- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Jennifer Butterfoss

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs

    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Huiyu Song
San Francisco, CA 94102

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Jonathan Eldridge

The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Patrick Gavin

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
David Shapiro

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs

    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Holly Hart

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Colin Evans
San Francisco, CA 94123

The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Tai Hsia

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Stacey Murphy

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs

    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Kristin Morse

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Will Houng
San Francisco, CA 94103

Subject: City Budget Public Comment: 三藩市應當在今年的預算中為毒品危機的解決方案提供資金
Date: Sunday, May 21, 2023 1:37:24 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Clerk of The Board,

我是一名三藩市的居民。我親眼目睹著由於我們民選官員的失敗而造成以芬太尼為主的毒品濫用正在摧毀著我們的城市。毒品流行與三藩市面臨的所有問題有關,包括無家可歸、精神健康、公共安全和經濟活力。您必須把結束露天毒品市場和資助更多市政府引導的戒毒康復項目作為今年預算週期的主要優先事項。

我們感謝市長佈里德(London Breed), 州長紐森(Gavin Newsom), 地區檢察官謝安宜(Brooke Jenkins)和議長南茜·佩洛西(Nancy Pelosi) 在州和聯邦執法層面進行的合作; 並感謝口頭上一直支持該項工作的參事委員會。我們要求與州和聯邦機構繼續合作與協調,以永久根除露天毒品市場。

為了確保持續的行動,我要求您在來年的預算中包括以下內容:

執法部門:地區檢察官和警察局必須共同努力,逮捕和起訴三藩市的毒販,並與州和聯邦執法部門協調,打擊將毒品帶入三藩市的販毒集團卡特爾(cartels)。為了確保這些執法目標,該市應該在下一個預算中包括以下內容:
*為最終僱傭到推薦數量(2,182 名) 的宣誓警員提供資金
*為這些新警員提供足夠的學術課程
*配備足夠的警務工作輔助人員,以使警員能夠優先處理緊急的報警電話
*為來年在包括田德隆、南部和米慎站在內的毒品販賣高發地區增派足夠多的警力,使對毒品販賣的"打擊行動" (Operation Disruption) 長期化
*投資於人員培訓和麻醉設備以有效關閉露天毒品市場
*為面向全國招聘警員提供資金,重點是通過橫向招聘以加快招聘速度

市政府資助的戒毒康復項目:成功戒毒必須是目標。市政府各部門需要跨職能開展工作以實現這一目標,以便讓吸毒者有機會過上健康的生活並減少對街頭毒品的需求。這意味著在下一個預算中為真正的按需治療提供資金,其中包括:

為需要參加戒毒治療的人提供七天24小時小貨車接送服務,建立七天24小時戒毒初步篩查中心

提供具有最短停留時間和現場醫務人員的穩定的戒毒中心,戒毒人員可以在進入長期藥物治療中心之前做暫時停留

增加戒毒床位數量,以履行市政府按需提供戒毒治療的義務
*增加住院戒毒床位
*增加中转床位的数量,戒毒人员可以在搬入自己的住房之前学习重新独立生活的技能, 这是戒毒
务 组 部

服　的一个重要　成　分

提供完全不含毒品的戒毒康復方案

為有精神健康護理需求的人提供更多的安全床位,他們不會被迫待在監獄或流落街頭

使在戒毒康復中心工作人員的工作更持久並獲得報酬:
*增加康復中心的工作人員,適應康復中心的擴張需求
*提供額外資金以解決持照護理人員/行為乾預護士的人員短缺問題
*解決非營利組織員工和三藩市"持牌行為乾預人員" (licensed behavioral staff) 之間的薪酬差距

我知道完全根除吸毒是不现实的。我要求的是明显减少正在侵蚀我们城市的露天毒品销售和毒品使用。三藩市应该是一个那些不涉及毒品销售和吸毒的人不受到毒品销售和吸毒负面影响的地方。

*提供額外資金以解決持照護理人員/行為乾預護士的人員短缺問題
*解決非營利組織員工和三藩市"持牌行為乾預人員" (licensed behavioral staff) 之間的薪酬差距

我知道完全根除吸毒是不现实的。我要求的是明显减少正在侵蚀我们城市的露天毒品销售和毒品使用。三藩市应该是一个那些不涉及毒品销售和吸毒的人不受到毒品销售和吸毒负面影响的地方。

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Robb Fleischer

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Joshua Siebalt

Subject: City Budget Public Comment: 三藩市應當在今年的預算中為毒品危機的解決方案提供資金
Date: Monday, May 22, 2023 10:15:23 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Clerk of The Board,

我是一名三藩市的居民。我親眼目睹著由於我們民選官員的失敗而造成以芬太尼為主的毒品濫用正在摧毀著我們的城市。毒品流行與三藩市面臨的所有問題有關,包括無家可歸、精神健康、公共安全和經濟活力。您必須把結束露天毒品市場和資助更多市政府引導的戒毒康復項目作為今年預算週期的主要優先事項。

我們感謝市長佈里德(London Breed), 州長紐森(Gavin Newsom), 地區檢察官謝安宜(Brooke Jenkins)和議長南茜·佩洛西(Nancy Pelosi) 在州和聯邦執法層面進行的合作; 並感謝口頭上一直支持該項工作的參事委員會。我們要求與州和聯邦機構繼續合作與協調,以永久根除露天毒品市場。

為了確保持續的行動,我要求您在來年的預算中包括以下內容:

執法部門:地區檢察官和警察局必須共同努力,逮捕和起訴三藩市的毒販,並與州和聯邦執法部門協調,打擊將毒品帶入三藩市的販毒集團卡特爾(cartels)。為了確保這些執法目標,該市應該在下一個預算中包括以下內容:
*為最終僱傭到推薦數量(2,182 名) 的宣誓警員提供資金
*為這些新警員提供足夠的學術課程
*配備足夠的警務工作輔助人員,以使警員能夠優先處理緊急的報警電話
*為來年在包括田德隆、南部和米慎站在內的毒品販賣高發地區增派足夠多的警力,使對毒品販賣的"打擊行動" (Operation Disruption) 長期化
*投資於人員培訓和麻醉設備以有效關閉露天毒品市場
*為面向全國招聘警員提供資金,重點是通過橫向招聘以加快招聘速度

市政府資助的戒毒康復項目:成功戒毒必須是目標。市政府各部門需要跨職能開展工作以實現這一目標,以便讓吸毒者有機會過上健康的生活並減少對街頭毒品的需求。這意味著在下一個預算中為真正的按需治療提供資金,其中包括:

為需要參加戒毒治療的人提供七天24小時小貨車接送服務,建立七天24小時戒毒初步篩查中心

提供具有最短停留時間和現場醫務人員的穩定的戒毒中心,戒毒人員可以在進入長期藥物治療中心之前做暫時停留

增加戒毒床位數量,以履行市政府按需提供戒毒治療的義務
*增加住院戒毒床位
*增加中转床位的数量,戒毒人员可以在搬入自己的住房之前学习重新独立生活的技能, 这是戒毒
务　　组　部

服　的一个重要　成　分

提供完全不含毒品的戒毒康復方案

為有精神健康護理需求的人提供更多的安全床位,他們不會被迫待在監獄或流落街頭

使在戒毒康復中心工作人員的工作更持久並獲得報酬:
*增加康復中心的工作人員,適應康復中心的擴張需求
*提供額外資金以解決持照護理人員/行為乾預護士的人員短缺問題
*解決非營利組織員工和三藩市"持牌行為乾預人員" (licensed behavioral staff) 之間的薪酬差距

我知道完全根除吸毒是不现实的。我要求的是明显减少正在侵蚀我们城市的露天毒品销售和毒品使用。三藩市应该是一个那些不涉及毒品销售和吸毒的人不受到毒品销售和吸毒负面影响的地方。

    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Nevena Vujic

Subject: City Budget Public Comment: San Francisco Needs to Fund Solutions to End the Drug Crisis in This Year's Budget
Date: Monday, May 22, 2023 12:41:33 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

Subject: City Budget Public Comment: 三藩市應當在今年的預算中為毒品危機的解決方案提供資金
Date: Monday, May 22, 2023 2:02:20 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Clerk of The Board,

我是一名三藩市的居民。我親眼目睹著由於我們民選官員的失敗而造成以芬太尼為主的毒品濫用正在摧毀著我們的城市。毒品流行與三藩市面臨的所有問題有關,包括無家可歸、精神健康、公共安全和經濟活力。您必須把結束露天毒品市場和資助更多市政府引導的戒毒康復項目作為今年預算週期的主要優先事項。

我們感謝市長佈里德(London Breed), 州長紐森(Gavin Newsom), 地區檢察官謝安宜(Brooke Jenkins)和議長南茜·佩洛西(Nancy Pelosi) 在州和聯邦執法層面進行的合作; 並感謝口頭上一直支持該項工作的參事委員會。我們要求與州和聯邦機構繼續合作與協調,以永久根除露天毒品市場。

為了確保持續的行動,我要求您在來年的預算中包括以下內容:

執法部門:地區檢察官和警察局必須共同努力,逮捕和起訴三藩市的毒販,並與州和聯邦執法部門協調,打擊將毒品帶入三藩市的販毒集團卡特爾(cartels)。為了確保這些執法目標,該市應該在下一個預算中包括以下內容:
*為最終僱傭到推薦數量(2,182 名) 的宣誓警員提供資金
*為這些新警員提供足夠的學術課程
*配備足夠的警務工作輔助人員,以使警員能夠優先處理緊急的報警電話
*為來年在包括田德隆、南部和米慎站在內的毒品販賣高發地區增派足夠多的警力,使對毒品販賣的"打擊行動" (Operation Disruption) 長期化
*投資於人員培訓和麻醉設備以有效關閉露天毒品市場
*為面向全國招聘警員提供資金,重點是通過橫向招聘以加快招聘速度

市政府資助的戒毒康復項目:成功戒毒必須是目標。市政府各部門需要跨職能開展工作以實現這一目標,以便讓吸毒者有機會過上健康的生活並減少對街頭毒品的需求。這意味著在下一個預算中為真正的按需治療提供資金,其中包括:

為需要參加戒毒治療的人提供七天24小時小貨車接送服務,建立七天24小時戒毒初步篩查中心

提供具有最短停留時間和現場醫務人員的穩定的戒毒中心,戒毒人員可以在進入長期藥物治療中心之前做暫時停留

增加戒毒床位數量,以履行市政府按需提供戒毒治療的義務
*增加住院戒毒床位
*增加中转床位的数量,戒毒人员可以在搬入自己的住房之前学习重新独立生活的技能, 这是戒毒
务　　组　部

服　的一个重要　成　分

提供完全不含毒品的戒毒康復方案

為有精神健康護理需求的人提供更多的安全床位,他們不會被迫待在監獄或流落街頭

使在戒毒康復中心工作人員的工作更持久並獲得報酬:
*增加康復中心的工作人員,適應康復中心的擴張需求
*提供額外資金以解決持照護理人員/行為乾預護士的人員短缺問題
*解決非營利組織員工和三藩市"持牌行為乾預人員" (licensed behavioral staff) 之間的薪酬差距

我知道完全根除吸毒是不现实的。我要求的是明显减少正在侵蚀我们城市的露天毒品销售和毒品使用。三藩市应该是一个那些不涉及毒品销售和吸毒的人不受到毒品销售和吸毒负面影响的地方。

This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Michael LaBriola

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs

    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Sarah Pierluissi
Oakland, CA 94619

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Maria Ditico
San Francisco, CA 94107

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Greg Wilson
San Francisco, CA 94109

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Darren Cox

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs

    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Adam Cooper
San Francisco, CA 94110

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Romain Butteaud
San Francisco, CA 94110

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Patricia Casper

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I’m demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Todd DAvis

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs

    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Mark Butler
San Francisco, CA 94110

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Wayne Crasta

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Christina Orth

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Adeline Townsley

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening

Subject: City Budget Public Comment: San Francisco Needs to Fund Solutions to End the Drug Crisis in This Year's Budget
Date: Thursday, June 1, 2023 11:37:00 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,

Dear Board of Supervisors,

I am writing to express my strong objection to the proposed extension of parking meter hours. As a resident of San Francisco, I believe this decision fails to consider the realities of our daily lives and the challenges we already face when it comes to finding parking.

Extending the meter hours will only add to the financial burden on residents and visitors who rely on street parking. It will disproportionately impact those who work non-traditional hours or have limited transportation options. Additionally, it could discourage people from visiting local businesses and hurt the city's economy.

Instead of imposing additional fees and restrictions, I urge the SFMTA to seek alternative solutions to address parking issues, such as improving public transportation options or expanding parking facilities.

I kindly request that you reconsider this proposal and prioritize the needs and concerns of the community when making decisions that directly impact our daily lives.

Thank you for your attention to this matter.

Sincerely,
Deirdre Ross

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

IF your goal is increased revenue, why not actually collect fare from your riders? MUNI has got to have THE WORST fare payment out of any form of public transit by far.

I understand there are many who can't pay... for these people you should be able to get a free / reduced fare. But I straight up never see anyone pay whenever I ride MUNI. Maybe 1 in 20 riders pay.

IS THIS REALLY NECESSARY?

THERE ARE OTHER MORE EFFECTIVE AND APPROPRIATE WAYS OF RAISING FUNDS THAT DO NOT INVOLVE THE EXTENSION OF PARKING METERS UNTIL 10PM, THAT ALSO BETTER PROTECT THE CITIZENRY OF THIS ALREADY OVER-TAXED CITY.

PLEASE CEASE DEVELOPMENT OF THIS INITIATIVE. IT IS A BANE TO THE CITY, ITS RESIDENTS AND VISITORS.

THANK YOU.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Dear Board of Supervisors,

I am writing to express my strong objection to the proposed extension of parking meter hours. As a resident of San Francisco, I believe this decision fails to consider the realities of our daily lives and the challenges we already face when it comes to finding parking.

Extending the meter hours will only add to the financial burden on residents and visitors who rely on street parking. It will disproportionately impact those who work non-traditional hours or have limited transportation options. Additionally, it could discourage people from visiting local businesses and hurt the city's economy.

Instead of imposing additional fees and restrictions, I urge the SFMTA to seek alternative solutions to address parking issues, such as improving public transportation options or expanding parking facilities.

I kindly request that you reconsider this proposal and prioritize the needs and concerns of the community when making decisions that directly impact our daily lives.

Thank you for your attention to this matter.

Sincerely,
Helen Spalding

Subject: Arguments against parking meter charges after 6 pm
Date: Wednesday, May 31, 2023 10:21:27 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I am writing to tell you that I think it's a bad idea to extend parking meter hours to 10 pm in San Francisco.

This change will dissuade people from coming downtown in the evenings. They will be less likely to patronize restaurants, theaters, and other events in our downtown core. At a time when we are trying to revitalize downtown, for many reasons, including to keep up tax revenues from our downtown businesses, making coming into the city in the evenings even less inviting by charging for parking (when other communities do not) is short-sighted policy.

I am reminded of how, many years ago, San Francisco street cleaning went from every week to alternate weeks. Yes, street cleaning costs went down but the net cost to the city went up because there were only half as many fines paid on cars who failed to move on cleaning days. And, we had a dirtier city. It was penny wise but pound foolish.

Another concern that I have about late night metering relates to personal safety. I would not stand on a sidewalk in the dark alone with my phone out and me concentrating on a parking meter—not fully aware of my surroundings. I encourage you to try this on 6th Street now and see how it feels.

There must be better ways to raise money; ones that don't penalize our core businesses. For example, consider this list of Parking Violations and Fines: enforcing these violations would not only raise money but also increase public safety.

Please oppose extending parking meter hours in San Francisco.

Sincerely,

Jane Day

TO: Board of Supervisors members

I am strongly supporting urging the SFMTA to delay implementation of meter hour extension.

During General Public Comment at the April 24, 2023 meeting of the Capital Planning Committee, I stated that no City department should assume that it has credibility.

I also asked the question if City departments believe that their most important customer are themselves.

This issue seems to suggest that the SFMTA does believe that its most important customer is itself and that the SFMTA has little concern for the small business community.

This once again calls into question the credibility of the SFMTA.

This once again calls for a SFMTA governance reform initiative for one of the 2024 ballots.

Dear Supervisors,

I am a business owner in San Francisco.

I am writing to ask that SFTMA delay the extended parking meter rollout until impacts can be studied further and until our small businesses have more time to recover from the economic devastation of the pandemic closures.

We understand the significant financial challenges that SFMTA is facing and strongly support the need for a robust public transportation system in the city, but we need to look to the state and federal government to help with the scale of funding needed for our transportation systems, not look to small business and workers for funds.

This planned change will have a cost and negative financial impact on our employees. While many take public transportation, some have to drive, due to late hours or challenges around scheduling. They will now have to pay for parking and disrupt their work to move their cars. They cannot apply for residential parking permits for their work. This may cause them not to want to take jobs in the city.

We are also against the 18 month extended rollout across the city, which will cause both inequity and confusion, for business and consumers. We are worried that this will discourage customers from the communities around San Francisco who want to drive into the city to dine and shop, at a time when we need them more than ever. Our industry is still trying to recover from Covid closures and disruptions and additional challenges could have devastating consequences.

Thanks for listening,

Gabe Mendez

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I oppose the plan to extend parking meter hours. Parking in the Mission already is hellacious due to:
- the ill-advised Valencia St bike plan
- spaces that have been removed due to privatization (bike concessions and restaurant parklets)
- constriction of the roads and parking due to bike lanes,and red lanes
- the large number of vehicles occupied by the homeless, which can be parked for weeks and months without getting a ticket (and if they do get one, the city waives the fee)
- no parking in the latest affordable housing developments

Moreover, extending meter hours will negatively impact local businesses and residents (who already are hurting due to rising prices and recession).

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families).

Meter hours until 10pm will materially impact

restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

Subject: Resident Opposed: SFMTA Proposal to Extend Parking Meter Hours from
Date: Saturday, May 20, 2023 8:25:47 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am a resident in District 8. I was born and raised in San Francisco and I am currently trying to raise a family in this city. After having lived in New York for 12 years, I returned to San Francisco when I wanted to start a family because it was a more "liveable" city. Over the past decade I have watched families move away usually when the second child arrives. From dining out to getting around town, San Francisco seems to try to make raising a family in the city harder at every turn.

I live relatively near public transportation in the Castro, but at the very top of several steep hills. We have two boys who have active extracurricular and sports schedules that require us to travel all over town and the Bay Area. On Sundays we have one small ritual going out to lunch with their grandparents who still live in SF. They are both now 80-years old and a stroll down to the Castro is increasingly a challenge for them, nor do we have the 45 min-1hr time it would take on a Sunday to get to any of the spots where we dine on public transportation, so we drive to dine. My husband and I also occasionally go out for date nights but we do so less frequently due to the rising costs of dining out. We don't object to restaurants raising their prices to provide a better working life for their employees, but it is significantly more expensive to dine out these days. The additional expense of having to pay parking is just one more consideration making it more likely we opt to just stay home. At some point as a resident when you realize you aren't taking advantage of what the city has to offer including its wonderful restaurants pulling up stakes and moving to the burbs just makes more sense.

Please reconsider the proposal to extend parking meter hours. I agree we need public transportation, but I don't think $18m in additional funding will even come close to addressing the financial need. Please look to the state and federal government to help with the scale of funding needed for our transportation systems.

Thank you for your careful consideration

Maya Ortiz de Montellano
District 8

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I am a biker and share one car between two households. Iwrite to oppose the plan to extend parking meter hours. Extending meter hours will clog our neighborhood non metered parking by people using restaurants at night when residents return from work, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession. With street cleaning in our neighborhood, this is one of the only places to park at night. 10pm is too late.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

Subject:	Re parking hours increase proposal
Date:	Saturday, May 20, 2023 9:18:32 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I am a senior woman, living in San Francisco, and I use public transportation whenever possible, and leave my car in the garage.
However, I now use my car at night when I'm going out to dinner and/or evening events, as it isn't safe to take public transportation at night.
I have had numerous threats to my safety when I have been in the stations, walking to the stations, and on the bus/train. This is a separate but connected issue.
I, like many others in my age group, am low income. I am not disabled, but vulnerable, due to my age. Therefore, I don't have a disabled placard. So I would have to pay for expensive parking or a ride share if I want to go out at night. My income has not, and will not increase. This is a great hardship for me and others. The Sunday paid parking proposal adds insult to injury. Remember when mayor Lee vetoed it?
If this passes, you will see a big decrease in revenue for our restaurants and venues. Many of us will just have to stay home, until the dubious time when public transportation is safe at night.
It seems like the low income are always the group most affected. In this case, it will also affect folks from out of town coming to enjoy the city at night and on Sundays.
In my neighborhood, and indeed, everywhere in our city, I see how parklets are taking up parking spaces, and they pay 2K for each parking place annually. I would assume that tickets for overtime parking exceed this. It isn't right that lost revenue and clearly short sighted decisions are passed on to us to make it up.
No one is talking about the expense of hiring meter checkers to enforce this proposal, plus the need to increase staff to process citations.
In closing, please consider that no one supports this measure, except the S.F. Parking authority. A better use of funds would be to pump it in to public transportation safety so that we can travel without resorting to using our cars.
Sincerely,
Cheryl Evans

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Dear Supervisors,

I am a resident of San Francisco and I live in the Sunset District (District 4). I am writing to ask that SFTMA delay the extended parking meter rollout until impacts can be studied further and until our small businesses have more time to recover from the economic devastation of the pandemic closures.

I understand the significant financial challenges that SFMTA is facing and strongly support the need for a robust public transportation system in the city, but we need to look to the state and federal government to help with the scale of funding needed for our transportation systems, not look to small business and workers for funds.

This planned change will have a cost and negative financial impact on employees at small businesses, especially restaurants. While many take public transportation, some have to drive, due to late hours or challenges around scheduling.They will now have to pay for parking and disrupt their work to move their cars. They cannot apply for residential parking permits for their work. This may cause them not to want to take jobs in the city.

I'm also against the 18 month extended rollout across the city, which will cause both inequity and confusion, for business and consumers. I'm worried that this will discourage customers from the communities around San Francisco who want to drive into the city to dine and shop, at a time when we need them more than ever. Small businesses in San Francisco are still trying to recover from Covid closures and disruptions and additional challenges could have devastating consequences.

Thanks for your consideration of my comments.

Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

I've learned about the SFMTA's plan to extend metering hours in SF.

I urge you to consider such move only after an independent economic impact report was issued.

There are many alternatives to come up with a happy medium.

Message to the Board of Supervisors, Mayor and SFMTA

From your constituent Marie Oberg

Email marieoberg@yahoo.com

I live in District

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

We don't need a delay and another economic impact report *costing $$$$$$$.00 We need a " Forget about it!!!" now vote.*

Another Outrage. I filled it, sent it and cursed it.

I live in District	

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Dear Supervisors,

I am a business owner at the Red Fox Salon at 808 Post Street in SF.

I am writing to ask that SFTMA delay the extended parking meter rollout until impacts can be studied further and until our small businesses have more time to recover from the economic devastation of the pandemic closures.

We understand the significant financial challenges that SFMTA is facing and strongly support the need for a robust public transportation system in the city, but we need to look to the state and federal government to help with the scale of funding needed for our transportation systems, not look to small business and workers for funds.

This planned change will have a cost and negative financial impact on our employees. While many take public transportation, some have to drive, due to late hours or challenges around scheduling.They will now have to pay for parking and disrupt their work to move their cars. They cannot apply for residential parking permits for their work. This may cause them not to want to take jobs in the city.

We are also against the 18 month extended rollout across the city, which will cause both inequity and confusion, for business and consumers. We are worried that this will discourage customers from the communities around San Francisco who want to drive into the city to dine and shop, at a time when we need them more than ever. Our industry is still trying to recover from Covid closures and disruptions and additional challenges could have devastating consequences.

Thanks for listening,

Lynsey Hopson - The Red Fox Salon

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession. This is. It the time to raise these kind if rates- and you are only catering to a very elite group of people and this does not create equity or access! Public transportation in SF is wonderful and we use it but as a small business owner I need my vehicle for work and equipment and we use it for family events and that doesn't make us bad and we shouldn't be penalized for it.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587.

We've tried this before, here in San Francisco and also in Oakland, and it was resounding failure and insult to the community.

This is a horrible idea, and is deeply anti working class and clearly an anti car proposal .

Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-

being.

Sincerely,
Linda Mathews

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am a business owner/resident in District XX. (or say your business name and address).

I am writing to ask that SFTMA delay the extended parking meter rollout until impacts can be studied further and until our small businesses have more time to recover from the economic devastation of the pandemic closures.

We understand the significant financial challenges that SFMTA is facing and strongly support the need for a robust public transportation system in the city, but we need to look to the state and federal government to help with the scale of funding needed for our transportation systems, not look to small business and workers for funds.

This planned change will have a cost and negative financial impact on our employees. While many take public transportation, some have to drive, due to late hours or challenges around scheduling. They will now have to pay for parking and disrupt their work to move their cars. They cannot apply for residential parking permits for their work. This may cause them not to want to take jobs in the city.

We are also against the 18 month extended rollout across the city, which will cause both inequity and confusion, for business and consumers. We are worried that this will discourage customers from the communities around San Francisco who want to drive into the city to dine and shop, at a time when we need them more than ever. Our industry is still trying to recover from Covid closures and disruptions and additional challenges could have devastating consequences.

Thanks for listening,

Ittoryu **GOZU**

My name is **S Garrett**
My email address is **shigar16@gmail.com**

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
S Garrett

I oppose the plan to extend parking meter hours!

Message:

I agree with all the prewritten reasons given. But more than that, come ON people! We already pay and arm and a leg to live here. What points do you think you'll score by adding yet one more expense and annoyance to citizens daily lives?

Three weeks ago I got an $89. parking ticket at 7:30 on a Sunday night. Parked legally, on a side street down by Hillstone Restaurant off the Embarcadero. No signage. No special event. No reason any average person would think meters were being enforced then.

This is NOT how you safeguard and improve the quality of life for your constituents. And it is certainly not the way to further your career.

Add me to the list for updates on this issue.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

Expanding parking metered hours is an outrage. I am a 30+ year resident of San Francisco, and a homeowner during this entire timeframe. The parking meters are already exorbitantly high--in some locations a quarter buys you 3 minutes. Tickets for expired parking meters are ridiculously high.

Passing this new ordinance poses a hardship on city residents who must park on the streets at night as well as businesses such as restaurants that want (and need) to encourage diners after 6pm. If this is an effort to encourage public transportation, the SFMTA fails in this regard too. Most public transportation is unclean and unsafe thanks to the homeless situation that has been allowed to fester.

Why does this city punish its residents and businesses in this manner? If the city wants to attract more business and tourists, the parking fees should be lowered or abolished altogether to get people back to downtown and other areas of town.

Shame on all of you. This nothing more than a money grab by city government that hurts its own residents.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to change the park I g meter hours and to j Clyde Sundays.
It is dangerous and filthy to take BART. Ride it to Fruitvqle some evening about 8 pm. See how long it takes and count how many people are smoking fentynal in the train you are in.
I have to drive to the city because I work here. I used to live here off and on for 30 years but I couldn't afford to live here anymore and my job is still here. Free parking on Sundays allows me one less burden.
The yellow curbs all over down town that occurred during the pandemic has made me have to leave my health care provider after 20 years because I can't park any where near his practice. He retired this year from the city nonsense.
The rediculous prices for meters keeps people from coming down town. It wasn't just Covid that has made it a ghost town. It is the zombie crazy people, the parking night mare and the lack of care from the city.
Stop destroy g the city with bad planning.

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Vale Cervarich

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

My name is **Layne Menn**
My email address is **layne_behrens@yahoo.com**

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Layne Menn

Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Susie Greinetz

Subject: Please Delay SF Parking Meter Rollout
Date: Saturday, May 20, 2023 6:20:23 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors and Director Tumlin,

I am an owner/operator of Extreme Pizza, located at 1980 Union Street.

I am also on the Board of Directors of the Golden Gate Restaurant Association.

I am writing to ask that SFTMA delay the extended parking meter rollout for at least 12 months, until impacts can be studied further and until our small businesses have more time to recover from the economic devastation of the pandemic closures. I would also like to see an independent study be conducted to consider the consequences on workers, customers and businesses, all of who will be affected.

I understand the significant financial challenges that SFMTA is facing and support the need for a robust public transportation system in the city, but we need to look to other funding areas to help with the scale of funding needed for our transportation systems, not look to small business and workers for funds.

This planned change will have a significant cost and negative financial impact on our employees. SFMTA meters in higher use corridors, where many restaurants are located, may charge in the range of $6 to $7 dollars per hour. While many of our employees do take public transportation, some have to drive, due to late hours, challenges around scheduling, or concern for their safety at night. They will now have to pay for parking and disrupt their work to move their cars. They cannot apply for residential parking permits for their work. This may cause them not to want to take jobs in the city.

I am also concerned that the 18 month extended rollout across the city, will cause both inequity and confusion, for business and consumers. I am worried that this will discourage customers from the communities around San Francisco who want to drive into the city to dine and shop, at a time when we need them more than ever. Our industry is still trying to recover from Covid closures and disruptions and additional challenges could have devastating consequences.

Please vote to support this resolution and consider a 12 month pause to access and determine a better way forward.

Sincerely,
Todd Parent

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession. The SFMTA is street by street and neighborhood slow killing the small businesses of SF and making much of the city less accessible for seniors, blue collar workers, and the handicapped. It is inexcusable that the city is giving the SF bicycle coalition 10 million dollars (2.5 million for the next 4 years) when they strongly lobby for pro bike candidates. Why have we done no study to see how increased bike infrastructure is taking people off of public transit and not autos. Also, it is commonly known that a large percentage of people, maybe a majority do not pay the MUNI fares and nothing seems in place to fix this.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall

enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

This expanded meter cost is mostly a war against those who can least afford it. Please stop this insanity, and the over the top pro bike policies that are slowly killing the city.

Add me to the list for updates on this issue.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact businesses in the Castro, where my business is, on top of the already terrible loss of commercial tenants with multiple closed store fronts. This discourages out-of-town visitors and add financial stress to local residents ad businesses who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize

restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Susan Haldeman

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Caroline Dignan

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Dear Supervisors

Please vote to delay SFMTA's proposed 'extended parking meter hours.'

As a family that frequently visits SF for Giants Baseball Games, Broadway SF performances, various restaurant outings, & special events held in the City, we strongly oppose the current proposal to increase parking meter hours. It's a detriment to small businesses, their hourly employees & their customers. It's a detriment to tourism, which supports the City in countless ways.

The proposed change in parking meter hours needs further review.

Thanks for your consideration,
Emily Hall

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Karen Siwinski

We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Kathy Spangler

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Robert Lim

Message to the Board of Supervisors, Mayor and SFMTA

From your constituent Brent Olivier

Email brentmolivier@gmail.com

I live in District

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

Extending the meter hours is Ludacris, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors like myself, people with disabilities me again, and families I have four SF native boys. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment. And yet another reason not to come and spend time in San Francisco clearly, this is focusing on tickets not just meter revenue. Let’s try and make San Francisco appealing again a creative and open community. Not the vacant crime-ridden city with a massive, homeless, mental health and drug abuse in streets .

As a result, this extension will disproportionately affect restaurant and retail workers, visitors in neighborhood is who will be forced to allocate more of their hard-earned income toward parking fees/ tickets. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge. Right now the neighborhoods are the only growing exciting commercial spaces in the city let’s not throw cold water on this.

I sincerely implore you to vote against this proposal. The needs of our local businesses and residents and visitors , as well as the broader interests of San

Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

After we've wasted decades of surplus is it's time to invest into making San Francisco, a creative, inviting, safe and affordable city it should be.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
David Jacobs

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

Why do you want to kill SF so badly? Small business and restaurants needs patrons to visit and buy from our stores. Otherwise everyone will just go to Daly City such as Serramonte. where parking is easily available. Your progressive views discriminate against those that require and need automobiles at night. Crime is rampant. No one will use MUNI at night.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of

our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Elizabeth Bradburn

Dear Board of Supervisors,

I am writing to express my strong opposition to the proposal of extending parking meter hours and to lend my support to the resolution 230587 by the Board of Supervisors.

It raises minimal amounts of money while hurting citizens and visitors at a time when SF is already struggling.

San Francisco's evenings are vibrant and beloved by locals and tourists alike. They offer a chance to unwind, spend time with loved ones, and explore the diverse culinary offerings of our neighborhoods. But now, expanding parking meter hours will deal a needless blow to visitors and local businesses - adding more financial strain, especially for seniors, people with disabilities, and families. This not only threatens access but will diminish the overall experience, depriving them of precious moments, memories, and enjoyment.

As a result, this extension will disproportionately affect restaurant and retail workers, who will be forced to allocate more of their hard-earned income toward parking fees. We must prioritize incentivizing evening and weekend customers, ensuring the welfare of our workers, and avoiding the imposition of additional costs during a period of economic challenge.

Therefore, I sincerely implore you to vote against this proposal. The needs of our local businesses and residents, as well as the broader interests of San Francisco, must be carefully considered. As we work to invigorate our local economy and revitalize cherished restaurants and tourist destinations, we must support the well-being of our community.

Thank you for your unwavering dedication and commitment to our city's well-being.

Sincerely,
Alex Slusky

I oppose the plan to extend parking meter hours!

Message:

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking. Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time

when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.

Add me to the list for updates on this issue.

Dear SFMTA Board Chair Eaken, Vice-Chair Cajina, Director Tumlin, Director Maguire and Mayor Breed,

A new analysis of 19 million parking citations and 300 thousand complaints by Stephen Braitsch shows that SFMTA's parking enforcement fails to prioritize public safety-related violations, operates inconsistently across the city and days of the week, lets repeat offenders off the hook and fails to give citizens safety-oriented reporting options.

Please review the findings in Stephen's detailed report, linked below, and immediately demand that the SFMTA adopt a data-driven parking enforcement strategy that prioritizes public safety while ensuring equitable revenue collection.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

To the Board of Supervisors and Mayor London Breed:
The proposal to extend parking meters in hours and Sunday will damage small businesses and the quality of life in this city.
The proposal occurs in the context of homelessness, increased crime, substance abuse, polarity of wealth and decline of the neighborhoods.
The Municipal Transit Agency is clearly out of control with little, if any, accountability. Its Board simply rubber stamps to the commendation of its Executive Director and managers without listening to legitimate criticism.
My concerns are elaborated upon in this attachment.
To endorse the parking meter proposals of MTA will constitute a betrayal of the neighborhoods, the heart and soul of San Francisco in addition to damaging its declining business climate and quality of life.
It is high time to address and evaluate MTA, a failed agency that is rotten ripe for change.
That is your responsibility for the people of San Francisco.

Herbert J. Weiner

Dear Supervisors, Mayor Breed, Mr. Tumlin and SFMTA Board Members,

You are really succeeding at making SF voters angry with you. First you enable the drug addicts/mentally ill zombies out there. Then you continue making the city uncomfortable for its tax-paying residents by nickel and diming them on everything including parking meters.

I write to oppose the plan to extend parking meter hours and to support the Board of Supervisors' resolution 230587. Extending meter hours will negatively impact local businesses, discourage out-of-town visitors and add financial stress to local residents who already feel the instability and impact of an impending recession.

San Franciscans and tourists visit neighborhood business districts in the evenings to relax, unwind, and share a meal with their loved ones. Expanded parking meter hours will burden potential customers (especially seniors, the disabled, and families) with an additional cost, detracting from their overall enjoyment and inhibiting them from such activities.

Meter hours until 10pm will materially impact restaurant and retail workers who will be feeding meters and spending 2 to 3 times more on parking.

Many service employees live outside San Francisco, and public transportation is frequently not an option.

If we want to boost our local economy and revitalize restaurants and tourist areas, we need to incentivize evening and Sunday customers, take care of workers, and not pile on additional costs at a time when rents and the price of food and necessary items are already so high.

I sincerely hope the Board of Supervisors votes to reject this plan. Please consider the needs of our local businesses and residents, as well as the overall interests of San Francisco. Thank you for your careful consideration of this matter.
