This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I spoke to the neighborhood services and public safety Committee on December 11th regarding Club 895 located at 895 O'Farrell Street.

It's been brought to my attention that the project sponsor intends to feature on-stage partial nudity performances as the primary form of entertainment.

As a well respected community leader, organizer and professional San Francisco licensing and permitting consultant, I felt it my obligation and responsibility to disclose this information to you.

I realize that your resolution of approval needs the full board's approval, and will respectfully leave the matter to your descretion.

Happy Holidays
