EXECUTIVE SUMMARY	

The Mills Act, codified in State Government Code Section 50280, authorizes local governments to enter into historic property agreements with owners of qualified historic properties, in which local governments reduce the assessed value of the property according to a formula established in the Mills Act, thereby reducing property taxes payable by the property owner to the City, provided that owners rehabilitate, restore, preserve, and maintain their qualified historic properties.

The proposed resolutions would approve 11 new historic property agreements in accordance with the Mills Act for ten residential properties and one commercial property in which the property owners agree to rehabilitate and maintain their properties to specific historic preservation standards and receive a reduced property assessment, resulting in reduced property tax payments to the City. The following table shows the 11 properties and the assessed property values with and without an historic property agreement.

The City currently has six historic property agreements, which were approved by the Board of Supervisors from 2002 through 2013. The estimated annual reduction in property tax revenues to the City due to the existing historical property agreements is \$702,740, as shown in the following table.

Table: Estimated Annual Reduction in Property Tax Revenues to the City under the Six Existing Mills Act Historical Property Agreements

	Total	\$1,410,932	\$2,113,672	\$702,740	

The total reduction in annual property tax revenues to the City will be \$854,869, including \$702,740 for the existing six historical property agreements and \$152,129 for the proposed 11 historic property agreements.

Exemptions from the Mills Act Property Program Requirements

Eligibility for Mills Act historical property agreements is limited to sites, buildings, or structures with an assessed valuation, as of December 31 of the year before the application is made, of \$3,000,000 or less for single-family dwellings and \$5,000,000 or less for multi-unit residential, commercial, or industrial buildings, unless the Board of Supervisors grants an exemption. Two of the proposed properties have assessed values that exceed these limits:

- 1772 Vallejo Street is currently valued by the Assessor's Office at \$6,250,000 or \$3,250,000 more than the eligibility limit of \$3,000,000 established by the Mills Act for a single family residence. According to Mr. Tim Frye, Planning Department Preservation Coordinator, the single family residence at 1772 Vallejo qualifies for an exemption as it is a City Landmark under Article 10 of the Planning Code.
- 1019 Market Street is currently valued by the Assessor's Office at \$17,500,000, or \$12,500,000 more than the eligibility limit of \$5,000,000 established by the Mills Act for a commercial property. According to Mr. Frye, the commercial property at 1019 Market Street qualifies for an exemption as it is listed on the National Register of Historic Places and is a contributor to the National Register-listed Market Street Theater and Loft District.

Reporting on the Mills Act Historic Property Program

Administrative Code Section 71.7 requires that the Planning Department and Assessor/Recorder's Office submit a joint report to the Board of Supervisors and the Historic Preservation Commission on March 31, 2013 and every three years thereafter providing the Departments' analysis of the historical property agreement (Mills Act) program. Such report has not been submitted to the Board of Supervisors.

Because, according to Mr. Tim Frye, Planning Department Preservation Coordinator, the Board of Supervisors will not receive an analysis of the historical property agreement program required by Administrative Code Section 71.7 until approximately March 31, 2016, the Budget and Legislative Analyst recommends amending each of the 11 proposed resolutions to request the Director of Planning to submit an annual report to the Board of Supervisors, Mayor, Controller, and Budget and Legislative Analyst that details for each of the 17 properties (11 proposed and six existing) with an historic property agreement (1) the original date of approval by the Board of Supervisors of the agreement; (2) the annual property tax amount under the historic property agreement; (3) the percent reduction in the annual property tax amount due to the historic property agreement; (4) the reduction in annual property tax revenues to the City; and (5) conformance of the property to the provisions of the historic property agreement.

RECOMMENDATIONS

- Amend Resolution 13-0463 to specify that approval of the proposed historical property agreement authorizes an exemption to the Mills Act historical property agreement eligibility limit of \$3,000,000 for a single family residence.
- Amend Resolution 13-0506 to specify that approval of the proposed historical property agreement authorizes an exemption to the Mills Act historical property agreement eligibility limit of \$5,000,000 for a commercial property.
- Amend each of the 11 proposed resolutions to request the Director of Planning submit an annual report to the Board of Supervisors, Mayor, Controller, and Budget and Legislative Analyst that details for each property with an existing historic property agreement (1) the original date of approval by the Board of Supervisors of the agreement; (2) the annual property tax amount under the historic property agreement; (3) the percent reduction in the annual property tax amount due to the historic property agreement; (4) the reduction in annual property tax revenues to the City; and (5) conformance of the property to the provisions of the historic property agreement.
- Approval of the proposed 11 resolutions, as amended, is a policy matter for the Board of Supervisors.

MANDATE STATEMENT/BACKGROUND

Mandate Statement

The Mills Act, codified in State Government Code Section 50280, authorizes local governments to enter into historic property agreements with owners of qualified historic properties, in which local governments reduce the assessed value of the property according to a formula established in the Mills Act, thereby reducing property taxes payable by the property owner to the City, provided that owners rehabilitate, restore, preserve, and maintain their qualified historic properties.

The City's Administrative Code¹ specifies (a) required qualifications for properties to allow for approval of a Mills Act historic property agreement, (b) the Mills Act historic property application and approval processes, and (c) the terms and fees for individual property owners to apply for Mills Act historic property agreements with the City in order to receive such Mills Act Property Tax reductions, subject to Board of Supervisors approval.

Background

In order for a Mills Act historic property agreement to be approved², the property must be designated a qualified historic property by being listed or designated in one of the following ways on or before December 31 of the year before the application is made:

- Individually listed in the National Register of Historic Places or the California Register of Historical Resources;
- Listed as a contributor to a historic district included on the National Register of Historic Places or the California Register of Historical Resources;
- Listed as a City landmark pursuant to Planning Code Article 10;
- Designated as contributory to a historic district; or
- Designated as significant³ (Categories I and II) or contributory⁴ (Categories III or IV).

¹ Administrative Code Chapter 71

² Administrative Code Section 71.2

³ Planning Code Section 1102(a) designates a building as Category I significant if it is (1) at least 40 years old, (2) judged to be a building of individual importance, and (3) is rated excellent in architectural design or as very good in both architectural design and relationship to the environment. Planning Code Section 1102(b) designates a building as Category II significant if it (1) meets the standards in Section 1102(a) and (2) if it is feasible to add different and higher replacement structures or additions to the height at the rear of the structure without affecting the architectural quality or relationship to the environment and without affecting the appearance of the retained portions as a separate structure when viewing the principal facade.

⁴ Planning Code Section 1102(c) designates a building as Category III contributory if it is (1) located outside a designated conservation district, (2) is at least 40 years old, (3) judged to be a building of individual importance, and (4) is rated either Very Good in architectural design or excellent or very good in relationship to the environment. Planning Code Section 1102(d) designates a building as Category IV contributory if it is (1) located in a designated conservation district, (2) judged to be a building of individual importance, (3) judged to be a building

In addition, eligibility for Mills Act historic property agreements is limited to sites, buildings, or structures with an assessed valuation, as of December 31 of the year before the application is made, of \$3,000,000 or less for single-family dwellings and \$5,000,000 or less for multi-unit residential, commercial, or industrial buildings, unless the Board of Supervisors grants an exemption.

Once the Mills Act historic property agreement has been enacted, the initial term is for 10 years, which is automatically extended each year on the anniversary date of the agreement⁵. Therefore, the historic property agreement and reduced property taxes continue into perpetuity.

Either the property owner or the Board of Supervisors may file a notice of nonrenewal to not automatically extend the term of the agreement.⁶ Once the notice of nonrenewal has been filled, the final term of the historic property agreement is for ten years and is no longer automatically extended each year.⁷

File 13-1160 is a resolution (a) approving a Mills Act historic property agreement with Adam Wilson and Quyen Nguyen, the owners of the residential property located at 66 Potomac Street, and (b) authorizing the Director of Planning and the Assessor to execute the subject historic property agreement.

Item 2 – File 13-0463

Applicant: John Moran

Property Address: 1772 Vallejo Street

Date of Historical Landmark Designation by the Board of Supervisors: March 30, 1970

Board of Supervisors Ordinance Number: Ordinance No. 103-70 designated the Burr House located at 1772 Vallejo Street as a landmark pursuant to Article 10 of San Francisco Planning Code and thus qualifies as a historic property.

Date of Historic Preservation Commission Approval: December 4, 2013

The subject property located at 1772 Vallejo Street is currently valued by the Assessor's Office at \$6,250,000 or \$3,250,000 more than the eligibility limit of \$3,000,000 established by the Mills Act for a single family residence. According to Mr. Tim Frye, Planning Department Preservation Coordinator, the single family residence at 1772 Vallejo qualifies for an exemption as it is a City Landmark under Article 10 of the Planning Code. A required Historic Structures Report by the Planning Department determined that granting the exemption would assist in the preservation of a property that might otherwise be in danger of demolition or substantial alterations. Because Board of Supervisors' approval of proposed historic property agreement for the property at 1772 Vallejo Street would grant the exemption, Resolution 13-0463 should be amended to specify that approval of the proposed historic property agreement authorizes an exemption to the Mills Act historic property agreement eligibility limit of \$3,000,000 for a single family residence.

Property Description

According to the Planning Department's Mills Act Agreement Case Report for 1772 Vallejo Street, the subject property is located on the north side of Vallejo Street between Gough and Franklin Streets. Assessor's Block 0522, Lot 029. It is located in a RH-2 (Residential- House, Two Family) Zoning District and a 40-X Height and Bulk District. The property was designated under Article 10 as City Landmark #31. The three-story-over-basement house was designed primarily in the Italianate style with French Second Empire influences.

Exhibit 1: 1772 Vallejo Street**Proposed Property Rehabilitation and Renovation Program**

According to the Planning Department's Mills Act Agreement Case Report for 1772 Vallejo Street, the property owners propose to begin rehabilitation efforts and the proposed rehabilitation program involves and includes the following components:

- Evaluating the structural soundness of unreinforced masonry foundation;
- Removing interior unreinforced chimney (not visible from street);
- Improving the landscape drainage to redirect water flow from the house; work to rehabilitate the historic garden setting;
- Completing a feasibility study for upgrading the unreinforced foundation of the rear cottage,
- Repairing the historic windows at the cottage;
- Repairing and reinforcing the fireplace and chimney of the cottage;
- Replacing the roofing, and any damaged rafters as needed, of the cottage;
- Completing a feasibility study for demolishing the non-historic garage to restore the historic character of the property;

- Repairing and replacing historic wood windows as necessary;
- Repairing deteriorated wood siding and millwork in-kind;
- Repainting the exterior for historic accurate paint colors; and
- Replacing the roof.

The proposed rehabilitation and renovations are currently estimated to cost \$621,000.

Proposed Property Maintenance Plan

In addition to the historic renovation discussed above, the property owners have agreed to a maintenance plan with annual inspections for maintenance which needs to be done on an ongoing basis, and includes the following components:

- Care of the garden;
- Wood siding, windows/glazing, roof, millwork and ornamentation;
- Gutters, downspouts and drainage; and
- The attic and foundation.

Inspections would be conducted by (a) the Historic Preservation Commission, (b) the Office of the Assessor-Recorder, (c) the Department of Building Inspection, (d) the Planning Department, (e) the Office of the Historic Preservation of the California Department of Parks and Recreation, and (f) the State Board of Equalization with 72 hours advance notice to ensure compliance with the proposed historic property agreement. In addition, the Planning Department will administer an inspection program to monitor the provisions of the agreement and will involve a yearly affidavit issued by the property owner verifying compliance with the approved maintenance and rehabilitation plans as well as a cyclical 5-year site inspection.

Ongoing maintenance is currently estimated to cost \$89,000 per year.

Impact on Property Taxes

Table 1 below reflects the estimated assessed value of 1772 Vallejo Street both with and without the requested Mills Act Historical Property agreement, after the proposed improvements are completed.

Table 1: Summary of Assessed Value of 1772 Vallejo Street and Estimated Reduction in Property Taxes Over 10 Years

	Without a Mills Act Historic Property Agreement	With a Mills Act Historic Property Agreement	First Year Reduction	Percent Reduction	Estimated Reduction in Property Taxes Over 10 Years
Estimated Assessed Property Value	\$6,250,000	\$2,220,625	\$4,029,375	64%	n/a
Estimated Property Taxes Payable to the City	\$74,250	\$26,381	\$47,869	64%	\$478,690

Source: Assessor/Recorder's Office

The Budget and Legislative Analyst notes that estimated property tax savings over 10 years is a calculation of the possible impact of the Mills Act Historic Property agreement. Under the provisions of the Mills Act Historic Property agreement the property must be revalued each January 1st to determine the taxable Mills Act value for that year, and the estimated property tax savings over 10 years will change based on adjusted assessed property value and property tax rates. Therefore, the estimated property tax reduction to the City over 10 years could be greater or less than \$478,690 shown in the table above.

Mr. Michael Jine, Office of the Assessor-Recorder, advises that since property tax rates have not been finalized for FY 2014-15, the estimated property taxes assessed are based on the FY 2013-14 property tax rate of 1.188 percent of assessed value.

Over the initial 10-year Mills Act Historical Property agreement, the property owner will invest an estimated \$1,611,000 in property renovation and maintenance and save an estimated \$478,690 in property taxes, for net costs to the property owner of \$1,132,310 in historic renovations and maintenance, as shown in Table 2 below.

Table 2: Estimated Net Historic Renovation and Maintenance Costs to Property Owner

Property Owner Costs	
Estimated Historic Renovation Costs	\$621,000
Estimated Annual Maintenance Costs Over 10 Years	890,000
Estimated Periodic Maintenance Costs Over 10 Years	100,000
Total Costs to Property Owner	1,611,000
Property Tax Savings Over 10 Years	\$478,690
Net Costs to Property Owner	\$1,132,310

According to Mr. Greg Kato, Treasurer/Tax Collector's Office, all property taxes assessed to 1772 Vallejo Street have been paid to the City, through FY 2012-13, with no remaining balance outstanding.

Item 3 – File 13-0479

Applicant: Pacific Heights, LLC

Property Address: 2550 Webster Street

Date of Historical Landmark Designation by the Board of Supervisors: March 1, 1971

Board of Supervisors Ordinance Number: Ordinance No. 51-71 designated the Bourn Mansion located at 2550 Webster Street as a landmark pursuant to Article 10 of San Francisco Planning Code and thus qualifies as a historic property.

Date of Historic Preservation Commission Approval: October 16, 2013

Property Description

According to the Planning Department’s Mills Act Agreement Case Report for 2550 Webster Street, the subject property is located on the east side of Market Street between Broadway and Pacific Streets. Assessor’s Block 0580, Lot 013. It is located in a RH-2 (Residential-House, Two Family) Zoning District and a 40-X Height and Bulk District. The property was designated under Article 10 as City Landmark #38. The three-story-over-basement, masonry residence was built in 1896 by William Bourne, President of the Spring Valley Water Company and designed by architect Willis Polk in the classical revival style.

Exhibit 2: 2550 Webster Street

Proposed Property Rehabilitation and Renovation Program

According to the Planning Department's Mills Act Agreement Case Report 2550 Webster Street, the property owners proposed rehabilitation program involves exterior work to the Bourn Mansion and includes the following components:

- Repairing and in-kind replacing of the historic slate roofing, including structural framing and reinforcement;
- Repairing the historic windows; and
- Restoring the conservatory roof and leaded glass windows.

The proposed rehabilitation and renovations are currently estimated to cost \$1,539,000.

Proposed Property Maintenance Plan

In addition to the historic renovation discussed above, the property owners have agreed to a maintenance plan with annual inspections for maintenance which needs to be done on an ongoing basis, and includes the following components:

- Care of the roof chimneys, masonry, millwork and ornamentation;
- Sheet metal; and
- Windows and doors.

Inspections would be conducted by (a) the Historic Preservation Commission, (b) the Office of the Assessor-Recorder, (c) the Department of Building Inspection, (d) the Planning Department, (e) the Office of the Historic Preservation of the California Department of Parks and Recreation, and (f) the State Board of Equalization with 72 hours advance notice to ensure compliance with the proposed historic property agreement. In addition, the Planning Department will administer an inspection program to monitor the provisions of the agreement and will involve a yearly affidavit issued by the property owner verifying compliance with the approved maintenance and rehabilitation plans as well as a cyclical 5-year site inspection.

Ongoing maintenance is currently estimated to cost \$37,000 per year.

Impact on Property Taxes

The Budget and Legislative Analyst notes that estimated property tax savings over 10 years is a calculation of the possible impact of the Mills Act Historic Property agreement. Under the provisions of the Mills Act Historic Property agreement the property must be revalued each January 1st to determine the taxable Mills Act value for that year, and the estimated property tax savings over 10 years will change based on adjusted assessed property value and property tax rates. Therefore, the estimated property tax reduction to the City over 10 years could be greater or less than \$47,660 shown in the table above.

Mr. Jine advises that since property tax rates have not been finalized for FY 2014-15 and the estimated property taxes assessed are based on the FY 2013-14 property tax rate of 1.188 percent of assessed value.

Over the initial 10-year Mills Act Historical Property agreement, the property owner will invest an estimated \$1,909,000 in property renovation and maintenance and save an estimated \$47,660 in property taxes, for net costs to the property owner of \$1,861,340 in historic renovations and maintenance, as shown in Table 4 below.

Table 4: Estimated Net Historic Renovation and Maintenance Costs to Property Owner

Total Costs to Property Owner	1,909,000
Property Tax Savings Over 10 Years	47,660
Net Costs to Property Owner	\$1,861,340

According to Mr. Kato, all property taxes assessed to 2550 Webster Street have been paid to the City, through FY 2012-13, with no remaining balance outstanding.

Item 4 – File 13-0506

Applicant: 1019 Market St. Properties, LLC

Property Address: 1019 Market Street

Date of Historical Landmark Designation by the Board of Supervisors: N/A

Board of Supervisors Ordinance Number: N/A

The property at 1019 Market Street is eligible for a Mills Act agreement because it is listed on the National Register of Historic Places and is designated under Article 11 of the Planning Code as a Category II building.

Date of Historic Preservation Commission Approval: October 16, 2013

The subject property located at 1019 Market Street is currently valued by the Assessor's Office at \$17,500,000, or \$12,500,000 more than the eligibility limit of \$5,000,000 established by the Mills Act for a commercial property. According to Mr. Frye, the commercial property at 1019 Market Street qualifies for an exemption as it is listed on the National Register of Historic Places as it is designated under Article 11 of the Planning Code as a Category II building and is a contributor to the National Register-listed Market Street Theater and Loft District. A required Historic Structures Report by the Planning Department determined that granting the exemption would assist in the preservation of a property that might otherwise be in danger of demolition or substantial alterations. Because Board of Supervisors' approval of proposed historic property agreement for the property at 1019 Market Street would grant the exemption, Resolution 13-0506 should be amended to specify that approval of the proposed historic property agreement authorizes an exemption to the Mills Act historic property agreement eligibility limit of \$5,000,000 for a commercial property.

Property Description

According to the Planning Department's Mills Act Agreement Case Report for 1019 Market Street, the subject property is located on the east side of Market Street between 6th and 7th Streets. Assessor's Block 3703, Lot 076. It is located in a C-3-G (Downtown General) Zoning District and a 120-X Height and Bulk District. The property was designated under Article 11 as Category II building. It is also listed on the National Register as a contributor to the Market Street Theater Loft District, the UMB survey, and the Planning Department 1976 Architectural Survey. The seven-story-over-basement, unreinforced masonry loft was built in 1909 by the McDonough Estate Company, and designed by architect George Applegarth, to house the

Eastern Outfitting Company, which sold furniture, carpets, stoves and bedding through the 1930s. The interior and ground floor were remodeled in 1937 and the building was renovated again in 1970. The primary façade faces Market Street and is comprised of three sections: the ground floor storefront, the Chicago style bay window flanked by giant terra cotta Corinthian columns, and capped with a large decorative sheet metal cornice.

Proposed Property Rehabilitation and Renovation Program

According to the Planning Department's Mills Act Agreement Case Report 1019 Market Street, the property owners proposed to continue rehabilitation efforts approved administratively under a Minor Permit to Alter⁸ by Planning Department Staff on July 2, 2013. The proposed rehabilitation program involves the following components:

⁸ A Permit to Alter is the entitlement required to alter Article 11 of the Planning Code designated Significant or Contributory buildings or any building within a conservation district. A Permit to Alter is required for any construction, addition, major alteration, relocation, removal, or demolition of a structure, object or feature. A

- Repairing of the exterior including a new ground floor storefront;
- Repairing the upper story bays and terra cotta columns;
- Restoring the sheet metal cornice; and
- Re-glazing all existing historic windows.

The proposed rehabilitation and renovations are currently estimated to cost \$5,412,783.

Proposed Property Maintenance Plan

In addition to the historic renovation discussed above, the property owners have agreed to a maintenance plan with annual inspections for maintenance which needs to be done on an ongoing basis, and includes care of the roof, sheet metal, terra cotta, wood window sashes, sheet metal window mullions, and the parged concrete walls.

Inspections would be conducted by (a) the Historic Preservation Commission, (b) the Office of the Assessor-Recorder, (c) the Department of Building Inspection, (d) the Planning Department, (e) the Office of the Historic Preservation of the California Department of Parks and Recreation, and (f) the State Board of Equalization with 72 hours advance notice to ensure compliance with the proposed historic property agreement. In addition, the Planning Department will administer an inspection program to monitor the provisions of the agreement and will involve a yearly affidavit issued by the property owner verifying compliance with the approved maintenance and rehabilitation plans as well as a cyclical 5-year site inspection.

Ongoing maintenance is currently estimated to cost \$20,000 per year.

Table 5 below reflects the estimated assessed value of 1019 Market Street both with and without the requested Mills Act Historical Property agreement, after the proposed improvements are completed.

Minor Permit to Alter can be approved by Planning Department Staff; however, a Major Permit to Alter must be approved by Historic Preservation Commission.

Proposed Property Rehabilitation and Renovation Program

Brian Jackson and Thomas Ranese received a Certificate of Appropriateness⁹ from the Historic Preservation Commission on November 21, 2012, which approved a rehabilitation program that involves in-kind replacement of historic elements and seismic improvements to the historic portions of the house. To date, the property owner has spent \$69,000 in rehabilitation and renovation costs, and the Mills Act historic property agreement includes an additional \$32,000 in proposed rehabilitation and renovation work, for a total of \$101,000 in rehabilitation and renovation costs included in the historic preservation.

Proposed Property Maintenance Plan

In addition to the historic renovation discussed above, the property owners have agreed to a maintenance plan with annual inspections for maintenance which needs to be done on an ongoing basis, and includes the following components:

- Wood siding, windows/glazing, roof, millwork and ornamentation;
- Gutters, downspouts and drainage; and

On June 4, 2013, the Board of Supervisors approved Ordinance No. 107-13 to create the Duboce Park Historic District located in the Duboce Triangle Neighborhood in San Francisco.¹⁰ The Duboce Park Historic District includes 87 properties and the three interior block park entrances at Carmelita, Pierce, and Potomac Streets, as shown in the map below. This historic district designation was initiated by the Historic Preservation Committee and recommended for approval by the Planning Commission pursuant to its authority under the City’s Charter to recommend approval, disapproval, or modification of landmark and historic district designations under the Planning Code to the Board of Supervisors.

Exhibit 5: Duboce Park Historic District

¹⁰ Article 10, Section 1004 of the Planning Code authorizes the Board of Supervisors to designate individual structures or groups of structures that have special character or special historic, architectural or aesthetic interest or values as a City landmarks or a districts.

Under Article 10 of the Planning Code, following the designation of a structure or a group of structures as a landmark or a district, any construction, alteration, removal or demolition for which a City permit is required and that may affect the character-defining features of the landmark or district necessitates a Certificate of Appropriateness from the Historic Preservation Commission.

The following seven properties are located in the Duboce Park Historic District.

Because the current assessed value of the property with a historic property agreement is higher than the assessed value without this agreement, the property owner would not receive a reduction in property taxes in FY 2014-15. Proposed Property Rehabilitation and Renovation Program

According to the Planning Department’s Mills Act Agreement Case Report for 56 Pierce Street, the property was fully rehabilitated prior to the Mills Act historic property agreement application and as such, the property owners do not propose rehabilitation effort only the maintenance plan discussed below.

Proposed Property Maintenance Plan

The property owners have agreed to a maintenance plan with annual inspections for maintenance which needs to be done on an ongoing basis, and includes the following components:

- Wood siding, windows/glazing, roof, millwork and ornamentation;
- Gutters, downspouts and drainage; and
- The foundation.

Inspections would be conducted by (a) the Historic Preservation Commission, (b) the Office of the Assessor-Recorder, (c) the Department of Building Inspection, (d) the Planning Department, (e) the Office of the Historic Preservation of the California Department of Parks and Recreation, and (f) the State Board of Equalization with 72 hours advance notice to ensure compliance with the proposed historic property agreement. In addition, the Planning Department will administer an inspection program to monitor the provisions of the agreement and will involve a yearly affidavit issued by the property owner verifying compliance with the approved maintenance and rehabilitation plans as well as a cyclical 5-year site inspection.

Ongoing maintenance is currently estimated to cost \$11,700 per year.

Impact on Property Taxes

Table 15 below reflects the estimated assessed value of 56 Pierce Street both with and without the requested Mills Act Historical Property agreement, after the proposed improvements are completed.

The Budget and Legislative Analyst notes that estimated property tax savings over 10 years is a calculation of the possible impact of the Mills Act Historic Property agreement. Under the provisions of the Mills Act Historic Property agreement the property must be revalued each January 1st to determine the taxable Mills Act value for that year, and the estimated property tax savings over 10 years will change based on adjusted assessed property value and property tax rates. Therefore, the estimated property tax reduction to the City over 10 years could be greater or less than \$74,320 shown in the table above.

Mr. Jine advises that property tax rates have not been finalized for FY 2014-15 and the estimated property taxes assessed are based on the FY 2013-14 property tax rate of 1.188 percent of assessed value.

Over the initial 10-year Mills Act Historical Property agreement, the property owner will invest an estimated \$227,000 in property maintenance and save an estimated \$74,320 in property taxes, for net costs to the property owner of \$152,680 in historic renovations and maintenance, as shown in Table 16 below.

Proposed Property Rehabilitation and Renovation Program

According to the Planning Department's Mills Act Agreement Case Report for 64 Pierce Street, the property owners propose to continue rehabilitation efforts and the proposed rehabilitation program involves the following components:

- Repairing and painting historic wood siding;
- Repairing and replacing, as needed, historic millwork including wood trim and corbels;
- Repairing the leaded glass windows and transoms;
- Repairing the historic front door;
- Repairing or replacing all windows at the front of the house;
- Restoring the front entry, including flooring, lighting and removing non-historic detailing;
- Replacing railings at the front entry stairs to be code compliant and historically accurate;
- Encasing the deteriorated brick foundation in concrete, adding structural steel beams, comment frames, sheer walls and steel framing throughout the house to meet seismic standards;
- Leveling the house to improve drainage at grade; removed concrete slabs at front yard and replaced with planter areas and borders (to improve the property);
- Remediating water pooling at the exterior of house by re-grading and installing trench drain repaired existing roof drains; installed new roof drains to correct drainage issues from neighboring houses.

The proposed rehabilitation and renovations are currently estimated to cost \$141,000.

Proposed Property Maintenance Plan

In addition to the historic renovation discussed above, the property owners have agreed to a maintenance plan with annual inspections for maintenance which needs to be done on an ongoing basis, and includes the following components:

- Wood siding, windows/glazing, roof, millwork and ornamentation;

POLICY CONSIDERATION

Approval of the 11 Proposed Historic Property Agreements , Together with the Six Previously Approved Historic Property Agreements, Would Result in Estimated Reduced Property Taxes to the City of \$854,869 in FY 2014-15

The Mills Act was established in 1976 as an incentive to property owners to improve their properties to historic standards. The City currently has six historic property agreements, which were approved by the Board of Supervisors from 2002 through 2013¹¹. The estimated annual reduction in property tax revenues to the City due to the existing historic property agreements is \$702,740, as shown in the following table.

Table 24: Estimated Annual Reduction in Property Tax Revenues to the City under the Six Existing Mills Act Historical Property Agreements

Board of Supervisors Approval Date	Address	Without Historical Property Agreement	With Historical Property Agreement	Estimated Reduction in Property Tax	Percent Reduction
May 13, 2002	460 Bush Street	44,519	24,472	20,047	45%
May 15, 2007	1080 Haight Street	82,415	32,453	49,962	61%
August 7, 2007	1735 Franklin Street	35,708	23,853	11,856	33%
November 18, 2008	690 Market Street	1,807,186	1,282,186	525,000	29%
December 3, 2010	1818 California	112,791	28,504	84,287	75%
July 30, 2013	201 Buchanan Street	31,052	19,465	11,588	37%
	Total	2,113,672	1,410,932	702,740	

The total estimated reduction in property tax revenues to the City in FY 2014-15 will be \$854,869, including \$702,740 for the existing six historic property agreements and \$152,129 for the proposed 11 historic property agreements, as shown in Table 23 above.

The Historic Property Agreements Are Extended Annually into Perpetuity Unless the Property Owner or the Board of Supervisors Terminates the Agreement

Administrative Code Chapter 71 provides for the Board of Supervisors “full discretion to determine whether it is in the public interest to enter into a historic property agreement regarding a particular qualified historic property. The Board of Supervisors may approve, disapprove, or modify and approve the terms of the historic property agreement”. Therefore, approval of the 11 proposed historic property agreements is a policy decision for the Board of Supervisors.

¹¹ The Board of Supervisors previously rejected a Mills Act application (File 09-0263), and capped the property tax reduction for another Mills Act applicant (690 Market Street, File 08-0953).

Once the Mills Act historic property agreement has been enacted, the initial term is for ten years, which is automatically extended each year on the anniversary date of the agreement. The historic property agreement continues into perpetuity unless the property owner or the Board of Supervisors files a notice of nonrenewal; once the notice of nonrenewal has been filed, the term of the historical property agreement extends for a final 10 year term and is no longer automatically extended each year.

Administrative Code Section 71.7 requires that the Planning Department and Assessor/Recorder's Office submit a joint report to the Board of Supervisors and the Historic Preservation Commission on March 31, 2013 and every three years thereafter providing the Departments' analysis of the historical property agreement (Mills Act) program. Such report has not been submitted to the Board of Supervisors.

Because, according to Mr. Tim Frye, Planning Department Preservation Coordinator, the Board of Supervisors will not receive an analysis of the historical property agreement program required by Administrative Code Section 71.7 until approximately March 31, 2016, the Budget and Legislative Analyst recommends amending each of the 11 proposed resolutions to request the Director of Planning to submit an annual report to the Board of Supervisors, Mayor, Controller, and Budget and Legislative Analyst that details for each of the 17 properties (11 proposed and six existing) with an historic property agreement (1) the original date of approval by the Board of Supervisors of the agreement; (2) the annual property tax amount under the historic property agreement; (3) the percent reduction in the annual property tax amount due to the historic property agreement; (4) the reduction in annual property tax revenues to the City; and (5) conformance of the property to the provisions of the historic property agreement.

RECOMMENDATIONS

1. Amend Resolution 13-0463 to specify that approval of the proposed historic property agreement authorizes an exemption to the Mills Act historic property agreement eligibility limit of \$3,000,000 for a single family residence.
2. Amend Resolution 13-0506 to specify that approval of the proposed historic property agreement authorizes an exemption to the Mills Act historic property agreement eligibility limit of \$5,000,000 for a commercial property.
3. Amend each of the 11 proposed resolutions to request the Director of Planning submit an annual report to the Board of Supervisors, Mayor, Controller, and Budget and Legislative Analyst that details for each property with an existing historic property agreement (1) the original date of approval by the Board of Supervisors of the agreement; (2) the annual property tax amount under the historic property agreement; (3) the percent reduction in the annual property tax amount due to the historic property agreement; (4) the reduction

in annual property tax revenues to the City; and (5) conformance of the property to the provisions of the historic property agreement.

4. Approval of the proposed 11 resolutions, as amended, is a policy matter for the Board of Supervisors.
