

APEC IMPACTS ON THE DISTRICT

October 23, 2023

Dear President Peskin and Members of the Board of Supervisors:

Thank you for your support of working class families, seniors and small businesses in the South of Market and throughout the City.

We are community serving groups, cultural institutions, and small businesses in and around the vicinity of the Moscone Center and we are writing to express our strong support for Supervisor Connie Chan's resolution to protect immigrant families, seniors, and small businesses in the upcoming APEC summit November 11-18, 2023.

We are concerned that the upcoming APEC Summit will have a significant impact on our community's safety, mobility, ability to work, go to school, make a living and access critical services including medical appointments and cultural and community programs.

As you know, the South of Market is home to a concentration of families and seniors, with a number of affordable housing and senior buildings near Moscone between Folsom and Harrison, cultural institutions, and small businesses in and around the exclusion zone.

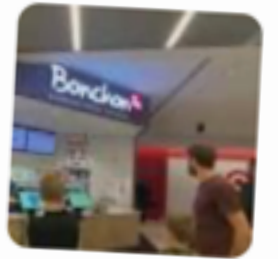

APEC perimeter will impact not only our residents, workers, and small businesses but also the community. They will face vehicular and

SF Small Business Petition: APEC Financial Loss Mitigation

Dear Mayor London Breed and Members of the Board of Supervisors:

We, the undersigned, San Francisco small business owners are appealing to you to please work collaboratively with us to address the devastating financial impacts of the City hosting APEC on small businesses in and around the Moscone/Yerba Buena area, and other locations impacted by security fencing for the heads of States and CEO's of billion-dollar companies.

City leadership had branded APEC as having great potential for the small businesses of the host district and the City at large. We were told in numerous meetings, conference calls and interviews that attendees will be exploring our beloved neighborhoods, patronizing our restaurants, and injecting much-needed revenue into the recovering SOMA business sector.

Some small business owners expressed our concerns to the City promptly upon learning about the installation of a U.S. Secret Service perimeter. We expressed our deep fears that the perimeter would cut us off from our main arteries of revenue. Additionally, we warned that the businesses within the perimeter would be completely dependent on an APEC attendee population that would have the majority of their catering needs provided within the Moscone Convention Center.

All of the evidence pointed to it being a week of great financial loss for small business owners.

“Traditionally, Veteran’s Day holiday is our busiest day of the year at the Children’s Creativity Museum. This year, unfortunately, our families were seeing pictures like this in the news and decided to avoid the area due to access, safety, and transportation concerns.

It’s not just the revenue we are worried about. Over 25% of our visitors are low-income and visit for free. We know that all children need safe places for playful learning and when we are closed, families lose out.”

“ The city only cleaned up SOMA for this event and doesn’t seem to care about small businesses in this area. The police had no idea what was going on and would just tell me to “find someone with a star on their collar” and I have no idea what that means, nor would they tell me. This event benefited no one and caused more damage to SOMA. “

Kona’s Street Market.

77% Drop In Business

A street scene in San Francisco, likely near the Moscone Center. Several people are walking on a paved sidewalk. In the background, a purple banner with the text "MOSCONE NORTH" is visible. The scene is captured in a high-angle, slightly blurred shot.

"The city's hoping that international investment will come out of this. But will the small business owners in SoMa who have tried to endure the pandemic - will we be alive?"
