Agreement between the City and County of San Francisco and

PGH Wong & Partners JV

**Contract No. 10072.41
Project Management Support Services for
the Courtyard 3 Connector Project**

This Agreement is made this 19th day of December, 2017, in the City and County of San Francisco, State of California, by and between: **PGH Wong & Partners JV**, 182 2nd Street, Suite 500, San Francisco, California 94105 (the "Contractor") and the City and County of San Francisco, a municipal corporation (the "City"), acting by and through its Airport Commission (the "Commission").

Recitals

- A. The Commission wishes to enter into an agreement for Project Management Support Services for the Courtyard 3 Connector Project for the San Francisco International Airport (the "Airport" or "SFO"); and
- B. The Commission is authorized to enter into all contracts which relate to matters under its jurisdiction; and
- C. On August 15, 2017, the Commission issued a Request for Proposals ("RFP") and as a result of the selection process prescribed in the RFP and upon the recommendation of the Airport Director, the Commission determined that the Contractor was the qualified proposer receiving the highest evaluation score; and
- D. On December 19, 2017, by Resolution No. 17-0321, the Commission awarded this Agreement to the Contractor for an amount not-to-exceed \$3,250,000 for the first year of services; and
- E. The Local Business Entity ("LBE") subcontracting participation requirement for this Agreement is 21%; and
- F. Approval for this Agreement was obtained when the Civil Service Commission approved PSC No. 47501-16/17 on August 7, 2017; and
- G. The Contractor represents and warrants that it is qualified to perform the services required by City under this Agreement;

Now, THEREFORE, the parties agree as follows:

Article 1 Definitions

The following definitions apply to this Agreement:

1.1 "Agreement" means this contract document, including all attached appendices, and all applicable City Ordinances and Mandatory City Requirements which are specifically incorporated by reference into this Agreement.

1.2 "City" or "the City" means the City and County of San Francisco, a municipal corporation, acting by and through both its Director of the Office of Contract Administration, referred to as "Purchasing," or the Director's designated agent, Airport Commission.

1.3 "CMD" means the Contract Monitoring Division of the City.

1.4 "Contractor" or "Consultant" means PGH Wong & Partners JV, 182 2nd Street, Suite 500, San Francisco, California 94105.

1.5 "Deliverables" means Contractor's work product resulting from the Services that are provided by Contractor to City during the course of Contractor's performance of the Agreement, including without limitation, the work product described in the "Scope of Services" attached as Appendix A.

1.6 "Effective Date" means the date upon which the City's Controller certifies the availability of funds for this Agreement as provided in Section 3.1.

1.7 "Mandatory City Requirements" means those City laws set forth in the San Francisco Municipal Code, including the duly authorized rules, regulations, and guidelines implementing such laws, that impose specific duties and obligations upon Contractor.

1.8 "Party" and "Parties" mean the City and Contractor either collectively or individually.

1.9 "Services" means the work performed by Contractor under this Agreement as specifically described in the "Scope of Services" attached as Appendix A, including all services, labor, supervision, materials, equipment, actions and other requirements to be performed and furnished by Contractor under this Agreement.

Article 2 Term of the Agreement

2.1 The term of this Agreement will commence on the date of the Notice to Proceed and expire one (1) year later, unless earlier terminated as otherwise provided in this Agreement.

Article 3 Financial Matters

3.1 **Certification of Funds; Budget and Fiscal Provisions; Termination in the Event of Non-Appropriation.** This Agreement is subject to the budget and fiscal provisions of the City's Charter. Charges will accrue only after prior written authorization certified by the Controller, and the amount of City's obligation under this Agreement shall not at any time exceed the amount certified for the purpose and period stated in such advance authorization. This Agreement will terminate without penalty, liability or expense of any kind to City at the end of any fiscal year if funds are not appropriated for the next succeeding fiscal year. If funds are appropriated for a portion of the fiscal year, this Agreement will terminate, without penalty, liability or expense of any kind at the end of the term for which funds are appropriated. City has no obligation to make appropriations for this Agreement in lieu of appropriations for new or other agreements. City budget decisions are subject to the discretion of the Mayor and the Board of

Supervisors. Contractor's assumption of risk of possible non-appropriation is part of the consideration for this Agreement.

THIS SECTION CONTROLS AGAINST ANY AND ALL OTHER PROVISIONS OF THIS AGREEMENT.

3.2 Guaranteed Maximum Costs. The City's payment obligation to Contractor cannot at any time exceed the amount certified by City's Controller for the purpose and period stated in such certification. Absent an authorized Emergency per the City Charter or applicable Code, no City representative is authorized to offer or promise, nor is the City required to honor, any offered or promised payments to Contractor under this Agreement in excess of the certified maximum amount without the Controller having first certified the additional promised amount and the Parties having modified this Agreement as provided in Section 11.5, "Modification of this Agreement."

3.3 Compensation.

3.3.1 Payment. Contractor shall provide an invoice to the City on a monthly basis for Services completed in the immediate preceding month, unless a different schedule is set out in Appendix B, "Calculation of Charges." Compensation shall be made for Services identified in the invoice that the Airport Director, in his or her sole discretion, concludes has been satisfactorily performed. Payment shall be made within 30 calendar days of receipt of the invoice, unless the City notifies the Contractor that a dispute as to the invoice exists. In no event shall the amount of this Agreement exceed **Three Million Two Hundred Fifty Thousand Dollars (\$3,250,000)**. The breakdown of charges associated with this Agreement appears in Appendix B, "Calculation of Charges," attached and incorporated by reference as though fully set forth in this Agreement. A portion of payment may be withheld until conclusion of the Agreement if agreed to both parties as retainage, described in Appendix B. In no event shall City be liable for interest or late charges for any late payments.

3.3.2 Payment Limited to Satisfactory Services. Contractor is not entitled to any payments from City until Airport Commission approves Services, including any furnished Deliverables, as satisfying all of the requirements of this Agreement. Payments to Contractor by City shall not excuse Contractor from its obligation to replace unsatisfactory Deliverables, including equipment, components, materials, or Services even if the unsatisfactory character of such Deliverables, equipment, components, materials, or Services may not have been apparent or detected at the time such payment was made. The City may reject Deliverables, equipment, components, materials and Services that do not conform to the requirements of this Agreement and in such case must be replaced by Contractor without delay at no cost to the City.

3.3.3 Withhold Payments. If Contractor fails to provide Services consistent with Contractor's obligations under this Agreement, the City may withhold any and all payments due Contractor until such failure to perform is cured, and Contractor shall not stop work as a result of City's withholding of payments as provided in this Agreement.

3.3.4 Invoice Format. Invoices furnished by Contractor under this Agreement must be in a form acceptable to the Controller and City, and must include a unique invoice number. Payment shall be made by City as specified in 3.3.6, or in such alternate manner as the Parties have mutually agreed upon in writing.

3.3.5 LBE Payment and Utilization Tracking System. Contractor must submit all required payment information using the online LBE Utilization Tracking System (LBEUTS) as required by

business hours, accurate books and accounting records demonstrating Contractor's compliance with this section. Should City determine that Contractor, or any agent or employee of Contractor, is not performing consistent with the requirements of this Agreement, City shall provide Contractor with written notice of such failure. Within five (5) business days of Contractor's receipt of such notice, and consistent with Contractor policy and procedure, Contractor shall remedy the deficiency. If City believes that an action of Contractor, or any agent or employee of Contractor, warrants immediate remedial action by Contractor, City shall contact Contractor and provide Contractor in writing with the reason for requesting such immediate action.

4.4.2 Payment of Employment Taxes and Other Expenses. Should City, in its discretion, or a relevant taxing authority such as the Internal Revenue Service or the State Employment Development Division, or both, determine that Contractor is an employee for purposes of collection of any employment taxes, the amounts payable under this Agreement shall be reduced by amounts equal to both the employee and employer portions of the tax due (and offsetting any credits for amounts already paid by Contractor which can be applied against this liability). City shall then forward those amounts to the relevant taxing authority. Should a relevant taxing authority determine a liability for past services performed by Contractor for City, upon notification of such fact by City, Contractor shall promptly remit such amount due or arrange with City to have the amount due withheld from future payments to Contractor under this Agreement (again, offsetting any amounts already paid by Contractor which can be applied as a credit against such liability). A determination of employment status pursuant to the preceding two paragraphs shall be solely for the purposes of the particular tax in question, and for all other purposes of this Agreement, Contractor shall not be considered an employee of City. Notwithstanding the foregoing, Contractor agrees to indemnify and save harmless City and its officers, agents and employees from, and, if requested, shall defend them against any and all claims, losses, costs, damages, and expenses, including attorneys' fees, arising from this section.

4.5 Assignment. The Services to be performed by Contractor are personal in character and neither this Agreement nor any duties or obligations may be assigned or delegated by Contractor unless first approved by City by written instrument executed and approved in the same manner as this Agreement. Any purported assignment made in violation of this provision shall be null and void.

4.6 Warranty. Contractor warrants to City that the Services will be performed with the degree of skill and care that is required by current, good and sound professional procedures and practices, and in conformance with generally accepted professional standards prevailing at the time the Services are performed so as to ensure that all Services performed are correct and appropriate for the purposes contemplated in this Agreement.

Article 5 Insurance and Indemnity

5.1 Insurance.

5.1.1 Required Coverages. Without in any way limiting Contractor's liability under the "Indemnification" section of this Agreement, Contractor, or each of Contractor's Joint Venture Partners, must maintain in force, during the full term of the Agreement, insurance in the following amounts and coverages:

(a) Workers' Compensation, in statutory amounts, with Employers' Liability Limits not less than \$1,000,000 each accident, injury, or illness; and

(b) Commercial General Liability Insurance with limits not less than \$1,000,000 each occurrence and \$2,000,000 general aggregate for Bodily Injury and Property Damage, including Contractual Liability, Personal Injury, Products and Completed Operations; and

(c) Commercial Automobile Liability Insurance with limits not less than \$2,000,000 each occurrence, "Combined Single Limit" for Bodily Injury and Property Damage, including Owned, Non-Owned and Hired auto coverage, as applicable.

(d) Professional liability insurance, applicable to Contractor's profession, with limits not less than \$1,000,000 each claim with respect to negligent acts, errors or omissions in connection with the Professional Services to be provided under this Agreement. If the Contractor is a Joint Venture, each member of the Joint Venture must maintain individual Professional Liability insurance and each policy must include 'Joint Venture' coverage but only for the liability arising out of the professional services performed by the Joint Venture member. The Contractor may be asked to provide all applicable policies for verification of coverage.

5.1.2 Commercial General Liability and Commercial Automobile Liability Insurance policies must be endorsed to provide:

(a) Name as Additional Insured the City and County of San Francisco, its Officers, Agents, and Employees. If the Contractor is a Joint Venture, each Joint Venture Partner's policies must be endorsed to include each other Joint Venture partner AND the Joint Venture as additional insureds.

(b) That such policies are primary insurance to any other insurance available to the Additional Insureds, with respect to any claims arising out of this Agreement, and that insurance applies separately to each insured against whom claim is made or suit is brought.

5.1.3 All policies shall be endorsed to provide thirty (30) days' advance written notice to the City of cancellation for any reason, intended non-renewal, or reduction in coverages. Notices shall be sent to the City address set forth in Section 11.1, entitled "Notices to the Parties."

5.1.4 Should any of the required insurance be provided under a claims-made form, Contractor shall maintain such coverage continuously throughout the term of this Agreement and, without lapse, for a period of three years beyond the expiration of this Agreement, to the effect that, should occurrences during the contract term give rise to claims made after expiration of the Agreement, such claims shall be covered by such claims-made policies.

5.1.5 Should any required insurance lapse during the term of this Agreement, requests for payments originating after such lapse shall not be processed until the City receives satisfactory evidence of reinstated coverage as required by this Agreement, effective as of the lapse date. If insurance is not reinstated, the City may, at its sole option, terminate this Agreement effective on the date of such lapse of insurance.

5.1.6 Before commencing any Services, Contractor shall furnish to City certificates of insurance and additional insured policy endorsements with insurers with ratings comparable to A-, VIII or higher, that are authorized to do business in the State of California, and that are satisfactory to City, in form evidencing all coverages set forth above. Approval of the insurance by City shall not relieve or decrease Contractor's liability.

5.1.7 The Workers' Compensation policy(ies) shall be endorsed with a waiver of subrogation in favor of the City for all work performed by the Contractor or any Joint Venture Partner, their employees, agents and subcontractors.

5.1.8 If Contractor or any Joint Venture Partner will use any subcontractor(s) to provide Services, Contractor shall require the subcontractor(s) to provide all necessary insurance and to name the City and County of San Francisco, its officers, agents and employees and the Contractor as additional insureds.

5.2 **Indemnification.** Contractor shall indemnify and hold harmless City and its officers, agents and employees from, and, if requested, shall defend them from and against any and all claims, demands, losses, damages, costs, expenses, and liability (legal, contractual, or otherwise) arising from or in any way connected with any: (i) injury to or death of a person, including employees of City or Contractor; (ii) loss of or damage to property; (iii) violation of local, state, or federal common law, statute or regulation, including but not limited to privacy or personally identifiable information, health information, disability and labor laws or regulations; (iv) strict liability imposed by any law or regulation; or (v) losses arising from Contractor's execution of subcontracts not in accordance with the requirements of this Agreement applicable to subcontractors; so long as such injury, violation, loss, or strict liability (as set forth in subsections (i) – (v) above) arises directly or indirectly from Contractor's performance of this Agreement, including, but not limited to, Contractor's use of facilities or equipment provided by City or others, regardless of the negligence of, and regardless of whether liability without fault is imposed or sought to be imposed on City, except to the extent that such indemnity is void or otherwise unenforceable under applicable law, and except where such loss, damage, injury, liability or claim is the result of the active negligence or willful misconduct of City and is not contributed to by any act of, or by any omission to perform some duty imposed by law or agreement on Contractor, its subcontractors, or either's agent or employee. The foregoing indemnity shall include, without limitation, reasonable fees of attorneys, consultants and experts and related costs and City's costs of investigating any claims against the City.

In addition to Contractor's obligation to indemnify City, Contractor specifically acknowledges and agrees that it has an immediate and independent obligation to defend City from any claim which actually or potentially falls within this indemnification provision, even if the allegations are or may be groundless, false or fraudulent, which obligation arises at the time such claim is tendered to Contractor by City and continues at all times thereafter.

Contractor shall indemnify and hold City harmless from all loss and liability, including attorneys' fees, court costs and all other litigation expenses for any infringement of the patent rights, copyright, trade secret or any other proprietary right or trademark, and all other intellectual property claims of any person or persons arising directly or indirectly from the receipt by City, or any of its officers or agents, of Contractor's Services.

Article 6 Liability of the Parties

6.1 **Liability of City.** CITY'S PAYMENT OBLIGATIONS UNDER THIS AGREEMENT SHALL BE LIMITED TO THE PAYMENT OF THE COMPENSATION PROVIDED FOR IN SECTION 3.3.1, "PAYMENT," OF THIS AGREEMENT. NOTWITHSTANDING ANY OTHER PROVISION OF THIS AGREEMENT, IN NO EVENT SHALL CITY BE LIABLE, REGARDLESS OF WHETHER ANY CLAIM IS BASED ON CONTRACT OR TORT, FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT OR INCIDENTAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOST PROFITS, ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT OR THE SERVICES PERFORMED IN CONNECTION WITH THIS AGREEMENT.

6.2 **Liability for Use of Equipment.** City shall not be liable for any damage to persons or property as a result of the use, misuse or failure of any equipment used by Contractor, or any of its subcontractors, or by any of their employees, even though such equipment is furnished, rented or loaned by City.

6.3 **Liability for Incidental and Consequential Damages.** Contractor shall be responsible for incidental and consequential damages resulting in whole or in part from Contractor's acts or omissions.

Article 7 Payment of Taxes

7.1 Except for any applicable California sales and use taxes charged by Contractor to City, Contractor shall pay all taxes, including possessory interest taxes levied upon or as a result of this Agreement, or the Services delivered under this Agreement. Contractor shall remit to the State of California any sales or use taxes paid by City to Contractor under this Agreement. Contractor agrees to promptly provide information requested by the City to verify Contractor's compliance with any State requirements for reporting sales and use tax paid by City under this Agreement.

7.2 Contractor acknowledges that this Agreement may create a "possessory interest" for property tax purposes. Generally, such a possessory interest is not created unless the Agreement entitles the Contractor to possession, occupancy, or use of City property for private gain. If such a possessory interest is created, then the following shall apply:

7.2.1 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that Contractor, and any permitted successors and assigns, may be subject to real property tax assessments on the possessory interest.

7.2.2 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that the creation, extension, renewal, or assignment of this Agreement may result in a "change in ownership" for purposes of real property taxes, and therefore may result in a revaluation of any possessory interest created by this Agreement. Contractor agrees on behalf of itself and its permitted successors and assigns to report on behalf of the City to the County Assessor the information required by Revenue and Taxation Code section 480.5, as amended from time to time, and any successor provision.

7.2.3 Contractor, on behalf of itself and any permitted successors and assigns, recognizes and understands that other events also may cause a change of ownership of the possessory interest and result in the revaluation of the possessory interest. (see, e.g., Rev. & Tax. Code section 64, as amended from time to time). Contractor agrees on behalf of itself and its permitted successors and assigns to report any change in ownership to the County Assessor, the State Board of Equalization or other public agency as required by law.

7.2.4 Contractor further agrees to provide such other information as may be requested by the City to enable the City to comply with any reporting requirements for possessory interests that are imposed by applicable law.

Article 8 Termination and Default

8.1 **Termination for Convenience.**

8.1.1 City shall have the option, in its sole discretion, to terminate this Agreement, at any time during the term hereof, for convenience and without cause. City shall exercise this option by giving Contractor written notice of termination. The notice shall specify the date on which termination shall become effective.

8.1.2 Upon receipt of the notice of termination, Contractor shall commence and perform, with diligence, all actions necessary on the part of Contractor to effect the termination of this Agreement on the date specified by City and to minimize the liability of Contractor and City to third parties as a result of termination. All such actions shall be subject to the prior approval of City. Such actions shall include, without limitation:

(a) Halting the performance of all Services under this Agreement on the date(s) and in the manner specified by City.

(b) Terminating all existing orders and subcontracts, and not placing any further orders or subcontracts for materials, Services, equipment or other items.

(c) At City's direction, assigning to City any or all of Contractor's right, title, and interest under the orders and subcontracts terminated. Upon such assignment, City shall have the right, in its sole discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts.

(d) Subject to City's approval, settling all outstanding liabilities and all claims arising out of the termination of orders and subcontracts.

(e) Completing performance of any Services that City designates to be completed prior to the date of termination specified by City.

(f) Taking such action as may be necessary, or as the City may direct, for the protection and preservation of any property related to this Agreement which is in the possession of Contractor and in which City has or may acquire an interest.

8.1.3 Within 30 days after the specified termination date, Contractor shall submit to City an invoice, which shall set forth each of the following as a separate line item:

(a) The reasonable cost to Contractor, without profit, for all Services prior to the specified termination date, for which Services City has not already tendered payment. Reasonable costs may include a reasonable allowance for actual overhead, not to exceed a total of 10% of Contractor's direct costs for Services. Any overhead allowance shall be separately itemized. Contractor may also recover the reasonable cost of preparing the invoice.

(b) A reasonable allowance for profit on the cost of the Services described in the immediately preceding subsection (a), provided that Contractor can establish, to the satisfaction of City, that Contractor would have made a profit had all Services under this Agreement been completed, and provided further, that the profit allowed shall in no event exceed 5% of such cost.

(c) The reasonable cost to Contractor of handling material or equipment returned to the supplier, delivered to the City or otherwise disposed of as directed by the City.

(d) A deduction for the cost of materials to be retained by Contractor, amounts realized from the sale of materials and not otherwise recovered by or credited to City, and any other appropriate credits to City against the cost of the Services or other work.

8.1.4 In no event shall City be liable for costs incurred by Contractor or any of its subcontractors after the termination date specified by City, except for those costs specifically enumerated and described in Section 8.1.3. Such non-recoverable costs include, but are not limited to, anticipated profits on the Services under this Agreement, post-termination employee salaries, post-termination administrative expenses, post-termination overhead or unabsorbed overhead, attorneys' fees or other costs relating to the prosecution of a claim or lawsuit, prejudgment interest, or any other expense which is not reasonable or authorized under Section 8.1.3.

8.1.5 In arriving at the amount due to Contractor under this Section, City may deduct: (i) all payments previously made by City for Services covered by Contractor's final invoice; (ii) any claim which City may have against Contractor in connection with this Agreement; (iii) any invoiced costs or expenses excluded pursuant to the immediately preceding subsection 8.1.4; and (iv) in instances in which, in the opinion of the City, the cost of any Service performed under this Agreement is excessively high due to costs incurred to remedy or replace defective or rejected Services, the difference between the invoiced amount and City's estimate of the reasonable cost of performing the invoiced Services in compliance with the requirements of this Agreement.

8.1.6 City's payment obligation under this Section shall survive termination of this Agreement.

8.2 Termination for Default; Remedies.

8.2.1 Each of the following shall constitute an immediate event of default ("Event of Default") under this Agreement:

(a) Contractor fails or refuses to perform or observe any term, covenant or condition contained in any of the following Sections of this Agreement:

3.5	Submitting False Claims.	10.10	Alcohol and Drug-Free Workplace
4.5	Assignment		
Article 5	Insurance and Indemnity	11.10	Compliance with Laws
Article 7	Payment of Taxes	13.1	Nondisclosure of Private, Proprietary or Confidential Information

(b) Contractor fails or refuses to perform or observe any other term, covenant or condition contained in this Agreement, including any obligation imposed by ordinance or statute and incorporated into this Agreement by reference, and such default continues for a period of ten days after written notice thereof from City to Contractor.

(c) Contractor (i) is generally not paying its debts as they become due; (ii) files, or consents by answer or otherwise to the filing against it of a petition for relief or reorganization or arrangement or any other petition in bankruptcy or for liquidation or to take advantage of any bankruptcy, insolvency or other debtors' relief law of any jurisdiction; (iii) makes an assignment for the benefit of its creditors; (iv) consents to the appointment of a custodian, receiver, trustee or other officer with similar

powers of Contractor or of any substantial part of Contractor's property; or (v) takes action for the purpose of any of the foregoing.

(d) A court or government authority enters an order (i) appointing a custodian, receiver, trustee or other officer with similar powers with respect to Contractor or with respect to any substantial part of Contractor's property, (ii) constituting an order for relief or approving a petition for relief or reorganization or arrangement or any other petition in bankruptcy or for liquidation or to take advantage of any bankruptcy, insolvency or other debtors' relief law of any jurisdiction or (iii) ordering the dissolution, winding-up or liquidation of Contractor.

8.2.2 On and after any Event of Default, City shall have the right to exercise its legal and equitable remedies, including, without limitation, the right to terminate this Agreement or to seek specific performance of all or any part of this Agreement. In addition, where applicable, City shall have the right (but no obligation) to cure (or cause to be cured) on behalf of Contractor any Event of Default; Contractor shall pay to City on demand all costs and expenses incurred by City in effecting such cure, with interest thereon from the date of incurrence at the maximum rate then permitted by law. City shall have the right to offset from any amounts due to Contractor under this Agreement or any other agreement between City and Contractor: (i) all damages, losses, costs or expenses incurred by City as a result of an Event of Default; and (ii) any liquidated damages levied upon Contractor pursuant to the terms of this Agreement; and (iii), any damages imposed by any ordinance or statute that is incorporated into this Agreement by reference, or into any other agreement with the City.

8.2.3 All remedies provided for in this Agreement may be exercised individually or in combination with any other remedy available hereunder or under applicable laws, rules and regulations. The exercise of any remedy shall not preclude or in any way be deemed to waive any other remedy. Nothing in this Agreement shall constitute a waiver or limitation of any rights that City may have under applicable law.

8.2.4 Any notice of default must be sent by registered mail to the address set forth in Article 11.

8.3 **Non-Waiver of Rights.** The omission by either party at any time to enforce any default or right reserved to it, or to require performance of any of the terms, covenants, or provisions hereof by the other party at the time designated, shall not be a waiver of any such default or right to which the party is entitled, nor shall it in any way affect the right of the party to enforce such provisions.

8.4 Rights and Duties upon Termination or Expiration.

8.4.1 This Section and the following Sections of this Agreement listed below, shall survive termination or expiration of this Agreement:

3.3.2	Payment Limited to Satisfactory Services	9.1	Ownership of Results
		9.2	Works for Hire

A Message from the Director

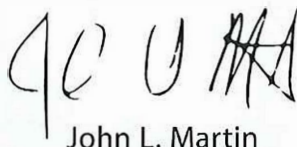

I am pleased to present San Francisco International Airport's new Strategic Plan, 2017-2021, which along with our core values and task force committee recommendations, provides a solid road map for SFO for the next five years.

The Plan was a truly collaborative venture. Its months-long development was led by SFO's Senior Staff and included significant input from several hundred SFO employees, who participated in numerous brainstorming sessions.

The Plan includes seven major goals supported by 32 objectives, as outlined in this document. More than 160 initiatives were created by employees to support these objectives and goals. The process of supporting SFO's overall goals will be extended to individual employees as they prepare their personal goals. In this way, we are all working as one team.

In addition, this document includes a policy statement on SFO's overall philosophy on doing business with the Airport and another statement that reiterates our commitment to work collaboratively with all departments in the City family to deliver services in an efficient and innovative manner.

I am extraordinarily proud of the work that went into creating this new strategic plan. SFO continues to be an exceptional Airport, delivering an outstanding guest experience, strong business performances, top-rated safety and security practices and demonstrating a genuine devotion to environmental leadership. SFO has a world class dream team, and I am confident the Airport is in good hands as we move forward into the next five years.

Implementing the Strategic Plan

SFO's five-year strategic plan will be overseen by the Airport Director and Senior Staff. It is the responsibility of these groups to ensure all Airport staff work toward achieving the goals that have been established in a collaborative and collegial fashion. "Reaching for Number 1" (R4N1) is our aspirational vision that guides us to achieve the strategic plan. Established in 2011, R4N1 comprises 12 ad hoc task force committees, consisting of several hundred Airport employees, who provide recommendations and suggestions as the Airport works toward achieving its goals.

SFO'S REACHING FOR #1 TASK FORCE COMMITTEES:

The SFO Way

SFO has been highly successful in achieving its mission of providing an exceptional airport in service to our communities through collaboration and fairness, creating a level playing field for all tenants, encouraging excellence in all areas and maintaining Airport control of its assets.

SFO adheres to three guiding principles in doing business with its hundreds of tenants and stakeholders:

- Ensuring high standards of Safety and Security
- Maintaining full control of all Airport assets and infrastructure
- Fostering a high level of market competition

Several Airport Commission policies help frame the management and operation of SFO while following the guiding principles. The policies include:

1. Wi-Fi Policy

- SFO is committed to providing exceptional Wi-Fi services to guests, airlines and concessionaires. This policy documents the approach for setting the standards and controlling SFO's Wi-Fi system.

2. Shared Use Policy

- This policy describes SFO's method of managing systems, infrastructure and services shared by multiple airline tenants, concessionaires and other Airport partners. This policy gives SFO the greatest flexibility in managing its operations.

3. Policy on Control of Data and Digital Assets

- This policy acknowledges the value of SFO data and digital assets and mandates that SFO retains ownership and control its data and digital assets and that such data and digital assets be used exclusively for the benefit and protection of SFO. SFO data includes all internal metrics, measures, counts and information concerning any aspect of SFO property, facilities or operations. SFO digital assets include all outward-facing media including but not limited to SFO's Wi-Fi splash pages, social media outlets, and information display units (FIDs).

4. Policy on Control of International Air Service Marketing

- This policy recognizes SFO as the lead agency in all international aviation development programs undertaken in partnership with the San Francisco Chamber of Commerce, SF Travel, Bay Area Council and other organizations. This policy also provides for the use of SFO's digital media in providing incentives to air carriers.

5. Policy on Maintaining a Competitive Air Service Environment

- This policy underscores SFO's commitment to provide a level playing field for all air carriers in order to foster competitive air service choices and competitive air fares for the travelling public.

6. Policy on Controlling, Developing and Financing of Airport Assets

- SFO is committed to the control, development and financing of Airport assets and infrastructure to meet the changing needs of the aviation industry in the future. This policy outlines SFO's need, as a land-constrained entity, to manage its assets without resorting to public-private partnerships. The policy also ensures SFO reaps the greatest financial benefit of development on behalf of the City and County of San Francisco.

7. Policy on Partnering

- Collaborative, structured partnering in all development programs is key to SFO's successful delivery of its projects. This policy outlines the elevated role of integrating partnering into all of the airports business processes to influence the exceptional outcome of all Airport development projects.

1.2 SUMMARY

- A. This Section specifies the requirements for establishing a collaborative partnering process. The partnering process will assist the City and Contractor to develop a collaborative environment so that communication, coordination, and cooperation are the norm, and to encourage resolution of conflicts at the lowest responsible management level.
- B. The partnering process is not intended to have any legal significance or to be construed as denoting a legal relationship of agency, partnership, or joint venture between the City and Contractor.
- C. This Section does not supersede or modify any other provisions of the Contract, nor does it reduce or change the respective rights and duties of the City and Contractor under the Contract, nor supersede contractual procedures for the resolution of disputes.

1.3 PURPOSE/GOALS

- A. The goals of project partnering are to:
 1. Use early and regular communication with involved parties;
 2. Establish and maintain a relationship of shared trust, equity and commitment;
 3. Identify, quantify, and support attainment of mutual goals;

4. Develop strategies for using risk management concepts and identify potential project efficiencies;
5. Implement timely communication and decision-making;
6. Resolve potential problems at the lowest possible level to avoid negative impacts;
7. Hold periodic partnering workshops throughout the life of the contract to maintain the benefits of a partnered relationship;
8. Establish periodic joint evaluations of the partnering process and attainment of mutual goals.

1.4 DEFINITIONS

- A. Unless specifically defined in this Section 01 31 33, all terms have the same meaning as defined in Section 00 72 00, General Conditions.
- B. **Stakeholders:** Any person or entity that has a stake in the outcome of a construction project. Examples include the end users, neighbors, vendors, special interest groups, those who must maintain the facility, those providing funding, and those who own one or more of the systems.

PART 2 - PARTNERING PROCESS

2.1 SELECTION OF A FACILITATOR

- A. An Internal Facilitator or a Professional Neutral Facilitator shall be retained for projects with a Partnering Level of 1 through 3. A Professional Neutral Facilitator must be retained for projects with a Partnering Level of 4 or 5. The City and Contractor shall meet as soon as practicable after award of Contract to work cooperatively and in good faith to select a Facilitator.

- C. A Professional Neutral Facilitator must have the following qualifications:
 1. The Facilitator shall be trained in the recognized principles of partnering;
 2. The Facilitator shall have at least three (3) years' experience in partnering facilitation with a demonstrated track record, including public sector construction for a city or other municipal agency;
 3. The Facilitator shall have a skill set that may include construction management, negotiations, labor-management mediation, and/or human relations; and
 4. The Facilitator must be in the business of providing partnering services for construction projects.

workshop site costs, if any, and the describe the Facilitator's role for the Project consistent with the requirements of this Section. The scope of the Facilitator's role is for descriptive purposes only and is not a guarantee for payment as the scope of work will be revised as needed throughout the Project. The agreement shall be terminable at will.

- E. The Facilitator shall be evaluated by the Project Team: (1) at the end of the Kick-off Partnering Workshop; and (2) at the Project close-out partnering session.
- F. In the event that either Contractor or the City is not satisfied by the services provided by the Facilitator, a new mutually acceptable Facilitator shall be chosen in a reasonable amount of time in the same manner pursuant to Subparagraph A above, and a new agreement shall be executed by Contractor and the new Professional Neutral Facilitator pursuant to Subparagraph D above.

2.2 PARTNERING ELEMENTS

- A. All Partnering Levels require the following elements:
 - 1. **Executive Sponsorship.** Commitment to and support of the partnering process from the senior most levels of the City and Contractor organizations.
 - 2. **Collaborative Partnering.** A structured and scalable process made up of elements that develop and grow a culture (value system) of trust among the parties of a construction contract. Together, the combination of elements including the Partnering Charter, Executive Sponsorship, partnering workshops, an accountability tool for the Project Team (Scorecards), and the Facilitator create a collaborative atmosphere on each project.
 - 3. **Facilitator.** Depending on the Project's Partnering Level, the City and Contractor shall retain either an Internal Facilitator or a Professional Neutral Facilitator according to the process listed in subparagraph 2.1 above to lead workshops.
 - 4. **Partnering Charter and/or mission statement.** The City and Contractor shall create a Partnering Charter that is the guiding focus for the Project Team. It documents the team's vision and commitment to work openly and cooperatively together toward mutual success during the life of the Project. The Partnering Charter helps to maintain accountability and clarity of agreements made and allows for broader communication of the team's distinct goals and partnering process. At a minimum, the Partnering Charter must include the following elements:
 - (a) Mutual goals, including core project goals and may also include project-specific goals and mutually-supported individual goals. The required core project goals relate to project schedule, budget, quality, and safety.
 - (b) Partnering maintenance and close-out plan, including partnering session attendees and frequency of workshops.
 - (c) Dispute resolution plan that includes an Escalation Resolution Ladder.
 - (d) Team commitment statement and signatures.
 - 5. **Partnering Workshops.** At a minimum, the following two workshops are required:
 - (a) **Kick-off Partnering Workshop.** Within 45 days of NTP, the City and Contractor shall meet for the Kick-off Partnering Workshop; determine the workshop site and duration, and other administrative details. At the Kick-off Partnering Workshop, the City, Contractor, and Facilitator shall meet to

mutually develop a strategy for a successful partnering process and to develop their Partnering Charter.

- (b) **Close-out Partnering Workshop.** Prior to final closeout, the City and Contractor shall schedule the Close-out Partnering Workshop. At the Close-Out Partnering Workshop, the City, Contractor, and Facilitator, shall meet to discuss lessons learned throughout the Project, focus on ensuring continued collaboration and cooperation through the end of the Project, and to discuss requirements for the close-out process. At the conclusion of the workshop, a summary of the lessons learned should be prepared to be distributed to the Project Team. The City and Contractor shall also evaluate the Facilitator.

The Project Team may participate in additional workshops during the life of the Project as they agree is necessary and appropriate. Each workshop is a formalized meeting focused on developing a collaborative culture among the Project Team. The Project Team will use these workshops to set Project goals, define Project commitments, attend joint training sessions, and perform other tasks.

- 6. **Multi-tiered Partnering (Core Team – Executive – Stakeholder).** The Partnering Team will divide into smaller groups and convene multiple workshops including a Core Team Workshop, an Executive Workshop, and a Stakeholder Workshop.

- (a) **Core Team Workshop.** The Core Team is made up of Project Team members who are a part of the Project for its duration, including the following (not in order of hierarchy):

City:	Contractor:
Resident Engineer	Building Superintendent
Project Manager	Project Executive
Construction Manager	Jobsite Supervisor
Engineer, Architect	Project Engineer
Division Manager	Subcontractors
Construction Engineer	Key suppliers
Inspectors	Senior Management (e.g. Area Manager, Operations Manager, VP, President, Owner)
Client Department representative	
Critical third parties: stakeholders, other agencies, utilities, etc., or anyone who could potentially stop or delay the project.	

- (b) **Executive Workshop.** The senior leaders of the City and Contractor may form a Project Board of Directors. The Project Board of Directors is charged with steering the project to success.
- (c) **Stakeholder Workshop.** As the Project progresses, various systems and processes will be the focus. The Stakeholder Workshop is a meeting of the key stakeholder groups, made up of Stakeholders that are involved in the current focus of the systems or processes.
- (d) **Special Task Forces.** The Project Team may task a subset of its members to work on a particular issue or opportunity for the good of the overall project.

7. **Escalation Resolution Ladder.** The City and Contractor shall mutually develop an Escalation Resolution Ladder, which is a stepped process that formalizes the negotiation between the Parties. The intent of this ladder is to provide a process that elevates issues up the chain of command between the Parties. The objective is to resolve issues at the lowest practical level and to not allow individual project issues to disrupt project momentum. When an issue is escalated one level, it is expected that a special meeting focusing on the negotiated settlement for that issue will be called with the goal of settling as quickly as possible.

Sample Escalation Resolution Ladder:

Level	Awarding City Department	Contractor	Time to Elevate
I	Inspector or Resident Engineer	Foreman/ Superintendent	1 day
II	Project Manager	Project Manager	1 week
III	Program Manager	Area Manager	1 week
IV	Division Manager	Operations Manager	2 weeks
V	Deputy Department Director	Owner, President	2 weeks

8. **Project Scorecards.** The City and Contractor shall participate in periodic partnering evaluation surveys to measure progress on mutual goals and short-term key issues as they arise. Project Scorecards are an accountability tool that allows the City and the Contractor to measure how well they are doing at following through on commitments made to one another. Typically the Project Scorecards are confidential surveys prepared and submitted to the Project Team by the Facilitator. The Facilitator typically then compiles the responses into a report which is then sent out to the Project Team for review.

Funding Source: Capital Funds PSC Duration: 5 years 1 day

1. Description of Work

A. Scope of Work:

Project Management Support Services (PMSS) and Design-Build (DB) service teams with airport design and management expertise are required to manage the design and construction of the Terminal 2 (T2) to Terminal 3 (T3) Secure Connector Project (Project). Services to be provided include project controls, scheduling, document control, design management, contracts management, architectural and engineering design services, and construction of the project. The scope of work of this Project includes, 1) the design and construction of a new, elevated, secure connector for passengers to efficiently and securely connect between T2 and T3, and 2) an associated building addition that will provide additional square footage for passenger amenities, lounge areas, and airline or other tenant office space. To accommodate the new building addition, the Project will relocate the Airport's Emergency Operations Center and Communication Center. Both are critical to safe and secure airport operations and neither can be out of service for any period of time. Relocation of these facilities includes complex infrastructure modifications and specialized handling of equipment. Additionally, work related to airport security systems, airfield geometry and aircraft systems will be required for the new build out and this Project will facilitate systems connections and the future installation of new baggage handling system transfer line between the terminals. Sustainable growth and continuing the San Francisco International Airport (Airport) leadership in the

B. Explain why this service is necessary and the consequence of denial:

As a result of the significant passenger growth and forecasted demand, the Airport will build a new secure connector between T2 and T3 to provide greater flexibility for gates use and to improve the passenger experience, as well as, creating new square footage to meet airline and airport needs. Additionally, relocation of the Emergency Operations Center and Communication Center are highly sensitive activities. Any interruption to these facilities would have major impacts to operations throughout the Airport.

If the services for this project are denied, the project will be delayed, resulting in loss of revenue by not having gate flexibility, decreased level of service to passengers that need to go through security more than once for

C. Has this service been provided in the past. If so, how? If the service was provided via a PSC, provide the most recently approved PSC # and upload a copy of the PSC. This is a new service.

D. Will the contract(s) be renewed? Yes, if there continues to be a need for such services at the Airport.

B. Which, if any, civil service class(es) normally perform(s) this work?

C. Will contractor provide facilities and/or equipment not currently possessed by the City? If yes, explain:

Yes, the contractor will provide all construction equipment to build the project and will also provide construction office space for project team.

4. Why Classified Civil Service Cannot Perform

A. Explain why civil service classes are not applicable:

The existing Civil Service classifications do not have the required expertise and specialized skills necessary for the development, management, design and construction of a large-scale airport facility project. Knowledge of various airport systems, airline operations, baggage handling system components, passenger processing security and TSA requirements, airfield geometry, fuel hydrant systems, aircraft systems and operations, and construction management in an active airport environment are necessary. Relevant experience in maintaining critical airport

B. Would it be practical to adopt a new civil service class to perform this work? Explain.

No, it would not be practical to adopt a new civil service class to perform this work because an Airport facility project of this scope and scale does not occur frequently enough to justify permanent staffing. Once the project is completed, specialized services will not be required.

Joint venture partners are encouraged to meet with CMD regarding their joint venture prior to submitting their proposal.

The rating bonus is awarded based on the Small and/or Micro-LBE JV partner tasks calculated as a percentage of the total JV partner tasks.

Joint Venture partners may be in different industries provided that each joint venture partner meets the minimum qualifications in the bid or proposal, and each is acting as a prime. The LBE joint venture partner must perform Prime Level Work and be CMD certified for the scope of work they are proposing to perform in order to be eligible for the rating bonus. "Prime Level Work" means any portion of work that is listed in the prime's minimum qualification section in the RFQ/RFP. Joint ventures receive rating bonuses depending upon the LBE percentage of prime level participation as set forth in Section 14B.7(F). Note that any supportive/subconsulting level work will not be counted towards the eligibility for the joint venture rating bonus.

In the event that the actual contributions of human resources by the Parties vary from the proportions set forth above by more than five (5) percentage points, the division of net profits or net losses shall be subject to review and reconsideration by the Parties. For purposes of measuring such contributions of effort, the index shall be the respective cost of the sum of wages and salaries of eligible personnel, and the related overhead allowance of each of the Parties under the Contract. Every six (6) months, the Board shall endeavor to immediately correct imbalances on the prospective cumulative basis so that the Participation Percentages at the completion of the Contract reflect the percentages indicated above.

In addition, the Joint Venture shall pay to Wong in accordance with the Parties' percentage interests the costs directly associated with maintenance of the Joint Venture books of account, as required by Article NINETEENTH, including wages and salaries of accounting personnel, and related direct expenses, and an allowance for fringe benefits. The Joint Venture shall not borrow money except upon the prior consent of each Party. It is the intent of each of the Parties to furnish a share of the personnel required for the performance of the Contract in proportion to the percentage interests of the Parties as set forth in Article NINTH. It is agreed that such share of competent professional and/or technical personnel is generally defined as the personnel required by the scope and schedule of the SERVICES of the Contract divided among the Parties.

It is proposed to subcontract certain portions of the SERVICES included in the Contract. All such subcontracting shall be determined by the Board and as set forth in Article NINTH.

The Project Manager shall issue a semi-annual report to the Board which will contain the percentage of SERVICES completed to date; the names of the personnel assigned to the Project; the hours they have worked in that time period; the total accumulated hours to date; and the total budgeted for the phase and task that is being reported. - (b) All direct expenses of each Party which shall include monies expended in connection with the SERVICES and reimbursable under the terms of the Contract; and
- (c) Overhead allowance, including fringe benefits of each Party, which shall be equal to the then-current basis of billings established from time-to-time under the terms of the Contract.

In the event of disallowance by the Client of any invoiced costs submitted by either Party, the applicable invoice shall thereupon be reduced, and the amount paid or to be paid appropriately adjusted to reflect such disallowance. Similarly, should payments made by the Client to the Joint Venture require later adjustment upward or downward as a result of audit, such adjustments shall be passed on to the respective Party or Parties whose past billings are the subject of such adjustment.

In addition, when either Party expends monies beyond those included hereinabove for the benefit of the Joint Venture and with the prior approval of the Board, such sums shall also be billed to the Joint Venture at cost, as hereinafter defined:

- (a) Costs paid or incurred under the established policies of Wong, CF Wright or Avila which are excessive of the limits for eligibility for reimbursement under the Contract subject to the prior approval of the Board;
- (b) Costs paid or incurred by each Party in direct support of the Joint Venture including the wages and salaries and fringe benefits of personnel not eligible for reimbursement under the Contract, while such personnel are assigned to the Joint Venture subject to the prior approval of the Board;
- (c) Costs paid or incurred by Wong directly associated with maintenance of the Joint Venture books of account as set forth in Article NINTH; and
- (d) Other costs paid or incurred by each Party following the prior approval of the Board. When costs are paid or incurred by each Party for the benefit of the Joint Venture and such costs are not eligible for reimbursement under the Contract, these costs shall be invoiced to the Joint Venture and shall remain on the books of the Joint Venture and be included in any accounting of net profits or net losses, except as provided in Article SEVENTEENTH.

TWENTY-FOURTH: VIOLATION OF AGREEMENT

If any Party should materially violate any provisions of this Agreement, then the other Party may terminate this Joint Venture in the manner subject to the conditions hereinafter set forth. Said other or complaining Party shall first give the violating Party a written notice of the provisions alleged to have been violated, and thereupon the violating Party shall either defend or correct the violation within fifteen (15) days after receipt of said notice, or shall give to the complaining Party a written denial of such alleged violation within fifteen (15) days after receipt of such notice; and if the violating Party shall fail either to correct the violation complained of or to send such written denial of the violation within the time specified above, then the complaining Party may, within fifteen (15) days after the time to defend or correct the violation or to send such written denial has expired, subject the matter to mediation pursuant to Article TWENTY-NINTH herein. Likewise, if the violating Party shall send the complaining Party a written denial of the alleged violation as hereinabove provided, then the complaining Party may within fifteen (15) days after receipt of such written denial, submit the matter to mediation pursuant to Article TWENTY-NINTH herein.

Whenever the complaining Party shall elect to terminate the Joint Venture pursuant to any provision of this Article, such Party shall simultaneously with sending its written notice of intention to terminate to the violating Party also send a written request to the Client for its approval of such termination on the date as stated in the notice of termination sent to the violating Party.

Upon the termination of the Joint Venture pursuant to any provision of this Article, the Parties shall have the rights and benefits and shall be subject to the liabilities set forth in Article TWENTY-EIGHTH of this Agreement.

The termination of the Joint Venture by reason of a violation of this Agreement shall not be the sole remedy of the complaining Party, but shall be in addition to any other remedy to which such complaining Party may be entitled under law.

Notwithstanding the above, the project manager shall see that the SERVICES under the Contract are continued without interruption pending the resolution of the issues of material violation.

TWENTY-FIFTH: DISSOLUTION OR BANKRUPTCY OF A PARTY

In the event of bankruptcy, dissolution, or insolvency of any of the Parties, the Joint Venture shall immediately upon the occurrence thereof cease and terminate. Thereafter, the successor, receiver, trustee, or other legal representative (hereinafter called "Representative") of the affected Party shall cease to have any interest in and to the Joint Venture or the assets thereof. In any case, the remaining Parties shall have the right to continue the affairs of the Joint Venture and, in that connection, to carry out and complete the performance of the Contract. Upon such completion or sooner termination of the Contract, and receipt of payment of all amounts due under the Contract, the remaining Parties shall account to the affected Party, or to its Representative, and the affected Party or its Representative shall then be entitled to receive from the remaining Parties an amount equal to the sums advanced by or for the account of the affected Party, less the affected Party's proportionate share of the losses and plus the affected Party's proportionate share of any profits resulting from the performance of the Contract to the date of such termination of the Joint Venture; provided that, if the amount of the affected Party's proportionate share of the losses exceeds the sum advanced by or for the account of the affected Party, the amount of such excess shall be paid by the affected Party or its Representative to the remaining Parties, and provided further that, the profit or loss computed as of the time of such termination shall be in the same proportion to the whole profit or loss resulting from the performance of the Contract as the amount of SERVICES performed there under at such time bears to all of the SERVICES which are to be performed there under. The books of the Joint Venture shall be conclusive in establishing whether a profit has been realized or a loss sustained, the amount thereof, and the proportionate amount of the SERVICES performed as of any given time or date.

In any case of default, the defaulting Party shall immediately, subject to the concurrence of the Client, turn over to the remaining Parties all plans, drawings, studies, and other documents relating to the Contract which it has on hand or subject to its control, whether prepared by the affected Party for its own use, or by others, so as to permit the remaining Parties to use these documents to continue the Contract.

TWENTY-SIXTH: JOINT VENTURE TENURE

This Agreement extends only to the performance of the Contract with the Client, including any amendments thereto, and upon completion thereof the Joint Venture shall cease and terminate. In the event negotiations related to the Contract terminate without reasonable probability of resumption or the Contract fails to be approved by the Client and such Contract is therefore never entered into, the Joint Venture shall cease and terminate.
