***Subject: Letter of Support Affirming SF Planning's Department's Approval of
Final Mitigated Negative Declaration for 570 Market Street***

The Downtown SF Partnership (DSFP), the community benefit district providing place management and placemaking services for 43-blocks of San Francisco's Financial District and Jackson Square Historic District, strongly support SF Planning's Departments recommendation for approving a final mitigated negative declaration for the proposed infill project at 570 Market Street.

Downtown San Francisco's economic recovery is still precarious. However, "green shoot" projects like this hotel project signal renewed investor and visitor confidence in downtown's resurgence. The proposed hotel's high-quality design, thoughtful use of materials, sensitive scale, and setbacks, along with the addition of a new 2,300 square-foot landscaped POPOS, will contribute to a more vibrant and amenitized downtown experience.

As stewards for the Financial District's cleanliness, safety, and vitality, we support this type of high-quality, mixed-use, infill development. The project adds to downtown's building scale along Market Street and is a compliment to downtown's traditional urban fabric and the area's surrounding scale and size considerations as detailed in the San Francisco Downtown General Plan (a.k.a. the "Downtown Plan").

We are proud to support the infill project at 570 Market as a meaningful step in the ongoing reimagining of downtown San Francisco.

Sincerely,

Robbie Silver
CEO & President

RE: Opposition to Appeal and Support for the proposed 570 Market Street Hotel Development

Dear President Rafael Mandelman and members of the San Francisco Board of Supervisors:

The members of Nor Cal Carpenters Union Local 22 in San Francisco and surrounding Bay Area strongly support Frontier Group's proposed hotel development located at 570 Market Street. Carpenters Local Union 22 was initially chartered in 1882 and has been an integral part of San Francisco culture, community, and the construction of this beautiful city for over a century. The proposed development at 570 Market Street has the potential to create severely needed Union construction jobs that pay area standard wages and benefits and provide opportunity for local apprentices, including women and minorities, to begin or continue their career in the construction industry. Approval of the proposed development at 570 Market Street has the potential to be a win for the community, the city and labor.

San Francisco has long been an international destination for business and leisure. This project has been in the pipeline since 2019 and underwent a multi-year design and environmental review process. As hotel occupancy continues to grow year over year because of increased travel and convention activity, 570 Market Street is positioned to take advantage of this potential growth. Situated directly above Montgomery BART Station, the building location has convenient access to public transportation, nearby offices, conventions and tourist destinations.

Right now, we are emerging from a global pandemic and a significant downturn in the economy. Construction is the second largest industry in the world, behind healthcare. It is important that we support projects like 570 Market Street because they exist as examples of how development can support labor during construction and operation. Nor Cal Carpenters Union Local 22 is excited and honored to participate in San Francisco's economic recovery. Support for the proposed development at 570 Market Street is a vote of confidence in San Francisco's recovery and we ask that the Board deny this appeal.

Thank you for your time and service in moving this project forward.

Sincerely,

Daniel Gregg
