Thank you, Jen. Here's my paragraph:

I have been one of the District 5 representatives to PROSAC since August, 2012. I have attended and participated in almost all of the monthly PROSAC meetings since then. About a year and a half ago, I compiled a report describing the parks and open space within District 5, and determining the advocacy group for each, and I presented the report at a PROSAC meeting. I have been involved with local groups that went through the recent Community Opportunity Fund process. I have been learning about all of our City parks, and about the processes and funding required to acquire and develop open space. I have enjoyed working with the PROSAC representatives from throughout San Francisco. I would like to continue my work with PROSAC, and expect to improve my communications with various park advocacy groups and with my Supervisor. Although I will not be attending the November 20 meeting, if the Committee has further questions for me, or wants to speak directly with me, I can be available to attend your next meeting.
