Existing Law

Police Code Article 16 and Health Code Article 33 govern the regulation of commercial cannabis. Existing law defines an owner as an individual participating in the direction, control, or management of the entity applying for a Cannabis Business permit and does not define ownership interest. Existing law establishes an Equity Program in which Equity Incubators can apply for a permit provided that they agree to assist or "incubate" Equity Applicants. Existing law authorizes the Director of the Office of Cannabis ("Director") to issue Temporary Cannabis Permits. Existing law prescribes the order in which the Director may review and process Cannabis Business Permit applications, defines the application requirements, defines the conditions under which a change in ownership requires a permit amendment, defines the amount of Cannabis that may be delivered or sold, authorizes storefront and delivery sales, and defines the requirements to operate a Cannabis Microbusiness. Finally, existing law defines the date on which Article 33, which regulates Medicinal Cannabis, expires.

Amendments to Current Law

This ordinance amends the Police and Health Codes by defining ownership interest and revising Equity Applicant criteria, for purposes of the Equity Program, modifying the Cannabis Equity Incubator Program requirements, extending by one year the possible duration of a Temporary Cannabis Permit; authorizing the Director to issue Cannabis Business Permits to Medical Cannabis Dispensaries forced to discontinue operations due to a no fault lease termination, modifying the order in which the Director may review and process Cannabis Business Permit applications, revising requirements associated with a Cannabis Business' change in ownership and structure, revising Cannabis Business Permit application requirements, clarifying that Cannabis Businesses must comply with all permit conditions whether or not they are currently engaging in the permitted activity, modifying the amount of Cannabis that may be delivered or sold, authorizing Cannabis Microbusinesses to conduct either storefront or delivery sales, but not both, and reducing from four to three the categories of Commercial activity required to operate as a Cannabis Microbusiness. In addition, the proposed ordinance revises the eligibility requirements for medical cannabis dispensaries seeking authorization to Sell Adult Use Cannabis. Finally, this ordinance extends by one year the date on which Article 33 expires by law.
