Dear Supervisor Chan,

I am a resident of D1 and I am urging you to **vote in support** of the mayor's emergency plan -"Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320). The residents of San Francisco, in particular in the Tenderloin, are living with crime, drug use, drug dealing, and dangerous conditions. This rapidly worsening situation is spreading beyond the tenderloin to other districts and we are seeing these effects in D1. Crime AND addiction must be appropriately addressed.

Please approve the mayor's proclamation and let's begin to improve the city for all of its residents now.

Thank you.

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Upper Haight Family

I am a 3rd generation San Franciscan. My grandmother was born in SF Chinatown and grew up in SROs--she passed away last month at age 99. She would be ASHAMED at what SF has become!

SF and our local gov. is already being laughed at by national and global media. Yes, we need housing and support services but you aren't passing legislation about that. Vote yes to approve Mayor Breed's state of emergency--help the people who live and work in the Tenderloin. Help them feel safe. Help clean up the Tenderloin. Make it safe for the many students and kids who live there.

And then get started on building more bloody housing.

Dear Supervisors:

I am a resident of District [6], and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

YES to declaring and EMERGENCY in the TL & Mid Market!!!

I have stood before you multiple times BEGGING to have my neighborhood declared a STATE of EMERGENCY!

I live at Mission between 7<sup>th</sup> & 8<sup>th</sup> and we are ground zero for Drug abuse and sales.

We cannot pass on our sidewalk. We cannot walk out our door without fearing for our lives.

We now have shoot outs and murders on our block!!

We see drug overdoses all the time...We are in a STATE of EMERGENCY!!!

Please stop playing politics and support our Mayor and try some emergency matters.

Our lives matter!!!

Thank you, Jane Weil

Dear Board of Supervisors:

I am a native San Franciscan. I urge you to support the Mayor's local state of emergency. Swift action needs to be taken in the Tenderloin, which has gone far too long.

San Francisco is as strong as its weakest link. This link must be taken care of because it affects all of us. Granted, drug use must not be criminalized but it is the drug peddlers who need to be arrested.

Please work together with the Mayor so that this problem can be taken care of.

Use this state of emergency to swiftly remedy this problem.

Thank you.

Eva Lee

Dear Supervisors:

I am a resident of District 7, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin and the entire city are living with crime, drug use, drug dealing, and dangerous conditions.

My car window was smashed even though I had nothing in the car, and nothing was done to stop these criminals. Please take care of innocent citizens as first priority who work hard to pay tax to support this city functions and services, do not put criminals first and let them run free to commit crime anytime they want without any consequences. Please take action and be tough on these criminals and drug dealers.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

To the SF Board of Supervisors,

My name is Michael Rossi. My wife, Loretto, and I live in District 2. As concerned citizens of SF we are urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we mMayor's recent proclamationust take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
Michael Rossi

To the San Francisco Board of Supervisors:

I write to express my strong support for the Mayor's Declaration of Emergency in the Tenderloin. I am disturbed and outraged by the conditions on the street, particularly the fact that working class families with children and senior citizens are expected to walk through a menacing open-air drug market to get to their homes, schools, and workplaces. I am disgusted by the fact that certain members of this Board appear more concerned about the people using hard drugs on our streets than the citizens who reside in that neighborhood, and I think our priorities need to shift to protecting the law-abiding residents of our city. In particular, Supervisor Ronen's fixation with ensuring no one is ever compelled to accept treatment is appalling to me. Is our only concern with making sure no one is ever forced to seek help? That's certainly how it sounds to me, at least listening to certain Supervisors. I think there is a very vocal group of ideologues who resist any attempt to correct the issues in this neighborhood, and it is the reason our city looks the way it does. Other cities do not tolerate this. I have begun walking daily through the Tenderloin, and I am aghast at what I witness.

Yes, if someone is using drugs on the street and refuses to go to the Linkage Center, they should be arrested. The reason our jail is overcrowded is because of the No New Jails coalition. Stop listening to people like this, and conditions in our city will improve. Chesa Boudin is gone come June. My hope is that those Supervisors more concerned about the rights of people using hard drugs on the streets than citizens and law-abiding residents are not far behind.

Sincerely,  
Adam Gomulka  
Resident of District 8

Afternoon Supervisors,

On behalf of Axiom Hotel and Sightline Hospitality I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets from drug overdoses. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

Among all industries negatively impacted by the ongoing effects of the COVID-19 pandemic, hospitality has been one of the hardest hit, especially in Union Square with its proximity to the Tenderloin. We need a strong, collective solution to the volatile, dangerous and unjust conditions currently existing in the Tenderloin. Sitting here today at the world-famous Cable Car Turnaround at Market and Powell streets, I cannot confidently say that our employees and guests feel safe when coming and going from our property, this is just not right. We must do better and this is a great opportunity to do so.

Thank you for your vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Hi,

I am a resident of District 8, and I urge you to vote for the Mayor's Proclamation of Local Emergency – Drug Overdoses in the Tenderloin. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

I'm currently listening to the BOS discussion vote live stream and I am completely discouraged and disheartened by the lack of leadership from the BOS. While I understand and respect the enthusiasm of the questions from the supervisors, listening to the incredible bias and egos that come across in your long winded and self-centered monologues is completely mind blowing. This behavior makes me feel ashamed to be a part of a city who votes for leaders and supervisors who lack any type of skills to provide and enable our city to address crime and homelessness. You are not helping and are directly contributing to why our amazing city is in a state of disarray and crime.

Everyone is sick of the homelessness and troublesome street behavior we see in the tenderloin but also in almost every other San Francisco neighborhood. Everyone wants to address the issues with compassion and empathy. Painting yourselves as martyrs while continuing to do NOTHING and hiding behind the exhausted rhetoric of "not criminalizing drug use" is extremely arrogant and IS NOT WORKING.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

Please vote to support the local emergency proclamation.

Thank you.

Leslie Wan  
District 8 resident

I fully support the Mayor in her efforts to take back the streets of San Francisco. Finally, we have a leader who loves the City enough to take some positive actions to protect the VALID residents (those who pay the taxes to run this city).

For the most part, the people on the streets aren't even residents of San Francisco, but instead are just drifters who come here because drugs are easily accessible and there is absolutely no punishment. It is high time that we quit catering to these people. Every year there are more of them, because we have made it so easy for them to do drugs, litter our streets and create mischief.

It doesn't take a rocket scientist to figure out how to turn the mess around. We just need leaders who are willing to do it, and who will quit worrying about the push back from our FAILED district attorney and the progressives that support him. Progressives are pie-in-the-sky irrational dreamers who are out of touch with the real world and who have the delusion that everyone will do their part in society if given a fair chance. You know that is wrong. The truth is that the world has a lot of very scary people who have earned the right to live in prison separated from the good people who contribute to a workable society.

Matt Haney does nothing for his constituents. He acts as if the people on the street are his constituents. They are not. He is answering to all the wrong people and he is totally misguided. The Tenderloin deserves a supervisor who protects them from these outsiders.

By law, NOT ONE PERSON has the right to live on the sidewalks or public spaces. We need to house EVERYONE, whether they like it or not. We need to start by finding the appropriate housing for them, be it jail, prison, drug rehab, mental health hospital or section 8 housing.

Please support London Breed in her bid to finally get this crime spree under control, before all the decent people flee and only the riffraff remain. You owe it to the real residents of San Francisco to support the Mayor's efforts. We, the citizens, have a right to have a crime free and safe community. It can be done.

Yours truly,

John Davis

To all the Board of Supervisors,

I urge all of you to support Mayor London Breed's state of emergency. As a matter of fact, not just in the TL, but all over San Francisco. Our safety is NOT for anyone of you, woke Board of Supervisors, to decide on. It's up to us, SF taxpayers, paying for your salaries and benefits to decide.

With the exception of Catherine Stefani, I am sick and tired of paying property taxes, income taxes, and miscellaneous taxes to support all of your income with your SUPER WOKE ideas that have obviously destroyed the once beautiful and safe San Francisco! We have been the world's laughing stock! San Francisco is The Walking Dead!

If you can't abide by your promise to SERVE the taxpayers, then get off our payroll NOW! And this applies to Commie Chesa Boudin just as well.

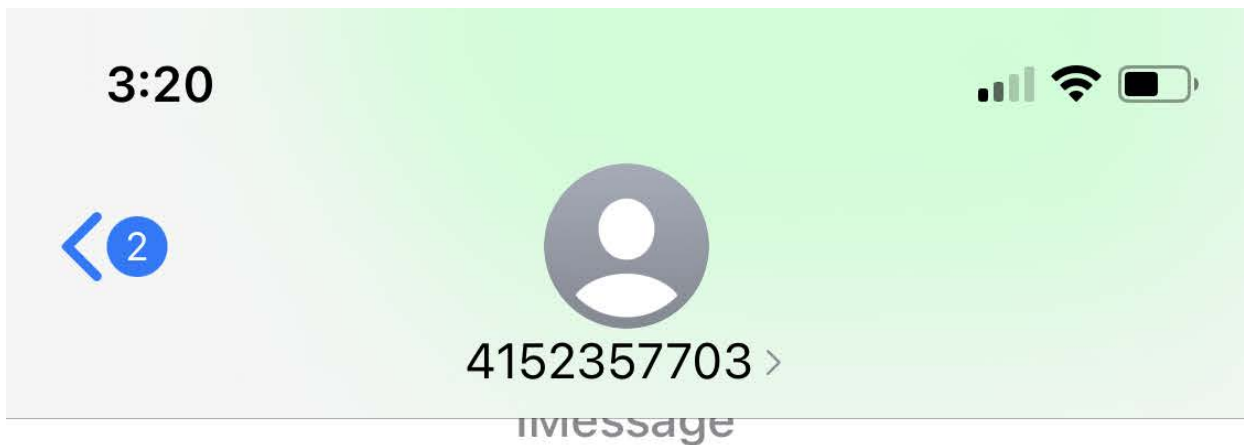

YOU ARE ENABLERS! You have made San Francisco a disgusting third-world city.

Hello Board of Supervisors and Supervisor Preston

The meeting ran quite long so here is my "1 minute" comment

*After 2 years of the pandemic, I finally took a Muni trip downtown on a sunny Friday afternoon to take pictures and was shocked by a dystopian world as I exited the N train and feared for my safety or that my camera would be stolen.*

*My name is Bill O'Such and I'm a resident of San Francisco for over 20 years most of that in District 5, prior to that living in a major European city, and would like our representative Supervisor Preston and the board of supervisors to support the Mayor's Emergency Proclamation as it will enable the city to respond to our immediate street crisis.*

*Our city can't wait another 6 to 9 months to go through a long bureaucratic process and must deliver results now. We must do something different that stops our city's accelerating negative trajectory, learning from our past mistakes and errors and create a new Progressive 2.0 approach vs continuing the deeply failing Progressive 1.0 approach.*

*Supervisor Preston and the Board of Supervisors please unite behind Mayor Breed by supporting and/or augmenting this much needed intervention that our street crisis and citizens requires.*

*Status quo is not acceptable. Act now. Please.*

*Thank you!*

*Bill O'Such*

## **SUBJECT: Support the Mayor's Emergency Proclamation!**

Dear Supervisors:

I am a resident of Richmond District, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin, Civic Center, SOMA, downtown, and now the Richmond District are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. Look at Masonic Street across from Trader Joe's. I can't walk the sidewalk with my daughter without being solicited for drugs. It's disgusting!!!!

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you!

Randa Talbott

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

I am a resident of District [XX], and I am joining GLIDE, ACLU of Northern California, Harvey Milk Democratic Club, Alice B Toklas Democratic Club, the Latinx Democratic Club, the No New SF Jail Coalition, DSA SF, and dozens of other organizations in urging you to vote no on the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

The Emergency Ordinance is a massive power grab that allows the Mayor to unilaterally increase funding for tried and failed policing, bringing back the drug war and turning back the clock on the progress we have made with efforts arising from Black Lives Matter. We should focus our resources on sustainable, evidence-based solutions that keep people healthy and out of the legal system by providing meaningful services to those suffering from substance abuse challenges, including housing, treatment, job training, and employment.

Please oppose the Mayor's Proclamation of a Local Emergency in the Tenderloin. Thank you!

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. As a life long resident of San Francisco, and a liberal I've supported all the past efforts at solving these social problems. Unfortunately, none of them have produced improved results. Quite the opposite. We must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Phillip Zakhour

**Subject:** Vote YES on Mayor's Emergency Declaration for the Tenderloin  
**Date:** Thursday, December 23, 2021 6:31:08 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
Margie Hom Brown

Dear Supervisors:

I am a resident of District 7, and SF resident since 2001, i'm a father of four children born and raised in SF, I'm also a small business owner and an employer in Downtown SF for the past 17 years.

I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) [this Thursday](#). The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

There is absolutely no excuse for allowing lawlessness (and for any common sense person selling deadly drugs on the streets without fear of the persecution is lawlessness) on SF streets.

Thank you!

Denis Krylov

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

My name is David Hopmann. I came to San Francisco in 1972. I've lived in many neighborhoods, most recently in SOMA (for 29 years).

I often pass through the Tenderloin and Civic Center to attend live performances and use the Main Library. Things are bad in those neighborhoods--the worst I have seen in 50 years. It makes me ashamed of the City, and its inability to grapple with the mental health and addiction crises that are poisoning our beautiful and compassionate city.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin.

I take hope from the fact that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is FINALLY acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation on drug overdoses in the Tenderloin.

***It will take courage, but it's the right thing to do.*** And thank you for your service!

David

**SUBJECT: I support the Mayor's Emergency Proclamation!**

Dear Supervisors:

I am a resident of District 2, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

This city has been far too lenient with drug dealers and they in turn have preyed on the desperate addicts and poor of the Tenderloin. I hate to see children walking through the dirt, filth and drug dealing that is going on right now. These dealers and their enablers need to be taken off the street and they need to pay for their illegal activity. They need to be held accountable. All of this illegal activity spills out into the entire city and we are not safe. In fact the poor addicts who I have sympathy for are not only not safe but they have no opportunity to clean up or recover with the predators that are not being held accountable for distributing their illegal products that are often laced with cheap deadly additives.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, or social services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. This is an emergency, unfortunately there are others but one at a time to fix this city. Please approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dear Supervisors,

On behalf of the Harbor Court Hotel, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is an health emergency in the Tenderloin, and it needs to be addressed as such.

Constantly our hotel guest and conference goers are confronted with crime, homelessness, drug use, and overall poor street conditions caused by poorly constructed social programs. Which in turn, drastically lower the quality of life for tax paying San Franciscans and visitors alike. Major citywide conferences, which produce significant revenue for the city, continue to site poor street conditions as a top reason

of leaving or canceling.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Thank you.

Mayor London Breed has taken specific action to clean up our city's deteriorating situation. If you do not support the Mayor, you will be responsible for the crime, the theft, the hate crimes, the endangerment of the homeless, the children and the elderly. It's as simple as that. The Mayor is taking significant action, whereas you as a group have failed to help us. Please support the Mayor's action.

*My name is Michele Beasley, and I am urging the Board to support the Mayor's Emergency Declaration on drug overdoses in the Tenderloin. I support the Emergency Declaration because it will enable the City to have a swift, effective emergency response, with public health, behavioral health, social, or housing services. The City can't wait any longer to streamline the bureaucratic process so healing for families, businesses, and the unhoused sufferers of drug addiction can begin in the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks. The City is finally acting with the urgency that our street crisis demands. Please support the Emergency Declaration. Thank you!*

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I write in support of the Mayor's public health lead Emergency Declaration for the Tenderloin neighborhood.

As a pediatrician and advocate for children and families in the Tenderloin, I have witnessed first hand the impact of the precarious street conditions on our neighborhood children. Most have experienced direct and often traumatizing effects of the unsafe conditions as they walk to and from school, day care, after school programs or any type of outdoor activity particularly since March 2020. Many have been deprived of adequate and essential outdoor time since our initial lockdown affecting critical developmental milestones. This situation requires a community wide effort to mitigate the harm and start healing our children and families.

The Tenderloin families and community members understand better than most that unmet mental and behavioral health needs are at the root of their safety concerns. This emergency declaration will fast track the implementation of vital public health supports to address these root causes. Without this declaration, I'm concerned that we will only be left with punitive measures to address the complex needs of those in our community with mental health and/or substance use challenges.

I urge you to vote in favor of the emergency declaration. The Tenderloin community and particularly our children have suffered enormously and deserve so much better. This is an important step in the right direction.

Sincerely,  
Kara Wright

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Bilques Smith

To All Whom This May Concern (which is all of us),

It's no secret that our city is in desperate need of action against crime, drug use, sale of illegal goods, violence, and the list goes on. Mayor London Breed has issued a State of Emergency for the Tenderloin which can be a good start to action in cleaning up our city.

As a member of the Government Relations Team of the San Francisco Association of Realtors, the President of the Women's Council of Realtors in San Francisco, and a member of the Clement Street Merchant's Association, I am for the Mayor's proclamation and urge you to do the same in helping our city.

In addition, I am willing to help take action. Feel free to contact me anytime, 415-879-8690 and [gina.blancarte@compass.com](mailto:gina.blancarte@compass.com) .

Warm regards,  
Gina Blancarte  
District 1

cc. Connie Chan

Dear Supervisors:

I am a resident of District 2, and I join in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

The city must turn its focus to the families and children that live in the Tenderloin. Too much consideration has been given to drug dealers and criminals. Above all this city should be a safe and clean place for law abiding citizens. Those that are breaking the law and creating unsafe environments MUST be removed first and helped second.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it

is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dear Board of Supervisors,

We are urging you to approve the Mayor's Emergency Declaration that will bring the necessary resources to the Tenderloin, UN Plaza and Civic Center Plaza, and Mid-Market immediately. The current conditions in these areas can't continue another day – we need action.

As residential and commercial property owners, small business owners, employers, educators, nonprofit service providers, and residents of the Mid-Market/Tenderloin neighborhoods, we write to express our profound concern at the current situation on our streets. We live daily with unacceptable and dangerous street behavior, public drug-dealing and drug-use, open-air markets peddling stolen goods, and blocked public rights-of-way that prevent our employees, customers, clients, tenants and residents from safely traveling in their own neighborhood. It is an alarming public health and public safety crisis, at once heartbreaking and appalling. We believe you agree.

The safety of our residents, small business owners, employees, and community members is of utmost importance. We need your support of the Declaration to bring the necessary resources in order to address the issues at hand.

We are counting on you to approve this Declaration.

Best,  
Will

Mosser has been providing safe, quality housing and services for residents and retailers in San Francisco for more than sixty years—and for 30 years now in the Tenderloin. Every day we see concern from our residents or respond to situations with our teams that are unique to the street challenges of the Tenderloin. When the community has to fear for its safety every day to just walk to the corner and get a gallon of milk, there is a state of emergency. We appreciate the Mayor for calling it exactly that and drawing the needed attention to this. Debating the solution does not address this issue--taking tangible action does.

The best recent example is the deployment of Urban Alchemy. Their respectful ambassador approach is truly making a big difference for the streets they canvas. This is a tangible action that was deployed and is effective. So if we know that, let's double down on this right now. The current partial coverage (which is due to funding and staffing issues) is addressing some of the problem, but not doing it comprehensively enough.

Police presence is effective. It deters the bad actions and the bad actors. We have employed officers through 10B for months to help protect the community. It is unfortunate that police presence on the streets of the Tenderloin—where everyone knows it is terribly dangerous--has become a private party responsibility to help keep these streets safe. There is push back about the risk of a police state or inability to arrest ourselves out of this situation. However, no one is saying the solution is simply more police, but more police presence is required. Otherwise the drug dealers control the streets, as they do now. These are not petty drug dealers. They are serious and dangerous cartel(s). Is that the preferred alternative? If so, it is the current reality, and the Tenderloin residents simply deserve better. San Francisco deserves better. This activity brings down the entire city and the perception of the entire Bay Area.

This is not about curtailing the rights of the hot dog vendor and frankly that argument is insulting to the community that's struggling with the overwhelming impact of the constant intrusion of drugs, mental health, crime, and predatory behavior. Please let's not forget about the rights of the 10 thousand residents who call the Tenderloin their home. They deserve better. You need to do what's right by them.

We hope the state of emergency focuses on the real challenges with a coordinated solution that includes street ambassadors, enforcement, support services and housing options to fully help those challenged on the streets but also to address the rampant drug activity. To not allow this to proceed and take effect will only prolong the lingering sad record for this city and continue to show that San Francisco is turning its back on what has now become a public outcry.

The Tenderloin, its residents, its markets, its businesses, this City...all deserve better. And our Mayor and Board are empowered to make a difference. We appreciate you taking action to help the community and supporting and approving the Mayor's December 17, 2021, Emergency Declaration.

As all who are intimate with this neighborhood know, you're not likely to find a hot dog vendor in the TL anyway. More accurately, there are good salsa and pupusa options from well-intending street vendors that we can find a way to keep as part of the vibrant neighborhood fabric. But while also taking better care of the residents of the neighborhood with these enhanced safety, security and cleanup measures.

We thank our Supervisors, the Board, the Mayor, this City, the advocates and those providing support for truly working collectively to make a meaningful and positive impact. This community deserves betters.

Thank you  
Andrew

To the Board of Supervisors,

I have worked in the Tenderloin for 13 years, and have many close friends who are family to me. They have been suffering deeply, over the last 10 years, and their needs and voices have not been centered - ever. Children have been confined to their apartments during the bulk of the pandemic, which alone has lasting damage on their health outcomes. This is why it should be the City's number one priority to create a safe and healthy environment for them, as well as seniors and adults living in the TL, when they can actually leave the confines of their apartments. This has not been the case. As someone who stood at Turk/Hyde every day for years with Tenderloin Safe Passage, I can say the conditions have never been this bad. Even the friendly street dealer residents don't come out there anymore because what is happening now is a whole other level. No child was ever attacked on their way to school, until now. It MUST stop.

If centering the needs of children, youth, families, seniors, and business means that we are de-centering the needs of people selling fentanyl on the street - then so be it! Would any one of you accept this for your families? For your children or nieces/nephews, or aging relatives? No, you would not! If you would, then please bring your families to stay in the TL for one full week - and then let's talk. So do not accept this for the low income People of Color who live in the Tenderloin.

Saying no to this measure is NOT what equity looks like.

Make the right decision for these suffering San Francisco Residents.

Sincerely,

Kate Robinson,  
Founding Program Director of Tenderloin Safe Passage

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear SF Supervisors:

I am a longterm resident of District 8 and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) today. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. Doing nothing is not compassionate. Those who actively harm themselves by using illegal drugs will never have the clarity of mind or judgement to get themselves into treatment. Unfortunately, the city must give these folks a choice of changing their lifestyle or facing the consequences. And drug dealers who operate with impunity in this city, many of whom are not even legally in this country, also need to face legal consequences.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city (it certainly is for me) and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Do not disappoint your constituency and continue to ignore this catastrophe. Thank you.

Emily Reinys, MD

District 8 resident

To all members of the BOS,

Please support Mayor Breed's state of emergency proposal to clean up the TL. Children, families and the elderly are regularly being terrorized and living in the squalor and garbage that accumulates from those living on the street without homes. Why should the TL residents have to bear this intolerable situation, while no other part of the city does? If we think that it is okay to live like that, then the rest of us should volunteer our neighborhoods for street living, and drug dealing, and open drug use. We should all be willing to have our children step over passed out bodies on the street, if we expect the children of the TL to do it.

It is NOT humane to let people live in that squalor in an open drug use/drug-dealing environment. There are addicts who are trying to get clean who have to go back to the TL to their SRO and cannot get away from the outrageous drug dealing and drug use and lack of safety. How can we expect anyone to get clean in that environment?

The homeless need shelters, to get off the streets and then homes with supportive services **and** expectations to be good neighbors and residents. Mentally ill need hospital beds, and group homes and supportive living environments. Addicts need treatment and we have to provide it and then we must give them a safe environment where they can learn the skills and behaviors needed to succeed. We can do better!

Mayor Breed's position IS the humane choice.

Sincerely,

Julia

Dear Supervisors:

I am 77 and live in the Marina. Family and friends will no longer visit me because they are scared of the crime in the city (cars are often broken into outside my house) and they are disgusted by the filth. Taking my 2 year old twin grandchildren for a walk the other day we witnessed a person defecating on the sidewalk.

What happened to San Francisco. It used to be a wonderful city that people loved to visit. No longer. Crime and lawlessness are common. Lots of my friends are moving away. I may have to as well. So Sad.

However there is hope with London Breed. Just maybe this could turn the corner?

Angela Neal Grove

Cow Hollow/Marina

Dear Supervisors:

I am a resident of District 7, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Janice Scattini

2060 Union Street #7

San Francisco, CA 94123

District 7

I live in district 2. The mayor's state of emergency does not go far enough towards ending the crime and abuse of its citizens you, the governing class, has allowed and nurtured in San Francisco. However, at least it's an acknowledgement that not doing something may ultimately threaten the progressive stranglehold on power that has rendered the city a dangerous and lawless place. I live on Russian hill, not the tenderloin. In the past week I have personally witnessed a smash and grab, helped a family (3 young children) from Utah who had just suffered the same fate, observed the open use of crack cocaine on Polk street, and just yesterday public masturbation there. These civic abuses are now so routine that it's just like the "wallpaper" in your house-it's just there. A few years ago my work took me twice weekly to the tenderloin. It was troublesome then, but tolerable. Before the pandemic I routinely accompanied my wife to shelters and SRO's to help feed those there. I saw a deterioration in the tenderloin then. Now I try to avoid it at all costs, but unfortunately some trips through there are unavoidable. It is a ghoulish place. How you have not acted to stop this horror show before now is unbelievable. The mayor's proposal is too tepid, but it's something. I support it and I hope you do-especially Katherine.

**Subject:** Vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses  
**Date:** Thursday, December 23, 2021 11:17:31 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

My name is Chelsea Waite and I am urging you to vote YES for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Sincerely,  
Chelsea Waite

The San Francisco Board of Supervisors  
1 Dr. Carlton B. Goodlett Place, Room 244  
San Francisco, CA 94102

**Re: Support for Declaration of Emergency in Tenderloin**

Dear Honorable Supervisors:

Deaths from drug overdoses are at epidemic levels in San Francisco and the situation demands drastic and emergency measures.

- Deaths attributable to drug overdose in San Francisco have increased over 200% since 2018.
- Last year alone, over 700 individuals died from drug overdoses in San Francisco, which far exceeds the number of individuals, who sadly and unfortunately, lost their lives due to the COVID-19 pandemic in San Francisco.
- Emergency medical calls for service classified as calls for a "sick person" in the Tenderloin increased more than 150% between June and November of this year compared to the same period in 2020.
- There was a 38% increase to the City's Street Overdose Response Team between October and November of 2021 and a 44% increase in calls regarding drug overdose in the same period.
- Calls to 311 reporting issues concerning human waste, needles, and garbage on the streets and sidewalks have also significantly increased compared to this time last year.

**We encourage you to support the Mayor's declaration of an emergency in the Tenderloin, and the related Proclamation.** Allowing the Department of Emergency Management to respond to the Tenderloin's issues using their highly effective COVID-19 response model will support: Residents, Businesses, Employees, Visitors, our City's first responders; and those suffering and dying on City streets.

The temporary Emergency Proclamation, with its focus on saving lives and creating safer public spaces, is a critical step toward helping people in desperate need and toward overall downtown recovery.

Lives must be saved and neighborhood stakeholders must be given the ability to thrive.

From: Helene Sautou

Dear Supervisors,

For the past twelve years I have lived in San Francisco and worked in the Mid-Market, Civic Center and Tenderloin areas. Today I urge you to ratify Mayor Breed's Declaration of Emergency for the Tenderloin – and indeed, for San Francisco.

Earlier this month, Heather Knight brilliantly reported on Laurie Steve's 3-month doomed effort to rescue her daughter Jessica from fentanyl's addiction on the streets of San Francisco.

<https://www.sfchronicle.com/projects/2021/rescuing-jessica-san-francisco-fentanyl-addiction/>

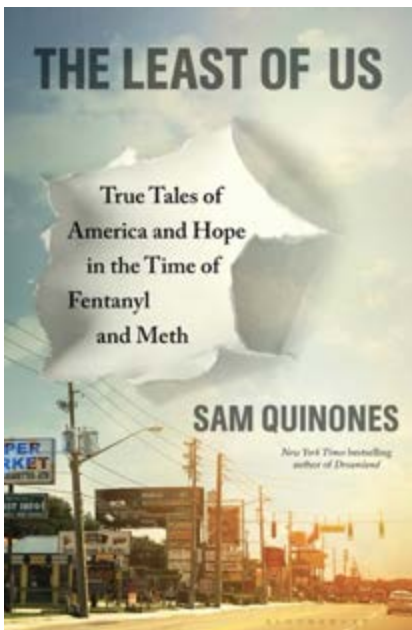

“Jessica said her life might seem hard, but it's actually pretty carefree, and she offered a sweeping explanation of one reason why her mom would face such long odds trying to pull her out of San Francisco. “The city is way too easy for people with nothing to get by,” she said. “That's why I'm still here nine years later. You get by with doing drugs and suffer no consequences. I like it here.”

**She set out to save her daughter  
from fentanyl. She had no idea  
what she would face on the streets  
of San Francisco**

While the question of compelling resistant drug users into treatment remains open, a first step, and a much-needed step, is facilitating access to long-term substance abuse treatment to those who are ready for it, or who can be persuaded into readiness through compassion and care. Ratifying Mayor Breed's Declaration will allow the City's Department of Emergency Management to implement a 24-hour linkage site that will aim to do just that.

In an era when synthetic drugs such as fentanyl and P2P meth have become incredibly deadly due to their combined potency, toxicity, cheap price and totally endless supply, it is naïve to think that going after the drug dealers and the supply side of drugs will ever be sufficient to solve the health crisis of substance abuse. Those who still think so should read Sam Quinones's latest book "The least of us: True tales of America and Hope in the Time of Fentanyl and Meth".

Quinones supports law enforcement efforts to stop the illegal fentanyl and meth drug trade, and calls for more cooperation between US and Mexico. But he also portrays how addiction recoveries, even severe ones, are possible with renewed focus on drug-afflicted individuals and communities.

San Francisco does have some existing resources offering substance abuse treatment, but navigating through them is complex and there hasn't been yet an effort to truly coordinate and increase access. I believe that the City's Department of Emergency Management can and should lead that effort, but in order to act with the necessary urgency that our community deserves, DEM needs the Board of Supervisors to ratify the Mayor's Declaration of Emergency for the Tenderloin.

I'll conclude with an excerpt from Quinones book: "We used to believe people needed to hit rock bottom before seeking treatment. That's an[...] idea made obsolete by [...] the current synthetic drug supply. It belongs to an era when drugs of choice were merciful. [...] Today, rock bottom is death."

This rock bottom of death is the emergency we are facing now in the streets of San Francisco.

**Date:** Thursday, December 23, 2021 1:11:04 PM

---

Dear Supervisors:

I am a resident of District [XX], and I join in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse.

We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

City Hall, Room 244  
San Francisco CA 94102-4689

**RE: [File # 211320](#)  
Concurring in Proclamation of Local Emergency - Drug Overdoses in the Tenderloin**

Dear President Walton and Honorable Members of the Board of Supervisors,

On behalf of the San Francisco Partnership, an organization of the City's leading employers that supports an equitable, resilient, and vibrant economy shared by all people working and living in San Francisco, we ask you to support the proposed Declaration of a Local Emergency which will help address the worsening health conditions in the Tenderloin.

As you are all well aware, there is a humanitarian crisis occurring on the streets in the Tenderloin that only continues to worsen. It is vital that the entire City apparatus, including the Board of Supervisors, work together to address this emergency immediately. The Proclamation points out that the number of people who have died of drug overdoses has increased by more than 200% since 2018 and now totals more than 15 people a week. This daily tragedy shouldn't be allowed to continue in our City.

In fact, in 2020, more than 700 people died from drug overdoses, more than the number of people who COVID-19 has killed in San Francisco. Given the commendable cooperation, focus, and resources from City Hall to address the viral pandemic, it seems only appropriate for the Board of Supervisors to mount a similar effort to address the carnage happening every day in plain sight in the Tenderloin. This emergency declaration is the first step.

This Proclamation would allow the Department of Emergency Management to better coordinate and augment their responses in the Tenderloin, similar to its COVID-19 response. If

passed, this Proclamation will require City departments to unite their operations in the Tenderloin for the first time under an emergency command, significantly reducing the timeline to provide essential social services. It also allows San Francisco to become eligible for potential reimbursement if a State or Federal Declaration supports this effort.

This crisis cannot go unaddressed any longer. We urge the Board of Supervisors to now take action and support the Declaration of Emergency the people need.

Respectfully,

Chris  
SF Partnership

### **Re: State of Emergency in the Tenderloin**

Dear Board of Supervisors:

The San Francisco Deputy Sheriffs' Association fully supports Mayor Breed's **State of Emergency in the Tenderloin Proclamation** and her three-phased approach to begin to implement this critically needed initiative.

The San Francisco Deputy Sheriffs' Association also supports the decision by Mayor Breed to direct the Department of Emergency Management to lead this public safety plan if ratified.

It is our sincere hope that all of you will vote Yes today to approve this much needed plan.  
Thank you.

SUBJECT: Proclamation of Local Emergency – Drug Overdoses in the Tenderloin (File No. 211320)

Dear Supervisors,

The San Francisco Chamber of Commerce urges you to vote for the Mayor’s “Proclamation of Local Emergency – Drug Overdoses in the Tenderloin” (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The top concern we hear from businesses small and large across the city is quality of life. We must take action now in the Tenderloin to allow businesses to begin recovering from Covid-19.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller’s office to report to the Board on the City’s use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

We are looking to you to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor’s Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you for your consideration.

Dear Supervisors:

I am 77 and live in the Marina. Family and friends will no longer visit me because they are scared of the crime in the city (cars are often broken into outside my house) and they are disgusted by the filth. Taking my 2 year old twin grandchildren for a walk the other day we witnessed a person defecating on the sidewalk.

What happened to San Francisco. It used to be a wonderful city that people loved to visit. No longer. Crime and lawlessness are common. Lots of my friends are moving away. I may have to as well. So Sad.

However there is hope with London Breed. Just maybe this could turn the corner?

Angela Neal Grove

I live in district 2. The mayor's state of emergency does not go far enough towards ending the crime and abuse of its citizens you, the governing class, has allowed and nurtured in San Francisco. However, at least it's an acknowledgement that not doing something may ultimately threaten the progressive stranglehold on power that has rendered the city a dangerous and lawless place. I live on Russian hill, not the tenderloin. In the past week I have personally witnessed a smash and grab, helped a family (3 young children) from Utah who had just suffered the same fate, observed the open use of crack cocaine on Polk street, and just yesterday public masturbation there. These civic abuses are now so routine that it's just like the "wallpaper" in your house-it's just there. A few years ago my work took me twice weekly to the tenderloin. It was troublesome then, but tolerable. Before the pandemic I routinely accompanied my wife to shelters and SRO's to help feed those there. I saw a deterioration in the tenderloin then. Now I try to avoid it at all costs, but unfortunately some trips through there are unavoidable. It is a ghoulish place. How you have not acted to stop this horror show before now is unbelievable. The mayor's proposal is too tepid, but it's something. I support it and I hope you do-especially Katherine.

**Date:** Wednesday, December 22, 2021 11:23:44 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Members of the San Francisco of Supervisors:

I am writing in regards to the Mayor's Plan for The Tenderloin.

I am a Senior Citizen that resides in D6 that has seen the District degrade very badly since 2016. No resident of the neighborhood should be subjected to the filth and criminal element we have to put up with just because most of the residents of the neighborhood are poor in the Tenderloin.

Whenever I walk out my door, I am bombarded with Drug Dealers and people shooting up on the sidewalks.. I am subjected on a daily basis by Drug Dealers and Drug Addicts who block me, follow me and solicit me for sex. No one should have to put up with that.

I should be able to freely walk out my door at any time of the day to take care of my business without any interference.

For some members of the Board of Supervisors and the Mayor, I am old enough to be your mother and I would think you wouldn't want your parents to have to be subjected what I have to go through on a daily basis.

Some of my senior neighbors are afraid to go out the door and some of us have to help them get groceries because of the conditions on the streets. One of my friends in the neighborhood recently got attacked and had to spend time and money to get a restraining order. My friend is okay but she had a frightening experience with a mentally ill homeless person.. I had to call 911 last month on an individual who had OD'd outside my building.

I hope you consider in supporting Mayor Breed's plan in helping to cleanup the Tenderloin. The bad behavior that goes on there affects everyone in the City of San Francisco.

Thank you,

Lisa Quail

Dear Supervisors:

I am a resident of District 8 and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

To the Board of Supervisors,  
Please support Mayor Breed in declaring a State of Emergency in the Tenderloin AND Mid Market. I have requested declaring the Emergency for years and have stated so publicly in front of you all on multiple occasions. I live on Mission at 7<sup>th</sup>, and it has truly become a nightmare. We have had multiple fatal shootings on our block, tent encampments, night long "rages" that leave trash flying in their wake and sidewalks that are impassable. We have all witnessed drug overdoses and raving mentally ill.

It is TRULY an EMERGENCY, and I am grateful that the Mayor has finally declared it so. We throw millions of dollars at the problem of open drug use to no avail. The Drug dealers operate openly with no fear of consequences. We MUST change our approach NOW. Offer mandatory treatment to anyone using drugs on the street, and if they refuse, force them by taking them to a treatment facility or jail. Offer temporary housing to anyone living on the street and if they refuse, take them and their belongings to a hotel or jail. Arrest anyone who leaves their hotel to make a mess (or deal drugs) on the street. Arrest the dealers!

PLEASE! It is an emergency! We knew when we moved to Mid Market that it was not Pac Heights....but it was fine for years until the total breakdown of law and order, and now we are afraid to walk out of our door.

Thank you Mayor Breed!  
Jane Weil  
1160 Mission St #2108

Dear District 6 Supervisor Matt Haney and the SF Board of Supervisors,

**The issues affecting San Francisco's Tenderloin district (and beyond) have reached crisis levels.** Drug overdose deaths are far outpacing COVID deaths. The level of human suffering on our streets is unfathomable. We all see this first-hand as residents of this city, and these issues are now getting the national coverage they deserve - it's time we do something about it.

**We need more shelters.** We cannot allow 10,000 human beings to continue living and dying on our streets any longer. This is not compassion, not for our homeless population, not for the families and children who live in the Tenderloin, and not for the San Francisco population at large.

**We need more effective services.** The majority of our chronically homeless in the Tenderloin are drug users, mentally ill, or both, yet we do not have the tools or abilities to help them get back on track. We need a coordinated, city-wide effort similar to the plan that was successful in testing, treating, quarantining, and vaccinating our citizens in the COVID pandemic.

**And yes, we need more policing.** In this city, we talk about fixing the "root causes" of crime and homelessness yet ignore the #1 factor - drugs. Fentanyl is the most powerful and dangerous recreational drug ever produced. Drug dealers from around the bay area, country, and even other nations come to San Francisco to prey on our citizens due to the culture of zero-accountability / zero-consequences we have allowed. They enable the addiction and enslavement of our most vulnerable populations with impunity. Long term drug use of Meth and Fentanyl over-burdens every aspect of our city's public services and infrastructure, and eventually leads to permanent mental illness, major physical disability, and death. Removing these dealers is a necessary and crucial step towards improving our city.

**Not only SF, but the whole world is watching.** These chronic and worsening issues in San Francisco (and other West Coast cities) is the #1 factor holding back the entire liberal agenda in this country. How can we claim to be effective policy-makers while enabling the ultimate counterpoint -- the spectacular failure of the SF city government on this issue?

**Indeed, this vote will be a litmus test for SF voters in 2022 to see who supports change in SF vs. who supports the status quo.** Please support the Emergency Declaration in the TL.

Sincerely,  
Ankur Neil Agrawal  
District 6 Resident

Dear Member of the Board of Supervisors,

My name is Michael Peppe, and I urge the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

Enough is enough! It's time to adopt Mayor Breed's emergency declaration for the Tenderloin. With all the charms of San Francisco, locals are now afraid to pass through the Tenderloin and downtown areas. Prior to Covid, we were losing lucrative business conferences because of the the endemic drug and homeless populations. This has got to stop!

My family is fifth generation San Franciscans. We want San Francisco to continue to be a vital city. More affordable housing is needed as well as addressing homelessness.

This is a warning missive by Peter Yared is well worth a read as it describes the potential decline of the Bay Area, without changes to increase housing to address homelessness.  
<http://www.yared.com/2021/12/the-entire-bay-area-has-become-large.html>

New York City has addresses both increased housing and better addressing homelessness. It was a journey of trying several fixes, but it now works! Graffiti and car break ins are like the Broken Window policy ... fix the small things first. This is a road map of how to change it.  
<https://www.city-journal.org/html/how-new-york-became-safe-full-story-13197.html>

Mayor Breed and the City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you

Terri Slocombe  
Resident District 2

As a resident manager living in the Tenderloin I have watched the situation go from bad to worse. Most of the tenants I support are elderly and afraid to leave the building. Those who are able to leave often have to return without reaching their destination due to streets crowded with dealers who intimidate, scare, and provoke the elderly.

All of the women I know who live and work in the neighborhood convey their fear to step foot in the Tenderloin because avoiding the harassment and cat-calls by drug dealers is unavoidable. And it's not just the catcalls. Just a few months ago, in broad daylight, a woman was sucker-punched in the back of the head and knocked to the ground by a dealer. She conveyed her fear of not knowing what was going to happen next. Was this a kidnapping or attempted rape? Fortunately the perpetrator walked away without causing any more harm. But now the victim is subject to seeing the perpetrator randomly throughout the neighborhood, greeted with winks and catcalls, having to relive the experience daily.

And as you all know, a young girl was recently placed in the ICU by an individual suffering from a mental health crisis. Additionally, with children walking by I often share the sight of adults defecating and relieving their bowels in the sidewalk and always within sight of a porta potties or pit-stop.

Some have said that this Emergency Declaration is unjustified. Saying that this is unjustified discounts and ignores the traumatic experiences of those who are most vulnerable. Women, children, the elderly, and those in need of mental health support would not be subject to these very real and unavoidable scenarios in a just world.

I strongly support the emergency declaration and urge the board to ratify it.

**From:** [Eric Rozell](#)

Hello Board of Supervisors,

My name is Eric Rozell and I am a Tenderloin resident that has lived in the neighborhood for over 16 year's. I fully support a public health led emergency response to the conditions in the Tenderloin.

Residents in the Tenderloin have been living in chaotic, violent, filthy, and unacceptable conditions for too long. We need help and we are happy to see the mayor finally addressing these issues.

I urge the board to pass the Emergency Declaration for the Tenderloin.

Sincerely,  
Eric Rozell

Dear Supervisors:

I am a resident of District 6, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services and - - importantly - - law enforcement.

The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local

Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Emmanuelle Antolin

Dear Supervisors:

Thank you for all that you do and happy holidays! I am a resident of 1 Crescent Way in the Bayview, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency - - Drug Overdoses in the Tenderloin.

I appreciate all your hard work in helping our city. I am a middle school teacher and I know that working with the public is a challenging and sometimes thankless job, so THANK YOU!

Sincerely,

Corinna Low

Dear SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320). The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin. The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening. The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Thank you,  
John

**Date:** Thursday, December 23, 2021 8:18:18 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

I am writing to urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. As a specific example, Shorenstein is an owner of an apartment building located at 50 Jones Street where in December 2020, stray bullets fired on Jones Street entered one of our apartment units. In February 2021, a shooting on Jones Street pierced the pant leg of an unarmed Epic security guard who was working for our property. In June and July of this year, two individuals tragically lost their lives as a result of gun violence, each time within sight of our front door. And just two weeks ago, a bullet pierced our window and was lodged in the wall of our residential lobby. This bullet was three feet away from where our concierge and security officer sit, and four feet away from our property manager's office.

Frankly, we believe the City of San Francisco has fallen short in its responsibility to its residents. We are tremendously grateful to the efforts of our local police precinct, but the SFPD Tenderloin Station is stretched thin. Captain Canning has reiterated that our block is a top priority; however, with the 18 officers he has on duty to cover a 50-block area, he simply does not have the resources to adequately police the neighborhood. We were encouraged to hear of the Mid-Market Vibrancy and Safety Plan announced earlier this year. This plan called for \$11 million in funding, but ultimately the City only allocated \$5 million, leaving a plan that could only be partially executed. As a result, 50 Jones and the surrounding blocks have been excluded from the Urban Alchemy ambassador plan. Not only have we never had a single ambassador deployed on our block, but the success of the program in other areas has steered additional criminal activity to our block. Our residents and employees no longer feel safe living, working, and raising families in this city. We are worried about the effect further violence will have on the mental and physical wellbeing of the members of our community.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to

address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dear Board of Supervisors,

I'm reaching out via email as I will be unable to call in for the meeting later today on the Emergency Declaration for the Tenderloin. We are very much in support of the Mayor's efforts to improve our streets for all. Those breaking the law should face consequences and those needing assistance and treatment should be afforded those services. Addressing the problems in the Tenderloin, especially drug dealing, will benefit all San Francisco neighborhoods. The neighborhood deserves a united effort to improve conditions for those on the street and those living in the neighborhood. Please support this declaration.

Thank you,

Cathy

Dear Board of Supervisors,

We urge you to immediately approve the Mayor's Emergency Declaration to bring the necessary resources to the Tenderloin, UN Plaza, Civic Center Plaza, and Mid-Market. The current conditions in these areas can't continue another day – we need action.

As residential and commercial property owners, small business owners, employers, educators, nonprofit service providers, and residents of the Mid-Market/Tenderloin neighborhoods, we write to express our profound concern about the current situation on our streets. We live with unacceptable and dangerous street behavior. Public drug-dealing and drug-use, open-air markets peddling stolen goods, and blocked public rights-of-way that prevent our employees, customers, clients, tenants, and residents from safely traveling in their neighborhood. It is an alarming public health and public safety crisis, at once heartbreaking and appalling. We believe you agree.

The safety of our residents, small business owners, employees, and community members is of utmost importance. We need your support of the Declaration to bring the necessary resources to address the issues at hand.

We are counting on you to approve this Declaration.

Best,  
Noah Astorga  
Property Manager

Dear Supervisors,

On behalf of the JW Marriott San Francisco Union Square, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is an health emergency in the Tenderloin, and it needs to be addressed as such.

With the past few years, I feel unsafe walking to and from work from the Powell Street Bart Station. There have been numerous occasions when I have been fearful of my safety as I watch "transactions" take place in plain sight- not to mention those who are high on drugs yelling and screaming in the streets at passers-by.

As an event planner, I have also experienced potential clients of the hotel stating that they would rather book elsewhere as they are not comfortable with their staff member walking around the surrounding area given the "unsafe" conditions that they have experienced while touring the local area.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Rachel Prasad  
Director of Event Planning

To the SF Board of Supervisors,

Margit Wennmachers here, writing to you from the Outer Richmond neighborhood...

PLEASE vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

You need to know that your inaction will likely result in more deaths, suffering, and more residents leaving San Francisco.

Sincerely,  
Margit Wennmachers

Dear Supervisors:

I am a resident of District 8, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency that it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

**Subject:** Vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses  
**Date:** Thursday, December 23, 2021 9:16:14 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

My name is Darcy Phelan and I am urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Darcy Phelan

Dear Supervisors:

I am a resident of District 6, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. It is absolutely abhorrent and unacceptable that my girlfriend (26F) does not feel safe enough to walk to the closest coffee shop on her own due to the rampant sexual abuse, cat calling, violence, and filth she has to endure walking on the sidewalk.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you,

John Rowe

Dear Supervisor Matt Haney,

We are writing to you today as local business leaders, concerned citizens and representatives of 1000's of our community residents who live and work in the SOMA and Tenderloin neighborhoods. Our company headquarters and largest multi-family apartment communities are in your district and the conditions on our streets has become untenable.

The impact of the COVID pandemic has only exasperated an environment reeling from the explosion of fentanyl and opioid related drug use and sales.

Our residents and staff are struggling daily to survive in a community overwhelmed by drug-dens, organized dealer circuits, open drug use and daily overdoses—often times on our doorstep and within feet of where we live and work. There are on-going tent encampments with rampant illicit activity outside our properties and staff and residents are increasingly afraid to walk through a growing number of the surrounding streets.

Additionally, crime is on the rise. Just in the past several weeks one of our buildings was shot at, our largest maintenance shop burglarized, and multiple dumpsters set on fire. There has been a major uptick in vehicle break-ins, bicycle and package theft and a resident was recently assaulted in front of the Orpheum Theater and decided to move out of the neighborhood. We can no longer blindly accept or condone the third-world conditions we have been forced to live and work in on our community day and night.

We implore you Mr. Haney and all of your fellow Supervisors to adopt the Emergency Proclamation proposed by Mayor Breed so that we can finally make a lasting change to our neighborhoods and improve safety and basic quality of life conditions for our residents and staff in the Tenderloin and SOMA. The situation is dire and it's not enough to make a dent—it's time to make a difference.

Respectfully Yours,

Trinity

Dear Supervisors:

I am a resident of District 5-Western Addition, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. I work in the Tenderloin for a local non-profit and am appalled at how much worse the city has gotten and how we're failing to treat this a public health crisis and take drug dealers to task. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. To the San Francisco Board of Supervisors at-large

Attn: Hon. Matt Haney, Supervisor

Supervisors:

I am sending this email on behalf of myself and 35 residential and commercial property owners, small business owners, employers, educators, nonprofit service providers, and residents of the Mid-Market/Tenderloin neighborhoods. We write to express our profound frustration and anger towards the current situation on our streets. We live daily with unacceptable and dangerous street behavior, public drug-dealing and drug-use, open-air markets peddling stolen goods, and blocked public rights-of-way that prevent our employees, customers, clients, tenants and families from safely traveling in their own neighborhood. It is an alarming public health and public safety crisis, at once heartbreaking and appalling. We believe you agree.

The safety of our residents, small business owners, employees, and community members is of utmost importance. We regularly have small businesses that consider opening up their business in the Mid-market/Tenderloin/Civic Center/UN Plaza location, and after spending one day there, they change their mind due to safety concerns for their employees (often times choosing to relocate to Alameda County or San Mateo County). We too are struggling in attracting families as the street life, open drug dealing, stolen goods vending market, and the solicitation has created an unsafe environment for anyone to live in this area.

As Supervisor Haney can attest, our group has tried every which way to address the situation on the street. We desperately need the Mayor's Emergency Declaration to pass so she has the ability to cut through red tape and get the help and services to those people that are creating the unsafe environment for our neighbors, families, residents, small businesses, employees, and students.

We are counting on you to approve this Declaration.

Best,  
Stakeholders of Tenderloin, Mid-Market, Civic Center, and UN Plaza

Dear Supervisors:

I am a resident of District 8, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) today. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Ryan Powell & Conor O'Sullivan  
District 8

Members of the Board of Supervisors,

My name is Jesse Aguilera

, and I joined RescueSF in urging the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective **emergency** response, with public health, behavioral health, social, or housing services. The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation.

Thank you!

*Jesse Aguilera, MSN, RN, PHN*

Dear Supervisors,

I am a resident of District 6, and I join others to urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) today. I live a few blocks from the Tenderloin and the residents of the Tenderloin are living amongst crime, drug use, drug dealing, and dangerous conditions. What's more, those who are unhoused in the Tenderloin endure unsafe, unhealthy, and deteriorating conditions. Over the years, I've seen these conditions spread to blocks around the Tenderloin and impact neighboring communities. It is time for action.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you for your time and service.

Michael Appel

**Subject:** Vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses  
**Date:** Thursday, December 23, 2021 10:10:56 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

My name is Mary-Rose Hayes and I am urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320). The homeless crisis has been out of control for the last 30 years. It is time that the mentally ill and veterans with PTSD are taken care of instead of being ignored.

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
Mary-Rose Hayes  
SF Resident

As as resident of District 8, a 20-year resident of SF, who first visited in in 1968 and who's lived in the Bay Area nearly 20 years before moving permanently to SF, I urge you to support Mayor Breed's Emergency Proclamation .

I realize that this is not a solution to the problems, either in the Tenderloin or anywhere else in the city. I realize that progressives want a permanent solution that addresses the deep, structural problems at the root of the issues and that provide long-term restructurings to address the problems. However, progressives have not come up with any solutions either. As a result, the situation in the Tenderloin has become unmanageable.

It is simply unsafe — for those who reside in the Tenderloin, for those on its streets, and not least, for everyone else in the city. And the first obligation of a government is to make a city or county safe. The first obligation. The reason we have governments in the first place.

The perfect is the enemy of the good. So first things first, please.

Dear Supervisors:

I am a resident of District 10 and I am urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) today. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

Many of us have been touched deeply by drug addiction and homelessness that confounds simple solutions. In my case, 34 years ago I held a childhood friend's baby in my arms the week after he was born to a financially secure family in New Jersey. Today that baby, now a grown man, lives on the streets of San Francisco addicted to drugs and homeless. He came here because he knew he could get drugs and get by. His mom spent six months here searching for him but he won't go home and into rehab in New Jersey. We have made it too easy for him here.

There are many varied and tragic stories like this affecting our city. Emily Cohen, **Interim Director of Strategy and External Affairs, SF** Department of Homelessness and Supportive Housing, has told us that for every unhoused individual she is able to house, two take their place.

Yes, we desperately need more affordable housing (I've watched several dozen market rate units in Dogpatch sit empty for 18 months now). We also need more street crisis teams. But this is not the only need. We must draw a line so our city can be safe and livable for all of us.

Last week I watched three people shoot up in a bus shelter on Market street as I waited for a ride with my teenage daughter. In my 25 years as a

resident of this incredible city I have never see such a dire situation on our streets. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

I am fully supporting Mayor Breed's emergency measure to try to stop this cycle of deaths, and chronic enabling of addiction and demise of our homeless people and victimizing the children and families living especially in the Tenderloin.

I do believe in all the various liberal, humanized approaches to these problems but we are at a turning point today with the most deaths due to these opioid conditions and not being able to deliver the comprehensive wrap around services people with addictions need and require.

I do not believe in criminalizing such behavior but if this community doesn't believe in extending the 5150 holds and until we have adequate beds, sobering centers to give our healthcare professionals to try to administer real help, other measures need to be taken to stop people from killing themselves right before our eyes!

Audits of all the monies and programs thrown at the Tenderloin need to be taken seriously! We have created an "industry of homelessness and staying addicted" and this needs to be changed in a humane manner.

Dear Supervisors:

I am a resident of District 10 and I am urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) today. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

In my 30 years as a resident of this incredible city I have never seen such a dire situation on our streets. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Joel Bean

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
Judi

To Whom it May Concern-

Thank you, London Breed, for your plainspoken language when addressing the disastrous conditions of Our City. It is about time! I've lived in the City for over 30 years and to see it in its current state is heartbreaking. A proclamation of emergency in the Tenderloin is more than appropriate. But why stop there? As I'm sure you know, it is not just the Tenderloin. Varying degrees of crime and squalid conditions are affecting every corner of San Francisco. I mean, seriously, what have all you Supervisors been doing? What are your priorities? By the looks of things, they're not the same as mine. Let's clean the house! Let's take some action. What can I do to help?

Sincerely,  
Kirsten Ziegler

*Honorable Members of the Board of Supervisors,*

*My name is Laurance Lee, and I am urging the Board to support the Mayor's Emergency Declaration on drug overdoses in the Tenderloin. I support the Emergency Declaration because it will enable the City to have a swift, effective emergency response, with public health, behavioral health, social, or housing services. The City can't wait any longer to streamline the bureaucratic process so healing for families, businesses, and the unhoused sufferers of drug addiction can begin in the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks. The City is finally acting with the urgency that our street crisis demands. Please support the Emergency Declaration.*

*Thank you!*

Dear Board of Supervisors:

I urge you to back the Mayor's Tenderloin Emergency Declaration!

I serve as a trustee of the DeMarillac Academy on Golden Gate Avenue and witness the deplorable conditions our students have to walk through every day to get to school. Inhumane and disgusting.

The time for the dithering, posturing and inaction is over. We must provide aggressive action to address this dangerous situation now. Imagine if YOUR loved ones had to experience this everyday.

Thank you for listening.

Dear Supervisors:

I am a resident of District 6, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

To the SF Board of Supervisors,

My name is Alex Smith and I am urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Alex Smith

Dear Supervisors:

I am a resident of District 8, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over **80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse**. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. **Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin**. Thank you!

Justin Donahue  
Resident of District 8

Dear Supervisors:

I am a resident of District 7 and my name is Joseph Der. I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. Shoplifting, vandalism, robbery, I can go on and on. There is no such thing as victimless crime.

We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. And we look to you to press the District Attorney to enforce the laws. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Members of the Board of Supervisors,

My name is Brian Moore and I own property in districts 3, 5 and 8 and I am urging the Board of Supervisors to support the Mayor's Emergency Proclamation. I think this proclamation does not go far enough. Most of my tenants, like me am fed up with the crime, drug use and mentally ill living on the streets. As a property owner I am held to the highest standards by the City of San Francisco. You should be held to the same standards. You will undoubtedly be inundated with representatives from the homeless coalition indicating their opposition. These groups are part of the problem and should be defunded. The Homeless coalition is like the jail system. They make large sums of money keeping the homeless and mentally ill on the streets. IT IS TIME FOR CHANGE. IF YOU DO NOT DO IT STEP ASIDE AND LET OTHERS MAKE THE HARD DECISIONS FOR YOU.

PLEASE SUPPORT MAYOR BREED

Brian Moore

Supervisor Preston,

Thank you for meeting with me and Jen last week. As the President of the Hayes Valley Merchants Association, and a 3rd Generation San Franciscan, I urge you and your fellow Supervisors to approve the Mayor's Emergency Proclamation. I worked in the Tenderloin for many years and have seen first hand the toll taken on families trying to raise their children in an unsafe neighborhood. I've also seen how we've tolerated open drug dealing without consequences, and the unhoused without compassion. This situation has gone unabated for far too long. It is inhumane and should be treated like the disaster it is. As the Tenderloin's next door neighbor, Hayes Valley has experienced the spill over as manifested by crime, drug dealing and the unhoused. We can no longer "wish" these problems away. Immediate action is needed.

Regards,

Lloyd Silverstein

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320). WE NEED AGGRESSIVE ACTION NOW TO TAKE CONTROL OF OUR CITY! It is inhumane to let people live and die on our streets, their lives controlled by the aggressive drug dealers around them. Our city is an embarrassment!

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. Hello,

My name is Sergio Ximenes and I am a Tenderloin resident. I fully support a public health led emergency response to the conditions in the Tenderloin.

Residents in the Tenderloin have been living in chaotic, violent, filthy, and unacceptable conditions for too long. People need help and we are happy to see the mayor finally addressing these issues.

I urge the board to pass the Emergency Declaration for the Tenderloin.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening. The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

--

Dear Supervisors: I am a resident of District 1, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early. In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you! Kathryn Cole  
District 1

**Date:** Wednesday, December 22, 2021 10:34:26 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Members of the San Francisco of Supervisors:

I am writing in regards to the Mayor's Plan for The Tenderloin.

I am a Senior Citizen that resides in D6 that has seen the District degrade very badly since 2016. No resident of the neighborhood should be subjected to the filth and criminal element we have to put up with just because most of the residents of the neighborhood are poor in the Tenderloin.

Whenever I walk out my door, I am bombarded with Drug Dealers and people shooting up on the sidewalks. I am subjected on a daily basis by Drug Dealers and Drug Addicts who block me, follow me and solicit me for sex. No one should have to put up with that.

I should be able to freely walk out my door at any time of the day to take care of my business without any interference.

For some members of the Board of Supervisors and the Mayor, I am old enough to be your mother and I would think you wouldn't want your parents to have to be subjected what I have to go through on a daily basis.

Some of my senior neighbors are afraid to go out the door and some of us have to help them get groceries because of the conditions on the streets. One of my friends in the neighborhood recently got attacked and had to spend time and money to get a restraining order. My friend is okay but she had a frightening experience with a mentally ill homeless person. I had to call 911 last month on an individual who had OD'd outside my building.

I hope you consider in supporting Mayor Breed's plan in helping to cleanup the Tenderloin. The bad behavior that goes on there affects everyone in the City of San Francisco.

Thank you,

Lisa Quail

I fully support the Mayor's state of emergency declaration for the Tenderloin, and I demand that you support the Mayor's efforts also.

It's a good first step, and we need to take further steps on the same path for the Tenderloin and the rest of the city.

We citizens are enraged by the shit-ification, lawlessness and criminal impunity that are destroying the city. We are even more outraged by the total failure by the Supervisors and the DA to change your attitudes and act according citizens' demands.

It's time to pull your heads out of your asses and act! If you continue in your complacency and failed policies, we'll see a repeat of Nov 2016. Trump is what happens when you ignore citizen rage and you fail to change, and you'll bear that responsibility.

**Subject:** Vote YES on Mayor's Emergency Declaration for the Tenderloin  
**Date:** Wednesday, December 22, 2021 11:02:06 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

From: [Krista Brughelli](#)

Dear Supervisors,

On behalf of 1 Hotels I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

The drug activity is ruining our city and our industry. We are trying everything to bring back visitors to our city. Employees no longer want to work in our San Francisco hotels because they fear something dangerous may happen to them along their way to work.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Members of the Board of Supervisors,

My name is John Lin. My extended family/neighbors copied on this email and I are long-time residents, home owners, taxpayers, registered voters and concerned citizens of San Francisco. We urge the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin and **encourage the Board of Supervisors to pressure the District Attorney's office to enforce our laws to prosecute drug dealers, thieves and other criminals who have seriously deteriorated the quality of life of San Francisco and endanger its citizens.** We are all appalled that SF has reached such a sad, crime ridden state before our elected officials are starting to take action, but glad something is starting to happen. We and our networks are ACTIVE voters and are watching your actions!

We support the Emergency Proclamation because it will enable the City to have a more effective emergency response to the Tenderloin crisis.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

John Lin

Dear Supervisors:

I am a resident of District 2, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dennis Bradley

District 2 Resident

Dear Supervisors:

I am a resident of District 5, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

I would also request that the same be done in District 5, in the Haight where there have been 2 fatal shootings in the last few months. I have repeatedly reached out to Dean Preston asking him to do something about it and heard no response.

Sincerely,  
Christian Ebersol | District 5

## **SUBJECT: Support the Mayor's Emergency Proclamation!**

Dear Supervisors:

I am a resident of District 2. My brother and his family of four have already moved out of San Francisco, and I am considering my options as a result of the increased crime and homelessness. I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you,

our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dear Supervisors,

On behalf of 1 Hotels I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

The drug activity is ruining our city and our industry. We are trying everything to bring back visitors to our city. Employees no longer want to work in our San Francisco hotels because they fear something dangerous may happen to them along their way to work.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

If anything, I think the state of emergency should last longer than 90 days as the problems are intractable and will not even be partially solved in that timeframe.

Stop wasting taxpayer's money and provide safe and clean streets for everyone - especially the taxpayers who pay your salaries.

Dear Supervisors:

I am a resident of District 4, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

Simply put, Drug dealing must be shut down immediately by law enforcement. Treating addiction and healthcare takes time, but should follow.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents

said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dear Supervisors,

I am a resident of District 2, and I urge you to approve the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

I've lived in San Francisco for over a decade, and hope to for many more. The past two years have created challenges none of us could have predicted, many of which are out of our control. This issue, however, is largely within our control, and in the hands of the Board and the Mayor. We need to show San Francisco that our elected officials can move quickly and effectively, similar to how you all did on COVID.

I remain optimistic about San Francisco's future, and the Board and Mayor working together to simultaneously hold law breakers accountable, help those with drug addictions get the help they need, and improve the underlying causes of crime, drug use, homelessness, and more. Please do the right thing here, for all current and future San Franciscans.

Tristan Zier  
District 2

Dear Supervisors:

I am a resident of District 1, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Alison Fong, resident and homeowner in District 1 since 2003

Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

The current state of the city is an absolute disgrace and embarrassment. I cannot comprehend why you all allowed this to get this bad, but at a minimum it would be great to try to improve things.

Darren Hollak

Dear Supervisors,

I am a resident of District 2, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions.

**How could you vote no after the brutal attack on a 6 year old girl walking to school, open air drug dealing, and random mid-day shootings?**

To vote no on this would be abhorrent - you must be extremely out of touch and **PRIVILEGED** to even think about blocking this (**yeah, I'm talking to YOU Dean, Hilary, and Aaron - you're nothing but a group of privileged OUT OF TOUCH nut jobs who will be voted out in the next election**). Contrary to whatever nonexistent utopian marxist planet you're living on, there are people who live in the Tenderloin, many of whom are poor immigrants. If you truly claim to be progressive, then protect those who need it the most (oh, and I'm sorry to inform you that those who need it the most are NOT the drug dealers and criminals in the Tenderloin). The RESIDENTS deserve safe streets, and the many drug users deserve the support they need to get into treatment. And by support, I don't mean ENABLEMENT (free cash and housing with no requirement to stay clean and off of the streets). By support, I mean they deserve options, a safe environment, and CONSEQUENCES that push them in the right direction to sobriety and a healthy life.

You have destroyed the right of the children in the Tenderloin to walk to school safely regardless of their socioeconomic background. Protect the immigrant, black, and brown families who LIVE in the Tenderloin and don't engage in illegal activity. Most of the residents in the Tenderloin are law abiding citizens just trying to live their lives. **So, let them live by SHUTTING THE OPEN AIR DRUG DEALING AND DRUG USE DOWN. NOW.**

I can't believe that some of you (yeah, I'm talking to YOU again, **Dean, Hilary, and Aaron**) are SO privileged that you would actually oppose this. While you live comfortably in your million dollar condos with private security and preach empty words about "equity", the children of the Tenderloin are forced to walk by people shooting heroin in the streets, armed drug dealers, and dirty needles. None of this actually impacts you, and it shows. Your privilege is really showing here.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. **We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.**

**Thank you!**

Hello,

My name is Valdeck Ribeiro and I am a Tenderloin resident. I am also a Property Manager of a building in the Tenderloin. I fully support a public health led emergency response to the conditions in the Tenderloin.

Residents in the Tenderloin have been living in chaotic, violent, filthy, and unacceptable conditions for too long. People need help and we are happy to see the mayor finally addressing these issues.

I urge the board to pass the Emergency Declaration for the Tenderloin.

Sincerely,  
Valdeck Ribeiro

Dear Supervisors:

As a long-time resident of District 8, I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. We residents across the city, and especially in the Tenderloin, are living with crime, drug use, drug dealing, and dangerous conditions. Our current course of action is enabling addiction and death, rather than helping people recover from it.

Please allow our city to enforce and prosecute fentanyl sales more strictly than we do tobacco vape sales.

Sincerely,  
Aaron Thompson  
District 8

**To:** [Board of Supervisors, \(BOS\)](#); [hello@d2unite.com](mailto:hello@d2unite.com)  
**Subject:** Vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses  
**Date:** Wednesday, December 22, 2021 12:07:07 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

My name is Lanier Coles and I am urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Lanier Coles  
San Francisco Resident

Dear Supervisors:

I am a resident of District 5, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Sincerely,

Mariela Venglevska  
Resident of District 5

Members of the Board of Supervisors,

My name is Vanderson S. Nieri, and I urge the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

Hello

Hello,

My name is Tulio Mello and I am a Tenderloin resident. I fully support a public health led emergency response to the conditions in the Tenderloin.

Residents in the Tenderloin have been living in chaotic, violent, filthy, and unacceptable conditions for too long. People need help and we are happy to see the mayor finally addressing these issues.

I urge the board to pass the Emergency Declaration for the Tenderloin.

I saw 2 murders from my windows in this month alone in the corner of Golden Gate and Larkin. The drug dealing is in front of everyone and we see a large quantity of drugs being sold to cars. The kids in the building are afraid to leave home. Its a horrible situation. We should send them to the front of the supervisors home do they can have an idea what's going on in our city. From theirs desk and they're fancy houses the can't know what's going on. Please Help.

**Date:** Wednesday, December 22, 2021 12:37:42 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

On behalf of Staypineapple An Elegant Hotel San Francisco I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

Our ability to retain staffing levels has been greatly compromised by this crisis, employees are hesitant to travel to this part of town due to the increase of danger and violence witnessed on the streets. Attracting customers to stay at our hotel has been very difficult and continues to worsen due to cleanliness of the surrounding areas and the danger from criminal activities, making this location undesirable. Most importantly, the lack of immediate support received when a crisis is reported from the emergency/police response team is concerning. We are often left to fend for ourselves, risking our safety while attempting to deal with the theft and crime associated with this crisis.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Sincerely,

Rhodora Escobar  
General Manager

Hello San Francisco's Elected Board of Supervisors,

I hope your day is going well and that your commute to and from work is safer than mine. I'm a long-time resident of the Tenderloin and since the start of the pandemic, the deteriorating conditions has gotten worse. There are way more overdoses, way more violence and trash resulting from the ever growing open air drug trade, and all of this is extremely harmful for ALL the residents. I should NOT have to be afraid to leave my apartment to pick up dinner from a local eatery in the area after the sun has gone down. I should NOT be awoken from my slumber because I hear gun shots and police sirens going off in the middle of the night. I should NOT have to see someone sticking a needle in their arm or leg on my way to work. I should NOT have to walk in the streets because the sidewalk is taken up by tents, drug dealers and users, and people selling stolen goods. I should NOT have to beg and plea for elected officials to provide the same living conditions residents get in the Marina or Pac Heights.

I urge the board of supervisors to approve the public health led emergency declaration. Or, move this contained craziness to a less populated area with the least amount of children and seniors.

Let me know if the city will provide compensation or free therapy for those suffering mentally, physically, emotionally and financially for living in the Tenderloin, working in the Tenderloin or have a legitimate business in the Tenderloin. We've been suffering way before the pandemic started. It's just now times 1000 because all the privileged NIMBY's with the money were able to keep this harmful stuff away from their neighborhoods.

Live here for at least 2 months and you will understand where I'm coming from and why I feel the way I do.

phoet tak, Tenderloin resident who needs your help

**Date:** Wednesday, December 22, 2021 12:43:11 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear SF BOS,

I am a new resident to D6 pursuing my law degree at USF. I moved to this city because of the opportunities it offered to my family and the immense beauty of its people and environs. My mother immigrated to Balboa Park from the Philippines and my Dad was born at SF General to Filipino immigrants residing in SOMA. I look forward to becoming a life-long San Franciscan. As a gay man I am also most free here.

The current state of the TL is not worthy of a world-class city. From my new apartment I see children playing on the Tenderloin Community School playground and it is saddening to know those children are subjected to dangers on the streets. The city owes those immigrant and poor children the same opportunities it afforded past families who made SF home such as mine.

At a minimum the community deserves safe streets from violent mentally ill individuals and the open drug use. How can the illegality of being inebriated in public be common knowledge, yet the city condones open drug use in the TL? How can the city expend millions of tax payer dollars over the last decades toward the TL with no results?

Public safety is the minimum responsibility of local government. Without it society cannot thrive. I am not for the mass incarceration of users but I do support getting the dealers off the streets and am agnostic about individuals choosing to use substances in the privacy of their homes, but there should be accountability for use in public.

Granted the pervasive problems plaguing the TL and this city are in part caused by a lack of housing and the stratification of wealth and opportunities in our society. But continuing with the status quo is untenable, anarchic, and unjust to the most vulnerable among us. You have the power to make change proximally and now (e.g. allow more housing production, enforce public safety coupled with rehabilitative services) I urge the Board to support the Mayor's emergency measure.

If nothing changes, then power of the ballot will compel voters to change the status quo. This is already in motion as evidenced by the upcoming recalls for the school board and DA. Have the courage to make the just choice not the expedient one.

Sincerely,  
Alexander Salazar

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

On behalf of Beck's Motor Lodge, my employees and my guests, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin. We need to take this step to improve our city and to show that we care about all of those who are a part of our city.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

Being located in the Castro, I never tell my guests to walk to Union Square - though many want and could - because walking through the Tenderloin is not something I want my guests to experience. It makes San Francisco look bad for so many reasons - where is our empathy? Where are our government officials? Where are our eyes? Why are we not doing something? I have no answer to these questions my guests ask. Let's change this - it's the right thing to do.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Dear Board of Supervisors,

Mayor Breed declared a state of emergency in the Tenderloin.

**Does anyone want to ever walk in the Tenderloin?**

It is a breeding ground for crime, theft, violence, guns, homicides, and drugs, and harassment.

Innocent men, women and children become casualties and victims every hour of every day. This has got to stop NOW.

Please protect us all. Please protect the victims.

Enough is Enough.

**Please support the Mayor's emergency proclamation.**

Thank you, Dave Sahagun

Dear Supervisors:

I am a resident of District 2, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you and Merry Christmas,

Peter B. Creech  
District 2 (Supervisor Catherine Stefani)

Dear Supervisors:

I am a resident of District 7, and I urge you -- begging you, at this point -  
- to vote for the Mayor's "Proclamation of Local Emergency - Drug Overdoses  
in the Tenderloin" (File No. 211320) this Thursday. The residents of the  
Tenderloin are living with crime, drug use, drug dealing, and dangerous  
conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy,  
and deteriorating conditions.

**This spills into my own world daily as I commute with my preschool daughter  
to her school downtown and step over needles, feces, and circle past passed  
out addicts, or those screaming out in anguish. Turning a blind eye must end  
now, and help needs to be deployed immediately.**

The Emergency Proclamation will enable the City to have a more effective  
emergency response, with public health, behavioral health, social, or housing  
services. The Proclamation requires the Controller's office to report to the  
Board on the City's use of funds to support the emergency response. The state  
of emergency will only last 90 days, and the Board retains the ability to  
terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that  
homelessness and street behavior are the top issues facing the city, and 88%  
said that the situation is getting worse. We are looking to you, our  
Supervisors, to authorize faster and more effective action to address this  
crisis. Treat this disaster like the emergency it is. Approve the Mayor's  
Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

I am a resident of District 2, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

It is beyond ridiculous that it has gotten to this point and it is about time that something is being done. Either begin to help or get out of the way.

Thank you,

Seamus McElearney

Resident of District 2

Dear Supervisors:

I am a resident of District 10, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin, and those all over San Francisco, are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

I am writing to urge you to support the mayor's declaration of emergency in the Tenderloin.

The whole world is watching. Our city is still heavily dependent on the tourist and convention industries. Our reputation is justifiably terrible now. Who would want to come here?

If I were you guys, I'd organize 24x7 trash sweeps and hose down every sidewalk in the Tenderloin everyday. It is disgusting. Staffed toilet facilities would also help. Clean it, and make the people creating the filth help.

Obviously there are crime issues across the city, but addressing the rot at its heart would be a good start.

Please don't let perfect be the enemy of good.

D. Evans

Dear Supervisors:

I am a resident of San Francisco and I urge you to vote for the Mayor's "Proclamation of Local Emergency — Drug Overdoses in the Tenderloin" (File No. 211320).

The residents of the Tenderloin are living with crime, drug use, drug dealing and other dangerous conditions.

There are families with children living in this neighborhood.

This is an emergency and I am looking to you, our Supervisors, to authorize faster and more effective actions to address this crisis. As a City resident, I have walked through the Tenderloin and ridden Muni through the Tenderloin. It's not a pretty sight and I am imploring you, our Supervisors, to seriously take this as an emergency.

Our fellow citizens and visitors deserve better than what the Tenderloin has become.

Sincerely,  
Calvin Lau  
2673 Pine Street  
San Francisco 94115

Dear Board of Supervisors,

On behalf of the Palace Hotel and Kyo-ya Ohana, LLC, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

The drug dealing and overdose crisis has made my associates and guests feel unsafe. Additionally, it has deterred future business and opportunities to expand and retain our work force.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Warm regards,

**CLIFTON  
CLARK**

**Date:** Wednesday, December 22, 2021 1:40:52 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

I am a resident of District 2, and alumni of U.C. Hastings College of the Law, and write to advocate and support my fellow UC Hastings alumni, current students, and RescueSF in **urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin"** (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. Even further, as a non-resident but frequent visitor of the Tenderloin, I have personal experience witnessing this crime, drug use, drug dealing, and overall dangerous conditions within the Tenderloin. The last few years have shown a complete deterioration of the Tenderloin, and without adequate resources, these issues will continue to persist and effect not only Tenderloin residents but the greater area of San Francisco proper.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. As a student, I consistently witnessed or personally experienced verbal assaults, verbal harassment, drug overdoses, was chased down the street, and on numerous occasions called into action to help a potential drug overdose in seeking Narcan and medical assistance.

We are looking to you, our Supervisors, to authorize faster and more effective action

to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you for your time and effort in bettering our city!

/s/ Dominique Marangoni-Simonsen

Resident of District 2: San Francisco; Alumni of District 6: San Francisco.

Dear San Francisco Board of Supervisors:

I am a resident of District Six (6) and urge all of you to vote for Mayor Breed's Proclamation of Local Emergency – Drug Overdoses in the Tenderloin (File No. 211320), scheduled for Thursday, 23 December 2021. The residents of the Tenderloin are living with crime, open-air illegal drug use, illicit drug dealing and other dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy and deteriorating conditions on a daily basis.

The Emergency Proclamation will enable the City of San Francisco to provide a more effective emergency response, including public health, behavioral health, social and other required humane services. As you are aware, the Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. Additionally, the state of emergency will only last ninety (90) days and the Board retains the ability to terminate the state of emergency prior to that time.

In a recent poll of San Franciscans, more than 80% of respondents steadfastly agreed that homelessness and disheartening/dangerous street behavior are critical issues facing our city. Moreover, 88% of respondents concurred that these unsafe, unhealthy and inhumane conditions continue to escalate. This problem is real, it's a daily occurrence. It has made international headlines. We are looking to you, our elected representatives, to authorize an expeditious and powerful action to address and solve this ongoing and dangerous daily crisis. This is an emergency. Accordingly, approve the Mayor's Proclamation of a Local Emergency – Drug Overdoses in the Tenderloin.

Sincerely,  
David Knapp

Members of the Board of Supervisors,

My name is Shane Ebbert, and I urge the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

## **SUBJECT: Support the Mayor's Emergency Proclamation!**

Dear Supervisors:

I am a resident of District One, and I urge you to vote for the Mayor's "Proclamation of Local Emergency" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

As a native resident I am sick of the crime, homelessness and street behavior. These are the top issues facing the city, and it is getting worse. Me and my neighbors are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. And let's get rid of Chesa Boudin. Thank you!

Dear Supervisors:

I am a resident of District 6, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Jeannie Gant  
District 6

Hi Angela,

My name is Madison Alvarado and I am a reporter with the *San Francisco Public Press* covering public housing. I am trying to understand more about the appointment process for individuals on the San Francisco Housing Authority Board of Commissioners and was informed that three of the commissioners on the SFHA Board were appointed by the Board of Supervisors (the others being appointed by the mayor), and was hoping to learn more about the nomination and approval/ appointment process on the BOS end. Would you or anyone you oversee with knowledge on this topic be available to speak with me on this issue in the coming weeks? I can do a Zoom, phone call, or just send my questions via email if that is best for you.

Please let me know if you think this would be possible. I know schedules are busy with the holidays, so I am happy to speak early next year if connecting in December is not possible.

Best,  
Madison Alvarado

Dear Supervisors,

On behalf of the JW Marriott San Francisco, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

It is imperative that we address the drug crisis that has developed and grown during recent years. There are people struggling and dying from drug overdoses daily. The declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. The declaration will streamline the help that the Tenderloin needs.

The people of the Tenderloin need this. The people in the City need this. The City of San Francisco needs this. This will be the first official step to a full recovery. The open-air drug use and dealing have led the employees of the JW Marriott San Francisco to feel afraid to be at work, afraid to take public transportation, and afraid to walk to work. This cycle has led many guests traveling to San Francisco fearful and unwilling to visit San Francisco again because of their encounters with crime and drug use on the streets.

This is a health emergency in the Tenderloin, and it needs to be addressed as such.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Thank you,

ANTHONY LE  
DIRECTOR OF ROOMS | JW MARRIOTT SAN FRANCISCO UNION SQUARE  
515 Mason Street | San Francisco CA, 94102

Dear Supervisors,

I am a resident of District 4 and Emergency Department Registered Nurse at UCSF, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. As an ED nurse in San Francisco, it is disheartening to watch my patients cycle in and out of the ED due to the conditions and lack of effective resources in the Tenderloin. Frankly, the current permissiveness of open drug dealing and behavior has become inhumane.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

Please vote in support of Mayor Breed's Emergency Proclamation.

Sincerely,

Melissa Smallwood

Dear Supervisors:

I am a resident of District 8, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" this Thursday.

The residents of the Tenderloin are experiencing unseen levels of community harm from drug dealing, overdoses, and associated crime. Annual overdose deaths in San Francisco have nearly tripled, approaching 1800 deaths in the last three years with Black people four times more likely to die of overdose.

That we have let our community reach this point is truly heartbreaking.

How is it that San Francisco has led the nation in its response to the COVID pandemic, yet continues to suffer in terms of overdose and drug-related harms, when both health epidemics are caused by not-so-different, socially-spread contagions?

How did we have the political will to swiftly require vaccination and masks to enter public, social spaces, but we don't yet have the political wherewithal to stop tolerating open-air drug dealing, which has caused far more deaths?

We are hosts to one of the largest super-spreading overdose sites in the nation, second only to Philadelphia in terms of death-rate, and the only thing missing is your consensus that it must be ended now.

Across the world, other successful, progressive cities like Lisbon, Amsterdam, Frankfurt, Vienna, and Zürich have already solved this problem by ending open-air drug markets with a similar combination of law enforcement based on police, health care and social services. [1]

Immediately releasing drug dealers and felony offenders back onto the streets is akin to allowing someone with coronavirus to board an airplane without a mask. We know much better than to continue to enable this.

We must interrupt the cycle of harm and build on these evidence-backed, multi-faceted solutions together, and we can do so with full, long-term compassion towards those who are suffering from addiction or mental health issues.

Let this emergency allow us to come together with shared and measured pragmatism.

Let this be an opportunity to show our citizens what true progressive collaboration can look like.

I urge you to show leadership by supporting our law enforcement, health, and social service organizations in this endeavor.

Thank you,  
Arjun Banker

Members of the Board of Supervisors,

My name is Tracy Brandi, and I join in urging the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

Dear Supervisors,

On behalf of Fairmont San Francisco I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is an health emergency in the Tenderloin, and it needs to be addressed as such.

As someone who lives and works in Nob Hill I can personally see how the current crisis not only impacts myself and our employees but also our guests. Not a day goes by where I don't encounter a customer of one of our restaurants or the hotel who comments on the very visible crisis in our beautiful city. Be that they only walked to union square and took a wrong turn or if they decided to get to Nob Hill via VanNess – any portion of driving through the Tenderloin leaves them with a very sad, but very real impression of our beautiful city. We need to be better than that – for our residents, our employees and our visitors.

Again, we ask that help us and help the mayor by voting in support of the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Best regards,

Markus

Dear Supervisors:

I am a resident of District 10, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

**In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse.** We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dear Supervisors:

I am a resident of District 1, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. The current status of support for the Tenderloin is not working and doing nothing is unacceptable.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

I am a resident of District 3 and a business owner in District 6. I am writing in support of the Mayor's "Proclamation of Local Emergency—Drug Overdoses in the Tenderloin" (File No. 211320) and am joining RescueSF in urging you to vote yes this Thursday. The residents of the Tenderloin and surrounding areas are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the area also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. There are also reasonable checks on the Proclamation, in that (1) it requires the Controller's office to report to the Board on the City's use of funds to support the emergency response, (2) it will only last 90 days, and (3) the Board retains the ability to terminate the state of emergency early.

The situation in the Tenderloin may be nothing entirely new but it has escalated to the point where our streets are no longer safe. As a resident and business owner I used to regularly walk through the Tenderloin but have stopped—and my children cannot visit their friends who live in the neighborhood. I urge you to approve the Mayor's Proclamation. We must try something new.

Thank you for your time and consideration.

Dear Supervisors,

I am writing to ask you to support the Mayor's request for a Declaration of Emergency to deal with crime, drug dealing and homelessness in the Tenderloin. I have worked there for over 10 years and it has descended into new depths of hell for the many families and kids who live there. They have to deal with these dangerous people and situations 24/7 and this SIMPLY HAS TO STOP!

Do NOT hide behind the mindless rhetoric of "wokeness" and the false discourse around social justice! Why don't the families of the Tenderloin get the same preferential treatment? And why do you endlessly support failed practices of "tolerance" that continue to harm innocent people every day?

If you do not approve this, you will ALL be collectively guilty for ignoring the rights and lives of hardworking immigrants and kids and instead will go on record as supporting criminal behavior, lawlessness and chaos.

Do the right thing for a change and support the Mayor!

Dear Supervisors:

I am a resident of District 2 and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

I want my City back again and not overrun by both dealers and users of drugs that are making San Francisco unsafe, unattractive, and a joke of a city to the rest of the world. I've just finished reading San Fransicko by Michael Shellengerger and agree with his findings and proposed solution. If Amsterdam could clean up their drug users and dealers where drugs are legal, we should be able to do the same. What you have been doing with our tax dollars and time for the past 5 years is not working and it is time to try other approaches. If you don't, we then need to find new Supervisors that will. We are trying to recall our School Board members and our District Attorney and we can then move on to recalling or replacing all of you unless you get things fixed.

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

On behalf of The Donatello in Union Square, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is an health emergency in the Tenderloin, and it needs to be addressed as such.

This crisis is impacting our hotel business daily, and many of our team members are scared to walk the street to our hotel. This cannot continue and must be addressed immediately.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Sincerely,

Dear Supervisors:

I am a resident of District 3, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency – Drug Overdoses in the Tenderloin. Thank you so much!

Happy holidays,  
Tiffany Ting  
District 3

**Subject:** I support Mayor Breed's emergency declaration  
**Date:** Wednesday, December 22, 2021 3:11:01 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear San Francisco Supervisors,

I am writing to express my full support for Mayor Breed's emergency declaration to help the Tenderloin. I am a librarian and I work at the Main Library. It's beyond my comprehension that the scene in Civic Center, United Nations Plaza, and the Tenderloin is acceptable. **THIS IS A HUMANITARIAN CRISIS.** The addicts need serious intervention or they will die of overdose, infection, exposure to the elements, or violence. The dealers need to be arrested and charged with dealing a deadly substance. The insanity and criminality **NEEDS TO STOP.**

Your neglect of the neighborhood is appalling. The Tenderloin is full of children, seniors, recent immigrants, and working poor. Do they deserve to live with this situation? **NO!** It is shameful, and for all your talk about "sanctuary" and "equity" you have turned this neighborhood into a containment zone for the worst conditions in San Francisco, and I can't help but wonder if you allowed that because you assumed the vulnerable population in the Tenderloin would accept that.

I have lived in San Francisco for 31 years. I have been a resident of SOMA for 18 years. I have watched in horror as my neighborhood has declined. The conditions accelerated during the past two years: we have suffered regular break-ins, property damage, graffiti, shattered windows, stolen mail and packages, our mailboxes were pulled off their hinges by intruders, bikes stolen from our parking garage, people in psychosis yelling and screaming at all hours of the night, garbage and feces on the sidewalks...I could go on and on. I feel like I am living in **HELL!**

I support fully funding SFPD and supporting law enforcement. When we have incidents in our neighborhood, the police don't even come! **THERE IS NO POLICE RESPONSE IN SAN FRANCISCO.** I understand now why people buy guns. I used to be 100% anti-gun, and a big proponent of gun control. Now, I'm getting shooting lessons for Christmas. I feel like this City is a failure. You have failed to hold criminals accountable for their actions, you have failed with public safety, and for all the money that is earmarked for homeless services, you have failed to make any improvement on our streets.

- Refund SFPD
- Audit the non-profits who are supposed to help the unhoused
- Fund Drug Treatment on Demand
- **STOP GASLIGHTING THE CITIZENS AND TELLING US "CRIME IS DOWN"**

You might dismiss me because I am angry. Do not dismiss your citizens. Mayor Breed is on the right track, and her actions are **WAY OVERDUE.**

I have served the public as a librarian for 15 years. During the pandemic, I served as a Disaster Service Worker. Prior to that, I worked in the hospitality industry. I strive every day to make San Francisco a great place to live, work, and visit. I can't do that unless you all do your jobs.

The world is watching you now. Turn this situation around, or San Francisco will turn into a wasteland.

**I SUPPORT MAYOR BREED'S EMERGENCY DECLARATION!**

Sincerely,  
Doreen Horstin  
District 6 resident

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

I am in favor of supporting neighbors who are down on their luck and need a helping hand, but a large majority of folks that are living on the streets in the Tenderloin are not from San Francisco and many of them are drug addicts.

We need to get the drug dealers out of our city because drug addiction is a major cause of homelessness, mental health issues, and crime. And the number of drug overdoses alone is a reason to declare this to be an emergency, particularly since a significant number of those dying are kids in their twenties who never had a chance to live a decent life.

Please support Mayor Breed in this important issue.

Thank you,  
Brad McMillan

Dear Supervisors:

I am a resident of District 2, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin (and every district) also endure unsafe, unhealthy, and deteriorating conditions. How is it compassion to leave someone out there in that condition? And how is it fair to the tax payers and voters who now walk the city streets in fear?

We moved to District 2 from District 1 less than a year ago because the Inner Richmond was getting so bad too. Drugs Use, Needles, Trash, Mentally Ill, Naked people camping and urinating on the sidewalk in front of our old place across from the Greenbelt on Funston. I watched it for a year straight working from home in our living room until I came home one day and said "We're moving, I can't take it anymore." Believe me, we were looking to leave the city after 20 years but decided we love it too much to give in and leave. Please, please, please try the mayor's plan and if it works implement it throughout the city. I don't see that we have anything to lose by trying something different, enforcing laws, getting people treatment and cleaning up our city!

For any of you who believe that the Walgreens on Clement shut down for other reasons other than the crime, you are sadly mistaken. EVERY single time I was in that store they were getting robbed. The employees stopped calling the police knowing nothing would be done about it. Me and my family were in the Walgreens almost everyday and saw the blatant theft. Please wake up to the issues of crime, drugs and homelessness and implement real solutions. What is in place now is not working and people are afraid.

I would have loved to see you take control of the old hospital, where my sons were born, on California St to house and treat the unhoused. It was built for it! My understanding is it will be condos? What a waste of an opportunity to really help these poor people and the city.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of

funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

To: Board of Supervisors  
City & County of San Francisco

From: Steve Gibson  
Executive Director  
Mid-Market Business Association (MMBA)  
Mid-Market Foundation (MMF)

Re: Support for Declaration of a Local Emergency

The Mid-Market Business Association and Mid-Market Foundation ask each Supervisor to vote in support of the Declaration of Local Emergency. The issue before you should not be considered through the lens of politics or personal philosophy. The focus should be on the lives of the thousands of children, seniors and families that call the Tenderloin home. These community members must endure a daily crisis of unacceptable public space behavior as they walk to school, go to work, run businesses, and try to live a “normal life”.

The issues of open drug dealing, open drug use, homelessness and mental health are not new to the Tenderloin. The pandemic has greatly increased the severity of each of these issues and magnified the negative impact on the neighborhood. A true emergency exists in the Tenderloin and can only be addressed by an emergency response. This Declaration will make it easier to coordinate City departments and provide a much more efficient delivery of services to those struggling with addiction and homelessness. It will facilitate an increased use of non-police solutions, such as our Community Based Safety Program, to address the needs of the Tenderloin.

As you search your souls to make a decision on your support for the Declaration. Think about your neighborhood, the families, children and seniors living in your neighborhood. Would you allow the conditions in the Tenderloin to exist in your neighborhood?

**It is a matter of Equity!**

**Steve Gibson**  
Executive Director  
Mid-Market Business Association and Foundation

**Date:** Wednesday, December 22, 2021 3:20:31 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
Lou Ann Bassan

## Support for Local Emergency Proclamation - Drug Overdoses in the Tenderloin (File #211320)

Dear Supervisors,

As a concerned resident of this city I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is an health emergency in the Tenderloin, and it needs to be addressed as such.

We live a few blocks away from the most affected area of the Tenderloin and drive through the area on occasion, but usually take a longer route around the area because we just don't feel safe driving on certain streets. The situation at hand is beyond a crisis and is at a critical

level for those of us who live here in San Francisco and make a living here. I appreciate Mayor Breed moving forward in finally addressing the situation we are all facing here in San Francisco

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Lisa Thomas & Mark Cook  
District 5

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I am writing in support of Mayor Breed's recent announcement to clean up the Tenderloin. It is the first ray of SF sunshine to escape City Hall in months!

I am a long-time resident of District 8, and also a retired UCSF Professor of Psychiatry, running a non-profit for the benefit of families living with autism—in the Flood Building—on the edge of the Tenderloin. Some of our patients report being uncomfortable with the neighborhood, as do my staff.

I took BART to work from my home in Noe Valley for 8 years pre-pandemic—but now still in my car—as my couple of forays to Powell BART have been a bit too scary. I park in the basement of Ellis O'Farrell—where (in the last two months) I have seen the same homeless couple sleeping or changing clothes several times (sad for them), but also a guy who I thought might follow me to my car—there, instead, to self-inject some drug... On another occasion, I arrived to my car to see a drug deal--dealer, his protector, and customer, hovering near my car—so I kind of waited for them to finish—though still moving toward my car—so I looked like a parking customer and not a narc... One of the women in my office had the back window of her Tesla broken out in Ellis O'Farrell—nothing taken—nothing to take. Others of my staff only park in upper levels—they deem 'safer.'

I drive home on Ellis to Jones where there are frequently drug deals going down at the last light before Market Street, and on several occasions I waved pleasantly—hoping to indicate I was waiting for the light to change, not drugs. As a mental health professional, I can say that easily over 75% of these people need mental health and or drug treatment. Living on the street is not a good choice for them or for us.

In the last couple of weeks I have been so pleased to see more police on the beat, to see encampments like Mission and 7th cleaned up, and to see cops demonstrating a change in the City's tune. The human detritus of San Francisco has left me, a 30+ year resident of Noe Valley—considering whether it is time to leave. Anyone who thinks this is a 'homelessness' problem and not a crime, drug, and mental health problem live in La-La Land. Chesa Boudin belongs in La-La Land, not San Francisco!

Please help Mayor Breed continue to implement her plans to clean us SF!

Dear supervisors,

Dear Supervisors:

I am a resident of District [XX], and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Mike Sweeney

Dear Supervisors,

It's outrageous the current lawlessness of -once upon a time- an enchanting city. London Breed is a native SF that is also a WOMAN OF COLOR like myself and that is showing to have the best interest of the city -as well of having the support of our Madame Speaker and Governor- and she is calling as it is AN EMERGENCY and you MUST VOTE FOR IT.

I know that sadly the majority of you are not working class people of color but let me tell you that we (the real people of color) are sick and tired of being afraid and discuss by all the craziness around us. People are losing their jobs and their livelihood because of the current state of our City. Everywhere I go, people just want to ask me when I will be moving out of here. it's truly sad considering that not so long ago I was constantly praised by living in the City by the Bay.

You can't keep trying to please some Senator from Vermont or some Representative from NY instead of doing your job. Your job is precisely to PROTECT THE RESIDENTS of SAN FRANCISCO, we are the ones paying your salary and you need to start respecting the oath you sworn to obey. Don't be like the former guy and used your office just for your own personal agenda. Do better than the people (or Party) you criticize so much. If you have not noticed, this city needs you and this is the moment for you to prove if you are worthy of any political future.

Thanks

Karina Velasquez, ESQ

Resident of District 2 and with business address in The financial district.

“Be brave like a woman of color constantly must be”

Dear Board of Supervisors,

We urge you to immediately approve the Mayor's Emergency Declaration to bring the necessary resources to the Tenderloin, UN Plaza, Civic Center Plaza, and Mid-Market. The current conditions in these areas can't continue another day – we need action.

As residential and commercial property owners, small business owners, employers, educators, nonprofit service providers, and residents of the Mid-Market/Tenderloin neighborhoods, we write to express our profound concern about the current situation on our streets. We live with unacceptable and dangerous street behavior. Public drug-dealing and drug-use, open-air markets peddling stolen goods, and blocked public rights-of-way that prevent our employees, customers, clients, tenants, and residents from safely traveling in their neighborhood. It is an alarming public health and public safety crisis, at once heartbreaking and appalling. We believe you agree.

The safety of our residents, small business owners, employees, and community members is of utmost importance. We need your support of the Declaration to bring the necessary resources to address the issues at hand.

We are counting on you to approve this Declaration.

Best,

Matthew Binczek

Dear Supervisors,

I am a resident of San Francisco since 1979. I support and hope that you will support the Mayor's proclamation. I understand that it does not solve everything, but at this point, some tough love is required to avoid having San Francisco's reputation further tarnished, and to provide an effective response with public health, behavioral health, social, or housing services.

Dear Supervisor Ronen & the SF Board of Supervisors,

I am a resident of District 9, and I am joining GLIDE, ACLU of Northern California, Harvey Milk Democratic Club, Alice B Toklas Democratic Club, the Latinx Democratic Club, the No New SF Jail Coalition, DSASF, the Do No Harm Coalition and dozens of other organizations in urging you to vote no on the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

The Emergency Ordinance is a massive power grab that allows the Mayor to unilaterally increase funding for tried and failed policing, bringing back the drug war and turning back the clock on the progress we have made with efforts arising from Black Lives Matter. We should focus our resources on sustainable, evidence-based solutions that keep people healthy and out of the legal system by providing meaningful services to those suffering from substance abuse challenges, including housing, treatment, job training, and employment.

Please oppose the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Thank you!

Dear Board of Supervisors,

I am writing to urge you to approve the Mayor's Emergency Declaration that will bring the necessary resources to the Tenderloin, UN Plaza and Civic Center Plaza, and Mid-Market immediately. The current conditions in these areas can't continue another day – we need action.

As the management representative of residential and commercial property owners, our many employees, and representing our thousands residents of the Mid-Market/Tenderloin neighborhoods, I write to express my profound concern at the current situation on our streets. We live daily with unacceptable and dangerous street behavior, public drug-dealing and drug-use, open-air markets peddling stolen goods, and blocked public rights-of-way that prevent our employees, customers, clients, tenants and residents from safely traveling in their own neighborhood. Our tenants and buildings are all too regular victims of rampant crime. It is an alarming public health and public safety crisis, at once heartbreaking and appalling. We believe you agree.

The safety of our residents, small business owners, employees, and community members is of utmost importance. We need your support of the Declaration to bring the necessary resources in order to address the issues at hand.

We are counting on you to approve this Declaration.

Cordially,

Amy Hull

To all Supervisors,

I fully support any and all efforts to reduce crime in all parts of San Francisco, including the Tenderloin and areas specifically targeted by Mayor Breed's Emergency Proclamation.

Law enforcement efforts need to be extended throughout the City where property damage, car break-ins, illegal camping, theft (petty and otherwise), personal attacks and all other types of disturbances occur. We can not allow perpetrators to escape prosecution the way it is, apparently, done now.

In the partial words of the Mayor, just cut the BS and stop the further degradation of living here in SF! Give the police proper funding, enrollment and enforcement powers to get the job done!

**SUBJECT: Support the Mayor's Emergency Proclamation!**

Dear Supervisors:

Pacific Heights Residents Association (PHRA) urges you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) on Thursday, 12-23-21. Residents of the Tenderloin, housed and unhoused are living with crime, drug use, drug dealing, and dangerous conditions. Workers, students, visitors, and merchants in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis, starting with the Tenderloin and then other neighborhoods. Treat this disaster like the emergency that it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Terry McGuire, President  
Pacific Heights Residents Association

**Subject:** Mayor Breed's Initiative  
**Date:** Wednesday, December 22, 2021 4:28:13 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

As a resident of San Francisco for over 20 years (District 5), please support the Mayor's "Proclamation of Local Emergency (File No. 21132) this Thursday. Beyond the challenges in the Tenderloin of residents living with crime, drug dealing and dangerous conditions, the unhoused there are suffering in unsafe, unhealthy and worsening conditions.

The Emergency Proclamation will enable the city to respond to this and other challenges in San Francisco at a critical juncture in our history. Recent polls, my personal experiences and my personal discussions with local residents show that homelessness, street behavior and crime are getting worse. I am looking to you, our supervisors, to authorize faster and more effective action to address this crisis by approving the Mayor's proclamation.

We need to do something different that stops our city's negative trajectory. Progressive 1.0 is not working and if you are against Mayor Breed's proposal you need to propose a progressive 2.0 that learns from the mistakes and errors of the past many years that have lead us here. Please figure out an "and" to Mayor Breed's proposal vs a maintain status quo against it.

I've lived in San Francisco for over 20 years and in a major European city before that. Our direction is wrong and we need both progressive approaches but "sticks" (not prison) that stops criminals from progressing to where we are today. A week ago on a Friday afternoon, I took the N train downtown to take some photos and I've never seen a more dystopian city. When I first exited the N train I was scared for camera and my life that I never experienced before in San Francisco. When I finally got to Union Square I felt safe but that was only because there were two policeman on every corner. I did some shopping and when the store put the items in a name brand bag, I asked for a simple brown bag as I was scared of being robbed. Everyday I look at my car to see if my window has been smashed or wake up every night wondering when I hear a noise if my garage is being broken into. My fear is founded on real experiences and not any article in the news. Is this the San Francisco we want ??

Unite behind Mayor Breed by supporting and/or augmenting her initiative and unifying together with her for this needed intervention.

Best  
Bill O'Such  
District 5 Resident

Dear Supervisors:

I am a resident of District 6, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dylan Phaneuf  
District 6

Members of the Board of Supervisors,

My name is Boris Berdichevsky, and I urge the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

Dear Supervisors,

On behalf of San Francisco Proper Hotel, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

It has become increasingly difficult and exponentially more dangerous for us to do business in the Tenderloin. There are frequent shootings, fights involving deadly weapons, and other dangerous behaviors happening at the front door of the hotel and its surrounding area on a daily basis. Guests are scared to arrive at the hotel and many leave before even checking in because of all the negative activity surrounding the hotel. Our

colleagues are terrified to come to work. They do it because they need to provide for their families, but many end up leaving because the stress of having to make their way to the hotel never knowing what could happen is not worth it to them and they end up taking other jobs that are safer, often outside the City. Many of our colleagues have had to endure multiple active shooter lockdowns at the hotel because of the shootings directly across the street. One of these is too many. Can you imagine multiple in a year's time? This is the City of San Francisco and we are located two blocks from City Hall. This condition is simply unacceptable and something must be done. Whatever the City has been doing to date hasn't been working and addressing this crisis is long overdue. The safety of law abiding citizens, guests, and colleagues must finally be taken into account and prioritized.

In addition to having to live in constant fear just to come to work or just to visit San Francisco, the hotel is being permanently damaged from all the negative reviews on social media and other online platforms as a result of all the criminal activity in the neighborhood. The hotel receives these low overall ratings solely because of all the criminal activity in the neighborhood and many guests go out of their way to say that even though they are rating the hotel poorly because of the neighborhood, the hotel itself is exceptional and it's a shame its located in such a dangerous place. We are two blocks from City Hall on Market Street!!! If the City is so inclined to

continue to condone and perpetuate these conditions, then at the very least it should work to facilitate moving them and containing them in Civic Center Plaza, so that those going in and out of City Hall can experience what we are experiencing and those trying to make a living and keep their families safe don't have to be traumatized on a daily basis.

To that end, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Dear Supervisors:

I am a resident of District 10, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Jeff Young  
District 10

Dear Supervisors,

On behalf of the Hilton Union Square and Parc 55 hotels, I am writing in support of the Emergency Proclamation that Mayor Breed recently declared for the Tenderloin neighborhood.

Above all things, the safety of my 1200 employees, the residents of San Francisco, and our visitors is of the utmost importance. Therefore, addressing the tribulations currently present on our streets is critical to the future of our city, and the people needlessly suffering from the present health emergency.

This is why I am asking the Board to formally support the Emergency Proclamation, as your backing would enable city departments to more efficiently address the ongoing crisis at-hand, allowing for the better angels of our nature to truly persevere.

The impacts from street safety have remained a concern with true constancy; for the benefit of residents and visitors alike, we must do all we can to address this head on.

Again, please support the Mayor's Proclamation of a Local Emergency in the Tenderloin. This request will directly—and vitally—benefit my employees, the neighborhood and our guests.

Thank you very much for your time.

Sincerely,  
Terry Lewis  
Complex General Manager

Dear Members of the Board of Supervisors,

Since 2015, The Healing WELL is and has been a place of healing and sanctuary for many in our Tenderloin neighborhood seeking a respite from the realities just outside our doors. It is ironic that The Healing WELL, the neighborhood center that offers programming and promotes relationships to help people cope in healthy ways with the trauma and stress they experience, is being rendered inaccessible by the increasingly dangerous, triggering and discouraging conditions on the street. The Mayor's Declaration of this State of Emergency is long-overdue. For decades, our community members, from children to the elderly, housed and unhoused, have been traumatized because of the City's neglect and short-sighted policies which have led to violence and death, and unsafe and unsanitary conditions on the streets.

What is different now is that we are facing an intense public health crisis because of drug overdoses. As such, we need a public health response.

- The City needs to direct its resources to create more low-barrier detox and rehab beds for people who need help fighting their addictions, and increasing temporary housing solutions like more Shelter in Place hotel rooms, safe sleeping villages and sites where people can congregate safely and receive basic services.
- This does not include a focus on the arrest of drug-users. This is counter-productive and short-sighted in our under-resourced system and does not solve the core addition problem.

We know that homelessness, addiction and mental health challenges are complex. However, getting people inside safe spaces today will help make our streets safer now. It will allow us to formulate clear plans of what we need to do in the long-term to create lasting change: more permanent supportive housing and effective treatment programs.

Thank you for working for immediate and lasting change in our neighborhood, making it safe for all people.

Sincerely,

Kathy Curran

Dear Board of Supervisors,

On behalf of the Phoenix Hotel and Chambers eat + drink, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

As the managing partner of both venues, I am in the neighborhood every day. To be sure, the Tenderloin has always been a little gritty but over the past 2 years the streets and sidewalks have devolved into a place where people are killing themselves and each other on a daily basis. The lack of attention to the neighborhood over the past 2 years has created a situation where only those engaged in illegal behavior can exist. For business owners and families, it is now unsafe, unhealthy and simply unfit.

Two weeks ago the gas at the hotel was turned off by PG&E because drug users broke a valve, creating a hazardous situation. They would not come and repair the valve because they felt unsafe around the people in the neighborhood and what would certainly be a health hazard to them. This left my guests of both the hotel and restaurant without gas - no food service and no hot water, simply because the streets are too unsafe for basic critical services to be maintained.

We struggle on a daily basis to literally get our doors open because of the threats from the violent drug dealers. We can not open until we have the active help from police to just clear the front entrance. Consider the appeal of this to our valued guests.

I can't tell you how much the city's blind eye has affected the business that once flourished in the neighborhood. The countless reviews from hotel guests speak for themselves.

- The area is really down ridden with homeless and junkies
- This hotel is in a terrible neighborhood. Going out anywhere was a challenge due to MANY drugged out individuals carpeting the sidewalk along with thick litter. I'm glad I survived. Restaurant was closed.
- The hotel is very trendy, very nice, very stylish but of course in a rather dangerous area. Indeed, the tramps take crack at the exit of the parking lot. But the hotel is well worth it and once we are inside there is no danger.
- Inside property was nice and good people running place! - "But" there is no reason this outside property / area can't be improved and no reason why local people should put up with this homeless mess. Has open drug use and people dealing drugs right outside property. Homeless need to be relocated & drug (death) dealers thrown in jail- period. No excuse for this mess. Community leaders / people need to improve & move homeless to shelters in areas

away from city. Force your gov leaders to spend "your" tax money in a more productive way!

- Neighborhood is a carnival of drug addicts lined up \*directly outside the property\* to purchase drugs en masse in broad daylight. Needles all over the sidewalk. Daytime front desk guy was nonplussed by this. I'm a big fan of SF, and know what to expect when visiting, but this was just pure lawlessness.

- I've always enjoyed staying at this hotel. Unfortunately the area is being besieged by drug users and sellers. I've never seen it so bad. If you don't know where you are going please be cautious.

- Beautiful oasis in the middle of an abandoned section of humanity. Hotel has beautiful mid century design.

- The Phoenix Hotel is my SF home away from home. The tenderloin has become a hunger games site so the street is a bit scary.

This problem requires decisive and immediate action. We are losing all sense of community.

Respectfully,

Isabel Manchester

Dear Supervisors:

I am a resident of District 7 and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. As a lifelong resident of San Francisco, my family called the Tenderloin our home for the first few years of my life. It is deeply saddening and disappointing to see that the residents of the Tenderloin today are living with crime, drug use, drug dealing, and dangerous conditions. In a progressive and wealthy city such as ours, I trust the irony of these conditions is not lost on the Board. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

As a nurse working in an emergency department, I see the impact of drug use, crime and substandard living conditions on our community. The current approach being taken to address these issues is not working. I urge the Board to vote for the Emergency Proclamation.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our elected Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the public health emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you,

Liz Cong

District 7

BOS Supervisors & Legislative Aides Supervisors & Legislative Aides,

I am a resident of District 10 and I am joining GLIDE, ACLU of Northern California, Harvey Milk Democratic Club, Alice B Toklas Democratic Club, the Latinx Democratic Club, the No New SF Jail Coalition, DSA SF, and dozens of other organizations in urging you to vote no on the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

The Emergency Ordinance is a massive power grab that allows the Mayor to unilaterally increase funding for tried and failed policing, bringing back the drug war and turning back the clock on the progress we have made with efforts arising from Black Lives Matter. We should focus our resources on sustainable, evidence-based solutions that keep people healthy and out of the legal system by providing meaningful services to those suffering from substance abuse challenges, including housing, treatment, job training, and employment.

Please oppose the Mayor's Proclamation of a Local Emergency in the Tenderloin. Thank you!

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

**From:** [Elisabeth B. Dean](#)

To the SF Board of Supervisors,

My name is Elisabeth Dean and I am urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
Elisabeth Dean

Dear Supervisors,

I am a resident of District 10. I have lived in San Francisco since 1978 and I have seen many changes to our city, both good and bad. One thing, however, does not seem to have changed at all. That one thing is the miserable state of life in the Tenderloin. In fact that state of affairs has spread into other areas of the city, including the squalid homeless encampments in and near our Northwestern part of District 10.

I urge you all to support the Mayor's Emergency Proclamation so that, finally, some progress can be made without the unnecessary dead weight of bureaucracy that, however well intentioned, hinders our city from regaining some of its former reputation as a wonderful place to live.

Torben Torp-Smith

Dear Supervisors:

I am a **15+ year resident of District 2** (Lower Pac. Heights), and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. **I am looking to each of you, our Supervisors, to please build bridges and work together to help Mayor Breed #GTD (get things done)** to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you!

Elizabeth Kao  
District 2 regular voter -

**p.s. Thanks Supervisor Stefani** for your Zoom calls with the public & police to try to give us insight & transparency where possible!

Members of the Board of Supervisors,

My name is Donna Li, and I urge the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

Dear Supervisors,

On behalf of Bei Hotel San Francisco, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is an health emergency in the Tenderloin, and it needs to be addressed as such.

On a daily basis, I have guest come to stay and then depart because the conditions of our streets are littered with trash and drugs, drug dealers and even dead people on the streets from daily overdoses. The amount of trash that our CBD teams pick up daily is unbelievable and they cannot keep up. Today, I

walked outside my hotel at 4pm and a drug dealer/addict was sitting outside my business front door with a bag of drugs and 100 needles on the ground as his bag had broken and spilled out all over the sidewalk. What do you think my guests thought as they walked by this scene? On the corner of 8<sup>th</sup> and market there are dealers there every day selling drugs, the police come by and they scurry away but as soon as the police leave they return. The amount of urine and feces on all the streets from humans and dogs is uncontrollable. Why do we allow homeless to have pets with them? Are the pets safe, vaccinated as well. One bite to a guest and who knows how much the city will pay in lawsuits.

I lived here before and moved back 6 months ago and cannot believe how bad the conditions in SF have become!!!

I am uncertain if I will stay as the situation has become so tragically awful and unsafe.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Please save the city of San Francisco as it is almost too late at this point and it will take years to recover.

Craig A. Waterman

I have lived here in SF for over 40 years. I raised my family and went to college and became an RN Case Manager/Supervisor and worked in Home Health and Hospice here and loved.. that is LOVED with a D this city but NOW? The way you people have destroyed our beautiful city with your negligence and terrible policies? Nope.

My son was at work 3 years ago and suffered a severe back injury. He was overmedicated and became addicted to opiates. I didn't know this then. Since then, though, he has suffered in the throes of addiction. Lost his family. His daughter. Struggles. Had a stroke. Comes here to my home where he always has a home to recover but the last time he wanted rehab Healthrite 360 never responded to my calls for help. He relapsed again and right after he left, they finally called asking what we wanted.

I am here for him but he says he feels shame and relapses and IS IN THE TENDERRLOIN WITH ALL THE ILLEGALS SELLING FENTANYL POISONING AMERICANS THEY SAY, WHILE THEY FREAKING LAUGH!!!!!!!!!!!!!!!!!!!!

DO YOUR JOBS! VOTE FOR THIS EMERGENCY DECLARATION. EVERY ONE OF YOU WILL BE REPLACED IF YOU DON'T!

YOU ARE KILLING MY GRANDDAUGHTERS FATHER!!!

Dear Supervisors:

My girlfriend and I, along with our foster baby, are residents of District 6, and we urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

The situation in the Tenderloin is and has been 100% an emergency, and it has gotten completely out of control. **The foster child we have cared for was born at CPMC on Van Ness with both fentanyl and cocaine in his system -- and the mother, a homeless resident of the Tenderloin, had received no pre-natal care prior to giving birth.** This isn't just about adults making choices to do drugs. There is no \*harm reduction\* when we're talking about babies being born addicted to drugs. Something has to be done. Things cannot continue down this road. On top of all that, it's also just sad that we don't feel safe taking the baby for a walk outside during the day. We have been screamed at and lunged at multiple times by people struggling with mental illness and addiction. Enough is enough. Get these people help!

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Sup. Rafel Mandelman and Staff:

As a resident of D8 (and former resident of D6) I wish to convey my support of the Mayor's Proclamation of Emergency (File # 211320) for the vote this Thursday. This is long overdue. People in crises need unconditional access to resources before having 8 5150's. Negative behaviors, including tolerating open air drug markets, reduce the quality of life for every resident— suffering social issues, or not. This situation is NOT the same thing as Nancy Regan's War on Drugs. The proclamation lasts for 90 days as drafted, in which the Board has the option to terminate the state of emergency thereafter.

In conclusion, please approve this 90 day emergency declaration.

Thank You.

William Dymek,  
District 8 Resident

Hi,

As a resident of the Castro, I have seen many homeless and too much drug use on the streets. I cannot even imagine living any day in the Tenderloin. I support Mayor Breed's emergency proclamation for the Tenderloin. The whole city needs help, but this is a first step in helping the people and the neighborhood that are hurting the most.

Get this done.

**Subject:** Don't be bullied into indifference for Tenderloin and SoMa Families and 1-2 Drug Overdose Deaths Daily  
**Date:** Wednesday, December 22, 2021 7:24:33 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Greetings Supervisors,

I am a resident of District 6, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. I can't believe I even feel the need to write in support of such common sense action - but here I am.

It is unbelievable that I see so many bullies on Twitter urging you to support the status quo of indifference towards children and their families living in fear of bullets or violent attacks 24/7 both inside and outside of their homes in the Tenderloin and SoMa because we don't deter the goddamn drug dealing in downtown San Francisco. Drug dealers get arrested, and turned loose to resume their reign of terror.

City employees like myself do not feel safe coming up from the BART/Muni train station at Civic Center and Van Ness Avenue because the goddamn drug dealers and their customers blocking the entrances.

It is unimaginable that elected officials would be okay with the status quo of the drug dealer markets that directly link to killing 1-2 San Franciscans every day, but that's what the bullies online seem to want.

It is insane that we have a District Attorney, Chesa Boudin, who is clearly confused with the role he was elected to perform when he allows dangerous, red flagged violent criminals to revolve right back out onto the streets to terrorize and kill Tenderloin and SoMa residents.

We need to stop acting like the deaths and terrorism of San Franciscans is acceptable collateral damage. It is not acceptable.

Has the San Francisco Democratic Party and its membership completely lost its moral compass, indifferent to this geographic pocket of San Francisco's plight to live in fear because nobody seems to care enough to make things different?

Do the Right THing -

Sincerely,  
Jamie Whitaker

To the SF Board of Supervisors,

My name is Patrick Hayes and I am urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320). The homeless crisis has been out of control for the last 30 years. It is time that the mentally ill and veterans with PTSD are taken care of instead of being ignored.

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Patrick Hayes

## **SUBJECT: Support the Mayor's Emergency Proclamation!**

Dear Supervisors:

I am a small business owner of District 6, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Jeannie Kim

## District 6

Hello Board of Supervisors, I am the owner and CMO of Standard 5&10 Ace in SF's Laurel Village, which has proudly been a SF landmark since 1939.

In our 82 years in San Francisco, there has NEVER been a worse time to be a retailer in San Francisco, given the lawless shoplifting that is pervasive in SF, nor has there been a harder year to love our beautiful City by the Bay than this year, with the drug dealing, overdoses, feces, tent-city, and other side effects of our lawless open-air drug market in the Tenderloin.

We need to take urgent, drastic, PROVEN action. Mayor Breed's plans for immediate action of Services AND Police, WILL work, and has worked in countless cities across the globe, for many decades. We need to go back to enforcing laws around those who break them, be it drug dealing, shoplifting, or any other illegal act. And we need to provide access to treatment, services, and life-saving Naloxone, immediately to stop the horrific death count from the deadly fentanyl in today's open air drug market in SF's Tenderloin.

My own son was an addict, before a poisoned fentanyl-laced pill killed him in his dorm room at Sonoma State on 11/17/19. Our open-air drug market MUST be closed, and more Police and more City Services are exactly what needs to happen.

**I 100% support this Emergency Declaration**, as the mother of a dead addict, as a SF retailer, as a native Northern Californian and former SF Resident, and as a charter member of the California Peace Coalition.

Thank you in advance for supporting Mayor Breed's Emergency Declaration.

---

Dear Supervisors,

On behalf of the SF Hotel Council, of which I am a member, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin. God bless you!

## **SUBJECT: Support the Mayor's Emergency Proclamation!**

Dear Supervisors:

I am a resident of District 6, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. For years, San Francisco has allowed the Tenderloin to devolve into an ecosystem that is increasingly dangerous, dirty, drug-infested and is undoubtedly unhealthy for its housed and unhoused residents. It has become a poster child for the failure of liberalism across American cities and our failure reverberates with national consequences.

This is not merely an academic concern. Last time I was in the neighborhood, I was personally threatened within the few minutes I stood outside waiting for an Uber. I will not park my car on the street in the neighborhood for fear of theft and vandalism. We cannot have "no go" zones in the City of San Francisco.

The Emergency Proclamation and the mayor's tougher approach to addressing criminal actions in our communities will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We cannot allow one of the most important cities in America to degenerate into a criminal free for all. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Please treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Levi Tillemann,

Supervisory District 6

Dear SF Supervisors:

I am a resident of the Tenderloin District and have lived here for 7 years. I beg you to vote for Mayor Breed's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

50% of my neighbors are moving out of the Tenderloin area because it has become so dirty and dangerous. My husband and I are planning to leave in 2022 as well, unless conditions improve. For the first 6 years that I lived here, it was a thriving, diverse community. Now I truly feel unsafe walking around this neighborhood. I am shocked that Chesa Boudin is neglecting this area and causing it to become a defecation and drug infested war zone. It's a very privileged stance for Chesa to allow anything to go in this neighborhood, when he doesn't live in this neighborhood and does not have to deal with the violence, crime, and unhealthy conditions resulting from his public policy. Three of my friends have gotten physically assaulted and/or robbed in the past year alone! It's really embarrassing to tell people that I still choose to live in this area. Please do something for us Tenderloin residents who want to see this area thrive again.

Thank you to Mayor Breed for finally taking a much needed stance on this disaster. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Bob Carter

## **SUBJECT: Support the Mayor's Emergency Proclamation!**

Dear Supervisors:

I am a resident of District One, and I urge you to vote for the Mayor's "Proclamation of Local Emergency" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

As a native resident I am sick of the crime, homelessness and street behavior. These the top issues facing the city, and it is getting worse. Me and my neighbors are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. And let's get rid of Chesa Boudin. Thank you!

Dear Supervisors:

I am a resident of District 7, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

Clearly, the current efforts have not been effective. Citizens of San Francisco need leaders that won't allow the status quo to continue.

Aaron Wong

## **SUBJECT: Support the Mayor's Emergency Proclamation!**

Dear Supervisors:

I am a resident of District 6, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Merry Christmas!

Richard J. Leider

District 2 (Supervisor Catherine Stefani)

Richard J. Leider

Hello,

I live in District 5. Last month, my girlfriend was injured by stepping on a needle on O'Farrell & Hyde. Two months before that, my friend visiting the city was punched in the face by a drug addict next to the Hilton. I had another friend move to the Tenderloin in 2020, but move out after it became evident their neighbors on both sides were openly abusing heroin in the hallways of the apartment complex.

Please support the mayor's proclamation - "Drug Overdoses in the Tenderloin" (No. 211320) this Thursday.

People in the Tenderloin are living with crime and open drug use and drug dealing. They encounter unsafe conditions that are rapidly getting worse.

I believe that this proclamation will let the city better respond, while still maintaining oversight - remember, the Board retains the ability to terminate the state of emergency early.

The Tenderloin has rapidly gotten worse, and this is not good for neither the residents nor those that visit it. Please authorize more effective action.

Thank you,

Neil  
District 5

Dear Supervisors,

On behalf of 1 Hotel San Francisco I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Thank you.

**Date:** Tuesday, December 21, 2021 7:23:06 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors, I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320) The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin. The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening. The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

This decisive action should be considered beyond the Tenderloin neighborhood. The tolerance our city shows to blatant drug use and theft is unconscionable. Our leniency toward criminals and open drug use/sales has created a safe haven for these criminals to proliferate, execute without fear repercussions, and take control of our streets. This environment robs law abiding citizens and homeowners from feeling safe in their homes and out in their neighborhoods. Compassion for the mentally ill is one thing, turning a blind eye to the demise of our city is a failure of our public servants. This swift action is the only short term answer. What we need is a long term plan to augment the next ninety days. We can't stop now, this will take more than one winter to improve.

Thank you for your consideration and service.

Sincerely,  
Casey Larson

Dear board of supervisors,

Please support our mayor in taking some required steps to reclaim our city, YOUR city, in a safe , humane and necessary manner. These issues have been ongoing, as you know, for many years with strong, honest and hopeful efforts employed to improve conditions. Unfortunately, these efforts and city treasure have not yielded acceptable results for the good people who call the Tenderloin home or the citizenry that frequently use or transition through this historic neighborhood. Much is commented on nationally about YOUR city. The promotion of the city of St, Francis, social justice, radical and wonderful diversity and “welcome to all” is getting very difficult to defend. Yes, other cities have challenges, yes there is a national problem with street conditions, crime and homelessness. But, like it or not, we are the poster child for urban decay of residents who need support the most. Conditions are not tolerable nor should they have ever been tolerated, you surely recognize that.

However, as bad as the national press and results are the real damage is felt here at home, in our, YOUR, once beautiful city by the bay. How can the wealthiest city in the wealthiest state in the wealthiest nation on earth be in this situation? We all have opinions and those are simply too easy to come by. The Mayor has a plan, it won't be easy and it will require intestinal fortitude to carry it out. You have responsibility a huge burden to bear in addressing these issues, but that is the job.

Please, support Mayor Breed in this action ***and help her*** and the rest of us turn the tide of disappear in the Tenderloin. This will test your political will. This is a desperate situation ladies and gentleman. Elections have consequences and here we are, and will be again.

Sincerely, and with hope, wishing you a Merry Holiday Season,

Paul S. Tormey  
Regional Vice President , Fairmont's of Northern California  
Accor Hotels & Resorts

To the SF Board of Supervisors, I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320). The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin. The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening. The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday. Sincerely,

**From:** [Mindy Henderson](#)

To the SF Board of Supervisors,

My name is Mindy Henderson and I am urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Mindy

Dear Supervisors,

On behalf of Hotel Del Sol, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

This year alone we have had an overdose on the property, people shooting up in our parking lot, breaking into the property, breaking into cars so many times that we have stopped counting, and the most disturbing incident happened a couple of weeks ago when a mentally ill person assaulted an employee and a guest at the property in the middle of the night. The employee is still in treatment, spend over a week at SF General ICU, and nearly lost his life, the guest walked away with a black eye and other lacerations. The incident was

caught on tape, police arrested the individual, and our DA let him leave with an ankle bracelet, a 150 ft restraining order, and the promise to check in every 4 days with a social worker. The man has been diagnosed as bipolar 20 years ago, and that makes it OK to nearly kill someone and be let back into the community so that someone else may get hurt or killed? Our staff is frightened, we have to spend an enormous amount on additional security to appease the fears... The guests who witnessed this will undoubtedly tell their friends and associates about these San Francisco experiences. I would go to the media with this story, but no one wants more bad publicity in our industry, we want solutions that work. While this incident did not occur in the Tenderloin it is part of the same problem that is creating the untenable situation we have in the heart of our City.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Ingrid Summerfield  
Asset Manager

As a citizen of SF I support Mayor Breed's plan to restore a sense of order and safety to our city. What you have been doing so far is not working and is the source of much suffering.

Enabling is not helping anyone.

Please stop the downward spiral.

Thank you,

Carole Tuminello

*My name is John Barton and I am urging the Board to support the Mayor's Emergency Declaration on drug overdoses in the Tenderloin. I support the Emergency Declaration because it will enable the City to have a swift, effective emergency response, with public health, behavioral health, social, or housing services. The City can't wait any longer to streamline the bureaucratic process so healing for families, businesses, and the unhoused sufferers of drug addiction can begin in the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks. The City is finally acting with the urgency that our street crisis demands. Please support the Emergency Declaration. Thank you!*

Dear Supervisors:

I am a resident of District 6 and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Best regards,  
Derrell Porter

We have a humanitarian crisis in san francisco, particularly in the Tenderloin. We are currently losing 2 people a day to drug overdoses. Countless others die due to gun violence and murder. Our black and brown communities are disproportionately impacted. The statistics are horrifying from a racial perspective. This is never discussed, but we are seeing our black and brown communities decimated. What the city and community organizations have been doing for the past several years is failing and actually making the problem worse. Inaction during this humanitarian crisis is unconscionable. The BOS must support the mayor and try to end the suffering and loss of life. Matthew Rhoa, M.D., Elected CDP delegate AD19.

Dear Board of Supervisors,

It was 35 years ago (Dec 31, 1986) that I bought a nearly-bankrupt pay-by-the-hour motel at the corner of Larkin & Eddy Streets and renamed it The Phoenix. Back then, this particular area of the Tenderloin was a welcome spot for new Asian immigrants, arriving LGBTQ residents to the city, and it was a safe spot for fixed-income seniors. I did what I could to be a positive influence, joining the Board of Glide Memorial Church for a decade and becoming an active supporter of the Tenderloin Neighborhood Development Corporation. In fact, The Phoenix has raised approximately \$10 million for TNDC's Afterschool Program over the past 30 years by conceiving and hosting the Celebrity Pool Toss and has done its best to be a catalyst for neighborhood improvements.

But, I'm afraid The Phoenix and the TL are no longer rising from their ashes. In my 35 years of trying to be a positive influence, I've never seen the kind of unhealthy and unsafe situation we now find in the TL. Just this past week, I walked from Polk to Larkin on Eddy and saw four drug deals in process along with one person who was clearly overdosing and needing medical help - all on one block. I saw a worried Vietnamese-American mother walk her son to the other side of the street because of feeling harassed. And, I ran into Vivian Quach, who has worked with me at this location for 35 years, saying that she feels very unsafe coming to work. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

My concern isn't just this corner at the gateway to the Tenderloin. I'm also a small owner of the Petite Auberge and White Swan hotels on the 800 block of Bush Street where we've seen a sizable growth in street drug activity over the past more than 20 years we've owned those hotels.

We are at the end of our rope. Our employees and customers no longer feel comfortable coming here and there are countless drug overdoses ruining lives of those who are addicted. I ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Thank you for your consideration,

Chip Conley  
Founder and former CEO, Joie de Vivre Hospitality  
Owner of The Phoenix, White Swan, and Petite Auberge hotels

**Date:** Wednesday, December 22, 2021 5:56:50 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

On behalf of The Westin St. Francis, and our 700 associates, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

The current condition of the Tenderloin has directly impacted our many associates who live in the area and work at the hotel. Many travel through the Tenderloin on their way to work, have been attacked and do not feel safe. Our guests have also been attacked while walking through the Tenderloin and their companies have made it clear that they will not return to our Union Square hotel unless we address the very sad state of the area.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Sincerely,

**Jon Kimball**

Area General Manager

On Dec 22, 2021, at 02:35, Chip Conley <[chip@chipconley.com](mailto:chip@chipconley.com)> wrote:

Dear Board of Supervisors,

It was 35 years ago (Dec 31, 1986) that I bought a nearly-bankrupt pay-by-the-hour motel at the corner of Larkin & Eddy Streets and renamed it The Phoenix. Back then, this particular area of the Tenderloin was a welcome spot for new Asian immigrants, arriving LGBTQ residents to the city, and it was a safe spot for fixed-income seniors. I did what I could to be a positive influence, joining the Board of Glide Memorial Church for a decade and becoming an active supporter of the Tenderloin Neighborhood Development Corporation. In fact, The Phoenix has raised approximately \$10 million for TNDC's Afterschool Program over the past 30 years by conceiving and hosting the Celebrity Pool Toss and has done its best to be a catalyst for neighborhood improvements.

But, I'm afraid The Phoenix and the TL are no longer rising from their ashes. In my 35 years of trying to be a positive influence, I've never seen the kind of unhealthy and unsafe situation we now find in the TL. Just this past week, I walked from Polk to Larkin on Eddy and saw four drug deals in process along with one person who was clearly overdosing and needing medical help - all on one block. I saw a worried Vietnamese-American mother walk her son to the other side of the street because of feeling harassed. And, I ran into Vivian Quach, who has worked with me at this location for 35 years, saying that she feels very unsafe coming to work. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

My concern isn't just this corner at the gateway to the Tenderloin. I'm also a small owner of the Petite Auberge and White Swan hotels on the 800 block of Bush Street where we've seen a sizable growth in street drug activity over the past more than 20 years we've owned those hotels.

We are at the end of our rope. Our employees and customers no longer feel comfortable coming here and there are countless drug overdoses ruining lives of

those who are addicted. I ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Thank you for your consideration,

Chip Conley

Founder and former CEO, Joie de Vivre Hospitality

Owner of The Phoenix, White Swan, and Petite Auberge hotels

**Date:** Wednesday, December 22, 2021 6:23:26 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough, and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Sent from my iPhone

Dear Supervisors:

I am a resident of District 2, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

I first moved to San Francisco in 1991, and homelessness has always been near the top of the public agenda since then. Yet despite the the fact that we've spent billions of dollars on the issue, the problems have consistently gotten worse, and the Board of Supervisors has failed in its responsibilities to its residents. Instead, we have been resigned to accept that this is just a part of living in a big city. But all it takes is a visit to anyone any other major city in North America to realize that what is going on here isn't normal.

Yes, I realize it's a complex problem, but perhaps it's time for the City to realize that what it's doing isn't working, and that its residents—particularly those living in the Tenderloin—are paying the price, living in truly unsafe conditions.

We are looking to you, our Supervisor, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you

Regards

Arvind Rajan

District 2

Dear Supervisors

I have been a resident of the mission district for 24 years. and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Thanks  
Chuck  
Mission District

Hi there!

I have been a resident in San Francisco since 2005. I live in District 8 (29th and Dolores) and work in District 6 (near 7th and Folsom).

I work for a medical device manufacturer and have been required to go into work throughout the pandemic. I've taken the 14 bus to and from work almost every day for the past 1.5 years.

Like so many others, I've seen the neighborhood near my work fall into dramatic despair during the pandemic. Every day, as I walk from 7th and Mission (where my bus stop is) to 7th and Folsom, I routinely see at least 3 or 4 people completely sprawled out on the sidewalk, face-planted into the concrete. These people don't look passed out - they look dead. There are even more who are meandering about or lurched up against buildings, their minds clearly overtaken by the drugs they are on, with open flesh wounds on their legs, arms and even faces, sometimes muttering to themselves, and sometimes yelling at others as they walk by. There are always piles of feces, and always at least a few broken needles on the sidewalk. There is always at least one very large pile of trash spilled all over the street. There is rampant drug dealing in the neighborhood; it happens openly in plain view near the bus stop (people refer to this as an "open air drug market"). When I write this, I feel like one of those Twitter trolls who loves to stick it to San Francisco for being a terrible place to live. But I am not one of those people - I love living in San Francisco and have always appreciated the city's attempts to take care of people who have fallen on hard times. What I'm writing now is simply a direct, objective account of what I see every day. It is sad.

Over the past year I've also had a medical condition that has required me to see a doctor whose office is near Taylor and Geary. There's no need for me to detail what that walk is like - I'm sure you've all been in that area and seen how abysmal it is. Suffice to say, I oftentimes have no option but to walk down the middle of the street because there is no place whatsoever to walk on the sidewalk.

There were always issues in this neighborhood. When I first moved to the city in 2005, I would occasionally go out in the Tenderloin and SOMA and even back then it wasn't the safest. But it wasn't *\*nearly\** this bad. Today, you wonder how a city could have regressed this much over 15 years. The business owners in the neighborhood (who I've made it a point to patronize throughout the pandemic) are completely baffled as to how things have gotten so bad. They have lost business and feel demoralized when they hear that people won't come to the neighborhood because they don't want to deal with the bleak situation on the ground. Speaking on behalf of my co-workers who were not required to come into work during the pandemic, several of them *\*would\** like to come back occasionally, but don't feel like dealing with the neighborhood. This is probably happening at many other workplaces whose offices are located in the area, and the implication of this is that local businesses suffer due to lack of

foot traffic.

People say the major cause of everything I've described above is the drugs (which, based on my observations, I would plainly agree with) but why does our city leadership not care about this problem? City leadership appears to have made no attempt over the last 1.5 years, or if it has, whatever was tried has not remotely worked, and it is clear that no one is assessing the futility of those efforts and considering new options to affect change.

I feel so bad for the people who live in this area, and for the businesses who have set up shop here. They are stuck, beholden to a point of view that the troubles of those who are forced to sell and use drugs are strictly more important to consider than the struggles of people trying to run a business or raise their families. There are maybe dozens of people selling drugs, and thousands of people who are forced to live in bleak circumstances because of it.

I implore you to take action, and as of right now the only pragmatic action I've heard from city leadership is the state of emergency proposal to rid the neighborhood of the drugs. It seems as if Matt Haney and the residents of District 6 are supportive of change, and seeing as how it is those people who are directly affected, I hope the rest of the BOS will acknowledge what the people who voted for Matt Haney want him to do.

To the Members of the Board of Supervisors in general and to my supervisor, Rafael Mandelman:

I join RescueSF in urging the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. It is NOT a case of criminalizing addiction, as some maintain.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin.

Please support the Emergency Proclamation.

Thank you.

Christopher Hall  
District 8 resident and voter

First and foremost I wanna start by saying thank you for taking action on this matter. It has been a complete and utter disaster. We need to take these drug dealers off the street and deal with the accordingly.

I have a 6 year old daughter and the stuff she sees no 6 year old should be seeing. She attends Tenderloin Community school, On the way to school we are literally skipping over needles and Feces on the sidewalk, it's Absurd.

We all know the things that go on here and we need Immediate action. We are all suffering every day by letting theses things go on. In conclusion I want to thank everyone who's taking action to put a stop to all this foolishness.

Thanks a million,  
Muhammad

**Subject:** Vote YES on Mayor's Emergency Declaration for the Tenderloin  
**Date:** Wednesday, December 22, 2021 8:13:43 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
Chris Lambert

To Whom It May Concern,

I have been living in the Tenderloin since my 6 year old daughter was six months old. She went to the Wu Yee preschool on Leavenworth and is now in 1st grade at Tenderloin Community School.

In the past couple of years, what was a drug problem in the neighborhood has become a crisis. I am unable to walk my daughter to school every morning without her seeing something she shouldn't have to see. Be it someone defecating in plain sight, shooting up, or fighting, there's guaranteed to be some shenanigans at 8am.

As a resident of this neighborhood and a witness, I can assure you the problem is drugs, not homelessness.

I live in the most beautiful city in the world, but our neighborhood is trash and I'm sick of it. I can't afford to move, this is where the affordable housing is.

It's never been the best neighborhood, but it's our home and we love our teachers, park staff, and small businesses. PLEASE HELP US!

Thank you!

Andrea Biltagi

**Date:** Wednesday, December 22, 2021 8:26:19 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

My name is Nancy Chung and I am a long time resident of San Francisco, since the late 90s. San Francisco is a truly special, iconic city. However, the city has lost its way the past several years by allowing crime, drug use, and homelessness run rampant. I have school age children and it is highly concerning to me that the city is not safe and I worry every day that something will happen to them. Please **DO YOUR PART TO MAKE SAN FRANCISCO SAFE AGAIN** and have it be the beautiful, unique city it once was.

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. Dear Supervisors,

On behalf of Hyatt Hotels and Resorts I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is an health emergency in the Tenderloin, and it needs to be addressed as such.

Guests who enter the city via 9<sup>th</sup> and Larkin are shocked by our streets and the lawless nature of our new normal. No other major city that I have visited in the past year looks like the city I grew up in. It is embarrassing, tragic, and you as leaders in this city need to be accountable. Our streets should be your priority as tourism is suffering and we have become a global example of failed policies and leadership.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Sincerely

David

Dear Supervisors:

I am a resident of District 7, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dear Supervisors:

I live in District 8, at the edge of Noe Valley and the Mission District. I support Mayor Breed's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. This problem is most acute in the Tenderloin but also felt elsewhere in varying degrees. I do not wish to live in anything remotely like a police state, but we are so far on the other end of the fulcrum and something needs to be done about crime, drugs, alcohol and housing. She is making the effort to do something. Other leaders in this city have only given lip service or thrown up their hands as if helpless.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you!

Victoire Reynal

Dear Supervisors:

I am a resident of District 5, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

This situation has spread out City wide and deeply affects our tourist trade. This is something small business depends on. The Countries perception of San Francisco is not favorable, I have been traveling and again and again when I say where I am from in polite conversation the other person says how bad it is in SF! My businesses have had no less then 10 broken doors or windows and one break-in.

Thank you,

Donna O'Leary  
Owner Ambiance a SF Legacy Business  
District 5

Dear Supervisors:

I am a resident of District 5, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

Every time we drive through Tenderloin I'm on high alert, preparing for someone to come smash our window and grab whatever's in our car when we're in traffic. Tenderloin has become a no-walking zone for us.

My favorite Vietnamese restaurant has so little foot traffic because of how scary it is to come to Little Saigon. It hurts to see the businesses in Tenderloin, especially hard-working immigrants, to see their hard work not paying off because of a city safety issue.

My mom's favorite thing to do when visiting SF is to walk to the Westfield mall on Market St. from my house. That's now become impossible because of how dangerous it is to walk through Tenderloin, especially for an elderly Asian woman. I want the right to feel safe walking or taking the bus through the Tenderloin again, especially for the elderly who are not able to drive in the city.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is.

Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you,  
Xue Liang

I grew up in the Bay Area and have lived in SF for the last five years. I've also lived in NYC and know what large cities face.

Nobody can argue the truth of our situation - that the tenderloin is a national embarrassment and represents a severe failure of governance.

I live at Sutter and Jones. Every morning I walk past strung out junkies sleeping on the sidewalk. Every night I put in my earplugs to drown out the screams of the suffering in the streets.

I pay more than 40,000 per year in state and local taxes.

I grew up extremely liberal and heartily support resources for the homeless and mentally unwell.

What's going on in this city is not tolerance. It is malign neglect and it needs radical change, now.

I will closely watch how all of you vote on the state of emergency. I will donate heavily to defeat any so-called representative who does not support rising to the occasion and supporting Mayor Breed's brave action.

- Matt MacLaurin

**Subject:** Vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses  
**Date:** Wednesday, December 22, 2021 9:28:47 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

My name is Alexis Kalikman and I am urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320). The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin. The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening. The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
Alexis Kalikman  
2917 Jackson Street  
San Francisco, CA 94115

Aaron,

As you know Chris and I live in Jackson Square and I still am on the leasing team for the Ferry Building retail. Between cleaning up after people almost daily in my neighborhood and dodging unsightly activity in and around the Ferry Building AND Sue Bierman playground, I am in full support of calling this an emergency.

Thanks and Happy Holidays to you and your family.

Supervisor Mandelman:

We are residents of District 8, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. This blight is a human tragedy and a stain on our city. As you are our representative to the BOS, we need you to help us get this addressed.

Homelessness and dangerous streets are primary concerns for us, even as we walk the streets of the Castro! Visiting our friends in the Tenderloin is a horror show, taking only seconds to spot flagrant drug dealing, groups of folks injecting or passing a meth pipe, and untreated addicts dying on the streets. It is time we stop ignoring the reality we encounter every day and start taking action to clean up our city, stop the lawlessness, and get victims immediate help.

Please, we are asking you to send a clear message to your colleagues on the BOS: we must treat this disaster like the emergency it is. Approve the Mayor's "Proclamation of a Local Emergency -- Drug Overdoses" in the Tenderloin. Thank you!

Paul Ellwood & Tj Hunsaker

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Sincerely,  
Diane Sargent

Members of the Board of Supervisors,

I am a resident of district 1. Please support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through a bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks. We need to act NOW.

I went to support Slow Streets Tenderloin and can not believe that families and children are subjected to such extreme squalor, drug use, and open drug dealing. Slow Streets in the inner City make sense. Lake Slow DOES NOT. OPEN LAKE and support the Emergency Proclamation.

Thank you,

Christina Pappas

**I spent a year and a half on the Street Level Drug Dealing Task Force that you authorized. I support the Emergency Declaration and beg you to do the same.**

**The TL/Mid Market neighborhoods have been devastated by drug dealing and the collateral damage for years now. The neighborhood has more kids per capita than any other in SF, thousands of people dealing with addition issues, low income /fixed income, Elderly, BIPOC and Immigrant residents and they cannot walk down the street safely.**

**There is a program that has to negotiate with drug dealers to walk kids to school. How is this not already an emergency?!?!**

**THIS NEIGHBORHOOD HAS BEEN DESTROYED BY DRUG DEALING AND DESERVES ALL THE HELP IT CAN GET.**

**PLEASE SUPPORT THIS EMERGENCY DECLARATION.**

**Thank you very much,**

Dear Supervisors:

I am a resident of District 6, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. I used to live near Van Ness and Pine, and I can tell the condition in that area (and along the polk corridor) has deteriorated significantly during the COVID time. It wasn't very good before, but now it is downright horrible.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Best,  
Ang Li

The overall quality of life for all SF residents has deteriorated significantly. We need to be tough on crime to stop the criminal hunting ground our city has become. Please support ALL initiatives that allows SFPD and our prosecutors (soon to be a new SFDA come June) get tough on crime, with funding, resources and support.

Finally, don't get caught up in stupid initiatives and crazy stuff like "defund the police", which was never supported by 99.99% of the voters.

Thank you!

Dear Supervisors:

I am a resident of District 3 and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

As a single woman living alone in SF, next to the tenderloin, after 5 years I had to make a decision to move up the hill to get away from the unsafe living conditions. I had to step over people passed out from drugs to get out of my apartment, was terrified every time I got dropped off after returning from a dinner of who or what is outside my building, called 911 a number of times given the fights that would go on in front of Walgreens, saw dead bodies out my window, and was even accosted at Loving Cup on Polk by someone who is either an addict or mentally unstable. As someone who lived in downtown Chicago for 11 years I have never experienced such traumatic living conditions as I have in San Francisco and the level of being on guard required just to walk around the city. I finally moved to the top of Nob Hill and while it is better it is still incredibly unsafe. People should not have to live like this. I don't know how much longer I can actually live in San Francisco even though this has been the city I have dreamt of living in since I was in college. Just the drive in from the airport to my home, whether it is me or someone coming to visit me, is some of the most horrendous living conditions that someone will ever see in their lifetime. Last year I went to India told people I would be shocked and devastated by the living conditions there if I did not live in San Francisco and see something similar on a daily basis.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Neel Rane  
Resident, District 11

Dear Supervisors:

I am a resident of District 3, and I STRONGLY urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early. In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Best,  
Courtney Klinge  
27 years as a District 3 Resident

**Subject:** Vote YES on Mayor's Emergency Declaration for the Tenderloin  
**Date:** Wednesday, December 22, 2021 9:55:05 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

**From:** [Andrea A.](#)

Dear San Francisco Supervisors and Mayor Breed,

I am a resident of District 10, and I'd like to state my support for declaring a local state of emergency.

Enabling drug users and life on the streets by ignoring the issue is no favor to the poor souls crowding our sidewalks. It is time to stop looking the other way; to be kind but firm. We need to let people know that drug usage and crime on the streets is not acceptable, AND we need to provide treatment options and support, AND we need to stop tolerating the current status quo.

This city has become an unbelievably difficult place in which to live and raise a family.

We are one of the many middle class families who are being pushed out of this city by the crime, the filth, the drugs, the homelessness, and the lack of good public education opportunities.

We are one of the families disenfranchised by school closures last year, who couldn't afford private schools to keep our kids learning.

We are the parents who are afraid to be raising kids in this city because of all the bull.

I applaud the words... now it is time to follow words with action. Please empower the cleanup of our city!

Thank you for supporting and caring for san francisco residents and families.

Sincerely,  
Jennifer Wong

Dear SF Supervisors:

I am a resident of the Tenderloin District and have lived here for 7 years. I beg you to vote for Mayor Breed's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday.

50% of my neighbors are moving out of the Tenderloin area because it has become so dirty and dangerous. My husband and I are planning to leave in 2022 as well, unless conditions improve. For the first 6 years I lived here, it was a thriving, diverse community. I truly feel unsafe walking around this neighborhood. I am shocked that Chesa Boudin is neglecting this area and causing it to become a defecation and drug infested war zone. It's a very privileged stance to just let anything go in this neighborhood, when you don't live in this neighborhood and have to deal with the violence, crime, and unhealthy conditions resulting from public policy. Three of my friends have gotten physically assaulted and/or robbed in the past year alone! It's really embarrassing to tell people that I still choose to live in this area. Please do something for us Tenderloin residents who want to see this area thrive again.

Thank you to Mayor Breed for finally taking a much needed stance on this disaster. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Jane Zenzi Li Carter  
Tenderloin District

Dear Supervisors:

I am a resident of the Richmond District, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

**Subject:** Vote YES on Mayor"s Emergency Declaration for the Tenderloin  
**Date:** Wednesday, December 22, 2021 10:09:52 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the SF Board of Supervisors, I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320). The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin. The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening. The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday. Sincerely,

**From:** [Celeste Perron](#)

Dear Supervisors:

I am a resident of District 8 urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) on Thursday.

It is deeply unjust that the residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you!

Celeste Perron

Dear Supervisors:

I am a resident of District 7 and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Members of the Board of Supervisors,

My name is Norman Dudum ( resident in district 7 Myrna Melgar), and I urge the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin. I'm third generation San Franciscan and for over 40 years as a Small Businesses owner. This is not a time for politicking, it's a time of action to save our beautiful city.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

**Date:** Wednesday, December 22, 2021 10:25:35 AM

---

Dear Supervisors:

I am a resident of District 8, who, out of frustration and despair, stopped chronicling the scary and dehumanizing experiences me, my wife, and our 2 school age daughters regularly experienced. A few examples of those experiences can be found below.

The purpose of this email is to urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. This is a sensible first step towards restoring order to our streets, and providing for those in need. The current system obviously is not working. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. There is nothing compassionate about that.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Dear Benjamin,

Thank you for reaching out to the Office of Mayor London N. Breed. The situations that you have described in this chain certainly are concerning and I'm very sorry that you and your family have been exposed to them. As you know, our City and our Country are experiencing a brutal combination of housing, homelessness, and drug addiction crises. Unfortunately, the repercussions of these crises has presented itself acutely on our streets and the families and children of our City have been exposed to things that no one should see.

Mayor Breed is dedicated to getting the help that you mentioned to those on our streets with the most severe mental health challenges, among them the individuals that you have interacted with. Mayor Breed's goal is to provide vulnerable residents with intensive services and coordinated treatment to get them off the street and into shelter. You can read more about exactly what that means online [here](#).

Through these efforts over time, we hope to be able to resolve your concern and ensure that everyone in San Francisco can not only get the treatment they need, but also raise a family in peace.

I hope you have a good holiday!

From my wife, downtown with our 7 year old....

"I'm so sad . This crazy person was yelling at us, calling me a fucking bitch. I didn't turn around but Rose did and he yelled even louder. She jumped and turned around. Made me want to cry."

If none of you can offer any solutions to the disgraceful and dangerous conditions on our streets, it's time to step aside so someone with some spine and willingness to not make excuses can try to save our city.

Goodness, It's getting even  
WORSE out there. Spent an  
entire muni ride home having  
the entire car subject to  
racist homophobic  
harassment by an well  
person desperately in need  
of help. This is horrific,  
dangerous, and  
dehumanizing to all involved.  
ALL NEED HELP resolving

this abysmal situation. That is all of your jobs. What are any of you doing about it?

More updates on the apocalyptic conditions on our streets .....

Our 6th grade daughter recently took a field trip to City Hall and the Civic Center Library. The intent was to expose her to city government and institutions. Her lasting impressions ... a man shooting drugs into his face directly outside of City Hall, and the library being more akin to a mental ward than a place of learning and

enjoyment.  
These were just more numbing experiences, and instead of sparking interest and curiosity, it just added to the growing list of places she has no interest in returning to. Another is the UOP Dental clinic, which provides good, affordable treatment. But walking the 2-3 blocks from the Powell Station to the dental clinic is traumatic.

I'm sure you are aware, but please see for some good visuals of what is becoming a norm .....

[https://www.buzzfeed.com/jimdalrympleii/public-drug-use-san-francisco?utm\\_term=.owXveR13kE#.lhLBYzr3Do](https://www.buzzfeed.com/jimdalrympleii/public-drug-use-san-francisco?utm_term=.owXveR13kE#.lhLBYzr3Do)

What's the plan to address this dysfunction? Who has the political backbone to do something about the hostility to families and productive

citizens simply  
seeking safety  
and civility on our  
streets? Let's  
stop making  
excuses for  
failing to do  
anything to  
improve the  
worsening  
conditions on our  
streets.

9:50 AM  
**Subject:** Re:  
Relentless,  
Uncivilized Street  
Behavior - Please  
Help! - More  
Updates

More updates on  
the insane, scary  
and unacceptable  
conditions on our  
streets.

I was accosted  
yesterday  
following a  
business meeting  
in the civic  
center. An unwell  
person  
approached me  
from behind and  
screamed directly  
in my ear, before  
running off. This  
morning, I was  
poked near my  
eye with a large  
bamboo shoot  
another unwell  
person was  
swinging on  
Montgomery and  
Bush.

Both of these  
experiences were  
not only scary,  
but the first left  
my ear ringing,  
and the second  
could have

damaged my  
eye. The irony  
was not lost on  
me that both of  
these  
experiences were  
assaults on my  
senses.

I still haven't  
heard a single  
concrete proposal  
about how to  
improve the  
conditions on our  
streets. Besides  
paying more  
taxes, do any of  
you have ideas  
on what citizens  
can do to help in  
this respect?

Desperate for  
some solutions to  
these conditions.

Relentless,  
Uncivilized Street  
Behavior - Please  
Help! - Update

I appreciate you  
are all busy, so I  
won't burden you  
with the almost  
daily  
degradations me  
and my family  
experience at the  
hands of drug  
addicts, derelicts  
and the mentally  
ill, but I will  
provide continued  
updates of more  
egregious  
examples. I trust  
that is helpful in  
finding solutions  
to the  
increasingly  
apocalyptic  
conditions on our

streets.

I was enjoying a coffee while my daughters shared a pastry at our local coffee shop this morning. What should have been a nice, relaxing, weekend morning bonding experience quickly turned into anything but that when a deranged man entered the shop and menaced every patron (many of whom were kids) in a threatening manner before laughing and walking out after about 5 minutes. Although this type of scary behavior has become normalized and not different from our common experiences, both of my daughters feared for their safety, and wanted to leave.

It is easy to point to cost of living as the reason San Francisco has the

lowest percentage of kids of any city in the country, but subjecting one's kids to the uncivilized behavior that we accept on our streets is an important reason families are abandoning the City in droves. My wife and I are nearing that point.

I also appreciate that many or all of you inherited this mess, but it is worsening on your watch. I haven't heard from a single one of you about a single plan to address the hellish conditions on our streets.

What are the plans to get this situation under control? Does the City really want to continue to lose productive families due to an inability and lack of political will to provide safe and civilized streets?

**Subject:**  
Relentless,  
Uncivilized Street  
Behavior - Please  
Help!

Dear Supervisor  
Sheehy, Board of  
Supervisors, and  
Mayor Farrell:

My family and I  
are nearing a  
breaking point  
over the  
uncivilized street  
behavior that is  
so common and  
accepted and it  
has become the  
new norm. What  
is the status of  
getting standards  
in place to curb  
this behavior, or  
at least enforcing  
those that  
currently exist?

On my bike ride  
to work this  
morning, I was  
accosted by an  
unstable woman  
on Market and  
7th who  
demanded I give  
her my bike so  
she could "attend  
to an  
emergency." She  
literally tried to  
push me off my  
bike and take it.  
We struggled  
over my bike for  
about a minute,  
before I was able  
to free myself and  
ride off. I did not

call the police,  
but instead  
continued to  
work, because I  
know nothing of  
significance  
would happen to  
this woman, and I  
would simply end  
up wasting more  
of my time.

Another of  
countless, almost  
daily examples of  
not quote as  
startling, but still  
upsetting events  
occurred when I  
was recently  
leaving the AMC  
Van Ness with  
my family  
following a  
showing of the  
animated youth  
film "Coco."

Within a block of  
the theatre we  
literally walked  
past 3 people  
with needles in  
their arms. Why  
do we accept  
this?

I was born in San  
Francisco, and it  
has been home  
for a large part of  
my life. But these  
are not  
complaints rooted  
in nostalgia, and  
instead a plea for  
simple decency  
and safety. My

wife and I had the good fortune of buying a home before that became an option solely for the uber-wealthy. We are not millionaires. For now, we are raising our two school age daughters here, and are in the public school system. I chose to start a business here in 2015, and we have been trying our best to continue to make living here work. We also vote in every election.

But we are rethinking all of these choices (other than choosing to vote), in large part because of the uncivilized behavior on our streets. It is unrelenting, and often threatening. It is not okay - both the behavior and allowing it to become an accepted norm. For those who oppose establishing or

enforcing standards, I would ask where the humanity and compassion is in that. It is sad but telling that our streets have digressed to this point.

I read the article in the Chronicle last weekend about tourists making similar complaints, but I am sure you are aware that this is a conversation regularly had among your constituents and very productive San Francisco residents. I know the people I frequently have this discussion with to be open minded, forward thinking, compassionate people, but who, like myself, are starting to conclude the City makes policy decisions that are hostile to members of the community who are trying to raise families here in favor of those who clearly have

needs, but can also be abusive and engage in behaviors that exhaust any capacity to help and that is simply unacceptable under any civilized standard.

Please let me know what real plans are in place to make real change to curb the bad behaviour on our streets.

Ben Holl

Dear Supervisors:

I am a resident of District 2, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Business owners in the Tenderloin are losing valuable business because so many of us are scared to patronize the area. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating circumstances.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Please treat this disaster like the emergency it is and approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you  
Ellen Haude  
District 2

We strongly support The mayors efforts to clean up the drug scene in the Tenderloin. I have to drive through there to get to my medical services and see first hand the open drug use and dealing. It is time for action not talk. Meredith Blau

Dear Supervisors:

I am a resident of the Mission District, and I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Joyce Ferman  
650 Shotwell St.

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdos

My own words: I don't believe for a moment that Mayor Breed wants to see addiction or mental illness turned into a crime but something has to be done for these people and the people who live in all our neighborhoods shouldn't have to put up with people blocking their businesses or their doorways.

Please help Mayor Breed help the city.

Dear members of the Board of Supervisors,

Mayor Breed has the right idea in cracking down on open air drug using in our City. San Francisco is world famous as the "go to" city if you want to defecate and shoot up drugs on the street in front of families, children, and tourists. The addicts themselves have been quoted as saying that is so easy here. They say, dealers are right in front of us and we can do whatever we want right in the open. And they don't arrest the dealers. We can't do this in any other city,

Is this what we want for our city. We are enablers. We give the addicts on the street the needles and whatever they need to stay there. We don't hold them responsible for themselves. Harm reduction? What about the harm done to the rest of us and the reputation of San Francisco because of this activity?

Get the users off the street. The drug dealers won't be able to find them quite as easily. Open air drug use should not be tolerated at all. Remember, this is a supply and demand issue. If you reduce the demand out on the street, maybe the suppliers will back off. Think of the fentanyl dealers as murderers. They kill two people a day in San Francisco.

San Francisco is "an attractive nuisance". It's just a matter of time before parents of a child who died of a fentanyl overdose in the Tenderloin sue the city for negligence.

Sincerely,  
Carole Glosenger  
San Francisco resident for 53 years.

My name is Stephen Roberts and I am urging the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to deliver results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

Best Regards,

Stephen Roberts

Dear Supervisors:

I am a resident of District 2, and I ask that you vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

San Francisco was one of the highest performing big cities in the US with respect to managing the Covid Pandemic (~200 deaths) while 700 died on the San Francisco streets of drug overdoses. It is time that we treat this street epidemic the same way that we treated the Covid response.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Regards

Devon Johnson  
(District 2)

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
David Winner  
818 Van Ness Avenue

Dear Board,

As a San Francisco resident I would like to express my support for Mayor Breed's state of emergency declaration for the Tenderloin.

I see the chaos and lawlessness every day on the 38 bus on my way to work, and it's heart breaking to watch. Clearly the Board and City's approach of tolerance and "harm reduction" to date has not worked given we have had almost 3 times as many overdoses as COVID deaths.

It is clear that decriminalization must be accompanied by enforcement; see Portugal for an example:

<https://twitter.com/shellenbergermd/status/1415345836913922054?s=21>

I am ashamed that city leaders, including our DA (who I will be voting to recall) oppose the Mayor's efforts.

Regards,

Jacob

Dear Supervisors,

On behalf of the Argonaut Hotel and Hotel Zoe, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

Several of our employees reside in the Tenderloin and many of our hotel guests visit the restaurants and entertainment venues west of Union Square. Street conditions are well beyond "unsafe" for locals and visitors alike – and we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Sincerely,

**Stefan Muhle**

Area Managing Director

Dear Supervisors,

On behalf of The Chancellor Hotel in Union Square, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Union Square and the Tenderloin are inter-connected neighbors and what happens in the Tenderloin affects Union Square – and all the surrounding neighborhoods. The time is long overdue to seriously address the crisis that is happening in the Tenderloin. There is a health, drug, safety and cleanliness emergency in the Tenderloin, and it needs to be addressed as such.

You should all be ashamed of the conditions you are allowing to exist in the neighborhood with the highest concentration of children in the City. I am often shocked at what I see as an adult. I cannot imagine being a child growing up in those conditions.

Please vote to **support the Mayor's Proclamation of a Local Emergency in the Tenderloin.**

Wes Tyler  
General Manager  
Chancellor Hotel on Union Square

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Mark Butler

To the SF Board of Supervisors,

our names are Andrew S Benjamin and Mary H Benjamin and We are urging you to vote for Mayor London Breed's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers and law breakers than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge to you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,  
Andrew S Benjamin  
Mary H Benjamin

**SUBJECT: Support the Mayor's Emergency Proclamation!**

Dear Supervisors:

As a resident of District 5 I join **RescueSF** in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

We see these same problems in the D5 neighborhoods of Cathedral Hill, Civic Center, Hayes Valley and South Van Ness with Van Ness Avenue connecting the Tenderloin to hundreds of our residents impacted by homelessness, health and addiction issues. We hope this level of emergency response can be rolled out to help others in the future,

We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis, starting with the Tenderloin and then other neighborhoods. Treat this disaster like the emergency that it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Marlayne Morgan

Cathedral Hill Neighborhood Association  
Van Ness Corridor Neighborhoods Council

To the SF Board of Supervisors,

As a twenty two year resident of San Francisco, I urge you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Craig Greenwood  
3330 Baker Street  
San Francisco, CA

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

I am a resident of District 8, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin.

Thank you!

Cora Shaw  
District 9

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

In reading the Mayor's emergency declaration for the Tenderloin, I urge you to vote yes to support the measure.

In the several years of open air drug dealing, drug consumption, human suffering and crime in the Tenderloin, I can factually state that no BoS legislation or funded program has done anything to curb the suffering, misery and death of so many.

Although you may not be an ally of the mayor, I urge you to support an effort that will have a direct impact. If you want to see the mayor fail and potentially have egg on her face, then I ask you what have you personally done to end the suffering? Personal outreach? Legislation? Something else?

Please give San Francisco a chance to start the process that is long overdue.

Sincerely, Scott

Dear Board of Supervisors,

Please support Mayor Breed's declaration of a state of emergency in the Tenderloin.

As I understand it, a state of emergency will only last 90 days. That might be long enough for a few of these folks to get clean and maybe even housed.

For 90 days, it might be easier to just get through the neighborhood.

When that 90 days is up, maybe there'll be a clear view forward out of this mess, starting with medical care and housing.

Anyway, please support her state of emergency declaration, if for no other reason than it's temporary, first off, and second, whatever SF's been doing til now is not working.

Gigi Gamble

Dear Supervisors:

I am a resident of District 8. I urge you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and unsafe conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this like the emergency that it is. Approve the Mayor's Proclamation of a Local Emergency - - Drug Overdoses in the Tenderloin. Thank you!

Sydnie Weiner

As a long time resident of SF - 30 years plus, I, like so many of my fellow citizens and neighbors have seen the city deteriorate, well before COVID-19 hit.

In 2019, I reached out to dozens of city officials and nonprofit institutions with potential housing solutions. Rarely did I receive even a response.

I think we all know that substance abuse and mental illness, often both, drive homelessness. The only solution is a rigorous and humane conservatorship effort that provides both shelter and treatment. We need to enforce vagrancy laws as it's completely unacceptable that we have people living on the streets. Not when we've spent literally billions.

I don't know whether Breed is sincere or reached a breaking point but it's a start and strongly support her new initiative as I hope you will too.

In the name of equity and fairness, you know it's the right thing to do.

Thank you in advance for your consideration and wishing you all a joyful holiday and Happy New Year.

Regards  
Jonathan Warmund

To whom it may concern:

I am in full agreement with the planned position of the Mayor for helping the homeless, addicted and mentally ill in the Tenderloin. I speak from Experience as my son is homeless and addicted to those terrible drugs supplied by the Hondos. Cheap drugs and no accountability keeps Everything going. No shelters during the rain or cold either. The mayor needs to do what she is saying.

Hoping for the best for the Tenderloin residences, including the street residences.

Dear Supervisors,

My partner and I are residents of Castro and we wanted to write in to show our support for Mayor Breed's emergency declaration in the Tenderloin.

As a woman of color, I routinely face harassment and assault from mentally unstable people on the streets to an extent that I do not think other neighbors face. We routinely have to clean up after crime binges in front of our house - drug dealing and abuse, prostitution - and feel helpless as individual home owners.

We are happy that Mayor Breed is willing to make what could be unpopular but necessary changes to improve our quality of life. We hope she will be successful and get the support she needs from the Board of Supervisors.

Happy Holidays to you, your teams, and all your families!

Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

Whatever the City has been doing is clearly not working. These outcomes are unacceptable and are getting worse. And, it's not just the tenderloin. It's time to get serious about these issues and I'm hoping this emergency proclamation will clear the red tape so that something can be done quickly.

Michael Torres

My name is Linda Green and I join RescueSF in urging the Board to support the Mayor's Emergency Proclamation on drug overdoses in the Tenderloin.

I support the Emergency Proclamation because it will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services.

The City can't wait another 6 to 9 months to go through the regular bureaucratic process for the Tenderloin. I'm excited that this Proclamation will allow the City to start delivering results in 2 to 3 weeks.

The City is finally acting with the urgency that our street crisis demands.

Please support the Emergency Proclamation. Thank you!

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

Mari Murayama  
District 1

Dear Supervisors:

I am a resident of District 5, and I join RescueSF in urging you to vote for the Mayor's "Proclamation of Local Emergency – Drug Overdoses in the Tenderloin" (File No. 211320) this Thursday. The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

In a recent poll of San Franciscans, over 80% of respondents said that homelessness and street behavior are the top issues facing the city, and 88% said that the situation is getting worse. We are looking to you, our Supervisors, to authorize faster and more effective action to address this crisis. Treat this disaster like the emergency it is. Approve the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin. Thank you!

To the SF Board of Supervisors,

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320). The state of SF is a global embarrassment that you all shoulder the responsibility for. ENOUGH is ENOUGH. The trickle down impact of the failure to act rationally by the BOS is being felt City WIDE! I'm essentially a lifelong resident of SF and have been a property tax payer for over 20 years- both of these things are in jeopardy as a result of the rapidly deteriorating quality of life in SF- again driven by the inaction of the BOS.

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. December 22, 2021

Subject Line: Cova Hotel support for Local Emergency Proclamation - Drug Overdoses in the Tenderloin (File #211320)

Dear Supervisors,

On behalf of Cova Hotel which is located on Ellis & the Larkin Merchant Corridor in Tenderloin, I am writing in support of the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. There is a health emergency in the Tenderloin, and it needs to be addressed as such.

The Cova Hotel has been operating since 2008, 60% of our guests are international visitors and 40% are domestic or small business conducting business in the area. As a boutique hotel in the Tenderloin neighborhood, our business and clientele have been directly affected by the unsafe and illegal conditions of the neighborhood for many years. Sadly, in the last few years things have progressively gotten worse. This is a very bad example to offer to our visitors especially for the international visitors. Not to mention, it's very difficult to run a business and retain staff here. We urge you to pass this measure for the businesses, neighborhood and all of San Francisco.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency in the Tenderloin.

Thank you

Simon Sin  
CEO & Owner

Dec 22<sup>nd</sup>, 2021,

Dear Board of Supervisors,

As **delegates of the California Democratic Party** in San Francisco, we urge you to support Mayor London's Breed's "**Declaration of Local Emergency – Drug Overdoses in the Tenderloin**" (File No. 211320) by voting in favor.

The residents of the Tenderloin, and of San Francisco, have seen very little improvement over the countless years to this humanitarian crisis. We believe, it is time to try as many approaches as possible, learn from what does and doesn't work.

As you know, this 90-day emergency plan can be terminated early by the board. We urge you to support this declaration.

At a minimum we need to flatten the death rate from overdoses quickly, reduce the 24K interventions from overdose, support the residents of the Tenderloin and San Francisco, reduce the power of the cartels and, reduce the numbers that are entering into a life of crime. This tragic humanitarian crisis deserves that all approaches should be considered.

While this "Declaration of Local Emergency" is in effect, we ask you to review plans that will change the landscape of this crisis faster and respond more quickly with both short- and long-term solutions and goals.

We are in crisis. Voting against this "Declaration of Local Emergency" could be regarded as a crime against humanity since people are dying daily and the death rates are increasing.

**Please vote in favor.**

**Re: Hotel Council Support of Proclamation of Local Emergency – Drug Overdoses in the Tenderloin (File #211320)**

Dear Supervisors,

On behalf of the Hotel Council of San Francisco and our Board of Directors I am writing to urge you to approve the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. Removing the bureaucratic barriers and allowing the City to respond quickly to protect the health and safety of the people in the Tenderloin is the humane response that is needed immediately. There is an health emergency in the Tenderloin, and it needs to be addressed as such.

The crisis in the Tenderloin has gravely impacted the lives of those living and working both in and around the neighborhood. Employees from our industry are impacted by the crime associated with open air drug dealing and use. They do not feel safe coming into work. Our residents and employees deserve to feel safe, and this proclamation is an critical first step to address this crisis.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency Drug Overdoses in the Tenderloin.

Thank you,

**Re: Hotel Council Support of Proclamation of Local Emergency – Drug Overdoses in the Tenderloin (File #211320)**

Dear Supervisors,

On behalf of the Hotel Council of San Francisco and our Board of Directors I am writing to urge you to approve the State of Emergency that Mayor Breed has declared in the Tenderloin.

Addressing the crisis that is happening in the Tenderloin is critical to the future of our city and to the people who are dying on our streets daily from drug overdoses. This declaration will enable the waiving of certain laws to quickly address the crisis as part of the Mayor's Tenderloin Emergency Intervention Plan. Removing the bureaucratic barriers and allowing the City to respond quickly to protect the health and safety of the people in the Tenderloin is the humane response that is needed immediately. There is an health emergency in the Tenderloin, and it needs to be addressed as such.

The crisis in the Tenderloin has gravely impacted the lives of those living and working both in and around the neighborhood. Employees from our industry are impacted by the crime associated with open air drug dealing and use. They do not feel safe coming into work. Our residents and employees deserve to feel safe, and this proclamation is an critical first step to address this crisis.

Again, we ask that you vote to support the Mayor's Proclamation of a Local Emergency Drug Overdoses in the Tenderloin.

Thank you,

A handwritten signature in black ink that reads "Kevin Carroll".

Kevin Carroll

Cc: Mayor London Breed

Hello All,

As you consider whether or not to ratify the emergency declaration for the Tenderloin, I would like you to consider the opinions and experiences of residents and urge you to approve it. I understand that on Thursday you will be hearing from many organizations and people outside of the Tenderloin, but because it is a Thursday at 2:00pm and the day before Christmas Eve it will be very difficult for many residents to join, particularly those with children who are home from school or those who are working and cannot take time out of their day.

This morning when HOT went to the 300 block of Hyde to do engagement, every single person refused services. We know that of the 110 people on that block, about half are people dealing drugs. Imagine for just one second living on that block (either housed or unhoused). Imagine trying to go to the grocery store, the laundromat, or walk your kids to school or the playground in those conditions. It is nearly, if not completely, impassable and the dealers constantly harass and intimidate people trying to walk through.

Because of this, the majority of residents we work and speak with strongly support the emergency declaration, and in fact they even asked for it. This is [the link](#) to the letter to the mayor that was read at a rally for community safety that over [200 Tenderloin](#) residents joined. I have also attached the nearly 400 signatures that were collected before delivering the letter. Two weeks ago the mayor met with over 50 residents from CCDC, CCSRO, La Voz Latina, TNDC, and private apartments. There were parents from TCS, Redding, and Glide's childcare center. These are people begging the city to improve their living conditions.

When you weigh your decision, please remember the residents of the Tenderloin. If you have any questions or would be interested in hearing more about what issues residents are bringing to me, please feel free to email, call, or text,

Sincerely,  
Christy Shirilla  
Director of Community Organizing & Resident Voice

To the SF Board of Supervisors,

I am a UCSF trained psychiatric nurse practitioner and a professor at the UCSF School of Nursing. I write to you representing only my own views on this matter.

The state of San Francisco's streets is deplorable. We have long mistook tolerance and compassion for neglect. Equally, we have mistaken behaviors of desperation as willful criminal behavior. I see drug addiction, homelessness, and public poverty not as crimes, but as systemic, public health problems that require systematic, health-focus approaches. We cannot arrest our way out of this problem, nor can we continue to allow people who are so sick that they are not able to care for their most basic needs to cynically slip through the cracks of a fragmented and ineffective public psychiatry system.

I am urging you to vote for Mayor London Breed's Declaration of Emergency (File No. 211320).

The humanitarian crisis in the Tenderloin has gone on long enough and it is time to try a new approach. The Mayor's Declaration of Emergency for the COVID-19 Pandemic likely saved thousands of lives in our city and now we must take quick and decisive action to prevent continued suffering and overdose deaths in the Tenderloin.

The Emergency Proclamation will enable the City to have a more effective emergency response, with public health, behavioral health, social, or housing services. The Proclamation requires the Controller's office to report to the Board on the City's use of funds to support the emergency response. The state of emergency will only last 90 days, and the Board retains the ability to terminate the state of emergency early.

The residents of the Tenderloin are living with crime, drug use, drug dealing, and dangerous conditions. Those unhoused in the Tenderloin also endure unsafe, unhealthy, and deteriorating conditions. If you vote against this Declaration, you are sending a clear message to the citizens of San Francisco that you care more about ideology, drug dealers, and lawlessness than you do families and our most vulnerable citizens who are suffering from drug addiction and living on the streets. We are listening.

The solutions that the City is currently implementing are not working so I urge you to vote YES on the Mayor's Proclamation of a Local Emergency -- Drug Overdoses in the Tenderloin on Thursday.

Sincerely,

**Andrew Penn, MS, NP, PMHNP-BC**
