## GENERAL PLAN REFERRAL NOTE TO FILE

August 7, 2025

CASE NO. 2015-000644GPR

Southeast Plant and Central Shops

On March 12, 2018, the Planning Department issued a General Plan Referral (GPR) determination letter for the Southeast Plant and Central Shops project, finding the Project on balance in-conformity with the General Plan (case number 2015-000644GPR). The Project would replace the existing solids treatment facilities at the Southeast Plant (SEP) with more reliable, efficient, and modern technologies and facilities.

The new facilities require natural gas service from PG&E in order to operate. Since the GPR determination letter was issued, PG&E has notified the City that it requires that the SFPUC grant it an easement for the PG&E facilities that will be constructed on City/SFPUC property. This Note to the File clarifies that the easement, which is required in order to implement the Project, is an integral component of the Project and is consistent with the General Plan and Planning Code Section 101.1 for the reasons set forth in 2015-000644GPR.

Sincerely,

Amnon Ben-Pazi
