The City and County of San Francisco (CCSF) and the San Francisco Fire Department (SFFD) protects collectively almost 500 National, State and City Designated Historical Landmarks and over a thousand critical infrastructure to include but not limited to major sports arenas, regional postal facilities, reservoirs, water treatment facilities, under bay fuel transmission lines, power and energy grids, educational (129 schools, 27 colleges/universities) and, medical (14 hospitals) facilities, research, and financial institutions including a Federal Reserve Bank. The City owns and operates several vital facilities (airport, hospital, recreation, police and fire facilities), critical infrastructure and delivery systems (water and power stations), located outside county limits. San Francisco, a natural peninsula surrounded by water on three sides, has two major bridges, the San Francisco-Oakland Bay Bridge and the Golden Gate Bridge. While the current pandemic has reduced traffic and commuter volume, the city has returned to historical daily commuter rates of roughly 456,000 vehicles and local, Bay Area Region and State-wide public transportation ridership is resuming, both contributing to the cities traditional daily population numbers of over one and a half million people on any given day. Additionally, the Port of San Francisco, oversees a cruise ship terminal, which has resumed operations post pandemic and hosts over 80 cruise ship calls and 300,000 passengers annually. The City's 47.355 square mileage is geographically circuitous and includes the Golden Gate National Recreation Area, Treasure/Yerba Buena Island, parts of Angel Island and the San Francisco International Airport. Meanwhile, San Francisco's infrastructure is distinctively susceptible to fire with approximately 48,000 Victorian houses built before 1915 primarily constructed of wood, 380,971 housing units, and a growing downtown with 72 high-rises and 26 skyscrapers. Additionally, the City's location makes it subject to the effects of weather and seismic related incidents such as earthquakes, tsunamis, strong sea winds, annual storms that combined with years of consistent drought and the increased heating effects of climate change have, contributed to recent power outages, road and bridge hazards, and urban and wildland fires. San Francisco is one of the top seven Tier1 Urban Area Ranking cities by the U.S. Department of Homeland Security, meaning if any critical infrastructure were damaged or destroyed within the San Francisco city limits, it would inflict catastrophic consequences on the city and regional populations. The SFFD collaborates with multiple partners and the

neighboring counties to receive and provide mutual aid response to mitigate the destructive effects of natural disasters, urban conflagration, and human-caused hazards.

Do you currently report to the National Fire Incident Reporting System (NFIRS)? You will be required to report to NFIRS for the entire period of the grant.

Describe your financial need and how consistent it is with the intent of the AFG Program. Include details describing your organization's financial distress such as summarizing budget constraints, unsuccessful attempts to secure other funding, and proving the financial distress is out of your control.

The COVID pandemic has made an already challenging fiscal environment for the SFFD's budget ripe for further deterioration. Financial losses associated with the COVID pandemic have been stark and immediate across the City, and the level of uncertainty in acquiring adequate business and other city and county tax revenues to meet rising expenditures is historically high. The City and County of San Francisco has been forced to rely on Federal relief funds to maintain many day-to-day operations to include essential equipment, supplies and training. Financial recovery from the pandemic over the last three years has been slow and bumpy, and is expected to be a long and arduous process over the next five to ten years. Over the next two fiscal years, the City is projecting a \$728 million budget deficit, and as a result, the Mayor has requested a 5% reduction of city department/agency reliance on city general funds (city and county tax and revenue generated funds) to address the current fiscal year deficit. Given these fiscal realities, the SFFD is not anticipating being able to fund the replacement of critical Personal Protection Equipment (PPE) without supplemental funding. As the City continues to grapple with increased challenges of the COVID response and other fiscally taxing events, funding for these expenditures is increasingly harder to come by at a time when they are needed most given the dangers of the COVID virus, the state's drought status and susceptibility to wildfires and climate change driven natural disaster. With these constraints, these non-salary initiatives will be nearly impossible to implement using general fund allocations. Furthermore, the SFFD

has worked within the last three years to decrease its reliance on city and county general funds and increase grant funding to support the acquisition of required, mandated, and needed equipment, training and supplies, though the implementation of a strategic grant and budget committee. This committee includes oversight from our Diversity Inclusion and Equity Office and our Hazard Mitigation Committee to identify the SFFD's priority needs, strategic projects, aligned grant funding opportunities, ensuring that the SFFD seeks funding to meet priority needs while also meeting DEI and climate change mandates, initiatives, and policies. While we are making some gradual process in our attempts to increase revenue streams, the needs of the SFFD remain urgent and underfunded, therefore the SFFD requests funding from the FEMA AFG program to protect our members and community now and in the near future.

In cases of demonstrated economic hardship, and upon the request of the grant applicant, the FEMA Administrator may grant an Economic Hardship Waiver. Is it your organization's intent to apply for an Economic Hardship Waiver?

No

Other funding sources

This fiscal year, are you receiving Federal funding from any other grant program for the same purpose for which you are applying for this grant?

No

This fiscal year, are you receiving Federal funding from any other grant program regardless of purpose?

Yes

Please provide an explanation for other funding sources in the space provided below.

This last fiscal year the SFFD received federal funding awards, from FEMA's; AFG and SAFER grant programs as well as awards from the Department of Homeland Security (DHS); Port Security Grant Program (PSGP), and Bay Area Urban Areas Security Initiative (UASI). Several of these awarded funds will be utilized this fiscal year. The SFFD also has cooperative agreements with the United States Navy and National Park Service to receive funds for providing services.

Is your department facing a new risk, expanding service to a new area, or experiencing an increased call volume? **Yes**

Please explain how your department is facing a new risk, expanding service to a new area, or experiencing an increased call volume.

The Department has faced an annual increase in total call volume over the past decade with a noted overall 10% increase in incidents over the last three years to include medical emergency, traffic accident, substance overdose, mental health crisis, and violent incident related calls. Additionally, call volume over the last three years has increased dramatically in specific categories such as Rescue & Emergency Medical Service Incidents, Hazardous Conditions (no fire), Severe Weather and Natural Disaster, NFIRS Series 100 Structure Fires, Motor Vehicle Accidents and NFIRS Series 300 Extrications from Vehicle calls. In 2022, the department's Community Paramedicine Response Teams responded to 7,898 calls for rescue and emergency medical services. These teams routinely respond to the needs of the cities most vulnerable and underserved communities to include but not limited to those experiencing homelessness, mental health crisis, health disparities associated with substance use, abuse and overdose. The San Francisco Fire Department (SFFD) expects to see a continued increase in San Francisco based call volume and regional mutual aid assistance requests in review of internal call volume data analysis and external expert science-health based studies over the last 10 years. This analysis clearly predicts a near future in which SFFD first responders must be ready and equipt to respond to the magnitude of calls from those experiencing continued communicable disease outbreaks, surges in health disparities particularly in low-income, elderly and racially marginalized communities, increases in mental health distress and substance abuse across all socio-economic communities, climate changes affects on the magnitude, frequency and range of wildfires, flooding and extreme weather patterns, natural and anthropogenic hazards affects on vital resources (water, air and soil pollution/contamination) and food, equipment and supply chain disruptions.

Please describe your organization and/or community that you serve.

The City and County of San Francisco is ranked as one of the top 100 most densely populated major cities and 58th largest populated county in the United States, with the US Census reporting a total estimated residential county population of 881,549, increasing dramatically on any given day, with the influx of commuters and tourists, despite current pandemic stay at home mandates. According to the most recently reported US Census Bureau estimates, San Francisco County's population's racial demographic makeup was 46.4% White, 34.4% Asian, 7.7% Unknown Race, 5.2% Black/African American, 5.6% from two or more races, 0.4% Native Hawaiian-Pacific Islander, 0.4% Native American/Alaskan Native. Additionally, census data further illustrates the cultural and ethnic diversity within the city with 15.2% of the population identify as Latinx (regardless of race) and an estimated 163 languages spoken at home by residents. Meanwhile, the city's 47.355 square mileage is geographically circuitous, and the city's topography is difficult to maneuver with old and narrow streets and over 50 hills from 100 to 927 feet within its city limits. San Francisco's infrastructure is distinctively susceptible to fire with approximately 380,971 housing units, 48,000 historic wood houses, and a growing downtown with 72 high-rises and 26 skyscrapers. Recently, the State of California has certified the city and county of San Francisco's new housing plan, which calls for the creation of over 82,000 homes – more than tripling the city's decades long, annual housing production

average. Recognizing the City's current, unique and forthcoming fire suppression and emergency medical service needs, the SFFD has in its ranks approximately 1,165 Firefighting and Emergency Medical Personnel and a fleet of 44 Engines, 20 Trucks, 40 ambulances, divided into two Divisions, with ten Battalion Districts and 44 stations located throughout the city, and fortified with specialty units including: 2 Heavy Rescue Squads, 2 Coastal Rescue units (Cliff & Surf), 1 Rescue Boat, 2 Rescue Water Craft, 3 Fireboats, a Mobile Command Vehicle, 2 Multi-Casualty Units, a Hazardous Materials Unit, a CO2 unit, and a Mobile Air Unit. The SFFD responded to 303,293 calls for service last year, and provided the public with; 1) emergency medical services, fire suppression, and specialized unit deployment in times of emergency, 2) Fire prevention code enforcement, investigation and inspection programs minimizing loss of life and property, 3) emergency planning and community disaster response coordination, to ensure the protection of thousands of lives should a large-scale disaster occur, and 4) community outreach to promote community health and fire safety. In the last three years, the SFFD and its community of residents, citizens and visitors faced the unprecedented challenges of the COVID pandemic health crisis, regional wildfires, multiple 4 and 5 alarm infrastructure fires and the fatality of a member in the line of duty. Despite these challenges and their test to the fortitude of various city infrastructure and the departments aging equipment, the men and women who serve through the SFFD are unfailingly ready to respond to any type of crisis at any time. Chief Jeanine Nicholson, the 26th Fire Chief of San Francisco continues to strategically lead a strong team focused on strengthening the SFFD's service model while increasing the Departments fiscal capacity to acquire and utilize the critical tools needed to effectively protect the property and lives of its members and the people of San Francisco and surrounding communities.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. A request to waive the application of the domestic content procurement preference must be in writing. The agency will provide instructions on the format, contents, and supporting materials required for any waiver request. Waiver requests are subject to public comment periods of no less than 15 days and must be reviewed by the Made in America Office. There may be instances where an award qualifies, in whole or in part, for an existing waiver described at “Buy America” Preference in FEMA Financial Assistance Programs for Infrastructure | FEMA.gov. If the requirement does not apply to Indian tribes or there is a federal law or regulation exempting its application to Indian tribes, then the acceptance by Tribes of, or acquiescence to, DHS Standard Terms and Conditions does not change or alter its inapplicability to an Indian tribe. For purposes of non-construction projects, FEMA is utilizing its discretion to impose an additional restriction under 2 C.F.R. section 200.308(f) regarding the transfer of funds among direct cost categories, programs, functions, or activities. Therefore, for awards with an approved budget where the federal share is greater than the simplified acquisition threshold (currently \$250,000), you may not transfer funds among direct cost categories, programs, functions, or activities without prior written approval from FEMA where the cumulative amount of such transfers exceeds or is expected to exceed ten percent (10%) of the total budget FEMA last approved. For purposes of awards that support both construction and non-construction work, FEMA is utilizing its discretion under 2 C.F.R. section 200.308(h)(5) to require the recipient to obtain prior written approval from FEMA before making any fund or budget transfers between the two types of work. You must report any deviations from your FEMA approved budget in the first Federal Financial Report (SF-425) you submit following any budget deviation, regardless of whether the budget deviation requires prior written approval.
