?ID=7299211&GUID=78BA76BD-C9D5-469A-8326-DA523B69B0E6>, from , no doubt while also investing Local and State Dollars, the "Department of Homeland Security - FEMA - Regional Catastrophic Preparedness Grant Program - \$2,696,215]" and inside this cleverly designed program that seeks to enlist local stakeholders, even religious leaders, in support using misinformation, they have placed the "Bay Area Urban Areas Security Initiative", <https://www.bayareauasi.org/>, according to the website, " Designed to enhance public safety and security throughout the Bay Area, the UASI's multi-disciplinary programs are comprised of local, state, and federal subject matter experts working to achieve Homeland Security Goals & Objectives." and one of these objectives called, "Bay Area Targeted Violence and Terrorism Prevention Grant Program" at <https://www.bayareauasi.org/TVTP>, looks like instead of addressing the real radicalization that is happening to citizens in ways they are being used like Manchurian Candidates to push agendas that erode Democracy, limit civil liberties, and strengthen the Security State Protocols that promotes the Globalist Organized Crime

Syndicate's ordering of human activity in its benefit, is just using this program to target people merely labeled as perceived threats to that Totalitarian Order and falsely labeling them as potential victims of radicalization, but who are actually "reasonably" maladjusted to the broken system we are being contained in and exploited. A Program like this would have detected Rev. Martin Luther King Jr. and labeled him a potential victim of radicalization (perceived threat) just to prevent the Civil Rights Movement from happening, and no doubt a Religiously Convicted Pro-Democracy Street Journalist like myself would also be falsely labeled in this program as a victim who needs to be "adjusted" to become complacent to the broken system I am reporting against in Defense of the Democracy they are eroding, according to the Behavioral Assessment and Management Practice Guide for the US Prevention Practitioners Network found as a link, <https://www.mccaininstitute.org/wp-content/uploads/2022/07/Practice-Guide-4-BA-and-BM-July-2022.pdf>, in the Bay Area Targeted Violence and Terrorism Prevention Grant Program Website. We have to understand that these Nazi-Type Nationalists(Political Right) and Socialists (Political Left) work together through Public Health and Safety Programs like this by attempting to use credentialed but false pseudoscientific information and propaganda and the professionals who are drunk on this Cult Like Kool-Aid of Superiority that perpetuates their Organized Crime Ponzi Schemes, Protects their investments and the manufactured and imposed superiority over the citizens contained in their Globalist system using intellectual blockades, misinformation, disinformation and propaganda. And so, as people like me try and report the truth through their control over technology, internet and communications they will often label us as the bad guys, or mental defects that need to be adjusted, so that a Mass Movement towards freedom in contrast to the manufactured form of peace they impose on society, which is really just like the calmness of a Mental Institution because that is what they are turning society into, is prevented and so instead their order is maintained in their benefit but at the detriment of the evolution and progression of our species. I do not recommend that Religious Leaders Participate in any Federal Programs right now but instead focus on the principles of your religion that strengthens the processes of self actualization designed into your Religious Practices so people can gain heightened self awareness and know their fullest potential in relation to GOD at a maximized higher state of consciousness so that they can adequately defend themselves against the psychological manipulation and wrong use of technology being used to enslave us as blind automatons to a system that really only recognizes religion as a convenient social/economic/security program delivery system like it is being used here as a participating element of this program. We can see the same Corporate Partners of Human Management and exploitative use of victims created for that purpose as in most of the corrupted social programs of the U.S. and Canada which I have already reported on and exposed, things like "decriminalization" programs complimented by Harm Reduction strategies, they allowed the flow of narcotics into a community, then gave the contained victims state paid paraphernalia and pharmaceutical drugs, and profited off of treating and housing the victims whose disability increased with the physical and mental trauma caused by this state sponsored addiction, turning the created junkies into housing and pharmaceutical cows whose diseases were just treated and their life sustained in a housing unit or rotated recidivistically through multiple agencies and outpatient programs for profit until they died. I've managed to put a lot on the record to expose those other Social/Health/Criminal Justice Programs attached to these Ponzi Schemes using human beings as a commodity so now it looks like this Global Organized Crime is trying to use the good intentions, resources and employees of FEMA and Homeland Security to cleverly hide a new commodity class of human being, the at-risk of targeted violence and terrorism victim, to be used to funnel tax-dollars to those Corporate Partners or similar Stock Portfolios. It is time we make a stand against this top down assumed unjustly and falsely labeled authoritative distribution of information and funding into our local communities where our local people get duped into and brainwashed as the hands that deliver the totalitarian agenda and enslave our own people to it as seemingly willing participants instead of addressing in a realistic way the Globalists who are creating the victims we just perpetually manage like cattle as our social and economic policies are merely the extension of the psychopathologies of these Progressive Hitler'ites who are designing the programs with a fake humanitarianism and taking

advantage of by psychologically manipulating the Liberal Empathic Intellectualism and Religiously Convicted Moralism of people with good intentions. When fake humanitarians run a totalitarian system of human exploitation to protect their own "Psychosis of Superiority" they will do anything to target the revolutionary types like that who inspired the French and American Revolutions of Liberal Enlightenment Reconstruction and subsequently the Civil Rights Movements and this battle has been on-going ever since those periods, they have just gained strategic advantage at the present time by manufacturing decreases in empathic and intellectual potential from the systems, in other words these ignorant Nazi-Type Neanderthals can only rule over a dumbed down and brain washed electorate so they attack all liberating and enlightening knowledge and contained people in intellectual blockades where that ignorance is socially reinforced, such as the Slave South used, but in ways where Pride is manufactured onto a certain percent of the labor roles so that Victims labeled capable of administering the programs will not have a moral, intellectual or conscience objection to the subjugation of their peers who have been turned into victims for profit and as justification for the maintained manufactured superiority of the arbitrary labor roles distributed downward using mere accreditations as justification for the subjugation which is only possible because all potential pathways for all parties contained in the interest of protecting this dynamic have been blocked to prevent access to the full knowledge and the application of which provides pathways to socio-economic freedom away from, contrary to, or in competition with, the system they are contained in have been coerced into perpetuating. So, while I support addressing issue and do not deny that there are Victims of Targeted Violence and Terrorism being manufactured, because I have been a victim myself, what this looks like is an entire industry being created around these victims and once tax-payer funding and jobs are created to address an issue of Public Health and Safety they never really get defunded and the only way to justify those jobs is by continuing to supply victims as a commodity and this is just another example of how Globalist Organized Crime protects its activities by creating too big to fail industries. The fact that this program just looks like a H.U.D. Housing First Navigation Center Model dressed up for Victims of Targeted Violence and Terrorism as these are the same multi-disciplinary intervention methods being categorized in a program staffed by Elitists who drink the Socialist Kool-Aid the Nazis drank to subjugate us Jews and who do not understand Religion, Free Market Economics, Self Actualization, Freedom, Democracy, and especially are ignorant of any form of Enlightenment and so to mask their "Psychosis of Superiority" like a hive of bees they just surround the people who have moral and reasonable objection to their system of false superiority and ignore the sound, logical, moral and reasonable arguments against this system of exploitation. I am not promoting extremism here I am questioning the definitions being used as extremist activity or to label someone as a potential for extremism as a preventative Security Measure that guides them through programs and mental and behavioral health partners designed to "adjust" them to a system they are reasonably maladjusted to and have every right to speak out against and I am insinuating that the justification for these programs, which are opposed to the Democratic Ideals and Constitutional Protections of a Functioning Democracy that is in itself designed specifically to protect its citizens from this Authoritative control over their lives, but that this justification and the qualifying conditions imposed on a victim is in fact an act of social engineering and corporate espionage for the purpose of creating this type of commodity class of human being for profiting those partners attached and to create the jobs involved arbitrarily and it seems using a manufactured pseudoscience and false psychology as a compliment to the program with the intention of removing the victim's power of attorney over themselves with a false label as a means to force participation in this program which is backed by the Health and Safety Professionals involved who themselves have a paramilitary training the same of which has allowed military soldiers to kill innocent villagers without moral or conscience objection. I support our first responders, I was a volunteer firefighter and certified first responder, I support our Civil Servants because I served in AmeriCorps, I support FEMA and Homeland Personnel because I have worked on County Emergency Management Projects, I support right use of Technology because I worked in the Tech Space at a Director Level and was certified by Business. Com as a Business Technology Market Expert Writer but as a Grandnephew of a Jewish Holocaust Survivor

on my Father's Side and as a Practicing Catholic from a third generation Italian/Irish immigrant family I do not support human exploitation or the profiting off of victims being engineered for that purpose or the jobs designed to perpetually manage the flow of those victims falsely labeled the same way the Nazis created symptoms of mental illness hidden and nonrecorded tactics of psychological and chemical warfare against my Jewish Granduncle and then labeled him as mentally ill by recording the symptoms they created to dismiss away their own corruption and crimes in doing so and then recorded themselves looking humanitarian for their continued housing and treatment of him at the omission of the covert activates that intentionally caused his symptoms, the process of radicalization is no different. but we can't just treat the victims the same way the Nazi's treated theirs, we have to invest in correcting the system that allows for victims to be created and profited off of, and because only the weak, unenlightened and vulnerable can be exploited our goal and invested resources should be to create programs that make strong, enlightened and Self Dependent Citizens and a system that creates environments that facilitates and protects those unique and individually based pathways with an allowable trial by error learning process and safety net. If we captivate our citizens onto pathways towards the development of their fullest unique human potentials and equip them with what they need to realize it and when realized allow them to make a living with their realized skills, abilities, talents gained and then shared with society in a free market, then that pathway, the socio-economic freedom of those individuals promoted as inspiration and motivation to others and the collective prosperity realized as a result will decrease all crime, violence and terrorism but Programs like these just perpetuate the socio-economic policies of a mental institution and our First Responders and Civil servants get reduced to just beautified orderlies putting down patients inside a giant Beautified Concentration Camp that perpetually engineers victims for target practice. The people being radicalized are a real threat to society and should be removed from society but we cannot allow a generalization of this term or the other definitions involved stop potential Rev. King Jr's from materializing in our society at a time when we need more Rev. King types now more than ever, we need Steve Job Types and Thomas Jefferson Types and Lafayette types, now more than ever too, so I support the intention of this program but I am concerned that what looks like saving targeted people will ultimately be used for target practice of people falsely labeled and instead targeted by this program because of religious, racial, and/or political discrimination or bias in the protection of the Agency/Corporate Interests who are connected by Contract or partner in a program that may be using mentors/professionals who themselves might have an engineered misinterpretation of Democracy or Religion just to process these victims into that program for profit or to protect that corrupted system the program is an expression of from a person who has the potential to offer a competing, contrary, or alternative system that is more complimentary to Full Human Development in a Functioning Democracy.
