Breaking the Cycle and Interim Housing Expansion

1. Breaking the Cycle
2. New Mayoral Initiatives
3. Other Investments

Focus on Street Conditions

Street Conditions

- Three interconnected crises that compound each other's effects
- Necessity for comprehensive, multi-domain interventions

Drug supply & accessibility

- Proliferation of synthetic opioids, particularly fentanyl
- Establishment of open-air drug markets
- High availability coupled with decreased cost barriers

Homelessness

- Limited inventory of the “right beds” and affordable housing capacity
- Systemic barriers to sustained recovery
- Inflow from other cities/counties

Behavioral health crisis

- Inadequate treatment for severe mental illness
- Co-occurring substance use disorders
- Critical shortage of psychiatric facilities and services

Breaking the Cycle

Improve our behavioral health and **homelessness response system** to have greater **accountability**, better **integrated service delivery**, and **improved outcomes** that prioritize both compassionate care and responsible governance.

1. Build a system that helps people achieve lasting stability

2. Restore public spaces to achieve clean and safe streets

3. Drive more responsible governance and accountability

New Mayoral Initiatives

HSH's budget includes new investments to support the Mayor's **Breaking the Cycle** initiative.

Interim
Housing
Expansion

Addressing
Vehicular
Homelessness

Journey Home

Neighborhood

Family Housing

Interim Housing Expansion

\$122 million over 3 years to operate **~630** new interim housing beds and maintain current system capacity.

FY 2025-28 Investments

\$91 m

- Up to **630 new interim housing beds** at both new and existing sites serving adults, families, people in recovery and people fleeing violence.

\$31 m

- Continues projects funded last year with one-time resources including **56 beds** of recovery transitional housing and **130 hotel vouchers** for families.

Interim Housing Key Principals

Ensure service and program types are selected to best serve the **different segments of need** in our unsheltered population

Bring services to those who need them, while ensuring communities have the resources they need to serve their unsheltered population and address street conditions, and **ensure sites are as safe outside as they are inside.**

Build transparent, accountable partnerships between the City and service providers to **ensure high quality service delivery** and responsible stewardship of taxpayer resources.

Temporarily surge capacity of interim housing while making **systemic changes** in parallel to improve outflow to stability, that will ultimately allow us to operate efficiently with reduced resources.

Addressing Vehicular Homelessness

The city is proposing a **multipronged strategy** that combines best practices from around the country to address vehicular homelessness.

FY 2025-27 Investments

Key Principals

Implement innovative and humane approaches that **reduce vehicular homelessness** by addressing the immediate safety and stability needs as well as **creating pathways to permanent housing** for people living in vehicles, who represent our most vulnerable residents

Restore public spaces, **public safety, public health and neighborhood livability** by effectively enforcing and managing oversized vehicle parking **without criminalizing poverty**.
