

REVISED LEGISLATIVE DIGEST
(Substituted, 1/10/2017)

[Administrative, Business and Tax Regulations, Police Codes - Elimination of Fees]

Ordinance amending the Administrative, Business and Tax Regulations, and Police Codes to eliminate various fees imposed by the City.

Existing Law

Various sections of the Municipal Codes authorize City departments to charge regulatory fees to recover the costs of the departments' regulatory activities. These fees are adopted by ordinance and adjusted annually by the Controller to reflect changes in the Consumer Price Index.

Amendments to Current Law

The proposed ordinance would eliminate a variety of fees at the recommendation of the Police Department and Entertainment Commission. In the judgment of those departments, the fees are outdated and unnecessary.
