

LYDIA SO, AIA, LEED AP

BIOGRAPHY

Lydia moved to San Francisco after college 19 years ago and calls San Francisco her home. She was born in Hong Kong when it was a British colony. It was the freedom, diversity and equalities of this City that inspired her to stay. She enjoys riding bikes with her daughter to school from their home in the Mission.

Lydia is an astute architect highly skilled in solving problems through design thinking. Her brush strokes in architectural design & preservation and real estate developments span across North America, China and Japan. A dynamic collaborative communicator, she believes design is not just skin deep and focuses on building relationships among stakeholders. She is proven to excel in projects that leverage design quality, historic significance, regulatory constraints and construction realities to improve our living environments for generations to enjoy.

Lydia's work has made positive impacts on regional economic growth, transit oriented developments and sustainability. Her global experience includes the tallest building, China World Trade Center, for the Olympics in Beijing. Creatively designed adaptive re-use of historically significant building for Adobe HQ in San Francisco, Hutong (traditional dwellings) in Beijing Finance Street Daji mixed use development, Apple Store Stockton Street in SF, Apple Store Soho in New York and Apple Store Regent Street in London. The most advanced neuroscience building at UCSF Mission Bay and the world's first all glass spiral staircase in the Apple Store in Osaka, Japan. Lydia is very proud and honor to work alongside with the Chinese artisans from Suzhou to design the traditional Lan Su Chinese Garden in Portland, Oregon, based on a 2,000-year-old historical architecture design.

Prior to founding her own architecture and consulting firm in 2015, Lydia held a real estate design and management position at Apple which redefined the status quo of retail real estate development. Prior to that, Lydia was the first minority woman architect promoted to Technical Associate at, the eminence of architecture firms, Skidmore, Owings & Merrill. She honed her design and preservation skills and trailblazed the technical aspects of architecture, engineering and construction practice. It was her first job at Bohlin, Cywinski, Jackson where she met Steve Jobs whom she was involved with inventing the first nine Apple Stores.
