MANDATE STATEMENT

City Charter Section 9.113(e) provides that the Board of Supervisors has the power to borrow money through the use of commercial paper or other short-term indebtedness. Administrative Code Section 10.62 provides that the Board of Supervisors may authorize the issuance of Certificates of Participation (COPs) and other lease financing debt as funding sources for capital projects. Administrative Code Section 10.62(c)(1) also provides that the Director of Public Finance may issue tax-exempt and/or taxable commercial paper to provide interim funds to finance the acquisition, construction and rehabilitation of capital improvements and capital equipment, after prior approval of the project and financing plan by the Board of Supervisors and the Mayor.

City Charter Section 9.105 provides that amendments to the Annual Appropriations Ordinance, after the Controller certifies the availability of funds, are subject to Board of Supervisors approval by ordinance.

BACKGROUND

The City's Ten Year Capital Plan (FY 2016-2025), approved by the Board of Supervisors in April 2015, recommended seismic improvements to or relocation of the Animal Care and Control Shelter at 1200 15th Street. The Capital Plan recommended that \$49 million, to seismically retrofit and renovate the City's Animal Care and Control Shelter, be included in a \$311 million Public Health and Safety General Obligation Bond to be submitted to the voters for the June 2016 ballot.

The City's Capital Planning Committee revised the proposed Public Health and Safety General Obligation Bond proposal in January 2016 to remove the Animal Care and Control Shelter. As an alternative, the Capital Planning Committee recommended amending the City's Certificate of Participation (COPs) program to include construction a new seismically-safe Animal Care and Control Shelter.

The Board of Supervisors approved a resolution in March 2016, amending the City's Ten Year Capital Plan to provide for the financing of an Animal Care and Control Shelter, using COPs (File 16-0120). According to the resolution, the Animal Care and Control Shelter would be relocated from its current location at 1200 15th Street to a new location at 1419 Bryant Street at an estimated cost of \$54,000,000.

DETAILS OF PROPOSED LEGISLATION

The proposed ordinance appropriates \$60,500,000 in Certificates of Participation to the Department of Administrative Services in FY 2015-16 for the Animal Care and Control Renovation Project.

New Animal Care and Control Shelter

The proposed new Animal Care and Control Shelter would be located at City-owned property at 1419 Bryant Street, which is under the jurisdiction of the San Francisco Municipal

Transportation Agency (SFMTA), and is currently used as a maintenance facility for Muni's overhead power lines. 1419 Bryant Street is a 47,998 square foot site, containing one 34,350 square foot building which is used as SFMTA's maintenance facility, a smaller building used by SFMTA for storage, and a 22-space surface parking lot. According to Ms. Sonali Bose, SFMTA Chief Financial Officer, the 34,350 square foot building is unreinforced masonry, seismically unsafe, and no longer usable for SFMTA purposes. SFMTA will relocate the maintenance facility to a city-owned property at 1570 and 1580 Burke Avenue. The estimated cost to relocate SFMTA to 1570 and 1580 Burke Avenue, including construction of improvements for SFMTA's Central Warehouse and Transit Overhead Lines Unit, is \$30 million. According to Ms. Bose, sources of funds, totaling \$30,000,000 to pay for these costs come from the SFMTA operating budget (\$150,000), Proposition K Transportation Sales Tax (\$4,400,000), and 2014 Proposition A Transportation and Road Improvement Bond proceeds (\$25,450,000).

The proposed Animal Care and Control Renovation Project would convert the 34,350 square foot building at 1419 Bryant Street, currently used by SFMTA for a maintenance facility, for use as an animal shelter, including adding a second floor to the building. The ground floor space would house animals, an exterior dog run, public lobbies, staff offices, veterinary offices, and a loading port. The second floor space would house adoption facilities, classrooms, accessory offices, staff rooms, and additional animal holding areas. SFMTA would continue to use the smaller building for storage.

Construction of the new Animal Care and Control Shelter at 1419 Bryant Street is expected to begin in May 2018 and be completed in August 2020, a period of approximately 28 months. Once completed, the Animal Care and Control Shelter would relocate from 1200 15th Street to 1419 Bryant Street in approximately October 2020.

The Planning Commission determined that construction of the new Animal Care and Control Shelter at 1419 Bryant was exempt from environmental review under the California Environmental Quality Act (CEQA).

FISCAL IMPACT

The current cost estimate to relocate and construct a new Animal Care and Control Shelter at 1419 Bryant Street is \$53,760,000, as shown in Table 1 below:

^a \$4,760,000 in General Fund monies were previously appropriated by the Board of Supervisors.

The proposed ordinance appropriates \$60,500,000 in Certificates of Participation, of which \$49,000,000 would be allocated to the Animal Care and Control Renovation Project, \$10,580,000 would be allocated to reserves and financing costs and \$920,000 would be a reserve for market uncertainty.

Source: Office of Public Finance

According to Ms. Nadia Sesay, Controller's Office Director of Public Finance, legislation to authorize the sale of Certificates of Participation will be submitted to the Board of Supervisors in the Fall of 2016. The Controller's Office estimates to sell \$59,580,000 in COPs at an annual interest rate of 6.622 percent. Average annual debt service is estimated to be \$5,241,710. Total estimated interest and principal payments over the 20-year term of the COPs are \$110,075,900¹.

Annual debt service on the COPs comes from the General Fund subject to appropriation approval by the Board of Supervisors. According to Ms. Sesay, the sale of \$59,580,000 in COPs will result in General Fund debt that is within the constraints set by the Capital Plan of no more than 3.25 percent of discretionary General Fund revenues.

The proposed ordinance places the \$60,500,000 appropriation on Controller's Reserve pending authorization by the Board of Supervisors and sale of the Certificates of Participation.

RECOMMENDATION

Approve the proposed resolution.

¹ Annual debt service in years 3 through 19 is approximately \$5.4 million. Capitalized interest and reserves would be applied to debt service in years 1, 2 and 20, resulting in average annual debt service of \$5.2 million.
