Ms. Angela Calvillo
Clerk of the Board
City and County of San Francisco
1 Dr. Carlton B. Goodlett Place City Hall, Room 244
San Francisco, CA 94102

Dear Ms. Calvillo,

Please see the attached WIFIA Master Agreement and Project 1 Loan Agreement executed between the San Francisco Public Utilities Commission and the U.S. Environmental Protection Agency (EPA) on April 26, 2023. The WIFIA Master Agreement and Project 1 Loan was entered into pursuant to the "Water Infrastructure Finance and Innovation Acted (WIFIA)" authorized by Congress in 2014. The SFPUC entered the WIFIA Master Loan Agreement with the EPA in an amount not to exceed $791,337,456 to provide partial funding for projects in the Wastewater Enterprise Capital Plan. The Master Agreement defines the general terms for funding a series of WIFIA loans, the first of which is the "Project 1 Loan Agreement." The incurrence of the Project 1 Loan Agreement, in an aggregate initial principal amount not to exceed $369,335,021, will provide partial funding for six Wastewater Enterprise capital improvement projects. Proceeds of the loan will fund 49% of project costs plus eligible expenses. The Project 1 Loan is on a parity lien basis with the SFPUC's outstanding Wastewater Revenue Bonds and Clean Water State Revolving Fund Loans entered into with the California State Water Resources Control Board.

The WIFIA Master Agreement and Project 1 Loan Agreement are being provided in accordance with Board of Supervisors Ordinance No. 110-22 (File Number 220500) which authorized the Wastewater Enterprise to fund capital projects with revenue bonds or other forms of indebtedness.

The terms of the Project 1 Loan Agreement are:

Principal amount sold and method of sale:	$369,335,021 WIFIA loan
True Interest Cost:	3.65%
Final Maturity:	October 1, 2061
Facilities constructed and/or improved:	Westside Pump Station Reliability

London N. Breed Mayor
Newsha K. Ajami President
Sophie Maxwell Vice President
Tim Paulson Commissioner
Anthony Rivera Commissioner
Kate H. Stacy Commissioner
Dennis J. Herrera General Manager

	Improvements, North Shore Pump Station Wet Weather Improvements, Wawona Area Stormwater Improvement, New Treasure Island Wastewater Treatment Plant, Folsom Area Stormwater Improvement, and Yosemite Creek Daylighting
Remaining authorization but unissued bonds under Proposition E:	$807,467,153

Sincerely,

Nikolai Sklaroff
Capital Finance Director
San Francisco Public Utilities Commission

SCHEDULE I – Master Program

SCHEDULE II – Existing Indebtedness

SCHEDULE III – Requisition Procedures

SCHEDULE 15(k) – Rate Covenant

SCHEDULE 16(a) – Additional Bonds Test

EXHIBIT A – Form of WIFIA Supplemental Indenture (including WIFIA Bond form)

EXHIBIT B – Form of Requisition

EXHIBIT C – Form of Construction Monitoring Report

EXHIBIT D – Form of Certification of Eligible Project Costs Documentation

EXHIBIT E – Form of Public Benefits Report

EXHIBIT F-1 – Opinions Required from Counsel to Borrower

EXHIBIT F-2 – Opinions Required from Bond Counsel

EXHIBIT G – Form of WIFIA Loan Request

EXHIBIT H-1 – Form of Closing Certificate

EXHIBIT H-2 – Form of Project Closing Certificate

EXHIBIT I – Form of Certificate of Substantial Completion

EXHIBIT J – Form of WIFIA Project Term Sheet

EXHIBIT K – Form of WIFIA Loan Agreement

WIFIA MASTER AGREEMENT

THIS WIFIA MASTER AGREEMENT (this "**Agreement")**, dated as of April 26, 2023, is by and between the **PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO**, a commission duly organized and existing under and pursuant to the Charter of the City and County of San Francisco and the laws of the State of California (the "**State**"), with an address at 525 Golden Gate Avenue, San Francisco, California 94102 (the "**Borrower**"), and the **UNITED STATES ENVIRONMENTAL PROTECTION AGENCY**, an agency of the United States of America, acting by and through the Administrator of the Environmental Protection Agency (the "**Administrator**"), with an address at 1200 Pennsylvania Avenue NW, Washington DC 20460 (the "**WIFIA Lender**"),

RECITALS:

WHEREAS, the Congress of the United States of America enacted the Water Infrastructure Finance and Innovation Act ("**WIFIA**"), § 5021 *et seq.* of Public Law 113-121 (as amended, and as may be further amended from time to time, the "**Act**"), which is codified as 33 U.S.C. §§ 3901-3915; and

WHEREAS, the Act authorizes the WIFIA Lender to enter into agreements to provide financial assistance with one or more eligible entities to make secured loans with appropriate security features to finance a portion of the eligible costs of projects eligible for assistance; and

WHEREAS, pursuant to the Application (as defined herein), the Borrower has proposed the development and construction of multiple Projects (as defined herein) with respect to the Master Program (as defined herein), and desires to obtain WIFIA financial assistance for each Project;

WHEREAS, the Borrower and the WIFIA Lender are entering into this Agreement to set forth certain common terms and conditions applicable to each prospective WIFIA financing;

WHEREAS, the Borrower will request, from time to time, that the WIFIA Lender make a WIFIA Loan (as defined herein) to be used to pay a portion of the Eligible Project Costs (as defined herein) for a Project in accordance with the terms and conditions set forth herein and in the associated WIFIA Loan Agreement (as defined herein);

WHEREAS, subject to the terms and conditions set forth herein and in each WIFIA Loan Agreement and the Act, the WIFIA Lender proposes to make funding available to the Borrower for a portion of the Eligible Project Costs of each Project through the purchase of a WIFIA Bond (as defined herein) to be issued by the Borrower for each WIFIA Loan; and

WHEREAS, the WIFIA Lender has entered into this Agreement in reliance upon, among other things, the information and representations of the Borrower set forth in the Application and the supporting information provided by the Borrower.

NOW, THEREFORE, the premises being as stated above, and for good and valuable consideration, the receipt and sufficiency of which are acknowledged to be adequate, and intending to be legally bound hereby, it is hereby mutually agreed by and between the Borrower and the WIFIA Lender as follows:

ARTICLE I

DEFINITIONS AND INTERPRETATION

Section 1. Definitions.

Unless the context otherwise requires, capitalized terms used in this Agreement shall have the meanings set forth below in this Section 1 (*Definitions*) or as otherwise defined in this Agreement. Any term used in this Agreement that is defined by reference to any other agreement shall continue to have the meaning specified in such agreement, whether or not such agreement remains in effect.

"**Act**" has the meaning provided in the recitals hereto.

"**Additional Bonds**" means any Bonds permitted under Section 16(a) (*Negative Covenants – Indebtedness*) and under the Indenture, which Bonds are issued or incurred after the Effective Date and payable from Net System Revenues on a parity basis with debt service on the Bonds that are Outstanding.

"Additional Parity Loans" means any Parity Loans permitted under Section 16(a) (*Negative Covenants – Indebtedness*) and under the Indenture, which Parity Loans are entered into or incurred after the Effective Date.

"**Additional Parity Obligations**" means Additional Bonds, Additional Parity Loans and any other obligation issued or incurred by the Borrower after the Effective Date that is permitted under Section 16(a) (*Negative Covenants – Indebtedness*) and authorized under the terms of the Indenture to be secured on a parity with the WIFIA Bonds.

"**Additional Principal Project Contract**" means, for each Project, each Principal Project Contract entered into after the applicable WIFIA Loan Agreement Effective Date.

"**Administrator**" has the meaning provided in the preamble hereto.

"**Agreement**" has the meaning provided in the preamble hereto.

"**Anticipated WIFIA Loan Disbursement Schedule**" has, for each WIFIA Loan, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement.

"**Application**" means the Borrower's application for WIFIA financial assistance received by the WIFIA Lender on August 30, 2022.

"**Authorized Representative**" means, with respect to the Borrower, such officers or individuals that have authorization from the applicable governing body to perform the act being referred to.

"**Bank Secrecy Act**" means the Bank Secrecy Act of 1970, as amended, and the regulations promulgated thereunder.

"**Bankruptcy Related Event**" means, with respect to any Person, (a) an involuntary proceeding shall be commenced or an involuntary petition shall be filed seeking (i) liquidation, reorganization or other relief in respect of such Person or any of its debts, or of a substantial part of the assets thereof, under any Insolvency Laws, or (ii) the appointment of a receiver, trustee, liquidator, custodian, sequestrator, conservator or similar official for such Person or for a substantial part of the assets thereof and, in any case referred to in the foregoing subclauses (i) and (ii), such proceeding or petition shall continue undismissed for sixty (60) days or an order or decree approving or ordering any of the foregoing shall be entered; (b) such Person shall (i) apply for or consent to the appointment of a receiver, trustee, liquidator, custodian, sequestrator, conservator or similar official therefor or for a substantial part of the assets thereof, (ii) generally not be paying its debts as they become due unless such debts are the subject of a bona fide dispute, or become unable to pay its debts generally as they become due, (iii) solely with respect to the Borrower, fail to make a payment of WIFIA Debt Service in accordance with the provisions of Section 9 (*Payment of Principal and Interest*) and such failure is not cured within thirty (30) days following notification by the WIFIA Lender of failure to make such payment, (iv) make a general assignment for the benefit of creditors, (v) consent to the institution of, or fail to contest in a timely and appropriate manner, any proceeding or petition with respect to it described in clause (a) of this definition, (vi) commence a voluntary proceeding under any Insolvency Law, or file a voluntary petition seeking liquidation, reorganization, an arrangement with creditors or an order for relief under any Insolvency Law, (vii) file an answer admitting the material allegations of a petition filed against it in any proceeding referred to in the foregoing subclauses (i) through (v), inclusive, of this clause (b), or (viii) take any action for the purpose of effecting any of the foregoing, including seeking approval or legislative enactment by any Governmental Authority to authorize commencement of a voluntary proceeding under any Insolvency Law; (c) solely with respect to the Borrower, (i) the Trustee shall commence a process pursuant to which all or a substantial part of the System Revenues may be sold or otherwise disposed of in a public or private sale or disposition pursuant to a foreclosure of the Liens thereon securing the Parity Obligations, or (ii) the Trustee shall commence a process pursuant to which all or a substantial part of the System Revenues may be sold or otherwise disposed of pursuant to a sale or disposition of the System Revenues in lieu of foreclosure; or (d) solely with respect to the Borrower, the Trustee shall transfer, pursuant to directions issued by the Bondholders, funds on deposit in any of the System Accounts upon the occurrence and during the continuation of a System Event of Default under this Agreement or an event of default under the Indenture Documents for application to the prepayment or repayment of any principal amount of the Parity Obligations other than in accordance with the provisions of the Indenture.

"**Base Case Financial Model**" means a financial model prepared by the Borrower forecasting the capital costs of the System (including the Master Program) and the rates, revenues, operating expenses and major maintenance requirements of the System for the Forecast Period and based upon assumptions and methodology provided by the Borrower and

acceptable to the WIFIA Lender as of the Effective Date, which model shall be provided to the WIFIA Lender as a fully functional Microsoft Excel – based financial model or such other format requested by the WIFIA Lender.

"**Board of Supervisors**" means the Board of Supervisors of the City from time to time or any other governing board of the City hereafter provided for by law.

"**Bond**" has the meaning provided in the Indenture and includes each WIFIA Bond.

"**Bond Amortization Schedule**" has, for each WIFIA Bond, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement.

"**Bond Reserve Fund**" has the meaning provided in the Indenture.

"**Bond Reserve Fund Policy**" has the meaning provided in the Indenture.

"**Bondholder**" means, when used with respect to any WIFIA Bond, the WIFIA Lender (and any subsequent registered holder of any WIFIA Bond) and, when used with respect to any other Bond or Obligation, the registered owner of such Bond or Obligation in accordance with the Indenture.

"**Borrower**" has the meaning provided in the preamble hereto.

"**Borrower Fiscal Year**" means (a) as of the Effective Date, a fiscal year of the Borrower commencing on July 1 of any calendar year and ending on June 30 of the immediately succeeding calendar year or (b) such other fiscal year as the Borrower may hereafter adopt.

"**Borrower's Authorized Representative**" means any Person who shall be designated as such pursuant to Section 27 (*Borrower's Authorized Representative*).

"**Business Day**" means any day other than a Saturday, a Sunday or a day on which offices of the Government or the State are authorized to be closed or on which commercial banks are authorized or required by law, regulation or executive order to be closed in New York, New York or San Francisco, California.

"**Capital Expenditures**" means expenditures made or liabilities incurred for the acquisition of any assets, improvements or replacements thereto that have a useful life of more than one (1) year and that are capitalized in accordance with GAAP.

"**Capital Project Account**" has the meaning provided in the Indenture.

"**Capital Project Fund**" has the meaning provided in the Indenture.

"**Capitalized Interest Period**" has, for each WIFIA Loan, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement.

"**Charter**" means the Charter of the City as it now exists or as it may hereafter be amended, and any new or successor Charter.

"**City**" means the existing political subdivision known as the City and County of San Francisco, in the State of California, as the same is organized and existing under and by virtue of the Constitution and laws of the State of California and the Charter, and any public body hereafter created as a successor thereto.

"**Closing Certificate**" has the meaning provided in Section 12(a)(v) (*Conditions Precedent – Conditions Precedent to Effectiveness*).

"**Congress**" means the Congress of the United States of America.

"**Construction Monitoring Report**" means, for each Project, a report on the status of the Project, substantially in the form of **Exhibit C** (*Form of Construction Monitoring Report*), unless otherwise agreed to be in a different form by the WIFIA Lender.

"**Construction Period**" means, with respect to each WIFIA Loan Agreement, the period from the applicable WIFIA Loan Agreement Effective Date through the applicable Substantial Completion Date.

"**Construction Period Servicing Fee**" has the meaning set forth in Section 30(a)(ii) (*Fees and Expenses – Construction Period Servicing Fee*), and, for each WIFIA Loan, shall be in the amount specified in Section 11(a)(ii) (*Fees and Expenses*) of the corresponding WIFIA Loan Agreement and paid in accordance with Section 30 (*Fees and Expenses*) hereof.

"**Control**" means, when used with respect to any particular Person, the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of such Person, whether through the ownership of voting securities or partnership or other ownership interests, by contract or otherwise, and the terms "**Controlling**" and "**Controlled by**" have meanings correlative to the foregoing.

"**CPI**" means the Consumer Price Index for All Urban Consumers (CPI-U) for the U.S. City Average for All Items, 1982-84=100 (not seasonally adjusted) or its successor, published by the Bureau of Labor Statistics and located at https://www.bls.gov/news.release/cpi.t01.htm.

"**Debt Service**" has the meaning provided in the Indenture.

"**Debt Service Payment Commencement Date**" has, for each WIFIA Loan, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement.

"**Default Rate**" means, with respect to each WIFIA Loan, an interest rate equal to the sum of (a) the corresponding WIFIA Interest Rate plus (b) two hundred (200) basis points.

"**Development Default**" means, with respect to any Project, (a) the Borrower fails to diligently prosecute the work related to such Project or (b) the Borrower fails to achieve Substantial Completion of such Project by the applicable Development Default Date.

"**Development Default Date**" has, for each Project, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement and shall be the calendar date that, as

of the applicable WIFIA Loan Agreement Effective Date, is twenty-four (24) months following the Projected Substantial Completion Date set forth in such WIFIA Loan Agreement.

"**Disbursement**" means a disbursement of WIFIA Loan proceeds, subject to and in accordance with this Agreement and the corresponding WIFIA Loan Agreement.

"**Disbursement Date**" means, for each WIFIA Loan, any date on which the WIFIA Lender makes a Disbursement pursuant to Section 4 (*Disbursement Conditions*) hereof and the corresponding WIFIA Loan Agreement.

"**Dollars**" and "**$**" means the lawful currency of the United States of America.

"**Effective Date**" means the date of this Agreement.

"**Eligible Project Costs**" means, with respect to each Project, amounts in the Project Budget relating to such Project that have been approved by the WIFIA Lender, which are paid by or for the account of the Borrower in connection with such Project (including, as applicable, Project expenditures incurred prior to the receipt of WIFIA credit assistance), which shall arise from the following:

(a) development-phase activities, including planning, feasibility analysis (including any related analysis necessary to carry out an eligible project), revenue forecasting, environmental review, permitting, preliminary engineering and design work and other preconstruction activities;

(b) construction, reconstruction, rehabilitation, and replacement activities;

(c) the acquisition of real property or an interest in real property (including water rights, land relating to the Project and improvements to land), environmental mitigation (including acquisitions pursuant to Section 3905(8) of Title 33 of the United States Code), construction contingencies, and acquisition of equipment; or

(d) capitalized interest (with respect to Obligations other than the WIFIA Loan) necessary to meet market requirements, reasonably required reserve funds, capital issuance expenses, and other carrying costs during construction;

provided that Eligible Project Costs must be consistent with all other applicable federal law, including the Act.

"**Eligible Project Costs Documentation**" means, with respect to each Project, all supporting documentation with respect to the Eligible Project Costs, including copies of invoices and records evidencing incurred or previously paid Eligible Project Costs, which documentation should contain sufficient detail satisfactory to the WIFIA Lender (e.g. if the Borrower intends to utilize WIFIA Loan proceeds to make construction progress payments for Eligible Project Costs, the documentation should demonstrate that such progress payments are commensurate with the cost of the work that has been completed).

"**EMMA**" means the Electronic Municipal Market Access system as described in 1934 Act Release No. 59062 and maintained by the Municipal Securities Rulemaking Board established pursuant to Section 15B(b)1 of the Securities Exchange Act of 1934, as amended, and its successors.

"**Environmental Laws**" has the meaning provided in Section 13(r) (*Representations and Warranties of Borrower – Environmental Matters*).

"**EPA**" means the United States Environmental Protection Agency.

"**Event of Loss**" means any event or series of events that causes any portion of the System to be damaged, destroyed or rendered unfit for normal use for any reason whatsoever, including through a failure of title, or any loss of such property through eminent domain.

"**Existing Indebtedness**" means indebtedness of the Borrower that has been issued or incurred prior to the Effective Date, as listed and described in **Schedule II (***Existing Indebtedness*).

"**Existing Principal Project Contract**" means, with respect to each Project, each Principal Project Contract existing as of the applicable WIFIA Loan Agreement Effective Date, as set forth in **Part A of Schedule 13(n)** (*Existing Principal Project Contracts*) to the corresponding WIFIA Loan Agreement.

"**Federal Fiscal Year**" or "**FFY**" means the fiscal year of the Government, which is the twelve (12) month period that ends on September 30 of the specified calendar year and begins on October 1 of the preceding calendar year.

"**Final Disbursement Date**" means, with respect to each WIFIA Loan, the earliest of (a) the date on which such WIFIA Loan has been disbursed in full; (b) the date on which the Borrower has certified to the WIFIA Lender that it will not request any further Disbursements under such WIFIA Loan; (c) the date on which the WIFIA Lender terminates its obligations relating to disbursements of any undisbursed amounts of such WIFIA Loan in accordance with Section 19 (*System Events of Default and Remedies*) or Section 20 (*Project Events of Default and Remedies*); or (d) the date that is one (1) year after the Substantial Completion Date of the Project relating to such WIFIA Loan.

"**Final Maturity Date**" has, for each WIFIA Loan, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement. In no event shall the Final Maturity Date for any WIFIA Loan extend beyond the longest maturity date permitted by the Act.

"**Financial Plan**" means the financial plan(s) and financial projection(s) to be delivered by the Borrower to the WIFIA Lender pursuant to Section 22 (*System Financial Planning and Reporting*).

"**Financial Statements**" has the meaning provided in Section 13(x) (*Representations and Warranties of Borrower – Financial Statements*).

"**First Disbursement Date**" means, for each WIFIA Loan, the date on which the WIFIA Lender makes the first Disbursement pursuant to Section 4 (*Disbursement Conditions*) hereof and the corresponding WIFIA Loan Agreement.

"**Forecast Period**" means, as of any date, the time period from and including the then-current Borrower Fiscal Year until the later ending date of either (a) the five (5) immediately succeeding Borrower Fiscal Years or (b) the end of the Borrower Fiscal Year in which the Borrower's then-currently effective capital improvement plan for the System concludes.

"**GAAP**" means generally accepted accounting principles for governmental entities, as established by GASB, in effect from time to time in the United States of America.

"**GASB**" means the Government Accounting Standards Board, or any successor entity with responsibility for establishing accounting rules for governmental entities.

"**Government**" means the United States of America and its departments and agencies.

"**Governmental Approvals**" means all authorizations, consents, approvals, waivers, exceptions, variances, filings, permits, orders, licenses, exemptions and declarations of or with any Governmental Authority.

"**Governmental Authority**" means any federal, state, provincial, county, city, town, village, municipal or other government or governmental department, commission, council, court, board, bureau, agency, authority or instrumentality (whether executive, legislative, judicial, administrative or regulatory), of or within the United States of America or its territories or possessions, including the State and its counties and municipalities, and their respective courts, agencies, instrumentalities and regulatory bodies, or any entity that acts "on behalf of" any of the foregoing, whether as an agency or authority of such body.

"**Indemnitee**" has the meaning provided in Section 17 (*Indemnification*).

"**Indenture**" means that certain Indenture, dated as of January 1, 2003, by and between the Borrower and the Trustee, as amended and supplemented from time to time (including by the WIFIA Supplemental Indenture).

"**Indenture Documents**" means the Indenture, each Supplemental Indenture, and each other agreement, instrument and document executed and delivered pursuant to or in connection with any of the foregoing.

"**Insolvency Laws**" means the United States Bankruptcy Code, 11 U.S.C. § 101 *et seq.*, as from time to time amended and in effect, and any state bankruptcy, insolvency, receivership, conservatorship or similar law now or hereafter in effect.

"**Interest Fund**" means the fund of that name established pursuant to Section 5.02 of the Indenture for the purposes specified in Section 5.03 of the Indenture.

"**Interest Only Period**" has, for each WIFIA Loan, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement.

"**Interim Financing**" means interim bond anticipation notes, commercial paper or other short-term temporary financing, in each case to be issued by the Borrower from time to time during the Construction Period, the proceeds of which are applied to pay Eligible Project Costs.

"**Investment Grade Rating**" means a public rating no lower than 'BBB-', 'Baa3', 'bbb-', 'BBB (low)', or higher, from a Nationally Recognized Rating Agency.

"**Letter of Credit Agreement**" has the meaning provided in the Indenture.

"**Lien**" means any mortgage, pledge, hypothecation, assignment, mandatory deposit arrangement, encumbrance, attachment, lien (statutory or other), charge or other security interest, or preference, priority or other security agreement or preferential arrangement of any kind or nature whatsoever, including any sale-leaseback arrangement, any conditional sale or other title retention agreement, any financing lease having substantially the same effect as any of the foregoing, and the filing of any financing statement or similar instrument under the UCC or any other applicable law.

"**Loss Proceeds**" means any proceeds of builders' risk or casualty insurance or proceeds of eminent domain proceedings resulting from any Event of Loss.

"**Master Availability Period**" means the period from the Effective Date until the date that is five (5) years following the Effective Date.

"**Master Program**" means the Borrower's anticipated improvements to the System through the development and construction of each Project, which shall be within the scope described in **Schedule I** (*Master Program*) and specifically defined in the corresponding WIFIA Loan Agreement.

"**Master Program Amount**" means $791,337,456.

"**Material Adverse Effect**" means a material adverse effect on (a) the System, the Projects or the System Revenues; (b) the business, operations, properties, condition (financial or otherwise) or prospects of the Borrower; (c) the legality, validity or enforceability of any material provision of any Indenture Document or WIFIA Loan Document; (d) the ability of the Borrower to enter into, perform or comply with any of its material obligations under any Indenture Document or WIFIA Loan Document; (e) the validity, enforceability or priority of the Liens provided under the Indenture Documents on the Net System Revenues in favor of the Secured Parties; or (f) the WIFIA Lender's rights or remedies available under any WIFIA Loan Document.

"**Maximum Principal Amount**" means, for each WIFIA Loan, the maximum amount of Disbursements that may be made by the WIFIA Lender with respect to such WIFIA Loan, as specified in the corresponding WIFIA Loan Agreement and excluding any interest that is capitalized and added to the principal balance of such WIFIA Loan in accordance with this Agreement and the other applicable WIFIA Loan Documents.

"**Nationally Recognized Rating Agency**" means any nationally recognized statistical rating organization identified as such by the Securities and Exchange Commission.

"**NEPA**" means the National Environmental Policy Act of 1969, as amended, and any successor statute of similar import, and regulations thereunder, in each case as in effect from time to time.

"**NEPA Determination**" means, with respect to each Project, the final NEPA decision issued for such Project by EPA in accordance with NEPA.

"**Net Loss Proceeds**" means Loss Proceeds after excluding any proceeds of delay-in-start-up insurance, proceeds covering liability of the Borrower to third parties and Loss Proceeds used or to be used by the Borrower to repair or restore the System in accordance with Section 6.20 of the Indenture.

"**Net System Revenues**" means all of the System Revenues less all Operations and Maintenance Expenses.

"**Obligations**" means debt of the Borrower that is secured by a pledge and lien on Net System Revenues, including both Parity Obligations and Subordinated Obligations.

"**OFAC**" means the Office of Foreign Assets Control of the United States Department of the Treasury.

"**Operating Period Servicing Fee**" has the meaning set forth in Section 30(a)(iii) (*Fees and Expenses – Operating Period Servicing Fee*).

"**Operations and Maintenance Expenses**" means the reasonable and necessary costs of operating and maintaining the System, calculated on generally accepted accounting principles, including (among other things) salaries and wages, fees for services, costs of materials, supplies and fuel, reasonable expenses of management, legal fees, accounting fees, repairs and other expenses necessary to maintain and preserve the System in good repair and working order, and reasonable amounts for administration, overhead, insurance, taxes (if any), and the payment of pension charges and proportionate payments to such compensation and other insurance or outside reserve funds as the Borrower may establish or the Board of Supervisors may require with respect to employees of the Borrower, as provided in the Charter; provided, however, that the term "Operations and Maintenance Expenses" excludes in all cases (a) depreciation and obsolescence charges or reserves therefor, (b) amortization of intangibles or other bookkeeping entries of a similar nature, (c) costs of capital additions, replacements, betterments, extensions or improvements to the System, which under generally accepted accounting principles are chargeable to a capital account or to a reserve for depreciation, (d) charges for the payment of principal and interest on any revenue bonds or other indebtedness heretofore or hereafter issued for System purposes and (e) such costs as are scheduled to be paid by the Borrower from moneys other than System Revenues, such moneys to be clearly available for such purpose.

"**Organizational Documents**" means: (a) with respect to any Person that is a Governmental Authority, (i) the constitutional and statutory provisions that are the basis for the existence and authority of such Governmental Authority, including any enabling statutes, ordinances or public charters and any other organic laws establishing such Governmental Authority and (ii) the bylaws, code of regulations, operating procedures or other organizational documents of or adopted by such Governmental Authority by which such Governmental

Authority, its powers, operations or procedures or its securities, bonds, notes or other obligations are governed or from which such powers are derived; and (b) with respect to any Person that is not a Governmental Authority, (i) to the extent such Person is a corporation, the certificate or articles of incorporation and the by-laws of such Person, (ii) to the extent such Person is a limited liability company, the certificate of formation or articles of formation or organization and operating or limited liability company agreement of such Person and (iii) to the extent such Person is a partnership, joint venture, trust or other form of business, the partnership, joint venture or other applicable agreement of formation or organization and any agreement, instrument, filing or notice with respect thereto filed in connection with its formation or organization with the applicable Governmental Authority in the jurisdiction of its formation or organization and, if applicable, any certificate or articles of formation or organization or formation of such Person.

"**Outstanding**" has the meaning provided in the Indenture.

"**Outstanding WIFIA Bond Balance**" means, with respect to each WIFIA Bond, the sum of (a) the aggregate principal amount of such WIFIA Bond drawn by the Borrower (*i.e.,* the sum of the WIFIA Loan proceeds disbursed by the WIFIA Lender) plus (b) capitalized interest added to the principal balance of such WIFIA Bond during the Capitalized Interest Period pursuant to Section 9(c) (*Payment of Principal and Interest – Capitalized Interest Period*) minus (c) the aggregate principal amount of such WIFIA Bond repaid by the Borrower, as determined in accordance with Section 7 (*Outstanding WIFIA Bond Balance; Revisions to Bond Amortization Schedule*).

"**Parity Loans**" has the meaning provided in the Indenture.

"**Parity Obligations**" means the Bonds, any Parity Loans, any other Existing Indebtedness of the Borrower that is on a parity with the Bonds as of the Effective Date pursuant to the terms of the Indenture and any Additional Parity Obligations.

"**Parity State Loan**" means any Parity Loan entered into between the Borrower and the State (or any board, department or agency thereof).

"**Patriot Act**" means the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001, as amended, and all regulations promulgated thereunder.

"**Payment Default**" has the meaning provided in Section 19(a)(i) (*System Events of Default and Remedies – Payment Default*).

"**Payment Period**" means, with respect to each WIFIA Loan, any period of six (6) months from (and including) a Semi-Annual Payment Date to (but excluding) the immediately succeeding Semi-Annual Payment Date; provided that the first Payment Period shall be the six (6) month period ending on the date immediately prior to the Debt Service Payment Commencement Date.

"**Permitted Debt**" means:

(a) Existing Indebtedness;

(b) the WIFIA Bonds;

(c) Additional Parity Obligations; and

(d) Subordinated Obligations.

"**Permitted Investments**" means any "Permitted Investment" under and as defined in the Indenture.

"**Permitted Liens**" means Liens permitted by the terms of the Indenture.

"**Person**" means and includes an individual, a general or limited partnership, a joint venture, a corporation, a limited liability company, a trust, an unincorporated organization and any Governmental Authority.

"**Principal Fund**" means the fund of that name established pursuant to Section 5.02 of the Indenture for the purposes specified in Section 5.04 of the Indenture.

"**Principal Project Contracts**" means, with respect to each Project, any prime contract entered into by the Borrower with respect to such Project that involves any construction activity (such as demolition, site preparation, civil works construction, installation, remediation, refurbishment, rehabilitation, or removal and replacement services). For the avoidance of doubt, "**Principal Project Contract**" shall include each Existing Principal Project Contract for the relevant Project and, upon the effectiveness thereof, each Additional Principal Project Contract for such Project.

"**Principal Project Party**" means any Person (other than the Borrower) party to a Principal Project Contract.

"**Professional Utility Consultant**" means any independent licensed professional engineer, certified public accountant, or other independent person or firm, selected by the Borrower and reasonably acceptable to the WIFIA Lender, having skill and experience with the operation and maintenance of sewer systems of comparable size and character to the System in such areas as are relevant to the purposes for which such entity is retained, including the establishment of rates and charges; provided that the WIFIA Lender shall be deemed to have consented to any proposed Professional Utility Consultant so long as Borrower shall have provided the WIFIA Lender with thirty (30) Business Days' advance written notice of such proposed Professional Utility Consultant, together with supporting information concerning the qualifications of such proposed Professional Utility Consultant, and the WIFIA Lender shall not have objected in writing within such thirty (30) Business Day period (upon the conclusion of which period such proposed Professional Utility Consultant shall become the Professional Utility Consultant).

"**Project**" has, for each WIFIA Loan Agreement, the meaning provided in Section 1 (*Definitions*) of such WIFIA Loan Agreement.

"**Project Budget**" has, for each Project, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement.

"**Project Closing Certificate**" has the meaning provided in Section 12(b)(viii) (*Conditions Precedent – Conditions Precedent to Effectiveness of Each WIFIA Loan Agreement*).

"**Project Event of Default**" has the meaning provided in Section 20 (*Project Events of Default and Remedies*).

"**Project Schedule**" has, for each Project, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement.

"**Project Term Sheet**" means a term sheet substantially in the form attached hereto as **Exhibit J** (*Form of WIFIA Project Term Sheet*) entered into by the Borrower and the WIFIA Lender in respect of a WIFIA Loan.

"**Projected Substantial Completion Date**" has, for each WIFIA Loan, the meaning provided in Section 1 (*Definitions*) of the corresponding WIFIA Loan Agreement.

"**Public Benefits Report**" means the report, in the form attached hereto as **Exhibit E** (*Form of Public Benefits Report*), with respect to a Project.

"**Rate Covenant**" has the meaning provided in Section 15(k) (*Affirmative Covenants – Rate Covenant*).

"**Rating Category**" means one of the generic rating categories of a Nationally Recognized Rating Agency without regard to any refinement or gradation of such rating by a numerical modifier or otherwise.

"**Rebate Account**" means an account (or Rebate Fund (as defined in the Indenture)) established under the Indenture Documents to hold or account for earnings that may have to be rebated to the federal government as a condition of maintaining tax-exempt status of obligations the interest on which is excludable from gross income of the holder of the obligations.

"**Related Documents**" means the Indenture Documents, the WIFIA Loan Documents and the Letter of Credit Agreements (if any).

"**Requisition**" has the meaning provided in Section 4(a) (*Disbursement Conditions*).

"**Reserve Account**" means an account established in the Bond Reserve Fund as security for a Series of Bonds issued under the Indenture.

"**Revenue Fund**" has the meaning provided in the Indenture.

"**Secured Parties**" means the WIFIA Lender, each other Bondholder and each holder of any other Parity Obligation pursuant to the Indenture Documents.

"**Semi-Annual Payment Date**" means each April 1 and October 1.

"**Senior State Loans**" has the meaning provided in the Indenture.

"**Series of Bonds**" has the meaning provided in the Indenture.

"**Servicer**" means such entity or entities as the WIFIA Lender shall designate from time to time to perform, or assist the WIFIA Lender in performing, certain duties hereunder.

"**Servicing Fee**" means the Servicing Set-Up Fee and any Construction Period Servicing Fee or Operating Period Servicing Fee.

"**Servicing Set-Up Fee**" has the meaning provided in Section 30(a)(i) (*Fees and Expenses – Servicing Set-Up Fee*) and, for each WIFIA Loan, shall be in the amount provided in Section 11(a)(i) (*Fees and Expenses*), of the corresponding WIFIA Loan Agreement and paid in accordance with Section 30(a)(i) (*Fees and Expenses – Servicing Set-Up Fee*) hereof.

"**Sinking Fund Account**" means any special account or accounts established by the Indenture or any Supplemental Indenture or Indentures in the Principal Fund for the payment of Term Bonds.

"**State**" has the meaning provided in the preamble hereto.

"**Subordinated Obligations**" means any Obligation that (a) is fully subordinated in priority of payment (as to both principal, interest, and security interest in pledged collateral, and whether such payment is made upon default or acceleration) to payment of amounts due with respect to the Parity Obligations (including the WIFIA Bonds); and (b) is further limited with respect to voting rights to matters that (i) diminish the pledge of Net System Revenues with respect to such Obligations; (ii) change the times or amounts of payment on such Obligations; or (iii) reduce any voting rights in respect of such Obligations.

"**Substantial Completion**" means, with respect to each Project, the stage at which the Project is considered to perform the functions for which the Project is designed.

"**Substantial Completion Date**" means, with respect to each Project, the date on which the Borrower certifies to the WIFIA Lender, with evidence satisfactory to the WIFIA Lender, that Substantial Completion for such Project has occurred.

"**Supplemental Indenture**" means a supplement to or modification of the provisions of the Indenture entered into by the Borrower and the Trustee in accordance with the terms of the Indenture, authorizing the issuance of Additional Parity Obligations or amending the terms of the Indenture.

"**System**" means the whole and each and every part of the municipal sanitary waste and storm water collection, treatment and disposal system and auxiliary or related facilities of the Borrower, including all of the presently existing system of the Borrower for the collection, treatment and disposal of sanitary waste and storm water, and all future additions, betterments, and extensions to that system or any part thereof, including the Projects.

"**System Accounts**" means the Capital Project Fund and each Capital Project Account (including the WIFIA Project Account), the Bond Reserve Fund and each Reserve Account, the Revenue Fund, the Principal Fund, any Sinking Fund Account (including the WIFIA Sinking Fund Account) and the Interest Fund, in each case, as established pursuant to the Indenture.

"**System Event of Default**" has the meaning provided in Section 19 (*System Events of Default and Remedies*).

"**System Revenues**" means all gross revenues of the System, including all charges received for and all other income and receipts derived by the Borrower from the operation of the System, or arising from the System, including connection and installation charges, but excluding (a) any money received by or for the account the Borrower from the levy or collection of taxes; (b) moneys received from the State and the United States of America and required to be deposited in restricted funds; (c) refundable deposits made to establish credit; (d) advances and contributions made to the Borrower to be applied to construction; (e) moneys received constituting casualty insurance proceeds with respect to all or any part of the System and moneys received constituting other insurance proceeds; (f) moneys received from the sale or disposition of all or any part of the System; (g) moneys received upon the taking by or under the threat of eminent domain of all or any part of the System; (h) proceeds from Bonds issued by the Borrower or proceeds from loans or other indebtedness obtained by the Borrower; and (i) moneys or securities received by the Borrower as gifts or grants, the use of which is restricted by the donor or grantor. The term "System Revenues" includes (x) all interest or other income (excluding profits or losses from the sale or disposition of Permitted Investments or other securities owned by or on behalf of the Borrower) derived from the deposit or investment of any moneys in any fund or account established hereunder (excluding any Rebate Account and any escrow fund pledged for the payment of defeased bonds) or in any fund or account of the System and legally available to pay Debt Service, and (y) any other moneys, proceeds and other amounts that the Borrower determines should be "Revenues" under the Indenture.

"**Term Bonds**" has the meaning provided in the Indenture.

"**Total Project Costs**" means, with respect to each Project, (a) the costs paid or incurred or to be paid or incurred by the Borrower in connection with or incidental to the acquisition, design, construction and equipping of such Project, including legal, administrative, engineering, planning, design, insurance and costs of issuance; (b) amounts, if any, required by the Indenture Documents or the WIFIA Loan Documents to be paid into any fund or account upon the incurrence of such WIFIA Loan and, if issued or incurred in connection with such Project, any Parity Obligations or Subordinated Obligations; (c) payments when due (whether at the maturity of principal, the due date of interest, or upon optional or mandatory prepayment) during the Construction Period in respect of any indebtedness of the Borrower, in each case in connection with such Project (other than the WIFIA Loan); and (d) costs of equipment and supplies and initial working capital and reserves required by the Borrower for the commencement of operation of such Project, including general administrative expenses and overhead of the Borrower.

"**Trustee**" means U.S. Bank Trust Company, National Association, as successor trustee to U.S. Bank National Association, acting as an independent trustee with the duties and powers

provided in the Indenture, its successors and assigns, and any other corporation or association which may at any time be substituted in its place, as provided in Section 8.01 of the Indenture.

"**UEI**" means, with respect to any Person, a Unique Entity ID issued by the Federal Government through SAM.gov as the unique entity identifier for such Person.

"**Uncontrollable Force**" means any cause beyond the control of the Borrower, including: (a) a hurricane, tornado, flood or similar occurrence, landslide, earthquake, fire or other casualty, strike or labor disturbance, freight embargo, act of a public enemy, explosion, war, blockade, terrorist act, insurrection, riot, general arrest or restraint of government and people, civil disturbance or similar occurrence, sabotage, cyber-attack, or act of God (provided, that the Borrower shall not be required to settle any strike or labor disturbance in which it may be involved) or (b) the order or judgment of any federal, state or local court, administrative agency or governmental officer or body, if it is not also the result of willful or negligent action or a lack of reasonable diligence of the Borrower and the Borrower does not control the administrative agency or governmental officer or body; provided, that the diligent contest in good faith of any such order or judgment shall not constitute or be construed as a willful or negligent action or a lack of reasonable diligence of the Borrower.

"**Uniform Commercial Code**" or "**UCC**" means the Uniform Commercial Code, as in effect from time to time in the State.

"**Variable Rate Indebtedness**" has the meaning provided in the Indenture.

"**WIFIA**" has the meaning provided in the recitals hereto.

"**WIFIA Bond**" means, for each WIFIA Loan, the Bond delivered by the Borrower in substantially the form of **Exhibit A** (*Form of WIFIA Supplemental Indenture (including WIFIA Bond form)*) and issued pursuant to the corresponding WIFIA Supplemental Indenture and WIFIA Loan Agreement. Each WIFIA Bond shall be a Bond under the Indenture.

"**WIFIA Debt Service**" means, with respect to each WIFIA Bond, for any Semi-Annual Payment Date occurring on or after the Debt Service Payment Commencement Date for such WIFIA Bond, the principal portion of the Outstanding WIFIA Bond Balance and any interest payable thereon (including interest accruing after the date of any filing by the Borrower of any petition in bankruptcy or the commencement of any bankruptcy, insolvency or similar proceeding with respect to the Borrower), in each case, due and payable on such Semi-Annual Payment Date in accordance with the provisions of Section 9(d) (*Payment of Principal and Interest – Payment of WIFIA Debt Service*).

"**WIFIA Interest Rate**" means, for each WIFIA Loan (and the corresponding WIFIA Bond), the rate specified in Section 6 (*Interest Rate*) of the corresponding WIFIA Loan Agreement, which shall be computed in accordance with Section 6 (*Interest Rate*) hereof.

"**WIFIA Lender**" has the meaning provided in the preamble hereto.

"**WIFIA Lender's Authorized Representative**" means the Administrator and any other Person who shall be designated as such pursuant to Section 28 (*WIFIA Lender's Authorized Representative*).

"**WIFIA Loan**" has, for each WIFIA Loan Agreement, the meaning provided in Section 1 (*Definitions*) thereof.

"**WIFIA Loan Agreement**" means a loan agreement substantially in the form attached hereto as **Exhibit K** (*Form of WIFIA Loan Agreement*) entered into by and between the Borrower and the WIFIA Lender in respect of the relevant Project.

"**WIFIA Loan Agreement Effective Date**" has, for each WIFIA Loan Agreement, the meaning provided in Section 1 (*Definitions*) thereof.

"**WIFIA Loan Documents**" means this Agreement, the WIFIA Bonds, the WIFIA Loan Agreements, the WIFIA Supplemental Indentures, and the other Indenture Documents.

"**WIFIA Loan Request**" has the meaning provided in Section 3(c) (*WIFIA Loans for the Master Program*).

"**WIFIA Project Account**" has, for each WIFIA Loan, the meaning provided in the corresponding WIFIA Supplemental Indenture.

"**WIFIA Sinking Fund Account**" has, for each WIFIA Loan, the meaning provided in the corresponding WIFIA Supplemental Indenture.

"**WIFIA Supplemental Indenture**" means for each WIFIA Loan, the Supplemental Indenture entered into by and between the Borrower and the Trustee to authorize, among other things, the issuance of the corresponding WIFIA Bond and in substantially the form set forth in **Exhibit A** (*Form of WIFIA Supplemental Indenture (including WIFIA Bond form)*).

Section 2. Interpretation.

(a) Unless the context shall otherwise require, the words "hereto," "herein," "hereof" and other words of similar import refer to this Agreement as a whole.

(b) Words of the masculine gender shall be deemed and construed to include correlative words of the feminine and neuter genders and vice versa.

(c) Words importing the singular number shall include the plural number and vice versa unless the context shall otherwise require.

(d) The words "include," "includes" and "including" shall be deemed to be followed by the phrase "without limitation."

(e) Whenever the Borrower's knowledge is implicated in this Agreement or the phrase "to the Borrower's knowledge" or a similar phrase is used in this Agreement, the Borrower's knowledge or such phrase(s) shall be interpreted to mean to the best of the

Borrower's knowledge after reasonable and diligent inquiry and investigation. Unless the context shall otherwise require, references to any Person shall be deemed to include such Person's successors and permitted assigns.

(f) Unless the context shall otherwise require, references to preambles, recitals, Sections, subsections, clauses, schedules, exhibits, appendices and provisions are to the applicable preambles, recitals, Sections, subsections, clauses, schedules, exhibits, appendices and provisions of this Agreement.

(g) The schedules and exhibits to this Agreement, and the appendices and schedules to such exhibits, are hereby incorporated by reference and made an integral part of this Agreement.

(h) The headings or titles of this Agreement and its Sections, schedules or exhibits, as well as any table of contents, are for convenience of reference only and shall not define or limit its provisions.

(i) Unless the context shall otherwise require, all references to any resolution, contract, agreement, lease or other document shall be deemed to include any amendments or supplements to, or modifications or restatements or replacements of, such documents that are approved from time to time in accordance with the terms thereof and hereof.

(j) Every request, order, demand, application, appointment, notice, statement, certificate, consent or similar communication or action hereunder by any party shall, unless otherwise specifically provided, be delivered in writing in accordance with Section 38 (*Notices; Payment Instructions*) and signed by a duly authorized representative of such party.

(k) References to "disbursements of WIFIA Loan proceeds" or similar phrasing shall be construed as meaning the same thing as "paying the purchase price of the WIFIA Bond."

(l) Whenever the Agreement requires a change in principal amount, interest rate or amortization schedule of any WIFIA Loan, it is intended that such change be reflected in the corresponding WIFIA Bond. Whenever there is a prepayment of any WIFIA Loan, it is intended that such prepayment be implemented through a redemption of the corresponding WIFIA Bond.

(m) If any provision of this Agreement (or any other WIFIA Loan Document) conflicts with any provision of a WIFIA Loan Agreement, the provisions of such WIFIA Loan Agreement shall prevail.

ARTICLE II

THE WIFIA LOAN

Section 3. WIFIA Loans for the Master Program.

(a) Subject to the terms and conditions set forth in this Agreement and, with respect to each WIFIA Loan requested pursuant to the terms hereof, the terms and conditions set forth in the relevant WIFIA Loan Agreement, the Borrower may request a WIFIA Loan for a Project under the Master Program to be entered into through the execution of a WIFIA Loan Agreement and the related WIFIA Loan Documents during the Master Availability Period in accordance with this Section. The aggregate of the Maximum Principal Amount of all WIFIA Loans shall not at any time exceed the Master Program Amount. With respect to each WIFIA Loan, (i) the Maximum Principal Amount of such WIFIA Loan, together with the amount of any other credit assistance provided under the Act, shall not exceed forty-nine percent (49%) of reasonably anticipated Eligible Project Costs of the relevant Project and (ii) the total federal assistance for such Project, including but not limited to the Maximum Principal Amount of such WIFIA Loan and all federal grants, shall not exceed eighty percent (80%) of Total Project Costs of such Project.

(b) The number of WIFIA Loans permitted under this Agreement shall be limited to five (5); provided that additional WIFIA Loans may be permitted if requested by the Borrower, subject to the limits set by the Master Program Amount, and further subject to the approval of the WIFIA Lender, which approval shall be in the WIFIA Lender's sole discretion.

(c) With respect to each WIFIA Loan and Project (other than the first WIFIA Loan, which shall be entered into concurrently with the execution and delivery of this Agreement, subject to Section 12(b) (*Conditions Precedent – Conditions Precedent to Effectiveness of each WIFIA Loan Agreement*)), the Borrower may, from time to time after the Effective Date but in any event (x) not more than once every sixty (60) days and (y) no later than one hundred eighty (180) days prior to the end of the Master Availability Period, request that the WIFIA Lender enter into a WIFIA Loan Agreement and related WIFIA Loan Documents in respect of such Project by delivering to the WIFIA Lender a written request in the form of **Exhibit G** (*Form of WIFIA Loan Request*) (a "**WIFIA Loan Request**"), which shall specify the Project to which such WIFIA Loan Request relates, together with (i) a description of the Project, (ii) an estimated Project budget, (iii) the most recent Financial Plan delivered to the WIFIA Lender in accordance with Section 22(a) (*System Financial Planning and Reporting Requirements – Financial Plan*), and (iv) such additional information relating to the Project as may be requested by the WIFIA Lender. For each WIFIA Loan Request submitted in accordance herewith, the WIFIA Lender and the Borrower shall, subject to the terms and conditions set forth herein, promptly and in good faith, negotiate, finalize and enter into the Project Term Sheet, WIFIA Loan Agreement and the other WIFIA Loan Documents for the requested WIFIA Loan.

(d) As of the Effective Date of this Agreement, the WIFIA Lender has administratively reserved sufficient budget authority to make available the Master Program Amount. Notwithstanding the foregoing, the availability of any WIFIA Loan for a Project under the Master Program shall be subject to (i) there being sufficient availability of budgetary

authority at the time the WIFIA Loan Request for such WIFIA Loan is made and (ii) final eligibility and approval of such WIFIA Project and WIFIA Loan, in each case as determined by the WIFIA Lender in accordance with the Act and applicable law.

Section 4. Disbursement Conditions.

(a) WIFIA Loan proceeds shall be disbursed pursuant to a WIFIA Loan Agreement solely in respect of Eligible Project Costs paid or incurred and approved for payment by or on behalf of the Borrower in connection with the applicable Project, including, for the avoidance of doubt, Eligible Project Costs that were initially funded with Interim Financing proceeds. Each Disbursement of a WIFIA Loan shall be made pursuant to the procedures of **Schedule III** (*Requisition Procedures*) and subject to the requirements of this Section 4 and the conditions set forth in Section 12(c) (*Conditions Precedent to All Disbursements*); provided, that no Disbursement of any WIFIA Loan shall be made after the Final Disbursement Date with respect to such WIFIA Loan.

(b) Subject to this Section 4, with respect to each WIFIA Loan, any scheduled Disbursement (as reflected in the applicable Anticipated WIFIA Loan Disbursement Schedule) that remains undrawn as of its scheduled date shall automatically be available for the next scheduled Disbursement date, up to the applicable Final Disbursement Date, with the effect of automatically updating the applicable Anticipated WIFIA Loan Disbursement Schedule (and the corresponding Bond Amortization Schedule) without need for the WIFIA Lender's approval. The Borrower may also amend any Anticipated WIFIA Loan Disbursement Schedule by submitting a revised version thereof to the WIFIA Lender no later than thirty (30) days prior to the proposed effective date of such amendment, together with a detailed explanation of the reasons for such revisions. Such revised Anticipated WIFIA Loan Disbursement Schedule shall become effective upon the WIFIA Lender's approval thereof, which approval shall be deemed granted if the WIFIA Lender has not objected within thirty (30) days from receipt of the revised schedule, and which approval shall have the effect of updating the corresponding Bond Amortization Schedule to reflect the updated Anticipated WIFIA Loan Disbursement Schedule. Notwithstanding the foregoing, the First Disbursement Date of each WIFIA Loan shall not be earlier than the initial date of Disbursement set out in the Anticipated WIFIA Loan Amortization Schedule for such WIFIA Loan as of the applicable WIFIA Loan Agreement Effective Date.

Section 5. Term.

The term of each WIFIA Loan shall extend from the applicable WIFIA Loan Agreement Effective Date to the Final Maturity Date of such WIFIA Loan (and corresponding WIFIA Bond) or to such earlier date as all amounts due or to become due to the WIFIA Lender under such WIFIA Loan Agreement and under such WIFIA Bond have been irrevocably paid in full in immediately available funds.

Section 6. Interest Rate.

Each WIFIA Loan (and corresponding WIFIA Bond) shall bear interest with respect to the applicable Outstanding WIFIA Bond Balance at a fixed rate, calculated on the applicable WIFIA Loan Agreement Effective Date by adding one basis point (0.01%) to the rate

of securities of a similar maturity (based on the weighted-average life of the applicable WIFIA Loan) as published, on the execution date of the applicable WIFIA Loan Agreement, in the United States Treasury Bureau of the Fiscal Service's daily rate table for State and Local Government Series (SLGS) securities, currently located on the Internet at https://www.treasurydirect.gov/GA-SL/SLGS/selectSLGSDate.htm. Commencing on the First Disbursement Date of the applicable WIFIA Loan, interest will accrue and be computed on the applicable Outstanding WIFIA Bond Balance (as well as on any past due interest) from time to time on the basis of a 360-day year of twelve (12) thirty (30) day months, and will be compounded semi-annually on each Semi-Annual Payment Date occurring during the applicable Capitalized Interest Period; provided that, in the event of any Payment Default or any Project Event of Default under the applicable WIFIA Loan Agreement, the Borrower shall pay interest on the applicable Outstanding WIFIA Bond Balance at the Default Rate, (a) in the case of any Payment Default, from (and including) its due date to (but excluding) the date of actual payment and (b), in the case of any Project Event of Default, from (and including) the date of such occurrence until (and excluding) the date such Project Event of Default has been cured in accordance with the terms of this Agreement and the relevant WIFIA Loan Agreement. The WIFIA Lender shall provide written notice to the Borrower and the Trustee of any Payment Default or Project Event of Default, which notice shall specify the effective date of the Default Rate and shall be deemed conclusive absent manifest error; provided that no failure or delay on the part of the WIFIA Lender to provide such notice and no defect in any such notice shall affect in any manner the Borrower's obligations hereunder or under any other WIFIA Loan Document.

Section 7. Outstanding WIFIA Bond Balance; Revisions to Bond Amortization Schedule.

(a) Each Outstanding WIFIA Bond Balance will be (i) increased on each occasion on which the WIFIA Lender disburses loan proceeds under the applicable WIFIA Loan Agreement (commencing with the applicable First Disbursement Date) by the amount of such Disbursement; (ii) increased on each occasion on which interest on such WIFIA Loan is capitalized pursuant to the provisions of Section 9(c) (*Payment of Principal and Interest – Capitalized Interest Period*), by the amount of interest so capitalized; and (iii) decreased upon each payment or prepayment of the Outstanding WIFIA Bond Balance for the applicable WIFIA Bond, by the amount of principal so paid. With respect to each WIFIA Bond, the WIFIA Lender shall, within thirty (30) days following (w) each Disbursement Date, (x) each Semi-Annual Payment Date following the First Disbursement Date, (y) the last day of the Capitalized Interest Period, and (z) each prepayment date (as the case may be), make a notation on the applicable WIFIA Bond of the Outstanding WIFIA Bond Balance as of such applicable date and advise the Borrower and the Trustee by written notice of the amount of the applicable Outstanding WIFIA Bond Balance as of such applicable date, and its determination of such balance in any such notice shall be deemed conclusive absent manifest error; provided that neither the failure to make any such notation or to provide any such notice, nor any delay or error in any such notation or notice shall affect in any manner the Borrower's obligations hereunder or under any other WIFIA Loan Document.

(b) The WIFIA Lender is hereby authorized to modify each Bond Amortization Schedule and the information included in the exhibits to the applicable WIFIA Bond from time to time, in accordance with the principles set forth below in this clause (b) and in clause (c) of this Section to reflect (i) any change to the Outstanding WIFIA Bond Balance for

the applicable WIFIA Bond, (ii) any change to the date and amount of any principal or interest due and payable or to become due and payable by the Borrower under the corresponding WIFIA Loan Agreement, and (iii) such other administrative information as the WIFIA Lender may determine is necessary for administering such WIFIA Loan or such WIFIA Loan Agreement. Any calculations described above shall be rounded up to the nearest whole cent. Any partial prepayments of any Outstanding WIFIA Bond Balance pursuant to Section 10 (*Prepayment*) shall be applied in accordance with Section 10(e) (*Prepayment – General Prepayment Instructions*). Absent manifest error, the WIFIA Lender's determination of such matters as set forth on any Bond Amortization Schedule and in the exhibits to the corresponding WIFIA Bond shall be conclusive evidence thereof; provided that neither the failure to make any such recordation nor any error in any such recordation shall affect in any manner the Borrower's obligations hereunder or under any other WIFIA Loan Document. The WIFIA Lender shall provide the Borrower and the Trustee with notification of each Outstanding WIFIA Bond Balance pursuant to clause (a) of this Section 7 (*Outstanding WIFIA Bond Balance; Revisions to Bond Amortization Schedule*), as well as a copy of the corresponding Bond Amortization Schedule as revised, but no failure to provide or delay in providing the Borrower or the Trustee with such copy shall affect any of the obligations of the Borrower under this Agreement or the other WIFIA Loan Documents.

(c) The Dollar amounts set forth in each Bond Amortization Schedule, as of the applicable WIFIA Loan Agreement Effective Date, shall be determined based on the Anticipated WIFIA Loan Disbursement Schedule in effect on such WIFIA Loan Agreement Effective Date. Such Dollar amounts are therefore subject to change in connection with a modification of such Bond Amortization Schedule. Any such change shall be consistent with the percentages of principal payments set forth in such Bond Amortization Schedule as of such WIFIA Loan Agreement Effective Date, as specified in clause (ii) of Section 9(d) (*Payment of Principal and Interest – Payment of WIFIA Debt Service*) and subject to adjustment only as expressly provided in clause (iii) of Section 9(d) (*Payment of Principal and Interest – Payment of WIFIA Debt Service*).

Section 8. Security and Priority; Flow of Funds.

(a) As security for each WIFIA Bond, the Borrower has in the Indenture irrevocably pledged all of the Net System Revenues to the punctual payment of the principal of and interest and redemption premium, if any, on the Bonds (including each WIFIA Bond) and the other Parity Obligations. The Borrower affirms such pledge under this Agreement. Each WIFIA Bond shall be secured at all times in right of payment and right of security on a parity with all other Bonds issued under the Indenture, including any Additional Bonds, and other Parity Obligations. As security for the payment of all other obligations under this Agreement and each WIFIA Loan Agreement not evidenced by the WIFIA Bonds, including the Borrower's indemnification obligations pursuant to Section 17 (*Indemnification*), the Borrower hereby irrevocably pledges all of the Net System Revenues on a subordinate basis after payment of all Parity Obligations. All payment obligations of the Borrower are subject to the limitations specified in Section 11.01 of the Indenture.

(b) Except (i) for Permitted Liens, or (ii) to the extent otherwise provided in clause (a) of this Section 8 (*Security and Priority; Flow of Funds*), the Net System Revenues will

be free and clear of any pledge, Lien, charge or encumbrance thereon or with respect thereto, of equal rank with or senior to the pledge of the Borrower created under the Indenture Documents for the benefit of the WIFIA Lender, and all organizational, regulatory or other necessary action on the part of the Borrower with respect to the foregoing has been duly and validly taken; provided that, in accordance with each corresponding WIFIA Supplemental Indenture, each Disbursement will require the certificates and the opinion of bond counsel to the Borrower specified in Section 12(c)(viii) (*Conditions Precedent – Conditions Precedent to All Disbursements*).

(c) The Borrower shall not use System Revenues to make any payments or satisfy any obligations other than in accordance with the provisions of this Section 8 (*Security and Priority; Flow of Funds*) and the Indenture Documents and shall not apply any portion of the System Revenues in contravention of this Agreement or the Indenture Documents.

(d) The Indenture provides that all System Revenues shall be deposited in the Revenue Fund and that all moneys in the Revenue Fund, including earnings thereon, shall be appropriated, transferred, expended or used for the following purposes, and only in accordance with the following priority:

(i) the payment of Operations and Maintenance Expenses;

(ii) the payment of Bonds (including the WIFIA Bonds), Parity Loans, and other Parity Obligations, including amounts due as reimbursement under any Letter of Credit Agreement, as provided in Article V of the Indenture and, as applicable, any Supplemental Indenture; and

(iii) any other lawful purpose of the Borrower.

Section 9. Payment of Principal and Interest.

(a) Payment Dates. For each WIFIA Bond, the Borrower agrees to pay the principal of and interest on such WIFIA Bond by making payments in accordance with the provisions of this Agreement, the applicable WIFIA Loan Agreement and the Indenture Documents on each Semi-Annual Payment Date, beginning on the applicable Debt Service Payment Commencement Date, and on each other date on which payment thereof is required to be made under any applicable WIFIA Loan Document (including the applicable Final Maturity Date and any date on which payment is due by reason of the acceleration of the maturity of a WIFIA Bond or otherwise); provided that if any such date is not a Business Day, payment shall be made on the next Business Day following such date.

(b) Interest Commencement Date. With respect to each WIFIA Bond, interest shall accrue and be payable only on those amounts for which a Requisition has been submitted and funds (or such portion of funds as have been approved by WIFIA Lender) have been made available to the Borrower for use on the applicable Project in accordance with Section 4 (*Disbursement Conditions*). Interest on amounts capitalized pursuant to the following Section 9(c) (*Payment of Principal and Interest – Capitalized Interest Period*) shall commence on the date such interest is added to the principal balance of the applicable WIFIA Bond during the applicable Capitalized Interest Period.

(c) Capitalized Interest Period. No payment of the principal of or interest on a WIFIA Bond is required to be made during the Capitalized Interest Period applicable to such WIFIA Bond. On each Semi-Annual Payment Date occurring during the Capitalized Interest Period applicable to a WIFIA Bond, interest accrued on such WIFIA Bond in the six (6) month period ending immediately prior to such date, including both interest accrued on the applicable Outstanding WIFIA Bond Balance as of the prior Semi-Annual Payment Date and interest accrued on any Disbursement during such period with respect to such WIFIA Bond, shall be capitalized and added to the applicable Outstanding WIFIA Bond Balance. For the avoidance of doubt, the interest in respect of the last day of the Capitalized Interest Period will not be capitalized but will be payable on the applicable Debt Service Payment Commencement Date, together with all interest accrued in respect of the initial Payment Period. Notwithstanding the foregoing, each Capitalized Interest Period shall end immediately upon written notification to the Borrower and the Trustee by the WIFIA Lender that a System Event of Default or a Project Event of Default has occurred under the applicable WIFIA Loan Agreement, in which case the provisions of this Section shall no longer apply with respect to the corresponding WIFIA Bond and payments of principal and interest shall be currently due and payable in accordance with the terms hereof and interest shall no longer be capitalized. For purposes of this subsection, a System Event of Default under clause (v) of Section 19(a) (*System Events of Default and Remedies – Cross Default with Financing Documents*) shall be deemed to have occurred upon the occurrence of any nonpayment of principal of, interest on, or redemption price of any Parity Obligations when due, regardless of whether the holders of the applicable Parity Obligations or the Trustee for the applicable Parity Obligations, or any legal order, has waived, permitted deferral of, or forgiven any such payment.

(d) Payment of WIFIA Debt Service.

(i) During the Interest Only Period applicable to a WIFIA Bond, the WIFIA Debt Service payable by the Borrower with respect to such WIFIA Bond shall consist of one hundred percent (100%) of the amount of interest then due and payable on the applicable Outstanding WIFIA Bond Balance, and no payment of principal will be due and payable. Such payments shall be made in accordance with Section 9(e) (*Payment of Principal and Interest – Manner of Payment*).

(ii) On each Semi-Annual Payment Date occurring after the Interest Only Period applicable to a WIFIA Bond, the Borrower shall pay the WIFIA Debt Service with respect to such WIFIA Bond in the amounts set forth in respect of such Semi-Annual Payment Date on the corresponding Bond Amortization Schedule, as the same may be revised as provided in Section 7 (*Outstanding WIFIA Bond Balance; Revisions to Bond Amortization Schedule*), which payments shall be made in accordance with Section 9(e) (*Payment of Principal and Interest – Manner of Payment*). The schedule of WIFIA Debt Service payments set forth on each Bond Amortization Schedule shall be calculated by the WIFIA Lender as of the last day of the applicable Capitalized Interest Period such that after the applicable Debt Service Payment Commencement Date, subject to the provisions of this Section 9(d) (*Payment of Principal and Interest – Payment of WIFIA Debt Service*), there shall be payable with respect to the applicable WIFIA Bond semi-annual payments of principal and semiannual payments of interest in order for the corresponding Outstanding WIFIA Bond Balance to

be reduced to $0 on the applicable Final Maturity Date (assuming that interest accrues during such period on the principal balance of such WIFIA Bond at the rate per annum set forth in Section 6 (*Interest Rate*) of the applicable WIFIA Loan Agreement, that all WIFIA Debt Service payments are made in a timely manner during such period, and that no additional payments of principal of or interest on such WIFIA Bond are made during such period); provided that there shall be due and payable on the applicable Final Maturity Date of each WIFIA Bond all amounts of principal and interest not otherwise paid pursuant to the provisions of this Agreement, the applicable WIFIA Loan Agreement and the applicable WIFIA Bond. On each Semi-Annual Payment Date occurring after the Interest Only Period applicable to a WIFIA Bond, the Borrower shall pay the principal amount corresponding to such date as shown in the corresponding Bond Amortization Schedule, and each such principal amount shall, subject to Section 10(e) (*Prepayment – General Prepayment Instructions*), be calculated to equal the product of the Outstanding WIFIA Bond Balance (as of the end of the Capitalized Interest Period applicable to such WIFIA Bond) multiplied by the percentage set forth for such Semi-Annual Payment Date on the corresponding Bond Amortization Schedule.

(iii) If the Final Maturity Date with respect to a WIFIA Bond is determined to be earlier than the calendar date specified for the definition of Final Maturity Date in the applicable WIFIA Loan Agreement, the percentages shown on the corresponding Bond Amortization Schedule shall be amended so that the percentage allocated to any Semi-Annual Payment Date following the earlier Final Maturity Date will be allocated pro-rata among the Semi-Annual Payment Dates occurring after the Interest Only Period and prior to the earlier Final Maturity Date, and such calculations shall be included in the WIFIA Lender's calculation of WIFIA Debt Service for the applicable WIFIA Bond pursuant to clause (ii) of this Section 9(d) (*Payment of Principal and Interest – Payment of WIFIA Debt Service*) and reflected in a modified Bond Amortization Schedule pursuant to Section 7 (*Outstanding WIFIA Bond Balance; Revisions to Bond Amortization Schedule*).

(iv) The Borrower shall calculate the amortization requirements for each WIFIA Loan (i.e., the Minimum Sinking Fund Account Payments (as defined in the Indenture) required to be made on the applicable WIFIA Bond) and provide such calculations in the form of an amended Minimum Sinking Fund Account Payment Schedule (as defined in the applicable WIFIA Supplemental Indenture) to the WIFIA Lender in accordance with the applicable WIFIA Supplemental Indenture. The WIFIA Lender will promptly review and confirm or correct the calculations made by the Borrower, and reflect such final amounts (as approved by the WIFIA Lender) on exhibit B-2 of the applicable WIFIA Bond and the corresponding Bond Amortization Schedule; provided that the failure to confirm or correct such calculations or to make any such revisions shall not affect in any manner the Borrower's obligations hereunder or under any other WIFIA Loan Document.

(e) Manner of Payment. Payments under the WIFIA Loan Agreements (and the corresponding WIFIA Bonds, which payments shall not be duplicative) shall be made by wire transfer on or before each Semi-Annual Payment Date in Dollars and in immediately available funds in accordance with payment instructions provided by the WIFIA Lender pursuant

to Section 38 (*Notices; Payment Instructions*), as modified in writing from time to time by the WIFIA Lender. The Borrower may make any such payment or portion thereof (or direct the Trustee to make such payment) with funds then on deposit in the Interest Fund and/or Principal Fund, as applicable.

(f) Final Maturity Date. Notwithstanding anything herein to the contrary, each Outstanding WIFIA Bond Balance and any accrued interest thereon shall be due and payable in full on the applicable Final Maturity Date (or on any earlier date on which such WIFIA Bond is subject to mandatory redemption prior to maturity thereof or shall be accelerated, in either case pursuant to the provisions of this Agreement and the Indenture).

(g) WIFIA Bond. As evidence of the Borrower's obligation to repay each WIFIA Loan, the Borrower shall issue and deliver to the WIFIA Lender, on or prior to the applicable WIFIA Loan Agreement Effective Date, a WIFIA Bond, having the Maximum Principal Amount specified in the WIFIA Loan Agreement for such WIFIA Bond, bearing interest at the applicable WIFIA Interest Rate and having principal and interest payable on the same dates set forth in the corresponding Bond Amortization Schedule. Without limiting any other obligation under this Agreement, in the event of any inconsistency between the payment provisions of a WIFIA Bond as set forth in the applicable WIFIA Supplemental Indenture, including such WIFIA Bond, and the payment provisions set forth in this Section 9 (*Payment of Principal and Interest*) and in Section 10 (*Prepayment*), the provisions of the WIFIA Supplemental Indenture and the WIFIA Bond shall control.

(h) No Defeasance. Anything to the contrary in the Indenture Documents notwithstanding, no WIFIA Bond shall be subject to defeasance and no amounts in respect of any WIFIA Bond shall be considered or deemed to have been paid until the WIFIA Lender shall have received irrevocable payment in immediately available funds in accordance with the requirements for payment set forth in this Agreement and the applicable WIFIA Loan Agreement.

Section 10. Prepayment.

(a) Extraordinary Prepayment From Net Loss Proceeds. The Borrower shall prepay each WIFIA Bond in whole or in part, without penalty or premium, from Net Loss Proceeds in accordance with Section 6.20 of the Indenture and the applicable WIFIA Supplemental Indenture.

(b) Notice of Extraordinary Prepayment. The Borrower shall provide, or shall cause the Trustee to provide, written notice to the WIFIA Lender at least two (2) Business Days prior to the date on which it makes any prepayment pursuant to Section 10(a) (*Prepayment – Extraordinary Prepayment from Net Loss Proceeds*); provided that the Borrower's failure to deliver such notice shall not diminish, impair or otherwise affect the Borrower's obligation to make any such prepayment as and when the circumstances requiring such prepayment have occurred.

(c) Optional Prepayments. After the Final Disbursement Date for a WIFIA Loan, the Borrower may prepay the corresponding WIFIA Bond in whole or in part (and, if in

part, the amounts thereof to be prepaid shall be determined by the Borrower; provided, however, that such prepayments shall be in principal amounts of $1,000,000 or any integral multiple of $1.00 in excess thereof), from time to time but not more than once annually, without penalty or premium, by paying to the WIFIA Lender such principal amount of the WIFIA Bond to be prepaid, together with the unpaid interest accrued on the amount of principal so prepaid to the date of such prepayment, which shall be a Semi-Annual Payment Date unless otherwise agreed by the WIFIA Lender. Each prepayment of a WIFIA Bond shall be made on such date and in such principal amount as shall be specified by the Borrower in a written notice delivered to the WIFIA Lender and the Trustee. In the case of any optional prepayment, such written notice shall be delivered to the WIFIA Lender not less than ten (10) days nor more than thirty (30) days prior to the date set for prepayment, unless otherwise agreed by the WIFIA Lender. At any time between delivery of such written notice and the applicable optional prepayment, the Borrower may, without penalty or premium, rescind its announced optional prepayment of a WIFIA Bond by further written notice to the WIFIA Lender. Anything in this Section 10(c) (*Prepayment – Optional Prepayments*) to the contrary notwithstanding, the failure by the Borrower to make any optional prepayment on any WIFIA Bond shall not constitute a breach or default under this Agreement or the applicable WIFIA Loan Agreement.

(d) Prepayments to be in Accordance With Indenture. Each prepayment of a WIFIA Bond pursuant to this Section 10 (*Prepayment*) shall be effected pursuant to Article IV of the Indenture (as applicable) and the applicable WIFIA Supplemental Indenture, and shall be accompanied by a certificate signed by the Borrower's Authorized Representative identifying the provision of this Agreement pursuant to which such prepayment is being made and containing a calculation in reasonable detail of the amount of such prepayment. The terms and conditions of this Section 10 (*Prepayment*) shall be reflected in each WIFIA Bond and each WIFIA Supplemental Indenture.

(e) General Prepayment Instructions. Upon the WIFIA Lender's receipt of confirmation that payment in full of the entire Outstanding WIFIA Bond Balance with respect to any WIFIA Bond and any unpaid interest and fees with respect thereto has occurred as a result of a mandatory or optional prepayment, the WIFIA Lender shall surrender such WIFIA Bond to the Borrower or the Trustee or its representative at the principal office of the WIFIA Lender or the Trustee, as applicable. If the Borrower prepays only part of the unpaid balance of principal of any WIFIA Bond, the WIFIA Lender may make a notation on the corresponding Bond Amortization Schedule indicating the amount of principal of and interest on such WIFIA Bond then being prepaid and shall provide notice of such notation to the Borrower and the Trustee. Absent manifest error, the WIFIA Lender's determination of such matters as set forth on such Bond Amortization Schedule shall be conclusive evidence thereof; provided that neither the failure to make any such recordation nor any error in such recordation shall affect in any manner the Borrower's obligations hereunder or under any other WIFIA Loan Document. Unless otherwise agreed in writing by the WIFIA Lender, all such partial prepayments of principal shall be applied to reduce future principal payments due on the applicable WIFIA Bond on a pro-rata basis. If said monies shall not have been so paid on the prepayment date, such principal amount of such WIFIA Bond shall continue to bear interest until payment thereof at the rate provided for in the applicable WIFIA Loan Agreement.

Section 11. [Intentionally Omitted].

ARTICLE III

CONDITIONS PRECEDENT

Section 12. Conditions Precedent.

(a) Conditions Precedent to Effectiveness. Notwithstanding anything in this Agreement to the contrary, this Agreement shall not become effective until each of the following conditions precedent shall have been satisfied or waived in writing by the WIFIA Lender:

(i) The Borrower shall have duly executed and delivered to the WIFIA Lender this Agreement in form and substance satisfactory to the WIFIA Lender.

(ii) To the extent not previously delivered to the WIFIA Lender, the Borrower shall have delivered to the WIFIA Lender certified, complete, and fully executed copies of each Indenture Document, together with any amendments, waivers or modifications thereto, in each case that has been entered into on or prior to the Effective Date, and each such agreement shall be in full force and effect (except to the extent it is no longer in full force and effect by its own terms) and in form and substance satisfactory to the WIFIA Lender, and all conditions contained in such documents to the closing of the transactions contemplated thereby shall have been fulfilled or effectively waived (provided that for purposes of this Section 12(a)(ii), any such waiver shall be subject to the WIFIA Lender's consent in its sole discretion).

(iii) Counsel to the Borrower shall have rendered to the WIFIA Lender legal opinions satisfactory to the WIFIA Lender in its sole discretion (including those opinions set forth on **Exhibit F-1** (*Opinions Required from Counsel to Borrower*)) and bond counsel to the Borrower shall have rendered to the WIFIA Lender legal opinions satisfactory to the WIFIA Lender in its sole discretion (including those opinions set forth on **Exhibit F-2** (*Opinions Required from Bond Counsel*)).

(iv) The Borrower shall have delivered to the WIFIA Lender a certificate from an Authorized Representative in the form attached hereto as **Exhibit H-1** (*Form of Closing Certificate*) (the "**Closing Certificate**") (A) designating the Borrower's Authorized Representative and confirming such person's position and incumbency and (B) certifying as to the satisfaction of the following conditions precedent (and, if requested by the WIFIA Lender, shall have provided evidence satisfactory to the WIFIA Lender of such satisfaction):

(A) the Borrower has (1) obtained a Federal Employer Identification Number, (2) obtained a UEI, and (3) registered with, and obtained confirmation of active registration status from, the federal System for Award Management (www.SAM.gov);

(B) the representations and warranties of the Borrower set forth in this Agreement (including Section 13 (*Representations and Warranties of Borrower*)) and in each other Related Document shall be true and correct, as of the Effective Date, except to the extent such representations and warranties expressly relate to

an earlier date (in which case, such representations and warranties shall be true and correct as of such earlier date); and

(C) no Material Adverse Effect, or any event or condition that could reasonably be expected to have a Material Adverse Effect, has occurred or arisen since the date of the Application.

(v) The Borrower shall have delivered to the WIFIA Lender a certified Base Case Financial Model on or prior to the Effective Date, which Base Case Financial Model shall (A) demonstrate that projected System Revenues are sufficient to meet the projected debt service with respect to the Master Program Amount, (B) demonstrate that issuance of each anticipated WIFIA Bond will satisfy all Indenture requirements for the issuance of Additional Bonds, (C) demonstrate compliance with the Rate Covenant for each Borrower Fiscal Year through the Forecast Period, and otherwise be in form and substance acceptable to the WIFIA Lender.

(vi) The Borrower shall have paid in full all invoices delivered by the WIFIA Lender to the Borrower as of the Effective Date for the fees and expenses of the WIFIA Lender's counsel and financial advisors and any auditors or other consultants retained by the WIFIA Lender for the purposes hereof.

(vii) The Borrower shall have provided to the WIFIA Lender evidence that the Borrower is duly organized and validly existing under the laws of its jurisdiction of formation, with full power, authority and legal right to own its properties and carry on its business and governmental functions as now conducted, including a copy of the Borrower's Organizational Documents, as in effect on the Effective Date (and certified by the Borrower's Authorized Representative), which Organizational Documents shall be in full force and effect and shall not have been amended since the date of the last amendment thereto shown on the certificate.

(viii) The Borrower shall have duly adopted a resolution authorizing the execution and delivery by the Borrower of this Agreement, in form and substance satisfactory to the WIFIA Lender, and such resolution shall remain in full force and effect.

(ix) The Borrower shall have delivered to the WIFIA Lender a copy of the Borrower's most recent ten (10)-year financial plan for the System.

(x) The Borrower shall have delivered such other agreements, documents, instruments, opinions and other items required by the WIFIA Lender, all in form and substance satisfactory to the WIFIA Lender, including evidence that all other Master Program funding requirements have been met.

(b) Conditions Precedent to Effectiveness of Each WIFIA Loan Agreement. Notwithstanding anything in this Agreement or any other WIFIA Loan Document to the contrary, no WIFIA Loan Agreement for a Project shall become effective until each of the following conditions precedent has been satisfied or waived in writing by the WIFIA Lender in its sole discretion:

(i) The Borrower shall have duly executed and delivered to the WIFIA Lender (A) except with respect to the initial WIFIA Loan Agreement entered into concurrently with the execution and delivery of this Agreement, a WIFIA Loan Request that complies with the provisions of Section 3(c) (*WIFIA Loans for the Master Program*), (B) a Project Term Sheet with respect to the applicable Project and WIFIA Loan and (C) the WIFIA Loan Agreement, WIFIA Bond and WIFIA Supplemental Indenture with respect to such Project and WIFIA Loan, in each case in form and substance satisfactory to the WIFIA Lender.

(ii) The Borrower shall have delivered to the WIFIA Lender complete and fully executed copies of each Existing Principal Project Contract with respect to the applicable Project, together with any amendments, waivers or modifications thereto, along with a certification in the applicable Project Closing Certificate that each such document is complete, fully executed and in full force and effect.

(iii) To the extent not previously delivered to the WIFIA Lender, the Borrower shall have delivered to the WIFIA Lender copies of any Indenture Document entered into after the Effective Date, along with a certification in the applicable Project Closing Certificate that each such document is complete, fully executed and in full force and effect (except to the extent it is no longer in full force and effect by its terms).

(iv) The Borrower shall have duly adopted an ordinance and a resolution authorizing the issuance of the WIFIA Bond with respect to the applicable Project and WIFIA Loan and execution and delivery by the Borrower of the WIFIA Loan Agreement and WIFIA Supplemental Indenture with respect to such Project and WIFIA Loan, and pledging the security set forth in the WIFIA Loan Agreement, WIFIA Bond and WIFIA Supplemental Indenture with respect to such Project and WIFIA Loan, in form and substance satisfactory to the WIFIA Lender, and such ordinance and resolution shall remain in full force and effect.

(v) Counsel to the Borrower shall have delivered to the WIFIA Lender legal opinions satisfactory to the WIFIA Lender in its sole discretion (including those opinions set forth in **Exhibit F-1** (*Opinions Required from Counsel to Borrower*)) and bond counsel to the Borrower shall have delivered to the WIFIA Lender legal opinions satisfactory to the WIFIA Lender in its sole discretion (including those opinions set forth in **Exhibit F-2** (*Opinions Required from Bond Counsel*)), in each case for the relevant Project.

(vi) The Borrower shall have delivered to the WIFIA Lender a duly executed certificate from the Trustee in the form attached to the applicable WIFIA Loan Agreement as **Exhibit B** (*Form of Certificate of Trustee*).

(vii) The Borrower shall have delivered to the WIFIA Lender a Project Budget for the relevant Project.

(viii) The Borrower shall have delivered to the WIFIA Lender a Project Closing Certificate with respect to the relevant Project, signed by the Borrower's

Authorized Representative, substantially in the form attached hereto as **Exhibit H-2** (*Form of Project Closing Certificate*) (a "**Project Closing Certificate**") (A) confirming that the Borrower's Authorized Representative previously designated and such person's position and incumbency as previously provided to the WIFIA Lender remain unchanged and in full force and effect (or if changed, designating such new Borrower's Authorized Representative and confirming such person's position and incumbency, in form and substance satisfactory to the WIFIA Lender) and (B) certifying as to the satisfaction of the following conditions precedent (and, if requested by the WIFIA Lender, shall have provided evidence satisfactory to the WIFIA Lender of such satisfaction):

(A) as of the applicable WIFIA Loan Agreement Effective Date, (1) the Maximum Principal Amount of the relevant WIFIA Loan, together with the amount of any other credit assistance provided under the Act to the Borrower, does not exceed forty-nine percent (49%) of the reasonably anticipated Eligible Project Costs for such Project and (2) the total federal assistance provided to such Project, including the Maximum Principal Amount of the relevant WIFIA Loan, does not exceed eighty percent (80%) of Total Project Costs for such Project;

(B) except as set forth in **Schedule 13(r)** (*Environmental Matters*) of the applicable WIFIA Loan Agreement, the Borrower is in compliance with NEPA and any applicable federal, state or local environmental review and approval requirements with respect to such Project, and the NEPA Determination with respect to the Project shall not have been withdrawn or materially amended;

(C) the Borrower has maintained (1) the Federal Employer Identification Number provided to the WIFIA Lender as a condition precedent to the Effective Date, (2) the UEI provided to the WIFIA Lender as a condition precedent to the Effective Date and (3) an active registration status with the federal System for Award Management (www.SAM.gov);

(D) the Borrower has obtained a CUSIP number for the applicable WIFIA Loan for purposes of monitoring through EMMA;

(E) the representations and warranties of the Borrower set forth in the relevant WIFIA Loan Agreement and in each other WIFIA Loan Document to which the Borrower is a party are true and correct on and as of the WIFIA Loan Agreement Effective Date, except to the extent that such representations and warranties expressly relate to an earlier date, in which case such representations and warranties were true and correct as of such earlier date;

(F) the Borrower's Organizational Documents remain in full force and effect, and no amendments or modifications have been made to the Organizational Documents since the Effective Date that have not been delivered to the WIFIA Lender;

(G) no Material Adverse Effect, or any event or condition that could reasonably be expected to have a Material Adverse Effect, has occurred or arisen since the Effective Date; and

(H) as of the relevant WIFIA Loan Agreement Effective Date, (1) no System Event of Default or Project Event of Default hereunder or event of default under any other Related Document shall have occurred and be continuing and (2) no event that, with the giving of notice or the passage of time or both, would constitute a System Event of Default or a Project Event of Default hereunder or an event of default under any Related Document, in each case, shall have occurred and be continuing.

(ix) The Borrower shall have provided evidence to the WIFIA Lender's satisfaction of the assignment by at least one (1) Nationally Recognized Rating Agency of an Investment Grade Rating on the applicable WIFIA Loan, along with a certification in the Project Closing Certificate that no such rating has been reduced, withdrawn or suspended as of the applicable WIFIA Loan Agreement Effective Date.

(x) The Borrower shall have delivered to the WIFIA Lender the most recent Financial Plan in compliance with the requirements of Section 22(a) (*System Financial Planning and Reporting – Financial Plan*).

(xi) The Borrower shall have delivered to the WIFIA Lender a Public Benefits Report with respect to the applicable Project.

(xii) The Borrower shall have delivered to the WIFIA Lender the Borrower's Financial Statements for the most recent Borrower Fiscal Year for which such Financial Statements are available.

(xiii) To the extent not previously paid, the Borrower shall have paid in full (A) any outstanding Servicing Fees due and payable under Section 30 (*Fees and Expenses*) and (B) all invoices delivered by the WIFIA Lender to the Borrower on or prior to the relevant WIFIA Loan Agreement Effective Date for the fees and expenses of the WIFIA Lender's counsel and financial advisors and any auditors or other consultants retained by the WIFIA Lender for the purposes of the WIFIA Loan Documents.

(xiv) The Borrower shall have delivered such other agreements, documents, instruments, opinions and other items required by the WIFIA Lender, all in form and substance satisfactory to the WIFIA Lender.

(c) Conditions Precedent to All Disbursements. Notwithstanding anything in this Agreement or any other WIFIA Loan Document to the contrary, the WIFIA Lender shall have no obligation to make any Disbursement with respect to any WIFIA Loan to the Borrower until each of the following conditions precedent with respect to such WIFIA Loan has been satisfied or waived in writing by the WIFIA Lender:

(i) The Borrower shall have delivered to the WIFIA Lender a Requisition that complies with the provisions of Section 4 (*Disbursement Conditions*),

Schedule III (*Requisition Procedures*) and **Exhibit B** (*Form of Requisition*), including satisfactory Eligible Project Costs Documentation relating to such Requisition. The Borrower's Authorized Representative shall also certify in such Requisition that:

(A) at the time of, and immediately after giving effect to, any Disbursement then currently requested, (1) no System Event of Default or Project Event of Default hereunder or event of default under any other Related Document shall have occurred and be continuing and (2) no event that, with the giving of notice or the passage of time or both, would constitute a System Event of Default or a Project Event of Default hereunder or event of default under any Related Document, in each case, shall have occurred and be continuing;

(B) the Borrower, and each of its contractors and subcontractors at all tiers with respect to the relevant Project, has complied with all applicable laws, rules, regulations and requirements, including 40 U.S.C. §§3141-3144, 3146, and 3147 (relating to Davis-Bacon Act requirements) (and regulations relating thereto) and 33 U.S.C. §3914 (relating to American iron and steel products. Supporting documentation, such as certified payroll records and certifications for all iron and steel products used for the relevant Project, are being maintained and are available for review upon request by the WIFIA Lender;

(C) the representations and warranties of the Borrower set forth in this Agreement (including Section 13 (*Representations and Warranties of Borrower*)) and in each other Related Document shall be true and correct as of each date on which any Disbursement of the applicable WIFIA Loan is made, except to the extent such representations and warranties expressly relate to an earlier date (in which case, such representations and warranties shall be true and correct as of such earlier date); provided that, to the extent necessary to make the corresponding representation and warranty true and complete as of the relevant Disbursement Date, the Borrower shall have delivered updated versions of **Schedule 13(f)** (*Litigation*) and **Schedule 13(r)** (*Environmental Matters*) of the applicable WIFIA Loan Agreement in form and substance satisfactory to the WIFIA Lender in its sole discretion;

(D) no Material Adverse Effect, or any event or condition that could reasonably be expected to result in a Material Adverse Effect, shall have occurred since the applicable WIFIA Loan Agreement Effective Date;

(E) the aggregate amount of all Disbursements of such WIFIA Loan (including the requested Disbursement but excluding any interest that is capitalized in accordance with the terms hereof and of the relevant WIFIA Loan Agreement) will not exceed (1) the Maximum Principal Amount of such WIFIA Loan, or (2) the aggregate amount of the Eligible Project Costs with respect to the applicable Project paid or incurred by the Borrower;

(F) the Eligible Project Costs with respect to the applicable Project for which reimbursement or payment is being requested has not been reimbursed or

paid by any previous Disbursement of (1) such WIFIA Loan or (2) any other source of funding for such Project (other than any Interim Financing or cash of the Borrower) as identified in the Project Budget for such Project;

(G) Eligible Project Costs Documentation evidencing Eligible Project Costs in an amount equal to the amount requested for such Disbursement, either (1) has been previously submitted to and approved by the WIFIA Lender in accordance with **Schedule III** (*Requisition Procedures*) and Section 23(c) (*Project Oversight and Monitoring – Quarterly Certification of Eligible Project Costs*) of this Agreement or (2) has been submitted to the WIFIA Lender, together with a summary of such Eligible Project Costs in the Requisition (or attached separately to the Requisition), for approval by the WIFIA Lender; and

(H) the Borrower has delivered all required deliverables under and in compliance with the requirements of Section 22 (*System Financial Planning and Reporting*) and Section 23 (*Project Oversight and Monitoring*), except as has been otherwise agreed by the WIFIA Lender.

(ii) To the extent not previously delivered to the WIFIA Lender, the Borrower shall have delivered to the WIFIA Lender certified, complete and fully executed copies of any Indenture Documents entered into after the applicable WIFIA Loan Agreement Effective Date.

(iii) To the extent not previously delivered to the WIFIA Lender and except as otherwise agreed to by the WIFIA Lender pursuant to Section 15(b) (*Affirmative Covenants – Copies of Documents*), the Borrower shall have provided fully executed copies of all Principal Project Contracts with respect to the applicable Project that are in effect, including, in each case, any amendment, modification or supplement thereto entered into after the applicable WIFIA Loan Agreement Effective Date.

(iv) The Borrower shall have paid in full (A) any outstanding Servicing Fee due and payable under Section 30 (*Fees and Expenses*) and (B) all invoices received from the WIFIA Lender as of the date of Disbursement of the relevant WIFIA Loan, for the fees and expenses of the WIFIA Lender's counsel and financial advisors and any auditors or other consultants retained by the WIFIA Lender for the purposes hereof.

(v) The Borrower shall have provided to the WIFIA Lender (A) certificates delivered to the Trustee pursuant to the relevant WIFIA Supplemental Indenture demonstrating, with respect to the requested Disbursement, compliance with Section 3.08 of the Indenture, and (B) an opinion of bond counsel to the Borrower, in form and substance satisfactory to the WIFIA Lender, as to the matters specified in the relevant WIFIA Supplemental Indenture, including that all conditions precedent under the Indenture Documents to the making of the requested Disbursement, as contemplated hereunder and under the relevant WIFIA Bond, have been satisfied.

ARTICLE IV

REPRESENTATIONS AND WARRANTIES

Section 13. Representations and Warranties of Borrower.

The Borrower hereby represents and warrants that, as of the Effective Date (other than with respect to the representations and warranties contained in Section 13(k) (*Representations and Warranties of Borrower – Credit Ratings*), Section 13(n) (*Representations and Warranties of Borrower – Principal Project Contracts*), Section 13(r) (*Representations and Warranties – Environmental Matters*) and Section 13(gg) (*Representations and Warranties of Borrower – Operations and Maintenance Plan*)), as of each WIFIA Loan Agreement Effective Date and, as to each of the representations and warranties below other than those contained in Section 13(b) (*Representations and Warranties of Borrower – Officer's Authorization*) Section 13(k) (*Representations and Warranties of Borrower – Credit Ratings*), the first sentence of Section 13(f) (*Representations and Warranties of Borrower – Litigation*), and the first sentence of Section 13(n) (*Representations and Warranties of Borrower – Principal Project Contracts*), as of each date on which any Disbursement is requested or made:

(a) Organization; Power and Authority. The Borrower is a commission duly constituted under the Charter and the laws of the State, has full legal right, power and authority to do business in the State and to enter into the Related Documents then in existence, to execute and deliver this Agreement and the WIFIA Bond, and to carry out and consummate all transactions contemplated hereby and thereby and has duly authorized the execution, delivery and performance of this Agreement, the WIFIA Bond, and the Related Documents.

(b) Officers' Authorization. As of the Effective Date and as of each WIFIA Loan Agreement Effective Date, the officers of the Borrower executing (or that previously executed) the Related Documents, and any certifications or instruments related thereto, to which the Borrower is a party are (or were at the time of such execution) duly and properly in office and fully authorized to execute the same.

(c) Due Execution; Enforceability. Each of the Related Documents in effect as of any date on which this representation and warranty is made, and to which the Borrower is a party has been duly authorized, executed and delivered by the Borrower and constitutes the legal, valid and binding agreement of the Borrower enforceable in accordance with its terms, except as such enforceability (i) may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or similar laws affecting the rights of creditors generally and (ii) is subject to general principles of equity (regardless of whether enforceability is considered in equity or at law).

(d) Non-Contravention. The execution and delivery of the Related Documents to which the Borrower is a party, the consummation of the transactions contemplated by the Related Documents, and the fulfillment of or compliance with the terms and conditions of all of the Related Documents, will not (i) conflict with the Borrower's Organizational Documents, (ii) conflict in any material respect with, or constitute a violation, breach or default (whether immediately or after notice or the passage of time or both) by the Borrower of or under, any applicable law, administrative rule or regulation, any applicable court or administrative

decree or order, or any indenture, mortgage, deed of trust, loan agreement, lease, contract or other agreement or instrument to which the Borrower is a party or by which it or its properties or assets are otherwise subject or bound, or (iii) result in the creation or imposition of any prohibited Lien, charge or encumbrance of any nature whatsoever upon any of the property or assets of the Borrower.

(e) Consents and Approvals. No consent or approval of any trustee, holder of any indebtedness of the Borrower or any other Person, and no consent, permission, authorization, order or license of, or filing or registration with, any Governmental Authority is necessary in connection with (i) the execution and delivery by the Borrower of the Related Documents, except as have been obtained or made and as are in full force and effect, or (ii) (A) the consummation of any transaction contemplated by any of the foregoing documents or (B) the fulfillment of or compliance by the Borrower with the terms and conditions of any of the Related Documents, except as have been obtained or made and as are in full force and effect or as are ministerial in nature and can reasonably be expected to be obtained or made in the ordinary course on commercially reasonable terms and conditions when needed.

(f) Litigation. As of the Effective Date, there is no action suit, proceeding or, to the knowledge of the Borrower, any inquiry or investigation, in any case before or by any court or other Governmental Authority pending or, to the knowledge of the Borrower, threatened against or affecting the ability of the Borrower to execute, deliver and perform its obligations under the Related Documents. Except as set forth in **Schedule 13(f)** (*Litigation*) of the applicable WIFIA Loan Agreement, as of each WIFIA Loan Agreement Effective Date and as of each subsequent date on which the representations and warranties herein are made or confirmed, there is no action, suit, proceeding or, to the knowledge of the Borrower, any inquiry or investigation before or by any court or other Governmental Authority pending, or to the knowledge of the Borrower, threatened against or affecting (i) the System (including the Projects), the Borrower or the assets, properties or operations of the Borrower, that in any case could reasonably be expected to result in a Material Adverse Effect or (ii) the ability of the Borrower to execute, deliver and perform its obligations under the Related Documents. The Borrower is not in default (and no event has occurred and is continuing that, with the giving of notice or the passage of time or both, could constitute a default) with respect to any Governmental Approval, which default could reasonably be expected to result in a Material Adverse Effect.

(g) Security Interests. The Indenture Documents and Section 5451 of the California Government Code establish, for the benefit of the WIFIA Lender, the valid and binding Liens on the Net System Revenues that they purport to create, irrespective of whether any Person has notice of the pledge and without the need for any physical delivery, recordation, filing, or further act. Such Liens are in full force and effect and are not subordinate or junior to any other Liens in respect of the Net System Revenues, and not *pari passu* with any obligations other than the Parity Obligations. The Borrower has duly and lawfully taken all actions required under this Agreement, the Indenture Documents, and applicable laws for the pledge of Net System Revenues pursuant to and in accordance with the Indenture Documents, and the security interests created in the Net System Revenues have been duly perfected under applicable State law. The Borrower is not in breach of any covenants set forth in Section 15(a) (*Affirmative Covenants – Securing Liens*) of this Agreement or in the Indenture Documents with respect to

the matters described in such Section. As of the Effective Date and as of each other date this representation and warranty is made, (i) all documents and instruments have been recorded or filed for record in such manner and in such places as are required and all other action as is necessary or desirable has been taken to establish a legal, valid, binding, and enforceable and perfected Lien on the Net System Revenues for the benefit of the WIFIA Lender and the other Secured Parties to the extent contemplated by the Indenture Documents, and (ii) all taxes and filing fees that are due and payable in connection with the execution, delivery or recordation of any Indenture Documents or any instruments, certificates or financing statements in connection with the foregoing, have been paid. Neither the attachment, perfection, validity, enforceability nor priority of the security interest in the Net System Revenues granted pursuant to the Indenture Documents is governed by Article 9 of the UCC.

(h) No Debarment. The Borrower has fully complied with its verification obligations under 2 C.F.R. § 180.320 and confirms, based on such verification, that, to its knowledge, neither the Borrower nor any of its principals (as defined in 2 C.F.R. § 180.995 and supplemented by 2 C.F.R § 1532.995) (i) is debarred, suspended or voluntarily excluded from participation in Government contracts, procurement or non-procurement matters, (ii) is presently indicted for or otherwise criminally or civilly charged by a Governmental Authority with commission of any of the offenses listed in 2 C.F.R. § 180 or 2 C.F.R. § 1532, or (iii) has, within the three (3) year period preceding the Effective Date, (x) been convicted for or had a civil judgment rendered against it or them for any of such listed offenses within such period or (y) had any public transactions (federal, state or local) terminated for cause or default.

(i) Accuracy of Representations and Warranties. The representations, warranties and certifications of the Borrower set forth in this Agreement and the other Related Documents are true, correct, and complete, except to the extent such representations and warranties expressly relate to an earlier date (in which case, such representations and warranties shall be true, correct, and complete as of such earlier date).

(j) Compliance with Federal Requirements. The Borrower, and each of its contractors and subcontractors at all tiers, in each case with respect to the Projects, has complied with all applicable federal laws, rules, regulations and requirements, including (i) 40 U.S.C. §§3141-3144, 3146, and 3147 and regulations relating thereto (Davis-Bacon Act Requirements), (ii) 33 U.S.C. §3914 (relating to American iron and steel products), (iii) 2 C.F.R. §180.320 and 2 C.F.R. §1532 (relating to non-debarment) and (iv) 31 U.S.C. § 1352 and 40 C.F.R. § 34.100 (relating to non-lobbying), as applicable. To ensure such compliance, the Borrower has included in all contracts with respect to each Project (A) the contract clauses relating to applicable federal requirements (such as Davis-Bacon and Equal Employment Opportunity) and (B) requirements that its contractor(s) (1) shall comply with applicable federal laws, rules, regulations, and requirements set forth in this subsection and follow applicable federal guidance, and (2) incorporate in all subcontracts (and cause all subcontractors to include in lower tier subcontracts) such terms and conditions as are required to be incorporated therein by applicable federal laws, rules, regulations and requirements set forth in this subsection. With respect to the Davis-Bacon Act requirements, the Borrower has inserted in full in all contracts relating to each Project the contract clauses set forth in the Code of Federal Regulations, Title 29 Part 5.5, and required and ensured that its contractor(s) have inserted such clauses in all subcontracts and also a clause requiring all subcontractors to include these clauses in any lower tier subcontracts.

(k) Credit Ratings. As of each WIFIA Loan Agreement Effective Date, the corresponding WIFIA Loan has received a public Investment Grade Rating from at least one (1) Nationally Recognized Rating Agency, written evidence of such rating was provided to the WIFIA Lender prior to the applicable WIFIA Loan Agreement Effective Date, and such rating has not been reduced, withdrawn or suspended.

(l) No Defaults. The Borrower is not in default under the terms of any Related Document, and no event has occurred or condition exists that, with the giving of notice or the passage of time or both, would constitute a System Event of Default or a Project Event of Default.

(m) Governmental Approvals. All Governmental Approvals required (i) as of the Effective Date to enter into, deliver and perform the Borrower's obligations under this Agreement, (ii) as of each WIFIA Loan Agreement Effective Date to enter into, deliver and perform the Borrower's obligations under the applicable WIFIA Loan Agreement and the Principal Project Contracts then in effect, and (iii) as of any subsequent date on which this representation is made (or deemed made), with respect to each Project, for the undertaking, construction and completion by the Borrower of such Project, and for the operation and management of the System (including the Projects), have been obtained or effected and are in full force and effect and there is no basis for, nor proceeding that is pending or threatened that could reasonably be expected to result in, the revocation of any such Governmental Approval.

(n) Principal Project Contracts. Attached as **Schedule 13(n)** (*Existing Principal Project Contracts*) to each WIFIA Loan Agreement, as of the corresponding WIFIA Loan Agreement Effective Date, is a list of the Existing Principal Project Contracts. With respect to each Principal Project Contract executed as of any date on which this representation and warranty is made, such Existing Principal Project Contract is in full force and effect and all conditions precedent to the obligations of the respective parties under each such Existing Principal Project Contract have been satisfied. The Borrower is not in breach of any material term in or in default under any of such Principal Project Contracts, and to the knowledge of the Borrower no party to any of such agreements or contracts is in breach of any material term therein or in default thereunder.

(o) Information. The information furnished by the Borrower to the WIFIA Lender, when taken as a whole, does not contain any untrue statement of a material fact or omit to state any material fact necessary to make the statements contained therein not misleading as of the date made or furnished; provided, that no representation or warranty is made with regard to projections or other forward-looking statements provided by or on behalf of the Borrower (including the Base Case Financial Model or any Financial Plan, and the assumptions therein) except that each of the Base Case Financial Model and each Financial Plan (i) is based on assumptions that were reasonable in all material respects when made, (ii) was prepared in good faith and (iii) represents, in the opinion of the Borrower, reasonable projections at the time made of the future performance of the Borrower and the System (it being understood that projections are not to be considered or regarded as facts and contain significant uncertainties and contingencies, many of which are beyond the control of the Borrower, that actual results may differ significantly from projections and that no representation is made with respect to the accuracy of such projections).

(p) OFAC; Anti-Corruption Laws. None of the Borrower, nor, to the knowledge of the Borrower, any Principal Project Party (i) is in violation of or, since the date that is five (5) years prior to the Effective Date, has violated: (A) any applicable anti-money laundering laws, including those contained in the Bank Secrecy Act and the Patriot Act; (B) any applicable economic sanction laws administered by OFAC or by the United States Department of State; or (C) any applicable anti-drug trafficking, anti-terrorism, or anti-corruption laws, civil or criminal; or (ii) is a Person (A) that is charged with, or has received notice from a Governmental Authority that it is under investigation for, any violation of any such laws; (B) that has been, since the date that is five (5) years prior to the Effective Date, convicted of any violation of, has been subject to criminal or civil penalties pursuant to, had any of its property seized or forfeited under, or has entered into any agreement with the Government or a state or local government related to violations of any such laws; (C) that is named on the list of "Special Designated Nationals or Blocked Persons" maintained by OFAC (or any successor Government office or list), or any similar list maintained by the United States Department of State (or any successor Government office or list); or (D) with whom any U.S. Person (as defined by the applicable OFAC regulations) is prohibited from transacting business of the type contemplated by this Agreement, the other Related Documents and the Principal Project Contracts under any other applicable law.

(q) Compliance with Law. The Borrower is in compliance in all material respects with, and has conducted (or caused to be conducted) its management and operation of the System (including the Projects) in compliance in all material respects with, all applicable laws (other than Environmental Laws, which are addressed in Section 13(r) (*Representations and Warranties of Borrower – Environmental Matters*)), to the extent applicable. No notices of violation of any applicable law have been issued, entered or received by the Borrower other than notices of violations that are immaterial.

(r) Environmental Matters. Except as set forth in **Schedule 13(r)** (*Environmental Matters*) of the applicable WIFIA Loan Agreement, each of the Borrower and, to the Borrower's knowledge, each Principal Project Party is in compliance with all laws applicable to the System (including the Project) relating to (i) air emissions; (ii) discharges to surface water or ground water; (iii) noise emissions; (iv) solid or liquid waste disposal; (v) the use, generation, storage, transportation or disposal of toxic or hazardous substances or wastes; (vi) biological resources (such as threatened and endangered species); (vii) other environmental, health or safety matters, including all laws applicable to the Project; and (viii) water quality and drinking water standards (collectively, the "**Environmental Laws**"). All Governmental Approvals for the Projects relating to Environmental Laws have been, or, when required, will be, obtained and are (or, as applicable, will be) in full force and effect. Except as set forth in **Schedule 13(r)** (*Environmental Matters*) of the applicable WIFIA Loan Agreement, the Borrower has not received any written communication or notice, whether from a Governmental Authority, employee, citizens group, or any other Person, that alleges that the Borrower is not in full compliance with all Environmental Laws and Governmental Approvals relating thereto in connection with the Projects and, to the Borrower's knowledge, there are no circumstances that may prevent or interfere with full compliance in the future by the Borrower with any such Environmental Law or Governmental Approval. The Borrower has provided to the WIFIA Lender all material assessments, reports, results of investigations or audits, and other material information in the possession of or reasonably available to the Borrower regarding the

Borrower's or each Project's compliance with (A) Environmental Laws and (B) Governmental Approvals relating to Environmental Laws that are required for the Projects.

(s) Sufficient Rights and Utilities. The Borrower possesses either valid legal and beneficial title to, leasehold title in, or other valid legal rights with respect to the real property relating to the System (excluding only the Projects), in each case as is necessary and sufficient as of the date this representation is made for the construction, operation, maintenance and repair of the System (excluding only the Projects). With respect to the Projects, as of any date on which this representation and warranty is made, the Borrower either possesses or reasonably anticipates obtaining or acquiring when needed such valid legal rights with respect to the real property relating to each Project, in each case as is necessary and sufficient for the construction, operation, maintenance and repair of such Project. As of any date on which this representation and warranty is made, the Principal Project Contracts then in effect and the Governmental Approvals that have been obtained and are then in full force and effect create rights in the Borrower sufficient to enable the Borrower to own, construct, operate, maintain and repair the Projects and to perform its obligations under the Principal Project Contracts to which it is a party. All utility services, means of transportation, facilities and other materials necessary for the construction and operation of the Projects (including, as necessary, gas, electrical, water and sewage services and facilities) are, or will be when needed, available to the Projects and arrangements in respect thereof have been made on commercially reasonable terms.

(t) Insurance. The Borrower is in compliance with all insurance obligations required under each Principal Project Contract and the Related Documents as of the date on which this representation and warranty is made. To the extent the Borrower self-insures, the Borrower's self-insurance program is actuarially sound.

(u) Title. The Borrower has valid legal and beneficial title to, or a valid leasehold interest in, the personal property and other assets and revenues thereof (including the Net System Revenues) on which it purports to grant Liens pursuant to the Indenture Documents and this Agreement, in each case free and clear of any Lien of any kind, except for Permitted Liens.

(v) No Liens. Except for Permitted Liens, the Borrower has not created, and is not under any obligation to create, and has not entered into any transaction or agreement that would result in the imposition of, any Lien on the System Revenues, the Net System Revenues, the System, the Projects, or the properties or assets in relation to the Projects.

(w) Intellectual Property. The Borrower owns, or has adequate licenses or other valid rights to use, all patents, trademarks, service marks, trade names, copyrights, franchises, formulas, licenses and other rights with respect thereto and has obtained assignment of all licenses and other rights of whatsoever nature, in each case necessary for the Projects and the operation of the System. To the Borrower's knowledge, there exists no conflict with the rights or title of any third party with respect to the intellectual property described in the preceding sentence. Excluding the use of commercially available "off-the-shelf" software, to the Borrower's knowledge, no product, process, method, substance, part or other material produced or employed or presently contemplated to be produced by or employed by the Projects infringes

or will infringe any patent, trademark, service mark, trade name, copyright, franchise, formula, license or other intellectual property right of any third party.

(x) Financial Statements. Each income statement, balance sheet and statement of operations and cash flows (collectively, "**Financial Statements**") delivered to the WIFIA Lender pursuant to Section 22(b) (*System Financial Planning and Reporting – Financial Statements*) has been prepared in accordance with GAAP and presents fairly, in all material respects, the financial condition of the Borrower as of the respective dates of the balance sheets included therein and the results of operations of the Borrower for the respective periods covered by the statements of income included therein. Except as reflected in such Financial Statements, there are no liabilities or obligations of the Borrower of any nature whatsoever for the period to which such Financial Statements relate that are required to be disclosed in accordance with GAAP.

(y) No Lobbying. Pursuant to 31 U.S.C. §1352, to the best of the Borrower's knowledge and belief, (i) no Federal appropriated funds have been paid or will be paid, by or on behalf of the Borrower, to any Person for influencing or attempting to influence an officer or employee of an agency, a member (or employee of a member), officer, or employee of the U.S. Congress, in connection with the making of the WIFIA Loan, execution (including amendments or modifications) of any WIFIA Loan Document, or any other federal action under 31 U.S.C. §1352(a)(2); and (ii) if any funds other than Federal appropriated funds have been paid or will be paid to any Person for influencing or attempting to influence an officer or employee of any agency, a member (or employee of a member), officer, or employee of the U.S. Congress in connection with the WIFIA Loan, the Borrower has completed and submitted to the WIFIA Lender Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(z) Taxes. The Borrower is not required to file tax returns with any Governmental Authority.

(aa) Sufficient Funds. The Master Program Amount, when combined with all other funds committed for the development and construction of all Projects contemplated for the Master Program as set forth in the various sources of funds in the Base Case Financial Model and the Financial Plan, will be sufficient to carry out the Master Program. With respect to each Project, the amount of the WIFIA Loan for such Project, when combined with all other funds committed for the development and construction of such Project as set forth under the various sources of funds in the Base Case Financial Model, the Project Budget and the Financial Plan will be sufficient to carry out such Project, pay all Total Project Costs anticipated for the development and construction of such Project and achieve Substantial Completion of such Project by the Projected Substantial Completion Date with respect to such Project. The total federal assistance provided to each Project, including the Maximum Principal Amount of the WIFIA Loan for such Project, does not exceed eighty percent (80%) of Total Project Costs for such Project. The Financial Plan most recently delivered to the WIFIA Lender pursuant to Section 22(a) (*System Financial Planning and Reporting – Financial Plan*) demonstrates that the projected System Revenues are sufficient to meet the WIFIA Debt Service for each Project. The Borrower has developed, and identified adequate revenues to implement, a plan for operating, maintaining, and repairing each Project over the useful life of such Project.

(bb) Sovereign Immunity. The Borrower either (i) has no immunity from the jurisdiction of any court of competent jurisdiction or from any legal process therein which could be asserted in any action to enforce the obligations of the Borrower under any of the Related Documents to which it is a party or the transactions contemplated hereby or thereby, including the obligations of the Borrower hereunder and thereunder; or, (ii) to the extent that the Borrower has such immunity, the Borrower has waived such immunity pursuant to Section 15(r) (*Affirmative Covenants – Immunity*).

(cc) Patriot Act. The Borrower is not required to establish an anti-money laundering compliance program pursuant to the Patriot Act.

(dd) Senior State Loans. No Senior State Loan is currently in effect, and the Borrower has no remaining obligations under or in respect of any Senior State Loan.

(ee) Federal Debt. The Borrower has no delinquent federal debt (including tax liabilities but excluding delinquencies that have been resolved with the appropriate federal agency in accordance with the standards of the Debt Collection Improvement Act of 1996).

(ff) Permitted Investments. The Borrower has neither made any investment nor entered into any agreements for the purpose of effecting any investment which (i) is not permitted pursuant to the Indenture Documents in effect as of any date on which this representation and warranty is made or (ii) does not qualify as a Permitted Investment.

(gg) Operations and Maintenance Plan. As of each WIFIA Loan Agreement Effective Date, the Borrower has developed an operations and maintenance plan with respect to the corresponding Project that identifies adequate revenues to operate, maintain, and repair such Project during its useful life.

Section 14. Representations and Warranties of WIFIA Lender.

The WIFIA Lender represents and warrants that:

(a) Power and Authority. The WIFIA Lender has all requisite power and authority to make the WIFIA Loan and to perform all transactions contemplated by the Related Documents to which it is a party.

(b) Due Execution; Enforceability. The Related Documents to which it is a party have been duly authorized, executed and delivered by the WIFIA Lender, and are legally valid and binding agreements of the WIFIA Lender, enforceable against the WIFIA lender in accordance with their terms.

(c) Officers' Authorization. The officers of the WIFIA Lender executing each of the Related Documents to which the WIFIA Lender is a party are duly and properly in office and fully authorized to execute the same on behalf of the WIFIA Lender.

ARTICLE V

COVENANTS

Section 15. Affirmative Covenants.

The Borrower covenants and agrees as follows until the date each WIFIA Bond and all of the obligations of the Borrower under this Agreement and each WIFIA Loan Agreement (other than contingent indemnity obligations) are irrevocably paid in full in cash, unless the WIFIA Lender waives compliance in writing:

(a) Securing Liens. The Borrower shall at any and all times, to the extent permitted by law, pass, make, do, execute, acknowledge and deliver, all and every such further resolutions, acts, deeds, conveyances, assignments, transfers and assurances as may be necessary or desirable in connection with assuring, conveying, granting, assigning, securing and confirming the Liens on the Net System Revenues (whether now existing or hereafter arising) granted for the benefit of the WIFIA Lender pursuant to the Indenture Documents, or intended so to be granted pursuant to the Indenture Documents, or which the Borrower may become bound to grant, and the Borrower shall at all times maintain the Net System Revenues free and clear of any pledge, Lien, charge or encumbrance thereon or with respect thereto that has priority over, or equal rank with, the Liens created by the Indenture Documents, other than as permitted by this Agreement, and all organizational, regulatory or other necessary action on the part of the Borrower to that end shall be duly and validly taken at all times. The Borrower shall at all times, to the extent permitted by law, defend, preserve and protect the Liens on the Net System Revenues granted pursuant to the Indenture Documents and all the rights of the WIFIA Lender under the Indenture Documents against all claims and demands of all Persons whomsoever, subject to Permitted Liens.

(b) Copies of Documents. The Borrower shall furnish to the WIFIA Lender a copy of the final offering documents (including any Indenture Documents), as well as copies of any continuing disclosure documents, prepared by or on behalf of the Borrower in connection with the incurrence of any Additional Parity Obligations, in each case promptly following the publication, incurrence, issuance or filing thereof. Except as otherwise agreed by the WIFIA Lender in writing, the Borrower shall provide to the WIFIA Lender an executed version of any Additional Principal Project Contract, together with any related contracts, side letters or other understandings, promptly following the full execution thereof.

(c) Use of Proceeds. The Borrower shall use the proceeds of the WIFIA Loans for purposes permitted by applicable law and as otherwise permitted under this Agreement and the other Related Documents.

(d) Prosecution of Work; Verification Requirements.

(i) The Borrower shall diligently prosecute the work relating to the each Project and complete each Project in accordance with the applicable Project Schedule, and in accordance with the highest standards of the Borrower's industry.

(ii) The Borrower shall ensure that each Principal Project Party complies with all applicable laws and legal or contractual requirements with respect to any performance security instrument delivered by such Principal Project Party to the Borrower and shall ensure that any letter of credit provided pursuant to any Principal Project Contract meets the requirements therefor set forth in such Principal Project Contract.

(iii) The Borrower shall comply with Subpart C of 2 C.F.R. Part 180, as supplemented by Subpart C of 2 C.F.R. Part 1532 (relating to debarment), including the verification requirements set forth in 2 C.F.R. §§ 180.300 and 180.320, and shall include in its contracts with respect to each Project similar terms or requirements for compliance.

(e) Operations and Maintenance. The Borrower shall (i) operate and maintain the System (including the Projects) (A) in a reasonable and prudent manner and (B) substantially in accordance with the most recent Financial Plan (except as necessary to prevent or mitigate immediate threats to human health and safety or to prevent or mitigate physical damage to material portions of the System (including the Projects)) and (ii) maintain the System (including the Projects) in good repair, working order and condition and in accordance with the requirements of all applicable laws and each applicable Related Document. The Borrower shall at all times do or cause to be done all things necessary to obtain, preserve, renew, extend and keep in full force and effect the Governmental Approvals and any other rights, licenses, franchises, and authorizations material to the conduct of its business.

(f) Insurance.

(i) The Borrower shall at all times, through a combination of insurance policies and self-insurance programs, maintain or cause its contractors to maintain, all insurance necessary and sufficient to protect the Borrower, the System and the Projects as is customarily maintained by the Borrower with respect to works and properties of like character, against accident to, loss of, damage to and liability from such works or properties (including, in the case of each Project, during the applicable Construction Period), and, in each case, satisfying the requirements of the Related Documents and the Principal Project Contracts.

(ii) The Borrower shall cause all liability insurance policies (if any) that it maintains (excluding property damage, automobile or workers' compensation insurance), to reflect the WIFIA Lender as an additional insured. All such policies shall be available at all reasonable times for inspection by the WIFIA Lender, its agents and representatives.

(iii) The Borrower shall comply with the insurance requirements of the Indenture Documents and, if requested by the WIFIA Lender, shall deliver to the WIFIA Lender within thirty (30) days after receipt of any such request any certifications or opinions provided to the Borrower pursuant to the Indenture Documents with respect to the Borrower's program of insurance or self-insurance.

(g) Notice.

(i) The Borrower shall, within ten (10) Business Days after the Borrower learns of the occurrence, give the WIFIA Lender notice of any of the following events or receipt of any of the following notices, as applicable, setting forth details of such event:

(A) Substantial Completion: the occurrence of Substantial Completion of each Project, such notice to be provided in the form set forth in **Exhibit I** (*Form of Certificate of Substantial Completion*);

(B) Events of Default: (1) any System Event of Default or any event that, with the giving of notice or the passage of time or both, would constitute a System Event of Default and (2) any Project Event of Default or any event that, with the giving of notice or the passage of time or both, would constitute a Project Event of Default;

(C) Litigation: (1) the filing of any litigation, suit or action, or the commencement of any proceeding, against the Borrower before any arbitrator, Governmental Authority, alternative dispute resolution body, or other neutral third-party, or the receipt by the Borrower in writing of any threat of litigation, suit, action, or proceeding, or of any written claim against the Borrower that, in each case, could reasonably be expected to have a Material Adverse Effect, and any material changes in the status of such litigation, suit, action or claim; and (2) any judgments against the Borrower with award amounts in excess of $50,000,000, either individually or in the aggregate;

(D) Certain Defaults: any material breach or default or event of default on the part of the Borrower or any other party under any Principal Project Contract or under any Indenture Document;

(E) Uncontrollable Force: the occurrence of any Uncontrollable Force that could reasonably be expected to materially and adversely affect the Master Program or any Project;

(F) Ratings Changes: any change in the rating assigned to any WIFIA Loan or any Parity Obligations by any Nationally Recognized Rating Agency that has provided a public rating on such indebtedness;

(G) Draws on Reserve Account: the occurrence of any draws on a Reserve Account to fund payments of interest on or principal of any Bond when due, including any draw on any Bond Reserve Fund Policy, or the payment of interest on or principal of any Bond by any Credit Provider (as defined in the Indenture); and

(H) Cessation of Work: the cessation of all major construction work on any Project where such cessation is expected to or does extend for a period of thirty (30) days or more.

(ii) The Borrower shall, within thirty (30) Business Days after the Borrower learns of the occurrence, give the WIFIA Lender notice of any of the following events or receipt of any of the following notices, as applicable, setting forth details of such event:

(A) Insurance Claim: any insurance claims made by the Borrower or any Principal Project Party in respect of any Project in excess of $50,000,000 either individually or in the aggregate, to the extent related to any Project or to the extent the proceeds from such insurance claim would be deposited into a System Account;

(B) 2 C.F.R. § 180.350 Notices: any notification required pursuant to 2 C.F.R. § 180.350, whether attributable to a failure by the Borrower to disclose information previously required to have been disclosed or due to the Borrower or any of its principals meeting any of the criteria set forth in 2 C.F.R. § 180.335; and

(C) Other Adverse Events: the occurrence of any other event or condition, including any notice of breach from a contract counterparty, that could reasonably be expected to result in a Material Adverse Effect or have a material and adverse effect on the Master Program or any Project.

(iii) The Borrower shall, in accordance with Environmental Laws but not later than thirty (30) Business Days after the Borrower learns of the occurrence, give the WIFIA Lender notice of any of the following events or receipt of any of the following notices, as applicable, setting forth details of such event:

(A) Environmental Notices: any material Notice of Violation under and as defined in any Environmental Law related to any Project or any material changes to any NEPA Determination;

(B) Archeological or Historical Resources: the discovery of any potential archeological or historical resources during the course of construction of any Project; and

(C) Endangered or Threatened Species: the discovery of any unexpected endangered or threatened species during the course of construction of any Project.

(iv) The Borrower shall provide the WIFIA Lender with any further information reasonably requested by the WIFIA Lender from time to time concerning the matters described in this Section 15(g) (*Affirmative Covenants – Notice*).

(h) Remedial Action. Within sixty (60) calendar days after the Borrower learns of the occurrence of an event specified in Section 15(g) (*Affirmative Covenants – Notice*) (excluding Section 15(g)(i)(A) (*Affirmative Covenants – Notice – Substantial Completion*) and, in the case of a ratings upgrade, Section 15(g)(i)(F) (*Affirmative Covenants – Notice – Ratings Changes*)), the Borrower's Authorized Representative shall provide a statement to the WIFIA Lender setting forth the actions the Borrower proposes to take with respect thereto.

(i) [Intentionally Omitted].

(j) System Accounts; Permitted Investments.

(i) The Borrower shall maintain the Revenue Fund as an enterprise fund separate and apart from all other funds of the Borrower. The Revenue Fund shall be administered in accordance with the Indenture.

(ii) The Borrower shall cause all Reserve Accounts to be funded in such amounts and under such conditions as are required by the Indenture Documents.

(iii) Amounts on deposit in the System Accounts shall be held uninvested or invested in Permitted Investments pursuant to the terms of the Indenture. Permitted Investments must mature or be redeemable at the election of the holder at such times as may be necessary to ensure that funds will be available within the applicable account to be applied towards the purpose for which the applicable account has been established.

(k) Rate Covenant.

(i) The Borrower shall establish, fix and prescribe rates, fees and charges in connection with the System in compliance with the provisions of Section 6.13 of the Indenture, as in effect as of the Effective Date and as such provisions are set forth in **Schedule 15(k)** (*Rate Covenant*) (subject to this Section 15(k)(i) (*Affirmative Covenants – Rate Covenant*), the "**Rate Covenant**").

(ii) If the forecast furnished by the Borrower in the most recent Financial Plan delivered by the Borrower pursuant to Section 22(a) (*System Financial Planning and Reporting – Financial Plan*) demonstrates that projected Net System Revenues may be inadequate to satisfy the Rate Covenant for any Borrower Fiscal Year covered by such Financial Plan, or if the Borrower fails to satisfy the Rate Covenant for the most recently ended Borrower Fiscal Year, the Borrower shall (A) within ninety (90) days after request by the WIFIA Lender, engage the Professional Utility Consultant to review and analyze the operations of the System and recommend actions regarding revising the rates or changing the methods of operations, or any other actions to increase the Net System Revenues so as to satisfy the Rate Covenant, (B) cause the Professional Utility Consultant to issue its report, including any such recommended actions, no later than ninety (90) days following such engagement, and (C) either (1) implement the Professional Utility Consultant's recommendation or (2) undertake an alternative course of action after demonstrating to the WIFIA Lender's satisfaction that an alternative plan will generate an equivalent or greater increase to the Net System Revenues so as to satisfy the Rate Covenant.

(l) Compliance with Law. The Borrower shall, and shall require its contractors and subcontractors at all tiers with respect to each Project to, comply in all material respects with all applicable federal, State and local laws, rules, regulations and requirements, including (i) 40 U.S.C. §§3141-3144, 3146, and 3147 (Davis-Bacon Act Requirements) and (ii) 33 U.S.C. §3914 (relating to American iron and steel products). To ensure such compliance, the

Borrower shall include in all contracts with respect to the Projects requirements that its contractor(s) shall comply with applicable federal laws, rules, regulations, and requirements set forth in this Section 15(l) (*Affirmative Covenants – Compliance with Law*) and follow applicable federal guidance, and shall require that the contractor(s) incorporate in all subcontracts (and cause all subcontractors to include in all lower tier subcontracts) such terms and conditions as are required to be incorporated therein by applicable federal laws, rules, regulations and requirements set forth in this Section 15(l) (*Affirmative Covenants – Compliance with Law*). With respect to the Davis-Bacon Act requirements, the Borrower shall insert in full in all contracts relating to the Projects the contract clauses set forth in the Code of Federal Regulations, Title 29 Part 5.5, and require and ensure that its contractor(s) insert such clauses in all subcontracts with respect to the Projects and also a clause requiring all subcontractors to include these clauses in any lower tier subcontracts.

(m) Material Obligations; Liens. The Borrower shall pay its material obligations promptly and in accordance with their terms and pay and discharge promptly all taxes, assessments and governmental charges or levies imposed upon it or upon the System Revenues or other assets of the System, before the same shall become delinquent or in default, as well as all lawful and material claims for labor, materials and supplies or other claims which, if unpaid, might give rise to a Lien upon such properties or any part thereof or on the System Revenues or the Net System Revenues; provided, however, that such payment and discharge shall not be required with respect to any such tax, assessment, charge, levy, claim or Lien so long as the validity or amount thereof shall be contested by the Borrower in good faith by appropriate proceedings and so long as the Borrower shall have set aside adequate reserves with respect thereto in accordance with and to the extent required by GAAP, applied on a consistent basis.

(n) [Intentionally Omitted].

(o) SAM Registration. The Borrower shall (i) obtain and maintain an active registration status with the federal System for Award Management (www.SAM.gov) (or any successor system or registry) prior to the Effective Date and provide such registration information to the WIFIA Lender and (ii) within sixty (60) days prior to each anniversary of the Effective Date until each Final Disbursement Date, provide to the WIFIA Lender evidence of such active registration status with no active exclusions reflected in such registration.

(p) UEI. The Borrower shall (i) obtain a UEI prior to the Effective Date and provide such UEI to the WIFIA Lender and (ii) within sixty (60) days prior to each anniversary of the Effective Date, provide to the WIFIA Lender evidence of the continuing effectiveness of such UEI, in each case until each Final Maturity Date or to such earlier date as all amounts due or to become due to the WIFIA Lender under this Agreement and the WIFIA Loan Agreements have been irrevocably paid in full in cash.

(q) Events of Loss; Loss Proceeds. If an Event of Loss shall occur with respect to the System (including the Projects) or any part thereof, the Borrower shall (i) diligently pursue all of its rights to compensation against all relevant insurers, reinsurers and Governmental Authorities, as applicable, in respect of such event and (ii) pay or apply all Loss Proceeds stemming from such event in accordance with the Indenture and, to the extent applicable, Section 10 (*Prepayment*); provided that, to the extent Loss Proceeds are attributable

to any Project, such Loss Proceeds shall be applied to repair, reconstruct, reinstate, restore and/or replace those portions of the Project in respect of which the applicable Loss Proceeds were received, if and to the extent permitted by the Indenture.

(r) Immunity. To the fullest extent permitted by applicable law, the Borrower agrees that it will not assert any immunity (and hereby waives any such immunity) it may have as a governmental entity from lawsuits, other actions and claims, and any judgments with respect to the enforcement of any of the obligations of the Borrower under this Agreement or any other WIFIA Loan Document.

(s) Patriot Act. If the anti-money laundering compliance program provisions of the Patriot Act become applicable to the Borrower, then the Borrower shall provide written notice to the WIFIA Lender of the same and shall promptly establish an anti-money laundering compliance program that complies with all requirements of the Patriot Act.

Section 16. Negative Covenants.

The Borrower covenants and agrees as follows until the date each WIFIA Bond and all of the obligations of the Borrower under this Agreement and each WIFIA Loan Agreement (other than contingent indemnity obligations) are irrevocably paid in full in cash, unless the WIFIA Lender waives compliance in writing:

(a) Indebtedness.

(i) The Borrower covenants that it shall not issue any Additional Parity Obligations other than as expressly permitted under the applicable provisions of the Indenture, as in effect as of the Effective Date and as such provisions are set forth in **Schedule 16(a)** (*Additional Bonds Test*).

(ii) The Borrower shall provide to the WIFIA Lender notice of the issuance of Additional Parity Obligations in a manner consistent with its continuing disclosure requirements, which notice shall confirm that the issuance of such Additional Parity Obligations is permissible pursuant to clause (i) of this Section 16(a) (*Negative Covenants – Indebtedness*).

(iii) Without limiting anything in this Section 16(a) (*Negative Covenants – Indebtedness*), the Borrower shall not incur any Obligation that does not constitute Permitted Debt hereunder, including, in the case of any Obligation subordinate to the Parity Obligations, satisfaction of the requirements under the definition of "Subordinated Obligations."

(iv) Notwithstanding any of the foregoing clauses of this Section 16(a) (*Negative Covenants – Indebtedness*) or anything contained in the Indenture, the Borrower covenants that it will not have Outstanding at any time Parity Obligations that constitute Variable Rate Indebtedness in excess of twenty-five percent (25%) of the Borrower's total Parity Obligations.

(v) Notwithstanding any of the foregoing clauses of this Section 16(a) (*Negative Covenants – Indebtedness*) or anything contained in the Indenture, the Borrower shall not issue or enter into any Senior State Loans or pay any amount with respect to any loan agreement with the State (or any board, department or agency thereof) prior to the payment of the Parity Obligations.

(b) No Lien Extinguishment or Adverse Amendments. The Borrower shall not, and shall not permit any Person to, without the prior written consent of the WIFIA Lender, either (i) extinguish or impair the Liens on the Net System Revenues granted pursuant to the Indenture, (ii) amend, modify, replace or supplement any Related Document in a manner that could adversely affect the WIFIA Lender (in the WIFIA Lender's determination) in connection with the WIFIA Loan, (iii) waive or permit a waiver of any provision of any Related Document in a manner which could adversely affect the WIFIA Lender (in the WIFIA Lender's determination) in connection with the WIFIA Loans, or which could reasonably be expected to have a Material Adverse Effect (in the WIFIA Lender's determination), (iv) assign, terminate or replace any Related Document or (v) provide in any Indenture Document, or in any other financing document with respect to any Parity Obligation, that the holders of such Parity Obligations may accelerate such Parity Obligations, or require the mandatory prepayment in full thereof, in the case of any breach or event of default thereunder, unless the WIFIA Lender is concurrently provided, pursuant to an amendment to this Agreement and (if necessary) the Indenture, with such acceleration or mandatory prepayment right with respect to the WIFIA Bonds. Except as otherwise agreed by the WIFIA Lender in writing, the Borrower will provide to the WIFIA Lender (x) copies of any proposed amendments, modifications, replacements of, or supplements to any Related Document at least thirty (30) days prior to the effective date thereof and (y) complete, correct and fully executed copies of any amendment, modification or supplement to any Related Document within thirty (30) days after execution thereof.

(c) No Prohibited Liens. Except for Permitted Liens, the Borrower shall not create, incur, assume or permit to exist any Lien on the Projects, the System Revenues, the Net System Revenues, or the Borrower's respective rights therein. The Borrower shall not collaterally assign any of its rights under or pursuant to any Principal Project Contract and shall not permit a Lien to encumber the Borrower's rights or privileges under any Principal Project Contract, unless pursuant to the Indenture Documents in favor of the Trustee on behalf of the Secured Parties.

(d) Restricted Payments and Transfers. The Borrower shall not permit System Revenues or other assets of the System, or any funds in any accounts held under the Indenture or in any other fund or account held by or on behalf of the Borrower, to be paid or transferred or otherwise applied except as permitted by the Indenture.

(e) [Intentionally Omitted].

(f) No Prohibited Sale, Lease or Assignment. The Borrower shall not sell, lease or assign its rights in and to the System or the Project except as permitted by Section 6.03 of the Indenture.

(g) Borrower Fiscal Year. The Borrower shall not at any time adopt any fiscal year other than the Borrower Fiscal Year, except with thirty (30) days' prior written notice to the WIFIA Lender.

(h) Change in Legal Structure; Mergers and Acquisitions. The Borrower shall not, and shall not agree to, (i) acquire by purchase or otherwise the business, property or fixed assets of, or equity interests or other evidence of beneficial ownership interests in, any Person, other than purchases or other acquisitions of inventory or materials or spare parts or Capital Expenditures, each in the ordinary course of business in compliance with the annual budget set forth in the Financial Plan most recently approved by the WIFIA Lender or (ii) reorganize, consolidate with or merge into another Person unless (A) such reorganization, merger or consolidation is with or into another entity established by State law and such reorganization, merger or consolidation is mandated by State law, and in each case, does not adversely affect or impair to any extent or in any manner (1) the System Revenues or the Net System Revenues or (2) the availability of the System Revenues for the payment and security of the obligations of the Borrower under the WIFIA Loan Documents; and (B) the Borrower provides to the WIFIA Lender, no later than sixty (60) days prior to the date of reorganization, consolidation or merger, prior written notice of such reorganization, consolidation or merger and the agreements and documents authorizing the reorganization, consolidation or merger, satisfactory in form and substance to the WIFIA Lender. The documents authorizing any reorganization, consolidation or merger shall contain a provision, satisfactory in form and substance to the WIFIA Lender, that, following such reorganization, consolidation or merger, the successor will assume, by operation of law or otherwise, the due and punctual performance and observance of all of the representations, warranties, covenants, agreements and conditions of this Agreement and the other Related Documents to which the Borrower is a party, and manage and operate the System and establish rates and charges consistent with the representations, warranties and covenants set forth herein. In addition, the Borrower shall provide all information concerning such reorganization, consolidation or merger as shall have been reasonably requested by the WIFIA Lender.

(i) No Defeasance of WIFIA Bonds. The Borrower shall not defease the WIFIA Bonds pursuant to the Indenture.

(j) OFAC Compliance. The Borrower shall not, (i) violate (A) any applicable anti-money laundering laws, including those contained in the Bank Secrecy Act and the Patriot Act, (B) any applicable economic sanction laws administered by OFAC or by the United States Department of State, or (C) any applicable anti-drug trafficking, anti-terrorism, or anti-corruption laws, civil or criminal; or (ii) be a Person (A) that is charged with, or that has received notice from a Governmental Authority that it is under investigation for, any violation of any such laws, (B) that is convicted of any violation of, is subject to civil or criminal penalties pursuant to, has any of its property seized or forfeited under, or enters into any agreement with the Government or a state or local government related to violations of, any such laws, (C) that is named on the list of "Special Designated Nationals or Blocked Persons" maintained by OFAC (or any successor Government office or list), or any similar list maintained by the United States Department of State (or any successor Government office or list), (D) with whom any U.S. Person (as defined in the applicable OFAC regulations) is prohibited from transacting business of the type contemplated by this Agreement, the other Related Documents and the Principal Project

Contracts under any other applicable law, (E) that is owned, Controlled by, or affiliated with any Person identified in clause (A), (B), (C) or (D) of this clause (ii), or (F) is in violation of any obligation to maintain appropriate internal controls as required by the governing laws of the jurisdiction of such Person as are necessary to ensure compliance with the economic sanctions, anti-money laundering and anti-corruption laws of the United States of America and the jurisdiction where the Person resides, is domiciled or has its principal place of business.

Section 17. Indemnification.

The Borrower shall, to the extent permitted by law, indemnify the WIFIA Lender and any official, employee, agent or representative of the WIFIA Lender (each such Person being herein referred to as an "**Indemnitee**") against, and hold each Indemnitee harmless from, any and all losses, claims, damages, liabilities, fines, penalties, costs and expenses (including the fees, charges and disbursements of any counsel for any Indemnitee and the costs of environmental remediation), whether known, unknown, contingent or otherwise, incurred by or asserted against any Indemnitee arising out of, in connection with, or as a result of (a) the execution, delivery and performance of this Agreement, any of the other Related Documents or the Principal Project Contracts, (b) the WIFIA Loans or the use of the proceeds thereof, or (c) the violation of any law, rule, regulation, order, decree, judgment or administrative decision relating to the environment, the preservation or reclamation of natural resources, the management, release or threatened release of any hazardous material or to health and safety matters; in each case arising out of or in direct relation to any Project; provided, that such indemnity shall not, as to any Indemnitee, be available to the extent that such losses, claims, damages, liabilities, fines, penalties, costs or related expenses are determined by a court of competent jurisdiction by final and nonappealable judgment to have resulted from the gross negligence or willful misconduct of such Indemnitee. In case any action or proceeding is brought against an Indemnitee by reason of any claim with respect to which such Indemnitee is entitled to indemnification hereunder, the Borrower shall be entitled, at its expense, to participate in the defense thereof; provided that such Indemnitee has the right to retain its own counsel, at the Borrower's expense, and such participation by the Borrower in the defense thereof shall not release the Borrower of any liability that it may have to such Indemnitee. Any Indemnitee against whom any indemnity claim contemplated in this Section 17 (*Indemnification*) is made shall be entitled, after consultation with the Borrower and upon consultation with legal counsel wherein such Indemnitee is advised that such indemnity claim is meritorious, to compromise or settle any such indemnity claim. Any such compromise or settlement shall be binding upon the Borrower for purposes of this Section 17 (*Indemnification*). Nothing herein shall be construed as a waiver of any legal immunity that may be available to any Indemnitee. To the extent permitted by applicable law, neither the Borrower nor the WIFIA Lender shall assert, and each of the Borrower and the WIFIA Lender hereby waives, any claim against any Indemnitee or the Borrower, respectively, on any theory of liability, for special, indirect, consequential or punitive damages (as opposed to direct or actual damages) arising out of, in connection with, or as a result of, this Agreement, any of the other Related Documents, the Principal Project Contracts, the other transactions contemplated hereby and thereby, the WIFIA Loans or the use of the proceeds thereof, provided, that nothing in this sentence shall limit the Borrower's indemnity obligations to the extent such damages are included in any third party claim in connection with which an Indemnitee is entitled to indemnification hereunder. All amounts due to any Indemnitee under this Section 17 (*Indemnification*) shall be payable promptly upon demand therefor. The

obligations of the Borrower under this Section 17 (*Indemnification*) shall survive the payment or prepayment in full or transfer of the WIFIA Bonds, the enforcement of any provision of this Agreement or the other Related Documents, any amendments, waivers (other than amendments or waivers in writing with respect to this Section 17 (*Indemnification*)) or consents in respect hereof or thereof, any System Event of Default or Project Event of Default, and any workout, restructuring or similar arrangement of the obligations of the Borrower hereunder or thereunder. The obligations of the Borrower to make any payment under this Section 17 (*Indemnification*) shall be subordinate to the payment of all Parity Obligations.

Section 18. Sale of WIFIA Loans.

The WIFIA Lender shall not sell any WIFIA Loan at any time prior to (a) the Substantial Completion Date relating to such WIFIA Loan or (b) if such WIFIA Loan has not been disbursed in full prior to the Substantial Completion Date, the earlier of (i) the date on which such WIFIA Loan has been disbursed in full or (ii) the date falling one year after the Substantial Completion Date of the corresponding Project. After such date, the WIFIA Lender may sell such WIFIA Loan to another entity or reoffer the WIFIA Loan into the capital markets only in accordance with the provisions of this Section 18 (*Sale of WIFIA Loan*). Such sale or reoffering shall be on such terms as the WIFIA Lender shall deem advisable, and the Borrower shall act reasonably and cooperate with the WIFIA Lender in connection therewith, including by presenting to the Trustee in a timely manner the written certificate required by the applicable WIFIA Supplemental Indenture for the transfer of the applicable WIFIA Bond; provided that no such sale shall obligate the Borrower to provide any disclosure materials or make any representations or agreements in connection with such sale or reoffering. In making such sale or reoffering the WIFIA Lender shall not change the terms and conditions of such WIFIA Loan without the prior written consent of the Borrower in accordance with Section 31 (*Amendments and Waivers*). The WIFIA Lender shall provide, at least sixty (60) days prior to any sale or reoffering of any WIFIA Loan, written notice to the Borrower of the WIFIA Lender's intention to consummate such a sale or reoffering; provided that no such notice shall be required during the continuation of any System Event of Default or Project Event of Default. The provision of any notice pursuant to this Section with respect to any WIFIA Loan shall not (x) obligate the WIFIA Lender to sell nor (y) provide the Borrower with any rights or remedies in the event the WIFIA Lender, for any reason, does not sell such WIFIA Loan.

ARTICLE VI

EVENTS OF DEFAULT AND REMEDIES

Section 19. System Events of Default and Remedies.

(a) A "**System Event of Default**" shall exist under this Agreement and each WIFIA Loan Agreement if any of the following occurs:

(i) Payment Default. The Borrower shall fail to pay any of the principal amount of or interest on any WIFIA Bond (including WIFIA Debt Service required to have been paid pursuant to the provisions of Section 9 (*Payment of Principal and Interest*), when and as the payment thereof shall be required under such WIFIA

Bond, this Agreement or the related WIFIA Loan Agreement or on any Final Maturity Date (each such failure, a "**Payment Default**").

(ii) Covenant Default. The Borrower shall fail to observe or perform any covenant, agreement or obligation of the Borrower under this Agreement, any WIFIA Loan Agreement, any WIFIA Bond or any other WIFIA Loan Document (other than in the case of any Payment Default or any Project Event of Default), and such failure shall not be cured within thirty (30) days after the earlier to occur of (A) receipt by the Borrower from the WIFIA Lender of written notice thereof or (B) the Borrower's knowledge of such failure; provided that if such failure is capable of cure but cannot reasonably be cured within such thirty (30) day cure period, then no System Event of Default shall be deemed to have occurred or be continuing under this Section 19(a)(ii) (*System Events of Default and Remedies – Covenant Default*), and such thirty (30) day cure period shall be extended by up to one hundred fifty (150) additional days, if and so long as (x) within such thirty (30) day cure period the Borrower shall commence actions reasonably designed to cure such failure and shall diligently pursue such actions until such failure is cured and (y) such failure is cured within one hundred eighty (180) days of the date specified in either (A) or (B) above, as applicable.

(iii) Misrepresentation Default. Any of the representations, warranties or certifications of the Borrower made in or delivered pursuant to the WIFIA Loan Documents (or in any certificates delivered by the Borrower in connection with the WIFIA Loan Documents) shall prove to have been false or misleading in any material respect when made or deemed made (or any representation and warranty that is subject to a materiality qualifier shall prove to have been false or misleading in any respect); provided, that no System Event of Default shall be deemed to have occurred under this Section 19(a)(iii) (*System Events of Default and Remedies – Misrepresentation Default*) if and so long as (A) such misrepresentation is not intentional, (B) such misrepresentation is not a misrepresentation in respect of Section 13(h) (*Representations and Warranties of Borrower – No Debarment*), Section 13(j) (*Representations and Warranties of Borrower – Compliance with Federal Requirements*) or Section 13(p) (*Representations and Warranties of Borrower – OFAC; Anti-Corruption Laws*), Section 13(y) (*No Lobbying*), or Section 13(cc) (*Representations and Warranties of Borrower – Patriot Act*), (C) in the reasonable determination of the WIFIA Lender, such misrepresentation has not had, and would not reasonably be expected to result in, a Material Adverse Effect, (D) in the reasonable determination of the WIFIA Lender, the underlying issue giving rise to the misrepresentation is capable of being cured, (E) the underlying issue giving rise to the misrepresentation is cured by the Borrower within thirty (30) days from the date on which the Borrower first became aware (or reasonably should have become aware) of such misrepresentation, and (F) the Borrower diligently pursues such cure during such thirty (30) day period.

(iv) Acceleration of Parity Obligations. Any acceleration shall occur of the maturity of any Parity Obligation, or any Parity Obligation shall not be paid in full upon the final maturity thereof.

(v) Cross Default With Financing Documents. Any of the representations, warranties or certifications of the Borrower made in or delivered pursuant to the Indenture Documents, or made in or delivered pursuant to the documents (the "**Other Loan Documents**") under which any Parity Obligation is created or incurred, shall prove to be false or misleading in any material respect (each an "**Other Indebtedness Misrepresentation Default**"), or any default shall occur in respect of the performance of any covenant, agreement or obligation of the Borrower under the Indenture Documents or the Other Loan Documents, and such default shall be continuing after the giving of any applicable notice and the expiration of any applicable grace period specified in the Indenture Documents or the Other Loan Documents (as the case may be) with respect to such default (each an "**Other Indebtedness Covenant Default**"), if the effect of such Other Indebtedness Misrepresentation Default or Other Indebtedness Covenant Default shall be to permit the immediate acceleration of the maturity of any or all of the Parity Obligations, and, in the case of any such Other Indebtedness Misrepresentation Default or Other Indebtedness Covenant Default, the Borrower shall have failed to cure such Other Indebtedness Misrepresentation Default or Other Indebtedness Covenant Default or to obtain an effective written waiver thereof in accordance with the terms of such Parity Obligations.

(vi) [Intentionally Omitted].

(vii) Judgments. One or more judgments (A) for the payment of money in an aggregate amount in excess of $50,000,000 (inflated annually by CPI) that are payable from System Revenues and are not otherwise fully covered by insurance (for which the insurer has acknowledged and not disputed coverage) or (B) that would reasonably be expected to result in a Material Adverse Effect shall, in either case, be rendered against the Borrower, and the same shall remain undischarged for a period of thirty (30) consecutive days during which time period execution shall not be effectively stayed, or any action shall be legally taken by a judgment creditor to attach or levy upon any assets of the Borrower to enforce any such judgment.

(viii) Failure to Maintain Existence. The Borrower shall fail to continue its existence as a commission duly constituted under the Charter and the laws of the State, unless at or prior to the time the Borrower ceases to exist in such form a successor public agency or governing body has been created by the State or the City pursuant to a valid and unchallenged State law or Charter amendment and has succeeded to the assets of the Borrower and has assumed all of the obligations of the Borrower under the WIFIA Loan Documents.

(ix) Occurrence of a Bankruptcy Related Event. A Bankruptcy Related Event shall occur with respect to the Borrower.

(x) Invalidity of WIFIA Loan Documents. (A) Any WIFIA Loan Document ceases to be in full force and effect (other than as a result of the termination thereof in accordance with its terms) or becomes void, voidable, illegal or unenforceable, or the Borrower contests in any manner the validity or enforceability of any WIFIA Loan Document to which it is a party or denies it has any further liability under any WIFIA

Loan Document to which it is a party, or purports to revoke, terminate or rescind any WIFIA Loan Document to which it is a party; or (B) any Indenture Document ceases (other than as expressly permitted thereunder) to be effective or to grant a valid and binding security interest on any material portion of the Net System Revenues other than as a result of actions or a failure to act by, and within the control of, any Secured Party, and with the priority purported to be created thereby.

(xi) Failure to Satisfy Rate Covenant. In the case that the Borrower shall have failed to satisfy the Rate Covenant for any Borrower Fiscal Year, the Borrower shall have failed to regain compliance with the Rate Covenant for the immediately following Borrower Fiscal Year.

(b) Upon the occurrence of any Bankruptcy Related Event with respect to the Borrower, all obligations of the WIFIA Lender hereunder and under the WIFIA Loan Agreements with respect to the Disbursement of any undisbursed amounts of any WIFIA Loan shall automatically be deemed terminated.

(c) Upon the occurrence of any other System Event of Default, the WIFIA Lender, by written notice to the Borrower, may (i) suspend or terminate all of its obligations hereunder with respect to the Disbursement of any undisbursed amounts of the WIFIA Loans and (ii) cease permitting interest on the WIFIA Loans to be capitalized.

(d) Subject to clause (h) below, whenever any System Event of Default hereunder shall have occurred and be continuing, the WIFIA Lender shall be entitled and empowered to institute any actions or proceedings at law or in equity for the collection of any sums due and unpaid hereunder or under the WIFIA Bonds or the other WIFIA Loan Documents, and may prosecute any such judgment or final decree against the Borrower and collect in the manner provided by law out of the property of the Borrower the moneys adjudged or decreed to be payable, and the WIFIA Lender shall have all of the rights and remedies of a creditor, including all rights and remedies of a secured creditor under the Uniform Commercial Code, and may take such other actions at law or in equity as may appear necessary or desirable to collect all amounts payable by Borrower under this Agreement, the WIFIA Loan Agreements, the WIFIA Bonds or the other WIFIA Loan Documents then due and thereafter to become due, or to enforce performance and observance of any obligation, agreement or covenant of the Borrower under this Agreement, the WIFIA Loan Agreements, the WIFIA Bonds or the other WIFIA Loan Documents.

(e) Whenever any System Event of Default hereunder shall have occurred and be continuing, the WIFIA Lender may suspend or debar the Borrower from further participation in any Government program administered by the WIFIA Lender and to notify other departments and agencies of such default.

(f) Whenever a Payment Default with respect to any WIFIA Loan shall occur and be continuing, the Default Rate provisions of Section 6 (*Interest Rate*) shall apply to such WIFIA Loan.

(g) No action taken pursuant to this Section 19 (*System Events of Default and Remedies*) shall relieve Borrower from its obligations pursuant to this Agreement, the WIFIA Loan Agreements, the WIFIA Bonds or the other WIFIA Loan Documents, all of which shall survive any such action.

(h) Notwithstanding anything to the contrary in this Section 19 (*System Events of Default and Remedies*), the WIFIA Lender may not take any action, in law or equity, attempting to control, enforce or direct the application of System Revenues in the Revenue Fund or any other fund maintained under the Indenture, or to enforce the pledge of Net System Revenues pursuant to the Indenture or this Agreement or to accelerate the payment obligations under the WIFIA Bonds, or to take any other remedial action under circumstances where the System Event of Default is also an "Event of Default" under the Indenture and where, in the determination of the Trustee, such action would adversely affect the rights of the Trustee or other Secured Parties, except pursuant to the WIFIA Lender's rights as a Bondholder under the Indenture, and in the exercise of any such rights under the Indenture, the WIFIA Lender, as a Bondholder, will have such rights accorded to it measured as a Bond Obligation (as defined in the Indenture), on a parity with all other Bonds and any other Parity Obligations as provided in the Indenture. For the avoidance of doubt, nothing herein shall prevent the WIFIA Lender from taking any action contemplated by clauses (b), (c), (e) or (f) above if a System Event of Default shall occur and be continuing.

Section 20. Project Events of Default and Remedies.

(a) A "**Project Event of Default**" shall exist under the WIFIA Loan Agreement for the relevant Project to which such event relates (and not under any other WIFIA Loan Agreement) if any of the following occurs:

(i) Development Default. A Development Default shall occur.

(ii) Project Abandonment. The Borrower shall abandon the relevant Project, unless otherwise approved by the WIFIA Lender.

(b) Upon the occurrence of any Project Event of Default, the WIFIA Lender may suspend or terminate all of its obligations under the relevant WIFIA Loan Agreement with respect to the Disbursement of any undisbursed amounts of the relevant WIFIA Loan. In addition, upon any Project Event of Default, (i) interest shall immediately cease to be capitalized and (ii) the Default Rate provisions of Section 6 (*Interest Rate*) shall apply, in each case with respect to the relevant WIFIA Loan.

Section 21. Accounting and Audit Procedures; Inspections; Reports and Records.

(a) System Related Accounting and Audit Procedures; Reports and Records.

(i) The Borrower shall establish fiscal controls and accounting procedures sufficient to assure proper accounting for all System Revenues, operating expenses, capital expenses, depreciation, reserves, debt issued and outstanding and debt payments. The Borrower shall use accounting, audit and fiscal procedures conforming to GAAP.

(ii) The Borrower shall provide to the WIFIA Lender, promptly after the receipt thereof, copies of (A) final ratings and any notices, reports or other written materials (other than those that are ministerial in nature) received from, any Nationally Recognized Rating Agency that has provided, or is being requested to provide, a rating with respect to any Parity Obligations and (B) all notices and other written communications, other than those that are non-substantive or ministerial in nature, received by it from the Trustee or any Bondholder.

(iii) The Borrower shall provide to the WIFIA Lender, concurrently with delivery to the Trustee, copies of all reports, notices and other written materials, other than those that are non-substantive or ministerial in nature, required to be sent to the Trustee or any Bondholder under the Indenture Documents, relating to any of the operation of the System, System Revenues, or rates and charges established by the Borrower for the System; provided that the Borrower need not provide those items that are non-substantive or ministerial in nature.

(b) Project Related Accounting and Audit Procedures; Inspections; Reports and Records.

(i) The Borrower shall establish fiscal controls and accounting procedures sufficient to assure proper accounting for all costs related to the Projects, WIFIA Loan requisitions submitted, WIFIA Loan proceeds received, payments made by the Borrower with regard to the Projects, other sources of funding for the Projects (including amounts paid from such sources for Project costs so that audits may be performed to ensure compliance with and enforcement of this Agreement and all other WIFIA Loan Documents). The Borrower shall use accounting, audit and fiscal procedures conforming to GAAP, including, with respect to the WIFIA Loans, accounting of principal and interest payments, disbursements, prepayments and calculation of interest and principal amounts outstanding.

(ii) So long as any WIFIA Loan or any portion thereof shall remain outstanding and until five (5) years after such WIFIA Loan shall have been paid in full, the WIFIA Lender shall have the right, upon reasonable prior notice, to visit and inspect any portion of the relevant Project, to examine books of account and records of the Borrower relating to such Project, to make copies and extracts therefrom at the Borrower's expense, and to discuss the Borrower's affairs, finances and accounts relating to such Project with, and to be advised as to the same by, its officers and employees and its independent public accountants (and by this provision the Borrower irrevocably authorizes its independent public accountants to discuss with the WIFIA Lender the affairs, finances and accounts of the Borrower, whether or not any representative of the Borrower is present, it being understood that nothing contained in this Section 21(b) (*Accounting and Audit Procedures; Inspections; Reports and Records – Project Related Accounting and Audit Procedures; Inspections; Reports and Records*) is intended to confer any right to exclude any such representative from such discussions), all at such reasonable times and intervals as the WIFIA Lender may request. The Borrower agrees to pay all out-of-pocket expenses incurred by the WIFIA Lender in connection with the WIFIA Lender's exercise of its rights under this Section 21(b) (*Accounting and Audit*

Procedures; Inspections; Reports and Records – Project –Related Accounting and Audit Procedures; Inspections; Reports and Records) at any time when a System Event of Default or Project Event of Default shall have occurred and be continuing;

(iii) The Borrower shall maintain and retain all files relating to the Projects and the WIFIA Loans until five (5) years after the later of the date on which (A) all rights and duties under this Agreement and the WIFIA Loan Agreements and under the corresponding WIFIA Supplemental Indentures and WIFIA Bonds (including payments) have been fulfilled and any required audits have been performed and (B) any litigation relating to the Projects, the WIFIA Loans, this Agreement or any WIFIA Loan Document is finally resolved or, if the WIFIA Lender has reasonable cause to extend such date, a date to be mutually agreed upon by the WIFIA Lender and the Borrower. The Borrower shall provide to the WIFIA Lender in a timely manner all records and documentation relating to the Master Program and the WIFIA Loans that the WIFIA Lender may reasonably request from time to time.

(iv) The Borrower shall have a single or program-specific audit conducted in accordance with 2 C.F.R. Part 200 Subpart F and 31 U.S.C. § 7502 in 2023 and annually thereafter, except to the extent biennial audits are permitted for the Borrower pursuant to 2 C.F.R. § 200.504 and 31 U.S.C. § 7502(b). Upon reasonable notice, the Borrower shall cooperate fully in the conduct of any periodic or compliance audits conducted by the WIFIA Lender, or designees thereof, pursuant to 40 C.F.R. Part 35, 31 U.S.C. § 7503(b), or 31 U.S.C. § 6503(h) and shall provide full access to any books, documents, papers or other records that are pertinent to the Project or the WIFIA Loans, to the Administrator, or the designee thereof, for any such project or programmatic audit.

Section 22. System Financial Planning and Reporting.

(a) Financial Plan. On an annual basis until each Final Maturity Date, the Borrower shall provide to the WIFIA Lender its then-current ten (10)-year financial plan not later than ninety (90) days after its adoption by the Borrower and, in any event, prior to June 30 of each Borrower Fiscal Year, commencing with Borrower Fiscal Year 2023. Each Financial Plan provided to the WIFIA Lender pursuant to this Section 22(a) (*System Financial Planning and Reporting – Financial Plan*) shall be substantially in the form, or provide substantially the same information, as the ten (10)-year financial plan for the System delivered to the WIFIA Lender pursuant to Section 12(a)(xvii) (*Conditions Precedent – Conditions Precedent to Effectiveness*). In addition, the Borrower shall comply with the following:

(i) Each Financial Plan shall (A) set forth the Borrower's capital improvement plan, projected rates and charges, projected debt outstanding, annual debt service and projected operations and maintenance expenses; (B) evidence projected compliance with the Rate Covenant for each Borrower Fiscal Year covered by the Financial Plan; (C) demonstrate to the satisfaction of the WIFIA Lender that the Borrower has developed and identified adequate revenues to implement a plan for operating, maintaining and repairing the System over the useful life of the System assets;

and (D) be based upon assumptions that as of its date are accurate and reasonable to the best of the Borrower's knowledge and belief.

(ii) Each Financial Plan delivered prior to a Project's Substantial Completion Date shall show that the Borrower has sufficient financial resources to complete such Project by its Projected Substantial Completion Date.

(iii) With each Financial Plan the Borrower shall provide a written narrative identifying any material changes to the underlying assumptions from the previous Financial Plan.

(b) Financial Statements.

(i) The Borrower shall furnish to the WIFIA Lender as soon as available, but no later than one hundred eighty (180) days after the end of each Borrower Fiscal Year, a copy of the audited income statement and balance sheet of the Borrower as of the end of such Borrower Fiscal Year and the related audited statements of operations and of cash flow of the Borrower for such Borrower Fiscal Year, setting forth in each case in comparative form the figures for the previous Borrower Fiscal Year, certified without qualification or exception, or qualification as to the scope of the audit, by an independent public accounting firm selected by the Borrower and which is reasonably acceptable to the WIFIA Lender; provided, that the failure of the Borrower to furnish the documents required by this Section 22(b)(i) within such one hundred eighty (180)-day period shall not constitute a System Event of Default or a Project Event of Default so long as the Borrower furnishes such documents within sixty (60) days after the end of such one hundred eighty (180)-day period.

(ii) All such financial statements shall be complete and correct in all material respects and shall be prepared in reasonable detail and in accordance with GAAP applied consistently throughout the periods reflected therein (except, with respect to the annual financial statements, for changes approved or required by the independent public accountants certifying such statements and disclosed therein).

Section 23. Project Oversight and Monitoring.

(a) Project Development, Design and Construction**.** The WIFIA Lender shall have the right in its sole discretion to monitor (or direct its agents to monitor) the development, including environmental compliance, design, and construction of each Project. The Borrower shall be responsible for administering construction oversight of each Project in accordance with applicable federal, state and local governmental requirements. The Borrower agrees to cooperate in good faith with the WIFIA Lender in the conduct of such monitoring by promptly providing the WIFIA Lender with such reports, documentation or other information as shall be requested by the WIFIA Lender or its agents, including any independent engineer reports, documentation or information.

(b) Construction Monitoring Report. With respect to each Project, during the period beginning from the first quarter following bid advertisement of the first Principal Project Contract for such Project, through and until Substantial Completion of such Project, the

Borrower shall furnish to the WIFIA Lender, on a quarterly basis, the Construction Monitoring Report. The report shall be delivered to the WIFIA Lender not later than one hundred eighty (180) days after the end of each such quarter (or if such day is not a Business Day, on the next following Business Day). If the then-current projection for the Substantial Completion Date of a Project is a date different than the applicable Projected Substantial Completion Date, the Borrower shall provide in the Construction Monitoring Report a description in reasonable detail to the reasonable satisfaction of the WIFIA Lender of the reasons for such projected delay or difference. The Projected Substantial Completion Date of the applicable Project shall automatically be adjusted to the new date specified by the Borrower in the Construction Monitoring Report unless the WIFIA Lender objects to the adjustment in writing to the Borrower within sixty (60) days following receipt of such Construction Monitoring Report on the basis that such report does not demonstrate the matters specified in this paragraph.

(c) Quarterly Certification of Eligible Project Costs. If requested by the WIFIA Lender, on a basis not more frequently than quarterly, the Borrower shall submit to the WIFIA Lender, concurrently with the delivery of the Construction Monitoring Report, a certificate, in the form of **Exhibit D** (*Form of Certification of Eligible Project Costs Documentation*), signed by the Borrower's Authorized Representative, and attaching Eligible Project Costs Documentation as applicable. If there are no applicable Eligible Project Costs for such quarter, the Borrower may notify the WIFIA Lender by written confirmation of the same by email in accordance with Section 38 (*Notices; Payment Instructions*). Within sixty (60) days following the receipt of such certificate and accompanying Eligible Project Costs Documentation (if applicable), the WIFIA Lender shall notify the Borrower confirming (i) which Eligible Project Costs incurred by the Borrower set forth in the certification have been approved or denied (and, if denied, the reasons therefor) and (ii) the cumulative amount of Eligible Project Costs that have been approved as of the date of such notice. Any such approved amounts of Eligible Project Costs shall then be deemed to be available for Disbursement at such time as the Borrower submits a Requisition in respect of such approved amounts in accordance with Section 4 (*Disbursement Conditions*).

(d) Final Specifications. If not previously provided to the WIFIA Lender, the Borrower shall deliver to the WIFIA Lender, prior to bid advertisement for each Project (including each sub-project or component, if applicable), a copy of the final specifications relating to the development and construction of such Project (or such sub-project or component, as the case may be), demonstrating compliance with all applicable federal requirements and including a summary of the scope of work thereunder.

(e) Public Benefits Report. With respect to each Project, the Borrower shall deliver to the WIFIA Lender the Public Benefits Report (i) prior to the corresponding WIFIA Loan Agreement Effective Date, (ii) within ninety (90) days following the Substantial Completion Date of the Project and (iii) within ninety (90) days following the fifth (5th) anniversary of the Substantial Completion Date of the Project. The Borrower agrees that information described in the Public Benefits Report may be made publicly available by the WIFIA Lender at its discretion.

(f) Requested Information. The Borrower shall, at any time while the WIFIA Loans remain outstanding, promptly deliver to the WIFIA Lender such additional information

regarding the business, financial, legal or organizational affairs of the Borrower or regarding the Master Program and the Projects (including construction progress reports delivered by a Principal Project Party to the Borrower) or the System Revenues (including any rate studies prepared by or for the Borrower) as the WIFIA Lender may from time to time reasonably request.

(g) Project Operations. The WIFIA Lender shall have the right, acting reasonably, to monitor (or direct its agents to monitor) each Project's operations and, as the WIFIA Lender may request from time to time, to receive reporting on the operation and management of each Project, and copies of any contracts relating to the operation and maintenance of each Project. The Borrower agrees to cooperate in good faith with the WIFIA Lender in the conduct of such monitoring by promptly providing the WIFIA Lender with such reports, documentation, or other information requested by the WIFIA Lender. The WIFIA Lender has the right, in its sole discretion, to retain such consultants or advisors, to carry out the provisions of this Section 23 (*Project Oversight and Monitoring*).

ARTICLE VII

MISCELLANEOUS

Section 24. Disclaimer of Warranty.

The WIFIA Lender makes no warranty or representation, either express or implied, as to the value, design, condition, merchantability or fitness for a particular purpose or fitness for use of any Project or any portion thereof or any other warranty with respect thereto. Without limiting anything under Section 17 (*Indemnification*), in no event shall the WIFIA Lender be liable for any damages (whether direct or indirect), incidental to or arising out of any Project or the financing, existence, furnishing, functioning or use of any Project.

Section 25. No Personal Recourse.

No official, employee or agent of the WIFIA Lender or the Borrower (including any commission member of the Borrower) or any Person executing this Agreement or any of the other WIFIA Loan Documents shall be personally liable on this Agreement or such other WIFIA Loan Documents by reason of the issuance, delivery or execution hereof or thereof.

Section 26. No Third Party Rights.

The parties hereby agree that this Agreement creates no third party rights against the Borrower, the Government, or the WIFIA Lender, solely by virtue of the WIFIA Loan, and the Borrower agrees to indemnify and hold the WIFIA Lender, the Servicer (if any), the Administrator, and the Government harmless, to the extent permitted by law and in accordance with Section 17 (*Indemnification*), from any lawsuit or claim arising in law or equity solely by reason of any WIFIA Loan, and that no third party creditor or creditors of the Borrower shall have any right against the WIFIA Lender with respect to any WIFIA Loan made pursuant to this Agreement.

Section 27. Borrower's Authorized Representative.

The Borrower shall at all times have appointed a Borrower's Authorized Representative by designating such Person or Persons from time to time to act on the Borrower's behalf pursuant to a written certificate furnished to the WIFIA Lender and the Servicer, if any, containing the specimen signature or signatures of such Person or Persons and signed by the Borrower.

Section 28. WIFIA Lender's Authorized Representative.

The WIFIA Lender hereby appoints the Director of the WIFIA Program, whose notice details are set forth below in Section 38 (*Notices*) to serve as the WIFIA Lender's Authorized Representative under this Agreement until such time as a successor or successors shall have been appointed. Thereafter, the successor in office shall serve as the WIFIA Lender's Authorized Representative. The WIFIA Lender shall provide notice to the Borrower within a reasonable time period following the succession.

Section 29. Servicer.

The WIFIA Lender may from time to time designate another entity or entities to perform, or assist the WIFIA Lender in performing, the duties of the Servicer or specified duties of the WIFIA Lender under this Agreement and the WIFIA Loan Agreements and the WIFIA Bonds. The WIFIA Lender shall give the Borrower written notice of the appointment of any successor or additional Servicer and shall enumerate the duties or any change in duties to be performed by any Servicer. Any references in this Agreement to the WIFIA Lender shall be deemed to be a reference to the Servicer with respect to any duties which the WIFIA Lender shall have delegated to such Servicer. The WIFIA Lender may at any time assume the duties of any Servicer under this Agreement and the WIFIA Loan Agreements and the WIFIA Bonds. The Borrower shall cooperate and respond to any reasonable request of the Servicer for information, documentation or other items reasonably necessary for the performance by the Servicer of its duties hereunder.

Section 30. Fees and Expenses.

(a) The Borrower shall pay to the WIFIA Lender for each WIFIA Loan:

(i) a servicing set-up fee equal to the amount specified in clause (a) of Section 11 (*Fees and Expenses*) of the applicable WIFIA Loan Agreement (the "**Servicing Set-Up Fee**"), which shall be due and payable within thirty (30) days after receipt of an invoice from the WIFIA Lender with respect thereto (or, if earlier, the Initial Disbursement Date of the related WIFIA Loan);

(ii) an annual construction period servicing fee equal to the amount specified in clause (b) of Section 11 (*Fees and Expenses*) of the applicable WIFIA Loan Agreement (the "**Construction Period Servicing Fee**"), which shall accrue on the first Business Day of the then-current Federal Fiscal Year and shall be due and payable on or prior to each November 15 during the Construction Period under the applicable WIFIA Loan Agreement (including the Federal Fiscal Year during which the applicable

Substantial Completion Date occurs); provided that the initial Construction Period Servicing Fee shall be due and payable within thirty (30) days after receipt of an invoice from the WIFIA Lender with respect thereto (or, if earlier, the Initial Disbursement Date of the related WIFIA Loan), in an amount pro-rated from the applicable WIFIA Loan Agreement Effective Date through the last day of the then-applicable Federal Fiscal Year; and

(iii) an annual operating period servicing fee equal to the amount specified in clause (c) of Section 11 (*Fees and Expenses*) of the applicable WIFIA Loan Agreement (the "**Operating Period Servicing Fee**"), which shall accrue on the first Business Day of the then-current Federal Fiscal Year and shall be due and payable on or prior to each November 15, beginning with the first November 15 following the end of the Federal Fiscal Year during which the applicable Substantial Completion Date occurs until (and including) the applicable Final Maturity Date; provided that any Operating Period Servicing Fee due and payable with respect to any Federal Fiscal Year during which such Final Maturity Date occurs shall be equal to the pro-rata monthly portion of the then applicable Operating Period Servicing Fee multiplied by the number of partial or whole months remaining between October 1 and such Final Maturity Date.

(b) The amount of each Construction Period Servicing Fee (other than the initial Construction Period Servicing Fee) and each Operating Period Servicing Fee shall be adjusted in proportion to the percentage change in CPI for the calendar year immediately preceding the calendar year during which such fee is due. The WIFIA Lender shall notify the Borrower of the amount of each such fee at least thirty (30) days before payment is due, which determination shall be conclusive absent manifest error.

(c) Reimbursement of Expenses. The Borrower agrees, whether or not the transactions hereby contemplated shall be consummated, to reimburse the WIFIA Lender on demand from time to time, within thirty (30) days after receipt of any invoice from the WIFIA Lender, for any and all fees, costs, charges, and expenses incurred by it (including the fees, costs, and expenses of its legal counsel, financial advisors, auditors and other consultants and advisors) in connection with the negotiation, preparation, execution, delivery, and performance of this Agreement and the other WIFIA Loan Documents and the transactions hereby and thereby contemplated, including attorneys', and engineers' fees and professional costs, including all such fees, costs, and expenses incurred as a result of or in connection with:

(i) the review of each WIFIA Loan Request and the negotiation, preparation, execution, delivery, and performance of each Project Term Sheet, WIFIA Loan Agreement, and the other WIFIA Loan Documents related to the relevant Project;

(ii) the enforcement of or attempt to enforce any provision of this Agreement or any of the other WIFIA Loan Documents;

(iii) any amendment, modification, or requested amendment or modification of, waiver, consent, or requested waiver or consent under or with respect to, or the protection or preservation of any right or claim under, this Agreement, any other Related Document, or to the Net System Revenues, or advice in connection with the

administration, preservation in full force and effect, and enforcement of this Agreement or any other Related Document or the rights of the WIFIA Lender thereunder; and

(iv) any work-out, restructuring, or similar arrangement of the obligations of the Borrower under this Agreement or the other WIFIA Loan Documents, including during the pendency of one or more System Events of Default or Project Events of Default.

The obligations of the Borrower under this Section 30 (*Fees and Expenses*) shall survive the payment or prepayment in full or transfer of any WIFIA Bond, the enforcement of any provision of this Agreement or the other WIFIA Loan Documents, any such amendments, waivers or consents, any System Event of Default or Project Event of Default, and any such workout, restructuring, or similar arrangement.

Section 31. Amendments and Waivers.

No amendment, modification, termination, or waiver of any provision of this Agreement, the WIFIA Loan Agreements or the corresponding WIFIA Bonds shall in any event be effective without the written consent of each of the parties hereto.

Section 32. Governing Law.

This Agreement and the WIFIA Loan Agreements shall be governed by the federal laws of the United States of America if and to the extent such federal laws are applicable and the internal laws of the State, if and to the extent such federal laws are not applicable.

Section 33. Severability.

In case any provision in or obligation under this Agreement shall be invalid, illegal, or unenforceable in any jurisdiction, the validity, legality and enforceability of the remaining provisions or obligations, or of such provision or obligation in any other jurisdiction, shall not in any way be affected or impaired thereby.

Section 34. Successors and Assigns.

This Agreement shall be binding upon the parties hereto and their respective permitted successors and assigns and shall inure to the benefit of the parties hereto and their permitted successors and assigns. Neither the Borrower's rights or obligations under this Agreement, the WIFIA Loan Agreements or the corresponding WIFIA Bonds nor any interest herein or therein may be assigned or delegated by the Borrower without the prior written consent of the WIFIA Lender.

Section 35. Remedies Not Exclusive.

No remedy conferred herein or reserved to the WIFIA Lender under this Agreement, the WIFIA Loan Agreements or the corresponding WIFIA Bonds is intended to be exclusive of any other available remedy or remedies, but each and every such remedy shall be

cumulative and shall be in addition to every other remedy given hereunder or thereunder or now or hereafter existing at law or in equity or by statute.

Section 36. Delay or Omission Not Waiver.

No delay or omission of the WIFIA Lender to exercise any right or remedy provided under this Agreement, the WIFIA Loan Agreements or the corresponding WIFIA Bonds upon a default of the Borrower (except a delay or omission pursuant to a written waiver) shall impair any such right or remedy or constitute a waiver of any such default or acquiescence herein or therein. Every right and remedy given by this Agreement, the WIFIA Loan Agreements or the corresponding WIFIA Bonds or by law to the WIFIA Lender may be exercised from time to time, and as often as may be deemed expedient by the WIFIA Lender.

Section 37. Counterparts.

This Agreement and any amendments, waivers, consents or supplements hereto or in connection herewith may be executed in any number of counterparts and by the different parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute one and the same instrument; signature pages may be detached from multiple separate counterparts and attached to a single counterpart so that all signature pages are physically attached to the same document. Electronic delivery of an executed counterpart of a signature page of this Agreement or of any document or instrument delivered in connection herewith in accordance with Section 38 (*Notices; Payment Instructions*) shall be effective as delivery of an original executed counterpart of this Agreement or such other document or instrument, as applicable.

Section 38. Notices; Payment Instructions.

Notices hereunder shall be (a) in writing, (b) effective as provided below and (c) given by (i) nationally recognized courier service, (ii) hand delivery, or (iii) email, in each case to:

If to WIFIA Lender:

United States Environmental Protection Agency
WJC-E 7334A
1200 Pennsylvania Avenue NW
Washington, DC 20460
Attention: WIFIA Director
Email: WIFIA_Portfolio@epa.gov

If to Borrower:	Public Utilities Commission of the City and County of San Francisco 525 Golden Gate Avenue San Francisco, California 94102 Attention: CFO and AGM, Business Services Email: capitalfinance@sfwater.org
If to the Trustee	U.S. Bank Trust Company, National Association Global Corporate Trust and Escrow Services One California Street, Suite 1000 San Francisco, CA 94111 Attention: Andrew Fung Email: andrew.fung@usbank.com

Unless otherwise instructed by the WIFIA Lender's Authorized Representative, all notices to the WIFIA Lender should be made by email to the email address noted above for the WIFIA Lender. Notices required to be provided herein shall be provided to such different addresses or to such further parties as may be designated from time to time by a Borrower's Authorized Representative, with respect to notices to the Borrower, or by the WIFIA Lender's Authorized Representative, with respect to notices to the WIFIA Lender or the Servicer. The Borrower shall make any payments hereunder or under the WIFIA Bond in accordance with Section 9(e) (*Payment of Principal and Interest – Manner of Payment*) and the payment instructions hereafter provided by the WIFIA Lender's Authorized Representative, as modified from time to time by the WIFIA Lender. Each such notice, request or communication shall be effective (x) if delivered by hand or by nationally recognized courier service, when delivered at the address specified in this Section 38 (*Notices; Payment Instructions*) (or in accordance with the latest unrevoked written direction from the receiving party) and (y) if given by email, when such email is delivered to the address specified in this Section 38 (*Notices; Payment Instructions*) (or in accordance with the latest unrevoked written direction from the receiving party); provided, that notices received on a day that is not a Business Day or after 5:00 p.m. Eastern Time on a Business Day will be deemed to be effective on the next Business Day.

Section 39. Effectiveness.

This Agreement shall be effective on the Effective Date.

Section 40. Survival.

The indemnification requirements of Section 17 (*Indemnification*), the reporting and record keeping requirements of Section 21 (*Accounting and Audit Procedures; Inspections; Reports and Records*) and the payment requirements of Section 30 (*Fees and Expenses*) shall survive the termination of this Agreement as provided in such Sections.

Section 41. Integration.

This Agreement constitutes the entire contract between the parties relating to the subject matter hereof and supersedes any and all previous agreements and understandings, oral or written, relating to the subject matter hereof.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first written above.

SCHEDULE I

MASTER PROGRAM

The Master Program is the SFPUC Wastewater Capital Plan Resilience Program, located in San Francisco, California, which consists of projects that are designed to repair, rehabilitate, and replace critical assets that have a significant risk of failure, and to upgrade the system to enhance reliability, resiliency, and sustainability. The Master Program includes the following categories:

1. Green infrastructure project components that will capture and clean stormwater throughout the Borrower's system;
2. Stormwater improvements in areas of the City that are currently prone to flooding;
3. Shoreline management and protection plan to provide a long-term protection of wastewater assets;
4. New wastewater treatment plant that will provide reliable service for the Treasure Island residents and meet the recycled water demands of the future redevelopment on the island;
5. Treatment facility projects that will address aging infrastructure, outdated technologies, and address long-term regulatory compliance by ensuring continued performance;
6. Pump station upgrades to ensure efficient and reliable transport of combined flows to the Borrower's treatment facilities;
7. Rehabilitation of Combined Sewer Discharge structures for emergency discharge relief; and
8. Effluent outfall pipe replacement to reliably transport effluent.

SCHEDULE II

EXISTING INDEBTEDNESS

A. Existing Parity Obligations (other than Parity State Loans)

Title	Original Debt Amount	Final Maturity Date
2010 Revenue Bonds, Series B	$192,515,000	10/01/2040
2013 Revenue Bonds, Series A	$193,400,000	10/01/2025
2013 Revenue Bonds, Series B	$331,585,000	10/01/2042
2016 Revenue Bonds, Series A	$240,580,000	10/01/2046
2016 Revenue Bonds, Series B	$67,820,000	10/01/2046
2018 Revenue Bonds, Series A	$229,050,000	10/01/2043
2018 Revenue Bonds, Series B	$185,950,000	10/01/2043
2018 Revenue Bonds, Series C*	$179,145,000	10/01/2048
2021 Revenue Bonds, Series A	$260,835,000	10/01/2051
2021 Revenue Bonds, Series B	$37,045,000	10/01/2051
2021 Revenue Notes, Series A	$218,355,000	10/01/2025
2021 Revenue Notes, Series B	$129,110,000	10/01/2026
2022 Revenue Bonds, Series B	$137,080,000	10/01/2034
2023 Revenue Bonds, Series A*	$530,565,000	10/1/2042
2023 Revenue Bonds, Series B*	$278,155,000	10/1/2042
2023 Revenue Bonds, Series C*	$165,660,000	10/1/2048
WIFIA Loan N17128CA	$699,242,023	04/01/2059
WIFIA Loan N19131CA	$513,862,981	04/01/2062

*Closing date of the bond sale is 4/19/2023. 2018 Bonds Series C will be refunded by 2023 Bonds Series C.

B. Parity State Loans

Title	Original Debt Amount	Final Maturity Date
State Water Board CWSRF 8372-110	$132,000,000	05/01/2056

2009 Certificates of Participation, Series D	$129,550,000	11/01/2041

SCHEDULE III

REQUISITION PROCEDURES

This **Schedule III** sets out the procedures which the Borrower agrees to follow in submitting Requisitions for any Disbursement of any WIFIA Loan. The Borrower expressly agrees to the terms hereof, and further agrees that (i) the rights of the WIFIA Lender contained herein are in addition to (and not in lieu of) any other rights or remedies available to the WIFIA Lender under the WIFIA Loan Documents, and (ii) nothing contained herein shall be construed to limit the rights of the WIFIA Lender to take actions including administrative enforcement action and actions for breach of contract against the Borrower if it fails to carry out its obligations under this Agreement or the applicable WIFIA Loan Agreement during the term thereof.

PART A. General Requirements.

(a) Manner of Request: All requests by the Borrower for a Disbursement shall be made in writing by electronic submission to the WIFIA Lender, in accordance with Section 38 (*Notices; Payment Instructions*) of the WIFIA Master Agreement.

(b) Required Documentation: Any request by the Borrower should include the submission of:

(i) a Requisition, in the form attached as **Exhibit B** (*Form of Requisition*), completed and executed by the Borrower's Authorized Representative, and otherwise in form and substance satisfactory to the WIFIA Lender; and

(ii) all Eligible Project Costs Documentation that has not otherwise been provided to the WIFIA Lender in accordance with Section 23(c) (*Project Oversight and Monitoring – Quarterly Certification of Eligible Project Costs*) of this Agreement.

(c) Timing: Any request for a Disbursement must be received by the WIFIA Lender and the Servicer (if any) at or before 5:00 P.M. (Eastern Time) on either:

(i) the first (1st) Business Day of a calendar month in order to obtain the requested Disbursement by the fifteenth (15th) day of such calendar month;

(ii) the fifteenth (15th) day of a calendar month, in order to obtain the requested Disbursement by the first (1st) day of the immediately following calendar month;

provided, that, (x) if any such day is not a Business Day, the Disbursement request or payment (as the case may be) shall be made by the next succeeding Business Day; (y) the Borrower shall not request to receive more than one (1) Disbursement per month or every thirty (30) days (whichever is longer); and (z) no Disbursements shall be made after the Final Disbursement Date.

PART B. WIFIA Lender Review Process.

(a) The WIFIA Lender shall review the Requisition and the Eligible Project Costs Documentation for compliance with WIFIA Disbursement requirements.

(b) If a Requisition is approved by the WIFIA Lender, the WIFIA Lender will notify the Borrower of such approval and of the amount so approved. A Requisition containing an apparent mathematical error will be corrected by the WIFIA Lender, after telephonic or email notification to the Borrower, and will thereafter be treated as if submitted in the corrected amount. If the amount requested for Disbursement in the Requisition exceeds the available balance of the WIFIA Loan proceeds remaining to be disbursed, the Disbursement request will be treated as if submitted in the amount of the balance so remaining, and the WIFIA Lender will so notify the Borrower.

(c) The WIFIA Lender shall be entitled to withhold approval (in whole or in part) of any pending or subsequent requests for the Disbursement of WIFIA Loan proceeds if: (i) a System Event of Default or a Project Event of Default shall have occurred and be continuing or (ii) the Borrower (1) knowingly takes any action, or omits to take any action, amounting to fraud or violation of any applicable law, in connection with the transactions contemplated hereby; (2) prevents or materially impairs the ability of the WIFIA Lender to monitor compliance by the Borrower with applicable law pertaining to the applicable Project or with the terms and conditions of the WIFIA Master Agreement or the applicable WIFIA Loan Agreement; (3) fails to observe or comply with any applicable law, or any term or condition of the WIFIA Master Agreement or the applicable WIFIA Loan Agreement; (4) fails to satisfy the conditions set forth in Section 4 (*Disbursement Conditions*) and Section 12(c) (*Conditions Precedent to All Disbursements*) of the WIFIA Master Agreement; or (5) fails to deliver Eligible Project Costs Documentation satisfactory to the WIFIA Lender at the times and in the manner specified by the WIFIA Master Agreement; provided, that in such case of sub-clause (5) above, the WIFIA Lender may, in its sole discretion, partially approve a Requisition in respect of any amounts for which adequate Eligible Project Costs Documentation has been provided and may, in its sole discretion, disburse in respect of such properly documented amounts. The WIFIA Lender will notify the Borrower of any withholding, and the reasons therefor.

(d) A Requisition may be rejected in whole or in part by the WIFIA Lender if it is: (i) submitted without signature; (ii) submitted under signature of a Person other than a Borrower's Authorized Representative; (iii) submitted after prior Disbursement of all proceeds of the WIFIA Loan; or (iv) submitted without adequate Eligible Project Costs Documentation. The WIFIA Lender will notify the Borrower of any Requisition so rejected, and the reasons therefor. Any Requisition rejected for the reasons specified under this paragraph (d) must be resubmitted in proper form in order to be considered for approval.

SCHEDULE 15(k)

RATE COVENANT

Section 6.13 of the Indenture, as in effect as of the Effective Date, is set forth below.

All capitalized terms used below in this **Schedule 15(k)** have the meanings assigned to such terms in the Indenture. All section references made below in this **Schedule 15(k)** refer to sections in the Indenture.

SECTION 6.13. Amounts of Rates and Charges. (a) To the fullest extent permitted by law, the Commission shall establish, fix and prescribe, prior to the commencement of each Fiscal Year, rates, fees and charges in connection with the sanitary waste and storm water collection, treatment and disposal services and facilities furnished by the Enterprise so as to yield Revenues at least sufficient, after making reasonable allowances for contingencies and error in the estimates to pay the following amounts:

(i) The interest on and principal of the Bonds as they become due and payable (but not including any interest moneys for the payment of which have been deposited in the Interest Fund from the proceeds of any Series of Bonds or from any other source).

(ii) All other payments required for compliance with the terms of this Indenture and of any Supplemental Indenture providing for the issuance of additional Series of Bonds pursuant to Article III.

(iii) All other payments to meet any other obligations of the Commission which are charges, liens or encumbrances upon, or payable from, the Revenues.

(iv) All current Operation and Maintenance Costs of the Enterprise (but not including such Operation and Maintenance Costs as are scheduled to be paid by the Commission from moneys other than Revenues, such moneys to be clearly available for such purpose).

(b) In addition to the requirements in subsection (a), to the fullest extent permitted by law, the Commission shall establish, fix and prescribe, prior to the commencement of each Fiscal Year, rates, fees and charges in connection with the sanitary waste and storm water collection, treatment and disposal services and facilities furnished by the Enterprise, which are reasonably expected to be at least sufficient to yield during such Fiscal Year Net Revenues (together with any fund balances of the Commission, which are available for Debt Service, but excluding the Bond Reserve Fund) equal to 1.25 times Annual Debt Service payable in such Fiscal Year.

(c) The Commission may make adjustments from time to time in such rates, fees and charges and may make such classification thereof as it deems necessary, but shall not reduce such rates, fees and charges below those then in effect unless the Revenues resulting after such

reduced rates are put into effect will at all times be sufficient to meet the requirements of this Section.

(d) So long as the Commission has complied with its obligations set forth in clause (a) and clause (b) of this Section 6.13, the failure to yield the amount of Revenues as set forth in clause (a) of this Section 6.13, or the failure of Net Revenues to equal 1.25 times Annual Debt Service as set forth in clause (b) of this Section 6.13 at the end of a Fiscal Year, shall not constitute a default or an Event of Default hereunder so long as the Commission has complied with clause (a) and clause (b) of this Section 6.13 at the commencement of the succeeding Fiscal Year.

SCHEDULE 16(a)

ADDITIONAL BONDS TEST

The applicable provisions of the Indenture for the issuance of Additional Parity Obligations, as in effect as of the Effective Date, are set forth below.

All capitalized terms used below in this **Schedule 16(a)** have the meanings assigned to such terms in the Indenture. All section references made below in this **Schedule 16(a)** refer to sections in the Indenture.

SECTION 3.05. Issuance of Additional Bonds. In addition to the 2003 Refunding Series A Bonds, the Commission may, subject to the requirements of the Law, by Supplemental Indenture establish one or more other Series of Bonds payable from Net Revenues on a parity with the 2003 Refunding Series A Bonds and secured by a lien upon and pledge of Net Revenues equal to the lien and pledge securing the 2003 Refunding Series A Bonds, and the Commission may issue and the Trustee may authenticate and deliver Bonds of any Series so established, in such principal amount and for such lawful purpose or purposes (including refunding of any Bonds issued hereunder and then Outstanding) as shall be determined by the Commission in said Supplemental Indenture, but only upon compliance by the Commission with the provisions of Section 3.07, and subject to the following specific conditions, which are hereby made conditions precedent to the issuance of any such additional Series of Bonds:

(a) No Event of Default shall have occurred and be continuing under this Indenture or any Supplemental Indenture and no event shall have occurred which, but for the passage of time or the giving of notice, would constitute an Event of Default under the Indenture or any Supplemental Indenture.

(b) The Supplemental Indenture providing for the issuance of such additional Series of Bonds shall require that the amount on deposit in the Bond Reserve Fund to be established pursuant to Section 5.02 be increased, if and to the extent necessary, immediately upon the receipt of the proceeds of the sale of such additional Series of Bonds, to an amount equal to the Required Reserve. This deposit may be made from such proceeds or any other source, as provided in the Supplemental Indenture.

(c) The Supplemental Indenture providing for the issuance of such additional Series of Bonds shall provide for the payment of interest and principal as follows:

(i) Principal on such Additional Bonds shall be payable either semiannually on April 1 and October 1 of each year in which principal falls due or annually on October 1 of each year in which principal falls due, and Term Bonds of any Series shall have a principal maturity date of October 1. Interest on such Additional Bonds that are Current Interest Bonds shall be payable semiannually on April 1 and October 1 of each year excepting the first year, provided that the first installment of interest shall be payable on

either April 1 or October 1 and shall be for a period of not longer than twelve months and that the interest shall be payable thereafter semiannually on April 1 and October 1.

(ii) Notwithstanding subsection (i), the Supplemental Indenture authorizing the issuance of such Additional Bonds may provide for the payment of principal and interest on dates other than those specified in subsection (i) if the Supplemental Indenture provides for the monthly payment of a portion of interest and principal becoming due and payable on the succeeding Interest Payment Date and Principal Payment Date, as applicable, as set forth in detail in the Supplemental Indenture.

(iii) Interest on any Bonds constituting Variable Rate Indebtedness or Tender Indebtedness may be payable on such Payment Dates as shall be specified in the Supplemental Indenture.

(d) Fixed serial maturities or mandatory Minimum Sinking Fund Account Payments, or any combination thereof, shall be established in amounts sufficient to provide for the retirement of all of the Bonds of such additional Series on or before their respective maturity dates; provided, however, that such requirement shall not apply to Balloon Indebtedness or principal amounts of such Series of Bonds which the Commission has specified as Excluded Principal.

(e) The aggregate principal amount of Bonds issued hereunder shall not exceed any limitation imposed by law or by any Supplemental Indenture.

(f) After the sale of the Series of Additional Bonds proposed to be issued (but prior to the issuance and delivery thereof and receipt of payment therefor), the Commission shall file the following documents with the Trustee; these documents shall, with respect to such Series of Additional Bonds, be based upon the actual interest rate or rates determined at the time of sale thereof (except that, with respect to Variable Rate Indebtedness, the interest rate for the Series of Additional Bonds shall be calculated in accordance with the provisions of subsection (b) of the definition of Annual Debt Service).

(i) A Certificate of the Commission setting forth for each of the next three Fiscal Years estimates of (A) Revenues, (B) Operation and Maintenance Costs of the Enterprise and (3) Net Revenues.

(ii) A Certificate of the Commission demonstrating that (1) the ratio of (A) Net Revenues for the most recent Fiscal Year for which audited financial statements are available, or any consecutive twelve calendar month period during the eighteen calendar month period prior to the issuance of such additional Series of Bonds, to (B) Annual Debt Service for the current Fiscal Year, calculated as of the date of sale of, and including such additional Series of Bonds, will not be less than 1.25:1; or (2) the ratio of (A) Net Revenues projected by the Commission for each of the next three Fiscal Years as determined in Section 3.05(f)(i) above, and including in such projections amounts projected to be received from any adopted rate increases and fund balances of the

Commission which are projected to be available for the payment of Debt Service (but excluding the Bond Reserve Fund), to (B) Annual Debt Service in each of such three Fiscal Years, calculated as of the date of sale of and including such additional Series of Bonds, will not be less than 1.25:1 in each of such Fiscal Years

SECTION 3.06. Issuance of Additional Bonds for Refunding. In addition to the 2003 Refunding Series A Bonds, the Commission may, subject to the requirements of the Law, by Supplemental Indenture establish one or more other Series of Bonds payable from Net Revenues on a parity with the 2003 Refunding Series A Bonds and secured by a lien upon and pledge of Net Revenues equal to the lien and pledge securing the 2003 Refunding Series A Bonds, and the Commission may issue, and the Trustee may authenticate and deliver, Bonds of any Series so established, for the purpose of refunding any Bonds issued hereunder and then Outstanding, but only upon compliance by the Commission with the provisions of Section 3.07, and subject to the following specific conditions, which are hereby made conditions precedent to the issuance of any such additional Series of Bonds:

(a) No Event of Default shall have occurred and be continuing under this Indenture or any Supplemental Indenture and no event shall have occurred which, but for the passage of time or the giving of notice would constitute an Event of Default under the Indenture or any Supplemental Indenture.

(b) The Supplemental Indenture providing for the issuance of such additional Series of Bonds shall require that the amounts on deposit in the Bond Reserve Fund to be established pursuant to Section 5.02 be increased, if necessary, upon the receipt of the proceeds of the sale of such additional Series of Bonds to an amount equal to the Required Reserve. This deposit may be made from such proceeds or any other source, as provided in the Supplemental Indenture.

(c) The Supplemental Indenture providing for the issuance of such additional Series of Bonds shall provide for the payment of interest and principal as follows:

(i) Principal on such Additional Bonds shall be payable either semiannually on April 1 and October 1 of each year in which principal falls due or annually on October 1 of each year in which principal falls due, and Term Bonds of any Series shall have a principal maturity date of October 1. Interest on such Additional Bonds that are Current Interest Bonds shall be payable semiannually on April 1 and October 1 of each year excepting the first year, provided that the first installment of interest shall be payable on either April 1 or October 1 and shall be for a period of not longer than twelve months and that the interest shall be payable thereafter semiannually on April 1 and October 1.

(ii) Notwithstanding subsection (i), the Supplemental Indenture authorizing the issuance of such Additional Bonds may provide for the payment of principal and interest on dates other than those specified in subsection (i) if the Supplemental Indenture provides for the monthly payment of a portion of interest and principal becoming due and payable on the succeeding Interest Payment Date and Principal Payment Date, as applicable, as set forth in detail in the Supplemental Indenture.

(iii) Interest on any Bonds constituting Variable Rate Indebtedness or Tender Indebtedness may be payable on such Payment Dates as shall be specified in the Supplemental Indenture providing for the issuance of such Bonds.

(d) Fixed serial maturities or mandatory Minimum Sinking Fund Account Payments, or any combination thereof, shall be established in amounts sufficient to provide for the retirement of all of the Bonds of such additional Series on or before their respective maturity dates, unless such Bonds are Balloon Indebtedness.

(e) The aggregate principal amount of Bonds issued hereunder shall not exceed any limitation imposed by law or by any Supplemental Indenture.

(f) After giving effect to the application of the proceeds of the additional Series of Bonds, either (i) Annual Debt Service will not be increased in any Fiscal Year (excluding Debt Service on the Outstanding Bonds to be refunded) in an amount in excess of 5% or (ii) the Average Annual Debt Service for the Bonds of such additional Series (during the period from their issuance to their last maturity date) shall be equal to or less than the Average Annual Debt Service on the Bonds to be refunded (during the period from the issuance of the additional Series to the last maturity date of the Bonds to be refunded).

(g) After the sale of the additional Series of Bonds proposed to be issued (but prior to the issuance and delivery thereof and receipt of payment therefor), the Commission shall file the following documents with the Trustee; these documents shall, with respect to such additional Series of Bonds, be based upon the actual interest rate or rates determined at the time of sale thereof.

(i) A Certificate of the Commission that all of the requirements of this Section 3.06 have been met.

(ii) A certificate of one or more Qualified Financial Advisors that the requirements of subsection (e) of this Section have been met.

SECTION 3.07. Proceedings for the Issuance of Additional Series of Bonds.

(a) Whenever the Commission determines to issue an additional Series of Bonds pursuant to Section 3.05 or 3.06, as the case may be, the Commission shall execute or adopt a Supplemental Indenture providing for the issuance of such additional Series of Bonds.

(b) Such Supplemental Indenture shall specify the maximum principal amount of Bonds of such Series, provide for the distinctive designation of Bonds of such Series, and prescribe the other terms and conditions of such additional Series of Bonds in accordance with

this Indenture and subject to the provisions of Section 3.05 or 3.06, as the case may be. The Commission may by such Supplemental Indenture prescribe any provisions respecting the Bonds of such Series not inconsistent with the terms of this Indenture, including registration, transfer and exchange provisions, provisions for the payment of principal and interest and sinking fund provisions.

(c) Before such additional Series of Bonds may be issued and delivered, the Commission shall file the following documents with the Trustee:

(i) An Opinion of Counsel setting forth (1) that such counsel has examined the Supplemental Indenture and found it to be in compliance with the requirements of this Indenture; (2) that the execution and delivery of the additional Series of Bonds have been sufficiently and duly authorized by the Commission; (3) that said additional Series of Bonds, when duly executed by the Commission and, if required, authenticated and delivered by the Trustee, will be valid and binding special obligations of the Commission, payable from Net Revenues as provided herein; and (4) that the issuance of the additional Series of Bonds will not adversely affect the exclusion from federal income taxation of interest on any Bonds then Outstanding.

(ii) The certificates and reports required by Section 3.05 (if the Additional Bonds constitute an additional lien on the Net Revenues) or 3.06 (if the Additional Bonds are issued to refund any Outstanding Bonds), as appropriate.

(iii) The Supplemental Indenture, duly executed or certified and approved by the Trustee.

(d) Upon the delivery to the Trustee of the foregoing instruments, the Trustee shall authenticate and deliver said additional Series of Bonds, in the aggregate principal amount specified in such Supplemental Indenture, to, or upon the Written Request of, the Commission, when such additional Series of Bonds shall have been presented to it for that purpose.

SECTION 3.08. No Issuance of Additional Bonds or Other Obligations Except as Permitted Herein; Exceptions. So long as any of the Bonds remain Outstanding, the Commission may issue any Additional Bonds or obligations payable from Net Revenues on a parity with the Bonds only pursuant to Sections 3.05, 3.06 and 3.07, except under any of the following conditions, in which case none of the limitations or restrictions on the issuance of additional Series of Bonds set forth in Sections 3.05, 3.06 and 3.07 shall be applicable:

(a) if the Owners of a majority in aggregate amount of the Bond Obligation and any Credit Provider consent in writing to the issuance of such Additional Bonds or obligations, or

(b) the obligation constitutes debt of the Commission (including without limitation loan agreements entered into between the Commission and the State of California (or any board, department or agency thereof) to finance or refinance additions, betterments, extensions, repairs,

renewals or replacements to the Enterprise) payable by its terms from Net Revenues on a subordinate basis to the payment of Debt Service on the Bonds.

In addition, the Commission may enter into Parity Loans if no Event of Default has occurred and is continuing under this Indenture or any Supplemental Indenture (and no event has occurred which, but for the passage of time or the giving of notice, would constitute an Event of Default under this Indenture or any Supplemental Indenture) and, on the date of the execution and delivery of such Parity Loans and with respect to Parity Loans executed and delivered prior to the effective date of the amendments set forth in Article II of the Sixth Supplemental Indenture, on the effective date of the amendments set forth in Article II of the Sixth Supplemental Indenture, the Commission delivers a Certificate to the Trustee setting forth, for each of the next three Fiscal Years after the delivery of the Parity Loans, and in the case of Parity Loans executed and delivered prior to the effective date of the amendments set forth in Article II of the Sixth Supplemental Indenture, the next three Fiscal Years, determined on such date, (i) the Revenues, Operation and Maintenance Costs of the Enterprise and Net Revenues and (ii) the Annual Debt Service (assuming the delivery of the Parity Loans), and demonstrating that the estimated Net Revenues (together with any fund balances of the Commission, which are available for Debt Service, but excluding the Bond Reserve Fund), in each of such Fiscal Years is at least equal to 1.25 times the Annual Debt Service in each of such Fiscal Years

EXHIBIT A FORM OF WIFIA PROJECT [●] BOND (including Minimum Sinking Fund Account Payment Schedule)..... A-1

[_____] SUPPLEMENTAL INDENTURE

THIS [_____] SUPPLEMENTAL INDENTURE, dated as of [_____], 20[●] (this "[_____] Supplemental Indenture"), by and between the **PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO** (the "Commission"), a commission duly constituted under the Charter (the "Charter") of the City and County of San Francisco (the "City"), and **U.S. BANK TRUST COMPANY, NATIONAL ASSOCIATION**, a national banking association duly organized and existing under and by virtue of the laws of the United States of America, as trustee (the "Trustee");

W I T N E S S E T H :

WHEREAS, this [_____] Supplemental Indenture is supplemental to the Indenture, dated as of January 1, 2003 (the "Original Indenture"), between the Commission and the Trustee, as amended by a First Amendment to Indenture dated as of May 1, 2010 (the "First Amendment"), and as supplemented by a First Supplemental Indenture, dated as of May 1, 2010, the Second Supplemental Indenture, dated as of January 1, 2013, the Third Supplemental Indenture, dated as of February 1, 2013, the Fourth Supplemental Indenture, dated as of May 1, 2016, the Fifth Supplemental Indenture, dated as of September 14, 2017, the Sixth Supplemental Indenture, dated as of July 1, 2018, the Seventh Supplemental Indenture dated as of August 1, 2018, the Eighth Supplemental Indenture, dated as of August 1, 2018, the Ninth Supplemental Indenture, dated as of July 27, 2018, the Tenth Supplemental Indenture dated as of June 12, 2020, the Eleventh Supplemental Indenture, dated as of June 12, 2020, the Twelfth Supplemental Indenture, dated as of November 1, 2021, the Thirteenth Supplemental Indenture, dated as of November 1, 2021, the Fourteenth Supplemental Indenture, dated as of July 1, 2022, and the Fifteenth Supplemental Indenture, dated as of April 1, 2023 (the Original Indenture and such aforementioned supplements, together with such other supplements or amendments as may be executed from time to time in accordance with the Original Indenture, the "Indenture");

WHEREAS, pursuant to Section 8B.124 of the City Charter ("Proposition E"), the Commission has the authority to issue additional revenue bonds for the purpose of reconstructing, replacing, expanding, repairing or improving water facilities or clean water facilities, or combinations of water and clean water facilities under the jurisdiction of the Commission, subject to certain conditions, including, among others, the adoption of an ordinance by a two-thirds vote of the Board of Supervisors of the City, under such terms and conditions as the Commission may authorize;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 12, 2012, adopted Ordinance No. 115-12, which was signed by the Mayor on June 18, 2012, authorizing issuance of not to exceed $522,810,000 of Bonds or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 24, 2014, adopted Ordinance No. 107-14, which was signed by the Mayor on July 2, 2014, authorizing issuance of not to exceed $819,035,941 of Bonds or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 14, 2016, adopted Ordinance No. 111-16, which was signed by the Mayor on June 24, 2016, authorizing issuance of not to exceed $1,112,601,280 of Bonds or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 12, 2018, adopted Ordinance No. 144-18, which was signed by the Mayor on June 20, 2018, authorizing issuance of not to exceed $987,414,494 of Bonds, loans or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on September 29, 2020, adopted Ordinance No. 173-20, which was signed by the Mayor on October 1, 2020, authorizing issuance of not to exceed $349,919,252 of Bonds, loans or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on July 27, 2021 adopted Ordinance No. 128-21, which was signed by the Mayor on August 4, 2021, amending Ordinance No. 173-20 and authorizing issuance of not to exceed $563,430,430 of Bonds, loans or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 14, 2022 adopted Ordinance No. 110-22, which was signed by the Mayor on June 24, 2022 (together with Ordinance No. 115-12, Ordinance No. 107-14, Ordinance No. 111-16, Ordinance No. 144-18, Ordinance No. 173-20 and Ordinance No. 128-21, the "Ordinances"), authorizing issuance of not to exceed $704,198,901 of Bonds or other forms of indebtedness;[1]

WHEREAS, the Indenture provides that the Commission may, subject to the requirements of the Law (as defined in the Indenture) and the Indenture, issue one or more other series of Bonds from time to time pursuant to a supplemental indenture;

WHEREAS, the Commission is seeking to finance a portion of the costs of the certain projects listed under the Wastewater Enterprise's capital improvement plan consisting of projects that are designed to repair, rehabilitate, and replace critical assets that have a significant risk of failure, and to upgrade the system to enhance reliability, resiliency, and sustainability (the "Wastewater Capital Plan Resilience Program", as generally categorized in Schedule I of the WIFIA Master Agreement, defined below);

WHEREAS, the Commission has determined to enter into a WIFIA Master Agreement, dated as of April 26, 2023 related to the Wastewater Capital Plan Resilience Program (the "WIFIA Master Agreement"), by and between the United States Environmental Protection Agency (the "EPA"), acting through the Administrator of the EPA, pursuant to which the EPA proposes to make funding available from time to time to the Commission for a project under the Wastewater Capital Plan Resilience Program through the execution of a WIFIA loan agreement, a WIFIA term sheet and the purchase of a WIFIA bond, issued pursuant to a supplemental indenture by the Commission, in each case with respect to such project, upon the terms and conditions set forth in the WIFIA Master Agreement;

[1] Recitals to be updated, as appropriate, to reflect then-current Supplemental Indentures and Ordinance authorizations.

WHEREAS, pursuant to the Ordinances and resolutions of the Commission, the Commission has determined to issue an additional Series of Bonds under this [_____] Supplemental Indenture designated "Public Utilities Commission of the City and County of San Francisco Wastewater Revenue Bonds (SFPUC Wastewater Capital Plan Resilience Program – Project [●])" in an aggregate principal amount not to exceed $[●] (excluding the Accreted Interest, as provided herein) (the "WIFIA Project [●] Bond"), to, among other things, finance or refinance Eligible Project Costs (as defined herein) related to the [_____] project under the Wastewater Capital Plan Resilience Program located in the City (as more fully described in the WIFIA Project [●] Loan Agreement, the "Project");

WHEREAS, the Commission has determined to enter into a WIFIA Loan Agreement, dated as of _____, 20[●] (the "WIFIA Project [●] Loan Agreement" and, together with the WIFIA Master Agreement, the "WIFIA Project [●] Loan Documents"), by and between the EPA, acting through the Administrator of the EPA, pursuant to which the EPA, subject to the terms and conditions of this [_____] Supplemental Indenture and the WIFIA Project [●] Loan Documents, will agree to purchase the WIFIA Project [●] Bond, in one or more installments, from disbursements made from time to time under the WIFIA Project [●] Loan Agreement;

WHEREAS, the WIFIA Project [●] Bond will be issued by the Commission under the Indenture as a separate Series of Bonds payable on a parity with all other Outstanding Bonds issued thereunder;

WHEREAS, all acts, conditions and things required by law to exist, to have happened and to have been performed precedent to and in connection with the execution and the entering into of this [_____] Supplemental Indenture do exist, have happened and have been performed in regular and due time, form and manner as required by law, and the parties hereto are now duly authorized to execute and enter into this [_____] Supplemental Indenture;

NOW, THEREFORE, the parties hereto agree, as follows:

ARTICLE LXX

Section 70.01. Definitions. The terms defined in this section shall, for all purposes of this [_____] Supplemental Indenture, have the meanings herein specified, to be equally applicable to both the singular and the plural forms of any of the terms herein defined. Terms defined in the Indenture and not otherwise defined herein shall have the meanings specified therein.

Accreted Interest

"Accreted Interest" means, for all purposes of this [_____] Supplemental Indenture, the interest that is accrued on the WIFIA Project [●] Bond and added to the Outstanding WIFIA Project [●] Bond Balance on each Semi-Annual Payment Date occurring during the Capitalized Interest Period in accordance with the WIFIA Loan Documents and Section 71.01(g).

Business Day

"Business Day" means, for all purposes of this [_____] Supplemental Indenture, any day other than a Saturday, a Sunday or a day on which offices of the United States Government or the State are authorized to be closed or on which commercial banks are authorized or required by law, regulation or executive order to be closed in New York, New York or San Francisco, California

Capitalized Interest Period

"Capitalized Interest Period" means, for all purposes of this [_____] Supplemental Indenture the period from (and including) the first Disbursement Date to (and including) the date that is six (6) months prior to [●], unless earlier terminated by written notice from the WIFIA Lender in accordance with the WIFIA Project [●] Loan Documents and Section 71.01(g).

Debt Service Payment Commencement Date

"Debt Service Payment Commencement Date" means, for all purposes of this [_____] Supplemental Indenture the earlier to occur of (a) [●] and (b) the Semi-Annual Payment Date on or immediately preceding the fifth (5^{th}) anniversary of the Substantial Completion Date (as defined in the WIFIA Project [●] Loan Documents); provided that, if the Capitalized Interest Period ends pursuant to the WIFIA Project [●] Loan Documents due to the occurrence of a WIFIA System Event of Default or a Project [●] Project Event of Default, the Debt Service Payment Commencement Date shall be the first Semi-Annual Payment Date immediately following the end of the Capitalized Interest Period.

Disbursement Date

"Disbursement Date" means, for all purposes of this [_____] Supplemental Indenture, any date on which the WIFIA Lender purchases all or a portion of the WIFIA Project [●] Bond with the proceeds of a disbursement provided under the WIFIA Project [●] Loan Documents in compliance with Section 71.03.

Eligible Project Costs

"Eligible Project Costs" shall have the meaning set forth as "Eligible Project Costs" in the WIFIA Project [●] Loan Documents.

Interest Fund

"Interest Fund" means the fund of that name established pursuant to Section 5.02 of the Indenture for the purposes specified in Section 5.03 of the Indenture.

Interest Only Period

"Interest Only Period" means, for all purposes of this [_____] Supplemental Indenture, the period commencing from (and including) the Debt Service Payment Commencement Date

and ending on [●] (or on such earlier date as all amounts due or to become due to the WIFIA Lender under the WIFIA Project [●] Bond have been irrevocably paid in full in cash).

Minimum Sinking Fund Account Payment Schedule

"Minimum Sinking Fund Account Payment Schedule" means, for all purposes of this [_____] Supplemental Indenture, the schedule of required Minimum Sinking Fund Account Payments required to be made on each Semi-Annual Payment Date as set forth as Exhibit A-2 to the WIFIA Project [●] Bond. The schedule will be initially calculated on each Disbursement Date in accordance with Section 71.01 and shall be subject to adjustment from time to time as provided in Section 71.05(c).

Net Loss Proceeds

"Net Loss Proceeds" for all purposes of this [_____] Supplemental Indenture, shall have the meaning set forth in the WIFIA Project [●] Loan Documents.

Outstanding WIFIA Project [●] Bond Balance

"Outstanding WIFIA Project [●] Bond Balance" means, as of the date of calculation, the sum of (a) the aggregate principal amount of the WIFIA Project [●] Bond purchased and sold on each Disbursement Date to the WIFIA Lender (*i.e.*, the sum of the funds received by the Trustee from the WIFIA Lender on each such Disbursement Date), plus (b) the Accreted Interest added to the principal balance of the WIFIA Project [●] Bond on each Semi-Annual Payment Date occurring during the Capitalized Interest Period, which shall be the sum of (i) the interest accrued since the last Semi-Annual Payment Date on the Outstanding WIFIA Project [●] Bond Balance as of such Semi-Annual Payment Date, and (ii) if any Disbursement Date has occurred since the last Semi-Annual Payment Date, the interest accrued on the amount of the proceeds of each disbursement since the applicable Disbursement Date, minus (c) the aggregate principal amount of the WIFIA Project [●] Bond paid or redeemed by the Commission on each Semi-Annual Payment Date or any redemption date, if earlier.

Principal Fund

"Principal Fund" means the fund of that name established pursuant to Section 5.02 of the Indenture for the purposes specified in Section 5.04 of the Indenture.

Principal Payment Date

"Principal Payment Date" for all purposes of this [_____] Supplemental Indenture shall have the meaning set forth in Section 71.01(h).

Project

"Project" for all purposes of this [_____] Supplemental Indenture shall have the meaning set forth in the preambles of this [_____] Supplemental Indenture.

Semi-Annual Payment Date

"Semi-Annual Payment Date" means each April 1 and October 1, commencing on the first such date following the first Disbursement Date.

WIFIA Lender

"WIFIA Lender" means the registered owner of the WIFIA Project [●] Bond, being initially, the United States Environmental Protection Agency (the "EPA"), an agency of the United States of America, acting by and through the Administrator of the EPA, and, if the conditions to transfer of the WIFIA Project [●] Bond set forth in Section 71.02(c) hereof are satisfied, any registered assign.

WIFIA Lender's Authorized Representative

"WIFIA Lender's Authorized Representative" shall have the meaning set forth in the WIFIA Project [●] Loan Documents.

WIFIA Master Agreement

"WIFIA Master Agreement" shall have the meaning set forth in the Preambles hereto.

WIFIA Payment Default

"WIFIA Payment Default" shall mean a Payment Default as defined in the WIFIA Project [●] Loan Documents.

WIFIA Project [●] Bond

"WIFIA Project [●] Bond" means, collectively, the Public Utilities Commission of the City and County of San Francisco Wastewater Revenue Bonds (SFPUC Wastewater Capital Plan Resilience Program – Project [●]) issued pursuant to the terms of this [_____] Supplemental Indenture.

WIFIA Project [●] Bond Default Rate

"WIFIA Project [●] Bond Default Rate" means an interest rate equal to the sum of the (a) WIFIA Project [●] Bond Interest Rate plus (b) 200 basis points.

WIFIA Project [●] Bond Final Maturity Date

"WIFIA Project [●] Bond Final Maturity Date" means the earlier to occur of (a) [●] (or such earlier date as is set forth in a revised Minimum Sinking Fund Account Payment Schedule delivered to the Trustee pursuant to Section 71.05(c)); and the Semi-Annual Payment Date immediately preceding the date that is thirty-five years following the Substantial Completion Date (as defined in the WIFIA Project [●] Loan Documents).

WIFIA Project [●] Bond Interest Rate

"WIFIA Project [●] Bond Interest Rate" means rate of [●]% per annum.

WIFIA Project [●] Loan Agreement

"WIFIA Project [●] Loan Agreement" shall have the meaning set forth in the Preambles hereto.

WIFIA Project [●] Loan Documents

"WIFIA Project [●] Loan Documents" shall have the meaning set forth in the Preambles hereto.

WIFIA Project [●] Project Account

"WIFIA Project [●] Project Account" means the account by that name established within the Capital Project Fund pursuant to Section 71.04.

WIFIA Project [●] Project Event of Default

"WIFIA Project [●] Project Event of Default" shall mean a Project Event of Default as defined in the WIFIA Project [●] Loan Documents.

WIFIA Project [●] Sinking Fund Account

"WIFIA Project [●] Sinking Fund Account" means the account by that name established within the Principal Fund pursuant to Section 71.01(j).

WIFIA System Event of Default

"WIFIA System Event of Default" shall mean a System Event of Default as defined in the WIFIA Project [●] Loan Documents.

ARTICLE LXXI

WIFIA PROJECT [●] BOND PROVISIONS

Section 71.01. Authorization and Terms of the WIFIA Project [●] Bond.

(a) A Series of Bonds is hereby created, and such Bonds are designated as the "Public Utilities Commission of the City and County of San Francisco Wastewater Revenue Bonds (SFPUC Wastewater Capital Plan Resilience Program – Project [●])," which shall be a Series of Clean Water Revenue Bonds issued under the Indenture. The aggregate initial principal amount of the WIFIA Project [●] Bond that may be issued to the WIFIA Lender under this [_____] Supplemental Indenture shall not exceed $[●] (excluding the Accreted Interest, as provided herein, the "Maximum Initial Principal Amount").

(b) The WIFIA Project [●] Bond shall be initially issued as a single, fully registered Bond without coupons, registered in the name of the WIFIA Lender, in an aggregate principal amount not to exceed the Maximum Initial Principal Amount. The WIFIA Project [●] Bond may be issued in any denomination representing a multiple of $1.

(c) The WIFIA Project [●] Bond shall constitute a Capital Appreciation Bond during the Capitalized Interest Period, and thereafter shall automatically convert to a Current Interest Bond and Term Bond.

(d) The WIFIA Project [●] Bond will accrue interest on the Outstanding WIFIA Project [●] Bond Balance, from (and including) the first Disbursement Date, at the WIFIA Project [●] Bond Interest Rate (unless the WIFIA Project [●] Bond Default Rate is in effect, as hereinafter provided). Interest will accrue and be computed on the Outstanding WIFIA Project [●] Bond Balance from time to time on the basis of a 360-day year of twelve (12) thirty (30) day months, and will be compounded semi-annually on each Semi-Annual Payment Date occurring during the Capitalized Interest Period; provided that, in the event of any WIFIA Payment Default or any WIFIA Project [●] Project Event of Default, the WIFIA Project [●] Bond shall bear interest on the Outstanding WIFIA Project [●] Bond Balance at the WIFIA Project [●] Bond Default Rate, (a) in the case of any WIFIA Payment Default, from (and including) its due date to (but excluding) the date of any payment so due, and (b) in the case of any WIFIA Project [●] Project Event of Default, from (and including) the date of such occurrence until (and excluding) the date such WIFIA Project [●] Project Event of Default has been cured in accordance with the terms of the WIFIA Project [●] Loan Documents. The WIFIA Lender shall give notice to the Trustee and the Commission of any WIFIA Payment Default or WIFIA Project [●] Project Event of Default, which notice shall specify the effective date of the WIFIA Project [●] Bond Default Rate and shall be deemed conclusive by the Trustee absent manifest error. No failure or delay on the part of the WIFIA Lender in providing such notice, nor any defect in such notice shall affect in any manner the Commission's obligations hereunder or under the WIFIA Project [●] Bond.

(e) Within thirty (30) days following each Disbursement Date, each Semi-Annual Payment Date, and each redemption date, the WIFIA Lender shall make a notation on the WIFIA Project [●] Bond of the Outstanding WIFIA Project [●] Bond Balance as of such Disbursement Date, Semi-Annual Payment Date or redemption date (as the case may be) and shall give written notice to the Commission and the Trustee stating the Outstanding WIFIA Project [●] Bond Balance as of such date, which statement and notation thereof shall be deemed conclusive absent manifest error; provided, however, that no failure to make such notation or any delay in giving such notice or in making such notation shall affect any of the obligations of the Commission hereunder or under the WIFIA Project [●] Bond. To avoid any ambiguity, the notation made by the WIFIA Lender of the Outstanding WIFIA Project [●] Bond Balance during the Capitalized Interest Period shall reflect the Accreted Value of the WIFIA Project [●] Bond as of the relevant Semi-Annual Payment Date.

(f) The WIFIA Project [●] Bond shall mature on the WIFIA Project [●] Bond Final Maturity Date, subject to earlier redemption as provided herein.

(g) No payment of the principal of or interest on the WIFIA Project [●] Bond will be required to be made by the Commission during the Capitalized Interest Period, and during the Capitalized Interest Period interest will accrue on the Outstanding WIFIA Project [●] Bond Balance and will compound and be added to the Outstanding WIFIA Project [●] Bond Balance on each Semi-Annual Payment Date. Notwithstanding the foregoing, the Capitalized Interest Period shall end immediately upon written notification to the Commission and the Trustee by the WIFIA Lender in accordance with the WIFIA Project [●] Loan Documents that a WIFIA System Event of Default or a WIFIA Project [●] Project Event of Default has occurred, in which case the Capitalized Interest Period shall cease and interest on the WIFIA Project [●] Bond (accrued since the last Semi-Annual Payment Date) shall be payable on the next Semi-Annual Payment Date following such termination and notification by the WIFIA Lender.

(h) Commencing on the Debt Service Payment Commencement Date and on each successive Semi-Annual Payment Date through the end of the Interest Only Period, the Commission will pay interest accrued on the Outstanding WIFIA Project [●] Bond Balance through (but not including) such Semi-Annual Payment Date. Commencing on the first Semi-Annual Payment Date following the end of the Interest Only Period, the Commission will pay interest on the Outstanding WIFIA Project [●] Bond Balance together with the Minimum Sinking Fund Account Payment due on each such Semi-Annual Payment Date (each of such Semi-Annual Payments Dates being referred to as a "Principal Payment Date") in accordance with the Minimum Sinking Fund Account Payment Schedule established pursuant to Section 71.05(c).

(i) The principal of, redemption price, and interest on the WIFIA Project [●] Bond shall be payable by wire transfer in immediately available funds in US Dollars in accordance with the payment instructions provided by the WIFIA Lender pursuant to Section 71.08 and no presentation of the WIFIA Project [●] Bond shall be required for any such payment, except that the final payment of the WIFIA Project [●] Bond shall be made upon or following presentation of the WIFIA Project [●] Bond for cancellation at the corporate trust office of the Trustee.

(j) In accordance with Section 5.03 and Section 5.04 of the Indenture, the Commission shall deposit with the Trustee, on or before five Business Days prior to each Semi-Annual Payment Date the amount of interest and principal (or Minimum Sinking Fund Account Payment) required to be paid on the WIFIA Project [●] Bond. Upon receipt, the Trustee shall deposit such amounts into the Interest Fund and into the WIFIA Project [●] Sinking Fund Account of the Principal Fund (which WIFIA Project [●] Sinking Fund Account the Commission hereby instructs the Trustee to create and maintain). On each Semi-Annual Payment Date, the Trustee shall remit such payment of interest and principal to the WIFIA Lender in accordance with Section 5.03 and Section 5.04 of the Indenture and Section 71.08; provided that, if any such date is not a Business Day, payment shall be made on the next Business Day following such date.

(k) Notwithstanding anything herein to the contrary, the Outstanding WIFIA Project [●] Bond Balance and any accrued interest thereon shall be due and payable in full on the WIFIA Project [●] Bond Final Maturity Date, unless required to be paid earlier due to acceleration or otherwise.

Section 71.02. Form of Bond; Execution and Authentication; Transferability.

(a) The WIFIA Project [●] Bond and the Trustee's certificates of authentication and registration and the form of assignment to appear thereon shall be in substantially the form set forth as Exhibit A to this [_____] Supplemental Indenture, with necessary or appropriate variations, omissions and insertions as permitted or required by this [_____] Supplemental Indenture.

(b) At any time on or after the date of execution of this [_____] Supplemental Indenture and the WIFIA Project [●] Loan Documents, the Commission may execute and, upon a Written Request of the Commission, the Trustee shall authenticate and deliver WIFIA Project [●] Bond to the WIFIA Lender.

(c) The WIFIA Project [●] Bond is transferable by the registered owner hereof in person or by his attorney duly authorized in writing, at the principal corporate trust office of the Trustee in San Francisco, California, but only in the manner and upon payment of the charges provided in the Indenture, upon surrender and cancellation of the WIFIA Project [●] Bond and upon presentation to the Trustee of a Written Certificate from the Commission confirming that the transfer complies with the terms of the WIFIA Project [●] Loan Documents, upon which the Trustee shall authenticate and deliver a new WIFIA Project [●] Bond or Bonds of the same series in authorized denominations, and in an aggregate principal amount equal to the Outstanding WIFIA Project [●] Bond Balance of the WIFIA Project [●] Bond so transferred. If less than the entire Outstanding WIFIA Project [●] Bond Balance of the WIFIA Project [●] Bond is so transferred, the Trustee shall authenticate and deliver a separate WIFIA Project [●] Bond or Bonds of the same series to each of the transferor and transferee, reflecting the Outstanding WIFIA Project [●] Bond Balance on each such Bond and the revised Minimum Sinking Fund Account Payments applicable to such Bond. The provisions set forth in this section shall apply to all subsequent transfers following the initial transfer.

Section 71.03. Conditions to Each Disbursement and Issuance (or Increase) of the WIFIA Project [●] Bond; Application of Proceeds. On each Disbursement Date, the outstanding principal amount of the WIFIA Project [●] Bond shall be increased, and the WIFIA Project [●] Bond shall be deemed purchased and delivered to the WIFIA Lender in an amount equal to the purchase price received by the Trustee from the WIFIA Lender, provided that the Commission has filed with the Trustee, with copies to the WIFIA Lender, the following:

(a) The certificates required by the provisions of Section 3.08 of the Indenture;

(b) A Certificate of an Authorized Officer (i) stating the principal amount of the WIFIA Project [●] Bond to be deemed purchased, issued and delivered on such date; and (ii) certifying (A) that no Event of Default shall have occurred and be continuing under the Indenture and no event shall have occurred which, but for the passage of time or the giving of notice would constitute an Event of Default under the Indenture and (B) all other conditions precedent to the issuance of the WIFIA Project [●] Bond in such principal amount have been satisfied;

(c) An amended Exhibit A-2 to the WIFIA Project [●] Bond, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payments required to be paid on the WIFIA Project [●] Bond (as increased on such Disbursement Date) on each Principal Payment Date, as required and calculated pursuant to Section 71.05(c); and

(d) An Opinion of Counsel substantially to the following effect:

1. The execution and delivery of the [_____] Supplemental Indenture is in compliance with the requirements of the Indenture;

2. Upon receipt by the Trustee of a portion of the purchase price of the WIFIA Project [●] Bond on the Disbursement Date, the WIFIA Project [●] Bond, delivered to the WIFIA Lender in connection with the execution of the WIFIA Project [●] Loan Documents, in the principal amount deemed purchased by the WIFIA Lender as of such Disbursement Date, including any amount purchased on any prior Disbursement Date and any Accreted Interest thereon, will have been duly authorized, executed and delivered by, and will constitute the valid and binding limited obligation of, the Commission, as a Bond entitled to the benefits of a Bond under the Indenture, enforceable under the laws of the State of California without any further action by the Commission or any other Person;

3. The Indenture has been duly authorized, executed and delivered by, and constitutes the valid and binding obligation of, the Commission, enforceable against the Commission in accordance with its terms. The Indenture creates a valid pledge of the Net Revenues of the Enterprise, which pledge constitutes a lien on and security interest in the Net Revenues, to secure the payment of the principal of, and interest on the WIFIA Project [●] Bond, as and to the extent set forth in the Indenture and subject to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth therein, irrespective of whether any party has notice of the pledge and without the need for any physical delivery, recordation, filing or further act to perfect such assignment or pledge;

4. The WIFIA Project [●] Bond is a limited obligation of the Commission and is payable exclusively from and is secured by a pledge of the Net Revenues of the Enterprise on a parity with all other Bonds issued under the Indenture, including any Additional Bonds, in right of payment and right of security. The general fund of the City is not liable and the credit or taxing power of the City is not pledged for the payment of the WIFIA Project [●] Bond or the interest thereon. The Commission has no taxing power. The WIFIA Project [●] Bond is not secured by a legal or equitable pledge of, or charge, lien or encumbrance upon, any of the property of the City or of the Commission or any of its income or receipts, except the Net Revenues. All actions by the Commission that are required for the application of Net Revenues as required under the Indenture and under the WIFIA Project [●] Loan Documents have been duly and lawfully made; and

5. The WIFIA Project [●] Bond, in the principal amount deemed purchased, issued and delivered to the WIFIA Lender on the Disbursement Date, will not adversely affect the exclusion from federal income taxation of the interest on any Outstanding Bonds from the gross income of the holders thereof.

Upon the delivery of such purchase price to the Trustee in immediately available funds and receipt of the foregoing documents and opinion, the Trustee shall make a notation in its registration books of the principal amount of the WIFIA Project [●] Bond so purchased and delivered on such date and the resulting Outstanding WIFIA Project [●] Bond Balance on such date, and the WIFIA Lender shall make similar notation on the WIFIA Project [●] Bond, all in accordance with Section 71.01; provided that the failure of the WIFIA Lender to make such notation shall not affect in any manner the Commission's obligations hereunder or under the WIFIA Project [●] Bond. The notation in the registration book of the Trustee shall also serve to authenticate the WIFIA Project [●] Bond deemed issued, purchased and delivered on such date, regardless of the date of the original authentication on the WIFIA Project [●] Bond.

The Trustee shall transfer the purchase price received from the WIFIA Lender on the Disbursement Date to the Commission for deposit by the Commission into the WIFIA Project [●] Project Account or as otherwise instructed by the Commission. The Treasurer shall disburse amounts in the WIFIA Project [●] Project Account as specified in a Written Requisition of the Commission.

Section 71.04. Establishment and Application of the WIFIA Project [●] Project Account. The Commission hereby covenants and agrees to establish, maintain and hold hereunder within the Capital Project Fund, established under Section 3.04 of the Indenture, a separate account known as the "WIFIA Project [●] Project Account" (herein called the "WIFIA Project [●] Project Account"). The Treasurer shall hold the amounts on deposit in the WIFIA Project [●] Project Account, which shall be maintained and accounted for by the Controller so long as any moneys are on deposit therein. Upon completion of the Project, the Commission may direct the transfer of any remaining balance in the WIFIA Project [●] Project Account to any other lawfully available fund or account of the Commission.

The moneys in the WIFIA Project [●] Project Account shall be held by the Treasurer in trust and applied to the Eligible Project Costs for the Project. All moneys held by the Treasurer in the WIFIA Project [●] Project Account may be invested in Permitted Investments maturing not later than the date on which such moneys are required for payment by the Treasurer. The Treasurer shall pay out moneys from the WIFIA Project [●] Project Account only upon warrants drawn by the Controller in the manner provided by law. No withdrawals shall be made from the WIFIA Project [●] Project Account for any purpose not authorized by law.

Section 71.05. Terms of Redemption.

(a) *Optional Redemption.* After the Final Disbursement Date (as defined in the WIFIA Project [●] Loan Documents), the WIFIA Project [●] Bond shall be subject to redemption prior to the WIFIA Project [●] Bond Final Maturity Date, at the option of the Commission, from and to the extent of any source of available funds, as a whole or in part, from time to time but not more than once annually, in principal amounts of $1,000,000 or any integral multiple of $1 in excess thereof, at a redemption price equal to 100% of the principal amount of the WIFIA Project [●] Bond to be redeemed, plus accrued interest thereon to the date fixed for redemption, without premium or penalty. Each optional redemption of the WIFIA Project [●] Bond shall be made on such date and in such principal amount as shall be specified by the Commission in a written notice delivered to the WIFIA Lender and the Trustee; provided that,

the date of any such optional redemption shall be a Semi Annual Payment Date unless otherwise agreed to by the WIFIA Lender. In the case of any such optional redemption, such written notice shall be delivered to the WIFIA Lender and the Trustee not less than ten (10) days nor more than thirty (30) days prior to the date set for redemption, unless otherwise agreed by the WIFIA Lender with notice to the Trustee. At any time between delivery of such written notice and the applicable optional redemption date, the Commission may, without penalty or premium, rescind its notice of optional redemption by further written notice to the WIFIA Lender and the Trustee. Anything in this Indenture to the contrary notwithstanding, the failure by the Commission to make any optional redemption on the WIFIA Project [●] Bond shall not constitute a breach or default under the Indenture.

(b) *Extraordinary Redemption from Net Loss Proceeds*. The WIFIA Project [●] Bond shall be subject to redemption prior to its stated maturity, in whole or in part, at a redemption price equal to 100% of the principal amount of the WIFIA Project [●] Bond to be redeemed, plus accrued interest thereon to the date fixed for redemption, without premium, from Net Loss Proceeds in accordance with the WIFIA Project [●] Loan Documents and Section 6.20 of the Indenture. The Commission shall provide, or shall cause the Trustee to provide, written notice to the WIFIA Lender at least two (2) Business Days prior to the date on which it makes any such redemption; provided that the Commission's failure to deliver such notice shall not diminish, impair or otherwise affect the Commission's obligation to make any such redemption as and when the circumstances requiring such redemption have occurred under the WIFIA Project [●] Loan Documents and the Indenture.

(c) *Minimum Sinking Fund Account Redemption*. The WIFIA Project [●] Bond shall be subject to mandatory redemption from Minimum Sinking Fund Account Payments on each Principal Payment Date. The Minimum Sinking Fund Account Payment with respect to the WIFIA Project [●] Bond on each Principal Payment Date shall equal the product of the Outstanding WIFIA Project [●] Bond Balance as of the end of the Capitalized Interest Period times the percentage set forth on Exhibit A-2 to the WIFIA Project [●] Bond for such Principal Payment Date. On or before each Disbursement Date, the Commission will provide to the Trustee and the WIFIA Lender an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payments required to be paid on the WIFIA Project [●] Bond (as increased on such Disbursement Date) on each Principal Payment Date (assuming that the Capitalized Interest Period ends on [●]). Not later than thirty (30) days following the end of the Capitalized Interest Period, or, in the event the WIFIA Project [●] Bond (or any portion thereof) is deemed purchased and delivered after the end of the Capitalized Interest Period, on or before the Disbursement Date, the Commission will provide to the Trustee and the WIFIA Lender an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payments required to be paid on each Principal Payment Date. If the WIFIA Project [●] Bond Final Maturity Date is determined under the WIFIA Project [●] Loan Documents to be earlier than [●], the applicable percentages shown in the Minimum Sinking Fund Account Payment Schedule shall be amended so that the percentage allocated to any Principal Payment Date following the earlier WIFIA Project [●] Bond Final Maturity Date will be allocated pro-rata among the Principal Payment Dates occurring prior to the earlier WIFIA Project [●] Bond Final Maturity Date, and such calculations shall be included by the Commission in the amended

Exhibit A-2 provided to the Trustee and the WIFIA Lender pursuant to the preceding sentence, as approved by the WIFIA Lender. In addition, if the WIFIA Project [●] Bond is redeemed in part pursuant to clauses (a) or (b) of this Section 71.05, each such partial redemption shall result in a reduction of the Minimum Sinking Fund Account Payments on a pro rata basis (or in such other manner approved by the WIFIA Lender) and the Commission shall provide to the Trustee and the WIFIA Lender, not later than thirty (30) days following such optional redemption date, an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, which schedule shall become effective upon delivery to the Trustee. The WIFIA Lender shall reflect any revisions to Minimum Sinking Fund Account Payment Schedule on Exhibit A-2 of the WIFIA Project [●] Bond; provided that the failure to make any such revisions shall not affect in any manner the Commission's obligations hereunder or under the WIFIA Project [●] Bond. The Commission shall not be required to give the WIFIA Lender any prior notice of such Minimum Sinking Fund Account redemption.

(d) *Notices.* Each notice of redemption given pursuant to this Section 71.05 shall be accompanied by a Certificate of the Commission identifying the provision of this [_____] Supplemental Indenture and the WIFIA Project [●] Loan Documents pursuant to which such redemption (and prepayment) is being made and containing a calculation in reasonable detail of the amount of such redemption (and prepayment), including, if applicable, a revised schedule of Minimum Sinking Fund Account Payments resulting from redemption (and prepayment).

(e) *Application of Terms of Indenture.* The provisions of the Indenture relating to redemption of Bonds set forth in Sections 4.02, 4.03, 4.04, 4.05 and 4.06, to the extent inconsistent with this Section 71.05, shall not apply to the redemption of the WIFIA Project [●] Bond and the WIFIA Lender waives any rights to notice provided thereunder.

Section 71.06. No Defeasance. Anything to the contrary in the Indenture notwithstanding, the WIFIA Project [●] Bond shall not be subject to defeasance and no amounts in respect of the WIFIA Project [●] Bond shall be considered or deemed to have been paid until the WIFIA Lender shall have received irrevocable payment in immediately available funds in accordance with the requirements for payment set forth in this [_____] Supplemental Indenture.

Section 71.07. No Reserve. On January 30, 2013, certain amendments set forth in the First Amendment that govern the sizing of the Required Reserve for each Series of Bonds became effective in accordance with the terms of the Indenture. In accordance therewith, the Commission has determined not to fund the Required Reserve for the WIFIA Project [●] Bond.

Section 71.08. Notices; Payment Instructions.

(a) Notices to the WIFIA Lender hereunder shall be (a) in writing, (b) effective as provided below and (c) given by (i) nationally recognized courier service, (ii) hand delivery, or (iii) email, in each case to:

If to WIFIA Lender: United States Environmental Protection Agency

WJC-E 7334A
1200 Pennsylvania Avenue NW
Washington, DC 20460

Attention: WIFIA Director
Email: WIFIA_Portfolio@epa.gov

, or to such other address as shall be provided by the WIFIA Lender's Authorized Representative to the Commission and the Trustee. Unless otherwise instructed by the WIFIA Lender's Authorized Representative, all notices to the WIFIA Lender should be made by email to the email address noted above for the WIFIA Lender. Each such notice, request or communication shall be effective (x) if delivered by hand or by nationally recognized courier service, when delivered at the address specified in this Section 71.08 and (y) if given by email, when such email is delivered to the address specified in this Section 71.08; provided, that notices received on a day that is not a Business Day or after 5:00 p.m. Eastern Time on a Business Day will be deemed to be effective on the next Business Day.

(b) Any payments on the WIFIA Project [●] Bond to the WIFIA Lender shall be made by wire transfer in immediately available funds in accordance with payment instructions provided by the WIFIA Lender pursuant to the WIFIA Project [●] Loan Documents, as modified from time to time by the WIFIA Lender through a written notice executed by a WIFIA Lender's Authorized Representative and delivered to the Commission and the Trustee at least five (5) Business Days prior to its proposed effective date.

Section 71.09. Commission Representations. The Commission has reviewed all proceedings heretofore taken relative to the authorization of the WIFIA Project [●] Bond and has found, as a result of such review, that all conditions, things and acts required by law to exist, happen or be performed precedent to and in the issuance of the WIFIA Project [●] Bond, except as otherwise provided in Section 71.03, do exist, have happened and have been performed in due time, form and manner as required by law, and the Commission is authorized, pursuant to each and every requirement of law, including the Law and the Ordinances to issue the WIFIA Project [●] Bond in its maximum principal amount in Section 71.01(a) and in the manner and form otherwise provided in this [_____] Supplemental Indenture, without any further approval or action by the Board of Supervisors or the Commission.

Section 71.10. No Amendment without Consent of the WIFIA Lender. This [_____] Supplemental Indenture shall not be amended except with the prior written consent of the WIFIA Lender.

ARTICLE LXXII

CITY REQUIREMENTS; EXECUTION

As used in this Article, "Agreement" means the Indenture.

To the extent of any inconsistency between the provisions in this Article and the provisions in prior Articles of this Indenture entitled "City Requirements" or "Additional City Requirements," the provisions of this Article shall control.\

Section 72.01. Local Business Enterprise Utilization; Liquidated Damages.

(a) The LBE Ordinance. The Trustee shall comply with all the requirements of the Disadvantaged Business Enterprise Ordinance set forth in Chapter 14B of the San Francisco Administrative Code as it now exists or as it may be amended in the future (collectively the "LBE Ordinance"), provided such amendments do not materially increase the Trustee's obligations or liabilities, or materially diminish the Trustee's rights, under this [_____] Supplemental Indenture. Such provisions of the LBE Ordinance are incorporated by reference and made a part of this [_____] Supplemental Indenture as though fully set forth in this Section. The Trustee's willful failure to comply with any applicable provision of the LBE Ordinance is a material breach of the Trustee's obligations under this [_____] Supplemental Indenture and shall entitle City, subject to any applicable notice and cure provisions set forth in this [_____] Supplemental Indenture, to exercise any of the remedies provided for under this [_____] Supplemental Indenture, under the LBE Ordinance or otherwise available at law or in equity, which remedies shall be cumulative unless this [_____] Supplemental Indenture expressly provides that any remedy is exclusive. In addition, the Trustee shall comply fully with all other applicable local, state and federal laws· prohibiting discrimination and requiring equal opportunity in contracting, including subcontracting.

(b) Compliance and Enforcement. If the Trustee willfully fails to comply with any of the provisions of the LBE Ordinance, the rules and regulations implementing the LBE Ordinance, or the provisions of this [_____] Supplemental Indenture pertaining to LBE participation, the Trustee shall be liable for liquidated damages in an amount equal to the Trustee's net profit on this [_____] Supplemental Indenture, or 10% of the total amount of this [_____] Supplemental Indenture, or $1,000, whichever is greatest. The Director of the City's Human Rights Commission or any other public official authorized to enforce the LBE Ordinance (separately and collectively, the "Director of HRC") may also impose other sanctions against the Trustee authorized in the LBE Ordinance, including declaring the Trustee to be irresponsible and ineligible to contract with the City for a period of up to five years or revocation of the Trustee's DBE certification. The Director of HRC will determine the sanctions to be imposed, including the amount of liquidated damages, after investigation pursuant to Administrative Code §14B.17.

By entering into this [_____] Supplemental Indenture, the Trustee acknowledges and agrees that any liquidated damages assessed by the Director of the HRC shall be payable to City upon demand. ·The Trustee further acknowledges and agrees that any liquidated damages assessed may be withheld from any monies due to the Trustee on any contract with City,

The Trustee agrees to maintain records necessary for monitoring its compliance with the LBE Ordinance for a period of three years following termination or expiration of this [_____] Supplemental Indenture, and shall make such records available for audit and inspection by the Director of HRC or the Controller upon request.

Section 72.02. Nondiscrimination; Penalties.

(a) Trustee Shall Not Discriminate. In the performance of this [_____] Supplemental Indenture; the Trustee agrees not to discriminate against any employee, City and County employee working with such contractor or subcontractor, applicant for employment with such contractor or subcontractor, or against any person seeking accommodations, advantages, facilities, privileges, services, or membership in all business, social, or other establishments or organizations, on the basis of the fact or perception of a person's race, color, creed, religion, national origin, ancestry, age, height, weight, sex, sexual orientation, gender identity, domestic partner status, marital status, disability or Acquired Immune Deficiency Syndrome or HIV status (AIDS/HN status), or association with members of such protected classes, or in retaliation for opposition to discrimination against such classes.

(b) Subcontracts. The Trustee shall incorporate by reference in all subcontracts the provisions of §§12B.2(a), 12B.2(c)-(k), and 12C.3 of the San Francisco Administrative Code (copies of which are available from Purchasing) and shall require all subcontractors to comply with such provisions. The Trustee's failure to comply with the obligations in this subsection shall constitute a material breach of this [_____] Supplemental Indenture.

(c) Nondiscrimination in Benefits. The Trustee does not as of the date of this [_____] Supplemental Indenture and will not during the term of this [_____] Supplemental Indenture, in any of its operations in San Francisco, on real property owned by San Francisco, or where work is being performed for the City elsewhere in the United States, discriminate in the provision of bereavement leave, family medical leave, health benefits, membership or membership discounts, moving expenses, pension and retirement benefits or travel benefits, as well as any benefits other than the benefits specified above, between employees with domestic partners and employees with spouses, and/or between the domestic partners and spouses of such employees, where the domestic partnership has been registered with a governmental entity pursuant to state or local law authorizing such registration, subject to the conditions set forth in §12B.2(b) of the San Francisco Administrative Code.

(d) Condition to Contract. As a condition to this [_____] Supplemental Indenture, the Trustee shall execute the "Chapter 12B Declaration: Nondiscrimination in Contracts and Benefits" form (form HRC-12B-101) with supporting documentation and secure the approval of the form by the San Francisco Human Rights Commission.

(e) Incorporation of Administrative Code Provisions by Reference. The provisions of Chapters 12B and 12C of the San Francisco Administrative Code are incorporated in this Section by reference and made· a part of this [_____] Supplemental Indenture as though fully set forth herein. The Trustee shall comply fully with and be bound by all of the provisions that apply to this [_____] Supplemental Indenture under such Chapters, including but not limited to the remedies provided in such Chapters. Without limiting the foregoing, the Trustee understands that pursuant to §12B.2(h) of the San Francisco Administrative Code, a penalty of $50 for each person for each calendar day during which such person was discriminated against in violation of the provisions of this [_____] Supplemental Indenture may be assessed against the Trustee and/or deducted from any payments due the Trustee.

Section 72.03. MacBride Principles—Northern Ireland. The provisions of San Francisco Administrative Code §12F are incorporated by this reference and made part of this

Indenture. By entering into this Indenture, the Trustee confirms that it has read and understood that the City urges companies doing business in Northern Ireland to resolve employment inequities and to abide by the MacBride Principles, and urges San Francisco companies to do business with corporations that abide by the MacBride Principles.

Section 72.04. Tropical Hardwood and Virgin Redwood Ban. Under San Francisco Environment Code Section 804(b), the City urges the Trustee not to import, purchase, obtain, or use for any purpose, any tropical hardwood, tropical hardwood wood product, virgin redwood or virgin redwood wood product.

Section 72.05. Drug-Free Workplace Policy. The Trustee acknowledges that pursuant to the Federal Drug-Free Workplace Act of 1989, the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited on City premises. The Trustee agrees that any violation of this prohibition by the Trustee, its employees, agents or assigns will be deemed a material breach of this [_____] Supplemental Indenture.

Section 72.06. Compliance with Americans with Disabilities Act. The Trustee acknowledges that, pursuant to the Americans with Disabilities Act (ADA), programs, services and other activities provided by a public entity to the public, whether directly or through a contractor, must be accessible to the disabled public. The Trustee shall provide the services specified in this [_____] Supplemental Indenture in a manner that complies with the ADA and any and all other applicable federal, state and local disability rights legislation. The Trustee agrees not to discriminate against disabled persons in the provision of services, benefits or activities provided under this [_____] Supplemental Indenture and further agrees that any violation of this prohibition on the part of the Trustee, its employees, agents or assigns will constitute a material breach of this [_____] Supplemental Indenture.

Section 72.07. Sunshine Ordinance. In accordance with San Francisco Administrative Code §67.24(e), contracts, contractors' bids, responses to solicitations and all other records of communications between City and persons or firms seeking contracts, shall be open to inspection immediately after a contract has been awarded. Nothing in this provision requires the disclosure of a private person or organization's net worth or other proprietary financial data submitted for qualification for a contract or other benefit until and unless that person or organization is awarded the contract or benefit. Information provided which is covered by this paragraph will be made available to the public upon request.

Section 72.08. Limitations on Contributions. Through its execution of this [_____] Supplemental Indenture, the Trustee acknowledges that it is familiar with Section 1.126 of the City's Campaign and Governmental Conduct Code, which prohibits any person who contracts with the City for the rendition of personal services, for the furnishing of any material, supplies or equipment, for the sale or lease of any land or building, or for a grant, loan or loan guarantee, from making any campaign contribution to (1) an individual holding a City elective office if the contract must be approved by the individual, a board on which that individual serves; or a board on which an appointee of that individual serves, (2) a candidate for the office held by such individual, or (3) a committee controlled by such individual, at any time from the commencement of negotiations for the contract until the later of either the termination of negotiations for such contract or six months after the date the contract is approved. The Trustee

acknowledges that the foregoing restriction applies only if the contract or a combination or series of contracts approved by the same individual or board in a fiscal year have a total anticipated or actual value of $50,000 or more. The Trustee further acknowledges that the prohibition on contributions applies to each prospective party to the contract; each member of the Trustee's board of directors; the Trustee's chairperson, chief executive officer, chief financial officer and chief operating officer; any person with an ownership interest of more than 20 percent in the Trustee; any subcontractor listed in the bid or contract; and any committee that is sponsored or controlled by the Trustee. Additionally, the Trustee acknowledges that the Trustee must inform each of the persons described in the preceding sentence of the prohibitions contained in Section 1.126.

Section 72.09. Requiring Minimum Compensation for Covered Employees.

(a) The Trustee agrees to comply fully with and be bound by all of the provisions of the Minimum Compensation Ordinance (MCO), as set forth in San Francisco Administrative Code Chapter 12P (Chapter 12P), including the remedies provided, and implementing guidelines and rules. The provisions of Chapter l2P are incorporated herein-by reference and made a part of this [_____] Supplemental Indenture as though fully set forth. The text of the MCO is available on the web at http://www.sfgov.org/olse/mco. A partial listing of some of the Trustee's obligations under the MCO is set forth in this Section. The Trustee is required to comply with all the provisions of the MCO, irrespective of the listing of obligations in this Section.

The MCO requires the Trustee to pay the Trustee's employees a minimum hourly gross compensation wage rate and to provide minimum compensated and uncompensated time off. The minimum wage rate may change from year to year and the Trustee is obligated to keep informed of the then-current requirements. Any subcontract entered into by the Trustee shall require the subcontractor to comply with the requirements of the MCO and shall contain contractual obligations substantially the same as those set forth in this Section. It is the Trustee's obligation to ensure that any subcontractors of any tier under this [_____] Supplemental Indenture comply with the requirements of the MCO. If any subcontractor under this [_____] Supplemental Indenture fails to comply, City may pursue any of the remedies set forth in this Section against the Trustee.

(b) The Trustee shall not take adverse action or otherwise discriminate against an employee or other person for the exercise or attempted exercise of rights under the MCO. Such actions, if taken within 90 days of the exercise or attempted exercise of such rights, will be rebuttably presumed to be retaliation prohibited by the MCO.

(c) The Trustee shall maintain employee and payroll records as required by the MCO. If the Trustee fails to do so, it shall be presumed that the Trustee paid no more than the minimum wage required under State law.

(d) The City is authorized to inspect the Trustee's job sites and conduct interviews with employees and conduct audits of the Trustee.

(e) The Trustee's commitment to provide the Minimum Compensation is a material element of the City's consideration for this [_____] Supplemental Indenture. The City in its

sole discretion shall determine whether such a breach has occurred. The City and the public will suffer actual damage that will be impractical or extremely difficult to determine if the Trustee fails to comply with these requirements. The Trustee agrees that the sums set forth in Section 12P.6.1 of the MCO as liquidated damages are not a penalty, but are reasonable estimates of the loss that the City and the public will incur for the Trustee's noncompliance. The procedures governing the assessment of liquidated damages shall be those set forth in Section 12P.6.2 of Chapter 12P.

(f) The Trustee understands and agrees that if it fails to comply with the requirements of the MCO, the City shall have the right to pursue any rights or remedies available under Chapter 12P (including liquidated damages), under the terms of the contract, and under applicable law. If, within 30 days after receiving written notice of a breach of this [_____] Supplemental Indenture for violating the MCO, the Trustee fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, the Trustee fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion; the City shall have the right to pursue any rights or remedies available under applicable law, including those set forth in Section 12P.6(c) of Chapter 12P. Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to the City.

(g) The Trustee represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the MCO.

(h) The City may conduct random audits of the Trustee. Random audits shall be (i) noticed in advance in writing; (ii) limited to ascertaining whether Covered Employees are paid at least the minimum compensation required by the MCO; (iii) accomplished through an examination of pertinent records at a mutually agreed upon time and location within ten days of the written notice; and (iv) limited to one audit of the Trustee every two years for the duration of this [_____] Supplemental Indenture. Nothing in this [_____] Supplemental Indenture is intended to preclude the City from investigating any report of an alleged violation of the MCO.

Section 72.10. Requiring Health Benefits for Covered Employees. Unless exempt, the Trustee agrees to comply fully with and be bound by all of the provisions of the Health Care Accountability Ordinance (HCAO), as set forth in San Francisco Administrative Code Chapter 12Q, including the remedies provided, and implementing regulations, as the same may be amended from time to time. The provisions of Chapter 12Q are incorporated herein by reference and made a part of this [_____] Supplemental Indenture as though fully set forth. The text of the HCAO is available on the web at http://www.sfgov.org/oca/lwlh.htm. Capitalized terms used in this Section and not defined in this [_____] Supplemental Indenture shall have the meanings assigned to such terms in Chapter 12Q.

(a) For each Covered Employee, the Trustee shall provide the appropriate health benefit set forth in Section 12Q.3 of the HCAO. If the Trustee chooses to offer the health plan option, such health plan shall meet the minimum standards set forth by the San Francisco Health Commission.

(b) Notwithstanding the above, if the Trustee is a small business as defined in Section 12Q.3(d) of the HCAO, it shall have no obligation to comply with part (a) above.

(c) The Trustee's failure to comply with the HCAO shall constitute a material breach of this [_____] Supplemental Indenture. City shall notify the Trustee if such a breach has occurred. If, within 30 days after receiving City's written notice of a breach of this [_____] Supplemental Indenture for violating the HCAO, the Trustee fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, the Trustee fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion, City shall have the right to pursue the remedies set forth in 12Q.5(f)(1-5). Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to City.

(d) Any Subcontract entered into by the Trustee shall require the Subcontractor to comply with the requirements of the HCAO and shall contain contractual obligations substantially the same as those set forth in this Section. The Trustee shall notify City's Office of Contract Administration when it enters into such a Subcontract and shall certify to the Office of Contract Administration that it has notified the Subcontractor of the obligations under the HCAO and has imposed the requirements of the HCAO on Subcontractor through the Subcontract. The Trustee shall be responsible for its Subcontractors' compliance with this Chapter. If a Subcontractor fails to comply, the City may pursue the remedies set forth in this Section against the Trustee based on the Subcontractor's failure to comply, provided that City has first provided the Trustee with notice and an opportunity to obtain a cure of the violation.

(e) The Trustee shall not discharge, reduce in compensation, or otherwise discriminate against any employee for notifying City with regard to the Trustee's noncompliance or anticipated noncompliance with the requirements of the HCAO, for opposing any practice proscribed by the HCAO, for participating in proceedings related to the HCAO, or for seeking to assert or enforce any rights under the HCAO by any lawful means.

(f) The Trustee represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the HCAO.

(g) The Trustee shall maintain employee and payroll records in compliance with the California Labor Code and Industrial Welfare Commission orders, including the number of hours each employee has worked on the City Contract.

(h) The Trustee shall keep itself informed of the current requirements of the HCAO.

(i) The Trustee shall provide reports to the City in accordance with any reporting standards promulgated by the City' under the HCAO, including reports on Subcontractors and Subtenants, as applicable.

(j) The Trustee shall provide City with access to records pertaining to compliance with HCAO after receiving a written request from City to do so and being provided at least ten business days to respond.

(k) The Trustee shall allow City to inspect the Trustee's job sites and have access to the Trustee's employees in order to monitor and determine compliance with HCAO.

(l) The City may conduct random audits of the Trustee to ascertain its compliance with HCAO. The Trustee agrees to cooperate with City when it conducts such audits.

(m) If the Trustee is exempt from the HCAO when this [_____] Supplemental Indenture is executed because its amount is less than $25,000 ($50,000 for nonprofits), but the Trustee later enters into an agreement or agreements that cause the Trustee's aggregate amount of all agreements with City to reach $75,000, all the agreements shall be thereafter subject to the HCAO. This obligation arises on the effective date of the agreement that causes the cumulative amount of agreements between the Trustee and the City to be equal to or greater than $75,000 in the fiscal year.

Section 72.11. Prohibition on Political Activity with City Funds. In accordance with San Francisco Administrative Code Chapter 12.G, the Trustee may not participate in, support, or attempt to influence any political campaign for a candidate or for a ballot measure (collectively, "Political Activity") in the performance of the services provided under this [_____] Supplemental Indenture. The Trustee agrees to comply with San Francisco Administrative Code Chapter 12.G and any implementing rules and regulations promulgated by the City's Controller. The terms and· provisions of Chapter 12.G are incorporated herein by this reference. In the event the Trustee violates the provisions of this Section, the City may, in addition to any other rights or remedies available hereunder, (i) terminate this [_____] Supplemental Indenture, and (ii) prohibit the Trustee from bidding on or receiving any new City contract for a period of two (2) years. The Controller will not consider the Trustee's use of profit as a violation of this Section.

Section 72.12. Conflict of Interest. Through its execution of this [_____] Supplemental Indenture, the Trustee acknowledges that it is familiar with the provisions of Section 15.103 of the City's Charter, Article III, Chapter 2 of City's Campaign and Governmental Conduct Code, and Section 87100 *et seq.* and Section 1090 *et seq.* of the Government Code of the State of California, and certifies that it does not know of any facts which constitute a violation of said provision and agrees that it will immediately notify the City if it becomes aware of any such fact during the term of this [_____] Supplemental Indenture.

Section 72.13. Earned Income Credit (EIC) Forms. Administrative Code section 120 requires that employers provide their employees with IRS Form W5 (The Earned Income Credit Advance Payment Certificate) and the IRS EIC Schedule, as set forth below. Employers can locate these forms at the IRS Office, on the Internet, or anywhere that Federal Tax Forms can be found.

(a) The Trustee shall provide EIC Forms to each Eligible Employee at each of the following times: (i) within thirty days following the date on which this [_____] Supplemental Indenture becomes effective (unless the Trustee has already provided such EIC Forms at least once during the calendar year in which such effective date falls); (ii) promptly after any Eligible Employee is hired by the Trustee; and (iii) annually between January 1 and January 31 of each calendar year during the term of this [_____] Supplemental Indenture.

(b) Failure to comply with any requirement contained in subparagraph (a) of this Section shall constitute a material breach by the Trustee of the terms of this [_____] Supplemental Indenture. If, within thirty days after the Trustee receives written notice of such a breach; the Trustee fails to cure such breach or, if such breach cannot reasonably be cured within such period of thirty days, the Trustee fails to commence efforts to cure within such period or thereafter fails to diligently pursue such cure to completion, the City may pursue any rights or remedies available under this [_____] Supplemental Indenture or under applicable law.

(c) Any Subcontract entered into by the Trustee shall require the subcontractor to comply, as to the subcontractor's Eligible Employees, with each of the terms of this Section.

(d) Capitalized terms used in this Section and not defined in this [_____] Supplemental Indenture shall have the meanings assigned to such terms in Section 120 of the San Francisco Administrative Code.

Section 72.14. Preservative-treated Wood Containing Arsenic. The Trustee may not purchase preservative treated wood products containing arsenic in the performance of this [_____] Supplemental Indenture unless an exemption from the requirements of Chapter 13 of the San Francisco Environment Code is obtained from the Department of the Environment under Section 1304 of the Code. The term "preservative-treated wood containing arsenic" shall mean wood treated with a preservative that contains arsenic; elemental arsenic, or an arsenic copper combination, including, but not limited to, chromated copper arsenate preservative, ammoniacal copper zinc arsenate preservative, or ammoniacal copper arsenate preservative. The Trustee may purchase preservative-treated wood products on the list of environmentally preferable alternatives prepared and adopted by the Department of the Environment. This provision does not preclude the Trustee from purchasing preservative-treated wood containing arsenic for saltwater immersion. The term "saltwater immersion" shall mean a pressure-treated wood that is used for construction purposes or facilities that are partially or totally immersed in saltwater.

Section 72.15. Nondisclosure of Private Information. The Trustee has read and agrees to the terms set forth in San Francisco Administrative Code Sections 12M.2, "Nondisclosure of Private Information," and 12M.3, "Enforcement" of Administrative Code Chapter 12M, "Protection of Private Information," which are incorporated herein as if fully set forth. The Trustee agrees that any failure of the Trustee to comply with the requirements of Section 12M.2 of this Chapter shall be a material breach of this [_____] Supplemental Indenture. In such an event, in addition to any other remedies available to it under equity or law, the City may terminate this [_____] Supplemental Indenture, bring a false claim action against the Trustee pursuant to Chapter 6 or Chapter 21 of the Administrative Code, or debar the Trustee.

Section 72.16. Proprietary or Confidential Information of City. The Trustee understands and agrees that, in the performance of the work or services under this [_____] Supplemental Indenture or in contemplation thereof, the Trustee may have access to private or confidential information which may be owned or controlled by City and that such information may contain proprietary or confidential details, the disclosure of which to third parties may be damaging to City. The Trustee agrees that all information disclosed by City to the Trustee shall be held in confidence and used only in performance of the [_____] Supplemental Indenture.

The Trustee shall exercise the same standard of care to protect such information as a reasonably prudent contractor would use to protect its own proprietary data.

Section 72.17. Compliance with Laws. The Trustee shall keep itself fully informed of the City's Charter, codes, ordinances and regulations of the City and of all state, and federal laws in any manner affecting the performance of this [_____] Supplemental Indenture, and must at all times comply with such local codes, ordinances, and regulations and all applicable laws as they may be amended from time to time.

Section 72.18. Works for Hire. If, in connection with services performed under this [_____] Supplemental Indenture, the Trustee or its subcontractors create artwork, copy, posters, billboards, photographs, videotapes, audiotapes, systems designs, software, reports, diagrams, surveys, blueprints, source codes or any other original works of authorship, such works of authorship shall be works for hire as defined under Title 17 of the United States Code, and all copyrights in such works are the property of the City. If it is ever determined that any works created by the Trustee or its subcontractors under this [_____] Supplemental Indenture are not works for hire under U.S. law, the Trustee hereby assigns all copyrights to such works to the City, and agrees to provide any material and execute any documents necessary to effectuate such assignment. With the approval of the City, the Trustee may retain and use copies of such works for reference and as documentation of its experience and capabilities.

Section 72.19. Resource Conservation. Chapter 5 of the San Francisco Environment Code ("Resource Conservation") is incorporated herein by reference. Failure by the Trustee to comply with any of the applicable requirements of Chapter 5 will be deemed a material breach of contract.

Section 72.20. Public Access to Meetings and Records. If the Trustee receives a cumulative total per year of at least $250,000 in City funds or City-administered funds and is a non- profit organization as defined in Chapter 12L of the San Francisco Administrative Code; the Trustee shall comply with and be bound by all the applicable provisions of that Chapter. By executing this [_____] Supplemental Indenture, the Trustee agrees to open its meetings and records to the public in the manner set forth in §§12L.4 and 12L.5 of the Administrative Code. The Trustee further agrees to make-good faith efforts to promote community membership on its Board of Directors in the manner set forth in §12L.6 of the Administrative Code. The Trustee acknowledges that its material failure to comply with any of the provisions of this paragraph shall constitute a material breach of this [_____] Supplemental Indenture. The Trustee further acknowledges that such material breach of this [_____] Supplemental Indenture shall be grounds for the City to terminate and/or not renew the agreement, partially or in its entirety.

Section 72.21. Guaranteed Maximum Costs.

(a) The City's obligation to the Trustee hereunder shall not at any time exceed the amount certified by the Controller for the purpose and period stated in such certification.

(b) Except as may be provided by laws governing emergency procedures, officers and employees of the City are not authorized to request, and the City is not required to reimburse the

Trustee for, commodities or services beyond the agreed upon contract scope unless the changed scope is authorized by amendment and approved as required by law.

(c) Officers and employees of the City are not authorized to offer or promise, nor is the City required to honor, any offered or promised additional funding in excess of the maximum amount of funding for which the contract is certified without certification of the additional amount by the Controller.

(d) The Controller is not authorized to make payments on any contract for which funds have not been certified as available in the budget or by supplemental appropriation.

Section 72.22. Submitting False Claims; Monetary Penalties. Pursuant to San Francisco Administrative Code §21.16, any contractor, subcontractor or consultant who submits a false claim shall be liable to the City for three times the amount of damages which the City sustains because of the false claim. A contractor, subcontractor or consultant who submits a false claim shall also be liable to the City for the costs, including attorneys' fees, of a civil action brought to recover any of those penalties or damages, and may be liable to the City for a civil penalty of up to $10,000 for each false claim. A contractor, subcontractor or consultant will be deemed to have submitted a false claim to the City if the contractor, subcontractor or consultant: (a) knowingly presents or causes to be presented to an officer or employee of the City a false claim or request for payment or approval; (b) knowingly makes, uses, or causes to be made or used a false record or statement to get a false claim paid or approved by the City; (c) conspires to defraud the City by getting a false claim allowed or paid by the City; (d) knowingly makes, uses, or causes to be made or used a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the City; or (e) is a beneficiary of an inadvertent submission of a false claim to the City; subsequently discovers the falsity of the claim, and fails to disclose the false claim to the City within a reasonable time after discovery of the false claim.

Section 72.23. Agreement Made in California; Venue. The formation, interpretation and performance of this Agreement shall be governed by the laws of the State of California. Venue for all litigation relative to the formation, interpretation and performance of this Agreement shall be in San Francisco.

Section 72.24. Ownership of Results. Any interest of the Trustee or its Subcontractors, in drawings, plans, specifications, blueprints, studies, reports, memoranda, computation sheets, computer files and media or other documents prepared by the Trustee or its subcontractors in connection with services to be performed under this [_____] Supplemental Indenture, shall become the property of and will be transmitted to City. However, the Trustee may retain and use copies for reference and as documentation of its experience and capabilities.

Section 72.25. Audit and Inspection of Records. The Trustee agrees to maintain and make available to the City, during regular business hours, accurate books and accounting records relating to its work under this [_____] Supplemental Indenture. The Trustee will permit City to audit, examine and make excerpts and transcripts from such books and records, and to make audits of all invoices, materials, payrolls, records or personnel and other data related to all other matters covered by this [_____] Supplemental Indenture, whether funded in whole or in part

under this [_____] Supplemental Indenture. The Trustee shall maintain such data and records in an accessible location and condition for a period of not less than three years after final payment under this [_____] Supplemental Indenture or until after final audit has been resolved, whichever is later. The State of California or any federal agency having an interest in the subject matter of this [_____] Supplemental Indenture shall have the same rights conferred upon City by this Section.

Section 72.26. Subcontracting. The Trustee is prohibited from subcontracting this [_____] Supplemental Indenture or any part of it unless such subcontracting is first approved by City in writing. Neither party shall, on the basis of this [_____] Supplemental Indenture, contract on behalf of or in the name of the other party. An agreement made in violation of this provision shall confer no rights on any party and shall be null and void.

Section 72.27. Assignment. The services to be performed by Trustee are personal in character and neither this [_____] Supplemental Indenture nor any duties or obligations hereunder may be assigned or delegated by the Trustee unless first approved by the Commission and the City by written instrument executed and approved in the same manner as this [_____] Supplemental Indenture.

Section 72.28. Non-Waiver of Rights. The omission by either party at any time to enforce any default or right reserved to it, or to require performance of any of the terms, covenants, or provisions hereof by the other party at the time designated, shall not be a waiver of any such default or right to which the party is entitled, nor shall it in any way affect the right of the party to enforce such provisions thereafter.

Section 72.29. City a Third Party Beneficiary. The City is hereby designated as a third party beneficiary for the purpose of enforcing all of the obligations of the Trustee contained in Article XXV of this [_____] Supplemental Indenture and to the extent that any other rights are given to the City hereunder.

Section 72.30. Food Service Waste Reduction Requirements. Effective June 1, 2007, the Trustee agrees to comply fully with and be bound by all of the provisions of the Food Service Waste Reduction Ordinance, as set forth in San Francisco Environment Code Chapter 16, including the remedies provided, and implementing guidelines and rules. The provisions of Chapter 16 are incorporated herein by reference and made a part of this [_____] Supplemental Indenture as though fully set forth. This provision is a material term of this [_____] Supplemental Indenture. By entering into this [_____] Supplemental Indenture, the Trustee agrees that if it breaches this provision, City will suffer actual damages that will be impractical or extremely difficult to determine; further, the Trustee agrees that the sum of one hundred dollars ($100) liquidated damages for the first breach, two hundred dollars ($200) liquidated damages for the second breach in the same year, and five hundred dollars ($500) liquidated damages for subsequent breaches in the same year is a reasonable estimate of the damage that the City will incur based on the violation, established in light of the circumstances existing at the time this [_____] Supplemental Indenture was made. Such amount shall not be considered a penalty, but rather agreed monetary damages sustained by the City because of the Trustee's failure to comply with this provision.

Section 72.31. Graffiti Removal. Graffiti is detrimental to the health, safety and welfare of the community in that it promotes a perception in the community that the laws protecting public and private property can be disregarded with impunity. This perception fosters a sense of disrespect of the law that results in an increase in crime; degrades the community and leads to urban blight; is detrimental to property values, business opportunities and the enjoyment of life; is inconsistent with the City's property maintenance goals and aesthetic standards; and results in additional graffiti and in other properties becoming the target of graffiti unless it is quickly removed from public and private property. Graffiti results in visual pollution and is a public nuisance. Graffiti must be abated as quickly as possible to avoid detrimental impacts on the City and County and its residents, and to prevent the further spread of graffiti. The Trustee shall remove all graffiti from any real property owned or leased by the Trustee in the City and County of San Francisco within forty eight (48) hours of the earlier of the Trustee's (a) discovery or notification of the graffiti or (b) receipt of notification of the graffiti from the Department of Public Works. This Section is not intended to require the Trustee to breach any lease or other agreement that it may have concerning its use of the real property. The term "graffiti" means any inscription, word, figure, marking or design that is affixed, marked, etched, scratched, drawn or painted on any building, structure, fixture or other improvement, whether permanent or temporary, including by way of example only and without limitation, signs, banners, billboards and fencing surrounding construction sites, whether public or private, without the consent of the owner of the property or the owner's authorized agent, and which is visible from the public right-of-way. "Graffiti" shall not include: (1) any sign or banner that is authorized by, and in compliance with, the applicable requirements of the San Francisco Public Works Code, the San Francisco Planning Code or the San Francisco Building Code; or (2) any mural or other painting or marking on the property that is protected as a work of fine art under the California Art Preservation Act (California Civil Code sections 987 et seq.) or as a work of visual art under the Federal Visual Artists Rights Act of 1990 (17 U.S.C. §§ 101 et seq.). Any failure of the Trustee to comply with this Section of this [_____] Supplemental Indenture shall constitute a material breach of this [_____] Supplemental Indenture.

Section 72.32. Counterparts; Electronic Delivery. This [_____] Supplemental Indenture may be executed in any number of counterparts and by the different parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute one and the same instrument; signature pages may be detached from multiple separate counterparts and attached to a single counterpart so that all signature pages are physically attached to the same document. This [_____] Supplemental Indenture may be delivered by the delivery of signed signature pages by electronic means, facsimile transmission, or by e-mail with a PDF copy attached, and any printed or copied versions of any signature page so delivered shall have the same force and effect as an originally signed version of such signature page. Signatures of this Eleventh Supplemental Indenture made by electronic means shall be accompanied by an email, contemporaneous or otherwise, confirming the use of such means.

[End of [_____] Supplemental Indenture]

IN WITNESS WHEREOF, the parties hereto have executed this [_____] Supplemental Indenture by their officers thereunto duly authorized as of the day and year first written above.

EXHIBIT A

FORM OF WIFIA PROJECT [●] BOND

Not to Exceed $[●] INITIAL PRINCIPAL AMOUNT
(excluding Accreted Interest) No. [●]

PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO
WASTEWATER REVENUE BONDS
(SFPUC WASTEWATER CAPITAL PLAN RESILIENCE PROGRAM – PROJECT [●])

Dated Date	Interest Rate	Final Maturity Date (subject to adjustment as provided in the Indenture)	CUSIP No.
_____, 20[●]	____%	[●]	[●]

Registered Owner: United States Environmental Protection Agency

Not to Exceed INITIAL Principal Amount
(excluding the Accreted Interest): [●]

The PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO, a commission duly organized and existing under and pursuant to the Charter of the City and County of San Francisco and the laws of the State of California (herein called the "Commission"), for value received, hereby promises to pay (but only out of the revenues hereinafter referred to) to the registered owner set forth above (the "WIFIA Lender"), or registered assigns, on the maturity date set forth above (subject to the right or obligation of prior redemption hereinafter provided for), the sum of the aggregate initial principal amounts of this Bond (hereinafter referred to as "Bond" or "WIFIA Project [●] Bond") issued on each Disbursement Date, as adjusted to reflect Accreted Interest as set forth below, and to pay (but only out of the Revenues hereinafter referred to) interest accrued on the Outstanding WIFIA Project [●] Bond Balance (as hereinafter defined) at the interest rate set forth above at the times and in the manner set forth herein. This Bond will accrue interest on the Outstanding WIFIA Project [●] Bond Balance commencing on the first Disbursement Date. Interest will accrue and be computed on the Outstanding WIFIA Project [●] Bond Balance from time to time on the basis of a 360-day year of twelve (12) thirty (30) day months, and will be compounded semi-annually on each April 1 and October 1 (each a "Semi-Annual Payment Date") occurring during the Capitalized Interest Period; provided that, in the event of any WIFIA Payment Default or any WIFIA Project [●] Project Event of Default, this Bond shall bear interest on the Outstanding WIFIA Project [●] Bond Balance at the WIFIA Project [●] Bond Default Rate, (a) in the case of any WIFIA Payment Default, from (and including) its due date to (but excluding) the date of any payment so due, and (b) in the case of any WIFIA Project [●] Project Event of Default, from

(and including) the date of such occurrence until (and excluding) the date such WIFIA Project [●] Project Event of Default has been cured in accordance with the terms of the WIFIA Project [●] Loan Documents. The WIFIA Lender shall give notice to the Trustee and the Commission of any WIFIA Payment Default or WIFIA Project [●] Project Event of Default, which notice shall specify the effective date of the WIFIA Project [●] Bond Default Rate and shall be deemed conclusive by the Trustee absent manifest error. No failure or delay on the part of the WIFIA Lender in providing such notice, nor any defect in such notice shall affect in any manner the Commission's obligations under this Bond.

No payment of the principal of or interest on this Bond shall be payable by the Commission during the Capitalized Interest Period, and during the Capitalized Interest Period interest will accrue on the Outstanding WIFIA Project [●] Bond Balance and will compound and be added to the Outstanding WIFIA Project [●] Bond Balance on each Semi Annual Payment Date. Notwithstanding the foregoing, the Capitalized Interest Period shall end immediately upon written notification to the Commission and the Trustee by the WIFIA Lender in accordance with the WIFIA Project [●] Loan Documents that a WIFIA System Event of Default or a WIFIA Project [●] Project Event of Default has occurred, in which case the Capitalized Interest Period shall cease and interest on this WIFIA Project [●] Bond (accrued since the last Semi-Annual Payment Date) shall be payable on the next Semi-Annual Payment Date following such termination and notification by the WIFIA Lender.

Commencing on the Debt Service Payment Commencement Date and on each successive Semi-Annual Payment Date through the end of the Interest Only Period, the Commission will pay interest accrued on the Outstanding WIFIA Project [●] Bond Balance through (but not including) such Semi-Annual Payment Date. Commencing on the Semi-Annual Payment Date following the end of the Interest Only Period, the Commission will pay interest on the Outstanding WIFIA Project [●] Bond Balance together with the Minimum Sinking Fund Account Payment due on each such Semi-Annual Payment Date (each of such Semi-Annual Payment Dates being referred to as a "Principal Payment Date") in accordance with the Minimum Sinking Fund Account Payment Schedule. Notwithstanding anything herein to the contrary, the Outstanding WIFIA Project [●] Bond Balance and any accrued interest thereon shall be due and payable in full on the WIFIA Project [●] Bond Final Maturity Date, unless required to be paid earlier due to acceleration or otherwise.

The term "Outstanding WIFIA Project [●] Bond Balance" means, as of the date of calculation, the sum of (a) the aggregate principal amount of this Bond purchased and sold on each Disbursement Date to the WIFIA Lender (i.e., the sum of the funds received by the Trustee from the WIFIA Lender on each such Disbursement Date), plus (b) the Accreted Interest added to the principal balance of this WIFIA Project [●] Bond on each Semi-Annual Payment Date occurring during the Capitalized Interest Period, which shall be the sum of (i) the interest accrued since the last Semi-Annual Payment Date on the Outstanding WIFIA Project [●] Bond Balance as of such Semi-Annual Payment Date, and (ii) if any Disbursement Date has occurred since the last Semi-Annual Payment Date, the interest accrued on the amount of the proceeds of each disbursement since the applicable Disbursement Date, minus (c) the aggregate principal amount of this Bond paid or redeemed by the Commission on each Semi-annual Payment Date or any redemption date, if earlier.

Within thirty (30) days following each Disbursement Date, each Semi-Annual Payment Date, and each redemption date, the WIFIA Lender shall make a notation on the WIFIA Project [●] Bond of the Outstanding WIFIA Project [●] Bond Balance as of such Disbursement Date, Semi-Annual Payment Date or redemption date (as the case may be) and shall give written notice to the Commission and the Trustee stating the Outstanding WIFIA Project [●] Bond Balance as of such date, which statement and notation thereof shall be deemed conclusive absent manifest error; provided, however, that no failure to make such notation or any delay in giving such notice or in making such notation shall affect any of the obligations of the Commission on this WIFIA Project [●] Bond.

The principal of, redemption price, if any, and interest on this Bond shall be payable to the registered owner by wire transfer in immediately available funds in US Dollars in accordance with the payment instructions provided by the registered owner in accordance with the [_____] Supplemental Indenture (defined below) and no presentation of this WIFIA Project [●] Bond shall be required for any such payment, except that the final payment of this WIFIA Project [●] Bond shall be made upon or following presentation of this WIFIA Project [●] Bond for cancellation at the corporate trust office of the Trustee.

This Bond shall constitute a Capital Appreciation Bond during the Capitalized Interest Period, and thereafter shall automatically convert to a Current Interest Bond and Term Bond.

This Bond is issued under and pursuant to the provisions of the Charter of the City and County of San Francisco and all laws of the State of California supplemental thereto, including the Revenue Bond Law of 1941 to the extent made applicable by said Charter (herein collectively called the "Law"), and pursuant to an Indenture, dated as of January 1, 2003, between the Commission and the Trustee, as amended and supplemented, included as supplemented by that certain [_____] Supplemental Indenture, dated as of _____, 20[●] (the "[_____] Supplemental Indenture", and together with all supplements, the "Indenture"). Capitalized terms not defined herein shall have the meanings set forth in the [_____] Supplemental Indenture.

Reference is hereby made to the Indenture (a copy of which is on file at the office of the Trustee) and to the Law for a description of the terms on which this Bond is issued, the provisions with regard to the nature and extent of the Revenues (as such term is defined in the Indenture) and the rights thereunder (and limitations thereon) of the registered owner of this Bond and the rights, duties and immunities of the Trustee and the rights and obligations of the Commission thereunder; and all the terms of the Indenture and the Law are hereby incorporated herein and constitute a contract between the Commission and the registered owner of this Bond, and to all the provisions thereof the owner of this Bond, by acceptance hereof, consents and agrees. The registered owner hereof shall have recourse to all of the provisions of the Law and the Indenture and shall be bound by all of the terms and conditions thereof.

This Bond is being issued to finance and refinance the acquisition and construction of improvements to the Enterprise, as more particularly described in the Indenture. This Bond is a special obligation of the Commission and is payable, as to the principal and redemption price thereof, interest thereon, from the revenues of the Enterprise (which, as more particularly defined in the Indenture, are therein and herein called the "Revenues"). This Bond is secured by a

pledge of, and charge and lien upon, all of the Revenues, and the Revenues constitute a trust fund for the security and payment of the interest on and principal of this Bond, but nevertheless out of the Revenues certain amounts may be applied for other purposes prior to the payment of the interest on or principal of this Bond as provided in the Indenture. Additional series of Bonds and Parity Loans payable from the Revenues have been and may be issued on a parity with this Bond, but only subject to the conditions and limitations contained in the Indenture.

The principal of and interest on this Bond are payable solely from the Revenues, and the Commission is not obligated to pay them except from the Revenues. The Commission has no taxing power. The general fund of the City and County of San Francisco is not liable, and the credit or taxing power of the City and County of San Francisco is not pledged, for the payment of the Bonds or their interest. This Bond is not secured by a legal or equitable pledge of, or charge, lien or encumbrance upon, any of the property of the Commission or any of its income or receipts, except the Revenues. The owner hereof has no right to compel the exercise of any taxing power of the City and County of San Francisco.

The rights and obligations of the Commission and the owners of this Bond may be modified or amended at any time in the manner, to the extent and upon the terms provided in the Indenture.

After the Final Disbursement Date (as defined in the WIFIA Project [●] Loan Documents), this Bond shall be subject to redemption prior to the WIFIA Project [●] Bond Final Maturity Date, at the option of the Commission, from and to the extent of any source of available funds, as a whole or in part, from time to time but not more than once annually, in principal amounts of $1,000,000 or any integral multiple of $1 in excess thereof, at a redemption price equal to 100% of the principal amount of this Bond to be redeemed, plus accrued interest thereon to the date fixed for redemption, without premium or penalty. Each optional redemption of this Bond shall be made on such date and in such principal amount as shall be specified by the Commission in a written notice delivered to the WIFIA Lender and the Trustee; provided that the date of any such optional redemption shall be a Semi-Annual Payment date unless otherwise agreed to by the WIFIA Lender. In the case of any such optional redemption, such written notice shall be delivered to the WIFIA Lender and the Trustee not less than ten (10) days nor more than thirty (30) days prior to the date set for redemption, unless otherwise agreed by the WIFIA Lender with notice to the Trustee. At any time between delivery of such written notice and the applicable optional redemption date, the Commission may, without penalty or premium, rescind its announced optional redemption of this WIFIA Project [●] Bond by further written notice to the WIFIA Lender and the Trustee.

This Bond shall be also subject to redemption prior to its stated maturity, in whole or in part, at a redemption price equal to 100% of the principal amount of this WIFIA Project [●] Bond to be redeemed, plus accrued interest thereon to the date fixed for redemption, without premium, from Net Loss Proceeds in accordance with the WIFIA Project [●] Loan Documents and Section 6.20 of the Indenture. The Commission shall provide, or shall cause the Trustee to provide, written notice to the WIFIA Lender at least two (2) Business Days prior to the date on which it makes any such redemption; provided that the Commission's failure to deliver such notice shall not diminish, impair or otherwise affect the Commission's obligation to make any

such redemption as and when the circumstances requiring such redemption have occurred under the WIFIA Project [●] Loan Documents and the Indenture.

This Bond is also subject to mandatory redemption from Minimum Sinking Fund Account Payments on each Principal Payment Date in the amounts set forth on Exhibit A-2 to this Bond (being the "Minimum Sinking Fund Account Payment Schedule"), as adjusted from time to time pursuant to the [_____] Supplemental Indenture. The Minimum Sinking Fund Account Payment with respect to this Bond on each Principal Payment Date shall equal the product of the Outstanding WIFIA Project [●] Bond Balance as of the end of the Capitalized Interest Period times the percentage set forth on the Minimum Sinking Fund Account Payment Schedule for such Principal Payment Date. On or before each Disbursement Date, the Commission will provide to the Trustee and the WIFIA Lender an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payments required to be paid on this WIFIA Project [●] Bond (as increased on such Disbursement Date) on each Principal Payment Date (assuming that the Capitalized Interest Period ends on [●]). Not later than thirty (30) days following the end of the Capitalized Interest Period, or, in the event this Bond (or any portion thereof) is deemed purchased and delivered after the end of the Capitalized Interest Period, on the Disbursement Date, the Commission will provide to the Trustee and the WIFIA Lender an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payment required to be paid on each Principal Payment Date. If the WIFIA Project [●] Bond Final Maturity Date is determined under the WIFIA Project [●] Loan Documents to be earlier than [●], the applicable percentages shown in the Minimum Sinking Fund Account Payment Schedule shall be amended so that the percentage allocated to any Principal Payment Date following the earlier WIFIA Project [●] Bond Final Maturity Date will be allocated pro-rata among the Principal Payment Dates occurring prior to the earlier Final Maturity Date, and such calculations shall be included by the Commission in the amended Minimum Sinking Fund Account Payment Schedule provided to the Trustee and the WIFIA Lender pursuant to the preceding sentence, as approved by the WIFIA Lender. In addition, if this Bond is redeemed in part pursuant to the two preceding paragraphs above, each such partial redemption shall result in a reduction of the Minimum Sinking Fund Account Payments on a pro rata basis (or in such other manner approved by the WIFIA Lender) and the Commission shall provide to the Trustee and the WIFIA Lender, not later than thirty (30) days following such optional redemption date, a revised Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, which schedule shall become effective upon delivery to the Trustee. The WIFIA Lender shall reflect any revisions to Minimum Sinking Fund Account Payments on Exhibit A-2 to this Bond; provided that the failure to make any such revisions shall not affect in any manner the Commission's obligations under the [_____] Supplemental Indenture or under this Bond. The Commission shall not be required to give the WIFIA Lender any prior notice of such Minimum Sinking Fund Account Payment redemption.

This Bond shall be issued as a single, fully registered Bond without coupons, in an aggregate principal amount not to exceed the Maximum Initial Principal Amount plus the Accreted Interest. The principal amount of this Bond may be increased on each Disbursement Date upon satisfaction of the conditions for issuance of such increased principal amount as provided in the [_____] Supplemental Indenture.

This Bond is transferable by the registered owner hereof in person or by his attorney duly authorized in writing, at the principal corporate trust office of the Trustee in San Francisco, California, but only in the manner, subject to the conditions and limitations set forth in the [_____] Supplemental Indenture and upon payment of the charges provided in the Indenture, and upon surrender and cancellation of this Bond. Upon such transfer a new fully registered Bond or Bonds of the same series, and in an aggregate principal amount equal to the Outstanding WIFIA Project [●] Bond Balance so transferred will be issued to the transferee. If less than the entire Outstanding WIFIA Project [●] Bond Balance of this WIFIA Project [●] Bond is so transferred, the Trustee shall authenticate and deliver a separate WIFIA Project [●] Bond or Bonds of the same series to each of the transferor and transferee, reflecting the Outstanding WIFIA Project [●] Bond Balance on each such Bond and the revised Minimum Sinking Fund Account Payments applicable to such Bond.

The Commission and the Trustee may treat the registered owner hereof as the absolute owner hereof for all purposes, and the Commission and the Trustee shall not be affected by any notice to the contrary.

It is hereby certified that all of the conditions, things and acts required to exist, to have happened or to have been performed precedent to and in the issuance of this Bond on each Disbursement Date do exist, have happened or will have been performed in due and regular time, form and manner as required by the Law and the laws of the State of California, and that the amount of this Bond in its maximum principal amount, together with all other obligations of the Commission, does not, and will not, exceed any limit prescribed by the Law or any laws of the State of California, and is not, and will not, be in excess of the amount of Bonds permitted to be issued under the Indenture.

This Bond shall not be entitled to any benefit under the Indenture, or become valid or obligatory for any purpose, until the certificate of authentication and registration hereon endorsed have been signed by the Trustee.

IN WITNESS WHEREOF, the Public Utilities Commission of the City and County of San Francisco has caused this Bond to be executed on its behalf, signed by the manual or facsimile signatures of its General Manager and of the Controller of the City and County of San Francisco and countersigned by the manual or facsimile signature of its Secretary, all as of the dated date of this Bond.

Re: [●] Project (WIFIA [*insert loan number*])

Ladies and Gentlemen:

Pursuant to Section 4 (*Disbursement Conditions*) and Schedule III (*Requisition Procedures*) of the WIFIA Master Agreement, dated as of April 26, 2023 (the "**WIFIA Master Agreement**"), by and between the PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO (the "**Borrower**") and the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, acting by and through the Administrator (the "**WIFIA Lender**"), and the WIFIA Loan Agreement, dated as of [●], by and between the Borrower and the WIFIA Lender (the "**WIFIA Loan Agreement**"), the Borrower hereby requests a Disbursement in the amount set forth below in respect of Eligible Project Costs paid or incurred by the Borrower. Capitalized terms used but not defined herein have the meaning set forth in the WIFIA Master Agreement and the WIFIA Loan Agreement.

In connection with this Requisition, the undersigned, as the Borrower's Authorized Representative, hereby represents and certifies the following:

1.	**Project name**	[____]
2.	**Borrower name**	Public Utilities Commission of the City and County of San Francisco
3.	**WIFIA Loan ID**	[____]
4.	**Borrower UEI**	[____]
5.	**Borrower FEIN number**	[____]
6.	**Requisition number**	[____]
7.	**Requested Disbursement amount**	$[___]
8.	**Requested date of Disbursement (the "Disbursement Date")**[4]	[___]

[3] If there is a Servicer for the WIFIA Loan, provide a copy to the Servicer as well and include its notice details here.
[4] Note this should be the actual disbursement date on which the Borrower requests to receive the funds, not the date that this Requisition form is submitted to the WIFIA Lender.

9.	**Total amounts previously disbursed under the WIFIA Loan Agreement**	$[___]
10.	**Wire or ACH transfer instructions (please specify method)**	[___]

11. As of the date hereof, and immediately after giving effect to the Disbursement requested under this Requisition, (a) no System Event of Default or Project Event of Default and no event of default under any other Related Document shall have occurred and be continuing and (b) no event that, with the giving of notice or the passage of time or both, would constitute an event of default under any other Related Document, shall have occurred and be continuing.

12. No Material Adverse Effect, or any event or condition that could reasonably be expected to result in a Material Adverse Effect, has occurred since the WIFIA Loan Agreement Effective Date.

13. The aggregate amount of all Disbursements of the WIFIA Loan (including the requested Disbursement amount under this Requisition but excluding any interest that is capitalized in accordance with the terms of the WIFIA Master Agreement and the WIFIA Loan Agreement) does not exceed (a) the Maximum Principal Amount of the WIFIA Loan or (b) the aggregate amount of Eligible Project Costs for the Project paid or incurred by the Borrower.

14. The Eligible Project Costs for which reimbursement or payment is being requested has not been reimbursed or paid by any previous Disbursement of (a) the WIFIA Loan or (b) any other source of funding for the Project (other than Interim Financing or cash of the Borrower) as identified in the Project Budget.

15. The Borrower, and each of its contractors and subcontractors at all tiers with respect to the Project, has complied with all applicable laws, rules, regulations and requirements, including 40 U.S.C. §§3141-3144, 3146, and 3147 (relating to Davis-Bacon Act requirements) (and regulations relating thereto) and 33 U.S.C. §3914 (relating to American iron and steel products). Supporting documentation, such as certified payroll records and certifications for all iron and steel products used for the Project, are being maintained and are available for review upon request by the WIFIA Lender.

16. The representations and warranties of the Borrower set forth in the WIFIA Master Agreement and in each other Related Document are true and correct as of the date hereof and as of the Disbursement Date, except to the extent such representations and warranties expressly relate to an earlier date (in which case, such representations and warranties are true and correct as of such earlier date).

17. The Borrower has delivered all required deliverables under and in compliance with the requirements of Section 22 (*System Financial Planning and Reporting*) and Section 23 (*Project Oversight and Monitoring*), except as has been otherwise agreed by the WIFIA Lender.

18. The amount hereby being requested for Disbursement is with respect to Eligible Project Costs for which [all][a portion][none] of the Eligible Project Costs Documentation was (a) previously submitted to and approved by the WIFIA Lender in accordance with **Schedule III** (*Requisition Procedures*) and Section 23(c) (*Project Oversight and Monitoring – Quarterly Certification of Eligible Project Costs*) of the WIFIA Master Agreement or (b) submitted to the WIFIA Lender, together with a summary of such Eligible Project Costs in this Requisition (or attached separately to the Requisition), for approval by the WIFIA Lender. The [following table below][attached excel sheet] sets out a summary of any Eligible Project Costs that have not otherwise been previously submitted to the WIFIA Lender for approval, and supporting Eligible Project Costs Documentation in respect of such new Eligible Project Costs is attached hereto. [5]

								WIFIA USE ONLY	
Vendor or Contractor Name[6]	**Invoice Number[7]**	**Invoice Date**	**Payment Date**	**Invoice Amount**	**WIFIA Requested Amount[8]**	**Activity Type[9]**	**Description of Activity[10]**	**Approved Amount**	**Notes**

The undersigned acknowledges that if the Borrower makes a false, fictitious, or fraudulent claim, statement, submission, or certification to the Government in connection with the Project, the Government reserves the right to impose on the Borrower the penalties of 18 U.S.C. § 1001, to the extent the Government deems appropriate.

PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO,
by its Authorized Representative

[5] See Schedule III and Exhibit D of the WIFIA Master Agreement for additional details on EPC Documentation.
[6] If seeking reimbursement for internal costs, enter "Internally financed activities."
[7] Vendor's number indicated on the invoice sent to the Borrower.
[8] If the amount requested for reimbursement by the WIFIA Lender is less than the total amount of the invoice, include an explanation for the difference.
[9] Specify whether activity is: (a) **Development phase activity**, which includes planning, preliminary engineering, design, environmental review, revenue forecasting and other pre-construction activities; (b) **Construction**, which includes construction, reconstruction, rehabilitation and replacement activities; (c) **Acquisition of real property**, which includes acquiring an interest in real property, environmental mitigation, construction contingencies and acquisition of equipment; (d) **Carrying costs**, including capitalized interest, as necessary to meet market requirements, reasonably required reserve funds, capital issuance expenses and other carrying costs during construction; (e) **WIFIA fees**, including for application and credit processing; or (f) **Other**, with an explanation in the "Description of Activity" column.
[10] Provide a brief description of the activities included in the invoice for which WIFIA funds are being requested and any other notes that will aid in the review of the disbursement request.

FORM OF CONSTRUCTION MONITORING REPORT

VIA EMAIL
United States Environmental Protection Agency
1200 Pennsylvania Avenue NW
WJC-E 7334A
Washington, DC 20460
Attn: WIFIA Director
Email: WIFIA_Portfolio@epa.gov

Re: [●] Project (WIFIA [*insert loan number*])

This Construction Monitoring Report for the period of [*insert relevant quarterly period*] (the "**Quarterly Period**") is provided pursuant to Section 23(b) (*Project Oversight and Monitoring – Construction Monitoring Report*) of the WIFIA Master Agreement, dated as of April 26, 2023 (the "**WIFIA Master Agreement**"), by and between the PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO (the **"Borrower**") and the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, acting by and through the Administrator of the Environmental Protection Agency (the "**WIFIA Lender**"), and the WIFIA Loan Agreement by and between the Borrower and the WIFIA Lender, dated as of [●] (the "**WIFIA Loan Agreement**"). Unless otherwise defined herein, all capitalized terms in this Construction Monitoring Report have the meanings assigned to those terms in the WIFIA Master Agreement and the WIFIA Loan Agreement.

1. **Project Status**. Provide a narrative summary of the Project's construction progress during the Quarterly Period, including with respect to the Project components or sub-projects where appropriate. Complete the table in Appendix A to update the Project scope, schedule, and costs with the latest information.

2. **Current Projected Substantial Completion Date**:

If the current Projected Substantial Completion Date differs than the date set forth in the Construction Monitoring Report most recently delivered to the WIFIA Lender (or, if no such report has yet been provided, the date of the Projected Substantial Completion Date set forth in the WIFIA Loan Agreement as of the WIFIA Loan Agreement Effective Date), provide a description in reasonable detail for such projected delay or difference:

3. **Material Problems (if any)**

Note any problems encountered or anticipated during the construction of the Project during the Quarterly Period that (1) impedes Project completion within the scope, costs, and schedule outlined in the WIFIA Loan Agreement or (2) relates to unforeseen complications in connection with the construction of the Project. This may include commissioning/start-up issues, constructability issues for the Project as planned, adverse impacts to Project surroundings, changes in or issues with meeting environmental or federal compliance requirements, and unanticipated or abnormal permit approval timelines. Include an assessment of the impact and any current plans to address the problems.

4. Other Matters Related to the Project (if applicable)

APPENDIX A [11]

Project Scope		Project Schedule						Project Costs		
Project Component	Completed (Y/N)	Contract/ Vendor	Bid Advertisement Date	Contract Award Date	NTP Effective Date	Original Substantial Completion Date	Estimated Substantial Completion Date	Original Contract Amount	Estimated Costs to Complete	Costs Earned or Paid to Date
Total										

Table Definitions:
Project Component – project name or ID as tracked by the borrower
Complete (Y/N) – indication that project is complete, and no additional updates will be provided
Description (program of projects only) – brief overview of scope of work for the project component.
Location (program of projects only) – physical project boundaries
Covered by existing NEPA? (program of projects only) – refer to the environmental review documents that is the basis for the NEPA finding. Is the project within the geographic scope and scope of activities described in the documents?

Contract/Vendor – the contract identifier and contractor that is/will be completing the project construction.
Bid Advertisement Date – the date the bid was advertised
Contract Award date – the date the contract was awarded
NTP Effective date – the effective date to proceed with the construction in the Notice to Proceed
Original Substantial Completion Date – the substantial completion date for the given project as noted in Schedule III of the WIFIA Loan Agreement
Estimated Substantial Completion Date – the latest date estimate for substantial completion for the given project component

Original Contract Amount – the original contract award amount
Estimated Costs to Complete – the latest cost estimates to complete the given project component
Costs Earned or Paid to Date – the latest incurred contract costs for the given project component
Total – Total the cost amounts across all project components and contract

[11] Appendix A summarizes all project components that will be bid in the next quarter, are currently under construction, or have completed construction. It should be a cumulative list of projects that is updated each quarter. A Microsoft Excel spreadsheet with similar table format is acceptable.

Re: [●] Project (WIFIA [*insert loan number*])

Ladies and Gentlemen:

Pursuant to Section 23(c) (*Project Oversight and Monitoring – Quarterly Certification of Eligible Project Costs*) of the WIFIA Master Agreement, dated as of April 26, 2023 (the "**WIFIA Master Agreement**"), by and between the PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO (the "**Borrower**") and the UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, acting by and through the Administrator (the "**WIFIA Lender**"), and the WIFIA Loan Agreement by and between the Borrower and the WIFIA Lender, dated as of [●] (the "**WIFIA Loan Agreement**"), the Borrower hereby presents this certificate in connection with the Borrower's delivery of Eligible Project Costs Documentation to the WIFIA Lender. Capitalized terms used but not defined herein have the meaning set forth in the WIFIA Master Agreement and the WIFIA Loan Agreement.

The undersigned does hereby represent and certify the following:

1. This certificate is being delivered to the WIFIA Lender in connection with the Eligible Project Costs during the period between [___] and [___] (the "**Quarterly Period**").

2. A summary of the Eligible Project Costs incurred, invoiced and/or paid (as the case may be) is set out in the [attached excel sheet][table on the following page:]

[12] If there is a Servicer for the WIFIA Loan, provide a copy to the Servicer as well and include its notice details here.

							WIFIA USE ONLY	
Vendor or Contractor Name[13]	**Invoice Number[14]**	**Invoice Date**	**Payment Date**	**Invoice Amount**	**Activity Type[15]**	**Description of Activity[16]**	**Approved Amount**	**Notes**

3. The anticipated sources of funding for such Eligible Project Costs are [listed below][set forth in the attached excel sheet].

4. Supporting Eligible Project Costs Documentation for the above Eligible Project Costs for the Quarterly Period are also attached hereto. [17]

5. The most recently delivered Construction Monitoring Report delivered in accordance with Section 23(b) (*Project Oversight and Monitoring – Construction Monitoring Report*) of the WIFIA Master Agreement sets out a summary of the progress of construction of the Project, no change has occurred since the date of such Construction Monitoring Report that could reasonably be expected to cause a Material Adverse Effect, and the Borrower is otherwise in compliance with Section 23 (*Project Oversight and Monitoring*) of the WIFIA Master Agreement.

[13] If the expectation is to seek reimbursement for internal costs, enter "Internally financed activities."
[14] Vendor's number indicated on the invoice sent to the Borrower.
[15] Specify whether activity is: (a) **Development phase activity**, which includes planning, preliminary engineering, design, environmental review, revenue forecasting and other pre-construction activities; (b) **Construction**, which includes construction, reconstruction, rehabilitation and replacement activities; (c) **Acquisition of real property**, which includes acquiring an interest in real property, environmental mitigation, construction contingencies and acquisition of equipment; (d) **Carrying costs**, including capitalized interest on other Project Obligations during construction, as necessary to meet market requirements, reasonably required reserve funds, capital issuance expenses and other carrying costs during construction; (e) **WIFIA fees**, including for application and credit processing; or (f) **Other**, with an explanation in the "Description of Activity" column.
[16] Provide a brief description of the activities included in the invoice for which WIFIA funds are being requested and any other notes that will aid in the review of the documentation.
[17] See Schedule III and Exhibit D of the WIFIA Master Agreement for additional details on EPC Documentation.
[18] To be executed by the Borrower's Authorized Representative.

EXHIBIT E

FORM OF PUBLIC BENEFITS REPORT

Reference is made to (i) that certain WIFIA Master Agreement by and between the Public Utilities Commission of the City and County of San Francisco (the "**Borrower**") and the United States Environmental Protection Agency, acting by and through the Administrator of the Environmental Protection Agency (the "**WIFIA Lender**"), dated as of April 26, 2023 (the "**WIFIA Master Agreement**") and (ii) that certain WIFIA Loan Agreement by and between the Borrower and the WIFIA Lender, dated as of [●] (the "**WIFIA Loan Agreement**"). Capitalized terms used and not defined herein shall have the respective meanings ascribed to such terms in the WIFIA Loan Agreement, or if not defined therein, the WIFIA Master Agreement.

Pursuant to Section 12(b)(xi) (*Conditions Precedent – Conditions Precedent to Effectiveness of Each WIFIA Loan Agreement*) and Section 23(e) (*Project Oversight and Monitoring – Public Benefits Report*) of the WIFIA Master Agreement, the Borrower is providing this Public Benefits Report in connection with the [●] Project (WIFIA [*insert loan number*]):

Reporting Period: [Prior to the Effective Date][within ninety (90) days following the Substantial Completion Date][within ninety (90) days following the fifth (5th) anniversary of the Substantial Completion Date]

(i) The number of total jobs and direct jobs projected to be created by the Project during the period between the Effective Date and the Substantial Completion Date:

WIFIA projects that the Project will create [__] total jobs, of which the Borrower projects [__] will be direct jobs.

(ii) Indicate (yes or no) whether the Project will assist the Borrower in complying with applicable regulatory requirements, and if yes, describe how the project assists with regulatory compliance:

Yes ☐
If yes, additional description: [___]

No ☐

(iii) The Project will assist the Borrower with the following environmental measure:

Amount by which Project will provide new, expanded, improved, more reliable, more resilient, or more efficient treatment capacity for wastewater treatment (measured in MGD capacity at Substantial Completion): [___]

EXHIBIT F-1

OPINIONS REQUIRED OF COUNSEL TO BORROWER

An opinion of the counsel of the Borrower, dated as of the Effective Date and each WIFIA Loan Agreement Effective Date, to the effect that:

(a) the Borrower is duly formed, validly existing, and in good standing under the laws of the jurisdiction of its organization;

(b) the Borrower has all requisite power and authority to conduct its business and to execute and deliver, and to perform its obligations under the Related Documents to which it is a party;

(c) the execution and delivery by the Borrower of, and the performance of its respective obligations under, the Related Documents to which it is a party, have been duly authorized by all necessary organizational or regulatory action;

(d) the Borrower has duly executed and delivered each Related Document to which it is a party and each such Related Document constitutes the legal, valid and binding obligation of such party; enforceable against such party in accordance with their respective terms;

(e) no authorization, consent, or other approval of, or registration, declaration or other filing with any governmental authority of the United States of America or of the State is required on the part of the Borrower for the execution and delivery by such party of, and the performance of such party under, any Related Document to which it is a party other than authorizations, consents, approvals, registrations, declarations and filings that have already been timely obtained or made by the Borrower;

(f) the execution and delivery by the Borrower of, and compliance with the provisions of, the Related Documents to which it is a party in each case do not (i) violate the Organizational Documents of the Borrower, (ii) violate the law of the United States of America or of the State or (iii) conflict with or constitute a breach of or default under any material agreement or other instrument known to such counsel to which the Borrower is a party, or to the best of such counsel's knowledge, after reasonable review, any court order, consent decree, statute, rule, regulation or any other law to which the Borrower is subject;

(g) to our knowledge after due inquiry, there are no actions, suits, proceedings or investigations against the Borrower by or before any court, arbitrator or any other Governmental Authority in connection with the Related Documents or the Projects that are pending; and

(h) the Borrower is not entitled to claim governmental immunity in any breach of contract action under the WIFIA Master Agreement, the WIFIA Loan Agreement or the WIFIA Bond or by the Trustee under the Indenture Documents.

EXHIBIT F-2

OPINIONS REQUIRED FROM BOND COUNSEL

An opinion of bond counsel, dated as of the Effective Date and each WIFIA Loan Agreement Effective Date, to the effect that:

(a) the Borrower has been duly created and validly exists as a commission under and pursuant to the Charter of the City and the laws of the State (including the Charter, as amended to the date hereof) (the "Borrower Act"), with good right and power to issue the WIFIA Bond;

(b) each of the Indenture and the WIFIA Loan Documents has been duly authorized, executed and delivered by the Borrower, is in full force and effect and constitutes the legal, valid, and binding obligation of the Borrower, enforceable against the Borrower in accordance with its respective terms and conditions;

(c) upon receipt by the Trustee of the portion of the purchase price of the WIFIA Bond on each Disbursement Date in compliance with the provisions of the WIFIA Supplemental Indenture, the WIFIA Bond delivered to the WIFIA Lender in connection with the execution of the WIFIA Master Agreement and WIFIA Loan Agreement, in the principal amount deemed purchased by the WIFIA Lender as of such Disbursement Date, including any amount purchased on any prior Disbursement Date and any capitalized interest thereon, will be secured by the Net System Revenues and will be a Bond entitled to the benefits of a Bond under the Indenture, enforceable under the laws of the State without any further action by the Commission or any other Person, and will be on a parity with all other Bonds issued under the Indenture, including any Additional Bonds, in right of payment and right of security;

(d) the Indenture creates a valid pledge of the Net System Revenues, which pledge constitutes a lien on and security interest in the Net System Revenues, to secure the payment of the principal of, and interest on the Bonds (including, upon payment of the purchase price of the WIFIA Bond pursuant to the WIFIA Supplemental Indenture, the WIFIA Bond), subject to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth therein, irrespective of whether any party has notice of the pledge and without the need for any physical delivery, recordation, filing or further act to perfect such assignment or pledge;

(e) subject to the satisfaction of the provisions of the WIFIA Supplemental Indenture on each Disbursement Date, all actions by the Borrower that are required for the application of System Revenues as required under the Indenture and under the WIFIA Master Agreement and WIFIA Loan Agreement will have been duly and lawfully made on each such Disbursement Date;

(f) the Borrower has complied with the requirements of State law to lawfully pledge the Net System Revenues and use the Net System Revenues as required by the terms of the Indenture and the WIFIA Master Agreement and WIFIA Loan Agreement; and

(g) the Borrower is not an investment company required to register under the Investment Company Act of 1940, as amended.

FORM OF CLOSING CERTIFICATE

Reference is made to that certain WIFIA Master Agreement, dated as of April 26, 2023 (the "**WIFIA Master Agreement**"), by and among the Public Utilities Commission of the City and County of San Francisco (the "Borrower") and the United States Environmental Protection Agency, acting by and through the Administrator (the "**WIFIA Lender**"). Capitalized terms used in this certificate and not defined shall have the respective meanings ascribed to such terms in the WIFIA Master Agreement.

The undersigned, [_____], as Borrower's Authorized Representative, does hereby certify on behalf of the Borrower and not in his/her personal capacity, as of the date hereof:

(a) pursuant to Section 12(a)(iv) (*Conditions Precedent – Conditions Precedent to Effectiveness*) of the WIFIA Master Agreement, attached hereto as **Exhibit A** is an incumbency certificate that lists all persons, together with their positions and specimen signatures, who are duly authorized by the Borrower to execute the Related Documents to which the Borrower is or will be a party, and who have been appointed a Borrower's Authorized Representative in accordance with Section 27 (*Borrower's Authorized Representative*) of the WIFIA Master Agreement;

(b) pursuant to Section 12(a)(iv)(A) (*Conditions Precedent – Conditions Precedent to Effectiveness*) of the WIFIA Master Agreement, (i) the Borrower's Federal Employer Identification Number is 94-6000417, (ii) the Borrower's UEI is EL3RB31KENH3, and (iii) the Borrower has registered with, and obtained confirmation of active registration status from, the federal System for Award Management (www.SAM.gov), and attached hereto as **Exhibit B** is evidence of each of (ii) and (iii);

(c) pursuant to Section 12(a)(iv)(B) (*Conditions Precedent – Conditions Precedent to Effectiveness*) of the WIFIA Master Agreement, the representations and warranties of the Borrower set forth in WIFIA Master Agreement (including Section 13 (*Representations and Warranties of Borrower*)) and in each other Related Document are true and correct, as of the Effective Date, except to the extent such representations and warranties expressly relate to an earlier date (in which case, such representations and warranties are true and correct as of such earlier date); and

(d) pursuant to Section 12(a)(iv)(C) (*Conditions Precedent – Conditions Precedent to Effectiveness*) of the WIFIA Master Agreement, no Material Adverse Effect, or any event or condition that could reasonably be expected to have a Material Adverse Effect, has occurred or arisen since the date of the Application;

This certificate may be delivered by the delivery of signed signature pages by electronic means, facsimile transmission, or by e-mail with a PDF copy attached, and any printed or copied

versions of any signature page so delivered shall have the same force and effect as an originally signed version of such signature page. Signatures of this certificate made by electronic means shall be accompanied by an email, contemporaneous or otherwise, confirming the use of such means.

FORM OF WIFIA PROJECT TERM SHEET

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

[●], 20[●]

Public Utilities Commission of the City and County of San Francisco
525 Golden Gate Avenue
San Francisco, California 94102

RE: WIFIA Loan Term Sheet for SFPUC Wastewater Capital Plan Resilience Program – Project [●] with the Public Utilities Commission of the City and County of San Francisco (WIFIA ID – [●])

Ladies and Gentlemen:

This WIFIA Loan Term Sheet (this "**Term Sheet**") constitutes (a) the approval of the United States Environmental Protection Agency, acting by and through the Administrator of the Environmental Protection Agency (hereinafter, the "**USEPA**"), of the application for credit assistance of the Borrower (as defined below) dated August 30, 2022 (the "**Application**") and (b) the agreement of USEPA to provide financing for the above-referenced project (as further described below, the "**Project**") in the form of a secured loan (the "**WIFIA Loan**"), pursuant to the Water Infrastructure Finance and Innovation Act ("**WIFIA**"), § 5021 *et seq*. of Public Law 113-121 (as amended from time to time) (the "**Act**"), codified as 33 U.S.C. §§ 3901-3915, subject in all respects to (i) the terms and conditions contained herein, (ii) the terms and conditions contained in that certain WIFIA Master Agreement, dated as of April 26, 2023, by and between the WIFIA Lender (as defined below) and the Borrower (the "**WIFIA Master Agreement**"), and (iii) the execution and delivery of the WIFIA loan agreement with respect to the Project to be entered into on or after the date hereof (the "**WIFIA Loan Agreement**") on terms and conditions acceptable to USEPA contained therein. Capitalized terms used but not otherwise defined herein shall have the meanings ascribed to such terms in the WIFIA Loan Agreement or, if not defined therein, the WIFIA Master Agreement.

USEPA's agreement to provide WIFIA credit assistance to the Project is based upon the Application and the supplemental information and documents, including the base case financial model, provided to USEPA. This Term Sheet is an agreement of USEPA only to the terms specified herein, which may be modified or supplemented by USEPA in its discretion at any time and from time to time during the course of its due diligence and credit approval process. In addition, WIFIA credit assistance is subject in all respects to the execution of the WIFIA Loan Agreement on terms and conditions acceptable to USEPA

By executing this Term Sheet, the Borrower confirms its agreement to reimburse USEPA for any and all fees and expenses that USEPA incurs for legal counsel, financial advice, and other consultants in connection with the evaluation of the Project and the negotiation and

preparation of the WIFIA Loan Agreement and related documents (whether or not any such agreement is ultimately executed).

This Term Sheet shall be governed by the federal laws of the United States of America if and to the extent such federal laws are applicable, and the internal laws of the State of California, if and to the extent such federal laws are not applicable. This Term Sheet, and any amendments, waivers, consents or supplements hereto may be executed in any number of counterparts and by the parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute but one and the same instrument. Electronic delivery of an executed counterpart of a signature page shall be effective as delivery of an original executed counterpart.

INDICATIVE TERMS OF THE WIFIA LOAN

WIFIA LENDER	United States Environmental Protection Agency, an agency of the United States of America, acting by and through the Administrator of the Environmental Protection Agency (the "**WIFIA Lender**").
BORROWER	Public Utilities Commission of the City and County of San Francisco, a commission duly organized and existing under and pursuant to the Charter of the City and County of San Francisco and the laws of the State of California (the "**Borrower**").
PROJECT	The "**Project**" means the SFPUC Wastewater Capital Plan Resilience Program – Project [●], located at [_____], as further described in Schedule III (*Project*) to the WIFIA Loan Agreement.
WIFIA LOAN AMOUNT	A maximum principal amount (sum of disbursements and excluding any capitalized interest) not to exceed $[●]; provided that (a) the maximum principal amount of the WIFIA Loan, together with the amount of any other credit assistance provided under the Act, shall not exceed forty-nine percent (49%) of reasonably anticipated Eligible Project Costs for the Project and (b) the total federal assistance for the Project, including but not limited to the maximum principal amount of the WIFIA Loan and all federal grants, shall not exceed eighty percent (80%) of Total Project Costs for the Project.
INTEREST RATE	The WIFIA Loan shall bear interest at a fixed rate, calculated by adding one basis point (0.01%) to the rate of securities of a similar maturity (based on the weighted-average life of the WIFIA Loan) as published, on the execution date of the WIFIA Loan Agreement, in the United States Treasury Bureau of the Fiscal Service's daily rate table for State and Local Government Series (SLGS) securities. The WIFIA Loan shall also bear default interest at a rate of two hundred (200) basis points above the otherwise applicable interest rate, at such times and upon such terms as provided in the WIFIA Master Agreement.
PAYMENT DATES	Principal and interest on the WIFIA Bond shall be paid on April 1 and October 1 of each year in accordance with the terms of the WIFIA Loan Agreement. The Debt Service Payment Commencement Date shall in no event be later than five (5) years after the Substantial Completion Date of the Project.

FINAL MATURITY DATE	The earlier of (a) [●] 1, 20[●] and (b) the Semi-Annual Payment Date immediately preceding the date that is thirty-five (35) years following the Substantial Completion Date.
PROJECTED SUBSTANTIAL COMPLETION DATE	[●].
DEDICATED SOURCE OF REPAYMENT	As security for each WIFIA Bond, the Borrower has in the Indenture irrevocably pledged all of the Net System Revenues to the punctual payment of the principal of and interest and redemption premium, if any, on the Bonds (including each WIFIA Bond) and the other Parity Obligations. The Borrower has affirmed such pledge under the WIFIA Master Agreement.
SECURITY AND LIEN PRIORITY	Each WIFIA Bond shall be secured at all times in right of payment and right of security on a parity with all other Bonds issued under the Indenture, including any Additional Bonds, and other Parity Obligations. As security for the payment of all other obligations under the WIFIA Master Agreement and the WIFIA Loan Agreement not evidenced by the WIFIA Bonds, including the Borrower's indemnification obligations, the Borrower has irrevocably pledged in the WIFIA Master Agreement all of the Net System Revenues on a subordinate basis after payment of all Parity Obligations. All payment obligations of the Borrower are subject to the limitations specified in Section 11.01 of the Indenture.
PREPAYMENT	The Borrower may optionally prepay the WIFIA Loan in whole or in part, from time to time, but not more than once during any Borrower Fiscal Year, without penalty or premium; provided that any such prepayment shall be made on a Semi-Annual Payment Date unless otherwise agreed by the WIFIA Lender and in a minimum principal amount of $1,000,000 or any multiple of $1.00 in excess thereof, and otherwise in accordance with the WIFIA Loan Agreement; provided further that the WIFIA Loan may be prepaid in full at any time without penalty.
RATE COVENANT	The Borrower shall establish, fix and prescribe rates, fees and charges in connection with the System in compliance with the provisions of Section 6.13 of the Indenture, as in effect as of the Effective Date and as such provisions are set forth in Schedule 15(k) to the WIFIA Master Agreement (the "**Rate Covenant**").
ADDITIONAL INDEBTEDNESS	(i) The Borrower shall not issue any Additional Parity Obligations other than as expressly permitted under the applicable provisions of the Indenture, as in effect as of the Effective Date and as such provisions are set forth in Schedule

	16(a) to the WIFIA Master Agreement. (ii) The Borrower shall provide to the WIFIA Lender notice of the issuance of Additional Parity Obligations in a manner consistent with its continuing disclosure requirements, which notice shall confirm that the issuance of such Additional Parity Obligations is permissible pursuant to clause (i) above. (iii) Without limiting anything in this section, the Borrower shall not incur any Obligation that does not constitute Permitted Debt under the WIFIA Master Agreement, including, in the case of any Obligation subordinate to the Parity Obligations, satisfaction of the requirements under the definition of "Subordinated Obligations." (iv) Notwithstanding any of the foregoing clauses of this section or anything contained in the Indenture, the Borrower will not have Outstanding at any time Parity Obligations that constitute Variable Rate Indebtedness in excess of twenty-five percent (25%) of the Borrower's total Parity Obligations. (v) Notwithstanding any of the foregoing clauses of this section or anything contained in the Indenture, the Borrower shall not issue or enter into any Senior State Loans or pay any amount with respect to any loan agreement with the State (or any board, department or agency thereof) prior to the payment of the Parity Obligations.
RESTRICTED PAYMENTS AND TRANSFERS	The Borrower shall not permit System Revenues or other assets of the System, or any funds in any accounts held under the Indenture or in any other fund or account held by or on behalf of the Borrower, to be paid or transferred or otherwise applied except as permitted by the Indenture.
WIFIA LOAN DOCUMENTATION	The WIFIA Loan shall be subject to the preparation, execution and delivery of the WIFIA Loan Agreement, the WIFIA Bond and any other loan documentation required by the WIFIA Lender in connection therewith, in each case acceptable to the WIFIA Lender and the Borrower, which will contain certain conditions precedent, representations and warranties, affirmative and negative covenants, events of default, and other provisions as agreed between the WIFIA Lender and the Borrower, in each case in accordance with the terms of the WIFIA Master Agreement.
GOVERNING LAW	The WIFIA Loan Agreement shall be governed by the federal laws of the United States of America, if and to the extent such

	federal laws are applicable, and the internal laws of the State of California, if and to the extent such federal laws are not applicable.
COUNTERPARTS	This Term Sheet, and any amendments, waivers, consents or supplements hereto may be executed in any number of counterparts and by the parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute but one and the same instrument. Signature pages may be detached from multiple separate counterparts and attached to a single counterpart so that all signature pages are physically attached to the same document. Electronic delivery of an executed counterpart of a signature page shall be effective as delivery of an original executed counterpart.

WIFIA LOAN AGREEMENT

THIS WIFIA LOAN AGREEMENT (this "**Agreement**"), dated as of [●], 20[●], is by and between the **PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO,** a commission duly organized and existing under and pursuant to the Charter of the City and County of San Francisco and the laws of the State of California, with an address at 525 Golden Gate Avenue, San Francisco, California 94102 (the "**Borrower**") and the **UNITED STATES ENVIRONMENTAL PROTECTION AGENCY**, an agency of the United States of America, acting by and through the Administrator of the Environmental Protection Agency, with an address at 1200 Pennsylvania Avenue NW, Washington, DC 20460 (the "**WIFIA Lender**").

RECITALS:

WHEREAS, the Congress of the United States of America enacted the Water Infrastructure Finance and Innovation Act, § 5021 *et seq.* of Public Law 113-121, as amended, and as may be further amended from time to time, which is codified as 33 U.S.C. §§ 3901-3915;

WHEREAS, the Act authorizes the WIFIA Lender to enter into agreements to provide financial assistance with one or more eligible entities to make secured loans with appropriate security features to finance a portion of the eligible costs of projects eligible for assistance;

WHEREAS, the Borrower and the WIFIA Lender entered into that certain WIFIA Master Agreement, dated as of April 26, 2023 (the "**WIFIA Master Agreement**"), pursuant to which the parties thereto have set forth certain common terms and conditions applicable to each WIFIA loan and project under the Master Program;

WHEREAS, the Borrower has submitted a WIFIA Loan Request, dated [●] (the "**Project WIFIA Loan Request**"), to the WIFIA Lender pursuant to the WIFIA Master Agreement and thereby requested that the WIFIA Lender make the WIFIA Loan (as defined below) in a principal amount not to exceed $[●] to be used to pay a portion of the Eligible Project Costs related to the Project (as defined below);

WHEREAS, as of the date hereof, the Administrator has approved WIFIA financial assistance for the Project to be provided in the form of the WIFIA Loan, subject to the terms and conditions contained herein and in the WIFIA Master Agreement;

WHEREAS, based on the Project WIFIA Loan Request, the Application, the WIFIA Master Agreement and the representations, warranties and covenants set forth herein and therein, the WIFIA Lender proposes to make funding available to the Borrower through the purchase of the WIFIA Bond (as defined below) to be issued by the Borrower, upon the terms and conditions set forth herein and in the WIFIA Master Agreement;

WHEREAS, the Borrower agrees to repay any amount due pursuant to this Agreement and the WIFIA Bond in accordance with the terms and provisions of this Agreement, the WIFIA Master Agreement and the WIFIA Bond; and

WHEREAS, the WIFIA Lender has entered into this Agreement in reliance upon, among other things, the information and representations of the Borrower set forth in the Project WIFIA

Loan Request, the Application, the WIFIA Master Agreement, and the supporting information provided by the Borrower.

NOW, THEREFORE, the premises being as stated above, and for good and valuable consideration, the receipt and sufficiency of which are acknowledged to be adequate, and intending to be legally bound hereby, it is hereby mutually agreed by and between the Borrower and the WIFIA Lender as follows:

ARTICLE I

DEFINITIONS AND INTERPRETATION

Section 1. Definitions.

Each capitalized term used in this Agreement (including in the recitals hereto) and not otherwise defined herein shall have the meaning assigned to such term in the WIFIA Master Agreement. Any term used in this Agreement (including in the recitals hereto) that is defined by reference to any other agreement shall continue to have the meaning specified in such agreement, whether or not such agreement remains in effect. In addition, as used in this Agreement (including in the recitals hereto), the following terms have the following meanings:

"**Agreement**" has the meaning provided in the preamble hereto.

"**Anticipated WIFIA Loan Disbursement Schedule**" means the disbursement schedule set forth in Exhibit A (*WIFIA Debt Service*), reflecting the anticipated disbursement of proceeds of the WIFIA Loan, as such schedule may be amended from time to time pursuant to Section 4 (*Disbursement Conditions*).

"**Bond Amortization Schedule**" means the bond amortization schedule reflected in the applicable column of Exhibit A (*WIFIA Debt Service*), as amended from time to time in accordance with Section 7 (*Outstanding WIFIA Bond Balance; Revisions to Bond Amortization Schedule*) of the WIFIA Master Agreement.

"**Capitalized Interest Period**" means the period from (and including) the First Disbursement Date to (and including) the date that is six (6) months prior to [_____], subject to earlier termination as set forth in Section 8(a)(iii) (*Payment of WIFIA Debt Service*) of the WIFIA Master Agreement.

"**Debt Service Payment Commencement Date**" means the earlier to occur of (a) [●] and (b) the Semi-Annual Payment Date on or immediately preceding the fifth (5^{th}) anniversary of the Substantial Completion Date; provided that, if the Capitalized Interest Period ends pursuant to Section 9(c) (*Payment of Principal and Interest – Capitalized Interest Period)* of the WIFIA Master Agreement due to the occurrence of a System Event of Default or a Project Event of Default, the Debt Service Payment Commencement Date shall be the first Semi-Annual Payment Date immediately following the end of the Capitalized Interest Period.

"**Development Default Date**" means [●].

"**Final Maturity Date**" means the earlier of (a) [●] (or such earlier date as is set forth in an updated Exhibit A (*WIFIA Debt Service*) pursuant to Section 7 (*Outstanding WIFIA Bond Balance; Revisions to Bond Amortization Schedule*) of the WIFIA Master Agreement); and (b) the Semi-Annual Payment Date immediately preceding the date that is thirty-five (35) years following the Substantial Completion Date.

"**Interest Only Period**" means the period commencing from (and including) the Debt Service Payment Commencement Date and ending on [●] (or on such earlier date as all amounts due or to become due to the WIFIA Lender hereunder have been irrevocably paid in full in cash).

"**Project**" means [*insert short description of project*][, as described in further detail in Schedule III (*Project*)].[21]

"**Project Budget**" means the budget for the Project attached to this Agreement as Schedule I (*Project Budget*) showing a summary of Total Project Costs with a breakdown of all Eligible Project Costs and the estimated sources and uses of funds for the Project.

"**Project Schedule**" means (a) the initial schedule or schedules on which the construction timetables for the Project are set forth, attached hereto as Schedule II (*Project Schedule*), and (b) any updates thereto included in the Construction Monitoring Report for the Project most recently submitted to the WIFIA Lender in accordance with Section 23(b) (*Project Oversight and Monitoring – Construction Monitoring Report*) of the WIFIA Master Agreement.

"**Project WIFIA Loan Request**" has the meaning provided in the recitals hereto.

"**Projected Substantial Completion Date**" means [●], as such date may be adjusted in accordance with Section 23(b) (*Project Oversight and Monitoring – Construction Monitoring Report*) of the WIFIA Master Agreement.

"**WIFIA Bond**" means the Bond evidencing the Borrower's obligation to repay the WIFIA Loan issued and delivered by the Borrower in substantially the form set forth in Exhibit A (*Form of WIFIA Supplemental Indenture (including WIFIA Bond form)*) to the WIFIA Master Agreement.

"**WIFIA Loan**" means the secured loan made by the WIFIA Lender to the Borrower on the terms and conditions set forth herein, in the WIFIA Master Agreement and in the WIFIA Bond, pursuant to the Act, in a principal amount not to exceed $[●], to be used in respect of Eligible Project Costs with respect to the Project.

"**WIFIA Loan Agreement Effective Date**" means the date of this Agreement.

"**WIFIA Master Agreement**" has the meaning provided in the recitals hereto.

---

[21] **Note to Form**: Schedule to be included if the WIFIA Lender determines additional details describing the Project are necessary.

"**WIFIA Supplemental Indenture**" means that certain [_____], entered into by and between the Borrower and the Trustee on [●], 20[●], authorizing, among other things, the execution and delivery of this Agreement, the issuance of the WIFIA Bond and certain related actions by the Borrower in connection with the issuance of the WIFIA Loan, in substantially the form of Exhibit A (*Form of WIFIA Supplemental Indenture (including WIFIA Bond form)*) to the WIFIA Master Agreement.

Section 2. Interpretation.

(a) Except as otherwise expressly provided herein, the rules of interpretation set forth in Section 2 of the WIFIA Master Agreement shall apply herein, *mutatis mutandis*, as if set out in this Agreement in full (and as if each reference therein to "this Agreement" were a reference to this Agreement, and each reference to any "WIFIA Loan" or any "WIFIA Bond" were a reference, respectively, to the WIFIA Loan or the WIFIA Bond as such terms are defined in this Agreement).

(b) This Agreement is one of the WIFIA Loan Agreements referenced in the WIFIA Master Agreement.

ARTICLE II

THE WIFIA LOAN

Section 3. WIFIA Loan Amount.

The principal amount of the WIFIA Loan shall not exceed $[●]. WIFIA Loan proceeds available to be drawn shall be disbursed from time to time in accordance with Section 4 (*Disbursement Conditions*) hereof and Section 12(c) (*Conditions Precedent – Conditions Precedent to All Disbursements*) of the WIFIA Master Agreement.

Section 4. Disbursement Conditions.

The WIFIA Loan shall be disbursed in accordance with Section 4 (*Disbursement Conditions*) of the WIFIA Master Agreement.

Section 5. [Reserved].

Section 6. Interest Rate.

The interest rate with respect to the Outstanding WIFIA Bond Balance for the WIFIA Loan shall be [●] and [●] hundredths percent ([●]%) per annum.[22] Interest will accrue and be computed on the Outstanding WIFIA Bond Balance from time to time pursuant to, and otherwise in accordance with, with Section 6 (*Interest Rate*) of the WIFIA Master Agreement.

[22] **Note to Form**: The WIFIA Interest Rate shall be calculated by adding one (1) basis point (0.01%) to the rate of securities of a similar maturity (based on the weighted-average life of the WIFIA Loan) as published, on the WIFIA Loan Agreement Effective Date, in the United States Treasury Bureau of the Fiscal Service's daily rate table for State and Local Government Series (SLGS) securities.

Section 7. [Reserved].

Section 8. Payment of WIFIA Debt Service.

Payments of WIFIA Debt Service shall be made by the Borrower on each Semi-Annual Payment Date occurring on and after the Debt Service Payment Commencement Date as provided in Section 9(d) (*Payment of Principal and Interest – Payment of WIFIA Debt Service*) of the WIFIA Master Agreement.

Section 9. WIFIA Bond.

As evidence of the Borrower's obligation to repay the WIFIA Loan, the Borrower shall issue and deliver to the WIFIA Lender, on or prior to the WIFIA Loan Agreement Effective Date, the WIFIA Bond substantially in the form set forth in Exhibit A (*Form of WIFIA Supplemental Indenture (including WIFIA Bond form)*) to the Master Agreement, having a maximum principal amount of $[●].

Section 10. Prepayment.

The Borrower may prepay the WIFIA Loan in accordance with Section 10(c) (*Prepayment – Optional* Prepayments) of the WIFIA Master Agreement.

Section 11. Fees and Expenses.

The Borrower shall pay to the WIFIA Lender, in each case pursuant to and in accordance with Section 30 (*Fees and Expenses*) of the WIFIA Master Agreement:

(a) a one-time Servicing Set-Up Fee equal to $[●];

(b) an annual Construction Period Servicing Fee equal to $[●] per annum; provided that the initial Construction Period Servicing Fee shall be in a pro-rated amount equal to $[●] in accordance with Section 30(a)(ii) (*Fees and Expenses*) of the WIFIA Master Agreement; and

(c) an Operating Period Servicing Fee equal to $[●] per annum; and

(d) any other applicable fees, costs, charges and expenses pursuant to, and otherwise in accordance with, Section 30 (*Fees and Expenses*) of the WIFIA Master Agreement.

ARTICLE III

CONDITIONS PRECEDENT

Section 12. Conditions Precedent.

(a) Conditions Precedent to Effectiveness. The effectiveness of this Agreement is subject to the satisfaction, or the WIFIA Lender's written waiver, as determined by the WIFIA Lender in its sole discretion, of each of the conditions precedent to the effectiveness

of this Agreement set forth in Section 12(b) (*Conditions Precedent – Conditions Precedent to Effectiveness of Each WIFIA Loan Agreement*) of the WIFIA Master Agreement (each of which is incorporated by reference herein, *mutatis mutandis*, as if set out in this Agreement in full and as if each reference therein to any "Project," any "WIFIA Loan," any "WIFIA Bond," or any "WIFIA Loan Agreement" were a reference, respectively, to the Project, the WIFIA Loan, the WIFIA Bond, or this Agreement (as such terms are defined in this Agreement)).

(b) Conditions Precedent to Disbursements. Notwithstanding anything in this Agreement to the contrary, the WIFIA Lender's obligation to make any Disbursement of the WIFIA Loan to the Borrower (including the initial Disbursement hereunder) is subject to the satisfaction or the WIFIA Lender's written waiver, as determined by the WIFIA Lender in its sole discretion, of each of the conditions precedent to Disbursements set forth in Section 12(c) (*Conditions Precedent – Conditions Precedent to All Disbursements*) of the WIFIA Master Agreement (each of which is incorporated by reference herein, *mutatis mutandis*, as if set out in this Agreement in full and as if each reference therein to any "WIFIA Loan" or any "WIFIA Loan Agreement" were a reference, respectively, to the WIFIA Loan or this Agreement (as such terms are defined in this Agreement)).

ARTICLE IV

REPRESENTATIONS AND WARRANTIES

Section 13. Representations and Warranties of Borrower.

The representations and warranties set out in Section 13 (*Representations and Warranties of Borrower*) of the WIFIA Master Agreement shall be made on the WIFIA Loan Agreement Effective Date and as of each date on which any Disbursement of the WIFIA Loan is requested or made, except as otherwise expressly provided in Section 13 of the WIFIA Master Agreement. Each such representation and warranty is incorporated by reference herein, *mutatis mutandis*, for the benefit of the WIFIA Lender as if set out in this Agreement in full (and as if each reference therein to "this Agreement" were a reference to this Agreement and as if each reference therein to (a) any "Project" or the "Master Program", (b) any "WIFIA Loan" or (c) any "WIFIA Bond" were a reference, respectively, to (i) the Project, (ii) the WIFIA Loan or (iii) the WIFIA Bond (as such terms are defined in this Agreement)). The Borrower acknowledges that it makes such representations and warranties with the intention of inducing the WIFIA Lender to enter into this Agreement and the other WIFIA Loan Documents and to advance the WIFIA Loan to the Borrower, and that the WIFIA Lender has entered into this Agreement and the other WIFIA Loan Documents on the basis of, and in full reliance on, each such representation and warranty.

Section 14. Representations and Warranties of WIFIA Lender.

The representations and warranties set out in Section 14 (*Representations and Warranties of WIFIA Lender*) of the WIFIA Master Agreement shall be made on the WIFIA Loan Agreement Effective Date, *mutatis mutandis*, for the benefit of the Borrower as if set out in this Agreement in full (and as if each reference therein to any "WIFIA Loan" were a reference to the WIFIA Loan (as such term is defined in this Agreement)).

ARTICLE V

COVENANTS

Section 15. Covenants.

The Borrower covenants and agrees, until the date the WIFIA Loan and all of the obligations of the Borrower under the WIFIA Loan Documents with respect to the WIFIA Loan or the Project (other than contingent indemnity obligations) have been irrevocably paid in full in immediately available funds and the WIFIA Lender no longer has any commitment to make Disbursements under this Agreement to the Borrower, unless the WIFIA Lender waives compliance in writing, to comply with each of the covenants set forth in the WIFIA Master Agreement, including Section 15 (*Affirmative Covenants*), Section 16 (*Negative Covenants*), Section 22 (*System Financial Planning and Reporting*) and Section 23 (*Project Oversight and Monitoring*) of the WIFIA Master Agreement, which covenants are incorporated by reference herein *mutatis mutandis* as if fully set forth herein (and as if each reference therein to "this Agreement" were a reference to this Agreement and as if each reference therein to (a) any "Project" or the "Master Program," (b) any "WIFIA Loan" or (c) any "WIFIA Bond" were a reference, respectively, to (i) the Project, (ii) the WIFIA Loan or (iii) the WIFIA Bond (as such terms are defined in this Agreement)).

Section 16. [Reserved].

Section 17. [Reserved].

ARTICLE VI

EVENTS OF DEFAULT

Section 18. Events of Default and Remedies.

(a) Each System Event of Default set out in Section 19 (*System Events of Default and Remedies*) of the WIFIA Master Agreement and each Project Event of Default set out in Section 20 (*Project Events of Default and Remedies*) shall constitute a System Event of Default or Project Event of Default, as applicable, under this Agreement, except as otherwise expressly provided in Section 19 (*System Events of Default and Remedies*) or Section 20 (*Project Events of Default and Remedies*) of the WIFIA Master Agreement.

(b) Upon the occurrence and during the continuation of any System Event of Default or Project Event of Default hereunder, the WIFIA Lender shall have each of the rights and remedies to which it is entitled as provided in and with the same effect as described in Section 19 (*System Events of Default and Remedies*) and Section 20 (*Project Events of Default and Remedies*) of the WIFIA Master Agreement.

ARTICLE VII

MISCELLANEOUS

Section 19. Governing Law.

This Agreement shall be governed by the federal laws of the United States of America, if and to the extent such federal laws are applicable, and the internal laws of the State, if and to the extent such federal laws are not applicable.

Section 20. Effectiveness.

This Agreement shall be effective on the WIFIA Loan Agreement Effective Date.

Section 21. Termination.

This Agreement shall terminate upon the irrevocable payment in full in immediately available funds by the Borrower of the Outstanding WIFIA Bond Balance, together with all accrued interest, fees and expenses with respect thereto; provided that the indemnification requirements of Section 17 (*Indemnification*) of the WIFIA Master Agreement, as incorporated herein, the reporting and record keeping requirements of Section 21 (*Accounting and Audit Procedures; Inspections; Reports and Records*) of the WIFIA Master Agreement, as incorporated herein, and the payment requirements of Section 11 (*Fees and Expenses*) shall survive the termination of this Agreement as provided in such sections.

Section 22. Miscellaneous.

Sections 17 (Indemnification), 18 (Sale of WIFIA Loan), 24 (Disclaimer of Warranty), 25 (No Personal Recourse), 26 (No Third Party Rights), 27 (Borrower's Authorized Representative), 28 (WIFIA Lender's Authorized Representative), 29 (Servicer), 31 (Amendments and Waivers), 33 (Severability), 34 (Successors and Assigns), 35 (Remedies Not Exclusive), 36 (Delay or Omission Not Waiver), 37 (Counterparts), 38 (Notices; Payment Instructions) and 41 (Integration) of the WIFIA Master Agreement shall be incorporated in this Agreement, mutatis mutandis, as if set out in this Agreement in full (and as if each reference therein to "this Agreement" were a reference to this Agreement and as if each reference therein to (a) any "Project" or the "Master Program", (b) any "WIFIA Loan" or (c) any "WIFIA Bond" were a reference, respectively, to (i) the Project, (ii) the WIFIA Loan or (iii) the WIFIA Bond (as such terms are defined in this Agreement)).

EXHIBIT B

FORM OF CERTIFICATE OF TRUSTEE

PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO

WIFIA Bond,
[___] Project
(WIFIA [_____])

The undersigned, [_____] (the "***Trustee***"), by its duly appointed, qualified and acting authorized officer, certifies with respect to the above referenced bond (the "***WIFIA Bond***") dated as of [_____], as follows (capitalized terms used in this Certificate which are not otherwise defined shall have the meanings given to such terms in the Indenture (as defined below)):

1. That the Trustee is a national banking association duly organized and validly existing and in good standing under the laws of the United States of America.

2. All approvals, consents and orders of any governmental authority or agency having jurisdiction over the Trustee in the matter which would constitute a condition precedent to the performance by the Trustee of its duties and obligations under the documents pertaining to the issuance of the WIFIA Bond have been obtained by the Trustee and are in full force and effect.

3. That the documents pertaining to the issuance of the WIFIA Bond to which the Trustee is a party were executed by the Trustee and the WIFIA Bond was authenticated on behalf of the Trustee by one or more of the persons whose names and offices appear on Annex One attached hereto and made part hereof, that each person was at the time of the execution of such documents and the authentication of the WIFIA Bond and now is duly appointed, qualified and acting incumbent of his or her respective office, that each such person was authorized to execute such documents and to authenticate the WIFIA Bond, and that the signature appearing after the name of each such person is a true and correct specimen of that person's genuine signature.

4. That the undersigned is authorized to act as Trustee and accept the trusts conveyed to it under the Indenture ("***Trusts***"), has accepted the Trusts so conveyed and in so accepting the Trusts and so acting is not in violation of any provision of its articles of association or bylaws, any law, regulation or court or administrative order or, to its knowledge, any agreement or other instrument to which it is a party or by which it may be bound.

5. That attached to this Certificate as Annex One is a full, true and correct copy of excerpts from resolutions of the bylaws of the Trustee that evidence the Trustee's trust powers and the authority of the officers referred to above to act on behalf of the Trustee; and that these excerpts and other applicable documents were in effect on the date or dates such officers acted and remain in full force and effect today, and such excerpts and documents have not been amended since the date of the last amendment thereto shown on any such copy, as applicable.

6. That receipt is acknowledged of all instruments, certifications and other documents or confirmations required to be received by the Trustee pursuant to that certain Indenture, dated as of January 1, 2003, by and between the Public Utilities Commission of the City and County of San Francisco (the "***Borrower***") and the Trustee (as amended, the "***Indenture***").

7. That receipt is also acknowledged of that certain WIFIA Master Agreement, dated as of April 26, 2023 (the "***WIFIA Master Agreement***") and WIFIA Loan Agreement, dated as of [_____] (the "***WIFIA Loan Agreement***"), between the Borrower and the United States Environmental Protection Agency, acting by and through the Administrator.

8. That the Trustee also accepts its appointment and agrees to perform the duties and responsibilities of Trustee for and in respect of the WIFIA Bond as set forth in the Indenture, the WIFIA Master Agreement and the WIFIA Loan Agreement, including from time to time redeeming all or a portion of the WIFIA Bond as provided in Article IV of the Indenture. In accepting such duties and responsibilities, the Trustee shall be entitled to all of the privileges, immunities, rights and protections set forth in Article VIII of the Indenture.

9. That all funds and accounts for the payment of the WIFIA Bond pursuant to the Indenture have been established as provided in the Indenture.

10. That to our knowledge, no suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, governmental agency, public board or body is pending or threatened against the Trustee, in any way contesting or affecting the existence or powers (including trust powers) of the Trustee, the title of its officers to their respective offices, or the Trustee's ability to fulfill its duties and obligations under the Indenture and to authenticate the WIFIA Bond.

This certificate may be delivered by the delivery of signed signature pages by electronic means, facsimile transmission, or by e-mail with a PDF copy attached, and any printed or copied versions of any signature page so delivered shall have the same force and effect as an originally signed version of such signature page. Signatures of this certificate made by electronic means shall be accompanied by an email, contemporaneous or otherwise, confirming the use of such means.

WIFIA LOAN AGREEMENT

THIS WIFIA LOAN AGREEMENT (this "**Agreement**"), dated as of April 26, 2023, is by and between the **PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO,** a commission duly organized and existing under and pursuant to the Charter of the City and County of San Francisco and the laws of the State of California, with an address at 525 Golden Gate Avenue, San Francisco, California 94102 (the "**Borrower**") and the **UNITED STATES ENVIRONMENTAL PROTECTION AGENCY**, an agency of the United States of America, acting by and through the Administrator of the Environmental Protection Agency, with an address at 1200 Pennsylvania Avenue NW, Washington, DC 20460 (the "**WIFIA Lender**").

RECITALS:

WHEREAS, the Congress of the United States of America enacted the Water Infrastructure Finance and Innovation Act, § 5021 *et seq.* of Public Law 113-121, as amended, and as may be further amended from time to time, which is codified as 33 U.S.C. §§ 3901-3915;

WHEREAS, the Act authorizes the WIFIA Lender to enter into agreements to provide financial assistance with one or more eligible entities to make secured loans with appropriate security features to finance a portion of the eligible costs of projects eligible for assistance;

WHEREAS, the Borrower and the WIFIA Lender entered into that certain WIFIA Master Agreement, dated as of April 26, 2023 (the "**WIFIA Master Agreement**"), pursuant to which the parties thereto have set forth certain common terms and conditions applicable to each WIFIA loan and project under the Master Program;

WHEREAS, pursuant to the WIFIA Master Agreement, the Borrower has requested that the WIFIA Lender make the WIFIA Loan (as defined below) in a principal amount not to exceed $369,335,021 to be used to pay a portion of the Eligible Project Costs related to the Project (as defined below);

WHEREAS, as of the date hereof, the Administrator has approved WIFIA financial assistance for the Project to be provided in the form of the WIFIA Loan, subject to the terms and conditions contained herein and in the WIFIA Master Agreement;

WHEREAS, based on the Project WIFIA Loan Request, the Application, the WIFIA Master Agreement and the representations, warranties and covenants set forth herein and therein, the WIFIA Lender proposes to make funding available to the Borrower through the purchase of the WIFIA Bond (as defined below) to be issued by the Borrower, upon the terms and conditions set forth herein and in the WIFIA Master Agreement;

WHEREAS, the Borrower agrees to repay any amount due pursuant to this Agreement and the WIFIA Bond in accordance with the terms and provisions of this Agreement, the WIFIA Master Agreement and the WIFIA Bond; and

WHEREAS, the WIFIA Lender has entered into this Agreement in reliance upon, among other things, the information and representations of the Borrower set forth in the Project WIFIA

Loan Request, the Application, the WIFIA Master Agreement, and the supporting information provided by the Borrower.

NOW, THEREFORE, the premises being as stated above, and for good and valuable consideration, the receipt and sufficiency of which are acknowledged to be adequate, and intending to be legally bound hereby, it is hereby mutually agreed by and between the Borrower and the WIFIA Lender as follows:

ARTICLE I

DEFINITIONS AND INTERPRETATION

Section 1. Definitions.

Each capitalized term used in this Agreement (including in the recitals hereto) and not otherwise defined herein shall have the meaning assigned to such term in the WIFIA Master Agreement. Any term used in this Agreement (including in the recitals hereto) that is defined by reference to any other agreement shall continue to have the meaning specified in such agreement, whether or not such agreement remains in effect. In addition, as used in this Agreement (including in the recitals hereto), the following terms have the following meanings:

"**Agreement**" has the meaning provided in the preamble hereto.

"**Anticipated WIFIA Loan Disbursement Schedule**" means the disbursement schedule set forth in Exhibit A (*WIFIA Debt Service*), reflecting the anticipated disbursement of proceeds of the WIFIA Loan, as such schedule may be amended from time to time pursuant to Section 4 (*Disbursement Conditions*).

"**Bond Amortization Schedule**" means the bond amortization schedule reflected in the applicable column of Exhibit A (*WIFIA Debt Service*), as amended from time to time in accordance with Section 7 (*Outstanding WIFIA Bond Balance; Revisions to Bond Amortization Schedule*) of the WIFIA Master Agreement.

"**Capitalized Interest Period**" means the period from (and including) the First Disbursement Date to (and including) the date that is six (6) months prior to April 1, 2032, subject to earlier termination as set forth in Section 8(a)(iii) (*Payment of WIFIA Debt Service*) of the WIFIA Master Agreement.

"**Debt Service Payment Commencement Date**" means the earlier to occur of (a) April 1, 2032 and (b) the Semi-Annual Payment Date on or immediately preceding the fifth (5^{th}) anniversary of the Substantial Completion Date; provided that, if the Capitalized Interest Period ends pursuant to Section 9(c) (*Payment of Principal and Interest – Capitalized Interest Period)* of the WIFIA Master Agreement due to the occurrence of a System Event of Default or a Project Event of Default, the Debt Service Payment Commencement Date shall be the first Semi-Annual Payment Date immediately following the end of the Capitalized Interest Period.

"**Development Default Date**" means May 8, 2030.

"**Final Maturity Date**" means the earlier of (a) October 1, 2061 (or such earlier date as is set forth in an updated Exhibit A (*WIFIA Debt Service*) pursuant to Section 7 (*Outstanding WIFIA Bond Balance; Revisions to Bond Amortization Schedule*) of the WIFIA Master Agreement); and (b) the Semi-Annual Payment Date immediately preceding the date that is thirty-five (35) years following the Substantial Completion Date.

"**Interest Only Period**" means the period commencing from (and including) the Debt Service Payment Commencement Date and ending on September 30, 2041 (or on such earlier date as all amounts due or to become due to the WIFIA Lender hereunder have been irrevocably paid in full in cash).

"**Project**" means Project 1 of the SFPUC Wastewater Capital Plan Resilience Program, located in San Francisco, California, as described in further detail in Schedule III (*Project*), as may be amended from time to time with the WIFIA Lender's approval.

"**Project Budget**" means the budget for the Project attached to this Agreement as Schedule I (*Project Budget*) showing a summary of Total Project Costs with a breakdown of all Eligible Project Costs and the estimated sources and uses of funds for the Project.

"**Project WIFIA Loan Request**" has the meaning provided in the recitals hereto.

"**Project Schedule**" means (a) the initial schedule or schedules on which the construction timetables for the Project are set forth, attached hereto as Schedule II (*Project Schedule*), and (b) any updates thereto included in the Construction Monitoring Report for the Project most recently submitted to the WIFIA Lender in accordance with Section 23(b) (*Project Oversight and Monitoring – Construction Monitoring Report*) of the WIFIA Master Agreement.

"**Projected Substantial Completion Date**" means May 8, 2028, as such date may be adjusted in accordance with Section 23(b) (*Project Oversight and Monitoring – Construction Monitoring Report*) of the WIFIA Master Agreement.

"**WIFIA Bond**" means the Bond evidencing the Borrower's obligation to repay the WIFIA Loan issued and delivered by the Borrower in substantially the form set forth in Exhibit A (*Form of WIFIA Supplemental Indenture (including WIFIA Bond form)*) to the WIFIA Master Agreement.

"**WIFIA Loan**" means the secured loan made by the WIFIA Lender to the Borrower on the terms and conditions set forth herein, in the WIFIA Master Agreement and in the WIFIA Bond, pursuant to the Act, in a principal amount not to exceed $369,335,021, to be used in respect of Eligible Project Costs with respect to the Project.

"**WIFIA Loan Agreement Effective Date**" means the date of this Agreement.

"**WIFIA Master Agreement**" has the meaning provided in the recitals hereto.

"**WIFIA Supplemental Indenture**" means that certain Sixteenth Supplemental Indenture, entered into by and between the Borrower and the Trustee on April 26, 2023, authorizing, among other things, the execution and delivery of this Agreement, the issuance of

the WIFIA Bond and certain related actions by the Borrower in connection with the issuance of the WIFIA Loan, in substantially the form of Exhibit A (*Form of WIFIA Supplemental Indenture (including WIFIA Bond form)*) to the WIFIA Master Agreement.

Section 2. Interpretation.

(a) Except as otherwise expressly provided herein, the rules of interpretation set forth in Section 2 of the WIFIA Master Agreement shall apply herein, *mutatis mutandis*, as if set out in this Agreement in full (and as if each reference therein to "this Agreement" were a reference to this Agreement, and each reference to any "WIFIA Loan" or any "WIFIA Bond" were a reference, respectively, to the WIFIA Loan or the WIFIA Bond as such terms are defined in this Agreement).

(b) This Agreement is one of the WIFIA Loan Agreements referenced in the WIFIA Master Agreement.

ARTICLE II

THE WIFIA LOAN

Section 3. WIFIA Loan Amount.

The principal amount of the WIFIA Loan shall not exceed $369,335,021. WIFIA Loan proceeds available to be drawn shall be disbursed from time to time in accordance with Section 4 (*Disbursement Conditions*) hereof and Section 12(c) (*Conditions Precedent – Conditions Precedent to All Disbursements*) of the WIFIA Master Agreement.

Section 4. Disbursement Conditions.

The WIFIA Loan shall be disbursed in accordance with Section 4 (*Disbursement Conditions*) of the WIFIA Master Agreement.

Section 5. [Reserved].

Section 6. Interest Rate.

The interest rate with respect to the Outstanding WIFIA Bond Balance for the WIFIA Loan shall be three and sixty-five hundredths percent (3.65%) per annum. Interest will accrue and be computed on the Outstanding WIFIA Bond Balance from time to time pursuant to, and otherwise in accordance with, with Section 6 (*Interest Rate*) of the WIFIA Master Agreement.

Section 7. [Reserved].

Section 8. Payment of Principal and Interest.

Payments of WIFIA Debt Service shall be made by the Borrower on each Semi-Annual Payment Date occurring on and after the Debt Service Payment Commencement Date as

provided in Section 9(d) (*Payment of Principal and Interest – Payment of WIFIA Debt Service*) of the WIFIA Master Agreement.

Section 9. WIFIA Bond.

As evidence of the Borrower's obligation to repay the WIFIA Loan, the Borrower shall issue and deliver to the WIFIA Lender, on or prior to the WIFIA Loan Agreement Effective Date, the WIFIA Bond substantially in the form set forth in Exhibit A (*Form of WIFIA Supplemental Indenture (including WIFIA Bond form)*) to the Master Agreement, having a maximum principal amount of $369,335,021.

Section 10. Prepayment.

The Borrower may prepay the WIFIA Loan in accordance with Section 10(c) (*Prepayment – Optional Prepayments*) of the WIFIA Master Agreement.

Section 11. Fees and Expenses.

The Borrower shall pay to the WIFIA Lender, in each case pursuant to and in accordance with Section 30 (Fees *and Expenses*) of the WIFIA Master Agreement:

(a) a one-time Servicing Set-Up Fee equal to $23,100;

(b) an annual Construction Period Servicing Fee equal to $23,100 per annum; provided that the initial Construction Period Servicing Fee shall be in a pro-rated amount equal to $9,620 in accordance with Section 30(a)(ii) (*Fees and Expenses*) of the WIFIA Master Agreement; and

(c) an Operating Period Servicing Fee equal to $8,670 per annum; and

(d) any other applicable fees, costs, charges and expenses pursuant to, and otherwise in accordance with, Section 30 (*Fees and Expenses*) of the WIFIA Master Agreement.

ARTICLE III

CONDITIONS PRECEDENT

Section 12. Conditions Precedent.

(a) Conditions Precedent to Effectiveness. The effectiveness of this Agreement is subject to the satisfaction, or the WIFIA Lender's written waiver, as determined by the WIFIA Lender in its sole discretion, of each of the conditions precedent to the effectiveness of this Agreement set forth in Section 12(b) (*Conditions Precedent – Conditions Precedent to Effectiveness of Each WIFIA Loan Agreement*) of the WIFIA Master Agreement (each of which is incorporated by reference herein, *mutatis mutandis*, as if set out in this Agreement in full and as if each reference therein to any "Project," any "WIFIA Loan," any "WIFIA Bond," or any "WIFIA Loan Agreement" were a reference, respectively, to the Project, the WIFIA Loan, the WIFIA Bond, or this Agreement (as such terms are defined in this Agreement)).

(b) Conditions Precedent to Disbursements. Notwithstanding anything in this Agreement to the contrary, the WIFIA Lender's obligation to make any Disbursement of the WIFIA Loan to the Borrower (including the initial Disbursement hereunder) is subject to the satisfaction or the WIFIA Lender's written waiver, as determined by the WIFIA Lender in its sole discretion, of each of the conditions precedent to Disbursements set forth in Section 12(c) (*Conditions Precedent – Conditions Precedent to All Disbursements*) of the WIFIA Master Agreement (each of which is incorporated by reference herein, *mutatis mutandis*, as if set out in this Agreement in full and as if each reference therein to any "WIFIA Loan" or any "WIFIA Loan Agreement" were a reference, respectively, to the WIFIA Loan or this Agreement (as such terms are defined in this Agreement)).

ARTICLE IV

REPRESENTATIONS AND WARRANTIES

Section 13. Representations and Warranties of Borrower.

The representations and warranties set out in Section 13 (*Representations and Warranties of Borrower*) of the WIFIA Master Agreement shall be made on the WIFIA Loan Agreement Effective Date and as of each date on which any Disbursement of the WIFIA Loan is requested or made, except as otherwise expressly provided in Section 13 of the WIFIA Master Agreement. Each such representation and warranty is incorporated by reference herein, *mutatis mutandis*, for the benefit of the WIFIA Lender as if set out in this Agreement in full (and as if each reference therein to "this Agreement" were a reference to this Agreement and as if each reference therein to (a) any "Project", (b) any "WIFIA Loan" or (c) any "WIFIA Bond" were a reference, respectively, to (i) the Project, (ii) the WIFIA Loan or (iii) the WIFIA Bond (as such terms are defined in this Agreement)). The Borrower acknowledges that it makes such representations and warranties with the intention of inducing the WIFIA Lender to enter into this Agreement and the other WIFIA Loan Documents and to advance the WIFIA Loan to the Borrower, and that the WIFIA Lender has entered into this Agreement and the other WIFIA Loan Documents on the basis of, and in full reliance on, each such representation and warranty.

Section 14. Representations and Warranties of WIFIA Lender.

The representations and warranties set out in Section 14 (*Representations and Warranties of WIFIA Lender*) of the WIFIA Master Agreement shall be made on the WIFIA Loan Agreement Effective Date, *mutatis* mutandis, for the benefit of the Borrower as if set out in this Agreement in full (and as if each reference therein to any "WIFIA Loan" were a reference to the WIFIA Loan (as such term is defined in this Agreement)).

ARTICLE V

COVENANTS

Section 15. Covenants.

The Borrower covenants and agrees, until the date the WIFIA Loan and all of the obligations of the Borrower under the WIFIA Loan Documents with respect to the WIFIA Loan or the Project (other than contingent indemnity obligations) have been irrevocably paid in full in immediately available funds and the WIFIA Lender no longer has any commitment to make Disbursements under this Agreement to the Borrower, unless the WIFIA Lender waives compliance in writing, to comply with each of the covenants set forth in the WIFIA Master Agreement, including Section 15 (*Affirmative Covenants*), Section 16 (*Negative Covenants*), Section 22 (*System Financial Planning and Reporting*) and Section 23 (*Project Oversight and Monitoring*) of the WIFIA Master Agreement, which covenants are incorporated by reference herein *mutatis mutandis* as if fully set forth herein (and as if each reference therein to "this Agreement" were a reference to this Agreement and as if each reference therein to (a) any "Project", (b) any "WIFIA Loan" or (c) any "WIFIA Bond" were a reference, respectively, to (i) the Project, (ii) the WIFIA Loan or (iii) the WIFIA Bond (as such terms are defined in this Agreement)).

Section 16. [Reserved].

Section 17. [Reserved].

ARTICLE VI

EVENTS OF DEFAULT

Section 18. Events of Default and Remedies.

(a) Each System Event of Default set out in Section 19 (*System Events of Default and Remedies*) of the WIFIA Master Agreement and each Project Event of Default set out in Section 20 (*Project Events of Default and Remedies*) of the WIFIA Master Agreement shall constitute a System Event of Default or Project Event of Default, as applicable, under this Agreement, except as otherwise expressly provided in Section 19 (*System Events of Default and Remedies*) or Section 20 (*Project Events of Default and Remedies*) of the WIFIA Master Agreement.

(b) Upon the occurrence and during the continuation of any System Event of Default or Project Event of Default hereunder, the WIFIA Lender shall have each of the rights and remedies to which it is entitled as provided in and with the same effect as described in Section 19 (*System Events of Default and Remedies*) and Section 20 (*Project Events of Default and Remedies*) of the WIFIA Master Agreement.

ARTICLE VII

MISCELLANEOUS

Section 19. Governing Law.

This Agreement shall be governed by the federal laws of the United States of America, if and to the extent such federal laws are applicable, and the internal laws of the State, if and to the extent such federal laws are not applicable.

Section 20. Effectiveness.

This Agreement shall be effective on the WIFIA Loan Agreement Effective Date.

Section 21. Termination.

This Agreement shall terminate upon the irrevocable payment in full in immediately available funds by the Borrower of the Outstanding WIFIA Bond Balance, together with all accrued interest, fees and expenses with respect thereto; provided that the indemnification requirements of Section 17 (*Indemnification*) of the WIFIA Master Agreement, as incorporated herein, the reporting and record keeping requirements of Section 21 (*Accounting and Audit Procedures; Inspections; Reports and Records*) of the WIFIA Master Agreement, as incorporated herein, and the payment requirements of Section 11 (*Fees and Expenses*) shall survive the termination of this Agreement as provided in such sections.

Section 22. Miscellaneous.

Sections 17 (*Indemnification*), 18 (*Sale of WIFIA Loan*), 24 (*Disclaimer of Warranty*), 25 (*No Personal Recourse*), 26 (*No Third Party Rights*), 27 (*Borrower's Authorized Representative*), 28 (*WIFIA Lender's Authorized Representative*), 29 (*Servicer*), 31 (*Amendments and Waivers*), 33 (*Severability*), 34 (Successors *and Assigns*), 35 (*Remedies Not Exclusive*), 36 (*Delay or Omission Not Waiver*), 37 (*Counterparts*), 38 (*Notices; Payment Instructions*) and 41 (*Integration*) of the WIFIA Master Agreement shall be incorporated in this Agreement, mutatis mutandis, as if set out in this Agreement in full (and as if each reference therein to "this Agreement" were a reference to this Agreement and as if each reference therein to (a) any "Project" or the "Master Program", (b) any "WIFIA Loan" or (c) any "WIFIA Bond" were a reference, respectively, to (i) the Project, (ii) the WIFIA Loan or (iii) the WIFIA Bond (as such terms are defined in this Agreement)).

[*The remainder of this page intentionally left blank; signature pages immediately follow*.]

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be duly executed and delivered by their respective officers thereunto duly authorized as of the date first written above.

PROJECT SCHEDULE

Projected Substantial Completion Date: May 8, 2028

Project Element	Design Start	Design End	Construction Start	Construction End
Yosemite Creek Daylighting	6/1/2022	2/2/2024	2/29/2024	5/8/2028*
Wawona Area Stormwater Improvement	9/18/2017	10/30/2020	7/26/2021	5/27/2024
Folsom Area Stormwater Improvement	1/23/2019	7/28/2023	6/20/2023	12/31/2026
Westside Pump Station Reliability Improvements	2/2/2016	8/10/2020	4/19/2021	6/27/2024
North Shore Pump Station Wet Improvements	6/1/2015	4/30/2019	4/19/2021	5/6/2024
New Treasure Island Wastewater Treatment Plant (also known as Treasure Island Water Resource Recovery Facility)	3/25/2020	12/15/2023	4/18/2023	2/27/2026

* The Borrower anticipates that the Project will achieve Substantial Completion by the Projected Substantial Completion Date, which is indicated as "Construction Phase Current Forecast Finish" in the SFPUC's Project Cost and Schedule Report.

SCHEDULE III

PROJECT

The Project is the first project under the SFPUC Wastewater Capital Plan Resilience Program, located in San Francisco, California. The Project consists of the following components that are designed to repair, rehabilitate and replace critical assets, and to upgrade the system to enhance reliability, resiliency, and sustainability:

1. Yosemite Creek Daylighting: green infrastructure project component that will capture and clean stormwater, preventing it from overwhelming the sewer system;

2. Wawona Area Stormwater Improvements and Vicente Street Water Main Replacement: stormwater mitigation improvement and flood resiliency by building an auxiliary sewer by cut/cover and trenchless methods, stormwater inlets, and pavement restoration;

3. Folsom Area Stormwater Improvements: stormwater improvements, including development and construction of a new stormwater tunnel and related upstream components;

4. Westside Pump Station Reliability Improvements: pump station upgrades, including construction of a new electrical building and related improvements, to ensure efficient and reliable transport of combined flows to the treatment facilities;

5. North Shore Pump Station: pump station upgrades, including replacement of dry weather pumps, to ensure efficient and reliable transport of combined flows to the treatment facilities; and

6. Treasure Island Wastewater Treatment Plant (also known as Treasure Island Water Resource Recovery Facility): construction of a new wastewater treatment plant to provide reliable service for the Treasure Island residents and meet recycled water demands on the island.

SCHEDULE 13(f)

LITIGATION

None.

SCHEDULE 13(n)

EXISTING PRINCIPAL PROJECT CONTRACTS

Contract	Date	Parties	Description
North Shore Pump Station Wet Weather Improvements, Contract No. WW-685R	March 3, 2021	Borrower and Western Water Constructors, Inc.	Construction of the North Shore Pump Station Wet Weather Improvements
Wawona Area Stormwater Improvement and Vicente Street Water Main Replacement, Contract No. WW-711	April 13, 2021	Borrower and K.J. Woods Construction Inc.	Construction of the Wawona Area Stormwater Improvement and Vicente Street Water Main Replacement
Westside Pump Station Reliability Improvements, Contract No. WW-645R	February 23, 2021	Borrower and Anvil Builders, Inc.	Construction of the Westside Pump Station Reliability Improvements
New Treasure Island Wastewater Treatment Plant Project (also known as Treasure Island Water Resource Recovery Facility)	January 26, 2023	PCL Construction Inc	Construction of the New Treasure Island Wastewater Treatment Plant (also known as Treasure Island Water Resource Recovery Facility)

SCHEDULE 13(r)

ENVIRONMENTAL MATTERS

There is no current, threatened, or pending litigation involving the SFPUC related to public involvement, construction defects, securities fraud, conflict of interest, failure to perform under a State or Federal contract, or other charges which may reflect on the SFPUC's financial position or ability to complete the Project. In February 2016, the United States Environmental Protection Agency (EPA) initiated an investigation of the SFPUC's operations of its combined sewer system, especially with regard to operations during wet weather conditions and flooding response. After numerous meetings, EPA advised SFPUC that an enforcement action against the SFPUC for violating the Clean Water Act would commence. On October 2, 2019, the SFPUC received a Notice of Violation ("Notice of Violation") from the EPA asserting various violations of the Clean Water Act associated with discharges from various treatment plants and discharge facilities in the City. EPA and the City are currently in negotiations regarding the assertions contained in the Notice of Violation. Resolution of the assertions could involve, among other things, the payment of fines and modifications of SFPUC's current capital improvement plans, projects, and priorities. At this time the SFPUC cannot determine whether and to what extent any EPA action will have on SFPUC's current operations or planning programs for the Wastewater Enterprise.

Total				**$369,335,021.00**	**$109,311,261.14**	**$414,844,384.20**	**$478,646,282.14**		**$893,490,666.34**	

Period Repayment Type Definitions:
No Payment: Interest in the period is capitalized and added to the outstanding principal balance. // Interest Only Total: Interest is paid as it accrues. // Level Payment (semiannual): Level semiannual payments of principal and interest. // Level Payment (annual p, semiannual i): This option makes the sum of one annual principal and two semiannual interest payments constant (i.e., level). // Level Payment (one payment per year): This option makes level annual payments of principal and interest and capitalizes the interest in the non-payment periods. // Fixed Principal ($): Fixed amount in a period is paid and interest is paid as it accrues. // Fixed Principal (%): Fixed % of total max outstanding principal (i.e., draws + capitalized interest) in a period is paid and interest is paid as it accrues.

EXHIBIT B

FORM OF CERTIFICATE OF TRUSTEE

PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO

WIFIA Bond,
SFPUC Wastewater Capital Plan Resilience Program – Project 1
(WIFIA ID – 21112CA)

The undersigned, [_____] (the "***Trustee***"), by its duly appointed, qualified and acting authorized officer, certifies with respect to the above referenced bond (the "***WIFIA Bond***") dated as of April 26, 2023, as follows (capitalized terms used in this Certificate which are not otherwise defined shall have the meanings given to such terms in the Indenture (as defined below)):

1. That the Trustee is a national banking association duly organized and validly existing and in good standing under the laws of the United States of America.

2. All approvals, consents and orders of any governmental authority or agency having jurisdiction over the Trustee in the matter which would constitute a condition precedent to the performance by the Trustee of its duties and obligations under the documents pertaining to the issuance of the WIFIA Bond have been obtained by the Trustee and are in full force and effect.

3. That the documents pertaining to the issuance of the WIFIA Bond to which the Trustee is a party were executed by the Trustee and the WIFIA Bond was authenticated on behalf of the Trustee by one or more of the persons whose names and offices appear on Annex One attached hereto and made part hereof, that each person was at the time of the execution of such documents and the authentication of the WIFIA Bond and now is duly appointed, qualified and acting incumbent of his or her respective office, that each such person was authorized to execute such documents and to authenticate the WIFIA Bond, and that the signature appearing after the name of each such person is a true and correct specimen of that person's genuine signature.

4. That the undersigned is authorized to act as Trustee and accept the trusts conveyed to it under the Indenture ("***Trusts***"), has accepted the Trusts so conveyed and in so accepting the Trusts and so acting is not in violation of any provision of its articles of association or bylaws, any law, regulation or court or administrative order or, to its knowledge, any agreement or other instrument to which it is a party or by which it may be bound.

5. That attached to this Certificate as Annex One is a full, true and correct copy of excerpts from resolutions of the bylaws of the Trustee that evidence the Trustee's trust powers and the authority of the officers referred to above to act on behalf of the Trustee; and that these excerpts and other applicable documents were in effect on the date or dates such officers acted and remain in full force and effect today, and such excerpts and documents have not been amended since the date of the last amendment thereto shown on any such copy, as applicable.

6. That receipt is acknowledged of all instruments, certifications and other documents or confirmations required to be received by the Trustee pursuant to that certain Indenture, dated as of January 1, 2003, by and between the Public Utilities Commission of the City and County of San Francisco (the "***Borrower***") and the Trustee (as amended, the "***Indenture***").

7. That receipt is also acknowledged of that certain WIFIA Master Agreement, dated as of April 26, 2023 (the "***WIFIA Master Agreement***") and WIFIA Loan Agreement, dated as of April 26, 2023 (the "***WIFIA Loan Agreement***"), between the Borrower and the United States Environmental Protection Agency, acting by and through the Administrator.

8. That the Trustee also accepts its appointment and agrees to perform the duties and responsibilities of Trustee for and in respect of the WIFIA Bond as set forth in the Indenture, the WIFIA Master Agreement and the WIFIA Loan Agreement, including from time to time redeeming all or a portion of the WIFIA Bond as provided in Article IV of the Indenture. In accepting such duties and responsibilities, the Trustee shall be entitled to all of the privileges, immunities, rights and protections set forth in Article VIII of the Indenture.

9. That all funds and accounts for the payment of the WIFIA Bond pursuant to the Indenture have been established as provided in the Indenture.

10. That to our knowledge, no suit, proceeding, inquiry or investigation, at law or in equity, before or by any court, governmental agency, public board or body is pending or threatened against the Trustee, in any way contesting or affecting the existence or powers (including trust powers) of the Trustee, the title of its officers to their respective offices, or the Trustee's ability to fulfill its duties and obligations under the Indenture and to authenticate the WIFIA Bond.

This certificate may be delivered by the delivery of signed signature pages by electronic means, facsimile transmission, or by e-mail with a PDF copy attached, and any printed or copied versions of any signature page so delivered shall have the same force and effect as an originally signed version of such signature page. Signatures of this certificate made by electronic means shall be accompanied by an email, contemporaneous or otherwise, confirming the use of such means.

EXHIBIT A FORM OF WIFIA PROJECT 1 BOND (including Minimum Sinking Fund Account Payment Schedule) A-1

SIXTEENTH SUPPLEMENTAL INDENTURE

THIS SIXTEENTH SUPPLEMENTAL INDENTURE, dated as of April 26, 2023 (this "Sixteenth Supplemental Indenture"), by and between the **PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO** (the "Commission"), a commission duly constituted under the Charter (the "Charter") of the City and County of San Francisco (the "City"), and **U.S. BANK TRUST COMPANY, NATIONAL ASSOCIATION**, a national banking association duly organized and existing under and by virtue of the laws of the United States of America, as trustee (the "Trustee");

W I T N E S S E T H :

WHEREAS, this Sixteenth Supplemental Indenture is supplemental to the Indenture, dated as of January 1, 2003 (the "Original Indenture"), between the Commission and the Trustee, as amended by a First Amendment to Indenture dated as of May 1, 2010 (the "First Amendment"), and as supplemented by a First Supplemental Indenture, dated as of May 1, 2010, the Second Supplemental Indenture, dated as of January 1, 2013, the Third Supplemental Indenture, dated as of February 1, 2013, the Fourth Supplemental Indenture, dated as of May 1, 2016, the Fifth Supplemental Indenture, dated as of September 14, 2017, the Sixth Supplemental Indenture, dated as of July 1, 2018, the Seventh Supplemental Indenture dated as of August 1, 2018, the Eighth Supplemental Indenture, dated as of August 1, 2018, the Ninth Supplemental Indenture, dated as of July 27, 2018, the Tenth Supplemental Indenture dated as of June 12, 2020, the Eleventh Supplemental Indenture, dated as of June 12, 2020, the Twelfth Supplemental Indenture, dated as of November 1, 2021, the Thirteenth Supplemental Indenture, dated as of November 1, 2021, the Fourteenth Supplemental Indenture, dated as of July 1, 2022, and the Fifteenth Supplemental Indenture, dated as of April 1, 2023 (the Original Indenture and such aforementioned supplements, together with such other supplements or amendments as may be executed from time to time in accordance with the Original Indenture, the "Indenture");

WHEREAS, pursuant to Section 8B.124 of the City Charter ("Proposition E"), the Commission has the authority to issue additional revenue bonds for the purpose of reconstructing, replacing, expanding, repairing or improving water facilities or clean water facilities, or combinations of water and clean water facilities under the jurisdiction of the Commission, subject to certain conditions, including, among others, the adoption of an ordinance by a two-thirds vote of the Board of Supervisors of the City, under such terms and conditions as the Commission may authorize;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 12, 2012, adopted Ordinance No. 115-12, which was signed by the Mayor on June 18, 2012, authorizing issuance of not to exceed $522,810,000 of Bonds or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 24, 2014, adopted Ordinance No. 107-14, which was signed by the Mayor on July 2, 2014, authorizing issuance of not to exceed $819,035,941 of Bonds or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 14, 2016, adopted Ordinance No. 111-16, which was signed by the Mayor on June 24, 2016, authorizing issuance of not to exceed $1,112,601,280 of Bonds or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 12, 2018, adopted Ordinance No. 144-18, which was signed by the Mayor on June 20, 2018, authorizing issuance of not to exceed $987,414,494 of Bonds, loans or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on September 29, 2020, adopted Ordinance No. 173-20, which was signed by the Mayor on October 1, 2020, authorizing issuance of not to exceed $349,919,252 of Bonds, loans or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on July 27, 2021 adopted Ordinance No. 128-21, which was signed by the Mayor on August 4, 2021, amending Ordinance No. 173-20 and authorizing issuance of not to exceed $563,430,430 of Bonds, loans or other forms of indebtedness;

WHEREAS, pursuant to Proposition E the Board of Supervisors on June 14, 2022 adopted Ordinance No. 110-22, which was signed by the Mayor on June 24, 2022 (together with Ordinance No. 115-12, Ordinance No. 107-14, Ordinance No. 111-16, Ordinance No. 144-18, Ordinance No. 173-20 and Ordinance No. 128-21, the "Ordinances"), authorizing issuance of not to exceed $704,198,901 of Bonds or other forms of indebtedness;

WHEREAS, the Indenture provides that the Commission may, subject to the requirements of the Law (as defined in the Indenture) and the Indenture, issue one or more other series of Bonds from time to time pursuant to a supplemental indenture;

WHEREAS, the Commission is seeking to finance a portion of the costs of the certain projects listed under the Wastewater Enterprise's capital improvement plan consisting of projects that are designed to repair, rehabilitate, and replace critical assets that have a significant risk of failure, and to upgrade the system to enhance reliability, resiliency, and sustainability (the "Wastewater Capital Plan Resilience Program", as generally categorized in Schedule I of the WIFIA Master Agreement, defined below);

WHEREAS, the Commission has determined to enter into a WIFIA Master Agreement, dated as of April 26, 2023 related to the Wastewater Capital Plan Resilience Program (the "WIFIA Master Agreement"), by and between the United States Environmental Protection Agency (the "EPA"), acting through the Administrator of the EPA, pursuant to which the EPA proposes to make funding available from time to time to the Commission for a project under the Wastewater Capital Plan Resilience Program through the execution of a WIFIA loan agreement, a WIFIA term sheet and the purchase of a WIFIA bond, issued pursuant to a supplemental indenture by the Commission, in each case with respect to such project, upon the terms and conditions set forth in the WIFIA Master Agreement;

WHEREAS, pursuant to the Ordinances and resolutions of the Commission, the Commission has determined to issue an additional Series of Bonds under this Sixteenth Supplemental Indenture designated "Public Utilities Commission of the City and County of San

Francisco Wastewater Revenue Bonds (SFPUC Wastewater Capital Plan Resilience Program – Project 1)" in an aggregate principal amount not to exceed $369,335,021 (excluding the Accreted Interest, as provided herein) (the "WIFIA Project 1 Bond"), to, among other things, finance or refinance Eligible Project Costs (as defined herein) related to the first project under the Wastewater Capital Plan Resilience Program located in the City (as more fully described in the WIFIA Project 1 Loan Agreement, the "Project");

WHEREAS, the Commission has determined to enter into a WIFIA Loan Agreement, dated as of April 26, 2023 (the "WIFIA Project 1 Loan Agreement" and, together with the WIFIA Master Agreement, the "WIFIA Project 1 Loan Documents"), by and between the EPA, acting through the Administrator of the EPA, pursuant to which the EPA, subject to the terms and conditions of this Sixteenth Supplemental Indenture and the WIFIA Project 1 Loan Documents, will agree to purchase the WIFIA Project 1 Bond, in one or more installments, from disbursements made from time to time under the WIFIA Project 1 Loan Agreement;

WHEREAS, the WIFIA Project 1 Bond will be issued by the Commission under the Indenture as a separate Series of Bonds payable on a parity with all other Outstanding Bonds issued thereunder;

WHEREAS, all acts, conditions and things required by law to exist, to have happened and to have been performed precedent to and in connection with the execution and the entering into of this Sixteenth Supplemental Indenture do exist, have happened and have been performed in regular and due time, form and manner as required by law, and the parties hereto are now duly authorized to execute and enter into this Sixteenth Supplemental Indenture;

NOW, THEREFORE, the parties hereto agree, as follows:

ARTICLE LXX

Section 70.01. Definitions. The terms defined in this section shall, for all purposes of this Sixteenth Supplemental Indenture, have the meanings herein specified, to be equally applicable to both the singular and the plural forms of any of the terms herein defined. Terms defined in the Indenture and not otherwise defined herein shall have the meanings specified therein.

Accreted Interest

"Accreted Interest" means, for all purposes of this Sixteenth Supplemental Indenture, the interest that is accrued on the WIFIA Project 1 Bond and added to the Outstanding WIFIA Project 1 Bond Balance on each Semi-Annual Payment Date occurring during the Capitalized Interest Period in accordance with the WIFIA Loan Documents and Section 71.01(g).

Business Day

"Business Day" means, for all purposes of this Sixteenth Supplemental Indenture, any day other than a Saturday, a Sunday or a day on which offices of the United States Government or the State are authorized to be closed or on which commercial banks are authorized or required by law, regulation or executive order to be closed in New York, New York or San Francisco, California

Capitalized Interest Period

"Capitalized Interest Period" means, for all purposes of this Sixteenth Supplemental Indenture the period from (and including) the first Disbursement Date to (and including) the date that is six (6) months prior to April 1, 2032, unless earlier terminated by written notice from the WIFIA Lender in accordance with the WIFIA Project 1 Loan Documents and Section 71.01(g).

Debt Service Payment Commencement Date

"Debt Service Payment Commencement Date" means, for all purposes of this Sixteenth Supplemental Indenture the earlier to occur of (a) April 1, 2032 and (b) the Semi-Annual Payment Date on or immediately preceding the fifth (5^{th}) anniversary of the Substantial Completion Date (as defined in the WIFIA Project 1 Loan Documents); provided that, if the Capitalized Interest Period ends pursuant to the WIFIA Project 1 Loan Documents due to the occurrence of a WIFIA System Event of Default or a Project 1 Project Event of Default, the Debt Service Payment Commencement Date shall be the first Semi-Annual Payment Date immediately following the end of the Capitalized Interest Period.

Disbursement Date

"Disbursement Date" means, for all purposes of this Sixteenth Supplemental Indenture, any date on which the WIFIA Lender purchases all or a portion of the WIFIA Project 1 Bond with the proceeds of a disbursement provided under the WIFIA Project 1 Loan Documents in compliance with Section 71.03.

Eligible Project Costs

"Eligible Project Costs" shall have the meaning set forth as "Eligible Project Costs" in the WIFIA Project 1 Loan Documents.

Interest Fund

"Interest Fund" means the fund of that name established pursuant to Section 5.02 of the Indenture for the purposes specified in Section 5.03 of the Indenture.

Interest Only Period

"Interest Only Period" means, for all purposes of this Sixteenth Supplemental Indenture, the period commencing from (and including) the Debt Service Payment Commencement Date and ending on September 30, 2041 (or on such earlier date as all amounts due or to become due to the WIFIA Lender under the WIFIA Project 1 Bond have been irrevocably paid in full in cash).

Minimum Sinking Fund Account Payment Schedule

"Minimum Sinking Fund Account Payment Schedule" means, for all purposes of this Sixteenth Supplemental Indenture, the schedule of required Minimum Sinking Fund Account Payments required to be made on each Semi-Annual Payment Date as set forth as Exhibit A-2 to the WIFIA Project 1 Bond. The schedule will be initially calculated on each Disbursement Date

in accordance with Section 71.01 and shall be subject to adjustment from time to time as provided in Section 71.05(c).

Net Loss Proceeds

"Net Loss Proceeds" for all purposes of this Sixteenth Supplemental Indenture, shall have the meaning set forth in the WIFIA Project 1 Loan Documents.

Outstanding WIFIA Project 1 Bond Balance

"Outstanding WIFIA Project 1 Bond Balance" means, as of the date of calculation, the sum of (a) the aggregate principal amount of the WIFIA Project 1 Bond purchased and sold on each Disbursement Date to the WIFIA Lender (*i.e.*, the sum of the funds received by the Trustee from the WIFIA Lender on each such Disbursement Date), plus (b) the Accreted Interest added to the principal balance of the WIFIA Project 1 Bond on each Semi-Annual Payment Date occurring during the Capitalized Interest Period, which shall be the sum of (i) the interest accrued since the last Semi-Annual Payment Date on the Outstanding WIFIA Project 1 Bond Balance as of such Semi-Annual Payment Date, and (ii) if any Disbursement Date has occurred since the last Semi-Annual Payment Date, the interest accrued on the amount of the proceeds of each disbursement since the applicable Disbursement Date, minus (c) the aggregate principal amount of the WIFIA Project 1 Bond paid or redeemed by the Commission on each Semi-Annual Payment Date or any redemption date, if earlier.

Principal Fund

"Principal Fund" means the fund of that name established pursuant to Section 5.02 of the Indenture for the purposes specified in Section 5.04 of the Indenture.

Principal Payment Date

"Principal Payment Date" for all purposes of this Sixteenth Supplemental Indenture shall have the meaning set forth in Section 71.01(h).

Project

"Project" for all purposes of this Sixteenth Supplemental Indenture shall have the meaning set forth in the preambles of this Sixteenth Supplemental Indenture.

Semi-Annual Payment Date

"Semi-Annual Payment Date" means each April 1 and October 1, commencing on the first such date following the first Disbursement Date.

WIFIA Lender

"WIFIA Lender" means the registered owner of the WIFIA Project 1 Bond, being initially, the United States Environmental Protection Agency (the "EPA"), an agency of the United States of America, acting by and through the Administrator of the EPA, and, if the conditions to transfer of the WIFIA Project 1 Bond set forth in Section 71.02(c) hereof are satisfied, any registered assign.

WIFIA Lender's Authorized Representative

"WIFIA Lender's Authorized Representative" shall have the meaning set forth in the WIFIA Project 1 Loan Documents.

WIFIA Master Agreement

"WIFIA Master Agreement" shall have the meaning set forth in the Preambles hereto.

WIFIA Payment Default

"WIFIA Payment Default" shall mean a Payment Default as defined in the WIFIA Project 1 Loan Documents.

WIFIA Project 1 Bond

"WIFIA Project 1 Bond" means, collectively, the Public Utilities Commission of the City and County of San Francisco Wastewater Revenue Bonds (SFPUC Wastewater Capital Plan Resilience Program – Project 1) issued pursuant to the terms of this Sixteenth Supplemental Indenture.

WIFIA Project 1 Bond Default Rate

"WIFIA Project 1 Bond Default Rate" means an interest rate equal to the sum of the (a) WIFIA Project 1 Bond Interest Rate plus (b) 200 basis points.

WIFIA Project 1 Bond Final Maturity Date

"WIFIA Project 1 Bond Final Maturity Date" means the earlier to occur of (a) October 1, 2061 (or such earlier date as is set forth in a revised Minimum Sinking Fund Account Payment Schedule delivered to the Trustee pursuant to Section 71.05(c)); and the Semi-Annual Payment Date immediately preceding the date that is thirty-five years following the Substantial Completion Date (as defined in the WIFIA Project 1 Loan Documents).

WIFIA Project 1 Bond Interest Rate

"WIFIA Project 1 Bond Interest Rate" means rate of 3.65% per annum.

WIFIA Project 1 Loan Agreement

"WIFIA Project 1 Loan Agreement" shall have the meaning set forth in the Preambles hereto.

WIFIA Project 1 Loan Documents

"WIFIA Project 1 Loan Documents" shall have the meaning set forth in the Preambles hereto.

WIFIA Project 1 Project Account

"WIFIA Project 1 Project Account" means the account by that name established within the Capital Project Fund pursuant to Section 71.04.

WIFIA Project 1 Project Event of Default

"WIFIA Project 1 Project Event of Default" shall mean a Project Event of Default as defined in the WIFIA Project 1 Loan Documents.

WIFIA Project 1 Sinking Fund Account

"WIFIA Project 1 Sinking Fund Account" means the account by that name established within the Principal Fund pursuant to Section 71.01(j).

WIFIA System Event of Default

"WIFIA System Event of Default" shall mean a System Event of Default as defined in the WIFIA Project 1 Loan Documents.

ARTICLE LXXI

WIFIA Project 1 BOND PROVISIONS

Section 71.01. Authorization and Terms of the WIFIA Project 1 Bond.

(a) A Series of Bonds is hereby created, and such Bonds are designated as the "Public Utilities Commission of the City and County of San Francisco Wastewater Revenue Bonds (SFPUC Wastewater Capital Plan Resilience Program – Project 1)," which shall be a Series of Clean Water Revenue Bonds issued under the Indenture. The aggregate initial principal amount of the WIFIA Project 1 Bond that may be issued to the WIFIA Lender under this Sixteenth Supplemental Indenture shall not exceed $369,335,021 (excluding the Accreted Interest, as provided herein, the "Maximum Initial Principal Amount").

(b) The WIFIA Project 1 Bond shall be initially issued as a single, fully registered Bond without coupons, registered in the name of the WIFIA Lender, in an aggregate principal amount not to exceed the Maximum Initial Principal Amount. The WIFIA Project 1 Bond may be issued in any denomination representing a multiple of $1.

(c) The WIFIA Project 1 Bond shall constitute a Capital Appreciation Bond during the Capitalized Interest Period, and thereafter shall automatically convert to a Current Interest Bond and Term Bond.

(d) The WIFIA Project 1 Bond will accrue interest on the Outstanding WIFIA Project 1 Bond Balance, from (and including) the first Disbursement Date, at the WIFIA Project 1 Bond Interest Rate (unless the WIFIA Project 1 Bond Default Rate is in effect, as hereinafter provided). Interest will accrue and be computed on the Outstanding WIFIA Project 1 Bond Balance from time to time on the basis of a 360-day year of twelve (12) thirty (30) day months, and will be compounded semi-annually on each Semi-Annual Payment Date occurring during the Capitalized Interest Period; provided that, in the event of any WIFIA Payment Default or any WIFIA Project 1 Project Event of Default, the WIFIA Project 1 Bond shall bear interest on the Outstanding WIFIA Project 1 Bond Balance at the WIFIA Project 1 Bond Default Rate, (a) in the case of any WIFIA Payment Default, from (and including) its due date to (but excluding) the date of any payment so due, and (b) in the case of any WIFIA Project 1 Project Event of Default, from (and including) the date of such occurrence until (and excluding) the date such WIFIA Project 1 Project Event of Default has been cured in accordance with the terms of the WIFIA Project 1 Loan Documents. The WIFIA Lender shall give notice to the Trustee and the Commission of any WIFIA Payment Default or WIFIA Project 1 Project Event of Default, which notice shall specify the effective date of the WIFIA Project 1 Bond Default Rate and shall be deemed conclusive by the Trustee absent manifest error. No failure or delay on the part of the WIFIA Lender in providing such notice, nor any defect in such notice shall affect in any manner the Commission's obligations hereunder or under the WIFIA Project 1 Bond.

(e) Within thirty (30) days following each Disbursement Date, each Semi-Annual Payment Date, and each redemption date, the WIFIA Lender shall make a notation on the WIFIA Project 1 Bond of the Outstanding WIFIA Project 1 Bond Balance as of such Disbursement Date, Semi-Annual Payment Date or redemption date (as the case may be) and shall give written notice to the Commission and the Trustee stating the Outstanding WIFIA Project 1 Bond Balance as of such date, which statement and notation thereof shall be deemed conclusive absent manifest error; provided, however, that no failure to make such notation or any delay in giving such notice or in making such notation shall affect any of the obligations of the Commission hereunder or under the WIFIA Project 1 Bond. To avoid any ambiguity, the notation made by the WIFIA Lender of the Outstanding WIFIA Project 1 Bond Balance during the Capitalized Interest Period shall reflect the Accreted Value of the WIFIA Project 1 Bond as of the relevant Semi-Annual Payment Date.

(f) The WIFIA Project 1 Bond shall mature on the WIFIA Project 1 Bond Final Maturity Date, subject to earlier redemption as provided herein.

(g) No payment of the principal of or interest on the WIFIA Project 1 Bond will be required to be made by the Commission during the Capitalized Interest Period, and during the Capitalized Interest Period interest will accrue on the Outstanding WIFIA Project 1 Bond Balance and will compound and be added to the Outstanding WIFIA Project 1 Bond Balance on each Semi-Annual Payment Date. Notwithstanding the foregoing, the Capitalized Interest Period shall end immediately upon written notification to the Commission and the Trustee by the WIFIA Lender in accordance with the WIFIA Project 1 Loan Documents that a WIFIA System Event of Default

or a WIFIA Project 1 Project Event of Default has occurred, in which case the Capitalized Interest Period shall cease and interest on the WIFIA Project 1 Bond (accrued since the last Semi-Annual Payment Date) shall be payable on the next Semi-Annual Payment Date following such termination and notification by the WIFIA Lender.

(h) Commencing on the Debt Service Payment Commencement Date and on each successive Semi-Annual Payment Date through the end of the Interest Only Period, the Commission will pay interest accrued on the Outstanding WIFIA Project 1 Bond Balance through (but not including) such Semi-Annual Payment Date. Commencing on the first Semi-Annual Payment Date following the end of the Interest Only Period, the Commission will pay interest on the Outstanding WIFIA Project 1 Bond Balance together with the Minimum Sinking Fund Account Payment due on each such Semi-Annual Payment Date (each of such Semi-Annual Payments Dates being referred to as a "Principal Payment Date") in accordance with the Minimum Sinking Fund Account Payment Schedule established pursuant to Section 71.05(c).

(i) The principal of, redemption price, and interest on the WIFIA Project 1 Bond shall be payable by wire transfer in immediately available funds in US Dollars in accordance with the payment instructions provided by the WIFIA Lender pursuant to Section 71.08 and no presentation of the WIFIA Project 1 Bond shall be required for any such payment, except that the final payment of the WIFIA Project 1 Bond shall be made upon or following presentation of the WIFIA Project 1 Bond for cancellation at the corporate trust office of the Trustee.

(j) In accordance with Section 5.03 and Section 5.04 of the Indenture, the Commission shall deposit with the Trustee, on or before five Business Days prior to each Semi-Annual Payment Date the amount of interest and principal (or Minimum Sinking Fund Account Payment) required to be paid on the WIFIA Project 1 Bond. Upon receipt, the Trustee shall deposit such amounts into the Interest Fund and into the WIFIA Project 1 Sinking Fund Account of the Principal Fund (which WIFIA Project 1 Sinking Fund Account the Commission hereby instructs the Trustee to create and maintain). On each Semi-Annual Payment Date, the Trustee shall remit such payment of interest and principal to the WIFIA Lender in accordance with Section 5.03 and Section 5.04 of the Indenture and Section 71.08; provided that, if any such date is not a Business Day, payment shall be made on the next Business Day following such date.

(k) Notwithstanding anything herein to the contrary, the Outstanding WIFIA Project 1 Bond Balance and any accrued interest thereon shall be due and payable in full on the WIFIA Project 1 Bond Final Maturity Date, unless required to be paid earlier due to acceleration or otherwise.

Section 71.02. Form of Bond; Execution and Authentication; Transferability.

(a) The WIFIA Project 1 Bond and the Trustee's certificates of authentication and registration and the form of assignment to appear thereon shall be in substantially the form set forth as Exhibit A to this Sixteenth Supplemental Indenture, with necessary or appropriate variations, omissions and insertions as permitted or required by this Sixteenth Supplemental Indenture.

(b) At any time on or after the date of execution of this Sixteenth Supplemental Indenture and the WIFIA Project 1 Loan Documents, the Commission may execute and, upon a Written Request of the Commission, the Trustee shall authenticate and deliver WIFIA Project 1 Bond to the WIFIA Lender.

(c) The WIFIA Project 1 Bond is transferable by the registered owner hereof in person or by his attorney duly authorized in writing, at the principal corporate trust office of the Trustee in San Francisco, California, but only in the manner and upon payment of the charges provided in the Indenture, upon surrender and cancellation of the WIFIA Project 1 Bond and upon presentation to the Trustee of a Written Certificate from the Commission confirming that the transfer complies with the terms of the WIFIA Project 1 Loan Documents, upon which the Trustee shall authenticate and deliver a new WIFIA Project 1 Bond or Bonds of the same series in authorized denominations, and in an aggregate principal amount equal to the Outstanding WIFIA Project 1 Bond Balance of the WIFIA Project 1 Bond so transferred. If less than the entire Outstanding WIFIA Project 1 Bond Balance of the WIFIA Project 1 Bond is so transferred, the Trustee shall authenticate and deliver a separate WIFIA Project 1 Bond or Bonds of the same series to each of the transferor and transferee, reflecting the Outstanding WIFIA Project 1 Bond Balance on each such Bond and the revised Minimum Sinking Fund Account Payments applicable to such Bond. The provisions set forth in this section shall apply to all subsequent transfers following the initial transfer.

Section 71.03. Conditions to Each Disbursement and Issuance (or Increase) of the WIFIA Project 1 Bond; Application of Proceeds. On each Disbursement Date, the outstanding principal amount of the WIFIA Project 1 Bond shall be increased, and the WIFIA Project 1 Bond shall be deemed purchased and delivered to the WIFIA Lender in an amount equal to the purchase price received by the Trustee from the WIFIA Lender, provided that the Commission has filed with the Trustee, with copies to the WIFIA Lender, the following:

(a) The certificates required by the provisions of Section 3.08 of the Indenture;

(b) A Certificate of an Authorized Officer (i) stating the principal amount of the WIFIA Project 1 Bond to be deemed purchased, issued and delivered on such date; and (ii) certifying (A) that no Event of Default shall have occurred and be continuing under the Indenture and no event shall have occurred which, but for the passage of time or the giving of notice would constitute an Event of Default under the Indenture and (B) all other conditions precedent to the issuance of the WIFIA Project 1 Bond in such principal amount have been satisfied;

(c) An amended Exhibit A-2 to the WIFIA Project 1 Bond, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payments required to be paid on the WIFIA Project 1 Bond (as increased on such Disbursement Date) on each Principal Payment Date, as required and calculated pursuant to Section 71.05(c); and

(d) An Opinion of Counsel substantially to the following effect:

1. The execution and delivery of the Sixteenth Supplemental Indenture is in compliance with the requirements of the Indenture;

2. Upon receipt by the Trustee of a portion of the purchase price of the WIFIA Project 1 Bond on the Disbursement Date, the WIFIA Project 1 Bond, delivered to the WIFIA Lender in connection with the execution of the WIFIA Project 1 Loan Documents, in the principal amount deemed purchased by the WIFIA Lender as of such Disbursement Date, including any amount purchased on any prior Disbursement Date and any Accreted Interest thereon, will have been duly authorized, executed and delivered by, and will constitute the valid and binding limited obligation of, the Commission, as a Bond entitled to the benefits of a Bond under the Indenture, enforceable under the laws of the State of California without any further action by the Commission or any other Person;

3. The Indenture has been duly authorized, executed and delivered by, and constitutes the valid and binding obligation of, the Commission, enforceable against the Commission in accordance with its terms. The Indenture creates a valid pledge of the Net Revenues of the Enterprise, which pledge constitutes a lien on and security interest in the Net Revenues, to secure the payment of the principal of, and interest on the WIFIA Project 1 Bond, as and to the extent set forth in the Indenture and subject to the provisions of the Indenture permitting the application thereof for the purposes and on the terms and conditions set forth therein, irrespective of whether any party has notice of the pledge and without the need for any physical delivery, recordation, filing or further act to perfect such assignment or pledge;

4. The WIFIA Project 1 Bond is a limited obligation of the Commission and is payable exclusively from and is secured by a pledge of the Net Revenues of the Enterprise on a parity with all other Bonds issued under the Indenture, including any Additional Bonds, in right of payment and right of security. The general fund of the City is not liable and the credit or taxing power of the City is not pledged for the payment of the WIFIA Project 1 Bond or the interest thereon. The Commission has no taxing power. The WIFIA Project 1 Bond is not secured by a legal or equitable pledge of, or charge, lien or encumbrance upon, any of the property of the City or of the Commission or any of its income or receipts, except the Net Revenues. All actions by the Commission that are required for the application of Net Revenues as required under the Indenture and under the WIFIA Project 1 Loan Documents have been duly and lawfully made; and

5. The WIFIA Project 1 Bond, in the principal amount deemed purchased, issued and delivered to the WIFIA Lender on the Disbursement Date, will not adversely affect the exclusion from federal income taxation of the interest on any Outstanding Bonds from the gross income of the holders thereof.

Upon the delivery of such purchase price to the Trustee in immediately available funds and receipt of the foregoing documents and opinion, the Trustee shall make a notation in its registration books of the principal amount of the WIFIA Project 1 Bond so purchased and delivered on such date and the resulting Outstanding WIFIA Project 1 Bond Balance on such date, and the WIFIA Lender shall make similar notation on the WIFIA Project 1 Bond, all in accordance with Section 71.01; provided that the failure of the WIFIA Lender to make such notation shall not affect in any manner the Commission's obligations hereunder or under the WIFIA Project 1 Bond. The notation

in the registration book of the Trustee shall also serve to authenticate the WIFIA Project 1 Bond deemed issued, purchased and delivered on such date, regardless of the date of the original authentication on the WIFIA Project 1 Bond.

The Trustee shall transfer the purchase price received from the WIFIA Lender on the Disbursement Date to the Commission for deposit by the Commission into the WIFIA Project 1 Project Account or as otherwise instructed by the Commission. The Treasurer shall disburse amounts in the WIFIA Project 1 Project Account as specified in a Written Requisition of the Commission.

Section 71.04. Establishment and Application of the WIFIA Project 1 Project Account. The Commission hereby covenants and agrees to establish, maintain and hold hereunder within the Capital Project Fund, established under Section 3.04 of the Indenture, a separate account known as the "WIFIA Project 1 Project Account" (herein called the "WIFIA Project 1 Project Account"). The Treasurer shall hold the amounts on deposit in the WIFIA Project 1 Project Account, which shall be maintained and accounted for by the Controller so long as any moneys are on deposit therein. Upon completion of the Project, the Commission may direct the transfer of any remaining balance in the WIFIA Project 1 Project Account to any other lawfully available fund or account of the Commission.

The moneys in the WIFIA Project 1 Project Account shall be held by the Treasurer in trust and applied to the Eligible Project Costs for the Project. All moneys held by the Treasurer in the WIFIA Project 1 Project Account may be invested in Permitted Investments maturing not later than the date on which such moneys are required for payment by the Treasurer. The Treasurer shall pay out moneys from the WIFIA Project 1 Project Account only upon warrants drawn by the Controller in the manner provided by law. No withdrawals shall be made from the WIFIA Project 1 Project Account for any purpose not authorized by law.

Section 71.05. Terms of Redemption.

(a) *Optional Redemption.* After the Final Disbursement Date (as defined in the WIFIA Project 1 Loan Documents), the WIFIA Project 1 Bond shall be subject to redemption prior to the WIFIA Project 1 Bond Final Maturity Date, at the option of the Commission, from and to the extent of any source of available funds, as a whole or in part, from time to time but not more than once annually, in principal amounts of $1,000,000 or any integral multiple of $1 in excess thereof, at a redemption price equal to 100% of the principal amount of the WIFIA Project 1 Bond to be redeemed, plus accrued interest thereon to the date fixed for redemption, without premium or penalty. Each optional redemption of the WIFIA Project 1 Bond shall be made on such date and in such principal amount as shall be specified by the Commission in a written notice delivered to the WIFIA Lender and the Trustee; provided that, the date of any such optional redemption shall be a Semi Annual Payment Date unless otherwise agreed to by the WIFIA Lender. In the case of any such optional redemption, such written notice shall be delivered to the WIFIA Lender and the Trustee not less than ten (10) days nor more than thirty (30) days prior to the date set for redemption, unless otherwise agreed by the WIFIA Lender with notice to the Trustee. At any time between delivery of such written notice and the applicable optional redemption date, the Commission may, without penalty or premium, rescind its notice of optional redemption by further written notice to the WIFIA Lender and the Trustee. Anything in this Indenture to the contrary

notwithstanding, the failure by the Commission to make any optional redemption on the WIFIA Project 1 Bond shall not constitute a breach or default under the Indenture.

(b) *Extraordinary Redemption from Net Loss Proceeds*. The WIFIA Project 1 Bond shall be subject to redemption prior to its stated maturity, in whole or in part, at a redemption price equal to 100% of the principal amount of the WIFIA Project 1 Bond to be redeemed, plus accrued interest thereon to the date fixed for redemption, without premium, from Net Loss Proceeds in accordance with the WIFIA Project 1 Loan Documents and Section 6.20 of the Indenture. The Commission shall provide, or shall cause the Trustee to provide, written notice to the WIFIA Lender at least two (2) Business Days prior to the date on which it makes any such redemption; provided that the Commission's failure to deliver such notice shall not diminish, impair or otherwise affect the Commission's obligation to make any such redemption as and when the circumstances requiring such redemption have occurred under the WIFIA Project 1 Loan Documents and the Indenture.

(c) *Minimum Sinking Fund Account Redemption*. The WIFIA Project 1 Bond shall be subject to mandatory redemption from Minimum Sinking Fund Account Payments on each Principal Payment Date. The Minimum Sinking Fund Account Payment with respect to the WIFIA Project 1 Bond on each Principal Payment Date shall equal the product of the Outstanding WIFIA Project 1 Bond Balance as of the end of the Capitalized Interest Period times the percentage set forth on Exhibit A-2 to the WIFIA Project 1 Bond for such Principal Payment Date. On or before each Disbursement Date, the Commission will provide to the Trustee and the WIFIA Lender an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payments required to be paid on the WIFIA Project 1 Bond (as increased on such Disbursement Date) on each Principal Payment Date (assuming that the Capitalized Interest Period ends on October 1, 2031). Not later than thirty (30) days following the end of the Capitalized Interest Period, or, in the event the WIFIA Project 1 Bond (or any portion thereof) is deemed purchased and delivered after the end of the Capitalized Interest Period, on or before the Disbursement Date, the Commission will provide to the Trustee and the WIFIA Lender an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payments required to be paid on each Principal Payment Date. If the WIFIA Project 1 Bond Final Maturity Date is determined under the WIFIA Project 1 Loan Documents to be earlier than October 1, 2061, the applicable percentages shown in the Minimum Sinking Fund Account Payment Schedule shall be amended so that the percentage allocated to any Principal Payment Date following the earlier WIFIA Project 1 Bond Final Maturity Date will be allocated pro-rata among the Principal Payment Dates occurring prior to the earlier WIFIA Project 1 Bond Final Maturity Date, and such calculations shall be included by the Commission in the amended Exhibit A-2 provided to the Trustee and the WIFIA Lender pursuant to the preceding sentence, as approved by the WIFIA Lender. In addition, if the WIFIA Project 1 Bond is redeemed in part pursuant to clauses (a) or (b) of this Section 71.05, each such partial redemption shall result in a reduction of the Minimum Sinking Fund Account Payments on a pro rata basis (or in such other manner approved by the WIFIA Lender) and the Commission shall provide to the Trustee and the WIFIA Lender, not later than thirty (30) days following such optional redemption date, an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, which schedule shall become effective upon delivery to the Trustee. The WIFIA Lender shall reflect any revisions to Minimum Sinking Fund Account Payment Schedule on Exhibit A-2 of the WIFIA Project 1 Bond; provided that the failure to make

any such revisions shall not affect in any manner the Commission's obligations hereunder or under the WIFIA Project 1 Bond. The Commission shall not be required to give the WIFIA Lender any prior notice of such Minimum Sinking Fund Account redemption.

(d) *Notices.* Each notice of redemption given pursuant to this Section 71.05 shall be accompanied by a Certificate of the Commission identifying the provision of this Sixteenth Supplemental Indenture and the WIFIA Project 1 Loan Documents pursuant to which such redemption (and prepayment) is being made and containing a calculation in reasonable detail of the amount of such redemption (and prepayment), including, if applicable, a revised schedule of Minimum Sinking Fund Account Payments resulting from redemption (and prepayment).

(e) *Application of Terms of Indenture.* The provisions of the Indenture relating to redemption of Bonds set forth in Sections 4.02, 4.03, 4.04, 4.05 and 4.06, to the extent inconsistent with this Section 71.05, shall not apply to the redemption of the WIFIA Project 1 Bond and the WIFIA Lender waives any rights to notice provided thereunder.

Section 71.06. No Defeasance. Anything to the contrary in the Indenture notwithstanding, the WIFIA Project 1 Bond shall not be subject to defeasance and no amounts in respect of the WIFIA Project 1 Bond shall be considered or deemed to have been paid until the WIFIA Lender shall have received irrevocable payment in immediately available funds in accordance with the requirements for payment set forth in this Sixteenth Supplemental Indenture.

Section 71.07. No Reserve. On January 30, 2013, certain amendments set forth in the First Amendment that govern the sizing of the Required Reserve for each Series of Bonds became effective in accordance with the terms of the Indenture. In accordance therewith, the Commission has determined not to fund the Required Reserve for the WIFIA Project 1 Bond.

Section 71.08. Notices; Payment Instructions .

(a) Notices to the WIFIA Lender hereunder shall be (a) in writing, (b) effective as provided below and (c) given by (i) nationally recognized courier service, (ii) hand delivery, or (iii) email, in each case to:

If to WIFIA Lender:

United States Environmental Protection Agency

WJC-E 7334A
1200 Pennsylvania Avenue NW
Washington, DC 20460

Attention: WIFIA Director
Email: WIFIA_Portfolio@epa.gov

, or to such other address as shall be provided by the WIFIA Lender's Authorized Representative to the Commission and the Trustee. Unless otherwise instructed by the WIFIA Lender's Authorized Representative, all notices to the WIFIA Lender should be made by email to the email address noted above for the WIFIA Lender. Each such notice, request or communication shall be

effective (x) if delivered by hand or by nationally recognized courier service, when delivered at the address specified in this Section 71.08 and (y) if given by email, when such email is delivered to the address specified in this Section 71.08; provided, that notices received on a day that is not a Business Day or after 5:00 p.m. Eastern Time on a Business Day will be deemed to be effective on the next Business Day.

(b) Any payments on the WIFIA Project 1 Bond to the WIFIA Lender shall be made by wire transfer in immediately available funds in accordance with payment instructions provided by the WIFIA Lender pursuant to the WIFIA Project 1 Loan Documents, as modified from time to time by the WIFIA Lender through a written notice executed by a WIFIA Lender's Authorized Representative and delivered to the Commission and the Trustee at least five (5) Business Days prior to its proposed effective date.

Section 71.09. Commission Representations. The Commission has reviewed all proceedings heretofore taken relative to the authorization of the WIFIA Project 1 Bond and has found, as a result of such review, that all conditions, things and acts required by law to exist, happen or be performed precedent to and in the issuance of the WIFIA Project 1 Bond, except as otherwise provided in Section 71.03, do exist, have happened and have been performed in due time, form and manner as required by law, and the Commission is authorized, pursuant to each and every requirement of law, including the Law and the Ordinances to issue the WIFIA Project 1 Bond in its maximum principal amount in Section 71.01(a) and in the manner and form otherwise provided in this Sixteenth Supplemental Indenture, without any further approval or action by the Board of Supervisors or the Commission.

Section 71.10. No Amendment without Consent of the WIFIA Lender. This Sixteenth Supplemental Indenture shall not be amended except with the prior written consent of the WIFIA Lender.

ARTICLE LXXII

CITY REQUIREMENTS; EXECUTION

As used in this Article, "Agreement" means the Indenture.

To the extent of any inconsistency between the provisions in this Article and the provisions in prior Articles of this Indenture entitled "City Requirements" or "Additional City Requirements," the provisions of this Article shall control.\

Section 72.01. Local Business Enterprise Utilization; Liquidated Damages.

(a) The LBE Ordinance. The Trustee shall comply with all the requirements of the Disadvantaged Business Enterprise Ordinance set forth in Chapter 14B of the San Francisco Administrative Code as it now exists or as it may be amended in the future (collectively the "LBE Ordinance"), provided such amendments do not materially increase the Trustee's obligations or liabilities, or materially diminish the Trustee's rights, under this Sixteenth Supplemental Indenture. Such provisions of the LBE Ordinance are incorporated by reference and made a part of this

Sixteenth Supplemental Indenture as though fully set forth in this Section. The Trustee's willful failure to comply with any applicable provision of the LBE Ordinance is a material breach of the Trustee's obligations under this Sixteenth Supplemental Indenture and shall entitle City, subject to any applicable notice and cure provisions set forth in this Sixteenth Supplemental Indenture, to exercise any of the remedies provided for under this Sixteenth Supplemental Indenture, under the LBE Ordinance or otherwise available at law or in equity, which remedies shall be cumulative unless this Sixteenth Supplemental Indenture expressly provides that any remedy is exclusive. In addition, the Trustee shall comply fully with all other applicable local, state and federal laws· prohibiting discrimination and requiring equal opportunity in contracting, including subcontracting.

(b) Compliance and Enforcement. If the Trustee willfully fails to comply with any of the provisions of the LBE Ordinance, the rules and regulations implementing the LBE Ordinance, or the provisions of this Sixteenth Supplemental Indenture pertaining to LBE participation, the Trustee shall be liable for liquidated damages in an amount equal to the Trustee's net profit on this Sixteenth Supplemental Indenture, or 10% of the total amount of this Sixteenth Supplemental Indenture, or $1,000, whichever is greatest. The Director of the City's Human Rights Commission or any other public official authorized to enforce the LBE Ordinance (separately and collectively, the "Director of HRC") may also impose other sanctions against the Trustee authorized in the LBE Ordinance, including declaring the Trustee to be irresponsible and ineligible to contract with the City for a period of up to five years or revocation of the Trustee's DBE certification. The Director of HRC will determine the sanctions to be imposed, including the amount of liquidated damages, after investigation pursuant to Administrative Code §14B.17.

By entering into this Sixteenth Supplemental Indenture, the Trustee acknowledges and agrees that any liquidated damages assessed by the Director of the HRC shall be payable to City upon demand. ·The Trustee further acknowledges and agrees that any liquidated damages assessed may be withheld from any monies due to the Trustee on any contract with City,

The Trustee agrees to maintain records necessary for monitoring its compliance with the LBE Ordinance for a period of three years following termination or expiration of this Sixteenth Supplemental Indenture, and shall make such records available for audit and inspection by the Director of HRC or the Controller upon request.

Section 72.02. Nondiscrimination; Penalties.

(a) Trustee Shall Not Discriminate. In the performance of this Sixteenth Supplemental Indenture; the Trustee agrees not to discriminate against any employee, City and County employee working with such contractor or subcontractor, applicant for employment with such contractor or subcontractor, or against any person seeking accommodations, advantages, facilities, privileges, services, or membership in all business, social, or other establishments or organizations, on the basis of the fact or perception of a person's race, color, creed, religion, national origin, ancestry, age, height, weight, sex, sexual orientation, gender identity, domestic partner status, marital status, disability or Acquired Immune Deficiency Syndrome or HIV status (AIDS/HN status), or association with members of such protected classes, or in retaliation for opposition to discrimination against such classes.

(b) Subcontracts. The Trustee shall incorporate by reference in all subcontracts the provisions of §§12B.2(a), 12B.2(c)-(k), and 12C.3 of the San Francisco Administrative Code (copies of which are available from Purchasing) and shall require all subcontractors to comply with such provisions. The Trustee's failure to comply with the obligations in this subsection shall constitute a material breach of this Sixteenth Supplemental Indenture.

Nondiscrimination in Benefits. The Trustee does not as of the date of this Sixteenth Supplemental Indenture and will not during the term of this Sixteenth Supplemental Indenture, in any of its operations in San Francisco, on real property owned by San Francisco, or where work is being performed for the City elsewhere in the United States, discriminate in the provision of bereavement leave, family medical leave, health benefits, membership or membership discounts, moving expenses, pension and retirement benefits or travel benefits, as well as any benefits other than the benefits specified above, between employees with domestic partners and employees with spouses, and/or between the domestic partners and spouses of such employees, where the domestic partnership has been registered with a governmental entity pursuant to state or local law authorizing such registration, subject to the conditions set forth in §12B.2(b) of the San Francisco Administrative Code.

(c) Condition to Contract. As a condition to this Sixteenth Supplemental Indenture, the Trustee shall execute the "Chapter 12B Declaration: Nondiscrimination in Contracts and Benefits" form (form HRC-12B-101) with supporting documentation and secure the approval of the form by the San Francisco Human Rights Commission.

(d) Incorporation of Administrative Code Provisions by Reference. The provisions of Chapters 12B and 12C of the San Francisco Administrative Code are incorporated in this Section by reference and made· a part of this Sixteenth Supplemental Indenture as though fully set forth herein. The Trustee shall comply fully with and be bound by all of the provisions that apply to this Sixteenth Supplemental Indenture under such Chapters, including but not limited to the remedies provided in such Chapters. Without limiting the foregoing, the Trustee understands that pursuant to §12B.2(h) of the San Francisco Administrative Code, a penalty of $50 for each person for each calendar day during which such person was discriminated against in violation of the provisions of this Sixteenth Supplemental Indenture may be assessed against the Trustee and/or deducted from any payments due the Trustee.

Section 72.03. MacBride Principles—Northern Ireland. The provisions of San Francisco Administrative Code §12F are incorporated by this reference and made part of this Indenture. By entering into this Indenture, the Trustee confirms that it has read and understood that the City urges companies doing business in Northern Ireland to resolve employment inequities and to abide by the MacBride Principles, and urges San Francisco companies to do business with corporations that abide by the MacBride Principles.

Section 72.04. Tropical Hardwood and Virgin Redwood Ban. Under San Francisco Environment Code Section 804(b), the City urges the Trustee not to import, purchase, obtain, or use for any purpose, any tropical hardwood, tropical hardwood wood product, virgin redwood or virgin redwood wood product.

Section 72.05. Drug-Free Workplace Policy. The Trustee acknowledges that pursuant to the Federal Drug-Free Workplace Act of 1989, the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance is prohibited on City premises. The Trustee agrees that any violation of this prohibition by the Trustee, its employees, agents or assigns will be deemed a material breach of this Sixteenth Supplemental Indenture.

Section 72.06. Compliance with Americans with Disabilities Act. The Trustee acknowledges that, pursuant to the Americans with Disabilities Act (ADA), programs, services and other activities provided by a public entity to the public, whether directly or through a contractor, must be accessible to the disabled public. The Trustee shall provide the services specified in this Sixteenth Supplemental Indenture in a manner that complies with the ADA and any and all other applicable federal, state and local disability rights legislation. The Trustee agrees not to discriminate against disabled persons in the provision of services, benefits or activities provided under this Sixteenth Supplemental Indenture and further agrees that any violation of this prohibition on the part of the Trustee, its employees, agents or assigns will constitute a material breach of this Sixteenth Supplemental Indenture.

Section 72.07. Sunshine Ordinance. In accordance with San Francisco Administrative Code §67.24(e), contracts, contractors' bids, responses to solicitations and all other records of communications between City and persons or firms seeking contracts, shall be open to inspection immediately after a contract has been awarded. Nothing in this provision requires the disclosure of a private person or organization's net worth or other proprietary financial data submitted for qualification for a contract or other benefit until and unless that person or organization is awarded the contract or benefit. Information provided which is covered by this paragraph will be made available to the public upon request.

Section 72.08. Limitations on Contributions. Through its execution of this Sixteenth Supplemental Indenture, the Trustee acknowledges that it is familiar with Section 1.126 of the City's Campaign and Governmental Conduct Code, which prohibits any person who contracts with the City for the rendition of personal services, for the furnishing of any material, supplies or equipment, for the sale or lease of any land or building, or for a grant, loan or loan guarantee, from making any campaign contribution to (1) an individual holding a City elective office if the contract must be approved by the individual, a board on which that individual serves; or a board on which an appointee of that individual serves, (2) a candidate for the office held by such individual, or (3) a committee controlled by such individual, at any time from the commencement of negotiations for the contract until the later of either the termination of negotiations for such contract or six months after the date the contract is approved. The Trustee acknowledges that the foregoing restriction applies only if the contract or a combination or series of contracts approved by the same individual or board in a fiscal year have a total anticipated or actual value of $50,000 or more. The Trustee further acknowledges that the prohibition on contributions applies to each prospective party to the contract; each member of the Trustee's board of directors; the Trustee's chairperson, chief executive officer, chief financial officer and chief operating officer; any person with an ownership interest of more than 20 percent in the Trustee; any subcontractor listed in the bid or contract; and any committee that is sponsored or controlled by the Trustee. Additionally, the Trustee acknowledges that the Trustee must inform each of the persons described in the preceding sentence of the prohibitions contained in Section 1.126.

Section 72.09. Requiring Minimum Compensation for Covered Employees.

(a) The Trustee agrees to comply fully with and be bound by all of the provisions of the Minimum Compensation Ordinance (MCO), as set forth in San Francisco Administrative Code Chapter 12P (Chapter 12P), including the remedies provided, and implementing guidelines and rules. The provisions of Chapter l2P are incorporated herein-by reference and made a part of this Sixteenth Supplemental Indenture as though fully set forth. The text of the MCO is available on the web at http://www.sfgov.org/olse/mco. A partial listing of some of the Trustee's obligations under the MCO is set forth in this Section. The Trustee is required to comply with all the provisions of the MCO, irrespective of the listing of obligations in this Section.

The MCO requires the Trustee to pay the Trustee's employees a minimum hourly gross compensation wage rate and to provide minimum compensated and uncompensated time off. The minimum wage rate may change from year to year and the Trustee is obligated to keep informed of the then-current requirements. Any subcontract entered into by the Trustee shall require the subcontractor to comply with the requirements of the MCO and shall contain contractual obligations substantially the same as those set forth in this Section. It is the Trustee's obligation to ensure that any subcontractors of any tier under this Sixteenth Supplemental Indenture comply with the requirements of the MCO. If any subcontractor under this Sixteenth Supplemental Indenture fails to comply, City may pursue any of the remedies set forth in this Section against the Trustee.

(b) The Trustee shall not take adverse action or otherwise discriminate against an employee or other person for the exercise or attempted exercise of rights under the MCO. Such actions, if taken within 90 days of the exercise or attempted exercise of such rights, will be rebuttably presumed to be retaliation prohibited by the MCO.

(c) The Trustee shall maintain employee and payroll records as required by the MCO. If the Trustee fails to do so, it shall be presumed that the Trustee paid no more than the minimum wage required under State law.

(d) The City is authorized to inspect the Trustee's job sites and conduct interviews with employees and conduct audits of the Trustee.

(e) The Trustee's commitment to provide the Minimum Compensation is a material element of the City's consideration for this Sixteenth Supplemental Indenture. The City in its sole discretion shall determine whether such a breach has occurred. The City and the public will suffer actual damage that will be impractical or extremely difficult to determine if the Trustee fails to comply with these requirements. The Trustee agrees that the sums set forth in Section 12P.6.1 of the MCO as liquidated damages are not a penalty, but are reasonable estimates of the loss that the City and the public will incur for the Trustee's noncompliance. The procedures governing the assessment of liquidated damages shall be those set forth in Section 12P.6.2 of Chapter 12P.

(f) The Trustee understands and agrees that if it fails to comply with the requirements of the MCO, the City shall have the right to pursue any rights or remedies available under Chapter 12P (including liquidated damages), under the terms of the contract, and under applicable law. If, within 30 days after receiving written notice of a breach of this Sixteenth Supplemental Indenture

for violating the MCO, the Trustee fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, the Trustee fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion; the City shall have the right to pursue any rights or remedies available under applicable law, including those set forth in Section 12P.6(c) of Chapter 12P. Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to the City.

(g) The Trustee represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the MCO.

(h) The City may conduct random audits of the Trustee. Random audits shall be (i) noticed in advance in writing; (ii) limited to ascertaining whether Covered Employees are paid at least the minimum compensation required by the MCO; (iii) accomplished through an examination of pertinent records at a mutually agreed upon time and location within ten days of the written notice; and (iv) limited to one audit of the Trustee every two years for the duration of this Sixteenth Supplemental Indenture. Nothing in this Sixteenth Supplemental Indenture is intended to preclude the City from investigating any report of an alleged violation of the MCO.

Section 72.10. Requiring Health Benefits for Covered Employees. Unless exempt, the Trustee agrees to comply fully with and be bound by all of the provisions of the Health Care Accountability Ordinance (HCAO), as set forth in San Francisco Administrative Code Chapter 12Q, including the remedies provided, and implementing regulations, as the same may be amended from time to time. The provisions of Chapter 12Q are incorporated herein by reference and made a part of this Sixteenth Supplemental Indenture as though fully set forth. The text of the HCAO is available on the web at http://www.sfgov.org/oca/lwlh.htm. Capitalized terms used in this Section and not defined in this Sixteenth Supplemental Indenture shall have the meanings assigned to such terms in Chapter 12Q.

(a) For each Covered Employee, the Trustee shall provide the appropriate health benefit set forth in Section 12Q.3 of the HCAO. If the Trustee chooses to offer the health plan option, such health plan shall meet the minimum standards set forth by the San Francisco Health Commission.

(b) Notwithstanding the above, if the Trustee is a small business as defined in Section 12Q.3(d) of the HCAO, it shall have no obligation to comply with part (a) above.

(c) The Trustee's failure to comply with the HCAO shall constitute a material breach of this Sixteenth Supplemental Indenture. City shall notify the Trustee if such a breach has occurred. If, within 30 days after receiving City's written notice of a breach of this Sixteenth Supplemental Indenture for violating the HCAO, the Trustee fails to cure such breach or, if such breach cannot reasonably be cured within such period of 30 days, the Trustee fails to commence efforts to cure within such period, or thereafter fails diligently to pursue such cure to completion, City shall have the right to pursue the remedies set forth in 12Q.5(f)(1-5). Each of these remedies shall be exercisable individually or in combination with any other rights or remedies available to City.

(d) Any Subcontract entered into by the Trustee shall require the Subcontractor to comply with the requirements of the HCAO and shall contain contractual obligations substantially the same as those set forth in this Section. The Trustee shall notify City's Office of Contract Administration when it enters into such a Subcontract and shall certify to the Office of Contract Administration that it has notified the Subcontractor of the obligations under the HCAO and has imposed the requirements of the HCAO on Subcontractor through the Subcontract. The Trustee shall be responsible for its Subcontractors' compliance with this Chapter. If a Subcontractor fails to comply, the City may pursue the remedies set forth in this Section against the Trustee based on the Subcontractor's failure to comply, provided that City has first provided the Trustee with notice and an opportunity to obtain a cure of the violation.

(e) The Trustee shall not discharge, reduce in compensation, or otherwise discriminate against any employee for notifying City with regard to the Trustee's noncompliance or anticipated noncompliance with the requirements of the HCAO, for opposing any practice proscribed by the HCAO, for participating in proceedings related to the HCAO, or for seeking to assert or enforce any rights under the HCAO by any lawful means.

(f) The Trustee represents and warrants that it is not an entity that was set up, or is being used, for the purpose of evading the intent of the HCAO.

(g) The Trustee shall maintain employee and payroll records in compliance with the California Labor Code and Industrial Welfare Commission orders, including the number of hours each employee has worked on the City Contract.

(h) The Trustee shall keep itself informed of the current requirements of the HCAO.

(i) The Trustee shall provide reports to the City in accordance with any reporting standards promulgated by the City' under the HCAO, including reports on Subcontractors and Subtenants, as applicable.

(j) The Trustee shall provide City with access to records pertaining to compliance with HCAO after receiving a written request from City to do so and being provided at least ten business days to respond.

(k) The Trustee shall allow City to inspect the Trustee's job sites and have access to the Trustee's employees in order to monitor and determine compliance with HCAO.

(l) The City may conduct random audits of the Trustee to ascertain its compliance with HCAO. The Trustee agrees to cooperate with City when it conducts such audits.

(m) If the Trustee is exempt from the HCAO when this Sixteenth Supplemental Indenture is executed because its amount is less than $25,000 ($50,000 for nonprofits), but the Trustee later enters into an agreement or agreements that cause the Trustee's aggregate amount of all agreements with City to reach $75,000, all the agreements shall be thereafter subject to the HCAO. This obligation arises on the effective date of the agreement that causes the cumulative amount of agreements between the Trustee and the City to be equal to or greater than $75,000 in the fiscal year.

Section 72.11. Prohibition on Political Activity with City Funds. In accordance with San Francisco Administrative Code Chapter 12.G, the Trustee may not participate in, support, or attempt to influence any political campaign for a candidate or for a ballot measure (collectively, "Political Activity") in the performance of the services provided under this Sixteenth Supplemental Indenture. The Trustee agrees to comply with San Francisco Administrative Code Chapter 12.G and any implementing rules and regulations promulgated by the City's Controller. The terms and provisions of Chapter 12.G are incorporated herein by this reference. In the event the Trustee violates the provisions of this Section, the City may, in addition to any other rights or remedies available hereunder, (i) terminate this Sixteenth Supplemental Indenture, and (ii) prohibit the Trustee from bidding on or receiving any new City contract for a period of two (2) years. The Controller will not consider the Trustee's use of profit as a violation of this Section.

Section 72.12. Conflict of Interest. Through its execution of this Sixteenth Supplemental Indenture, the Trustee acknowledges that it is familiar with the provisions of Section 15.103 of the City's Charter, Article III, Chapter 2 of City's Campaign and Governmental Conduct Code, and Section 87100 *et seq.* and Section 1090 *et seq.* of the Government Code of the State of California, and certifies that it does not know of any facts which constitute a violation of said provision and agrees that it will immediately notify the City if it becomes aware of any such fact during the term of this Sixteenth Supplemental Indenture.

Section 72.13. Earned Income Credit (EIC) Forms. Administrative Code section 120 requires that employers provide their employees with IRS Form W5 (The Earned Income Credit Advance Payment Certificate) and the IRS EIC Schedule, as set forth below. Employers can locate these forms at the IRS Office, on the Internet, or anywhere that Federal Tax Forms can be found.

(a) The Trustee shall provide EIC Forms to each Eligible Employee at each of the following times: (i) within thirty days following the date on which this Sixteenth Supplemental Indenture becomes effective (unless the Trustee has already provided such EIC Forms at least once during the calendar year in which such effective date falls); (ii) promptly after any Eligible Employee is hired by the Trustee; and (iii) annually between January 1 and January 31 of each calendar year during the term of this Sixteenth Supplemental Indenture.

(b) Failure to comply with any requirement contained in subparagraph (a) of this Section shall constitute a material breach by the Trustee of the terms of this Sixteenth Supplemental Indenture. If, within thirty days after the Trustee receives written notice of such a breach; the Trustee fails to cure such breach or, if such breach cannot reasonably be cured within such period of thirty days, the Trustee fails to commence efforts to cure within such period or thereafter fails to diligently pursue such cure to completion, the City may pursue any rights or remedies available under this Sixteenth Supplemental Indenture or under applicable law.

(c) Any Subcontract entered into by the Trustee shall require the subcontractor to comply, as to the subcontractor's Eligible Employees, with each of the terms of this Section.

(d) Capitalized terms used in this Section and not defined in this Sixteenth Supplemental Indenture shall have the meanings assigned to such terms in Section 120 of the San Francisco Administrative Code.

Section 72.14. Preservative-treated Wood Containing Arsenic. The Trustee may not purchase preservative treated wood products containing arsenic in the performance of this Sixteenth Supplemental Indenture unless an exemption from the requirements of Chapter 13 of the San Francisco Environment Code is obtained from the Department of the Environment under Section 1304 of the Code. The term "preservative-treated wood containing arsenic" shall mean wood treated with a preservative that contains arsenic; elemental arsenic, or an arsenic copper combination, including, but not limited to, chromated copper arsenate preservative, ammoniacal copper zinc arsenate preservative, or ammoniacal copper arsenate preservative. The Trustee may purchase preservative-treated wood products on the list of environmentally preferable alternatives prepared and adopted by the Department of the Environment. This provision does not preclude the Trustee from purchasing preservative-treated wood containing arsenic for saltwater immersion. The term "saltwater immersion" shall mean a pressure-treated wood that is used for construction purposes or facilities that are partially or totally immersed in saltwater.

Section 72.15. Nondisclosure of Private Information. The Trustee has read and agrees to the terms set forth in San Francisco Administrative Code Sections 12M.2, "Nondisclosure of Private Information," and 12M.3, "Enforcement" of Administrative Code Chapter 12M, "Protection of Private Information," which are incorporated herein as if fully set forth. The Trustee agrees that any failure of the Trustee to comply with the requirements of Section 12M.2 of this Chapter shall be a material breach of this Sixteenth Supplemental Indenture. In such an event, in addition to any other remedies available to it under equity or law, the City may terminate this Sixteenth Supplemental Indenture, bring a false claim action against the Trustee pursuant to Chapter 6 or Chapter 21 of the Administrative Code, or debar the Trustee.

Section 72.16. Proprietary or Confidential Information of City. The Trustee understands and agrees that, in the performance of the work or services under this Sixteenth Supplemental Indenture or in contemplation thereof, the Trustee may have access to private or confidential information which may be owned or controlled by City and that such information may contain proprietary or confidential details, the disclosure of which to third parties may be damaging to City. The Trustee agrees that all information disclosed by City to the Trustee shall be held in confidence and used only in performance of the Sixteenth Supplemental Indenture. The Trustee shall exercise the same standard of care to protect such information as a reasonably prudent contractor would use to protect its own proprietary data.

Section 72.17. Compliance with Laws. The Trustee shall keep itself fully informed of the City's Charter, codes, ordinances and regulations of the City and of all state, and federal laws in any manner affecting the performance of this Sixteenth Supplemental Indenture, and must at all times comply with such local codes, ordinances, and regulations and all applicable laws as they may be amended from time to time.

Section 72.18. Works for Hire. If, in connection with services performed under this Sixteenth Supplemental Indenture, the Trustee or its subcontractors create artwork, copy, posters, billboards, photographs, videotapes, audiotapes, systems designs, software, reports, diagrams, surveys, blueprints, source codes or any other original works of authorship, such works of authorship shall be works for hire as defined under Title 17 of the United States Code, and all copyrights in such works are the property of the City. If it is ever determined that any works created by the Trustee or its subcontractors under this Sixteenth Supplemental Indenture are not

works for hire under U.S. law, the Trustee hereby assigns all copyrights to such works to the City, and agrees to provide any material and execute any documents necessary to effectuate such assignment. With the approval of the City, the Trustee may retain and use copies of such works for reference and as documentation of its experience and capabilities.

Section 72.19. Resource Conservation. Chapter 5 of the San Francisco Environment Code ("Resource Conservation") is incorporated herein by reference. Failure by the Trustee to comply with any of the applicable requirements of Chapter 5 will be deemed a material breach of contract.

Section 72.20. Public Access to Meetings and Records. If the Trustee receives a cumulative total per year of at least $250,000 in City funds or City-administered funds and is a non- profit organization as defined in Chapter 12L of the San Francisco Administrative Code; the Trustee shall comply with and be bound by all the applicable provisions of that Chapter. By executing this Sixteenth Supplemental Indenture, the Trustee agrees to open its meetings and records to the public in the manner set forth in §§12L.4 and 12L.5 of the Administrative Code. The Trustee further agrees to make-good faith efforts to promote community membership on its Board of Directors in the manner set forth in §12L.6 of the Administrative Code. The Trustee acknowledges that its material failure to comply with any of the provisions of this paragraph shall constitute a material breach of this Sixteenth Supplemental Indenture. The Trustee further acknowledges that such material breach of this Sixteenth Supplemental Indenture shall be grounds for the City to terminate and/or not renew the agreement, partially or in its entirety.

Section 72.21. Guaranteed Maximum Costs.

(a) The City's obligation to the Trustee hereunder shall not at any time exceed the amount certified by the Controller for the purpose and period stated in such certification.

(b) Except as may be provided by laws governing emergency procedures, officers and employees of the City are not authorized to request, and the City is not required to reimburse the Trustee for, commodities or services beyond the agreed upon contract scope unless the changed scope is authorized by amendment and approved as required by law.

(c) Officers and employees of the City are not authorized to offer or promise, nor is the City required to honor, any offered or promised additional funding in excess of the maximum amount of funding for which the contract is certified without certification of the additional amount by the Controller.

(d) The Controller is not authorized to make payments on any contract for which funds have not been certified as available in the budget or by supplemental appropriation.

Section 72.22. Submitting False Claims; Monetary Penalties. Pursuant to San Francisco Administrative Code §21.16, any contractor, subcontractor or consultant who submits a false claim shall be liable to the City for three times the amount of damages which the City sustains because of the false claim. A contractor, subcontractor or consultant who submits a false claim shall also be liable to the City for the costs, including attorneys' fees, of a civil action brought to recover any of those penalties or damages, and may be liable to the City for a civil penalty of up

to $10,000 for each false claim. A contractor, subcontractor or consultant will be deemed to have submitted a false claim to the City if the contractor, subcontractor or consultant: (a) knowingly presents or causes to be presented to an officer or employee of the City a false claim or request for payment or approval; (b) knowingly makes, uses, or causes to be made or used a false record or statement to get a false claim paid or approved by the City; (c) conspires to defraud the City by getting a false claim allowed or paid by the City; (d) knowingly makes, uses, or causes to be made or used a false record or statement to conceal, avoid, or decrease an obligation to pay or transmit money or property to the City; or (e) is a beneficiary of an inadvertent submission of a false claim to the City; subsequently discovers the falsity of the claim, and fails to disclose the false claim to the City within a reasonable time after discovery of the false claim.

Section 72.23. Agreement Made in California; Venue. The formation, interpretation and performance of this Agreement shall be governed by the laws of the State of California. Venue for all litigation relative to the formation, interpretation and performance of this Agreement shall be in San Francisco.

Section 72.24. Ownership of Results. Any interest of the Trustee or its Subcontractors, in drawings, plans, specifications, blueprints, studies, reports, memoranda, computation sheets, computer files and media or other documents prepared by the Trustee or its subcontractors in connection with services to be performed under this Sixteenth Supplemental Indenture, shall become the property of and will be transmitted to City. However, the Trustee may retain and use copies for reference and as documentation of its experience and capabilities.

Section 72.25. Audit and Inspection of Records. The Trustee agrees to maintain and make available to the City, during regular business hours, accurate books and accounting records relating to its work under this Sixteenth Supplemental Indenture. The Trustee will permit City to audit, examine and make excerpts and transcripts from such books and records, and to make audits of all invoices, materials, payrolls, records or personnel and other data related to all other matters covered by this Sixteenth Supplemental Indenture, whether funded in whole or in part under this Sixteenth Supplemental Indenture. The Trustee shall maintain such data and records in an accessible location and condition for a period of not less than three years after final payment under this Sixteenth Supplemental Indenture or until after final audit has been resolved, whichever is later. The State of California or any federal agency having an interest in the subject matter of this Sixteenth Supplemental Indenture shall have the same rights conferred upon City by this Section.

Section 72.26. Subcontracting. The Trustee is prohibited from subcontracting this Sixteenth Supplemental Indenture or any part of it unless such subcontracting is first approved by City in writing. Neither party shall, on the basis of this Sixteenth Supplemental Indenture, contract on behalf of or in the name of the other party. An agreement made in violation of this provision shall confer no rights on any party and shall be null and void.

Section 72.27. Assignment. The services to be performed by Trustee are personal in character and neither this Sixteenth Supplemental Indenture nor any duties or obligations hereunder may be assigned or delegated by the Trustee unless first approved by the Commission and the City by written instrument executed and approved in the same manner as this Sixteenth Supplemental Indenture.

Section 72.28. Non-Waiver of Rights. The omission by either party at any time to enforce any default or right reserved to it, or to require performance of any of the terms, covenants, or provisions hereof by the other party at the time designated, shall not be a waiver of any such default or right to which the party is entitled, nor shall it in any way affect the right of the party to enforce such provisions thereafter.

Section 72.29. City a Third Party Beneficiary. The City is hereby designated as a third party beneficiary for the purpose of enforcing all of the obligations of the Trustee contained in Article XXV of this Sixteenth Supplemental Indenture and to the extent that any other rights are given to the City hereunder.

Section 72.30. Food Service Waste Reduction Requirements. Effective June 1, 2007, the Trustee agrees to comply fully with and be bound by all of the provisions of the Food Service Waste Reduction Ordinance, as set forth in San Francisco Environment Code Chapter 16, including the remedies provided, and implementing guidelines and rules. The provisions of Chapter 16 are incorporated herein by reference and made a part of this Sixteenth Supplemental Indenture as though fully set forth. This provision is a material term of this Sixteenth Supplemental Indenture. By entering into this Sixteenth Supplemental Indenture, the Trustee agrees that if it breaches this provision, City will suffer actual damages that will be impractical or extremely difficult to determine; further, the Trustee agrees that the sum of one hundred dollars ($100) liquidated damages for the first breach, two hundred dollars ($200) liquidated damages for the second breach in the same year, and five hundred dollars ($500) liquidated damages for subsequent breaches in the same year is a reasonable estimate of the damage that the City will incur based on the violation, established in light of the circumstances existing at the time this Sixteenth Supplemental Indenture was made. Such amount shall not be considered a penalty, but rather agreed monetary damages sustained by the City because of the Trustee's failure to comply with this provision.

Section 72.31. Graffiti Removal. Graffiti is detrimental to the health, safety and welfare of the community in that it promotes a perception in the community that the laws protecting public and private property can be disregarded with impunity. This perception fosters a sense of disrespect of the law that results in an increase in crime; degrades the community and leads to urban blight; is detrimental to property values, business opportunities and the enjoyment of life; is inconsistent with the City's property maintenance goals and aesthetic standards; and results in additional graffiti and in other properties becoming the target of graffiti unless it is quickly removed from public and private property. Graffiti results in visual pollution and is a public nuisance. Graffiti must be abated as quickly as possible to avoid detrimental impacts on the City and County and its residents, and to prevent the further spread of graffiti. The Trustee shall remove all graffiti from any real property owned or leased by the Trustee in the City and County of San Francisco within forty eight (48) hours of the earlier of the Trustee's (a) discovery or notification of the graffiti or (b) receipt of notification of the graffiti from the Department of Public Works. This Section is not intended to require the Trustee to breach any lease or other agreement that it may have concerning its use of the real property. The term "graffiti" means any inscription, word, figure, marking or design that is affixed, marked, etched, scratched, drawn or painted on any building, structure, fixture or other improvement, whether permanent or temporary, including by way of example only and without limitation, signs, banners, billboards and fencing surrounding construction sites, whether public or private, without the consent of the owner of the property or the owner's

authorized agent, and which is visible from the public right-of-way. "Graffiti" shall not include: (1) any sign or banner that is authorized by, and in compliance with, the applicable requirements of the San Francisco Public Works Code, the San Francisco Planning Code or the San Francisco Building Code; or (2) any mural or other painting or marking on the property that is protected as a work of fine art under the California Art Preservation Act (California Civil Code sections 987 et seq.) or as a work of visual art under the Federal Visual Artists Rights Act of 1990 (17 U.S.C. §§ 101 et seq.). Any failure of the Trustee to comply with this Section of this Sixteenth Supplemental Indenture shall constitute a material breach of this Sixteenth Supplemental Indenture.

Section 72.32. Counterparts; Electronic Delivery. This Sixteenth Supplemental Indenture may be executed in any number of counterparts and by the different parties hereto in separate counterparts, each of which when so executed and delivered shall be deemed an original, but all such counterparts together shall constitute one and the same instrument; signature pages may be detached from multiple separate counterparts and attached to a single counterpart so that all signature pages are physically attached to the same document. This Sixteenth Supplemental Indenture may be delivered by the delivery of signed signature pages by electronic means, facsimile transmission, or by e-mail with a PDF copy attached, and any printed or copied versions of any signature page so delivered shall have the same force and effect as an originally signed version of such signature page. Signatures of this Sixteenth Supplemental Indenture made by electronic means shall be accompanied by an email, contemporaneous or otherwise, confirming the use of such means.

[End of Sixteenth Supplemental Indenture]

IN WITNESS WHEREOF, the parties hereto have executed this Sixteenth Supplemental Indenture by their officers thereunto duly authorized as of the day and year first written above.

EXHIBIT A

FORM OF WIFIA PROJECT 1 BOND

Not to Exceed $369,335,021 INITIAL PRINCIPAL AMOUNT
(excluding Accreted Interest) No. R-1

PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO
WASTEWATER REVENUE BONDS
(SFPUC WASTEWATER CAPITAL PLAN RESILIENCE PROGRAM – PROJECT 1)

Dated Date	Interest Rate	Final Maturity Date (subject to adjustment as provided in the Indenture)	CUSIP No.
April 26, 2023	3.65%	October 1, 2061	79768HJM1

Registered Owner: United States Environmental Protection Agency

Not to Exceed INITIAL Principal Amount
(excluding the Accreted Interest): THREE HUNDRED SIXTY-NINE MILLION THREE HUNDRED THIRTY-FIVE THOUSAND TWENTY-ONE DOLLARS

The PUBLIC UTILITIES COMMISSION OF THE CITY AND COUNTY OF SAN FRANCISCO, a commission duly organized and existing under and pursuant to the Charter of the City and County of San Francisco and the laws of the State of California (herein called the "Commission"), for value received, hereby promises to pay (but only out of the revenues hereinafter referred to) to the registered owner set forth above (the "WIFIA Lender"), or registered assigns, on the maturity date set forth above (subject to the right or obligation of prior redemption hereinafter provided for), the sum of the aggregate initial principal amounts of this Bond (hereinafter referred to as "Bond" or "WIFIA Project 1 Bond") issued on each Disbursement Date, as adjusted to reflect Accreted Interest as set forth below, and to pay (but only out of the Revenues hereinafter referred to) interest accrued on the Outstanding WIFIA Project 1 Bond Balance (as hereinafter defined) at the interest rate set forth above at the times and in the manner set forth herein. This Bond will accrue interest on the Outstanding WIFIA Project 1 Bond Balance commencing on the first Disbursement Date. Interest will accrue and be computed on the Outstanding WIFIA Project 1 Bond Balance from time to time on the basis of a 360-day year of twelve (12) thirty (30) day months, and will be compounded semi-annually on each April 1 and October 1 (each a "Semi-Annual Payment Date") occurring during the Capitalized Interest Period; provided that, in the event of any WIFIA Payment Default or any WIFIA Project 1 Project Event of Default, this Bond shall bear interest on the Outstanding WIFIA Project 1 Bond Balance at the

WIFIA Project 1 Bond Default Rate, (a) in the case of any WIFIA Payment Default, from (and including) its due date to (but excluding) the date of any payment so due, and (b) in the case of any WIFIA Project 1 Project Event of Default, from (and including) the date of such occurrence until (and excluding) the date such WIFIA Project 1 Project Event of Default has been cured in accordance with the terms of the WIFIA Project 1 Loan Documents. The WIFIA Lender shall give notice to the Trustee and the Commission of any WIFIA Payment Default or WIFIA Project 1 Project Event of Default, which notice shall specify the effective date of the WIFIA Project 1 Bond Default Rate and shall be deemed conclusive by the Trustee absent manifest error. No failure or delay on the part of the WIFIA Lender in providing such notice, nor any defect in such notice shall affect in any manner the Commission's obligations under this Bond.

No payment of the principal of or interest on this Bond shall be payable by the Commission during the Capitalized Interest Period, and during the Capitalized Interest Period interest will accrue on the Outstanding WIFIA Project 1 Bond Balance and will compound and be added to the Outstanding WIFIA Project 1 Bond Balance on each Semi Annual Payment Date. Notwithstanding the foregoing, the Capitalized Interest Period shall end immediately upon written notification to the Commission and the Trustee by the WIFIA Lender in accordance with the WIFIA Project 1 Loan Documents that a WIFIA System Event of Default or a WIFIA Project 1 Project Event of Default has occurred, in which case the Capitalized Interest Period shall cease and interest on this WIFIA Project 1 Bond (accrued since the last Semi-Annual Payment Date) shall be payable on the next Semi-Annual Payment Date following such termination and notification by the WIFIA Lender.

Commencing on the Debt Service Payment Commencement Date and on each successive Semi-Annual Payment Date through the end of the Interest Only Period, the Commission will pay interest accrued on the Outstanding WIFIA Project 1 Bond Balance through (but not including) such Semi-Annual Payment Date. Commencing on the Semi-Annual Payment Date following the end of the Interest Only Period, the Commission will pay interest on the Outstanding WIFIA Project 1 Bond Balance together with the Minimum Sinking Fund Account Payment due on each such Semi-Annual Payment Date (each of such Semi-Annual Payment Dates being referred to as a "Principal Payment Date") in accordance with the Minimum Sinking Fund Account Payment Schedule. Notwithstanding anything herein to the contrary, the Outstanding WIFIA Project 1 Bond Balance and any accrued interest thereon shall be due and payable in full on the WIFIA Project 1 Bond Final Maturity Date, unless required to be paid earlier due to acceleration or otherwise.

The term "Outstanding WIFIA Project 1 Bond Balance" means, as of the date of calculation, the sum of (a) the aggregate principal amount of this Bond purchased and sold on each Disbursement Date to the WIFIA Lender (i.e., the sum of the funds received by the Trustee from the WIFIA Lender on each such Disbursement Date), plus (b) the Accreted Interest added to the principal balance of this WIFIA Project 1 Bond on each Semi-Annual Payment Date occurring during the Capitalized Interest Period, which shall be the sum of (i) the interest accrued since the last Semi-Annual Payment Date on the Outstanding WIFIA Project 1 Bond Balance as of such Semi-Annual Payment Date, and (ii) if any Disbursement Date has occurred since the last Semi-Annual Payment Date, the interest accrued on the amount of the proceeds of each disbursement since the applicable Disbursement Date, minus (c) the aggregate principal amount of this Bond

paid or redeemed by the Commission on each Semi-annual Payment Date or any redemption date, if earlier.

Within thirty (30) days following each Disbursement Date, each Semi-Annual Payment Date, and each redemption date, the WIFIA Lender shall make a notation on the WIFIA Project 1 Bond of the Outstanding WIFIA Project 1 Bond Balance as of such Disbursement Date, Semi-Annual Payment Date or redemption date (as the case may be) and shall give written notice to the Commission and the Trustee stating the Outstanding WIFIA Project 1 Bond Balance as of such date, which statement and notation thereof shall be deemed conclusive absent manifest error; provided, however, that no failure to make such notation or any delay in giving such notice or in making such notation shall affect any of the obligations of the Commission on this WIFIA Project 1 Bond.

The principal of, redemption price, if any, and interest on this Bond shall be payable to the registered owner by wire transfer in immediately available funds in US Dollars in accordance with the payment instructions provided by the registered owner in accordance with the Sixteenth Supplemental Indenture (defined below) and no presentation of this WIFIA Project 1 Bond shall be required for any such payment, except that the final payment of this WIFIA Project 1 Bond shall be made upon or following presentation of this WIFIA Project 1 Bond for cancellation at the corporate trust office of the Trustee.

This Bond shall constitute a Capital Appreciation Bond during the Capitalized Interest Period, and thereafter shall automatically convert to a Current Interest Bond and Term Bond.

This Bond is issued under and pursuant to the provisions of the Charter of the City and County of San Francisco and all laws of the State of California supplemental thereto, including the Revenue Bond Law of 1941 to the extent made applicable by said Charter (herein collectively called the "Law"), and pursuant to an Indenture, dated as of January 1, 2003, between the Commission and the Trustee, as amended and supplemented, included as supplemented by that certain Sixteenth Supplemental Indenture, dated as of April 26, 2023 (the "Sixteenth Supplemental Indenture", and together with all supplements, the "Indenture"). Capitalized terms not defined herein shall have the meanings set forth in the Sixteenth Supplemental Indenture.

Reference is hereby made to the Indenture (a copy of which is on file at the office of the Trustee) and to the Law for a description of the terms on which this Bond is issued, the provisions with regard to the nature and extent of the Revenues (as such term is defined in the Indenture) and the rights thereunder (and limitations thereon) of the registered owner of this Bond and the rights, duties and immunities of the Trustee and the rights and obligations of the Commission thereunder; and all the terms of the Indenture and the Law are hereby incorporated herein and constitute a contract between the Commission and the registered owner of this Bond, and to all the provisions thereof the owner of this Bond, by acceptance hereof, consents and agrees. The registered owner hereof shall have recourse to all of the provisions of the Law and the Indenture and shall be bound by all of the terms and conditions thereof.

This Bond is being issued to finance and refinance the acquisition and construction of improvements to the Enterprise, as more particularly described in the Indenture. This Bond is a special obligation of the Commission and is payable, as to the principal and redemption price

thereof, interest thereon, from the revenues of the Enterprise (which, as more particularly defined in the Indenture, are therein and herein called the "Revenues"). This Bond is secured by a pledge of, and charge and lien upon, all of the Revenues, and the Revenues constitute a trust fund for the security and payment of the interest on and principal of this Bond, but nevertheless out of the Revenues certain amounts may be applied for other purposes prior to the payment of the interest on or principal of this Bond as provided in the Indenture. Additional series of Bonds and Parity Loans payable from the Revenues have been and may be issued on a parity with this Bond, but only subject to the conditions and limitations contained in the Indenture.

The principal of and interest on this Bond are payable solely from the Revenues, and the Commission is not obligated to pay them except from the Revenues. The Commission has no taxing power. The general fund of the City and County of San Francisco is not liable, and the credit or taxing power of the City and County of San Francisco is not pledged, for the payment of the Bonds or their interest. This Bond is not secured by a legal or equitable pledge of, or charge, lien or encumbrance upon, any of the property of the Commission or any of its income or receipts, except the Revenues. The owner hereof has no right to compel the exercise of any taxing power of the City and County of San Francisco.

The rights and obligations of the Commission and the owners of this Bond may be modified or amended at any time in the manner, to the extent and upon the terms provided in the Indenture.

After the Final Disbursement Date (as defined in the WIFIA Project 1 Loan Documents), this Bond shall be subject to redemption prior to the WIFIA Project 1 Bond Final Maturity Date, at the option of the Commission, from and to the extent of any source of available funds, as a whole or in part, from time to time but not more than once annually, in principal amounts of $1,000,000 or any integral multiple of $1 in excess thereof, at a redemption price equal to 100% of the principal amount of this Bond to be redeemed, plus accrued interest thereon to the date fixed for redemption, without premium or penalty. Each optional redemption of this Bond shall be made on such date and in such principal amount as shall be specified by the Commission in a written notice delivered to the WIFIA Lender and the Trustee; provided that the date of any such optional redemption shall be a Semi-Annual Payment date unless otherwise agreed to by the WIFIA Lender. In the case of any such optional redemption, such written notice shall be delivered to the WIFIA Lender and the Trustee not less than ten (10) days nor more than thirty (30) days prior to the date set for redemption, unless otherwise agreed by the WIFIA Lender with notice to the Trustee. At any time between delivery of such written notice and the applicable optional redemption date, the Commission may, without penalty or premium, rescind its announced optional redemption of this WIFIA Project 1 Bond by further written notice to the WIFIA Lender and the Trustee.

This Bond shall be also subject to redemption prior to its stated maturity, in whole or in part, at a redemption price equal to 100% of the principal amount of this WIFIA Project 1 Bond to be redeemed, plus accrued interest thereon to the date fixed for redemption, without premium, from Net Loss Proceeds in accordance with the WIFIA Project 1 Loan Documents and Section 6.20 of the Indenture. The Commission shall provide, or shall cause the Trustee to provide, written notice to the WIFIA Lender at least two (2) Business Days prior to the date on which it makes any such redemption; provided that the Commission's failure to deliver such notice shall not diminish, impair or otherwise affect the Commission's obligation to make any such redemption as and when

the circumstances requiring such redemption have occurred under the WIFIA Project 1 Loan Documents and the Indenture.

This Bond is also subject to mandatory redemption from Minimum Sinking Fund Account Payments on each Principal Payment Date in the amounts set forth on Exhibit A-2 to this Bond (being the "Minimum Sinking Fund Account Payment Schedule"), as adjusted from time to time pursuant to the Sixteenth Supplemental Indenture. The Minimum Sinking Fund Account Payment with respect to this Bond on each Principal Payment Date shall equal the product of the Outstanding WIFIA Project 1 Bond Balance as of the end of the Capitalized Interest Period times the percentage set forth on the Minimum Sinking Fund Account Payment Schedule for such Principal Payment Date. On or before each Disbursement Date, the Commission will provide to the Trustee and the WIFIA Lender an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payments required to be paid on this WIFIA Project 1 Bond (as increased on such Disbursement Date) on each Principal Payment Date (assuming that the Capitalized Interest Period ends on October 1, 2031). Not later than thirty (30) days following the end of the Capitalized Interest Period, or, in the event this Bond (or any portion thereof) is deemed purchased and delivered after the end of the Capitalized Interest Period, on the Disbursement Date, the Commission will provide to the Trustee and the WIFIA Lender an amended Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, showing the Minimum Sinking Fund Account Payment required to be paid on each Principal Payment Date. If the WIFIA Project 1 Bond Final Maturity Date is determined under the WIFIA Project 1 Loan Documents to be earlier than October 1, 2061, the applicable percentages shown in the Minimum Sinking Fund Account Payment Schedule shall be amended so that the percentage allocated to any Principal Payment Date following the earlier WIFIA Project 1 Bond Final Maturity Date will be allocated pro-rata among the Principal Payment Dates occurring prior to the earlier Final Maturity Date, and such calculations shall be included by the Commission in the amended Minimum Sinking Fund Account Payment Schedule provided to the Trustee and the WIFIA Lender pursuant to the preceding sentence, as approved by the WIFIA Lender. In addition, if this Bond is redeemed in part pursuant to the two preceding paragraphs above, each such partial redemption shall result in a reduction of the Minimum Sinking Fund Account Payments on a pro rata basis (or in such other manner approved by the WIFIA Lender) and the Commission shall provide to the Trustee and the WIFIA Lender, not later than thirty (30) days following such optional redemption date, a revised Minimum Sinking Fund Account Payment Schedule, approved by the WIFIA Lender, which schedule shall become effective upon delivery to the Trustee. The WIFIA Lender shall reflect any revisions to Minimum Sinking Fund Account Payments on Exhibit A-2 to this Bond; provided that the failure to make any such revisions shall not affect in any manner the Commission's obligations under the Sixteenth Supplemental Indenture or under this Bond. The Commission shall not be required to give the WIFIA Lender any prior notice of such Minimum Sinking Fund Account Payment redemption.

This Bond shall be issued as a single, fully registered Bond without coupons, in an aggregate principal amount not to exceed the Maximum Initial Principal Amount plus the Accreted Interest. The principal amount of this Bond may be increased on each Disbursement Date upon satisfaction of the conditions for issuance of such increased principal amount as provided in the Sixteenth Supplemental Indenture.

This Bond is transferable by the registered owner hereof in person or by his attorney duly authorized in writing, at the principal corporate trust office of the Trustee in San Francisco, California, but only in the manner, subject to the conditions and limitations set forth in the Sixteenth Supplemental Indenture and upon payment of the charges provided in the Indenture, and upon surrender and cancellation of this Bond. Upon such transfer a new fully registered Bond or Bonds of the same series, and in an aggregate principal amount equal to the Outstanding WIFIA Project 1 Bond Balance so transferred will be issued to the transferee. If less than the entire Outstanding WIFIA Project 1 Bond Balance of this WIFIA Project 1 Bond is so transferred, the Trustee shall authenticate and deliver a separate WIFIA Project 1 Bond or Bonds of the same series to each of the transferor and transferee, reflecting the Outstanding WIFIA Project 1 Bond Balance on each such Bond and the revised Minimum Sinking Fund Account Payments applicable to such Bond.

The Commission and the Trustee may treat the registered owner hereof as the absolute owner hereof for all purposes, and the Commission and the Trustee shall not be affected by any notice to the contrary.

It is hereby certified that all of the conditions, things and acts required to exist, to have happened or to have been performed precedent to and in the issuance of this Bond on each Disbursement Date do exist, have happened or will have been performed in due and regular time, form and manner as required by the Law and the laws of the State of California, and that the amount of this Bond in its maximum principal amount, together with all other obligations of the Commission, does not, and will not, exceed any limit prescribed by the Law or any laws of the State of California, and is not, and will not, be in excess of the amount of Bonds permitted to be issued under the Indenture.

This Bond shall not be entitled to any benefit under the Indenture, or become valid or obligatory for any purpose, until the certificate of authentication and registration hereon endorsed have been signed by the Trustee.

IN WITNESS WHEREOF, the Public Utilities Commission of the City and County of San Francisco has caused this Bond to be executed on its behalf, signed by the manual or facsimile signatures of its General Manager and of the Controller of the City and County of San Francisco and countersigned by the manual or facsimile signature of its Secretary, all as of the dated date of this Bond.

Dear Mayor Breed, Supervisor Peskin, Commissioner Elias, and Executive Director Davis,

RE: Fourth Quarter 2022 Report per Chapter 96A, Law Enforcement Reporting Requirements – Stops Data, Use of Force, Crime Victim, and Domestic Violence

As required by Administrative Code Chapter 96A, the San Francisco Police Department (SFPD) is submitting the attached Quarterly Activity and Data Report (QADR). The report is being submitted past the required date (1st Tuesday in February) due to the increased complexity of the reporting requirements.

This report includes expanded use of force data points (i.e., exhibiting of a firearm at the low-ready position) required under the updated Department General Order, Use of Force Policy and Proper Control of a Person. As such, the analysis required additional time and review as the additional reporting requirements resulted in a marked increase in the number of uses of force. It is important to remember that this does not mean that officers used more uses of force; it is just that additional types of control techniques are now reported as a use of force.

The 96A quarterly information and comparisons provide an opportunity to analyze the progress of reforms indirectly correlated with policing engagements. In 2016, the Board of Supervisors voted unanimously to pass local legislation supporting police reforms and specified law enforcement reporting requirements pertaining to stops, searches, arrests, uses of force, and alleged bias-related complaints.

We appreciate the commitment the Mayor and Board of Supervisors has expressed toward the reform initiatives being implemented by the SFPD. We believe these efforts are in alignment with the values of our department and create a closer step to re-envisioning policing to better serve all our communities.

If you have any further questions, please do not hesitate to contact me or my staff, Director of Policy and Public Affairs, Diana Oliva-Aroche at diana.oliva-aroche@sfgov.org. These documents will be posted online at www.sanfranciscopolice.org.

Sincerely,

William Scott

WILLIAM SCOTT
Chief of Police

APPENDIX A
SFPD Quarterly Activity & Data Report
2022 Quarter 4 Report
Crime Victim Data Reporting

WILLIAM SCOTT
Chief of Police

On April 12, 2020, Ordinance 40-20 went into effect, amending San Francisco Administrative Code Chapter 96 to include section 96A.5, "Quarterly Crime Victim Data Reporting." The ordinance mandated that the San Francisco Police Department (SFPD) provide quarterly reports regarding victim demographics across a host of data points, further specifying that the quarterly reports would be due on the first Tuesday in February, May, August and November.

As part of our commitment to the community we serve, SFPD's Professional Standards and Principled Policing Unit worked diligently and in close coordination with relevant SFPD bureaus to compile the crime victim information required for this report. It bears mentioning here, however, that as noted by the Board of Supervisors' Budget and Legislative Analyst, SFPD…

> …would need to modify the current UCR [Uniform Crime Reports] system if the proposed ordinance required tracking and reporting of the additional crime data at an earlier date than the estimated NIBRS [National Incident-Based Reporting System] implementation date of March 2022. Based on a minimum of two full-time equivalent (FTE) consultants, the Department estimates the minimum cost would be approximately $960,000. The estimated cost could be higher, based on the actual scope of work needed to modify the current UCR system. (Source: Budget and Legislative Analyst Memo for the February 6, 2020 Government Audit and Oversight Committee Meeting, Feb. 3, 2020, https://sfgov.legistar.com/View.ashx?M=F&ID=8048232&GUID=24920980-EBBA-4951-95B0-79C2FB993568)

As no additional funding was allocated to allow for the extraction of this data from our primary records management system, Crime Data Warehouse (CDW), staff worked within the constraints of the current resources to aggregate the needed data from CDW as it stands. As a result, readers must be aware that SFPD data is not structured for this reporting method.

As background, all law enforcement agencies must report the most severe crime under the Uniform Crime Reporting requirements, as stated by the FBI Summary Reporting System manual:

"*In cases where more than one offense occurs in an incident, only the highest ranking Part I offense is counted.*"

This “hierarchy rule” has led to the development of a system (born many decades ago), and migrated to the current state, structured for the purpose of counting the “highest ranking” offense. As such, the number of victims of certain crimes is not mandated for reporting by UCR nor is the age, ethnicity, gender or location for any crime. Therefore, detailed demographic and location information for victims is not prepared for capture in this type of report.

For example:

1. An individual can be a victim of multiple crime types in a single reported incident – that person may be counted in each crime type.
2. In a single incident with multiple crimes *and* multiple victims, SFPD summary reporting cannot provide how many people were victim to any individual crime. All victims in the incident show up in each crime.

Prepared by: San Francisco Police Department Professional Standards and Principled Policing Unit
Data Sources: San Francisco Police Department's Crime Data Warehouse (CDW); San Francisco Police Department Homicide Unit; San Francisco Police Department Special Investigations Division

APPENDIX A – SFPD Quarterly Activity & Data Report - Victim Demographic Summary Findings

Aggravated Assault
The number of victims associated with Aggravated Assault incident reports is up 6.3 percent from Q4 2021 to Q4 2022, and up 8.2 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. The most common victim demographic characteristics for Aggravated Assault in Q4 2022 are Hispanic, males, ages 18-29. For Q1-Q4 2022, the most common victim demographic characteristics are Hispanic, males, ages 30-39.

Battery/Other Assault
The number of victims associated with Battery/Other Assault incident reports is up 10.9 percent from Q4 2021 to Q4 2022, and up 11.2 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. The most common victim demographic characteristics for Battery/Other Assault in Q4 2022 are White, males, ages 30-39. White, males, ages 30-39 is the highest demographic for Q1 through Q4 2022.

Robbery
The number of victims associated with Robbery incident reports is down 1.8 percent from Q4 2021 to Q4 2022, and up .7 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. The most common victim demographic characteristics for Robbery in Q4 2022 are Hispanic, males, ages 18-29. The same victim demographic characteristics are highest for Q1 through Q4 2022.

Burglary
The number of victims associated with Burglary incident reports is down 8.2 percent from Q4 2021 to Q4 2022, and down 16.4 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. Burglary victim data includes commercial establishments, which are typically entered in the “other” and “unknown” demographic categories. The most common victim demographic characteristics for Burglary in Q4 2022, excluding others and unknown, are White, males, ages 30-39. The same victim demographic characteristics are highest for Q1 through Q4 2022.

Larceny Theft
The number of victims associated with Larceny incident reports is down 6.3 percent from Q4 2021 to Q4 2022, and up 16.8 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. Larceny victim data includes commercial establishments, which are typically entered in the “other” and “unknown” demographic categories. The most common victim demographic characteristics for Larceny in Q4 2022 are other/unknown, followed by White, male, ages 30-39. The same victim demographic characteristics are highest for Q1 through Q4 2022.

Motor Vehicle Theft
The number of victims associated with Motor Vehicle Theft incident reports is down 2 percent from Q4 2021 to Q4 2022, and up 2 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. Motor Vehicle Theft victim data includes commercial establishments, which are typically entered in the “other” and “unknown” demographic categories. The most common victim demographic characteristics for Motor Vehicle Theft in Q4 2022 are others, followed by white, male, ages 30-39. The same victim demographic characteristics are highest for Q1 through Q4 2022.

Sexual Assault
The number of victims associated with Sexual Assault incident reports is down 30.1 percent from Q4 2021 to Q4 2022, and up 7.4 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. The most common victim demographic characteristics for Sexual Assault in Q4 2022 are White and Hispanic, female, ages 18-29. White, females, 18-29, are the highest demographic characteristics for Q4 2022.

Vandalism
The number of victims associated with Vandalism incident reports is down 13.6 percent from Q4 2021 to Q4 2022, and down 7.6 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. Vandalism victim data includes commercial establishments, which are typically entered in the "other" and "unknown" demographic categories. The most common victim demographic characteristics for Vandalism in Q4 2022 are others, followed by White, male, ages 30-39. The same victim demographic characteristics are highest for Q1 through Q4 2022.

Domestic Violence
The number of victims associated with Domestic Violence incident reports is down 3.6 percent from Q4 2021 to Q4 2022, and up 3 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. The most common victim demographic characteristics for Domestic Violence in Q4 2022 are Hispanic, female, ages 30-39. The demographic characteristics highest for Q1 through Q4 2022 are Black, female, ages 30-39.

Elder Abuse
The number of victims associated with Elder Abuse incident reports is up 12.4 percent from Q4 2021 to Q4 2022, and up 6 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. The most common victim demographic characteristics for Elder Abuse in Q3 2022 are White, females, ages 65 or older. The same victim demographic characteristics are highest for Q1 through Q4 2022.

Child Abuse
The number of victims associated with Child Abuse incident reports is down 13.9 percent from Q4 2021 to Q4 2022, and up 2.7 percent when comparing Q1 through Q4 2021 to Q1 through Q4 2022. The most common victim demographic characteristics for Child Abuse in Q4 2022 are Hispanic, female, under 18 years old. Hispanic, females, under 18, are the highest demographic characteristics for Q1 through Q4 2022.

Homicide
The number of Homicide victims is up 14.3 percent from Q4 2021 to Q4 2022 and no changes when comparing Q1 through Q4 2021 to Q1 through Q4 2022. The most common victim demographic characteristics for Homicide in Q4 2022 are Black, males, ages 40-49. The most common victim characteristics for Q1 through Q4 2022 are Black, males, ages 18-29

Hate Crime
The number of victims associated with Hate Crime incident reports is down 13.3 percent from Q4 2021 to Q4 2022, and down 66.9 percent from Q1 through Q4 2021 to Q1 through Q4 2022. The most common victim demographic characteristics for Hate Crime in Q4 2022 are Hispanic and White, male, ages 30-39. For Q1 through Q4 2022, the most common demographic characteristics are White, male, ages 30-39. The most prevalent bias motivation during Q4 2022 was anti-Christian and Q1 through Q4 2022 was anti-Asian.

Quarterly Activity and Data Report
Quarter 4, 2022

Background

The Racial and Identity Profiling Act of 2015 (AB953) took effect on January 1, 2016, and requires California law enforcement agencies to collect and report data to the Office of the California Attorney General. The requirements of Assembly Bill 953 include reporting from California cities and police departments on any complaints alleging racial or identity profiling and detailed demographic data for traffic and pedestrian stops.

In 2016, the City and County of San Francisco also passed local legislation to support the police reform efforts of the San Francisco Police Department. The Board of Supervisors voted unanimously on an ordinance that established Administrative Code Sec. 96A (Law Enforcement Reporting Requirements) and specified reporting requirements for the San Francisco Police Department (SFPD). The Quarterly Activity and Data Report (QADR) (previously named the "96A report," short for the Administrative Code Sec. 96A: Law Enforcement Reporting Requirements) serves to meet the quarterly reporting requirements and includes data pertaining to stops, searches, arrests, use of force and alleged bias-related complaints. In Quarter Three of 2020, the Department started conducting occasional in- depth analysis with rotating scope and topic. The QADR provided references and discussions of academic research on the topic of disparities in policing.

In 2021, SFPD outlined its method and approaches to applying academic research in the field of disparities in policing. The primary mechanisms for these efforts center on policy changes to many Department General Orders, the operational policy of the Department, and the training curriculum for officers. Policy revisions are ongoing and improved continuously and in partnership with the Police Commission, Department of Police Accountability, and community members, and other best practices.

The data presented in this report are analyzed over time and can be used to analyze the progress of current police reforms undertaken by the San Francisco Police Department. The data analysis is utilized to critically inform and improve policies, training, and tactics in policing, including any disproportionate contact and inequities in policing. This report serves to demonstrate that SFPD is:

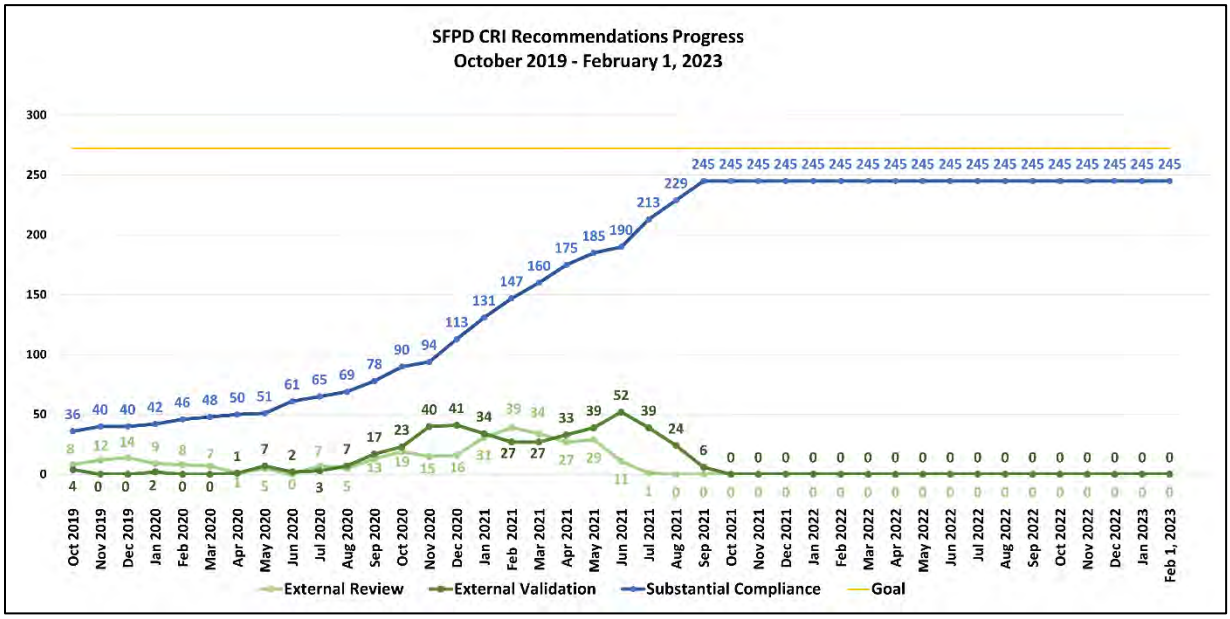
- committed to delivering on the values encapsulated by "Safety with Respect," the Strategic Framework developed from recommendations of the Collaborative Reform Initiative,
- actively seeking and implementing ways to improve transparency and accountability to San Franciscans,

- conducting data reporting recommended by President Obama's Task Force on 21st Century Policing. and
- meeting the requirements of the San Francisco Administrative Code Sections 96A (Law Enforcement Reporting Requirements), and 96A.5 (Victim Demographic Reporting) and 96D (Domestic Violence Reporting).
- Strives to continue ending any inequities, including racism and bias, in modern policing.

The data included in this report generally covers the time period: October 1, 2022 – December 31, 2022. Due to collection standard changes in our Use of Force system that went into effect on December 8, 2022, Use of Force data is provided up to that date for comparison to like data from previous reports. Use of Force data from 9 December 2022 forward will roll into the Q1 2023 QADR report, for comparison with like data. When comparisons of Q4, 2022 Use of Force data against historical Use of Force data are made, the truncated dates are utilized for a direct comparison.

Collaborative Reform Update

Collaborative Reform Initiative Status



The SFPD received its Phase III Collaborative Reform Initiative (CRI) report, which notes that SFPD has reached substantial compliance on 245 of 272 recommendations originally issued by the Federal Department of Justice . The report was prepared by Jensen Hughes, LLC, and validated by the California Department of Justice, in February 2022.

As of April 6, the 5 focus areas of CRI held the following status:

Focus Area	Status	Total
1 - Use of Force	In Progress	7
	Substantial Compliance	51
2 - Bias	In Progress	7
	Substantial Compliance	47
3 - Community Policing	In Progress	6
	Substantial Compliance	54
4 - Accountability	In Progress	7
	Substantial Compliance	61
5 - Recruitment, Hiring, and Personnel Practices	In Progress	0
	Substantial Compliance	32
Sub Total	**In Progress**	**27**
Sub Total	**Substantial Compliance**	**245**
Grand Total		**272**

SFPD's website provides documentation for all substantially compliant recommendations, including SFPD's submission summary, and narrative summaries detailing compliance as determined by the independent evaluator and validated by the California Department of Justice. The website also includes an interactive dashboard providing specifics for all recommendations, including the wording and statuses of each.[1]

Remaining CRI Recommendations

Understanding the need for a continued fair and impartial evaluation of the Department's progress, the City has renewed, through April 2024, a Memorandum of Understanding with the California Department of Justice. SFPD intends to extend the independent consultants' external review contract to continue to bring their professional expertise and knowledge of best practices in other agencies.[2]

There are 27 remaining recommendations which will complete the original 272. As noted in the Phase III report, SFPD is actively working on these projects and will continue to report progress to the Police Commission. For transparency, the progress on reforms and the in-progress recommendations is published on the SFPD website.

SFPD is proceeding with work that will complete these remaining recommendations, most of which require technology procurement, design, deployment, and configuration, as well as planning for and hiring permanent analytical staff and other personnel to support the ongoing improvements necessary to sustain and drive reform. There are five projects that encompass the content necessary to complete 23 of 27 of the remaining recommendations and four standalone recommendations, all of which are represented in the diagram below.

55.2	IA reporting aggregate discipline data regularly.
39.1	Community Policing Strategic Plan
41.1	Community Policing Manual

CRI Sustainability

To make collaborative reform a long term, permanent driver of continued improvement in the SFPD, it is necessary not only to complete a recommendation once, but also to re-engage that recommendation routinely to ensure its continued compliance. This process is referred to as 'CRI Sustainability.'

Sustainability Requirements

Types of Review:

- Annual
- Quarterly
- Rolling (Bi-Annual)
- Single Document or Practice

Total Recommendations Requiring Sustainability Efforts:

187

	Use of Force	Bias	Community Policing	Accountability	Recruitment and Retention
Annual	9	12	29	15	8
Quarterly	16	20	16	20	16
Rolling (Bi-Annual)	11	1	15	13	7
Single Document or Practice	5	5	7	0	0
Total Recs for Topic*	37	34	47	42	27

*Some recommendations require multiple types of updates in a single recommendation.

SFPD identified 187 of the 245 completed recommendations that require a sustainability effort. These efforts are included among the compliance measures provided for each recommendation and include requirements such as ongoing policy review/update, data or document audits, or staff training. The expectation is that the reviews, reports, and analyses will provide opportunities to reflect, evaluate, and improve upon the processes established and documented for CRI. Further, these sustainability efforts may be an annual, bi-annual, quarterly, or a one-time requirement.

An example of sustainability that represents continuous improvement mechanisms is the most recent update of the Department General Order related to Use of Force. In 2016, after the commencement of the implementation phase of the Collaborative Reform partnership, the President of the San Francisco Police Commission and

representatives from the Police Department and the Department of Police Accountability worked together to update this policy. In 2020, after an audit performed by the San Francisco Controller's Office, a report from the Center for Policing Equity, and ongoing reviews of community complaints and national concern regarding law enforcement's use of pressure to the head and neck, SFPD proposed an update to this policy. A new policy was adopted by the Commission in January and, after an implementation period, went into effect on April 12, 2022.

An example of a repeated process and reporting effort, CRI recommendation 40.1 required the generation of a Community Policing Strategic Plan. The Community Policing Strategic Plan was developed by an SFPD-led working group of community members and representatives and SFPD personnel. It was developed during 2017 and 2018, with publication in late 2018. The Community Policing Strategic Plan further required unit and station plans be developed and published annually, the first of which have been completed and can be viewed online[3].

As previously noted, SFPD has identified 187 recommendations with regularly required reporting or reviews and has conducted the first year of validation that the ongoing work is being completed. The remaining 58 recommendations were implemented as a one-time activity to reach substantial compliance. Also, SFPD will review to ensure that circumstances are still in place that established the one-time recommendations. These reviews are critical to the success of sustained and ongoing change and continued improvement in SFPD.

Use of Force Data Methodology Update

Policy Changes Drive Changes to Data Collection

On January 12, 2022, the San Francisco Police Commission passed a revised policy for the use of force, called "Use of Force & Proper Control of a Person." 90 days later, on April 12, 2022, the SFPD transitioned to this new use of force standard.

The April 2022 use of force policy changed multiple definitions within the policy, in most cases broadening definition and reducing thresholds for reportable uses of force. The 2022 policy also added new categories of force, and associated definitions for collection.

On November 2, 2022 the San Francisco Police Commission passed additional revisions to the policy, in most cases narrowing definitions and increasing thresholds for reportable uses of force. This revised general order went into effect on December 8th, 2022.

For the purposes of reporting, the Use of Force data and Calls for Service data in this Q4 2022 report account for 1 October 2022 thru 8 December 2022 to provide a comparable set of statistics under a single policy standard (the April 2022 Use of Force standard.) 9 December thru 31 December 2022 Use of Force statistics will roll into the Q1, 2023 report, where it can be compared to a like set of Use of Force Statistics under the revised December, 2022 Use of Force standard.

What Policy Changes Were Made?

Physical Control Threshold

Most significantly, the April 2022 policy reduces the reporting threshold for uses of force by removing the requirement that there be a complaint of pain present for a physical control hold to be reportable. Previously, the 2016 policy noted (emphasis added):

> *Any use of force which is required to overcome subject resistance to gain compliance that results in death, injury,* ***complaint of injury in the presence of an officer, or complaint of pain that persists beyond the use of a physical control hold.***

Specifically, the April 2022 policy notes (emphasis added):

*"Officers shall report any use of force involving physical controls that are used **in any attempt to overcome any resistance, regardless of injury or complaint of pain**. Use of control holds to effect handcuffing, where the person does not offer physical resistance, is not injured, and does not complain of pain, are not included."*

Firearm Pointing

The April 2022 policy include instances in which firearm pointing use of force type to include having a firearm pointed at the low ready towards a person.

Under the 2016 policy:

REPORTING. When an officer intentionally points any firearm at a person, it shall be considered a reportable use of force.

Under the April 2022 policy:

…the pointing of a firearm (including low ready) at or in the direction of a person is a reportable use of force.

Drawing and Exhibiting a Firearm

The April 2022 policy also introduces a new category of data collected around the drawing or exhibiting (but not pointing) of a firearm. The policy specifically states that:

DRAWING AND EXHIBITING A FIREARM. The mere drawing and exhibiting of a firearm is not a reportable use of force. However, the pointing of a firearm (including low ready) at or in the direction of a person is a reportable use of force.

The drawing and exhibiting of a firearm by itself is not considered a use of force[4] in the April 2022 policy. However, SFPD is collecting these data. While not included in this report,, as SFPD explores this rich new dataset further, additional analysis may provide further insight into trends and patterns to inform further policy and training discussions. Where these analyses develop findings or patterns, they will be provided in this report.

Technical Notes

The transition to the April 2022 policy also allowed the department to transition to an electronic entry system, as opposed to forms that were filled out and sent to a central point for entry. Adoption of this system is part of continual improvement that builds on

[4] 5.01.08.C.7 "DRAWING AND EXHIBITING A FIREARM - The mere drawing and exhibiting of a firearm is not a reportable use of force."

DOJ Recommendation 4.1, issued in 2016, which notes "…the department needs to create an electronic use of force reporting system so that data can be captured in real time."

The use of force data system is an extension of our crime data warehouse, which is much of the department's incident report system of record. The Airport Bureau uses a different incident report system that is compatible with the San Mateo County systems of record.

Dataset Handling and Adjustments

As the department produced the QADR for Q4, 2022 with a new UoF dataset, with new structure, and all new users, certain instances of the data required deletion, alteration, or transformation in order to be restructured for accurate analysis. Where technical corrections to the data collection system were necessary, they were provided to the SFPD Technology applications team for remediation. As such, the following adjustments to the data were necessary.

Field(s)	Application or Caveat
CAD Number, Incident Report Number, Time, Time Span, UoF Subject, Uof Type	Fields unpopulated: Records entered with no incident report number, CAD number, time, timespan, UoF Subject, or UoF type are not counted, as they were entered in error and intended for deletion. A delete functionality has not been built into the system as of publication. 200 lines of data are excluded. None of the 200 are listed with an associated use of force.
Reason for Drawing/Exhibiting firearm description	Double counting correction: Records with multiple "Officer Reason for Drawing Firearm Description" lead to duplicated uses of force in situations where both a drawn/exhibited entry AND a UoF entry are generated by a single officer on a single subject. Only one of each type of UoF per reason for drawing firearm, per officer, per subject is counted.
Type of Force Used: Other	No detail in "Other" Type of Force: This category formerly had a field of descriptive text to clarify what the nature of the UOF was. As of publication, the system does not provide a description for the "Other" UOF types. Upon manual review, this field is now being used to also indicate instances where there are multiples of the same type of force applied, by the same officer against same subject during a single incident.

	Such additional UOF was not collected in the past system. Additionally, manual review of incidents notes some entries may also include overreporting, to include counting of 'handcuffing', 'assisting upright to a seated position' and others.
Airport Data	Due to the Airport Bureau using the San Mateo County incident reporting system, the Airport Bureau Supervisory Use of Force Evaluation forms still utilize a manual entry system. As of publication, data from the Airport has not been integrated into the rest of the Department's use of force data. As such, Airport Bureau data is not available for publication in this report. Upon data integration, Airport data from Q2 2022 onward will be published.

Qualitative Notes

With the implementation of the 2022 policy, Department members requested clarification of some aspects of the policy. These include the exact threshold for the use of a control hold, interpretation of the seating of an individual, and how to capture multiple similar uses of force in the same incident in the current use of force data application. Due to the broad changes in the use of force standard, data captured under the 2022 policy may have been overreported as officers adjusted to the new reporting standards.

UoF Thresholds and Responsible Analysis

When analyzing a dataset with known data collection methodology changes, steps must be taken to continue to provide trend and pattern information both before and after the change. For example, to compare use of force data between 2016 and mid-2022, it is necessary to remove those uses of force the were deemed as uses of force in 2022, but not in 2016. To do this, we apply the standards in the 2016 policy as a filter against the data collected under the April 2022 policy. This allows SFPD to understand when officer behavior has changed, as opposed to more types of behavior (that were also previously in use) being captured. This report also provides the data captured using the standard established in 2022.

Specifically, we apply the following logic:

Field	Application
Physical Control	Records where there was No or Unknown for Complaint of Pain by subject were not included, as in the past Physical Control records were only captured if there was Yes for Complaint of Pain
Firearm Low Ready	Records with Firearm Low Ready as type of force were not included as this type of force is not in the 2016 policy.
Firearm Drawn & Exhibited	Records that have any value listed in the "Officer Reason for Drawing Firearm Description" field, AND have no additional use of force recorded were not included, as this field indicates that these are records being captured by a new form that did not exist in the past UOF reports.
See above	The dataset caveats noted above regarding duplicates, blanks and other categories apply as filters to this analysis as well.

Analyzing (and reporting on) both standards' outcomes provide not only more robust use of force information from the increased reporting resulting from the April 2022 policy, but also provides a comparison of similar officer interactions across non-comparable data sets.

Despite best efforts, data utilizing the above filters does not appear to capture fully a like-for-like comparison of 2022 data against 2016 data. This may be due to a level of increased reporting (or over-reporting) of uses of force by members even after accounting for the above filters. To address this, SFPD has further improved training, materials, and worked with the Police Commission to adjust the language in the policy to improve clarity.

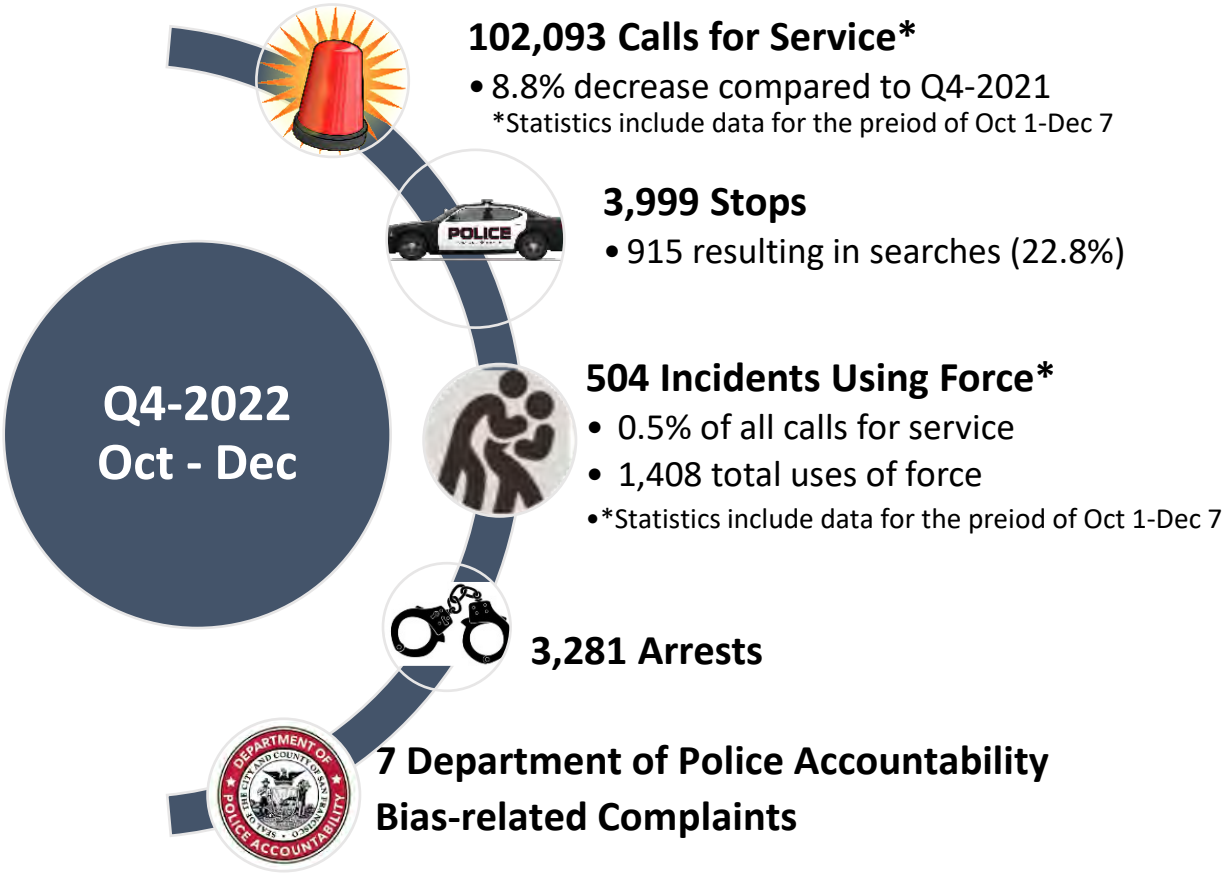
Future Analysis

To better understand the numerical increases in reported uses of force, future analysis may include attempting to understand if the numerical increase in uses of force an increase is entirely based on new and broader reporting requirements, a real increase in uses of force in the field, a combination of both, or something else altogether.

SFPD stands for safety with respect for all. We will:

- Engage in just, transparent, unbiased, and responsive policing
- Do so in the spirit of dignity and in collaboration with the community
- Maintain and build trust and respect as the guardian of constitutional and human rights

Q4 Overview



Data collected during the pandemic and recovery period reflect the unique circumstances of the time. Users should take care when comparing data trends across pandemic response and non-response timeframes.

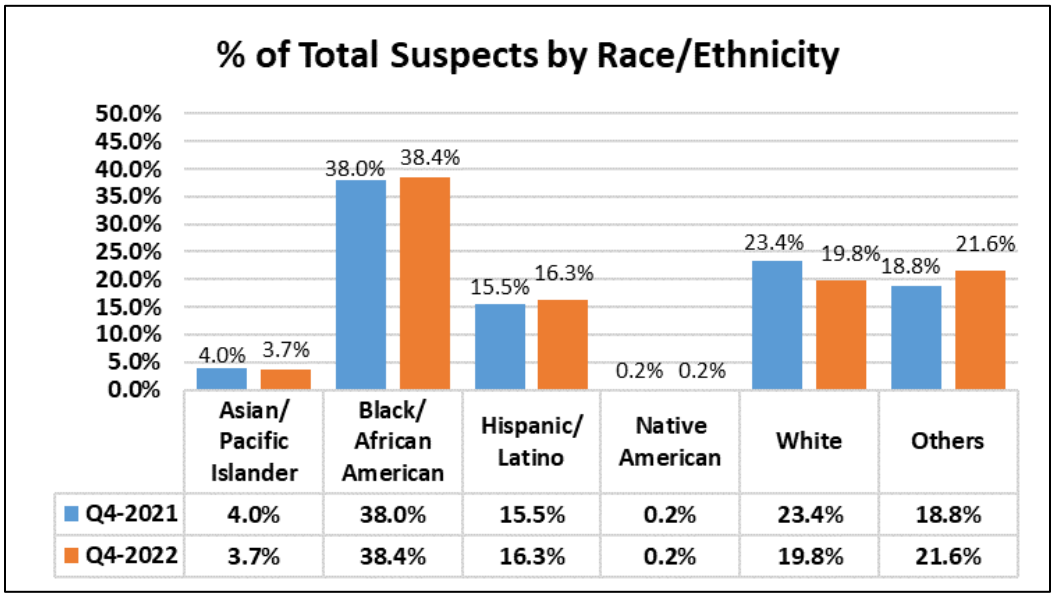
Suspects

SUSPECTS OBSERVED AND REPORTED

The suspect information provided includes descriptions that are generated by members of the public or observed by Department members and documented in police incident reports.

DESCRIPTION	Oct	Nov	Dec	Q4 2022	% of Total Suspects Q4 2022
Asian/ Pacific Islander	98	81	103	282	3.7%
Black/ African American	1103	965	895	2963	38.4%
Hispanic/ Latino	479	407	368	1254	16.3%
Native American	5	10	3	18	0.2%
White	545	458	525	1528	19.8%
Others	548	557	561	1666	21.6%
Total	**2,778**	**2,478**	**2,455**	**7,711**	**100.00%**

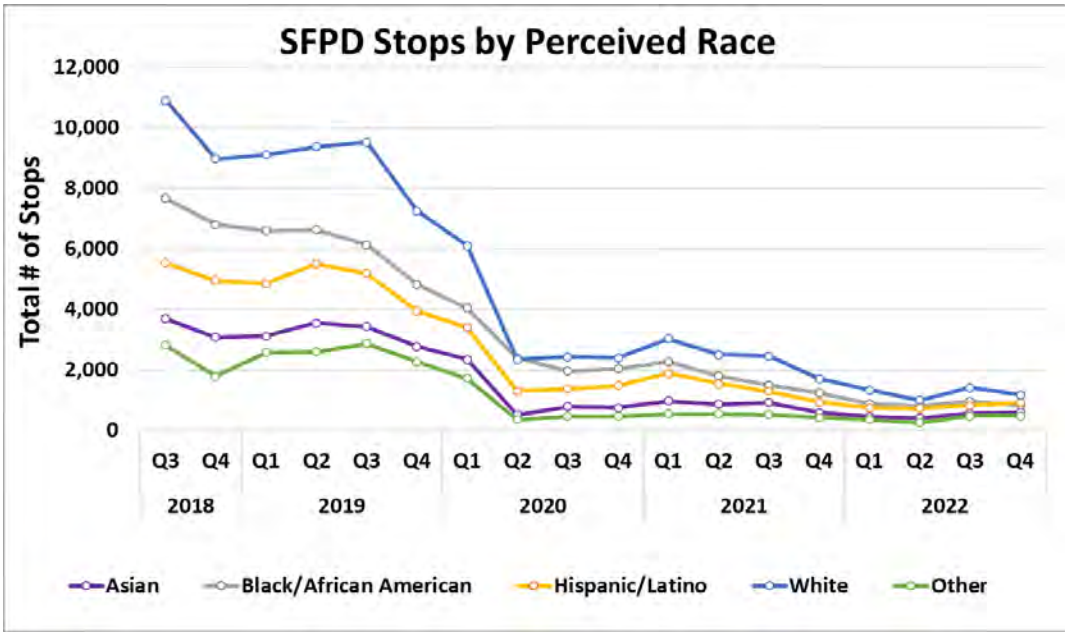
Total suspects observed and reported in Q4 2022 (7,771) decreased by 6% from Q4 2021 (8,220). Black/ African Americans accounted for 38% of all suspects observed and reported in Q4-2022.



Note: Subject data is extracted from incident reports via the Person Schema of Crime Data Warehouse via Business Intelligence tools. Search criteria includes results in which Person Type = "Suspect." Records with Unknown Race/Ethnicity data are not included.

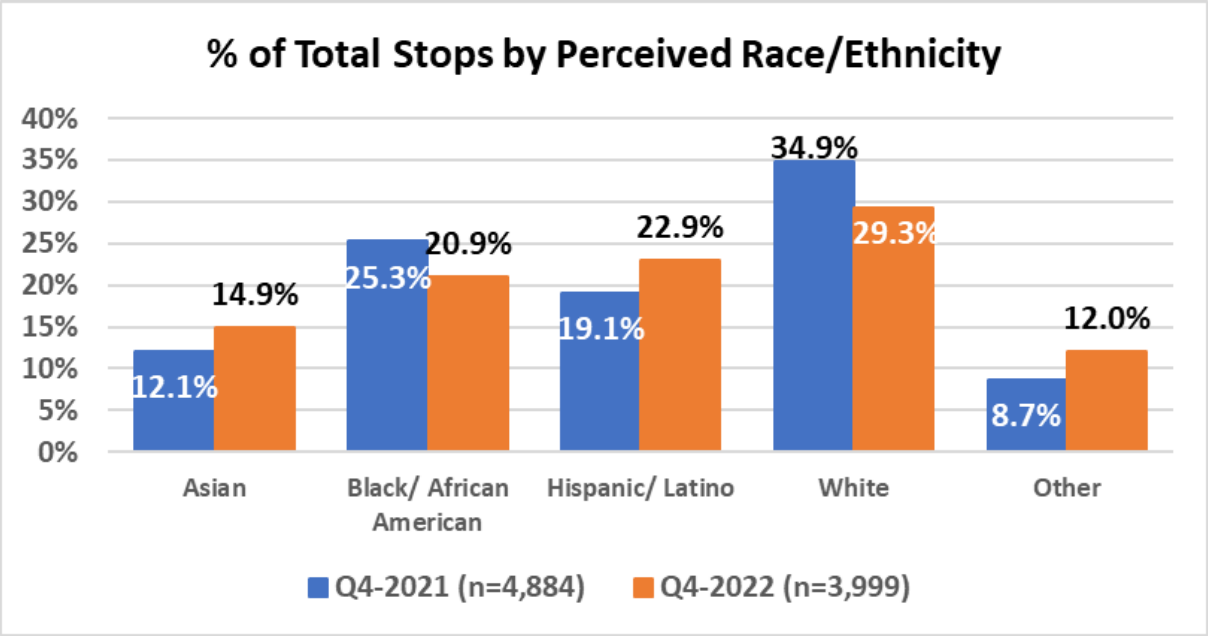
STOPS AND SEARCHES

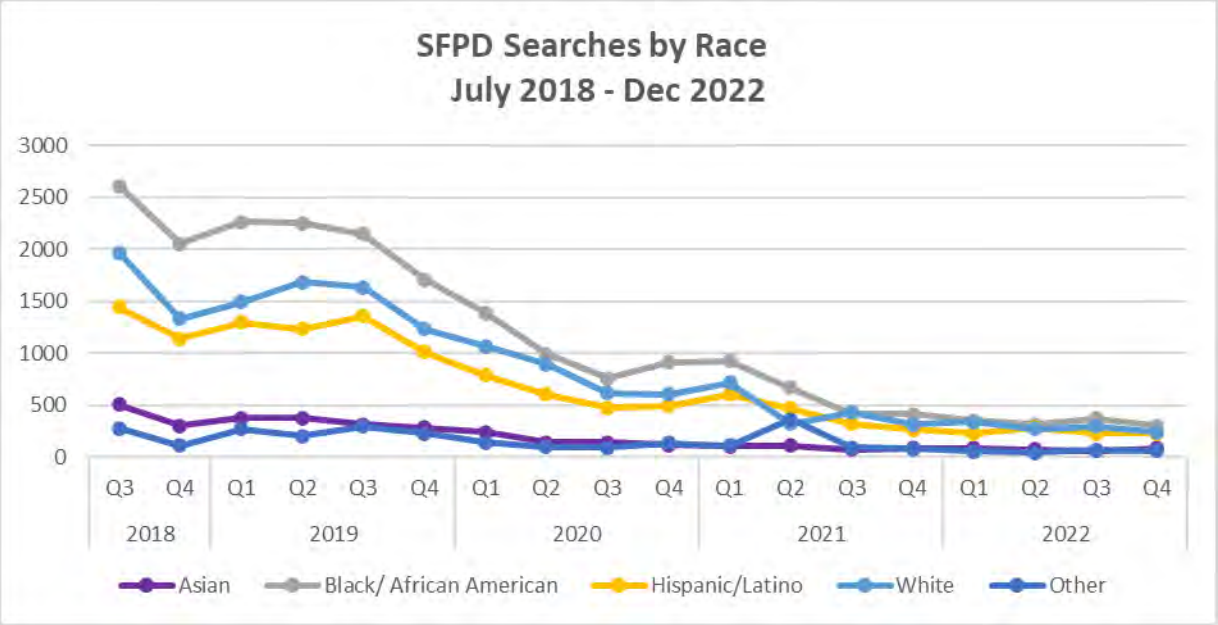
In Q4- 2022, 3,999 stops were conducted, an 18% decrease as compared to Q4 -2021. Of those stops, 915 resulted in searches (22.8%). White individuals accounted for 29% of all stops and 26% of all searches. Black individuals accounted for 21% of stops and 33% of searches.



Compared to Q4-2021, the percentage of total stops decreased by 5% for White individuals and decreased by 4% for Black individuals.

Stops and Searches





The percentage of stops resulting in searches have declined slightly in Q4 2022 for Black, White and Other, and increased by 3% for Hispanic/Latino individuals and 2% for Asian individuals.

	STOPS			SEARCHES		
Perceived Race / Ethnicity	**Q4-2021 (n=4,884)**	**Q4-2022 (n=3,999)**	**%Δ from Q1-2021**	**Q4-2021 (n=1,152)**	**Q4-2022 (n=915)**	**%Δ from Q1-2021**
Asian	12%	15%	2.8%	8%	9%	2%
Black/ African American	25%	21%	-4.4%	34%	33%	0%
Hispanic/ Latino	19%	23%	3.8%	22%	25%	3%
White	35%	29%	-5.6%	32%	26%	-6%
Other	9%	12%	3.3%	5%	7%	2%

Note: “Perceived” identifiers are used to categorize demographic information specific to Stop Data Collection System

SEARCHES BY LEVEL OF DISCRETION

The Department classifies the various types of searches into three categories:

1. Discretionary[5] searches,
2. Administrative searches, and
3. Other searches.

Discretionary searches require an officer to ask and receive consent to search. In such cases, officers have the most flexibility in determining who to search and include only those occurrences where consent is the only basis provided. Administrative searches include those that occur because of a search warrant, arrest, or vehicle inventory. Other searches have a variable range of discretion and include reasons such as officer safety, suspected weapons, visible contraband, evidence of crime, etc.

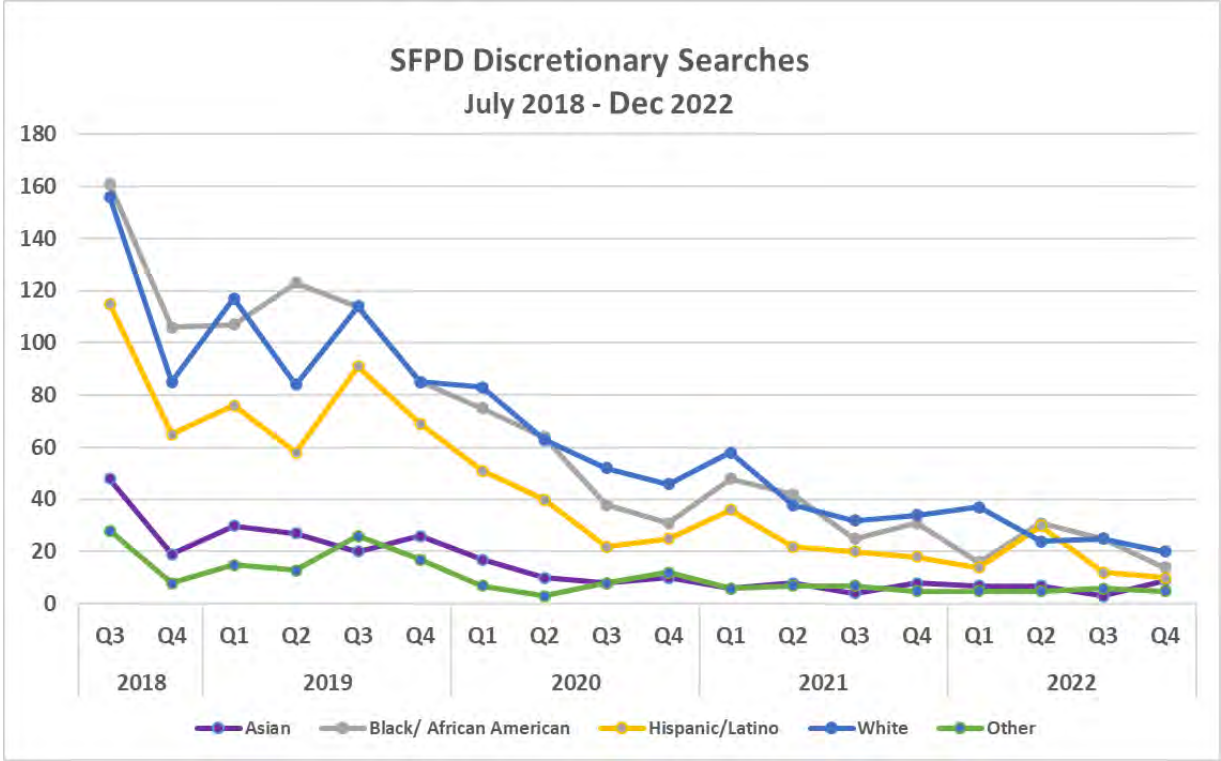
Discretionary Searches	Administrative Searches	Other Searches
*Consent Given	*Incident to Arrest	*Officer Safety/ Safety of Others
	*Search Warrant	*Suspected Weapons
	*Vehicle Inventory	*Visible Contraband
		*Odor of Contraband
		*Canine Detection
		*Evidence of Crime
		*Emergency
		*Suspected Violation of School Policy
		*Condition of Parole/ Probation/ PRCS/ Mandatory Supervision

[5] In Q3, 2021, the SFPD has renamed search categories from 'Consent Only' and 'Supervision Searches' to 'Discretionary' and 'Administrative' searches to align with terminology being used by the California Department of Justice and the Race and Identity Profiling Act Board.

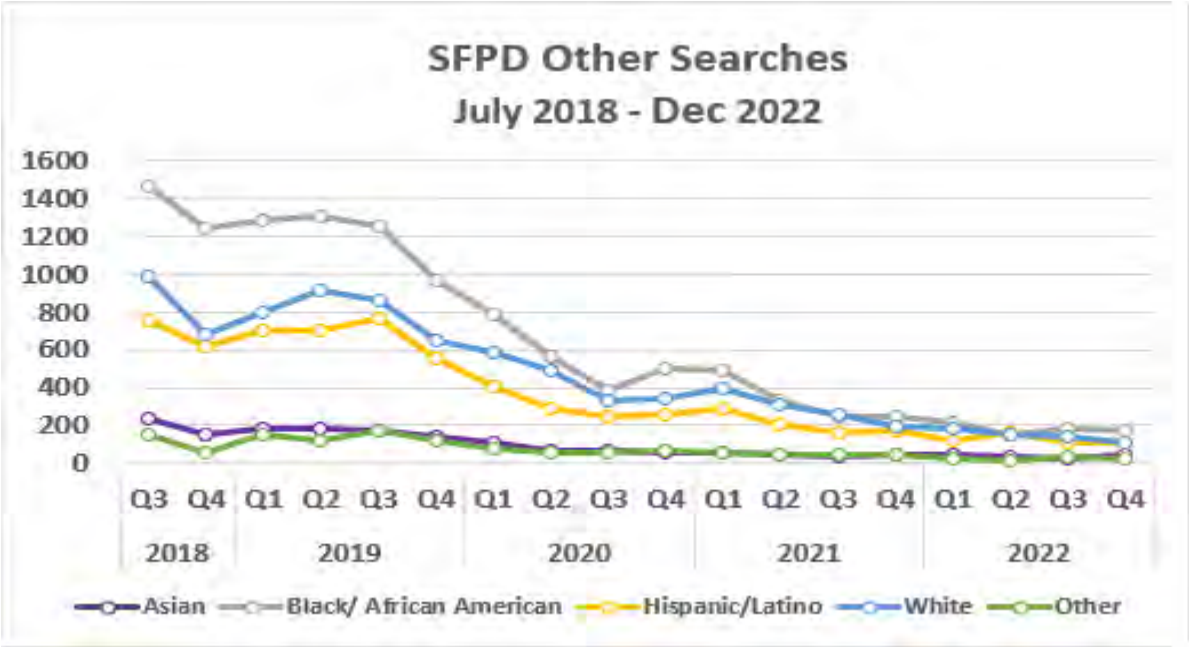
Stops and Searches

The 915 total searches conducted in Q4-2022 were categorized below. Many of these incidents have more than one cause for search and are included in multiple categories.

- **Discretionary Searches: 58 (4.8%)**
- **Administrative Searches: 661 (55.6%)**
- **Other Searches: 468 (39.4%)**



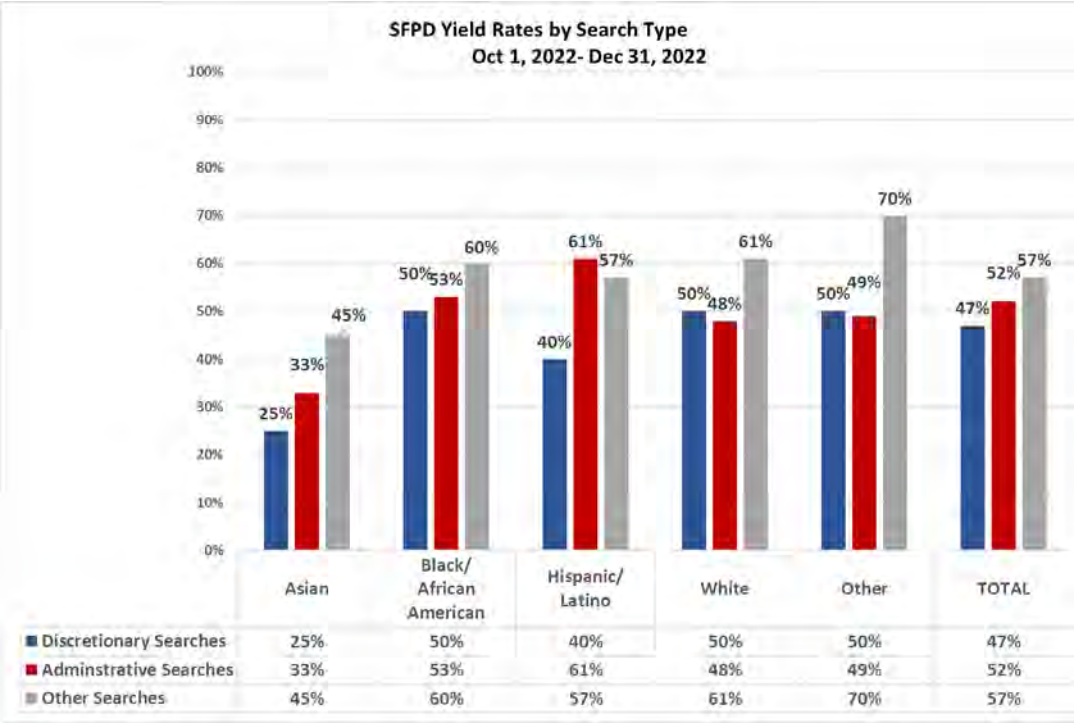
Discretionary searches have decreased by 40% overall since Q4-2021



Other searches have decreased across all race/ethnicities by 33% overall since Q4-2021, from 696 to 228 total searches.

SEARCH YIELD RATES

The average yield rate for all searches was 52% in Q4-2022. The yield rate was 47% for consent only searches, 52% for supervision searches, and 57% for other searches.

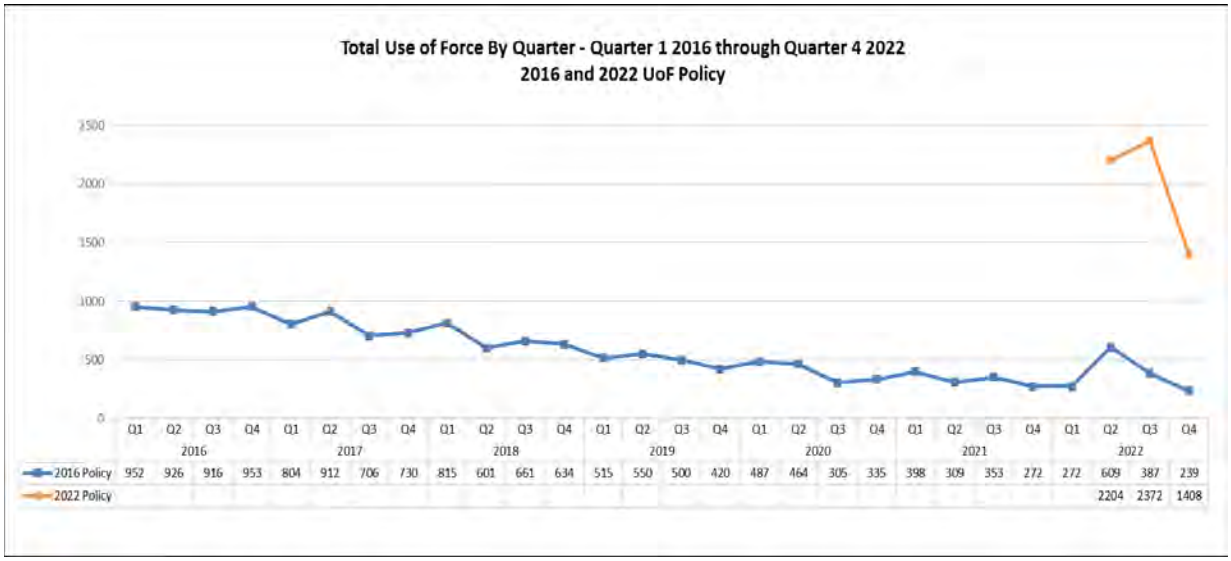


As noted in the Phase III SFPD Collaborative Reform Initiative report:

> **"The assumption among researchers is that if the rate of discovering contraband during searches of a particular identity group is low, then those people are "objectively less suspicious and may be searched, at least in part, because of their perceived identity."** HTTPS://OAG.CA.GOV/SITES/ALL/FILES/AGWEB/PDFS/RIPA/RIPA-BOARD-REPORT-2021.PDF AT PAGE 48.
>
> **In turn, if the hit/yield rate for a particular identity group increases, that means that officers are using more objective factors – and not a person's perceived identity – to make the decision to search a person. In short, higher hit/yield rates suggest that officers are less likely making a biased decision to search, but are rather using objective factors to inform their decision-making.**[6]"

[6] SFPD Collaborative Reform Initiative Phase III – Final Assessment Report, Hillard Heintze, 2022, p 6, footnote 11.

USE OF FORCE



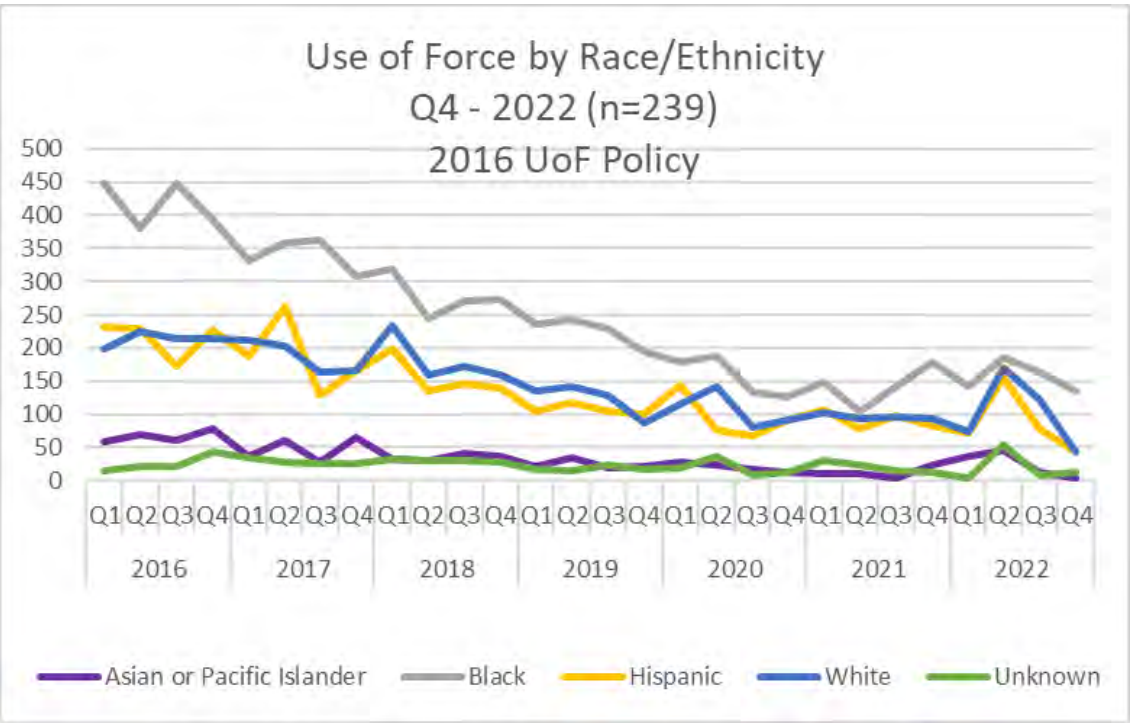
During Q4[7]-2022, the Department responded to 102,093 total calls for service. Department officers were assaulted 49 times and force was used in 504 incidents which represented 0.5% of all calls for service. Of those 504 incidents, force was used 1,408 times by 615 officers against 579 individuals. In Q4 2022, **there were no Officer Involved Shooting incidents resulting in death.**

[7] UoF and CfS data in this section are from 1 October, 2022 thru 8 December, 2022. See data exploration for explanation.

Changes to the Use of Force Department General Order and associated data collection is discussed in the data exploration section of this report and should be kept in mind when interpreting these data.

Where possible this report provides data under both the 2016 and April 2022 Use of Force policy to allow for historical context and tracking of trends over time.
Where possible this report provides data under both the 2016 and April 2022 Use of Force policy to allow for historical context and tracking of trends over time.

Use of Force



White individuals were the individuals of 18% of the total uses of force, 57% against Black/African American, and 18% against Hispanic/Latino. The proportion of uses of force against all demographic groups has remained relatively constant, with some variability in the last few quarters. For example, from Q4 2021 to Q4 of 2022, uses of force against Asian individuals decreased by 4.6%, to account for 1.7% of all uses of force in Q4, 2022 with uses of force against Black/African American individuals increasing by 12% as compared to the same quarter last year, increasing to 56.9% of all uses of force in Q4-2022. Uses of force against Hispanic/Latino individuals decreased by 5.9% and increased by 14.4% against White individuals.

Race/Ethnicity	Uses of Force Q4-2021 (n=272)	Uses of Force Q4-2022 (n=239)	%Δ from 2021
Asian	6.3%	1.7%	-4.6%
Black/African American	44.9%	56.9%	12.1%
Hispanic/Latino	23.9%	18.0%	-5.9%
White	4.0%	18.4%	14.4%
Other	4.0%	5.0%	1.0%

TYPES OF FORCE USED

Under the 2016 Use of Force policy, Physical Control, Firearm Pointing and strike by object were the top three types of force used and accounted for 92% of total Uses of Force in Q4 2022.

	Previous 2016 Reporting Standard - Q4 2021	Previous 2016 Reporting Standard - Q4 2022	% Change
Chemical Agent	9	6	-33.3%
ERIW	21	3	-85.7%
Firearm Pointing	110	12	-89.1%
Impact Weapon	5	1	-80.0%
Other	6	5	-16.7%
Physical Control Hold/Take Down	98	199	103.1%
Spike Strips	6	0	-100.0%
Strike by Obj. (personal body weapon)/Fist	17	9	-47.1%
Vehicle Intervention	0	4	not calc
Grand Total	**272**	**239**	**-12.1%**

	New Apr-Dec 2022 Reporting Standard - Q4 2022
Chemical Agent	10
ERIW	7
Firearm Low Ready	159
Firearm Pointing	206
Impact Weapon	3
Other	7
Physical Control Hold/Take Down	950
Strike by Obj. (personal body weapon)/Fist	33
Vehicle Intervention	33
Grand Total	**1408**

Under the April-December 2022 Use of Force policy, Physical Control, Firearm Low Ready, and Firearm Pointing were the top three types of force used and accounted for 93.4% of total Uses of Force in Q4 2022.

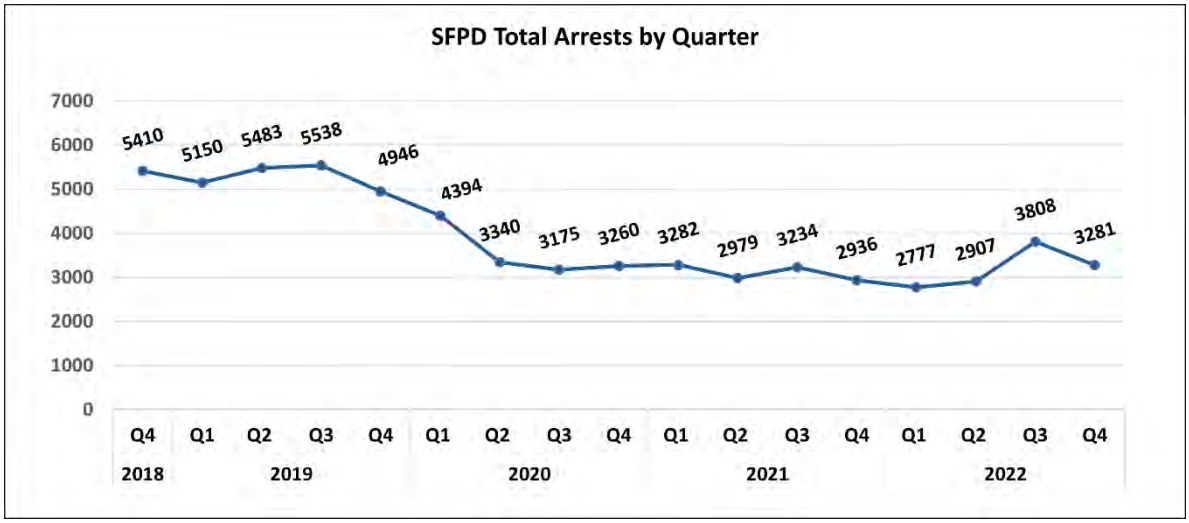
USE OF FORCE RESULTING IN DEATH

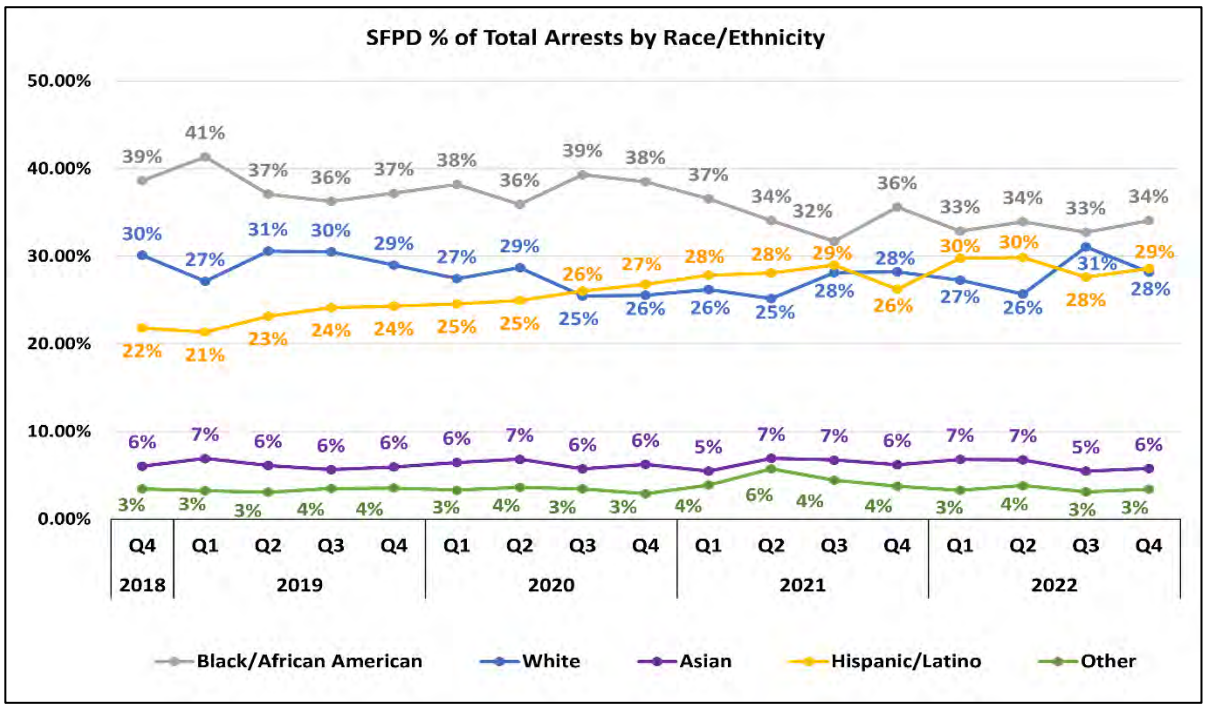
There were no Use of Force incidents that resulted in death during Q4-2022.

Arrests

ARRESTS

There were 3,281 arrests during the Q4-2022, a 12% increase from Q4-2021 (2,936). Black/African American individuals accounted for 34% of all arrests, while Hispanic individuals accounted for 29%.





Percentage of Total Arrests			
Race/ Ethnicity	Q4-2021 (n=3,001)	Q4-2022 (n=3,281)	%Δ from 2021
Asian	6%	6%	0%
Black/ African American	36%	34%	-2%
Hispanic/Latino	26%	29%	3%
White	28%	28%	0%
Unknown	4%	3%	-1%

Overall arrests of Hispanic subjects increased by approximately 3% in Q4 2022 compared to Q4 2021.

*Detailed data regarding age groups and gender can be found later in this report.

ARRESTS BY DISTRICT

It is important to note that arrests made by Department members at San Francisco International Airport are investigated by and reported as part of San Mateo County data and are not included in the City's totals.

The "Outside SF/Other" category includes arrests made by Department members outside the jurisdiction of the City and County of San Francisco by the SFPD and arrests inside the City and County of San Francisco by agencies other than the SFPD that are captured by our Incident Reporting system.

Overall arrests made by Department members within the City and County of San Francisco jurisdiction increased in Q4-2022 compared to Q4-2021 by 9%.

District	Q4 2021	Q4 2022	% change
Co. A - Central	473	414	-12%
Co. B - Southern	406	493	21%
Co. C - Bayview	281	269	-4%
Co. D - Mission	425	417	-2%
Co. E - Northern	265	320	21%
Co. F - Park	94	72	-23%
Co. G - Richmond	91	127	40%
Co. H - Ingleside	173	260	50%
Co. I - Taraval	165	131	-21%
Co. J - Tenderloin	561	711	27%
Outside SF	67	67	0%
Total	**3,001**	**3,281**	**9%**

Bias-Related Complaints

DEPARTMENT OF POLICE ACCOUNTABILITY

The Department is required to obtain information from the Department of Police Accountability (DPA) regarding the total number of complaints received during the reporting period that it characterizes as allegations of bias based on race or ethnicity, gender, or gender identity. The Department also is required to include in its report the total number of complaints DPA closed during the reporting period that were characterized as allegations of bias based on race or ethnicity, gender, or gender identity, as well as the total number of each type of disposition for such complaints.

Cases Received in Q4-2022

Type of Case Received	# of Cases
Racial Bias	2
Gender Bias	0
Transphobic Bias	0
Both Racial and Gender Bias	0
TOTAL	2

DPA received 175 total cases for the quarter.
2 Officers were named for allegations of racial or gender bias.
Total Cases received in 2022 involving Racial or Gender Bias: 8 Cases

During Q4-2022, DPA completed 7 complaint investigation cases in which there was an allegation of racial/ethnic bias. There were no sustained findings indicating bias. There were no sustained allegations of racial or gender bias in Q4-2022.

Q4-2022 Case Closures & Dispositions

Type of Case	Sustained	Withdrawn	Unfounded	No Finding	Insufficient Evidence	Proper Conduct	Referral	TOTAL

DPA closed a total of 173 cases for the quarter, including above.
DPA closed a total of 759 cases for the year, including above

BIAS-RELATED COMPLAINTS RECEIVED BY SFPD, AND INVESTIGATED BY THE DEPARTMENT OF HUMAN RESOURCES

As part of the Department's commitment to transparency, the Department also reports on all bias-related complaints received internally from members of the Department and forwarded to the Department of Human Resources (DHR) for investigation. Closed cases may include complaints received in previous quarters. Bias-related complaints are referred to as Employment Equal Opportunity (EEO) cases by DHR.

Population Benchmark Analysis, Per Capita Race/Ethnicity

The San Francisco Police Department received requests from various key community stakeholders to present a per capita population benchmark analysis. This analysis captures a particular race or ethnicity, as compared to their representation in a similar population of 1000 individuals. We adjust for population in our analysis by the race/ethnic demographic groups in our data. This analysis is compared within this report's quarter and all quarters with data available. A disparity analysis- the contrast between different race/ethnicity groups against each other- is also considered to generate a numerical comparison. This analysis may surface potential racial disparities when comparing policing activities with the various demographic groups. In all cases, a population benchmark analysis that presents per capita results will have challenges, as noted below.

What is a benchmark?

A benchmark is a common frame of reference, created by comparing at least two sets of data to each other, to consider trends and context presented in the data. In this analysis, we compare citywide population demographics against pre and post stop activities by SFPD, and then convert those contact ratios into a Per Capita (or by 1000) number.

Population Benchmark Weaknesses

As noted by the California Department of Justice in their RIPA 2021 report, "An assumption of this type of comparison is that the distribution of who is stopped would be similar to who resides within a comparable geographic region. However, this is not always the case, as people may travel a considerable distance from where they live for several reasons (e.g., to go to work, visit family).[8]" The supposition that the comparison of police data should reflect the residential population makeup makes several assumptions that are not addressed in this analysis, and may result in inaccurate results of the comparative disparities noted in the analysis.

Comparing against residential population does not account for individuals who travel outside their home residential district or zip code in the residential population count, potentially causing over or under representation in the data[9].

[8] 2021 RIPA Board Report - Racial and Identity Profiling Advisory (RIPA) Board (ca.gov)Pp46
[9] https://oag.ca.gov/sites/all/files/agweb/pdfs/ripa/ripa-board-report-2020.pdf pp26-27

It should be noted that SFPD categorizes residential population demographics differently than other agencies. For instance, the Census American Community Survey (ACS) and Racial and Identity Profiling Act (RIPA) have different data standards. When the RIPA board data is used, it is perceived demographic data being compared to self-reported demographics in the residential population data.

Further, "Population counts generally overestimate bias in stop decisions, as differences in poverty, education, and labor market opportunities vary across identity groups in the U.S. Because education and employment affect criminal behavior, disparities along these dimensions will lead to disparities in who commits crime. In this way, pre-existing social disparities will tend to make the fraction of Black or Latinx people in the population smaller than the fraction of Black or Latinx people who are potentially subject to being stopped, overestimating any bias in a stop decision.[10]"

Despite these known limitations in working with population data within a benchmark, it does not mean analysis using a population benchmark is invalid. These limitations should, however, be kept in mind when interpreting results of any population benchmark. Results of population benchmarks can inform future analysis' and provide insight into potential disparities, trends, and differences between geographic areas, such as SFPD districts.

Population Benchmark Strengths

A key benefit in using a population data benchmark is the intuitive ease of understanding as compared to other benchmarks. Other benchmarking techniques can utilize univariate or multivariate statistical analysis that can be hard to explain succinctly and can quickly become overwhelming.

What did SFPD do?

SFPD took a citywide demographic dataset from the 2019 American Community Survey (ACS), administered by the US Census Bureau. Race/Ethnicity groupings are then consolidated to match current Department systems, with Asian and Native Hawaiian/Pacific Islander groups combined into the Asian group, and two or more races, some other race alone and American Indian/Alaska Native combined into the Other grouping. The percentage demographic representation in various data and generated a per capita (per 1000 residents) count along with a table and graph for each activity. Data

[10] https://www.capolicylab.org/wp-content/uploads/2020/10/RIPA-in-the-LAPD-Summary-Report.pdf pp12-13

used for comparison to the population benchmark and per capita calculation was gathered during the fourth quarter of 2021 (January 1, 2022 – March 31, 2022). All available data was used for the historical per capita analysis, reaching back to either 2016 or the second half of 2018, depending on the dataset. All available prior year data was compared with overall trends per capita against types of SFPD activity, by demographic group. Finally, we conducted a disparity analysis by comparing per capita demographic data for certain groups against each other to determine if disparate treatment may be occurring.

Specific Methodology Notes

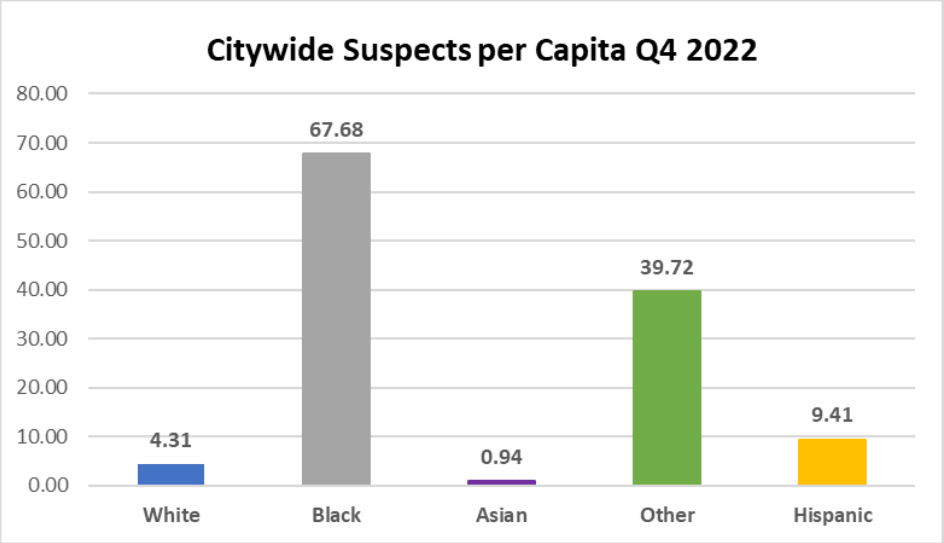
In addition to the general challenges of a population benchmark, noted above, the SFPD would like to highlight the additional methodological notes for clarity and context.

- Census[11]/ACS data considers "Hispanic" as an ethnicity, while the suspect, stops, searches, uses of force, and arrest data considers "Hispanic" as a race.
- Suspects per District: Crime Data Warehouse was searched for persons categorized as "Suspects" on police incident reports. Suspect demographic information may be developed from calls for service or it may be developed at a subsequent point during investigation of an incident. All police incident reports (initial or supplemental) having a data value are included. Suspects with unknown race values are not included. While some suspects are subsequently arrested, and also listed as "booked" or "cited" on police incident reports, this category is not intended to include arrestees.
- Stops information provided reflects entries into the Stop Data Collection System (SDCS), a data collection tool provided by the California Department of Justice to assist departments in complying with AB953 and the RIPA Board's data collection requirements.
- Searches information provided reflects entries into the SDCS, with the same caveats as above.
- Uses of Force information provided reflects entries into the Department UoF Database and account for a distinct count of uses of force broken down by District and race of subject force was used against.
- Arrests count persons "booked" and "cited" where an incident report (initial or supplemental) had a date value.

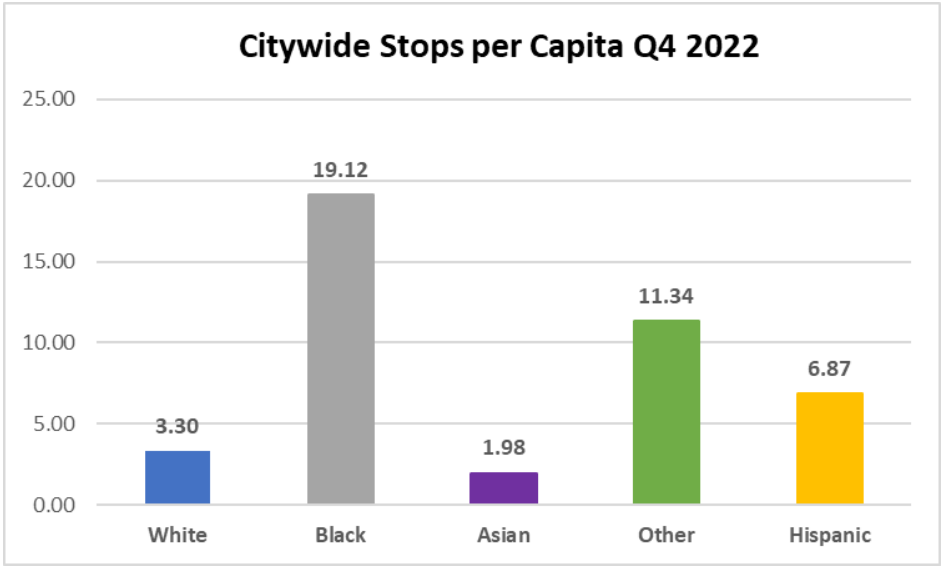
[11] SFPD discovered a calculation error in Q4, 2021 when tabulating census data. The error and corrected tables are included in the Q4, 2021 QADR.

Quarter Per Capita Interactions

Using the previously mentioned methodologies, the following trends are noted.

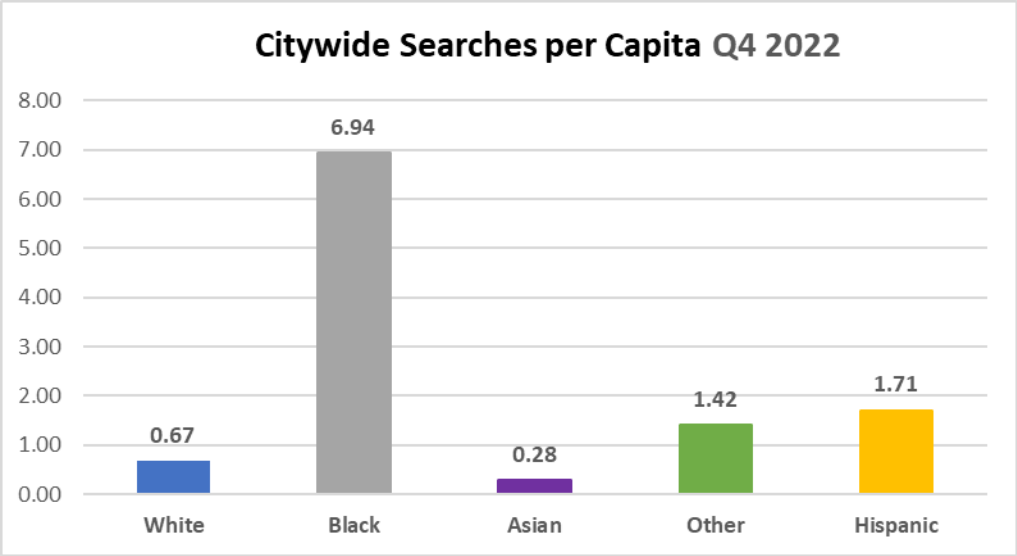


Citywide suspect data shows in Q4 of 2022, 67 of every 1000 Black/African American residents of San Francisco may be reported as a suspect to a crime, as compared to 4 of every 1000 White residents.

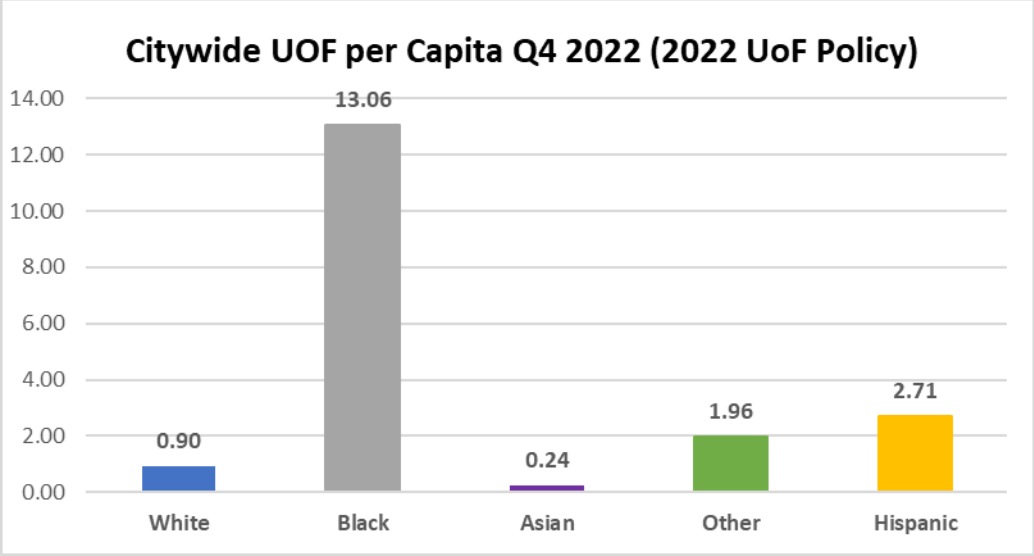


Citywide stops data shows in Q4 of 2022, 19 of every 1000 Black/African American residents of San Francisco may be stopped, as compared to 3 of every 1000 White residents.

Q4 Quantitative Analysis
Per Capita Population Benchmark

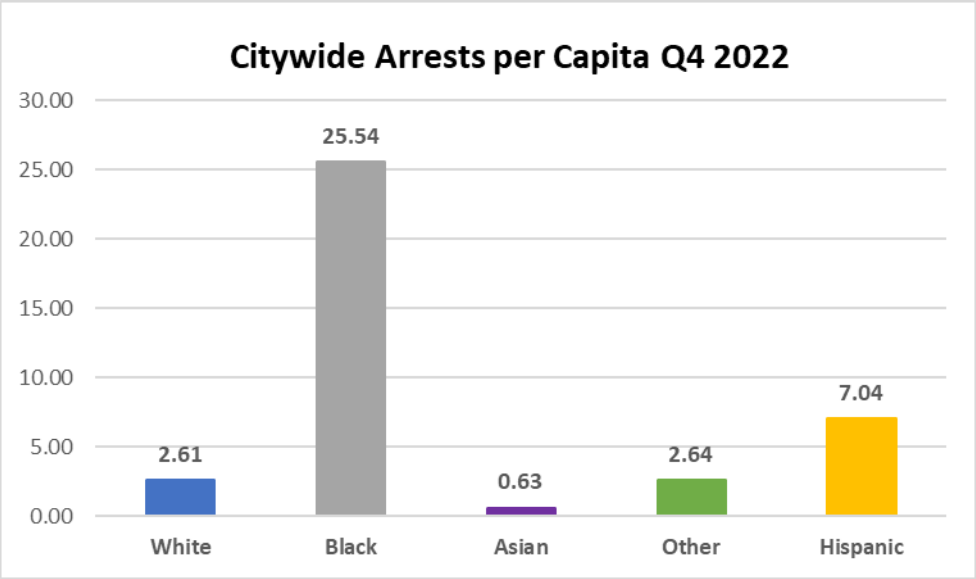


Citywide search data shows in Q4 of 2022, roughly 7 of every 1000 Black/African American residents of San Francisco may be searched as part of another interaction with the SFPD, as compared to less than 1 of every 1000 White residents.



Using the April 2022 UoF policy, citywide Use of Force data shows in Q4 of 2022, 13 of every 1000 Black/African American residents of San Francisco may be subject to a use of force, as compared to .90 of every 1000 White residents.

Q4 Quantitative Analysis
Per Capita Population Benchmark

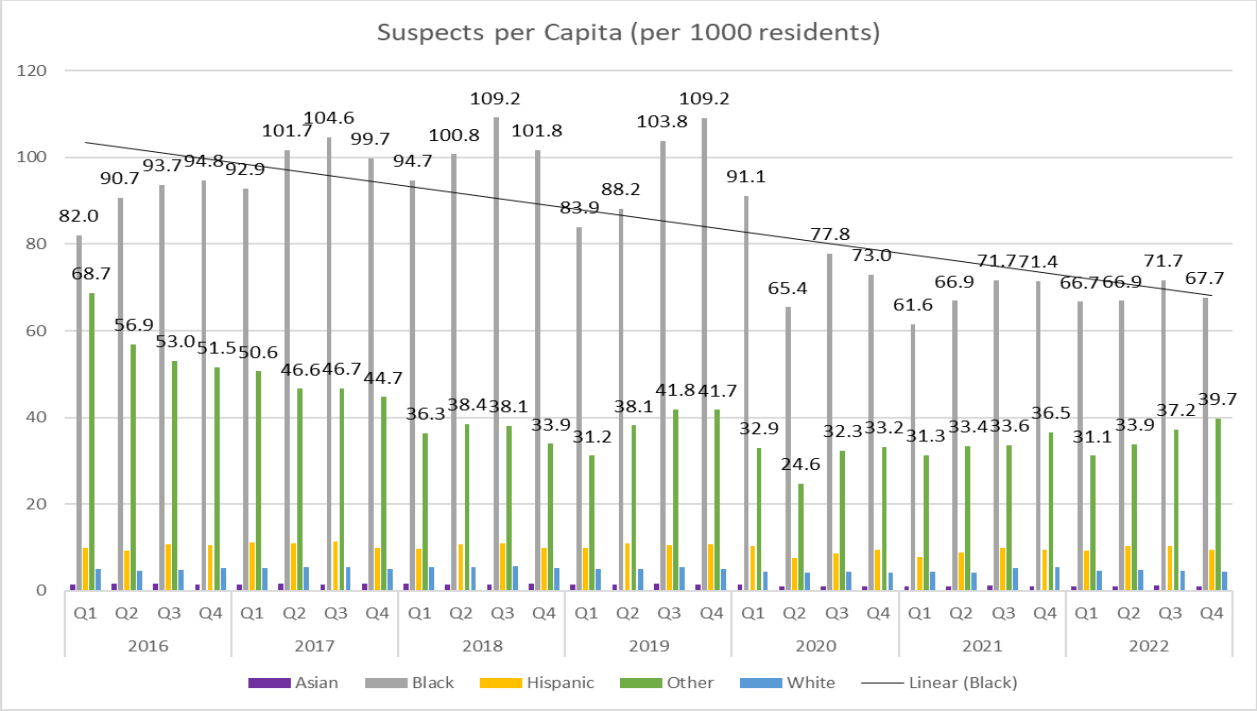


Citywide arrest data shows in Q4 of 2022, roughly 25 of every 1000 Black/African American residents of San Francisco may be stopped, as compared to 2 of every 1000 White residents.

Q4 Quantitative Analysis
Per Capita Population Benchmark

Per Capita Interactions by Race

Analysis was conducted using the above methodology across all quarters from which we have useful data. In this case, starting in Q1, 2016 for Arrests, Uses of Force and Suspect data, and 2018 for Stops and Searches. We found the following trends. Note: Data labels and trend lines for the most impacted group(s) are included for context and clarity.

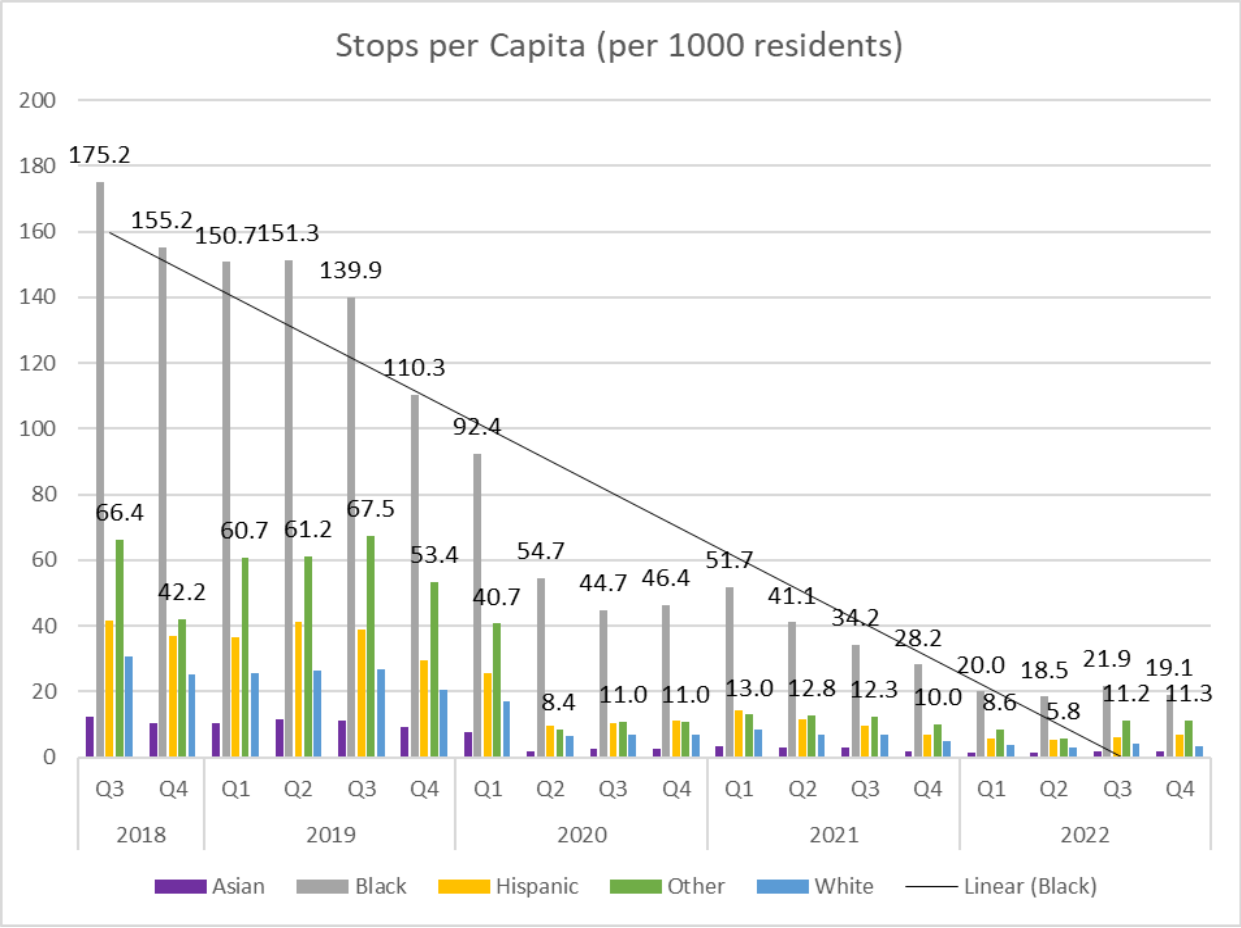


Citywide suspect data since 2016 shows that Black/African American individuals have been reported as suspects of crimes significantly higher than other demographic categories. On average, however, there has been a decline over time of the per capita inclusion of Black/African American residents within suspect reporting.

Rate of Decrease, Suspects Per Capita	
Race	**Slope**
Black	-1.304
Asian	-0.023
Hispanic	-0.046
White	-0.026
Other	-0.864

A linear trendline is produced for the most impacted group. Slopes for all trendlines are included in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in suspect data goes down 1.304, per 1000 Black/African Americans, per quarter, on average, over time.

Q4 Quantitative Analysis
Per Capita Population Benchmark



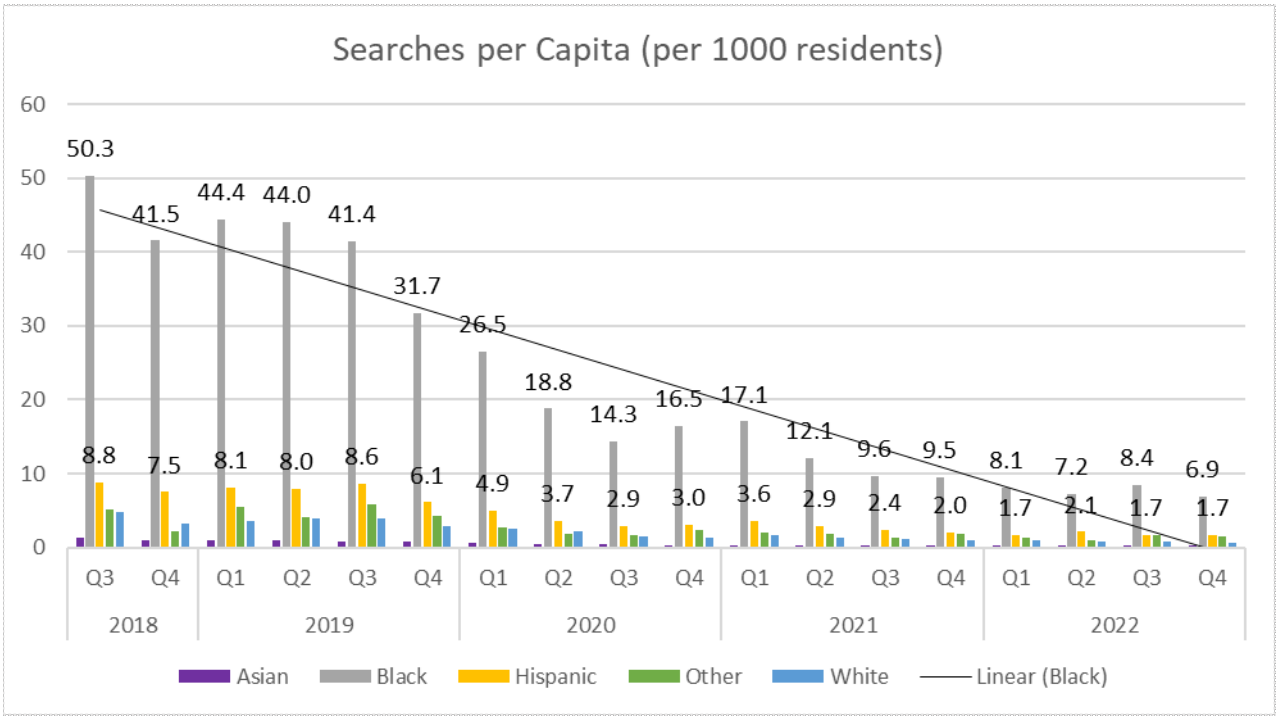
Citywide stops data since 2018 shows that Black/African American individuals have been stopped by the SFPD at significantly higher rates per capita than other demographic categories. There has been a significant decline over time, on average, of the per capita number of Black/African American stopped in a vehicle or pedestrian stop since mid-2018.

Rate of Decrease, Stops Per Capita

Race	Slope
Black	-9.925
Asian	-0.700
Hispanic	-2.402
White	-1.725
Other	-3.739

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in tops data goes down 9.92, per 1000 Black/African Americans, per quarter, on average, over time.

Q4 Quantitative Analysis
Per Capita Population Benchmark



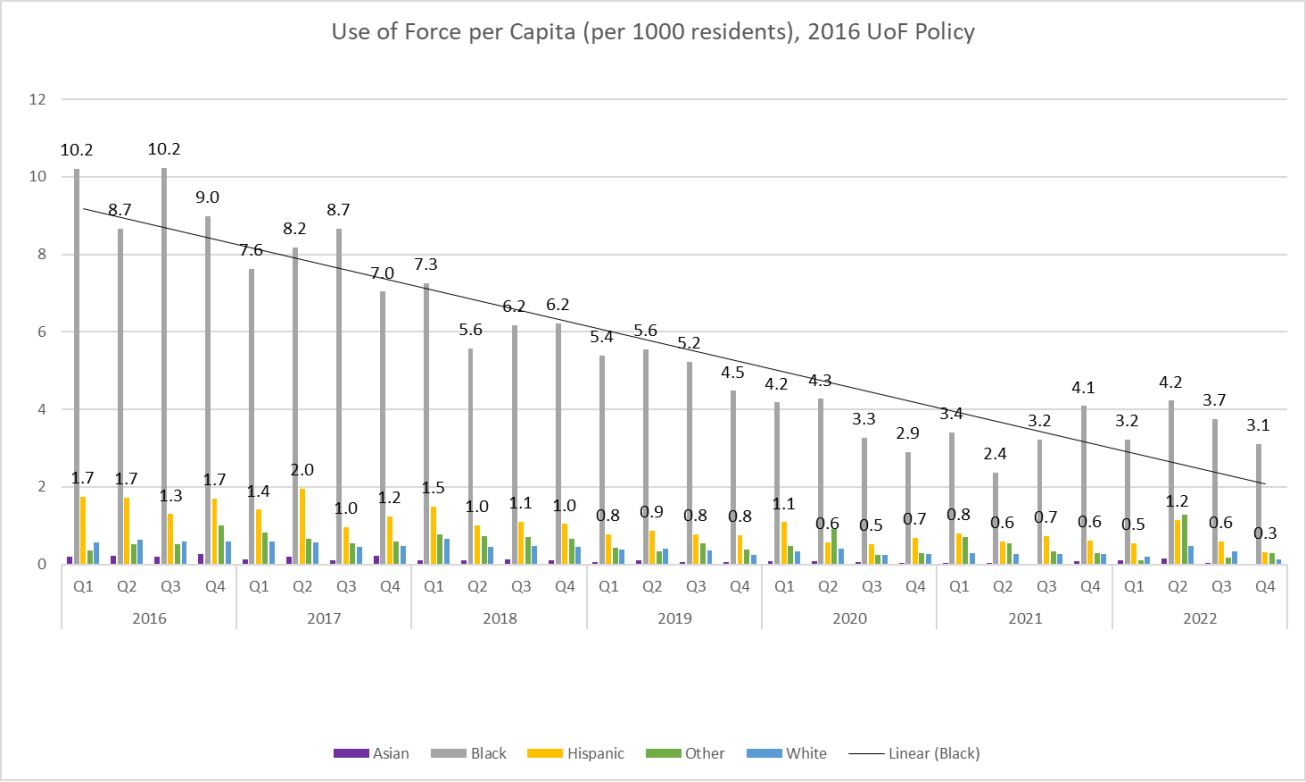
Citywide search data since 2018 shows that Black/African American individuals have been searched in connection with an interaction with the SFPD at rates higher than other demographic categories. There has been a significant decline over time, on average, of the per capita number of Black/African Americans searched since mid-2018.

Rate of Decrease , Searches Per Capita

Race	Slope
Black	-2.713
Asian	-0.058
Hispanic	-0.464
White	-0.226
Other	-0.228

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in search data goes down 2.713, per 1000 Black/African Americans, per quarter, on average, over time.

Q4 Quantitative Analysis
Per Capita Population Benchmark



Citywide use of force data since 2016 shows that Black/African American individuals have been subject to a use of force at significantly higher rates as compared to other demographic categories. There has been a decline over time, on average, of the per capita number of Black/African Americans upon whom use of force has been used since 2016.

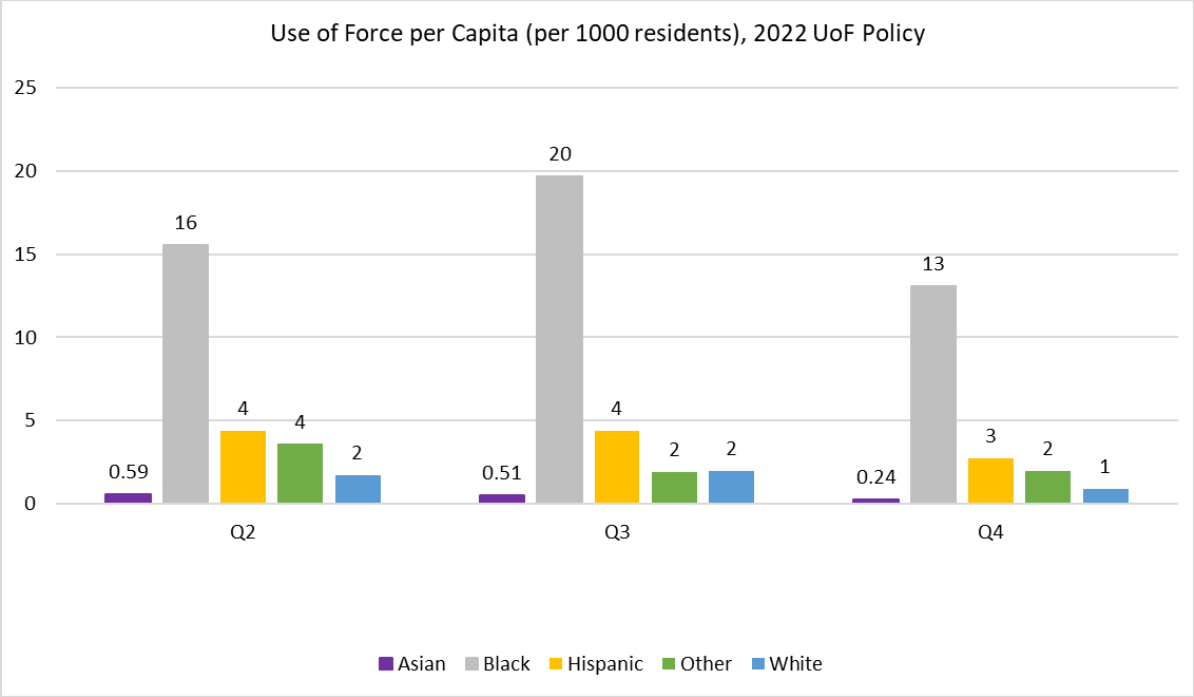
Rate of Decrease, UoF Per Capita

Race	Slope
Black	-0.263
Asian	-0.006
Hispanic	-0.043
White	-0.015
Other	-0.009

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison. Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in UoF is at -.263, per 1000 Black/African Americans, per quarter, on average, over time.

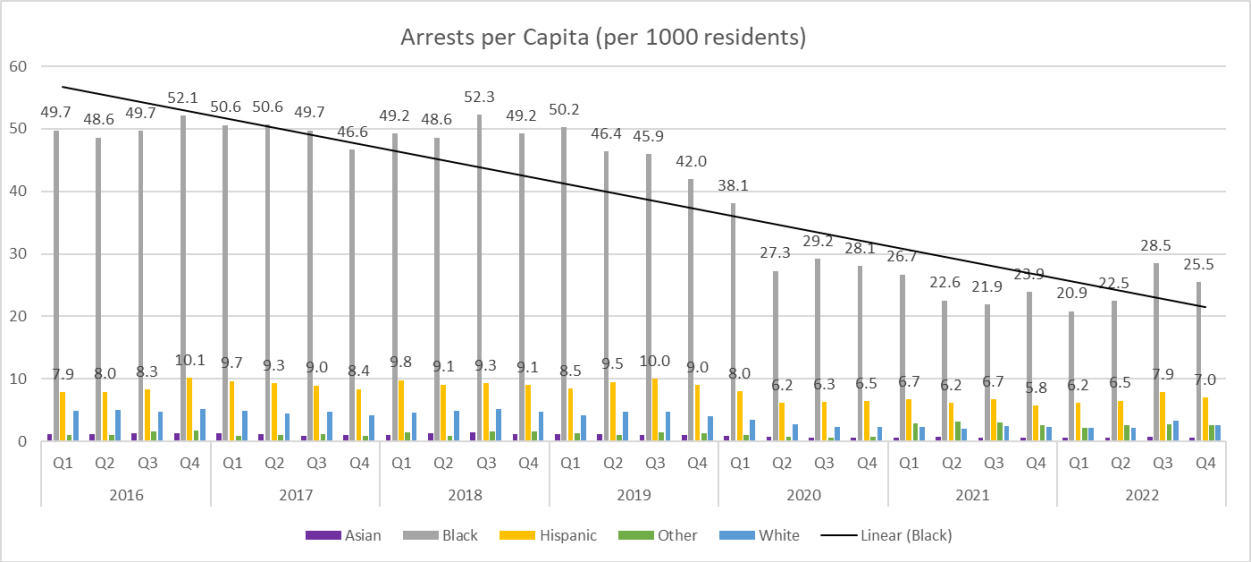
Due to the change in Use of Force policy, the 2016 policy data is used to provide context over time. A separate calculation for per capita use of force is included using only the April 2022 UoF policy below.

The data exploration section of this report delves into detail regarding the policy changes, and analytical methods used to derive the 2016 policy data



Data collected under the 2022 Use of Force policy shows that Black/African American individuals have been subject to a use of force at significantly higher rates as compared to other demographic categories. Comparisons over time, and rate of change are not available as this is the first quarter of reporting under the 2022 policy.

Q4 Quantitative Analysis
Per Capita Population Benchmark



Citywide arrest data since 2016 shows that Black/African American individuals have arrested at significantly higher rates as compared to other demographic categories. There has been a modest decline over time, on average, of the per capita number of Black/African Americans arrested since 2016.

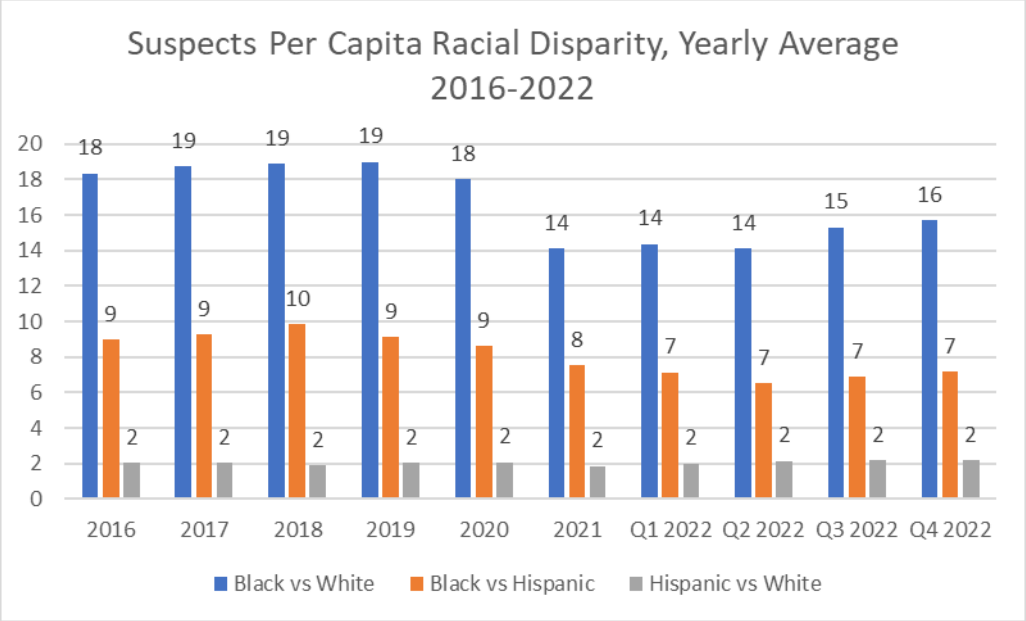
Rate of Decrease , Arrests Per Capita

Race	Slope
Black	-1.304
Asian	-0.029
Hispanic	-0.114
White	-0.123
Other	-0.061

A linear trendline is produced for the most impacted group. Slopes for all trendlines shown in the above table to allow for comparison Slope represents the average change, per demographic group, per quarter. In this case the number of Black/African American individuals included in Arrest data goes down 1.30, per 1000 Black/African Americans, per quarter, on average, over time.

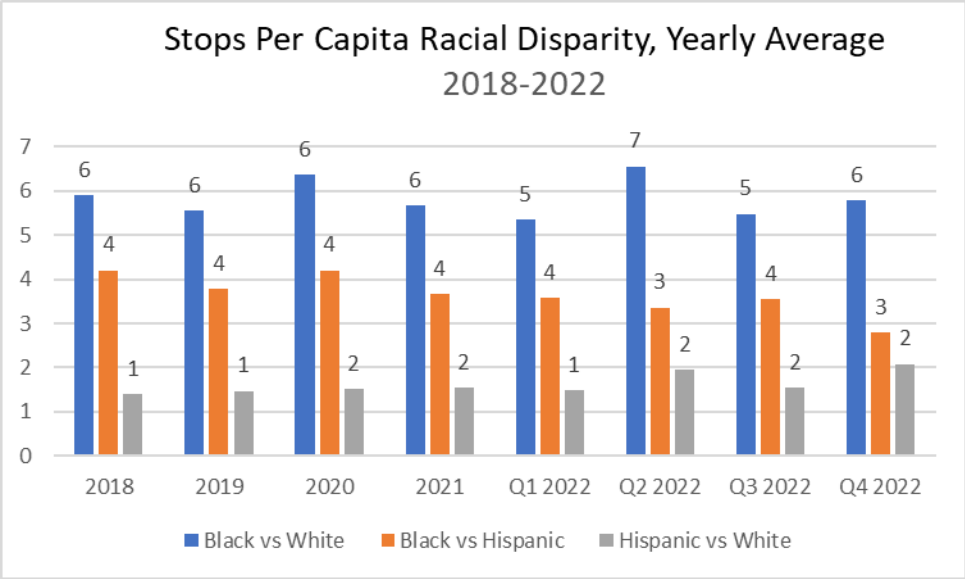
Yearly Per Capita Disparity Analysis

We further conduct a disparity analysis by baselining the 3 most represented demographics against each other to find a numerical representation of the disparity between groups, per SFPD interaction, per year. As with the other per capita analysis, Black/African American residents of San Francisco have higher rates of disparity in the data as compared to the White and Hispanic demographics groups.

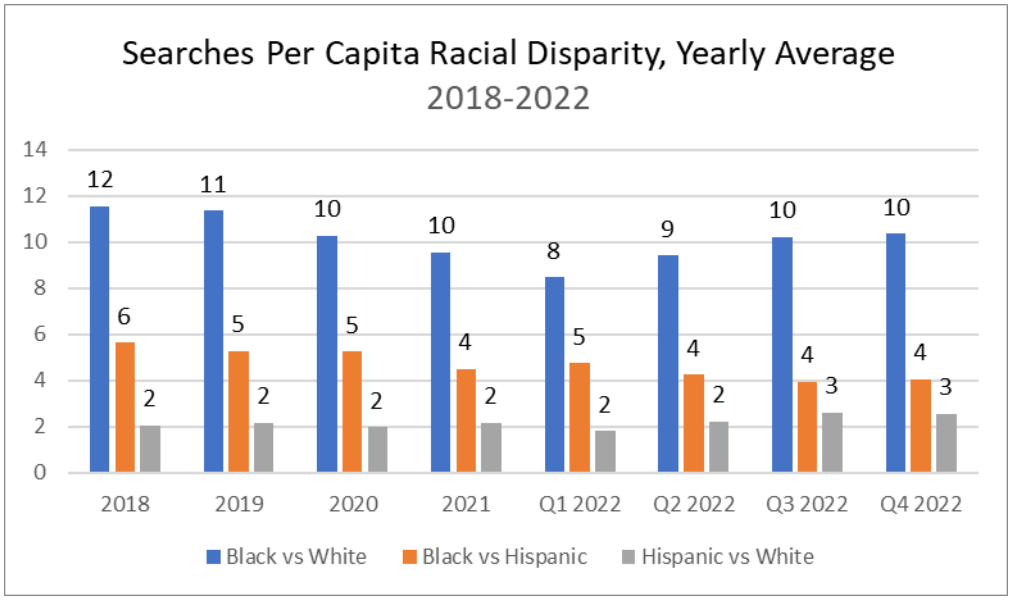


Citywide suspect data shows that since 2016, Black/African American residents are between 14 to 19 times more likely to be listed as a suspect, than White residents.

Q4 Quantitative Analysis
Per Capita Population Benchmark

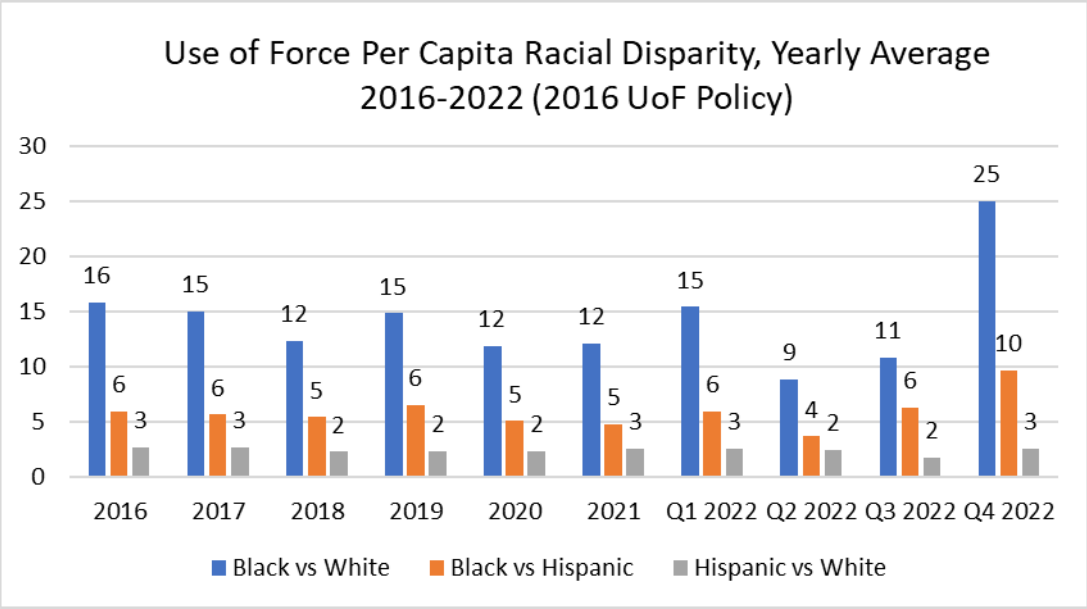


Citywide vehicle and pedestrian stop data shows that since mid-2018, Black/African American residents are 5 to 7 times more likely to be stopped than White residents.

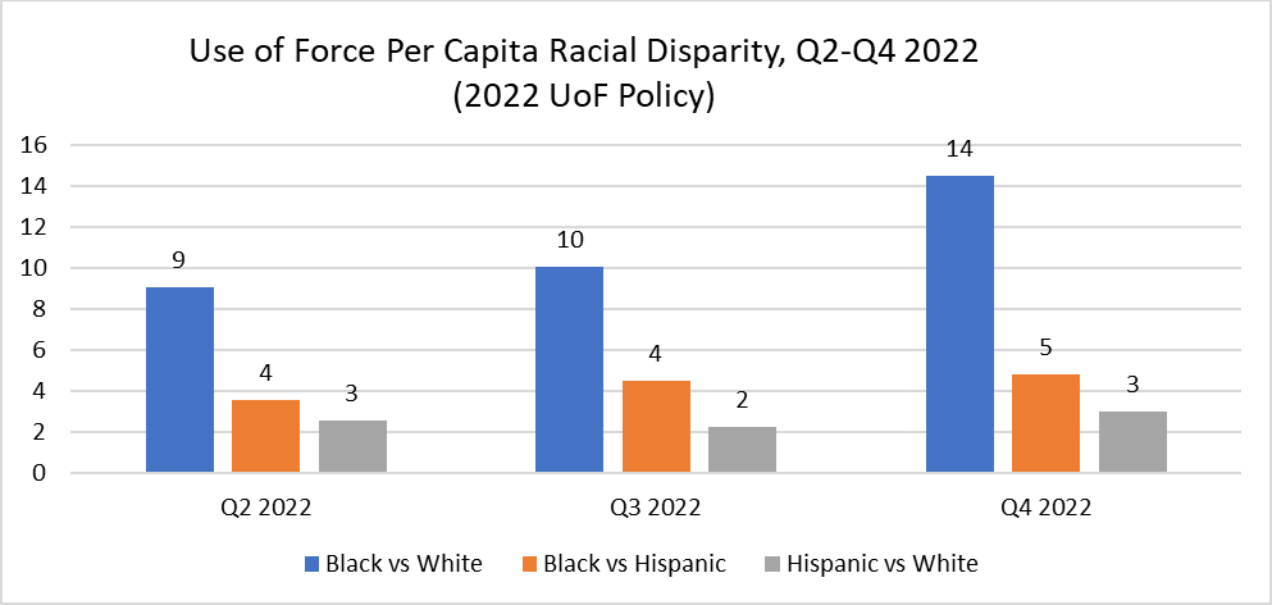


Citywide search data shows that since mid-2018, Black/African American residents are between about 8 to 12 times more likely to be searched than White residents.

Q4 Quantitative Analysis
Per Capita Population Benchmark



Due to the change in Use of Force policy, the 2016 policy data is used to provide context over time. A separate calculation for per capita use of force is included using only the April 2022 UoF policy.



Under the 2022 Use of Force Policy, in Q4 2022, Black/African American residents are 9-14 times more likely to be stopped than white residents.

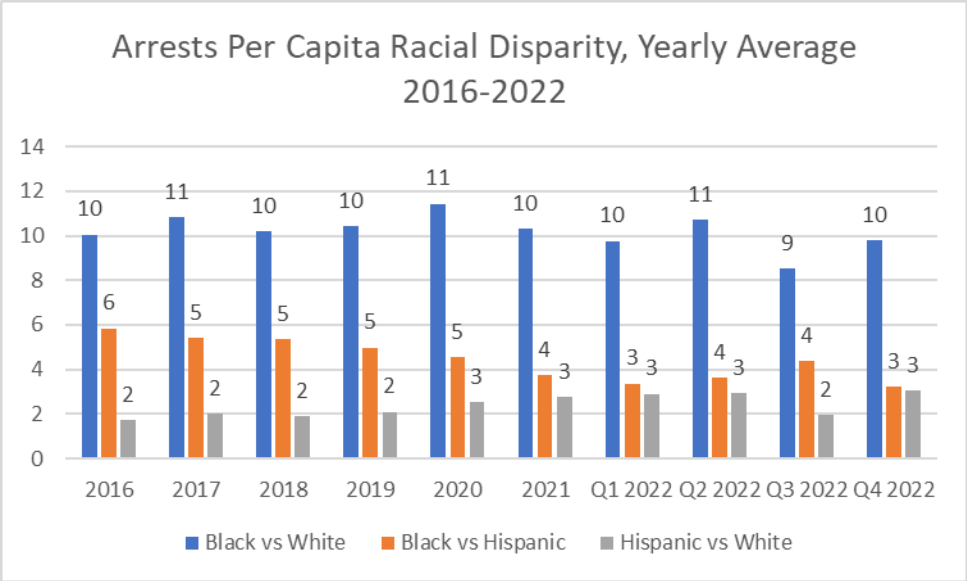
Of note, the Q4 2023 disparity change is likely due to a few factors. First, as noted earlier in this report, Q4 Use of Force data included in this report only captures October 1st, 2023 thru Decmber 12th, 2023. Second, while uses of force against Black individuals declined between Q3 and Q4 under both the 2016 and April 2022 Use of Force standards, uses of focrce against White individuals declined significantly in both cases. Since the population remained steady and uses of force against subjects is much smaller, this drove down the rate of uses of force against white individuals per white resident. This rate represents the denominator when determining how much more likely force would be used against African American individuals, as compared to white individuals. The numerator, which represents uses of force against African American individuals per African American resident, which also declined, but to a lesser degree, these changes would further amplify the likelihood (the ratio) of force being used against African American individuals, as compared to white individuals.

Total Uses of Force by Race/Ethnicty, 2016 UoF Standard						
Race/ Ethnicity	Q3 2021	Q4 2021	Q1 2022	Q2 2022	Q3 2022	Q4 2022
Asian	5	23	36	46	13	4
Black	141	179	141	185	164	136
Hispanic	97	83	72	154	79	43
Other	14	12	5	54	8	12
White	95	93	74	170	123	44

Between Q3 2022 and Q4 2022, Uses of Force against White individuals declined from 123 to 44, while Uses of Force against Black individuals declined from 164 to 136.

Total Uses of Force by Race/Ethnicty, April 2022 UoF Standard			
Race/ Ethnicity	Q2 2022	Q3 2022	Q4 2022
Asian	178	153	72
Black	681	861	572
Hispanic	585	584	361
Other	152	81	83
White	608	693	320

Between Q3 2022 and Q4 2022, Uses of Force against White individuals declined from 693 to 320, while Uses of Force against Black individuals declined from 861 to 527.



Citywide arrest data shows that since 2016, Black/African American residents are between 10 to 11 times more likely to be arrested than White residents.

What did we find?

We found that Black/African American individuals are represented at a higher rate among those subject to SFPD interactions than is represented in the residential population. The Black/African American population has the largest differential, especially when compared against the White population. These findings provide context around who is involved with the SFPD at various points of engagement but does not answer the question of 'why' this is the case.

It is possible that some or all factors discussed in the benchmark description section above are affecting the data in some way.

The context provided gives us a common frame for conversation, mutual understanding, and a starting point from which additional analysis may occur.

What's next?

The Department looks forward to continuing analysis of data on a quarterly basis. However, it should be noted that SFPD will need to build out analytical capacity in order

to carry out some of this work, and timeline expectations will be shared and updated with the publishing of each quarterly report.

The SFPD has also partnered with multiple academic entities to assist in academic level analyses of SFPD data, including:

- The California Policy Lab at UC Berkeley and UC Los Angeles,
- Stanford's SPARQ center,
- Palo Alto University, and
- The Center for Policing Equity
- New York University

Domestic Violence Reporting - Admin Code Sec. 96D.2b

Domestic Violence Reporting - Background

In November 2021, the Board of Supervisors approved, and Mayor Breed signed, legislation amending the San Francisco Administrative Code to require certain data involving Domestic Violence be reported on a quarterly basis starting in the first quarter of 2022. The report is to be submitted on a quarterly basis to the Board of Supervisors, the Mayor, Office of Racial Equity, the Human Rights Commission, the Department on the Status of Women, and the PoliceCommission.

Domestic Violence Calls for Service and Investigations

Domestic Violence, also known as Intimate Partner Violence, is abbreviated as DV for brevity in this report. For the purposes of this report, Admin Code 96D defines Domestic Violence as: *"Domestic Violence" means the crime defined in Section 273.5 and the crimes punishable under Section 243 (e){1), of the California Penal Code.*

The SFPD responds to calls for service (CFS) received by the Department of Emergency Management (DEM) whether as a 911 emergency or through the non-emergency line. After gathering information from the caller, DEM staff has the responsibility of determining the appropriate code for the call, based on the information provided, and to dispatch units to the location as either a Priority A (highest), Priority B, or Priority C.

Upon arrival, SFPD officers conduct a thorough investigation into the allegations of domestic violence. Per SFPD policy, calls for service are coded with a final disposition of domestic violence (DV) in cases in which DV is evident during an officer's investigation.

In some cases, a report may be taken without a call to 911 (self-reporting at a police station, forexample.) In these cases, a call for service number is generated during the report writing process.

This is a quarterly data report, covering 1 October 2022 through 31 December 2022.

Admin Code Sec. 96D.2b Reporting Components

1(A) The number of calls for service for domestic violence that the Police Department received from the Department of Emergency Management for the period of October 1 to December 31, 2022.

Calls for Service, Final Call Code Includes "DV" October 1 - December 31, 2022				
	2022			
	Oct	Nov	Dec	Total
DV Calls for Service	505	394	449	**1348**

1(B) The number of domestic violence cases that the Police Department presented to the District Attorney for investigation and/or prosecution in the prior quarter, and of those cases, the number in which a child or children were present and/or a firearm or firearms were present.

DV INCIDENTS SUBMITTED TO THE DISTRICT ATTORNEY'S OFFICE			
	2022		
	Oct	Nov	Dec
Number of DV Cases Presented to the District Attorney's Office	74	39	64
Number of DV cases referred to the DA in which a child was present	7	3	9
Number of DV cases referred to the DA in which a firearm was present	0	3	1

Confiscation of Weapons: Pursuant to Penal Code § 18250 and Department policy, officers are mandated to confiscate any firearms or other deadly weapons discovered at the scene of a domestic violence incident. The weapon is booked into the Department's Property Room as evidence. As federal and state laws prohibit individuals convicted of a domestic violence charge from owning or acquiring a weapon, the Property Room follows DOJ protocols, including a criminal records' checks, to determine if the individual is eligible for release of the weapon.
Presence of Children: SFPD Department General Order 6.09 also outlines the procedures to follow if children are present during a domestic violence incident. DGO 7.04, Children of Arrested Parents, provides guidance to minimize the negative impact and harmful stressors on children when a parent/guardian is arrested whether in their presence or not. This policy is considered a national model, highlighting law enforcement's responsibility to ensure a safe environment for children following a traumatic experience such as the arrest ofone's parent.

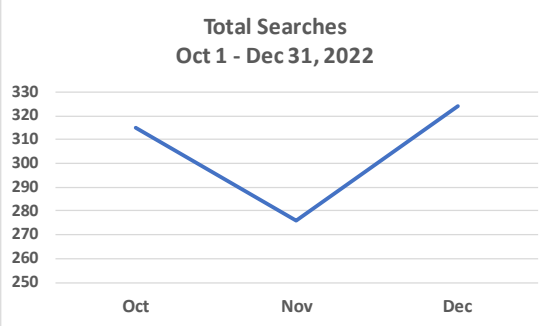
SFPD Quarterly Activity & Data Report

Stop Data Quarter 4 2022

In Q4-2022, there were a total of 3,999 stops, a 18% decrease from Q4-2021. Of those stops, 915 (22.8%) resulted in searches.

Total Stops Oct 1 - Dec 31, 2022				
Type of Stops	Oct	Nov	Dec	Total
Dispatched	405	353	384	1,142
Self-Initiated	776	1,083	998	2,857
Total Stops	1,181	1,436	1,382	3,999

Total Searches Oct 1 - Dec 31, 2022				
Type of Stops	Oct	Nov	Dec	Total
Dispatched	203	160	170	533
Self- Initiated	112	116	154	382
Total Searches	315	276	324	915



The Department utilizes the SDCS program definitions under AB953; a 'stop' is defined as 1) any detention, as defined in regulations, by a peace officer of a person or 2) any peace officer interaction with a person in which the officer conducts a search as defined in regulation.[12] Stops include Traffic Stops and Pedestrian Detentions. Stops may be Self-Initiated or Dispatched.

**Six stops during Q4 resulted in contact with the Department of Homeland Security or its subordinate organizations. One of the stop data entries was made in error. CA DOJ was notified of the error and the entry is in the process of being removed from SFPD records.*

The other five incidents have occurred at the San Francisco International Airport where Department of Homeland Security/TSA was notified and responded as follows:

- *On 11/4/22 (case #22-30852), a subject went through a checkpoint with a stun-gun in their carry-on luggage. The person was stopped and detained. The DHS/TSA was notified of the incident and responded as is the policy in the event they wanted to impose civil fines.*

- *On 11/6/22 (case #22-31056, a subject was detained for going through a secured door after he got lost coming off of a flight. The DHS/TSA was notified as is the policy.*

- *On 11/25/22 (case # 22-32958), a subject went through a checkpoint with a stun-gun in their carry-on luggage. The person was stopped and detained. The DHS/TSA was notified of the incident and responded as is the policy in the event they wanted to impose civil fines.*

- *On 12/13/22 (case #22-34752), a subject went through a checkpoint with a stun-gun in their carry-on luggage. The person was stopped and detained. The DHS/TSA was notified of the incident and responded as is the policy in the event they wanted to impose civil fines.*

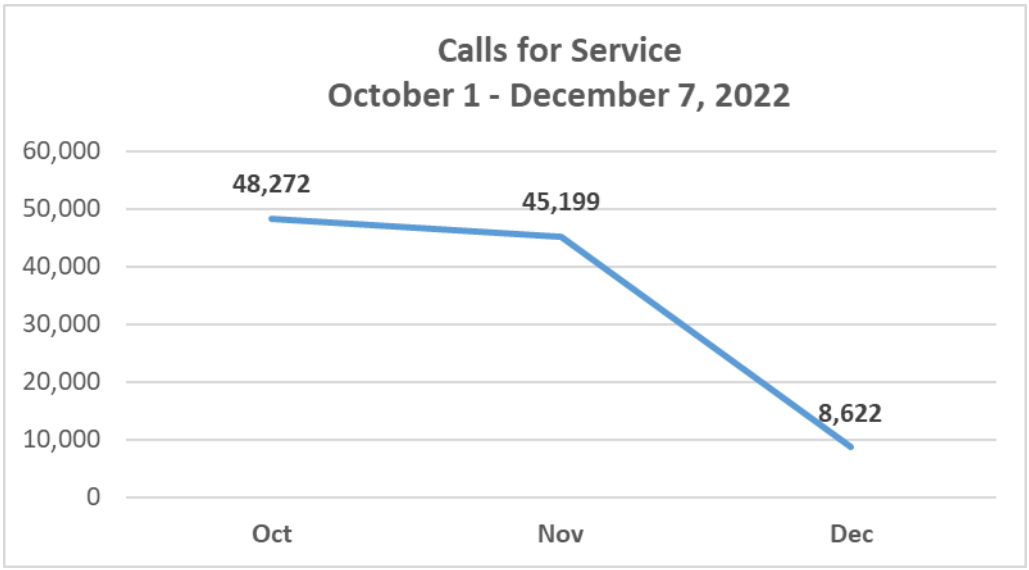
- *On 12/13/22 (case #22-34753), a subject went through a checkpoint with a stun-gun in their carry-on luggage. The person was stopped and detained. The DHS/TSA was notified of the incident and responded as is the policy in the event they wanted to impose civil fines.*

There was no violation of DGO 5.15, Enforcement of Immigration Laws.

Calls for Service, Q4 2022

Calls for Service

The Department responded to 102,093 total calls for service during October 1 through December 7, 2022. Call volume slightly decreased from the month of October to the month of November during the Q4-2022. However, December accounted for 8,622 calls for service since data excludes December 8-31, 2022, for the purpose of accounting for Use of Force Apr 12-December 7, 2022, standard data comparison.



Data Source: San Francisco Police Department CAD

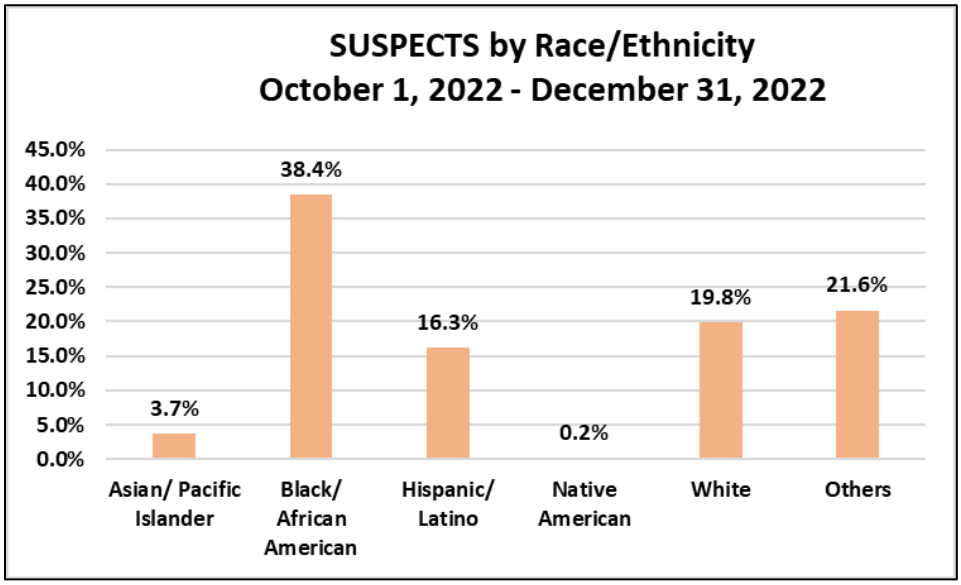
Suspects, Q4 2022

SUSPECTS OBSERVED AND/OR REPORTED TO SAN FRANCISCO POLICE DEPARTMENT

Suspect information/description is either provided by a member of the public, reported directly to the police or through dispatch, or is observed by a department member during a self-initiated call for service in which there is reasonable suspicion or probable cause for an officer to conduct a stop. The suspect information is documented in a police incident report that is generated from the call for service.

The following table summarizing suspect descriptions gathered from incident reports through the means stated above. Data captured shows that approximately 39% of the individuals reported are Black/African American.

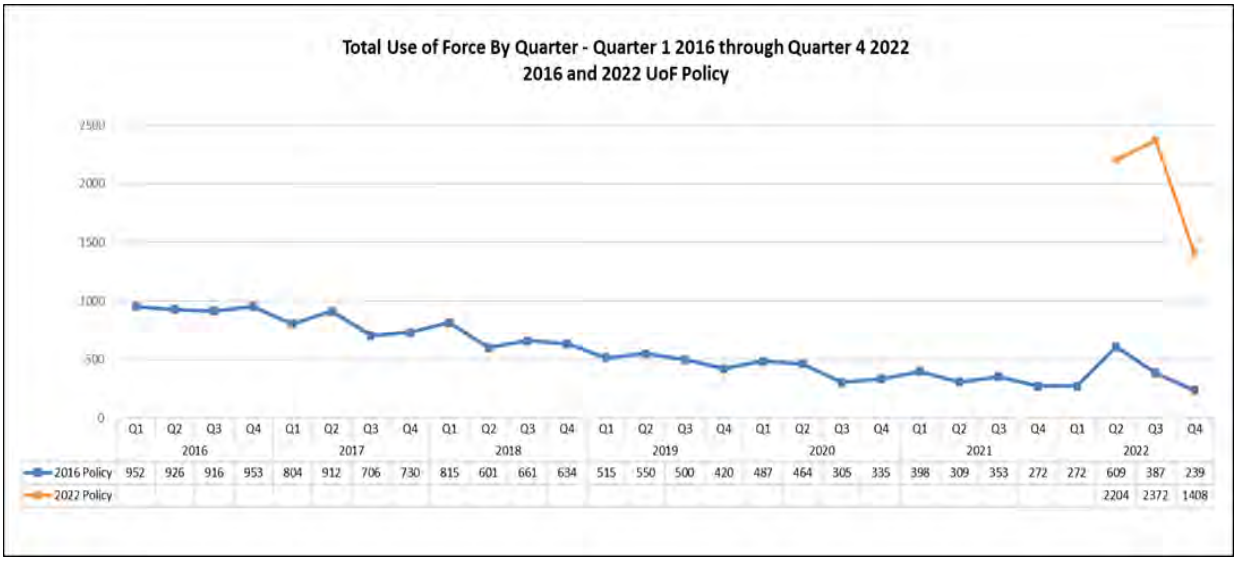
SUSPECTS by Race/Ethnicity October 1, 2022 - December 31, 2022					
DESCRIPTION	Oct	Nov	Dec	Q4 2022	% of Total Suspects Q4 2022
Asian/ Pacific Islander	98	81	103	282	3.7%
Black/ African American	1103	965	895	2963	38.4%
Hispanic/ Latino	479	407	368	1254	16.3%
Native American	5	10	3	18	0.2%
White	545	458	525	1528	19.8%
Others	548	557	561	1666	21.6%
Total	**2,778**	**2,478**	**2,455**	**7,711**	**100.00%**



Note: Suspect data is extracted from incident reports via the Person Schema of Crime Data Warehouse via Business Intelligence tools. Search criteria includes results in which Person Type = "Suspect." Records with Unknown Race/Ethnicity data are not included.

Total Use of Force Overview

January 1, 2016, through December 7, 2022



There were 952 Uses of Force in Q1-2016 compared to 1,408 in Q4-2022 under the April 12-December 7, 2022, policy and 239 Uses of Force under the 2016 Use of Force policy.

Changes to the Use of Force Department General Order and associated data collection is discussed in the data exploration section of this report and should be kept in mind when interpreting these data.

Where possible this report provides data under both the 2016 and April 2022 Use of Force policy to allow for historical context and tracking of trends over time.

Total Use of Force
Overview by Subject Race/Ethnicity

During Q4-2022, October 1 through December 7, 2022, 18% of the total Uses of Force were against White individuals, 57% were against Black/African American individuals and 18% were against Hispanic/Latino individuals.

Subject believed to be armed with other deadly weapon	1	15
Warrant Service		14
Grand Total	**2,456**	**12,193**

Reasons for Use of Force - Q4 2021	One Reason per UOF
(blank)	2
In defense of others or in self-defense	1
To effect a lawful arrest, detention, or search, or to prevent escape	259
To gain compliance with a lawful order	4
To overcome resistance or to prevent escape	5
To prevent the commission of a public offense	1
Grand Total	**272**

As noted in the data exploration section, reason for use of force has gone from a single selection to a multiple select field. This can lead to more reasons for uses of force in data collected in Q2 2022 onward than actual uses of force, as seen above. Reasons for uses of force in Q4 2021 is presented as a comparison.

Uses of Force by Race/Ethnicity, Gender, and Age of Officer October 1 – December 7, Q4-2021 vs. 2022

During Q4-2022, using the 2016 UoF policy, White male officers accounted for 129 (54%) of Uses of Force used, and Asian male officers accounted for 41 (17%) of Uses of Force used, and Hispanic male officers accounted for 28 (12%).

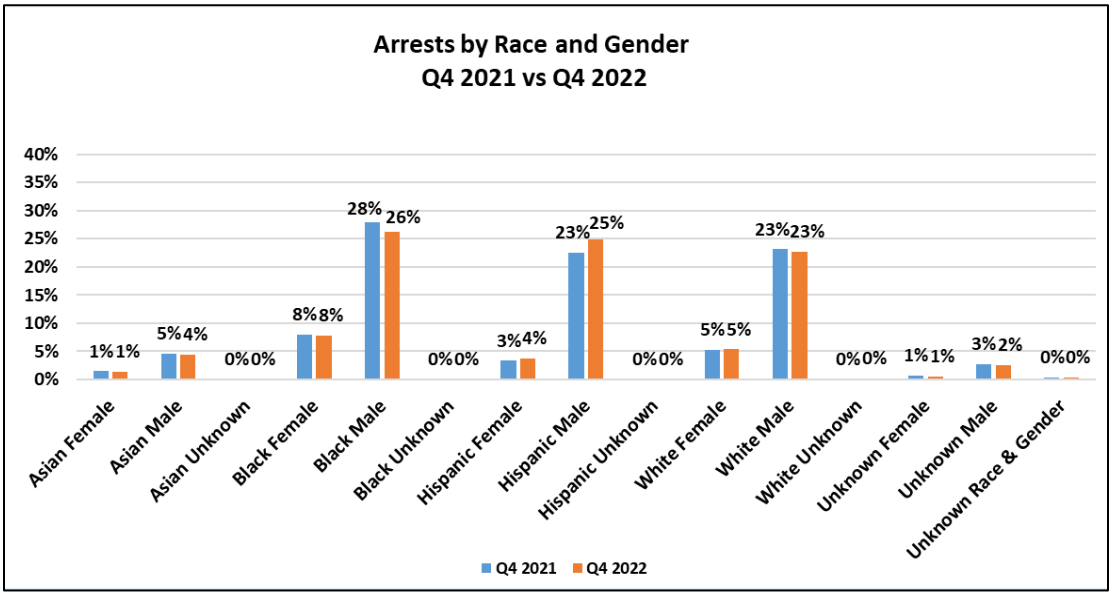
Total	**3,001**	**3,281**	**9%**



Arrests totals do not include arrests at the Airport.
Arrest statistics are extracted from the Person Schema of Crime Data Warehouse via Business Intelligence tools. Search criteria includes results in which Person Type = "Booked" or "Cited." Unknown indicates ethnicities outside DOJ definitions, Native American, and incident reports where data wasn't provided.

Department of Police Accountability (DPA)

The Department is required to obtain information from the Department of Police Accountability (DPA), formerly the Office of Citizens Complaints, relating to the total number of complaints for the reporting period received by DPA that it characterizes as allegations of bias based on race or ethnicity, gender, or gender identity. The Department also is required to include in its report the total number of complaints DPA closed during the reporting period that were characterized as allegations of bias based on race or ethnicity, gender, or gender identity, as well as the total number of each type of disposition for such complaints.

Allegations of Bias based on Race or Ethnicity, Gender, or Gender Identity

Cases Received in Q4-2022

Type of Case Received	# of Cases
Racial Bias	2
Gender Bias	0
Transphobic Bias	0
Both Racial and Gender Bias	0
TOTAL	0

DPA received 175 total cases for the quarter.
2 officers were named for allegations of racial or gender bias.
Total Cases Received in 2022 involving Racial or Gender Bias: 8

During Q4-2022, DPA completed 7 complaint investigations in cases in which there was an allegation of racial/ethnic or gender/gender identity bias.
There were no sustained allegations of racial or gender bias in 2022.

Re: **Transmittal of Planning Department Case Number 2021-011368DES**
Parkside Branch Library (1200 Taraval Street) Landmark Designation
BOS File No. 221110

Dear Ms. Calvillo and Supervisor Engardio,

On May 17, 2023, the San Francisco Historic Preservation Commission (hereinafter "HPC") conducted a duly noticed public hearing at a regularly scheduled meeting to consider a draft ordinance to landmark Parkside Branch Library (1200 Taraval Street), a portion of Assessor's Parcel Block No. 0172, Lot No. 010. On December 22, 2022, the Board of Supervisors adopted Resolution No. 540-22 initiating landmark designation of Parkside Branch Library.

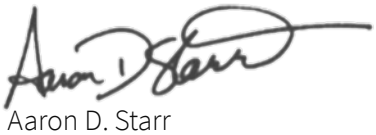
At the hearing, the HPC voted to approve with modifications a resolution to recommend landmark designation pursuant to Article 10 of the Planning Code. The HPC proposed a modification to the draft ordinance to amend one of the character-defining features, specifically, Section 4(c)(2)(E), to:

> (E) Ceiling light fixtures in former reading/browsing room (now children's area) installed within series of boxed insets in the otherwise flat ceiling.

The proposed landmark designation is exempt from the California Environmental Quality Act ("CEQA") as a Class 8 categorical exemption.

Please find attached documents related to the HPC's action. Also attached is an electronic copy of the proposed ordinance and Legislative Digest, drafted by Deputy City Attorney Peter Miljanich. If you have any questions or require further information, please do not hesitate to contact me.

Sincerely,



Aaron D. Starr

Planning Department Recommendation Executive Summary, dated May 17, 2023
Article 10 Landmark Designation Fact Sheet – Parkside Branch Library
CEQA Determination

FILE NO.

LEGISLATIVE DIGEST

[Planning Code - Landmark Designation - Parkside Branch Library]

Ordinance amending the Planning Code to designate Parkside Branch Library, situated within McCoppin Square Park, 1200 Taraval Street, a portion of Assessor's Parcel Block No. 2351, Lot No. 001, as a Landmark consistent with the standards set forth in Article 10 of the Planning Code; affirming the Planning Department's determination under the California Environmental Quality Act; and making public necessity, convenience, and welfare findings under Planning Code, Section 302, and findings of consistency with the General Plan and the eight priority policies of Planning Code, Section 101.1.

Existing Law

Under Article 10, Section 1004 of the Planning Code, the Board of Supervisors may, by ordinance, designate an individual structure that has special character or special historical, architectural or aesthetic interest or value as a City landmark. Unless prohibited by state law, once a structure has been named a landmark, any construction, alteration, removal or demolition for which a City permit is required necessitates a Certificate of Appropriateness from the Historic Preservation Commission. (Planning Code § 1006; Charter of the City and County of San Francisco, § 4.135.) Thus, landmark designation generally affords a high degree of protection to historic and architectural structures of merit in the City. There are currently more than 300 individual landmarks in the City under Article 10, in addition to structures and districts in the downtown area that are protected under Article 11. (See App. A to Article 10.)

Amendments to Current Law

This ordinance amends the Planning Code to add a new historic landmark to the list of individual landmarks under Article 10: the Parkside Branch Library, situated within McCoppin Square Park, at 1200 Taraval Street, a portion of Assessor's Parcel Block No. 2351, Lot No. 001. The ordinance finds that the Parkside Branch Library is eligible for local designation because it: (1) is representative of social and cultural shifts in post-war American library programming and a reflection of principles of the modern public library promoted by the American Library Association after World War II; and (2) embodies the principles of mid-twentieth century American public library design, displays a signature and innovative style, and is representative of the work of an architectural firm of merit and of that firm's collaboration with a renowned landscape architect.

As required by Section 1004, the ordinance lists the particular features that shall be preserved, or replaced in-kind, as determined necessary.

Asterisks (* * * *) indicate the omission of unchanged Code subsections or parts of tables.

Be it ordained by the People of the City and County of San Francisco:

Section 1. CEQA and Land Use Findings.

(a) The Planning Department has determined that the actions contemplated in this ordinance comply with the California Environmental Quality Act (California Public Resources Code Sections 21000 *et seq*.). Said determination is on file with the Clerk of the Board of Supervisors in File No. _____ and is incorporated herein by reference. The Board of Supervisors affirms this determination.

(b) Pursuant to Planning Code Section 302, the Board of Supervisors finds that the proposed landmark designation of Parkside Branch Library, a branch library of the San

Francisco library system, situated within McCoppin Square Park, 1200 Taraval Street, a portion of Assessor's Parcel Block No. 2351, Lot No. 001, will serve the public necessity, convenience, and welfare for the reasons set forth in Historic Preservation Commission Resolution No. _____, recommending approval of the proposed designation, which is incorporated herein by reference.

(c) On May 17, 2023, the Historic Preservation Commission, in Resolution No. _____, adopted findings that the actions contemplated in this ordinance are consistent, on balance, with the City's General Plan and with the eight priority policies of Planning Code Section 101.1. The Board adopts these findings as its own.

Section 2. General Findings.

(a) On December 13, 2022, the Board of Supervisors adopted Resolution No. 540-22, initiating landmark designation of Parkside Branch Library as a San Francisco Landmark pursuant to Section 1004.1 of the Planning Code. On December 22, 2022, the Mayor approved the resolution. Said resolution is on file with the Clerk of the Board of Supervisors in Board File No. 221110.

(b) Pursuant to Charter Section 4.135, the Historic Preservation Commission has authority "to recommend approval, disapproval, or modification of landmark designations and historic district designations under the Planning Code to the Board of Supervisors."

(c) Planning Department Preservation staff prepared a Landmark Designation Fact Sheet for Parkside Branch Library. All preparers meet the Secretary of the Interior's Professional Qualification Standards for historic preservation program staff, as set forth in Code of Federal Regulations Title 36, Part 61, Appendix A. The report was reviewed for accuracy and conformance with the purposes and standards of Article 10 of the Planning Code.

(d) The Historic Preservation Commission, at its regular meeting of May 17, 2023, reviewed Planning Department staff's analysis of the historical significance of Parkside Branch Library set forth in the Landmark Designation Fact Sheet dated May 10, 2023.

(e) On May 17, 2023, after holding a public hearing on the proposed designation, and having considered the specialized analyses prepared by Planning Department staff and the Landmark Designation Fact Sheet, the Historic Preservation Commission recommended designation of Parkside Branch Library as a landmark under Article 10 of the Planning Code by Resolution No. _____. Said resolution is on file with the Clerk of the Board in Board File No. _____.

(f) The Board of Supervisors hereby finds that Parkside Branch Library has a special character and special historical, architectural, and aesthetic interest and value, and that its designation as a Landmark will further the purposes of and conform to the standards set forth in Article 10 of the Planning Code. In doing so, the Board hereby incorporates by reference the findings of the Landmark Designation Fact Sheet.

Section 3. Designation.

Pursuant to Section 1004.3 of the Planning Code, Parkside Branch Library, situated in McCoppin Square Park, 1200 Taraval Street, a portion of Assessor's Parcel Block No. 2351, Lot No. 001, is hereby designated as a San Francisco Landmark under Article 10 of the Planning Code. Appendix A to Article 10 of the Planning Code is hereby amended to include this property.

Section 4. Required Data.

(a) The description, location, and boundary of the Landmark site consists of the portion of the City parcel located at 1200 Taraval Street, in Assessor's Parcel Block No. 2351, Lot No.

001, that is owned and operated by San Francisco Public Library, in San Francisco's Outer Sunset neighborhood. The Landmark site lies at the southeastern corner of McCoppin Square Park and is generally bounded by the external structure of the Parkside Library Building and does not include the adjacent Recreation and Park Department property.

(b) The characteristics of the Landmark that justify its designation are described and shown in the Landmark Designation Fact Sheet and other supporting materials contained in Planning Department Record Docket No. 2021-0011368DES. In brief, Parkside Branch Library is eligible for local designation under the following National Register of Historic Places criteria: (1) under Criterion A (Events), the Parkside Branch Library is representative of social and cultural shifts in post-war American library programing and a reflection of principles of the modern public library promoted by the American Library Association after World War II; and (2) under Criterion C (Design/Construction) said library embodies the principles of mid-twentieth century American public library design, displays a signature and innovative style developed by Appleton & Wolfard for this mid-century branch library building campaign, and is representative of the work of Appleton & Wolfard, an architectural firm of merit, and of the firm's collaboration with renowned landscape architect Laurence Halprin on design of the original landscape.

(c) The particular features that shall be preserved, or replaced in-kind as determined necessary, are those shown in photographs and/or described in the Landmark Designation Fact Sheet, which can be found in Planning Department Record Docket No. 2021-011368DES, and which are incorporated in this designation by reference as though fully set forth. Specifically, the following features are character-defining and shall be preserved or replaced in kind:

(1) All those exterior elevations, form, massing, structure, rooflines, architectural ornament, and materials of Parkside Branch Library, identified as:

(A) One-story height, partially built into hillside, and set back from street on grassy hill;

(B) Size, shape, and configuration of roof and eaves, specifically, the combination of a strong scissor/butterfly roof with boxed and exposed rafters and wide projecting eaves and of a soft, low-pitched gable roof with boxed rafters and moderate projecting eaves;

(C) Size, shape, and configuration of red brick, stacked bond, masonry walls, unpainted;

(D) Locations, sizes, shapes, and configurations of the original window fenestration pattern, including the way many of the openings extend up to the eaves or are irregularly shaped to match openings or gables;

(E) Window systems of standard extruded metal components with a clear or dark finish (existing window systems are not original, but are replacements installed during the 2008-2010 building renovation that are compatible with the building's historic characteristics);

(F) Configuration of windows (existing windows are not original, but their configuration echoes the original window configurations), specifically:

i. Horizontal mullions in tall openings at saw-tooth wall at front facade;

ii. Alternating bays of fixed and stacked hopper sash in the band of openings that extends under the eave at east end of front façade;

iii. Minimizing number and size of horizontal mullions in large openings at rear (north) elevation facing into Park;

(G) Location, size, shape, configuration, and wood detailing of the large display windows and display cases adjacent to main entrance and within interior vestibule;

(H) Location of main entrance and original wood framing details at transom and around main and secondary entry openings at main entrance vestibule;

(I) Location, configuration, and materials of the brick stairs leading from Taraval Street up to landing at main entrance;

(J) Red brick, stacked bond, masonry retaining wall that extends along the perimeter of the front façade and wraps around the east elevation forming the base of the building wall;

(K) Low, red brick planters adjacent to main entrance and stairs;

(L) Exterior sign comprised of non-illuminated metal pin letters on red brick pier adjacent to main entrance;

(M) Outdoor terrace at north elevation, including red brick, stacked bond, masonry retaining wall, red brick and concrete planters, and patterned paving of concrete bordered with red brick; and

(2) The following character-defining interior features of Parkside Branch Library, all of which were historically accessible to the public:

(A) Open floor plan at entrance with visual connections to fireplace and exposed brick walls of the original reading/browsing room and to the large window openings and outdoor terrace at rear elevation;

(B) Exposed red brick, stacked bond, masonry walls, unpainted;

(C) Fireplace and copper hood with red brick hearth that extends along surrounding wall to form a built-in bench;

(D) Cork floor in western portion of building;

(E) Ceiling light fixtures in former reading/browsing room (now children's area), comprised of circular translucent glass and metal fixtures installed within series of boxed insets in the otherwise flat ceiling.

Section 5. Effective Date. This ordinance shall become effective 30 days after enactment. Enactment occurs when the Mayor signs the ordinance, the Mayor returns the ordinance unsigned or does not sign the ordinance within ten days of receiving it, or the Board of Supervisors overrides the Mayor's veto of the ordinance.

RESOLUTION TO RECOMMEND TO THE BOARD OF SUPERVISORS LANDMARK DESIGNATION OF PARKSIDE BRANCH LIBRARY (1200 TARAVAL STREET), A PORTION OF ASSESSOR'S PARCEL BLOCK NO. 2351, LOT NO. 001, AS LANDMARK NO. XXX CONSISTENT WITH THE PURPOSES AND STANDARDS OF ARTICLE 10

1. WHEREAS, on October 25, 2022, former Supervisor Mar introduced a Resolution under Board of Supervisors (hereinafter "Board") File No. 221110 to initiate the Landmark designation process for Parkside Branch Library (1200 Taraval Street), a portion of Assessor's Parcel Block No. 2351, Lot No. 001; and

2. WHEREAS, on December 12, 2022, the Board of Supervisors at its Land Use and Transportation Committee meeting voted unanimously to Recommend to the full Board approval of the Resolution to initiate Landmark Designation (Board File No. 221110); and

3. WHEREAS, on December 13, 2022, the Board voted unanimously to adopt the Resolution to initiate Landmark Designation and to extend the prescribed time within which the Historic Preservation Commission may render it's decision by 90 days, for a total of 180 days, and on December 22, 2022, Resolution No. 540-22 became effective (Board File No. 221110); and

4. WHEREAS, Department Staff, who meet the Secretary of Interior's Professional Qualification Standards, prepared the Landmark Designation Fact Sheet for Parkside Branch Library (1200 Taraval Street), which was reviewed for accuracy and conformance with the purposes and standards of Article 10; and

5. WHEREAS, the Historic Preservation Commission, at its regular meeting of May 17, 2023, reviewed Department staff's analysis of Parkside Branch Library architectural and historical significance pursuant to Article 10 as part of the Landmark Designation Executive Summary dated May 10, 2023, and recommended Landmark designation through this Resolution; and

6. WHEREAS, the Historic Preservation Commission finds that the nomination of Parkside Branch Library as a Landmark is in the form prescribed by the Historic Preservation Commission and contains supporting historic, architectural, and/or cultural documentation; and

7. WHEREAS, the Historic Preservation Commission finds that Parkside Branch Library is eligible for local designation for its association with the social and cultural shifts in post-war American library programing and design, and reflects principles of the modern public library promoted by the American Library Association after World War II; and

8. WHEREAS, the Historic Preservation Commission finds that the designation of Parkside Branch Library is also proper given its architectural significance as it embodies the principles of mid-twentieth century American public library design, displays the signature and innovative style developed by Appleton & Wolfard for the eight branches constructed during a focused building campaign of modern branch libraries between 1951 and 1966, and is representative of the work of Appleton & Wolfard, an architectural firm of merit, and of the firm's collaboration with renowned landscape architect Laurence Halprin on design of the original landscape; and

9. WHEREAS, the Historic Preservation Commission finds that Parkside Branch Library meets one of the Historic Preservation Commission's four priority areas for designation: property types in underrepresented geographies in the city. Within the Sunset, west of 19th Avenue, south of Lincoln Way, and north of the city line, there are four individual landmarks: Earthquake Refugee Shack (1227 24th Avenue, Landmark No. 171); Shriner's Hospital (1601 19th Avenue, Landmark No. 221); Infant Shelter (1201 Ortega Street, Landmark No. 242); and, Trocadero Clubhouse (within Sigmund Stern Recreation Grove at 19th Avenue and Sloat Boulevard, Landmark No. 301); and

10. WHEREAS, the Historic Preservation Commission finds that Parkside Branch Library meet the eligibility requirements of Section 1004 of the Planning Code and warrants consideration for Article 10 landmark designation; and

11. WHEREAS, the Historic Preservation Commission finds that the boundaries and the list of character-defining features, as identified in the Landmark Designation Fact Sheet and draft Ordinance, as amended to remove description of non-historic light fixtures from list of character-defining features, relate to the building's architectural and historical significance, retain historic integrity, and should be considered for preservation under the proposed landmark designation; and

12. WHEREAS, the proposed designation is consistent with the General Plan priority policies pursuant to Planning Code, Section 101.1 and furthers Priority Policy No. 7, which states that landmarks and historic buildings be

preserved, and will serve the public necessity, convenience and welfare pursuant to Planning Code, Section 302; and

13. WHEREAS, the Department has determined that landmark designation is exempt from environmental review, pursuant to CEQA Guidelines Section 15308 (Class Eight - Categorical), as an action taken by a regulatory agency for the protection of the environment; and

THEREFORE BE IT RESOLVED that the Historic Preservation Commission hereby recommends to the Board of Supervisors approval of landmark designation of Parkside Branch Library (1200 Taraval Street), a portion of Assessor's Parcel Block No. 2351, Lot No. 001 consistent with the purposes and standards of Article 10 of the Planning Code.

I hereby certify that the foregoing Resolution was adopted by the Historic Preservation Commission at its meeting on May 17, 2023.

Recommendation: Recommend Landmark Designation to Board of Supervisors

Property Description

Parkside Branch Library, at 1200 Taraval Street, is located within McCoppin Square Park, which occupies the block bounded by Santiago Street, 22nd Avenue, Taraval Street, and 24th Avenue (Assessor's Parcel Block No. 2351; Lot 001), in San Francisco's Outer Sunset neighborhood. The library occupies the southeastern corner of McCoppin Square Park and is oriented towards the neighborhood commercial services along Taraval Street. The east side of 22nd Avenue is characterized by single and multi-family homes primarily constructed between the 1920s through the 1940s.

Parkside Branch Library, designed by the architectural firm Appleton & Wolfard and constructed in 1951, served as a proto-type building, embodying modern library theory and design principles, for the seven other branch libraries constructed during a focused building campaign by the City and County of San Francisco between 1951 and 1966. Parkside Branch Library, like the other seven branch libraries of this mid-century building campaign, all designed by Appleton & Wolfard, embodies the principles of mid-twentieth century American public library design, including basic characteristics such as simplicity of form, openness, and functional layout, with a low-slung, residential scale.

The Parkside Branch Library is low-slung, vaguely rectangular in plan, and partially built into the hillside. The front (south) elevation of the building is set back from the street on a grassy hill. The main entrance is accessed from a flight of red brick stairs with simple metal handrail or by a concrete ramp sloping up from the corner of 22nd Avenue and Taraval Street. A terrace, enclosed by a red brick retaining wall, extends from the north elevation.

The west end of the building is highlighted by saw-tooth walls (at front façade) and an angled butterfly roof while the east end of the building has a low-pitched gable roof. Deep, boxed, overhanging eaves extend from the brick masonry walls to shade the abundant windows. Walls are stacked bond red brick except at the east end of the structure, which is an addition and is clad with painted horizontal siding. Window openings are large and often extend up to the eaves or match irregular shape of gable. All windows were replaced as part of the 2008-2010 renovation of the building and are bronze or dark-colored anodized metal with either fixed or hopper-operation.

Project Description

The item before the Historic Preservation Commission is consideration of a Resolution to Recommend Article 10 landmark designation of Parkside Branch Library, including interior features and spaces, to the Board of Supervisors under Article 10 of the Planning Code, Section 1004.2. The pending Landmark designation was initiated by the Board of Supervisors.

On October 25, 2022, former Supervisor Mar introduced a proposed Resolution under Board of Supervisors (hereinafter "Board") File No. 221110 to initiate the Landmark designation of Parkside Branch Library. At hearing of the Land Use Committee of the Board on December 12, 2022, the committee voted unanimously to Recommend to the full Board approval of the Resolution to initiate Landmark Designation. On December 12, 2022, the Board voted unanimously to approve the Resolution, and on December 22, 2022, with the Mayor's signature, Resolution No. 540-22 initiating landmark designation of Parkside Branch Library became effective.

The Historic Preservation Commission at its regularly scheduled meeting on September 16, 2009, reviewed staff analysis of the historical significance of the Appleton & Wolfard Libraries, including Parkside Branch Library, per the National Register criteria, and at its regularly scheduled hearing on October 7, 2009, the Commission approved initiation of landmark designation for five of these branch libraries by Resolution No. 638. The Commission did not include Parkside Branch Library in this initiation action, instead directing Planning Department staff to calendar initiation of landmark designation for review by the Historic Preservation Commission at a future public hearing after completion of the Branch Library Improvement Program. Parkside Branch Library reopened in November 2010 after an extensive renovation, but a hearing to initiate landmark designation was never scheduled.

Compliance With Planning Code

The proposed project is in compliance with all other provisions of the Planning Code.

Article 10 of the Planning Code.

The executive summary and analysis under review was prepared by Department preservation staff, who meet the Secretary of the Interior's professional qualifications. The Department has determined that the subject property meets the requirements for eligibility as an individual landmark pursuant to Article 10 of the Planning Code. The justification for its inclusion is explained in detail in the attached Landmark Designation Fact Sheet, and briefly in this Executive Summary.

Significance: Parkside Branch Library, 1200 Taraval Street, was constructed in 1951 as the prototype for the focused building campaign of modern branch libraries, known as the Appleton & Wolfard Libraries, consisting of eight buildings constructed between 1951 and 1966. Parkside Branch Library is historically significant for association with the social and cultural shifts in post-war American library programing and design and reflects philosophies of the modern public library promoted by the American Library Association after World War II. Parkside Branch Library is also architecturally significant as it embodies the principles of mid-twentieth century American public library design, displays a signature and innovative style developed by Appleton & Wolfard for the branch libraries constructed during this focused building campaign, and is representative of the work of Appleton & Wolfard, an architectural firm of merit, and of the firm's collaboration with renowned landscape architect Laurence Halprin on design of the original landscape.

Underrepresented Landmark Types: The proposed landmark designation meets one of the Historic Preservation Commission's four priority areas for designation: property types in underrepresented geographies in the city. Within the Sunset and Outer Sunset, west of 19th Avenue, south of Lincoln Way, and north of the city line, there are only four individual landmarks: Earthquake Refugee Shack (1227 24th Avenue, Landmark No. 171); Shriner's Hospital (1601 19th Avenue, Landmark No. 221); Infant Shelter (1201 Ortega Street, Landmark No. 242); and, Trocadero Clubhouse (within Sigmund Stern Recreation Grove at 19th Avenue and Sloat Boulevard, Landmark No. 301).

Integrity: Parkside Branch Library underwent an extensive renovation between 2008 and 2010 that included replacement of all windows, construction of an addition at the east end of the building, new access ramp and landscaping, and interior remodeling. This renovation, while extensive, was sympathetic and careful to respect Appleton & Wolfard's influential design and vision, such that Parkside Branch Library (1200 Taraval Street), including interior features, maintains integrity to convey its architectural and historical significance. See attached Landmark Designation Fact Sheet for further analysis.

Draft Character-Defining Features: Proposed exterior and interior character-defining features of Parkside Branch Library (1200 Taraval Street) are:

(1) All those exterior elevations, form, massing, structure, rooflines, architectural ornament, and materials of Parkside Branch Library, identified as:

(A) One-story height, partially built into hillside, and set back from street on grassy hill;

(B) Size, shape, and configuration of roof and eaves, specifically, the combination of a strong scissor/butterfly roof with boxed and exposed rafters and wide projecting eaves and of a soft low-pitched gable roof with boxed rafters and moderate projecting eaves;

(C) Size, shape, and configuration of red brick, stacked bond, masonry walls, unpainted;

(D) Locations, sizes, shapes, and configurations of the original window fenestration pattern, including the way many of the openings extend up to the eaves or are irregularly shaped to match openings or gables;

(E) Window systems of standard extruded metal components with a clear or dark finish (existing window systems are not original, but are replacements installed during the 2008-2010 building renovation that are compatible with the building's historic character);

(F) Configuration of windows (existing windows are not original, but their configuration echoes the original window configurations), specifically:

i. Horizontal mullions in tall openings at saw-tooth wall at front facade;

ii. Alternating bays of fixed and stacked hopper sash in the band of openings that extends under the eave at east end of front façade;

iii. Minimizing number and size of horizontal mullions in large openings at rear (north) elevation facing into Park;

(G) Location, size, shape, configuration, and wood detailing of the large display windows and display cases adjacent to main entrance and within interior vestibule;

(H) Location of main entrance and original wood framing details at transom and around main and secondary entry openings at main entrance vestibule;

(I) Location, configuration, and materials of the brick stairs leading from Taraval Street up to landing at main entrance;

(J) Red brick, stacked bond, masonry retaining wall that extends along the perimeter of the front façade and wraps around the east elevation forming the base of the building wall;

(K) Low, red brick planters adjacent to main entrance and stairs;

(L) Exterior sign comprised of non-illuminated metal pin letters on red brick pier adjacent to main entrance;

(M) Outdoor terrace at north elevation, including red brick, stacked bond, masonry retaining wall, red brick and concrete planters, and patterned paving of concrete bordered with red brick; and

(2) The following character-defining interior features of Parkside Branch Library, all of which were historically accessible to the public:

(A) Open floor plan at entrance with visual connections to fireplace and exposed brick walls of the original reading/browsing room and to the large window openings and outdoor terrace at rear elevation;

(B) Exposed red brick, stacked bond, masonry walls, unpainted;

(C) Fireplace and copper hood with red brick hearth that extends along surrounding wall to form a built-in bench;

(D) Cork floor in western portion of building; and

(E) Ceiling light fixtures in former reading/browsing room (now children's area), comprised of metal and translucent glass, within series of boxed insets in the otherwise flat ceiling.

Boundaries of the Landmark: The proposed Landmark encompasses that portion of Assessor's Parcel Block No. 2351, Lot No. 001, at the southeastern corner of McCoppin Square Park, that is owned and operated by San Francisco Public Library and does not include the adjacent Recreation and Park Department's property.

Racial and Social Equity Analysis

On July 15, 2020, the San Francisco Historic Preservation Commission adopted Resolution No. 1127 centering Preservation Planning on racial and social equity. Understanding the benefits, burdens, and opportunities to advance racial and social equity that proposed Preservation Planning documents provide is part of the Department's Racial and Social Equity Initiative. This is also consistent with the Mayor's Citywide Strategic Initiatives for equity and accountability and with the Office of Racial Equity, which required all Departments to conduct this analysis.

The proposed landmark designation of Parkside Branch Library makes no substantive policy changes to the Planning Code or the Planning Department's procedures. The proposed landmark designation produces few, if any, opportunities to advance racial and social equity.

Staff does not foresee any direct or unintended negative consequences from the proposed landmark designation.

Public / Neighborhood Input

Parkside Branch Library has been recognized by preservation group Parkside Heritage, an independent affinity group with San Francisco Heritage run by the Parkside neighborhood, as an important local institution and a priority for landmark designation projects in the Parkside District.

Several written comments in support of designation were submitted to Board of Supervisors and are attached.

Issues & Other Considerations

- Interior Character-Defining Features: Inclusion of interior spaces and features as character-defining is warranted as these spaces, which historically functioned as publicly accessible library reading rooms, are representative of the architectural design and institutional use for which the building is significant.

- Property owner input:

    - In September 2021, the Department notified the property owner of the intent to move forward with finalizing the landmark designation process for the Parkside Branch Library. The Department has held several meetings on the proposed designation with representatives of San Francisco Public Library.

    - In September 2022, the Department coordinated with the Library, Parkside Heritage, SF Heritage, and Supervisor Mar to initiate landmark designation of Parkside Branch Library. San Francisco Department of Recreation and Parks, which owns and operates McCoppin Square Park surrounding the subject building, was also included in this effort.

    - On April 27, 2023, the Department sent mailed notice to the property owner(s) regarding the landmark designation recommendation hearing scheduled for May 17, 2023. The Library has indicated support of designation.

- Sunset Chinese Cultural District: The project site is located within the Sunset Chinese Cultural District, established in 2022, to preserve the authenticity and cultural richness of the Sunset's working-class families and seniors, as well as enhance its cultural assets and unique character. The Sunset Chinese Cultural District encompasses the area between 19th Avenue, Great Highway, Lincoln Way, and Sloat Boulevard. The Cultural District does not possess land use controls that are specific to the subject property.

Environmental Review Status

The Planning Department has determined that actions by regulatory agencies for protection of the environment (specifically in this case, landmark designation) are exempt from environmental review, pursuant to CEQA Guidelines Section 15308 (Class Eight-Categorical).

Basis for Recommendation

The Department recommends that the Historic Preservation Commission initiate the landmark designation of Parkside Branch Library as it meets the provisions of Article 10 of the Planning Code regarding Landmark Designation. Parkside Branch Library is individually eligible for its association with nationwide library modernization principles and program reform after World War II and is also architecturally significant as it embodies the principles of mid-twentieth century American public library design, displays a signature and innovative style developed by Appleton & Wolfard for the branch libraries constructed during this building campaign, and is representative of the work of Appleton & Wolfard, and architectural firm of merit, and of the firm's collaboration with renowned landscape architect Laurence Halprin on design of the original landscape.

ARTICLE 10 LANDMARK DESIGNATION
FACT SHEET

Parkside Branch Library, front (south) façade, 2022
Source: Google Streetview

Historic Name:	Parkside Branch Library
Address:	1200 Taraval Street
Block/ Lot(s):	2351/001 (a portion of)
Parcel Area:	N/A
Zoning:	P (Public) OS (Open Space)
Year Built:	1951
Architect:	Appleton & Wolfard (Abraham Appleton and Harold Wolfard)
Prior Historic Studies/Other Designations:	*San Francisco's Parkside District: 1905-1957*, historical context statement prepared by Richard Brandi and Woody LaBounty for the Mayor's Office of Economic and Workforce Development (March 2008). *Post-War Development of the Modern Branch Public Library in San Francisco 1945-1964*, DPR L form for Appleton & Wolfard Modern Branch Libraries, prepared by Johanna Street (March 26, 2010). *San Francisco Modern Architecture and Landscape Design 1935-1970*, prepared by Mary Brown, San Francisco Planning Department (2011).

Prior HPC Actions:	On October 7, 2009, the Historic Preservation Commission adopted Resolution No. 638, which directed Planning Department to calendar initiation of landmark designation of Parkside Branch Library for review after completion of the Branch Library Improvement Program. No such hearing was ever scheduled. Marina Branch Library, built in 1953, the second library constructed during the Appleton & Wolfard Modern Branch Libraries building campaign, was designated Landmark No. 262 on November 18, 2010.
Significance Criteria:	*Events:* Associated with events that have made a significant contribution to the broad patterns of our history. (National Register Criterion A) *Architecture/Design:* Embodies the distinctive characteristics of a type, period, or method of construction, and/or represents the work of a master. (National Register Criterion C)
Period of Significance:	1951 – The period of significance for Parkside Branch Library is 1951 reflecting the date that the current building was constructed for San Francisco Public Library by Appleton & Wolfard with landscape design by Lawrence Halprin.
Statement of Significance:	Parkside Branch Library, built in 1951, was designed by the architectural firm of Appleton & Wolfard in collaboration with City Librarian, Laurence Clarke. The building broke the mold of previous branch library design and functionality and was the first of eight Mid-Century Modern-style branches constructed between 1951 and 1966. These eight libraries, all designed by Appleton & Wolfard, were constructed during a period of unprecedented commitment at the local, state, and national levels toward development of public library systems and modernization of library services and programming. At the time of its construction, Parkside Branch Library was a nationally recognized prototype for branch libraries, adapted to local ideals while successfully incorporating modern library trends that were being developed and distributed by the American Library Association after World War II. Parkside Branch Library is historically significant for association with the social and cultural shifts in post-war American library programing and design and reflects philosophies of the modern public library promoted by the American Library Association, including accessibility, functionality, and adaptability. Parkside Branch Library is also architecturally significant, embodying many of the principles of Mid-Century American public library design and Appleton & Wolfard's signature and innovative style for branch libraries constructed during this building campaign. The design, which includes a novel combination of commercial and residential elements, emphasized natural light, cozy gathering spaces, and patios, much like a Modern suburban house, while also incorporating large storefront-type windows and display cases typical of retail establishments. Parkside Branch Library successfully conveys the many principles of postwar civic architecture and is representative of the work of Appleton & Wolfard, an architectural firm of merit, responsible for design of the most branch libraries in San Francisco.

	Appleton & Wolfard's collaboration with renowned landscape architect Lawrence Halprin on design of the original landscape is also significant, although only some original elements of the landscape design are extant.
Assessment of Integrity:	Parkside Branch Library maintains integrity. The seven aspects of integrity as defined by the National Park Service (NPS) and the National Register of Historic Places (NRHP) are location, design, materials, workmanship, setting, feeling, and association.[1] Parkside Branch Library, designed by Appleton & Wolfard and constructed in 1951, was renovated and expanded in 2008-2010. The renovation was sympathetic and respected Appleton & Wolfard's influential design, and the building retains the majority of its character-defining features so that it possesses a high level of architectural integrity. Although removal of original features and building fabric affects integrity of workmanship, replacements are compatible such that the building and select landscape features retains integrity of design, location, association, workmanship, setting, and feeling. Overall, the Department has determined that Parkside Branch Library, inclusive of the interior features and landscape features, retains integrity to convey its historical and cultural significance.
Character-Defining Features:	(1) All those exterior elevations, form, massing, structure, rooflines, architectural ornament, and materials of Parkside Branch Library, identified as: (A) One-story height, partially built into hillside, and set back from street on grassy hill; (B) Size, shape, and configuration of roof and eaves, specifically, the combination of a strong scissor/butterfly roof with boxed and exposed rafters and wide projecting eaves and of a soft low-pitched gable roof with boxed rafters and moderate projecting eaves; (C) Size, shape, and configuration of red brick, stacked bond, masonry walls, unpainted; (D) Locations, sizes, shapes, and configurations of the original window fenestration pattern, including the way many of the openings extend up to the eaves or are irregularly shaped to match openings or gables; (E) Window systems of standard extruded metal components with a clear or dark finish (existing window systems are not original, but are replacements installed during the 2008-2010 building renovation that are compatible with the building's historic character); (F) Configuration of windows (existing windows are not original, but their configuration echoes the original window configurations), specifically: i. Horizontal mullions in tall openings at saw-tooth wall at front facade;

[1] "How to Apply the National Register Criteria for Evaluation," National Register Bulletin, U.S. Department of the Interior, National Park Service, 1995, p. 44.

	ii. Alternating bays of fixed and stacked hopper sash in the band of openings that extends under the eave at east end of front façade; iii. Minimizing number and size of horizontal mullions in large openings at rear (north) elevation facing into Park; (G) Location, size, shape, configuration, and wood detailing of the large display windows and display cases adjacent to main entrance and within interior vestibule; (H) Location of main entrance and original wood framing details at transom and around main and secondary entry openings at main entrance vestibule; (I) Location, configuration, and materials of the brick stairs leading from Taraval Street up to landing at main entrance; (J) Red brick, stacked bond, masonry retaining wall that extends along the perimeter of the front façade and wraps around the east elevation forming the base of the building wall; (K) Low, red brick planters adjacent to main entrance and stairs; (L) Exterior sign comprised of non-illuminated metal pin letters on red brick pier adjacent to main entrance; (M) Outdoor terrace at north elevation, including red brick, stacked bond, masonry retaining wall, red brick and concrete planters, and patterned paving of concrete bordered with red brick; and (2) The following character-defining interior features of Parkside Branch Library, all of which were historically accessible to the public: (A) Open floor plan at entrance with visual connections to fireplace and exposed brick walls of the original reading/browsing room and to the large window openings and outdoor terrace at rear elevation; (B) Exposed red brick, stacked bond, masonry walls, unpainted; (C) Fireplace and copper hood with red brick hearth that extends along surrounding wall to form a built-in bench; (D) Cork floor in western portion of building; and (E) Ceiling light fixtures in former reading/browsing room (now children's area) installed within series of boxed insets in the otherwise flat ceiling.

Summary Statement of Significance

Parkside Branch Library, built in 1951, was designed by the architectural firm of Appleton & Wolfard in collaboration with City Librarian, Laurence Clarke. The building broke the mold of previous branch library design and functionality and was the first of eight Mid-Century Modern-style branches constructed between 1951 and 1966. These eight libraries, all designed by Appleton & Wolfard, were constructed during a period of unprecedented commitment at the local, state, and national levels toward development of public library systems and modernization of library services and programming. At the time of its construction, Parkside Branch Library was a nationally recognized prototype for branch libraries, adapted to local ideals while successfully incorporating modern library trends that were being developed and distributed by the American Library Association after World

War II. Parkside Branch Library is historically significant for association with the social and cultural shifts in post-war American library programing and design and reflects philosophies of the modern public library promoted by the American Library Association, including accessibility, functionality, and adaptability.

Parkside Branch Library is also architecturally significant, embodying many of the principles of Mid-Century American public library design and Appleton & Wolfard's signature and innovative style for branch libraries constructed during this building campaign. The design, which includes a novel combination of commercial and residential elements, emphasized natural light, cozy gathering spaces, and patios, much like a Modern suburban house, while also incorporating large storefront-type windows and display cases typical of retail establishments. Parkside Branch Library successfully conveys the many principles of postwar civic architecture and is representative of the work of Appleton & Wolfard, an architectural firm of merit, responsible for design of the most branch libraries in San Francisco. Appleton & Wolfard's collaboration with renowned landscape architect Lawrence Halprin on design of the original landscape is also significant, although only some original elements of the landscape design are extant.

Property Description and History

Parkside Branch Library, at 1200 Taraval Street, is located within McCoppin Square Park, which occupies the block bounded by Santiago Street, 22nd Avenue, Taraval Street, and 24th Avenue (Assessor's Parcel Block No. 2351; Lot 001), in San Francisco's Outer Sunset neighborhood. The library occupies the southeastern corner of McCoppin Square Park and is oriented towards the neighborhood commercial services along Taraval Street. The east side of 22nd Avenue is characterized by single and multi-family homes primarily constructed between the 1920s through the 1940s.

The front (south) elevation of the building is set back from the street on a grassy hill. The main entrance is accessed by a flight of red brick stairs with simple metal handrail or by a dog-leg concrete ramp sloping up from the corner of 22nd Avenue and Taraval Street. The ramp extends along the building frontage through a series of terraced red brick planters. Tucked into the corner formed by top of stairs and the ramp, is a red brick, rectangular planter, which may represent the only original Halprin-era planter box extant at the front of the building. West of the stairs is a red brick retaining wall that spans the front of the building and beyond, extending until it returns and runs a short way into the hillside. This retaining wall terminates into the hillside at a concrete plinth supporting a flagpole.

At the north side of the building, is an outdoor terrace enclosed by a red brick retaining wall built into the hillside. Notes on 2008-2010 renovation plans submitted for Planning Department review indicate that most features of the terrace were retained and repaired. The terrace floor has a checker-board pattern of large squares of concrete bordered by red brick. A low concrete wall, that doubles as a bench, is capped by red bricks and defines a planting bed along the outside perimeter of the terrace. At the southwest corner of terrace, adjacent to the large windows and door into the main interior space of the building, is a planting bed. The projecting eave of the east end of the building extends out over the terrace, creating a covered walkway. A contemporary metal gate provides pedestrian access at the east end of the terrace.

The Parkside Branch Library is low-slung and vaguely rectangular in plan. The west end of the building is highlighted by an angled butterfly roof while the east end of the building has a low-pitched gable roof. Deep boxed

overhanging eaves extend from the brick masonry walls to shade the abundant windows. Walls are stacked bond red brick masonry except at east end of the structure, which is clad with painted horizontal wood siding. All windows were replaced as part of the 2008-2010 renovation of the building and are bronze or dark-colored metal. At the west end of the building and at front façade of east end of the building, windows systems, which are installed within original openings, are simple extruded metal with dark finish, either fixed or hopper-operation. Operable sash have simple, flat profiles. Window systems at new openings on rear façade of east end of building, and in building addition, match other windows.

The main entrance is located at the junction of the two roof forms at front (south) façade. Contemporary metal and glass doors with large, glazed transom are flanked to west by a projecting metal and glass display window and to east by a brick clad pier with pin-mounted metal letters that spell out, "SAN FRANCISCO PUBLIC LIBRARY PARKSIDE BRANCH." West of the main entry, the exterior wall is saw-tooth in plan, allowing floor-to-ceiling windows to face east. East of the main entry, the exterior wall consists of red brick under a band of windows that extend up to the underside of the projecting boxed eaves. The band of windows have a rhythm of fixed single-lite sash alternating with stacked hopper sash in narrower openings. A narrow window, which extends from grade to roof eave, provides a physical and visual transition between the original building and the addition. At the addition, the only fenestration consists of several narrow horizontal windows just below the roof eave. All exterior sides of the addition are clad with drop-lap horizontal wood siding above a red brick base.

The rear (north) elevation has two parts - at the west end of the building is the part of the elevation that is partially set into the hillside and at east end of the building is the part of the elevation that faces into the enclosed terrace. At western part of the elevation, the upward sloping roofline extends with an eave overhang that is an open framework of painted wood. The open overhanging eave allows natural light into the wall of glazing that is arranged in four large window bays. Each window bay originally was divided into three large glass panels with vertical metal mullions. The new windows installed in 2008-2010 are situated within the original window bays but have additional horizontal divisions to provide operable sash. A large window with contemporary metal and glass door opens onto the west side of the terrace. The rest of the north elevation, facing the terrace, consists of a large band of windows, which were added during the 2008-2010 renovation.

The west wall of the building is a solid expanse of stacked bond, red brick following the slope of the eave of the butterfly roof and the site. The north side of the wall slopes upward and is capped by painted wood fascia. The south side of the wall is not sloped and is capped with concrete. An exaggerated brick chimney with concrete cap projects from this wall.

The east elevation is clad with painted drop-lap horizontal siding resting on red brick base. Irregularly shaped metal windows and ventilation screens are tucked into the gable end.

The main entrance opens into a vestibule with exposed red brick walls, cork flooring, and dual-sided display cases. These display cases are located at opposite corners of the vestibule with tall, enclosed bases capped by an upward curving wood lip that wraps around the exposed sides of each display case. On exterior, this wood lip is capped with metal framing, integrating it with the metal window system. At the interior, the display cases are framed with wood with butt-glazed corner joints and sliding-glass panels to access the display areas. Adjacent to the interior display case is a wood framed opening between vestibule and main interior space. The wood framing in the vestibule, around the opening into the main space, on the display cases, and on baseboard, appears to be original.

The interior of the building is organized along a central spine, running east-west, with the up-sloping ceilings of the west end of the building highlighting the main spaces, currently denoted as the "children's area" and "adult area." East of the entry are the circulation space, "teen area," and staff workspaces, which have cork flooring, flat, plaster ceilings, and contemporary hanging light fixtures. Restrooms and mechanical rooms are at the east end of this wing.

The western portion of the building is two large rooms, characterized by cork floors and upward sloping ceilings. The "children's area," formerly the Browsing or Reading Room, is highlighted by the saw-tooth shaped walls and fireplace with oversized copper hood. The "children's area" room has exposed brick walls, cork flooring, and ceiling of panelized tiles with inset boxes for contemporary light fixtures. Contemporary wood shelving and cabinetry have been attached to the formerly exposed brick walls and there are free-standing bookshelves arranged in rows within the room. The "adult area" room has plaster walls, cork flooring, and upsloping ceiling of panelized tiles with contemporary hanging light fixtures. Contemporary wood shelving is attached to perimeter walls and tall, free-standing bookshelves are arranged in rows around several large worktables and individual seating.

Building History

Parkside Branch Library is located in the southeast corner of McCoppin Square Park, a neighborhood park in the Outer Sunset neighborhood. The park, named for one of San Francisco's first post-gold rush mayors, Frank McCoppin, is one of the oldest open spaces on the west side of San Francisco. This open space, depicted as a large, undeveloped, "Public Park," in the Sanborn Fire Insurance Map (Sanborn map), published in 1915, remained mostly unchanged in the updated Sanborn, published in 1950, except for two small buildings – restroom and convenience station – located at the southwest portion of the Park. In a 1938 aerial photograph of San Francisco, the trees of the park stand out, wrapping around a large open field with baseball diamond, at the northern portion of the space, and several tennis courts, at southwest corner of park. The future location of Parkside Branch Library, depicted as an upsloping grassy hill in a 1923 photograph, appears as an open grassy area in the 1938 aerial photograph. In the most recent Sanborn map, published in the mid-1990s, the "Public Park" contains two sets of "bleachers" arranged around the area formerly depicted as a baseball field, two small buildings at the southwest corner of the parcel, and the building footprint for a "Public Library," in location of the current Parkside Branch Library.

In current aerial views of McCoppin Square Park, two ovoid-shaped playgrounds occupy the space between the west wall of Parkside Branch Library and tennis/basketball courts at southwest corner of the park. North of the tennis courts is an enlarged restroom building, added in the early 2000s. A baseball diamond and sports field still occupies most of the northern part of the parcel, although a paved pathway winds between large trees along the western side of the park.

Although its success led to the library modernization building campaign of eight branch libraries, built between 1951 and 1966 by architecture firm Appleton & Wolfard, construction of the Parkside Branch was undertaken independent of any broader funding or development program. After a ballot measure put before the voters in 1948 by the San Francisco Public Library failed, the Library initiated individual construction projects, including Parkside Branch Library, obtaining funding through the City budget process. In the Appleton & Wolfard Modern Branch Libraries historic context statement, prepared by architectural historian Johanna Street, persistence of neighborhood activists was required to maintain funding for the new branch during the Budget process.

> On the day the budget was to be approved by the Supervisors, Parkside people descended on City Hall in droves to protest the cutting out of the new branch. When the deadline for passing the budget approached, the people stopped the clock in City Hall at midnight and staged a filibuster till the money was put back in.[2]

Prior to construction of the subject building, the neighborhood was served by a facility that had opened in the mid-1930s in a rented storefront space in a one-story wood-frame commercial building at 1541 Taraval Street.[3] The site for the new Parkside branch, on land owned and operated by the Recreation and Park Department, was both a cost-cutting approach and response to then-Mayor Elmer E. Robinson's government streamlining measures that encouraged collaboration amongst city departments. Several of the subsequent Appleton & Wolfard branches were also built within Recreation and Park Department parks and playgrounds.

Per the San Francisco Public Library website, Parkside Branch Library, the 19th branch established in the system, originally opened on June 21, 1951.[4] The architects were Appleton & Wolfard, the landscape architect was Lawrence Halprin, and construction was by Wm. Hortstmeyer Company. Furniture included Aalto stools and Thonet desk chairs (other sources attribute furniture to Charles and Ray Eames and Hermann Miller). The cost of the building was $162, 171.[5]

In an article on Parkside Branch Library, posted on the OutsideLands webpage in 2005, historian Richard Brandi describes the reaction to the new building in 1951:

> …a one-story open plan with lots of glass and brick, the Parkside was hailed as the "finest branch library in the country. . .light, spacious and comfortably quiet." (*San Francisco Chronicle,* October 28, 1951) *The Architect and Engineer* (March 1952) noted that it had "the appearance of a swank country club or a modern luxurious residence," and that "its gay turquoise, yellow and natural brick color scheme" gave it the look of "a refined night club."[6]

Brandi's article continues:

> The design was inspired by new needs as explained by [C]ity [L]ibrarian Laurence Clarke: "These days a library must merchandise its services in much the same way that a successful bookshop operates... [W]e think we have the right approach at Parkside, efficiency, service to all, and a building people want to use." (*Christian Science Monitor,* January 7, 1951)[7]

Accolades to Parkside's design emphasized its modernity and comfort in *San Francisco Chronicle* articles published in 1951, titled "New Branch Libraries Built for Comfort" and "At Last, A Library With a Clubhouse Look." These articles note that with low slung design and landscaping, the new building will "attempt to melt discreetly into McCoppin [Square] Park" while the "browsing room with fireplace … reading nooks … and radiant cork floor" intended to create a cozy, inviting atmosphere for library patrons.[8] Further enhancements of the new building, as described by historian Woody LaBounty, were:

> Instead of formal staircases, lofty ceilings, and fluted columns, the Parkside branch was more like a cozy suburban house with comfortable seating, natural light from angled windows, exposed toned clay brick walls, and even a fireplace. Like a midcentury ranch home, it had a patio (perhaps not as comfortable as hoped for in the foggy climate) and was surrounded by planters and landscaping (designed by master architect Lawrence Halprin) that wouldn't have been out of place for a commuter's domicile down the peninsula.[9]

LaBounty's article on Parkside Branch continues:

> Opening in June 1951, the Parkside branch was an immediate hit with patrons. In its first year, book circulation grew 250 percent over the previous branch, which had been housed in a Taraval Street storefront. By 1954, Parkside owned the largest circulation of the then 21 city branches. The city's Planning Department quickly pointed to the Parkside Branch as the "pilot project and proving ground for the entire program of public library building and expansion in San Francisco."[10]

After it opened, the Branch saw record circulation, so that the "…modern library design used the enticing warmth of brick masonry, framing large expanses of sleek glass, in a residentially scaled building to draw patrons into the comfortable interior and it worked beyond expectations."[11] One newspaper article declared "Almost everyday of the week the smart new building at 22nd and Taraval is as busy as a supermarket on Friday morning."[12]

The building's success not only resulted in increased attendance and circulation, but also gave City Librarian Laurence Clarke and the Library Commission "momentum to continue building branches"[13] and led to further library commissions for Appleton & Wolfard. Encouraged by the local and national recognition for Parkside's design and success, the city developed a phased master plan with an initial phase of new construction focused on underserved neighborhoods. Nearly all the new branches envisioned in phase one of the master plan had been completed by the end of the 1960s.

[13] Johanna Street, 4.

Coinciding with construction of Parkside Branch were the beginnings of demographic shifts in the surrounding Outer Sunset and Parkside neighborhoods, as further described by historian Woody LaBounty in "Chinese-American Life in the Parkside":

> Through World War II, the Parkside District and most of the southwest part of San Francisco was closed to buyers and residents who weren't white. This segregation was enforced by racial deed covenants and by collusion between neighborhood associations, brokers, and lenders. Long after housing discrimination was made illegal, the Parkside remained white. …
>
> … Today [2020], more than half of the residents of the Parkside identify as Chinese or Chinese-American. In the Sunset and Parkside, 53% speak a language other than English, with Chinese far ahead of Russian and Vietnamese. But in 1940, not one Chinese-American lived there, according to an analysis of the United States Census by the Chinese Historical Society of America (CHSA), as part of its Chinese in the Sunset project in 2017. …
>
> … Less than 5% of the Sunset District's population identified as Chinese-American in 1950, but the population grew steadily in the district through the 1960s and the passage of the federal Fair Housing Act in 1968 began opening doors in more homogeneous enclaves such as the Parkside. While in 1970, the Parkside was still 85% white (7% Latino and 4% Chinese) according to the U.S. Census, a great migration was beginning. …By 1975, Chinese-Americans made up 22% of public school students in the Sunset and Parkside.[14]

Like many civic buildings, Parkside Branch Library is an important community asset, serving the varied needs of residents in the surrounding neighborhoods and beyond. The building hosts events, like "Movies and Talkies" that combined displays of memorabilia, screening of classic boxing films, and talks by a boxing champion in 1977, and "Multicultural Festival" featuring a talk for kids in 1998.[15] The facility also provides meeting space and summer volunteer programs for youth and teens. The building also serves many students from nearby Lincoln High School. In an article about the building's reopening in 2010, a school administrator noted that prior to its closure, 20-40 students would go to the library after school, and that they expected it would be inundated with students once it reopened.[16]

Alteration History

No substantive alterations to the building are recorded in Building Permit records prior to the early 2000s, although changes were certainly made as part of typical building repair and maintenance. Windows and exterior doors were repaired and replaced, and landscape plantings, especially within planter boxes at front of building, were replaced. Sometime prior to 2008, a large ventilation hood was installed on the east elevation of the building.

Renovation and expansion of Parkside Branch was undertaken in 2008-2010, under the Branch Library Improvement Program (BLIP), at a total project cost of $4.7 million. The Branch Library Improvement Program (BLIP), the largest capital improvement campaign in the history of the San Francisco Public Library, was funded through a $105.9 million bond measure passed by voters in November 2000. BLIP called for 16 branches to be renovated, four leased facilities to be replaced with City-owned buildings, three branches to be replaced with new buildings, and one brand-new branch in Mission Bay. When the building reopened on November 6, 2010, Parkside Branch was the 15th completed library project of the BLIP.[17]

The renovation and expansion project, which included gutting the interior and adding an approximately 1,000 square foot addition, was designed by Thomas Hacker Architects in association with Karin Payson architecture + design. The project included accessibility, seismic, and life safety upgrades; improvements to mechanical and electrical systems; façade and interior renovations, including restoration of original copper fireplace; renovation of landscaping and restoration of rear courtyard; and an addition.[18] Interior work also included new accessible restrooms, improved public and staff spaces, a designated Teen Area near the courtyard, more computers, better lighting, and new & refinished furniture, shelving, and materials displays.[19] While respecting notable features of the original design, the renovated building achieved LEED Silver certification along with incorporating 21st century technology into improved and expanded work spaces.

A one-story, 1,000 square foot addition, housing restrooms, mechanical space, and additional staff workspace, was constructed at the east end of the existing structure. It is clad in painted drop-lap horizontal wood siding above a red brick masonry base. The addition extended the existing building walls and low-slung gable roof, filling in the setback that had existed between the original building and sidewalk. At the front façade, a narrow window, that extends from roof eave to grade, provides a physical and visual transition between the original building wall and new addition. Irregularly shaped metal windows and ventilation screens are tucked into the gable end. The addition is differentiated but compatible with character and massing of original building.

During the renovation, original red brick masonry facades were cleaned and re-pointed and existing plaster was cleaned, patched, and painted. New roofing was installed over repaired and painted overhanging eaves. Seismic upgrades included addition of steel bracing at northeast corner of building and addition of supplemental wood rafters. At the north elevation, facing the courtyard, a large opening for windows and door into the courtyard was added and the east end of the exterior wall was re-clad with wood siding to match the addition.

All original or replaced clear anodized aluminum window systems were removed and replaced during the renovation. The new window systems are simple extruded metal sash with dark painted or powder-coated finishes and fixed or hopper-type operation. Apart from where new openings in the building's north wall facing onto the terrace were introduced, new windows systems were installed within existing openings. Although new divisions were introduced at some windows to allow for operable sash, the new window systems in original openings respect the configuration, materials, and character of original window systems in manner that is compatible with the original design.

[17] SFPL factsheet
[18] Karin Payson architecture + design, architecture firm website: https://kpad.com/portfolio/parkside-branch-san-francisco-public-library/
[19] San Francisco Public Works website: https://sfpublicworks.org/project/parkside-branch-library

In the original Browsing/Reading room, now "Children's area," the original red brick fireplace and copper hood, and ceiling with pattern of boxed insets housing light fixtures, were restored. Surrounding the fireplace at the west wall of this space, the original exposed brick wall and built-in bench were also restored. For additional storage, a large wood cabinet, extending from top of bench to the ceiling, was built along south end of this exposed brick wall. New shelving was added along the walls although the exposed brick remains visible above and around these additions. New light fixtures in the "Children's area" are similar in shape and method of installation to the original fixtures.

On the interior, new and updated mechanical and electrical systems, ceilings, light fixtures, and biodegradable cork flooring were installed. Historic and non-historic ceiling lighting was removed and replaced with built-in and pendent light fixtures. All shelving throughout the building, including the units installed at exposed brick walls, is new. The circulation desk, although in roughly the same place as the original, is new, replacing a large L-shaped, wood, circulation desk depicted in historic photographs.

The renovation project retained and restored several of the primary hardscape features of the original landscape design. These include the red brick main stairs and adjacent planter box, red brick retaining wall west of the stairs, and the rear terrace, inclusive of the red brick retaining wall, concrete and brick paving, and planter boxes. East of the main stairs, at the front of the building, most of the original hardscape was removed and replaced with a new concrete ramp and terraced red brick planters. It is unknown whether any plants associated with the original landscape design are extant. While the new hardscape features in front of building are compatible with the retained landscaping and the Appleton & Wolfard building, the extent of the alteration in this portion of the site negatively affects the original landscape plan such that it no longer retains design integrity.

Events: Associated with events that have made a significant contribution to the broad patterns of our history (National Register Criterion A).

Parkside Branch Library was constructed in 1951 as San Francisco's "pilot project and proving ground for the entire program of public library building and expansion"[20] that took place in the post-World War II period between 1945 and 1966. Designed by the architectural firm of Appleton & Wolfard in collaboration with City Librarian, Laurence Clarke, the building broke the mold of previous branch library design and functionality and was the successful prototype that spurred on San Francisco's nationally recognized modern branch library construction campaign. Parkside Branch Library is historically significant for association with the social and cultural shifts in post-war American library programing and design and reflects philosophies of the modern public library promoted by the American Library Association, including accessibility, functionality, and adaptability. [21]

The first of eight modern branches constructed between 1951 and 1966, Parkside Branch Library was a nationally recognized prototype for branch libraries, an example that successfully combined local ideals with modern trends in library systems and services then being espoused by the American Library Association (AMA). The AMA, the main

[20] Sn Francisco Planning Department, "Report on a Plan for the Location of Public Libraries in San Francisco" (April 1953), 34. Quoted in "Appleton & Wolfard Modern Branch Libraries" DPR L Form, prepared by Johanna Street (March 26, 2010), 4.
[21] Carlton B. Joeckel and Amy Winslow, *A National Plan for Public Library Service* (Chicago: American Library Service, 1948), 126-128. Quoted in "Appleton & Wolfard Modern Branch Libraries" DPR L Form, prepared by Johanna Street (March 26, 2010), 2.

professional organization for librarians in the United States since 1879, published a document entitled *Post War Standards for Public Libraries* in 1943, followed by *A National Plan for Public Library Service* in 1948. During a period of unprecedented commitment at the local, state, and national levels toward development of public library systems and modernization of library services and programming, these documents were used to promote, and became the basis of, the modern public library in the United States.

The National Plan featured the following principles for library buildings:

1. The library building should be easily accessible to its potential clientele.
2. The library building should be functional.
3. Standard types of library buildings should be developed.
4. Many public library buildings should be adaptable for expanded service in county or regional library systems.
5. The public library building of the future should be planned and equipped as a modern educational center.[22]

As noted by architectural historian Johanna Street, the principles outlined by the AMA were intended to be disseminated at state and local levels where they could incorporate regional priorities. Working together, librarians, planners, architects, and other civic leaders could use these principles to guide innovative, modern branch library buildings.[23]

> Public branch libraries were a relatively new building type, and though rigidly defined by Carnegie at the beginning of the twentieth century, were a focus of innovation by the 1950s. In fact, the underlying intention of the library buildings built after World War II was to be distinct from their Carnegie predecessors. There was an overwhelming rejection of the old and out-dated and a forward-looking optimism throughout Post-War America, beyond just library buildings. Ralph Ulveling, Director of the Detroit Public Library and President of the American Library Association from 1945-46, wrote extensively about Post-War library construction and became a sought-after consultant.[24] In a 1952 article for Architectural Record, he and his colleague Charles Mohrhardt, Associate Director of the Detroit Public Library, summed up one of the main design goals of the modern library. "The library is no longer a mere symbol of culture or a civic monument with pillars and impressive masses of steps; instead it is becoming a friendly place which reveals the resources within and invites one to share its hospitality."[25]

San Francisco's modern branch library building campaign reflects the principles for the modern branch library outlined by the AMA along with those developed in San Francisco. San Francisco's principles for modern branch libraries, were: small service areas reflective of population densities; size of facility should reflect population density; located with other community and commercial facilities; provision of parking; and have a simple functional design and appearance in harmony with surroundings. Parkside Branch Library, as the local prototype, was a proving ground, successfully combining national and local principles of post-war library design and programming.

Additional information about Parkside Branch Library and the history of the Appleton & Wolfard Modern Branch Libraries can be found in *Post-War Development of Modern Branch Public Library in San Francisco 1945-1964* (DPR-L Form), prepared by Johanna Street (March 26, 2010).

Architecture/Design: Embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values (National Register Criterion C).

Parkside Branch Library is architecturally significant, embodying many of the principles of Mid-Century American public library design, in a signature and innovative style developed by Appleton & Wolfard, in collaboration with City Librarian, Laurence Clarke, and landscape architect Lawrence Halprin. Parkside Branch Library successfully conveys the many principles of postwar civic architecture and is representative of the work of Appleton & Wolfard, an architectural firm of merit, responsible for design of the most branch libraries in San Francisco. Appleton & Wolfard's collaboration with renowned landscape architect Lawrence Halprin on design of the original landscape is also significant, although only some original elements of the landscape design are extant.

Appleton & Wolfard's nationally recognized design for Parkside Branch Library "embodied the then current library theory that called for attractive, inviting and casual library buildings that were in harmony with their surroundings."[26] In their design approach for Parkside and the seven other branches constructed during this building campaign, Appleton & Wolfard employed a then-novel combination of commercial and residential elements. The design emphasized natural light, cozy gathering spaces, and patios, much like a Modern suburban house, while also incorporating large storefront-type windows and display cases typical of retail establishments. Residential characteristics and scale appear to indicate influences from informal Scandinavian architectural designs of the period and from Joseph Eichler homes being designed by firms like Anshen & Allen. These influences are seen in their approach to space planning, use of natural light, and appreciation of craftsmanship, color, and texture of natural materials, adapted to Northern California and civic architecture. Appleton & Wolfard's nationally recognized design for Parkside Branch Library successfully integrates the popular, regional, suburban residential qualities of typical Mid-Century Modern design in Northern California with the principles of adaptability, functionality, and accessibility prescribed for post-war branch libraries.

Parkside Branch Library also embodies the characteristics and features that identify it as a product of the architectural firm of Appleton & Wolfard, designers of the most libraries in San Francisco, and an architectural firm of merit.

<u>Appleton & Wolfard</u>
Appleton & Wolfard began as the firm Hyman & Appleton during the early 20th century. Both Abraham Appleton and Samuel Hyman were educated at the Ecole des Beaux Arts in Paris and in the Beaux-Arts tradition at the

[26] Mary Brown, *San Francisco Modern Architecture and Landscape Design, 1935-1970, Historic Context Statement*, prepared for the San Francisco Planning Department (January 12, 2011), 63. Quoted in Woody LaBounty, "Parkside Branch Library: A Modernist Jewel" (July 7, 2020), prepared for SF Heritage, posted on the webpage for Heritage in the Neighborhoods, at: https://www.sfheritage.org/heritage-in-the-neighborhoods/parkside-branch-library-a-modernist-jewel/.

University of California, Berkeley. Together they designed several buildings, including residences, in a variety of styles for prominent San Francisco Jewish families. Through the influence of firm architect, Harold Wolfard, the firm expanded during World War II into designing within the Modernist aesthetic. Shortly after Hyman's death, Wolfard became partner in 1948 and transitioned the firm solidly into Modernist design practice.

The following is excerpted from Johanna Street's, *Post-War Development of Modern Branch Public Library in San Francisco 1945-1964*:

> Abraham A. Appleton was born in the summer of 1887 in San Francisco. He attended the University of California at Berkeley and studied architecture under John Galen Howard until 1908. A staunch Classicist, Howard most likely influenced Appleton to go on to the Ecole des Beaux Arts in Paris. On his return to San Francisco, Appleton worked for William C. Hays, a "faculty and professional colleague" of Howard. In 1913, Abraham Appleton proposed to Hilda Oser. They married and had one child, Robert Oser Appleton. Robert would later become an architect and join his father's firm.
>
> Appleton was active in, and respected by, the local architectural community, and in 1940, became president of the Northern California Chapter of the American Institute of Architects. In 1948, his partner Samuel Hyman died; by this time, Harold Wolfard was playing a key role at the firm. Harold Nelson Wolfard was born October 6, 1907 in Laramie, Wyoming but lived most of his life in Berkeley. He attended Berkeley High School followed by the University of California at Berkeley, graduating with a degree in Architecture in 1931. He worked as a draftsman during his education and interned at several offices after graduation before joining Hyman & Appleton in 1936. Wolfard left Hyman & Appleton to work on the 1939 Golden Gate International Exposition with the California Commission but never really severed relations.
>
> Once work for the Exposition was completed, Wolfard returned to Hyman & Appleton. He received his license in 1940 and within a few years became a partner at the firm. The firm of Appleton & Wolfard worked on numerous project types including, residential, religious and institutional throughout the San Francisco Bay Area. Appleton's aptitude with Jewish religious building continued with his new partner with the construction of Temple Emanu-El (1948) in San Jose and Temple Beth Sholom (c. 1950) in San Leandro. The eight San Francisco Public Branch Libraries, however, represent the firm's most renowned achievement. Wolfard played the major role in the design of the San Francisco Branch Public Libraries from 1951 to 1966.
>
> Appleton & Wolfard continued to work together through the 1960s and elements of their successful San Francisco branch public libraries appeared in other projects such as the Sonoma United Methodist Church (c.1955) and the San Francisco County Fair Building (1960) in Golden Gate Park. … The building, also known as the Hall of Flowers, received national attention with an article in the New York Times in 1961. … The firm was dissolved in the 1970s. Harold Wolfard died in 1977. Abraham A. Appleton died in 1981. In his obituary, Appleton was described as "one of the titans in the local architectural world."

The eight branch libraries designed and constructed by Appleton & Walford are: Parkside (1951), Marina (1953), Ortega (1954 - demolished), Merced (1958), North Beach (1959 – demolished), Eureka Valley (1962), Western Addition (1965), Excelsior (1966).

Other highlighted works by Appleton & Hyman, and Appleton & Wolfard include:

- Visitacion Valley Elementary School (301 Leland Avenue, 1939)
- San Francisco County Fair Building (former Hall of Flowers) (Golden Gate Park, 1960)
- Weinstein's Department Store (1035 Market Street, 1933) – listed on the National Register and California Register as a contributor to the Market Street Theater & Loft District
- Academy of Art College (625 Sutter Street, 1921) – a Category II (Significant) Building within the Kearny-Market-Mason-Sutter Conservation District

Parkside Branch Library's design reflects the broader cultural shift away from classically-inspired civic architecture to one based on leisure, recreation, and egalitarian social-service principles. In a 1951 article, City Librarian Laurence Clarke explained how the design reflected the mood of the period and changes in approach to many types of post-war civic architecture:

> These days ... a public library must merchandise its services in much the same way a successful bookshop sells its wares. It must entice people, both young and old, to want to use it. Unfortunately, most existing public libraries look like a Water Department pumping station. Smart entrepreneurs make their cocktail lounges so attractive that you can't help but stay on for another drink. *Why* not libraries?[27]

Part of making the library a comfortable and attractive place to be is the building's setting, oriented towards the commercial services along Taraval Street, while also surrounded by landscaping. Large windows encouraged views into and from the building and patrons were encouraged to linger by the interior fireplace or in the enclosed exterior terrace. Indoor/outdoor connectivity, with emphasis on seamlessly blending architecture and landscape was typical of Mid-Century Modernism, and often was result of collaboration of architects along with landscape architects. At Parkside Branch Library, Appleton & Wolfard worked with landscape architect Lawrence Halprin, who designed the landscape for the project.[28] The landscape design for Parkside Branch Library would have been one of Halprin's earliest projects, having just started his own firm in 1949 after working in the office of Thomas Church for several years.[29] Typical of Halprin's work, the original landscape plan seems to have focused on functional, geometric forms in red brick enclosing planting beds along with concrete and red brick paving. While important features of the original landscape plan are extant, such as entry stairs, enclosed rear terrace, and several retaining walls and planter boxes, the layout of the plan at front of the building has lost integrity.

Lawrence Halprin (1916-2009)

Lawrence Halprin was born on July 1st, 1916, in Brooklyn, New York. His mother, Rose, wishing to share their family's Jewish heritage, took Lawrence to Palestine in 1933 where they helped establish a kibbutz (a Jewish settlement) near Halifa. Returning to the United States in 1936, he earned a Bachelor of Science degree from Cornell University in 1939 where he studied horticulture under Lee Grand. Continuing his educational pursuits, he earned a Master of Science degree in horticulture from the University of Wisconsin where he met and married Anna Schuman, a fellow student who would become his marital and creative partner. During a weekend trip with Anna to visit Frank Lloyd Wright's Taliesin, he was inspired to combine his skills in landscape design with a newly discovered passion for architecture and eventually entered the Harvard University Graduate School of Design.[30]

[27] *San Francisco Chronicle,* "At Last, a Library with a Clubhouse Look" (October 28, 1951). Quoted in Johanna Street, 13.
[28] *San Francisco Chronicle,* "At Last, a Library with a Clubhouse Look" (October 28, 1951). Quoted in Johanna Street, 13.
[29] John King, "Lawrence Halprin—Landscape Architect—Dies" (October 27, 2009). Quoted in Johanna Street, 13.
[30] Micheal Macor, "Architect Redefined Urban Landscapes," *San Francisco Chronicle*, October 27, 2009, A12.

Halprin left school to enlist in the U.S. Navy in 1943 where he served honorably in the Pacific Theatre. At the war's conclusion, he joined the office of landscape architect Thomas Church and then in 1949, opened his own firm, Lawrence Halprin & Associates. In practice until 2005, while simultaneously serving on the Advisory Council of Historic Preservation, his firm earned many accolades including a gold medal from the American Society of Landscape Architects and Presidential Design Award. Throughout his career, Halprin completed dozens of renowned projects ranging from main street renovations and parks to the Franklin Deleno Roosevelt Memorial in Washington, D.C. Significant projects in San Francisco include the revamping of Ghirardelli Square, Levi's Plaza, and the Sea Ranch Development in Sonoma County – all of which helped establish the Bay-Area as a destination city for world-class architecture. Halprin passed away in 2009 at the age of 93 in his home in Marin.[31]

In design guidelines prepared by Page & Turnbull, Inc. for Ghirardelli Square, Halprin is described as:

> The New York Times' obituary honoring Halprin describes him as "the tribal elder of American landscape architecture, who used the word choreography to describe his melding of modernism, nature and movement in hundreds of projects…"[32] and credits him for a "sharper style of landscape architecture, often as dependent on concrete as on vegetation."[33] Indeed, his work is better known for creating interactive environments and for his use of concrete forms than for his integration of plants within his landscapes.
>
> His design sensibilities focus not on ornamentation or specific plants but on how people use, interact, and move through the space. Though his work consistently engages organic and natural elements, they are most often expressed within the context of modernist, geometric forms constructed of austere materials such as concrete and red brick.[34]

CEQA Exemption Determination

PROPERTY INFORMATION/PROJECT DESCRIPTION

Project Address		Block/Lot(s)
1200 Taraval Street		2351001
Case No.		**Permit No.**
2021-011368PRJ		
☐ **Addition/ Alteration**	☐ **Demolition (requires HRE for Category B Building)**	☐ **New Construction**

Project description for Planning Department approval.

Historic Landmark Designation (DES): Landmark designation of Parkside Branch Library, at 1200 Taraval Street, pursuant to Section 1004.2 of the Planning Code.

STEP 1: EXEMPTION TYPE

The project has been determined to be exempt under the California Environmental Quality Act (CEQA).

☐	**Class 1 - Existing Facilities.** Interior and exterior alterations; additions under 10,000 sq. ft.
☐	**Class 3 - New Construction.** Up to three new single-family residences or six dwelling units in one building; commercial/office structures; utility extensions; change of use under 10,000 sq. ft. if principally permitted or with a CU.
☐	**Class 32 - In-Fill Development.** New Construction of seven or more units or additions greater than 10,000 sq. ft. and meets the conditions described below: (a) The project is consistent with the applicable general plan designation and all applicable general plan policies as well as with applicable zoning designation and regulations. (b) The proposed development occurs within city limits on a project site of no more than 5 acres substantially surrounded by urban uses. (c) The project site has no value as habitat for endangered rare or threatened species. (d) Approval of the project would not result in any significant effects relating to traffic, noise, air quality, or water quality. (e) The site can be adequately served by all required utilities and public services. **FOR ENVIRONMENTAL PLANNING USE ONLY**
■	**Other ____** Class 8 - Actions by Regulatory Agencies for Protection of the Environment
☐	**Common Sense Exemption (CEQA Guidelines section 15061(b)(3)).** It can be seen with certainty that there is no possibility of a significant effect on the environment. **FOR ENVIRONMENTAL PLANNING USE ONLY**

STEP 2: ENVIRONMENTAL SCREENING ASSESSMENT

TO BE COMPLETED BY PROJECT PLANNER

☐	**Air Quality:** Would the project add new sensitive receptors (specifically, schools, day care facilities, hospitals, residential dwellings, and senior-care facilities within an Air Pollution Exposure Zone? Does the project have the potential to emit substantial pollutant concentrations (e.g. use of diesel construction equipment, backup diesel generators, heavy industry, diesel trucks, etc.)? (*refer to The Environmental Information tab on the https://sfplanninggis.org/pim/)*
☐	**Hazardous Materials:** If the project site is located on the Maher map or is suspected of containing hazardous materials (based on a previous use such as gas station, auto repair, dry cleaners, or heavy manufacturing, or a site with underground storage tanks): Would the project involve 50 cubic yards or more of soil disturbance - or a change of use from industrial to residential? **Note that a categorical exemption shall not be issued for a project located on the Cortese List** *if box is checked, note below whether the applicant has enrolled in or received a waiver from the San Francisco Department of Public Health (DPH) Maher program, or if Environmental Planning staff has determined that hazardous material effects would be less than significant. (refer to The Environmental Information tab on the https://sfplanninggis.org/pim/)*
☐	**Transportation:** Does the project involve a child care facility or school with 30 or more students, or a location 1,500 sq. ft. or greater? Does the project have the potential to adversely affect transit, pedestrian and/or bicycle safety (hazards) or the adequacy of nearby transit, pedestrian and/or bicycle facilities?
☐	**Archeological Resources:** Would the project result in soil disturbance/modification greater than two (2) feet below grade in an archeological sensitive area or eight (8) feet in a non-archeological sensitive area? If yes, archeology review is required.
☐	**Subdivision/Lot Line Adjustment:** Does the project site involve a subdivision or lot line adjustment on a lot with a slope average of 20% or more? (*refer to The Environmental Information tab on the https://sfplanninggis.org/pim/*) **If box is checked, Environmental Planning must issue the exemption.**
☐	**Average Slope of Parcel = or > 25%, or site is in Edgehill Slope Protection Area or Northwest Mt. Sutro Slope Protection Area:** Does the project involve any of the following: (1) New building construction, except one-story storage or utility occupancy, (2) horizontal additions, if the footprint area increases more than 50%, or (3) horizontal and vertical additions increase more than 500 square feet of new projected roof area? (*refer to The Environmental Planning tab on the https://sfplanninggis.org/pim/*) **If box is checked, a geotechnical report is likely required and Environmental Planning must issue the exemption.**
☐	**Seismic Hazard:** ☐ **Landslide or** ☐ **Liquefaction Hazard Zone:** Does the project involve any of the following: (1) New building construction, except one-story storage or utility occupancy, (2) horizontal additions, if the footprint area increases more than 50%, (3) horizontal and vertical additions increase more than 500 square feet of new projected roof area, or (4) grading performed at a site in the landslide hazard zone? *(refer to The Environmental tab on the https://sfplanninggis.org/pim/)* **If box is checked, a geotechnical report is required and Environmental Planning must issue the exemption.**

Comments and Planner Signature (*optional*): Don Lewis

STEP 3: PROPERTY STATUS - HISTORIC RESOURCE

TO BE COMPLETED BY PROJECT PLANNER

PROPERTY IS ONE OF THE FOLLOWING: *(refer to Property Information Map)*	
■	**Category A:** Known Historical Resource. **GO TO STEP 5.**
☐	**Category B:** Potential Historical Resource (over 45 years of age). **GO TO STEP 4.**
☐	**Category C:** Not a Historical Resource or Not Age Eligible (under 45 years of age). **GO TO STEP 6.**

STEP 4: PROPOSED WORK CHECKLIST

TO BE COMPLETED BY PROJECT PLANNER

Check all that apply to the project.	
☐	1. **Change of use and new construction.** Tenant improvements not included.
☐	2. **Regular maintenance or repair** to correct or repair deterioration, decay, or damage to building.
☐	3. **Window replacement** that meets the Department's *Window Replacement Standards*. Does not include storefront window alterations.
☐	4. **Garage work.** A new opening that meets the *Guidelines for Adding Garages and Curb Cuts*, and/or replacement of a garage door in an existing opening that meets the Residential Design Guidelines.
☐	5. **Deck, terrace construction, or fences** not visible from any immediately adjacent public right-of-way.
☐	6. **Mechanical equipment installation** that is not visible from any immediately adjacent public right-of-way.
☐	7. **Dormer installation** that meets the requirements for exemption from public notification under *Zoning Administrator Bulletin No. 3: Dormer Windows*.
☐	8. **Addition(s)** that are not visible from any immediately adjacent public right-of-way for 150 feet in each direction; does not extend vertically beyond the floor level of the top story of the structure or is only a single story in height; does not have a footprint that is more than 50% larger than that of the original building; and does not cause the removal of architectural significant roofing features.
Note: Project Planner must check box below before proceeding.	
■	Project is not listed. **GO TO STEP 5.**
☐	Project **does not conform** to the scopes of work. **GO TO STEP 5**.
☐	Project involves **four or more** work descriptions. **GO TO STEP 5.**
☐	Project involves **less than four** work descriptions. **GO TO STEP 6.**

STEP 5: ADVANCED HISTORICAL REVIEW

TO BE COMPLETED BY PRESERVATION PLANNER

Check all that apply to the project.	
☐	1. **Reclassification of property status**. *(Attach HRER Part I)* ☐ Reclassify to Category A a. Per HRER b. Other *(specify)*: ☐ Reclassify to Category C *(No further historic review)*
☐	2. Project involves a **known historical resource (CEQA Category A)** as determined by Step 3 and conforms entirely to proposed work checklist in Step 4.
☐	3. **Interior alterations to publicly accessible spaces that do not** remove, alter, or obscure **character defining features**.
☐	4. **Window replacement** of original/historic windows that are not "in-kind" but are consistent with existing historic character.
☐	5. **Façade/storefront alterations** that do not remove, alter, or obscure character-defining features.

☐	6. **Raising the building** in a manner that does not remove, alter, or obscure character-defining features.
☐	7. **Restoration** based upon documented evidence of a building's historic condition, such as historic photographs, plans, physical evidence, or similar buildings.
☐	8. **Work consistent** with the *Secretary of the Interior Standards for the Treatment of Historic Properties* (*Analysis required*):
☐	9. **Work compatible** with a historic district (Analysis required):
☐	10. **Work that would not materially impair** a historic resource (Attach HRER Part II).
	Note: If ANY box in STEP 5 above is checked, a Preservation Planner MUST sign below.
■	**Project can proceed with exemption review**. The project has been reviewed by the Preservation Planner and can proceed with exemption review. **GO TO STEP 6.**
	Comments (*optional*): Landmark designation of Parkside Branch Library, at 1200 Taraval Street, pursuant to Section 1004.2 of the Planning Code.
	Preservation Planner Signature: Pilar Lavalley

STEP 6: EXEMPTION DETERMINATION

TO BE COMPLETED BY PROJECT PLANNER

■	**No further environmental review is required. The project is exempt under CEQA. There are no unusual circumstances that would result in a reasonable possibility of a significant effect.**	
	Project Approval Action: Board of Supervisor approval of landmark designation	**Signature:** Pilar Lavalley 04/25/2023
	Supporting documents are available for review on the San Francisco Property Information Map, which can be accessed at https://sfplanninggis.org/pim/. Individual files can be viewed by clicking on the Planning Applications link, clicking the "More Details" link under the project's environmental record number (ENV) and then clicking on the "Related Documents" link. Once signed and dated, this document constitutes an exemption pursuant to CEQA Guidelines and Chapter 31 of the SF Admin Code. Per Chapter 31, an appeal of an exemption determination to the Board of Supervisors shall be filed within 30 days after the Approval Action occurs at a noticed public hearing, or within 30 days after posting on the Planning Department's website a written decision or written notice of the Approval Action, if the approval is not made at a noticed public hearing.	

STEP 7: MODIFICATION OF A CEQA EXEMPT PROJECT

TO BE COMPLETED BY PROJECT PLANNER

In accordance with Chapter 31 of the San Francisco Administrative Code, when a California Environmental Quality Act (CEQA) exempt project changes after the Approval Action and requires a subsequent approval, the Environmental Review Officer (or his or her designee) must determine whether the proposed change constitutes a substantial modification of that project. This checklist shall be used to determine whether the proposed changes to the approved project would constitute a "substantial modification" and, therefore, be subject to additional environmental review pursuant to CEQA.

MODIFIED PROJECT DESCRIPTION

Modified Project Description:

DETERMINATION IF PROJECT CONSTITUTES SUBSTANTIAL MODIFICATION

Compared to the approved project, would the modified project:	
☐	Result in expansion of the building envelope, as defined in the Planning Code;
☐	Result in the change of use that would require public notice under Planning Code Sections 311 or 312;
☐	Result in demolition as defined under Planning Code Section 317 or 19005(f)?
☐	Is any information being presented that was not known and could not have been known at the time of the original determination, that shows the originally approved project may no longer qualify for the exemption?
If at least one of the above boxes is checked, further environmental review is required	

DETERMINATION OF NO SUBSTANTIAL MODIFICATION

☐	The proposed modification would not result in any of the above changes.

If this box is checked, the proposed modifications are exempt under CEQA, in accordance with prior project approval and no additional environmental review is required. This determination shall be posted on the Planning Department website and office and mailed to the applicant, City approving entities, and anyone requesting written notice. In accordance with Chapter 31, Sec 31.08j of the San Francisco Administrative Code, an appeal of this determination can be filed to the Environmental Review Officer within 10 days of posting of this determination.

Subject: 2023 Domestic Violence Death Review Team (DVDRT) Pilot Report

Dear Supervisors,

The Department on the Status of Women has completed the Domestic Violence Death Review Team's Pilot Report and attached it for your information. This Domestic Violence Death Review Team (DVDRT) Pilot was jointly created by the San Francisco District Attorney's Office and the SF Department on the Status of Women pursuant to the provisions of California Penal Code 11163.3. The DVDRT Pilot reviews domestic violence-related fatalities to strengthen system policies and procedures and identify prevention strategies to reduce future incidents of domestic violence-related injuries and deaths.

The Department has made the report available to the public by posting it on our website. Additionally, the Department has sent the report to the Mayor's Office and will also send it to Department Heads and the San Francisco Family Violence Council.

Please let me know if you should have any questions.

All my best,

Kimberly

Kimberly Ellis | Director
San Francisco Dept. on the Status of Women

San Francisco Domestic Violence Death Review Team (DVDRT)
Pilot Report
May, 2023

The San Francisco Domestic Violence Death Review Team Pilot aims to honor the lives of those lost to domestic violence. May we continue to work collaboratively to design recommendations for systemic change that have the potential to prevent future such injuries or fatalities and to maintain safe and healthy communities.

Executive Summary

The Domestic Violence Death Review Team (DVDRT) Process and Methodology

This Domestic Violence Death Review Team (DVDRT) Pilot was jointly created by the San Francisco District Attorney's Office (SFDA) and the Department on the Status of Women of the City and County of San Francisco (DOSW) pursuant to the provisions of California Penal Code 11163.3.[1] The City and County of San Francisco have a long-established commitment to reviewing domestic violence-related fatalities, to strengthen system policies and procedures and identify prevention strategies to reduce future incidents of domestic violence-related injuries and deaths. San Francisco has an active Family Violence Council that addresses systems response to domestic violence but has not had staffing for a dedicated Death Review Team. The development of a Domestic Violence Death Review Team is a recurring recommendation from the Family Violence Council. In 2018 CCSF was able to secure additional resources to reintroduce a DVDRT in the form of a pilot. The SFDA and DOSW began by reviewing a prior protocol for domestic violence, child and elder death case reviews conducted by system partners.

Prior DVDRT efforts were co-chaired by the San Francisco District Attorney's Office and the Cooperative Restraining Order Clinic (CROC), with the Department on the Status of Women providing staffing and coordination. This prior experience laid a strong foundation for coordinating the relaunch named the DVDRT Pilot. The SFDA and DOSW engaged the Quattrone Center for the Fair Administration of Justice at the University of Pennsylvania Carey Law School (Quattrone Center or QC) to assist in coordinating and moderating the DVDRT Pilot.[2] The Quattrone Center is a national thought leader in sentinel event reviews in criminal justice and has assisted jurisdictions across the country in the conduct of such reviews in a variety of different contexts within the criminal justice system.

---

[1] Funding for the DVDRT was provided in part by the United States Department of Justice Office on Violence Against Women (OVW).

[2] This research was supported by Grant No. 2017-MU-MU-K021 awarded by the Bureau of Justice Assistance. The Bureau of Justice Assistance is a component of the Department of Justice's Office of Justice Programs, which also includes the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, the Office for Victims of Crime, and the SMART Office. Points of view or opinions in this document are those of the author and do not necessarily represent the official position or policies of the U.S. Department of Justice.

Principal participants in the DVDRT Pilot are:

- The San Francisco District Attorney's Office
- The Department on the Status of Women
- The San Francisco Police Department
- The San Francisco Medical Examiner's Office
- The San Francisco Department of Emergency Management
- The San Francisco Sheriff's Department
- Cooperative Restraining Order Clinic (CROC)
- The Quattrone Center for the Fair Administration of Justice (moderator)

In addition, the DVDRT included community-based domestic violence advocates and professionals ("Advocates") to provide additional expertise on domestic violence indicators, responses, and support and to assist the DVDRT in identifying factors that may contribute to domestic violence-related fatalities, as well as helping to design recommendations for systemic change that have the potential to prevent future such injuries or fatalities.

Incident Reviewed

The Victim was murdered in her apartment by her former boyfriend (Assailant) in the early morning hours of October 10, 2014. In his fourth visit to the apartment that night, Assailant shot Victim, then himself, killing them both. The murder occurred after multiple calls to 911 by the Victim and several of her roommates, and after three (3) visits to the scene by members of the San Francisco Police Department (SFPD), including a visit where the Assailant was arrested for being drunk in public and taken to the City Jail for a period of time. The DVDRT decided to review this event in an effort to understand the various factors that came together to enable this tragedy, and in so doing to design modifications to the City's response to domestic violence incidents that will lead to better outcomes for all involved.

The DVDRT carefully analyzed the events of the night of October 9, 2014, to understand the various factors that led to this tragic outcome, and consider how a safer outcome might have been achieved.

This tragedy illustrates a common challenge in helping SFPD officers respond effectively to domestic violence calls: providing responding officers with all of the information that might help the officers diagnose the risk that a domestic dispute could escalate to lethality. The DVDRT team focused on the following aspects of the event to identify contributing factors and recommendations for system changes:

1. *Improving computer-aided dispatch (CAD) systems to provide greater awareness to SFPD officers of prior incidents of violence between Assailant and Victim.*

The mobile computers and Computer-Aided Dispatch (CAD) systems used by SFPD at the time (and to some extent, still in effect today) did not automatically provide the complete history of violence between Victim and Assailant to the responding SFPD officers. It is important for responding officers to know as much as possible about previous violent incidents between the parties so that they can evaluate and navigate the situation once they arrive on the scene. A CAD system that automatically provides all prior DV-related charges against a person, as well as the ability to see any prior calls for emergency service at a specific address, including notes made by prior responding officers without requiring an additional search by a responding police officer would help provide this necessary context about the relationship and assist police in their assessment of immediate risk.

2. *Allegation of poisoning and real-time assistance for SFPD officers on scene evaluating*

   Any allegation of potentially lethal harm, such as the allegation of poisoning made to an SFPD officer by one of Victim's roommates, should be taken seriously by responding officers, even if it stands in apparent contrast to the emotional state of the Assailant. All officers should be trained to listen for allegations of poisoning and to identify them as potential red flags for lethal violent behavior.

3. *Broad interaction/information gathering by SFPD from roommates or other potential witnesses*

   While understanding that not everyone welcomes speaking to the police, SFPD officers should make every effort to gather details and context of domestic violence situations to enable the most appropriate plan for the future safety of all involved.

4. *Ability of SFPD to enforce physical separation despite residency of Assailant as a matter of law*

   SFPD officers cannot impose any limitations or sanctions against individuals that are not linked to specific, provable violations of the law. Several facts limited the custodial options available to SFPD officers who responded to Victim's apartment on the night of October 9, including:

   - There was no assertion on the night in question that Assailant had physically assaulted or even threatened Victim at any time prior to the murder.
   - Officers saw no evidence of any attempt by Assailant to force entry into the apartment.
   - Assailant's driver's license listed Victim's address as his address, preventing an arrest for trespassing or some other related violation.

   Several DVDRT team members suggested allowing police and courts to look beyond the address listed on a drivers' license and enabling officers to ensure a physical separation between people where physical violence has occurred or is deemed imminent based on prior history.

5. *Custodial treatment of intoxicated individuals*

At the second call for assistance, SFPD officers arrested and charged Assailant for being inebriated in a public place. This succeeded in providing space and an opportunity for de-escalation. Ensuring that victims understand the limits of such an arrest and providing victims with information and support to quickly create the safest possible environment for victims, is essential. Since this event, SPD has updated its procedures, and now has a Special Victims Unit Referral Card as a "leave behind" for victims. This information could also be provided by a domestic violence safety advocate who responded to the call along with SFPD officers (or perhaps even in lieu of an armed police response.)

6. *Real-time assistance for SFPD from domestic violence prevention advocates*

   SFPD officers responding to domestic violence calls are essentially asked to be experts in domestic violence, psychology, poison control, and several other discrete disciplines in addition to interpreting and enforcing the law based on imperfect and dynamic facts. Supporting not only officers, but also 911 call-takers and dispatchers with real-time access to experts in these, and potentially other fields, would greatly assist them in accurately assessing and de-escalating situations. This information could be provided by domestic violence experts who can co-monitor calls and discuss the type of needed response, and/or from checklists of questions designed to identify key information on the call. These experts could be located in the Department of Emergency Management and the 911 call center, to allow advocates to hear from (and potentially engage with) callers to 911 who are reporting domestic violence, and to communicate directly with responding officers. While SFPD would still be the point of contact with the caller at the scene, the DV advocate at the call center could help set the appropriate mindset for the officer while the officer is en route to the scene, given the officer specific factors to consider or look for upon his/her arrival on the scene, and would continue to be available to the officer as additional information is gathered at the scene.

7. *Providing closure/well-being assistance to 911 call-takers and dispatchers*

   An area discussed by the DVDRT unrelated to the specific events on October 9 but important enough to mention for further investigation by SFPD and the DEM was the emotional toll of DV and other emergency calls on DEM call takers and dispatchers. Providing necessary emotional and well-being support to these first responders is a vital and important service that would be supported by all DVDRT members.

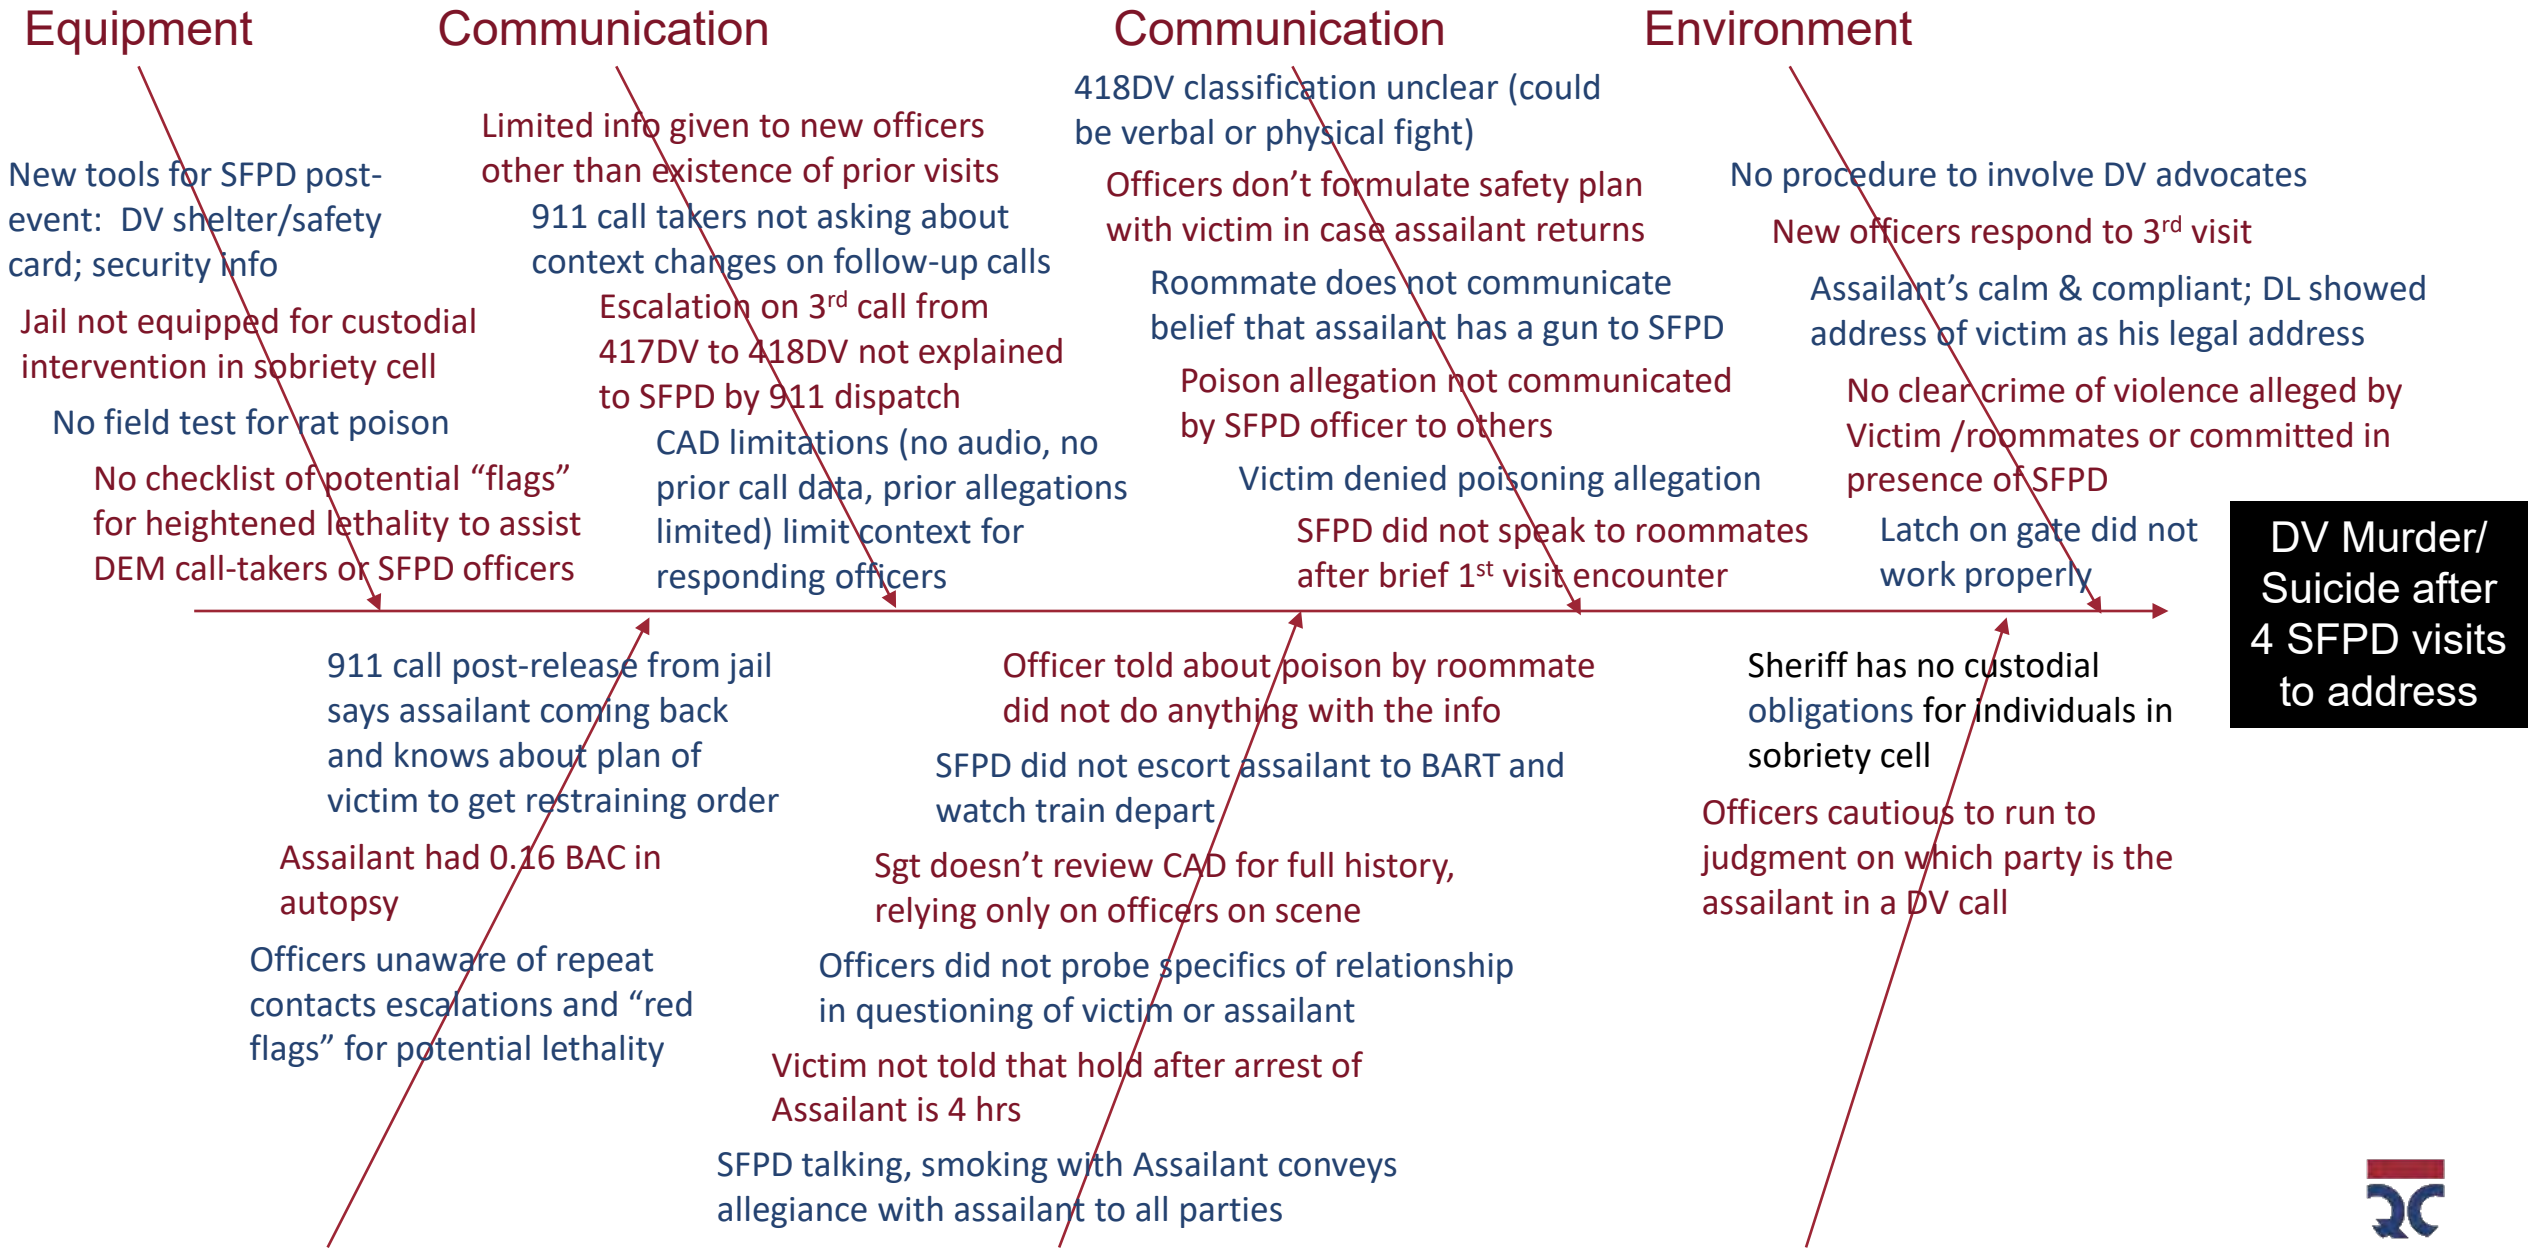
8. *Availability/use of body-worn video (BWV) cameras*

   The ability to have BWV from an office reviewable in real time by other officers or domestic violence safety advocates would allow for even greater insight and assistance provided to the officer as that officer assists in a safe resolution of the situation.

9. *SFPD's third response to Victim's address; efficient and thorough transfer of information to later-responding officers*

   One of the warning signs for lethality noted by the DVDRT was the simple fact of the repeated visits to the apartment by Assailant despite the continued presence of SFPD. The officers who had responded to the first two encounters were unavailable when Assailant returned to the apartment after Assailant's release from SF Jail. The officers that did respond lacked context from the prior two interactions that might have guided them differently. Again, improvements in CAD and mobile technology for SFPD could improve this.

EVENT REVIEW "FISHBONE" DIAGRAM: CONTRIBUTING FACTORS



DVDRT Recommendations

The Contributing Factors identified by the DVDRT led to sixteen (16) recommendations to SFPD and the City of San Francisco designed to prevent similar incidents from occurring in the future.

SFPD and the City of San Francisco should:

Recommendation Number	Recommendation	Contributing Factor Addressed
1.	Ensure that DEM professionals who handle calls for service to San Francisco's 911 hotline have real-time access at all times to experts in the management of domestic violence situations. These experts should assist call takers in, among other things: a. Coding calls for emergency service related to domestic violence b. Identifying and managing the risk of violence in each situation, including across the context of multiple calls for service from the same individual or at the same location; and c. Collecting and providing all relevant information to SFPD officers dispatched to the scene, to facilitate peaceful and appropriate resolutions of the emergency situation	1, 3 – 5, 12, 14
2.	Provide victims' advocates who can accompany SFPD to domestic violence calls for emergency services. Advocates should be available upon officer request but should be required in situations where a single address has been the source of more than one (1) call for emergency services in a 48-hour period. Services that the advocates provide to SFPD and victims of domestic violence might include, but need not be limited to: a. Assessments about the risk of future violence/lethality b. Assessments of the physical security of the victim's home, along with recommendations for improving the security and a process to inform property owners/landlords of identified security risks to occupants c. Provision of a physical (body and environment) security checklist for victims	1, 11, 13, 15-16, 20 – 23,

	d. Creation of a plan to ensure the immediate and short-term physical safety of victims of domestic violence, focusing on protection, not disempowerment e. The ability to refer the victim to a shelter in real time, 24/7/365 f. Assistance in transportation to a shelter; and g. Additional information set forth in the SFPD referral card	
3.	SFPD should memorialize observed security risks at locations where they are called for domestic violence using, among other tools, the SF Safe home assessment and the Cal VCB home security improvements	
4.	Landlords should receive training on minimum levels of security for their propert(ies) and a checklist of items prior to obtaining a rental license	22
5.	The City and County of San Francisco should provide SFPD officers with tools other than arrest to create separation and space between a potential or actual DV victim and the assailant, including but not limited to: a. Neighborhood Watch/SFSafe information b. Providing victims of domestic violence with information regarding emergency registration c. Assisting victims of domestic violence in identifying and traveling to a shelter that can provide immediate and overnight assistance and protection to the victim d. Providing a "Marsy's card" DV referral card e. Allowing SFPD officers to differentiate between the address on someone's driver's license and where they are actually living in terms of interpreting breaking & entering or other trespass violations	34
6.	The Department of Emergency Management (DEM) and SFPD should prioritize and/or expedite SFPD responses to repeated	

	allegations of domestic violence from the same address. SFPD should instruct DEM, and DEM should flag the address as a "Hazard Premise" upon the receipt of a 2nd call from the same address in 24-hour period	
7.	SFPD officers who respond to requests for emergency services in domestic violence cases should proactively seek to interview any and all bystanders, roommates, neighbors, and other individuals who may have observed the incident(s) or who may have background knowledge about the situation that provides useful context for navigating the situation in the short term and beyond. This includes seeking to interview other roommates or residents in an apartment or residence when there is a civil standby (taking into account SFPD policy on arrests when children are present)	8 - 10
8.	When responding to DV calls for emergency services, SFPD officers should always attempt to question as many people as possible to understand the dynamics of the situation with as much context as is practicable, while understanding that witnesses or other residents are not required to provide any information.	15
9.	SFPD officers should have immediate access to the audio of the current 911 call to which officers are responding, as well as to prior calls from the same individual or from the same address. This access should be provided to the officers in real time, and not later than their arrival at the scene. a. DEM 911 hotline call takers should have the discretion and ability to provide information directly to responding officers rather than sending audio of calls directly to SFPD officers. b. The CAD system used by DEM and SFPD officers should provide SFPD officers with the ability to access video and/or audio recordings of prior calls for emergency service from the same address, not just their existence or coding	

	c. The CAD system should allow SFPD officers responding to domestic violence calls for assistance to compare the statements of individuals at the scene with statements that were made to the 911 call taker.	
10.	In situations where SFPD officers are responding to a call for service related to domestic violence and other SFPD officers have responded to similar calls for service in the prior 48 hours, SFPD should improve the ability of its responding officers to speak directly to the prior responding officers, and provide the responding officers real-time, mobile access to reports filed by the prior responding officers.	
11.	The City of San Francisco should fund and accelerate purchase and implementation of an upgraded Computer-Aided Dispatch (CAD) system that can, at a minimum: a. Provide officers in real time with the audio, or at a minimum a readable transcript, of any prior 911 call made to the Department of Emergency Management and b. Provide officers in real time with prior allegations of domestic violence made to the SFPD against any individual. Such information should be capable of delivery to an officer's mobile phone upon request.	2, 32
12.	DEM 911 call-takers should receive training at the time of their hiring that is refreshed at least every other year on domestic violence-specific psychology of assailants and victims, as well as a set of questions or checklist for the identification of "flags" that will assist call-takers in the ability to evaluate the risk of future violence and/or lethality in a given request for emergency services related to domestic violence. a. The training should include ways to evaluate/spot avoidance or minimization behaviors from victims of domestic violence	

	b. The DEM should provide call takers with DV-specific call guide(s) to assist in gathering necessary data to help SFPD and victim's advocates who respond to a DV call	
13.	At the time of hiring and not less frequently than every other year thereafter, DEM should ensure that its call-takers and dispatchers receive training on vicarious trauma and stewardship and access to appropriate clinical resources to address the risks of vicarious or secondary trauma on these individuals. SFPD and DEM should also discuss and decide whether, when and how to provide information about the ultimate resolution of 911 calls to call-takers and dispatchers, who typically hear only about the request for emergency services and do not know how the events are resolved	
14.	Officers need to build time into DV calls to be thorough in their reporting of data from the individuals interviewed to one another, and to supervisors	
15.	Any time an allegation is made that one person has tried to poison another in a domestic violence call: a. The SFPD officer who receives the allegation should contact Poison Control for advice or data that might allow the officer to prove or disprove the allegation; and b. The officer should immediately escalate the allegation to a supervisor to ensure that it is factored into an appropriate SFPD response. These actions should be taken even if the allegation is denied by either the alleged poisoner or the alleged target of the poisoning.	6, 7
16.	The City and County of San Francisco should expand the number of beds providing triage shelter to victims of domestic violence and should provide a free, live 24-hour resource that can connect victims of domestic violence to shelter services.	34

Methodology

This Domestic Violence Death Review Team (DVDRT) Pilot was jointly created by the San Francisco District Attorney's Office (SFDA) and the Department on the Status of Women of the City and County of San Francisco (DOSW) pursuant to the provisions of California Penal Code 11163.3.[3] The City and County of San Francisco has a long-established commitment to reviewing domestic violence-related fatalities, to strengthen system policies and procedures and identify prevention strategies to reduce future incidents of domestic violence-related injuries and deaths. San Francisco has an active Family Violence Council that addresses systems response to domestic violence but has not had staffing for a dedicated Death Review Team. The development of a Domestic Violence Death Review Team is a recurring recommendation from the Family Violence Council. In 2018 CCSF was able to secure additional resources to reintroduce a DVDRT in the form of a pilot. The SFDA and DOSW began by reviewing a prior protocol for domestic violence, child and elder death case reviews conducted by system partners.

The DVDRT Pilot was convened, staffed and coordinated by the Department on the Status of Women. The SFDA and DOSW engaged the Quattrone Center for the Fair Administration of Justice at the University of Pennsylvania Carey Law School (Quattrone Center or QC) to assist in coordinating and moderating the DVDRT Pilot.[4] The Quattrone Center is a national thought leader in sentinel event reviews in criminal justice and has assisted jurisdictions across the country in the conduct of such reviews in a variety of different contexts within the criminal justice system.

Participants, Roles and Responsibilities.

The SFDA, DOSW and QC began by identifying the parties who would participate in the DVDRT and creating a Memorandum of Understanding (MOU) governing the parties' participation. Principal participants in the DVDRT are:

- The San Francisco District Attorney's Office
- The Department on the Status of Women
- The San Francisco Police Department

[3] Funding for the DVDRT was provided in part by the United States Department of Justice Office on Violence Against Women (OVW).

[4] Funding for the Quattrone Center's participation was provided in part by the Sentinel Event National Demonstration Project, an initiative supported through funding by the U.S. Department of Justice Bureau of Justice Administration (BJA) with additional support from the U. S. Department of Justice National Institute of Justice (NIJ).

- The San Francisco Medical Examiner's Office
- The San Francisco Department of Emergency Management
- The San Francisco Sheriff's Department
- Cooperative Restraining Order Clinic (CROC),
- The Quattrone Center for the Fair Administration of Justice (moderator)

In addition, the DVDRT included community-based domestic violence advocates and professionals ("Advocates") to provide additional expertise on domestic violence indicators, responses, and support and to assist the DVDRT in identifying factors that may contribute to domestic violence-related fatalities, as well as helping to design recommendations for systemic change that have the potential to prevent future such injuries or fatalities. The principal participants in the DVDRT selected a subset of the 23 potential principal participants and Advocates listed in the MOU to participate in this DVDRT. Members engaged in a series of meetings to set guidelines, ultima case selection and ultimately design the pilot. Upon case selection a smaller group of participants with the most direct experience with the case convened to complete the Fatality Review. After review of the facts and key decision-making the larger group was reconvened to discuss policy recommendations in the context of current operations. Ultimately final recommendations were reviewed by all participating agencies and summarized in this report. The hourglass model of DVDRT Pilot member participation was chosen in order to manage schedules, and maintain confidentiality.

Universal expectations of all participants

Pursuant to the agreement creating the DVDRT, all principal participants in the DVDRT were expected to:

- Provide information from their records consistent with legal authority and standard practice
- Serve as liaison to their professional counterparts and agency and be in a position of authority to make decisions around recommendations generated from fatality review
- Provide definitions of their professional terminology
- Share and interpret the procedures and policies of their agency as it relates to the involvement of the victim within the agency
- Explain the legal responsibilities or limitations of their profession
- Assist in making referrals for services to surviving family members, if applicable
- Explore the way cases flow through systems and how employees are organized in systems to handle or manage cases; and
- Respect the different roles and responsibilities of death review team members and recognize the importance of all voices being represented at fatality review meetings

Role of the Coordinator

The QC was engaged to serve as the Coordinator of the DVDRT. As Coordinator, the QC was expected to:

- Serve as an objective coordinator to establish a process for DVDRT meetings
- Provide the DVDRT team with expertise on the sentinel event review process that was being applied by the DVDRT to the case chosen for review
- Work as requested by the DA, DOSW, SFPD, and other agencies to develop a system for tracking domestic violence related deaths and selecting cases for fatality review
- Conduct research and prepare findings and recommendations for the DVDRT
- Assist the DOSW project manager with meeting schedules, agendas and community updates
- Attend all DVDRT meetings and moderated all conversations; and
- Encourage members by keeping them informed of meetings and urging them to fully participate in the review process and assist in data collection for the death review team.

DVDRT Process.

The parties agreed to a process as follows:

Case selection.

The DOSW and SFDA each designated a representative to coordinate with all DVDRT members and assisted the DVDRT in the selection of the case reviewed in this report. Principal participants selected the first case to be reviewed by the DVDRT. The case selected was chosen for several reasons. First, any fatality caused by domestic violence is eligible for review by the DVDRT. While all such fatalities are shocking and tragic, this case was selected as a well-known and high-publicized case, one which all participants had familiarity, and a fatality that occurred despite multiple efforts by SFPD to de-escalate the situation and to provide separation and distance between Assailant and Victim.

It is worth noting that one issue that can plague jurisdictions seeking to investigate highly charged undesirable outcomes in the criminal justice system is the existence of civil litigation related to the case. Many jurisdictions are wary of conducting sentinel event reviews like this one until such litigation has been resolved for fear of building a record that might implicate the jurisdiction in liability. In this case, that issue did not present itself as by the time the DVDRT was created, the litigation related to the case had been concluded.

The events reviewed by the DVDRT herein occurred in 2014, and the bulk of our review occurred in late 2021/early 2022, more than seven years after the events. While the review generated novel insights, the DVDRT feels that more rapid improvements to the system will be generated by more contemporaneous reviews. The DVDRT's enabling statute does have "safe harbor" language that may preserve the DVDRT's review work as separate from any related civil litigation, without in any way limiting the rights of those harmed in such incidents to pursue appropriate relief through the courts. It is our hope, then, that the agencies that participate in future DVDRTs will be able to identify and

investigate cases more rapidly, and without the potential chilling concern of pending or potential civil litigation.

Creation of Data Use Agreement.

To enable the collection of information related to the case selected, the principal parties (San Francisco Police Department (SFPD), San Francisco District Attorney's Office (SFDA), San Francisco Medical Examiner's Office (SFME), San Francisco Department of Emergency Management (DEM), Department on the Status of Women (DOSW), and the Quattrone Center for the Fair Administration of Justice (QC)) entered into a Data Use Agreement (DUA) to ensure that all documents or other material used by or

reviewed by the DVDRT would be in compliance with California law and in keeping with California Penal Code 11163.3.[5]

Case Information Collection.

The members of the DVDRT attempted to gather as much information about the case as possible. First, each organization participating in the DVDRT was asked to provide any information in its possession to the group for review, within the confidentiality and data use provisions provided by law and the DUA. Documents requested included:

- All prior records related to the case including 9-1-1 calls, restraining orders, police reports, probation reports, medical records, mental health records, etc.
- Medical Examiner's report
- Details of the incident
- Race, age, gender, primary language, and sexual orientation of each individual involved in the event
- Prior histories of Victim and Assailant, individually and together
- State summary criminal history information, criminal offender records information, and local summary criminal history information
- Prior intervention contacts with the system and community-based agencies
- Alcohol and/or drug use and other lethality indicators
- Use of weapons

To perform as close to an "all stakeholders" review as possible, the principal parties in the DVDRT invited other organizations that had participated in the underlying case – in this case, the Department of Emergency Management and San Francisco Sheriff's Office – to provide documentation and other information as well.

These three organizations (SFPD, DEM, and SF Sheriff's Office) as well as the SFDA ultimately provided records in their possession related to the fatality, though SFPD did not provide any materials related to interviews with or statements by any of the officers who responded to calls related to the events in question. SFPD did not allow its personnel to be interviewed.

Additional information about the case under review was found in an in-depth San Francisco Chronicle article from 2017 and court filings pursuant to civil litigation filed by the estate of the deceased victim in the case. While the court filings included deposition transcripts for all of the police participants and several of the Victim's roommates, these transcripts had been edited and the DVDRT was unable to

[5] Complete text of this statute is set forth in Appendix B.

obtain complete transcripts. The absence of direct interviews and complete transcripts is a potential limitation of this report.

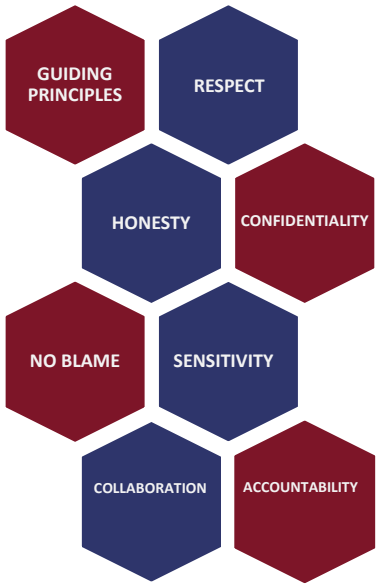
The QC and DOSW created a case chronology using the existing data available to them; the SFDA and DOSW identified specific individuals from the SFDA, SFPD, DOSWQ, DEM, ME, Sheriff's Office, and Advocates to participate in meetings evaluating the case, with the goal of identifying factors that contributed to the unwanted outcome of a domestic violence fatality (Contributing Factors or CFs) and generating Recommendations that, if implemented, would have prevented the Contributing Factors from coming together to result in a domestic violence fatality.

Fatality Review Meetings.

The DVDRT met five (5) times for two (2) hours each. At each meeting, the QC led the group through a thorough chronology of the events and moderated a discussion designed to elicit thoughts about potential contributing factors. The meetings were designed to be "blame-free." In other words, while the DVDRT was aware that it was possible that one or more people had acted in ways that might be deemed to be contrary to an agency's policies or procedures, and while certainly Assailant's final acts were intentional, the DVDRT asked its questions and conducted its investigation under the starting assumption that every participant from the Department of Emergency Services, SFPD, and Sheriff's Office sought at all times to avoid the occurrence of domestic violence, and of course acted in ways deigned to prevent the violent fatalities that ultimately occurred. Thus, rather than asking who was "at fault" for the fatalities, the DVDRT asked what information we could use to identify why these fatalities happened despite the best efforts of all involved, and what could be done to help future respondents to domestic violence calls be more empowered and enabled to prevent future fatalities.

Shared principles of communication

The participants of the DVDRT agreed on the following guiding principles to enable full, frank and honest discussion regarding Contributing Factors to the DV fatality:



Contributing Factors were placed in the following categories:

- Communication: the transfer of information between and among any participant or participants

  Example: a text message sent by an officer who had responded to a prior call to the same address to an officer responding to a later call; information and context relayed to a police officer by a 911 call taker or dispatcher

- People/Supervision: Acts or omissions by individuals or supervisors that contributed to the undesired event

  Example: A police supervisor's decision to participate in an assessment of whether or not to arrest a potential DV assailant, and what to charge

- Cultural Leadership: Any established modes of operation within an organization that contributed to the undesired event

  Example: Statements from leadership of an agency that characterize domestic violence calls in a particular light that might impact participants, such as reminding officers prior to responding to a call for help based on domestic violence allegations that sometimes the individual calling for assistance is the aggressor in a DV incident

- Procedures: Existing policies and procedures relevant to the undesired event, including policies and procedures that were followed and/or policies and procedures that were not followed during the event

  Example: Written policies regarding how to conduct a "civil standby" during a DV incident involving the police; policies involving when and how to hold an individual in a sobriety cell and when and how to release the individual

- Equipment: Tools or materials used (or not used) by participants in the event that might have contributed to the undesired event or that could have helped generate a more favorable outcome

  Example: Resource cards for police officers to give to people reporting acts of domestic violence that would assist the individuals in forming a plan or getting access to shelters that can protect them from domestic violence assailants

- Environment: Physical circumstances surrounding the event that might have had an impact on an individual's actions or awareness

  Example: physical security features outside a home where an assailant seeks entry to engage in an act of domestic violence

- Other.

It should be noted that a Contributing Factor may be deemed to be a positive and productive thing or a negative thing, and that not all Contributing Factors need to be (or can be) addressed by the DVDRT participants.

Development of Findings and Recommendations.

The last two (2) DVDRT in-person meetings were dedicated to drafting Recommendations that would prevent the Contributing Factors from coming together as they did, and potentially preventing another unwanted domestic violence fatality in the future.

The Contributing Factors and Recommendations generated by the DVDRT were synthesized and catalogued by the Quattrone Center and sent in draft form to all DVDRT participants for review and feedback. Once all participants reached consensus, this report was released.

DVDRT Analysis and Recommendations

This section provides an overview of the events reviewed by the DVDRT, a summary of its analysis, and its consensus recommendations for change. The DVDRT carefully reviewed each of the interactions between the Victim, the Victim's roommates, the Assailant, DEM and SFPD throughout the course of the day in question. Each interaction is explained and analyzed, with a more detailed discussion of the Contributing Factors and recommendations attributed to each Incident.[6]

Chronology of Events

The events in question have been examined in detail in different settings, including a San Francisco Chronicle article[7] published in 2017. The chronology provided here is meant to provide a supportive basis for the contributing factors and recommendations identified by the DVDRT and is not an exhaustive description of every event that occurred on the night of October 9 and early morning of October 10, 2014.

October 9, 2014

At 8:37 pm on October 9, 2014, the Department of Emergency Management (DEM) received a call from a woman in her apartment on Natoma Street in the SOMA neighborhood of San Francisco. The woman ("Victim") said that she and her ex-boyfriend were fighting and that she had asked him to leave but he would not. As the call unfolded, Victim told 911 that the ex-boyfriend was leaving and there was no police response needed.

At 9:14 pm, Victim again called 911. She said that she and the ex-boyfriend had been in a fight the previous night, and now the ex-boyfriend, who had been drinking all day, would not stop ringing the doorbell. Victim provided additional identifying information to the call-taker and agreed to speak with officers when they arrived. The call-taker recorded the call as a 417 DV.[8]

---

[6] Some of the DVDRT's recommendations may have financial costs that the DVDRT has not attempted to calculate. In addition, many in the community are strongly against providing any additional financial resources to SFPD. The DVDRT's recommendations are intended to prevent the recurrence of negative outcomes of the protests in the summer of 2020 and the DVDRT takes no position on the allocation of budget dollars to SFPD or other important social services.

[7] https://projects.sfchronicle.com/2017/cecilia-lam/

[8] 417 is the San Francisco Police code for "person ringing doorbells/begging," and the additional "DV" code is added by the dispatcher that the call appears to implicate domestic violence issues.

Five minutes later, Victim's roommate also called 911 and stated that the ex-boyfriend was trying to break into the apartment and was scaring Victim. At this point, the call was upgraded to 418 DV, signifying that a fight was occurring but without weapons.[9]

At 9:33 pm, Victim called 911 for a third time. This time, Victim reported increasing fear about the escalating domestic situation. The call-taker informed Victim that officers were on the scene.

Two San Francisco Police Department (SFPD) officers arrived at Victim's address within minutes. Victim's five-bedroom apartment, which she shared with four roommates, was on the second floor of a house. To access the apartment, people from the street would have to come through a self-closing and locking iron exterior gate, walk up a few stairs to a porch, walk through a door into the house, and walk up a flight of stairs to the apartment where Victim lived with several additional roommates.[10]

As the officers pulled up in front of the apartment building, they saw Victim's ex-boyfriend ("Assailant") sitting on the steps of Victim's house, between the locked gate and the front door. The officers pat-searched the ex-boyfriend for weapons and found none. They also noted that there were no signs of damage to the front door. One officer later recalled that Assailant seemed under the influence of drugs or alcohol.[11]

Victim and one of her male roommates came downstairs to talk to the officers. One officer spoke to Victim and her roommate, while the other officer walked Assailant a short distance away and spoke to him separately.

Victim told the officers that Assailant had previously lived with her in the apartment, but that he had moved out several months ago. She said that Assailant had recently called her saying he was homeless, and that she had felt sorry for him and allowed him to stay with her again. Victim said that she had asked Assailant to move out but denied that he had been trying to break into the apartment.

Victim's roommate was holding a plate of pasta and told the officer that Assailant had put rat poison in Victim's spaghetti. This was disputed by Victim, who stated that she had eaten the spaghetti and felt

---

[9] https://www.scansf.com/sfpd_radio_codes.txt#:~:text=10-30 Person%2Fvehicle wanted,10-37 Identify the operator.

[10] A roommate later described the outer gate as follows: "the lock on that gate has always been broken. . . But if you got it the right way, you could get it to like latch secure. But it was never like *secure* secure, if that makes sense."

[11] The DVDRT was unable to communicate directly with the participants in these events, whether they were SFPD officers or civilians (e.g., Victim's roommates). The perceptions and understandings of the officers reflected here are taken from redacted deposition transcripts conducted as part of a subsequent civil litigation conducted by the estate of the Victim.

fine, and that the ex-boyfriend would not hurt her. The officer concluded that what the roommate was saying was rat poison looked like "garnish." Given that and Victim's assertions, the named officer concluded that the spaghetti had not been poisoned. The officer did not inform their partner (or any other officer) about the poisoning allegation.

The roommate was later deposed in civil litigation related to the incident. He described the officer's reaction as being dismissive or uncaring about the allegation of attempted poisoning; whether this was accurate or not, the roommate went upstairs in frustration after Victim's denial of the allegation, which roommate was aware of because Victim had expressed the concern previously in the apartment.

Based on their conversations with Victim (whom one of the officers later described as "very calm") and Assailant (who remained calm and cooperative with the officers throughout the incident), the officers concluded that there was no evidence that a domestic violence crime had occurred as the incident only involved a verbal argument. They found no evidence of breaking & entering or other crime. Finally, Assailant's driver's license showed his home address to be Victim's apartment. While this did not negate Victim's claims that Assailant had moved out (claims Assailant did not dispute), it did complicate any ability to arrest Assailant for trespassing.

Assailant agreed with the officers that he would leave, walk to BART, and stay with a relative in the East Bay. Victim agreed that she was satisfied with this outcome and the officers watched Assailant walk away. As one officer described it, "She didn't appear to be . . . under stress or duress . . . she had a calm demeanor and just wanted him to leave." Unfortunately, after the officers left, Assailant returned and began pounding on the front door demanding to speak with the victim.

At 10:10 pm, Victim again called 911. She indicated that she was "getting a little bit more, um, scared, because it's an escalating domestic violence situation." The call-taker reported that a "male [was] now trying to break in front door." The call was upgraded to 602 DV (breaking and entering).

One of Victim's roommates had gone downstairs to respond to Assailant's persistent ringing of the doorbell. She observed that Assailant was "really, really drunk," and said that at one point Assailant reached into his pocket and she saw something "black and shiny."[12] At Assailant's request, the roommate went back to the apartment and retrieved a bag of Assailant's possessions. When she opened the gate to give the bag to Assailant, he pushed past her and sat on the porch between the outer gate and the door to the apartment.

[12] In a redacted deposition transcript, this roommate stated that she told other roommates that she thought Assailant might have a gun. There was nothing in the materials reviewed by the DVDRT that indicated that roommate provided this information either to Victim or to any of the police officers who came to the scene, or that she spoke to any of those officers at all.

The same SFPD officers that had responded to the prior call arrived on the scene at 10:20 pm. Once again, the officers conducted a pat search of Assailant and did not find any weapons. The officers noted that Assailant's speech was slurred and he had trouble standing, and that he appeared more intoxicated than in the previous visit.

As before, Victim informed the officers that Assailant was ringing the doorbell, but denied that he was trying to break in. According to one of the officers, Victim appeared more agitated than before. The officers separated Victim and Assailant and once again discussed the situation with them separately. As those conversations were occurring, an SFPD Sergeant also arrived on the scene.

The officers conferred with each other and then with the Sergeant. Because there was again no assertion of Assailant physically touching Victim and no evidence of an attempt to break in, the officers determined that they had no probable cause to arrest Assailant for domestic violence. To provide some separation of time and space between Assailant and Victim, however, the officers arrested ex-boyfriend for public intoxication and took him to the SF County Jail, roughly one-half mile away, where he was held in a sobriety cell. Prior to taking Assailant to the jail, the SFPD officers searched his belongings. No weapons were found.

Assailant was processed at the SF County Jail by the San Francisco Sheriff's Office. Its policy at the time (and now) was to hold people for a minimum of four hours, after which time the person would be released.[13] The Sheriff's Office did not and does not routinely evaluate the Blood Alcohol Content (BAC) of an individual to evaluate intoxication, but releases people based on more subjective assessments of sobriety after a minimum four-hour detention.[14] A Sobering Cell Observation Record indicates that

[13] "The sobering cell described in Title 24, Part 2, Section 1231.2.4, shall be used for the holding of inmates who are a threat to their own safety or the safety of others due to their state of intoxication and pursuant to written policies and procedures developed by the facility administrator. Such inmates shall be removed from the sobering cell as they are able to continue in the processing. In no case shall an inmate remain in a sobering cell over six hours without an evaluation by a medical staff person or an evaluation by custody staff, pursuant to written medical procedures in accordance with section 1213 of these regulations, to determine whether the prisoner has an urgent medical problem. At 12 hours from the time of placement, all inmates will receive an evaluation by responsible health care staff. Intermittent direct visual observation of inmates held in the sobering cell shall be conducted no less than every half hour. Such observation shall be documented." *Minimum Standards For Local Detention Facilities*, California Board of State and Community Corrections, Title 15, §1506, accessible at http://www.bscc.ca.gov/wp-content/uploads/Adult-Titles-15-Effect-4-1-17.pdf.

[14] Assailant's autopsy measured his Blood Alcohol Content (BAC) at 0.16. Note that nothing is known about Assailants activities between the time he was in the Jail and subsequent events described herein.

Assailant was placed in the cell at 11:30 pm on October 9, and was observed periodically until 3:41 am on October 10, at which time his belongings were returned and he was allowed to leave the Jail.

October 10, 2014

At 4:00 am, Victim made two calls to 911. She explained in the first that Assailant had called her, and had been released from jail, and was coming back to the apartment. She also told the call-taker that she had told Assailant that she was going to go to court in the morning and seek a restraining order against Assailant. These calls were coded by the call-taker as 602, meaning that there was a breaking and entering occurring. They were not listed with the "DV" suffix indicating domestic violence as part of the disturbance.

SFPD officers responded to the call within three (3) minutes. The officers who responded to this call had come from an adjacent precinct as the local officers were all addressing other calls. Thus, they were different officers than had responded to the previous calls from Victim. One of the officers from the prior calls had recognized the address, however, and sent a text to one of the responding officers that said "heads up – we've been there before." The text did not provide additional context, but Assailant volunteered his name, the prior calls that evening, and that he was arrested and had spent time in the jail's sobriety cell earlier that evening. He also produced his driver's license and said that he had lived at the apartment for 30 months. Officers described Assailant as calm and compliant, while Victim was clearly angry and swearing at Assailant; the officers said that assailant said to them, "see what I'm dealing with? You see I have to go through?"

As before, when the officers arrived Assailant was on the steps of the exterior gate at Victim's apartment, and had a black bag with him. The officers took him away from the house and pat-searched him, including patting down the outside of the bag; neither search turned up any weapons.

Assailant stated that he lived in the apartment and wanted clothing for work. One of the named officers asked Victim to come outside. After speaking with both Victim and Assailant and confirming that Assailant had not "put hands on" Victim, the Officers asked Victim if she would agree to a "civil standby," a process in which Assailant, accompanied by the officers, would enter the apartment, gather his belongings, and leave the premises. Victim, who was described by the officers as being quite angry and agitated, agreed to this. In the meantime, the Sergeant who had previously been to this address returned, wanting to help the responding officers with procedures and paperwork. He entered the apartment and witnessed the civil standby, in which Victim stayed in the kitchen, accompanied by an officer, while Assailant went into Victim's bedroom, gathered his belongings for what the officers described as less than a minute, and left the house. The officers did not speak to any of Victim's roommates, all of whom had their bedroom doors closed and none of whom came out to the shared area of the apartment. Outside the apartment, the officers and sergeant talked further with the ex-boyfriend; one of them smoked a cigarette with the Assailant. The officer later stated that he had told

Assailant not to come back or he would be arrested, and Assailant repeated that all he wanted was his things and he would now leave and not return.

At approximately 4:55 am, Assailant entered the apartment, entered Victim's room, and shot and killed her and then himself.

Analysis

The DVDRT carefully analyzed the events of the night of October 9, 2014 to understand the various factors that led to this tragic outcome, and consider how a safer outcome might have been achieved.

This tragedy illustrates a common challenge in helping SFPD officers respond effectively to domestic violence calls: providing responding officers with all of the information that might help the officers diagnose the risk that a domestic dispute could escalate to lethality. Each of the officers who responded to Victim's numerous 911 calls described Assailant's demeanor throughout each of their interactions as calm, compliant, and reasonable. Similarly, while Victim did reflect significant anger and frustration in the third visit by SFPD to the house, she repeatedly stated that Assailant had not been physically abusive at any time during the current day and night, and downplayed any concerns expressed by the officers that Assailant had been, or would be physically violent against her. She also was ultimately left in an apartment with four other roommates and was not left alone in her apartment.[15]

At the same time, there were a number of subtle pieces of information that were quickly identified by experts in domestic violence as correlating to an increased likelihood of violent, and perhaps even lethal behavior. Helping DEM, SFPD officers, and victims of domestic violence identify, understand, and act upon these data points was viewed as the most likely way to reduce domestic violence fatalities in the future. The DVDRT team focused on the following aspects of the event to identify contributing factors and recommendations for system changes:

1. Improving computer-aided dispatch (CAD) systems to provide greater awareness to SFPD officers of prior incidents of violence between Assailant and Victim.

An immediate sign of risk to Victim was the history of violence by Assailant towards Victim, coupled with the fact that Victim had recently broken up with Assailant and he had left the residence. While the events within the DVDRT's review were confined to October 9 and the early morning hours of October 10, there had been reports to SFPD of violence by Assailant towards Victim in 2009 and again in 2012, and Victim and Assailant agreed in discussions with SFPD officers that the two had broken up and she had asked him to leave the apartment a few weeks prior. While Victim's roommates speculated that the reason for the breakup may have been violent behavior by Assailant against Victim, this was not probed by the SFPD officers in discussions with Victim, Assailant or Victim's roommates.

[15] Victim's anxiety and fear were more evident in her 911 calls, but it is not standard practice to provide that audio to responding officers due to a reasonable concern that the calls would unnecessarily excite or agitate the officers, causing them to enter the scene with undue aggression rather than placing an emphasis on de-escalation.

The violent incident in 2012 had led to criminal charges being filed against Assailant for assaulting Victim and two of her roommates. However, because none of the three individuals wanted to pursue the charges against Assailant, SFDA was unable to pursue the case.[16]

This earlier history was available to the responding SFPD officers, but not easily accessed, as the mobile computers and Computer-Aided Dispatch (CAD) systems used at the time (and to some extent, still in effect today) to send information from the 911 call-taker to the responding officer did not automatically provide a complete history of prior charges brought against an individual as part of the initial CAD report given to officers while they drive to the scene of a 911 call.[17]

Instead, officers wanting to see a full history of previous DV incidents between Victim and Assailant would have had to proactively search for specific priors of Assailant using a laptop or tablet in their car. This can be a time-consuming process, and difficult to balance with the need to respond quickly to the scene. But it is important for responding officers to know as much as possible about previous violent incidents between the parties so that they can evaluate and navigate the situation once they arrive on the scene. A CAD system that automatically provides all prior DV-related charges against a person, as well as the ability to see any prior calls for emergency service at a specific address, including notes made by prior responding officers without requiring an additional search by a responding police officer would help provide this necessary context about the relationship and assist police in their assessment of immediate risk.[18]

---

[16] The dismissal of the prosecution of Assailant did not end the efforts to assist Victim in 2012. DVDRT was told that representatives of La Casa, a shelter for women suffering from domestic violence, reached out to Victim the day after the 2012 incident, but was unsuccessful in reaching Victim. If a similar situation were to occur today, both a representative from La Casa and a victim's advocate from the San Francisco DA's Office would have contacted Victim and attempted to provide counseling, shelter and other services to assist Victim in creating distance from the violent relationship, whether or not the criminal case progressed.

[17] CAD would provide officers with an individual's unique "SF number" – a 6-digit number for anyone who has been booked in the SF Jail – upon request. With that number, an officer could see outstanding warrants for arrest or restraining orders, as well as prior felonies and misdemeanors or resisting arrest citations. But prior hazards related to a specific address would only have been available through a second search of records.

[18] The DVDRT was told that this functionality could only be provided via an upgrade to the existing CAD system, something that is years away from implementation due to the need for using City and County of San Francisco contracting, purchasing, and implementation systems. It would also require 911 call-

One way in which SFPD has modified its policies since the events reviewed here is to include a policy that officers responding to a DV call should search for any history of prior DV events related to the parties prior to arriving at the scene.[19] Supporting this with technology that speeds the necessary information to officers will help protect victims and officers going forward.

2. Allegation of poisoning and real-time assistance for SFPD officers on scene evaluating

Another signal that Assailant's behavior was escalating and becoming potentially lethal was the allegation made by one of Victim's roommates that Assailant had tried to poison Victim. The roommate explained the allegation to one of the responding SFPD officers, even presenting the officer with the plate of pasta that had rat poison in it. Assailant downplayed the accusation, and the officer did not pursue things further. Subsequent testing of the food, however, revealed the presence of rat poison.

DV experts felt strongly that any such allegation of potentially lethal behavior should be taken more seriously by responding officers for two reasons. First, an attempt to poison Victim would be strong evidence of the potential for Assailant's behavior to escalate to lethality. Second, an attempt to poison another person is a felony that would have allowed the officers to arrest and hold Assailant in custody long enough for Victim to find another, safer environment, obtain a restraining order, or take other protective steps that might have prevented her death.

The roommate who reported the allegation to the officer later explained that the officer appeared to disregard the allegation; the officer explained that they thought that the green flecks of rat poison "looked like garnish" to the officer. This, combined with Victim's denial that the poisoning had occurred, seemed to convince the officer that no further investigation was required, to such an extent that the officer neither (a) contacted poison control experts to see whether the claim could be substantiated or (b) informed other officers on the scene about the allegation for their input. SFPD officers with experience in domestic violence pointed out another key issue in establishing the potential credibility of this allegation, which might seem outlandish to casual observers: in this instance, the issue was initially raised not by Victim, but by a roommate, a fact that could add credibility to the assessment as the roommate would be less likely to construct a false narrative and less likely to downplay the event.

To address these issues, all officers should be trained to listen for allegations of poisoning and to identify them as potential red flags for lethal violent behavior. Additional resources should be made available to officers to evaluate such claims, such as poison control experts who can be accessible to officers via a hotline when an allegation of poisoning is made. Such a hotline could provide officers with assistance

takers to code the request for assistance with a "DV" tag, something that was not done initially when Victim called in but that was quickly added in subsequent calls.

[19] Department General Order 6.09 SFPD establishes policies regarding domestic violence incidents and outlines procedures for investigations as well as processing, and enforcing court orders.

on how to verify the allegations, possibly with telltale physical signs that could allow greater recognition of poisons in the moment, or at a minimum with information on how to preserve evidence for testing. Once that information is known, officers would be in a better position to decide whether the existing information provides probable cause to arrest and hold an individual in custody in the meantime.

3. Broad interaction/information gathering by SFPD from roommates or other potential witnesses

Another way for SFPD officers responding to DV calls to gather more context and data about the environment is to speak to other observers of the primary participants in the DV call. In this instance, Victim had at least four (4) roommates in the apartment[20] who could have provided additional insight to officers on the relationship between Victim and Assailant, and potentially neighbors in the downstairs apartment as well. While understanding that not everyone welcomes speaking to the police, a situation that was potentially further complicated by Assailant's presence at the scene, SFPD officers should make every effort to gather details and context of domestic violence situations to enable the most appropriate plan for the future safety of all involved.

In this instance, interviewing the roommates may well have revealed additional information regarding the reason for Assailant's recent breakup with Victim, or the allegation that Assailant attempted to poison Victim. It also could have alerted SFPD officers to a more immediate and significant concern. One of Victim's roommates later testified that she thought that she had seen Assailant with a gun prior to the second SFPD response to the apartment. This information was never transmitted to the police, a contributing factor that is shared by the roommate, who did not volunteer the information either to police or to 911 call takers, and by the SFPD officers, who did not enter the apartment to speak to the roommates during the first two visits to the apartment, and who did not attempt to speak to roommates during the civil standby procedure in the early morning hours of October 10.[21] Again, it is speculative to say that this would have prevented the fatality, but the more information provided to officers, the better informed they will be about how to proceed in de-escalating the situation.

[20] Not all roommates were present in the apartment during every visit to the apartment by SFPD on the night in question.

[21] While SFPD officers had not heard the allegation that Assailant might have had a gun prior to their second visit to the apartment, they did conduct a thorough search of Assailant's belongings at the end of that interaction with Assailant and prior to transporting him to the SF Jail. The search did not reveal any firearm.

4. Ability of SFPD to enforce physical separation despite residency of Assailant as a matter of law

While it may be self-evident, it is important to remember that the authority of SFPD officers responding to domestic violence calls is limited to enforcing the laws as written. SFPD officers cannot impose any limitations or sanctions against individuals that are not linked to specific, provable violations of the law. Several facts limited the custodial options available to SFPD officers who responded to Victim's apartment on the night of October 9. First, while there had been a history of violent behavior from Assailant, that history was somewhat dated (the last known incident was 2012) and there was no evidence that Assailant had physically assaulted or even threatened Victim at any time during their present interactions. Moreover, officers saw no evidence of any attempt by Assailant to force entry into the apartment, removing any ability to arrest Assailant for breaking and entering. And finally, while Assailant acknowledged that he had moved out of the apartment lived in by Victim and her roommates, and had only recently returned, his driver's license listed Victim's address as his address, removing the ability of SFPD officers to charge him with trespassing or some other related violation.

Other options (e.g., a citizen's arrest for a misdemeanor) [22] were similarly unavailable to SFPD officers under the law given the lack of probable cause that a crime had been committed by Assailant.

While acknowledging the complexity of this issue, several DVDRT team members expressed desire for police and courts to have the ability to see beyond the address listed on a drivers' license and have the ability to temporarily relocate or otherwise force a physical separation between people where physical violence has occurred or is deemed imminent based on prior history. These DVDRT members envisioned a statute that would enable officers, in situations where a prior history of violence existed and the other party conveys a reasonable concern of imminent violence, to require the prior assailant to leave the premises and would enable a custodial arrest if the individual returned to the premises within 24 hours. The hope is that such physical separation and allowing of time for emotions to cool might

[22] Cal. Penal Code Sec. 837 states, "837. A private person may arrest another: 1. For a public offense committed or attempted in his presence. 2. When the person arrested has committed a felony, although not in his presence. 3. When a felony has been in fact committed, and he has reasonable cause for believing the person arrested to have committed it. Sec. 836 (b) states "Any time a peace officer is called out on a domestic violence call, it shall be mandatory that the officer make a good faith effort to inform the victim of his or her right to make a citizen's arrest, unless the peace officer makes an arrest for a violation of paragraph (1) of subdivision (e) of Section 243 or 273.5. This information shall include advising the victim how to safely execute the arrest. has relevant provisions that related to DV arrests and notification requirement, restraining orders, etc. Section 836 has other provisions relating to domestic violence incidents that were deemed not to pertain to the facts of this event.

allow for time for Victim to design and move forward with a safety plan with minimal negative impact on Assailant and provide SFPD with an additional tool for enforcing that separation and de-escalation. In instances such as this one, such separation may very well be the difference between life or death.

5. Custodial treatment of intoxicated individuals

DVDRT members noted that SFPD officers responding to the second call for assistance did act to separating Victim and Assailant, as they arrested and charged Assailant for violation of San Francisco's statute making it a misdemeanor charge to be inebriated in a public place. The officers reached this decision after discussion with and approval by a supervising Sergeant, and it did succeed in providing space and an opportunity for de-escalation. At the same time, this situation could have been handled differently in several ways.

First, while officers knew that such an arrest would result in a 4-hour stay in a sobriety holding cell at the San Francisco Jail followed by release, it does not appear that they provided this information to Victim. As a result, Victim did not receive any information or support on using the four-hour respite to plan for or seek safety in another location – something that could easily have been averted. Since the events reviewed here, SFPD has designed a Special Victims Unit Referral Card (see Appendix C) that officers are trained to leave behind with any individual who has reported an instance of domestic violence. The Referral Card provides important information about resources available to victims of domestic violence, including shelters, how to get assistance in obtaining a restraining order, and other information. It does not, however, inform victims that the "drunk in public" citation leads to a 4-hour holding period; this information would need to be verbally conveyed by the responding officer(s).

Pursuant to another discussion set forth below, the provision of this information could also be facilitated by a domestic violence safety advocate who responded to the call along with SFPD officers (or perhaps even in lieu of an armed police response.)

Without any of these resources, Victim was left with a midnight discussion with her roommates and the decision to stay in the apartment for the night and go to the courthouse the next morning a seek a restraining order. Victim explained this plan to Assailant when he called her after his release from the Jail, after which Assailant returned to the apartment for a third time.

Another decision was made by the responding officers. An officer citing an individual for the misdemeanor offence being drunk in public could cite the individual under CA Penal Code 647(F), which allows officers to arrest and cite an individual "under the influence of intoxicating liquor . . ." for a misdemeanor when the individual is "in a condition that they are unable to exercise care for their own safety or the safety of others." [23] Both SFPD and the Sheriff's Office view their role while a person is in custody under section 647 as that of a caretaker, and the policy of the San Francisco Sheriff's Office is to

[23] California Penal Code section 647(f).

release the individual "when sober," which Sheriff's Office Policy assumes is a four-hour stay in a sobriety holding cell. The Sheriff's Office does not perform any tests on individuals to establish sobriety other than physical observations.[24]

Officers also have the discretion to charge individuals who meet the criteria of section 647(f) under California Penal Code section 647(g), which states:

> If a person has violated subdivision (f), a peace officer, if reasonably able to do so, shall place the person, or cause the person to be placed, in civil protective custody. The person shall be taken to a facility, designated pursuant to Section 5170 of the Welfare and Institutions Code, for the 72-hour treatment and evaluation of inebriates. A peace officer may place a person in civil protective custody with that kind and degree of force authorized to effect an arrest for a misdemeanor without a warrant. A person who has been placed in civil protective custody shall not thereafter be subject to any criminal prosecution or juvenile court proceeding based on the facts giving rise to this placement. This subdivision does not apply to the following persons:
>
> > (1) A person who is under the influence of any drug, or under the combined influence of intoxicating liquor and any drug.
> >
> > (2) A person who a peace officer has probable cause to believe has committed any felony, or who has committed any misdemeanor in addition to subdivision (f).
> >
> > (3) A person who a peace officer in good faith believes will attempt escape or will be unreasonably difficult for medical personnel to control.

Had the officers, in their discretion, chosen to use 647(g), Assailant could have been held in custody for 72 hours. Obviously, this would have prevented further interaction between Assailant and Victim on that night, though any further impact would be speculative. Further, the DVDRT is aware that 647(g) may not always be warranted, given the negative direct and collateral effects that can be caused by even three days of custody. Nothing in the materials available for the DVDRT's review suggested that this question was discussed or considered by the officers, and such a conversation, perhaps aided by the additional data about the violent history between Assailant and Victim and supported by the observations of a DV safety advocate on scene or at the 911 call center, might in the future provide

[24] See San Francisco Sheriff's Office Custody Division Policy and Procedure CODM 8.05. The Sheriff's Office views its role in these situations as a caretaker role and provides no medical assistance. Upon arrival at the Jail, any individual deemed to be a medical risk due to their intoxication would be refused admission to the holding cell by the Sheriff's Office and would be sent to a nearby hospital for medical assistance.

SFPD officers with additional context and options for further de-escalation and separation between an assailant and a victim of domestic violence.

The DVDRT evaluated the current Sheriff's Office policies regarding the care and release of individuals who have been cited for being drunk in public and placed in a sobriety cell for safety. The Sheriff's Office complied with its normal practices in this instance and had no control over events that occurred after Assailant left the jail, which included an additional intervention with SFPD, the civil standby, and then, even later, the fatal encounter between Assailant and Victim. The Sheriff's Office procedures allow for the release of a person from a sobering cell "after an inmate has been in a sobering cell for at least four hours, and appears to be sober." No further evaluation of sobriety is typically conducted, and no other engagement with the individual is attempted. [25]

6. Real-time assistance for SFPD from domestic violence prevention advocates

DVDRT members noted the difficulty presented to SFPD officers responding to domestic violence calls. In essence, the community is asking these officers to be experts in domestic violence, psychology, poison control, and several other discrete disciplines in addition to interpreting and enforcing the law based on imperfect and dynamic facts. Supporting officers with real-time access to experts in these, and potentially other fields, would greatly assist them in accurately assessing and de-escalating situations. This could be done in a variety of ways. SFPD participated in a pilot program with domestic violence advocates where the advocates, who were not sworn police officers, accompanied SFPD officers on calls where domestic violence issues were implicated. While the pilot was deemed a success by SFPD and the advocates and viewed as useful for the individuals themselves as well as for SFPD, this program requires additional funding to be sustained and expanded across the entire City and County of San Francisco.

Responding officers are not the only people who would benefit from these real-time experts. Responding officers obtain their information about the situation to which they are called from 911 dispatchers, and providing dispatchers with additional information in real-time, whether from domestic violence experts who can co-monitor calls and discuss the type of needed response, and/or from checklists of questions designed to identify key information on the call, might improve the response to the call. As an example, it might allow 911 call takers to differentiate a DV call that needs advocate support but not armed assistance from police from a call that requires SFPD intervention due to its potential to escalate into additional violence.

The DVDRT discussed different ways to provide assistance to officers regarding signals that might provide insights that a domestic violence situation could escalate to lethality. One would be to expand the number of calls where domestic violence advocates accompany officers to calls. This has the advantage of allowing the advocates, who are experts in this complex area, to experience firsthand the

[25] San Francisco Sheriff's Office Custody Division Policy and Procedure CODM 8.05, IV. A. 2.

situation and assist the officers in making assessments and decisions to de-escalate the situation safely. Many jurisdictions across the country are implementing similar programs that provide such assistance to officers; some of these programs are structured so that the advocate is the first line of contact with the individual who has called 911, with sworn police in the background to provide assistance if necessary for the safety of each person involved. Others send the advocates without police support but have police on call if the advocate deems their assistance necessary at any time. The DVDRT did not feel comfortable mandating one structure or another so long as the safety of victims and advocates was the priority at all times.

Another option discussed by the DVDRT was the inclusion of DV advocates in the Department of Emergency Services and the 911 call center, to allow DV advocates to hear from (and potentially engage with) callers to 911 who are reporting domestic violence, and to communicate directly with responding officers. While SFPD would still be the point of contact with the caller at the scene, the DV advocate at the call center could help set the appropriate mindset for the officer while the officer is en route to the scene, given the officer specific factors to consider or look for upon his/her arrival on the scene, and would continue to be available to the officer as additional information is gathered at the scene. It seems likely that this structure would require fewer DV advocates, since advocates would not need to travel throughout the city on various calls but would instead be centralized within the 911 call center. In the time since these events in 2014, the Department of Emergency Services has created a Domestic Violence Lethality Screen for First Responders, a series of questions designed to help first responders identify events that have the potential to escalate to lethality.

7. Providing closure/well-being assistance to 911 call-takers and dispatchers

One area discussed by DVDRT team members that was unrelated to the specific events on October 9 but was deemed important enough to mention for further investigation by SFPD and the DEM is that call takers and dispatchers are constantly fielding calls like those placed by Victim and her roommates that evening – emotional, upsetting, traumatic calls about violent and tragic events causing people to suffer. These call-takers often do not receive any closure about how the calls actually resolved and may benefit from additional resources that would allow them to process emotional reactions to calls mid-shift. Providing necessary emotional and well-being support to these first responders is a vital and important service that would be supported by all DVDRT members.

8. Availability/use of body-worn video (BWV) cameras

Both the SFPD, and several years later the DVDRT, were limited in their ability to review and learn from the events in question because of the absence of body-worn video (BWV) from the responding officers. BWV was not provided to SFPD officers in 2014, though it has since become a technology required for all officers. Currently, this technology records an interaction and is available for later review, providing education and training opportunities for SFPD officers. The ability to have BWV from an office reviewable in real time by other officers or domestic violence safety advocates would allow for even

greater insight and assistance provided to the officer as that officer assists in a safe resolution of the situation.

9. SFPD's third response to Victim's address; efficient and thorough transfer of information to later-responding officers

One of the warning signs for lethality noted by the DVDRT was the simple fact of the repeated visits to the apartment by Assailant despite the continued presence of SFPD. One challenge facing the SFPD in this instance was the unavailability of the officers who had responded to the first two encounters when Assailant returned to the apartment after his released from SF Jail. For the responding officers, it was their first interaction with Assailant. While one of the previous responding officers texted "heads up – we've been there before" to one of the current officers, this message lacked further information or context and there is no information suggesting that the newly responding officers had any further awareness of anything that had occurred throughout the evening. (The text provided enough information for the new officers to ask Assailant about the prior visits, which revealed that Assailant had been there before, that SFPD had intervened, and that Assailant had been in the sobriety holding cell before returning).

Again, improvements in CAD and mobile technology for SFPD could provide improved capabilities for this information transfer. Today's cell phone dictation technology could allow officers to provide virtually immediate notations to the record of a call that could then be accessible to officers responding to calls at the same address or involving the same individuals.

One difference with Assailant's third visit was a stated desire to simply get his belongings and leave the premises, something that the newly responding SFPD officers negotiated with Victim by offering to conduct a "civil standby" in which Assailant was permitted into the apartment, accompanied by SFPD. It appears that a combination of Assailant's calmness and compliance with the officers, as well as Victim's description of events and willingness to comply with the civil standby, led to SFPD accompanying Assailant into the apartment, allowing him to get his belongings from Victim's room while supervised by the officers, and leave the premises without further incident. The officers who participated in this call indicated that they informed Assailant that if he returned he would be arrested and encouraged him to consider no longer engaging with Victim. One officer chose to impart this message while smoking a cigarette with Assailant within view of the apartment. While the officer indicated this was done to further de-escalate the situation and calm Assailant and to impart the "stay away" message calmly, at least one of Victim's roommates saw the exchange out of an apartment window and observed that it seemed that the officer was "friendly" with Assailant. It is important for SFPD officers to have discretion in how they de-escalate situations. It is also important for SFPD officers to understand how observers of such emotionally charged events might perceive their actions.

10. Real-time SFPD and victim access to domestic violence shelters and support information; security planning for victims

As mentioned above, one system improvement that has been embraced by SFPD officers and appreciated by community members between the events under review and the creation of the DVDRT is the creation of a "Special Victims Unit Referral Card" that SFPD officers provide to individuals when SFPD responds to calls regarding domestic violence. The Referral Card provides information across a broad range of relevant topics, including:

- Information about the call and the SFPD Special Victims Unit, including contact information for the SVU;
- How to obtain the police report regarding the incident;
- Hotlines and information sources on topics including:
    - Child abuse
    - Victim services
    - Services for offenders
    - Youth and sexual assault victim services, including for the hearing-impaired
    - Assistance for victims of human trafficking
    - How to get information on inmates or others in government custody
    - Information about obtaining a restraining order and victims services available through the District Attorney's Victims Services Division (VSD) and the California Victims' Compensation Program
    - The Sexual Assault Victim's DNA Bill of Rights
    - Phone numbers and 24-hour hotlines for:
        - Access to shelters for victims of domestic violence
        - Counseling and support services for victims of domestic violence
        - Elder abuse
        - Child abuse
        - Emergency housing
        - Restraining orders and legal information

11. Other contributing factors

The DVDRT review noted two contributing factors for which recommendations for change were not possible. The first was the presence of a gun that was used by Assailant to kill Victim, then himself. Because the DVDRT was unable to identify how Assailant obtained the weapon, no recommendations for change are possible. While a roommate later stated she thought he had a gun prior to the SFPD's second arrival at the apartment, officers performed multiple pat down searches of Assailant and Assailant's possessions throughout the evening, none of which revealed the weapon. In addition,

officers performed a more thorough search of Assailant and his bag upon arresting Assailant for being drunk in public and taking him to the SF Jail. This provides compelling evidence that Assailant somehow procured the gun after his release from the jail. It is possible that the gun was inside the apartment and Assailant grabbed it while on the civil standby – but he was accompanied by an SFPD officer and was only in Victim's bedroom for a very short period of time, making such speculation seem unlikely. Ultimately, the DVDRT reluctantly concluded it could not answer this key question.

The second contributing factor was the lack of physical security to the apartment that allowed Assailant to gain access to the apartment. While the lock on the external gate was not deemed reliable, there was still the outside door to the apartment that Assailant was able to enter without damaging the door.

Without knowing the precise answer to how Assailant accessed the apartment, systems improvements that provided incentives to property owners to ensure their properties are secure would reduce the ability of assailants to commit acts of violence against victims. Focusing on the responsibility of owners of properties, and in particular owners of rental properties, to provide secure protection against home invasion as a condition for securing a rental license might help secure properties and protect victims of violence. Training managers or supervisors of multi-unit and rental properties on building security measures would also assist with this. Either or both of these policies could further be designed to require specific evaluation or intervention for addresses where an act of violence (domestic or otherwise) is reported to the SFPD, though it is speculative whether such initiatives would have provided additional protection for Victim in this instance.

Limitations of the Review

A. The events in question occurred in 2014 and the review occurred in 2021-22. Some recollections provided to the DVDRT may have been inaccurate and policy changes may have already been put in place in various agencies that would have reduced the likelihood of these or similar scenarios unfolding in the same way in the future.

    a. **Recommendation:** The DVDRT should meet:

        i. Quarterly to evaluate and select cases for review;

        ii. Monthly to review the status of cases under review; and

        iii. Annually to review the status of implementation of recommendations made by the DVDRT in prior reviews.

B. The SFPD did not provide the DVDRT with the ability to review any of its files related to the incident, or to interview any of the officers who responded to calls for service at the address on the night of the assault.

    a. **Recommendation:** The DVDRT and SFPD should agree upon a process for turning over all information in the SFPD's possession related to domestic violence fatalities that are being reviewed by the DVDRT. The process should be confidential and should not give DVDRT any rights beyond the ability to review the information for the purpose of conducting the DVDRT.

    b. **Recommendation:** The DVDRT and SFPD should agree upon a process that would allow the DVDRT to interview any SFPD officer who participated in events under review by the DVDRT. The process should protect each officer's identity to the extent possible, and should occur separately from any administrative investigations, civil or criminal liability procedures. To the extent that SFPD conducts administrative interviews of officers related to events under review by the DVDRT, such interviews may be provided in lieu of the officer's participation in a live interview, and may be redacted to anonymize the officer, allowing the DVDRT to focus on the events rather than the individual.

C. Documents available to the DVDRT included a motion for summary judgment in a civil case filed by the victim's estate which included deposition transcripts of various officers and roommates to participated in the events in question. These transcripts were redacted as part of the litigation, and full versions were not available to the DVDRT, as a result of which information may have been lost that could have impacted the group's recommendations.

    a. **Recommendation:** Where possible, the DVDRT should seek to review any and all discovery provided in civil or criminal litigation related to events under review by the

DVDRT. Such materials should be held in strict confidentiality by the DVDRT and used solely for the purpose of completing the DVDRT review.

D. SFPD Officers did not have body-worn video (BWV) or police car dashboard cameras in use in 2014. As a result, no video footage is available of the interactions between SFPD and either the victim or the assailant.

    a. **Recommendation:** BWV cameras and dashboard cameras should be standard issue equipment to all officers responding to calls for service related to domestic violence. SFPD officers should record all actions taken when responding to these calls for service and should preserve the recordings of any interaction related to any domestic violence fatality. The recordings should be made available to the DVDRT for the limited purpose of conducting its review of the case.

Contributing Factors

The DVDRT believes that the following factors contributed to the murder/suicide of the victim and assailant:

Communication

1. SFPD responding to the scene of the incident over the course of the night repeatedly lacked context about the interactions between the victim and the assailant
2. The Computer-Aided Dispatch (CAD) system used by the Department of Emergency Management (DEM) and the SFPD lacked ability to easily and efficiently provide SFPD officers with access to:
    a. Information regarding prior calls for service that evening
    b. Audio of calls or
    c. Information regarding prior allegations of or findings of abuse from assailant
3. DEM dispatchers did not provide an explanation to the officers for the escalation of the coding of the dispatch from a 417 DV (ringing doorbell) to a 418 DV (fight), depriving the officers of context that this was the third 911 call from this address by the victim that day
4. DEM call-takers lacked sufficient information (e.g., a checklist or other document) to guide their questioning in domestic violence-related calls. This limited their ability to gather the largest

amount of useful information in the most efficient way, and may have limited the ability of the call-takers to identify these incidents as having an increased likelihood of violence or lethality

5. Across multiple calls from the victim and her roommates, neither DEM call-takers nor SFPD officers asked Victim "what has changed about your situation from prior calls this evening," which could have isolated actual violence escalation or the likelihood of violence escalation

6. An SFPD officer was told that Assailant may have tried to poison Victim and was presented with physical evidence of the poison. The officer did not:

    a. Convey to the person making the allegation that the officer took the allegation seriously

    b. Seek assistance in verifying or disproving that the substance was poison or

    c. Inform other officers on the scene, including a Sergeant, of the allegation

7. The victim denied her roommate's allegation that the assailant had tried to poison her when the allegation was made to the SFPD officer

8. SFPD officers did not interview anyone other than the victim and the assailant during their three (3) visits to the victim's home, including visits initiated by or supported by 911 calls made by one or more of the roommates

9. One of the victim's roommates who had called 911 thought that she had seen assailant at the home in the possession of a gun, but did not pass this information on to SFPD or DEM

10. The victim appeared to be reluctant to criticize the assailant to SFPD. Without information the assailant committed a crime, SFPD's ability to intervene or arrest the assailant was limited.

11. SFPD officers responding to the victim's calls to 911 did not:

    a. Inform the victim that an individual arrested for public intoxication was likely to be released from the San Francisco jail after roughly four (4) hours in custody or

    b. Work with the victim to create a safety plan that would ensure her protection if her assailant returned that night

12. The victim called 911 after the assailant was released from jail. During that call, the victim made clear that the assailant was determined to return to the scene despite multiple police warnings, and that the assailant was aware of the victim's determination to get a restraining order the following day. These data points were not communicated to responding officers by DEM dispatchers, despite being potential signals of violence escalation

13. The assailant was calm and conciliatory with officers during all visits and did not impress the officers as angry or violent, even when he was visibly intoxicated. This may have caused SFPD officers to underestimate the risk of further violence or lethality

14. The "418DV" classification used by DEM call dispatchers to communicate with SFPD officers that a fight is occurring without weapons is unclear because it does not convey to officers whether the "fight" is an argument (i.e., a verbal altercation without physical violence) or a physical altercation

Procedures

15. SFPD does not have a formal procedure requiring its officers to gather all relevant and contextual information available from any party or witness

16. SFPD officers had no formal procedure to inform or engage victim's advocates with experience in domestic violence matters

17. SFPD officers had no procedure to flag the address as a "hazard premise" to accelerate a response from SFPD/DEM as needed

18. Identifying a particular address as a "hazard premise" requires proactive SFPD action and is not automatically bestowed upon objective circumstances (e.g., number of calls from the same address in a specific time period)

19. The San Francisco Sheriff's Office (SFSO) policy states that "[t]here is no minimum amount of time that a prisoner is required to be in a Sobering Cell" but that "[i]n no case shall a prisoner remain in a sobering cell over six hours **without** an evaluation by Jail Health Services staff" (emphasis supplied). SFSO practice is for the Sheriff's Office to hold an individual brought in by SFPD on a charge of public intoxication for a minimum of four (4) hours before releasing the individual. Observations of the individual in the sobering cell are made once every 30 minutes and are limited to visual confirmation that "the prisoner is breathing" and "has not vomited while sleeping." The policy further states that "[a] prisoner may be removed from a Sobering Cell when . . . the prisoner no longer requires sobering cell placement" or "the prisoner appears to be sober" in the judgment of JHS staff, and that "[t]ests to indicate sobriety and ability to follow instructions will gauge if a prisoner is ready to be removed."

20. SFPD did not inform the victim of the SFSO practice of holding individuals charged with public intoxication for four (4) hours or assist the victim in devising a plan (up to and including gaining access to a domestic violence shelter or other safe accommodations) to ensure her safety after the assailant was discharged by SFSO

Environment

21. The house where the victim lived had an external gate with a latch that did not always lock properly, potentially facilitating the assailant's access to the house
22. Officers responding to domestic violence calls are often unclear on who is the aggressor and who is the victim, even after arriving on the scene. Separating allegations and facts can be very difficult and the officer's main focus is on keeping the parties separate and the situation as calm as possible, which may convey a sympathy for one party to others observing the scene
23. The assailant was calm and compliant at all times in his interactions with SFPD officers
24. Assailant's autopsy revealed a blood alcohol content (BAC) of 0.16, as well as the presence of other intoxicants
25. SFPD officers lacked a domestic violence Lethality Assessment Form that is now routinely made available to current officers
26. Assailant legally resided at the property and possessed a state issued ID as proof of residence

Tactics

27. At the end of the first interaction between SFPD and the victim and assailant, the assailant told SFPD he was going to BART and go to the East Bay. SFPD officers did not escort the assailant to BART, and/or ensure that he got on the BART train
28. The options available to SFPD to create a more enduring physical separation between victim and assailant were limited, as there was no evidence of a crime being committed that would lead to an overnight arrest:
    a. There was no visible damage to the front gate or front door of the residence, and no witness claimed to have seen evidence of breaking and entering or destruction of property
    b. The victim did not allege any actual or threatened physical harm by the assailant
    c. The assailant's driver's license showed the location as his home address, which took away officers' ability to arrest he man for trespassing or other related charges and
    d. Without any evidence of a crime or of physical violence against victim, SFPD lacked the ability to remove the assailant via a citizen's arrest

29. SFPD officers were unable to identify that the assailant had a firearm, or to ascertain how the assailant had obtained the firearm

    a. Over the course of the evening, SFPD officers conducted three external "pat down" searches of the individual, none of which revealed a firearm. Officers also conducted two external "pat down" searches of the individual's bag, neither of which revealed a firearm

    b. While one roommate later reported that she thought she saw a gun in assailant's hand prior to the second SFPD visit to the address that evening, neither the roommate nor the victim communicated that to the responding officers or to the 911 call takers

    c. SFPD's more thorough search of the individual's bag after his arrest for public intoxication and prior to taking the individual to the SF Jail did not reveal a firearm

30. The Sheriff's Office held the assailant in a "sobering cell" from approximately 11:30 pm until approximately 3:45 AM the following morning, a period of roughly four hours and fifteen minutes, and then permitted him to leave. The Sheriff's Office did not perform any diagnostic or other evaluations of the individual at intake or upon the individual's departure, did not provide any information, caution, etc. upon assailant's departure from the Jail, and did not inform the victim of assailant's release

31. When the assailant returned to the residence for the third time that night, officers conducted a "civil standby" in which officers accompanied the assailant into the house and allowed him to remove his personal property from the premises. After this procedure, SFPD officers talked with and smoked a cigarette with the assailant in front of the residence. While the officers used this time to warn assailant not to return, their conduct was viewed by the victim's roommates as overly social with the assailant and suggested to them that the officers were not properly assessing the risk of the individual to the victim or to the roommates

Equipment

32. While the DEM CAD system used by SFPD provides some background info on prior calls, that information has to be requested and analyzed by SFPD officers. This is difficult on calls that require a rapid response time and limits the information available to SFPD officers responding to domestic violence calls

33. Several tools that are now used by SFPD to improve safety and planning for victims of domestic violence were not in use at the time of this incident, including (but not limited to):

a. The SVU follow-up referral card, provided by SFPD to individuals who request emergency services for domestic violence-related incidents

b. The Domestic Violence Lethality Screen, which is used by first responders to assess the risk of lethality in a domestic violence context and

c. SFPD officers did not [26]have body-worn video (BWV) cameras in 2014

Other Contributing Factors

34. San Francisco lacks sufficient and suitable emergency housing options for victims of domestic violence, especially if the violence or threat of violence occurs during late-night hours

Recommendations

SFPD, DEM, and the City and County of San Francisco should:

1. Ensure that DEM professionals who handle calls for service to San Francisco's 911 hotline have real-time access at all times to experts in the management of domestic violence situations. These experts should assist call takers in, among other things:

    a. Coding calls for emergency service related to domestic violence

    b. Identifying and managing the risk of violence in each situation, including across the context of multiple calls for service from the same individual or at the same location and

    c. Collecting and providing all relevant information to SFPD officers dispatched to the scene, to facilitate peaceful and appropriate resolutions of the emergency situation[27]

2. Provide victims' advocates who can accompany SFPD to domestic violence calls for emergency services. Advocates should be available upon officer request, but should be required in situations where a single address has been the source of more than one (1) call for emergency

[26] See San Francisco Police Department General Order 6.09, Domestic Violence, accessible at https://www.sanfranciscopolice.org/sites/default/files/2018-11/DGO6.09%20Domestic%20Violence.pdf.

[27] Some members of the DVDRT expressed concern that the availability of these experts might require additional funding, particularly if the experts are hired and employed by SFPD.

services in a 48-hour period. Services that the advocates provide to SFPD and victims of domestic violence might include, but need not be limited to:

a. Assessments about the risk of future violence/lethality

b. Assessments of the physical security of the victim's home, along with recommendations for improving the security and a process to inform property owners/landlords of identified security risks to occupants

c. Provision of a physical (body and environment) security checklist for victims

d. Creation of a plan to ensure the immediate and short-term physical safety of victims of domestic violence, focusing on protection, not disempowerment

e. The ability to refer the victim to a shelter in real time, 24/7/365

f. Assistance in transportation to a shelter and

g. Additional information set forth in the SFPD referral card

3. SFPD should memorialize observed security risks at locations where they are called for domestic violence using, among other tools, the SF Safe home assessment and the Cal VCB home security improvements

4. Landlords should receive training on minimum levels of security for their propert(ies) and a checklist of items prior to obtaining a rental license

5. The City and County of San Francisco should provide SFPD officers with tools other than arrest to create separation and space between a potential or actual DV victim and the assailant, including but not limited to

a. Neighborhood Watch/SFSafe information

b. Providing victims of domestic violence with information regarding emergency registration

c. Assisting victims of domestic violence in identifying and traveling to a shelter that can provide immediate and overnight assistance and protection to the victim

d. The "Marsy's card" DV referral card

e. Allowing SFPD officers to differentiate between the address on someone's driver's license and where they are actually living in terms of interpreting breaking & entering or other trespass violations

6. The Department of Emergency Management (DEM) and SFPD should prioritize and/or expedite SFPD responses to repeated allegations of domestic violence from the same address.[28] SFPD should instruct DEM, and DEM should flag the address as a "Hazard Premise" upon the receipt of a 2nd call from same address in 24-hour period

7. SFPD officers who respond to requests for emergency services in domestic violence cases should proactively seek to interview all bystanders, roommates, neighbors, and other individuals who may have observed the incident(s) or who may have background knowledge about the situation that provides useful context for navigating the situation in the short term and beyond. This includes seeking to interview other roommates or residents in an apartment or residence when there is a civil standby (taking into account SFPD policy on arrests when children are present)

8. When responding to DV calls for emergency services, SFPD officers should always attempt to question as many people as possible to understand the dynamics of the situation with as much context as is practicable, while understanding that witnesses or other residents are not required to provide any information.

9. SFPD officers should have immediate access to the audio of the current 911 call to which officers are responding, as well as to prior calls from the same individual or from the same address. This access should be provided to the officers in real time, and not later than their arrival at the scene.

    a. DEM 911 hotline call takers should have the discretion and ability to provide information directly to responding officers rather than sending the audio of calls directly to SFPD officers.

    b. The CAD system used by DEM and SFPD officers should provide SFPD officers with the ability to access video and/or audio recordings of prior calls for emergency service from the same address, not just their existence or coding

    c. The CAD system should allow SFPD officers responding to domestic violence calls for assistance to compare the statements of individuals at the scene with statements that were made to the 911 call taker

10. In situations where SFPD officers are responding to a call for service related to domestic violence and other SFPD officers have responded to similar calls for service in the prior 48 hours,

[28] The DVDRT did not feel that SFPD's responses to the various 911 calls placed from the address throughout the evening were obviously delayed, and as a result this Recommendation may be less likely than others to facilitate a specific change to the SFPD response in the event that a scenario similar to the Event were to reoccur.

SFPD should improve the ability of its responding officers to speak directly to the prior responding officers, and provide the responding officers real-time, mobile access to reports filed by the prior responding officers

11. The City of San Francisco should fund and accelerate purchase and implementation of an upgraded Computer-Aided Dispatch (CAD) system that can, at a minimum:

    a. Provide officers in real time with the audio, or at a minimum a readable transcript, of any prior 911 call made to the Department of Emergency Management and

    b. Provide officers in real time with prior allegations of domestic violence made to the SFPD against any individual. Such information should be capable of delivery to an officer's mobile phone upon request

12. DEM 911 call-takers should receive training at the time of their hiring that is refreshed at least every other year on domestic violence-specific psychology of assailants and victims, as well as a set of questions or checklist for the identification of "flags" that will assist call-takers in the ability to evaluate the risk of future violence and/or lethality in a given request for emergency services related to domestic violence

    a. The training should include ways to evaluate/spot avoidance or minimization behaviors from victims of domestic violence

    b. The DEM should provide call takers with DV-specific call guide(s) to assist in gathering necessary data to help SFPD and victim's advocates who respond to a DV call

13. At the time of hiring and not less frequently than every other year thereafter, DEM should ensure that its call-takers and dispatchers receive training on vicarious trauma and stewardship and access to appropriate clinical resources to address the risks of vicarious or secondary trauma on these individuals. SFPD and DEM should also discuss and decide whether, when and how to provide information about the ultimate resolution of 911 calls to call-takers and dispatchers, who typically hear only about the request for emergency services and do not know how the events are resolved

14. Officers need to build time into DV calls to be thorough in their reporting of data from the individuals interviewed to one another, and to supervisors

15. Any time an allegation is made that one person has tried to poison another in a domestic violence call:

    a. The SFPD officer who receives the allegation should contact Poison Control for advice or data that might allow the officer to prove or disprove the allegation and

b. The officer should immediately escalate the allegation to a supervisor to ensure that it is factored into an appropriate SFPD response.

c. These actions should be taken even if the allegation is denied by either the alleged poisoner or the alleged target of the poisoning.

16. The City and County of San Francisco should expand the number of beds providing triage shelter to victims of domestic violence and should provide a free, live 24-hour resource that can connect victims of domestic violence to shelter services.

Appendix A. DVDRT Participants

Names listed by role and alphabetically.

Name	Title
Val Altamirano	Lieutenant, SFPD
Tara Anderson	Director of Policy, SFDA
Karima Baptiste	Assistant District Attorney, Victim Services Division, SFDA
Michele Fisher	Chief Deputy Sheriff, San Francisco Sheriff's Office
Tony Flores	Sergeant, Special Victims Unit, SFPD
Elise Hansell	Policy and Grants Manager, SF Department on the Status of Women
John Hollway (Moderator)	Executive Director, Quattrone Center for the Fair Administration of Justice
Melanie Kushnir	Deputy Chief, Victim Services Division, SFDA
Kasie Lee	Chief, Victim Services Division, SFDA
David Merin	Chief, Criminal Division, SFDA
Ellen Moffatt	Assistant Medical Examiner Office of the Chief Medical Examiner, City of San Francisco
Maura Moylan	Project Coordinator, City and County of San Francisco
Evanthia Pappas	Managing Attorney, Domestic Violence Unit, SFDA
Orchid Pusey	Executive Director, Asian Women's Shelter
Vilma Rizzo	Policy and Grant Associate, SF Department on the Status of Women
Chauncey Robinson	Supervising Probation Officer, Domestic Violence Division, City and County of San Francisco
Beverly Upton	Director, San Francisco Domestic Violence Consortium

Appendix B. California Penal Code Section 11163.3

(a) A county may establish an interagency domestic violence death review team to assist local agencies in identifying and reviewing domestic violence deaths, including homicides and suicides, and facilitating communication among the various agencies involved in domestic violence cases. Interagency domestic violence death review teams have been used successfully to ensure that incidents of domestic violence and abuse are recognized and that agency involvement is reviewed to develop recommendations for policies and protocols for community prevention and intervention initiatives to reduce and eradicate the incidence of domestic violence.

(b) For purposes of this section, "abuse" has the meaning set forth in Section 6203 of the Family Code and "domestic violence" has the meaning set forth in Section 6211 of the Family Code.

(c) A county may develop a protocol that may be used as a guideline to assist coroners and other persons who perform autopsies on domestic violence victims in the identification of domestic violence, in the determination of whether domestic violence contributed to death or whether domestic violence had occurred prior to death, but was not the actual cause of death, and in the proper written reporting procedures for domestic violence, including the designation of the cause and mode of death.

(d) County domestic violence death review teams shall be comprised of, but not limited to, the following:

(1) Experts in the field of forensic pathology.
(2) Medical personnel with expertise in domestic violence abuse.
(3) Coroners and medical examiners.
(4) Criminologists.
(5) District attorneys and city attorneys.
(6) Domestic violence shelter service staff and battered women's advocates.
(7) Law enforcement personnel.
(8) Representatives of local agencies that are involved with domestic violence abuse reporting.
(9) County health department staff who deal with domestic violence victims' health issues.
(10) Representatives of local child abuse agencies.
(11) Local professional associations of persons described in paragraphs (1) to (10), inclusive.

(e) An oral or written communication or a document shared within or produced by a domestic violence death review team related to a domestic violence death review is confidential and not subject to disclosure or discoverable by a third party. An oral or written communication or a document provided by a third party to a domestic violence death review team, or between a

third party and a domestic violence death review team, is confidential and not subject to disclosure or discoverable by a third party. Notwithstanding the foregoing, recommendations of a domestic violence death review team upon the completion of a review may be disclosed at the discretion of a majority of the members of the domestic violence death review team.

(f) Each organization represented on a domestic violence death review team may share with other members of the team information in its possession concerning the victim who is the subject of the review or any person who was in contact with the victim and any other information deemed by the organization to be pertinent to the review. Any information shared by an organization with other members of a team is confidential. This provision shall permit the disclosure to members of the team of any information deemed confidential, privileged, or prohibited from disclosure by any other statute.

(g) Written and oral information may be disclosed to a domestic violence death review team established pursuant to this section. The team may make a request in writing for the information sought and any person with information of the kind described in paragraph (2) may rely on the request in determining whether information may be disclosed to the team.

(1) An individual or agency that has information governed by this subdivision shall not be required to disclose information. The intent of this subdivision is to allow the voluntary disclosure of information by the individual or agency that has the information.

(2) The following information may be disclosed pursuant to this subdivision:

(A) Notwithstanding Section 56.10 of the Civil Code , medical information.
(B) Notwithstanding Section 5328 of the Welfare and Institutions Code , mental health information.
(C) Notwithstanding Section 15633.5 of the Welfare and Institutions Code , information from elder abuse reports and investigations, except the identity of persons who have made reports, which shall not be disclosed.
(D) Notwithstanding Section 11167.5 of the Penal Code , information from child abuse reports and investigations, except the identity of persons who have made reports, which shall not be disclosed.
(E) State summary criminal history information, criminal offender record information, and local summary criminal history information, as defined in Sections 11075, 11105, and 13300 of the Penal Code.
(F) Notwithstanding Section 11163.2 of the Penal Code , information pertaining to reports by health practitioners of persons suffering from physical injuries inflicted by means of a firearm or of persons suffering physical injury where the injury is a result of assaultive or abusive conduct, and information relating to whether a physician referred the person to local domestic violence services as recommended by Section 11161 of the Penal Code.

(G) Notwithstanding Section 827 of the Welfare and Institutions Code , information in any juvenile court proceeding.

(H) Information maintained by the Family Court, including information relating to the Family Conciliation Court Law pursuant to Section 1818 of the Family Code , and Mediation of Custody and Visitation Issues pursuant to Section 3177 of the Family Code.

(I) Information provided to probation officers in the course of the performance of their duties, including, but not limited to, the duty to prepare reports pursuant to Section 1203.10 of the Penal Code , as well as the information on which these reports are based.

(J) Notwithstanding Section 10850 of the Welfare and Institutions Code , records of in-home supportive services, unless disclosure is prohibited by federal law.

(3) The disclosure of written and oral information authorized under this subdivision shall apply notwithstanding Sections 2263 , 2918 , 4982 , and 6068 of the Business and Professions Code , or the lawyer-client privilege protected by Article 3 (commencing with Section 950) of Chapter 4 of Division 8 of the Evidence Code , the physician-patient privilege protected by Article 6 (commencing with Section 990) of Chapter 4 of Division 8 of the Evidence Code , the psychotherapist-patient privilege protected by Article 7 (commencing with Section 1010) of Chapter 4 of Division 8 of the Evidence Code , the sexual assault counselor-victim privilege protected by Article 8.5 (commencing with Section 1035) of Chapter 4 of Division 8 of the Evidence Code , the domestic violence counselor-victim privilege protected by Article 8.7 (commencing with Section 1037) of Chapter 4 of Division 8 of the Evidence Code, and the human trafficking caseworker-victim privilege protected by Article 8.8 (commencing with Section 1038) of Chapter 4 of Division 8 of the Evidence Code.

VICTIM CONFIDENTIALITY ADVISORY

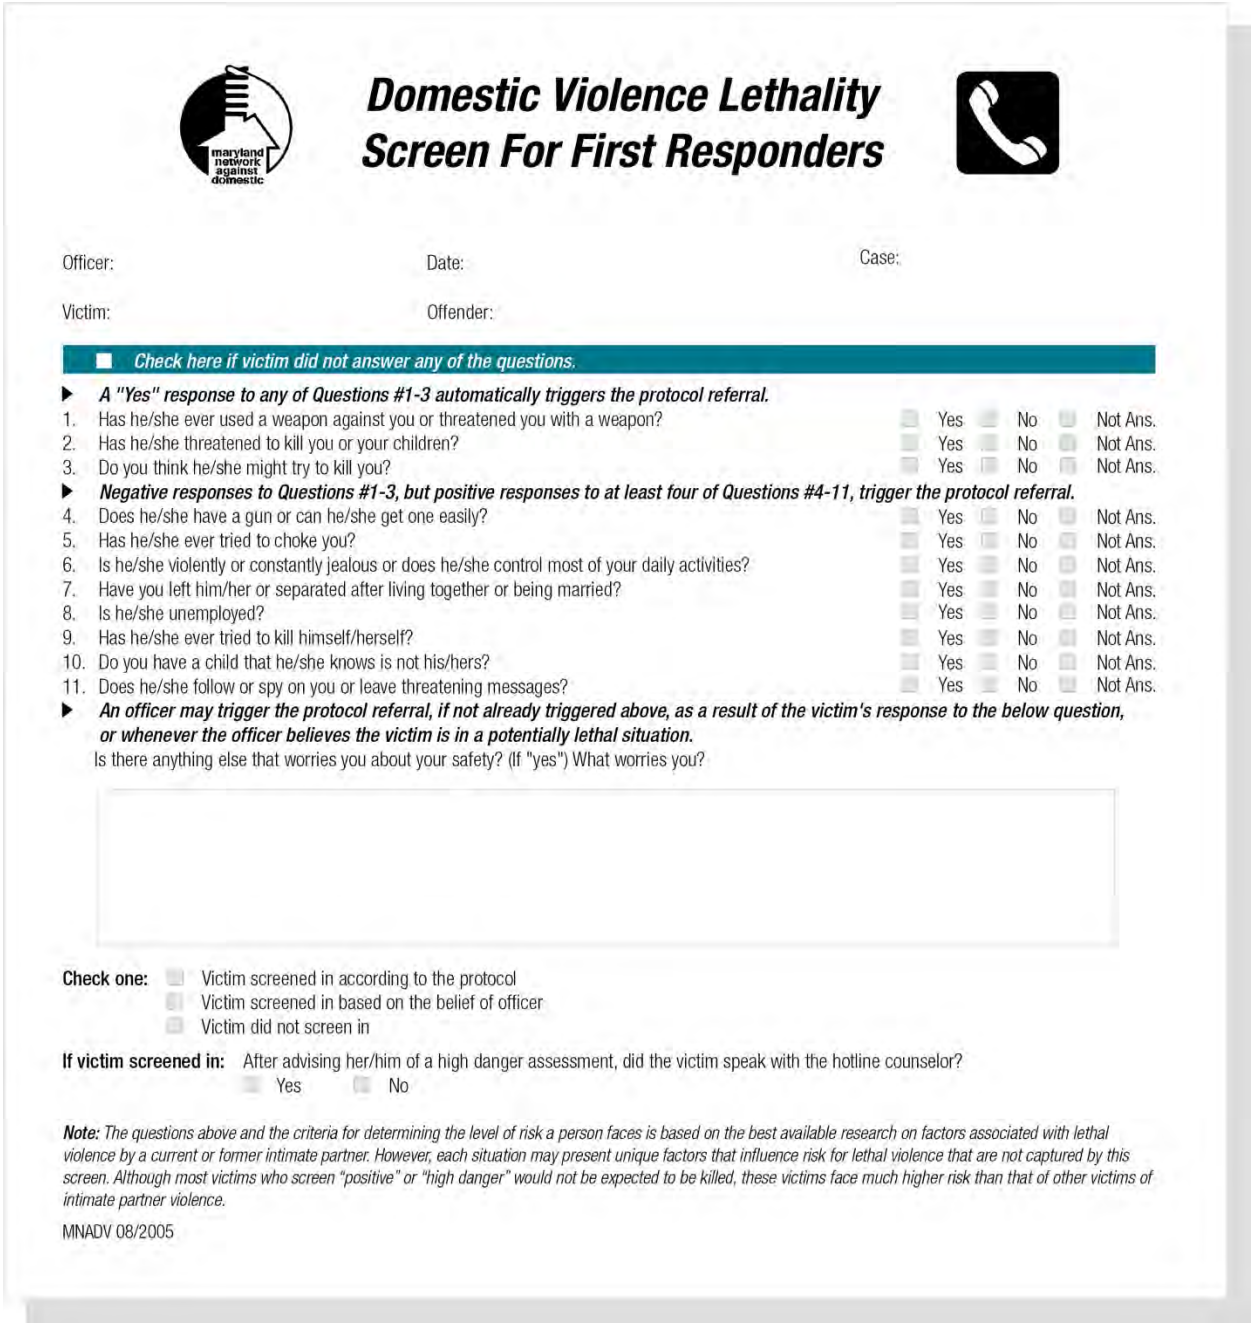
Government Code 6254(f)(2) and Penal Code 293/293.5

Government Code 6254(f)(2) gives you the right to request that your name not become part of a public record, including release to the media, if you are the victim of one of the following crimes: 220, 236.1, 261, 261.5, 262, 264, 264.1, 265, 266, 266a, 266b, 266c, 266e, 266f, 266j, 267, 269, 273a, 273d, 273.5, 285, 286, 288, 288a, 288.2, 288.3, 288.5, 288.7, 289, 422.6, 422.7, 422.75, 646.9, or 647.6

OBTAINING POLICE REPORT:

California Family Code § 6228 provides that victims of the alleged crimes of **DV, Sexual Assault, Stalking, Human Trafficking or Elder Abuse** may receive a copy of their incident report within **five** days of their request, **free of charge**, unless good cause for delay exists. For further information go to **sanfranciscopolice.org/get-service/police-reports/obtain-police-report-or-traffic-collision-report** and click the tab for "Domestic Violence, Sexual Assault, Stalking, Human Trafficking, Elder Abuse" or contact the Crime Information Services Unit (CISU) at 415-575-7232. **SFPD 142E (Rev. 11/19)**

Appendix D. Domestic Violence Lethality Screening Questionnaire for First Responders



Domestic Violence Lethality Screen For First Responders

Officer: Date: Case:

Victim: Offender:

☐ *Check here if victim did not answer any of the questions.*

▶ ***A "Yes" response to any of Questions #1-3 automatically triggers the protocol referral.***

1. Has he/she ever used a weapon against you or threatened you with a weapon? ☐ Yes ☐ No ☐ Not Ans.
2. Has he/she threatened to kill you or your children? ☐ Yes ☐ No ☐ Not Ans.
3. Do you think he/she might try to kill you? ☐ Yes ☐ No ☐ Not Ans.

▶ ***Negative responses to Questions #1-3, but positive responses to at least four of Questions #4-11, trigger the protocol referral.***

4. Does he/she have a gun or can he/she get one easily? ☐ Yes ☐ No ☐ Not Ans.
5. Has he/she ever tried to choke you? ☐ Yes ☐ No ☐ Not Ans.
6. Is he/she violently or constantly jealous or does he/she control most of your daily activities? ☐ Yes ☐ No ☐ Not Ans.
7. Have you left him/her or separated after living together or being married? ☐ Yes ☐ No ☐ Not Ans.
8. Is he/she unemployed? ☐ Yes ☐ No ☐ Not Ans.
9. Has he/she ever tried to kill himself/herself? ☐ Yes ☐ No ☐ Not Ans.
10. Do you have a child that he/she knows is not his/hers? ☐ Yes ☐ No ☐ Not Ans.
11. Does he/she follow or spy on you or leave threatening messages? ☐ Yes ☐ No ☐ Not Ans.

▶ ***An officer may trigger the protocol referral, if not already triggered above, as a result of the victim's response to the below question, or whenever the officer believes the victim is in a potentially lethal situation.***

Is there anything else that worries you about your safety? (If "yes") What worries you?

Check one: ☐ Victim screened in according to the protocol
☐ Victim screened in based on the belief of officer
☐ Victim did not screen in

If victim screened in: After advising her/him of a high danger assessment, did the victim speak with the hotline counselor?
☐ Yes ☐ No

Note: *The questions above and the criteria for determining the level of risk a person faces is based on the best available research on factors associated with lethal violence by a current or former intimate partner. However, each situation may present unique factors that influence risk for lethal violence that are not captured by this screen. Although most victims who screen "positive" or "high danger" would not be expected to be killed, these victims face much higher risk than that of other victims of intimate partner violence.*

Detail the purpose of this contract is and what goods and/or services the contra:

Boehringer Laboratories is the only medical device manufacturer that provides all-metal clinical suction regulators (>90% by weight, aircraft grade aluminum 60601-T6). All movable component surfaces are manufactured using synthetic sapphire (MIL-A-8625 Type III Anodize) or stainless steel. The ON/OFF control valve does not rely on elastomeric seals; they are machined fit to fit.

If you have made an effort to have the supplier comply, explain it here. If not,:

Vendor, has been informed on teh steps to lead to 12B compliance

Select OCA Solicitation Waiver:

Has MTA qualified agreement as Bulk Purchasing under Charter Sec. 8A.102(b)?:

Detail the nature of this Bulk Purchasing transaction:

12B.5-1(d)(2) (Bulk Purchasing) Question1:

Per Admin Code Section 21A.2(a)
(2) Healthcare GPOs obtain cost savings by pooling their members' purchasing power and negotiating lower prices from their participating vendors. Healthcare GPOs also provide their members with cost savings by conducting a competitive bidding process for some – though not all – of the goods and services offered by their suppliers.
(3) Membership in Healthcare GPOs allows DPH to employ a streamlined process for procuring goods and services, thereby reducing administrative burdens, facilitating improved quality of care, and saving DPH millions of dollars each fiscal year.

12B.5-1(d)(2) (Bulk Purchasing) Question2:

Per Admin Code Section 21A.2(a)
(2) Healthcare GPOs obtain cost savings by pooling their members' purchasing power and negotiating lower prices from their participating vendors. Healthcare GPOs also provide their members with cost savings by conducting a competitive bidding process for some – though not all – of the goods and services offered by their suppliers.
(3) Membership in Healthcare GPOs allows DPH to employ a streamlined process for procuring goods and services, thereby reducing administrative burdens, facilitating improved quality of care, and saving DPH millions of dollars each fiscal year.

12B.5-1(d)(2) (Bulk Purchasing) Question3:

To fulfill the Board's desire to obtain the cost savings from using a GPO, pursuant to Chapter 21A.

12B.5-1(d)(2) (Bulk Purchasing) Question4:

Vendor is a sole source

12B.5-1(d)(2) (Bulk Purchasing) Question5:

The purpose of Chapter 12B is to ensure equal access to benefits, including health benefits, regardless of one's protected category. The use of a GPO ensures DPH can access the goods and services it needs to provide healthcare to SF residents in a cost-effective and reliable manner, thereby increasing their access to healthcare regardless of their status. In this regard, the use of this Vizient contractor is aligned with the intent of Chapter 12B.

12B.5-1(d)(2) (Bulk Purchasing) Question6:

Detail the purpose of this contract is and what goods and/or services the contra:

The SFMTA requests approval of a 12B waiver for a Medical Examinations Services Agreement with Concentra Medical Centers (Supplier ID: 0000022402, Contractor). The SFMTA requests this 12B Waiver as the specialized knowledge and expertise required to provide medical examination services is possessed by the Contractor and the services to be provided under this contract are highly specific to the federal regulations put forth by the U.S. Department of Transportation (DOT) and California state regulations. In March 2022, the Contract Monitoring Division granted a Sole Source Waiver for a Medical Examinations Services Agreement with the Concentra. In September 2022, the SFMTA advertised a Request for Proposals to identify multiple potential compliant contractors that could offer these medical examination services. Unfortunately, only the Contractor submitted a Proposal for this RFP. No other compliant Suppliers submitted a Proposal.

If you have made an effort to have the supplier comply, explain it here. If not,:

The SFMTA has taken reasonable measures to identify other 12B compliant Suppliers to provide these highly specific services. The City has also requested that the Contractor's parent company become 12B compliant. Unfortunately, the parent company is unwilling to become 12B compliant.

12B.5-1(f) (SFPUC Bulk Water, Power and

Bulk Water:	false
Bulk Power:	false
Bulk Gas:	false

12B.5-1(f) (SFPUC Bulk WPG) Question2:

12B.5-1(f) (SFPUC Bulk WPG) Question1:

12B.5-1(d)(1) (No Vendors Comply)

12B.5-1(d)(1) (No Vendors Comply) Question1:

The Contractor will conduct highly specialized medical examinations of SFMTA employees and candidates for employment . The objectives of the Services are to ensure worker fitness for duty; protect transit employees, passengers, and the public; and ensure that the SFMTA meets all applicable testing and reporting requirements in a timely manner.

12B.5-1(d)(1) (No Vendors Comply) Question2:

The SFMTA is required to comply with the US-DOT procedures outlined Medical Examination Report (MER) Form, MCSA-5875. The Contractor will be required to be compliant with these regulations, as well as California Occupational Safety and Health Administration (Cal-OSHA), Civil Service Commission 416 – Medical Exams, 416.2.1 Fitness-for-Duty Exams and the SFMTA Fitness for Duty Policy and Procedure, in addition to other SFMTA policies and procedures.

12B.5-1(d)(1) (No Vendors Comply) Question3:

In September 2022, the SFMTA advertised a Request for Proposals to identify multiple potential compliant contractors that could offer these medical examination services. The SFMTA reached out to 13 potential occupational/industrial medicine providers , including the Department of Public Health. Unfortunately, only the Contractor submitted a Proposal for this RFP. No other compliant Suppliers submitted a Proposal. Two potential proposers indicated that they would not be presenting a proposal as they did not have the resources to be able to provide the required services.

The SFMTA had previously obtained medical examination services from the Zuckerberg San Francisco General Hospital and Trauma Center and the Dignity Health Network, San Francisco International Airport Medical Clinic; however, due to the COVID-19 emergency and the lack of trained medical staff, both organizations had previously indicated they were unable to provide the SFMTA these medical examination services in a consistent and reliable manner.

12B.5-1(d)(1) (No Vendors Comply) Question4:

The SFMTA has taken reasonable measures to identify other 12B compliant Suppliers to provide these highly specific services. Compliance with the Federal and state regulations cited in this waiver request is mandatory. Denial of this 12B Waiver request will jeopardize on-going transit hiring and service operations and could impact public safety.

Detail the purpose of this contract is and what goods and/or services the contra:

(a) NCS PEARSON, INC
(b) Clinical assessment manuals which include Pediatric evaluation of disabilities (PEDI) and PEDI scoring forms for evaluation
(c) NCS Pearson provides testing forms, manuals, and resources needed for patient evaluation and these materials are not found elsewhere.

If you have made an effort to have the supplier comply, explain it here. If not,:

We have worked with Pearson over the years and have not yet secured compliance with the vendor. SFDPH encourages the supplier to be compliant but until they can be found compliant or unable to comply, we are seeking a waiver in the interim for needed clinical material.

Detail the purpose of this contract is and what goods and/or services the contra:

Division of Occupational Safety and Health (DOSH) protects workers from safety hazards through Cal/OSHA program and provides consultative assistance to employers. The subscription we are requesting provides us the advantage of the following information:

Litigation involving safety cases, such as county prosecutions, and fatality lawsuits
All the latest new and revised Cal/OSHA regulations and their context.
News on Cal/OSHA enforcement actions against employers and why employers are being cited.
Latest news on Cal/OSHA and the California occupational safety and health community.
Features on safety innovations, companies with superior safety cultures, and other important developments.
Lessons learned from major Cal/OSHA cases

This information is essential to ensure operational needs of our Health and Safety Team.

If you have made an effort to have the supplier comply, explain it here. If not,:
We have used this vendor in the past. It continues to provide reliable information and expectations.

CMD Analyst

CMD Analyst:	Tamra Winchester	CMD Director:	Stephanie Tang
CMD Analyst Decision:	Rejected	Select the reason for this request:	
CMD Analyst Comments:	A recent interpretation of Chapter 12B has determined that subscriptions do not meet the definition of "contract" in Chapter 12B. Compliance is encouraged, not required. A waiver is not necessary.

Detail the purpose of this contract is and what goods and/or services the contra:

DPH originally had an agreement ("Original Agreement") with Integrity Document Solutions ("Original Supplier") for Release of Information and Record Release Services for DPH, Zuckerberg San Francisco General Hospital and Medical Center (ZSFGH) and Laguna Honda Hospital and Rehabilitation Center (LHH). The Original Agreement was executed with contract ID 1000002818. DPH requires these services because the public has an interest in availability of their own medical records.

On November 21, 2019, Original Supplier informed DPH that it would be undergoing an acquisition. The Original Supplier was 12B compliant. In light of this information, DPH decided to re-solicit the services. DPH solicited these services on March 6, 2020 via RFP-14-2020, seeking to procure proposals from suppliers that can provide Release of Information and Record Release Services for ZSFGH and LHH.

In response to RFP 14-2020, DPH received 1 of proposal--the one submitted by the VRC Companie ("Supplier"). Supplier's proposal was deemed responsive. On 6/15/20, after evaluation, DPH awarded to Supplier.

On 6/18/20, CMD appoved DPH's 12B waiver submission, 10026, ciitng as justification "Sole source acquired previous contract holder that performed medical records copy services. Re: retroactivity - former contract holder did not notify CCSF of acquisition." Additionally, the waiver submitted referenced contract ID of the Original Agreement, 1000002818.

VRC Companies acquired Integrity Document Solutions on January 13, 2020.

Accordingly, the CMD waiver was erroneous because it: (1) referenced the wrong contract; and (2) provided the wrong justification--Supplier was not a sole source; however; Supplier was the only responsive Proposer.

This 12B request is being made in order to correct the errenous CMD waiver to ensure it references the correct contract and justification.

If you have made an effort to have the supplier comply, explain it here. If not,:

At the time, we cannot locate the previous email of this. We will reach out to the suppleir again.

12B.5-1(f) (SFPUC Bulk WPG) Question1:

12B.5-1(d)(1) (No Vendors Comply)

12B.5-1(d)(1) (No Vendors Comply) Question1:

The Supplier provides release of information and record release services at ZSFGH and LHH. The contract is essential because the public has an interest in availability of their own medical records.

12B.5-1(d)(1) (No Vendors Comply) Question2:

This 12B request is being made in order to correct the errenous CMD waiver to ensure it references the correct contract and justification.

The CMD waiver was erroneous because it: (1) referenced the wrong contract; and (2) provided the wrong justification--Supplier was not a sole source; however; Supplier was the only responsive Proposer.

12B.5-1(d)(1) (No Vendors Comply) Question3:

We are unable to locat e the correspondence at this time. Previous waiver attached. We will reach out to vendor again to seek compliance in the near future. The contract will be expiring soon, so we are working with the previously approved waiver.

12B.5-1(d)(1) (No Vendors Comply) Question4:

This waiver does not defeat the goal of prohibiting the City from entering into contracts with entities that discriminate based on the criteria set forth in Chapter 12B. When confronted with the Original Supplier who was [describe structural change--is it a merger? acquisition?], and would likely be undergoing many corporate changes, including changing policies that might change its 12B status, DPH opted to re-solicit the services via RFP 14-2020.

Unfortunately, the Supplier was the only Proposer who submitted in response to RFP 14-2020. After finding the Supplier's submission responsive and having the review panel evaluate its proposal, DPH awarded to Supplier.

Subsequently, DPH attempted to get Supplier to comply with 12B as described in the response to Question 3 above. After discussions with Supplier, DPH was unable to get Supplier to become 12B compliant.

Ultimately, DPH re-solicited a contract for services when an existing contractor was going through an acquisition. Then, when faced with one responsive Proposer, DPH attempted to get the Supplier compliant. The contract is essential because the public has an interest in availability of their own medical records. [if there is some legal reason, please include]. Accordingly, DPH honored the goals of 12B through its cumulative efforts. While the efforts were not ultimately successful, the public interest served by the services under this contract are essential and should not be delayed further.

Notice of Proposed Emergency Regulations

Greetings,

A notice of proposal for emergency regulations regarding Chinook salmon sport fishing closures in the Klamath, Trinity, Eel, and Smith rivers has been posted to the Commission's website. The notice and associated documents can be accessed at https://fgc.ca.gov/Regulations/2023-New-and-Proposed#CSSFC-E

Sincerely,

Maurene Trotter

Finding of Emergency and Statement of Proposed Emergency Regulatory Action

Emergency Action to Amend subsections (b)(40), (b)(50), and (b)(105) of Section 7.40, Title 14, California Code of Regulations
Re: Chinook Salmon Sport Fishing Closures

Date of Statement: May 31, 2023

Statement of Facts Constituting the Need for Emergency Regulatory Action

Background

I. Chinook Salmon Sport Fishing

Consecutive years of drought, habitat compression in the ocean, and associated changes in ocean forage assemblages have created substantially difficult conditions for Chinook Salmon in the southern range of their distribution. In particular, California stocks have recently experienced such significant decline that the two pillars of this west coast fishery, Sacramento and Klamath River fall Chinook (SRFC and KRFC), have reached historical lows in abundance. This significant decline for SRFC and KRFC has led fishery agencies to close California ocean and river fisheries for 2023. In addition, the state of Oregon has severely constrained their ocean fisheries until the fall when contact with California stocks is effectively reduced. Chinook Salmon originating from the Smith River, the Klamath and Trinity rivers, and the Eel River all share similar ocean distribution and in-river habitat challenges to those of SRFC and KRFC. Given that the environmental factors that have reduced these two primary target stocks in California to historical lows are shared among all California salmon stocks, the California Department of Fish and Wildlife (Department) is recommending emergency closure for the remaining Chinook Salmon fisheries in the state. For the purposes of responsible stewardship and conservation, the Department supports exercising an abundance of caution when planning salmon fisheries in California statewide in 2023.

The Department recognizes that Chinook Salmon fishery closures in 2023 will result in socioeconomic and cultural losses for the communitiesof our state; however, it is necessary to provide every advantage possible to this valuable and cherished resource at this time. Recent and dramatic shifts in climate have led to vastly improved river habitat conditions early in 2023 as a result of above average accumulations of rain and snow. This shift in precipitation has resulted in vastly improved river habitat with higher flow, cooler temperatures, and reduced disease. These improvements are expected to persist, especially as compared to summer and fall conditions experienced over the last few years of extreme drought. The Department expects that putting as many spawning salmon as possible on improved river habitat this spring and fall will be advantageous in efforts to rebound these stocks and rebuild abundances. It is hoped that leveraging this opportunity now will pay dividends in future population recovery and sustainable fishing opportunity.

The proposed emergency regulations will align inland Chinook Salmon sport fishing in the Smith River, Klamath and Trinity rivers, and the Eel River with recent federal regulatory action to close ocean salmon fisheries along the California coast for 2023.

II. Proposed Emergency Regulations

This proposed regulatory action adds subsection (a)(6) and amends subsections (b)(40), (b)(50), and (b)(105) for Section 7.40, Title 14, CCR, which describes 2023 opening dates for recreational salmon fishing in the Eel, Klamath and Trinity, and Smith rivers, respectively.

Subsection 7.40(a)(6), General Provisions

The emergency regulations will amend the general provisions to provide a definition for federally recognized tribes and identification requirements for tribal members when engaging in take of Chinook Salmon on the Klamath River, Trinity River, Eel River and Smith River.

Subsection 7.40(b)(40), Eel River

The emergency regulations will amend Eel River sport fishing Chinook Salmon bag and possession limit language to read “Closed to salmon fishing” except by federally recognized tribes in the following subsections:

- (b)(40)(A)1. From the mouth to Fulmor Road, at its paved junction with the south bank of Eel River. From the effective date through March 31, 2024.
- (b)(40)(A)2. From Fulmor Road, at its paved junction with the south bank of the Eel River, to South Fork Eel River. From the effective date through March 31, 2024.
- (b)(40)(A)3. From South Fork Eel River to Cape Horn Dam. From the effective date through March 31, 2024.
- (b)(40)(B)1. Main stem from its junction with the Eel River to the end of Golden Gate Drive near Bridgeville (approximately 4,000 feet upstream from the Little Golden Gate Bridge). From the effective date through March 31, 2024.
- (b)(40)(C). South Fork Eel River from mouth to Rattlesnake Creek. From the effective date through March 31, 2024.

Subsection 7.40(b)(50), Klamath and Trinity Rivers

The emergency regulations will amend Klamath River sport fishing Chinook Salmon bag limit and possession language to read “Closed to salmon fishing” except by federally recognized tribes in the following subsections:

- (b)(50)2.b. Klamath River downstream of the Highway 96 bridge at Weitchpec. From the effective date through August 14, 2023.
- (b)(50)6.b. Trinity River main stem downstream of the Old Lewiston Bridge to the Highway 299 West bridge at Cedar Flat. From the effective date through August 31, 2023.
- (b)(50)6.c. Trinity River main stem downstream of the Highway 299 West bridge at Cedar Flat to the Denny Road bridge at Hawkins Bar. From the effective date through August 31, 2023.
- (b)(50)6.e. Trinity River main stem downstream of the Denny Road bridge at Hawkins Bar to the mouth of the South Fork Trinity River. From the effective date through August 31, 2023; and

- (b)(50)6.i. South Fork Trinity River downstream of the South Fork Trinity River bridge at Hyampom to the confluence with the Trinity River. From the effective date through December 31, 2023.

Subsection 7.40(b)(105), Smith River

The emergency regulations will amend Smith River sport fishing Chinook Salmon bag and possession limit language to read “Closed to salmon fishing” except by federally recognized tribes in the following subsections:

- (b)(105)(A). Main stem from the mouth to confluence of Middle and South forks. From the effective date through April 30, 2024;
- (b)(105)(B)1. From mouth to Patrick Creek. From the effective date through April 30, 2024;
- (b)(105)(C)1. From the mouth upstream approximately 1,000 feet to the County Road (George Tryon) bridge and Craigs Creek to Jones Creek. From the effective date through April 30, 2024; and
- (b)(105) (D)1. From the mouth to Stony Creek. From the effective date through March 31, 2024.

III. Findings for the Existence of an Emergency

The California Fish and Game Commission (Commission) considered the following factors in determining that an emergency does exist at this time.

The magnitude of potential harm:

The number of Chinook Salmon forecasted to return to California rivers this year is near record low. In response to the critically low abundance forecasts for California Chinook Salmon stocks, federal fishery agencies have closed California ocean and river fisheries for 2023. Currently, the Eel River, Klamath and Trinity rivers, and Smith River are the only waters in California open or scheduled to be open to recreational salmon fishing in 2023. At this time, it is critical that all California Chinook Salmon stocks be protected from fishery impacts. Any additional take of Chinook Salmon in the Eel, Klamath and Trinity, and Smith rivers will harm these important recreational fisheries.

The existence of a crisis situation:

Consecutive years of drought, habitat compression in the ocean, and associated changes in ocean forage assemblages have created substantially difficult conditions for Chinook Salmon in the southern range of their distribution. California stocks have recently experienced a significant decline. SRFC and KRFC, in particular, have reached historical lows in abundance. This significant decline for SRFC and KRFC has led federal fishery agencies to close California ocean and river fisheries for 2023. In addition, the Department has recommended to the Commission that all KRFC and SRFC in-river sport fishing be closed in 2023. Chinook Salmon originating from the Smith River, Klamath and Trinity rivers, and Eel River share similar ocean distribution and fishery impacts to KRFC and SRFC. Given that the environmental factors that have reduced these

two primary target stocks in California to historical lows are shared among all California salmon stocks, it is necessary to protect Chinook Salmon stocks from fishery impacts in 2023.

The immediacy of the need:

There is an immediate need for action due to the low abundance forecasts for Chinook Salmon stocks in California and anticipated effort shifts to salmon fisheries on the Eel, Klamath and Trinity, and Smith rivers. On April 6, the Pacific Fisheries Management Council adopted recommendations to close ocean salmon fisheries in California for 2023. On April 19, the Department recommended to the Commission that KRFC and SRFC in-river sport fishing be closed in 2023. The recreational salmon fisheries on the Smith and Eel rivers are currently open and the Klamath and Trinity fishery will begin July 1. The Department recognizes that Chinook Salmon stocks in the Eel, Klamath and Trinity, and Smith rivers are threatened by recreational effort shifts as recreational anglers turn to the few remaining fishing opportunities for salmon in California, therefore increasing effort and ultimately take. The regular rulemaking process is inadequate to address the time-sensitive circumstances faced by Chinook Salmon in the Eel, Klamath and Trinity, and Smith rivers. The requirements of the Administrative Procedure Act, the Commission's three separate bi-monthly public meetings required by Fish and Game Code Section 255, and the Office of Administrative Law's 30 working day review period would implement the necessary regulatory changes, at the earliest, in approximately 8 months; well after intensified fishery pressure on Chinook Salmon stock.

Whether the anticipation of harm has a basis firmer than simple speculation:

The 2023 KRFC forecast of 103,800 adults is the third lowest on record. Similarly, the 2023 SRFC forecast of 169,800 adults is the third lowest since the implementation of the Sacramento Index in 2008. KRFC have met the status determination criteria as an overfished stock since 2018, and SRFC are currently at risk of approaching overfished status. Chinook Salmon originating from the Smith River, the Klamath and Trinity rivers, and the Eel River all share similar ocean distribution and in-river habitat challenges to those of SRFC and KRFC. Given that the environmental factors that have reduced these two primary target stocks in California to historical lows are shared among all California salmon stocks, an abundance of caution around fishery planning is necessary for the remaining Chinook Salmon fisheries in the state. The proposed fishing closures on the Eel, Klamath and Trinity, and Smith rivers will minimize fishing impacts and the magnitude of potential harm during this crisis situation.

IV. Impact of Regulatory Action

The potential for significant statewide adverse economic impacts that might result from the proposed regulatory action has been assessed, and the following initial determinations relative to the required statutory categories have been made:

(a) Costs or Savings to State Agencies or Costs/Savings in Federal Funding to the State

None. The proposed emergency regulations will make Chinook Salmon fishing in the Eel, Klamath and Trinity, and Smith rivers consistent among the current proposed closures of both the KRFC and SRFC fisheries in the Klamath River Basin and Central Valley rivers, respectively.

(b) Nondiscretionary Costs/Savings to Local Agencies

None.

(c) Programs Mandated on Local Agencies or School Districts

None.

(d) Costs Imposed on Any Local Agency or School District that is Required to be Reimbursed Under Part 7 (commencing with Section 17500) of Division 4, Government Code

None.

(e) Effect on Housing Costs

None.

V. Technical, Theoretical, and/or Empirical Studies, Reports, or Documents Relied Upon:

Pacific Fishery Management Council. April 2023. *Preseason Report III, Council Adopted Management Measures and Environmental Assessment Part 3 for 2023 Ocean Salmon Fishery Regulations*.

https://www.pcouncil.org/managed_fishery/salmon/

VI. Authority and Reference

Authority cited: Sections 200, 205, 265, 270, 315, 316.5, 399 and 2084, Fish and Game Code. Reference: Sections 200, 205, 265, 270, 316.5 and 2084, Fish and Game Code.

VII. Fish and Game Code Section 399 Finding

Delay in the amendments to bag and possession limits for Chinook Salmon puts marine resources at risk. Emergency action is necessary to safeguard Chinook Salmon stocks in a timely manner in conjunction with the 2023 ocean salmon closure.

Pursuant to Section 399 of the Fish and Game Code, the Commission finds that adopting this regulation is necessary for the immediate conservation, preservation, or protection of California Chinook Salmon.

Consecutive years of drought, habitat compression in the ocean, and associated changes in ocean forage assemblages have created substantially difficult conditions for Chinook Salmon in the southern range of their distribution. In particular, California stocks have recently experienced such significant decline that the two pillars of this west coast fishery, Sacramento and Klamath River fall Chinook (SRFC and KRFC), have reached historical lows in abundance. This significant decline for SRFC and KRFC has led fishery agencies to close California ocean and river fisheries for 2023. In addition, the state of Oregon has severely constrained their ocean fisheries until the fall when contact with California stocks is effectively reduced. Chinook Salmon originating from the Smith River, the Klamath and Trinity rivers, and the Eel River all share similar ocean distribution and in-river habitat challenges to those of SRFC and KRFC. Given that the environmental factors that have reduced these two primary target stocks in California to historical lows are shared among all California salmon stocks, the Department is recommending emergency closure for the remaining Chinook Salmon fisheries in the state. For the purposes of responsible stewardship and conservation the Department supports exercising an abundance of caution when planning salmon fisheries in California statewide in 2023.

The Department recognizes that Chinook Salmon fishery closures in 2023 will result in socioeconomic and cultural losses for the communities of our state, however it is necessary to provide every advantage possible to this valuable and cherished resource at this time. Recent and dramatic shifts in climate have led to vastly improved river habitat conditions early in 2023 as a result of above average accumulations of rain and snow. This shift in precipitation has resulted in vastly improved river habitat with higher flow, cooler temperatures, and reduced disease. These improvements are expected to persist, especially as compared to summer and fall conditions experienced over the last few years of extreme drought. The Department expects that putting as many spawning salmon as possible on improved river habitat this spring and fall will be advantageous in efforts to rebound these stocks and rebuild abundances. It is hoped that leveraging this opportunity now will pay dividends in future population recovery and sustainable fishing opportunity.

The proposed emergency regulations will align Chinook Salmon sport fishing in the Smith River, Klamath and Trinity rivers, and the Eel River with recent federal regulatory action to close ocean salmon fisheries along the California coast for 2023.

Benefits of the Regulation:

The Commission anticipates benefits to the State's environment by sustainably managing California's Chinook Salmon resources. Other benefits of the proposed regulations are consistency with fishery management goals, and preservation of salmon stocks to help ensure future resource availability past the current low population estimate. The environmental risks arising from the proposed rule more conservatively preserve salmon than existing regulation.

Consistency and Compatibility with Existing Regulations

Article IV, Section 20 of the State Constitution specifies that the Legislature may delegate to Commission such powers relating to the protection and propagation of fish and game as the Legislature sees fit. The Legislature has delegated to the Commission the power to regulate sport fishing in waters of the state (Fish and Game Code sections 200, 205, 315 and 316.5). The

Commission has reviewed its own regulations and finds that the proposed regulations are consistent with other recreational fishing regulations in Title 14, CCR, and therefore finds that the proposed regulations are neither inconsistent nor incompatible with existing state regulations. The Commission has searched the California Code of Regulations and finds no other state agency regulations pertaining to potentially closing Chinook Salmon sport fishing seasons due to environmental considerations.

NOTICE OF PROPOSED EMERGENCY REGULATIONS
Chinook Salmon Sport Fishing Closures

Pursuant to the requirements of Government Code Section 11346.1, the California Fish and Game Commission (Commission) is providing notice of proposed emergency action with regard to the above-entitled emergency regulation.

SUBMISSION OF COMMENTS

Government Code Section 11346.1 subdivision (a)(2) requires that, at least five working days prior to submission of the proposed emergency action to the Office of Administrative Law (OAL), the adopting agency provide a notice of the proposed emergency action to every person who has filed a request for notice of regulatory action with the agency. After submission of the proposed emergency to OAL, OAL shall allow interested persons five calendar days to submit comments on the proposed emergency regulations as set forth in Government Code Section 11349.6.

Any interested person may present statements, arguments, or contentions, in writing, submitted via U.S. mail or e-mail, relevant to the proposed emergency regulatory action. Written comments submitted via U.S. mail or e-mail must be received at OAL within five days after the Commission submits the emergency regulations to OAL for review.

Please reference submitted comments as regarding “Emergency Regulations: Chinook Salmon Sport Fishing Closures,” addressed to:

Reference Attorney
Office of Administrative Law
300 Capitol Mall, Suite 1250
Sacramento, CA 95814

E-mail: staff@oal.ca.gov
Fax No.: 916-323-6826

California Fish and Game Commission
Attn: Maurene Trotter
P.O. Box 944209
Sacramento, CA 94244-2090

Email: fgc@fgc.ca.gov
Fax No.: n/a

The Commission anticipates it will submit the rulemaking to OAL between June 7 and June 9, 2023. For the status of the Commission's submittal to OAL for review, and the end of the five-day written submittal period, please consult OAL's website at http://www.oal.ca.gov under the heading “Emergency Regulations.”

Proposed Regulatory Language

Subsections (a), (b)(40), (b)(50), and (b)(105) of Section 7.40, Title 14, CCR, is amended to read as follows:

§ 7.40. Alphabetical List of Hatchery Trout, Hatchery Steelhead, and Salmon Waters with Special Fishing Regulations.

(a) General Provisions:

… *[No changes to subsections (a)(1) through (a)(5)]*

(6) For purposes of Section 7.40, "federally recognized tribe" means any tribe on the List of Indian Entities Recognized and Eligible to Receive Services from the United States Bureau of Indian Affairs, published annually in the Federal Register. Any member of a federally recognized tribe, when engaging in take of Chinook salmon on the Klamath River, Trinity River, Eel River and Smith River shall possess on his person, in his immediate possession, or where otherwise specifically required by law to be kept, any valid license, report card, tag, stamp, validation, permit, or any other entitlement that is required in the Fish and Game Code, or required by other state, federal, or local entities, in order to take Chinook salmon. Members shall possess a valid photo identification card issued by a federally recognized tribe that contains an expiration date and name of the tribe, and the tribal member's number, name, signature, date of birth, height, color of eyes, color of hair, weight, and sex; the member shall display any of the items listed in this subsection, upon demand, to any peace officer. No member, while taking Chinook salmon pursuant to this section, may be assisted by any person who does not possess a valid tribal identification card and is not properly licensed to take chinook salmon.

… *[No changes to subsections (b)(1) through (b)(39)]*

Body of Water	Open Season and Special Restrictions	Daily Bag and Possession Limit
(40) Eel River (Humboldt, Lake, Mendocino, and Trinity Cos.). All waters of the Eel River Drainage except those listed below are closed to all fishing.	Section 8.00 Low-Flow Restrictions also apply.	
(A) Main stem.		

Body of Water	Open Season and Special Restrictions	Daily Bag and Possession Limit
1. From mouth to Fulmor Road, at its paved junction with the south bank of the Eel River. Also see Section 8.00(a)(1)(A). Low-Flow Restrictions	All year. Only artificial lures with barbless hooks may be used from Apr. 1 through the Fri. preceding the fourth Sat. in May. Only barbless hooks may be used from fourth Sat. in May through Mar. 31.	Closed to all salmon fishing except for ~~C~~catch and release of Chinook Salmon by federally recognized tribes. 2 hatchery trout or hatchery steelhead**. 4 hatchery trout or hatchery steelhead** in possession.
2. From Fulmor Road, at its paved junction with the south bank of the Eel River, to South Fork Eel River. Also see Section 8.00(a)(1)(B), Low-Flow Restrictions.	All year. Only artificial lures with barbless hooks may be used from Apr. 1 through Sep. 30. Only barbless hooks may be used from Oct. 1 through Mar. 31.	Closed to all salmon fishing except for ~~C~~catch and release of Chinook Salmon by federally recognized tribes. 2 hatchery trout or hatchery steelhead**. 4 hatchery trout or hatchery steelhead** in possession.
3. From South Fork Eel River to Cape Horn Dam.	Jan. 1 through Mar. 31 and fourth Sat. in May through Sep. 30. Only artificial lures with barbless hooks may be used. Apr. 1 through the fourth Fri. in May and Oct. 1 through Dec. 31.	Closed to all salmon fishing except for ~~C~~catch and release of Chinook Salmon by federally recognized tribes. 2 hatchery trout or hatchery steelhead**. 4 hatchery trout or hatchery steelhead** in possession. Closed to all fishing.
(B) Van Duzen River.		

Body of Water	Open Season and Special Restrictions	Daily Bag and Possession Limit
1. Main stem from its junction with the Eel River to the end of Golden Gate Drive near Bridgeville (approximately 4,000 feet upstream from the Little Golden Gate Bridge). Also see Section 8.00(a)(3) Low-Flow Restrictions.	Fourth Sat. in May through Mar. 31. Only artificial lures with barbless hooks may be used from the fourth Sat. in May through Sep. 30. Only barbless hooks may be used from Oct. 1 through Mar. 31.	Closed to all salmon fishing except for ~~C~~catch and release of Chinook Salmon by federally recognized tribes. 2 hatchery trout or hatchery steelhead**. 4 hatchery trout or hatchery steelhead** in possession.
(C) South Fork Eel River from mouth to Rattlesnake Creek. Also see Low-Flow Restrictions, Section 8.00(a)(2).	Apr. 1 to fourth Fri. in May. Fourth Sat. in May through Mar. 31. Only artificial lures with barbless hooks may be used from the fourth Sat. in May through Sep. 30. Only barbless hooks may be used from Oct. 1 through Mar. 31. Apr. 1 to Fourth Fri. in May.	Closed to all fishing. Closed to all salmon fishing except for ~~C~~catch and release of Chinook Salmon by federally recognized tribes. 2 hatchery trout or hatchery steelhead**. 4 hatchery trout or hatchery steelhead** in possession. Closed to all fishing.
(D) Middle Fork Eel River.		
1. Middle Fork main stem from mouth to Bar Creek. Also see Section 8.00(a)(2) Low-flow Restrictions.	Jan. 1 through May 31 and Jul. 16 through Sep. 30. At all times, only artificial lures with barbless hooks may be used. Jun. 1 through Jul. 15 and Oct. through Dec. 31.	2 hatchery trout or hatchery steelhead**. 4 hatchery trout or hatchery steelhead** in possession. Closed to all fishing.

…[No changes to subsections (b)(41) through (b)(49)]

(50) Klamath River Basin Regulations.

Anadromous Waters of the Klamath River Basin Downstream of Iron Gate and Lewiston dams. This subsection applies only to waters of the Klamath River Basin that are accessible to anadromous salmonids. This subsection does not apply to waters of the Klamath River Basin that are inaccessible to anadromous salmon and trout, portions of the Klamath River system upstream of Iron Gate Dam, portions of the Trinity River system upstream of Lewiston Dam, and the Shasta River and tributaries upstream of Dwinnel Dam.

(A) Restrictions and Requirements.

1. Only barbless hooks may be used. (For definitions regarding legal hook types, hook gaps and rigging see Chapter 2, Article 1, Section 2.10.)

2. During closures to the take of adult salmon, it shall be unlawful to remove any adult Chinook Salmon from the water by any means.

3. See Section 1.74 for sport fish report card requirements.

(B) General Area Closures.

1. No fishing is allowed within 750 feet of any department fish−counting weir.

2. No fishing is allowed from the Ishi Pishi Road bridge upstream to and including Ishi Pishi Falls from Aug. 15 through Dec. 31. Exception: members of the Karuk Tribe listed on the current Karuk Tribal Roll may fish at Ishi Pishi Falls using hand−held dip nets.

3. No fishing is allowed from Sep. 15 through Dec. 31 in the Klamath River within 500 feet of the mouths of the Salmon, Shasta and Scott rivers and Blue Creek.

4. No fishing is allowed from Jun. 15 through Sep. 14 in the Klamath River from 500 feet above the mouth of Blue Creek to 500 feet downstream of the mouth of Blue Creek.

(C) Klamath River Basin Possession Limits.

1. Trout Possession Limits.

a. The Brown Trout possession limit is 20.

b. The hatchery trout or hatchery steelhead possession limits are as follows:

(i) Klamath River: 4 hatchery trout or hatchery steelhead.

(ii) Trinity River: 4 hatchery trout or hatchery steelhead.

2. Chinook Salmon Possession Limits.

a. Klamath River downstream of the Highway 96 bridge at Weitchpec from Jul. 1 to Aug. 14 and the Trinity River downstream of the Old Lewiston Bridge to the confluence of the South Fork Trinity River from Jul. 1 to Aug. 31: Closed to all salmon fishing except for 2 Chinook Salmon by federally recognized tribes.

b. Klamath River from Aug. 15 to Dec. 31 and Trinity River from Sep. 1 to Dec. 31: 6 Chinook Salmon. No more than 3 Chinook Salmon over 23 inches total length may be retained when the take of salmon over 23 inches total length is allowed.

(D) Klamath River Basin Chinook Salmon Quotas. Klamath River fall−run Chinook Salmon take is regulated using quotas. Accounting of the tribal and non−tribal harvest is closely monitored from Aug. 15 through Dec. 31 each year. Quota areas are noted in subsection (b)(50)(E) with “Fall−run Quota” in the *Open Season and Special Restrictions column*.

1. Quota for Entire Basin.
The 2022 Klamath River Basin quota is 2,119 Klamath River fall−run Chinook Salmon over 23 inches total length. The department shall inform the commission, and the public via the news media, prior to any implementation of restrictions triggered by the quotas. (Note: A department status report on progress toward the quotas for the various river sections is updated weekly, and available by calling 1−800−564−6479.)

2. Subquota Percentages.

a. The subquota for the Klamath River upstream of the Highway 96 bridge at Weitchpec and the Trinity River is 50% of the total Klamath River Basin quota.

(i) The subquota for the Klamath River from 3,500 feet downstream of the Iron Gate Dam to the Highway 96 bridge at Weitchpec is 17% of the total Klamath River Basin quota.

(ii) The subquota for the Trinity River main stem downstream of the Old Lewiston Bridge to the Highway 299 West bridge at Cedar Flat is 16.5% of the total Klamath River Basin quota.

(iii) The subquota for the Trinity River main stem downstream of the Denny Road bridge at Hawkins Bar to the confluence with the Klamath River is 16.5% of the total Klamath River Basin quota.

b. The subquota for the lower Klamath River downstream of the Highway 96 bridge at Weitchpec is 50% of the total Klamath River Basin quota.

(i) The Spit Area (within 100 yards of the channel through the sand spit formed at the Klamath River mouth) will close when 15% of the total Klamath River Basin quota is taken downstream of the Highway 101 bridge.

(E) Klamath River Basin Open Seasons and Bag Limits. All anadromous waters of the Klamath River Basin are closed to all fishing all year except those areas listed in the following table. Bag limits are for trout and Chinook Salmon in combination unless otherwise specified.

Body of Water	*Open Season and Special Restrictions*	*Daily Bag Limit*
1. Bogus Creek and tributaries	Fourth Sat. in May through Aug. 31. Only artificial lures with barbless hooks may be used	2 hatchery trout or hatchery steelhead**.
2. Klamath River main stem from 3,500 feet downstream of Iron Gate Dam to the mouth.		
a. Klamath River from 3,500 feet downstream of the Iron Gate Dam to the Highway 96 bridge at Weitchpec.	Jan. 1 to Aug. 14 Fall-run Quota: 360 Chinook Salmon Aug. 15 to Dec. 31, 2022. Fall-run Quota Exception: Chinook Salmon over 23 inches total length may be retained from 3,500 feet downstream of Iron Gate Dam to the Interstate Highway 5 bridge when the department determines that the adult fall-run Chinook Salmon spawning escapement at Iron Gate Hatchery exceeds 8,000 fish. Daily bag and possession limits specified for fall-run Chinook Salmon apply during this exception.	2 hatchery trout or hatchery steelhead**. 2 Chinook Salmon – no more than 1 fish over 23 inches total length until subquota is met, then 0 fish over 23 inches total length. 2 hatchery trout or hatchery steelhead**.
b. Klamath River downstream of the Highway 96 bridge at Weitchpec.	Jan. 1 to Jun. 30. Jul. 1 to Aug. 14.	2 hatchery trout or hatchery steelhead**. <u>Closed to all salmon fishing except for</u> 1

FIONA MA, CPA
TREASURER
STATE OF CALIFORNIA

RECEIVED
BOARD OF SUPERVISORS
SAN FRANCISCO
2023 MAY 22 AM 8:48
BY BOS-11

May 16, 2023

Members of the Board of Supervisors
San Francisco County
1 Dr. Carlton B. Goodlett Place
City Hall, Room 244
San Francisco, CA 94102

Dear Members of the Board of Supervisors,

The State of California recently launched the California Kids Investment and Development Savings Program (CalKIDS) to help as many California children prepare financially for a postsecondary education. CalKIDS provides all newborns up to $100, and eligible low-income public school students enrolled in first through 12th grade up to $1,500, to start saving for college and career training. Families are encouraged to build on this investment by opening and contributing to their own account with ScholarShare 529, California's official 529 college savings plan.

To access their CalKIDS account, eligible newborns and low-income students or their parents will need to register at www.calkids.org, which requires key information, including the child's Local Registration Number (LRN) or Statewide Student Identifier (SSID) or a unique code included in a notification letter that the family has received or will be receiving soon. When ready, CalKIDS funds can be used for expenses such as tuition, fees, books, supplies, and certain room and board costs.

This statewide initiative is administered by the ScholarShare Investment Board, an agency of the State of California, and managed out of the State Treasurer's Office. ScholarShare 529 and CalKIDS can make college or career training a reality for millions of children and families throughout our state.

Studies have shown that children with $500 or less saved for college are three times more likely to enroll in college and four times more likely to graduate, than children with no savings at all. CalKIDS builds upon this research by providing families a starting point for growing assets and working to make higher education attainable.

To ensure all eligible families are aware of this important program, we seek your help in sharing this valuable information with families in your region or district.

If you are interested in informing families about CalKIDS, we welcome support in any or all of the following ways:

- Hosting an informational webinar
- Sharing information through your digital communications, such as e-newsletters, website, and social media
- Distributing program flyers throughout your region or district

To help facilitate the dissemination of Program information, we have made available a comprehensive online toolkit which contains various materials, in English and Spanish, for use. The toolkit can be accessed on the Partners tab at CalKIDS.org. If you have additional questions or would like further details, contact CalKIDS staff directly at CalKIDSAdmin@calkids.org or (916) 651-6380.

Thank you for your assistance in ensuring that all eligible families know about this exciting new program.

In Peace and Friendship,

FIONA MA, C.P.A.
California State Treasurer

Dear Director Tumlin:

I am attaching a letter from the San Francisco Taxi Workers Alliance regarding Post K medallions and medallion holders.

Barry Taranto
SFTWA Executive Board Member

San Francisco Taxi Workers Alliance

May 24, 2023

Director of Transportation Jeffrey Tumlin
San Francisco Municipal Transportation Agency
1 South Van Ness Avenue, 7th floor
San Francisco, CA 94103

Dear Director Tumlin:

The San Francisco Taxi Workers Alliance calls upon the SFMTA to declare an immediate moratorium on the revocation, non-renewal or suspension of K medallions, an interim measure to remain in effect at least until a viable medallion system has been restored.

The medallion system is not working for either P or K medallion holders. While holders of purchased medallions have been impacted the most from the current situation, holders of K medallions, who through no fault of their own cannot sell their medallions, face the prospect of losing them if they can no longer drive. Both are prisoners of a broken system.

Indeed, one of the main purposes of the Medallion Sales Program was to rectify a flaw in the regulations by providing K medallion holders an "exit strategy," an off-ramp to be taken when, for reasons of health and safety, it is no longer wise or possible for them to drive a cab. But the paralysis in medallion sales has blocked the exit the Medallion Sales Program was designed to provide. Holders of K medallions should not be penalized so long as the exit remains closed and a viable alternative does not exist.

In addition to safety concerns, service to the public will be at risk if the interim solution we are proposing is not adopted. Confiscating medallions will make it harder to get a cab. When compliance with regulations puts the public at risk or degrades taxi service, it fuels a lack of trust by casting doubt on the legitimacy of such regulations. We support enforcement of regulations in principle, but in this case the regulatory framework itself is at the heart of the problem.

If for no other reason, we ask you to declare this moratorium as a step toward restoring trust in the regulatory system. At a recent Board meeting, then-Vice Chair of the Board of Directors Gwyneth Borden spoke at length about this. Here is some of what she said:

> "I think the biggest challenge that we still haven't overcome and that we discussed in the last hearing is a lack of trust . . . in the industry of the SFMTA." Referring to K medallion holders, she said, "Our population is aging. The regulations don't

1415 Palou Avenue * San Francisco, CA 94124
415-534-5221 * board@sftwa.org * www.sftwa.org * Labor Donated

support their ability to age gracefully . . . If we can't get over this trust barrier, this is going to be very, very difficult."

Chair Amanda Eaken and Director Manny Yekutiel endorsed these remarks.

Openly acknowledging the absence of a dignified exit strategy for K medallion holders is a first step. A moratorium would provide time to address possible solutions, a dialogue in which those most affected could have a voice. It would build trust with the taxi community and advance the Board's call to create a culture of caring.

The need for immediate action is pressing. It seems unlikely that there will be any meaningful changes to the medallion system before the lawsuit between the credit union and the SFMTA is resolved. In the meantime, an important deadline is looming. Medallions and A-cards must be renewed by June 30. If another round of non-renewals or revocations ensues, it will create more hardship, more concerns over safety and service, and more distrust. Our interim solution will prevent that from happening. Ultimately, we believe the status of K medallions and their holders is best addressed through a comprehensive reform measure encompassing all medallions.

We ask you to give this proposal your urgent consideration, and to inform us of your intentions at your earliest opportunity.

Sincerely,

Barry Taranto
Executive Board Member

> It is ridiculous, it is not our responsibility to pickup fares from San Mateo county. Sfmta is violating the rules of San Francisco taxi cab industry. Rideshare destroyed taxi cabs in San Mateo county & now sfmta force us to pick up passengers from Rental car parking, which is belong South Sanfrancisco. Before sfmta forced us to pick up passengers from Grand Hyatt hotel & we we're wasting our time to go to Grand Hyatt people were not talking cabs because taxi meter start from $ 4.15 +$5.50 airport fee . Passenger refused to pay $4.15 taxi meter drop + $ 5.50 airport fee. We had to get back dead head empty to airport pick up short line + waste of fuel, time & money. It is massacre of poor taxi driver's rights. Enough is enough. Sfmta force us to pick up trash of rideshare. Which is unacceptable. We have right to refuse. We never ask for this kind of shifty treatment. We strongly oppose it. We are ready to strike. There is a 4hours to 5hours wait to pickup fares at Airports. Sfmta supposed to ban rideshare pickup at Airport. Rideshare supposed to pickup at long term parking location not at airport.

NOTICE

May 26, 2023

TO: San Francisco Taxi Drivers
SUBJECT: **Pickups at Rental Car Center, Ramp Closures, and Summer Travel Notice**

Summer Travel Returns to Full Pre-Pandemic Levels
Summer 2023 will be very busy, and taxi drivers should expect more fares at the airport. Projections show that this summer will be **about as busy as 2018.** Expect particularly high demand at the end of holiday weekends, starting with this coming Monday evening (Memorial Day).

Overnight Ramp Closures
Several on- and off- ramps on US-101 will be closed overnight in the coming months for repaving. This may occur without warning. The first closure with serious impacts to the airport will close the direct ramp from I-380 to the airport between 12am and 4am on certain nights next week. Taxi drivers coming from the city overnight are advised to use US 101, not I-280/380.

Curbside Office Relocation
On Friday, June 2, the Curbside Management Office will be relocated to Terminal 1. Use the A/B tunnel to reach T1. The office is on the back wall of baggage claim behind Carousel 4.

Rental Car Center Pickups
SFO will begin advertising that taxis are available at the Rental Car Center. Customers wanting to take a taxi will call Curbside Management, and the next cab in line will be directed to the Rental Car Center. Depending on the situation, this may be the next cab in line in the lots, or at one of the stands.

Please note that you are required to go to the Rental Car Center if directed and to make a good faith effort to meet the customer. Upon arrival at the Rental Car Center, you must do the following:

1. If the customer is not already waiting at the Rental Car Center driveway, call the shift manager at (650) 808-0713. The Shift Manager will call the customer and guide them to you.
2. Wait a minimum of 5 minutes after calling the shift manager for the passenger to find you.
3. If the Shift Manager calls you back, follow any additional instructions.

Taxis may not stage at the Rental Car Center at any time, including during open lot hours (2am-7am). Taxis may ONLY go to the rental car center when directed by Curbside staff.

SFO expects this to be a popular service, including for locals returning from rental car road trips and needing to go to their homes. Taxi drivers should expect a mix of longs and shorts from the Rental Car Center. Please contact the curbside management office at

650-821-2700 with any questions.

Re: Streamlining Legislation Titled "Planning Code, Zoning Map - Housing Production"
Legislative File #230446
Dear Aaron and Veronica,

The legislation referenced above is on the Planning Commission's advance calendar for June 15, 2023. This is extremely complex, technical legislation that requires extensive review and cross-referencing of multiple sections of the Planning Code.

We are eagerly looking forward to Planning's Staff Report on this item to help our understanding of all the ramifications of this legislation. We are concerned, however, that the Staff Report will not be published until just one week prior to the hearing- because this is unfortunately the pattern that Planning has been following.

The Race & Equity in all Planning Coalition (REP-SF) requests that the Staff Report for this legislation be made available to Planning Commissioners and to the public at least two weeks prior to the Planning Commission hearing on this legislation. This would mean publication of the Staff Report this Thursday, June 1.

If it is not possible for staff to publish their report by or before this Thursday, June 1, REP-SF requests that the hearing be postponed to a date that is at least two weeks after the actual publication date of the Staff Report.

Thank you for your consideration of this request.

Respectfully submitted,

The Race & Equity in all Planning Coalition, San Francisco (REP-SF)

Subject: PUBLIC COMMENT: SFMTA BOD meeting (Dec 6, 2022) - Lake St

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

My name is **Mark Davis**
My email address is mcdarchitect@gmail.com

Dear SFMTA Board of Directors,

Lake Street has always been a street safely shared by pedestrians, bicyclists, and cars. It is one of the safest streets in San Francisco with extra wide sidewalks, two lanes for vehicles, parking on both sides of the street, and bicycle lanes on both sides of the street. With the new traffic calming measures that have recently been installed, it is even safer! It makes sense to reopen Lake Street to through traffic.

Below are some reasons why Lake Street should not be part of the Slow Street network and it should be reopened to through traffic:

We are the majority: The majority of Lake Street residents oppose a Slow Lake designation. Please listen to the local residents whose opinions should take priority. 54% of over 3500 respondents in June 2022 wanted less or no traffic diversion.

Lack of Equity: Lake Street had over 7,750 cars/day prior to Covid (SFMTA data Sept. 2019) and that traffic is now diverted to California Street resulting in traffic congestion, long commute times, and added pollution and noise, while Lake Street is empty most days. Lake Street is a completely residential get a tax-payer funded private promenade that increases the value of their homes, while California Street and adjacent street residents quality of life is reduced and their property values have declined as well. Slow Lake Street is elitist and classist. It simply isn't fair.

Reduced safety on California Street: The 7.750cars/day on Lake Street has now

been diverted to California Street, which is a designated Vision Zero High Injury Network. The Vision Zero Network is 13% of city streets that account for 75% of severe and fatal collisions. It is counterintuitive, at best, to take cars off a safe street (Lake) and put them on a High Injury Network street (California).

Plentiful recreational areas: Lake Street is among the wealthiest neighborhoods in San Francisco with numerous recreational areas along the Lake Street corridor including: the Presidio, Mountain Lake Park, Richmond Playground, and Rochambeau Playground. There is no need to close Lake Street for added recreational space.

Do the right thing. SFMTA has spent over 500K in traffic calming measures. Reopen Lake Street to through traffic and allow our community to safely share the street, heal, and move forward together.

Sincerely,
Mark Davis

Dear Supervisors Board Members!

I would like to suggest a new name for Stow Lake.

My name is Shabi Fiumei. I am from Vienna, Austria and I am currently enrolled as a student at the MA of Fine Arts department of the TNUA art university in Taipei.

In my opinion the lake should be renamed after Dr. Ho Fengshan **何鳳山** (Chasid Umot Haolam - Righteous Among the Nations), who was a R.O.C. diplomat in Vienna during WWII.

Ho saved thousands of Jewish lives by issuing them visas - despite the orders of his superiors.

Ho continued to work as a diplomat after the war for the R.O.C. (Taiwan) government until his retirement in 1973. He settled in San Francisco, where he spent the last 2,5 decades of his life.

Ho Fengshan and his exemplary actions are now - more and more - known in Vienna, and slowly also beyond Austria's, Israel's, China's and Taiwan's borders too.

It is time to do something in San Francisco for this true hero by remembering and honouring him properly in the city.

He was a founding member of the Chinese Lutheran Church of Richmond, which is just a few minutes walk away from the Golden Gate Park.

The area around the park has a sizable Jewish and Chinese / Taiwanese population.
It has many synagogues and other Jewish establishments, so in a way in my opinion it symbolizes well the connection between Chinese and Jewish history, for which Ho Fengshan is a direct strong link to.

Please consider my proposal.

Sincerely Yours,

Greetings from the sunny Taipei,

--

Subject: 1160 Mission Street Appeal

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

On behalf of the members of International Brotherhood of Electrical Workers Local 6 (IBEW6), I am writing to express our support for the 1160 Mission Street project, which will be before you on appeal of its Conditional Use Authorization on May 23rd. IBEW6 has hundreds of members out of work; they are skilled and trained craftspeople and have been certified in Electrical Vehicle Charging Systems through our apprenticeship & continuing education program.

The project sponsor proposes to convert 61 public parking spaces at the 1160 Mission Street garage to fleet charging spaces and has committed to use skilled and trained Local 6 electricians to complete their work. The project was endorsed unanimously by the Planning Commission, and we

urge you to reject the appeal and approve the project.

While we are of the belief that the appeal should be denied based upon the facts of this particular project, we also understand the concerns of the Teamsters as part of a larger discussion around the automation of work and the displacement of workers. We will continue to work with and support our Labor colleagues, and others, to ensure a just transition of our economy in the years to come.

If you have any questions on our position, please do not hesitate to reach out and contact me.

Respectfully submitted,

San Francisco, California 94102

Sent via email to bos@sfgov.org

RE: DISMISS MS. LIZA MURAWSKI FROM THE BEHAVIORAL HEALTH COMMISSIION FOR OFFICIAL MISCONDUCT.

Honorable Chair Peskin:

Ms. Liza Murawski, your appointee to the Behavioral Health Commission, repeatedly committed official misconduct at a meeting of the Executive Committee of the Commission held on May 9. She willfully failed, refused, and neglected to carry out the duties enjoined on her by law detailed hereafter, and should be dismissed from the Commission therefor, pursuant to *S.F. Charter* § 15.105(e)

> OFFICIAL MISCONDUCT. Official misconduct means any wrongful behavior by a public officer in relation to the duties of his or her office, willful in its character, including any failure, refusal or neglect of an officer to perform any duty enjoined on him or her by law . . . When any City law provides that a violation of the law constitutes or is deemed official misconduct, the conduct is covered by this definition and may subject the person to discipline and/or removal from office.

"Willfully" is defined by *Cal. Penal Code* § 7(1) (second para.) as follows:

> The following words have in this code the signification attached to them in this section, unless otherwise apparent from the context:
> (1) The word "willfully," when applied to the intent with which an act is done or omitted, implies simply a purpose or willingness to commit the act, or make the omission referred to. It does not require any intent to violate law, or to injure another, or to acquire any advantage.

Although this definition of "willfully" only applies to the *Penal Code*, it extends to *S.F. Charter* § 15.105(e) because it applies to *Cal. Gov't Code* § 1222, and this section makes a misdemeanor "[e]very wilful [*sic*] omission to perform any duty enjoined by law upon any public officer, or person holding any public trust or employment, where no special provision is made for the punishment of such delinquency . . ." (sq. brackets, ellipsis added). *Cal. Gov't Code* § 1222 is subject to the definition in *Cal. Penal Code* § 7(1) because both were enacted as part of the *Cal. Penal Code* when this was enacted in 1872 as one of the four original codes of California, the current *Cal. Gov't Code* § 1222 then appearing as *Cal. Penal Code* § 176. *S.F. Charter* § 15.105(e) provides a special provision for punishment, and we think that it was meant to cover all of the behavior that *Cal. Gov't Code* § 1222 normally would. Otherwise, if *S.F. Charter* § 15.105(e) used a more narrow definition of "willful," one that excluded, say, cases in which the person did not know that the act was prohibited, then such cases would keep their misdemeanor penalty, while the "hardcore" cases would be subject to the more lenient penalty of dismissal. This would be perverse.

1. Ms. Murawski Should be Dismissed from the Commission for Willfully Omitting to Raise a Point of Order Against the Conduct of the May 9 Meeting of the Executive Committee for Violation of *Cal. Gov't Code* § 54954(a).

The regular meeting of the Executive Committee of the Behavioral Health Commission on Tuesday, May 9, was held in violation of *Cal. Gov't Code* § 54954(a). This subdivision requires that top-level legislative bodies (i.e., not committees or subcommittees) provide times and places for regular meetings of their advisory committees or standing committees. The Executive Committee is a standing committee of the Commission and this was a regular meeting. The same Committee had met at the same time and place the previous month. However, it is unknown whether the Commission, in the quarter-century that the responsibility for making such a provision has been enjoined on it, has ever provided a place for regular meetings of its Executive Committee, or, if it did, whether it was at City Hall, let alone in Room 416 therein, where the Executive Committee met on May 9. The Commission did provide a *time* for regular meetings of its Executive Committee on Dec. 17, 2022, but this time was 5:00 p.m. on the Tuesday of the week before the third Wednesday of the month, and the meeting on May 9 was at 4:00 p.m. on the same Tuesday. Therefore, the Executive Committee violated this subdivision because at least the time of the meeting had not been provided by the Commission, and very likely also the place had neither been provided. Ms. Murawski could have prevented the violation from occurring by raising a point of order regarding everything on of the agenda for violation of this subdivision, and such a point of order should have been well taken. Even after I informed her of the pending violation by directly emailing her a copy of the same letter I most recently sent to the Board of Supervisors, which I also copied to the Commission, she willfully failed, refused, or neglected to perform a duty enjoined on her by law, which was to prevent this violation by raising a point of order against all of the items on the agenda for violation of this subdivision of state procedural law. Thus, she committed official misconduct, and should be dismissed from the Commission therefor.

2. Ms. Murawski Should be Dismissed from the Commission for Willfully Omitting to Raise a Point of Order Against the Conduct of the May 9 Meeting of the Executive Committee for Violation of *Cal. Gov't Code* § 54954.2(a)(1) and *S.F. Admin. Code* § 67.7(c).

The meeting of the Executive Committee on May 9 also proceeded in violation of *Cal. Gov't Code* § 54954.2(a)(1) and *S.F. Admin. Code* § 67.7(c). These provisions require that the Commission post notices of regular meetings that state the time and location of the meeting. The notice for this meeting said that the meeting would be held in Room 515 at City Hall. See attached notice of meeting. As far as we are aware, there is no such room at City Hall, nor is there a fifth floor. At the meeting, the Committee moved to correct the notice, to find that the error was technical and typographical and that all of the notices for meetings of committees of the Commission held on May 9 were correct, and to proceed with the meeting. They noted that the street address of City Hall on the notice was correct and approved the motion with a unanimous voice vote. However, a self-serving finding by a committee that no violation of procedural law occurred does not make it so. This error was in fact substantial. It would have seriously misled a member of the public who wanted to attend the meeting. There is no reason to believe that they would have found the meeting in Room 416. City Hall alone takes up two city blocks, and, as far as we know, probably contains over 100 rooms. The information kiosk on the ground floor has not, to our knowledge, been staffed for well over a decade. We did not check the bulletin board outside the room. The Committee felt that the two other Committees of the Commission noticed to meet that day would provide a clue, because their notices said that they would be meeting in Room 416. But there is no reason to believe that someone interested in attending a meeting of the Executive Committee would have looked at the notices for the meetings of the other two committees of the Commission scheduled for May 9. Furthermore, one of the other notices was also wrong, such that the Implementation Committee was noticed to meet at the very same time as the Executive Committee, but in Room 416. Therefore, even someone who looked at the other notices would have gotten the idea that the meeting of the Executive Committee in Room 416 was actually the meeting of the Implementation Committee noticed for this time and place, and that the meeting of the Executive Committee was being held simultaneously at an unknown location. I pointed out these problems in pp. 1-2 of my letter to the Board of Supervisors dated May 8 and entitled "Members of the Site Visit Committee, the Implementation Committee, and the Executive Committee of the Behavioral Health Commission are Again Poised to Commit Misdemeanors and Official Misconduct on Tuesday, May 9," which I sent directly to Ms. Murawski the night before the meeting, and I also pointed out these problems during the opportunity for the public to address the Committee on matters not on the agenda for the meeting, which opportunity was provided immediately after roll was called at the start of the meeting. I suggested that the chair should rule everything on the agenda out of order therefor, and that they were committing official misconduct by proceeding with the meeting, and would commit misdemeanors if they took action at the meeting. Ms. Murawski ignored all of these warnings and omitted to raise a point of order against the continued conduct of the meeting as if I had said nothing about this particular violation. She should be dismissed from the

Commission for official misconduct for willful failure, refusal, or neglect to perform a duty enjoined on her by law, which was to raise a point of order against the transaction or discussion of any item on the agenda or off of it without adequate notice to the public of the correct time and location of the meeting, because any transaction or discussion would have been in violation of applicable state and local procedural law.

3. Ms. Murawski Should be Dismissed from the Commission for Willfully Omitting to Raise a Point of Order Against an Item Not on the Agenda for the May 9 Meeting of the Executive Committee, in Violation of *Cal. Gov't Code* § 54954.2(a)(1) and the first and second sentences of *S.F. Admin. Code* § 67.7(a).

After I told the Executive Committee that the meeting had been noticed for a location that did not exist during the opportunity for members of the public to address the Committee on items not on the agenda, a member of the committee made a motion to correct the notice, to find that the error was technical and typographical and that all of the notices for meetings of committees of the Commission held on May 9 were correct, and to proceed with the meeting. The meeting chair asked for a vote on this motion. This violated *Cal. Gov't Code* § 54954.2(a)(1), which required that the agenda contain a brief general description of each item of business to be transacted or discussed. This was action taken as defined by *id.* § 54952.6 and not a secondary motion, nor was it covered by any of the exemptions from the notice requirement listed in *id.* § 54954.2(a)(3), nor were any findings made pursuant to *id.* § 54954.2(b), which are required in order to take action on an item without notice on the agenda. This was a main motion in violation of *id.* § 54954.2(a)(1) and Ms. Murawski raised no point of order against it when it was moved before the Executive Committee.

The above incident was also a violation of the first sentence of *S.F. Admin. Code* § 67.7(a) because the agenda neither included a meaningful description of the item, nor did it fit any of the exemptions listed in *id.* § 67.7(d), nor were any findings made pursuant to subd. (e) of *id*. The above incident was furthermore a violation of the second sentence of *id.* § 67.7(a) because the proposed action did not appear on the agenda. Therefore, Ms. Murawski willfully failed, refused, or neglected to carry out a duty enjoined on her by law, specifically, to raise a point of order against the motion for violation of state and local procedural law when the chair put it before the committee, and Ms. Murawski should be dismissed from the Commission therefor.

4. Ms. Murawski Should be Dismissed from the Commission for Willfully Omitting to Raise a Point of Order Against a Proposed Action for Which No Notice Appeared on the Agenda for the May 9 Meeting of the Executive Committee, in Violation of *Cal. Gov't Code* § 54954.2(a)(1) and the first sentence of *S.F. Admin. Code* § 67.7(a).

Item No. 1.0 on the agenda for the meeting, attached, stated as follows:

> **1.0** The Co-Chairs will call for a motion to disclose the physical place, time, and location of the meetings going forward and BHC Staff call attention to

California Government Code Section 54953(e) also known as AB361 for the hybrid participants which empowers local policy bodies to convene by teleconferencing technology for those physically unable to attend – **[action item]**

During this item, the Committee reached a collective decision that it should convene a special meeting at 1380 Howard Street, at a time to be determined by the availability of meeting space at this address. This was action taken under *Cal. Gov't Code* § 54952.6, and the notice on the agenda was insufficient to alert someone whose interests would be affected by the item of whether they should attend the meeting on May 9. *Olson v. Hornbrook Community Services Dist.*, 33 Cal. App 5th 502, *519 (2019) (Justice Robie). None of the exemptions under *id.* § 54954.2(a)(3) applied, and none of the findings required by *id.* § 54954.2(b) for actions on matters not listed on the agenda were made either. Thus, this action by the Committee violated *id.* § 54954.2(a)(1).

Furthermore, the agenda did not include a meaningful description of the action that was taken during this item sufficient for someone whose interests would be affected to know whether to attend the meeting required by the first sentence of *S.F. Admin. Code* § 67.7(a). Neither did any of the exemptions in *id.* § 67.7(d) apply, and none of the findings for action taken on an item not listed on the agenda required by *id.* § 67.7(e) were made. Therefore, Ms. Murawski should have raised a point of order against the consideration of this motion for conflict with state and local procedural law. Ms. Murawski did not do so, and she should be dismissed from the Commission for willful failure, refusal, or neglect to perform a duty enjoined on her by law.

5. Ms. Murawski Should be Dismissed from the Commission for Willfully Omitting to Constrain Discussion During Item No. 1.0, regarding "the physical place, time, and location of the meetings going forward . . ." to meetings of the Executive Committee, in Violation of *Cal. Gov't Code* § 54954.2(a)(1) and the first sentence of *S.F. Admin. Code* § 67.7(a).

As pointed out at the top of page 7 of my correspondence to the Board of Supervisors dated May 8 and entitled "Members of the Site Visit Committee, the Implementation Committee, and the Executive Committee of the Behavioral Health Commission are Again Poised to Commit Misdemeanors and Official Misconduct on Tuesday, May 9," the notice on the agenda quoted in the previous section was vague as to whether "the physical place, time, and location of the meeting going forward" applied to meetings of the Executive Committee alone or also to meetings of the other Committees and the Commission. Consequently, someone whose interests would be affected by the times and places of regular meetings of the Commission and/or the other Committees would not know whether to attend the meeting of the Executive Committee.

Because the notice was only sure to cover meetings of the Executive Committee, Ms. Murawski was required to corral discussion regarding the item to the time and place for regular meetings of the Executive Committee only. Although the public is entitled to make inferences as to the meaning of items on the agenda from the bylaws, public laws, etc., notice on the agenda is

required to be "sufficiently clear and specific to alert a person of average intelligence and education whose interests may be affected by the item that he or she may have reason to attend the meeting or seek more information on the item. . . ." etc. *S.F. Admin. Code* § 67.7(b) (defining "meaningful description"). *See*, *also*, *Olson v. Hornbrook Community Services Dist.*, 33 Cal. App. 5th 502, *519 (2019) (Justice Robie) (item descriptions must "give the public a fair chance to participate . . . by providing [them] with more than mere clues from which they must then guess or surmise the essential nature of the business to be considered . . ." ellipses, sq. brackets added, quotation marks, citations omitted). A person of average intelligence and education whose interests were affected by the time and place for regular meetings of the Commission or another Committee might well not know that the Executive Committee would be exercising its power to act on behalf of the Commission on this item at the meeting, or that the Commission was required by law to make decisions on places and times for regular meetings of itself and all of the advisory committees or standing committees that it wished to meet regularly. The scope of its decision should have been clear from the agenda. Given that it was not, Ms. Murawski should have protected the interests of absent members of the public by constraining discussion by other members to the time and place for regular meetings of the Executive Committee only through raising a point of order when they strayed beyond the time and place for regular meetings of the Executive Committee, and should have constrained her own remarks to the time and place for regular meetings of the Executive Committee.

Discussion under this item in fact ranged over times and places for regular meetings of the Commission and its Implementation Committee, Rules Committee, and Site Visit Committee, with no effort from Ms. Murawski to rein in discussion in any way. Thus, Ms. Murawski participated in and willfully omitted to prevent violations of both *Cal. Gov't Code* § 54954.2(a)(1) and the first sentence of *S.F. Admin. Code* § 67.7(a), and should be dismissed from the Commission therefor.

6. Ms. Murawski Should be Dismissed from the Commission for Willfully Omitting to Raise a Point of Order Against the Consideration of Item No. 1.0 Regarding Which the Agenda for the May 9 Meeting of the Executive Committee Did Not Provide an Opportunity for the Public to Address the Committee Before or During Its Consideration of the Item, in Violation of *Cal. Gov't Code* § 54954.3(a) and *S.F. Admin. Code* § 67.15(a).

Ms. Murawski also committed official misconduct by omitting to raise a point of order against an item on the agenda that did not provide an opportunity for the public to address the Commission before or during the consideration of the item. Specifically, Item No. 1.0 on the Agenda, reproduced above, provided no such opportunity. It provided an opportunity only after the Committee would have voted on the item, and both *Cal. Gov't Code* § 54954.3(a) and *S.F. Admin. Code* § 67.15(a) required that the agenda provide such an opportunity for each item listed on the agenda before or during the consideration of the item, etc. Although the committee chair actually asked for public comment on the item during its consideration, the requirement was that

the agenda provide this opportunity. Ms. Murawski omitted to raise a point of order against the consideration of the item, and should be dismissed from the Commission for willful failure, refusal, or neglect to perform a duty enjoined on her by law, which was to raise a point of order against the item for violation of state and local procedural law as soon it was called up.

7. Ms. Murawski Should be Dismissed from the Commission for Willfully Omitting to Raise Points or Order Against Three Items on the Agenda for the May 9 Meeting of the Executive Committee that Violated the Second Sentence of *S.F. Admin. Code* § 67.7(a).

Ms. Murawski willfully omitted to raise points of order against discussions of item nos. 1.0, 2.2 and 2.3 on the agenda, when action on neither of 2.2 or 2.3 was proposed during the meeting, and action within the notice of 1.0 was not proposed during the meeting. The second sentence of *S.F. Admin. Code* § 67.7(a) provides that "Agendas shall specify for each item of business the proposed action or a statement [that] the item is for discussion only. . . ." (sq. brackets, ellipsis added). These items were all discussion-only items, as no actions were proposed during them, insofar as their notices went (Item 1.0 had action taken outside of its notice, see above), but no statements to the effect that they were for discussion only appeared on the agenda, in violation of this sentence. Ms. Murawski should have raised points of order against each of them for violation of this sentence of local procedural law when no action was immediately proposed (and 2.2 and 2.3 neither contained proposed actions), but did not. Consequently, Ms. Murawski willfully failed, refused, or neglected to carry out a duty enjoined on her by law, and should be dismissed from the Commission therefor.

Very Truly Yours,

/s/
Wynship Hillier

cc: Ms. Liza Murawski

POLICY ON CELL PHONE, PAGERS, AND ELECTRONIC DEVICES

The ringing of and use of cell phones, pagers, and similar sound-producing electronic devices are prohibited at this meeting. Please be advised that the Chair may order the removal from the meeting room of any person(s) responsible for the ringing or use of a cell phone, pager, or other similar sound-producing electronic devices.

KNOW YOUR RIGHTS UNDER THE SUNSHINE ORDINANCE

Government's duty is to serve the public, reaching its decisions in full view of the public. Commissions, boards, councils and other agencies of the City and County exist to conduct the people's business. This ordinance assures that deliberations are conducted before the people and that City operations are open to the people's review. For more information on your rights under the Sunshine Ordinance (Chapter 67 of the San Francisco Administrative Code) or to report a violation of the ordinance, contact:

Sunshine Ordinance Task Force
City Hall, Room 244
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102-4689
Telephone: (415)554-7724
Fax: 4(15) 554-5163
E-mail: sotf@sfgov.org

Citizens interested in obtaining a free copy of the Sunshine Ordinance can request one from the Sunshine Ordinance Task Force or by printing Chapter 67 of the San Francisco Administrative Code from the internet at: **www.sfgov.org/sunshine**

To view Mental Health Board agendas and minutes, you may visit the MHB web page at: **www.sfgov.org/mental_health**. You may also go to the Government Information Center at the Main Library at Larkin and Grove in the Civic Center. You may also get copies of these documents through the MHB office at 255-3474.

LOBBYIST REGISTRATION AND REPORTING REQUIREMENTS

Individuals and entities that influence or attempt to influence local legislative or administrative action may be required by the San Francisco Lobbyist Ordinance [SF Campaign &

Governmental Conduct Code 2.100] to register and report lobbying activity. For more information about the Lobbyist Ordinance, please contact the San Francisco Ethics Commission at 30 Van Ness Avenue, Suite 3900, San Francisco, CA 94102; telephone (415) 581-2300; fax (415) 581-2317; website Error! Hyperlink reference not valid..

WELFARE & INSTITUIONS CODE

ARTICLE II - Powers and Duties

The MHB shall:

1. Operate in accordance with state and local legislation pertaining to the MHB set forth in Welfare & Institutions Code Section 5604.2 and in S.F. Administrative Code, Section 15.4-1.

a) Review and evaluate the mental health needs, services, priorities, facilities, and special problems of the City and County of San Francisco.

b) Review any City and County agreements entered into pursuant to California Welfare and Institutions Code Section 5650.

c) Advise the Governing bodies, the Director of Public Health, the Director of Community Behavioral Health Services, and the Mayor, as to any aspect of the local mental health program.

d) Review and approve the procedures used to ensure citizen, consumer, family member, and professional involvement at all stages of the planning process.

e) Review the procedures used to ensure the involvement of interested members of the mental health community and the public in the development of the budget for Community Behavioral Health Services and report on its findings to the Board of Supervisors.

f) Submit an annual report to the Board of Supervisors on the needs and performance of the City and County's mental health system.

g) Review and make recommendations on applicants for the appointment of Director of Mental Health. The MHB shall be included in the selection process prior to the selection of a person to fill this position.

h) Review and comment on the City and County's performance outcome data and communicate its findings to the State Mental Health Commission. All such communications shall be reported to the Board of Supervisors, the Mayor, the Health Commission, the Director of Public Health, and the Director of Community Behavioral Health Services.

BEHAVIORAL HEALTH COMMISSION
RESOLUTION MAKING FINDINGS TO ALLOW TELECONFERENCED MEETINGS UNDER CALIFORNIA GOVERNMENT CODE SECTION 54953(e)

WHEREAS, California Government Code Section 54953(e) empowers local policy bodies to convene by teleconferencing technology during a proclaimed state of emergency under the State Emergency Services Act so long as certain conditions are met; and

WHEREAS, In March, 2020, the Governor of the State of California proclaimed a state of emergency in California in connection with the Coronavirus Disease 2019 ("COVID-19") pandemic, and that state of emergency remains in effect; and

WHEREAS, In February 25, 2020, the Mayor of the City and County of San Francisco (the "City") declared a local emergency, and on March 6, 2020 the City's Health Officer declared a local health emergency, and both those declarations also remain in effect; and

WHEREAS, On March 11 and March 23, 2020, the Mayor issued emergency orders suspending select provisions of local law, including sections of the City Charter, that restrict teleconferencing by members of policy bodies; those orders remain in effect, so City law currently allows policy bodies to meet remotely if they comply with restrictions in State law regarding teleconference meetings; and

WHEREAS, On September 16, 2021, the Governor signed AB 361, a bill that amends the Brown Act to allow local policy bodies to continue to meet by teleconferencing during a state of emergency without complying with restrictions in State law that would otherwise apply, provided that the policy bodies make certain findings at least once every 30 days; and

WHEREAS, While federal, State, and local health officials emphasize the critical importance of vaccination and consistent mask-wearing to prevent the spread of COVID-19, the City's Health Officer has issued at least one order (Health Officer Order No. C19-07y, available online at www.sfdph.org/healthorders) and one directive (Health Officer Directive No. 2020-33i, available online at www.sfdph.org/directives) that continue to recommend measures to promote physical distancing and other social distancing measures, such as masking, in certain contexts; and

WHEREAS, The California Department of Industrial Relations Division of Occupational Safety and Health ("Cal/OSHA") has promulgated Section 3205 of Title 8 of the California Code of Regulations, which requires most employers in California, including in the City, to train and instruct employees about measures that can decrease the spread of COVID-19, including physical distancing and other social distancing measures; and

WHEREAS, Without limiting any requirements under applicable federal, state, or local pandemic-related rules, orders, or directives, the City's Department of Public Health, in coordination with the City's Health Officer, has advised that for group gatherings indoors, such as meetings of boards and commissions, people can increase safety and greatly reduce risks to the health and safety of attendees from COVID-19 by maximizing ventilation, wearing well-fitting masks (as required by Health Officer Order No. C19-07), using physical distancing where the vaccination status of attendees is not known, and considering holding the meeting remotely if feasible, especially for long meetings, with any attendees with unknown vaccination status and where ventilation may not be optimal; and

WHEREAS, On July 31, 2020, the Mayor issued an emergency order that, with limited exceptions, prohibited policy bodies other than the Board of Supervisors and its committees from meeting in person under any circumstances, so as to ensure the safety of policy body members, City staff, and the public; and

WHEREAS, The Behavioral Health Commission has met remotely during the COVID-19 pandemic and can continue to do so in a manner that allows public participation and transparency while minimizing health risks to members, staff, and the public that would be present with in-person meetings while this emergency continues; now, therefore, be it

RESOLVED, That the Behavioral Health Commission finds as follows:

1. As described above, the State of California and the City remain in a state of emergency due to the COVID-19 pandemic. At this meeting, the Behavioral Health Commission has considered the circumstances of the state of emergency.

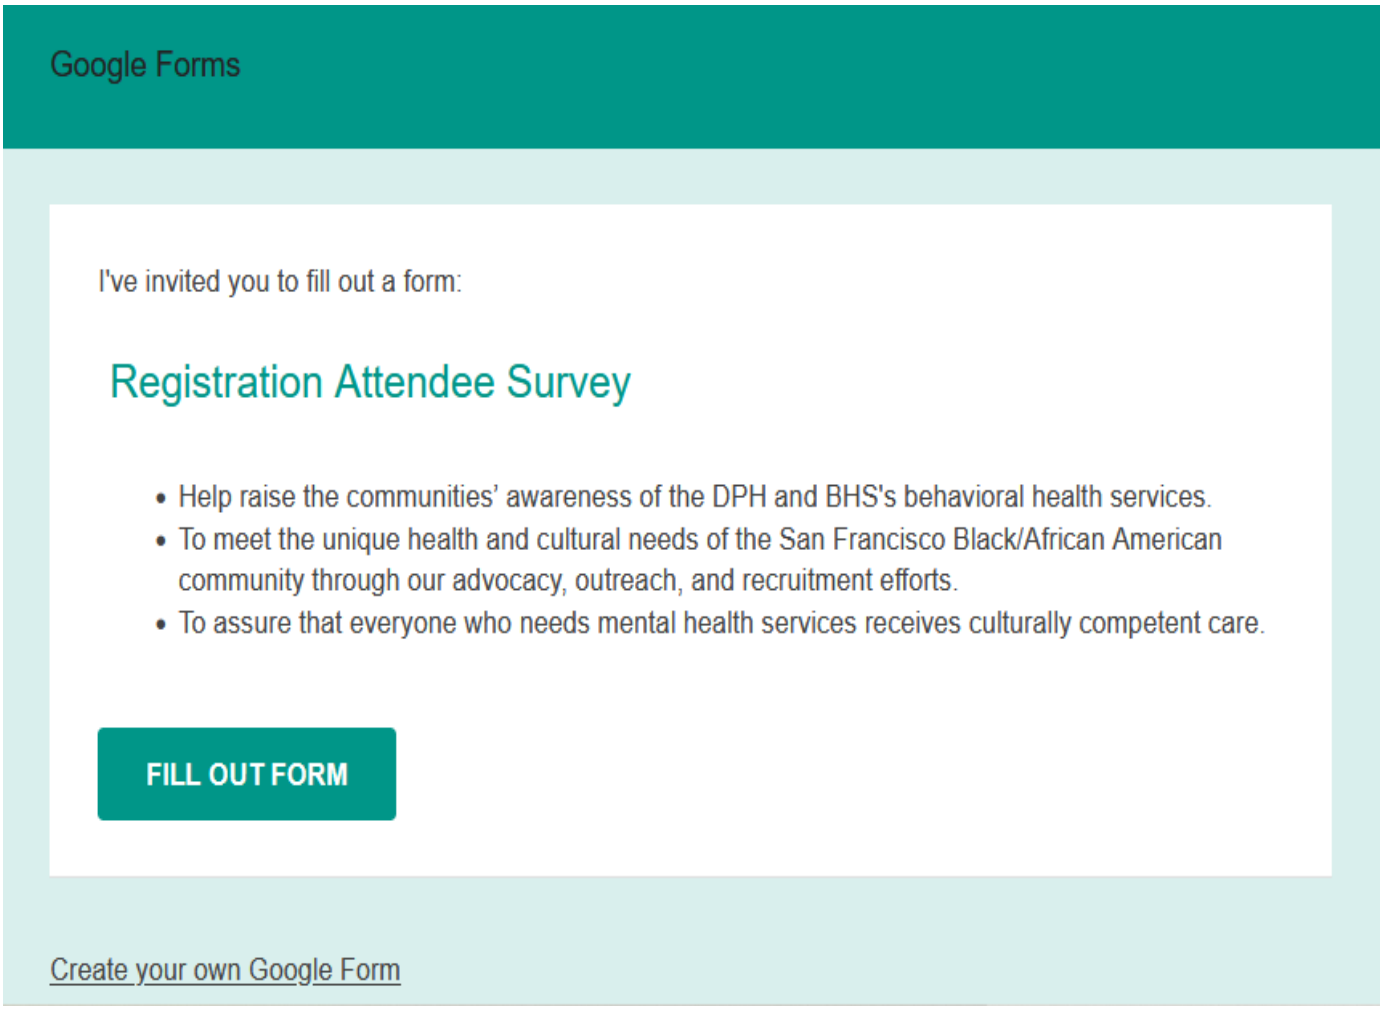
2. As described above, State and City officials continue to recommend measures to promote physical distancing and other social distancing measures, in some settings.

3. As described above, because of the COVID-19 pandemic, conducting meetings of this body and its committees in person would present imminent risks to the safety of attendees, and the state of emergency continues to

directly impact the ability of members to meet safely in person; and, be it

FURTHER RESOLVED, That for at least the next 30 days meetings of the Behavioral Health Commission and its committees will continue to occur exclusively by teleconferencing technology (and not by any in-person meetings or any other meetings with public access to the places where any policy body member is present for the meeting). Such meetings of the Behavioral Health Commission and its committees that occur by teleconferencing technology will provide an opportunity for members of the public to address this body and its committees and will otherwise occur in a manner that protects the statutory and constitutional rights of parties and the members of the public attending the meeting via teleconferencing; and, be it

FURTHER RESOLVED, That the staff of the Behavioral Health Commission is directed to place a resolution substantially similar to this resolution on the agenda of a future meeting of the Behavioral Health Commission within the next 30 days. If the Behavioral Health Commission] does not meet within the next 30 days, the staff is directed to place a such resolution on the agenda of the next meeting of the Behavioral Health Commission.



Hi,

Please ensure this is addressed and added to our agenda and packet for next month's BHC. I have retracted any identifying information. Please double-check.

For Community,

Liza

To: LIZA murawski <lizamurawski@yahoo.com>
Subject: Meeting with Marlo Simmons

I am writing in regard to a zoom meeting on April 25, 2023 with Liza Murawski and Marlo Simmons on behalf of a situation with Conard and my brother Tim Green, a resident of Jordan Apts.
We reached out to her in hopes of obtaining assistance dealing with Conard and their lack of assistance with his housing situation while my brother has been residing in City View Post Acute for the past year recovering from a stroke. I reside in another state and have had numerous difficulties working with Jordan Apts. over the past year.

It is unfortunate that Marlo could not offer any assistance other than what we already knew. I was also surprised by her unprofessional behaviour during the zoom meeting with myself and Liza. There was no need to get into it with Liza during our meeting or embarrass Liza with some of the things she mentioned. At that point I shut down and discontinued listening realizing this was going nowhere.

Marlo apologized and I am moving forward with the process once I figure out what I need to do or who I need to speak with for assistance.

Subject: Re: Behavioral Health Commission Committee Meeting Reminder .

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

As stated before I am unable to attend mtgs on Tuesday's. Thus I am resigning from the BHC or just leaving as my term is over. I believe I can be a better advocate on the "outside" with less governmental constraints and take more actions that can effect positive changes. I will notify the BOS Clerk this week.

Please be advised that the Chair may order the removal from the meeting room of any person(s) responsible for the ringing or use of a cell phone, pager, or other similar sound-producing electronic devices.

KNOW YOUR RIGHTS UNDER THE SUNSHINE ORDINANCE

Government's duty is to serve the public, reaching its decisions in full view of the public. Commissions, boards, councils and other agencies of the City and County exist to conduct the people's business. This ordinance assures that deliberations are conducted before the people and that City operations are open to the people's review. For more information on your rights under the Sunshine Ordinance (Chapter 67 of the San Francisco Administrative Code) or to report a violation of the ordinance, contact:

Sunshine Ordinance Task Force
City Hall, Room 244
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102-4689
Telephone: (415)554-7724
Fax: 4(15) 554-5163
E-mail: sotf@sfgov.org

Citizens interested in obtaining a free copy of the Sunshine Ordinance can request one from the Sunshine Ordinance Task Force or by printing Chapter 67 of the San Francisco Administrative Code from the internet at: **www.sfgov.org/sunshine**

To view Mental Health Board agendas and minutes, you may visit the MHB web page at: **www.sfgov.org/mental_health**. You may also go to the Government Information Center at the Main Library at Larkin and Grove in the Civic Center. You may also get copies of these documents through the MHB office at 255-3474.

LOBBYIST REGISTRATION AND REPORTING REQUIREMENTS

Individuals and entities that influence or attempt to influence local legislative or administrative action may be required by the San Francisco Lobbyist Ordinance [SF Campaign & Governmental Conduct Code 2.100] to register and report lobbying activity. For more information about the Lobbyist Ordinance, please contact the San Francisco Ethics Commission at 30 Van Ness Avenue, Suite 3900, San Francisco, CA 94102; telephone (415) 581-2300; fax (415) 581-2317; website www.sfgov.org/ethics.

WELFARE & INSTITUIONS CODE

ARTICLE II - POWERS AND DUTIES

The MHB shall:

1. Operate in accordance with state and local legislation pertaining to the MHB set forth in Welfare & Institutions Code Section 5604.2 and in S.F. Administrative Code, Section 15.4-1.

a) Review and evaluate the mental health needs, services, priorities, facilities, and special problems of the City and County of San Francisco.

b) Review any City and County agreements entered into pursuant to California Welfare and Institutions Code Section 5650.

c) Advise the Governing bodies, the Director of Public Health, the Director of Community Behavioral Health Services, and the Mayor, as to any aspect of the local mental health program.

d) Review and approve the procedures used to ensure citizen, consumer, family member, and professional involvement at all stages of the planning process.

e) Review the procedures used to ensure the involvement of interested members of the mental health community and the public in the development of the budget for Community Behavioral Health Services and report on its findings to the Board of Supervisors.

f) Submit an annual report to the Board of Supervisors on the needs and performance of the City and County's mental health system.

g) Review and make recommendations on applicants for the appointment of Director of Mental Health. The MHB shall be included in the selection process prior to the selection of a person to fill this position.

h) Review and comment on the City and County's performance outcome data and communicate its findings to the State Mental Health Commission. All such communications shall be reported to the Board of Supervisors, the Mayor, the Health Commission, the Director of Public Health, and the Director of Community Behavioral Health Services.

i)Assess the impact of the Managed Care Mandate and the realignment of services from the State to the City and County on services delivered to consumers and/or the local community.

BEHAVIORAL HEALTH COMMISSION
RESOLUTION MAKING FINDINGS TO ALLOW TELECONFERENCED MEETINGS UNDER CALIFORNIA GOVERNMENT CODE SECTION 54953(e)

WHEREAS, California Government Code Section 54953(e) empowers local policy bodies to convene by teleconferencing technology during a proclaimed state of emergency under the State Emergency Services Act so long as certain conditions are met; and

WHEREAS, In March, 2020, the Governor of the State of California proclaimed a state of emergency in California in connection with the Coronavirus Disease 2019 ("COVID-19") pandemic, and that state of emergency remains in effect; and

WHEREAS, In February 25, 2020, the Mayor of the City and County of San Francisco (the "City") declared a local emergency, and on March 6, 2020 the City's Health Officer declared a local health emergency, and both those declarations also remain in effect; and

WHEREAS, On March 11 and March 23, 2020, the Mayor issued emergency orders suspending select provisions of local law, including sections of the City Charter, that restrict teleconferencing by members of policy bodies; those orders remain in effect, so City law currently allows policy bodies to meet remotely if they comply with restrictions in State law regarding teleconference meetings; and

WHEREAS, On September 16, 2021, the Governor signed AB 361, a bill that amends the Brown Act to allow local policy bodies to continue to meet by teleconferencing during a state of emergency without complying with restrictions in State law that would otherwise apply, provided that the policy bodies make certain findings at least once every 30 days; and

WHEREAS, While federal, State, and local health officials emphasize the critical importance of vaccination and consistent mask-wearing to prevent the spread of COVID-19, the City's Health Officer has issued at least one order (Health Officer Order No. C19-07y, available online at www.sfdph.org/healthorders) and one directive (Health Officer Directive No. 2020-33i, available online at www.sfdph.org/directives) that continue to recommend measures to promote physical distancing and other social distancing measures, such as masking, in certain contexts; and

WHEREAS, The California Department of Industrial Relations Division of Occupational Safety and Health ("Cal/OSHA") has promulgated Section 3205 of Title 8 of the California Code of Regulations, which requires most employers in California, including in the City, to train and instruct employees about measures that can decrease the spread of COVID-19, including physical distancing and other social distancing measures; and

WHEREAS, Without limiting any requirements under applicable federal, state, or local pandemic-related rules, orders, or directives, the City's Department of Public Health, in coordination with the City's Health Officer, has advised that for group gatherings indoors, such as meetings of boards and commissions, people can increase safety and greatly reduce risks to the health and safety of attendees from COVID-19 by maximizing ventilation, wearing well-fitting masks (as required by Health Officer Order No. C19-07), using physical distancing where the vaccination status of attendees is not known, and considering holding the meeting remotely if feasible, especially for long meetings, with any attendees with unknown vaccination status and where ventilation may not be optimal; and

WHEREAS, On July 31, 2020, the Mayor issued an emergency order that, with limited exceptions, prohibited policy bodies other than the Board of Supervisors and its committees from meeting in person under any circumstances, so as to ensure the safety of policy body members, City staff, and the public; and

WHEREAS, The Behavioral Health Commission has met remotely during the COVID-19 pandemic and can continue to do so in a manner that allows public participation and transparency while minimizing health risks to members, staff, and the public that would be present with in-person meetings while this emergency continues; now, therefore, be it

RESOLVED, That the Behavioral Health Commission finds as follows:

1. As described above, the State of California and the City remain in a state of emergency due to the COVID-19 pandemic. At this meeting, the Behavioral Health Commission has considered the circumstances of the state of emergency.

2. As described above, State and City officials continue to recommend measures to promote physical distancing and other social distancing measures, in some settings.

3. As described above, because of the COVID-19 pandemic, conducting meetings of this body and its committees in person would present imminent risks to the safety of attendees, and the state of emergency continues to directly impact the ability of members to meet safely in person; and, be it

FURTHER RESOLVED, That for at least the next 30 days meetings of the Behavioral Health Commission and its committees will continue to occur exclusively by teleconferencing technology (and not by any in-person meetings or any other meetings with public access to the places where any policy body member is present for the meeting). Such meetings of the Behavioral Health Commission and its committees that occur by teleconferencing technology will provide an opportunity for members of the public to address this body and its committees and will otherwise occur in a manner that protects the statutory and constitutional rights of parties and the members of the public attending the meeting via teleconferencing; and, be it

FURTHER RESOLVED, That the staff of the Behavioral Health Commission is directed to place a resolution substantially similar to this resolution on the agenda of a future meeting of the Behavioral Health Commission within the next 30 days. If the Behavioral Health Commission] does not meet within the next 30 days, the staff is directed to place a such resolution on the agenda of the next meeting of the Behavioral Health Commission.

Message to the Mayor and Board of Supervisors

From your constituent	YuRong Huang
Email	cocoh4156137340@gmail.com
I live in	District 3

I support the SFPD Full Staffing Act!

Message

Dear Mayor Breed and Supervisors,

I support Supervisor Dorsey's proposed Charter Amendment, the SFPD Full Staffing Act.

It is essential that the city and county of San Francisco re-establish minimum police staffing levels, and mandate certain budgetary provisions to achieve a fully staffed police force.

It is unacceptable that city leaders have allowed law enforcement staffing to reach such a dire state with a current deficit of more than 500 police officers. The only recourse we have is to change the charter so that there will be no more room for city officials to play politics with law enforcement staffing.

Thank you.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Clerk of the Board of Supervisors:

As district supervisors, you well understand the value (and rarity) of community partnership when local residents work with elected leaders and city departments toward hands on solutions for our city's chronic problems. As residents, we know our neighborhoods best, and, consequently, we are a critical part of local problem solving. When elected office holders, city departments and engaged residents work together, progress can be made.

At Wednesday's (5/17/23) Budget and Finance Committee loan hearing for 730 Stanyan, Supervisor Mandelman stated that there is no proof that the addition of homeless services to a neighborhood improves that neighborhood. I beg to differ. The stark need for solutions and services for unhoused people already living in the Haight and surrounding neighborhoods has existed for decades. Local residents who comprise neighborhood groups like the Coalition for a Complete Community/CCC, the Haight Ashbury Neighborhood Council/HANC and the Cole Valley Haight Allies/CVHA are living, breathing proof of the power of robust engagement and action to do with the public planning process. We are a hands-on community of people who roll up our sleeves to create positive outcomes.

For almost 6 years since the purchase of the 730 Stanyan site in December 2017, neighbors of the Haight Ashbury, Cole Valley, the Panhandle and NOPA have robustly engaged with community members, local business people, the developers TNDC and CCDC, and MOHCD in the planning process for this once-in-a-century development opportunity. Since 2017, the CCC has organized and held 7 community meetings where hundreds of residents participated. For over a year during the COVID pandemic (May 2020 through June 2021) when 730 Stanyan was activated as a Safe Sleeping Village, we engaged with the more than 80 campers, along with the service providers at CAMP by organizing weekly community dinners, movie nights and clothing and gear drives; that is tangible proof of positive outcomes for unhoused people when neighbors, service providers and city agents work together. More proof of positive progress: local residents twice activated the site to host community events offering vaccinations, voter registration, kids events, music, food, senior and homeless services, movies and gardening workshops (see attached fliers); over 200 people participated in each of the two events. It's been hard work. We are volunteers. We are the literal definition of "stakeholders." Many of us own homes and businesses in the Haight Ashbury and adjacent neighborhoods. We seek to stabilize our most vulnerable community members: low income seniors and families, workers and the unhoused people living among us. We have a vested interest in the successful development of 730 Stanyan. Please see the attached statement of the CCC's goals and objectives for the 730 Stanyan project.

At last month's April 4, 2023 community meeting on 730 Stanyan hosted by CCDC and TNDC along with representatives from MOHCD, our community was surprised to learn that the city changed the definition of ground floor commercial space to "micro retail" and removed previous, consistent references to "TAY drop-in services." This change is contrary to all previous information from MOHCD and the developers up to this point, as evidenced in graphics and slide shows from the many public community meetings, and as stated in loan documents and state applications for the project, where a TAY drop in center and TAY services are clearly represented. And, also surprising, at last Wednesday's hearing, MOHCD Director Shaw confirmed that no solicitation or outreach to TAY service providers has yet been done on this project.

In light of our community's many years hard work, the history of events and the promises made to our community, we ask that you support Supervisor Preston's resolution, which adds clear language supporting a TAY drop in service center on the ground floor; doing so keeps faith with the community process and the public planning done at the local community level, not just for new arrivals to our neighborhood, but to meet the critical needs of existing residents in our three most underserved local populations: 1) Transitional Aged Youth, 2) seniors, and 3) low income families and their need of these critical services.

"this Resolution be AMENDED, AN AMENDMENT OF THE WHOLE BEARING SAME TITLE, on Page 6, Line 22 through Page 7, Line 2, by adding 'FURTHER RESOLVED, That the Board of Supervisors urges MOHCD to include Transitional Aged Youth services as a ground floor use, as MOHCD previously represented in prior loan applications, including an Approved Pre-Development Loan from October 2020, a California Tax Credit Allocation Committee Application from 2022, and representations made in multiple community meetings."

Thank you for your consideration.
Very truly yours,
Lisa Awbrey

730 Stanyan Street Values and Goals

The Coalition for a Complete Community at 730 Stanyan Street

The Coalition for a Complete Community has established the following values and goals for the 730 Stanyan Street affordable housing development:

Support for Affordable Housing in our Neighborhood

We support the construction of affordable housing in San Francisco in general and on this site in particular. We commend Supervisor London Breed and the Mayor's Office of Housing and Community Development for acting to purchase this site, and we want to help ensure we get a great new development here.

Community-Based Development

We support development based on "complete communities" where people from a range of income levels, family structures and backgrounds live as neighbors, and where housing, jobs, daily needs, transit and other resources are within easy walking distance of each other. Our neighborhood provides many of these resources already and the 730 Stanyan Street project is a great opportunity to add to this richness.

We also support a community-based planning process. The people who live and work in the Haight Ashbury are best-placed to understand the needs of our neighborhood and we can provide useful guidance for this development. We are the people who will become the neighbors of the new residents of 730 Stanyan and some of us may be among those future residents. We are the people most invested in the long-term success of this development. The Haight Ashbury community must be involved throughout the planning, design and construction processes.

Who Are We Building For?

San Francisco has a crisis of housing affordability and a crisis of homelessness. Many people in our neighborhood and city are not secure in their housing and addressing this issue must be a major priority for our city government.

Different types of households have different needs. We recognize that to be successful any 100%-affordable housing development must be designed with the needs of one or more "populations" or types of households in mind. With so many competing housing needs, it may seem difficult to decide which groups' needs to focus on. We have identified several principles that can help in selecting these populations.

Income Level

730 Stanyan will be purchased and developed largely or entirely with public funding. We therefore have a responsibility to get the greatest social return for this investment. While middle-income households have their own housing challenges they also have more housing options, such as the lower end of market-rate housing and inclusionary BMR units within new market-rate developments. **To provide the greatest social return this project should focus on addressing needs that will *not* be met through private development.**

We believe strongly that this project should target low- and moderate-income households earning a maximum of 80% of area median income (AMI). Most of our neighborhood's housing is currently affordable only to people earning above this level. By adding affordable housing for low-income residents at 730 Stanyan we will be better able to serve all our community's needs.

Multiple Target Populations

We believe this site has enough space to build housing for two or three different "target populations" of low-income people, whether as residents of the same building or in multiple buildings. We see significant benefits from this approach, allowing the project to address several major housing needs and enriching the lives of all involved. This is also consistent with the complete communities vision.

We strongly recommend that MOHCD considers serving multiple target populations with this project. We recommend that the site is designed for a mix of transitional-age youth, seniors and families with young children.

Housing for Transitional-Age Youth

The Haight-Ashbury has a critical need for both services and permanent affordable housing for young homeless people, including those "aging out" of foster care. **A significant portion of the new housing developed on this site should be set aside for transitional-age youth, including young people who were formerly homeless or who are leaving foster care.** We recognize that youth housing is most successful when planned for small and medium-sized groups, and we see this as another factor supporting the inclusion of multiple types of households at 730 Stanyan Street.

The development should include plans for appropriate supportive services to maximize these young people's success in moving into permanent affordable housing.

Housing for Seniors

Our neighborhood has many seniors on low, fixed incomes living in rental housing. The limited extent of tenant protections frequently results in the eviction of older tenants and in most cases this means people are permanently displaced

from the communities in which they have spent most of their lives. **We support including housing for seniors as part of the 730 Stanyan Street development.**

The project design should allow residents to "age in place" with minimal modification to their units. The development should include supportive services for seniors.

Housing for Families with Young Children

Another group of households that face particular difficulty in finding rental accommodation in San Francisco are low-income families with young children. These families clearly need additional rooms, which raises the cost of suitable rental apartments, and they have the additional cost and difficulty of finding affordable childcare and family supports near home.

We support including units designed for families with young children as part of the project. We also support including childcare, early care and education services, and family supports within the development.

Neighborhood Preference

The Haight-Ashbury and District 5 continue to see high levels of displacement. This weakens the fabric of our community. **The city should use its neighborhood-preference powers to give preference within the 730 Stanyan development to residents of the Haight-Ashbury and those who have recently been evicted from the neighborhood.**

The same factors of sky-high rents and tenant evictions mean that many entry-level workers in retail and service jobs are forced to make long commutes from the East Bay. **We ask the city to also give preference in the new units to low-income people working in the neighborhood.**

Community Services and Retail Space

MOHCD has stated that the ground floor of the new development will be for community services or retail uses. **We believe the highest priority for this space should be to provide essential services both for residents of the new units and for our wider community.** This goal provides additional justification to maximize available space by providing no on-site car parking.

Transitional Age-Youth Services

In particular, escalating commercial rents have made it very difficult for organizations that provide supportive services for homeless youth in the Haight-Ashbury to find permanent locations to operate from. Without a permanent location to visit, young homeless people have much more trouble accessing supportive services. This results in worse outcomes and more prolonged homelessness for these young people, and greater stress on the rest of the neighborhood.

For these reasons, we believe the development should include dedicated space for non-profit organizations working with homeless and vulnerably housed youth in our neighborhood. This need is in addition to the need for supportive services for transitional-age youth living at 730 Stanyan.

Services for Seniors

Seniors living at 730 Stanyan will also require services. We also recommend providing a base for supportive services for aging residents. **We believe the development should include dedicated space for organizations working with seniors.**

Services for Families

Families with children living at 730 Stanyan will also require services. **We recommend including space for a childcare or early education facility.** We believe the development should include dedicated space for organizations working with children and families, including for child care, early care and education and family supports.

Services for the Community

The Haight-Ashbury community is limited in the availability of community space. **We propose that the development includes a community room with capacity for at least 100 people.** This would serve to integrate the residents of 730 Stanyan with the broader community. We encourage the adoption of other opportunities to promote the site's integration with the community, e.g. through public open space.

Affordable Retail Food Service

While the replacement of the McDonald's restaurant with affordable housing will bring many benefits, undoubtedly it served as a source of both employment and inexpensive food for many low-income people in our neighborhood.

We encourage the city to consider including a small retail food-service business as part of the new development. This should be focused on an operation that can provide fresh and healthy but inexpensive food to local customers along with entry-level food service employment and training. We believe there are models, such as a sandwich store, that can accommodate these goals within a very small footprint.

In general, preference for any retail units at 730 Stanyan should be given to locally owned businesses, especially those providing employment training and placement at their business for residents of 730 Stanyan.

Transportation and Site Access

The Haight / Stanyan intersection has exceptional access to services and transit, and for this reason **we strongly support providing zero onsite auto parking.** Eight separate transit lines are within walking distance: Two buses stop right next to the site, and a further five bus lines and the city's most heavily travelled streetcar line are within five blocks. The neighborhood also includes two hospitals, three schools, the city's largest park, two grocery stores and a food pantry.

We do support sufficient Class One (indoor) bicycle parking for all residents. **We also recommend that the project includes provision for a Muni transit pass for every resident.**

For vehicular access, we recommend that the site is designed with a curb-side limited waiting/loading zone that can be used for deliveries and for passenger pick-up and drop-off.

Interim Use

The 730 Stanyan site has now been transferred to the city. We recognize that the planning, design and approval process will take at least 18-24 months. **As neighbors, it is important to us that our community gets the most benefit from the site in the period before construction starts.**

We strongly recommend that the city's plans for interim use of the site aim to address the same goals as the long-term use. This includes housing insecurity, youth homelessness, and facilities for children and families. To this end, we support the proposal by a coalition of youth- and children-serving non-profits to host two areas for interim services delivery on the site.

Recommended Interim Use for Transitional-Age Youth Services

Interim services for transitional-age youth would be provided on a portion of the 730 Stanyan site, via an entrance on Haight Street or Stanyan Street. These services would provide engagement day programming for young people via low-threshold, basic need support in a safe, youth-friendly environment, so that they can resolve immediate crises and needs, and build positive, trusting relationships with adults and their peers. The services would be delivered by a coalition of experienced youth services non-profits already operating in the Haight-Ashbury.

Typical services would include:

- Case management – one-to-one strengths-based support to identify short- and longer-term goals and a plan to achieve them
- Food – healthy snacks and meals
- Clothing – socks, underwear, rain ponchos, cold-weather gear
- Hygiene and harm-reduction supplies – razors, toothbrushes, first aid, safe-injection supplies
- Groups – life skills, harm reduction, wellness, health, job skills, and others based on the expressed needs of the young people involved
- Resource brokerage and referrals – information and links (including warm hand-offs) to other public and community resources, including primary care clinics, behavioral health support, education and employment support, shelter and housing

Recommended Interim Use for Family and Community Services

Interim services for families and the broader community would be provided on a separate portion of the 730 Stanyan site, via an entrance on Waller Street. We envisage this area providing a multi-purpose space that could be used to provide services for families and children, and for community uses. Specific, family support services could include family and parenting classes, family events, counseling, and basic needs. The services could be delivered by experienced child-serving organizations already operating in the Haight-Ashbury.

Additionally, we urge interim uses which provide the general population access to the site, such as weekly outdoor movies and a temporary community garden. The community garden could also serve to provide skills training for young people.

Non-Recommended Interim Uses

Some proposals for interim uses would cause harm to our community and we do not support them.

- We do not support leaving the site vacant during this interim period. This site is too important to our neighborhood to lie vacant for several years. Leaving a vacant lot will encourage residents to avoid the area even after the eventual affordable housing development is completed.
- We do not support using the site as a staging area for other construction projects (such as the Haight Street Public Realm Project). This would pose too great a risk that delays to another project would prevent the site being vacated and thereby delay the start of housing construction. The potential to cause residents to avoid the site is similar to that of a vacant lot.

Design

The new building or buildings will be a prominent part of our neighborhood for many years. The site location, where Haight Street meets Golden Gate Park, ensures that they will be seen often by San Francisco residents and by many visitors to our city. This provides an opportunity for a great design that neighbors will be proud of, and that will draw acclaim from tourists.

For these reasons, **we strongly recommend a methodical approach that captures community needs, solicits input from stakeholders, and then addresses that through a sympathetic design.**

We do want to take advantage of this site to construct new housing for many low-income families, and we believe the right design can accomplish that while attaining broad support from residents and visitors. In contrast, poor design choices pose a risk that the project will lack local support and get delayed during planning approval. Even if those objections are overcome, an unsympathetic design will encourage neighbors and tourists to avoid the area, which will serve to isolate it from the broader neighborhood.

Overall, we are seeking to maximize the benefits that can be delivered by the 730 Stanyan Street project for the entire community. We see that as making best use of the available budget to maximize the usable space, both for housing and for services, without doing this at the expense of excessive impacts on the broader Haight-Ashbury neighborhood.

Who Is the Coalition for a Complete Community at 730 Stanyan?

We are a group of people living or working in the Haight-Ashbury area who are interested in how our whole community can benefit from the proposed affordable housing at 730 Stanyan Street (the former McDonald's site).

We believe it's important for our community to take an active role in the planning process for this site so that the project benefits everyone, from households struggling to find secure housing, to those in need of services, to all of the existing neighborhood residents.

If you believe that too, we'd love you to join us.

We came together after the November 7, 2017 public meeting called by the Mayor's Office of Housing and Community Development (MOHCD) to announce the proposed purchase and development of the site and the probable 3- to 5-year period of planning and development. At the meeting, we heard that residents were concerned about many issues, from the type of final development, its size and use, to what would happen at the site in the interim. MOHCD had only the vaguest answers to these questions.

It was clear to us that we needed a neighborhood-based effort both to answer these questions and also to seek consensus within our community on the permanent and interim components of the project.

We met and started a working group to bring together neighbors and local groups to try to ensure the beneficial development of the site, including what should happen in the interim period. Our aim was also to provide residents with an ongoing forum to discuss development of the site and eventually to reach a consensus.

The Haight-Ashbury has two notable experiences of the benefits that a community-based planning process can bring to city-funded affordable housing.

- Community input was a major factor in shaping how the old Harkness Hospital in the block bounded by Fell, Hayes, Lyon and Baker became the current Mercy Terrace senior and family development.
- Similarly, the creation of Parkview Commons housing on the site of the old Polytechnic High School across Frederick Street from Kezar Stadium site was driven by interested neighbors.

In both cases, the community planning process ensured that existing residents were well-informed and happy to welcome their new neighbors. This greatly influenced the success of both these 100% affordable developments.

This document is the result of months of discussion. We hope it provides a starting point for the broader community conversation that will be so critical in the successful development of this critically important site in our neighborhood.

TO: Board of Supervisors members

I am supporting this request to the California AG and the U.S. DOJ.

In media coverage, experts who viewed the video were divided as to whether or not it was self defense.

However, there did seem to be a consensus that the case should be decided by a jury and not by the District Attorney.

Hello,

I am a resident of the lower Nob Hill area of San Francisco. I work full time for an agency that supports adults with disabilities. Because of the policies and budget and funding from the state, I get paid very little. I am in the poverty category in the city. I spend most of my pay check on rent. I have little money left to buy food, pay bills, health insurance, etc. I have been denied food stamps, and other help. I am very grateful for my job and believe in helping the homeless, sick, disabled, etc. However, why am I, a person who is working full time and paying taxes, being denied safe streets, help with food, with healthcare, with bills and with clothes, etc and people who don't work and don't pay taxes receive every service out there. Again I believe in helping others, I do it everyday. But why am I one pay check away from loosing my apartment and not having enough food but can't

receive help? Why is the rent so high here for working people but we spend millions of dollars to accommodate drug users? Why do we have to struggle so hard? I applaud the work people do to support people less fortunate or who need a helping hand but many people choose to live on the street and do drugs because they can here. They can and they do. I'm not saying stop helping- I'm only asking for people like me to have a chance too. Rents need to be controlled, a change in the distribution of funding, people who work shouldn't be denied help, hold people accountable for theft, drug use and selling in the street, destruction of property, and so on. I just want a fair chance and I don't know how this city can ignore the many people like me who love the city but are being treated like we don't matter. Thank you for your time.
Maria

Dear Board of Supervisors:

I understand that if I send an email to this one email address, it will reach all the supervisors.

I'm writing about the deterioration of Brady Street and Colton street due to the actions of the people who live on 53 Colton Street.

Since they moved in, there are people there who are a problem.

Dogs barking at any given hour of the day and night, people loudly hanging out in front of the building any time, day or night, cars showing up and parking on a street that is narrow with 2 signs that clearly read NO PARKING ANY TIME.

People park along Colton Street whenever they feel like it, often playing ridiculously loud music with even louder bass. This can occur during the day, in the afternoon, at night, after midnight or after dawn. There is one particular silver SUV that with a black and silver roof that parks right under the sign that says no parking. You know he's turning onto Colton without seeing the SUV, because you can hear the loud music before he's even driving on Colton Street.

Cars can't drive through when these people (especially the one driving the silver SUV) are blocking the street..

Then there are loud people who hang out in front of the building. Sometimes you catch them smoking right in front of the building even though the ordinance says you have to be 20 feet away from a front door. Playing loud musicin the middle of the street, and after nightfall it's loud talking and laughing as well as loud music.

Most of the problems are after 2pm, and gets worse and worse the later the evening gets.

There's feces and garbage on the street, including on my street as well as theirs..

There are fire trucks at least two times or more every month to that building. Often late at night, after my partner and I have gone to bed.

It is irresponsible of the City and County of san Francisco, The Board of Supervisors and the owners of the building to infest the neighborhood with such nuissance people and demoralizing the good tenants who live in that building who are not like these imbecibles.

I see the same imbeciles causing problems. Why can't the people running this place keep them out of this neighborhood? This is not the neighborhood for them.

Why are you allowing people like this to spoil it for the good tenants who live on Colton Street, and for everyone who lives in the area?

People are allowed good housing. It's racist and classist to put street trash in the same building as low income tenants who deserve good housing.

Why does the BoS and the Mayor allow this, just to score political points?

Why should we have to look for another apartment because of a few animals who are bothering everyone?

Where's the accountability? Where's the responsibility?

John M

Good morning,

Chris Daly was Supervisor from 2001-2011, owned a bar on Market, Union Rep and now works in Education in Nevada but lives in Fairfield.

Jane Kim went to Stanford, UC Berkeley.

Matt Haney went to similar schools.

Matt Dorsey current Supervisor who work in PD Communications.

It is simple - each partnered with Ram Koppaka and Matthew Johns in HHS to influence and alter situational awareness by letting a different county from Nevada to come into the city. If it comes out, HHS attempts to classify everything.

One problem, it's not getting classified going forward.

Mike Maxwell plays pool at Raw Hide on 200 block of 7th Street close to HHS and in District 6.

Now after calling put Pool League for allowing speakers to be left on to facilitate cheating, JM R. is now winning pool tournaments in SF. A lifetime below 500 player now elevated. Just like Barry Bonds and Alex R., once cheating exposed, these people will take brunt of it.

All,

Here is your problem with overdoses, violence, homelessness, etc.

What does London Breed know about this connection?

Respectfully,

Chris Ward Kline

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello, I love going to the Ferry Building on Saturday mornings and have never encountered an issue until today. What happened and my subsequent observation prompts me to contact you because I realized this location is NOT in any way prepared, in my opinion after my observation outlined below, of dealing with any kind of serious (or pedestrian) security issue that may happen.

I would like to bring a possible issue to your attention. On Saturday, May 20, 2023 @ ~8:32 a.m. in the Ferry Building corridor between Boulettes Pizza, the bathroom, and the crepe shop, an old man was accosted/pushed from behind by a disturbed man (verbally cursing/angry and pulling a green suitcase on his way to the bathroom) pushed an older man to get out of his way and yelled at him. I,

and someone else, caught the older gentleman from falling. This prompted me to look for security. I could NOT locate anyone nor did I see any signage about security. This was very concerning.

I then walked around and to my amazement could NOT find any security people anywhere. I asked a proprietor at one of the bake shops near the front entrance (facing building right side) and he snickered, and said I may find security milling toward the center at the front of the building.

Sitting near Red Bay Coffee/Mexican Food enjoying my coffee I never saw a single security person or police officer in the one hour I sat there enjoying my coffee and people watching, etc. After doing my shopping, I asked someone at 'foodwise' about security and they pointed me to the security office. While walking into the security office, there were three young men in the office. One at a computer, and two standing around the desk. I told them about the incident. I also conveyed that until I just walked in and saw them that I never saw any security anywhere my entire time there for an hour and a half. (1) The guy in charge told me he has five security people (in blue shirts) walking around in a bit of a defensive way. I replied, be that as it may, I never saw anyone. My (2) second observation would be: it was questionable whether the young man sitting at the computer was more interested in the conversation with the other two, than with monitoring whatever was happening on screen in front of him - guessing it was security camera footage coming being broadcast. I'm not sure.

In conclusion, I have zero confidence after that experience as a customer that the current security operation is properly trained, engaged, and could handle any serious event that would arise. Additionally, I didn't see a single police car parked nearby or just one officer roaming about. Maybe I missed it? Please consider looking into the situation as there are hundreds if not thousands of people gathered through there from 8 to 2 every Saturday.

Thank you for your time,

Rick

Re: Street fires in Hayes Valley

Dear City Leaders,

Hayes Valley has suffered a series of dangerous fires along Octavia Boulevard that started around tent encampments.

On March 31st a car was lit on fire near a tent encampment and construction site at Octavia Boulevard and Hickory Street.

On April 24th a construction site was set on fire near a tent encampment at Octavia Boulevard and Hickory Street.

On April 25th a tent encampment went up in flames in the median of Octavia Boulevard and Hickory Street. Cyclists passing by pulled a person out of the tent.

There is currently an encampment on Octavia at Hickory where many of these fires have started. They have been tapping into power at sidewalk utility access points and the light poles along Octavia Boulevard.

We don't know exactly how all of these fires started, but we do know how dangerous they are to our community. And we observe that they have all been concentrated around the same tent encampments that we have reported again and again. We have repeatedly alerted 311, 911, the non-emergency police line, Supervisor Preston's office and HSOC about camps illegally splicing into city power poles and completely blocking passage on sidewalks along the very busy Octavia Boulevard.

When we report these issues, every public servant tells us the same thing—they aren't allowed to do anything about encampments because of the injunction (issued by U.S. Magistrate Judge Donna Ryu on December 23, 2022). The injunction however, doesn't bar the city from removing encampments that engage in illegal activity like splicing into city power or encampments that completely block passage on a sidewalk. The injunction does not bar the city from enforcing laws meant to keep all residents safe.

Our neighborhood and our city is literally being trashed and set on fire and you all are doing nothing about it. We are asking you to take these issues seriously and remove encampments that pose a danger to our community when we report them instead of throwing your hands up in the air.

Please clarify with enforcement agencies that you can still enforce the law. And please confirm with us, your constituents and tax-paying residents, that you will enforce the law.

Please treat this like the public safety and humanitarian crisis that it is. If the city doesn't have the resources to do this, then ask the state for help. Call in the national guard if needed. Build emergency temporary shelter and triage people's needs. Get people off the streets and into safer environments.

We expect a response from you within a week clarifying policies around removing encampments that are breaking safety laws and your commitment to keeping our neighborhood safe.

Sincerely,

Jennifer Laska

Dear Board of Supervisors,

The current closure of JFK Drive severely impacts people with disabilities, seniors, and communities not directly neighboring Golden Gate Park.

As we emerge from COVID, it's time to reopen JFK Drive. Golden Gate Park belongs to the people of San Francisco, not just a few.

I strongly encourage you to support JFK Drive returning to the conditions pre-COVID, with all roadways open to vehicle traffic and street closures on Sundays, holidays and Saturdays, 6 months of the year.

Regards,
William Woolf

Dear Board of Supervisors,

Ableism and gatekeeping have no place in San Francisco. The current closure of JFK Drive is unfortunately both of those things.

The time for "close first, ask questions later" is over. It is time to revert back to the compromise that was struck over a decade ago and restore access for all to Golden Gate Park.

Anna Abeyta

To: Board of Supervisors (BOS); Breed, Mayor London (MYR)
Subject: Fully Support Arresting Drug Users
Date: Wednesday, May 24, 2023 12:16:22 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors & Mayor Breed,
As a 33-year resident of San Francisco, I full support arresting drug users who use drugs in public. There is NO compassion for the drug user or other San Franciscans in allowing someone to continue to use drugs when we have other means to assist them. If that means arresting them, so be it. As a city, we must start to hold people accountable for their actions and that includes drug users who use in public.

As Supervisors, if you do not start holding people accountable for committing crimes , whether that is drug users, drug dealers, shoplifters, etc., you will not be re-elected. You have been elected to ensure SF runs well and you need to start taking aggressive action to ensure it starts to run well.

Sincerely,
Patricia Sur

Dear San Francisco Board of Supervisors,
I am writing to plead to your office to take actions and protect San Francisco from going down from lawlessness, open air drug trafficking, drug addiction and thefts . All these are tie to our homeless situation as they are the prime customers for fentanyl and illegal drugs purchase and addiction and stealing.
I live on 1160 Mission Street, next to our Federal Building. Literally at this moment (Saturday 5/26/23 at 4:40pm) my neighborhood looks like a big convention for lawlessness and drug trafficking.
My safety is threatened and my mental health is affected. And I am not the only person feeling this way.
We need law and order to be re-installed to our city. Please be our leaders and do the right thing.
My name is Lee NG and I can be reach at 415.828.8371.
Thank you, I am pleading for actions to save our beautiful city from total destruction.

Sincerely,
Lee Ng

Hello Mayor Breed and Board of Supervisors,

My friend Charlotte wrote this letter to you last month, and I am writing in full support of her letter and her perspective, shared by many of us in this city.

It is a humanitarian crisis here, worse than most slums.

On my last two BART commutes home from work (going back to Hayes Valley from a large downtown office building) someone was stabbed at the station and separately another (smelly, likely homeless) person urinated on the train without any consideration for the other riders. My friends and I went to the ballet the other day, and we had to step over a body with rotting limbs stretched out close to the entrance. Was the person dead? We weren't sure. This is the horrifying new normal.

I urge you to resign your posts immediately to make room for candidates who can make meaningful progress to reduce crime, eliminate open air drug dealing and use, and clean up filthy excrement/glass/needle filled streets.

A Fed-Up SF Resident,
Seema Gokhale

>
> Dear Members of the Board of Supervisors of San Francisco, and Mayor Breed:
>
> I feel sorry (not) for most, if not all, of you — you are going to be elected out of your positions when re-election time comes.
>
> The residents of San Francisco are up in arms over the decaying and dangerous condition of this once-grand metropolis. I know you know, but the problem is

that you are not taking any significant action to change the situation. You are failing, miserably.

The level of violent crime, filthy streets and sidewalks, drug-addled behavior of horribly addicted people on the streets, abject degradation, and fleeing revenue business base, both large and small, is bringing this city to its knees.

And you are the “leadership" of this situation. Is this your goal? To allow the destruction of our once-amazing city? I hear many of you speak of “San Francisco values” — it appears you value, above all, nihilism.

We San Franciscans are ready to overcome this bleak scenario one way or another. But we are tired of asking you to get active while you only twiddle your thumbs. In the coming next two years we will elect new leaders with vision, compassion, conviction, determination and above all, spine.

Move on, we don’t need nor want you anymore.

Your fellow city dweller,

Charlotte Worcester

Dear Supervisors,

We are calling on you TO TAKE IMMEDIATE ACTION to end the destruction of our city.

As San Franciscans who care deeply about our city, we are providing you with a short list of non-negotiable list of demands as the voters:

1. Immediately declare a State of Emergency for the drug and homeless emergencies. We need a rapid emergency response the problems, for years the problem has gotten worse, and it has gotten to the point where we need to immediately treat this like a emergency, and we need to do this NOW, so Mayor London Breed, we the constitutes, the voters, demand you to declare a state of emergency, we will remember your leadership, so you can treat this like the emergency it is, or ignore this and face the consequences of the constitutes, the voters.

2. Regularly investigate all non-profits, the recent corruptions scandals from recent non-profits show that we need to investigate and hold our non-profits (which get millions of our tax money) accountable. We demand for an investigation into all non-profits receiving money from the city.

3. Advertise our drug-treatment and homelessness programs. Many of our homeless and addicts want help, they know they need it. They don't know where to get it, what is unacceptable! We need to make sure they know where to get help.

4. DRASTICALLY expand the Community Ambassadors programs, our police and sheriff's are understaffed, we need to expand these programs and need to make sure these programs are expanded into every district and neighborhood.

5. Cut all ineffective expenses, period. We will not let our tax dollars go to ineffective programs that ruin our city, we will NOT pay for the destruction of our city. We want an investigation into all city expenses and which are effective and which are not. We have a over ten billion dollar budget, yet we can't even get effective results.

6. Coordinate all agencies to respond to the homeless and drug emergency. This includes every city agency having anything to do with the drug and homelessness scene. This includes effectively ending this problem, this includes uniting as one San Francisco regardless of anything else, and fixing this problem, it will end up destroying us if we don't.

No more excuses. This complete destruction must end NOW. We demand action: Supervisor Connie Chan, Supervisor Catherine Stefani, Supervisor Aaron Peskin, Supervisor Joel Engardio, Supervisor Dean Preston, Supervisor Matt Dorsey, Supervisor Mryna Meglar, Supervisor Rafael Mandelman, Supervisor Hillary Ronen, Supervisor Shamann Walton,

Supervisor Ahsha Safai. If you cannot commit to our demands, you do not deserve your titles.

We are San Franciscans who are demanding a functional city government. We successfully recalled a dangerous DA and an incompetent Board of Education, we can do the same again. Your failure to govern is both outrageous and unacceptable. Your constituents will hold you accountable.

Subject: SF Street Conditions - Ignore the Activists

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Thank you Mayor and Supervisor Peskin for getting serious about addressing the conditions on our streets, in particular around Civic Center. I'm a District 5 resident, and I pass through the area while switching buses several times a week. The scene there is appalling and reflects problems occurring all over the city to a lesser degree.

I read the Chronicle article about the outdoor board meeting yesterday, and I must say that I have come to identify with the quote highlighted below. Yes, the city

needs to offer services. But the city also needs to make the situation more uncomfortable for the dealers and addicts that have taken over the area.

Ignore the few activists that oppose this. It will take leadership and courage. Most in SF want cleaner, safer streets and will applaud you for making this happen. Is it a SF value that we tolerate (and practically welcome) criminal, antisocial behavior? I don't think so. It's time to finally show that the behaviors we're seeing on our streets are unacceptable and will not be tolerated. Thank you.

> *But San Francisco resident Steve Alandeck stood close to the area where the mayor and supervisors spoke and said he thinks the city needs more police, not less. He said City Hall should divert hundreds of millions of dollars from nonprofits and shift it toward the police budget.*
>
> *"It's gonna take a heavy hand to deal with this issue," he said. "It's gonna be unpalatable to a lot of people, but they need to run the drug addicts off.*

Hello,

Mr. Carter came in and stated that he would like to be heard at the next Board of Supervisors meeting of June 6, 2023 regarding the subject stated below and on the attached letter. Please read the attached letter so that Mr. Carter can expand on the subject when it comes time for him to speak within that narrow 2-minute framework that he is allowed. He is also inquiring as to the whereabouts of the resume that he submitted, and who handled it, at the March 14, 2023, Hearing of the Board of Supervisors sitting as a Committee of the Whole, on the Draft San Francisco Reparations Plan and Dream Keeper Initiative updates.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

as per our conversation yesterday .
my company the " PRAISE BE FOUND HOMELESS FOUNDATION OF AMERICA " CAN BE "GOOGLED TO LOCATE IT.

ALSO I WANT THE DATE FOR THE INQUIRY AS TO ALL THE REST OF MY COMPANIES UPDATED FROM THE SEPTEMBER HEARING SINCE THIS DATE WILL BE TOO FAR OUT FROM THE NEXT "REPARATIONS" HEARING TO BE USEFUL TO IT TO BE ADDED AS A PART OF THE STRATEGY FOR IT ,
I WAS NOT INFORMED OF THE DATE OF THE FIRST INQUIRY SO THAT I DID NOT EVEN KNOW IT WAS ON THE CALENDAR ON THE 16TH OF MAY ???.

MANY THINGS NEED CLARIFICATION AND I WANT THAT OPPORTUNITY BEFORE THE NEXT REPARATIONS HEARING WITH THE BOARD OF SUPERVISORS SO THAT THESE THINGS ARE HEARD.
SINCERELY
RONALD D. CARTER
1825 MISSION ST. APT.220
SAN FRANCISCO CALIF. 94103

REQUEST FOR INQUIRY TO ALL MEMBERS OF THE SAN FRANCISCO COUNTY BOARD OF SUPERVISORS:

RE: MY RESUME' SUBMITTED AT THE LAST COUNTY BOARD OF SUPERVISORS OPEN REPARATIONS MEETING OF APRIL 10TH 2023.

MY RESUME DESCRIBES 24 COMPANIES I CREATED AND LAUNCHED ON FACEBOOK.COM THE SUBJECT OF WHICH ARE THE CREATION OF " AMERICAN ECONOMIC RECOVERY PROJECT FOUNDATION INTL AFFILLIATES ".

THE WHICH CONTAIN EVERY NATIONALITY"S OWN WEBSITE TO THAT END .

(SCOTS. IRISH. JEWISH. ITALIAN , ASIAN . POLISH, HISPANIC ETC.)

NO NATIONALITY IS LEFT OUT AND HAS A WEBSITE I HAVE CREATED .

THE PURPOSE OF WHICH IS TO BE SUBMITTED WITH THE AFRICAN AMERICAN REPARATIONS PLAN SO THAT WHEN THAT PLAN IS ADOPTED THEY AFRICAN AMERICANS COULD DONATE OF THEIR PROCEEDS TO IT TO FOSTER THOSE INTERNATIONAL WEBSITES AND APPOINT MEMBERS OF THOSE DISTINCT GROUPS TO BE EXECUTIVE OFFICERS IN THEM .

THIS IS THE STRATEGY THAT LARGELY HAS BEEN OVERLOOKED

BY THE LOCAL COUNTY BOARD OF SUPERVISORS AND STATE OF CALIFORNIA OFFICIALS . SINCE THE DELIVERY OF MY REUME"

WAS STALLED AND IN FACT I LEARNED THAT IT WAS DELIVERED TO THEIR OFFICES BY THE COUNTY CLERK.

HOWEVER COUNTY BOARD OF SUPERVISORS OWN STAFF AIDS DID NOT DELIVER IT TO THEM , AS I LEARNED FROM COUNTY BOARD OF SUPERVISOR PESKIN TOLD ME YESTERDAY WHEN I MET HIM BRIEFLY OUT OF CHAMBERS.

THE COUNTY BOARD OF SUPERVISORS NOR THE GOVERNOR OF CALIFORNIA KNOWS OF THIS STRATEGY I HAVE BEEN TRYING TO INCLUDE IN THE REPARATIONS TASKFORCE AGENDA .

THIS PLAN WIELDS TOGETHER OUR ENTIRE COMMUNITY AND MAKES REPARATIONS A MORE PALATABLE AGENDA .

THAT IS BECAUSE IT ALLOWS THE REPARATIONS AGENDA TO AT THE SAME TIME GIVE BACK TO THE COMMUNITY AT LARGE FROM ITS SUCCESSFUL IMPLEMENTATION.

I DO NOT NECESSARILY SAY THAT THE NUMERIC FIGURE SUGGESTED IS THE FINAL NUMBER FOR THE DISPENSATION AND I DO CONSIDER THE STATE'S POSITION FISCALLY.

HOWEVER I DO NOT RULE OUT METERED PAYMENTS OF SOME NUMBER THAT EXTRACTS AFRICAN AMERICANS OUT OF THE SUBJUGATION THEY FACE IN AN ECONOMY NOT CREATED BY THEM NOR FOR THEM. WHICH IS RAPIDLY OUTRACING THEM AN IMPOVERISHED AND ECONOMICALLY DISENFRANCHISED PEOPLE FROM 246 YEARS OF CHATTEL SLAVERY AND ANOTHER 100 YEARS OF VICTIMIZATION OF THE PRACTICE OF CAPITALISM WHERE THEY HAD LITTLE TO NO OPPORTUNITY TO PREVAIL.

AN EVENING OUT OF THE PLAYING FIELD IS DUE IN SOME MANNER AND AMOUNT AND THAT NUMBER DESERVES MORE EXAMINATION OF AND CONSIDERATION.

I DEMAND AN INQUIRY AND ANSWER INTO WHO HANDLED MY RESUME AND WHY NO MEMBER OF THE COUNTY BOARD OF SUPERVISORS HAS NOT GIVEN ME AN OPPORTUNITY TO HAVE MY RESUME EXAMINED AND AN OPPORTUNITY TO EXPLAIN THE PURPOSE OF IT WHICH IS THAT I9F THE REPARATIONS AGENDA IS GRANTED I WOULD PAY ALL FEES ASSOCIATED WITH LAUNCHING THE NON PROFIT ORGANIZATIONS LISTED ON IT AND

BEGIN THE TASK OF FARMING THEM OUT TO THOSE COMMUNITIES AND IN ADDITION STIPULATE THAT RECIPIENTS OF THE REPARARATIONS GIVE A PORTION OF THEIR DISBURSMENT TO " AMERICAN ECONOMIC RECOVERY PROJECT FOUNDATION INTL AFFILIATES TO BE DISTRIBUTED TO ALL MEMBER AFFILIATE ORGANIZATIONS.

I FURTHER DEMAND THAT GOVERNOR GAVIN MEWSOME BE APPRISED OF THIS IMMEDIATELY SINCE I READ TODAY THAT HE WILL NOT ENDORSE THE REPARATIONS PLAN ,

HOWEVER HE DOES NOT KNOW ABOUT MY PLAN AND I WOULD ASK HIM TO CONSIDER IT BEFORE THE FINAL DECISION AND DRAFT OF THE REPARATIONS TASK FORCE COMMTTEE SUBMISSION.

FURTHER MORE I WOULD LIKE AN ANSWER TO THIS INQUIRY AS SOON AS POSSIBLE AND THAT COUNTY BOARD OF SUPERVISORS ASSIST IN FORWARDING THIS INQUIRY TO THE GOVERNOR GAVIN NWESOME AND THE HEADS OF THE NATIONAL REPARATIONS TASKFORCE COMMITTEE IN WASHINGTON DC.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Thanks for the update. As usual I complement you for the quality of your Staff.
I also like your commitment to youth finding a constructive place to fit in the community.
But $50 mil for an office of reparations? You have to be kidding. $5 mil to every Black resident in the City? Where does the money come from? All the crack/fentanyl dealers in the city must be excited. Do we want the Bayview to become like the Tenderloin?
The Black folks that were here when we moved - many have cashed out, sold their homes for 1 mil+ and moved to the burbs where they can find a good life, own a larger house and have money left over to live on the rest of their lives.

... but I think encouraging Black victimhood is the wrong way to go. I am sure it has been tough being a Black man (I am not one) - but you and Willie Brown made it. And the Fed gov did not make it easy ... giving Black women money if there was no man around.
Wish you (and your staff) the Best in the New Year.
Sincerely, rp

Dear Neighbors and Community,

As we are approaching the annual budget season, I want you to know that I will continue to fight to preserve the existing services and resources in our District. These priorities include:

- no cuts to existing programs
- implementation of the District 10 Public Safety Plan and violence prevention measures
- prioritizing programming serving our most vulnerable populations
- supporting education, equity, skills training, career pathways, as well as small businesses for underrepresented communities
- investing in resources to reverse the impacts of structural and systemic racism
- housing stabilization, including public housing
- COVID-19 recovery and economic stabilization

Earlier in April and May, we held two budget town halls in person and virtually to gather feedback from the community on what your budget priorities are. If you missed the meetings, you are welcomed to email our office at waltonstaff@sfgov.org.

Mayor Breed will release her budget on June 1st and the City Departments will begin their presentations to the Board of Supervisors throughout June. As the Board of Supervisors, we will have an opportunity to review the budget and hold hearings for each department to make sure public services in our communities are kept in place. Click here for more information on the schedule of hearings.

As a member of the public, you will have the opportunity to share public comment on Monday, June 26 in person or over the phone. You are also welcomed to email your comments to board.of.supervisors@sfgov.org.

Click here to learn more about the budget process.

Summer Camps & Programs

Summer is around the corner! The Department of Children Youth and Their Families have compiled a list of summer camps and programs for children grades K-8, click here to see a list of summer programming.

Opportunities for youth, ages 14-24 may be found here and additional summer resources listed by the San Francisco unified School District, may be found here.

Reporting to 3-1-1

SF311 is the primary customer service center for San Francisco. It is available 24 hours a day, 7 days a week via phone, web, mobile, and Twitter. If you see illegal dumping or a pothole that needs to be fixed, please reported it to 311, you may also take a photo and upload it to the mobile app. If you need assistance escalating the matter or if 311 has not responded to your case, please send your case number to my office and our staff will help you follow up.

Community Events Calendar

If you hear of any community events in our District, our office would love to add it to our community calendar at: http://bit.ly/d10communityevents - Please send us an email at waltonstaff@sfgov.org.

In community,

Supervisor Shamann Walton

District 10 Office Updates

- On April 24th, we kicked off the official Committee on Citywide Workforce Alignment meeting with City Department Heads, Labor and Community Appointees. This committee will play an integral part in aligning the workforce system and programs across the City. Building skills, connecting to careers and ending poverty takes everyone working together!

- On April 25th, alongside Supervisors Ronen and Safai, we honored the Latino Task Force (LTF) at the Board of Supervisors. LTF emerged at the beginning of the pandemic as a community-based response to the health and financial crisis experienced by the Latino community in San Francisco. They mobilized to distribute food to over 9000 families, created the first community testing site, and the first community hub to respond to the crisis. But they didn't stop there, they also helped create the Bayview Hub and the Pacific Islander Resource Hut to tailor pandemic relief and response to our specific communities. Congratulations to the Latino Task Force on 3 years!

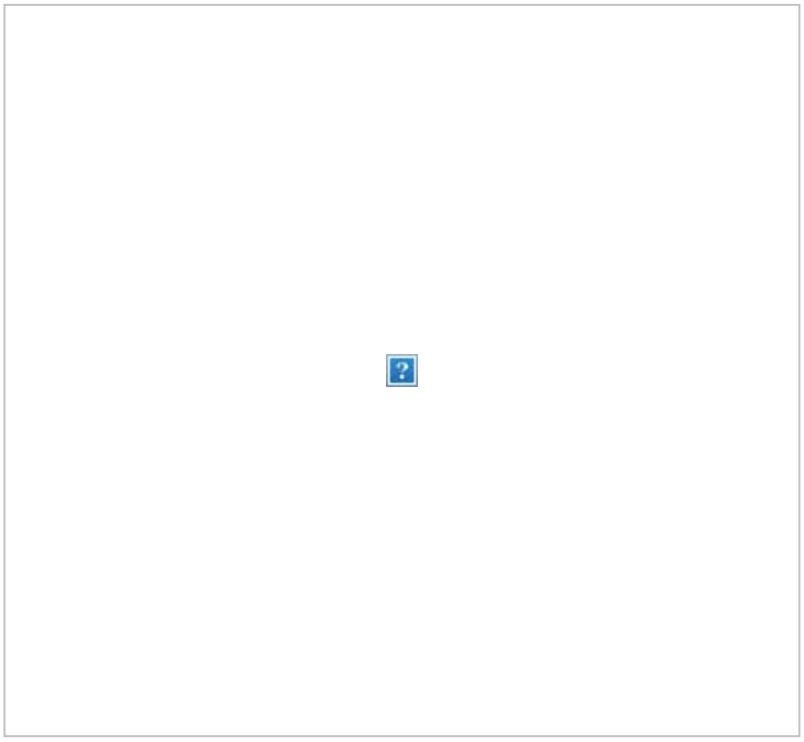
- Also on April 25th, we celebrated alongside Young Community Developers (YCD) as they held a showcase for their 50 years in workforce development. We look forward to celebrating YCD's 50 years in service to the community throughout the year!

- On April 29th, we celebrated the 115th anniversary of the St. James Presbyterian Church and their 100 years at home on 240 Leland Avenue. We also celebrated the St. James Presbyterian Church as the first city designated historic landmark in Visitacion Valley—this is our very first but definitely not the last historic landmark designation in the neighborhood. This church building is also going to be home to a mini museum for the history of Vis Valley. Thank you Pastor Fernando and the St. James Presbyterian congregation, the Visitacion Valley History Project, SF Heritage, the Historic

Preservation Commission, and our Vis Valley community for making this happen.

- Also on April 29th, the Fealofani Festival took place at Burton High School organized by the Samoan Community Development Center. The Fealofani Festival was founded to provide cultural enrichment and space for the youth to engage, celebrate, and showcase culture through the art of Siva Samoa. It is with hope that the students will feel empowered and recognized with a sense of unity and inclusiveness with our Pacific Islander community.

- On April 30th, we attended the 5th Annual Butchertown Jazz Fest in Bayview! It was great to be back in person and enjoy great music and food!



- On May 2nd, we had the pleasure of honoring Joy Zhan for AAPI Heritage Month. I've known Joy for several years and I have seen her develop exemplary leadership skills through her work in the community, developing young people and organizing in the API community. I would say she's a rising star but she's already a star with all the work she has been doing whether through the Youth Commission, SF Young Democrats, Rose Pak Democratic Club, and APALA-SF Chapter.

- On May 9th, I stood in solidarity with our In Home Support Services staff in asking for fair wages. These workers take care of our most vulnerable population and help them live with dignity. They are important to many and much like childcare workers deserve to be paid a living wage.

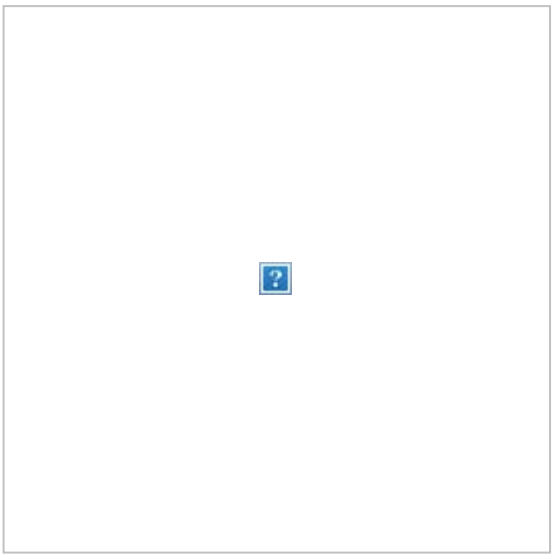
- On May 10th, we spent the morning visiting Frandelja Childcare Center at True Hope. So humbled to receive personal messages from every teacher at the center. That made my day!

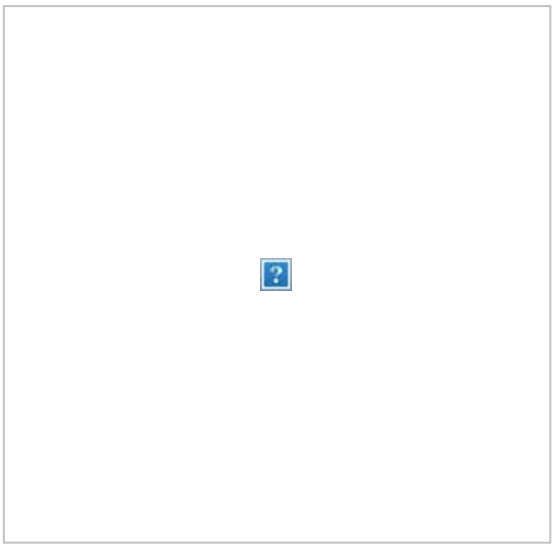
- Also on May 10th, we celebrated the Chinese Railroad Workers Historical

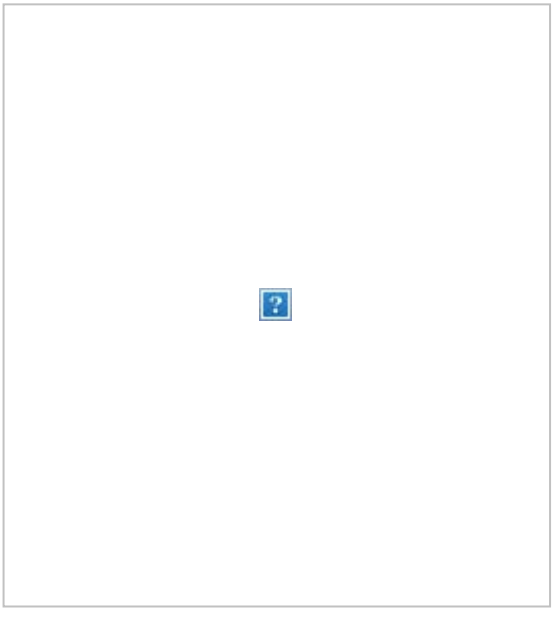
Center Grand Opening and the role of the Chinese Railroad Workers who contributed to the prosperity of this country, even though they faced racism, Asian hate and violence. Today we commemorate these iconic Chinese Americans! Thank you Mrs. Florence Fang for making it possible!

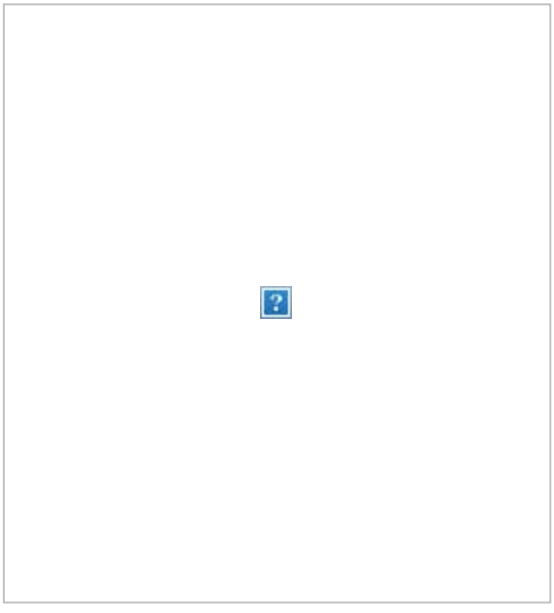
- On May 13th, I attended the Resilient Alice Griffith (Double Rock) Kick-Off - Neighborfest. Beautiful day to be out celebrating the community.

- On May 16th, we held a press conference in support of SB 731, along with the SF Public Defender's Office, my colleagues Supervisors Chan, Melgar, Preston and Ronen, Californians for Safety and Justice, Us for Us, United Playaz, and community. This bill ensures that after people pay their debt to society, they have the opportunity to have their records expunged so that they can gain employment and adequate housing. This allows them to re-enter their communities and be productive members of society.









Headline: What should Prop L fund in the next five years?

San Francisco voters in November 2022 approved Prop L, the Sales Tax for Transportation Projects measure that will direct $2.6 billion (2020 dollars) in half-cent sales tax funds over 30 years to help deliver safer, smoother streets, more reliable transit, continue paratransit services for seniors and persons with disabilities, reduce congestion, and improve air quality.

The Transportation Authority is working to implement Prop L, and is seeking feedback on the specific projects to fund in the next five years. To take a survey, attend a virtual town hall, or learn more, visit: sfcta.org/ExpenditurePlan.

May is Bike Month!

May is Bike Month and the Active Communities Plan team wants to celebrate biking, scooting, and rolling all across the City. We have 20 citywide events scheduled through June 10th, a brand new survey, and a new interactive map showing where people are riding bikes and scooters, our analysis, and more.

There are all kinds of ways to participate, including neighborhood audit bike rides, online webinars, and 21 energizer stations across the city for Bike to Wherever Day.

Our survey runs through July 31st and will be used to directly inform our recommendations for the Active Transportation network. If you would like for us to attend your own community meeting or event, please contact us at ActiveCommunities@sfmta.com and let us know!

Subject: "Reparations."
Date: Friday, May 19, 2023 6:58:27 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Good Day, everyone Ive been reading lately about black "reparations". I intend to demand MORE than that by demanding the Board of Supervisors and Newsom declare October 7th, 2005 "Marlon Crump Day."

The Office of Citizen's Complaints, a city municipality sustained my case a year later.

Additionally, I went to Diamond Heights in 2008 and talked to the young recruits. A short time later as the recruits were at library receiving their badges (call it crazy, maybe impeccable timing) I ran right into Chief Heather Fong as I was leaving (Main Branch downtown)

"Hello Mr. Crump, everything good?"

This particular form of "reparations" I feel is nearly two decades old.

Have a great day everyone.

Marlon Crump

REQUEST FOR INQUIRY TO ALL MEMBERS OF THE SAN FRANCISCO COUNTY BOARD OF SUPERVISORS:

RE: MY RESUME' SUBMITTED AT THE LAST COUNTY BOARD OF SUPERVISORS OPEN REPARATIONS MEETING OF APRIL 10TH 2023.

MY RESUME DESCRIBES 24 COMPANIES I CREATED AND LAUNCHED ON FACEBOOK.COM THE SUBJECT OF WHICH ARE THE CREATION OF " AMERICAN ECONOMIC RECOVERY PROJECT FOUNDATION INTL AFFILLIATES ".

THE WHICH CONTAIN EVERY NATIONALITY"S OWN WEBSITE TO THAT END .

(SCOTS. IRISH. JEWISH. ITALIAN , ASIAN . POLISH, HISPANIC ETC.)

NO NATIONALITY IS LEFT OUT AND HAS A WEBSITE I HAVE CREATED .

THE PURPOSE OF WHICH IS TO BE SUBMITTED WITH THE AFRICAN AMERICAN REPARATIONS PLAN SO THAT WHEN THAT PLAN IS ADOPTED THEY AFRICAN AMERICANS COULD DONATE OF THEIR PROCEEDS TO IT TO FOSTER THOSE INTERNATIONAL WEBSITES AND APPOINT MEMBERS OF THOSE DISTINCT GROUPS TO BE EXECUTIVE OFFICERS IN THEM .

THIS IS THE STRATEGY THAT LARGELY HAS BEEN OVERLOOKED

BY THE LOCAL COUNTY BOARD OF SUPERVISORS AND STATE OF CALIFORNIA OFFICIALS . SINCE THE DELIVERY OF MY REUME"

WAS STALLED AND IN FACT I LEARNED THAT IT WAS DELIVERED TO THEIR OFFICES BY THE COUNTY CLERK.

HOWEVER COUNTY BOARD OF SUPERVISORS OWN STAFF AIDS DID NOT DELIVER IT TO THEM , AS I LEARNED FROM COUNTY BOARD OF SUPERVISOR PESKIN TOLD ME YESTERDAY WHEN I MET HIM BRIEFLY OUT OF CHAMBERS.

THE COUNTY BOARD OF SUPERVISORS NOR THE GOVERNOR OF CALIFORNIA KNOWS OF THIS STRATEGY I HAVE BEEN TRYING TO INCLUDE IN THE REPARATIONS TASKFORCE AGENDA .

THIS PLAN WIELDS TOGETHER OUR ENTIRE COMMUNITY AND MAKES REPARATIONS A MORE PALATABLE AGENDA .

THAT IS BECAUSE IT ALLOWS THE REPARATIONS AGENDA TO AT THE SAME TIME GIVE BACK TO THE COMMUNITY AT LARGE FROM ITS SUCCESSFUL IMPLEMENTATION.

I DO NOT NECESSARILY SAY THAT THE NUMERIC FIGURE SUGGESTED IS THE FINAL NUMBER FOR THE DISPENSATION AND I DO CONSIDER THE STATE'S POSITION FISCALLY.

HOWEVER I DO NOT RULE OUT METERED PAYMENTS OF SOME NUMBER THAT EXTRACTS AFRICAN AMERICANS OUT OF THE SUBJUGATION THEY FACE IN AN ECONOMY NOT CREATED BY THEM NOR FOR THEM. WHICH IS RAPIDLY OUTRACING THEM AN IMPOVERISHED AND ECONOMICALLY DISENFRANCHISED PEOPLE FROM 246 YEARS OF CHATTEL SLAVERY AND ANOTHER 100 YEARS OF VICTIMIZATION OF THE PRACTICE OF CAPITALISM WHERE THEY HAD LITTLE TO NO OPPORTUNITY TO PREVAIL.

AN EVENING OUT OF THE PLAYING FIELD IS DUE IN SOME MANNER AND AMOUNT AND THAT NUMBER DESERVES MORE EXAMINATION OF AND CONSIDERATION.

I DEMAND AN INQUIRY AND ANSWER INTO WHO HANDLED MY RESUME AND WHY NO MEMBER OF THE COUNTY BOARD OF SUPERVISORS HAS NOT GIVEN ME AN OPPORTUNITY TO HAVE MY RESUME EXAMINED AND AN OPPORTUNITY TO EXPLAIN THE PURPOSE OF IT WHICH IS THAT I9F THE REPARATIONS AGENDA IS GRANTED I WOULD PAY ALL FEES ASSOCIATED WITH LAUNCHING THE NON PROFIT ORGANIZATIONS LISTED ON IT AND

BEGIN THE TASK OF FARMING THEM OUT TO THOSE COMMUNITIES AND IN ADDITION STIPULATE THAT RECIPIENTS OF THE REPARARATIONS GIVE A PORTION OF THEIR DISBURSMENT TO " AMERICAN ECONOMIC RECOVERY PROJECT FOUNDATION INTL AFFILIATES TO BE DISTRIBUTED TO ALL MEMBER AFFILIATE ORGANIZATIONS.

I FURTHER DEMAND THAT GOVERNOR GAVIN MEWSOME BE APPRISED OF THIS IMMEDIATELY SINCE I READ TODAY THAT HE WILL NOT ENDORSE THE REPARATIONS PLAN ,

HOWEVER HE DOES NOT KNOW ABOUT MY PLAN AND I WOULD ASK HIM TO CONSIDER IT BEFORE THE FINAL DECISION AND DRAFT OF THE REPARATIONS TASK FORCE COMMTTEE SUBMISSION.

FURTHER MORE I WOULD LIKE AN ANSWER TO THIS INQUIRY AS SOON AS POSSIBLE AND THAT COUNTY BOARD OF SUPERVISORS ASSIST IN FORWARDING THIS INQUIRY TO THE GOVERNOR GAVIN NWESOME AND THE HEADS OF THE NATIONAL REPARATIONS TASKFORCE COMMITTEE IN WASHINGTON DC.

SINCERERLY

RONALD D. CARTER PRES/ CEO

AMERICAN ECONOMIC RECOVERY PROJECT FOUNDATION INTL AFFL.

as per our conversation yesterday .
my company the " PRAISE BE FOUND HOMELESS FOUNDATION OF AMERICA " CAN BE "GOOGLED TO LOCATE IT.

ALSO I WANT THE DATE FOR THE INQUIRY AS TO ALL THE REST OF MY COMPANIES UPDATED FROM THE SEPTEMBER HEARING SINCE THIS DATE WILL BE TOO FAR OUT FROM THE NEXT "REPARATIONS" HEARING TO BE USEFUL TO IT TO BE ADDED AS A PART OF THE STRATEGY FOR IT ,
I WAS NOT INFORMED OF THE DATE OF THE FIRST INQUIRY SO THAT I DID NOT EVEN KNOW IT WAS ON THE CALENDAR ON THE 16TH OF MAY ???.

MANY THINGS NEED CLARIFICATION AND I WANT THAT OPPORTUNITY BEFORE THE NEXT REPARATIONS HEARING WITH THE BOARD OF SUPERVISORS SO THAT THESE THINGS ARE

HEARD.

Mayor Breed and Supervisors: You must take immediate action to end the destruction of San Francisco's retail and business centers!

Message:

Dear Mayor Breed and Supervisors,

We are calling on you TO TAKE IMMEDIATE ACTION to end the destruction of our retail and business centers.

Nordstrom is closing two stores in downtown San Francisco. Union Square is dying. Which major retailer will be next: Bloomingdale’s, Macy's, Saks 5th Ave, Neiman Marcus? Our iconic cable cars will soon be transporting tourists to a vacant, blighted downtown. And then those visitors will stop coming. Our city is in a precarious downward spiral, and you must act now to stop it.

You, our city leaders, were on notice and did nothing:

"[Unibail-Rodamco-Westfield] has actively engaged with city leaders for many years to express our serious concerns, which are shared by our customers and retailers. We have urged the city to find solutions to the key issues and lack of enforcement against rampant criminal activity,"

As San Franciscans who care deeply about our city,

we are providing you with a short list of concrete actions which we believe will not only help deter additional retailers from leaving our city, but will improve the overall quality of life of all SF residents. This list is just a beginning:

1. Even under Prop 47 and Martin v. Boise, it is illegal to shoplift, sell drugs, possess drugs, and otherwise engage in disorderly behavior in public. Mayor Breed, you have the power right now to instruct the Police Department to deploy 100 officers to the Tenderloin and arrest every single person publicly consuming narcotics or possessing a sufficient amount of narcotics to qualify for a sale charge. Do this every day for a month. Again, even with Prop. 47, these are both still crimes that are punishable by up to six months to a year in county jail -- and sometimes more. Even if a judge releases the offender immediately, if you were to commit to doing this every day for a month, the real penalty would be that anyone selling or using drugs in public would get about two hours of freedom per day until they were arrested again. The message would eventually go out that San Francisco is no longer a destination for drug tourism but a place where laws are enforced, and illegal drugs and cash are almost immediately confiscated. Downtown would clear up pretty quickly. (Note: We are not calling for a “war on drugs” but rather a zero-tolerance policy until the city stabilizes. Once it stabilizes, we advocate continuing to arrest dealers).

2. Until they can be removed by ballot initiative or term-ends, we call on the Board of Supervisors to publicly pressure the anti-police Police Commissioners to revise their bias against law-and-order and better understand the realities of police work and the real-world implications of the policy decisions they make. The rules and strictures they have imposed on police operations over the last few years are in large part responsible for this mess. This crisis has authors. Remove them and replace them with commissioners who will help our severely understaffed department become more effective, not drown our officers in paperwork or instruct them to stop enforcing the law.

3. The city’s tax base is disappearing. We demand that you slash $2 billion from the budget immediately. This can be achieved by reducing staff across the board, ending perks, waste, and redundancies, terminating relationships with corrupt non-profits (how much was paid last year to ineffective or non-existent non-profits?), and suspending all raises until you pull the city from the

shambles it is in.

(Note: the budget for Police and Fire Departments should be maintained or increased, as they are critical to fixing our problems.)

4. Immediately reinstate the Homeward Bound bus ticket program.

5. Terminate the head of HSH and hire a shelter-first advocate who will strive to dramatically reduce the number of people living on the streets rather than maintain the status quo.

6. Immediately exempt fentanyl dealers from Sanctuary protection.

No more excuses. This complete dereliction of duty must end today.

For those of you who lack sympathy for large, chain businesses, remember two things: They don't need San Francisco as much as San Francisco needs them, and as anchor tenants to malls and downtown centers, they are the power behind which all of the other area retailers draft. That means jobs, enhanced safety, increased street activity, and tax revenue.

We are regular San Franciscans who are demanding a functional city government. We successfully recalled a dangerous DA and an incompetent Board of Education. Your failure to govern is both outrageous and unacceptable. Your constituents will hold you accountable.

Mayor Breed and Chief Scott,

A recent analysis of SFPD traffic enforcement data has shown that traffic enforcement across San Francisco has collapsed as dangerous driving continues to plague our city resulting in the death of 18 people so far this year.

https://url.avanan.click/v2/___https://transpomaps.org/san-francisco/ca/sfpd-traffic-enforcement___.YXAzOnNmZHQyOmE6bzpiMzJmYWNjZjIzNWQyY2YyZmQwZmYxMGMyY2E1MjZiMDo2OjM2MDg6MTFmMGIxY2ZkN2FmZTJhOTlmMTBlNTE5YjFiZTFiN2EwN2UxODgyNWQ0ZTM3Y2VmNjM3ZWIwZTNjMzc0OGQ3ODpwOlQ

According to the Department of Public Health, a driver crashes their car and injures someone approximately every four hours in San Francisco. This is unacceptable and it's past time to take serious action to slow drivers down and make our streets safer for everyone.

Out of SFPD's 2023 sworn officers, only 50 are currently enforcing our traffic laws and those 50 are writing on average a mere 10 citations per day across the entire city, down from 74 per day in 2019. And of all citations written, only ~35% are "Focused on the Five" (FOTF) most dangerous violations that cause serious injuries and death such as speeding and running red lights. Within our Equity Priority Communities (EPCs), only ~20% of all citations written quality as FOTF which means that the SFPD is disproportionately targeting residents of EPCs for non-life-threatening moving violations such as broken taillights and expired tags—citations often used to initiate pretextual stops.

To be clear, the solution to safer streets is not more policing. Safer and more accessible streets can only truly be achieved by allowing the SFMTA to redesign our streets to prioritize non-car transportation such as walking, biking and public transit. As you know this has been mandated within our charter as a "Transit-First" city for fifty years. However, because redesigning our streets for the safety of people outside cars is such an unnecessarily arduous and controversial process we must, in the interim, enforce our traffic laws by citing Focus on the Five violations on the High Injury Network (where 75% of severe and fatal injuries occur).

Here are three actions you can take today to make our streets safer through effective traffic enforcement:

1. Mandate that SFPD has its Traffic Division focus entirely on Focus on the Five violations on the High-Injury Network immediately.
2. Mandate that SFPD provide updated data and information on all traffic stops/citations going forward, including all information outlined in the Racial and Identity Profiling Act of 2015.
3. Establish monthly public hearings where SFPD will report on traffic enforcement and, alongside SFMTA and SFDPH, discuss its impact on car-traffic injuries and deaths.

I urge you to work with Stephen Braitsch and Luke Bornheimer, the authors of the aforementioned analysis of SFPD enforcement data alongside leaders within our Equity Priority Communities to institute a transparent, equitable and effective traffic enforcement strategy that will make San Francisco safer for everyone.

Thank you.

1. Mandate that SFPD has its Traffic Division focus entirely on Focus on the Five violations on the High-Injury Network immediately.
2. Mandate that SFPD provide updated data and information on all traffic stops/citations going forward, including all information outlined in the Racial and Identity Profiling Act of 2015.
3. Establish monthly public hearings where SFPD will report on traffic enforcement and, alongside SFMTA and SFDPH, discuss its impact on car-traffic injuries and deaths.

I urge you to work with Stephen Braitsch and Luke Bornheimer, the authors of the aforementioned analysis of SFPD enforcement data alongside leaders within our Equity Priority Communities to institute a transparent, equitable and effective traffic enforcement strategy that will make San Francisco safer for everyone.

Thank you.

Dear SFMTA Board Chair Eaken, Vice-Chair Cajina, Director Tumlin, and Mayor Breed,

My anecdotal experience of continuous, dangerous driving behavior on SF streets gone without consequence appears to have data-driven support from a new analysis of 19 million parking citations and 300,000 complaints indicating the SFMTA's parking enforcement fails to prioritize public safety-related violations, operates inconsistently across the city and days of the week, allows repeat offenders off the hook, and fails to give citizens safety-oriented reporting options.

Especially in a fiscal environment where SFMTA's vital operations are threatened, on any given evening, please find thousands of dollars worth of tickets available from the multiple cars parked in bike lanes along every block of Valencia Street.

Please review the findings in Stephen's detailed report, linked below, and immediately demand that the SFMTA adopt a data-driven parking enforcement strategy that prioritizes public safety while ensuring equitable revenue collection.

https://transpomaps.org/san-francisco/ca/illegal-parking/cta

Thank you,
Constance
District 9 resident and avid supporter of biking, walking, and public transit for the good of our City and our planet

Subject:	SFPD Traffic Enforcement Analysis
Date:	Sunday, May 28, 2023 11:35:31 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Mayor Breed and Chief Scott,

A recent analysis of SFPD traffic enforcement data has shown that traffic enforcement across San Francisco has collapsed as dangerous driving continues to plague our city resulting in the death of 18 people so far this year (https://transpomaps.org/san-francisco/ca/sfpd-traffic-enforcement).

According to the Department of Public Health, a driver crashes their car and injures someone approximately every four hours in San Francisco. This is unacceptable and it's past time to take serious action to slow drivers down and make our streets safer for everyone.

Out of SFPD's 2023 sworn officers, only 50 are currently enforcing our traffic laws and those 50 are writing on average a mere 10 citations per day across the entire city, down from 74 per day in 2019. And of all citations written, only ~35% are "Focused on the Five" (FOTF) most dangerous violations that cause serious injuries and death such as speeding and running red lights. Within our Equity Priority Communities (EPCs), only ~20% of all citations written quality as FOTF which means that the SFPD is disproportionately targeting residents of EPCs for non-life-threatening moving violations such as broken taillights and expired tags—citations often used to initiate pretextual stops.

To be clear, the solution to safer streets is not more policing. Safer and more accessible streets can only truly be achieved by allowing the SFMTA to redesign our streets to prioritize non-car transportation such as walking, biking and public transit. As you know this has been mandated within our charter as a "Transit-First" city for fifty years. However, because redesigning our streets for the safety of people outside cars is such an unnecessarily arduous and controversial process we must, in the interim, enforce our traffic laws by citing Focus on the Five violations on the High Injury Network (where 75% of severe and fatal injuries occur).

Here are three actions you can take today to make our streets safer through effective traffic enforcement:

1. Mandate that SFPD has its Traffic Division focus entirely on Focus on the Five violations on the High-Injury Network immediately.
2. Mandate that SFPD provide updated data and information on all traffic stops/citations going forward, including all information outlined in the Racial and Identity Profiling Act of 2015.
3. Establish monthly public hearings where SFPD will report on traffic enforcement and, alongside SFMTA and SFDPH, discuss its impact on car-traffic injuries and deaths.

I urge you to work with Stephen Braitsch and Luke Bornheimer, the authors of the

aforementioned analysis of SFPD enforcement data alongside leaders within our Equity Priority Communities to institute a transparent, equitable and effective traffic enforcement strategy that will make San Francisco safer for everyone.

Thank you.

Subject: Castro Theatre: Support the HPC Recommendation and Reject Fixed Seating Amendment
Date: Wednesday, May 31, 2023 9:39:18 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Secretary Board of Supervisors,

As a concerned citizen of San Francisco, I write to you today to express my strong support for Another Planet Entertainment (APE) and their proposed restoration of the Castro Theatre.

This restoration work, which would ensure the future of the building as a live events and film space, is imperiled by the Land Use and Transportation Committee's amendment to the landmark designation for the theater. This amendment, requiring the Castro Theatre to preserve the "raked floor and fixed seating in a 'movie palace' style", will tether this private business to an outdated and unviable business model.

Another Planet has outlined a thoughtful renovation plan that includes accessibility and ventilation upgrades, restoring the art deco ceiling and chandelier, preserving the interior murals, and transitioning the orchestra level into a tiered floor to maintain existing seated programming such as film, lectures and choral performances, while allowing the venue to also be used for standing room concerts, celebratory events, and other community-focused programming.

Opponents of the renovation plan would like it to be thought that they speak for all Castro Merchants, film-lovers, members of the LGBTQ community, or neighborhood residents. They do not speak for me, and I strongly believe they do not speak for the majority of the aforementioned groups they claim to represent.

The renovation plan has strong support among Castro Merchants, various film festivals, members of the LGBTQ community, and neighborhood residents, who are excited to see a treasured neighborhood landmark preserved for future generations. I have faith that Another Planet Entertainment will be excellent stewards of not only the Castro Theatre, but also the rich history it represents to cinephiles, the LGBTQ Community, and the neighborhood.

Please vote to replace the "raked floor and fixed seating in a 'movie palace' style" language in the amended landmark designation with the original "presence of seating" language proposed by the Historic Preservation Commission.

I visit San Francisco regularly because I have family there. I love going to the Castro District but have been very disappointed in recent visits at the deterioration of the neighborhood. APE's plan will revitalize the neighborhood and bring business to the area. The Castro area will in turn help San Francisco stay a vibrant destination for visitors from all over the world.

Secretary Board of Supervisors,

This project is very important to me as a concerned citizen of San Francisco. I live right over the hill from the Castro in Cole Valley and often walk down into the neighborhood to frequent coffee shops like Philz, take my daughter out for ice cream at the Ice Cream Bar, and eat at one of my favorite restaurants, Anchor Oyster. This neighborhood has changed so much since the pandemic and I know that business owners are feeling these negative affects. Renovating the Castro Theatre and making sure to have frequent programming will bring people and vibrancy back to this neighborhood in addition to helping these businesses. I write to you today to express my strong support for Another Planet Entertainment (APE) and their proposed restoration of the Castro Theatre.

Secretary Board of Supervisors,

As a concerned citizen of San Francisco, I write to you today to express my strong support for Another Planet Entertainment (APE) and their proposed restoration of the Castro Theatre.

I have so many cherished memories at the Castro Theatre seeing shows and watching films during SF Film Fest. I believe that by restoring the building and adding accessibility the community will be able to use this as a congregating space for the arts, something that San Francisco used to pride itself in.

This restoration work, which would ensure the future of the building as a live events and film space, is imperiled by the Land Use and Transportation Committee's amendment to the landmark designation for the theater. This amendment, requiring the Castro Theatre to preserve the "raked floor and fixed seating in a 'movie palace' style", will tether this private business to an outdated and unviable business model.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Vote YES for landmark designation of the Castro Theatre's interior on June 6.

The Nasser Family and APE, current stewards of the Castro, have a moral duty to protect the majestic theatre not destroy it. Since they are negligent in their duty to retain the historic interior, the Board of Supervisors must ensure protection with an amended landmark designation.

Eddie Mueller's Film Noir Film Festival at the Castro Theatre attracted thousands of local and national attendees annually. He also brought the Castro to millions of his TV fans nationwide with his weekly NOIR ALLEY on TCM. My friends and I were fans who flew in from Arizona and New York to experience the Festival with the Czar of Noir at the Castro. As you know, like-minded fans stayed in hotels, frequented restaurants and shops, while enjoying the Festival's many classic films. Our trips ended when the Castro came under siege by the Nasser Family and APE, and Eddie was forced to move the Festival to Oakland.

Vote YES for landmark status of the Castro Theatre to cover both exterior and interior.

Thank you.

Secretary Board of Supervisors,

As a concerned supporter and visitor of San Francisco, I write to you today to express my strong support for Another Planet Entertainment (APE) and their proposed restoration of the Castro Theatre.

This restoration work, which would ensure the future of the building as a live events and film space, is imperiled by the Land Use and Transportation Committee's amendment to the landmark designation for the theater. This amendment, requiring the Castro Theatre to preserve the "raked floor and fixed seating in a 'movie palace' style", will tether this private

business to an outdated and unviable business model.

Another Planet has outlined a thoughtful renovation plan that includes accessibility and ventilation upgrades, restoring the art deco ceiling and chandelier, preserving the interior murals, and transitioning the orchestra level into a tiered floor to maintain existing seated programming such as film, lectures and choral performances, while allowing the venue to also be used for standing room concerts, celebratory events, and other community-focused programming.

Opponents of the renovation plan would like it to be thought that they speak for all Castro Merchants, film-lovers, members of the LGBTQ community, or neighborhood residents. They do not speak for me, and I strongly believe they do not speak for the majority of the aforementioned groups they claim to represent.

The renovation plan has strong support among Castro Merchants, various film festivals, members of the LGBTQ community, and neighborhood residents, who are excited to see a treasured neighborhood landmark preserved for future generations. I have faith that Another Planet Entertainment will be excellent stewards of not only the Castro Theatre, but also the rich history it represents to cinephiles, the LGBTQ Community, and the neighborhood.

Please vote to replace the "raked floor and fixed seating in a 'movie palace' style" language in the amended landmark designation with the original “presence of seating” language proposed by the Historic Preservation Commission.

May 31, 2023

Dear Mayor Breed, President Peskin, and Members of the Board of Supervisors,

Re: SF Department of Public Works' Upper Great Highway Sand Management Plan, Option 3

CSFN joins with residents on the west side of the city and the many visitors and commuters who must traverse through this city to get between Marin and San Mateo counties in supporting this request for funding to keep the sand cleared off the Upper Great Highway. We support the SF Department of Public Works' Upper Great Highway Sand Management Plan, Option 3, (The Plan) submitted to the San Francisco Board of Supervisors on March 22, 2023.

Option 3 of the Plan will regularly maintain the Great Highway between Lincoln Way and Sloat Blvd., and will keep it open for vehicular use every

Monday at 6:00 AM through Friday at noon, with the exception of specific legal holidays, through December 31, 2025, as mandated by Ordinance 220875. We cannot be the bottleneck between the counties and we need to keep the western residential neighborhoods clear of congestion on their streets.

We also support Public Works' request to the Recreation and Parks Department that they provide a place to park Public Works' sand removal equipment overnight close to the Upper Great Highway to enable the mandated regular maintenance. Due to inadequate sand removal, all lanes of the Upper Great Highway have not been open to motor vehicle traffic for more than ten days since January 1, 2023.

We respectfully request Mayor London Breed and the Board of Supervisors take the necessary steps to enable and enforce the conditions of the Upper Great Highway Pilot Project and Ordinance 220875, approved December 22, 2022, effective January 22, 2023, and disregard any data collected relating to usage of the Upper Great Highway until it is consistently open during weekdays and all maintenance conditions are met.

Thank you for your consideration of this request.

Subject: Report on Sand Management Options for the Great Highway

Dear Ms. Calvillo and San Francisco Board of Supervisors:

On December 13, 2022, the Board of Supervisors approved an Ordinance establishing a pilot program that restricts private vehicles on the Great Highway from Lincoln Way and Sloat Boulevard during weekends and holidays program until December 31, 2025. The Ordinance also directed San Francisco Public Works to develop a Great Highway Sand Management Plan detailing how Public Works will manage and maintain this section of the Great Highway free of sand incursions, along with any required resource or policy changes. Attached is the Report on Sand Management Options for the Great Highway.

Should you have questions or require additional information, please contact Matt Naclerio at matthew.naclerio@sfdpw.org or at (415) 695-2090.

Report on Sand Management Options for the Great Highway

Background:

The Great Highway is under the jurisdiction of the Recreation and Park Department (Rec and Park). In 1992, Rec and Park entered into an agreement (Exhibit 1) with the Department of Public Works, now San Francisco Public Works, to address maintenance responsibilities for the Great Highway. This agreement assigned maintenance responsibilities to Public Works, Rec and Park, the San Francisco Public Utilities Commission (SFPUC) and Golden Gate National Recreational Area (GGNRA) along three roadway segments: Cliff House to Lincoln Way, Lincoln Way to Sloat Boulevard and Sloat Boulevard to Skyline Boulevard.

In accordance with the agreement, while Public Works is responsible for asphalt maintenance for all three segments of the roadway, the department is only responsible for sand removal on the Lincoln Way to Sloat Boulevard segment and along the seawall/promenade. Public Works does not have dedicated staff to perform this work and sand clearing is prioritized with other work responsibilities, including block paving, pothole repair and asphalt patching. Although sand clearing along the other roadway segments and maintenance of the sand dunes are not identified as a Public Works responsibility, Public Works has provided this extra service, when staffing and funding are available.

During the COVID-19 emergency, Rec and Park restricted private vehicles on the Great Highway from Lincoln Way to Sloat Boulevard, seven days a week, to allow for non-motorized vehicle recreational use (bicyclists, pedestrians, etc.). This resulted in private vehicles diverting to residential streets in the Sunset District and led the San Francisco Municipal Transportation Agency (SFMTA) to implement traffic regulations along Lincoln Way and the surrounding areas.

In mid-August 2021, Rec and Park modified the closures to be in effect only on holidays and on weekends (12 p.m. Fridays to 6 a.m. Mondays). On December 13, 2022, the Board of Supervisors approved a pilot program that extended the weekend closures until December 31, 2025. During this pilot, Rec and Park and SFMTA will study the transportation and recreational impacts of the closures and report their findings to the Board of Supervisors. In addition, Public Works was directed to develop a sand management plan for this segment of the Great Highway.

Discussion:

Work Performed by Public Works:

In general, the work performed by Public Works falls into the following three activities:

- remove the beach sand that accumulates on the Great Highway from Lincoln Way to Skyline Boulevard;
- remove the beach sand that accumulates on the promenade and stairs leading to Ocean Beach; and
- annually, in June, after the federally protected Western Snowy plover has vacated Ocean Beach, clear the sand away from the ocean side of the seawall and reduce the width and height of the sand dunes at key intersections.

The limits and frequency of these activities vary based on available funding and the amount of sand that accumulated on the roadway, promenade/seawall and dunes during the previous year.

The objective of the sand dune reshaping is to reduce the amount of sand that falls onto the street as the sand dunes build up over time, and thereby reduce the number of times the street is closed for sand removal. Due to funding shortfalls and the high demand for sand removal from the street, funding for this work has been reduced over time and sand migration onto the street from the dunes happens earlier and more frequently than in the past due to a shifting weather pattern. The importance of this annual sand clearing activity cannot be overstated because it is the only pre-emptive method available to reduce the amount of sand that falls onto the roadway and promenade. The windblown sand that occurs throughout the year cannot be anticipated or proactively addressed.

As previously mentioned, both the scope of work for the annual project and the regular street cleaning work are reduced each year to stay within the established budget. For example, although the Special Use Permit issued by the National Park Service specifies sand clearing at the seawall to create a 30-foot wide, funding has been insufficient to complete this work. To stay within the approved budget, the width of the excavation zone is reduced periodically in consultation with the National Pak Service. In addition, when necessary, the amount of sand dune reduction work performed at key intersections also is reduced.

Last year, because additional funding for the annual project was secured late in the fiscal year, there was insufficient time to hire a contractor through the Job Order Contract process and the annual sand clearing was performed by Public Works staff. Public Works staff rented equipment – two dozers and two excavators – to perform the work. Based on the success of this work, staff recommends continuing performing the work in-house with rented equipment.

Funding:

Historically, the SFPUC funds the City's sand removal activities to reduce sand entering the catch basins and manhole-access covers that connect to the underground transport box and storage structures that run along the roadway and enter the Oceanside Sewer Treatment Plant. This work has the added benefit of allowing motor vehicles and bicyclists to travel safely along this important

north-south arterial. For improved area-wide traffic circulation, the SFMTA is also interested in minimizing the roadway closures due to sand intrusion.

For more than 10 years, funding for this work has remained fixed at about $240,000 annually, with a 5% reduction ($228,000) from 2016 through 2019, and has not kept pace with inflation and City-approved cost-of-living adjustments. In addition, years of below-average rainfall and increased wind forces have resulted in a greater amount of sand migrating onto the roadway and the rapid reestablishment of sand dunes. Because of these factors, Public Works has been unable to adequately address the sand management needs of the Great Highway to the full extent required. This has led to more frequent and prolonged street closures and fewer sand dunes being proactively reshaped to lessen sand intrusion onto the roadway.

Meeting with Great Highway Partners:
To address the ongoing funding shortfall and its impacts, Public Works convened meetings with its Great Highway partners in 2021 to discuss funding options and cost-saving measures, including whether maintenance responsibilities could be shared, reduced or discontinued. Public Works also investigated the potential for locating a sand-moving loader truck close to the Great Highway to reduce driving time and improve efficiencies. Because of the low speed that the loader drives on City streets, it currently takes about 40 minutes to drive from the Public Works Operations Yard in the Bayview to the Great Highway; reducing this drive time would result in more time to clear sand.

Representatives from Rec and Park, SFPUC, and GGNRA met on several occasions. While no other partner was able to assume maintenance responsibilities or share or store equipment, an additional $175,000 was provided by SFPUC, and Rec and Park provided $50,000 last fiscal year so the annual project could move forward. This fiscal year, SFPUC increased its funding to $331,243; Rec and Park provided $30,000; and Board of Supervisors, with the support of Mayor Breed, approved $250,000 in separate funding for the sand-clearing activities. Total funding for this fiscal year is $611,243. Staff has set aside $250,000 for the annual project, which represents about half the estimated need. With less funding, staff will be required to reduce the width of the area cleared along the seawall, from the recommended 30 feet to 15 or20 feet instead, and to reduce the dimensions of the proactive reshaping of the sand dunes. The reduction will result in sand spilling onto the roadway sooner. The remaining funds will be used to clear sand at an estimated annual rate of two days every two to three weeks.

Note that the GGNRA has rebuffed the City's request to provide any funding for sand management along the Great Highway, even though the sand that ends up on the roadway and promenade migrates from federal beach land.

Sand Management Strategies:
As mentioned previously, Public Works does not have dedicated staff to perform Great Highway sand-clearing activities. Work is balanced with other City roadway safety and repair priorities. Public Works staff currently clears sand about two days every two to three weeks, depending on

the time of year. Unfortunately, because there is no dedicated staff, this work is sometimes performed after hours and subject to overtime rates. To provide dependable sand management, funding for a dedicated crew is necessary and a desired frequency for sand clearing identified. The following scenarios vary the frequency of sand clearing from the roadway and promenade and provides funding for the annual dune reshaping and seawall clearing – an essential component of any sand management strategy.

Scenario 1 – Sand Clearing Two Days Every Two Weeks and Annual Project (15 days): Estimate cost: ~$845,000

Based on past experience, the minimum amount of time needed to clear sand from the Great Highway between Lincoln Way and Sloat Boulevard and open the Great Highway to vehicular traffic is approximately two consecutive days. The first scenario assumes a dedicated crew will be provided for two consecutive days every two weeks at a cost of about $351,000, based on existing hourly rates. However, this scenario still could result in ongoing and sustained closures of the roadway, especially during the weeks when dedicated staff isn't available to perform sand clearing activities.

Table 1. Cost to Fund Sand Clearing of Roadway/Promenade Two Days Every Two Weeks

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	2	416	59.81	179.44	$ 149,292.00
7355	Truck Driver	2	416	51.94	155.81	$ 129,636.00
7502	Asphalt Worker/Laborer	1	416	41.30	123.90	$ 51,542.40
7282	Street Repair Sup II	1	104	64.23	192.68	$ 20,038.20
					TOTAL	**$ 350,508.60**

In general, the roadway clearing operations would consist of the following:

- The first Operating Engineer picks up sand from the roadway and loads sand into a waiting dump truck of the first Truck Driver
- The first Truck Driver 1 drives to and unloads sand at areas where there is bank erosion (south of the Sloat Boulevard), where a second Operating Engineer in a loader truck is waiting
- The first Truck Driver unloads sand near the area of bank erosion
- The second Operating Engineer pushes the sand over the bank to reduce erosion
- During this time, the first Operating Engineer loads sand into the second dump truck, operated by a second Truck Driver
- The second Truck Driver 2 drives to the bank erosion location and unloads sand
- The first Truck Driver 1 returns to the first Operating Engineer to be reloaded
- Work continues as above for the workday
- Asphalt Worker/Laborer clears sand from benches, around trash receptacles, observation areas and access ramps, as well as provides traffic control as needed

- The second Truck Driver, meanwhile, operates a mechanical sweeper on the promenade, as needed, to clear sand, possibly one day every two weeks
- Minimum supervisory costs are also included

Funding also needs to be provided for the annual sand dune reshaping and seawall clearing project. Based on the current conditions of the sand dunes between Lincoln Way and Sloat Boulevard, and the importance of proactively reshaping the dunes to postpone the natural migration of sand into the roadway, this scenario proposes the annual project consist of 15 12-hour days. The cost for this work, including rental equipment, is about $493,000, based on existing hourly rates.

Table 2. Cost to Fund Annual Dune Reshaping and Seawall Clearing 15 days (4 hours OT):

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	4	210	59.81	179.44	$ 150,727.50
7355	Truck Driver	2	210	51.94	155.81	$ 65,441.25
7502	Asphalt Worker/Laborer	2	210	41.30	123.90	$ 52,038.00
7220	Asphalt Finisher Sup I	1	210	58.10	174.30	$ 36,603.00
7282	Street Repair Sup II	1	40	64.23	192.68	$ 7,707.00
					Sub-Total	$ 312,516.75
				Equipment Rental		$ 180,000.00
					TOTAL	**$ 492,516.75**

The total cost to perform sand clearing two days a week every two weeks and the annual sand clearing for 15 days is detailed below.

Table 3. Cost for Scenario One

Activity	Estimated Cost
Sand Clearing - 2 days/wk every 2 weeks:	$ 350,508.60
Annual Project (15 12-hour days):	$ 492,516.75
Total	**$ 843,025.35**

Scenario 2 – Sand Clearing Two Days per Week and Annual Project (15 days):
Estimated Cost: ~$1.2M

Similar to Scenario 1, staff will clear sand from the Great Highway for two consecutive days using the same sand clearing operations detailed above. However, unlike the first scenario, which provided sand clearing every two weeks, this scenario will provide weekly sand clearing. This scenario is estimated to cost about $700,000 based on existing hourly rates. While this scenario will reduce the number of roadway closures, periodic closures that may last several days are to be expected, especially during the days when dedicated staff isn't available to perform sand-clearing activities.

Table 4. Cost to Fund Sand Clearing of Roadway/Promenade Two Days per Week

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	2	832	59.81	179.44	$ 298,584.00
7355	Truck Driver	2	832	51.94	155.81	$ 259,272.00
7502	Asphalt Worker/Laborer	1	832	41.30	123.90	$ 103,084.80
7282	Street Repair Sup II	1	208	64.23	192.68	$ 40,076.40
					TOTAL	**$ 701,017.20**

The annual sand-clearing activities under this scenario would be the same as Scenario 1 - 15 12-hour days. The cost for this work, including rental equipment, is about $493,000, based on existing hourly rates.

Table 5. Cost to Fund Annual Dune Reshaping and Seawall Clearing 15 days (4 hours OT):

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	4	210	59.81	179.44	$ 150,727.50
7355	Truck Driver	2	210	51.94	155.81	$ 65,441.25
7502	Asphalt Worker/Laborer	2	210	41.30	123.90	$ 52,038.00
7220	Asphalt Finisher Sup I	1	210	58.10	174.30	$ 36,603.00
7282	Street Repair Sup II	1	40	64.23	192.68	$ 7,707.00
					Sub-Total	$ 312,516.75
				Equipment Rental		$ 180,000.00
					TOTAL	**$ 492,516.75**

The total cost to perform sand clearing two days a week and the annual sand clearing for 15 days is detailed below.

Table 6. Cost for Scenario Two

Activity	Estimated Cost
Sand Clearing - 2 days/wk every week:	$ 701,017.20
Annual Project (15 12-hour days):	$ 492,516.75
Total	**$ 1,193,533.95**

Scenario 3 - Daily (Monday through Friday) Sand Clearing and Annual Project (10 days): Estimated Cost: ~$1.7M

To minimize closures of the Great Highway on a regular basis, the Board of Supervisors could consider funding a crew to provide daily (Monday through Friday) sand clearing. While the roadway would need to be closed during the sand clearing activities, providing a dedicated staff for daily sand clearing should result in significantly shorter closures and could be timed to avoid rush hour commute morning traffic.

Daily (Monday through Friday) sand clearing will cost an estimated ~$1.32 million, based on current hourly rates. This funding will provide one Operating Engineer and two Truck Drivers every day (Monday-Friday) to clear sand from the roadway. One of the truck drivers also would function as a street sweeper to clear sand from the promenade and the roadway. The Asphalt Worker (Laborer) will clear sand from the promenade lookout and stairs and provide traffic control, when needed. Minimum supervisory costs are also included.

Table 7. Cost to Fund Daily Sand Clearing of Roadway/Promenade

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	1	2080	59.81	179.44	$ 373,230.00
7355	Truck Driver	2	2080	51.94	155.81	$ 648,180.00
7502	Asphalt Worker/Laborer	1	2080	41.30	123.90	$ 257,712.00
7282	Street Repair Sup II	1	208	64.23	192.68	$ 40,076.40
					TOTAL	**$ 1,319,198.40**

Based on current conditions and the assumption that daily sand clearing will occur, staff believes the scope of work for the annual project can be reduced to 10 12-hour days. The cost for this work, including rental equipment, is about $360,000, based on existing hourly rates.

Table 8. Cost to Fund Annual Dune Reshaping and Seawall Clearing 10 days (4 hours OT):

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	4	140	59.81	179.44	$ 100,485.00
7355	Truck Driver	2	140	51.94	155.81	$ 43,627.50
7502	Asphalt Worker/Laborer	2	140	41.30	123.90	$ 34,692.00
7220	Asphalt Finisher Sup I	1	140	58.10	174.30	$ 24,402.00
7282	Street Repair Sup II	1	28	64.23	192.68	$ 5,394.90
						$ 208,601.40
				Equipment Rental		$ 150,000.00
					TOTAL	**$ 358,601.40**

The total cost to perform daily sand clearing and the annual sand clearing for 10 days is detailed below.

Table 9. Cost for Scenario Three

Activity	Estimated Cost
Sand Clearing - Monday through Friday:	$ 1,319,198.40
Annual Project (10 12-hour days):	$ 358,601.40
Total	**$ 1,677,799.80**

Conclusion:

Until recently, funding for sand clearing along the Great Highway, including the annual sand dune reshaping and seawall clearing project, has remained fixed and not kept pace with inflation and City-approved cost of living adjustments. In addition, years of below-average rainfall and increased wind forces have resulted in a greater amount of sand migrating onto the roadway. Over time, to stay within the approved budget allocations, Public Works has needed to reduce the scope of work for the sand removal activities along the Great Highway. This has led to more frequent and prolonged street closures and fewer sand dunes being reshaped.

Based on the increased funding provided this fiscal year, Public Works has been clearing sand from the roadway at an annual rate of two days every two to three weeks. Public Works does not have dedicated staff to perform this work and sand clearing is prioritized with other work responsibilities, including block paving, pothole repair and asphalt patching. Providing an ongoing funding source to provide a dedicated crew responsible for clearing sand from the Great Highway is the most reliable way to minimize impacts to multi-modal users of the roadway.

Three scenarios were provided for consideration, with costs ranging from $845,000 to $1.7 million. While none of the scenarios completely eliminate the need for street closures, providing a dedicated crew to perform daily clearing of the Great Highway (Monday through Friday) is the best option to minimize the frequency and duration of street closures.

Recommendation

Appoint a Task Force comprised of Public Works, Rec and Park, SFPUC and SFMTA to develop a formal Memorandum of Understanding (MOU) identifying the roles, responsibilities, and cost-sharing obligations of each department to support Sand Management Scenario 3. The MOU also should identify the lead agency to develop options and costs to stabilize the sand dunes. The objective of the sand dune stabilization strategy is to limit the migration of sand from the dunes to the street, so the need for the annual sand dune reshaping project is reduced over time.

In addition, Public Works recommends that the City's executive and legislative branches continue to press the GGNRA, as part of the National Park Service, to contribute funding for sand-management activities, since the sand blows from federal beach land onto the adjacent City property.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Mayor Breed, President Peskin, and Members of the Board of Supervisors,

I am writing to urge you to support funding Option 3 of the San Francisco Department of Public Works' Upper Great Highway Sand Management Plan ("the Plan"). Option 3 of the Plan will regularly maintain the Great Highway between Lincoln Way and Sloat Blvd., and will keep it open for vehicular use every Monday at 6:00 AM through Friday at noon, with the exception of specific legal holidays, through December 31, 2025, as mandated by Ordinance 220875.

I join other community groups and many others who use the Upper Great Highway in supporting funding Option 3 of the Plan, submitted to the San Francisco Board of Supervisors on March 22, 2023.

I also support Public Works' request to the Recreation and Parks Department that they provide a place to park Public Works' sand removal equipment overnight close to the Upper Great Highway to enable the mandated regular maintenance. Due to inadequate sand removal, all lanes of the Upper Great Highway have not been open to motor vehicle traffic for more than ten days since January 1, 2023.

I respectfully request Mayor London Breed and the Board of Supervisors take the necessary steps to enable and enforce the conditions of the Upper Great Highway Pilot Project and Ordinance 220875, approved December 22, 2022, effective January 22, 2023, and disregard any data collected relating to usage of the Upper Great Highway until it is consistently open during weekdays and all maintenance conditions are met.

Thank you for your consideration of this request.

Sincerely,

Nancy Federico

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

President Peskin, and Members of the Board of Supervisors,

I am writing to urge you to support funding Scenario 1 of the San Francisco Department of Public Works' Upper Great Highway Sand Management Plan ("the Plan"). Scenario 1 is the absolute most we should be spending sweeping sand from the beach between Lincoln Way and Sloat Blvd. This is a losing battle and sea level rise means, whether we acknowledge it or not, that we've already lost. There's no reason to throw money into the sand, especially when there are much better and more urgent uses for those funds.

I join other community groups and many others who use the Upper Great Highway in supporting funding Scenario 1 of the Plan, submitted to the San Francisco Board of Supervisors on March 22, 2023.

I don't support Public Works' request to the Recreation and Parks Department that they provide a place to park Public Works' sand removal equipment overnight close to the Upper Great Highway to enable the mandated regular maintenance. Have you seen how quickly vehicles rust out here? In the past, sand moving behemoths parked out here were in full-on decay within a year. Again, this is a bad use of money and space.

This is why I respectfully request Mayor London Breed and the Board of Supervisors take the necessary steps to enable and enforce Option 1 until such time as you come up with a more realistic and science-based option. Because, one way or another, the Upper Great Highway is going to be lost to car traffic sooner, rather than later.

Thank you for your consideration of this request.

Sincerely,
Ellen Koivisto

Subject: Report on Sand Management Options for the Great Highway

Dear Ms. Calvillo and San Francisco Board of Supervisors:

On December 13, 2022, the Board of Supervisors approved an Ordinance establishing a pilot program that restricts private vehicles on the Great Highway from Lincoln Way and Sloat Boulevard during weekends and holidays program until December 31, 2025. The Ordinance also directed San Francisco Public Works to develop a Great Highway Sand Management Plan detailing how Public Works will manage and maintain this section of the Great Highway free of sand incursions, along with any required resource or policy changes. Attached is the Report on Sand Management Options for the Great Highway.

Should you have questions or require additional information, please contact Matt Naclerio at matthew.naclerio@sfdpw.org or at (415) 695-2090.

cc: London Breed, Mayor
Carmen Chu, City Administrator

Report on Sand Management Options for the Great Highway

Background:

The Great Highway is under the jurisdiction of the Recreation and Park Department (Rec and Park). In 1992, Rec and Park entered into an agreement (Exhibit 1) with the Department of Public Works, now San Francisco Public Works, to address maintenance responsibilities for the Great Highway. This agreement assigned maintenance responsibilities to Public Works, Rec and Park, the San Francisco Public Utilities Commission (SFPUC) and Golden Gate National Recreational Area (GGNRA) along three roadway segments: Cliff House to Lincoln Way, Lincoln Way to Sloat Boulevard and Sloat Boulevard to Skyline Boulevard.

In accordance with the agreement, while Public Works is responsible for asphalt maintenance for all three segments of the roadway, the department is only responsible for sand removal on the Lincoln Way to Sloat Boulevard segment and along the seawall/promenade. Public Works does not have dedicated staff to perform this work and sand clearing is prioritized with other work responsibilities, including block paving, pothole repair and asphalt patching. Although sand clearing along the other roadway segments and maintenance of the sand dunes are not identified as a Public Works responsibility, Public Works has provided this extra service, when staffing and funding are available.

During the COVID-19 emergency, Rec and Park restricted private vehicles on the Great Highway from Lincoln Way to Sloat Boulevard, seven days a week, to allow for non-motorized vehicle recreational use (bicyclists, pedestrians, etc.). This resulted in private vehicles diverting to residential streets in the Sunset District and led the San Francisco Municipal Transportation Agency (SFMTA) to implement traffic regulations along Lincoln Way and the surrounding areas.

In mid-August 2021, Rec and Park modified the closures to be in effect only on holidays and on weekends (12 p.m. Fridays to 6 a.m. Mondays). On December 13, 2022, the Board of Supervisors approved a pilot program that extended the weekend closures until December 31, 2025. During this pilot, Rec and Park and SFMTA will study the transportation and recreational impacts of the closures and report their findings to the Board of Supervisors. In addition, Public Works was directed to develop a sand management plan for this segment of the Great Highway.

Discussion:

Work Performed by Public Works:

In general, the work performed by Public Works falls into the following three activities:

- remove the beach sand that accumulates on the Great Highway from Lincoln Way to Skyline Boulevard;
- remove the beach sand that accumulates on the promenade and stairs leading to Ocean Beach; and
- annually, in June, after the federally protected Western Snowy plover has vacated Ocean Beach, clear the sand away from the ocean side of the seawall and reduce the width and height of the sand dunes at key intersections.

The limits and frequency of these activities vary based on available funding and the amount of sand that accumulated on the roadway, promenade/seawall and dunes during the previous year.

The objective of the sand dune reshaping is to reduce the amount of sand that falls onto the street as the sand dunes build up over time, and thereby reduce the number of times the street is closed for sand removal. Due to funding shortfalls and the high demand for sand removal from the street, funding for this work has been reduced over time and sand migration onto the street from the dunes happens earlier and more frequently than in the past due to a shifting weather pattern. The importance of this annual sand clearing activity cannot be overstated because it is the only pre-emptive method available to reduce the amount of sand that falls onto the roadway and promenade. The windblown sand that occurs throughout the year cannot be anticipated or proactively addressed.

As previously mentioned, both the scope of work for the annual project and the regular street cleaning work are reduced each year to stay within the established budget. For example, although the Special Use Permit issued by the National Park Service specifies sand clearing at the seawall to create a 30-foot wide, funding has been insufficient to complete this work. To stay within the approved budget, the width of the excavation zone is reduced periodically in consultation with the National Pak Service. In addition, when necessary, the amount of sand dune reduction work performed at key intersections also is reduced.

Last year, because additional funding for the annual project was secured late in the fiscal year, there was insufficient time to hire a contractor through the Job Order Contract process and the annual sand clearing was performed by Public Works staff. Public Works staff rented equipment – two dozers and two excavators – to perform the work. Based on the success of this work, staff recommends continuing performing the work in-house with rented equipment.

Funding:

Historically, the SFPUC funds the City's sand removal activities to reduce sand entering the catch basins and manhole-access covers that connect to the underground transport box and storage structures that run along the roadway and enter the Oceanside Sewer Treatment Plant. This work has the added benefit of allowing motor vehicles and bicyclists to travel safely along this important

north-south arterial. For improved area-wide traffic circulation, the SFMTA is also interested in minimizing the roadway closures due to sand intrusion.

For more than 10 years, funding for this work has remained fixed at about $240,000 annually, with a 5% reduction ($228,000) from 2016 through 2019, and has not kept pace with inflation and City-approved cost-of-living adjustments. In addition, years of below-average rainfall and increased wind forces have resulted in a greater amount of sand migrating onto the roadway and the rapid reestablishment of sand dunes. Because of these factors, Public Works has been unable to adequately address the sand management needs of the Great Highway to the full extent required. This has led to more frequent and prolonged street closures and fewer sand dunes being proactively reshaped to lessen sand intrusion onto the roadway.

Meeting with Great Highway Partners:
To address the ongoing funding shortfall and its impacts, Public Works convened meetings with its Great Highway partners in 2021 to discuss funding options and cost-saving measures, including whether maintenance responsibilities could be shared, reduced or discontinued. Public Works also investigated the potential for locating a sand-moving loader truck close to the Great Highway to reduce driving time and improve efficiencies. Because of the low speed that the loader drives on City streets, it currently takes about 40 minutes to drive from the Public Works Operations Yard in the Bayview to the Great Highway; reducing this drive time would result in more time to clear sand.

Representatives from Rec and Park, SFPUC, and GGNRA met on several occasions. While no other partner was able to assume maintenance responsibilities or share or store equipment, an additional $175,000 was provided by SFPUC, and Rec and Park provided $50,000 last fiscal year so the annual project could move forward. This fiscal year, SFPUC increased its funding to $331,243; Rec and Park provided $30,000; and Board of Supervisors, with the support of Mayor Breed, approved $250,000 in separate funding for the sand-clearing activities. Total funding for this fiscal year is $611,243. Staff has set aside $250,000 for the annual project, which represents about half the estimated need. With less funding, staff will be required to reduce the width of the area cleared along the seawall, from the recommended 30 feet to 15 or20 feet instead, and to reduce the dimensions of the proactive reshaping of the sand dunes. The reduction will result in sand spilling onto the roadway sooner. The remaining funds will be used to clear sand at an estimated annual rate of two days every two to three weeks.

Note that the GGNRA has rebuffed the City's request to provide any funding for sand management along the Great Highway, even though the sand that ends up on the roadway and promenade migrates from federal beach land.

Sand Management Strategies:
As mentioned previously, Public Works does not have dedicated staff to perform Great Highway sand-clearing activities. Work is balanced with other City roadway safety and repair priorities. Public Works staff currently clears sand about two days every two to three weeks, depending on

the time of year. Unfortunately, because there is no dedicated staff, this work is sometimes performed after hours and subject to overtime rates. To provide dependable sand management, funding for a dedicated crew is necessary and a desired frequency for sand clearing identified. The following scenarios vary the frequency of sand clearing from the roadway and promenade and provides funding for the annual dune reshaping and seawall clearing – an essential component of any sand management strategy.

Scenario 1 – Sand Clearing Two Days Every Two Weeks and Annual Project (15 days): Estimate cost: ~$845,000

Based on past experience, the minimum amount of time needed to clear sand from the Great Highway between Lincoln Way and Sloat Boulevard and open the Great Highway to vehicular traffic is approximately two consecutive days. The first scenario assumes a dedicated crew will be provided for two consecutive days every two weeks at a cost of about $351,000, based on existing hourly rates. However, this scenario still could result in ongoing and sustained closures of the roadway, especially during the weeks when dedicated staff isn't available to perform sand clearing activities.

Table 1. Cost to Fund Sand Clearing of Roadway/Promenade Two Days Every Two Weeks

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	2	416	59.81	179.44	$ 149,292.00
7355	Truck Driver	2	416	51.94	155.81	$ 129,636.00
7502	Asphalt Worker/Laborer	1	416	41.30	123.90	$ 51,542.40
7282	Street Repair Sup II	1	104	64.23	192.68	$ 20,038.20
					TOTAL	**$ 350,508.60**

In general, the roadway clearing operations would consist of the following:

- The first Operating Engineer picks up sand from the roadway and loads sand into a waiting dump truck of the first Truck Driver
- The first Truck Driver 1 drives to and unloads sand at areas where there is bank erosion (south of the Sloat Boulevard), where a second Operating Engineer in a loader truck is waiting
- The first Truck Driver unloads sand near the area of bank erosion
- The second Operating Engineer pushes the sand over the bank to reduce erosion
- During this time, the first Operating Engineer loads sand into the second dump truck, operated by a second Truck Driver
- The second Truck Driver 2 drives to the bank erosion location and unloads sand
- The first Truck Driver 1 returns to the first Operating Engineer to be reloaded
- Work continues as above for the workday
- Asphalt Worker/Laborer clears sand from benches, around trash receptacles, observation areas and access ramps, as well as provides traffic control as needed

- The second Truck Driver, meanwhile, operates a mechanical sweeper on the promenade, as needed, to clear sand, possibly one day every two weeks
- Minimum supervisory costs are also included

Funding also needs to be provided for the annual sand dune reshaping and seawall clearing project. Based on the current conditions of the sand dunes between Lincoln Way and Sloat Boulevard, and the importance of proactively reshaping the dunes to postpone the natural migration of sand into the roadway, this scenario proposes the annual project consist of 15 12-hour days. The cost for this work, including rental equipment, is about $493,000, based on existing hourly rates.

Table 2. Cost to Fund Annual Dune Reshaping and Seawall Clearing 15 days (4 hours OT):

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	4	210	59.81	179.44	$ 150,727.50
7355	Truck Driver	2	210	51.94	155.81	$ 65,441.25
7502	Asphalt Worker/Laborer	2	210	41.30	123.90	$ 52,038.00
7220	Asphalt Finisher Sup I	1	210	58.10	174.30	$ 36,603.00
7282	Street Repair Sup II	1	40	64.23	192.68	$ 7,707.00
					Sub-Total	$ 312,516.75
				Equipment Rental		$ 180,000.00
					TOTAL	**$ 492,516.75**

The total cost to perform sand clearing two days a week every two weeks and the annual sand clearing for 15 days is detailed below.

Table 3. Cost for Scenario One

Activity	Estimated Cost
Sand Clearing - 2 days/wk every 2 weeks:	$ 350,508.60
Annual Project (15 12-hour days):	$ 492,516.75
Total	**$ 843,025.35**

Scenario 2 – Sand Clearing Two Days per Week and Annual Project (15 days):
Estimated Cost: ~$1.2M

Similar to Scenario 1, staff will clear sand from the Great Highway for two consecutive days using the same sand clearing operations detailed above. However, unlike the first scenario, which provided sand clearing every two weeks, this scenario will provide weekly sand clearing. This scenario is estimated to cost about $700,000 based on existing hourly rates. While this scenario will reduce the number of roadway closures, periodic closures that may last several days are to be expected, especially during the days when dedicated staff isn't available to perform sand-clearing activities.

Table 4. Cost to Fund Sand Clearing of Roadway/Promenade Two Days per Week

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	2	832	59.81	179.44	$ 298,584.00
7355	Truck Driver	2	832	51.94	155.81	$ 259,272.00
7502	Asphalt Worker/Laborer	1	832	41.30	123.90	$ 103,084.80
7282	Street Repair Sup II	1	208	64.23	192.68	$ 40,076.40
					TOTAL	**$ 701,017.20**

The annual sand-clearing activities under this scenario would be the same as Scenario 1 - 15 12-hour days. The cost for this work, including rental equipment, is about $493,000, based on existing hourly rates.

Table 5. Cost to Fund Annual Dune Reshaping and Seawall Clearing 15 days (4 hours OT):

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	4	210	59.81	179.44	$ 150,727.50
7355	Truck Driver	2	210	51.94	155.81	$ 65,441.25
7502	Asphalt Worker/Laborer	2	210	41.30	123.90	$ 52,038.00
7220	Asphalt Finisher Sup I	1	210	58.10	174.30	$ 36,603.00
7282	Street Repair Sup II	1	40	64.23	192.68	$ 7,707.00
					Sub-Total	$ 312,516.75
				Equipment Rental		$ 180,000.00
					TOTAL	**$ 492,516.75**

The total cost to perform sand clearing two days a week and the annual sand clearing for 15 days is detailed below.

Table 6. Cost for Scenario Two

Activity	Estimated Cost
Sand Clearing - 2 days/wk every week:	$ 701,017.20
Annual Project (15 12-hour days):	$ 492,516.75
Total	**$ 1,193,533.95**

Scenario 3 - Daily (Monday through Friday) Sand Clearing and Annual Project (10 days): Estimated Cost: ~$1.7M

To minimize closures of the Great Highway on a regular basis, the Board of Supervisors could consider funding a crew to provide daily (Monday through Friday) sand clearing. While the roadway would need to be closed during the sand clearing activities, providing a dedicated staff for daily sand clearing should result in significantly shorter closures and could be timed to avoid rush hour commute morning traffic.

Daily (Monday through Friday) sand clearing will cost an estimated ~$1.32 million, based on current hourly rates. This funding will provide one Operating Engineer and two Truck Drivers every day (Monday-Friday) to clear sand from the roadway. One of the truck drivers also would function as a street sweeper to clear sand from the promenade and the roadway. The Asphalt Worker (Laborer) will clear sand from the promenade lookout and stairs and provide traffic control, when needed. Minimum supervisory costs are also included.

Table 7. Cost to Fund Daily Sand Clearing of Roadway/Promenade

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	1	2080	59.81	179.44	$ 373,230.00
7355	Truck Driver	2	2080	51.94	155.81	$ 648,180.00
7502	Asphalt Worker/Laborer	1	2080	41.30	123.90	$ 257,712.00
7282	Street Repair Sup II	1	208	64.23	192.68	$ 40,076.40
					TOTAL	**$ 1,319,198.40**

Based on current conditions and the assumption that daily sand clearing will occur, staff believes the scope of work for the annual project can be reduced to 10 12-hour days. The cost for this work, including rental equipment, is about $360,000, based on existing hourly rates.

Table 8. Cost to Fund Annual Dune Reshaping and Seawall Clearing 10 days (4 hours OT):

Class	Title	Positions	Hours	Hourly Rate	Hourly Rate with Overhead	Total
7328	Operating Engineer	4	140	59.81	179.44	$ 100,485.00
7355	Truck Driver	2	140	51.94	155.81	$ 43,627.50
7502	Asphalt Worker/Laborer	2	140	41.30	123.90	$ 34,692.00
7220	Asphalt Finisher Sup I	1	140	58.10	174.30	$ 24,402.00
7282	Street Repair Sup II	1	28	64.23	192.68	$ 5,394.90
						$ 208,601.40
				Equipment Rental		$ 150,000.00
					TOTAL	**$ 358,601.40**

The total cost to perform daily sand clearing and the annual sand clearing for 10 days is detailed below.

Table 9. Cost for Scenario Three

Activity	Estimated Cost
Sand Clearing - Monday through Friday:	$ 1,319,198.40
Annual Project (10 12-hour days):	$ 358,601.40
Total	**$ 1,677,799.80**

Conclusion:

Until recently, funding for sand clearing along the Great Highway, including the annual sand dune reshaping and seawall clearing project, has remained fixed and not kept pace with inflation and City-approved cost of living adjustments. In addition, years of below-average rainfall and increased wind forces have resulted in a greater amount of sand migrating onto the roadway. Over time, to stay within the approved budget allocations, Public Works has needed to reduce the scope of work for the sand removal activities along the Great Highway. This has led to more frequent and prolonged street closures and fewer sand dunes being reshaped.

Based on the increased funding provided this fiscal year, Public Works has been clearing sand from the roadway at an annual rate of two days every two to three weeks. Public Works does not have dedicated staff to perform this work and sand clearing is prioritized with other work responsibilities, including block paving, pothole repair and asphalt patching. Providing an ongoing funding source to provide a dedicated crew responsible for clearing sand from the Great Highway is the most reliable way to minimize impacts to multi-modal users of the roadway.

Three scenarios were provided for consideration, with costs ranging from $845,000 to $1.7 million. While none of the scenarios completely eliminate the need for street closures, providing a dedicated crew to perform daily clearing of the Great Highway (Monday through Friday) is the best option to minimize the frequency and duration of street closures.

Recommendation

Appoint a Task Force comprised of Public Works, Rec and Park, SFPUC and SFMTA to develop a formal Memorandum of Understanding (MOU) identifying the roles, responsibilities, and cost-sharing obligations of each department to support Sand Management Scenario 3. The MOU also should identify the lead agency to develop options and costs to stabilize the sand dunes. The objective of the sand dune stabilization strategy is to limit the migration of sand from the dunes to the street, so the need for the annual sand dune reshaping project is reduced over time.

In addition, Public Works recommends that the City's executive and legislative branches continue to press the GGNRA, as part of the National Park Service, to contribute funding for sand-management activities, since the sand blows from federal beach land onto the adjacent City property.

Hello Mayor Breed, District Supervisors, SFCTA and SFMTA

The first week of the Mayor's compromise plan under which the Great Highway is open to cars Monday through Friday until noon is now behind us. Aside from a couple of Critical Mass-like stunts by the no-compromise zealots, and a few issues with signage and the timing of the gate closures, the new arrangement seemed to go smoothly and to accommodate all interests.

However, the point of the compromise arrangement is to allow drivers to use the Highway during the week, when they are taking kids to school, traveling to and from jobs, etc. There seems to be little rhyme or reason to closing the Highway so early on Fridays, forcing people who are trying to get home to start their weekends to be caught up in the traffic mess that the closed Highway brings. Friday also tends to be "getaway" day, with many folks trying to leave town (including many who want the Highway closed to drivers), and cutting off this access route makes little sense. Indeed, the traffic conditions reverted to "horrendous" this first Friday once the Great Highway was closed, just as the work week was winding down.

That said, I ask that you adjust the closure hours so that the Great Highway is available to drivers through Friday's evening commute. Keep in mind, once it's dark, no one is using it but vehicles. Rather than closing it at noon on Fridays, let the closure wait until 6:00 a.m. on Saturday, consistent with Monday's 6:00 a.m. reopening.

Thank you for your time.

Sincerely,
Johnny Sung

Re: BUDGET: Support Funding Public Works' Sand Management Request and Providing Parking for their Equipment Near the Great Highway

Dear Mayor Breed, Supervisor Peskin and Supervisors,

Please work together to fund the maximum amount of money requested in Public Works' Sand Management Plan, listed in their Plan as Scenario Number 3, so they can assign a dedicated crew to keep the Great Highway open during weekdays as mandated by Ordinance and necessary to meet the requirements of the Pilot Project. Supervisor Joel Engardio has requested it; please support him. The closures due to lack of maintenance of this 2 mile section of highway impacts thousands of voters who use it whether they drive or bicycle.

Please also work with each other and those in charge to get permission for Public Works to park their sand removal equipment close to the Great Highway as requested in their Sand Management Plan. They have been denied permission by SF Recreation and Parks.

Below is a record of my personal recorded observations of 12 consecutive weeks of closures of the Great Highway between Lincoln and Sloat during the Pilot Project. This indicates that all 4 lanes were open simultaneously M-F for only 13 days and never for one full week of 4-1/2 days between February 27 and May 19, 2023.

Feb 27-Mar 3: 0 days fully open
Mar 6-10: 1 day fully open (2 half days)
Mar 13-17: 1 day fully open (2 half days)
Mar 20-24: 0 days fully open
Mar 27-31: 0 days fully open
Apr 3-7: 0 days fully open
April 10-14: 3 days fully open
Apr. 17-21: 0 days fully open
Apr. 24-28: 2 days fully open (1+ 2 half)
May 1-5: 0 days fully open

May 8-12: 3-1/2 days fully open
May 15-19: 2-1/2 days fully open

“Fully open” means all 4 lanes simultaneously accessible to vehicles.

Thank you in advance for, hopefully, your consideration to include and approve this item in the upcoming budget and to help with a parking space for Public Works’ equipment.

Respectfully submitted,
Judi Gorski

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Mayor Breed, President Peskin, and Members of the Board of Supervisors,

I am writing to urge you to support funding Option 3 of the San Francisco Department of Public Works' Upper Great Highway Sand Management Plan ("the Plan"). Option 3 of the Plan will regularly maintain the Great Highway between Lincoln Way and Sloat Blvd., and will keep it open for vehicular use every Monday at 6:00 AM through Friday at noon, with the exception of specific legal holidays, through December 31, 2025, as mandated by Ordinance 220875.

I join other community groups and many others who use the Upper Great Highway in supporting funding Option 3 of the Plan, submitted to the San Francisco Board of Supervisors on March 22, 2023.

I also support Public Works' request to the Recreation and Parks Department that they provide a place to park Public Works' sand removal equipment overnight close to the Upper Great Highway to enable the mandated regular maintenance. Due to inaedquate sand removal, all lanes of the Upper Great Highway have not been open to motor vehicle traffic for more than ten days since January 1, 2023.

I respectfully request Mayor London Breed and the Board of Supervisors take the necessary steps to enable and enforce the conditions of the Upper Great Highway Pilot Project and Ordinance 220875, approved December 22, 2022, effective January 22, 2023, and disregard any data collected relating to usage of the Upper Great Highway until it is consistently open during weekdays and all maintenance conditions are met.

Thank you for your consideration of this request.

Sincerely,

Devorah Joseph

Mayor Breed, President Peskin, and Members of the Board of Supervisors,

I am writing to urge you to support funding Option 3 of the San Francisco Department of Public Works' Upper Great Highway Sand Management Plan ("the Plan"). Option 3 of the Plan will regularly maintain the Great Highway between Lincoln Way and Sloat Blvd., and will keep it open for vehicular use every Monday at 6:00 AM through Friday at noon (a ridiculous time to close a major traffic artery), with the exception of specific legal holidays, through December 31, 2025, as mandated by Ordinance 220875.

I join other community groups and many others who use the Upper Great Highway in supporting funding Option 3 of the Plan, submitted to the San Francisco Board of Supervisors on March 22, 2023.

I also support Public Works' request to the Recreation and Parks Department that they provide a place to park Public Works' sand removal equipment overnight close to the Upper Great Highway to enable the mandated regular maintenance. Due to inadequate sand removal, all lanes of the Upper Great Highway have not been open to motor vehicle traffic for more than ten days since January 1, 2023.

I demand Breed and the Board of Supervisors take the necessary steps to enable and enforce the conditions of the Upper Great Highway Pilot Project and Ordinance 220875, approved December 22, 2022, effective January 22, 2023, and disregard any data collected relating to usage of the Upper Great Highway until it is consistently open during weekdays and all maintenance conditions are met.

I also support Public Works' request to the Recreation and Parks Department that they provide a place to park Public Works' sand removal equipment overnight close to the Upper Great Highway to enable the mandated regular maintenance. Due to inadequate sand removal, all lanes of the Upper Great Highway have not been open to motor vehicle traffic for more than ten days since January 1, 2023.

I respectfully request Mayor London Breed and the Board of Supervisors take the necessary steps to enable and enforce the conditions of the Upper Great Highway Pilot Project and Ordinance 220875, approved December 22, 2022, effective January 22, 2023, and disregard any data collected relating to usage of the Upper Great Highway until it is consistently open during weekdays and all maintenance conditions are met.

Thank you for your consideration of this request.

Sincerely,
Rachel Grant
13 year resider Outer Sunset

Subject: SF Department of Public Works' Upper Great Highway Sand Management Plan, Option 3

Dear Mayor Breed, President Peskin, and Members of the Board of Supervisors,

I am writing to urge you to support funding Option 3 of the San Francisco Department of Public Works' Upper Great Highway Sand Management Plan ("the Plan"). Option 3 of the Plan will regularly maintain the Great Highway between Lincoln Way and Sloat Blvd., and will keep it open for vehicular use every Monday at 6:00 AM through Friday at noon, with the exception of specific legal holidays, through December 31, 2025, as mandated by Ordinance 220875.

I join other community groups and many others who use the Upper Great Highway in supporting funding Option 3 of the Plan, submitted to the San Francisco Board of Supervisors on March 22, 2023.

I also support Public Works' request to the Recreation and Parks Department that they provide a place to park Public Works' sand removal equipment overnight close to the Upper Great Highway to enable the mandated regular maintenance. Due to inadequate sand removal, all lanes of the Upper Great Highway have not been open to motor vehicle traffic for more than ten days since January 1, 2023.

Dear SFMTA Board Chair Eaken, Vice-Chair Cajina, Director Tumlin, Director Maguire and Mayor Breed,

A new analysis of 19 million parking citations and 300 thousand complaints by Stephen Braitsch shows that SFMTA's parking enforcement fails to prioritize public safety-related violations, operates inconsistently across the city and days of the week, lets repeat offenders off the hook and fails to give citizens safety-oriented reporting options.

Please review the findings in Stephen's detailed report, linked below, and immediately demand that the SFMTA adopt a data-driven parking enforcement strategy that prioritizes public safety while ensuring equitable revenue collection.

I live in D5. I want to feel safer when I'm traveling in the city. My 2 kids in SFUSD have to put up with a lot of parking bullshit while walking and biking to school.

That's why I'm sending you Stephen's letter - I know MTA can do a better job enforcing dangerous parking violations. And I know MTA and the city are capable of holding drivers more accountable.

You have the data - please use it to target public safety issues. Also cameras. Please please please speed cameras and bus mounted cameras.

-Ethan Bold

Dear SFMTA Board Chair Eaken, Vice-Chair Cajina, Director Tumlin, Director Maguire and Mayor Breed,

A new analysis of 19 million parking citations and 300 thousand complaints by Stephen Braitsch shows that SFMTA's parking enforcement fails to prioritize public safety-related violations, operates inconsistently across the city and days of the week, lets repeat offenders off the hook and fails to give citizens safety-oriented reporting options.

Please review the findings in Stephen's detailed report, linked below, and immediately demand that the SFMTA adopt a data-driven parking enforcement strategy that prioritizes public safety while ensuring equitable revenue collection.

https://transpomaps.org/san-francisco/ca/illegal-parking/cta

On a personal note – I bike to work and have close calls with vehicles on a regular basis. Virtually all of them are caused by vehicles blocking the bike lane, making me move into the bike lane. This is made only worse by the fact that reckless driving and speeding are out of control as well. It really feels like traffic violence goes completely unchecked in this city, which makes life extreme stressful and dangerous for everyone but people driving ginormous pickup trucks and SUVs.

Thank you,
Tobias Wacker

Dear MTA Board Chair Eaken, Vice-Chair Cajina, Director Tumlin, Director Maguire and Mayor Breed,

All over the City we are beyond tired of lackadaisical parking enforcement. The public right of way needs to be enforced. Not clearing a bike lane when your staff pass by a violation is unacceptable. We do realize many motorists are violent and additional training of PCOs maybe necessary.

A new analysis of 19 million parking citations and 300 thousand complaints by Stephen Braitsch shows that SFMTA's parking enforcement fails to prioritize public safety-related violations, operates inconsistently across the city and days of the week, lets repeat offenders off the hook and fails to give citizens safety-oriented reporting options.

Dear SFMTA Board Chair Eaken, Vice-Chair Cajina, Director Tumlin, Director Maguire and Mayor Breed,

A new analysis of 19 million parking citations and 300 thousand complaints by Stephen Braitsch shows that SFMTA's parking enforcement:
- fails to prioritize public safety-related violations
- operates inconsistently across the city and days of the week
- lets repeat offenders off the hook
- fails to give citizens safety-oriented reporting options.

I am a non-driver due to disability, and I move around the city as a pedestrian, cyclist, and transit rider. I routinely encounter blocked bike lanes and intersections that give drivers little to no visibility of the crosswalks due to drivers parked right up to the curb. I also frequently find drivers parked fully on sidewalks, which presents a huge hazard to me as a visually impaired person. The status quo is unacceptable.

Please review the findings in Stephen's detailed report, linked below, and immediately demand that the SFMTA adopt a data-driven parking enforcement strategy that prioritizes public safety while ensuring equitable revenue collection.

Subject: City Budget Public Comment: San Francisco Needs to Fund Solutions to End the Drug Crisis in This Year's Budget
Date: Wednesday, May 17, 2023 9:27:58 AM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I’m demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Daniel O'Sullivan

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Ryan Mathieu

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Sean Gogarty

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Mitchell Maloof

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:

Dear Board of Supervisors,

I'm a San Francisco resident who sees a failure by our elected officials to address the fentanyl-fueled drug epidemic that is devastating our city. The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Katrine Trampe
San Francisco, CA 94114

The drug epidemic is linked to all of the problems San Francisco faces, including homelessness, mental health, public safety, and economic vitality. You must make ending open-air drug markets and funding more city-sponsored recovery programs the main priority of this year's budget cycle.

We thank Mayor London Breed, Governor Gavin Newsom, District Attorney Brooke Jenkins and Speaker Emerita Nancy Pelosi for working together on State and Federal law enforcement coordination; and appreciate those members of the Board of Supervisors who have been vocally supportive of these efforts. We ask for continued cooperation and coordination with state and federal agencies to permanently eradicate open-air drug markets.

In order to ensure sustained action, I'm demanding that you include the following in the next budget:

Law Enforcement: The District Attorney and the Police Department must work together to arrest and prosecute drug dealers in San Francisco, as well as coordinate with state and federal law enforcement to address cartels bringing drugs to the city. The city can ensure this happens by including the following in the next budget:

- Funding to eventually meet the recommended number of 2,182 sworn officers
- Enough academy classes to meet that goal with new officers
- Enough police staffing aides to allow officers to answer high-priority calls
- Enough additional officers this coming year to make Operation Disruption permanent in high drug trafficking areas, including the Tenderloin, Southern, and Mission Stations
- Investment in personnel training and narcotics equipment to effectively close the open air drug markets
- Funding for a nationwide recruitment search with a focus on lateral hires to expedite hiring

City-Sponsored Recovery Programs: Recovery has to be the goal. City departments need to work cross-functionally to make this happen in order to give users the chance to live healthy lives and shrink demand for drugs on the street. This means funding true treatment on demand in the next budget, which includes:

- Creating 24/7 pickup vans for people seeking to enter drug treatment programs, and 24/7 intake centers where they can go for initial screening
- Stabilization centers with a minimum stay time and on-site medical staff, where people can stay temporarily before entering longer-term drug treatment programs
- Improving access to recovery beds to meet the city's obligation to provide drug treatment on demand:
    - Increase the number of residential drug treatment beds
    - Increase the number of step-down beds, a vital component of the services spectrum where people re-learn skills for independent living before entering permanent housing
- Offer recovery options that are completely drug-free
- Offer more secure mental health beds so people who need care aren't forced to stay in jail or return to the streets
- Make employment as a member of program staff more sustainable and rewarding:
    - Increase staffing capacity through reassignments to match program expansion
    - Additional funding to address the staffing shortage of licensed staff/behavioral nurses
    - Address the pay gap between nonprofit and city licensed behavioral staff

I know that completely eradicating drug use is unrealistic. What I'm demanding is a visible reduction in the open-air drug sales and drug use that is eroding our city. San Francisco should be a place where those who are not involved in drug sales and drug use are not negatively impacted by drug sales and drug use.

Sincerely,
Erin Burns
