17	Section 1. Environmental Findings.
18	(a) The Planning Department has determined that the actions contemplated in this
19	ordinance comply with the California Environmental Quality Act (California Public Resources
20	Code Sections 21000 et seq.). Said determination is on file with the Clerk of the Board of
21	Supervisors in File No and is incorporated herein by reference. The Board affirms this
22	determination.
23	
24	Section 2. Legislative Findings.
25	(a) Parklets first originated in San Francisco when artist Bonnie Sherk introduced the

- (b) In 2005, the idea took off when a group of local designers rolled out a patch of grass, a bench, and a potted tree into a parking space downtown—creating the first "PARK(ing) Day." That action sparked a global movement to reimagine streets not just for cars, but for people.
- (c) In 2009, the San Francisco Planning Department's Pavement to Parks pilot formalized the concept, turning parking stalls into public parklets under municipal guidance. These were the first sanctioned parklets in the country, and just a decade later, became an essential part of San Francisco's streetscape.
- (d) On February 25, 2020, the Mayor issued a Proclamation (the "Proclamation") declaring a local emergency in response to the spread of COVID-19. In the following weeks, the Governor and San Francisco's Health Officer issued a series of emergency orders requiring the closure of non-essential businesses and encouraging people to remain at home.
- (e) On June 9, 2020, the Mayor issued the 18th Supplement to the Proclamation (the "Proclamation") creating the Shared Spaces Program—a temporary emergency program allowing retail and restaurant businesses to operate in public rights-of-way, including sidewalks, parking lanes, and closed streets. This allowed businesses to comply with public health orders by moving operations outdoors, where the risk of transmission was lower.
- (f) The Shared Spaces Program adapts many proven, successful techniques for safely activating the public realm in a community-focused manner. Precedents include the Parklet and Plaza Programs, Play Streets, and Neighborhood Block Parties. The Shared Spaces Program also streamlined preexisting commercial permits such as sidewalk merchandising and sidewalk tables and chairs.
  - (g) Due to San Francisco's high density and limited private outdoor space, Shared

- (h) A 2021 analysis by the Controller's Office found that businesses with Shared Spaces parklets experienced an average 29% increase in revenue—about \$56,000 per quarter. Additional surveys confirmed that parklets were essential to business survival during the pandemic, with 80% of businesses reporting the program helped them avoid permanent closure.
- (i) The program also supports equity: a survey of applicants found over 50% of Shared Spaces businesses were women-owned, 33% immigrant-owned, and 33% minority-owned. On July 13, 2020, the Small Business Commission issued a resolution supporting the program's expansion, and on March 9, 2021, the Board of Supervisors passed a resolution urging its permanent adoption.
- (j) In addition to its economic benefits, the Shared Spaces Program delivers civic, social, and psychological benefits to neighborhoods—activating public space, encouraging outdoor life, and promoting public interaction after long periods of isolation.
- (k) However, curbside parklets—which occupy over 1,650 metered parking spaces, or about 10% of metered spaces citywide—also require thoughtful oversight. Accessibility, operational, and design requirements ensure public safety and activation so that these curbside parklets remain open and are not repurposed for private storage or other non-public purposes.
- (I) At the same time, operators face ongoing challenges in meeting certain program requirements, including the requirement that parklets remain open from 7 a.m. to midnight.

  As the Shared Spaces Program transitions from an emergency response to a permanent citywide initiative, outdated or overly complex regulations must be updated to avoid confusion

and inconsistent enforcement.

(m) This ordinance seeks to clarify and update the framework for Shared Spaces to align with real-world usage, streamline permitting, and ensure that parklets continue to serve their intended public function—enhancing community access, supporting neighborhood vibrancy, and driving San Francisco's economic recovery.

Section 3. Chapter 94A of the Administrative Code is hereby amended by revising Sections 94A.1, 94A.2, 94A.4, 94A.5, 94A.6, and 94A.7 to read as follows:

# SEC. 94A.1. THE SHARED SPACES PROGRAM; ESTABLISHMENT AND PURPOSE; CORE AGENCY JURISDICTION.

(a) **Establishment and Purpose.** There is hereby created a San Francisco Shared Spaces Program. A Shared Space, defined in Section 94A.2, is intended to be a temporary space on City-owned property, and in some cases also on privately-owned open spaces, where the public can gather and participate in various commercial or non-commercial offerings and events. Under the Program, a public or private entity may obtain City approval to create a Shared Space by occupying the location with reversible physical treatments or improvements and/or activating the location with programming.

This Chapter 94A sets forth a streamlined process by which the Planning

Department, Department of Public Works, Municipal Transportation Agency, of Real Estate Division,

Fire Department, Department of Public Health, and Entertainment Commission (collectively, defined in Section 94A.2 as the Core City Agencies, as defined in Section 94A.2,), and their successor agencies or departments, if any, will coordinate the review and approval of a request to occupy and activate such spaces and issue a permit to authorize the use.

# LEGISLATIVE DIGEST

[Administrative, Public Works Codes - Shared Spaces Program]

Ordinance amending the Administrative Code provisions related to the Shared Spaces Program to remove the Planning Department as a coordinating entity conducting design review, eliminate application requirements of documented community outreach and neighbor notice, and eliminate public accessibility and alternate public seating requirements; amending the Public Works Code to eliminate requirements of public notice of application; and affirming the Planning Department's determination under the California Environmental Quality Act.

### **Existing Law**

A Shared Space is a space on City-owned property, and in some cases privately-owned open spaces, where the public can gather and participate in various commercial or non-commercial offerings and events. Currently, "Core City Agencies," which include the Planning Department, the Department of Public Works, the Real Estate Division, and the Municipal Transportation Agency ("MTA")—administer the Shared Spaces Program. The Planning Department functions as a coordinating agency to ensure that Shared Spaces applications are routed and processed appropriately. (Admin. Code § 94A.4.)

Commercial Parklets or "Curbside Shared Spaces" are encroachments placed in the curbside lane that are used principally for commercial activity during specified business hours. (Admin. Code § 94A.2.) Commercial Parklets must provide public seating that is accessible to persons who are not patrons of the business. (*Id.* §§ 94A.2; 94A.6.)

At the time of application, Shared Space applicants must document efforts at community notice and outreach. (Admin. Code § 94A.5; Public Works Code § 793.2.)

#### Amendments to Current Law

This ordinance would designate MTA as the coordinating entity for the Shared Spaces Program and remove the Planning Department's role in administering the Program.

This ordinance would eliminate application requirements of documented community outreach and public notice.

This ordinance would also eliminate the requirement that commercial parklets provide alternate public seating that is not accessible to patrons of the business.

This ordinance requires that Shared Spaces remain open during the normal hours of the business's operation. It also provides that the Shared Space cannot be used for storage, except for the storage of certain items outside the normal hours of the business's operation.

# **Background Information**

This ordinance contains findings documenting the public purpose and benefits of the Shared Space Program, requirements for accessibility and safety, and the need to continue refining and streamlining the Program to ensure it meets its intended purpose.
