

Edward Byrne Memorial Justice Assistance Grant

San Francisco Police Department

Forensic Services Division

Funding Purpose

- Equipment and Training
- \$654,609

San Francisco Police Department

Forensic Services Division

Goals

- Purchase equipment for Drug Chemistry and Latent Print sections

San Francisco Police Department

Forensic Services Division

Drug Chemistry

- Direct Analysis in Real Time Mass Spectrometry
 - Instrument will allow for direct analysis of potential narcotics
 - Improvement on current screening methods
 - Will save analysis time and produce superior results
 - Vital to new unit as we staff up

San Francisco Police Department

Forensic Services Division

Latent Prints

- Purchase additional fuming chamber to more efficiently process firearms for latent prints
- Purchase a portable fuming chamber for use in the field
- Purchase a new image capture system for latent prints to ensure we are utilizing the latest technology (replaces 20 year old system)
