13 Be it ordained by the People of the City and County of San Francisco:

14

15 Section 1. Environmental Findings. The Planning Department has determined that the
16 actions contemplated in this ordinance comply with the California Environmental Quality Act
17 (Cal. Pub. Res. Code §§ 21000 et seq.), and, on November 10, 2011, issued a Categorical
18 Exemption Determination for the the proposed amendments under CEQA Guidelines Classes
19 7 and 8 (14 Cal. Code Regs. §§ 15307 and 15308). Said determination is on file with the
20 Clerk of the Board of Supervisors in File No. 101055 and is incorporated herein by reference.
21 In approving this ordinance, and upon consideration of the whole record, including public
22 testimony, the Board hereby affirms and adopts the Categorical Exemption Determination.

22

23 Section 2. Findings.

24

25 1. The City and County of San Francisco has adopted citywide goals of 75 percent
landfill diversion by 2010 and zero waste by 2020.

1 2. The broad use of single-use checkout bags and their typical disposal creates an
2 impediment to achievement of San Francisco's landfill diversion goals.

3 3. Plastic checkout bags are difficult to recycle and contaminate material that is
4 processed through San Francisco's recycling and composting programs.

5 4. Single-use checkout bags create significant litter problems in San Francisco's
6 neighborhoods, and also litter parks, community beaches, sewer systems, and the San
7 Francisco Bay.

8 5. The production and disposal of single-use checkout bags has significant
9 environmental impacts, including the contamination of the environment, the depletion of
10 natural resources, use of non-renewable polluting fossil fuels, and the increased clean-up and
11 disposal costs.

12 6. Of all single-use checkout bags, plastic checkout bags have the greatest impacts on
13 litter and marine life.

14 7. Governments in several countries have placed fees on bags, including the Republic
15 of Ireland, which achieved a 90 percent decrease in the use of single-use plastic checkout
16 bags due to the fee.

17 8. Studies document that banning plastic checkout bags and placing a mandatory
18 charge on paper checkout bags will dramatically reduce the use of both types of bags and
19 increase customers' use of reusable bags.

20 9. Reusable bags are readily available with numerous sources and vendors for these
21 bags. Many stores in San Francisco and throughout the Bay Area already offer reusable bags
22 for sale at a price as low as 25 cents.

23
