This award has been fully funded for budget year 04.

Substantial Involvement by CDC: This revised Notice of Award is to also administratively correct and replace the Substantial Involvement by CDC term issued in the Notice of Award dated December 16, 2021, to the correct term language listed below:

This is a cooperative agreement and CDC will have substantial programmatic involvement after the award is made. Substantial involvement is in addition to all post-award monitoring, technical assistance, and performance reviews undertaken in the normal course of stewardship of federal funds.

CDC program staff will assist, coordinate, or participate in carrying out effort under the award, and recipients agree to the responsibilities therein, as detailed in the NOFO.

In a cooperative agreement, CDC staff are substantially involved in the program activities, above and beyond routine grant monitoring. CDC activities for this program are as follows:

Technical assistance and capacity building

- Work with recipients to identify capacity building assistance and technical assistance (TA) needs that are essential to the success of the project
- Provide access to training and TA, including via CDC-TRAIN, that will strengthen staff capacity relevant to all required strategies and activities of the program
- Assist recipients with enhancing health department workforce capacity and infrastructure by providing training and TA around skills assessment, core competencies and workforce development
- Provide STD clinical and laboratory consultation and STD reference diagnostic services
- Collaborate in assessing progress toward meeting strategic and operational goals/objectives and in establishing measurement and accountability systems for documenting outcomes, such as increased performance improvements and best or promising practices

Information sharing

- Facilitate coordination, collaboration, and, where feasible, service integration among federal agencies, other CDC funded programs, other health departments, community-based organizations, local and state planning groups, other CDC directly funded programs, medical care providers, laboratories, and others addressing STD prevention and control activities
- Collaborate to compile and disseminate accomplishments, best practices, performance criteria, and lessons learned during the period of performance
- Share information, best practices, lessons learned, and evaluation results among recipients through, for example: conferences, guidance, material development, webinars, data sharing publications, committees, conference calls, and working groups

Award guidance and monitoring

- Support recipients in implementing the requirements of the cooperative agreement, selecting or prioritizing prevention strategies/activities and meeting identified outcomes
- Monitor recipients' program performance using multiple approaches, such as routine calls, site visits, emails, conference calls, affinity group participation, and standardized review of performance, grantee feedback and other data reports
- Provide guidance and coordination to recipients to improve the quality and effectiveness of work plans, evaluation strategies, products and services, and collaborative activities with other organizations
- Provide requirements and expectations for standardized and other data reporting, monitoring, and evaluation

All the other terms and conditions issued with the original award remain in effect throughout the budget period unless otherwise changed, in writing, by the Grants Management Officer.

Please be advised that recipient must exercise proper stewardship over Federal funds by ensuring that all costs charged to their cooperative agreement are allowable, allocable, necessary and reasonable.
