Re: **APPEAL OF APPROVAL OF TENTATIVE/PARCEL MAP FOR 1171
SANSOME STREET, BLOCK 0113, LOT 40**

Dear President Chiu and Clerk of the Board:

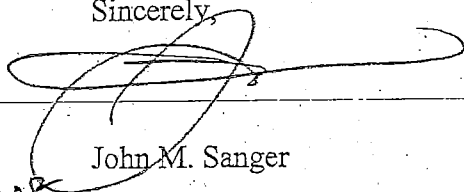

I and Catherine Sanger are the owners of the property located at 36 through 52 Calhoun Terrace located within 300 feet of the property located at 1171 Sansome Street, San Francisco, California, Block 0113, Lot 40 (the "Property"). We, along with our neighbors, David Davies of 66 Calhoun Terrace and Jack Weeden of 76 Calhoun Terrace, both of whom also live within 300 feet of the Property, are hereby appealing the decision of the County Surveyor approving the tentative/parcel map for the Property.

Enclosed, please find a check in the amount of \$284.00, made payable to "Department of Public Works" as required by Section 1315 of the San Francisco Subdivision Code.

The grounds for the appeal are significant, and include, but are not limited to, violations of Article 3, Section 1313 (Notice), Article 4, Section 1323 (Documents), Section 1328 (Subdivision Conference), Article 5 (Subdivision Requirements) of the Subdivision Code, Article 1.7 of the Planning Code and violations of the California Environmental Quality Act (CEQA).

Please notify me and the other interested parties named above at the address listed above when the Board of Supervisors has scheduled the Appeal hearing in accordance with the local requirements.

Sincerely,

FOR
John M. Sanger

PROJECT DESCRIPTION:

The project site is an undeveloped, steeply-sloping lot located on the west side of Sansome Street on the block bounded by Green Street, Calhoun Terrace, Sansome Street, and Union Street in the North Beach neighborhood. The proposed project involves the subdivision of the existing lot resulting in a 3,300-square-foot parcel (Parcel A) and a 9,300-square-foot parcel (Parcel B). Construction is not proposed as part of this project. Parcel A is located in the southwest corner of the lot fronting on Sansome Street and would be retained by the owners for future development, while Parcel B, which would be "L-shaped" with frontages on both Sansome Street and Calhoun Terrace, is being proposed for donation to a non-profit organization to be preserved in its natural state. The project site is located within the Northeastern Waterfront Historic District. The proposed subdivision would result in two lots which would both meet Planning Code requirements for minimum lot size of 2,500 square feet. The proposed project would require a subdivision permit from the Planning Department, the Department of Building Inspection, and the Department of Public Works.

REMARKS (continued):

The project site is located on the eastern portion of Telegraph Hill and has a slope downwards of up to approximately 65%. The topography of the project site is the result of past quarrying activities, adjacent dwelling and roadway improvements, and downslope movement. The elevation of the existing grade varies from about 180 feet to 25 feet. There have been various formal development proposals at the project site. In 1982, a 12-story office/residential complex along Sansome Street was proposed. In 1995, the current project sponsor proposed to split Lot 40 into three lots. Townhouse units were proposed on Sansome Street while a residential structure was proposed on Calhoun Terrace. There have been extensive geotechnical and geological investigations and reports, both individually and collectively, on the project site. There is sufficient evidence to support the "buildability" of the lot, especially for the proposed Parcel A. As noted above in the project description, the current application is only for a subdivision and no construction is proposed at this time. The fact that there have been a number of past proposals for the site is not relevant to the current project.

The proposed project would not result in any physical activity on the subject lot, and as such, would have no impact on land use, visual quality, transportation, population, air quality, noise, biological resources, cultural resources, geology, hydrology, and hazardous materials. Any future construction on the project site would require additional planning review and a building permit. The proposed project is covered by the general rule that the California Environmental Quality Act (CEQA) applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA.

Geotechnical Investigation: Trans Pacific Geotechnical Consultants completed a geotechnical investigation and geotechnical consultation report for the subject lot and surrounding vicinity, and the conclusions of that report are summarized below.¹ The scope of the report included a review of the available geologic, geotechnical, and structural reports and plans for the site. In 1995, the project sponsor proposed to split Lot 40 into three lots: two lots on the eastern (Sansome Street) portion and one lot adjacent to the Calhoun Terrace right-of-way. Townhouse units were proposed on the Sansome Street lots and a residential structure was proposed for the upper lot. According to Trans Pacific's report, there is no evidence of global instability for the site, and the proposed lot split along with the proposed development in 1995 for a residence on the upper slope and a townhouse and/or office building on the lower slope would be feasible, provided appropriate mitigation measures were undertaken to control water infiltration, and to perform rock/soil stabilization by anchor bolts and netting. The report further stated that the lower portion of the lot fronting on Sansome Street could be developed using fairly conventional excavation and shoring construction.

As noted in the current project description, construction is not proposed, and therefore, mitigation measures are not required. If construction is proposed, environmental review would be required.

¹ Trans Pacific Geotechnical Consultants, "Geological Investigation and Geotechnical Consultation Report, Proposed Lot Split, Lot 40, Assessor's Block 113," August 3, 2002. This report is available for review at the San Francisco Planning Department, 1650 Mission Street, Suite 400, in project file No. 2008.0154E.

On December 18, 2008, the Department of Building Inspection (DBI) approved Trans Pacific's 2002 geotechnical report and their subsequent 2008 geotechnical update.^{2,3} This memorandum from DBI stated that the proposed subdivision is developable with respect to the San Francisco Building Code, and that DBI recommends to the Division of Subdivision and Mapping of the Department of Public Works to approve the Tentative/Preliminary Map to subdivide the vacant lot in the proposed subdivision map.

If and when construction is proposed at the project site, the final building plans would be reviewed by DBI. In reviewing building plans, DBI refers to a variety of information sources to determine existing hazards and assess requirements for mitigation. Sources reviewed include maps of Special Geologic Study Areas and known landslide areas in San Francisco as well as the building inspectors' working knowledge of areas of special geologic concern. Potential geologic hazards would be mitigated during the permit review process through these measures. To ensure compliance with all *Building Code* provisions regarding structure safety, when DBI reviews the geotechnical report and building plans for a proposed project, they will determine the adequacy of necessary engineering and design features. Past geological and geotechnical investigations would be available for use by DBI during its review of building permits for the site. Also, DBI could require that additional site-specific soils report(s) be prepared in conjunction with permit applications, as needed. Therefore, potential damage to structures from geologic hazards on the project site and adjacent to the project site would be mitigated through DBI's requirement for a geotechnical report and review of the building permit application pursuant to DBI implementation of the Building Code.

Exempt Status

CEQA Guidelines Section 15061(b)(3) establishes the general rule that CEQA applies only to projects that have the potential for causing a significant effect on the environment. Since the project meets the conditions of CEQA Guidelines Sections 15061(b)(3), exemption from environmental review is appropriate, as it can be seen with certainty that the proposed subdivision would not have a significant impact on the environment. There are no aspects of the project that would result in a significant environmental effect.

Neighborhood Concerns

A "Notification of Project Receiving Environmental Review" was mailed on December 2, 2009 to the owners and occupants of properties adjacent to the project site and interested parties. One member of the public expressed their concerns regarding the likelihood of the project sponsor finding a willing nonprofit for the proposed "L-shaped" lot, and that environmental review of the proposed subdivision is required based on previous Department determinations in 1998. The likelihood or unlikelihood of finding a nonprofit agency to take the "L-shaped" lot does not represent unusual circumstances that

² Memorandum from Willy Yau, Plan Check Division, Department of Building Inspection, to Bruce Storrs, Division of Subdivision and Mapping, Department of Public Works, December 16, 2008. This memorandum is available for review at the San Francisco Planning Department, 1650 Mission Street, Suite 400, in project file No. 2008.0154E.

³ Trans Pacific Geotechnical Consultants, "Geological and Geotechnical Consultation, Proposed Lot Split, Lot 40, Assessor's Block 113," December 2, 2008. This report is available for review at the San Francisco Planning Department, 1650 Mission Street, Suite 400, in project file No. 2008.0154E.

would cause the proposed subdivision to have a significant effect on the environment. Furthermore, the subdivision of a steeply-sloping lot is not unusual considering the topography of San Francisco. The proposed subdivision meets the requirements for a General Rule Exclusion and is exempt from CEQA. If construction is proposed at a later time, environmental review would be required.

Conclusion

As noted above, the project does not propose construction activities. It can be seen with certainty that there is no possibility that the lot subdivision may have a significant effect on the environment. Therefore, this activity is not subject to CEQA.

In response to the above referenced application for a policy of title insurance, OLD REPUBLIC TITLE COMPANY hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, conditions and Stipulations of said policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said Policy or Policies are set forth in Exhibit A attached. Limitations on Covered Risks applicable to the Homeowner's Policy of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the Policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

**AMERICAN LAND TITLE ASSOCIATION
LOAN POLICY OF TITLE INSURANCE - 2006
EXCLUSIONS FROM COVERAGE**

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
 - (i) the occupancy, use, or enjoyment of the Land;
 - (ii) the character, dimensions, or location of any improvement erected on the Land;
 - (iii) the subdivision of land; or
 - (iv) environmental protection; or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
- (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
3. Defects, liens, encumbrances, adverse claims, or other matters
 - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
 - (b) not known to the Company, not recorded in the Public Records at Date of Policy, but known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
 - (c) resulting in no loss or damage to the Insured Claimant;
 - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14); or
 - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
 - (a) a fraudulent conveyance or fraudulent transfer, or
 - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

EXCEPTIONS FROM COVERAGE — SCHEDULE B, PART 1, SECTION ONE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

1. (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
