OFFICE OF THE MAYOR
SAN FRANCISCO

LONDON N. BREED
MAYOR

Notice of Nomination of Appointment

September 11, 2020

San Francisco Board of Supervisors
City Hall, Room 244
1 Dr. Carlton B. Goodlett Place
San Francisco, CA 94102

Honorable Board of Supervisors,

Pursuant to Treasure Island Development Authority (TIDA) Bylaws, Article V, of the City and County of San Francisco, I make the following nomination:

Julia Prochnik, for appointment to the Treasure Island Development Authority Board of Directors for the unexpired portion of a four-year term ending February 26, 2021, to the seat formerly held by Sharon Lai.

I am confident that Ms. Prochnik will serve our community well. Attached are her qualifications to serve, which demonstrate how her appointment represents the communities of interest, neighborhoods and diverse populations of the City and County of San Francisco.

I encourage your support and am pleased to advise you of this appointment nomination. Should you have any question about this appointment nomination, please contact my Director of Commission Affairs, Tyra Fennell, at 415-554-6696.

Sincerely,

A handwritten signature in blue ink that reads "London Breed".

London N. Breed
Mayor, City and County of San Francisco

JULIA PROCHNIK: DYNAMIC BRIDGE BUILDER

Ms. Prochnik is a trusted advisor to the energy and environmental sector as well as a local community leader. She enjoys working to solve the impossible. She brings over 19 years of experience in large-scale strategic thinking and raising the profile of critical public policies while building diverse stakeholder support, advancing community goals into actions, navigating regulatory affairs, and thriving in strategic coalitions.

Currently, she is the Director of Western Renewable Grid Planning at the Natural Resources Defense Council. She develops, manages and implements renewable energy integration into regional electric grid planning. She mobilizes advocates and executives in the west to support NRDC policies. As an experienced leader, she has organized and executed policy change throughout her career as well as strengthening management of staff and consultants. She has helped advanced the clean energy economy by creating broad relationships with non-traditional allies inspiring them to organize and join with environment and equity causes.

As the Project Developer Manager at Clean Line Energy Partners, she managed the Centennial West Clean Line high-voltage direct current transmission line. She oversaw the local, state and federal permitting process, developed relationships with generators and load serving entities, facilitated engagement across sectors, coordinated public outreach efforts and negotiated agreements with contractors and project vendors.

As the Director of Intergovernmental Relations for the North American Electric Reliability Corporation (NERC), Julia promoted effective coordination and positive relations between NERC and FERC, the U.S. Department of Energy (DOE), and many other federal and state entities. She worked with Congress and trade associations on cyber security and reliability standard legislation, regularly handing sensitive data and confidential information.

Previously, Mrs. Prochnik was the Western Regional Coordinator for the Office of Electricity and Energy Delivery. Principally, she was the DOE project manager for Section 368 of the 2005 Energy Policy Act and worked closely with state and federal agencies on transmission siting and permitting. She was a Presidential Management Fellow and began working at the DOE in 2002 in energy and then assisted with the 2003 blackout investigation, demonstrating strong analysis and synthesis skills.

Education

- Master of Public Administration, University of Southern California, Los Angeles, CA
- Bachelor of Arts, Political Science and International Relations, Oregon State University, Corvallis, OR

Community

- President, Board Member LoHaMa
 - Elected CA State Delegate
 - ArtTrailSF Executive Director
 - Volunteer Art Teacher
 - Past Board Director, Women in CleanTech & Sustainability
 - Past Board Director and Membership Chair, Women's Council on Energy and Environment
-

Experience

Natural Resources Defense Council, Director of Western Renewable Energy Planning: 2012-Current

Develop and coordinate management of a west wide energy market strategy and influence a change in culture in the utility industry.

--- Direct advocacy among western environmental advocates to participate in planning venues to influence policy changes.

--- Identify and organize change makers in clean energy to implement regulatory transformation in the west and advocate for clean policies at the CAISO.

--- Manage NRDC advocacy work concerning real time grid operations and transmission planning data sharing, and influence FERC 1000 implementation as WestConnect Vice-Chair.

Clean Line Energy Partners, Project Developer: 2010-2012

Effective in building successful relationships with government officials, tribes, community and non-profit leaders. Managed overall project development for a 900-mile renewable energy transmission line including budget, goals and deliverables.

--- Worked with Western Commissioners, government officials and utilities negotiating status for direct current (DC) line.

--- Proactively managed changes in project scope, identified potential crises, and devised contingency plans. As well as identified and managed project dependencies and critical paths to track project milestones and deliverables.

--- Built, developed and grew any business relationships vital to the success of the project, and delegated tasks and responsibilities to appropriate personnel. Wrote and submitted budget proposals and recommend subsequent budget changes where necessary to leadership.

JASenergies, Founder: 2009-2010

Founded energy and environment consulting company to assist with integration of renewables into the electric grid via transmission and smart grid technologies.

--- Advocated and built consensus to achieve new governance at WestConnect (WC) worked with all utilities in Western Interconnection promoting renewable integration and non-wires solutions. My advocacy made many WC members accept the value of stakeholder involvement and we have changed the WC culture to incorporate our "Smart from the Start" siting policies and tools.

--- Built relationships across lines with Congress, Federal Agencies, State Regulators and Energy Offices, Industry and Community leaders to address energy and environmental policies and plans by persuading them of their important role to address changes in their communities. Inspired them to see their connection to the larger picture and reinforced their role in improving current standards.

--- During 2009, managed three client portfolios regarding regulatory assistance, facilitation and project management.

North American Electric Reliability Corporation, Director, Inter-governmental Relations: 2006-2009

Led the re-establishment of NERC to the government and industry sectors as a credible organization regarding electricity reliability. Built sustainable relationships with Congress, Federal Agencies, State Energy Offices and Industry leaders reaching consensus on energy and environmental policies and plans.

--- Led by effective, diplomatic guidance and facilitated meetings with the state and federal governments, trade associations, and NERC committees by articulating energy related issues; secured regional support on reliability standards, compliance, and stakeholder input benefiting the entire region.

--- Assisted with drafting standards, producing compliance reviews, long-term reliability assessments and communicating technical concepts to the public.

--- Jumped in to fill a need and created communications material and performed media relations, designed new logo and reenergized the membership to mobilize.

U.S. Department of Energy, Western Regional Liaison: 2001-2005

Wrote and administrated policy implementation regarding the U.S.- Canada Blackout 2003 reports, and recommendations. Managed and coordinated with international energy entities and organizations on various bulk power system projects. Designed and implemented a coordinated strategy for federal and western states.

--- Negotiated and completed two congressionally required multi-agency memoranda of understanding.

--- Spoke on behalf of the Department at international and national conferences.

United State Trade Representative, Trade Analyst Central America: 2003

--- Coordinated with embassies and federal agencies on formulating the US-Panama agreement and Central American Free Trade Agreement

Fleishman-Hillard/GPC, Trade Analyst & Junior Lobbyist: 2001

--- Created international trade proposals for prospective clients and assisted with selling our ideas

General Accounting Office, Labor Analyst for NAFTA review: 2000

--- Presented and drafted a GAO report to the U.S. House of Representatives Ways and Means subcommittee

Interests

Julia loves to constantly learn, play with her kids, find creative ways to inspire and strengthen our community, travel, rock climb, kite surf, dance and paint. She has lived abroad in Spain, India and Costa Rica, and currently lives in San Francisco with her family.

Instructions – Schedule C

Income, Loans, & Business Positions

(Income Other Than Gifts and Travel Payments)

Reporting Income:

Report the source and amount of gross income of \$500 or more you received during the reporting period. Gross income is the total amount of income before deducting expenses, losses, or taxes and includes loans other than loans from a commercial lending institution. (See Reference Pamphlet, page 11.) You must also report the source of income to your spouse or registered domestic partner if your community property share was \$500 or more during the reporting period.

The source and income must be reported only if the source is located in, doing business in, planning to do business in, or has done business during the previous two years in your agency's jurisdiction. (See Reference Pamphlet, page 13.) Reportable sources of income may be further limited by your disclosure category located in your agency's conflict of interest code.

Reporting Business Positions:

You must report your job title with each reportable business entity even if you received no income during the reporting period. Use the comments section to indicate that no income was received.

Commonly reportable income and loans include:

- Salary/wages, per diem, and reimbursement for expenses including travel payments provided by your employer
- Community property interest (50%) in your spouse's or registered domestic partner's income - **report the employer's name and all other required information**
- Income from investment interests, such as partnerships, reported on Schedule A-1
- Commission income not required to be reported on Schedule A-2 (See Reference Pamphlet, page 8.)
- Gross income from any sale, including the sale of a house or car (Report your pro rata share of the total sale price.)
- Rental income not required to be reported on Schedule B
- Prizes or awards not disclosed as gifts
- Payments received on loans you made to others
- An honorarium received prior to becoming a public official (See Reference Pamphlet, page 10.)
- Incentive compensation (See Reference Pamphlet, page 12.)

Reminders

- Code filers – your disclosure categories may not require disclosure of all sources of income.
- If you or your spouse or registered domestic partner are self-employed, report the business entity on Schedule A-2.
- Do not disclose on Schedule C income, loans, or business positions already reported on Schedules A-2 or B.

You are not required to report:

- Salary, reimbursement for expenses or per diem, or social security, disability, or other similar benefit payments received by you or your spouse or registered domestic partner from a federal, state, or local government agency.
- Stock dividends and income from the sale of stock unless the source can be identified.
- Income from a PERS retirement account.

(See Reference Pamphlet, page 12.)

To Complete Schedule C:

Part 1. Income Received/Business Position Disclosure

- Disclose the name and address of each source of income or each business entity with which you held a business position.
- Provide a general description of the business activity if the source is a business entity.
- Check the box indicating the amount of gross income received.
- Identify the consideration for which the income was received.
- For income from commission sales, check the box indicating the gross income received and list the name of each source of commission income of \$10,000 or more. (See Reference Pamphlet, page 8.) **Note: If you receive commission income on a regular basis or have an ownership interest of 10% or more, you must disclose the business entity and the income on Schedule A-2.**
- Disclose the job title or business position, if any, that you held with the business entity, even if you did not receive income during the reporting period.

Part 2. Loans Received or Outstanding During the Reporting Period

- Provide the name and address of the lender.
- Provide a general description of the business activity if the lender is a business entity.
- Check the box indicating the highest balance of the loan during the reporting period.
- Disclose the interest rate and the term of the loan.
 - For variable interest rate loans, disclose the conditions of the loan (e.g., Prime + 2) or the average interest rate paid during the reporting period.
 - The term of the loan is the total number of months or years given for repayment of the loan at the time the loan was entered into.
- Identify the security, if any, for the loan.

MEMORANDUM

Date: September 12, 2020
To: Members, Board of Supervisors
From: *ACC* Angela Calvillo, Clerk of the Board
Subject: (Re)nominations by the Mayor - Treasure Island Development Authority Board of Directors

On September 11, 2020, the Mayor submitted the following complete (re)nomination packages pursuant to Article V, Section 7 of the Treasure Island Development Authority Bylaws. Nominations in this category are subject to confirmation by the Board of Supervisors by a majority vote and are not effective until the Board takes action.

- **Mark Dunlop** - term ending February 26, 2024 (renomination)
- **Julia Prochnik** - term ending February 26, 2021

The Office of the Clerk of the Board will open files for these nominations and the hearings will be scheduled before the Rules Committee.

Email: kate.austin@sfgov.org

Authority:

San Francisco Board of Supervisors Resolution No. 380-97, as amended by Resolution No. 314-98, Resolution No. 89-99; Bylaws. (Also related resolutions 573-94 and 672-96)

Board Qualifications:

The Treasure Island Development Authority Board of Directors consists of a total of ten members: seven members appointed by the Mayor and such appointments are subject to approval by the Board of Supervisors (the appointments of Directors who are officers of the City and County of San Francisco or officers of the SF Redevelopment agency shall be effective immediately and remain so unless rejected by a two-thirds vote of the Board of Supervisors within thirty days following transmittal of written notice to the Board of Supervisors of such appointments) and three non-voting ex-officio members: the then-sitting President of the Board of Supervisors, the Chair of the Committee with jurisdiction over Housing, and the Chair of the Committee with jurisdiction over Land Use, or their designees. (The authorized number of Directors shall not be less than five nor more than seven until changed by a Bylaw. The exact number of Directors shall be fixed by a resolution adopted by the Board.) No more than 49% of the persons serving on the Board may be interested persons as defined in Section 5 of the Bylaws. Directors shall be selected based on their expertise in the areas of real estate development, urban planning, environmental protection and resource conservation, homeless assistance, financing and other disciplines relevant to the reuse of the Base.

Furthermore, in the event one or more of the ex-officio Directors is unable to attend a meeting or meetings of the Authority, the President of the Board of Supervisors may appoint other members of the Board of Supervisors to fill any such vacancies and sit as the Ex-Officio Directors for such meeting or meetings by submitting written notice of such appointment to the

"R Board Description" (Screen Print)

San Francisco
BOARD OF SUPERVISORS

Clerk of the Board, provided such ex-officio Directors do not, together, otherwise constitute a quorum of any then constituted Committee of the Board.

The Authority is a nonprofit public benefit corporation to promote the planning, redevelopment, reconstruction, rehabilitation, reuse and conversion of the Base for the public interest, convenience, welfare and common benefit of the inhabitants of San Francisco. The Authority closely monitors the negotiations with the United States Navy regarding conveyance of the former Naval Station Treasure Island (the "Base"). The Authority is designated as a redevelopment agency with powers over Treasure Island.

Reports: The Authority shall submit quarterly progress reports to the Economic Development, Transportation & Technology Committee of the Board of Supervisors. The Board shall cause an annual report to be prepared within 120 days after the end of the Authority's fiscal year as specified in Article VIII of the Authority's Bylaws.

Term of Office: The Mayor shall designate one Director who is first appointed to serve a term of two years, two Directors who are first appointed to serve a term of three years, and four directors who are first appointed to serve for a term of four years. Thereafter, each Director shall hold office for four years and until a successor has been designated and qualified. There are no limits on the number of consecutive terms a Director may hold office.

Compensation: No Directors shall be entitled to receive any compensation for serving as a Director or as an officer of the Authority, except Directors shall only receive the Charter-determined contribution for health care benefits in accordance with San Francisco Health Service System, and any Director or officer may be reimbursed for expenses duly incurred in the performance of duties as Director or officer of the Authority, upon approval of the Board.

San Francisco Board of Supervisors
Rules Committee
1 Dr. Carlton B. Goodlett Place
City Hall, Room 244
San Francisco, CA 94102-4689

Dear Members of the Board of Supervisors,

It is with great enthusiasm that I am writing to express my support for Julia Prochnik as Mayor London Breed's nominee for the Treasure Island Development Authority (TIDA).

I am the Director of Public Outreach for a local, woman-owned consulting business specializing in construction management for public agencies in the Bay Area. I specialize in program management, construction and community relations, outreach, and engagement. I have experience managing multiple, highly sensitive and technical projects in the infrastructure, water and wastewater fields. And am currently serving as a construction outreach liaison for the San Francisco Public Utilities Commission on multi-billion dollar and million-dollar infrastructure projects taking place at the Southeast Treatment Plant in Bayview-Hunters Point as part of the Sewer System Improvement Program. Through my work, I foster connections with commissions and boards in the community and have a deep understanding of the type of qualifications needed on an oversight body such as TIDA.

Julia has over 20 years of experience in executive public policy management and a wealth of knowledge in the electric industry. She understands the challenges facing the US electricity sector in reducing carbon emissions, building renewable energy, creating markets, and implementing a new clean energy vision. She is passionate about promoting energy, equity and leadership focusing on market and energy policy creation and implementation, while interpreting real-time grid operations and transmission planning. All skills that can help further TIDA's mission of promoting planning, redevelopment, reconstruction, rehabilitation, reuse, and conversion of the former Naval Station Treasure Island.

I have also known Julia for several years through our work as delegates for the CA Democratic Party and advocated for her environmental caucus board position. In addition to seeing her stellar work in the environmental sector, she is deeply involved in her community including her work as president of the Lower Haight Merchants and Neighborhood Association. She also helped to spearhead ArtTrailSF, connecting neighborhoods with volunteers from Alamo Square, Divisadero, Hayes Valley and the Lower Haight. Their app on [Outerspatial](#) also creates the ultimate experience in traversing these unique neighborhoods and merchant corridors.

I have personally witnessed the many residents in the community who value her partnership and volunteerism. Welcoming her to TIDA will be a huge asset to the Treasure Island community and the overall ecosystem of commissioners who care about the future of San Francisco.

I urge you to support Julia's nomination to the Treasure Island Development Authority.

Best Regards,

Kristen Asato-Webb

CA DEM Assembly District 17 Delegate

Dear Members of the Board of Supervisors,

My name is Austin Hunter and am writing in strong support of Julia Prochnik for the Treasure Island Development Authority (TIDA).

I serve on the Board of the San Francisco League of Conservation Voters, am a District Captain with Sister District San Francisco, and recently was the Regional Volunteer Leader for Joe Biden San Francisco. These positions have given me the background needed to help access if an individual should be considered for a leadership position based upon their skills and qualifications. I believe that Julie has the required experience for this position.

Julia has over 20 Years in executive public policy management and a wealth of knowledge in the electric industry. She understands the challenges facing the U.S. electricity sector in reducing carbon emissions, building renewable energy, creating markets and implementing a new clean energy vision. She is passionate about promoting energy, equity and leadership focusing on market and energy policy creation and implementation, while interpreting real-time grid operations and transmission planning. All skills that can help further TIDA's mission of promoting *planning, redevelopment, reconstruction, rehabilitation, reuse and conversion of the former Naval Station Treasure Island*.

I have also known Julia for years and in addition to seeing her stellar work in the environmental sector, she is deeply involved in her community including her work as president of the Lower Haight Merchants and Neighborhood Association. She also helped to spearhead ArtTrailSF, connecting neighborhoods with volunteers from Alamo Square, Divisadero, Hayes Valley and the Lower Haight. Their app on [Outerspatial](#) also creates the ultimate experience in traversing these unique neighborhoods and merchant corridors.

I have personally witnessed the many residents in the community who value her partnership and volunteerism. Welcoming her to TIDA will be a huge asset to the Treasure Island community and the overall ecosystem of commissioners who care about the future of San Francisco. .

I urge you to support Julia's nomination to the Treasure Island Development Authority.

Re: Letter of Support for Treasure Island Development Authority (TIDA), Julia Prochnik

Dear Members of the Board of Supervisors,

My name is Kristina Pappas and I am President of the San Francisco League of Conservation Voters. I am writing in strong support of Julia Prochnik for Treasure Island Development Authority (TIDA).

Julia joined the SFLCV board in 2017 at the recommendation of her NRDC colleague (and our advisor) Johanna Wald. We very much appreciated and benefited from her environmental expertise, her ability to evaluate legislation, her experience as a parent with the SFUSD, and her commitment to the SFLCV board. Even after stepping down from the board, Julia has been willing to offer assistance and expertise.

Julia has over 20 years in executive public policy management and a wealth of knowledge in the electric industry. She understands the challenges facing the U.S. electricity sector in reducing carbon emissions, building renewable energy, creating markets and implementing a new clean energy vision. She is passionate about promoting energy, equity and leadership focusing on market and energy policy creation and implementation, while interpreting real-time grid operations and transmission planning. These are all skills that can help further TIDA's mission of promoting *planning, redevelopment, reconstruction, rehabilitation, reuse and conversion of the former Naval Station Treasure Island.*

I urge you to support Julia's nomination to the Treasure Island Development Authority.

Sincerely,

Kristina Pappas
President, SF League of Conservation Voters

San Francisco Board of Supervisors
Rules Committee
1 Dr. Carlton B. Goodlett Place
City Hall, Room 244
San Francisco, CA 94102-4689

Dear Members of the Board of Supervisors,

It is with great enthusiasm that I am writing to express my support for Julia Prochnik as Mayor London Breed's nominee for the Treasure Island Development Authority (TIDA).

I am the Director of Public Outreach for a local, woman-owned consulting business specializing in construction management for public agencies in the Bay Area. I specialize in program management, construction and community relations, outreach, and engagement. I have experience managing multiple, highly sensitive and technical projects in the infrastructure, water and wastewater fields. And am currently serving as a construction outreach liaison for the San Francisco Public Utilities Commission on multi-billion dollar and million-dollar infrastructure projects taking place at the Southeast Treatment Plant in Bayview-Hunters Point as part of the Sewer System Improvement Program. Through my work, I foster connections with commissions and boards in the community and have a deep understanding of the type of qualifications needed on an oversight body such as TIDA.

Julia has over 20 years of experience in executive public policy management and a wealth of knowledge in the electric industry. She understands the challenges facing the US electricity sector in reducing carbon emissions, building renewable energy, creating markets, and implementing a new clean energy vision. She is passionate about promoting energy, equity and leadership focusing on market and energy policy creation and implementation, while interpreting real-time grid operations and transmission planning. All skills that can help further TIDA's mission of promoting planning, redevelopment, reconstruction, rehabilitation, reuse, and conversion of the former Naval Station Treasure Island.

I have also known Julia for several years through our work as delegates for the CA Democratic Party and advocated for her environmental caucus board position. In addition to seeing her stellar work in the environmental sector, she is deeply involved in her community including her work as president of the Lower Haight Merchants and Neighborhood Association. She also helped to spearhead ArtTrailSF, connecting neighborhoods with volunteers from Alamo Square, Divisadero, Hayes Valley and the Lower Haight. Their app on [Outerspatial](#) also creates the ultimate experience in traversing these unique neighborhoods and merchant corridors.

I have personally witnessed the many residents in the community who value her partnership and volunteerism. Welcoming her to TIDA will be a huge asset to the Treasure Island community and the overall ecosystem of commissioners who care about the future of San Francisco.

I urge you to support Julia's nomination to the Treasure Island Development Authority.

Best Regards,

Kristen Asato-Webb

Executive Summary

In 2008, San Francisco voters overwhelmingly approved a City Charter Amendment (section 4.101) establishing as City policy for the membership of Commissions and Boards to reflect the diversity of San Francisco’s population, and that appointing officials be urged to support the nomination, appointment, and confirmation of these candidates. Additionally, it requires the San Francisco Department on the Status of Women to conduct and publish a gender analysis of Commissions and Boards every two years.

The *2019 Gender Analysis of Commissions and Boards* includes more policy bodies such as task forces, committees, and advisory bodies, than previous analyses, which were limited to Commissions and Boards. Data was collected from 84 policy bodies and from a total of 741 members mostly appointed by the Mayor and Board of Supervisors. These policy bodies fall under two categories designated by the San Francisco Office of the City Attorney.¹ The first category, referred to as “Commissions and Boards,” are policy bodies with decision-making authority and whose members are required to submit financial disclosures to the Ethics Commission. The second category, referred to as “Advisory Bodies,” are policy bodies with advisory function whose members do *not* submit financial disclosures to the Ethics Commission. This report examines policy bodies and appointees both comprehensively as a whole and separately by the two categories.

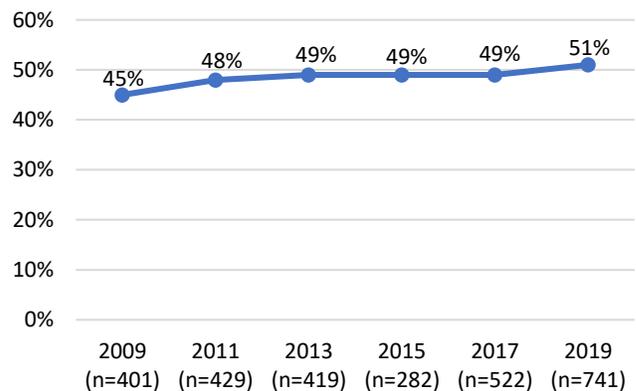

The *2019 Gender Analysis* evaluates the representation of women; people of color; lesbian, gay, bisexual, transgender, queer, and questioning (LGBTQ) individuals; people with disabilities; and veterans on San Francisco policy bodies.

Key Findings

Gender

- Women’s representation on policy bodies is 51%, slightly above parity with the San Francisco female population of 49%.
- Since 2009, there has been a small but steady increase in the representation of women on San Francisco policy bodies.

10-Year Comparison of Representation of Women on Policy Bodies

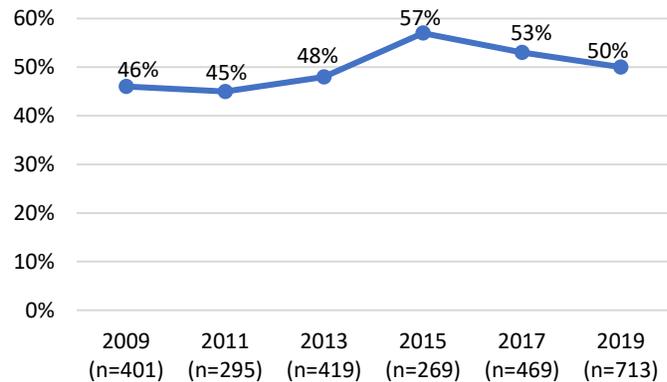

Source: SF DOSW Data Collection & Analysis.

¹ “List of City Boards, Commissions, and Advisory Bodies Created by Charter, Ordinance, or Statute,” Office of the City Attorney, <https://www.sfcityattorney.org/wp-content/uploads/2016/01/Commission-List-08252017.pdf>, (August 25, 2017).

Race and Ethnicity

- People of color are underrepresented on policy bodies compared to the population. Although people of color comprise 62% of San Francisco’s population, just 50% of appointees identify as a race other than white.
- While the overall representation of people of color has increased between 2009 and 2019, as the Department collected data on more appointees, the representation of people of color has decreased over the last few years. The percentage of appointees of color decreased from 53% in 2017 to 49% in 2019.
- As found in previous reports, Latinx and Asian groups are underrepresented on San Francisco policy bodies compared to the population. Latinx individuals are 14% of the population but make up only 8% of appointees. Asian individuals are 31% of the population but make up only 18% of appointees.

10-Year Comparison of Representation of People of Color on Policy Bodies

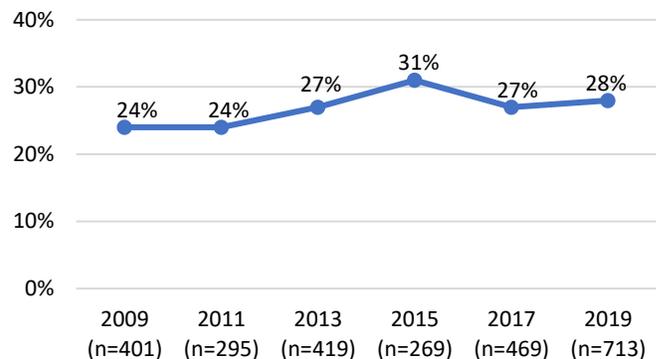

Source: SF DOSW Data Collection & Analysis.

Race and Ethnicity by Gender

- On the whole, women of color are 32% of the San Francisco population, and 28% of appointees. Although still below parity, 28% is a slight increase compared to 2017, which showed 27% women of color appointees.
- Meanwhile, men of color are underrepresented at 21% of appointees compared to 31% of the San Francisco population.
- Both White women and men are overrepresented on San Francisco policy bodies. White women are 23% of appointees compared to 17% of the San Francisco population. White men are 26% of appointees compared to 20% of the population.
- Black and African American women and men are well-represented on San Francisco policy bodies. Black women are 9% of appointees compared to 2.4% of the population, and Black men are 5% of appointees compared to 2.5% of the population.
- Latinx women are 7% of the San Francisco population but 3% of appointees, and Latinx men are 7% of the population but 5% of appointees.
- Asian women are 17% of the San Francisco population but 11% of appointees, and Asian men are 15% of the population but just 7% of appointees.

10-Year Comparison of Representation of Women of Color on Policy Bodies

Source: SF DOSW Data Collection & Analysis.

Additional Demographics

- Out of the 74% of appointees who responded to the survey question on LGBTQ identity, 19% identify as lesbian, gay, bisexual, transgender, nonbinary, queer, or questioning, and 81% of appointees identify as straight/heterosexual.
- Out of the 70% of appointees who responded to the question on disability, 11% identify as having one or more disabilities, which is just below the 12% of the adult population with a disability in San Francisco.
- Out of the 67% of appointees who responded to the question on veteran status, 7% have served in the military compared to 3% of the San Francisco population.

Proxies for Influence: Budget & Authority

- Although women are half of all appointees, those Commissions and Boards with the largest budgets have fewer women and especially fewer women of color. Meanwhile, women exceed representation on Boards and Commissions with the smallest budgets and women of color reach parity with the population on the smallest budgeted Commissions and Boards.
- Although still underrepresented relative to the San Francisco population, there is a larger percentage of people of color on Commissions and Boards with both the largest and smallest budgets compared to overall appointees.
- The percentage of total women is greater on Advisory Bodies than Commissions and Boards. Women are 54% of appointees on Advisory Bodies and 48% of appointees on Commissions and Boards. However, the percentages of people of color and women of color on Commissions and Boards exceed the percentages of people of color and women of color on Advisory Bodies.

Appointing Authorities

- Mayoral appointments include 55% women, 52% people of color, and 30% women of color, which is more diverse by gender and race compared to both Supervisorial appointments and total appointments.

Demographics of Appointees Compared to the San Francisco Population

	Women	People of Color	Women of Color	LGBTQ	Disability Status	Veteran Status
San Francisco Population	49%	62%	32%	6%-15%*	12%	3%
Total Appointees	51%	50%	28%	19%	11%	7%
10 Largest Budgeted Commissions & Boards	41%	55%	23%			
10 Smallest Budgeted Commissions & Boards	52%	54%	32%			
Commissions and Boards	48%	52%	30%			
Advisory Bodies	54%	49%	28%			

Sources: 2017 American Community Survey 5-Year Estimates, SF DOSW Data Collection & Analysis, 2019, *Note: Estimates vary by source. See page 16 for a detailed breakdown.

I. Introduction

Inspired by the 4th UN World Conference on Women in Beijing, San Francisco became the first city in the world to adopt a local ordinance reflecting the principles of the U.N. Convention on the Elimination of All Forms of Discrimination (CEDAW), an international bill of rights for women. The CEDAW Ordinance was passed unanimously by the San Francisco Board of Supervisors and signed into law by Mayor Willie L. Brown, Jr. on April 13, 1998.² In 2002, the CEDAW Ordinance was revised to address the intersection of race and gender and incorporate reference to the UN Convention on the Elimination of all Forms of Race Discrimination. The Ordinance requires City Government to take proactive steps to ensure gender equity and specifies “gender analysis” as a preventive tool to identify and address discrimination. Since 1998, the Department on the Status of Women has employed this tool to analyze the operations of 10 City Departments using a gender lens.

In 2007, the Department on the Status of Women conducted the first gender analysis to evaluate the number of women appointed to City Commissions and Boards. The findings of this analysis informed a City Charter Amendment developed by the Board of Supervisors for the June 2008 Election. This City Charter Amendment (Section 4.101) was overwhelmingly approved by voters and made it city policy that:

- The membership of Commissions and Boards are to reflect the diversity of San Francisco’s population,
- Appointing officials are to be urged to support the nomination, appointment, and confirmation of these candidates, and
- The Department on the Status of Women is required to conduct and publish a gender analysis of Commissions and Boards every 2 years.

The *2019 Gender Analysis* examines the representation of women; people of color; lesbian, gay, bisexual, transgender, queer, and questioning (LGBTQ) individuals; people with disabilities; and veterans on San Francisco policy bodies primarily appointed by the Mayor and the Board of Supervisors. This year’s analysis included more outreach to policy bodies as compared to previous analyses that were limited to Commissions and Boards. As a result, more appointees were included in the data collection and analysis than even before. These policy bodies fall under two categories designated by the San Francisco Office of the City Attorney. The first category, referred to as “Commissions and Boards,” are policy bodies with decision-making authority and whose members are required to submit financial disclosures to the Ethics Commission, and the second category, referred to as “Advisory Bodies,” are policy bodies with advisory function whose members do not submit financial disclosures to the Ethics Commission. A detailed description of methodology and limitations can be found at the end of this report on page 23.

² San Francisco Administrative Code Chapter 33.A.
[http://library.amlegal.com/nxt/gateway.dll/California/administrative/chapter33alocalimplementationoftheunited?f=templates\\$fn=default.htm\\$3.0\\$vid=amlegal:sanfrancisco_ca\\$sanc=JD_Chapter33A](http://library.amlegal.com/nxt/gateway.dll/California/administrative/chapter33alocalimplementationoftheunited?f=templates$fn=default.htm$3.0$vid=amlegal:sanfrancisco_ca$sanc=JD_Chapter33A).

II. Gender Analysis Findings

Many aspects of San Francisco’s diversity are reflected in the overall population of appointees on San Francisco policy bodies. The analysis includes 84 policy bodies, of which 823 of the 887 seats are filled leaving 7% vacant. As outlined below in the summary chart, slightly more than half of appointees are women, half of appointees are people of color, 28% are women of color, 19% are LGBTQ, 11% have a disability, and 7% are veterans.

Figure 1: Summary Data of Policy Body Demographics, 2019

Appointee Demographics	Percentage of Appointees
Women (n=741)	51%
People of Color (n=706)	50%
Women of Color (n=706)	28%
LGBTQ Identified (n=548)	19%
People with Disabilities (n=516)	11%
Veteran Status (n=494)	7%

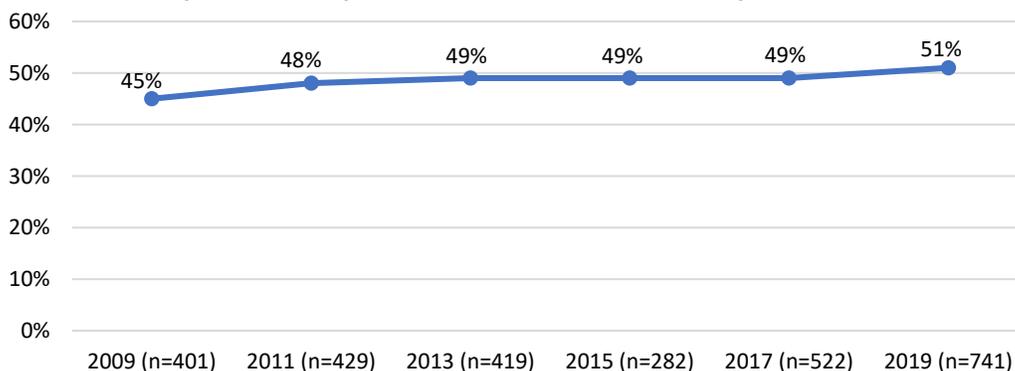

Source: SF DOSW Data Collection & Analysis.

However, further analysis reveals underrepresentation of particular groups. Subsequent sections present comprehensive data analysis providing comparison to previous years, detailing the variables of gender, race/ethnicity, LGBTQ identity, disability, veteran status, and policy body characteristics of budget size, decision-making authority, and appointment authority.

A. Gender

On San Francisco policy bodies, 51% of appointees identify as women, which is slightly above parity compared to the San Francisco female population of 49%. The representation of women remained stable at 49% from 2013 until 2017. This year, the representation of women increased by 2 percentage points, which could be partly due to the larger sample size used in this year’s analysis compared to previous years. A 10-year comparison shows that the representation of women appointees has gradually increased since 2009 by a total of six percentage points.

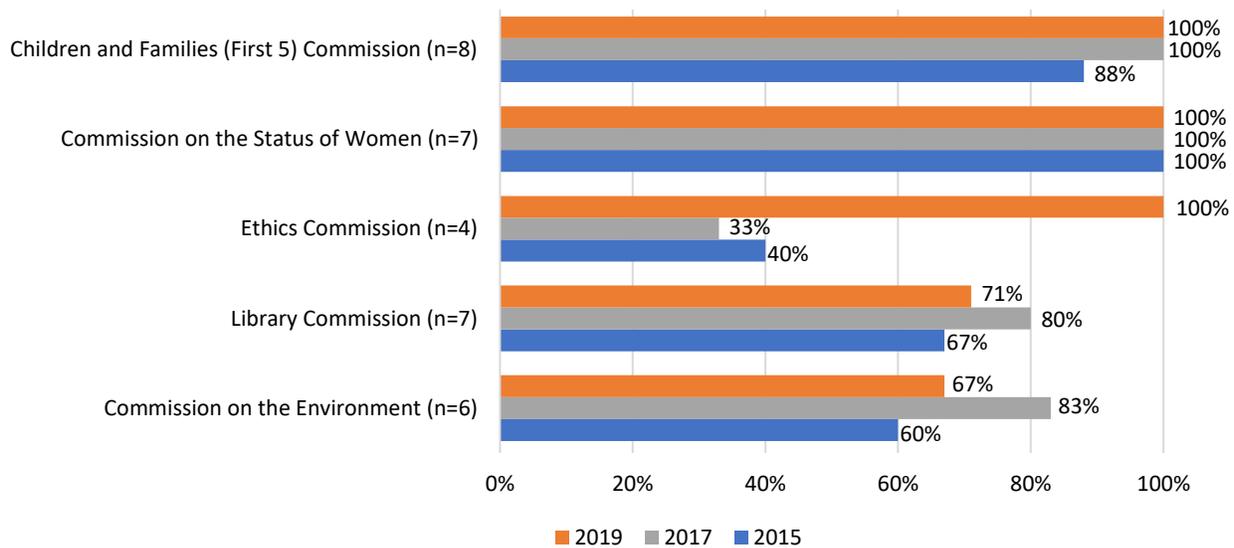

Figure 2: 10-Year Comparison of Representation of Women on Policy Bodies

Source: SF DOSW Data Collection & Analysis.

Figures 3 and 4 analyze Commissions and Boards. Figure 3 showcases the five Commissions and Boards with the highest representation of women appointees as compared to 2015 and 2013. The Children and Families (First Five) Commission and the Commission on the Status of Women are currently comprised of all women appointees. This finding has been consistent for the Commission on the Status of Women in 2015 and 2017. While the Ethics Commission has 100% women appointees, much more than 2015 and 2017, its small size of five appointees means that minimal changes in its demographic composition greatly impacts percentages. This is also the case for other policy bodies with a small number of members. The Library Commission and the Commission on the Environment are fourth and fifth on the list at 71% and 67% women, respectively, with long standing female majorities on each.

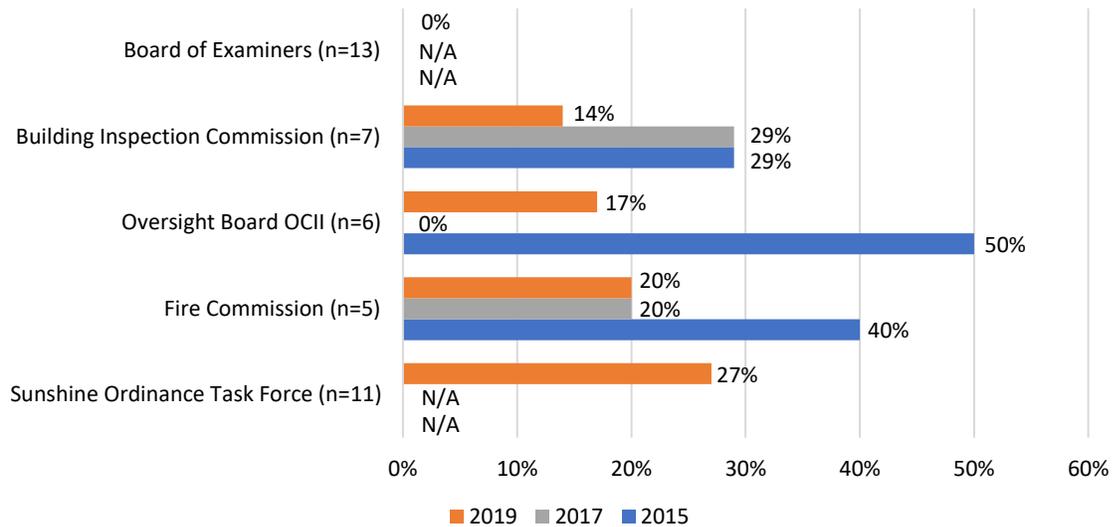

Figure 3: Commissions and Boards with Highest Percentages of Women, 2019 Compared to 2017, 2015

Source: SF DOSW Data Collection & Analysis.

Out of the Commissions and Boards in this section, 23 have 40% or less women. The five Commissions and Boards with the lowest representation of women are displayed in Figure 4. The lowest percentage is found on the Board of Examiners where currently *none* of the 13 appointees are women. Unfortunately, demographic data is unavailable for the Board of Examiners for 2017 and 2015. Next is the Building Inspection Commission at 14%, which is a decrease of female representation compared to 2017 and 2015. The Oversight Board of Community Investment and Infrastructure, Fire Commission, and Sunshine Ordinance Task Force also have some of the lowest percentages of women at 17%, 20%, and 27%, respectively. Unfortunately, the Sunshine Ordinance Task Force did not participate in previous analyses and therefore demographics data is unavailable for 2017 and 2015.

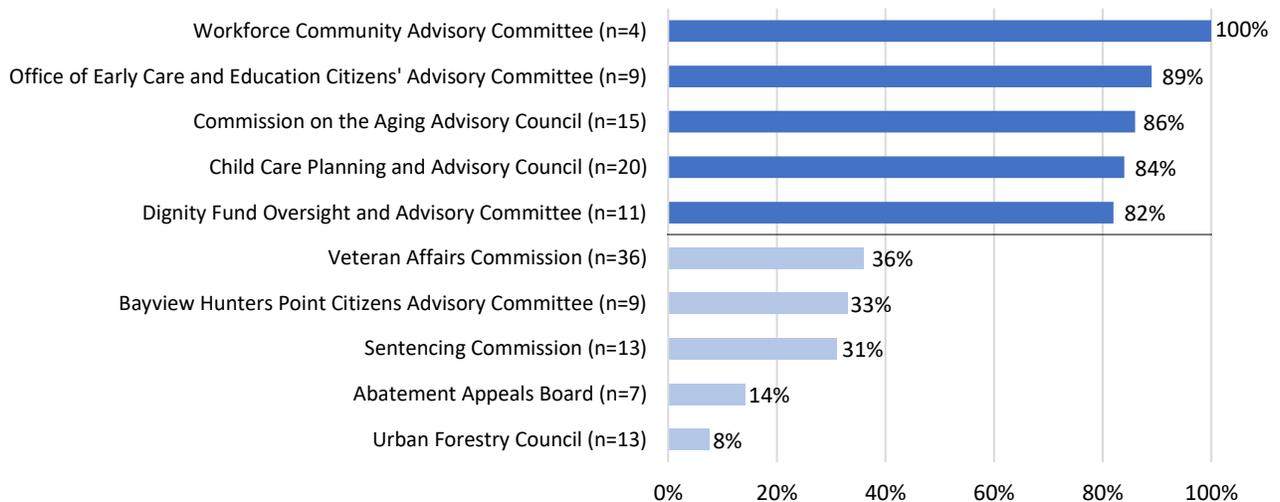

Figure 4: Commissions and Boards with Lowest Percentage of Women, 2019 Compared to 2017, 2015

Source: SF DOSW Data Collection & Analysis.

In addition to Commissions and Boards, Advisory Bodies were examined for the highest and lowest percentages of women. This is the first year such bodies have been included, thus comparison to previous years is unavailable. Figure 9 below displays the five Advisory Bodies with the highest and the five with the lowest representations of women. The Workforce Community Advisory Committees has the greatest representation of women at 100%, followed by the Office of Early Care and Education Citizen’s Advisory Committee at 89%. The Advisory Bodies with the lowest percentage of women are the Urban Forestry Council at 8% of the 13-member body and the Abatement Appeals Board at 14% of the 7-member body.

Figure 5: Advisory Bodies with the Highest and Lowest Percentage of Women, 2019

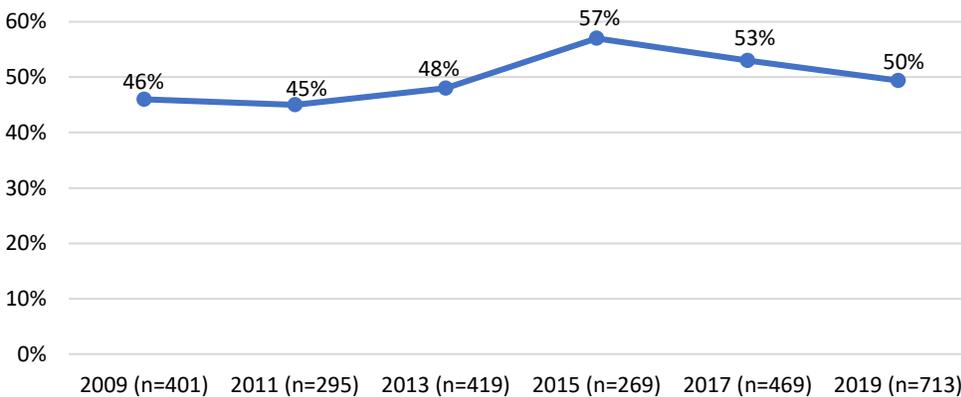

Source: SF DOSW Data Collection & Analysis.

B. Race and Ethnicity

Data on racial and ethnic identity was collected for 706, or 95%, of the 741 surveyed appointees. Although half of appointees identify as a race or ethnicity other than white or Caucasian, people of color are still underrepresented compared to the San Francisco population of 62%. The representation of people of color has increased since 2009 but has decreased following 2015. The number of appointees analyzed increased substantially in 2017 and 2019 compared to 2015, and these larger data samples have coincided with smaller percentages of people of color. The percentage decrease following 2017 could be partially due to the inclusion of more policy and advisory bodies, as the representation of people of color on Commissions and Boards dropped only slightly from 53% in 2017 to 52% in 2019.

Figure 6: 10-Year Comparison of Representation of People of Color on Policy Bodies

Source: SF DOSW Data Collection & Analysis.

The racial and ethnic breakdown of policy body members compared to the San Francisco population is shown in Figure 7. This analysis reveals underrepresentation and overrepresentation in San Francisco policy bodies for certain racial and ethnic groups. Half of all appointees are white, an overrepresentation by more than 10 percentage points. The Black and African American community is well represented on appointed policy bodies at 14% compared to 5% of the population of San Francisco. Characterizing this as an overrepresentation is inaccurate given the representation of Black or African American people on policy bodies has been consistent over the years while the San Francisco population has declined over the same period.³ Furthermore, the most recent nationwide estimate for the Black or African American population is 13%, which is nearly equal to the 14% of Black or African American appointees present on San Francisco policy bodies.⁴

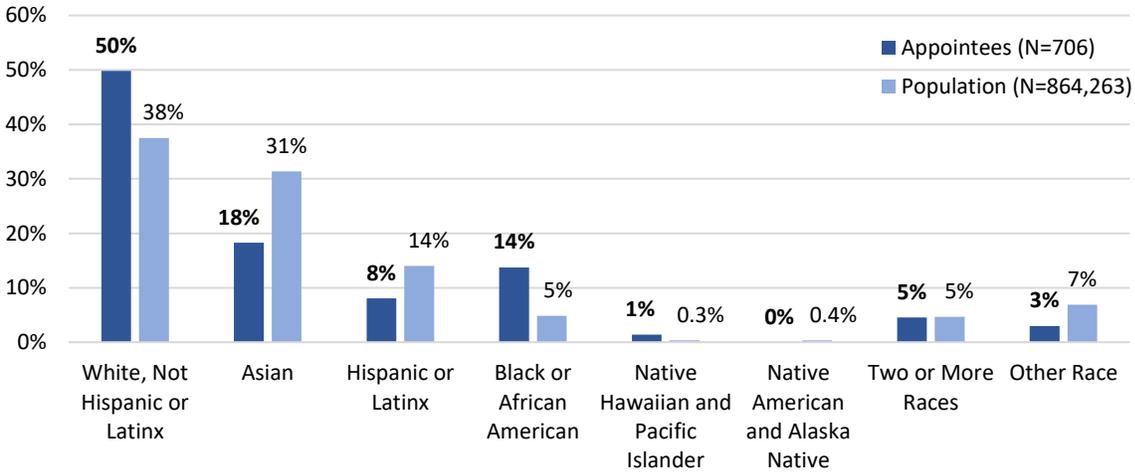

Considerably underrepresented racial and ethnic groups on San Francisco policy bodies compared to the San Francisco population are individuals who identify as Asian or Latinx. While Asians are 31% of the San Francisco population, they only make up 18% of appointees. While the Latinx population of San Francisco is 14%, only 8% of appointees are Latinx. Although there is a small population of Native

Americans and Alaska Natives in San Francisco of 0.4%, none of the surveyed appointees identified themselves as such.

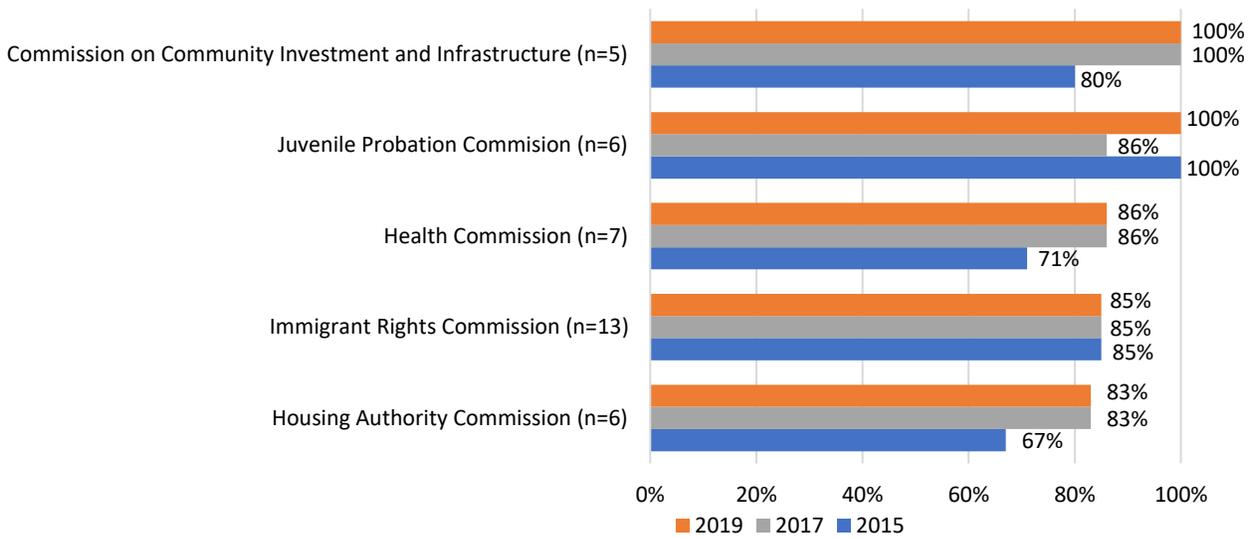

Figure 7: Race and Ethnicity of Appointees Compared to San Francisco Population, 2019

Sources: 2017 American Community Survey 5-Year Estimates, SF DOSW Data Collection & Analysis.

The next two graphs illustrate Commissions and Boards, and Advisory Bodies with the highest and lowest percentages of people of color. As shown in Figure 8, the Commission on Community Investment and Infrastructure remained at 100% from 2017, while the Juvenile Probation Commission has returned to 100% this year after a dip in 2017. Next is the Health Commission, Immigrant Rights Commission, and Housing Authority Commission at 86%, 85%, and 83%, respectively. Percentages of people of color on both the Health Commission and the Housing Authority Commission increased following 2015, and have remained consistent since 2017.

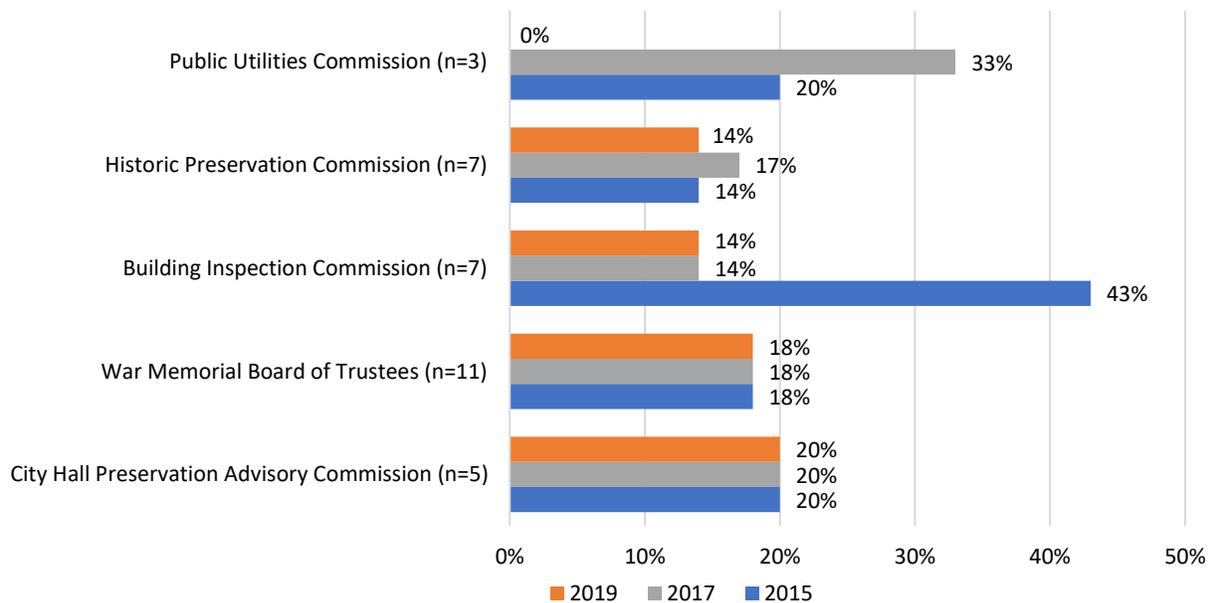

Figure 8: Commissions and Boards with Highest Percentage of People of Color, 2019 Compared to 2017, 2015

Source: SF DOSW Data Collection & Analysis.

There are 23 policy bodies that have 40% or less appointees who identified a racial and ethnic category other than white. Although the Public Utilities Commission has two vacancies, *none* of the current appointees identify as people of color. The Historic Preservation Commission and Building Inspection Commission are both at 14% representation for people of color. The Building Inspection Commission had a large drop from 43% in 2015, with the percentage of people of color decreasing to 14% in 2017 and remaining at this percent for 2019. Lastly, the War Memorial Board of Trustees and City Hall Preservation Advisory Commission have 18% and 20%, respectively.

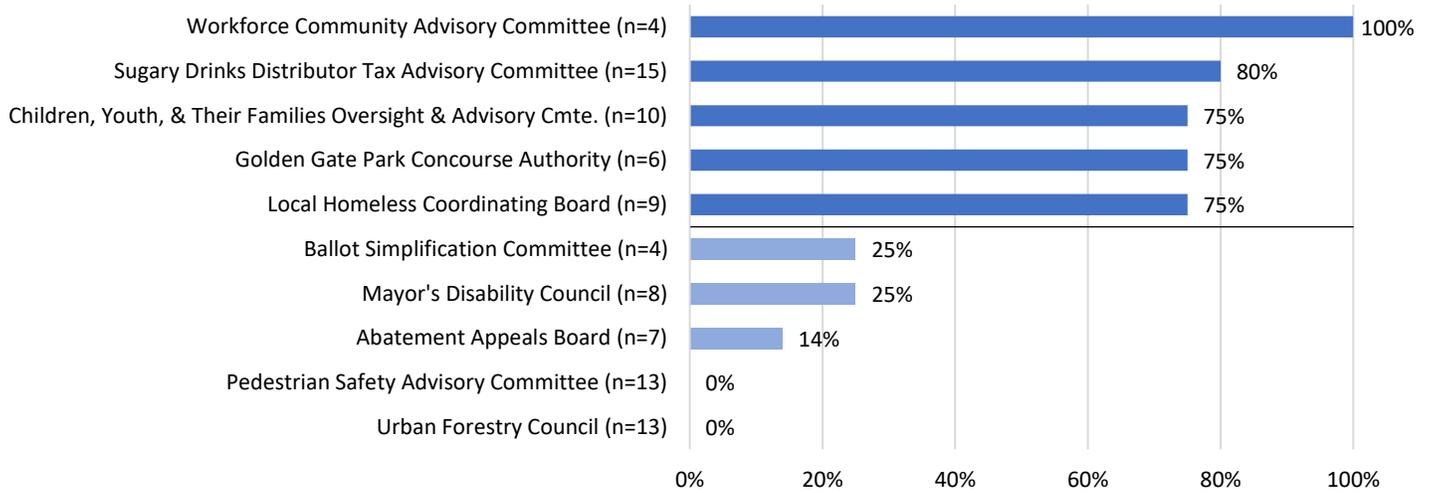

Figure 9: Commissions and Boards with Lowest Percentage of People of Color, 2019 Compared to 2017, 2015

Source: SF DOSW Data Collection & Analysis.

In addition to Commissions and Boards, Advisory Bodies were examined for the highest and lowest percentages of people of color. This is the first year such bodies have been included, thus comparison to previous years is unavailable. All members of the Workforce Community Advisory Committee are people of color. People of color comprise 80% of the Sugary Drinks Distributor Tax Advisory Committee, and 75% of appointees on the Children, Youth and Their Families Oversight and Advisory Committee, the Golden Gate Park Concourse Authority, and the Local Homeless Coordinating Board. Out of the five Advisory Bodies with the lowest representation of people of color, the Ballot Simplification Committee and the Mayor’s Disability Council have 25% appointees of color, and the Abatement Appeals Board has 14% appointees of color. The Urban Forestry and the Pedestrian Safety Advisory Committee have no people of color currently serving.

Figure 10: Advisory Bodies with the Highest and Lowest Percentage of People of Color, 2019

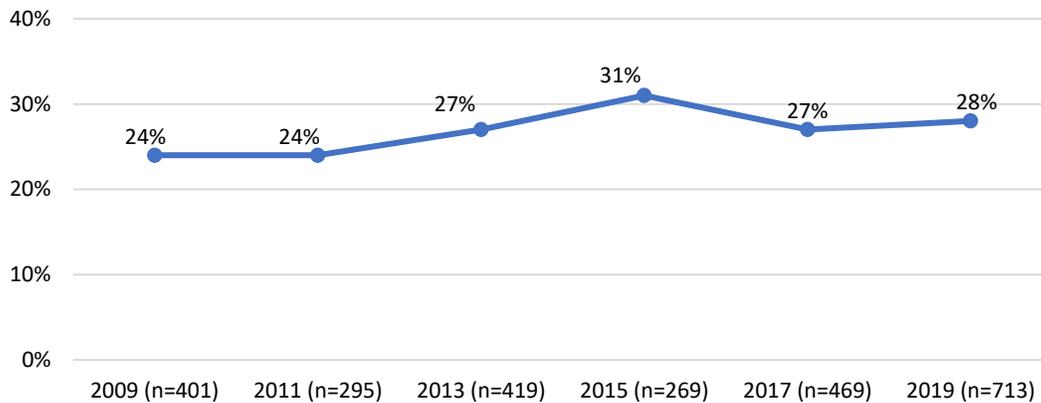

Source: SF DOSW Data Collection & Analysis.

C. Race and Ethnicity by Gender

White men and women are overrepresented on San Francisco policy bodies, while Asian and Latinx men and women are underrepresented. While women of color continue to be underrepresented at 28% compared to the San Francisco population of 32%, this is a slight increase from 2017 which showed 27% women of color. Meanwhile, men of color are 21% of appointees compared to 31% of the San Francisco population.

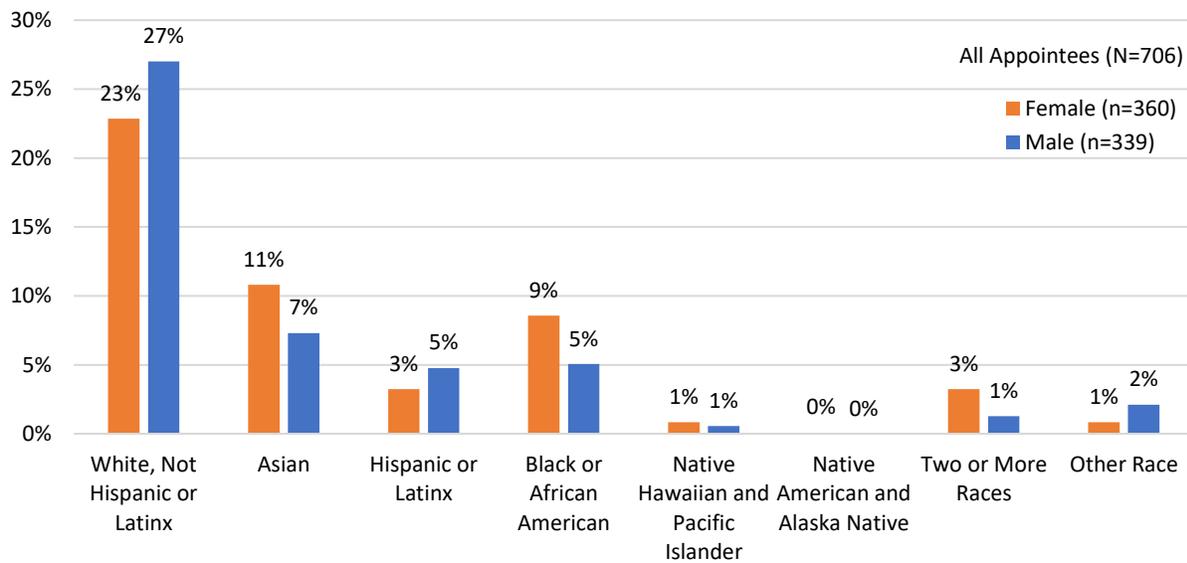

Figure 11: 10-Year Comparison of Representation of Women of Color on Policy Bodies

Source: SF DOSW Data Collection & Analysis.

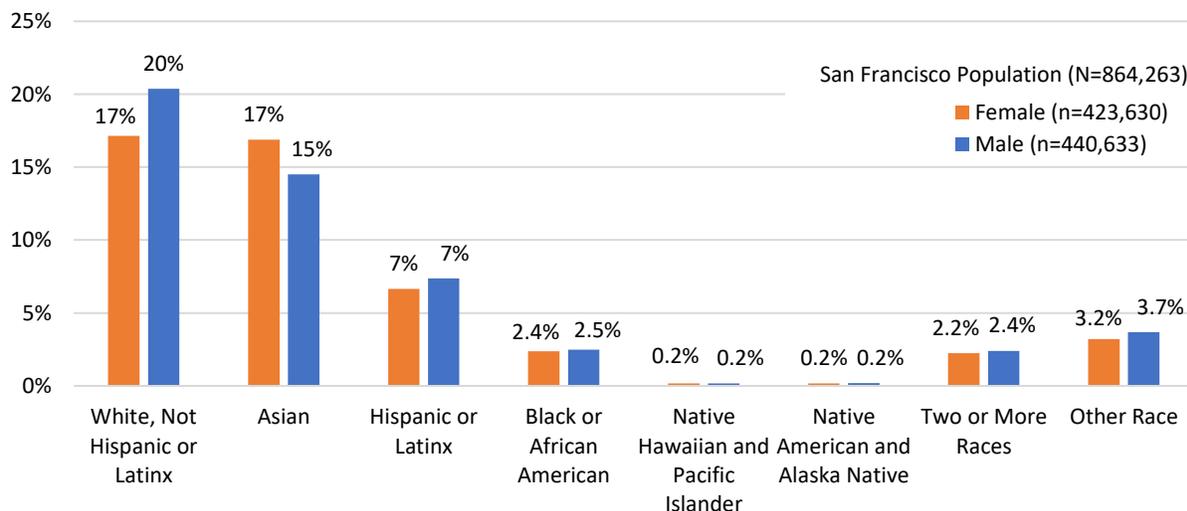

The following figures present the breakdown for appointees and the San Francisco population by race and ethnicity and gender. White men and women are overrepresented, holding 27% and 23% of appointments, respectively, compared to 20% and 17% of the population, respectively. Asian men and women are both greatly underrepresented with Asian women making up 11% of appointees compared to 17% of the population while Asian men comprise 7% of appointees and 15% of the population. Latinx men and women are also underrepresented, particularly Latinx women, who are 3% of appointees and 7% of the population, while Latinx men are 5% of appointees and 7% of the population. Black or African American men and women are well-represented with Black women comprising 9% of appointees and Black men comprising 5% of appointees. Pacific Islander men and women, and multiethnic women also exceed parity with the population. Although Native American men and women make up only 0.4% of San Francisco’s population, none of the surveyed appointees identified themselves as such.

Figure 13: San Francisco Population by Race/Ethnicity, 2019

Source: 2017 American Community Survey 5-Year Estimates.

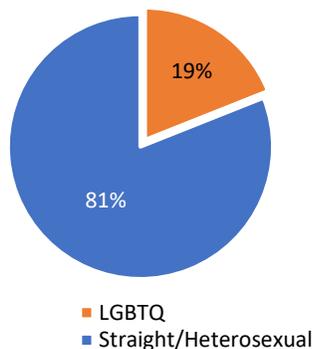

D. LGBTQ Identity

Lesbian, gay, bisexual, transgender, queer, and questioning (LGBTQ) identity data was collected from 548, or 75%, of the 741 surveyed appointees, which is much more data on LGBTQ identity compared to previous reports. Due to limited and outdated information on the population of the LGBTQ community in San Francisco, it is difficult to adequately assess the representation of the LGBTQ community. However, compared to available San Francisco, larger Bay Area, and national data, the LGBTQ community is well represented on San Francisco policy bodies. Recent research estimates the national LGBT population is 4.5%.⁵ The LGBT population of the San Francisco and greater Bay Area is estimated to rank the highest of U.S. cities at 6.2%,⁶ while a 2006 survey found that 15.4% of adults in San Francisco identify as LGBT⁷.

Of the appointees who responded to this question, 19% identify as LGBTQ and 81% identify as straight or heterosexual. Of the LGBTQ appointees, 48% identify as gay, 23% as lesbian, 17% as bisexual, 7% as queer, 5% as transgender, and 1% as questioning. Data on LGBTQ identity by race was not captured. Efforts to capture data on LGBTQ identity by race for future reports would enable more intersectional analysis.

E. Disability Status

Overall, 12% of adults in San Francisco have one or more disabilities, and when broken down by gender, 6.2% are women and 5.7% are men. Disability data for transgender and gender non-conforming individuals in San Francisco is currently unavailable. Data on disability was obtained from 516, or 70%, of the 741 appointees who participated in the survey. Of the 516 appointees, 11.2% reported to have one

or more disabilities, which is near parity with the San Francisco population. Of the 11.2% appointees with one or more disabilities, 6.8% are women, 3.9% are men, 0.4% are trans women, and 0.2% are trans men.

Figure 16: San Francisco Adult Population with a Disability by Gender, 2017

Source: 2017 American Community Survey 5-Year Estimates.

Figure 17: Appointees with One or More Disabilities by Gender, 2019

(N=516)

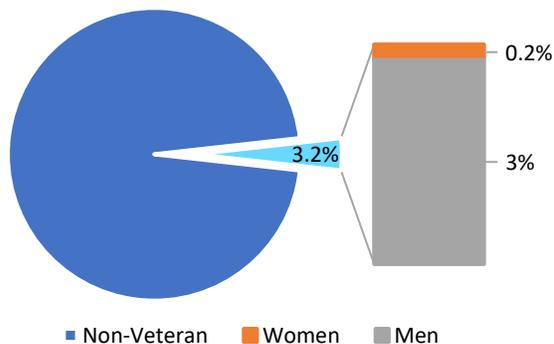

Source: SF DOSW Data Collection & Analysis.

F. Veteran Status

Overall, 3.2% of the adult population in San Francisco has served in the military. There is a considerable difference by gender, as male veterans are 3% and female veterans are 0.2% of the population. Data on veteran status was obtained from 494, or 67%, of appointees who participated in the survey. Of the 494 appointees who responded to this question, 7.1% have served in the military. Like the San Francisco population, there is a large difference by gender, as men comprise 5.7% and women make up only 1.2% of the total number of veteran appointees. Of participating appointees, 0.2% of veterans are trans women. Veteran status data on transgender and gender non-conforming individuals in San Francisco is currently unavailable.

G. Policy Bodies by Budget

This report also examines whether policy bodies with the largest and smallest budget sizes and other characteristics are demographically representative of the San Francisco population. In this section, budget size is used as a proxy for influence. Although this report has expanded the scope of analysis to include more policy bodies compared to previous reports, this section of analysis was limited to Commissions and Boards with decision-making authority and whose members file financial disclosures with the Ethics Commission. The purpose of this analysis is to evaluate the demographics for the spectrum of budgetary influence of policy bodies with decision-making authority in San Francisco.

Overall, appointees from the 10 largest budgeted Commissions and Boards are 55% people of color, 41% women, and 23% women of color. Appointees from the 10 smallest budgeted Commissions and Boards are 54% people of color, 52% women, and 32% women of color. Although still below parity with the San Francisco population, the representation of people of color on both the largest and smallest budgeted policy bodies is greater than the percentage of people of color for all appointees combined (50%). For women and women of color, their representation meets or exceeds parity with the population on the 10 smallest budgeted bodies. However, it falls far below parity for the 10 largest budgeted bodies. The representation of total women and women of color is greater on smaller budgeted policy bodies by 27%, and 39%, respectively.

H. Comparison of Advisory Body and Commission and Board Demographics

The comparison of the two policy body categories in this section provides another proxy for influence, as Commissions and Boards whose members file disclosures of economic interest have greater decision-making authority in San Francisco than Advisory Bodies whose members do not file economic interest disclosures. The percentages of total women, LGBTQ people, people with disabilities, and veterans are larger for total appointees on Advisory Bodies. However, the percentages of women of color and people of color on Commissions and Boards slightly exceeds the percentages of women of color and people of color on Advisory Bodies.

Figure 23: Demographics of Appointees on Commission and Boards and Advisory Bodies, 2019

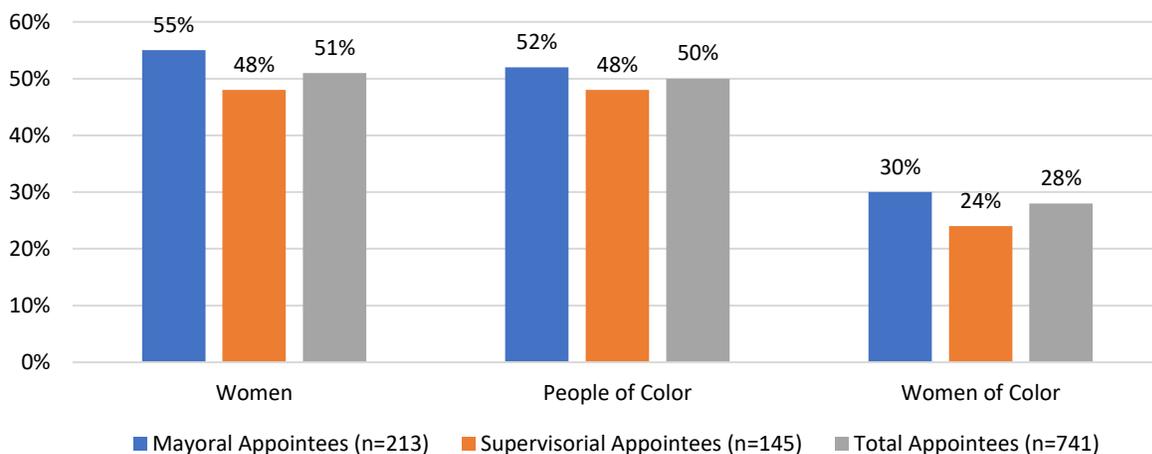

Source: SF DOSW Data Collection & Analysis.

I. Demographics of Mayoral, Supervisorial, and Total Appointees

Figure 24 compares the representation of women, women of color, and people of color for appointments made by the Mayor, Board of Supervisors, and by the total of all approving authorities combined. Mayoral appointments are more diverse, and consist of more women, women of color, and people of color compared to Supervisorial appointments. Mayoral appointments include 55% women, 30% women of color, and 52% people of color, while Supervisorial appointments are 48% women, 24% women of color, and 48% people of color. The total of all approving authorities combined average out at 51% women, 28% women of color, and 50% people of color. This disparity in diversity between Mayoral and Supervisorial appointments may be due in part to the appointment section process for each authority. The 11-member Board of Supervisors only sees applicants for specific bodies through the 3-member Rules Committee or by designees, stipulated in legislation (e.g. “renter,” “landlord,” “consumer advocate”), whereas the Mayor typically has the ability to take total appointments into account during selections, and can therefore better address gaps in diversity.

Figure 24: Demographics of Mayoral, Supervisorial, and Total Appointees, 2019

Source: SF DOSW Data Collection & Analysis.

III. Conclusion

Since the first gender analysis of Commissions and Boards in 2007, the representation of women appointees on San Francisco policy bodies has gradually increased. The *2019 Gender Analysis* finds the percentage of women appointees is 51%, which slightly exceeds the population of women in San Francisco.

When appointee demographics are analyzed by gender and race, women of color continue to be underrepresented on San Francisco policy bodies compared to the San Francisco population. Most notably underrepresented are Asian women who make up 17% of the population but only 11% of appointees, and Latinx women who make up 7% of the population but only 3% of appointees. Additionally, men of color are underrepresented relative to their San Francisco population, primarily Asian and Latinx men.

Furthermore, when analyzing the demographic composition of larger and smaller budgeted Commissions and Boards, women are underrepresented on those with the largest budgets, and overrepresented or reach parity with the population on smaller budgeted Commissions and Boards. These two trends are amplified for women of color appointees. Women comprise 41% of total appointees on the largest budgeted policy bodies, which is 8 percentage points below the population, and women of color comprise 23% of total appointees on the largest budgeted policy bodies, 9 percentage points below their San Francisco population. Comparatively, women are 52% of total appointees on the smallest budgeted policy bodies, and women of color are 32% of appointees, which is equal to the San Francisco population. However, the issue of largest and smallest budgeted policy bodies does not seem to impact the representation of people of color. People of color make up 55% of appointees on the largest budgeted policy bodies and 54% of appointees on the smallest budgeted policy bodies compared to 50% of total appointees. Nonetheless, these percentages still fall below the San Francisco population of people of color at 62%.

In addition to using budget size as a proxy for influence, this report analyzed demographic characteristics of appointees on Commissions and Boards who file disclosures of economic interest and have decision-making authority, and appointees on Advisory Bodies who do not file economic interest disclosures. Over half (54%) of appointees on Advisory Bodies are women, while 48% of appointees on Commissions and Boards are women. Although 48% is only slightly below the San Francisco population of women, women comprise a decently higher percentage of appointees on Advisory Bodies compared to Commissions and Boards.

This year's report features more data on LGBTQ identity, veteran status, and disability than previous gender analyses. The *2019 Gender Analysis* found a relatively high representation of LGBTQ individuals on San Francisco policy bodies. For the appointees that provided LGBTQ identity information, 19% identify as LGBTQ with the largest subset being gay men at 48%. It is recommended for future gender analyses to collect LGBTQ data by race and gender to provide additional intersectional analysis. The representation of appointees with disabilities is 11%, just below the 12% population. Veterans are highly represented on San Francisco policy bodies at 7% compared to the veteran population of 3%.

Additionally, this report evaluates and compares the representation of women, women of color, and people of color appointees by the Mayor, Board of Supervisors, and by the total of all approving authorities combined. Mayoral appointees include 55% women, 30% women of color, and 52% people

of color, which overall is more diverse by gender and race compared to both Supervisorial appointees and total appointees.

This report is intended to advise the Mayor, Board of Supervisors, and other appointing authorities, as they select appointments for policy bodies of the City and County of San Francisco. In spirit of the 2008 City Charter Amendment that establishes this biennial Gender Analysis report requirement and the importance of diversity on San Francisco policy bodies, efforts to address gaps in diversity and inclusion should remain at the forefront when making appointments in order to accurately reflect the population of San Francisco.

IV. Methodology and Limitations

This report focuses on City and County of San Francisco Commissions, Boards, Task Forces, Councils, and Committees that have the majority of members appointed by the Mayor and Board of Supervisors and that have jurisdiction limited to the City. The gender analysis reflects data from the policy bodies that provided information to the Department on the Status of Women through digital and paper survey.

Data was requested from 90 policy bodies and acquired from 84 different policy bodies and a total of 741 appointees. A Commissioner or Board member's gender identity, race/ethnicity, sexual orientation, disability status, and veteran status were among data elements collected on a voluntary basis. Data on lesbian, gay, bisexual, transgender, queer, or questioning (LGBTQ) identity, disability, and veteran status of appointees were incomplete or unavailable for some appointees but are included to the extent possible. As the fundamental objective of this report is to surface patterns of underrepresentation, every attempt has been made to reflect accurate and complete information in this report. Data for some policy bodies was incomplete, and all appointees who responded were included in the total demographic categories. Only policy bodies with full data on gender and race for all appointees were included in sections comparing demographics of individual bodies. It should be noted that for policy bodies with a small number of members, the change of a single individual greatly impacts the percentages of demographic categories. As such, these percentages should be interpreted with this in mind.

The surveyed policy bodies fall under two categories designated by the San Francisco Office of the City Attorney document entitled *List of City Boards, Commissions, and Advisory Bodies Created by Charter, Ordinance, or Statute*.⁸ This document separates San Francisco policy bodies into two different categories. The first category includes Commissions and Boards with decision-making authority and whose members are required to submit financial disclosures with the Ethics Commission, and the second category encompasses Advisory Bodies whose members do not submit financial disclosures with the Ethics Commission. Depending on the analysis criteria in each section of this report, the surveyed policy bodies and appointees are either examined comprehensively as a whole or examined separately in the two categories designated by the Office of the City Attorney.

Data from the U.S. Census 2013-2017 American Community Survey 5-Year Estimates provides a comparison to the San Francisco population. Figures 26 and 27 in the Appendix display these population estimates by race/ethnicity and gender.

⁸ "List of City Boards, Commissions, and Advisory Bodies Created by Charter, Ordinance, or Statute," Office of the City Attorney, <https://www.sfcityattorney.org/wp-content/uploads/2016/01/Commission-List-08252017.pdf>, (August 25, 2017).
