REVISED LEGISLATIVE DIGEST

(Second Draft, 6/30/2014)

[Charter Amendment - Retiree Health Benefits for Former Redevelopment Agency and Successor Agency Employees]

Describing and setting forth a proposal to the voters to amend the Charter of the City and County of San Francisco, Sections A8.428 and A8.432, to provide retiree health care benefits to employees of the former Redevelopment Agency of the City and County of San Francisco or the Successor Agency to the Redevelopment Agency of the City and County of San Francisco who started working for the City and County of San Francisco without a break in employment, and to persons who are registered as domestic partners to retired employees under California law or the law of a state, city, or county outside California or who live in a jurisdiction outside California that does not recognize domestic partnerships but who have submitted the Health Services Declaration Partnership Form, at an election to be held on November 4, 2014.

Existing Law

Section A8.428 of the Charter creates a health service system trust fund to provide retiree healthcare benefits to employees of the City, the San Francisco Unified School District, the Superior Court of California, County of San Francisco and the San Francisco Community College District based on the number of years of employment with the employer (defined as "credited service"). Section A8.432 of the Charter establishes the Retirement Health Care Trust Fund to defray the cost of the City's obligation to provide health coverage for retired employees and their spouses who are entitled to health coverage under section A8.428. Section A8.428 also provides health care benefits to persons who are domestic partners, according to the provisions of the City's Administrative Code, of retired employees.

Amendments to Current Law

The proposed amendments to Section A8.428 and A8.432 would make retiree health care benefits available to employees of the City who transferred from the Redevelopment Agency of the City and County of San Francisco (the "Redevelopment Agency") or the Successor Agency to the Redevelopment Agency of the City and County of San Francisco (the "Successor Agency"), who were hired on or before January 9, 2009, by the Redevelopment Agency or the Successor Agency. The benefits would be available only to such employees hired by the City before January 1, 2015.

FILE NO. 140507

Furthermore, in addition to domestic partners under the City's Administrative Code, the amendments would extend health care benefits to persons who are registered as domestic partners to retired employees under California law or the law of a state, city, or county outside California, or who live in a jurisdiction outside California that does not recognize domestic partnerships but who have submitted the Health Services Declaration Partnership Form to the Health Service System.

RE: File 140507 – Charter amendment regarding retiree health benefits for former employees of the San Francisco Redevelopment Agency

Dear Ms. Calvillo,

Should the proposed charter amendment be approved by the voters, in my opinion, it will likely increase the cost of government. The proposed Charter amendment would increase the City's costs to fund employee post-employment health benefits for certain employees of the former San Francisco Redevelopment Agency. The amount of this impact would range significantly depending on the number of people affected, their ages, years of service, individual choices regarding retiree medical plan enrollment, and decisions by the City regarding the hiring of affected employees.

The amendment seeks to clarify the status of individuals who were employed by the San Francisco Redevelopment Agency (SFRDA) before it was dissolved by state mandate and who now are, or subsequently may become, employees of the City. The three primary areas of financial impact are:

- Retiree health benefit vesting. City employees hired after 2009 receive City funding for health benefits when they retire at tiered levels from 50% to 100% of premium costs based on years of service. These employees must retire from the City to receive these benefits. City employees hired prior to 2009 are generally eligible for fully paid health benefits following retirement after five years of working for the City and may receive these benefits regardless of where they work for the balance of their careers and ultimately retire from. The amendment makes certain SFRDA employees, to the extent that they subsequently become City employees, eligible for the more generous vesting allowances provided to City employees hired before 2009. The cost of their health premiums following retirement would therefore likely increase.
- Employee contributions towards future retiree health costs. City employees hired after 2009 pay 2% of payroll into this fund to pay for post-employment health costs, matched by a 1% City contributions. Employees hired before 2009 generally will contribute to the Trust at lower rates beginning in fiscal year (FY) 2016-17. To the degree that the amendment treats former RDA employees as having begun City employment from the date of their earlier employment with RDA, their contributions to this fund for the remainder of their service would be reduced, increasing the future costs of retiree medical benefit paid by the employer.

- Unfunded pension liability of the former SFRDA. To the extent that all employees of the former SFRDA become City employees and transition out of the California Public Employees Retirement System (CalPERS), CalPERS might require higher and more rapid contributions to pay down the former SFRDA's unfunded pension liability than would otherwise have been the case. The proposed Charter measure does not, in and of itself, drive this potential financial outcome. But, to the extent that it creates an incentive for employees to transition to the City given improved retiree medical care coverage and the City elects to proceed with such a transition, it could be one factor that increases the possibility of such a circumstance occurring.

The cost of each of these factors is dependent on the populations affected and rates applied and are unknown at this time, but are likely significant. The Controller's Office will work with the Mayor, Board of Supervisors and City departments to clarify the financial effects of the proposed Charter amendment as it is considered for the ballot.

Sincerely,

Ben Rosenfield
Controller
