MANDATE STATEMENT

City Charter Section 9.118(b) states that any contract entered into by a department, board or commission that (1) has a term of more than ten years, (2) requires expenditures of \$10 million or more, or (3) requires a modification of more than \$500,000 is subject to Board of Supervisors approval.

BACKGROUND

The St. Vincent de Paul Society of San Francisco (St. Vincent de Paul) has operated the Division Circle Navigation Center located at 224 South Van Ness Avenue in the Mission since it opened in 2018. St. Vincent de Paul provides 24/7 emergency shelter operations, support services and housing-focused case management to people experiencing homelessness. The Division Circle Navigation Center has a capacity of 186 guests.

In July 2025, HSH entered into a new agreement with St. Vincent de Paul for operations of the navigation center with an initial one-year term from July 1, 2025 through June 30, 2026 with options to extend for nine years through June 2035 and a not to exceed amount of \$9,546,685. HSH selected St. Vincent de Paul to continue to operate the navigation center under its streamlined procurement authority provided in Administrative Code Chapter 21B. HSH is proposing to extend the agreement by up to three years through June 2029.

DETAILS OF PROPOSED LEGISLATION

The proposed resolution would approve the first amendment to the contract between HSH and St. Vincent de Paul Society of San Francisco for operations of the Division Circle Navigation Center to extend the term by three years through June 2029 and to increase the not to exceed amount by \$27,545,286 for a new total of \$37,091,971. The resolution authorizes HSH to make immaterial amendments to the agreement.

The City leases the property from the California Department of Transportation under an existing lease that expires in February 2028. According to HSH staff, HSH intends to enter into a new lease agreement when the existing lease expires to continue the program. The term of the proposed amended contract ends on June 30, 2029, or earlier if the lease agreement between the City and the California Department of Transportation expires or terminates.

Services

Services outlined in the contract include 24/7 access to the site, wellness checks, showers, storage, laundry, social activities and support groups, housing-focused case management and exit planning. Through a separate agreement with Meals on Wheels, guests are provided with two meals per day.

Performance Monitoring

HSH conducted a site visit on December 11, 2025 as part of its FY 2024-25 program monitoring. According to HSH staff, the average occupancy rate was 98 percent in FY 2024-25. The contractor met two out of five service and outcome objectives, as shown in Exhibit 1 below. Although the contractor is required to create a service plan for 90 percent of guests, the contractor did not complete service plans for guests. In addition, on average 57.5 percent of guests completing quarterly surveys reported they were satisfied with services, which is lower than the goal of 75 percent. The contractor also could not demonstrate that they achieved a 50 percent response rate for the quarterly surveys because the contractor did not track the number of surveys distributed. In the contractor’s response to HSH, the contractor stated they would complete service plans and track survey distribution to guests. The contractor also stated they would work with guests to improve satisfaction ratings during community meetings. HSH determined that the contractor’s proposed actions to address findings were satisfactory and closed out program monitoring for the year.

Exhibit 1: Service and Outcome Objectives, FY 2024-25 Program Monitoring Results

Service Objective	Goal	Actual
Contractor shall provide intake and program orientation to 100 percent of all initial guests and updates for returning guests in a new stay.*	100%	100%

Outcome Objective		
75 percent of those completing the quarterly satisfaction survey will Strongly Agree or Agree that they are satisfied with the services.*	75%	<u>Avg.: 57.5%</u> Q1: 47% Q2: 67% Q3: 55% Q4: 61%

Source: HSH

Note: Gray shading indicates objective was not met; Service objectives do not include results for two objectives related to time-limited stays which were outdated measures according to HSH

*Measure removed in proposed amended agreement

The proposed amendment removes the two measures related to the guest survey and adds the following service and outcome objectives:

- Contractor will maintain an occupancy rate of 90 percent on average
- Within 60 days of enrollment, 90 percent of guests will have a Coordinated Entry assessment and/or Housing Referral Status
- At least 40 percent of guests will exit to shelter or other housing destinations

- Within six months, 75 percent of Housing Referral Status guests will have required housing documents uploaded into the ONE system
- At least 60 percent of guests will maintain or gain total cash income.
- At least 80 percent of guests will maintain or gain health insurance.

Fiscal and Compliance Monitoring

The Department on the Status of Women staff reviewed St. Vincent de Paul’s financial documents as part of the FY 2024-25 Citywide Fiscal and Compliance Monitoring Program and identified no findings. St. Vincent de Paul received a one-year waiver from Citywide Fiscal and Compliance Monitoring in FY 2025-26 based on good performance in the prior year and other criteria.

FISCAL IMPACT

The proposed amendment would increase the agreement’s not to exceed amount by \$27,545,286 to fund the three-year extension for the navigation center plus a 20 percent contingency. The agreement is largely funded by the General Fund (92 percent) as well as Proposition C funding (8 percent). The proposed grant budget is shown in Exhibit 2 below.

Exhibit 2: Proposed Budget and Not to Exceed Amount for Division Circle Navigation Center

	FY 2025-26	FY 2026-27	FY 2027-28	FY 2028-29	Total

Contingency (20%)					4,821,076
Not to Exceed Amount					\$37,091,971

Source: Proposed Contract

As shown above, the proposed program would cost \$8.0 million per year, or approximately \$43,000 per bed. According to HSH staff, the overall cost of the program, including meals which are funded separately, is comparable to other navigation centers. The annual budget supports salaries and benefits for 78.70 full-time equivalent positions.

According to HSH staff, the proposed amendment includes a 20 percent contingency, rather than HSH’s standard 15 percent contingency to allow the program to accommodate potential service enhancements under consideration and additional expenses beyond the standard increases for HSH agreements (such as cost of doing business increases).

RECOMMENDATION

Approve the proposed resolution.

Contractor is prohibited from using Generative Artificial Intelligence in the development of Deliverables without City’s prior written consent. Contractor represents and warrants to City that Deliverables will not be developed in a manner that conflicts with the City’s rights in and to the Deliverables under Article 9, “Rights in Deliverables,” or the City Data confidentiality and security requirements under Article 13, “Data and Security,” of this Agreement.

13.4.3 Disposition of City Data. Except as otherwise provided for in this Agreement, upon City's request, termination or expiration of this Agreement, or the expiration of any required document retention period or litigation hold, Contractor shall promptly, but in no event later than thirty (30) calendar days, return all City Data given to, or collected or created by Contractor on City's behalf, which includes all original media. Once Contractor has received written confirmation from City that the City Data has been successfully transferred to City, Contractor shall, within ten (10) business days, securely dispose, clear, purge, and/or physically destroy, all copies of all City Data from its servers, files, hosted environments used in performance of this Agreement (including subcontractors' environments), work stations used to process or produce the data, and any other work files stored by Contractor in whatever medium. Contractor shall provide City with written certification that such secure disposal occurred within five (5) business days of the disposal. Secure disposal shall be accomplished by "clearing," "purging" or "physical destruction," in accordance with National Institute of Standards and Technology (NIST) Special Publication 800-88 or most current industry standard.

Contractor, at its own expense, will reasonably cooperate with City and law enforcement authorities to investigate any such Leak and to notify injured or potentially injured parties. The remedies and obligations set forth in this subsection are in addition to any other City may have. City shall conduct all media communications related to such Leak.

13.7 Cybersecurity Risk Assessment. If a Cybersecurity Risk Assessment ("CRA") was required before entering the Agreement, Contractor must complete an annual CRA to demonstrate that it has maintained the data privacy and information security program required for City contractors. If Contractor does not satisfactorily complete an annual CRA, the City shall have the right, without further obligation or liability to Contractor, to terminate this Agreement or exercise any of its other remedies hereunder. Any failure by Contractor to comply with this Section shall be a material breach of this Agreement.

The foregoing indemnity shall include, without limitation, reasonable fees of attorneys, consultants, experts, and related costs, and City's costs of investigating any claims against City.

- 5.2.3 Contractor shall indemnify and hold City harmless from all loss and liability, including attorneys' fees, court costs and all other litigation expenses for any infringement of the patent rights, copyright, trade secret or any other proprietary right or trademark, and all other intellectual property claims of any person or persons arising directly or indirectly from the receipt by City, or any of its officers or agents, of Contractor's Services.

- 6.2 Liability for Use of Equipment.** City shall not be liable for any damage to persons or property as a result of the use, misuse or failure of any equipment used by Contractor, or any of its subcontractors, or by any of their employees, even though such equipment is furnished, rented or loaned by City.

Contractor shall remit to the State of California any sales or use taxes paid by City to Contractor under this Agreement. Contractor agrees to promptly provide information requested by City to verify Contractor's compliance with any state requirements for reporting sales and use tax paid by City under this Agreement.

7.2 Possessory Interest Taxes. Contractor acknowledges that this Agreement may create a “possessory interest” for property tax purposes. Contractor accordingly agrees on behalf of itself and its permitted successors and assigns to timely report on behalf of City to the County Assessor the information required by San Francisco Administrative Code Section 23.39, as amended from time to time, and any successor provision. Contractor further agrees to provide such other information as may be requested by City to enable City to comply with any reporting requirements for possessory interests that are imposed by applicable law.

7.3 Withholding. Contractor agrees that it is obligated to pay all amounts due to City under the San Francisco Business and Tax Regulations Code during the term of this Agreement. Pursuant to Section 6.10-2 of the San Francisco Business and Tax Regulations Code, Contractor further acknowledges and agrees that City may withhold any payments due to Contractor under this Agreement if Contractor is delinquent in the payment of any amount required to be paid to City under the San Francisco Business and Tax Regulations Code. Any payments withheld under this paragraph shall be made to Contractor, without interest, upon Contractor coming back into compliance with its obligations.

Article 8 Termination and Default.

8.1 Termination for Convenience.

8.1.1 City shall have the option, in its sole discretion, to terminate this Agreement, at any time during the term hereof, for convenience and without cause. City shall exercise this option by giving Contractor written notice of termination (“Notice of Termination”). The Notice of Termination shall specify the date on which termination of the Agreement shall become effective (“Termination Date”).

8.1.2 Upon receipt of the Notice of Termination, Contractor shall commence and perform, with diligence, all actions necessary on the part of Contractor to affect the termination of this Agreement on the Termination Date and to minimize the liability of Contractor and City to third parties as a result of the termination. All such actions shall be subject to the prior approval of City. Such actions may include any or all of the following, without limitation:

- (a) Completing performance of any Services that City requires Contractor to complete prior to the Termination Date.
- (b) Halting the performance of all Services on and after the Termination Date.

- (d) At City’s direction, assigning to City any or all of Contractor’s right, title, and interest under the orders and subcontracts cancelled. Upon such assignment, City shall have the right, in its sole discretion, to settle or pay

any or all claims arising out of the cancellation of such orders and subcontracts.

- (e) Subject to City's approval, settling all outstanding liabilities and all claims arising out of the cancelled orders and subcontracts.
- (f) Taking such action as may be necessary, or as City may direct, for the protection and preservation of any property related to this Agreement which is in the possession of Contractor and in which City has or may acquire an interest.

8.1.3 Within 30 days after the Termination Date, Contractor shall submit to City an invoice, which shall set forth each of the following as a separate line item:

- (a) The reasonable cost to Contractor, without profit, for all Services provided prior to the Termination Date, for which City has not already made payment. Reasonable costs may include a reasonable allowance for actual overhead, not to exceed a total of 10 % of Contractor's direct costs for Services. Any overhead allowance shall be separately itemized. Contractor may also recover the reasonable cost of preparing the invoice.
- (b) A reasonable allowance for profit on the cost of the Services described in the immediately preceding subsection (a), provided that Contractor can establish, to the satisfaction of City, that Contractor would have made a profit had all Services under this Agreement been completed, and provided further, that the profit allowed shall in no event exceed 5% of such cost.
- (c) The reasonable cost to Contractor of handling and returning material or equipment delivered to City or otherwise disposed of as directed by City.
- (d) A deduction for the cost of materials to be retained by Contractor, amounts realized from the sale of such materials and not otherwise recovered by or credited to City, and any other appropriate credits to City against the cost of the Services or other work.

8.1.4 In no event shall City be liable for costs incurred by Contractor or any of its subcontractors after the Termination Date specified by City, except for those costs specifically listed in Section 8.1.3. Such non-recoverable costs include, but are not limited to, anticipated profits on the Services under this Agreement, post-termination employee salaries, post-termination administrative expenses, post-termination overhead or unabsorbed overhead, attorneys' fees or other costs relating to the prosecution of a claim or lawsuit, prejudgment interest, or any other expense which is not reasonable or authorized under Section 8.1.3.

8.1.5 In arriving at the amount due to Contractor under this Section, City may deduct:
(i) all payments previously made by City for Services covered by Contractor's

final invoice; (ii) any claim which City may have against Contractor in connection with this Agreement; (iii) any invoiced costs or expenses excluded pursuant to the immediately preceding subsection 8.1.4; and (iv) in instances in which, in the opinion of City, the cost of any Service performed under this Agreement is excessively high due to costs incurred to remedy or replace defective or rejected Services, the difference between the invoiced amount and City’s estimate of the reasonable cost of performing the invoiced Services in compliance with the requirements of this Agreement.

8.1.6 City’s payment obligation under this Section shall survive termination of this Agreement.

8.2 Termination for Default; Remedies.

8.2.1 Each of the following shall constitute an immediate event of default (“Event of Default”) under this Agreement:

If Contractor defaults a second time in the same manner as a prior default cured by Contractor, City may in its sole discretion immediately terminate the Agreement for default or grant an additional period not to exceed five days for Contractor to cure the default.

(c) Contractor (i) is generally not paying its debts as they become due; (ii) files, or consents by answer or otherwise to the filing against it of a petition for relief or reorganization or arrangement or any other petition in bankruptcy or for liquidation or to take advantage of any bankruptcy, insolvency or other debtors’ relief law of any jurisdiction; (iii) makes an assignment for the benefit of its creditors; (iv) consents to the appointment of a custodian, receiver, trustee or other officer with similar powers of Contractor or of any substantial part of Contractor’s property; or (v) takes action for the purpose of any of the foregoing.

8.2.2 **Default Remedies.** On and after any Event of Default, City shall have the right to exercise its legal and equitable remedies, including, without limitation, the right to terminate this Agreement or to seek specific performance of all or any part of this Agreement. In addition, where applicable, City shall have the right (but no obligation) to cure (or cause to be cured) on behalf of Contractor any Event of Default. Contractor shall pay to City on demand all costs and expenses incurred by City in effecting such cure, with interest thereon from the date of incurrence at the maximum rate then permitted by law. City shall have the right to offset from any amounts due to Contractor under this Agreement or any other agreement between City and Contractor: (i) all damages, losses, costs or expenses incurred by City as a result of an Event of Default; and (ii) any liquidated damages levied upon Contractor pursuant to the terms of this Agreement; and (iii), any damages imposed by any ordinance or statute that is incorporated into this Agreement by reference, or into any other agreement with City.

8.2.3 All remedies provided for in this Agreement may be exercised individually or in combination with any other remedy available hereunder or under applicable laws, rules and regulations. The exercise of any remedy shall not preclude or in any way be deemed to waive any other remedy. Nothing in this Agreement shall constitute a waiver or limitation of any rights that City may have under applicable law.

8.2.4 Any notice of default must be sent in accordance with Article 11.

8.3 Non-Waiver of Rights. The omission by either Party at any time to enforce any default or right reserved to it, or to require performance of any of the terms, covenants, or provisions hereof by the other Party at the time designated, shall not be a waiver of any such default or right to which the Party is entitled, nor shall it in any way affect the right of the Party to enforce such provisions thereafter.

Requests for advance payment will be granted by HSH on a case-by-case basis. Advances are not intended to be a regular automatic procedure.

A. Advance Requirements:

Once the Agreement is certified, Contractor, prior to distribution of any advanced payment, must fulfill the following conditions:

1. All Agreement compliance requirements must be currently met (e.g., reports submitted and approved; corrective actions resolved; business tax and insurance certificates in place; prompt and properly documented invoicing; appropriate spend down);

3. Contractor is expected to maintain adequate cash reserves for multi-year Grant agreements and not rely on cash advances to cover expenses necessary to operate Contractor's core operations.

C. Advance Repayment Process:

1. If approved by HSH, the advanced sum will be deducted from the Contractor's monthly invoices at an equal rate each month that will enable repayment before the close of the fiscal year. For example, for a twelve-month grant the rate of repayment of the advance will be 1/10th per month from July to April. An alternative period of repayment may be calculated to ensure cash flow and repayment. HSH will track advance recoupment on a monthly basis using internal tools in order to avoid any overpayment and prevent further loss of City funds.
2. All advance repayments must be recovered within the fiscal year for which they were made but no later than April invoices submitted in May.
3. In the case where advance repayments cannot be fully recovered by deducting from the Contractor's monthly invoices, Contractor shall repay the outstanding balance, via wire transfer or by check, in the amount verified by the assigned HSH Contract Manager, as listed in CARBON. Contractor shall make the repayment after the final invoice of the fiscal year has been approved to the address provided by the assigned HSH Contract Manager, as listed in CARBON.

Failure to submit required information or comply by specified deadlines may result in HSH withholding payments.

The Premises shall be used and occupied exclusively by Tenant, and Tenant's contractors, agents and invitees, for the purpose of an emergency shelter and ancillary shelter related storage and for no other purpose whatsoever without obtaining prior written consent of Landlord and the concurrence of

the Federal Highway Administration. Landlord expressly reserves the right to establish a new minimum monthly rent as a condition to Landlord's approval of any use of the leased premises not specifically permitted by this section.

5.2 Condition of Premises

Tenant hereby accepts the Premises in their **AS-IS** condition existing as of the date of the execution hereof subject to all applicable zoning, municipal, county, state and federal laws, ordinances and regulations governing and regulating the use of the Premises, and accepts this Lease subject thereto and to all matters disclosed thereby and by any exhibits attached hereto. Tenant acknowledges that neither Landlord nor any agent of Landlord has made any representation or warranty with respect to the condition of the Premises or the suitability thereof for the conduct of Tenant's business, nor has Landlord agreed to undertake any modification, alteration or improvement to the Premises except as provided in this Lease.

Except as may be otherwise expressly provided in this Lease, the taking of possession of the Premises by Tenant shall in itself constitute acknowledgement that the Premises are in good condition, and Tenant agrees to accept the Premises in its presently existing condition "as is", and that the Landlord shall not be obligated to make any improvements or modifications thereto except to the extent that may otherwise be expressly provided in this Lease.

Tenant represents and acknowledges that it has made a sufficient investigation of the conditions of the Premises existing immediately prior to the execution of this Lease (including investigation of the surface, subsurface and groundwater for contamination and hazardous materials) and is satisfied that the Premises will safely support the type of improvements, if any, to be constructed and maintained by Tenant upon the Premises, that the Premises is otherwise fully fit physically and lawfully for the uses required and permitted by this Lease and that Tenant accepts all risks associated therewith.

Tenant acknowledges that (1) Landlord has informed Tenant prior to the commencement of the term of this Lease that the Landlord does not know nor has reasonable cause to believe that any release of any hazardous material has come to be located on or beneath the Premises; (2) prior to the commencement of the term of this Lease, the Landlord has made available to Tenant, for review and inspection, records in the possession or control of the Landlord which might reflect the potential existence of hazardous materials on or beneath the Premises; (3) Landlord has provided Tenant access to the Premises for a reasonable time and upon reasonable terms and conditions for purposes of providing to Tenant the opportunity to investigate, sample and analyze the soil and groundwater on the Premises for the presence of hazardous materials; (4) by signing this Lease Tenant represents to Landlord that, except as otherwise may be stated on "Exhibit C" attached hereto and by this reference incorporated herein, Tenant does not know nor has reasonable cause to believe that any release of hazardous material has come to be located on or beneath the Premises and (5) with respect to any hazardous material which Tenant knows or has reasonable cause to believe has come or will come to be located on or beneath the Premises, Tenant has listed the hazardous material on attached "Exhibit C" and agrees promptly to commence and complete the removal of or other appropriate remedial action regarding the hazardous material at no cost or expense to Landlord and in full compliance with all applicable laws, regulations, permits, approvals and authorizations. The phrase "hazardous material," as used herein, has the same meaning as that phrase has under Section 25359.7 of the California Health and Safety Code.

Tenant agrees that, except as otherwise expressly provided in this Lease, Tenant is solely responsible without any cost or expense to the Landlord to take all actions necessary, off as well as on the Premises to improve and continuously use the Premises as required by this Lease and in compliance with all applicable laws and regulations.

General Land Use

Illicit Connections/Illegal Discharge

- Locate solid waste storage areas away from drainage facilities and watercourses and not in areas prone to flooding or ponding. Prevent storm water run-on from contacting stored solid waste through the use of ditches, berms, dikes and swales. Use dry cleanup techniques (e.g., vacuuming, sweeping, dry rags) to remove solid waste from the site when practicable. Use wet cleaning techniques only when dry cleanup techniques are not practicable. Periodically inspect the solid waste storage areas and review the disposal procedures.

Non-storm water discharges to drainage paths, drain systems and watercourses are prohibited. Fluids should be collected by vacuum or other methods and contained and recycled, evaporated or discharged to the sanitary sewer system with approval from the publicly-owned treatment works.

Store, transport and dispose of all hazardous waste in accordance with federal, state and local regulations. Follow label instructions regarding the proper handling, mixing and application of materials which could generate hazardous waste and a discharge to waterways.

Train employees in proper waste disposal and cleaning, maintenance and good housekeeping procedures.

General Maintenance and Repair

Properly collect and dispose of water when pressure washing buildings, rooftops, and other large objects. Properly prepare work area before conducting building maintenance. Properly clean and dispose of equipment and wastes used and generated during building maintenance.

Recycle residual paints, solvents, lumber, and other materials to the maximum extent practical. Buy recycled products to the maximum extent practical.

Do not dump waste liquids down the storm drain. Make sure that nearby storm drains are well marked to minimize the chance of inadvertent disposal of residual paints and other liquids.

Keep the work site clean and orderly. Remove debris in a timely fashion. Sweep the area. Cover materials of particular concern that must be left outside, particularly during the rainy season. Use drip pans or absorbent material under leaking vehicles and equipment to capture fluids.

All maintenance activities should practice water conservation. Keep water application equipment in good working condition. Use the minimum amount of water needed to complete each maintenance activity.

Stormwater Pollution Prevention

General Housekeeping

Purchase only the amount of material that will be needed for foreseeable use. Choose products that do the same job with less environmental risk.

Keep work sites clean and orderly. Remove debris in a timely fashion. Sweep the area. Dispose of wash water, sweepings, and sediments, properly. Recycle or dispose of fluids properly.

- Specific employees should be assigned specific inspection responsibilities at the work site and given the authority to remedy any problems found.

Prohibit littering by employees, subcontractors, and visitors.

Keep lids on dumpsters closed. Arrange for larger dumpsters or more frequent collection of trash from dumpsters to prevent overflow. Do not conduct dumpster washout on the work site. Notify trash hauling contractors that only watertight dumpsters are acceptable for use on-site.

Stormwater Pollution Prevention

Parking Lots

Leaking Vehicles

Clean parking lots on a regular basis to prevent accumulated wastes and pollutants from being discharged into storm drain systems during rainy conditions. When cleaning heavy oily deposits, use absorbent materials on oily spots prior to sweeping or washing. Dispose of used absorbents appropriately.

Allow sheet runoff to flow into biofilters (vegetated strip and swale) and/or infiltration devices. Utilize sand filters or oleophilic collectors for oily waste in low concentrations. Clean out oil/water/sand separators regularly, especially after heavy storms.

Have designated personnel conduct inspections of the parking facilities and storm drain systems associated with them on a regular basis. Inspect cleaning equipment/sweepers for leaks on a regular basis.

Have spill cleanup materials readily available and in a known location. Cleanup spills immediately and use dry methods if possible. Properly dispose of spill cleanup material.

Trash

- Post "No Littering" signs and enforce anti-litter laws.
- Provide trash receptacles in parking lots to discourage litter. Clean out and cover trash receptacles frequently to prevent spillage. Regularly inspect, repair, and/or replace trash receptacles.
- Routinely sweep, shovel and dispose of litter in the trash. Remove litter and debris from drainage grates, trash racks and ditch lines to reduce discharge to the storm water drainage systems and watercourses.
- Provide regular training to field employees and/or contractors regarding cleaning of paved areas and proper operation of equipment

Stormwater Pollution Prevention

Storage

Trash/Trash Bins/Dumpsters

Post "No Littering" signs and enforce anti-litter laws. Provide a sufficient number of litter receptacles for the facility. Clean out and cover litter receptacles frequently to prevent spillage.

Keep dumpster areas clean. Recycle materials whenever possible. Use all of a product before disposing of the container. Ensure that only appropriate solid wastes are added to the solid waste container. Certain wastes such as hazardous wastes, appliances, fluorescent lamps, pesticides, etc., may not be disposed of in solid waste containers. Take special care when loading or unloading wastes to minimize losses. Loading systems can be used to minimize spills and fugitive emission losses such as dust or mist. Vacuum transfer systems can minimize waste loss.

Inspect dumpsters and trash bins weekly for leaks and to ensure that lids are on tightly. Replace any that are leaking, corroded, or otherwise deteriorating. Sweep and clean the storage area regularly and clean up spills immediately.

If the dumpster area is paved, do not hose it down to a storm drain. Instead, collect the wash water and discharge it to the sewer if allowed by the local sewer authority. Use dry methods when possible (e.g., sweeping, use of absorbents). Prevent stormwater run-off from entering the dumpster area by enclosing it or building a berm around the area. Prevent waste materials from directly contacting rain. Cover dumpsters to prevent rain from washing waste out of holes or cracks in the bottom of the dumpster.

Leaking Vehicles

Place drip pans under leaking vehicles. Drain all vehicles in long-term storage. Clean storage facilities on a regular basis to prevent accumulated wastes and pollutants from being discharged into conveyance systems during rainy conditions. When cleaning heavy oily deposits, use absorbent materials on oily spots prior to sweeping or washing. Dispose of used absorbents appropriately.

Train employees on proper spill containment and cleanup. Have spill cleanup materials readily available and in a known location. Cleanup spills immediately and use dry methods if possible. Properly dispose of spill cleanup material.

Allow sheet runoff to flow into biofilters (vegetated strip and swale) and/or infiltration devices. Utilize sand filters or oleophilic collectors for oily waste in low concentrations. Clean out oil/water/sand separators regularly, especially after heavy storms.

Sediment on Stored Construction Equipment

Conduct regular cleaning. Sweeping or vacuuming the storage facility is encouraged over other methods. Sweep all storage lots at least once before the onset of the wet season. Establish frequency of sweeping based on usage and field observations of sediment accumulation.

Washing or rinsing of equipment shall be performed in designated areas and the resulting runoff shall not be discharged to the storm drain system.

Stormwater Pollution Prevention

Potential Illegal Discharge from Unknown Materials Inside Storage Units

Design storage areas to minimize stormwater exposure. Construct a berm or intercept trench at doorways. Install a collection system for pretreatment and sewer disposal under permit by the local sewer authority.

Utilize dry cleanup methods such as sweeping for removal of litter and debris, or use of rags and absorbents for leaks and spills. Properly dispose of collected wastes.

Use secondary containment or protective barriers for indoor liquid storage.

Train employees on the proper implementation of Best Management Practices, storm water discharge prohibitions, and wastewater discharge requirements. Train employees on proper spill containment and cleanup.

Outdoor Storage of Loose Materials

Store materials indoors, if feasible. Designate a secure material storage area that is paved with Portland cement concrete, free of cracks and gaps, and impervious in order to contain leaks and spills.

Protect materials stored outside from rainfall and wind dispersal by covering them with a fixed roof or a temporary waterproof covering made of polyethylene, polypropylene, or hypalon. Keep covers in place at all times when work is not occurring. If areas are so large that they cannot feasibly be covered and contained, implement erosion control practices at the perimeter of the area and at catch basins to prevent dispersion of the stockpiled material. Implement erosion control practices at the perimeter of your site and at catch basins to prevent erosion of the stockpiled material off-site, if the stockpiles are so large that they cannot feasibly be covered and contained. Minor slides/slipouts usually occur during major storms. Stockpiles should be removed as soon as practicable and materials should be placed so that waterways are not impacted.

Cover wood products treated with chromate/copper arsenate, ammoniacal copper zinc arsenate, creosote, or pentachlorophenol with tarps or store indoors.

Protect materials stored outside from stormwater runoff. Construct a berm around the perimeter of the material storage area to prevent the runoff of uncontained stormwater from adjacent areas as well as runoff of stormwater from the material. Paved areas should be sloped in a manner that minimizes pooling of water on the site. A minimum slope of 1.5% is recommended.

Keep storage areas clean and dry. Sweep and maintain routes to and from storage areas. Conduct regular inspections of storage areas.
