

**LEGISLATIVE DIGEST**

[Administrative Code - Shelter Monitoring Committee]

**Ordinance amending the Administrative Code to reinstitute the Shelter Monitoring Committee and change the date on which it expires, from December 31, 2020, to July 1, 2022.**

Existing Law

The Shelter Monitoring Committee (“SMC”) was established to provide the Mayor, the Board of Supervisors, the Local Homeless Coordinating Board, the public, and other appropriate agencies with accurate, comprehensive information about the conditions in, and operations of, the City’s homeless shelters, as well as City policies that affect shelter operations or impact shelter clients. The 13 SMC members make site visits, prepare reports, and generally monitor conditions in the shelters. The ordinance creating the SMC expired on December 31, 2020.

Amendments to Current Law

This amendment reinstitutes the SMC, changing the expiration date from December 31, 2020 to July 1, 2022, and resets the membership terms as of the effective date of this amendment.
