18 Be it ordained by the People of the City and County of San Francisco:

19 Section 1. FINDINGS. The Board of Supervisors hereby finds and declares that:

20 (1) The City currently obtains Internet Protocol addresses from SBC, the City's current  
21 Internet Provider (ISP). To date, SBC has provided the City with 3000 IP addresses as part of  
22 the Internet services it provides the City. These IP addresses belong to SBC and are on loan  
23 to the City as long as the City uses SBC as its ISP.

1 (2) The City is in the process of establishing a second connection to the Internet using  
2 a different ISP and wants to load balance the traffic between the two Internet connections in  
3 order to increase the speed and reliability of the City's Internet service.

4 (3) In order to achieve this goal in a cost-effective manner, the City must be able to  
5 obtain its own IP addresses which are independent of the ISP's.

6 (4) ARIN is the sole source of Internet Addresses for North America; it is a non-profit  
7 organization whose sole purpose is to assign and manage all Internet addresses in North  
8 America, the Caribbean and sub-Saharan Africa.

9 (5) The ARIN contract is a standard form used by ARIN for its services. ARIN is  
10 unwilling to modify the contract to include the City's required provisions.

11 (6) Indemnification of ARIN is a required element of the contract.

12 (7) Without this contract, the City would be required to obtain this service through a  
13 third party, such as SBC.

14 (8) Upon approval of this ordinance, DTIS will submit the City's application to ARIN for  
15 services and upon approval by ARIN and the City's payment of the \$ 5000 annual fee, the  
16 contract will commence and remain in effect until terminated by either party on thirty(30) days  
17 notice.

18 (9) The annual cost of the service is currently \$5000 per year; and for that flat fee, the  
19 City will be able to obtain up to 65,534 host addresses directly from ARIN.

20 (10) DTIS has approved a maximum cost of \$100,000 for this service. The approved  
21 maximum cost of \$100,000 will allow the City to register Internet addresses for a maximum of  
22 20 years at the current rate.

1 (11) Funds for this year's fee have been appropriated in the DTIS budget. If funds are  
2 not appropriated or there is an unreasonable increase to the fee in future years, DTIS will give  
3 notice of cancellation to ARIN.

4 Section 2. The Acting Executive Director of the Department of Telecommunications  
5 and Information Services is hereby authorized to execute the contract with ARIN. Copies of  
6 the contract are on file with the Clerk of the Board of Supervisors in File No. 060031.

7 Section 3. WAIVERS. For the purpose of this contract, the Board of Supervisors finds  
8 that it is reasonable and in the public interest to grant the waivers specified below:

9 (1) The Board of Supervisors hereby waives the competitive procurement requirements  
10 of the San Francisco Administrative Code Chapter 21 for this service.

11 (2) The Board of Supervisors hereby waives the requirement of San Francisco  
12 Administrative Code Section 21.35 that every contract include a statement regarding liability  
13 of claimants for submitting false claims to the City.

14 (3) The Board of Supervisors hereby waives the requirement of San Francisco  
15 Administrative Code Section 21.19 that contracts not include an automatic renewal provision.
