11 Section 1. Findings.

12 The Board finds that:

- 13 A. The City as a whole is vitally interested in the well-being of its student population;
- 14 B. Repeated or significant disruption of continuous education has repeatedly been
- 15 shown to negatively impact students' school performance;
- 16 C. Students who miss very many days of school tend to fall behind;
- 17 D. Students who change schools during the school year are often placed in new
- 18 classrooms before their records are transferred, leading to inappropriate placement;
- 19 E. Students who change schools are less able to form lasting relationships with their
- 20 teachers and often fail to seek needed help;
- 21 F. Moving is stressful for families and this also negatively affects student performance;
- 22 G. Students who are highly mobile are more likely to achieve below grade level, repeat
- 23 grades more frequently, and have lower rates of graduation; and,
- 24 H. A City and County of San Francisco Legislative Analyst's Report (OLA No. 020-06 -
- 25 Evictions and Student Performance) documents some of these studies on the negative

BOARD OF SUPERVISORS

1 impacts of student mobility, which Report is on file with the Clerk of the Board of Supervisors
2 in File No. 061077;

3 I. State and local education departments track overall student mobility but do not
4 categorize and track mobility caused by residential evictions;

5 J. The City's Residential Rent Stabilization and Arbitration Ordinance provides for
6 tracking and reporting on some types of evictions but evictions involving minor children are
7 not specifically counted; and,

8 K. Accurate records of student dislocation in San Francisco due to residential evictions
9 are not currently available.

10 L. The Board therefore finds that it would be beneficial for the Residential Rent
11 Stabilization and Arbitration Board (Rent Board) to modify and expand its eviction data
12 collection and reporting to include statistics on evictions of families with minor children,
13 particularly children who are school-age (kindergarten through grade twelve), which data can
14 be supplemented by data from other agencies such as the San Francisco Unified School
15 District as available.

16

16 petitions may require a determination whether, and to what extent, a residential hotel's
