Free summer learning programs for our youth

The Summer Together Initiative is a coalition of community organizations, nonprofits, businesses, and city departments partnering to offer free in-person and virtual learning experiences for SFUSD students this summer.

A year of loss

The pandemic has devastated the physical, mental, & economic health of our communities. Our children & youth are no exceptions.

SFUSD students have struggled to stay connected to their education, missing classes & assignments at high rates

Young people have been isolated from their peers at a time critical for their social & emotional development

Children of all ages are experiencing severe mental health issues as a result of the pandemic

Exacerbated pre-existing inequities have magnified these issues for our Black, Latinx, Pacific Islander, low income, & English Language Learner children & youth

A summer of recovery

We're focusing on continuity of learning, supplementing traditional summer programming with:

- Curriculum to combat learning loss
- Comprehensive support for young people & their families
- Social, emotional, & mental health supports

Learning for all, Individualized attention

- Academic assistances through fun activities
- Enrichment & physical recreation
- High school credit recovery & college/career prep
- Ethnic studies
