Dear Ms. Calvillo and Supervisor Mandelman,

On May 20, 2026, the San Francisco Historic Preservation Commission (hereinafter “HPC”) conducted a duly noticed public hearing at a regularly scheduled meeting to consider Supervisor Mandelman’s ordinances (Board File Nos. 260065, 260046, 260047, 260048, 260049, 260050, 260051, 260053, 260054, 260055, 260056, 260057, 260058, 260059, 260060, 260061, 260066, 260067, 260068, 260069, 260071) to landmark: 1450 Masonic Avenue /Alexander Adams Home, 740 Castro Street/Charles L. Hinkel Home, 99 Divisadero Street/Born Home, 11 Piedmont Street/Early Haight Ashbury Farmhouse, 1200 Dolores Street/Charles Katz Home, 2173 15th Street/Duboce Triangle Greek Revival Home, 1335 Guerrero Street/ Elliott M. Wilson Home, 3816 22nd Street /Engine Company No. 44-Adams Van Hoesen House, 737 Buena Vista Avenue West/Richard Spreckels Mansion-Buena Vista Studios, 3689 19th Street/Mission Congregational Church, 1415-1417 Guerrero Street/Guerrero Street Double Stick Eastlake House, 191-197 Henry Street/Henry Street Rowhouses, 455 Fair Oaks Street/Holy Innocents Church, 181 Buena Vista Avenue East/De Urioste Home-James C. Hormel Mansion, 210 Douglass Street/John J. Clark House, 552 Noe Street/Phoenix Brewery, 192 Laidley Street/Poole-Bell House, 1526 Masonic Avenue/Power House, 651 Dolores Street/Second Church Of Christ Scientist, 394 Fair Oaks Street/William Shaughnessy Home, 657 Chenery Street/ Tietz-Beneke House (respectively).

At the hearing, the HPC voted to **approve** the resolutions to recommend landmark designation pursuant to Article 10 of the Planning Code. Modifications were made to the draft ordinances for 737 Buena Vista Avenue West/Richard Spreckels Mansion-Buena Vista Studios, 192 Laidley Street/Poole-Bell House, and 1526 Masonic Avenue/Power House.

The proposed landmark designations are exempt from environmental review, pursuant to CEQA Guidelines Section 15308 (Class Eight – Categorical).

Please find attached documents related to the HPC’s action. Also attached is an electronic copy of the proposed ordinances, drafted by Deputy City Attorney Peter Milijanich. If you have any questions or require more information, please do not hesitate to contact me.

Sincerely,

Veronica Flores, Acting Manager of Legislative Affairs

Review: Categorical Exemption

RECOMMENDATION: Recommend Landmark Designations to Board of Supervisors

Background

The Family Zoning Plan (FZP) Landmark Designation Program (Program) is being undertaken in conjunction with the implementation of FZP, with the objective of allowing for more housing, while still preserving San Francisco's most cherished architectural, cultural, and/or historical resources. This Program is being overseen by the Planning Department alongside District Supervisors and project partners. The Program includes designating properties which are currently identified as Category A-rated historical resources through past Surveys and Historic Resource Evaluations, as Planning Code Article 10 Landmarks. Phase 1 of this effort in District 8 focused on properties outside of Public (P) and Residential, House (RH) Zoning Districts, with 0-1 dwelling units, as well as properties with strong underrepresented community associations as identified in Cultural Historic Context Statements. This phase resulted in the designation of fourteen(14) individual Article 10 Landmarks, whose ordinances were passed by the Board of Supervisors on April 21, 2026 and signed by Mayor Daniel Lurie on April 30, 2026.

Phase 2 of this effort in District 8 focuses on properties within RH Zoning District, as outlined in this case report that were identified by Planning Department Preservation Staff as having exemplary architectural, historical and/or cultural significance. This includes twenty-three (23) properties initiated by District 8 Supervisor Rafael Mandelman on January 13, 2026. Subsequent to initiation, the landmark designation initiation resolutions were recommended by the Land Use and Transportation Committee on February 23, 2026, adopted by the Board of Supervisors on March 3, 2026, and signed by Mayor Daniel Lurie on March 6, 2026. Planning Department staff have concurrently been working with other San Francisco District Supervisors on identifying potential Article 10 Landmarks in their respective districts as part of the Program.

Later Program phases will recommend additional Article 10 Landmarks that are identified through the San Francisco Citywide Cultural Resources Survey, and/or are identified through future Cultural Historic Context Statements.

Property Descriptions

The following twenty-three properties are recommended as the Program's District 8 Phase 2 Article 10 Landmarks:

1450 Masonic Avenue (Alexander Adams Home) is a three-story-over-garage single-family residence in the Ashbury Heights neighborhood near Buena Vista Park, constructed in 1891. The property includes shingle cladding, wood windows, a complex roof shape, and an octagonal tower with wood shingled dome. Alterations have included the garage door and 1983 rear cupola. The builder was the original owner, Alexander P. Adams, of coffee roasting company, A.P. Adams & Company.

740 Castro Street (Charles L. Hinkel Home) is a three-story-over-garage single-family residence in the Castro neighborhood. The home is the northernmost in a row of Stick-Eastlake properties constructed by prolific home builder Charles L. Hinkel circa 1892. The home uniquely served as Hinkel's residence from 1892 until his death in 1908. The wood-framed property includes a gabled roof, wood windows and decorative wood balustrades, spindlework, wood columns, wagon wheel spokes, and jigsaw corner hoods.

99 Divisadero Street (Born Home) is a three-story property in the Castro/Upper Market Neighborhood. Constructed in 1905, the home was designed by architect Frank W. Dankin. Brick contractors George and Stephen Born were the original residents who built the detached garage in 1910. The brick home is an exuberant example of Georgian Revival architecture, which is rare for the neighborhood it lies in. Features include quoins, keystones, second story colonnettes, a denticulated cornice with modillions, and an elaborate entrance portico with two story composite pillars.

11 Piedmont Street (Early Haight Ashbury Farmhouse) is a two-story single-family dwelling in the Ashbury Heights neighborhood near Buena Vista Park, constructed circa 1860. It was originally part of a prosperous dairy farm, and was moved to its current location, though accounts vary on where it was originally located. The property is one of the neighborhood's oldest residences, and an intact example of early Italianate architecture with rustic channel siding, and double hung wood windows with pedimented surrounds.

1200 Dolores Street (Charles Katz Home) is a two-story-over-basement home in Noe Valley near the western boundary of the Mission. The property was constructed in 1909 for real estate developer Charles Katz, whose family continued to reside at the property through the 1980s. Originally a smaller residence existed on the parcel which was incorporated into the design of the home. The property is an exemplary corner Queen Anne home with features including a polygonal corner tower with shingled witch's hat, stained glass windows, denticulated cornice, crown molding, modillions, and fish scaled shingles.

2173 15th Street (Duboce Triangle Greek Revival Home) is a two-story single-family residence in the Duboce Triangle neighborhood. 1875 is estimated as the construction date based on architectural style and

neighborhood context. The home is one of the earliest extant properties in the neighborhood and Carpenter Norman Churchill was the earliest known residence. The Greek Revival home is a rare example of a pre-Victorian style property in San Francisco and retains a sufficient integrity with characteristic features including its forward-facing gabled roof and full-length front porch with square posts.

1335 Guerrero Street (Elliott M. Wilson Home) is a two-story property original constructed as a residence for Elliott M. Wilson, president of the Pacific Coast Steel company. The home was built in 1918, in the Mission neighborhood, with steel support and reinforced concrete walls. The home was designed by architect Arthur S. Bugbee, who was the last in the line of four Bugbee architects, well-known designers of institutional buildings and fine residences, including four of the Nob Hill mansions. The property is a rare example of a Second Empire home in San Francisco.

3816 22nd Street (Engine Company No. 44 / Adams-Van Hoesen House) is now a four-story residential property, originally constructed as a firehouse, in the Noe Valley neighborhood. Built in 1909 in the days of horse-drawn fire engines, the building served as a firehouse for nearly fifty years. In 1959 the property was purchased by renowned San Francisco based artists Mark Adams and Beth Van Hoesen, who used the space as their home and studios for nearly fifty years. The building remains an intact example of a Mission Revival firehouse with features including a rear square tower, arched entranceway with curved metal clad transoms, double copper clad doors, oval medallions with “SF” and “FD” motifs, and intact lettering (“Chemical”, “Engine No 44”).

701 Castro Street (Fernando Nelson Home) is a two-story-over-garage single family home in the Castro/Upper Market neighborhood. The home was constructed in 1897 by builder of merit Fernando Nelson was responsible for more than 4,000 San Francisco homes over his seventy-year career. Nelson resided at the property from 1897-1903, during a prolific time in his career. The home was relocated from a site just uphill, and has been subject to some ground level alterations, though retains exemplary Queen Anne features.

737 Buena Vista Avenue West (Richard Spreckels Mansion / Buena Vista Studios) is a four-story property, originally constructed as a single-family home in the Ashbury Heights neighborhood near Buena Vista Park. Built in 1897, the original owner was Richard Spreckels, manager of the Western Sugar Refinery, and member of the Spreckels family who accumulated great wealth from the sugar industry. In the late 1960s the upstairs ballroom was converted to a recording studio for bands which exemplified the San Francisco sound, including the Grateful Dead who recorded some of their first studio demos out of the property. The property remains an intact Classical Revival home.

3689 19th Street (Mission Congregational Church) was constructed in 1910 as part of the Inner Mission North reconstruction period following the Great 1906 Earthquake and Fire. Originally constructed as the Mission Congregational Church, though has since underwent name and ownership changes. The property was designed by architect Reverend Francis W. Reid in the Gothic Revival style, with exemplary features including its brick walls, red pressed brick facing, and red sandstone trimmings, exterior brick buttresses, tall square crenulated tower, lancet and arched openings, and stained glass windows.

1415-1417 Guerrero Street (Guerrero Street Double Stick Eastlake House) is a double house in the Southern Mission neighborhood, constructed in the Stick Eastlake style, with each of the two houses built as multi-family three story flats. The property was constructed by builder of merit Fernando Nelson and represents an early example of a Nelson home when he worked as a carpenter, prior to transitioning to real estate development. The

property includes exemplary features including the full height squared box bay windows with dentils, and elongated brackets capped by false-gabled roof and front pedimented long entry portico with decorative wooden columns.

191-197 Henry Street (Henry Street Rowhouses) is a multi-family residential property in the Casto/Upper Market neighborhood. The rowhouses were constructed in 1892 at a time when Duboce Triangle was transitioning from an exurban neighborhood of large-lot Victorian Villas to a moderately populated, middle-class neighborhood. The property is a unique example of a Stick Eastlake style rowhouse with features including gabled entry porticos with wooden ornamentation, and pediments with grille work and a sunburst.

455 Fair Oaks Street (Holy Innocents Church) is a church in the Mission neighborhood. Constructed in 1890 as the Holy Innocents, which it remains to-date, the church is San Francisco's oldest Episcopal congregation and a unique example of a Gothic Revival church. The church is the first extant commission in San Francisco of the firm Coxhead and Coxhead, formed by brothers Earnest and Almeric Coxhead. Earnest Coxhead is considered an architect of merit, known for pioneering the Bay Area Shingle Style.

181 Buena Vista Avenue East (De Urioste Home - James C. Hormel Mansion) is a three-story single-family home in the Haight Ashbury neighborhood across the street from Buena Vista Park. Constructed in 1899 the property is an exuberant example of a Queen Anne Home. Original residents were a Guatemalan family, the De Uriostes, including George de Urioste who served as the Consul of the Argentine Republic from 1901 to circa 1913. Additionally, from 1986-2012 the home was owned by LGBTQ philanthropist, activist, and diplomat James C. Hormel who served as the ambassador to Luxembourg in 1999 during the Clinton administration, becoming the first openly gay American ambassador to a foreign country.

210 Douglass Street (John J. Clark House) is a two-story single-family home in the Corbett Heights neighborhood. Constructed in 1885, the home is one of the neighborhood's earliest extant properties, built prior to early transportation and infrastructure improvements. The home was designed by architect John J. Clark who also designed the All Hallows Catholic Church in Bayview. The home is an example of a Folk Victorian property with Gothic and/or Italianate features.

552 Noe Street (Phoenix Brewery) is a two-story mixed-use building with a ground floor art studio, and residential units above. The property was originally a one-story building, which served as the Phoenix Brewery, a small-scale commercial brewing operation, established by Irish immigrant Thomas Kirby. The property was later improved with the second story residential unit where Kirby resided with his family. The property remains a vestige of Eureka Valley's early history, reflecting a time period when industrial facilities were common in the neighborhood prior to streetcar suburbanization.

199 Carl Street (Lange House) is a two-story residential home in the Cole Valley neighborhood. Constructed in 1900, the home was designed by architect of merit August Nordin. The original owner was German immigrant F.W.M. Lange, and the home was sited on the northwest corner of nine acres of land which he purchased as a ranch and dairy. The home is an exemplary example of a Queen Anne home with features including the rounded corner tower with witches cap, decorative wooden brackets, dentils, cornice molding, colonnettes and plaster moldings.

192 Laidley Street (Poole-Bell House) is a residential property in the Glen Park neighborhood, constructed in 1887 in what was then known as the Fairmount District. Built by attorney John Pascoe Poole, the home was sold to Teresa Bell in 1906. Bell was widow to wealthy financier Thomas Bell, and their family was known for their close relationship with abolitionist Mary Ellen Pleasant whom they lived with. While Pleasant passed away before Bell purchased the property the home has long been mired in urban legends surrounding her relationship with the Bell family. The home was constructed in the Italianate style, though Bell added the additional story, giving it a Second Empire appearance.

1526 Masonic Avenue (Power House) was constructed as a two-story single-family home in the Ashbury Heights neighborhood near Buena Vista Park. The design was commissioned in 1910 by original owner U.S. Attorney Mr. Erastus Barnum Powers, and designed by architect of merit Bernard Maybeck. At the time Maybeck was relatively unknown, but only a few years later designed the Palace of Fine Arts which is his best known work. The home has been subject to few exterior alterations, and is one of the few Maybeck properties in San Francisco, given more of his work was in the East Bay.

651 Dolores Street (Second Church of Christ Scientist) was built in 1917 as the Second Church of Christ Scientist in the Mission neighborhood across the street from Dolores Park. Constructing the church was part of the neighborhood's post-1906 Great Earthquake and Fires reconstruction efforts, given the disaster devastated much of the neighborhood's building stock. In the Beaux-Arts style, the church was designed by architect of merit William Crim. The building served as a church for nearly 90 years until it was converted to a residential property which it remains today.

394 Fair Oaks Street (William Shaughnessy Home) was built circa 1893 in the Mission neighborhood. William Shaughnessy served as the builder, as well as the original resident. Shaughnessy was a prolific contractor, and by 1904 was the president of the California Mill Co. The property is an intact example of a Queen Anne home with exemplary features including a polygonal corner tower capped by a cupola with finial, stained glass windows and applied wooden ornamentation.

657 Chenery Street (Tietz-Beneke House) is a residential property constructed in 1872 in Glen Park, at a time when the neighborhood was dominated by ranching and agriculture. In 1900 the property was sold to dairyman Curt (Cord) Heinrich Beneke, great-grandfather of the current Tietz family owner. The modest house was originally served by its own well water, and predated the neighborhood's current street grids. Considered Glen Park's oldest extant property, the home is a rare example of Folk Victorian architecture in San Francisco.

Compliance With Planning Code

Article 10 of the Planning Code

The executive summary and analysis under review was prepared by Department preservation staff, who meet the Secretary of the Interior's professional qualifications. The Department has determined that the subject properties meet the requirements for eligibility as individual landmarks pursuant to Article 10 of the Planning Code. The justification for its inclusion is explained in detail in the attached Landmark Designation Fact Sheets, and briefly in this Executive Summary.

Significance:

Underrepresented Landmark Types: Several of the proposed landmark designations address priorities established by the Historic Preservation Commission (HPC) for new landmarks, as follows:

- **Underrepresented Communities** – One of the properties has an association with social and ethnic groups underrepresented in Article 10 landmark designations. Specifically, 181 Buena Vista Avenue East, the De Urioste Home – James C. Hormel Mansion has both a Pan Latino and LGBTQ association due to past owners. The original owners of the 1899 property were a Guatemalan American family, the De Uriostes, who were heralded as a “pioneering San Francisco family actively involved in local politics, business, the development of the Park Hill Tract and philanthropic endeavors.” George de Urioste was appointed Consul of the Argentine Republic in November 1901, a post he retained through at least 1913. He was approached routinely by the city’s newspapers as an authority on political matters in Central and South America, quoted regularly for analysis in response to revolutions and developments in Guatemala and Argentina. In 1986 they sold the property to LGBTQ philanthropist, activist, and diplomat James C. Hormel, who resided there until 2012. President Clinton nominated Hormel to be the Ambassador to Luxembourg in 1999 amidst a great deal of controversy, becoming the first openly gay American ambassador to a foreign country. Over the course of his lifetime, Hormel donated more than \$15 Million to LGBTQ causes, including funding the San Francisco Public Library’s James C. Hormel Gay and Lesbian Center.
- **Underrepresented Property Types** – One of the proposed landmarks is a property type not well represented in existing Article 10 landmark designations, as a small-scale modest residence. Specifically, the Tietz-Beneke House at 657 Chenery Street is a single-family dwelling unit with a building area of only 808 square feet, pursuant to the Assessor’s Report. The home is significant as Glen Park’s earliest extant building, having been constructed in 1872 at a time when the neighborhood was dominated by agriculture and ranching.
- **Underrepresented Geographies** – Some of District 8’s neighborhoods have fewer Article 10 designated landmarks than others. These include Noe Valley which only has four existing Article 10 landmarks, and Glen Park which has zero existing Article 10 landmarks. However, through this phase of the Program, one Noe Valley, and two Glen Park properties are proposed as Article 10 landmarks. Specifically the Engine Company No. 44 /Adams-Van Hoesen House (3816 22nd Street) which falls in in Noe Valley, and the Tietz-Beneke House (657 Chenery Street) and Poole-Bell House (192 Laidley Street), which fall in Glen Park.
- **Underrepresented Architectural Styles** – A few of the proposed landmarks are significant for their associations with early neighborhood history, and predate Victorian era San Francisco, with associated styles not well represented amongst existing Article 10 Landmark designations. This includes the Duboce Triangle Greek Revival Home (2173 15th Street), constructed circa 1870, which is a Greek Revival property. Additionally, the Tietz-Beneke (657 Chenery Street), constructed in 1872, and the John J. Clark, constructed in 1885, are Folk Victorian properties. Furthermore, the Buena Vista Farmhouse (11 Piedmont Way) constructed circa 1860 is a very early example of an Italianate property.

Public/Neighborhood Input

Planning Department staff conducted outreach and engagement for property owners, occupants and other interested community members, as follows:

- **Community Forums** – In conjunction with District 8 Supervisor Rafael Mandelman’s office, the Planning Department hosted an in-person and virtual community forum (10/22/2025 and 10/27/2025, respectively) on the proposed FZP District 8 Phase 2 Landmarks. Property owners, occupants, and registered neighborhood groups were invited to attend. The forums provided an opportunity for attendees to learn more about the Program, as well as benefits and requirements associated with landmarked properties.
- **Property Owner Conversations** - Since the October 2025 Community Forums, Planning Department staff have offered subsequent meetings and/or phone conversations with property owners on a case-by-case basis, including the property owner of 181 Buena Vista East. Additionally, Department received an email in support of landmark designation from the property owners of 11 Piedmont Way which is attached to this case report.
- **Property Owner Notification** – Consistent with Article 10 of the Planning Code, property owners of all proposed landmarks were provided with a written 20 day notice of this HPC hearing.
- **Media** - Additionally, the Program has been featured by the press including articles in the Bay Area Reporter (1/13/2026), and the SF Examiner (3/27/2026).

Issues & Other Considerations

- **Past/Ongoing Historic Resource Surveys** – To identify the Program’s proposed landmarks, properties which were already identified as Category A historic resources, through past historic resource surveys, were reviewed. Relevant past historic resource surveys include:
 - Here Today, San Francisco’s Architectural Heritage. Text by Roger Olmstead and T.H. Watkins, San Francisco, CA, Chronicle Books, 1968 – This 300+ book includes the Junior League of San Francisco Inc.’s survey information of over 2,500 buildings. The findings of this survey were adopted by the Board of Supervisors on May 11, 1970; Resolution No. 268-70. Additionally, the Junior League of San Francisco "Here Today" building research files, 1964-1978, are archived at the San Francisco Public Library History Center and were reviewed for additional background on relevant properties.
 - Inner Mission North Historic Resource Survey – Completed in 2011, this multi-phased survey built upon a 2004 Historic Context Statement, and evaluated buildings for historical significance and integrity. The Survey area was roughly bound by Duboce Avenue to the north, Shotwell Street to the east, 20th Street to the South, and Dolores Street to the west.
 - Market and Octavia Plan Historic Resource Survey – Adopted in 2009, the Market and Octavia Plan Historic Resource Survey was completed by the community in partnership with the Planning Department, with consultants Page & Turnbull, following the adoption of the Market &

Octavia Plan.

- South Mission Historic Resource Survey – Adopted in 2010, the South Mission Historic Resource Survey documented and assessed approximately 3,800 individual buildings, including nearly 1,000 individual properties and contributors to 13 historic districts.
- San Francisco Citywide Cultural Resources Survey – The San Francisco Citywide Cultural Resources Survey (SF Survey) is a multi-year effort to identify and document places of historical, architectural and/or cultural significant. One of the properties recommended as a landmark through SF Survey was the Tietz-Beneke House at 657 Chenery Street. This recommendation was made to the HPC through findings which were adopted on December 17, 2025. This property had also previously been identified as a Category A historic resource through the 2011 Glen Park Community Plan Historic Resource Survey.
- **Eureka Valley Historic Context Statement** - In 2017, the HPC adopted the Eureka Valley Historic Statement, authored by Elaine B. Stiles. The document overviews the neighborhood's history from Native California settlement and presence through the 1970s. The document identifies three properties as potential Article 10 Landmarks, all of which are being recommended as landmarks through this Program, including the Fernando Nelson House (701 Castro Street), the Phoenix Brewery (552 Noe Street), and the Charles Hinkel House (740 Castro Street). It is worth noting that the Phoenix Brewery was recommended as a landmark alongside its southerly neighboring property at 560 Noe Street, referred to as the Kirby House. However, Planning Department staff research did not confirm that Thomas Kirby resided at 560 Noe Street as stated in the Historic Context Statement, but rather at 552 Noe Street. Thus Staff do not recommend landmark designation of 560 Noe Street, unless a case can be made for historical significance through future efforts.
- **Corbett Heights Historic Context Statement** - In 2017 the HPC adopted the Corbett Heights Historic Context Statement, authored by Michael R. Corbett. The documents overviews the neighborhood's history from 1860s early development through 1970s infill and gentrification. Recommendations on potentially significant resources include the John J. Clark House (210 Douglass Street), which is recommended as an Article 10 Landmark through Phase 2 of this effort.
- **Historic Resource Evaluations** - One of the properties was identified as Category A historic resource through a Historic Resource Evaluations (HRE) required under the California Environmental Quality Act (CEQA) due to a proposed project. Specifically, the De Urioste Home- James C. Hormel Mansion (181 Buena Vista Avenue) with an HRE completed in 2013.

Basis for Recommendation

The Department recommends that the HPC recommend to the Board of Supervisors landmark designation of the twenty-three Family Zoning Plan District 8 Phase 2 Landmark Designations as outlined in this case report as they meet the provisions of Article 10 of the Planning Code regarding Landmark Designation.

Attachment 11
3689 19th Street / Mission
Congregational Church

[Planning Code - Landmark Designation - Mission Congregational Church]

Ordinance amending the Planning Code to designate the Mission Congregational Church, located at 3689 19th Street, Assessor's Parcel Block No. 3598, Lot No. 060, on the south side of 19th Street between Dolores Street and Guerrero Street, as a landmark consistent with the standards set forth in Article 10 of the Planning Code; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan, and the eight priority policies of Planning Code, Section 101.1.

NOTE: **Unchanged Code text and uncodified text** are in plain Arial font.
Additions to Codes are in *single-underline italics Times New Roman font*.
Deletions to Codes are in ~~*strikethrough italics Times New Roman font*~~.
Board amendment additions are in double-underlined Arial font.
Board amendment deletions are in ~~Arial font~~.
Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

Be it ordained by the People of the City and County of San Francisco:

Section 1. Findings.

(a) Environmental and Land Use Findings.

(1) The Planning Department has determined that the Planning Code amendment proposed in this ordinance is subject to a Categorical Exemption from the California Environmental Quality Act (California Public Resources Code Sections 21000 et seq., hereinafter "CEQA") pursuant to Section 15308 of California Code of Regulations, Title 14, Sections 15000 et seq., the Guidelines for implementation of the statute, for actions by regulatory agencies for protection of the environment (in this case, landmark designation). Said determination is on file with the Clerk of the Board of Supervisors in File No.

1 _____ and is incorporated herein by reference. The Board of Supervisors affirms
2 this determination.

3 (2) Pursuant to Planning Code Section 302, the Board of Supervisors finds that
4 the proposed landmark designation of the Mission Congregational Church will serve the public
5 necessity, convenience, and welfare for the reasons set forth in Historic Preservation
6 Commission Resolution No. _____, recommending approval of the proposed
7 designation, which is incorporated herein by reference.

8 (3) The Board of Supervisors finds that the proposed landmark designation of
9 the Mission Congregational Church is consistent with the General Plan and with Planning
10 Code Section 101.1(b) for the reasons set forth in Historic Preservation Commission
11 Resolution No. _____, which is incorporated herein by reference.

12 (b) General Findings.

13 (1) On March 3, 2026, the Board of Supervisors adopted Resolution No. 102-
14 26, initiating landmark designation of the Mission Congregational Church as a San Francisco
15 Landmark pursuant to Section 1004.1 of the Planning Code. On March 6, 2026, the Mayor
16 approved the resolution. Said resolution is on file with the Clerk of the Board of Supervisors in
17 File No. 260055.

18 (2) Pursuant to Charter Section 4.135, the Historic Preservation Commission
19 has authority “to recommend approval, disapproval, or modification of landmark designations
20 and historic district designations under the Planning Code to the Board of Supervisors.”

21 (3) The Landmark Designation Fact Sheet dated May 20, 2026 was prepared
22 by Planning Department Preservation staff. All preparers meet the Secretary of the Interior’s
23 Professional Qualification Standards for historic preservation program staff, as set forth in
24 Code of Federal Regulations Title 36, Part 61, Appendix A. The report was reviewed for
25 accuracy and conformance with the purposes and standards of Article 10 of the Planning

1 Code. A copy of the Landmark Designation Fact Sheet is on file with the Clerk of the Board of
2 Supervisors in File No. _____ and is incorporated herein by reference.

3 (4) The Historic Preservation Commission, at its regular meeting of May 20,
4 2026, reviewed Planning Department staff's analysis of the historical significance of the
5 Mission Congregational Church set forth in the Landmark Designation Fact Sheet.

6 (5) On May 20, 2026, after holding a public hearing on the proposed
7 designation and having considered the specialized analyses prepared by Planning
8 Department staff and the Landmark Designation Fact Sheet, the Historic Preservation
9 Commission recommended designation of the Mission Congregational Church as a landmark
10 consistent with the standards set forth in Section 1004 of the Planning Code, by Resolution
11 No. _____. Said resolution is on file with the Clerk of the Board of Supervisors in File No.
12 _____.

13 (6) The Board of Supervisors hereby finds that the Mission Congregational
14 Church has a special character and special historical, cultural, architectural, and aesthetic
15 interest and value, and that its designation as a landmark will further the purposes of and
16 conform to the standards set forth in Article 10 of the Planning Code. In doing so, the Board of
17 Supervisors hereby incorporates by reference the findings of the Landmark Designation Fact
18 Sheet.

19
20 Section 2. Designation.

21 Pursuant to Section 1004.3 of the Planning Code, the Mission Congregational Church,
22 located at 3689 19th Street, Assessor's Parcel Block No. 3598, Lot No. 060, is hereby
23 designated as a San Francisco landmark consistent with the standards set forth in Section
24 1004. Appendix A to Article 10 of the Planning Code is hereby amended to include this
25 property.

1
2 Section 3. Required Data.

3 (a) The description, location, and boundary of the landmark site consists of the
4 footprint of the Mission Congregational Church, located on Assessor's Parcel Block No. 3598
5 Lot No. 060, on the south side of 19th Street between Dolores Street and Guerrero Street in
6 San Francisco's Mission neighborhood, as shown in the Landmark Designation Fact Sheet.

7 (b) The characteristics of the landmark that justify its designation are described and
8 shown in the Landmark Designation Fact Sheet and other supporting materials contained in
9 Planning Department Record Docket No. 2026-001917DES. In brief, the Mission
10 Congregational Church, located at 3689 19th Street is eligible for local designation as an
11 intact example of a Gothic Revival Church in San Francisco, and for its association with post-
12 1906 earthquake and fire reconstruction of the Mission Neighborhood. Constructed in 1910,
13 the brick-framed church was designed by architect Reverend Francis W. Reid. The church
14 was built as the Mission Congregational Church, which was a consolidation of the Third
15 Congregational Church organized in 1863 and the Olivet Congregational Church organized in
16 1884. In 1930, the church was purchased by the Ascension Lutheran Church. While the
17 parcel was vacant prior to the Great 1906 Earthquake and Fires, it lies in an area heavily
18 impacted by the Fires, known as the burn zone. Thus, the church is associated with the
19 neighborhood's reconstruction following the disaster.

20 (c) The particular features that should be preserved, or replaced in kind as determined
21 necessary, are those generally shown in photographs and described in the Landmark
22 Designation Fact Sheet, which can be found in Planning Department Record Docket No.
23 2026-001917DES, and which are incorporated in this designation by reference as though fully
24 set forth herein. This designation does not identify any interior character-defining features.
25 Specifically, the features that are character-defining and shall be preserved or replaced in kind

are the exterior elevations, form, massing, structure, rooflines, architectural ornament, and materials of the property, identified as:

- (1) Corner location of the building on the property;
- (2) Two-story height;
- (3) Varied roof form, including intersecting hipped roof and flat roof;
- (4) North and west street facing gables;
- (5) Metal frame with brick walls, red pressed brick facing, and red sandstone trimmings, and exterior brick buttresses;
- (6) Lancet, arched, and rectangular openings with deeply recessed windows, including a trio of stained-glass windows with floral designs;
- (7) Tall, square, crenulated tower; and
- (8) Two sets of wood paneled double doors on west facing façade.

Section 4. Effective Date.

This ordinance shall become effective on the 31st day after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within 10 days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

APPROVED AS TO FORM:
DAVID CHIU, City Attorney

RESOLUTION RECOMMENDING TO THE BOARD OF SUPERVISORS LANDMARK DESIGNATION OF THE MISSION CONGREGATIONAL CHURCH (3689 19th STREET), ASSESSOR'S PARCEL BLOCK NO. 3598, LOT NO. 060, AS LANDMARK NO. XXX CONSISTENT WITH THE PURPOSES AND STANDARDS OF ARTICLE 10.

Preamble

1. WHEREAS, at a public hearing on March 3, 2026, the Board of Supervisors voted to adopt Resolution No. 102-26 to initiate Landmark Designation of the Mission Congregational Church (3689 19th Street), Assessor's Parcel Block No. 3598, Lot No. 060; and
2. WHEREAS, Mayor Lurie signed the Resolution on March 6, 2026 and the Clerk of the Board transmitted it to the Planning Department on March 16, 2026; and
3. WHEREAS, Department staff, who meet the Secretary of Interior's Professional Qualification Standards prepared the Landmark Designation Fact Sheet for the Mission Congregational Church which was reviewed for accuracy and conformance with the purposes and standards of Article 10; and
4. WHEREAS, the Historic Preservation Commission, at its regular meeting of May 20, 2026 reviewed

Department staff's analysis of the Mission Congregational Church's historical significance pursuant to Article 10 and recommended Landmark designation through this Resolution; and

5. WHEREAS, the Historic Preservation Commission finds that the Landmark designation for the Mission Congregational Church is in the form prescribed by the Historic Preservation Commission and contains supporting historic, architectural, and/or cultural documentation; and
6. WHEREAS, the Historic Preservation Commission finds that the Landmark designation of 3689 19th Street is proper as an intact example of a Gothic Revival Church with exemplary features; and
7. WHEREAS, the Historic Preservation Commission finds that the Landmark designation of 3689 19th Street is proper as it was constructed in 1910 and thus associated with post-1906 Great Earthquake and Fire reconstruction of the Inner Mission North neighborhood; and
8. WHEREAS, the Historic Preservation Commission finds that the Landmark designation of 3689 19th Street is proper as it was designed by architect Reverend Francis W. Reid who was responsible for a number of Bay Area churches and residences; and
9. WHEREAS, the Historic Preservation Commission finds that the Landmark designation of 3689 19th Street is proper as it retains sufficient integrity; and
10. WHEREAS, the Historic Preservation Commission finds 3689 19th Street meets the eligibility requirements of Section 1004 of the Planning Code and warrants consideration for Article 10 landmark designation; and
11. WHEREAS, the Historic Preservation Commission finds that the boundaries and the list of character-defining features, as identified in the Landmark Designation Fact Sheet, should be considered for preservation under the proposed landmark designation as they relate to 3689 19th Street's historical significance and retain historical integrity; and
12. WHEREAS, the proposed designation is consistent with the General Plan priority policies pursuant to Planning Code, Section 101.1 and furthers Priority Policy No. 7, which states that landmarks and historic buildings be preserved, and will serve the public necessity, convenience and welfare pursuant to Planning Code, Section 302; and
13. WHEREAS, the Department has determined that landmark designation is exempt from environmental review, pursuant to CEQA Guidelines Section 15308 (Class Eight - Categorical); and now therefore, be it

RESOLVED, that the Historic Preservation Commission hereby recommends to the Board of Supervisors approval of landmark designation of 3689 19th Street (aka Mission Congregational Church), Assessor's Parcel Block No. 3598, Lot No. 060, as a Landmark pursuant to Article 10 of the Planning Code.

I hereby certify that the Historic Preservation Commission **ADOPTED** the foregoing Resolution on May 20, 2026.

Jonas P. Ionin
Commission Secretary

ADOPTED: May 20, 2026

Mission Congregational Church

Period of Significance: 1910-1917

Significance Criteria: 1 (Events), 3 (Architecture)

Statement of Significance: The Mission Congregational Church is significant as an intact example of a Gothic Revival Church, and for its association with post-1906 Great Earthquake and Fire reconstruction of the Inner Mission North neighborhood. The Inner Mission North was one of many San Francisco core neighborhoods completely devastated by firestorms associated with the 1906 disaster in which thousands of lives were lost, and tens of thousands of buildings were destroyed. Post-disaster rebuilding in the Inner Mission North was unprecedented in scope, with thousands of properties being constructed over several phases through the 1920s.¹ The church was built as the Mission Congregational Church which was a consolidation of the Third Congregational Church organized in 1863 and the Olivet Congregational Church organized in 1884. In 1930 the church was purchased by the Norwegian Lutheran Church of San Francisco, and was dedicated as such. The church has also been known as the Ascension Lutheran Church and Golden Gate Lutheran Church.

Erected in 1910 the brick-framed church was designed by architect Reverend Francis W. Reid who was responsible for a number of Bay Area churches and residences. The church was constructed in Gothic Revival style, which was a departure from the classical forms that were popular in America during the first half of the 19th century, and expressed connections to medieval heritage, county landscapes, or religion. Gothic Revival was a popular choice for residential and religious buildings during the early years of San Francisco's establishment and expansion and remained a popular choice for religious architecture well into the 20th century.²

Integrity: The property retains sufficient integrity, though integrity of workmanship is somewhat diminished as some of the original stained glass windows have been removed.

Character-Defining Features: All those exterior elevations, form, massing, structure, rooflines, architectural ornament, and materials of the property identified as:

- Corner location of the building on the property
- Two story height
- Varied roof form including intersecting hipped roof and flat roof
- North and west street facing gables
- Metal frame with brick walls, red pressed brick facing, and red sandstone trimmings, and exterior brick buttresses
- Lancet, arched and rectangular openings with deeply recessed windows including stained glass windows
- Tall square crenulated tower
- Two sets of wood paneled double doors on west facing façade

*e. Other Locational Data: Assessor's Parcel Number: Block: 3598 Lot: 60

*P3a. Description:

This Gothic Revival church constructed of brick in 1910 contains a centered gable, a tower element and, steep gabled centralized roofline, a stained glass window at the second and third levels and oriel window above a paneled doorway located at the corner of the building and a tower element with a crenellated top containing recessed crosses. The building contains a variety of fenestration types. Windows are generally clustered in pairs or in tripartite arrangements. All of the stained glass windows are covered with protective screens. Most of the windows contain tracery and are surmounted with drip moldings and sills both of which are concrete. A series of brick buttresses or piers provide verticality to the structure. Two projecting masses, asymmetrical arranged gables with steeply pitched rooflines are evident on the 19th Street elevation. The prominent corner location of the church results in a complex composition. The overall design results in a picturesque religious facility which is both a visible and conspicuous landmark located across from the primary entrance to Dolores Park. The church is sited on a steep upsloping lot and contains a second wood paneled entrance in the tower element. Golden Gate Lutheran Church represents built solidly of brick represents one of a few remaining Gothic Revival religious buildings in the City, the architecture is serene and restrained. This resources is a contributory building to a potential Mission Dolores Historic District. The subject property is an Unreinforced Masonry Building (UMB) and is a threatened cultural resource. The Gothic Revival style in America was primarily reflected the Ruskinian or High Victorian Gothic style rooted in England from the 1850's forward. Drawing on Italian and German as well as English Gothic precedents the style was used mainly for public buildings, including schools, libraries and churches. A few surviving domestic buildings in San Francisco are designed in the Gothic Revival style. The surrounding area is characterized by two and three-story multi-family residential units and Dolores Park is located to the east of the church.

B1. Historic name: Norwegian and Ascension Lutheran Church

B2. Common name: Golden Gate Lutheran Church

B3. Original Use: religious building

B4. Present use: religious building

*B5. Architectural Style: Gothic Revival

*B6. Construction History:

Golden Gate Lutheran Church (aka, Norwegian Lutheran Church, then later known as Ascension Lutheran Church) dates from 1910. Built as the Mission Park Congregational Church, the groundbreaking occurred on March 27th, 1909. The designer of the church was Francis W. Reid who was listed as a Reverend in 1910. Mr. Reid, worked both independently and with the firm of Meeker and Reid, and was responsible for a number of churches and residences primarily in the Bay Area. His church buildings include commissions in Concord, Livermore and Porterville, CA. Residential commissions include domestic architecture in Piedmont, Berkeley, San Francisco and San Jose, CA. Mr. Reid was born in Canada on July 23, 1863 and obtained a Certificate in Architecture in 1910.

This church was acquired by the Lutheran congregation who was seeking a new home in the Mission District. The original Lutheran Church was located at 13th Street and Howard Streets in the South-of-Market district and was known as Our Savior's Lutheran Church. In 1916-1917, Our Savior's and the Bethlehem Lutheran Churches merged to become the Norwegian Lutheran Church of San Francisco. During the 1920's, the congregation attempted to find a property in the Mission District, initially locating a property at 17th and Dolores Streets, however, nothing was done as the congregation was unable to sell the Howard Street Church.

In 1930, Mission Park Congregational Church, located at the northwest corner of 19th and Dolores Streets, put their building on the Market for \$36,000. The Norwegian Lutheran Church of San Francisco became the new owner. The Lutheran Church made improvements to the existing building to rebuild the choir loft and the altar. A new ceiling was installed copied from a ceiling design evident in a Swedish church. Much of the interior wainscoting, extant in the altar, choir loft and pulpit was done by the Mullen Manufacturing Company, which was owned by one of the members of the church, Nils Nordstrand. The Norwegian Lutheran Church was dedicated in 1931. In 1959, the church was rededicated as Ascension Lutheran Church. The church is now know as Golden Gate Lutheran Church.

B13: Significance Cont:

One of the most significant events to occur at the church, was the visit of His Royal Highness, Crown Prince Olaf of Norway and Crown Princess Martha, who attended the worship service at on April 19th, 1942, acknowledging great concern for Norway during World War II. A V-E mass was held post war on May 13, 1945.

The church contains significant interiors including wainscoting, stain glass windows, original lighting fixtures, stenciling and hand painted artwork on the sanctuary walls and a pipe organ. The interior spaces are handsomely proportioned, simple in design and execution. During the early 1960's, interior modifications occurred to the social hall and an original swimming pool on the first level served as a gymnasium for recreational programs for many years. A new organ was purchased from the Wicks Company in 1963, and is considered a significant feature within the church. Post 1970, the church was once again renamed as the Golden Gate Lutheran Church. In recent years, the congregation has diminished greatly, and within the past year, the church ceased functionally as a church. City and State seismic retrofit requirements also lead to church closure. At present, the church is considered a threatened architectural resource.

This building retains integrity of location, design, materials, workmanship, feeling and association. This building appears to be eligible for the National Register under Criterion C, for its design. It is a fine example of the Gothic Revival style in San Francisco that conforms to a steeply sloping Dolores Street site. It's asymmetrical massing, gothic windows and tracery, tower element, gabled rooflines, and brickwork all contribute to it's architectural significance. The period of significance is 1910 and 1931, the former for the year the church was built and the later for the Lutheran Church acquisition of the site. In addition to possessing individual significance under Criterion C, this building also appears to be a contributor to a potential local, state or national Mission Dolores Historic District. By virtue of its apparent National Register eligibility, this property also appears to be a historical resource for the purposes of CEQA, per CEQA guidelines 15064.5, as it meet the California Register criteria as outlined in PRC 5024.1.

Context for the building

"The Mission location was wisely chosen by the founding padres from their church [Mission Dolores] and settlement as the sunniest and most sheltered area of the northern peninsula. It was the recreation area of the early city, gradually becoming built up in the 1870's and 80's, with very substantial houses, most of which have either disappeared or been divided into apartments. Mission Street is the commercial spine of very self-contained and heavily Spanish speaking area. The handsomest part of this area is along the palm-lined Dolores, with the Mission itself, Dolores Park, and a fair number of surviving Victorian mansions. The hills to the west were built up around the turn of the century with smaller working class speculative houses, which now form the most interesting supply of older middle-income housing in the city, and so have become something of a melting pot, combining older blue-collar and younger middle-class families of all races."¹

WEST ELEVATION - DOLORES STREET

EAST ELEVATION

SOUTH ELEVATION

NORTH ELEVATION - 19TH STREET

North and South Elevation Drawings of the subject property by Patri-Merker, Architects

- 4069** Especially notable in this Stick Style cottage are the railings leading to the entrance and the portico detailing, which includes an inverted finial. (c. 1886) **451-53** (1886)
- 4075** Incised panels and hood molds are the decorative features of this tiny Italianate flat-front cottage. (1888) **559** (1887)
- 4131-31B-31C** Now half hidden behind a stucco wall and garage, this Stick Style house nevertheless offers an array of details including heavily carved strips, panels, balustrade, squeezed pediment, and keystone medallions. (c. 1883) **560** (1885)
- 4135-37** This Stick Style house features unusual ornaments on its corner strips and portico. These ornaments resemble ball-shaped newel post heads. (c. 1891) **591-93** (1864)
- 4306-08** An Eastlake-type pediment hovers over the bays of this Stick Style house. Interesting interior detailing prevails. (c. 1894) **657** (c. 1890)
- 4312** The bargeboard frames a high diamond-shingled pediment over the slanted bay on this cottage, while jigsaw corner hoods create an arch effect. (c. 1894) **822** (1900)
- 4431** Originally this Stick Style cottage was located in the vicinity of Fifteenth and Castro Streets, but after a fire damaged the house, it was turned over to the firemen as "payment" for putting out the fire. After 1900, it was moved to its present location. (c. 1870's) **906, 912, 918, 924, and 942** (1905-06)
- Nineteenth and Dolores Streets**
- (1908) Ascension Lutheran Church. The Lutheran Church bought this Romanesque brick structure from the Mission Park Congregationalist Church in 1930. Although the exterior was left unchanged, the inside was appropriately remodeled.
- Noe Street**
- 344-46** An especially vertical Italianate, this house has side walls covered with wooden shingles. (c. 1890)
- 437-39** Beautiful old doors, etched
- transoms, and incised panels are of interest on this Stick Style house. **1071-71A** (c. 1891)
- (87-93 Ford Street) Once the focal point of a family complex, this Stick Style home today features delicate details highlighted in brown and white. **1075-77** (c. 1888)
- The original iron fence still encloses this tiny, square house whose style hints very faintly of Colonial Revival. **1082** (c. 1892)
- Originally on a large lot with stable and horses, this Stick Style home retains the aura of a secure homestead. It has a matching picket fence and gate. **1104-06** (c. 1875)
- This elegantly simple match-board home has a broken pediment at the gabled roof, Italianate quoins, and a heavily tree-shaded walkway. It is slightly hidden by an appropriately styled frame garage. **1189** (1891)
- Set high on a hill in a terraced garden, this delicate false-front Italianate cottage presents a pretty picture. **1190** (c. 1890)
- This rustic shingled house sits in a colorful garden whose wall is made with cobblestones from the street. This was one of the first houses on "Poppy Hill", so called because of the many wild poppies. **1257** (c. 1892)
- Complementing those houses in the 3800 block of Twenty-Second Street and also built by John Anderson, these row homes also display imposing cartouches and three types of ornate pediments. **1607-17** (1911)
- The only unchanged older house in its block, this Stick cottage still has the old wooden steps leading to the recessed doorway. **1623-25** (c. 1880)
- (491 Elizabeth Street) An excellent example of Queen Anne (with Italianate and Eastlake features), this enormous house presents various shingle patterns (hob-nail, sawtooth, diamond and fishscale), carved friezes, an octagonal corner tower, and old matching wooden doors. **North Point**
- 501** (1907) Cost Plus West. Formerly Joseph Musto Sons-Keenan Co., marble works, this handsome brick structure has recently been strikingly refurbished and remodeled to accommodate stores. **767**
- The cock's comb (or cresting) over the pediment on the bay and the intricately carved panels add to this Stick cottage's distinction.
- This Stick Style house is notable for its frieze, through which elongated brackets extend.
- Originally on a large lot with greenhouse and additional buildings, this richly appointed home manifests the semi-Mansard Stick Style, especially in its many panels of embossed flowers and flared, fluted pillars.
- This slender, pristine house features the flat facade of the Italianate. A unique incongruity exists at the second story, where one of three identical, ornamented, arched windows looms considerably larger than the others.
- A decorative paneled door, original newel posts, iron fence, and carved gable ends are especially emphasized by the paint of this Eastlake-detailed home.
- This Stick Style house displays spindles on the porch portico. Its barn-carriage house offers carved decoration under the gable on the Twenty-Fifth Street side; the projecting fulcrum, used for lifting hay, remains.
- On this example of Stick-Eastlake (built by Fernando Nelson) the varied decorations have been handled neatly and carefully.
- This three-story wood apartment building with "Romeo and Juliet" stairway has a balanced facade and decorative frieze.
- A very old iron fence stands before this simple, false-front Italianate.

CEQA Exemption Determination

PROPERTY INFORMATION/PROJECT DESCRIPTION

Project Address		Block/Lot(s)
3689 19th Street		3598060
Case No.		Permit No.
2026-001917PRJ		
☐ Addition/ Alteration	☐ Demolition (requires HRE for Category B Building)	☐ New Construction
Project description for Planning Department approval. Historic Landmark Designation (DES)		

EXEMPTION TYPE

The project has been determined to be exempt under the California Environmental Quality Act (CEQA).	
☐	Class 1 - Existing Facilities. (CEQA Guidelines section 15301) Interior and exterior alterations; additions under 10,000 sq. ft.
☐	Class 3 - New Construction. (CEQA Guidelines section 15303) Up to three new single-family residences or six dwelling units in one building; commercial/office structures; utility extensions; change of use under 10,000 sq. ft. if principally permitted or with a CU.
☐	Class 32 - In-Fill Development. (CEQA Guidelines section 15332) New Construction of seven or more units or additions greater than 10,000 sq. ft. and meets the conditions described below: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations. (b) The proposed development occurs within city limits on a project site of no more than 5 acres substantially surrounded by urban uses. (c) The project site has no value as habitat for endangered rare or threatened species. (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality. (e) The site can be adequately served by all required utilities and public services.
☒	Other _____ Class 8 - Actions by Regulatory Agencies for Protection of the Environment (CEQA Guidelines section 15308)
☐	Common Sense Exemption (CEQA Guidelines section 15061(b)(3)). It can be seen with certainty that there is no possibility of a significant effect on the environment.

EXEMPTION DETERMINATION

☒	No further environmental review is required. The project is exempt under CEQA. There are no unusual circumstances that would result in a reasonable possibility of a significant effect.	
	Project Approval Action: Board of Supervisors approval of landmark designation	Signature: Alex Westhoff 05/01/2026
	Supporting documents are available for review on the San Francisco Property Information Map, which can be accessed at https://sfplanninggis.org/pim/ . Individual files can be viewed by clicking on the Planning Applications link, clicking the "More Details" link under the project's environmental record number (ENV) and then clicking on the "Related Documents" link. Once signed and dated, this document constitutes an exemption pursuant to CEQA Guidelines and chapter 31 of the San Francisco Administrative Code. Per chapter 31, an appeal of an exemption determination to the Board of Supervisors shall be filed within 30 days after the approval action occurs at a noticed public hearing, or within 30 days after posting on the planning department's website (https://sfplanning.org/resource/ceqa-exemptions) a written decision or written notice of the approval action, if the approval is not made at a noticed public hearing.
