LEGISLATIVE DIGEST
(Revised 6/27/2022)

[Charter Amendment - Public Works Department and Commission, Sanitation and Streets Department and Commission]

Describing and setting forth a proposal to the voters at an election to be held on November 8, 2022, to amend the Charter of the City and County of San Francisco to eliminate the Department of Sanitation and Streets and transfer its responsibilities to the Department of Public Works; to remove special qualifications for members of the Sanitation and Streets Commission and Public Works Commission and for the Director of Public Works; to limit the duties of the Sanitation and Streets Commission to holding hearings, reviewing data, and setting policies for the Department of Public Works regarding sanitation standards and protocols and maintenance of the public right of way; and to provide that the Public Works Commission shall oversee all other aspects of the Department of Public Works.

Existing Law

In November 2020, the voters approved Proposition B, a Charter amendment that divided the Department of Public Works into two separate departments—a Department of Public Works and a Department of Sanitation and Streets. Under Proposition B, the Department of Public Works is responsible for designing, building, and improving the City’s infrastructure and public right of way. The Director of Public Works must be qualified by either technical training or management experience in engineering or architecture. And the Department of Sanitation and Streets is responsible for sweeping streets and cleaning sidewalks, providing and maintaining sidewalk trash cans, removing graffiti and illegally dumped waste, and maintaining City buildings, public restrooms, and street trees.

Proposition B also established a commission to oversee each department—a Public Works Commission and a Sanitation and Streets Commission. Each commission must have five members: two appointed by the Board of Supervisors, two appointed by the Mayor subject to approval by the Board of Supervisors, and one appointed by the Controller subject to approval by the Board of Supervisors. Proposition B listed specific oversight duties for the two commissions, including duties related to regarding approval of departmental contracts and review of performance under those contracts, and review of staffing of departmental positions. Members of the commissions must have specified qualifications or backgrounds.

Under the transition rules in Proposition B, the Public Works Commission and the Sanitation and Streets Commission will come into existence in July 2022, and the Department of Sanitation and Streets will come into existence in October 2022.

Proposition B also requires the Controller to conduct an annual analysis evaluating whether there are inefficiencies or waste in the two departments' administration, operations, or division of labor.

Amendments to Current Law

The proposed Charter amendment will eliminate the Department of Sanitation and Streets, and transfer all the powers and duties of that department back to the Department of Public Works.

The proposed Charter amendment will also modify the powers of the two commissions established by Proposition B. The Public Works Commission will have oversight authority over the Department of Public Works, including the power to set policy for the department except in areas within the policymaking jurisdiction of the Sanitation and Streets Commission. The Public Works Commission will also have authority to make recommendations to the Mayor for appointment of the department head, and to remove the department head. The proposed Charter amendment will remove the specific list of Commission duties related to contracts and staffing.

The Sanitation and Streets Commission will have more limited authority to hold hearings and set policy for the Department of Public Works regarding sanitation standards and protocols, and maintenance of the public right of way. The Commission will also have responsibility for evaluating data regarding the street and sidewalk conditions of the public right of way, and establishing minimum standards of cleanliness for the public right of way.

The proposed Charter amendment will also remove the required qualifications for members of the two commissions, and replace those requirements with a list of desirable qualifications for the commissioners. Even though the commissions' powers and the members' qualification requirements will change, the commissions will continue to exist uninterrupted, and the appointed members may continue to serve their current terms.

The proposed Charter amendment also will remove the requirement for the Controller to conduct an annual audit regarding waste and inefficiency in the two departments, but the Controller will retain the authority to audit the Department of Public Works.

RE: File 220635 – Charter amendment combining Public Works Department and Sanitation and Streets Department and establish the Public Works Commission and the Sanitation and Streets Commission

Dear Ms. Calvillo,

Should the proposed Charter amendment be approved by the voters, in my opinion, it would significantly reduce the cost of government.

Beginning in Fiscal Year 2022-23 (FY23), estimated savings would start at approximately \$3.5 million and decrease to \$2.5 million in FY24. Cost savings under this amendment would likely increase in future years if the Board were to authorize independent administrative support for Department of Sanitation and Streets (SAS).

This amendment will make changes to Proposition B, a Charter amendment approved by voters in November 2020 to separate the Department of Public Works (DPW) into two separate departments and establish a commission for each.

The proposed Charter amendment would transfer the responsibilities of the SAS back to DPW, eliminating the newly created SAS. The amendment would also establish a new seven-member Public Works Commission to replace the existing five-member Public Works Commission that oversees DPW. Additionally, the amendment would eliminate the existing five-member Sanitation and Streets Commission and establish a new seven-member Sanitation and Streets Commission that will oversee DPW maintenance of the public right of way and sanitation standards and protocols.

Approximately 765 full-time equivalent employees would be moved from SAS to DPW. Recombining departments would reduce the number of staff needed to perform administrative functions for both departments by 9.7 full-time equivalent employees in FY23 and 12 full-time equivalent employees in FY24. DPW would no longer need additional accounting, contracts and information technology staff and SAS would no longer need a department head or administrative

staff. Additionally, the proposed amendment would create other one-time and ongoing costs savings including reductions to administrative services, equipment, and professional services.

Sincerely,

Natasha Mihal

Subject: File 220535: Replace HSH Commission Mayoral-appointed business seat with Board-nominated supportive housing tenant
Date: Tuesday, May 31, 2022 7:27:23 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board Of Supervisors Rules Committee,

My name is Laksh Bhasin and I coordinate the SF Berniecrats Housing Committee. I am writing to you to oppose the proposed HSH Commission Charter Amendment ([File 220535](#)) unless the following amendments are made:

1. That the commission not be majority appointed by the Mayor
2. That the commission have a seat for a permanent supportive housing tenant appointed by the Board of Supervisors.
3. That the seat for a merchant/neighborhood association member be eliminated.
4. That the OCOH Oversight Board can advise the Board of Supervisors

Supervisor Safaí, in drafting this Charter Amendment, did not listen to the community's needs. Nor did he engage stakeholders, including the voices of permanent supportive housing tenants that are often not heard.

In the April 26 Chronicle exposé on SROs used as supportive housing, it was well-established that the Mayor's Office (not just limited to the current administration) has failed to oversee SROs, with devastating effects on the quality of life of SRO tenants.

A permanent supportive housing tenant who is appointed by the Board of Supervisors would add a voice that is not often heard in conversations around homelessness issues. On the other hand, representatives from neighborhood and merchant councils (currently Seat 4) have often been over-represented in public discussions on homelessness. A businessperson or neighborhood council member simply would not have an understanding of the complex programmatic issues involved with housing homeless folks.

I am also concerned about language that does not allow for the Our City, Our Home Oversight Committee to advise the Mayor and Board of Supervisors. The voters established the OCOH Committee as one with direct oversight over the OCOH special tax, and its role should be retained as such.

The public is supportive of commissions that don't have majority-Mayoral appointments. Prop D, which put the Sheriff's Department under a 4 BOS-3 Mayor oversight board, passed with 68% of the vote in November 2020. There is no reason that this structure can't be replicated with real oversight over the Department of Homelessness and Supportive Housing.

Please oppose the Charter Amendment unless the four recommendations above are incorporated. The City is tired of paper tiger commissions that do nothing; we need real

stakeholder representation to fix the issues in SRO housing.

Sincerely,

Laksh Bhasin
