

FILE NO. 200970

Petitions and Communications received from August 13, 2020, through August 20, 2020, for reference by the President to Committee considering related matters, or to be ordered filed by the Clerk on August 25, 2020.

Personal information that is provided in communications to the Board of Supervisors is subject to disclosure under the California Public Records Act and the San Francisco Sunshine Ordinance. Personal information will not be redacted.

From the Department of Public Health, submitting Order of the Health Officer No. C19-07g, and Directive of the Health Officer No. 2020-21. Copy: Each Supervisor. (1)

From the Office of the Treasurer and Tax Collector, pursuant to California State Government Code, Section 53646, submitting the CCSF Pooled Investment Report, July 2020. Copy: Each Supervisor. (2)

From the Department of Elections, regarding submission of Official Ballot Arguments for District Measure "RR, Caltrain Sales Tax" for inclusion in the San Francisco Voter Information Pamphlet for the November 3, 2020, Consolidated General Election. Copy: Each Supervisor. (3)

From the Youth Commission, submitting their Application Outreach Summary. Copy: Each Supervisor. (4)

From the Department of Children, Youth & Their Families, submitting notice of intention to apply for Edward Byrne Memorial JAG funding. Copy: Each Supervisor. (5)

From the Mayor's Office of Housing and Community Development, pursuant to Ordinance No. 216-18, submitting Reporting on Prioritization of 100% Affordable Housing Projects, Q2 CY20. Copy: Each Supervisor. (6)

From concerned citizens, regarding the Budget and Appropriation Ordinance for Departments - FYs 2020-2021 and 2021-2022 and the Annual Salary Ordinance – FYs 2020-2021 and 2021-2022. File Nos. 200567 and 200568. 861 letters. Copy: Each Supervisor. (7)

From Pacific Gas and Electric, submitting notice of request to change rates for its GT&S capital expenditures application (A.20-07-020). Copy: Each Supervisor. (8)

From Public Works, regarding approval of the application for a Personal Wireless Service Facility Site Permit in the vicinity of 100 Clement Street. Copy: Each Supervisor. (9)

From Artemis Anderson, regarding a waiver of park fees for small independent fitness studios. Copy: Each Supervisor. (10)

From concerned citizens, regarding the proposed Mayoral Appointment, Municipal Transportation Agency Board of Directors - Jane Natoli. File No. 200389. 7 letters. Copy: Each Supervisor. (11)

From concerned citizens, regarding the Balboa Reservoir Project. File Nos. 200422, 200423, 200424, and 200635. 2 letters. Copy: Each Supervisor. (12)

From concerned citizens, regarding 1846 Grove Street. File Nos. 200746 and 200750. 12 letters. Copy: Each Supervisor. (13)

From the Controller's Office, submitting the Office of Economic Analysis responses to proposed Ordinance - Planning Code, Zoning Map - Rezone Certain Industrial Parcels. File No. 200852. Copy: Each Supervisor. (14)

From the California Regional Water Quality Control Board, submitting a hearing notice on the amendment to the Water Quality Control Plan, San Francisco Bay Basin, and draft Substitute Environmental Document. Copy: Each Supervisor. (15)

From concerned citizens, regarding the proposed Mayoral Appointment, Police Commission - Malia Cohen. File No. 200731. 2 letters. Copy: Each Supervisor. (16)

From Syncopated Architecture, regarding proposed Ordinance - Existing Building Code - Mandatory Earthquake Retrofit - Compliance Deadline. File No. 200785. Copy: Each Supervisor. (17)

From Gap Brand, pursuant to the WARN Act, California Labor Code, Section 1401, submitting notice of elimination of positions. Copy: Each Supervisor. (18)

From Katherine Howard, regarding funding for homeless services and the RescueSF. Copy: Each Supervisor. (19)

From Chris Dyer, regarding falling willow trees in the McAllister / Filmore area. Copy: Each Supervisor. (20)

From American Federation of Teachers 2121 Retiree Chapter, submitting a resolution passed at their meeting regarding Black Lives Matter. Copy: Each Supervisor. (21)

From John Smith, regarding the tax dollars and the current condition of San Francisco. Copy: Each Supervisor. (22)

From Eileen Boken, regarding various proposed legislation. File Nos. 200718, 200722 and 200918. 3 letters. Copy: Each Supervisor. (23)

From Mari Eliza, regarding opposing developer bills. Copy: Each Supervisor. (24)

From Mary Savannah, regarding the safety of tenants at 988 Howard Street. Copy: Each Supervisor. (25)

From Daniel Ip, regarding proposed Ordinance - Police Code - Discriminatory Reports to Law Enforcement. File No. 200735. Copy: Each Supervisor. (26)

From concerned citizens, regarding San Francisco Department of Public Health daycare at FAIS. 2 letters. Copy: Each Supervisor. (27)

From Brandon Duncan, regarding proposed Resolution - Hearing - Appeal of Statutory Exemption From Environmental Review - MTA - Slow Streets, Phase 1. File No. 200883. Copy: Each Supervisor. (28)

From the SF Gray Panthers, regarding Assembly Bill 1257. Copy: Each Supervisor. (29)

From Alice Yen, regarding safety in San Francisco. Copy: Each Supervisor. (30)

From Paul McGavin, regarding game-changing clarifications of Federal Telecom Law in August 2020. Copy: Each Supervisor. (31)

From Steve Ward, regarding California Senate Bill 50. Copy: Each Supervisor. (32)

From Shawn Nguyen, regarding the struggles of the Taxi Medallion industry. Copy: Each Supervisor. (33)

From Masha LePort, regarding a childcare center in District 5. Copy: Each Supervisor. (34)

From RJ Sloan, regarding unveiling of Black Lives Matter posters by the San Francisco Police Department. Copy: Each Supervisor. (35)

From Carol Anderson, regarding the Hearing for Appeal of Revised Final Mitigated Negative Declaration - Proposed 3516 and 3526 Folsom Street Project. File No. 200800. Copy: Each Supervisor. (36)

From concerned citizens, regarding Closed Session - Existing Litigation - Hastings College of the Law - August 18, 2020. File No. 200931. 2 letters. Copy: Each Supervisor. (37)

From SF Roots, submitting a letter on behalf of a coalition of social equity community members and allies, regarding the utilization of Bradford equity grant funds in San Francisco. Copy: Each Supervisor. (38)

From concerned citizens, regarding the vacancies on the San Francisco Municipal Transportation Agency Board of Directors. 3 letters. Copy: Each Supervisor. (39)

**Subject:** Amendment to the Stay Safer at Home Order Issued - Schools, Out of School Time Programs, Higher Education and Adult Education

Supervisors –

This morning the Health Officer issued amendments to the Stay Safer at Home Order (the “Order”) primarily addressing education and related programs, together with a companion directive for so-called Out of School Time Programs (“OSTs”), programs for youth that supplement school including the learning hubs the City is establishing in various locations in San Francisco. Attached are copies of the final Order as amended and the directive, which are public documents.

Summary of the Main Changes.

In sum, the amendments to the Order, including the body of the Order itself and Appendix A (Social Distancing Protocol), Appendixes B-1 and B-2 (Small and Large Construction Projects), and Appendix C-1 (Additional Businesses), make three main sets of changes:

- Addressing schools, childcare, higher education and adult education, including
  - implementing the prohibition under the State Health Order on in-person learning for TK-12 schools until San Francisco is off the State’s monitoring list for 14 consecutive days,
  - providing for TK-6 (elementary schools) to apply for a waiver by the San Francisco Health Officer allowing in-person learning before San Francisco is removed from the State’s monitoring list for 14 days and requiring that all TK-12 schools obtain approval by the Health Officer of a health and safety plan before they can begin to operate in-person learning after the City is off state’s monitoring list for the 14-day period,
  - clarifying where provisions related to childcare for young children can be found in the various health orders and directives (but not making any substantive changes to those provisions),
  - creating new requirements for OSTs, which can consists of educational and recreational programs that supplement school programs and include up to 20 children, and
  - imposing requirements on institutions of higher education (IHEs) that go beyond the restrictions under the State order in the areas of in-person class instruction, dormitory living and collegiate athletics, and also covering adult education programs (See new Section 5 of the Order, and Sections 3 and 14 of Appendix C-1);
  
- Updating self-quarantine recommendations for people who move into or out of the San Francisco Bay Area or return to the Bay area after travel (See Section 3.g. of the Order); and
  
- Allowing for personnel to use water coolers (in addition to microwaves, which are already allowed) in work settings under certain safety conditions (See Appendixes A, B-1 and B-2).

The amendments to the Order do not make any changes to Appendix C-2 (Additional Activities.)

More on Schools, OSTs, Higher Education and Adult Education:

- Schools.
  - Under the State Health Order, until San Francisco has been off California’s monitoring list for 14 consecutive days, transitional kindergarten (TK)-12 schools may not open for in-person instruction and must conduct distance learning only, subject only to the waiver process for elementary schools. This prohibition includes indoor as well as outdoor in-person classes. The amendment to the Order conforms to these restrictions.
  - Early next week the Health Officer plans to issue a letter summarizing the application process for elementary schools to seek a waiver for in person learning while San Francisco remains on the State monitoring list. That letter will include a description of the primary criteria that the Health Officer will consider. As a reminder, under the State Health Order the waiver for in person learning applies only to elementary schools – not middle or high schools.
  - Schools that wish to resume in-person instruction after San Francisco is removed from the monitoring list and remains off the list for 14 days would have to submit a

proposed plan to the Health Officer for approval before they may begin such instruction. Approved plans would need to be posted on line and made available to public. More information about what would need to be in the plan will be coming soon; those requirements will be consistent with what the State requires and likely include additional safety requirements. The required plan will need to include testing for teachers and students.

- The restrictions on youth sports follow the State guidelines and generally limit sports activity for youth to non-contact training with face coverings and at least six feet of physical distance, and no games, tournaments or scrimmages with or without spectators.
- OSTs. These are programs intended to supplement, not replace, education in schools.
  - Up to 20 children must be in stable groups in programs lasting not less than three weeks.
  - These programs include fitness and recreation programs as well as educational programs.
  - OSTs can occur in recreation centers, school sites, and other facilities.
  - As mentioned above, along with the amendment to the order, the Health Officer has issued a companion directive addressing the best practices and other health and safety guidance for OSTs.
  - As a reminder the authorization under the current Order for summer camps ends this weekend.
- IHEs and Adult Education.
  - The State Health Order generally prohibits in person indoor classes for IHEs and adult education programs (including vocational programs) until San Francisco is off the Monitoring List for 14 consecutive days.
  - IHEs and adult education programs may operate *outdoors* in groups of up to 12 people (including both students and instructors) as long as they wear face coverings, stay at least six feet apart and follow other social distancing requirements. This allowance is in contrast to k-12 schools, which may not operate indoor or outdoor in-person classes at this time (except for elementary schools that obtain Health Officer issued waivers.)
  - IHEs and adult education programs may offer in-person instruction *indoors* subject to advance written approval of a plan by the Health Officer under limited circumstances where the instruction:
    - cannot be held remotely or outdoors due to the need for access to specialized equipment or space,
    - trains students to provide essential functions or services relating to the protection of public health or safety (“Core Essential Services”) (including, for example, nursing school and programs that train health inspectors) or Essential Governmental Functions (including, for example, the city build construction academy, techSF training programs and the fire and police academies – the fire and police academies would also qualify as training for Core Essential Services), and
    - is offered in a specialized indoor settings whose design imposes substantial

physical distancing on participants.

- Collegiate athletics teams that wish to resume practices, games, or tournaments in San Francisco may do so only if they get advance approval by the Health Officer of a proposed plan detailing the sanitation, social distancing, health screening, and other procedures that will be implemented to minimize the risk of transmission among players, staff, and any others who will be in the facility. The plan must include a proposal for interval testing (without using City resources) of all players and coaching staff who will be present in the facility and a plan for isolating and quarantining players and staff who are COVID-19 positive or had a close contact. In any event, at this time IHEs cannot hold practices, games and tournaments with spectators even with approval of a plan.
- As to dormitories operated or controlled by IHEs, except for family housing students must be housed in single rooms (i.e., without a roommate) unless the student specifically requests to be housed with a roommate.
- Next week, the Health Officer plans to issue a companion health and safety directive further addressing IHEs.

#### Further Information.

DPH is working on a website that would contain more information for the public on schools and childcare, including the waiver process and the plan requirements for schools to reopen after San Francisco is removed from the monitoring list.

Also, we are working with DPH on updating the FAQs on the City's website for the Order, to reflect these changes.

At this time, we cannot predict when the State may remove San Francisco the monitoring list, though we understand it is not likely to occur in the near term.

**ORDER OF THE HEALTH OFFICER No. C19-07g**

**ORDER OF THE HEALTH OFFICER  
OF THE CITY AND COUNTY OF SAN FRANCISCO  
DIRECTING ALL INDIVIDUALS IN THE COUNTY TO CONTINUE  
STAYING SAFER AT THEIR PLACES OF RESIDENCE TO THE  
EXTENT THEY CAN EXCEPT FOR IDENTIFIED NEEDS AND  
ACTIVITIES, AND TO FOLLOW HEALTH RISK REDUCTION  
MEASURES OUTSIDE THEIR RESIDENCES; URGING GOVERNMENT  
AGENCIES TO PROVIDE SHELTER AND SANITATION FACILITIES  
TO INDIVIDUALS EXPERIENCING HOMELESSNESS; REQUIRING  
ALL BUSINESSES AND RECREATION FACILITIES THAT ARE  
ALLOWED TO OPERATE TO IMPLEMENT HEALTH RISK  
REDUCTION MEASURES; AND DIRECTING ALL BUSINESSES,  
FACILITY OPERATORS, AND GOVERNMENTAL AGENCIES TO  
CONTINUE THE TEMPORARY CLOSURE OF ALL OPERATIONS  
THAT ARE NOT YET SAFE ENOUGH TO RESUME**

**(STAY SAFER AT HOME)**

DATE OF ORDER: August 14, 2020

**Please read this Order carefully. Violation of or failure to comply with this Order is a misdemeanor punishable by fine, imprisonment, or both. (California Health and Safety Code § 120295, *et seq.*; California Penal Code §§ 69, 148(a)(1); and San Francisco Administrative Code § 7.17(b))**

Summary: On February 25, 2020 the Mayor of the City and County of San Francisco (the “County”) declared a state of emergency to prepare for coronavirus disease 2019 (“COVID-19”). On March 5, 2020 there was the first reported case of COVID-19 in the County. On March 16, 2020 the County and five other Bay Area counties and the City of Berkeley, working together, were the first in the State to implement shelter-in-place orders in a collective effort to reduce the impact of the virus that causes COVID-19. That virus is easily transmitted, especially indoors or in group settings, and the disease can be extremely serious. It can require long hospital stays, and in some instances cause long-term health consequences or death. It can impact not only those who are older or have underlying health conditions and known to be at high risk, but also other people, regardless of age. And a major risk remains the spread of the virus that causes COVID-19 through asymptomatic and pre-symptomatic carriers, people who can spread the disease but do not even know they are infected and contagious. The spread of disease is a global pandemic causing untold societal, social, and economic harm.

**ORDER OF THE HEALTH OFFICER No. C19-07g**

Initially the shelter-in-place orders generally required individuals to stay in their residences except for essential needs like grocery shopping, working in essential businesses, providing essential government functions, or engaging in essential travel. Over time, and based on health data and a risk analysis, the County allowed the phased resumption of some businesses and activities, consistent with the roadmap that the State has established under its order. For instance, the County allowed businesses that had operated primarily outdoors before March 16, 2020, to resume outdoor business activities, and the County has allowed many outdoor recreation activities that do not involve physical contact or shared equipment. Later, the County allowed additional categories of businesses and activities to resume, such as outdoor dining, curbside pick-up, and in-store retail, with other businesses and activities to be added over time when safe to do so.

Through this gradual reopening process the County has adopted risk reduction measures for individuals and businesses as further described below. Beginning on April 17, 2020 and based on increasing evidence that face coverings help protect against the spread of the virus, the County adopted a requirement for people to wear face coverings. That requirement has since been updated to expand the requirement to most settings outside people's residences. The County Health Officer has also issued best practices health directives for a number of businesses and activities, and the County Department of Public Health has issued companion guidance documents.

Meanwhile, in March 2020 after the County and neighboring jurisdictions adopted their shelter-in-place orders, the State adopted its own shelter-in-place order that applied throughout California. And in mid-April 2020 the State established a four-stage roadmap for reopening that sets a baseline for all counties in California and allows counties to go at a slower pace. The State has continued to revise its roadmap. Consistent with the State roadmap, the County created its own phased reopening plan. The County's plan provides for the incremental resumption of certain business and other activities to gradually increase the volume of person-to-person contact to help contain the risk of a surge in COVID-19 cases in the County and the region. The County's plan is available online at <https://sf.gov/topics/reopening>.

Because of the density of San Francisco and local health conditions, the County has moved more cautiously than the State otherwise allows. To help further protect workers and the public and give both more confidence in resuming day-to-day activities, the County has imposed health and safety measures that are more restrictive than the State's industry guidelines. In late June 2020, the County Health Officer, with support from the County Board of Supervisors, applied for and received a variance from the State to allow the County more flexibility in its decision-making on the phases of reopening. As long as the County makes progress on ways to contain virus transmission and health-based risk considerations support doing so, the Health Officer will allow additional business and other activities under a phased, incremental process, to provide for a safer economic recovery.

**ORDER OF THE HEALTH OFFICER No. C19-07g**

Our collective effort has had a positive impact on limiting the spread of the virus. Early on the County, along with the other Bay Area jurisdictions, were able to bend the curve and preserve hospital capacity. The County continues to work on building up its testing, case finding, case investigation, contact tracing capacity, and resources to protect vulnerable populations and address outbreaks. Still, the severe danger the virus poses to the health and welfare of all continues, and there remains a continuing risk of a surge that will overwhelm the capacity of our hospital system. Also, while the search continues, treatments for the disease are limited and there is no vaccine. The vast majority of the population remains susceptible to infection, and local conditions could rapidly worsen if reopening steps are taken too quickly or if people fail to safely modify their behavior, including wearing face coverings and adhering to social distancing requirements.

Indeed, as of the date of this Order the County and the region are in a surge in infections and hospitalizations, and are taking appropriate steps to respond, including pausing the reopening process. Along with other counties in the Bay Area, the County has been placed on the State monitoring list and temporarily suspended certain additional business activities as required by the State Health Officer. The County Health Officer may suspend more business and other activities—or for a longer duration—than the State requires, depending on local health indicators.

We are going to have to live with the threat of the virus for many months to come. And for us to be able to reopen in-person schools as well as resume reopening business and other activities, we are all going to have to take responsibility to act safely, including wearing face coverings, keeping at least six feet from others who are not in our household, washing our hands frequently, and minimizing gatherings. We are all in this together, and each of us is going to have to make sacrifices for the good of the community as a whole, including for our most vulnerable members.

This Order updates, changes, and replaces the prior shelter in place order. In particular, it reflects a shift in the County's approach to focus more on risk reduction while at the same time keeping to an incremental, health-data-driven plan for resuming business and other activity. This Order sets forth the health data framework that will guide the Health Officer's "gating" decisions about whether to move forward with phases to reopen businesses and resume activities and otherwise modify this Order. Gating criteria are the benchmarks that, when met, will allow the County to move through the gate to the next level of reopening. In connection with those changes to the gating framework, this Order details the risk criteria that the Health Officer will apply to reopening decisions for specific business sectors and other activities. Those risk factors, described in more detail in the Order, include: the ability to modify behavior to reduce the risk; avoidance of risky activities; the nature of the setting; mixing of households; the number and nature of contacts; and the modification potential for the activity.

This Order includes the following requirements, and you should review the Order itself for additional details.

**ORDER OF THE HEALTH OFFICER No. C19-07g**

General Requirements. The Order:

- Urges all residents in the County to reduce the risk of COVID-19 transmission by staying in their residences to the extent possible and minimizing trips and activities outside the home;
- Allows people to engage in listed activities, including, for example, working for or going to the businesses listed below and certain governmental and essential infrastructure activities, as well as engaging in essential activities, outdoor activities, certain additional activities, and travel related to those activities;
- Urges older individuals and others who have serious underlying health conditions to remain home other than essential needs;
- Continues to require everyone to wear face coverings while outside their residences, subject to limited exceptions;
- Continues to require everyone to follow social distancing requirements, including staying at least six feet away from members outside of their household, subject to limited exceptions;
- Continues to urge government agencies to provide shelter and sanitation facilities for individuals experiencing homelessness;
- Continues to require everyone to comply with requirements issued by the State and other Health Officer orders and directives; and
- Limits gatherings among different households to help reduce the transmission of the virus.

Requirements for All Businesses. The Order:

- Allows only listed businesses to operate onsite, including essential businesses, outdoor businesses, healthcare operations, and certain additional businesses;
- Allows other businesses only to operate Minimum Basic Operations (as defined in the Order) onsite;
- Requires that businesses continue to maximize the number of people who work remotely from home to the extent possible;
- Requires businesses to complete and post a Social Distancing Protocol checklist in the form attached to the Order as Appendix A;
- Requires businesses to direct personnel to stay home when sick and prohibits adverse action against personnel for doing so;
- Requires businesses and governmental entities to report to the San Francisco Department of Public Health when three or more personnel test positive for the virus that causes COVID-19 within a two-week period;
- Allows for customers to use reusable shopping bags at businesses; and
- Requires businesses to cancel reservations or appointments without a financial penalty when a customer has a COVID-19 related reason.

Mandatory Best Practices Health Officer Directives. The Order requires that businesses and other entities review and comply with any applicable Health Officer Directives, and

ORDER OF THE HEALTH OFFICER No. C19-07g

many of them require a Health and Safety Plan be completed and posted. These requirements include measures to help protect health of workers and customers, such as face covering, social distancing and sanitation protocols and in many instances capacity limits. There are currently directives for many types of businesses and activities, including: construction projects; food delivery and take-out restaurants; residential delivery services; grocery stores, pharmacies, farmer’s markets, and hardware stores; healthcare operations that offer elective surgeries, dental care, or ambulatory care; retail stores that offer curbside pickup; manufacturing and warehousing; summer camps; child care; golf and tennis facilities; outdoor dining; indoor retail sales and services; and office environments. All directives are available online at [www.sfdph.org/directives](http://www.sfdph.org/directives).

Term. This Order will remain in effect, without a specific expiration date, for so long as the threat of the pandemic continues, or until this Order is otherwise extended, rescinded, superseded, or amended in writing by the Health Officer. But the Health Officer will continue to carefully monitor the evolving situation and will periodically revise this Order to loosen – or if need be tighten – restrictions as conditions warrant, to help further the safer economic recovery and resumption of activities.

**UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, AND 120175, THE HEALTH OFFICER OF THE CITY AND COUNTY OF SAN FRANCISCO (“HEALTH OFFICER”) ORDERS:**

**1. Purpose and Findings.**

- a. **Purpose.** As of the effective date and time set forth in Section 13, below, this Order supersedes the May 17, 2020 Order of the Health Officer, No. C19-07f, last updated on July 20, 2020, directing all individuals to shelter in place (the “Prior Order”), and all individuals, Businesses (as defined in Section 8.e below), and applicable government agencies in the County are required to follow the provisions of this Order. This Order continues to temporarily prohibit certain Businesses and activities from resuming and limits gatherings with individuals from other Households (as defined in Section 3.b below) until it is safer to do so. But it allows certain other Businesses, activities, travel and governmental functions to occur subject to specified health and safety restrictions, limitations, and conditions to limit the transmission of Novel Coronavirus Disease 2019 (“COVID-19”). COVID-19 continues to pose a severe risk to residents of our County, and significant safety measures are necessary to protect against a surge in COVID-19 cases, serious illnesses and deaths. Accordingly, this Order requires risk reduction measures to be in place across Business sectors and activities that are allowed to occur, ensuring necessary precautions are followed as we adapt the way we live and function in light of the ongoing threat that the virus now poses and is very likely to continue to pose for some time to come. The Health Officer will continue to monitor data regarding COVID-19 and the evolving scientific understanding of the risks COVID-19 poses and may amend or rescind this Order based on analysis of that data and knowledge.
- b. **Intent.** The primary intent of this Order is to ensure that County residents continue to stay safer in their Residences (as defined in Section 3.b, below) to the extent possible and that together as a community our residents, along with visitors and workers in the County, take appropriate risk reduction measures, especially while outside their Residences, to slow the spread of COVID-19 and

**ORDER OF THE HEALTH OFFICER No. C19-07g**

mitigate its impact on the delivery of critical healthcare services in the County and the region. As further provided in Section 2, below, the Health Officer intends to allow the phased resumption of Businesses and activities to provide for a safer reopening, with specified risk reduction measures, all while the Health Officer continues to assess the transmissibility and clinical severity of COVID-19 in light of the COVID-19 Indicators and risk framework described in Section 2 below.

- c. **Interpretation.** All provisions of this Order must be interpreted to effectuate the intent of this Order as described in subsection (b) above. The summary at the beginning of this Order as well as the headings and subheadings of sections contained in this Order are for convenience only and may not be used to interpret this Order; in the event of any inconsistency between the summary, headings or subheadings and the text of this Order below, the text will control. Certain initially capitalized used in this Order have the meanings given them in Section 8 below. The interpretation of this Order in relation to the health orders of the State is described in Section 10 below.
- d. **Effect of Failure to Comply.** Failure to comply with any of the provisions of this Order constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both, as further provided in Section 12 below.
- e. **Continuing Severe Health and Safety Risk Posed by COVID-19.** This Order is issued based on evidence of continued significant community transmission of COVID-19 within the County and throughout the Bay Area; continued uncertainty regarding the degree of undetected asymptomatic transmission; scientific evidence and best practices regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically; evidence that the age, condition, and health of a significant portion of the population of the County places it at risk for serious health complications, including death, from COVID-19; and further evidence that others, including younger and otherwise healthy people, are also at risk for serious outcomes. Due to the outbreak of the COVID-19 disease in the general public, which remains a pandemic according to the World Health Organization, there is a public health emergency throughout the County, region and State. That immediate threat to public health and safety is also reflected in the continuing declarations of emergency referenced in Section 9.a below. Making the problem worse, some individuals who contract the virus causing the COVID-19 disease have no symptoms or have mild symptoms, which means they may not be aware they carry the virus and are transmitting it to others. Further, evidence shows that the virus can survive for hours to days on surfaces and be indirectly transmitted between individuals and also may be transmitted through airborne micro-droplets. Because even people without symptoms can transmit the infection, and because evidence shows the infection is easily spread, gatherings of people and

**ORDER OF THE HEALTH OFFICER No. C19-07g**

other direct or indirect interpersonal interactions, particularly those that occur indoors, can result in preventable transmission of the virus.

- f. **Local Health Conditions Relating to COVID-19.** The efforts taken beginning in March 2020 under the prior shelter-in-place orders of the Health Officer, along with those of health officers of five neighboring counties, slowed the virus's trajectory. While the public health emergency and threat to the County's population remain severe, the region has significantly increased its capacity to detect cases, contain spread, and treat infected patients through widespread testing; greatly expanded its case investigation and contact tracing program and workforce; and expanded hospital resources and capacity. At the same time, across the region and the rest of the State, there has been a significant reopening of Businesses and activities, accompanied by an increase in cases and hospitalizations, which increases carry risks to County residents and resources. As we continue to evolve our strategies for protecting residents of the County from COVID-19, we must take into account both the trajectory of the virus in the County and across the region, and the increased health risks associated with the opening of many Businesses and activities under the Prior Order. To protect the community from COVID-19, we must ensure that when people engage in activities they are doing so as safely as possible.
  - g. **Cases, Hospitalizations and Deaths.** As of August 11, 2020, there were 8,053 confirmed cases of COVID-19 in the County (up from 37 on March 16, 2020, the day before the first shelter-in-place order in the County went into effect) as well as at least 69 deaths (up from 1 death on March 17, 2020). This information, as well as information regarding hospitalizations and hospital capacity, is regularly updated on the San Francisco Department of Public Health's website at <https://data.sfgov.org/stories/s/fjki-2fab>.
2. **Health Gating and Risk Criteria Framework for Reopening.**
    - a. **Health Gating.** To inform decisions about whether and how to augment, limit, or temporarily prohibit Businesses or activities to slow the spread of COVID-19, the Health Officer will continually review (1) progress on the COVID-19 Indicators; (2) developments in epidemiological and diagnostic methods for tracing, diagnosing, treating, or testing for COVID-19; and (3) scientific understanding of the transmission dynamics and clinical impact of COVID-19.

The COVID-19 Indicators will be key drivers in the Health Officer's gating decisions. In particular, the number of new COVID-19 cases per 100,000 residents, the rate of change in COVID-19 hospitalizations, and the amount of available hospital capacity will help guide decisions. If any indicator or a collection of these and other indicators are orange or red, then the Health Officer will give serious consideration to pausing or even reversing openings

**ORDER OF THE HEALTH OFFICER No. C19-07g**

if appropriate. Also, the total number of hospitalized COVID-19 patients, and whether this total number is significantly increasing, flat, or decreasing, will play a role in gating decisions, especially if these numbers become larger than the prior surge (e.g., more than 100 COVID-19 positive patients in the County's hospitals at one time). Modeling estimates of peak hospitalizations will also be considered.

Information about San Francisco's status under the COVID-19 Indicators is available on the City's website at <https://data.sfgov.org/stories/s/Key-Health-Indicators-on-Containing-COVID-19/epem-wyzb>.

In addition to evaluating the COVID-19 Indicators in making gating decisions, the Health Officer will also consider the estimate of the effective reproductive number ( $Re$ ), and whether there is evidence it is increasing, stable, or decreasing. The effective reproductive number ( $Re$ ) is the average number of secondary cases per infectious case in the setting of public health interventions (e.g., sheltering in place, face coverings, physical distancing, etc.). When  $Re > 1$ , the epidemic curve increases. When  $Re < 1$ , the epidemic curve decreases. When  $Re \sim 1$ , the epidemic curve is flat.

**b. Risk Criteria for Additional Businesses and Additional Activities Under Phased Reopening.**

In connection with the health indicators and other public health data discussed above, the Health Officer will consider the risk of transmission involved in Businesses or activities in determining when and how they can safely resume, or if they must remain or be ordered temporarily closed. The following risk criteria will inform this analysis:

- 1) *Ability to modify behavior to reduce risk*—whether individuals engaged in the Business or other activity can wear face coverings at all times, maintain at least six feet of physical distancing at all times, and comply with other Social Distancing Requirements, including hand washing and sanitation;
- 2) *Avoidance of risky activities*—whether the nature of the Business or activity necessarily involves eating or drinking (which requires removing face covering); gatherings with other Households (which presents risks as described in subsection d below); or singing, chanting, shouting, or playing wind/brass instruments (which all present significant risk of airborne transmission);
- 3) *Setting*—Outdoor Businesses and activities are safer than indoor businesses or activities, so outdoors is strongly preferred;

**ORDER OF THE HEALTH OFFICER No. C19-07g**

- 4) *Mixing of Households*—Mixing of people from different Households present higher risk of virus transmission and community spread, and the more different Households that mix, the greater the cumulative risk;
- 5) *Number, frequency, duration and distance of contacts*—The more people who interact, the higher the risk of virus transmission; and the more people who gather at a site, or the more sites involved in the business, possible interactions increase exponentially (number of contacts). The more often people interact, the higher the risk of virus transmission (frequency of contacts). The longer the duration of contacts, the higher the risk of virus transmission (duration of contacts). The closer the proximity of people, the higher the risk of virus transmission (distance of contacts); and
- 6) *Modification potential*—the degree to which best practices health protocols can reduce the risk of transmission, where those protocols can be properly implemented.

**3. General Requirements for Individuals.**

- a. **Staying Safer At Home Is The Best Way To Control Risk.** All people are strongly reminded that continuing to stay home as much as possible is the best way to prevent the risk of COVID-19 transmission, and therefore minimizing trips and activities outside the home helps reduce risk to individuals and the community. All activities that involve contact with people from different Households increase the risk of transmission of COVID-19. Accordingly, all individuals currently living within the County are for the time being ordered to stay in their place of Residence to the extent possible. They are strongly urged to leave their Residence only to:
  - Work for or access Businesses that are allowed to be open under this Order (Essential Businesses, Outdoor Businesses, and Additional Businesses, as those terms are defined in Sections 8.a, 8.b and 8.c);
  - Work for, volunteer at, or access services at Healthcare Operations, as that term is defined in Section 8.g;
  - Engage in activities that are allowed under this Order (Essential Activities, Outdoor Activities, and Additional Activities, as those terms are defined in Sections 8.h, 8.i and 8.j); and
  - Engage in Essential Travel, as that term is defined in Section 8.k; or
  - Provide any services or perform any work necessary to the operation maintenance of Essential Governmental Functions or Essential Infrastructure, as those terms are defined in Sections 8.l and 8.m.
- b. **Residences and Households.** For purposes of this Order, “Residences” include hotels, motels, shared rental units, and similar facilities. Residences also include

**ORDER OF THE HEALTH OFFICER No. C19-07g**

living structures and outdoor spaces associated with those living structures, such as patios, porches, backyards, and front yards that are only accessible to a single family or Household. For purposes of this order “Household” means people living in a single Residence or shared living unit.

- c. **Individuals Experiencing Homelessness.** Individuals experiencing homelessness are exempt from this Section, but are strongly urged to obtain shelter. Government agencies and other entities operating shelters and other facilities that house or provide meals or other necessities of life for individuals experiencing homelessness are strongly urged to, as soon as possible, make such shelter available, and must take appropriate steps to help ensure compliance with Social Distancing Requirements, including adequate provision of hand sanitizer. Also, individuals experiencing homelessness who are unsheltered and living in encampments should, to the maximum extent feasible, abide by 12 foot by 12 foot distancing for the placement of tents, and government agencies should provide restroom and hand washing facilities for individuals in such encampments as set forth in Centers for Disease Control and Prevention Interim Guidance Responding to Coronavirus 2019 (COVID-19) Among People Experiencing Unsheltered Homelessness (<https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/unsheltered-homelessness.html>).
- d. **Older Adults and Individuals of Any Age with Underlying Medical Conditions.** Older adults and individuals with underlying medical conditions—including chronic kidney disease, chronic obstructive pulmonary disease, immunocompromised state from solid organ transplant, obesity, serious heart conditions (such as heart failure, coronary artery disease, or cardiomyopathies), sickle cell disease, and diabetes—are strongly urged to stay in their Residence except to access critical necessities such as food, and to seek or provide medical care or Essential Governmental Functions. Individuals with other medical conditions might be at increased risk for severe illness from COVID-19 and are encouraged to minimize activities and interactions with people outside their Household to the extent practicable, except as necessary to seek or provide medical care or Essential Governmental Functions. These conditions, and the most up to date information about who is at greatest risk of severe illness as more information and data emerge about COVID-19, can be found at <https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-at-increased-risk.html>.
- e. **Mandatory Risk Reduction Measures For Individuals Outside their Place of Residence.** When people leave their place of Residence, they must (1) strictly comply with the Social Distancing Requirements as defined in Section 8.o, including maintaining at least six feet of social distance from other people not in the same Household, except as expressly provided in this subsection below or elsewhere in this Order, and (2) wear Face Coverings as provided in, and subject to the limited exceptions in, Health Officer Order No. C19-12b issued April 17,

**ORDER OF THE HEALTH OFFICER No. C19-07g**

2020 and revised May 28, 2020 (the “Face Covering Order”), including any future amendments to that order. The requirement to strictly comply with Social Distancing Requirements is subject to a limited exception as necessary to provide care (including childcare, adult or senior care, care to individuals with special needs, and patient care); as necessary to carry out the work of Essential Businesses, Essential Governmental Functions, or provide for Minimum Basic Operations; or as otherwise expressly provided in this Order. For clarity, individuals who do not currently reside in the County must comply with all applicable requirements of this Order when in the County.

- f. **Limitations on Gatherings that Involve Mixing of Different Households to Reduce Virus Transmission Risk.** Gatherings of individuals from different Households pose a significant risk of virus transmission to the community. The greater the number of people from different households in a gathering, the greater the risk of the spread of COVID-19. All public and private gatherings of any number of people occurring outside a single Household are prohibited, except as expressly permitted in this Order including, but not limited to, gatherings allowed as Additional Activities in Appendix C-2. If, despite this prohibition, people find themselves with members of other Households, they are required to follow the health guidelines for safer interactions set forth in the Tip Sheet for Safer Interactions During COVID-19 Pandemic, posted at: [www.sfcdep.org/communicable-disease/diseases-a-z/covid19whatsnew](http://www.sfcdep.org/communicable-disease/diseases-a-z/covid19whatsnew).
  - g. **Quarantine Recommendation Upon Entering or Reentering the Bay Area.** When moving into or out of the Bay Area (i.e., the nine counties that make up the San Francisco Bay Area region) or returning after travel outside the Bay Area, individuals are urged to quarantine for 14 days if they engaged in activities while traveling or outside the Bay Area that would put them at higher risk of contracting the virus that causes COVID-19. These higher risk activities include those in which an individual: interacted for more than 15 minutes within six feet of individuals outside your Household if you or those around you were not wearing Face Coverings at all times, especially if you were indoors (including traveling on planes, buses, or trains if Face Coverings were not worn at all times by you and those around you). The greater number of people outside your household who are involved in these interactions, the greater the risk. To quarantine, individuals should follow the guidance of jurisdiction they are moving to and the United States Centers for Disease Control and Prevention and Health Officer Directive No. 2020-02c, available at [www.sfdph.org/directives](http://www.sfdph.org/directives).
4. **General Requirements for Businesses and Business Activities.**
- a. **Allowed Businesses.** Essential Businesses, Outdoor Businesses, and Additional Businesses, as defined in Sections 8.a, 8.b and 8.c, are allowed to operate in the County under this Order. All other Businesses are temporarily required to cease all activities at facilities located within the County except Minimum Basic

**ORDER OF THE HEALTH OFFICER No. C19-07g**

Operations, as defined in Section 8.d. Except as otherwise provided in Appendix C-1, Businesses that include allowed operations alongside other operations that are not yet allowed must, to the extent feasible, scale down their operations to the allowed components only.

- b. **Maximization of Telework.** All Businesses must continue to maximize the number of Personnel who work remotely from their place of Residence, subject to the conditions and limitations provided in Appendix C-1.
- c. **Activities that Can Occur Outdoors.** All Businesses are strongly urged to move as many operations as possible outdoors, to the extent permitted by local law and permitting requirements, where there is generally less risk of COVID-19 transmission.
- d. **Social Distancing Protocol.** As a condition of operating under this Order, the operators of all Businesses allowed to operate must comply with the requirements of the Social Distancing Protocol attached to this Order as Appendix A and must complete a Social Distancing Protocol checklist for each of their facilities in the County frequented by Personnel or members of the public. The Social Distancing Protocol checklist must be posted at or near each public entrance of each of the Business facilities and must be easily viewable by the public and Personnel. A copy of the Social Distancing Protocol checklist must also be provided in hardcopy or electronic format to each person performing work at the facility. Each Business subject to this paragraph must provide evidence of its implementation of the Social Distancing Protocol requirements to any authority enforcing this Order upon demand. A copy of the Social Distancing Protocol checklist must also be provided by the Business or entity to any member of the public on request.

With the exception of construction activities—which must comply with the Construction Project Safety Protocols set forth in Appendix B—each Business must use the Social Distancing Protocol checklist included in Appendix A or a form that is substantially similar.

- e. **Industry Specific Requirements.** In addition to the Social Distancing Protocol, all Businesses allowed to operate under this Order must follow any industry or activity-specific guidance issued by the Health Officer related to COVID-19 (available online at <http://www.sfdph.org/directives>) and any conditions on operation specified in this Order, including those specified in Appendix C-1.
- f. **Businesses Must Allow Personnel to Stay Home When Sick.** As outlined in the Social Distancing Protocol, Businesses are required to allow Personnel to stay home if they have symptoms associated with COVID-19, and Personnel are prohibited from coming to work if they are sick and may only return to work as outlined in the Social Distancing Protocol. Each Business that is required to

**ORDER OF THE HEALTH OFFICER No. C19-07g**

comply with the Social Distancing Protocol is prohibited from taking any adverse action against any Personnel for staying home in the circumstances listed in the Social Distancing Protocol.

**5. Schools, Childcare, Youth Programs, and Higher Education**

- a. **Schools.** Under the State Health Order, until San Francisco has been off California's monitoring list for 14 consecutive days, transitional kindergarten (TK)-12 schools may not open for in-person instruction and must conduct distance learning only.
- 1) **Application for Waiver for In-Person Instruction for Elementary Schools During Monitoring Period.** Before San Francisco has been off California's monitoring list for 14 consecutive days, a district superintendent, private school principal/head of school, or executive director of a charter school may apply for an advance written waiver by the Health Officer of this restriction to allow the school to open for in-person instruction for grades TK-6. If the Health Officer grants a waiver, only grades TK-6 may open for in-person education even if the grade configuration at the school includes additional grades. More information about the requirements for the waiver application process, including the criteria the Health Officer or the Health Officer's designee will consider, is available at <https://www.sfdph.org/dph/covid-19/schools-education.asp>.
  - 2) **Submittal of Plan for In-Person Instruction for All K-12 Schools After Monitoring Period.** Once San Francisco has been off the State's monitoring list for 14 consecutive days, TK-12 schools and school districts may open for in-person instruction but only upon advance written approval of the Health Officer or the Health Officer's designee of a plan to open for such purposes. More information about how to request approval of a plan by the Health Officer will be available at <https://www.sfdph.org/dph/covid-19/schools-education.asp>.

In addition to waiver applications or plans approved by the Health Officer, all K-12 schools must follow any applicable directives issued by the County Health Officer (<http://www.sfdph.org/directives>) and any applicable "COVID-19 Industry Guidance" issued by the California Department of Public Health, available at <https://covid19.ca.gov/industry-guidance/>.

For clarity, this subsection a applies to public and private schools operating in San Francisco, including independent, parochial and charter schools.

- b. **Home-Based Care for Children.** Home-based care for children is permitted under Section 8.a.xxi, below.

**ORDER OF THE HEALTH OFFICER No. C19-07g**

- c. **Childcare Programs for Young Children.** Group care facilities for children who are not yet in elementary school—including, for example, licensed childcare centers, daycares, family daycares, and preschools (including cooperative preschools)—may operate subject to, and to the extent permitted by, the health and safety requirements set forth in Section 3.b.1 of Appendix C-1 and Health Officer Directive No. 2020-14c, as it may be amended in the future.
  - d. **Out of School Time Programs.** With the exception of schools, which are addressed in subsection a above, educational or recreational institutions or programs that provide care or supervision for school-aged children and youth—including for example, learning hubs, other programs that support and supplement distance learning in schools, school-aged childcare programs, youth sports programs, and afterschool programs—may operate subject to, and to the extent permitted by, the health and safety requirements set forth in Section 3.b.3 of Appendix C-1 and Health Officer Directive No. 2020-21, as it may be amended in the future.
  - e. **Institutions of Higher Education and Adult Education.** Institutions of higher education (“IHEs”), such as colleges and universities, and other programs offering adult education—including, for example, programs offering job skills training and English as a second language classes to adults—may operate subject to, and to the extent permitted by, the health and safety requirements set forth in Section 14 of Appendix C-1, and any relevant industry-specific Health Officer directives.
  - f. **Additional Information.** Additional information about the operational requirements and restrictions relating to COVID-19 for schools, childcare, and youth programs is available at <https://www.sfdph.org/dph/covid-19/schools-education.asp>.
6. **Public Transit.**
- Transit agencies and people riding or waiting to ride on public transit must comply with Social Distancing Requirements, as defined in Section 8.o, and Personnel and passengers must wear Face Coverings as required by the Face Covering Order. Also, people riding or waiting to ride on public transit must follow any applicable directives issued by the County Health Officer (<http://www.sfdph.org/directives>) and any applicable “COVID-19 Industry Guidance” issued by the California Department of Public Health, available at <https://covid19.ca.gov/industry-guidance/>.
7. **Mandatory Reporting by Businesses and Government Entities When Three or More Personnel Contract COVID-19 Within Two Weeks.**

Businesses and governmental entities must require that all Personnel immediately

**ORDER OF THE HEALTH OFFICER No. C19-07g**

alert the Business or governmental entity if they test positive for COVID-19 and were present in the workplace within the 48 hours before onset of symptoms or within 48 hours of the date on which they were tested. Businesses and governmental entities can learn more about what to do after a positive COVID-19 case among Personnel at [www.sfcdep.org/covid19-positive-workplace](http://www.sfcdep.org/covid19-positive-workplace). If a Business or governmental entity has three or more Personnel who test positive for COVID-19 within a two-week period, then the Business or governmental entity is required to call the San Francisco Department of Public Health at 628-217-6100 immediately to report the cluster of cases. Businesses and governmental entities must also comply with all case investigation and contact tracing measures by the County, including providing any information requested.

**8. Definitions.**

For purposes of this Order, the following initially capitalized terms have the meanings given below.

**Allowed Businesses and Business Activities.**

a. *Essential Businesses.* “Essential Businesses” means:

- i. Healthcare Operations (as defined in subsection g below);
- ii. Grocery stores, certified farmers’ markets, farm and produce stands, supermarkets, food banks, convenience stores, and other establishments engaged in the retail sale of unprepared food, canned food, dry goods, non-alcoholic beverages, fresh fruits and vegetables, pet supply, fresh meats, fish, and poultry, as well as hygienic products and household consumer products necessary for personal hygiene or the habitability, sanitation, or operation of Residences. The Businesses included in this subsection include establishments that sell multiple categories of products provided that they sell a significant amount of essential products identified in this subsection, such as liquor stores that also sell a significant amount of food;
- iii. Food cultivation, including farming, livestock, and fishing;
- iv. Businesses that provide food, shelter, and social services, and other necessities of life for economically disadvantaged or otherwise needy individuals;
- v. Construction, but only as permitted under the State Shelter Order and only pursuant to the Construction Safety Protocols listed in Appendix B and incorporated into this Order by this reference. City public works projects shall also be subject to Appendix B, except if other protocols are specified by the Health Officer;
- vi. Newspapers, television, radio, and other media services;

**ORDER OF THE HEALTH OFFICER No. C19-07g**

- vii. **Gas stations and auto-supply, auto-repair (including, but not limited to, for cars, trucks, motorcycles and motorized scooters), and automotive dealerships, but only for the purpose of providing auto-supply and auto-repair services. This subsection (vii) does not restrict the on-line purchase of automobiles if they are delivered to a Residence or Essential Business;**
- viii. **Bicycle repair and supply shops;**
- ix. **Banks and related financial institutions;**
  - x. **Service providers that enable real estate transactions (including rentals, leases, and home sales), including, but not limited to, real estate agents, escrow agents, notaries, and title companies, provided that appointments and other residential real estate viewings must only occur virtually or, if a virtual viewing is not feasible, by appointment with no more than two visitors at a time residing within the same Household and one individual showing the unit (except that in person visits are not allowed when the occupant is present in the Residence);**
- xi. **Hardware stores;**
- xii. **Plumbers, electricians, exterminators, and other service providers who provide services that are necessary to maintaining the habitability, sanitation, or operation of Residences and Essential Businesses;**
- xiii. **Businesses providing mailing and shipping services, including post office boxes;**
- xiv. **Educational institutions—including public and private K-12 schools, colleges, and universities—for purposes of facilitating distance learning or performing essential functions, or as allowed under subsection (xxvi), provided that social distancing of six feet per person is maintained to the greatest extent possible;**
- xv. **Laundromats, drycleaners, and laundry service providers;**
- xvi. **Restaurants and other facilities that prepare and serve food, but only for delivery or carry out. Schools and other entities that typically provide free food services to students or members of the public may continue to do so under this Order on the condition that the food is provided to students or members of the public on a pick-up and take-away basis only. Schools and other entities that provide food services under this exemption shall not permit the food to be eaten at the site where it is provided, or at any other gathering site;**
- xvii. **Funeral home providers, mortuaries, cemeteries, and crematoriums, to the extent necessary for the transport, preparation, or processing of bodies or remains, and to hold funerals for no more than 12 individuals (or, if higher, the number of individuals allowed to gather for social gatherings under Appendix C-2) [EFFECTIVE JULY 20, 2020, AND UNTIL FURTHER ORDER OF THE HEALTH OFFICER FOLLOWING**

**ORDER OF THE HEALTH OFFICER No. C19-07g**

**AUTHORIZATION BY THE STATE HEALTH OFFICER, ALL  
FUNERAL SERVICES MUST BE HELD OUTDOORS];**

- xviii. Businesses that supply other Essential Businesses and Outdoor Businesses with the support or supplies necessary to operate, but only to the extent that they support or supply these Businesses. This exemption shall not be used as a basis for engaging in sales to the general public from retail storefronts;**
- xix. Businesses that have the primary function of shipping or delivering groceries, food, or other goods directly to Residences or Businesses. This exemption shall not be used to allow for manufacturing or assembly of non-essential products or for other functions besides those necessary to the delivery operation;**
- xx. Airlines, taxis, rental car companies, rideshare services (including shared bicycles and scooters), and other private transportation providers providing transportation services necessary for Essential Activities and other purposes expressly authorized in this Order;**
- xxi. Home-based care for seniors, adults, children, and pets;**
- xxii. Residential facilities and shelters for seniors, adults, and children;**
- xxiii. Professional services, such as legal, notary, or accounting services, when necessary to assist in compliance with non-elective, legally required activities or in relation to death or incapacity;**
- xxiv. Services to assist individuals in finding employment with Essential Businesses;**
- xxv. Moving services that facilitate residential or commercial moves that are allowed under this Order;**
- xxvi. Childcare establishments and other educational or recreational institutions or programs providing care or supervision for children (with the exception of summer camps, which are addressed separately in Appendix C-1, and schools, which are addressed separately in Section 6.b, above) that enable owners and Personnel of Essential Businesses and providers of Essential Governmental Functions to work as allowed under this Order;**
- xxvii. Businesses that operate, maintain, or repair Essential Infrastructure.**

**b. *Outdoor Businesses.* “Outdoor Businesses” means:**

- i. The following Businesses that normally operated primarily outdoors before March 16, 2020, and where there is the ability to fully maintain social distancing of at least six feet between all persons:
  - 1. Businesses primarily operated outdoors, such as wholesale and retail plant nurseries, agricultural operations, and garden centers; and****

**ORDER OF THE HEALTH OFFICER No. C19-07g**

2. Service providers that primarily provide outdoor services, such as landscaping and gardening services, and environmental site remediation services.

For clarity, “Outdoor Businesses” do not include outdoor restaurants, cafes, or bars. Except as otherwise provided in Appendix C-1, they also do not include Businesses that promote large, coordinated, and prolonged gatherings, such as outdoor concert venues and amusement parks.

Outdoor Businesses may conduct their operations under a tent, canopy, or other sun shelter, but only as long as no more than one side is closed, allowing sufficient outdoor air movement.

- c. *Additional Businesses.* “Additional Business” means any Business identified as an Additional Business in Appendix C-1, which will be updated as warranted based on the Health Officer’s ongoing evaluation of the COVID-19 Indicators and other data. In addition to the other requirements in this Order, operation of those Additional Businesses is subject to any conditions and health and safety requirements set forth in Appendix C-1 and in any industry-specific guidance issued by the Health Officer.
- d. *Minimum Basic Operations.* “Minimum Basic Operations” means the following activities for Businesses, provided that owners, Personnel, and contractors comply with Social Distancing Requirements as defined this Section, to the extent possible, while carrying out such operations:
  - i. The minimum necessary activities to maintain and protect the value of the Business’s inventory and facilities; ensure security, safety, and sanitation; process payroll and employee benefits; provide for the delivery of existing inventory directly to Residences or Businesses; and related functions. For clarity, this section does not permit Businesses to provide curbside pickup to customers; and
  - ii. The minimum necessary activities to facilitate owners, Personnel, and contractors of the Business being able to continue to work remotely from their Residences, and to ensure that the Business can deliver its service remotely.
- e. *Business.* A “Business” includes any for-profit, non-profit, or educational entity, whether a corporate entity, organization, partnership or sole proprietorship, and regardless of the nature of the service, the function it performs, or its corporate or entity structure.
- f. *Personnel.* “Personnel” means the following people who provide goods or services associated with the Business in the County: employees; contractors and sub-contractors (such as those who sell goods or perform services onsite or who deliver goods for the Business); independent contractors; vendors who are

**ORDER OF THE HEALTH OFFICER No. C19-07g**

permitted to sell goods onsite; volunteers; and other individuals who regularly provide services onsite at the request of the Business. “Personnel” includes “gig workers” who perform work via the Business’s app or other online interface, if any.

- g. *Healthcare Operations.*** “Healthcare Operations” includes, without limitation, hospitals, clinics, COVID-19 testing locations, dentists, pharmacies, blood banks and blood drives, pharmaceutical and biotechnology companies, other healthcare facilities, healthcare suppliers, home healthcare services providers, mental health providers, or any related and/or ancillary healthcare services. “Healthcare Operations” also includes veterinary care and all healthcare services provided to animals. This exemption for Healthcare Operations must be construed broadly to avoid any interference with the delivery of healthcare, broadly defined. “Healthcare Operations” excludes fitness and exercise gyms and similar facilities.

**Allowed Activities.**

- h. *Essential Activities.*** “Essential Activities” means to:

- i. Engage in activities or perform tasks important to their health and safety, or to the health and safety of their family or Household members (including pets);**
- ii. Obtain necessary services or supplies for themselves and their family or Household members, or to deliver those services or supplies to others;**
- iii. Provide necessary care for a family member or pet in another Household who has no other source of care;**
- iv. Attend a funeral with no more than 12 individuals present (or, if higher, the number of individuals allowed to gather for social gatherings under Appendix C-2) [EFFECTIVE JULY 20, 2020, AND UNTIL FURTHER ORDER OF THE HEALTH OFFICER FOLLOWING AUTHORIZATION BY THE STATE HEALTH OFFICER, ALL FUNERAL SERVICES MUST BE HELD OUTDOORS]; and**
- v. Move Residences.**

- i. *Outdoor Activities.*** “Outdoor Activities” means:

- i. To engage in outdoor recreation activity, including, by way of example and without limitation, walking, hiking, bicycling, and running, in compliance with Social Distancing Requirements and with the following limitations:**
  - 1. Outdoor recreation activity at parks, beaches, and other open spaces must comply with any restrictions on access and use established by the Health Officer, government, or other entity that manages such area to reduce crowding and risk of transmission of COVID-19;**

**ORDER OF THE HEALTH OFFICER No. C19-07g**

2. Except as otherwise provided in Appendix C-2 or as otherwise authorized in writing by the Health Officer, use of outdoor recreational areas and facilities with high-touch equipment or that encourage gathering—including playgrounds, gym equipment, climbing walls, pools, spas, and barbecue areas—is prohibited outside of Residences, and all such areas must be closed to public access including by signage and, as appropriate, by physical barriers; and
3. Except as otherwise provided in Appendix C-2, sports or activities that include the use of shared equipment or physical contact between participants may only be engaged in by members of the same Household.

**Outdoor Activities** may be conducted under a tent, canopy, or other sun shelter, but only as long as no more than one side is closed, allowing sufficient outdoor air movement.

- j. *Additional Activities.* “Additional Activities” means:
- i. To engage in outdoor recreation activities or other activities set forth in Appendix C-2, subject to any conditions and health and safety requirements set forth there.

**Allowed Travel.**

- k. *Essential Travel.* “Essential Travel” means travel for any of the following purposes:
- i. Travel related to the provision of or access to Essential Activities, Essential Governmental Functions, Essential Businesses, Minimum Basic Operations, Outdoor Activities, Outdoor Businesses, Additional Activities, and Additional Businesses;
  - ii. Travel to care for any elderly, minors, dependents, or persons with disabilities;
  - iii. Travel to or from educational institutions for purposes of receiving materials for distance learning, for receiving meals, and any other related services;
  - iv. Travel to return to a place of Residence from outside the County;
  - v. Travel required by law enforcement or court order;
  - vi. Travel required for non-residents to return to their place of Residence outside the County. Individuals are strongly encouraged to verify that their transportation out of the County remains available and functional before commencing such travel;

**ORDER OF THE HEALTH OFFICER No. C19-07g**

- vii. Travel to manage after-death arrangements and burial;
- viii. Travel to arrange for shelter or avoid homelessness;
- ix. Travel to avoid domestic violence or child abuse;
- x. Travel for parental custody arrangements; and
- xi. Travel to a place to temporarily reside in a Residence or facility to avoid potentially exposing others to COVID-19, such as a hotel or other facility provided by a governmental authority for such purposes.

**Governmental Functions.**

- l. Essential Infrastructure.* “Essential Infrastructure,” including airports, utilities (including water, sewer, gas, and electrical), oil refining, roads and highways, public transportation, solid waste facilities (including collection, removal, disposal, recycling, and processing facilities), cemeteries, mortuaries, crematoriums, and telecommunications systems (including the provision of essential global, national, and local infrastructure for internet, computing services, Business infrastructure, communications, and web-based services).
- m. Essential Governmental Functions.* “Essential Governmental Functions” are determined by the governmental entity performing those functions in the County. Each governmental entity shall identify and designate appropriate Personnel, volunteers, or contractors to continue providing and carrying out any Essential Governmental Functions, including the hiring or retention of new personnel or contractors to perform such functions. Each governmental entity and its contractors must employ all necessary emergency protective measures to prevent, mitigate, respond to, and recover from the COVID-19 pandemic, and all Essential Governmental Functions must be performed in compliance with Social Distancing Requirements to the greatest extent feasible. All first responders, emergency management personnel, emergency dispatchers, court personnel, and law enforcement personnel, and others who need to perform essential services are categorically exempt from this Order to the extent they are performing those essential services.

**Residences and Households.**

- n. “Residences” and “Households” are defined as set forth in Section 3.b, above.

**Social Distancing.**

- o. Social Distancing Requirements.* “Social Distancing Requirements” mean:
  - i. Maintaining at least six-foot social distancing from individuals who are not part of the same Household;

**ORDER OF THE HEALTH OFFICER No. C19-07g**

- ii. Frequently washing hands with soap and water for at least 20 seconds, or using hand sanitizer that is recognized by the Centers for Disease Control and Prevention as effective in combatting COVID-19;
  - iii. Covering coughs and sneezes with a tissue or fabric or, if not possible, into the sleeve or elbow (but not into hands);
  - iv. Wearing a face covering when out in public, consistent with the orders or guidance of the Health Officer; and
  - v. Avoiding all social interaction outside the Household when sick with a fever, cough, or other COVID-19 symptoms.
9. **Incorporation of State and Local Emergency Proclamations and State Health Orders.**
- a. **State and Local Emergency Proclamations.** This Order is issued in accordance with, and incorporates by reference, the March 4, 2020 Proclamation of a State of Emergency issued by Governor Gavin Newsom, the March 12, 2020 Executive Order (Executive Order N-25-20) issued by Governor Gavin Newsom, the February 25, 2020 Proclamation by the Mayor Declaring the Existence of a Local Emergency issued by Mayor London Breed, as supplemented on March 11, 2020, the March 6, 2020 Declaration of Local Health Emergency Regarding Novel Coronavirus 2019 (COVID-19) issued by the Health Officer, and guidance issued by the California Department of Public Health, as each of them have been and may be supplemented.
  - b. **State Health Orders.** This Order is also issued in light of the March 19, 2020 Order of the State Public Health Officer (the “State Shelter Order”), which set baseline statewide restrictions on non-residential Business activities, effective until further notice, the Governor’s March 19, 2020 Executive Order N-33-20 directing California residents to follow the State Shelter Order, and the July 13, 2020 Order of the State Public Health Officer. The May 4, 2020 Executive Order issued by Governor Newsom and May 7, 2020 Order of the State Public Health Officer permit certain Businesses to reopen if a local health officer believes the conditions in that jurisdictions warrant it, but expressly acknowledge the authority of local health officers to establish and implement public health measures within their respective jurisdictions that are more restrictive than those implemented by the State Public Health Officer. Also on June 18, 2020 the State Department of Public Health issued guidance for the use of face coverings, requiring all people in the State to wear face coverings in certain high-risk situations, subject to limited exceptions.
10. **Obligation to Follow Stricter Requirements of Orders.**

This Order adopts certain health and safety restrictions that are more stringent than those contained in the State Shelter Order. Without this tailored set of

**ORDER OF THE HEALTH OFFICER No. C19-07g**

restrictions that further reduces the number of interactions between persons, scientific evidence indicates that the public health crisis in the County will worsen to the point at which it may overtake available health care resources within the County and increase the death rate. Where a conflict exists between this Order and any state public health order related to the COVID-19 pandemic, the most restrictive provision (i.e., the more protective of public health) controls. Consistent with California Health and Safety Code section 131080 and the Health Officer Practice Guide for Communicable Disease Control in California, except where the State Health Officer may issue an order expressly directed at this Order and based on a finding that a provision of this Order constitutes a menace to public health, any more restrictive measures in this Order continue to apply and control in this County. Also, to the extent any federal guidelines allow activities that are not allowed by this Order, this Order controls and those activities are not allowed.

**11. Obligation to Follow Health Officer Directives and Mandatory State Guidance.**

In addition to complying with all provisions of this Order, all individuals and entities, including all Businesses and governmental entities, must also follow any applicable directives issued by the County Health Officer (<http://www.sfdph.org/directives>) and any applicable “COVID-19 Industry Guidance” issued by the California Department of Public Health, available at <https://covid19.ca.gov/industry-guidance/>. To the extent that provisions in the directives of the County Health Officer and the guidance of the State Health Officer conflict, the more restrictive provisions (i.e., the more protective of public health) apply.

**12. Enforcement.**

Under Government Code sections 26602 and 41601 and Health and Safety Code section 101029, the Health Officer requests that the Sheriff and the Chief of Police in the County ensure compliance with and enforce this Order. The violation of any provision of this Order (including, without limitation, any Health Directives) constitutes an imminent threat and menace to public health, constitutes a public nuisance, and is punishable by fine, imprisonment, or both. The San Francisco Department of Public Health is authorized to respond to such public nuisances by issuing Notice(s) of Violation and ordering premises vacated and closed until the owner, tenant, or manager submits a written plan to eliminate all violations and the Department of Public Health finds that plan satisfactory. Such Notice(s) of Violation and orders to vacate and close may be issued based on a written report made by any City employees writing the report within the scope of their duty. The Department of Public Health must give notice of such orders to vacate and close to the Chief of Police or the Chief’s designee to be executed and enforced by officers in the same manner as provided by San Francisco Health Code section 597.

**ORDER OF THE HEALTH OFFICER No. C19-07g**

**13. Effective Date.**

This Order becomes effective at 12:00 p.m. on August 14, 2020, and will continue, as updated, to be in effect until it is rescinded, superseded, or amended in writing by the Health Officer.

**14. Relation to Other Orders of the San Francisco Health Officer.**

Effective as of the date and time in Section 13 above, this Order revises and replaces Order Number C19-07f, issued July 13, 2020. This Order also extends Order Nos. C19-01b (limiting visitors at Laguna Honda Hospital and Rehabilitation Center and Unit 4A at Zuckerberg San Francisco General Hospital), C19-03 (limiting visitors to specific residential facilities), C19-04 (imposing cleaning standards for residential hotels), C19-09 (limiting visitors to residential care facilities for the elderly, adult residential facilities, and residential facilities for the chronically ill), and C19-11 (placing Laguna Honda Hospital and Rehabilitation Center under protective quarantine) without any further need to amend those orders, with those listed orders otherwise remaining in effect until the specific listed order or this Order is extended, rescinded, superseded, or amended in writing by the Health Officer. This Order does not prohibit amendment of those orders separately. This Order also does not affect Order Nos. C19-06b (limiting visitors to general acute care hospitals and acute psychiatric hospitals), C19-08b (placing safety requirements on routine appointments and elective surgeries and encouraging delivery of prescriptions and cannabis products), C19-10 (requiring reporting by labs of COVID-19 testing information), C19-12c (requiring face coverings), C19-13 (regarding testing, reporting, and cooperation at skilled nursing facilities), C19-14 (regarding decedent testing), C19-15 (regarding testing requirements for health facilities and providers), and Health Officer Directive Nos. 2020-02c (regarding quarantine) and 2020-03c (regarding isolation) which continue indefinitely as provided in those respective orders until each of them is extended, rescinded, superseded, or amended in writing by the Health Officer.

**15. Copies.**

The County must promptly provide copies of this Order as follows: (1) by posting on the Department of Public Health website (<http://www.sfdph.org/healthorders>); (2) by posting at City Hall, located at 1 Dr. Carlton B. Goodlett Pl., San Francisco, CA 94102; and (3) by providing to any member of the public requesting a copy. Also, the owner, manager, or operator of any facility that is likely to be impacted by this Order is strongly encouraged to post a copy of this Order onsite and to provide a copy to any member of the public asking for a copy.

**ORDER OF THE HEALTH OFFICER No. C19-07g**

**16. Severability.**

**If any provision of this Order or its application to any person or circumstance is held to be invalid, the remainder of the Order, including the application of such part or provision to other persons or circumstances, shall not be affected and shall continue in full force and effect. To this end, the provisions of this Order are severable.**

**IT IS SO ORDERED:**

\_\_\_\_\_  
Tomás J. Aragón, MD, DrPH,  
Health Officer of the  
City and County of San Francisco

Dated: August 14, 2020

**Attachments:**

- Appendix A – Social Distancing Protocol for Businesses (revised July 13, 2020, and minor revisions on August 14, 2020)
- Appendix B-1 – Small Construction Project Safety Protocol (revised July 13, 2020, and minor revisions on August 14, 2020)
- Appendix B-2 – Large Construction Project Safety Protocol (revised July 13, 2020, and minor revisions on August 14, 2020)
- Appendix C-1 – Additional Businesses (revised August 14, 2020)
- Appendix C-2 – Additional Activities (revised July 20, 2020)

Each business allowed to operate in San Francisco must complete, post onsite, and follow this Social Distancing Protocol checklist. The attached **Instructions and Requirements** detail what is required and how to complete this checklist.

Check off all items below that apply and list other required information.

*Business name:*

*Contact name:*

*Facility Address:*

*Email / telephone:*

*(You may contact the person listed above with any questions or comments about this protocol.)*

### **SIGNAGE & EDUCATION**

- Post signage at each public entrance of the facility requiring of everyone:
  - (1) do not enter if experiencing COVID-19 symptoms (cough, fever, or not feeling well);
  - (2) maintain a minimum six-foot distance from others in line and in the facility;
  - (3) wear a face covering; and
  - (4) for self-brought bags, keep bags in a cart/basket or carry them and self-place items in bags after checkout
- Post a copy of this two-page Social Distancing Protocol checklist at each public entrance
- Post signage showing maximum number of patrons who can be in line and in the facility
- Educate Personnel about this Protocol and other COVID-19 related safety requirements

### **PROTECTIVE MEASURES**

- Follow Sections 2.1 through 2.4 below, including:
  - Ensure Personnel stay home or leave work if they are sick
  - Provide a copy of the Attachment to Personnel to ensure they understand when to stay home; translated versions of the Attachment are available online
  - Ensure Personnel review health criteria before each shift and advise Personnel what to do if they are required to stay home
- Require Personnel and patrons to wear a face covering as required by Health Officer orders
- Implement a plan to keep site Personnel safe, including by limiting the number of Personnel and patrons onsite to a number that ensures physical distancing and favoring allowing Personnel to carry out their duties from home when possible
- Ensure that patrons may cancel an appointment or reservation without financial penalty based on any COVID-19 symptoms or a COVID-19 related reason and require cancelation for fever or severe coughing not explained by a pre-existing condition, but you may offer to reschedule for another time if the patron wants to reschedule instead of to cancel

### **MEASURES TO PREVENT UNNECESSARY CONTACT**

- Tell Personnel and patrons to maintain physical distancing of at least six feet, except Personnel may momentarily come closer when necessary to accept payment, deliver goods or services, or as otherwise necessary
- Separate all used desks or individual work stations by at least six feet
- Place markings in patron line areas to ensure six feet physical distancing (inside and outside)

Provide for contactless payment systems or, if not feasible, disinfect payment systems regularly. The Board of Supervisors has required businesses to accept cash—if cash is used encourage exact change.

Maintain Plexiglas or other barriers between patrons and Personnel at point of payment (if not possible, then ensure at least six feet of distance)

Limit the number of patrons in the store at any one time to: \_\_\_\_\_

Separate ordering areas from delivery areas or similarly help distance patrons when possible

Optional—Describe other measures:

## **SANITIZING MEASURES**

Regularly disinfect high touch areas, and do so continuously for surfaces patrons touch (countertops, payment systems, pens, and styluses)

Provide disinfecting wipes that are effective against SARS-CoV-2 near shopping carts, shopping baskets, and high-touch surfaces and provide hand sanitizer

Have Personnel disinfect carts and baskets after each use

Provide hand sanitizer, sink with soap and water, and/or disinfecting wipes to patrons and Personnel at or near the entrance of the facility, at checkout counters, and anywhere else where people have direct interactions

Disinfect break rooms, bathrooms, and other common areas frequently, on the following schedule:

Break rooms:

Bathrooms:

Other:

Prevent people from self-serving any items that are food-related:

Provide lids and utensils for food items by Personnel, not for patrons to grab

Limit access to bulk-item food bins to Personnel—no self-service use

Require patrons and Personnel to follow requirements of Section 2.29 below for self-brought bags, and prohibit patrons from bringing any other reusable items such as coffee mugs.

Prohibit Personnel from using shared food prep equipment for their own use (e.g., microwaves, water coolers), but microwaves may be used if disinfected between each use and hand sanitizer is available nearby and water coolers may be used as outlined in Section 2.18 below.

Optional—Describe other measures (e.g., providing senior-only hours):

## **INDUSTRY-SPECIFIC DIRECTIVES**

Ensure that you have read and implemented the attached list of requirements.

In addition to complying with the Social Distancing Protocol, many businesses must comply with additional, industry-specific directives. Go to [www.sfdph.org/directives](http://www.sfdph.org/directives) and check to see if your business is subject to one or more additional directives. For each one, you must review the Health and Safety Plan (HSP) requirements and post an additional checklist for each one that applies. In the event that any directive changes the requirements of the Social Distancing Protocol, the more specific language of the directive controls, even if it is less restrictive. Check this box after you have checked the list of directives and posted any other required HSP.

\* Any additional measures may be listed on separate pages and attached.

**[You are not required to post these Instructions and Requirements]****Instructions:**

The two-page Social Distancing Protocol checklist above must reflect the business's completion of each requirement listed below unless an item is not applicable. Use the two-page checklist above to show compliance with these requirements. The business does not need to post these Instructions and Requirements, only the checklist above. The term "Personnel" is defined in Health Officer Order No. C19-07g to which this Appendix is attached. The term "patron" includes customers, others seeking services, visitors, and guests.

**Requirements:**

In addition to the items below, this protocol requires the business to ensure that Personnel who perform work associated with the business are covered by the Social Distancing Protocol checklist and comply with those requirements. Each business is required to take certain steps in the protocol related to its Personnel, including the actions listed in Sections 2.1 through 2.4 below if Personnel are sick. Each business is prohibited from taking any adverse action against any Personnel for staying home in the circumstances listed in Sections 2.1 through 2.4 below. Personnel of each business are prohibited from coming to work if they are sick and must comply with the protocol, including the rules for returning to work listed in Sections 2.1 through 2.4 below.

**1. Section 1 – Signage and Education:**

- 1.1.** Post signage at each public entrance of the facility or location (if any) to inform all patrons that they must: not wait in line or enter the facility or location if they have a cough or fever or are not feeling well; maintain a minimum six-foot distance from others while in line or in the facility or location; wear a face covering or barrier mask (a "Face Covering") at all times; not shake hands or engage in any unnecessary physical contact; and, if they bring their own reusable bags, leave the bags in a shopping cart/basket or carry them and bag their own items after checkout. Criteria for Face Coverings and the requirements related to their use are set forth in Health Officer Order No. C19-12, issued on April 17, 2020 (the "Face Covering Order"), including as that order is updated in the future. Sample signs are available online at <https://sf.gov/outreach-toolkit-coronavirus-covid-19>. A list of common symptoms of COVID-19 can be found at <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>.
- 1.2.** Post a copy of the Social Distancing Protocol checklist at each public entrance to the facility or location.
- 1.3.** Distribute to all Personnel copies of the Social Distancing Protocol checklist in hardcopy or electronic format.
- 1.4.** Educate all Personnel on the requirements of the Social Distancing Protocol and any other Health Officer directive that applies.

**2. Section 2 – Personnel and Patron Protection and Sanitation Requirements:**

- 2.1.** Instruct all Personnel orally and in writing not to come to work or the facility if they are sick.
- 2.2.** Provide a copy of the attachment to this Exhibit, titled "Information for Personnel (Employees, Contractors, Volunteers) of Additional Business and Other Businesses Permitted To Operate During the Health Emergency" (the "Attachment"), to all Personnel who regularly work at the

facility or location in hardcopy format or electronically. PDF and translated versions of the Attachment can be found at [www.sfcdcp.org/screening-handout](http://www.sfcdcp.org/screening-handout). If the Attachment is updated, provide an updated copy to all Personnel.

- 2.3.** Review the criteria listed in Part 1 of the Attachment on a daily basis with all Personnel in the City who regularly work at the facility or location before each person enters work spaces or begins a shift. If such a review is not feasible because the business does not directly interact with some Personnel onsite daily, then that business must for those Personnel (1) instruct such Personnel to review the criteria before each shift in the City and (2) have such Personnel report to the business that they are okay to begin the shift such as through an app, website, or phone call.

Instruct any Personnel who answered yes to any question in Part 1 of the Attachment to return home or not come to work and follow the directions on the Attachment.

- 2.4.** Instruct Personnel who stayed home or who went home based on the criteria listed on the Attachment that they must follow the criteria as well as any applicable requirements from the quarantine and isolation directives (available at [www.sfdph.org/healthorders](http://www.sfdph.org/healthorders)) before returning to work. If they are required to self-quarantine or self-isolate, they may only return to work after they have completed self-quarantine or self-isolation. If they test negative for the virus (no virus found), they may only return to work after waiting for the amount of time listed on the Attachment after their symptoms have resolved. Personnel are not required to provide a medical clearance letter to return to work as long as they have met the requirements outlined on the Attachment.
- 2.5.** Businesses must periodically check the following website for any testing requirements for employers and businesses: [www.sfcdcp.org/covid19](http://www.sfcdcp.org/covid19). If requirements are added, ensure that the business and all Personnel comply with testing requirements.
- 2.6.** If an aspect of the business is allowed to operate and is covered by a Health Officer directive, then the business must comply with all applicable directives as well as this Social Distancing Protocol. Copies of other directives are available online at [www.sfdph.org/directives](http://www.sfdph.org/directives). For each directive that applies, review the Health and Safety Plan (HSP) requirements and post an additional HSP checklist for each one that applies. In the event that any directive changes the requirements of the Social Distancing Protocol, the more specific language of the directive controls, even if it is less restrictive.
- 2.7.** Instruct all Personnel and patrons to maintain at least a six-foot distance from others, including when in line and when shopping or collecting goods on behalf of patrons, except when momentarily necessary to facilitate or accept payment and hand off items or deliver goods. Note that if the business cannot ensure maintenance of a six-foot distance within the location or facility between Personnel or other people onsite, such as by moving work stations or spreading Personnel out, it must reduce the number of Personnel permitted in the location or facility accordingly.
- 2.8.** Provide Face Coverings for all Personnel, with instructions that they must wear Face Coverings at all times when at work, as further set forth in the Face Covering Order. A sample sign is available online at <https://sf.gov/outreach-toolkit-coronavirus-covid-19>. Allow Personnel to bring their own Face Covering if they bring one that has been cleaned before the shift. In general, people should have multiple Face Coverings (whether reusable or disposable) to ensure they use a clean one each day. The Face Covering Order permits certain exceptions, and the business should be aware of exceptions that allow a person not to wear a Face Covering (for example, children 12 years old or younger or based on a written

medical excuse). When Personnel do not wear a Face Covering because of an exception, take steps to otherwise increase safety for all.

- 2.9.** If patrons wait in line outside or inside any facility or location operated by the business, require patrons to wear a Face Covering while waiting in line outside or inside the facility or location. This includes taking steps to notify patrons they will not be served if they are in line without a Face Covering and refusing to serve a patron without a Face Covering, as further provided in the Face Covering Order. The business may provide a clean Face Covering to patrons while in line. For clarity, the transaction or service must be aborted if the patron is not wearing a Face Covering. But the business must permit a patron who is excused by the Face Covering Order from wearing a Face Covering to conduct their transaction or obtain service, including by taking steps that can otherwise increase safety for all.
- 2.10.** Provide a sink with soap, water, and paper towels for handwashing for all Personnel working onsite at the facility or location and for patrons if sinks and restrooms are open to patrons. Require that all Personnel wash hands at least at the start and end of each shift, after sneezing, coughing, eating, drinking, smoking (to the extent smoking is allowed by law and the business), or using the restroom, when changing tasks, and, when possible, frequently during each shift. Personnel who work off-site, such as driving or delivering goods, must be required to use hand sanitizer throughout their shift.
- 2.11.** Provide hand sanitizer effective against SARS-CoV-2, the virus that causes COVID-19, at appropriate locations for patrons and elsewhere at the facility or location for Personnel. Sanitizer must also be provided to Personnel who shop, deliver, or drive for use when they are shopping, delivering, or driving. If sanitizer cannot be obtained, a handwashing station with soap, water, and paper towels will suffice for Personnel who are on-site at the facility or location. But for Personnel who shop, deliver, or drive in relation to their work, the business must provide hand sanitizer effective against SARS-CoV-2 at all times; for any period during which the business does not provide sanitizer to such shopping, delivery, or driving Personnel, the business is not allowed for that aspect of its service to operate in the City. Information on hand sanitizer, including sanitizer effective against SARS-CoV-2 and how to obtain sanitizer, is available online from the Food and Drug Administration here: <https://www.fda.gov/drugs/information-drug-class/ga-consumers-hand-sanitizers-and-covid-19>.
- 2.12.** Provide disinfectant and related supplies to Personnel and require Personnel to sanitize all high-touch surfaces under their control, including but not limited to: shopping carts and baskets used by Personnel and patrons; countertops, food/item display cases, refrigerator and freezer case doors, drawers with tools or hardware, and check-out areas; cash registers, payment equipment, and self-check-out kiosks; door handles; tools and equipment used by Personnel during a shift; and any inventory-tracking or delivery-tracking equipment or devices which require handling throughout a work shift. These items should be routinely disinfected during the course of the day, including as required below. A list of products listed by the United States Environmental Protection Agency as meeting criteria for use against SARS-CoV-2 can be found online here: <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2>.
- 2.13.** Ensure that all shared devices and equipment are cleaned and/or sanitized by Personnel on frequent schedules, not less than at the beginning and end of each Personnel member's work shift and during the shift.
- 2.14.** Direct all Personnel to avoid touching unsanitized surfaces that may be frequently touched, such as door handles, tools, or credit cards, unless protective equipment such as gloves

(provided by the business) are used and discarded after each use or hand sanitizer is used after each interaction.

- 2.15.**Frequently disinfect any break rooms, bathrooms, and other common areas. Create and use a daily checklist to document each time disinfection of these rooms or areas occurs. Conspicuously post the checklist inside each respective break room, bathroom, or other common area clearly detailing the dates and times the room was last cleaned, disinfected, or restocked.
- 2.16.**For any facility or location that has carts, baskets, or other equipment for use by Personnel, assign Personnel to disinfect carts, baskets, or other equipment after each use and take steps to prevent anyone from grabbing used carts, baskets, or other equipment before disinfection.
- 2.17.**Establish adequate time in the work day to allow for proper cleaning and decontamination throughout the facility or location by Personnel including, but not limited to, before closing for the day and opening in the morning.
- 2.18.***[Revised 8/14/20]* Except as listed in this Section 2.18, suspend use of any microwaves, water coolers, drinking fountains, and other similar group equipment for breaks until further notice. Microwaves may be used if disinfected by wiping the interior and exterior with an approved disinfectant after each use. Water coolers may be used if: i) touch surfaces are wiped down with an approved disinfectant after each use; and ii) any person changing a container-type water cooler must wash their hands or use hand sanitizer immediately prior to handling/replacing the water container.
- 2.19.**When possible, provide a barrier between the patron and the cashier such as a plexi-glass temporary barrier. When not possible, create sufficient space to enable the patron to stand more than six feet away from the cashier while items are being scanned/tallied and bagged.
- 2.20.**Provide for contactless payment systems or, if not feasible, sanitize payment systems, including touch screens, payment portals, pens, and styluses, after each patron use. Patrons may pay with cash but to further limit person-to-person contact, Personnel should encourage patrons to use credit, debit, or gift cards for payment.
- 2.21.**For any larger facility or location, appoint a designated sanitation worker at all times to continuously clean and sanitize commonly touched surfaces and meet the environmental cleaning guidelines set by the Center for Disease Control and Prevention.
- 2.22.**If an employee or other Personnel tests positive for COVID-19 or SARS-CoV-2, follow the guidance on “Business guidance if a staff member tests positive for COVID-19,” available at <https://sf.gov/business-guidance-if-staff-member-tests-positive-covid-19>.
- 2.23.**Post signs to advise patrons of the maximum line capacity to ensure that the maximum number of patrons in line is not exceeded. Once the maximum number of patrons is reached, patrons should be advised to return later to prevent buildup of congestion in the line.
- 2.24.**Place tape or other markings on the sidewalk or floor at least six feet apart in patron line areas with signs directing patrons to use the markings to maintain distance.
- 2.25.**When stocking shelves, if any, ensure that Personnel wash or sanitize hands before placing items on shelves, making sure to again wash or sanitize hands if they become contaminated by touching face or hair or being exposed to other soiled surfaces.

**2.26.** Ensure that all Personnel who select items on behalf of patrons wear a Face Covering when selecting, packing, and/or delivering items.

**2.27.** Require Personnel to wash hands frequently, including:

- When entering any kitchen or food preparation area
- Before starting food preparation or handling
- After touching their face, hair, or other areas of the body
- After using the restroom
- After coughing, sneezing, using a tissue, smoking, eating, or drinking
- Before putting on gloves
- After engaging in other activities that may contaminate the hands

**2.28.** Assign Personnel to keep soap and paper towels stocked at sinks and handwashing stations at least every hour and to replenish other sanitizing products.

**2.29.** [Added 7/13/20] If patrons bring their own reusable shopping bags, ensure that such bags, even in contexts other than grocery stores, are handled in a manner consistent with Cal/OSHA requirements available at <https://www.dir.ca.gov/dosh/Coronavirus/COVID-19-Infection-Prevention-in-Grocery-Stores.pdf>, including all of the following:

- Post signs at all entrances with infection control information to patrons, including requiring patrons to leave their own bags in the shopping cart or basket or carry them and bag their own items after checkout;
- Ensure that Personnel do not touch the bags or place items in them;
- Bags must not be placed on a conveyor belt, checkout area countertop, or other surface where patrons are served;
- Ensure that patrons bag their own items if they bring their own bags;
- Bags may not be loaded on the checkout area surface. Items can be left in a cart/basket and bagged elsewhere by the patron after checkout;
- Ensure that patrons maintain physical distancing while bagging their items; and
- Increase the frequency of disinfection in bagging areas and patron service areas frequented by patrons.

**2.30.** [Added 7/13/20] If a patron has symptoms of COVID-19 (see Section 1.1 above) or is otherwise unable to participate in an appointment or reservation for a COVID-19 related reason, the business must allow the patron to cancel without any financial penalty. If the patron reports having a fever or has a severe cough not explained by a pre-existing condition, the business must cancel the appointment or reservation. The business may offer to reschedule the appointment or reservation but cannot require rescheduling instead of allowing the patron to cancel. In the healthcare context, more specific Health Officer directives may allow appointments when a patient or client is ill, and the requirements of the directive must be followed in that situation.

Note – Sections 2.18 and 2.29 control over any contrary language in Health Officer Directive Nos. 2020-05, 2020-06, and 2020-07 until each of them is amended or updated.

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-1**

**Small Construction Project Safety Protocol (revised August 14, 2020)**

1. Any construction project meeting any of the following specifications is subject to this Small Construction Project Safety Protocol (“SCP Protocol”), including public works projects unless otherwise specified by the Health Officer:
  - a. For residential projects, any single-family, multi-family, senior, student, or other residential construction, renovation, or remodel project consisting of 10 units or fewer. This SCP Protocol does not apply to construction projects where a person is performing construction on their current residence either alone or solely with members of their own household.
  - b. For commercial projects, any construction, renovation, or tenant improvement project consisting of 20,000 square feet of floor area or less.
  - c. For mixed-use projects, any project that meets both of the specifications in subsections 1.a and 1.b.
  - d. All other construction projects not subject to the Large Construction Project Safety Protocol set forth in Appendix B-2.
  
2. The following restrictions and requirements must be in place at all construction job sites subject to this SCP Protocol:
  - a. Comply with all applicable and current laws and regulations including but not limited to OSHA and Cal-OSHA. If there is any conflict, difference, or discrepancy between or among applicable laws and regulations and/or this SCP Protocol, the stricter standard shall apply.
  - b. Designate a site-specific COVID-19 supervisor or supervisors to enforce this guidance. A designated COVID-19 supervisor must be present on the construction site at all times during construction activities. A COVID-19 supervisor may be an on-site worker who is designated to serve in this role.
  - c. The COVID-19 supervisor must review this SCP Protocol with all workers and visitors to the construction site.
  - d. Establish a daily screening protocol for arriving staff to ensure that potentially infected staff do not enter the construction site. If workers leave the jobsite and return the same day, establish a cleaning and decontamination protocol prior to entry and exit of the jobsite. Post the daily screening protocol at all entrances and exits to the jobsite. More information on screening can be found online at: <https://www.cdc.gov/coronavirus/2019-ncov/community/index.html>.
  - e. Practice social distancing by maintaining a minimum six-foot distance between workers at all times, except as strictly necessary to carry out a task associated with the construction project.

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-1**

- f. In the event of a confirmed case of COVID-19 at any jobsite, the following must take place:
- i. Immediately remove the infected individual from the jobsite with directions to seek medical care.
  - ii. Decontaminate and sanitize all surfaces at each location at which the infected worker was present. Provide those performing the decontamination and sanitization work with medical-grade PPE, ensure the workers are trained in proper use of the PPE, require the workers to use the provided PPE, and prohibit any sharing of the PPE. Prohibit anyone from entering the possibly contaminated area, except those performing decontamination and sanitization work. Cease all work in these locations until decontamination and sanitization is complete.
  - iii. Each subcontractor, upon learning that one of its employees is infected, must notify the General Contractor immediately, if you have one, and provide all of the information specified below. The General Contractor or other appropriate supervisor must notify the County Public Health Department Communicable Disease Control (CD Control) at 628-217-6100 immediately of every project site worker found to have a confirmed case of COVID-19, and provide all the information specified below. Follow all directives and complete any additional requirements by County health officials, including full compliance with any tracing efforts by the County.
- Information to be reported to CD Control regarding the jobsite:
    - 1) Address of jobsite;
    - 2) Name of project, if any;
    - 3) Name of General Contractor; and
    - 4) General Contractor point of contact, role, phone number and email.
  - Information to be reported to CD Control regarding the COVID-19 case(s):
    - 5) First and last name;
    - 6) Date of birth;
    - 7) Phone;
    - 8) Date tested positive;
    - 9) Date last worked;
    - 10) City of residence; and
    - 11) If the case is an employee of a subcontractor, please provide the following information:
      - Subcontractor;
      - Subcontractor contact name;
      - Subcontractor contact phone; and
      - Subcontractor contact email.
  - Information to be reported to CD Control regarding Close Contacts. For each reported case(s) above, please provide the following information (if you are

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-1**

reporting more than one positive case, please include the name of the positive case for each close contact):

- 1) Close contact's first and last name;
- 2) Phone;
- 3) City of residence; and
- 4) Positive case name.

A "Close Contact" in the workplace is anyone who:

- o Stayed within 6 feet of the Person with COVID-19 for 10 minutes or more while they were not wearing a face mask; OR
- o Had direct contact for any amount of time with the body fluids and/or secretions of the Person With COVID-19 (e.g., was coughed or sneezed on, shared utensils with, or was provided care or provided care for them without wearing a mask, gown, and gloves).

Close contacts are high risk exposures and need to quarantine for a full 14 days due to the 14 day incubation period of the virus. Even if a close contact tests negative within 14 days of their last exposure to the case, they must continue quarantining the full 14 day period to prevent transmission of the virus.

- g. Where construction work occurs within an occupied residential unit, separate work areas must be sealed off from the remainder of the unit with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative entry/exit door to the entry/exit door used by residents. Available windows and exhaust fans must be used to ventilate the work area. If residents have access to the work area between workdays, the work area must be cleaned and sanitized at the beginning and at the end of workdays. Every effort must be taken to minimize contact between workers and residents, including maintaining a minimum of six feet of social distancing at all times.
- h. Where construction work occurs within common areas of an occupied residential or commercial building or a mixed-use building in use by on-site employees or residents, separate work areas must be sealed off from the rest of the common areas with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative building entry/exit door to the building entry/exit door used by residents or other users of the building. Every effort must be taken to minimize contact between worker and building residents and users, including maintaining a minimum of six feet of social distancing at all times.
- i. Prohibit gatherings of any size on the jobsite, including gatherings for breaks or eating, except for meetings regarding compliance with this protocol or as strictly necessary to carry out a task associated with the construction project.

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-1**

- j. Cal-OSHA requires employers to provide water, which should be provided in single-serve containers. Sharing of any of any food or beverage is strictly prohibited and if sharing is observed, the worker must be sent home for the day.
- k. Provide personal protective equipment (PPE) specifically for use in construction, including gloves, goggles, face shields, and face coverings as appropriate for the activity being performed. At no time may a contractor secure or use medical-grade PPE unless required due to the medical nature of a jobsite. Face coverings must be worn in compliance with Health Officer Order No. C19-12b, issued April 17, 2020 and revised May 28, 2020, or any subsequently issued or amended order.
- l. Prohibit use of microwaves, water coolers, and other similar shared equipment except as allowed by the Social Distancing Protocol (Appendix A).
- m. Strictly control “choke points” and “high-risk areas” where workers are unable to maintain six-foot social distancing and prohibit or limit use to ensure that six-foot distance can easily be maintained between individuals.
- n. Minimize interactions and maintain social distancing with all site visitors, including delivery workers, design professional and other project consultants, government agency representatives, including building and fire inspectors, and residents at residential construction sites.
- o. Stagger trades as necessary to reduce density and allow for easy maintenance of minimum six-foot separation.
- p. Discourage workers from using others’ desks, work tools, and equipment. If more than one worker uses these items, the items must be cleaned and disinfected with disinfectants that are effective against COVID-19 in between use by each new worker. Prohibit sharing of PPE.
- q. If hand washing facilities are not available at the jobsite, place portable wash stations or hand sanitizers that are effective against COVID-19 at entrances to the jobsite and in multiple locations dispersed throughout the jobsite as warranted.
- r. Clean and sanitize any hand washing facilities, portable wash stations, jobsite restroom areas, or other enclosed spaces daily with disinfectants that are effective against COVID-19. Frequently clean and disinfect all high touch areas, including entry and exit areas, high traffic areas, rest rooms, hand washing areas, high touch surfaces, tools, and equipment
- s. Maintain a daily attendance log of all workers and visitors that includes contact information, including name, phone number, address, and email.
- t. Post a notice in an area visible to all workers and visitors instructing workers and visitors to do the following:
  - i. Do not touch your face with unwashed hands or with gloves.

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-1**

- ii. Frequently wash your hands with soap and water for at least 20 seconds or use hand sanitizer with at least 60% alcohol.
  - iii. Clean and disinfect frequently touched objects and surfaces such as work stations, keyboards, telephones, handrails, machines, shared tools, elevator control buttons, and doorknobs.
  - iv. Cover your mouth and nose when coughing or sneezing, or cough or sneeze into the crook of your arm at your elbow/sleeve.
  - v. Do not enter the jobsite if you have a fever, cough, or other COVID-19 symptoms. If you feel sick, or have been exposed to anyone who is sick, stay at home.
  - vi. Constantly observe your work distances in relation to other staff. Maintain the recommended minimum six feet at all times when not wearing the necessary PPE for working in close proximity to another person.
  - vii. Do not carpool to and from the jobsite with anyone except members of your own household unit, or as necessary for workers who have no alternative means of transportation.
  - viii. Do not share phones or PPE.
- u. The notice in Section 2.t must be translated as necessary to ensure that all non-English speaking workers are able to understand the notice.

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-2**

**Large Construction Project Safety Protocol (revised August 14, 2020)**

1. Any construction project meeting any of the following specifications is subject to this Large Construction Project Safety Protocol (“LCP Protocol”), including public works projects unless otherwise specified by the Health Officer:
  - a. For residential construction projects, any single-family, multi-family, senior, student, or other residential construction, renovation, or remodel project consisting of more than 10 units.
  - b. For commercial construction projects, any construction, renovation, or tenant improvement project consisting of more than 20,000 square feet of floor area.
  - c. For construction of Essential Infrastructure, as defined in Section 8.1 of the Order, any project that requires twenty or more workers at the jobsite at any one time.
2. The following restrictions and requirements must be in place at all construction job sites subject to this LCP Protocol:
  - a. Comply with all applicable and current laws and regulations including but not limited to OSHA and Cal-OSHA. If there is any conflict, difference or discrepancy between or among applicable laws and regulations and/or this LCP Protocol, the stricter standard will apply.
  - b. Prepare a new or updated Site-Specific Health and Safety Plan to address COVID-19-related issues, post the Plan on-site at all entrances and exits, and produce a copy of the Plan to County governmental authorities upon request. The Plan must be translated as necessary to ensure that all non-English speaking workers are able to understand the Plan.
  - c. Provide personal protective equipment (PPE) specifically for use in construction, including gloves, goggles, face shields, and face coverings as appropriate for the activity being performed. At no time may a contractor secure or use medical-grade PPE, unless required due to the medical nature of a job site. Face Coverings must be worn in compliance with Health Officer Order No. C19-12b, issued April 17, 2020 and revised May 28, 2020, or any subsequently issued or amended order.
  - d. Ensure that employees are trained in the use of PPE. Maintain and make available a log of all PPE training provided to employees and monitor all employees to ensure proper use of the PPE.
  - e. Prohibit sharing of PPE.
  - f. Implement social distancing requirements including, at minimum:

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-2**

- i. Stagger stop- and start-times for shift schedules to reduce the quantity of workers at the jobsite at any one time to the extent feasible.
- ii. Stagger trade-specific work to minimize the quantity of workers at the jobsite at any one time.
- iii. Require social distancing by maintaining a minimum six-foot distance between workers at all times, except as strictly necessary to carry out a task associated with the project.
- iv. Prohibit gatherings of any size on the jobsite, except for safety meetings or as strictly necessary to carry out a task associated with the project.
- v. Strictly control “choke points” and “high-risk areas” where workers are unable to maintain minimum six-foot social distancing and prohibit or limit use to ensure that minimum six-foot distancing can easily be maintained between workers.
- vi. Minimize interactions and maintain social distancing with all site visitors, including delivery workers, design professional and other project consultants, government agency representatives, including building and fire inspectors, and residents at residential construction sites.
- vii. Prohibit workers from using others’ phones or desks. Any work tools or equipment that must be used by more than one worker must be cleaned with disinfectants that are effective against COVID-19 before use by a new worker.
- viii. Place wash stations or hand sanitizers that are effective against COVID-19 at entrances to the jobsite and in multiple locations dispersed throughout the jobsite as warranted.
- ix. Maintain a daily attendance log of all workers and visitors that includes contact information, including name, address, phone number, and email.
- x. Post a notice in an area visible to all workers and visitors instructing workers and visitors to do the following:
  1. Do not touch your face with unwashed hands or with gloves.
  2. Frequently wash your hands with soap and water for at least 20 seconds or use hand sanitizer with at least 60% alcohol.
  3. Clean and disinfect frequently touched objects and surfaces such as workstations, keyboards, telephones, handrails, machines, shared tools, elevator control buttons, and doorknobs.
  4. Cover your mouth and nose when coughing or sneezing or cough or sneeze into the crook of your arm at your elbow/sleeve.
  5. Do not enter the jobsite if you have a fever, cough, or other COVID-19 symptoms. If you feel sick, or have been exposed to anyone who is sick, stay at home.
  6. Constantly observe your work distances in relation to other staff. Maintain the recommended minimum six-foot distancing at all times when not wearing the necessary PPE for working in close proximity to another person.
  7. Do not share phones or PPE.

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-2**

- xi. The notice in section 2.f.x must be translated as necessary to ensure that all non-English speaking workers are able to understand the notice.
  
- g. Implement cleaning and sanitization practices in accordance with the following:
  - i. Frequently clean and sanitize, in accordance with CDC guidelines, all high-traffic and high-touch areas including, at a minimum: meeting areas, jobsite lunch and break areas, entrances and exits to the jobsite, jobsite trailers, hand-washing areas, tools, equipment, jobsite restroom areas, stairs, elevators, and lifts.
  - ii. Establish a cleaning and decontamination protocol prior to entry and exit of the jobsite and post the protocol at entrances and exits of jobsite.
  - iii. Supply all personnel performing cleaning and sanitization with proper PPE to prevent them from contracting COVID-19. Employees must not share PPE.
  - iv. Establish adequate time in the workday to allow for proper cleaning and decontamination including prior to starting at or leaving the jobsite for the day.
  
- h. Implement a COVID-19 community spread reduction plan as part of the Site-Specific Health and Safety Plan that includes, at minimum, the following restrictions and requirements:
  - i. Prohibit all carpooling to and from the jobsite except by workers living within the same household unit, or as necessary for workers who have no alternative means of transportation.
  - ii. Cal-OSHA requires employers to provide water, which should be provided in single-serve containers. Prohibit any sharing of any food or beverage and if sharing is observed, the worker must be sent home for the day.
  - iii. Prohibit use of microwaves, water coolers, and other similar shared equipment except as allowed by the Social Distancing Protocol (Appendix A).
  
- i. Assign a COVID-19 Safety Compliance Officer (SCO) to the jobsite and ensure the SCO's name is posted on the Site-Specific Health and Safety Plan. The SCO must:
  - i. Ensure implementation of all recommended safety and sanitation requirements regarding the COVID-19 virus at the jobsite.
  - ii. Compile daily written verification that each jobsite is compliant with the components of this LCP Protocol. Each written verification form must be copied, stored, and made immediately available upon request by any County official.
  - iii. Establish a daily screening protocol for arriving staff, to ensure that potentially infected staff do not enter the construction site. If workers leave the jobsite and return the same day, establish a cleaning and decontamination protocol prior to entry and exit of the jobsite. Post the daily screening protocol at all entrances and exit to the jobsite. More information on screening can be found online at: <https://www.cdc.gov/coronavirus/2019-ncov/community/index.html>.
  - iv. Conduct daily briefings in person or by teleconference that must cover the following topics:
    - 1. New jobsite rules and pre-job site travel restrictions for the prevention of COVID-19 community spread.
    - 2. Review of sanitation and hygiene procedures.
    - 3. Solicitation of worker feedback on improving safety and sanitation.

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-2**

4. Coordination of construction site daily cleaning/sanitation requirements.
  5. Conveying updated information regarding COVID-19.
  6. Emergency protocols in the event of an exposure or suspected exposure to COVID-19.
- v. Develop and ensure implementation of a remediation plan to address any non-compliance with this LCP Protocol and post remediation plan at entrance and exit of jobsite during remediation period. The remediation plan must be translated as necessary to ensure that all non-English speaking workers are able to understand the document.
  - vi. The SCO must not permit any construction activity to continue without bringing such activity into compliance with these requirements.
  - vii. Report repeated non-compliance with this LCP Protocol to the appropriate jobsite supervisors and a designated County official.
- j. Assign a COVID-19 Third-Party Jobsite Safety Accountability Supervisor (JSAS) for the jobsite, who at a minimum holds an OSHA-30 certificate and first-aid training within the past two years, who must be trained in the protocols herein and verify compliance, including by visual inspection and random interviews with workers, with this LCP Protocol.
- i. Within seven calendar days of each jobsite visit, the JSAS must complete a written assessment identifying any failure to comply with this LCP Protocol. The written assessment must be copied, stored, and, upon request by the County, sent to a designated County official.
  - ii. If the JSAS discovers that a jobsite is not in compliance with this LCP Protocol, the JSAS must work with the SCO to develop and implement a remediation plan.
  - iii. The JSAS must coordinate with the SCO to prohibit continuation of any work activity not in compliance with rules stated herein until addressed and the continuing work is compliant.
  - iv. The remediation plan must be sent to a designated County official within five calendar days of the JSAS's discovery of the failure to comply.
- k. In the event of a confirmed case of COVID-19 at any jobsite, the following must take place:
- i. Immediately remove the infected individual from the jobsite with directions to seek medical care.
  - ii. Decontaminate and sanitize all surfaces at each location at which the infected worker was present. Provide those performing the decontamination and sanitization work with medical-grade PPE, ensure the workers are trained in proper use of the PPE, require the workers to use the provided PPE, and prohibit any sharing of the PPE. Prohibit anyone from entering the possibly contaminated area, except those performing decontamination and sanitization work. Cease all work in these locations until decontamination and sanitization is complete.
  - iii. Notify the County Public Health Department Communicable Disease Control (CD Control) immediately at 628-217-6100 and provide the information

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-2**

below. Follow all directives and complete any additional requirements by County health officials, including full compliance with any tracing efforts by the County.

- Information to be reported to CD Control regarding the jobsite:
    - 1) Address of jobsite;
    - 2) Name of project, if any;
    - 3) Name of General Contractor; and
    - 4) General Contractor point of contact, role, phone number and email.
  
  - Information to be reported to CD Control regarding the COVID-19 case(s):
    - 5) First and last name;
    - 6) Date of birth;
    - 7) Phone;
    - 8) Date tested positive;
    - 9) Date last worked;
    - 10) City of residence; and
    - 11) If the case is an employee of a subcontractor, please provide the following information:
      - Subcontractor;
      - Subcontractor contact name;
      - Subcontractor contact phone; and
      - Subcontractor contact email.
  
  - Information to be reported to CD Control regarding Close Contacts. For each reported case(s) above, please provide the following information (if you are reporting more than one positive case, please include the name of the positive case for each close contact):
    - 1) Close contact's first and last name;
    - 2) Phone;
    - 3) City of residence; and
    - 4) Positive case name.
- A "Close Contact" in the workplace is anyone who:
- Stayed within 6 feet of the Person with COVID-19 for 10 minutes or more while they were not wearing a face mask; OR
  - Had direct contact for any amount of time with the body fluids and/or secretions of the Person With COVID-19 (e.g., was coughed or sneezed

**ORDER OF THE HEALTH OFFICER No. C19-07g**  
**Appendix B-2**

on, shared utensils with, or was provided care or provided care for them without wearing a mask, gown, and gloves).

Close contacts are high risk exposures and need to quarantine for a full 14 days due to the 14 day incubation period of the virus. Even if a close contact tests negative within 14 days of their last exposure to the case, they must continue quarantining the full 14 day period to prevent transmission of the virus.

If you are unable to obtain the above case or close contact information from your subcontractor, please ensure your subcontractor is aware that they will need to report directly to SFDPH CD Control.

- l.* Where construction work occurs within an occupied residential unit, any separate work area must be sealed off from the remainder of the unit with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative entry/exit door to the entry/exit door used by residents. Available windows and exhaust fans must be used to ventilate the work area. If residents have access to the work area between workdays, the work area must be cleaned and sanitized at the beginning and at the end of workdays. Every effort must be taken to minimize contact between workers and residents, including maintaining a minimum of six feet of social distancing at all times.
  
- m.* Where construction work occurs within common areas of an occupied residential or commercial building or a mixed-use building in use by on-site employees or residents, any separate work area must be sealed off from the rest of the common areas with physical barriers such as plastic sheeting or closed doors sealed with tape to the extent feasible. If possible, workers must access the work area from an alternative building entry/exit door to the building entry/exit door used by residents or other users of the building. Every effort must be taken to minimize contact between worker and building residents and users, including maintaining a minimum of six feet of social distancing at all times.

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

**A. General Requirements**

The “Additional Businesses” listed below may begin operating, subject to the requirements set forth in the Order and to any additional requirements set forth below or in separate industry-specific guidance by the Health Officer. These businesses were selected based on current health-related information, the risk criteria set forth in Section 3 of the Order, and the overall impact that allowing these businesses to resume operation will have on mobility and volume of activity in the County.

To mitigate the risk of transmission to the greatest extent possible, before resuming operations, each Additional Business must:

- Comply with Social Distancing Requirements (Section 8.o of the Order) and prepare, post, implement, and distribute to their Personnel a Social Distancing Protocol checklist as specified in Section 5.d and Appendix A of the Order for each of their facilities in the County where Personnel or members of the public will be onsite;
- Prepare, post, implement, and distribute to their Personnel a written health and safety plan checklist that addresses all applicable best practices set forth in relevant Health Officer directives; and
- Comply with any relevant state guidance and local directives. If a conflict exists between state guidance and local public health directives related to the COVID-19 pandemic, the most restrictive provision shall be followed, as further provided in Section 10 of the Order.

Businesses that are permitted to operate outdoors may conduct their operations under a tent, canopy, or other sun shelter, but only as long as no more than one side is closed, allowing sufficient outdoor air movement.

The health-related basis for selection of Additional Businesses and the specific requirements for risk mitigation are summarized below. The bases for the additions were amended on July 13, 2020, to reflect an updated and refined analysis under the risk criteria set forth in Section 3 of the amended Order.

**B. List of Additional Businesses**

For purposes of the Order, Additional Businesses include the following subject to the stated limitations and conditions:

(1) Retail Stores for Goods— <b>SUSPENDED IN PART</b> .....	2
(2) Manufacturing, Warehousing and Logistical Support.....	5
(3) Childcare and Youth Programs for All Children.....	6
(4) Curbside Pickup and Drop-Off for Low Contact Retail Services.....	8
(5) Outdoor Activity Equipment Rental Businesses.....	9

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

(6) Professional Sports Teams: Practices, Games, and Tournaments without In-Person Spectators with an Approved Plan .....	11
(7) Entertainment Venues: Live Streaming or Broadcasting Events without In-Person Audiences with an Approved Plan.....	12
(8) Outdoor Dining .....	13
(9) Outdoor Fitness Classes.....	15
(10) Indoor Household Services .....	17
(11) Offices for Non-Essential Businesses: Individuals Necessary for Operations Where Telecommuting is not Feasible— <b>SUSPENDED</b> .....	18
(12) Outdoor Zoos with an Approved Plan .....	19
(13) Charter Boat Operators .....	20
(14) Institutions of Higher Education and Adult Education.....	22

**(1) Retail Stores for Goods—SUSPENDED IN PART**

- a. Basis for Addition. Personnel and customers can wear Face Coverings at all times and maintain at least six feet of physical distance except for brief interactions (e.g., while paying for goods). No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. While shopping customers interact only with a small number of individuals from other Households. Although Personnel are interacting with a moderate number of people, the duration of those interactions are low and safety limitations can ensure adequate physical distancing and adherence with other Social Distancing Requirements (Section 8.o of the Order) and other worker protection measures and decrease the risk of virus transmission. Consistent with Section 5.c of the Order and to the extent possible, retail stores are urged to conduct curbside/outdoor pickup to further decrease the risk.
- b. Description and Conditions to Operate.
  1. Curbside/Outdoor Pickup: Retail stores may operate for curbside/outside pickup of goods, subject to the following limitations:
    - i. The store must limit the number of Personnel in the facility so that Personnel can comply with Social Distancing Requirements;
    - ii. The store must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-10b, as that directive may be amended from time to time, regarding required best practices for retail businesses with curbside pickup—including the requirement to create a Health and Safety Plan;
    - iii. If a store chooses to display merchandise for sale on tables or otherwise outside the store, it must comply with the following specific requirements:
      - The store must obtain any necessary permits from the City;

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

- Customers must either use hand sanitizer before touching items or ask the vendor to hand items to them;
- Only the number of customers who can maintain at least six feet of physical distancing may approach the table at a time;
- Chalk demarcations must be placed on the ground to indicate where shoppers should stand behind others, while waiting to purchase items; and
- The store must take measures to help ensure against congestion and blocking passage by pedestrians, including people with disabilities.

Stores may apply for a free temporary permit to use the sidewalk or parking lane for retail operations at <https://sf.gov/use-sidewalk-or-parking-lane-your-business>.

- iv. The store must have direct access to an immediately adjacent sidewalk, street, alley, or parking area for pickup by customers using any mode of travel, without blocking pedestrian access or causing pedestrian or vehicle congestion; and

Retail stores that are in an enclosed Indoor Shopping Center (defined as a large building or group of buildings where customer access to stores is possible only through indoor passage ways or indoor common areas, such as Stonestown Galleria, and Westfield San Francisco Centre) and that do not have direct access to adjacent sidewalk, street, parking lot or alley area, may only reopen for curbside/outdoor pickup at this time if the Indoor Shopping Center operator submits to the Health Officer a proposed plan for reopening and that plan is approved as provided below. The proposed plan must include:

- a. the number of stores and businesses that would be resuming operation;
- b. the number of Personnel associated with each store or business;
- c. the number of customers expected daily; and
- d. the specific social distancing and sanitation measures the shopping center would employ to prevent congestion at the doorways and streets, and protect customers and Personnel.

Plans must be submitted to [HealthPlan@sfcityatty.org](mailto:HealthPlan@sfcityatty.org). Subject to the advance written approval of the Health Officer or the Health Officer's designee, retailers in the Indoor Shopping Center may then operate for curbside pickup consistent with the approved plan.

2. In-Store Retail: Beginning at 6:00 a.m. on June 15, 2020, retail stores may begin to operate for indoor shopping, subject to the following limitations and conditions:
- i. The store must reduce maximum occupancy to limit the number of people (including both customers and Personnel) to the lesser of: (1) 50% the store's normal maximum occupancy or (2) the number of people who can maintain at least six feet of physical distance from each other in the store at all times;

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

- ii. Before opening for in-store shopping, the store must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-17, as that directive may be amended from time to time, regarding required best practices for retail businesses offering in-store shopping or services—including the requirement to create a Health and Safety Plan;
- iii. If a store chooses to display merchandise for sale on tables or otherwise outside the store, it must comply with the following specific requirements:
  - The store must obtain any necessary permits from the City;
  - Customers must either use hand sanitizer before touching items or ask the vendor to hand items to them;
  - Only the number of customers who can maintain at least six feet physical distancing may approach the table at a time;
  - Chalk demarcations must be placed on the ground to indicate where shoppers should stand behind others, while waiting to purchase items; and
  - The store must take measures to help ensure against congestion and blocking passage by pedestrians, including people with disabilities.

Stores may apply for a free temporary permit to use the sidewalk or parking lane for retail operations at <https://sf.gov/use-sidewalk-or-parking-lane-your-business> .

- iv. **THIS SUBSECTION IS SUSPENDED. INDOOR SHOPPING CENTERS ARE NOT ALLOWED TO BE OPEN TO THE PUBLIC FOR IN-STORE RETAIL UNTIL FURTHER ORDER OF THE HEALTH OFFICER FOLLOWING AUTHORIZATION BY THE STATE HEALTH OFFICER TO REOPEN. FOR CLARITY, EVEN THOSE SHOPPING CENTERS THAT PREVIOUSLY RECEIVED WRITTEN APPROVAL OF THE HEALTH OFFICER TO RESUME INDOOR RETAIL OPERATIONS MUST TEMPORARILY CLOSE TO THE PUBLIC. FURTHER, ALL BUSINESS IN THE INDOOR SHOPPING CENTER (INCLUDING ESSENTIAL BUSINESSES) MUST TEMPORARILY CLOSE TO THE PUBLIC. DURING THIS SUSPENSION THEY MAY OPERATE FOR CURBSIDE/OUTDOOR PICKUP IF THE INDOOR SHOPPING CENTER HAS AN APPROVED PLAN UNDER SECTION 1.b.1.iv, ABOVE. ONCE INDOOR SHOPPING CENTERS FOR NON-ESSENTIAL BUSINESSES ARE ALLOWED TO REOPEN, THE CONDITIONS TO OPERATE SET FORTH BELOW MAY BE REVISED AND/OR ADDITIONAL PROVISIONS CONDITIONS MAY BE ADDED TO PREVIOUSLY APPROVED PLANS.**

*[Retail stores that are in an enclosed Indoor Shopping Center (as defined in subsection 1.b.1.iv above) and that do not have direct access to adjacent*

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

*sidewalk, street, parking lot or alley area, may only reopen for in-store retail at this time if the Indoor Shopping Center submits to the Health Officer a proposed plan for reopening and that plan is approved as provided below. The proposed plan must include:*

- a. the number of stores and businesses that would be resuming operation;*
- b. the number of Personnel associated with each store or business;*
- c. the number of customers expected daily;*
- d. how the shopping center will regulate the number of people in the common areas of the shopping center;*
- e. how the shopping center will address HVAC/circulated air, use of elevators, use and cleaning of bathrooms;*
- f. any special considerations for indoor parking garages and access points; and*
- g. whether the shopping center will permit curbside pickup.*

*Plans must be submitted to HealthPlan@sfcityatty.org. Subject to the written advance approval of the Health Officer or the Health Officer's designee, the shopping center may then operate for in-store retail consistent with the approved plan.]*

For clarity, operation of retail stores under category (1) and (2), above, applies only to the sale of goods and not to the provision of services or the rental of equipment, which are covered separately in Sections (4) and (5), below.

(Added May 17, 2020; Revised June 1, 2020, June 11, 2020; Non-substantive revisions July 13, 2020; Subsection suspended July 20, 2020, with minor update on August 14, 2020)

**(2) Manufacturing, Warehousing and Logistical Support**

- a. Basis for Addition. Personnel can wear Face Coverings and maintain at least six feet of physical distance at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Personnel will interact only with a consistent and moderately sized group of people (i.e., the business's other Personnel) as members of the public do not generally frequent these businesses. Finally, risks of virus transmission associated with this activity can be mitigated through Social Distancing Requirements (Order Section 8.o) and sanitation, and other worker safety protocols.
- b. Description and Conditions to Operate.
  1. Manufacturing: Manufacturing businesses—including non-essential manufacturing businesses—may operate, subject to the following limitations and conditions:

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

- i. The business must limit the number of Personnel in the facility so that Personnel can comply with Social Distancing Requirements; and
  - ii. The business must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-11, as that directive may be amended from time to time, regarding required best practices for manufacturing businesses—including the requirement to create a Health and Safety Plan.
2. Warehousing and Logistical Support: Businesses that provide warehousing and logistical support—including non-essential businesses —may operate, subject to the following limitations and conditions:
  - i. The business must limit the number of Personnel in the facility so that Personnel can comply with Social Distancing Requirements; and
  - ii. The business must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-12, as that directive may be amended from time to time, regarding required best practices for warehouse and logistical support businesses—including the requirement to create a Health and Safety Plan.

(Added May 17, 2020; Revised June 1, 2020, June 11, 2020; Non-substantive revisions July 13, 2020)

**(3) Childcare and Youth Programs for All Children**

- a. Basis for Addition. Childcare and educational or recreational programs for youth are critical to early education and developmental equity, family social and economic wellbeing, and economic recovery from the pandemic. More specifically, such programs are an important element for a child’s social and emotional development, as well as for a child’s physical health and wellness. Also, childcare and youth programs are often necessary to allow parents or guardians to work, making the availability of such programs important for individual families as well as the local economy. Although attendance at a childcare or youth program involves a high number of close contacts that may be of lengthy duration, the risks of virus transmission can be reduced by mitigation measures, as generally described below. But children’s inability to consistently follow social distancing and sanitation recommendations means that even with the mitigation measures the risk of transmission is higher than in interactions exclusively among adults. And while based on available evidence, children do not appear to be at higher risk for COVID-19 than adults, medical knowledge about the possible health effects of COVID-19 on children is evolving. Accordingly, the decision about whether to enroll a child in a childcare or youth program is an individualized inquiry that should be made by parents/guardians with an understanding of the risks that such enrollment entails. Parents/guardians may discuss these risks and their concerns with their pediatrician. The Health Officer will continue to monitor the changing situation and may amend this section as necessary to protect the public health.

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

b. Description and Conditions to Operate.

1. Childcare Programs: Group care facilities for very young children who are not yet in elementary school—including, for example, licensed childcare centers, daycares, family daycares, and preschools (including cooperative preschools)—(collectively, “Childcare Programs”) may open and operate, subject to the following limitations and conditions:
  - i. Childcare Programs may not enroll children for fewer than three weeks;
  - ii. Childcare Programs must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with all of the requirements set forth in Health Officer Directive No. 2020-14c, including any limits on the number of children that can be in a group, and the requirements to have the parent(s) or guardian(s) of any child attending the program sign an acknowledgement of health risks, and to prepare and implement a written health and safety plan to mitigate the risk of virus transmission to the greatest extent feasible.
2. Summer Camps: Summer camps and summer learning programs that operate exclusively outside of the academic school year (“Summer Camps”) may operate for all children over the age of six and school-aged children currently in grades transitional kindergarten (TK) and above who are under age six, subject to the following limitations and conditions:
  - i. Summer Camps must limit group size to 12 children (a “pod”) per room or space;
  - ii. Summer Camp sessions must last at least three weeks;
  - iii. Children must remain in the same pod for at least three weeks, and preferably for the entire time throughout the summer.
  - iv. Summer Camps may not begin to operate until they have created, posted and implemented a Social Distancing Protocol checklist (Appendix A to this Order) and complied with all of the requirements set forth in relevant industry-specific Health Officer directives (*see* Health Officer Directive No. 2020-13b) including the requirements to complete an online form with general information about the program and required certifications, to have the parent(s) or guardian(s) of any child attending the program sign an acknowledgement of health risks, and to prepare and implement a written health and safety plan to mitigate the risk of virus transmission to the greatest extent feasible.
3. Out of School Time Programs: Educational or recreational institutions or programs that provide care or supervision for school-aged children and youth—including for example, learning hubs, other programs that support distance learning, school-aged childcare programs, youth sports programs, and afterschool programs (“Out of School Time Programs” or “OST Programs”) may open for all children, subject to the following limitations and conditions:

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

- i. OST Program sessions must be at least three weeks long, and programs without set sessions may not enroll children for fewer than three weeks;
- ii. OST Programs must create, post, and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with all of the requirements set forth in Health Officer Directive No. 2020-21, including any limits on the number of children that can be in a group, and also the requirements to complete an online form with general information about the program and required certifications, to have the parent(s) or guardian(s) of any child attending the program sign an acknowledgement of health risks, and to prepare and implement a written Health and Safety Plan to mitigate the risk of virus transmission to the greatest extent feasible.

For clarity, this Section does not apply to schools, which are addressed separately in Section 6.b of the Order; Childcare Programs, which are addressed separately in subsection b.1 of this Appendix above; or Summer Camps, which are addressed separately in subsection b.2 of this Appendix above. OST Programs are intended to supplement, rather than replace, school programming.

(Added May 22, 2020; Revised June 1, 2020; Non-substantive revisions June 11, 2020; Revised further July 13, 2020 and August 14, 2020)

**(4) Curbside Pickup and Drop-Off for Low Contact Retail Services**

- a. Basis for Addition. Personnel and customers can wear Face Coverings at all times and maintain at least six feet of physical distance except for brief interactions (e.g., in some instances where remote payment is not feasible, while paying for services). No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Customers interact only with a small number of individuals from other Households, and although Personnel are interacting with a moderate number of people, the duration of those interactions are low and safety limitations can ensure adequate social distancing and decrease the risk of virus transmission. The majority of interactions can occur outdoors, which further decreases risk—and consistent with Section 5.c of the Order, businesses are strongly urged to conduct interactions outdoors to the largest extent possible.
- b. Description and Conditions to Operate. Services that do not generally require close customer contact (e.g., dog grooming and shoe or electronics repair) may operate, subject to the following limitations and conditions:
  - i. To the extent feasible, all interactions and transactions between Personnel and customers should occur outdoors;
  - ii. The store must limit the number of Personnel in the facility so that Personnel can comply with Social Distancing Requirements (Section 8.o of the Order);
  - iii. The businesses must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with Health Officer Directive

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

- No. 2020-10b, as that directive may be amended from time to time, regarding required best practices for retail businesses with curbside pickup and drop-off;
- iv. The stores must have direct access to an immediately adjacent sidewalk, street, alley, or parking area for pickup by customers using any mode of travel, without blocking pedestrian access or causing pedestrian or vehicle congestion; and
  - v. Stores in an enclosed indoor shopping center that do not have direct access to adjacent sidewalk, street, parking lot or alley area may not reopen at this time unless they are located in an approved Indoor Shopping Center as described in 1.b above.

For clarity, this provision does not apply to personal service businesses, such as hair salons, barbershops, nail salons, or piercing or tattoo parlors.

As discussed in Section 1.b above regarding retail stores and Indoor Shopping Centers, stores within enclosed shopping centers may operate only upon advance written approval by the Health Officer or the Health Officer’s designee of a plan submitted by the Indoor Shopping Center operator. Plans must be submitted to HealthPlan@sfcityatty.org. **NOTE THAT SECTION 1.b.2.iv REGARDING INDOOR SHOPPING CENTERS IS SUSPENDED. INDOOR SHOPPING CENTERS ARE NOT ALLOWED TO BE OPEN TO THE PUBLIC FOR IN-STORE RETAIL UNTIL FURTHER ORDER OF THE HEALTH OFFICER FOLLOWING AUTHORIZATION BY THE STATE HEALTH OFFICER TO REOPEN. FOR CLARITY, EVEN THOSE SHOPPING CENTERS THAT PREVIOUSLY RECEIVED WRITTEN APPROVAL OF THE HEALTH OFFICER MUST TEMPORARILY CLOSE TO THE PUBLIC. INDOOR SHOPPING CENTERS MAY OPEN FOR CURBSIDE/OUTDOOR PICKUP ONLY WITH AN APPROVED PLAN AS DISCUSSED IN SECTION 1.b.1.iv ABOVE.**

(Added June 1, 2020; Revised June 11, 2020, July 20, 2020; Non-substantive revisions July 13, 2020)

**(5) Outdoor Activity Equipment Rental Businesses**

- a. Basis for Addition. Personnel and customers can wear Face Coverings at all times and maintain at least six feet of physical distance except for brief interactions (e.g., while paying for services). No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Customers interact only with a small number of individuals from other Households, and although Personnel are interacting with a moderate number of people, the duration of those interactions are low and safety limitations can ensure adequate social distancing and decrease the risk of virus transmission. The majority of interactions can occur outdoors, which further decreases risk—and businesses are strongly urged to conduct interactions outdoors to the largest extent possible. Also, the risk of multiple individuals using shared equipment can be mitigated through sanitation measures. Finally, resumption of these businesses is expected to result in only a small

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

increase in the number of people reentering the workforce and the overall volume of commercial activity.

- b. **Description and Conditions to Operate.** Businesses that rent equipment for permissible outdoor recreational activities (e.g., bicycles, kayaks, paddleboards, boats, horseback riding or fishing equipment) may operate, subject to the following limitations and conditions:
- i. To the extent feasible, all interactions and transactions between Personnel and customers should occur outdoors;
  - ii. The store must limit the number of Personnel in the facility so that Personnel can comply with Social Distancing Requirements (Section 8.o of the Order);
  - iii. The business must have created, posted and implemented a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-10b, as that directive may be amended from time to time, regarding required best practices for retail businesses with curbside pickup and drop-off;
  - iv. The business must have direct access to an immediately adjacent sidewalk, street, alley, or parking area for pickup by customers using any mode of travel, without blocking pedestrian access or causing pedestrian or vehicle congestion;
  - v. Businesses in an enclosed indoor shopping center that do not have direct access to adjacent sidewalk, street, parking lot or alley area may not reopen at this time unless they are in an approved Shopping Center as described in 1.b above; and
  - vi. All equipment must be thoroughly cleaned and disinfected between each use with procedures effective against the Novel Coronavirus SARS-CoV-2 in accordance with the following guidelines, which may be modified by the Health Officer as new information becomes available:
    - For hard non-porous surfaces, clean with detergent or soap and water if the surfaces are visibly dirty, before applying disinfectant. For these purposes, appropriate disinfectants include:
      - Products listed on the Environmental Protection Agency’s list of Disinfectants for Use Against SARS-CoV-2 (COVID-19), which can be found online at <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2-covid-19>. Follow the manufacturer’s instructions for concentration, application method, and contact time for all cleaning and disinfection products.
      - Diluted household bleach solutions prepared according to the manufacturer’s label for disinfection, if appropriate for the surface. Follow manufacturer’s instructions for application and proper ventilation. Check to ensure the product is not past its expiration date. Never mix household bleach with ammonia or any other cleanser.
      - Alcohol solutions with at least 70% alcohol.

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

- For soft or porous surfaces, remove any visible contamination, if present, and clean with appropriate cleaners indicated for use on these surfaces. After cleaning, use products that are EPA-approved as effective against SARS-CoV-2 (COVID-19) (see link above) and that are suitable for porous surfaces.
- For frequently touched electronic surfaces, remove visible dirt, then disinfect following the manufacturer’s instructions for all cleaning and disinfection products. If no manufacturer guidance is available, then consider the using alcohol-based wipes or sprays containing at least 70% alcohol to disinfect.
- Gloves and any other disposable PPE used for cleaning and disinfecting the vehicle must be removed and disposed of after cleaning; wash hands immediately after removing gloves and PPE with soap and water for at least 20 seconds, or use an alcohol-based hand sanitizer with at least 60% alcohol if soap and water are not available. If a disposable gown was not worn, work uniforms/clothes worn during cleaning and disinfecting should be laundered afterwards using the warmest appropriate water setting and dry items completely. Wash hands after handling laundry.

As discussed in Section 1.b above regarding retail stores and Indoor Shopping Centers, stores within Indoor Shopping Centers may operate only upon the advance written approval by the Health Officer or the Health Officer’s designee of a plan submitted by the Indoor Shopping Center operator. Proposed plans must be submitted to HealthPlan@sfcityatty.org. **NOTE THAT SECTION 1.b.2.iv REGARDING INDOOR SHOPPING CENTERS IS SUSPENDED. INDOOR SHOPPING CENTERS ARE NOT ALLOWED TO BE OPEN TO THE PUBLIC FOR IN-STORE RETAIL UNTIL FURTHER ORDER OF THE HEALTH OFFICER FOLLOWING AUTHORIZATION BY THE STATE HEALTH OFFICER TO REOPEN. FOR CLARITY, EVEN THOSE SHOPPING CENTERS THAT PREVIOUSLY RECEIVED WRITTEN APPROVAL OF THE HEALTH OFFICER MUST TEMPORARILY CLOSE TO THE PUBLIC. INDOOR SHOPPING CENTERS MAY OPEN FOR CURBSIDE/OUTDOOR PICKUP ONLY WITH AN APPROVED PLAN AS DISCUSSED IN SECTION 1.b.1.iv ABOVE.**

(Added June 1, 2020; Revised June 11, 2020; Non-substantive revisions July 13, 2020; Suspension note added July 20, 2020)

**(6) Professional Sports Teams: Practices, Games, and Tournaments without In-Person Spectators with an Approved Plan**

- a. Basis for Addition. Although contact sports may present a significant risk of virus transmission, those risks can be mitigated by stringent social distancing, sanitation, and testing measures. Resuming such events—without a live audience and subject to strict health controls and mitigation measures—represents a first step toward the resumption of professional sports exhibitions that can be broadcast for the entertainment of the public and viewed by the public remotely in a safe manner.

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

- b. Description and Conditions to Operate. Professional sports teams that wish to resume practices, games, or tournaments and broadcasting of those events in San Francisco, without in-person spectators, may submit to the Health Officer a proposed plan detailing the sanitation, social distancing, health screening, and other procedures that will be implemented to minimize the risk of transmission among players, staff, media, broadcast crew, and any others who will be in the facility. The plan must include a proposal for interval testing (without using City resources) of all players and coaching staff who will be present in the facility. Plans must be submitted to HealthPlan@sfcityatt.org. Subject to the advance written approval of the Health Officer or the Health Officer’s designee, the team may then resume activities consistent with the approved plan, including any conditions to approval of the Health Officer or the Health Officer’s designee. Teams, games, exhibitions, and tournaments must also comply with any applicable Health Officer directives to the extent they are consistent with the approved plan; in the event of an inconsistency, the approved plan controls. Finally, crew, athletes, coaching staff and other workers should also abide by protocols agreed to by labor and management, to the extent they are at least as protective of health as the approved plan.

**NOTE THAT ALTHOUGH TEAMS MAY CONTINUE TO SUBMIT PLANS, NO PLANS FOR INDOOR EVENTS INVOLVING MORE THAN 12 PEOPLE WILL BE APPROVED UNTIL FURTHER NOTICE BY THE HEALTH OFFICER.**

(Added June 1, 2020; Revised June 11, 2020; Non-substantive revisions June 26, 2020; Suspension note added July 20, 2020)

**(7) Entertainment Venues: Live Streaming or Broadcasting Events without In-Person Audiences with an Approved Plan**

- a. Basis for Addition. Although some types of live entertainment and cultural events, such as music, dance and comedy performances, may present a risk of virus transmission, those risks can be mitigated by stringent social distancing, sanitation, and testing measures. Resuming such events—without a live audience and subject to strict health controls and mitigation measures—represents a first step toward the resumption of these entertainment and cultural activities that can be broadcast and watched by the public remotely in a safe manner.
- b. Description and Conditions to Operate.
1. Operators of entertainment venues may film, stream, or otherwise broadcast small scale events so long as:
    - i. the venue remains closed to the public;
    - ii. the live stream is limited to the fewest number of Personnel needed (up to a maximum of 12 people in the facility, including, without limitation, media Personnel needed for the broadcast);

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

- iii. doors and windows are left open to the extent possible, or mechanical ventilation systems are run, to increase ventilation;
- iv. the venue complies with the Social Distancing Requirements set forth in Section 8.o of this Order; and
- v. Because singing and playing wind or brass instruments can transmit particles farther in the air than breathing or speaking quietly, people must be in an isolation booth or in a separate room from others in the facility while singing or playing wind or brass instruments.

To further reduce the risk of transmission, it is strongly recommended that all events allowed under this section be conducted and filmed, streamed, or otherwise broadcast from outdoors. The same outdoors recommendation applies to all other operations that are allowed under the Order to be filmed, live streamed or otherwise broadcast indoors with health restrictions.

- 2. Operators of entertainment venues that wish to film, stream, or otherwise broadcast events that require more than 12 people to be on site at the facility at any one time may submit to the Health Officer a proposed plan detailing the sanitation, social distancing, health screening, and other procedures that will be implemented to minimize the risk of transmission among participants. If the event involves singing, playing wind or brass instruments, or physical contact, the plan must include a proposal for interval testing (without using City resources) of those individuals. Proposed plans must be submitted to [HealthPlan@sfcityatty.org](mailto:HealthPlan@sfcityatty.org). Subject to the advance written approval of the Health Officer or the Health Officer’s designee, the venue may then begin operating consistent with the approved plan, including any conditions to approval of the Health Officer or the Health Officer’s designee. Cast, crew, and other workers should also abide by protocols agreed to by labor and management, to the extent they are at least as protective of health as the approved plan.

**NOTE THAT ALTHOUGH VENUES MAY CONTINUE TO SUBMIT PLANS, NO PLANS FOR INDOOR EVENTS INVOLVING MORE THAN 12 PEOPLE HAVE BEEN APPROVED TO DATE OR WILL BE APPROVED UNTIL FURTHER NOTICE BY THE HEALTH OFFICER.**

(Added June 11, 2020; Non-substantive revisions June 26, 2020; Revised July 20, 2020)

**(8) Outdoor Dining**

- a. Basis for Addition. Outdoor dining with small groups of people potentially involves mixing of Households and a moderate number of contacts. Accordingly, and because Face Coverings must be removed to eat and drink, the risk of virus transmission is slightly higher than in other allowable interactions. But outdoor interactions carry a significantly lower risk of transmission than most indoor interactions, and mitigation

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[revised August 14, 2020]**

measures in outdoor dining establishments can significantly decrease the transmission risk.

- b. **Description and Conditions to Operate.** Restaurants and bars that serve food (“outdoor dining establishments”) may operate for outdoor dining only subject to the following limitations and conditions:
- i. Patrons must remain outside the outdoor dining establishment and may enter the establishment only (1) to access a bathroom, (2) to access an outdoor space that is only accessible by traveling through the restaurant, or (3) to order or pickup food at an indoor counter;
  - ii. All patrons must be seated at a table to eat or drink—standing between tables or in other areas of the outdoor space is not permitted;
  - iii. Patrons may not be served food or beverages while waiting to be seated;
  - iv. Patrons must wear Face Coverings any time they are not eating or drinking, including but not limited to: while they are waiting to be seated; while reviewing the menu and ordering; while socializing at a table waiting for their food and drinks to be served or after courses or the meal is complete; and any time they leave the table, such as to use a restroom. Customers must also wear Face Coverings any time servers, bussers, or other Personnel approach their table;
  - v. Tables used to seat patrons outdoors must be spaced to ensure that patrons are at least six feet apart from other patrons seated at different service tables or separated by an impermeable physical barrier between;
  - vi. No more than six patrons may be seated at a single table, unless all are members of the same household—it is strongly encouraged that only individuals in the same household sit together at a single table;
  - vii. An outdoor dining establishment shall not be permitted to provide alcoholic beverage service without also providing real meal service in a bona fide manner. Bona fide meals must be prepared and served by the outdoor dining establishment or another person or business operating under an agreement with the outdoor dining establishment. The service of prepackaged food like sandwiches or salads, or simply heating frozen or prepared meals, shall not be deemed as compliant with this requirement;
  - viii. No patrons are allowed to eat or drink indoors in the dining establishment; and
  - ix. The business must have created, posted and implemented a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-16b, as that directive may be amended from time to time, regarding required best practices for outdoor dining.

Outdoor dining establishments may apply for a free temporary permit to use the sidewalk or parking lane for business operations at <https://sf.gov/use-sidewalk-or-parking-lane-your-business>.

(Added June 11, 2020; Revised July 13, 2020)

**[revised August 14, 2020]**

**(9) Outdoor Fitness Classes**

a. Basis for Addition. Outdoor fitness classes involve mixing of Households and a moderate number of contacts. Also, the contacts are often of relatively long duration. Accordingly, and because exercise causes people to more forcefully expel airborne particles, the risk of virus transmission is higher than in other allowable interactions. But participants can—and must—wear Face Coverings and maintain at least six feet of physical distance at all times and not share equipment. Further, outdoor interactions carry a lower risk of transmission than most indoor interactions, and health protocols in outdoor fitness classes can significantly decrease the transmission risk.

b. Description and Conditions to Operate. Outdoor fitness classes (e.g., outdoor boot camp, non-contact dance classes, tai chi, pilates, and yoga classes) may operate subject to the following limitations and conditions:

- i. No more than 12 people, including the instructor(s), may participate in an outdoor fitness class;
- ii. The business/instructor should ask participants to voluntarily provide their name and phone number for potential contact tracing purposes—the business/instructor should keep this information on file for at least three weeks;
- iii. The business/instructor must ask each participant whether they have had any of the following symptoms within the prior 24 hours that are new and not explained by another reason:
  - Fever or chills
  - Cough
  - Sore throat
  - Shortness of breath or trouble breathing
  - Feeling unusually weak or fatigued
  - New loss of taste or smell
  - Muscle pain
  - Headache
  - Runny or congested nose
  - diarrhea

Any participants who report having any of these symptoms should not be permitted to come to or participate in the fitness class.

In addition, the business/instructor must ask each participant (1) if within the last 10 days they have been diagnosed with COVID-19 or had a test confirming they have the SARS-CoV-2 virus; and (2) if they live with or have had close contact with someone who in the past 14 days was diagnosed with COVID-19 or had a test confirming they have the SARS-CoV-2 virus in that same period. Any participants who answer yes to either of these questions should not be permitted to come to or participate in the fitness class.

- iv. All participants must maintain a physical distance of at least six feet from each other, from the instructor(s), and from members of the public at all times;

## **Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[August 14, 2020]**

- v. The business/instructor must have permission of the property owner to use the space;
- vi. All participants and instructors must wear a Face Covering at all times, unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12c, issued on July 22, 2020, as that order may be amended from time to time; and
- vii. Equipment (e.g., medicine balls, resistance bands, mats, weights, or yoga blocks) may not be shared by members of the class and must be thoroughly cleaned and disinfected between each use with procedures effective against the Novel Coronavirus SARS-CoV-2 in accordance with the following guidelines, which may be modified by the Health Officer as new information becomes available:
  - For hard non-porous surfaces, clean with detergent or soap and water if the surfaces are visibly dirty, before applying disinfectant. For these purposes, appropriate disinfectants include:
    - Products listed on the Environmental Protection Agency’s list of Disinfectants for Use Against SARS-CoV-2 (COVID-19), which can be found online at <https://www.epa.gov/pesticide-registration/list-n-disinfectants-use-against-sars-cov-2-covid-19>. Follow the manufacturer’s instructions for concentration, application method, and contact time for all cleaning and disinfection products.
    - Diluted household bleach solutions prepared according to the manufacturer’s label for disinfection, if appropriate for the surface. Follow manufacturer’s instructions for application and proper ventilation. Check to ensure the product is not past its expiration date. Never mix household bleach with ammonia or any other cleanser.
    - Alcohol solutions with at least 70% alcohol.
  - For soft or porous surfaces, remove any visible contamination, if present, and clean with appropriate cleaners indicated for use on these surfaces. After cleaning, use products that are EPA-approved as effective against SARS-CoV-2 (COVID-19) (see link above) and that are suitable for porous surfaces.
  - Gloves and any other disposable PPE used for cleaning and disinfecting the equipment must be removed and disposed of after cleaning; wash hands immediately after removing gloves and PPE with soap and water for at least 20 seconds, or use an alcohol-based hand sanitizer with at least 60% alcohol if soap and water are not available. If a disposable gown was not worn, work uniforms/clothes worn during cleaning and disinfecting should be laundered afterwards using the warmest appropriate water setting and dry items completely. Wash hands after handling laundry.

For clarity, this section does not allow contact sports (e.g., football) or fitness classes that involve physical contact (e.g., jiu jitsu or boxing with sparring) to resume. Also, this section

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[August 14, 2020]**

does not cover childcare or summer camp programs for children or youth, which are governed by section 3 above and Health Officer Directive Nos. 2020-13b and 2020-14b.

Additional guidance about outdoor fitness classes from the San Francisco Department of Public Health is available at <http://www.sfdph.org/directives>.

(Added June 11, 2020; Non-substantive revisions July 13, 2020, August 14, 2020)

**(10) Indoor Household Services**

- a. Basis for Addition. Household service providers and residents can wear Face Coverings and maintain at least six feet of physical distance at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Although indoor household services may involve mixing of Households (if the resident is at home) and occurs indoors, the number of contacts is low. Finally, risks of virus transmission can be mitigated through adherence to other Social Distancing Requirements and to sanitation, and other safety protocols.
- b. Description and Conditions to Operate. Providers of indoor household services that can be provided while maintaining social distancing (e.g., house cleaners and cooks) may operate, subject to the following limitations and conditions:
  - i. Residents may not have any household service provider come into their home if they have experienced any of the following symptoms within the prior 24 hours that are new and not explained by another reason:
    - Fever or chills
    - Cough
    - Sore throat
    - Shortness of breath or trouble breathing
    - Feeling unusually weak or fatigued
    - New loss of taste or smell
    - Muscle pain
    - Headache
    - Runny or congested nose
    - diarrhea
  - ii. Household service providers may not enter a residence to provide services if they have experienced any of the above symptoms within the prior 24 hours that are new and not explained by another reason;
  - iii. In addition, household service providers may not enter a residence to provide services if either the household service provider or anyone in the residence answers yes to either of the following questions: (1) within the last 10 days has the person been diagnosed with COVID-19 or had a test confirming they have the SARS-CoV-2 virus; and (2) does the person live with or have they had close contact with someone who in the past 14 days was diagnosed with COVID-19 or had a test confirming they have the SARS-CoV-2 virus in that same period.

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[August 14, 2020]**

- iv. When feasible, residents should leave the premises when household services providers are in their home—if leaving the premises is not feasible, residents should try to be in a different room than the household service provider to the greatest extent possible;
- v. When feasible, leave windows and doors open to increase ventilation or run mechanical ventilation systems;
- vi. High touch surfaces and any shared implements or tools should be cleaned at the beginning and end of any service visit;
- vii. Both residents and household service providers must wear a Face Covering at all times, unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12c, issued on July 22, 2020.

For clarity, this section does not allow personal service providers, such as hair dressers or personal trainers, to provide in-home services. Also, this section does not apply to in-home childcare, which is independently permissible under Section 8.a.xxi of the Order.

Additional guidance about indoor household services from the San Francisco Department of Public Health is available at <http://www.sfdph.org/directives>.

(Added June 11, 2020; Non-substantive revisions July 13, 2020, August 14, 2020)

**(11) Offices for Non-Essential Businesses: Individuals Necessary for Operations Where Telecommuting is not Feasible—SUSPENDED**

**THIS SECTION IS SUSPENDED. OFFICES FOR NON-ESSENTIAL BUSINESSES ARE NOT ALLOWED TO OPERATE UNTIL FURTHER ORDER OF THE HEALTH OFFICER FOLLOWING AUTHORIZATION BY THE STATE HEALTH OFFICER TO REOPEN. ONCE OFFICES FOR NON-ESSENTIAL BUSINESSES ARE ALLOWED TO REOPEN, THE CONDITIONS TO OPERATE SET FORTH BELOW MAY BE REVISED.**

- a. *[Basis for Addition. Personnel can wear Face Coverings and maintain at least six feet of physical distance at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Personnel will interact only with a consistent and moderately sized group of people (i.e., the business’s other Personnel). Finally, risks of virus transmission associated with this activity can be mitigated through adherence to other Social Distancing Requirements and to sanitation, and other safety protocols.*
- b. *Description and Conditions to Operate. Office workplaces that are not otherwise permitted to operate under this Order may open for individuals necessary for operations who cannot work remotely, subject to the following conditions:*
  - i. *All workers who are able to telecommute must continue to do so, only individuals necessary for operations who cannot work remotely may come into the office;*

## **Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[August 14, 2020]**

- ii. *Office Facilities must adjust their maximum occupancy rules based on the size of the facility to limit the number of people (including Personnel and members of the public), as follows:*
  - *Office Facilities with fewer than 20 Personnel must reduce their maximum occupancy to the number of people who can maintain at least six feet of physical distance from each other in the facility at all times,*
  - *Office Facilities with 20 or more Personnel must reduce their maximum occupancy to the **lesser** of: (1) 20% the facility's normal maximum occupancy or (2) the number of people who can maintain at least six feet of physical distance from each other in the facility at all times; and*
- iii. *The business must have created, posted and implemented a Social Distancing Protocol checklist (Appendix A to this Order) and must comply with Health Officer Directive No. 2020-18, as that directive may be amended from time to time, regarding required best practices for businesses operating office facilities.]*

(Added June 11, 2020; Non-substantive revisions July 13, 2020; Suspended July 20, 2020)

### **(12) Outdoor Zoos with an Approved Plan**

- a. **Basis for Addition.** Zoo Personnel and visitors can wear Face Coverings and maintain at least six feet of physical distance from people in different households at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. And outdoor businesses—like the outdoor areas of the zoo—are safer than indoor businesses. Finally, the number, frequency and proximity of contacts can be minimized through capacity limitations and the risk of virus transmission can be reduced through other health protocols.
- b. **Description and Conditions to Operate.** Zoos that wish to resume operations for visits by the public solely in their outdoor spaces may submit to the Health Officer a proposed plan detailing the sanitation, social distancing, health screening, and other procedures that will be implemented to minimize the risk of transmission among Personnel and visitors.

The plan must be submitted to [HealthPlan@sfcityatty.org](mailto:HealthPlan@sfcityatty.org), and must include detailed descriptions of how the business intends to address the following safety precautions.

- Ensuring that the facility remains below the lesser of: (a) 50% of the maximum capacity for the outdoor space that is permitted to open; or (b) the capacity based on the ability of Personnel and patrons to comply with the Social Distancing Requirements;
- Signage regarding Social Distancing Requirements (to include at least six feet of distance, handwashing/sanitizer practices, Face Covering policy);
- Ensuring Personnel and patrons wear Face Coverings at all times, unless they are specifically exempted from the Face Covering requirements in Health Officer Order

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[August 14, 2020]**

No. C19-12c, issued on July 22, 2020, as that order may be amended from time to time;

- Ticketing booths and payment systems;
- Personnel safety precautions;
- HVAC systems (e.g., quality and level of filtration, percentage of air exchange with outside air can HVAC be run at 100% capacity to increase ventilation);
- Compliance with applicable Health Officer directives (e.g. regarding Food and beverage concessions, and retail gift shops);
- Social distancing in elevators;
- Monitoring and limiting patrons to ensure physical distancing between members of different Households;
- Paths of travel through the establishment and wayfinding signage;
- Sanitation for restrooms;
- Tours and audio self-tour equipment;
- Coat/personal property check services;
- Sanitation for high-touch surfaces and areas; and
- Closing interactive exhibits or modifying those exhibits to prevent common touching.

Beginning at 10 a.m. on July 13, 2020, and subject to the advance written approval of the Health Officer or the Health Officer’s designee, the zoo may resume operating its outdoor spaces for visits by the public at the lesser of: (a) 50% of the maximum capacity for the outdoor space that is permitted to open; or (b) the capacity based on the ability of Personnel and patrons to comply with the Social Distancing Requirements, consistent with the approved plan, including any conditions to approval of the Health Officer or the Health Officer’s designee.

(Added July 13, 2020; Non-substantive revisions August 14, 2020)

**(13) Charter Boat Operators**

- a. Basis for Addition. Personnel and passengers can wear Face Coverings and maintain six feet of physical distance from people in different households at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. And charter boat tours occur outside, which is safer than indoor interactions. Finally, outdoor boating excursions of small, socially distanced groups involve only a moderate number of contacts, and health mitigation measures in small boating excursions can significantly decrease the transmission risk.
- b. Description and Conditions to Operate. Individuals or businesses that offer bareboat or skippered charters (“Charter Boat Operators”) may operate, subject to the following limitations and conditions:

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[August 14, 2020]**

- i. The total number of passengers must be limited to no more than 12—or fewer if necessary to ensure that at least six feet of spacing can be maintained;
- ii. All passengers must maintain a physical distance of at least six feet from each other, from the captain, and from Personnel, at all times;
- iii. Before boarding, passengers must wait on the dock at least six feet apart and must not board the vessel until the captain or crew allow boarding;
- iv. For fishing, rod holders must be spaced at least six feet apart from each other;
- v. Bathrooms (if any) must be sanitized after each use following EPA guidelines;
- vi. Passengers must stay in the open-air portion of the boat except for brief periods, such as to use the bathroom;
- vii. Charter Boat Operators should ask passengers to voluntarily provide their name and phone number for potential contact tracing purposes—the business/captain should keep this information on file for at least three weeks;
- viii. Charter Boat Operators must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order);
- ix. Charter Boat Operators must ask each passenger whether they have had any of the following symptoms within the prior 24 hours that are new and not explained by another reason:
  - Fever or chills
  - Cough
  - Sore throat
  - Shortness of breath or trouble breathing
  - Feeling unusually weak or fatigued
  - New loss of taste or smell
  - Muscle pain
  - Headache
  - Runny or congested nose
  - diarrhea

Any passengers who report having any of these symptoms should not be permitted to board the boat, and may not be charged any cancellation fee.

Also, Charter Boat Operators must ask each passenger (1) if within the last 10 days they have been diagnosed with COVID-19 or had a test confirming they have the SARS-CoV-2 virus; and (2) if they live with or have had close contact with someone who in the past 14 days was diagnosed with COVID-19 or had a test confirming they have the SARS-CoV-2 virus in that same period. Any passengers who answer yes to either of these questions should not be permitted to board the boat, and may not be charged any cancellation fee.

- x. All passengers and Personnel must wear a Face Covering at all times while waiting to board, at all times while on board—except when eating or drinking, and at all times when disembarking from the vessel, unless they are specifically exempted from the Face Covering requirements in Health Officer Order No. C19-12c, issued on July 22, 2020, as that order may be amended from time to time;

## **Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[August 14, 2020]**

- xi. Passengers from different households should not shake hands, share food or drinks, or engage in any unnecessary physical contact—the captain and crew must instruct passengers about these requirements;
- xii. Charter Boat Operators must make hand sanitizer available throughout the boat and at each rod station (if any);
- xiii. Equipment (e.g., fishing equipment) may not be shared by people outside of a single household, and the boat and all equipment belonging to the Charter Boat Operator or otherwise provided by the Charter Boat Operator must be thoroughly cleaned and disinfected after each trip with procedures effective against the Novel Coronavirus SARS-CoV-2 in accordance with CDC guidelines (<https://www.cdc.gov/coronavirus/2019-ncov/community/cleaning-disinfecting-decision-tool.html>).

For clarity, this section does not cover vessels used exclusively for transportation purposes or other Essential Travel (such as ferries and water taxis) and such vessels do not need to follow the conditions set forth in this section.

(Added July 13, 2020; Non-substantive revisions August 14, 2020)

### **(14) Institutions of Higher Education and Adult Education**

- a. Basis for Addition. Personnel and students can wear Face Coverings and maintain at least six feet of physical distance from people in different households at all times. Restrictions can be placed to ensure that no inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. And to the extent classes occur outdoors with distancing and Face Coverings, these interactions are safer than indoor interactions. If indoor in person instruction is authorized by the Health Officer for adult education programs under the limited conditions set forth below, then health mitigation measures adopted under an approved plan can decrease the transmission risk.
- b. Description and Conditions to Operate. Institutions of Higher Education (“IHEs”) and other programs offering adult education—including, for example, programs offering job skills training and English as a second language classes (“Adult Education Programs”) (IHEs and Adult Education Programs are collectively referred to below as “Higher Educational Programs”)—may operate, subject to the following limitations and conditions:
  - i. Higher Educational Programs may operate for purposes of facilitating distance learning and themselves performing essential functions, as set forth in Section 8.a.xiv of the Order;
  - ii. Higher Education Programs may offer in-person instruction *outdoors* in groups of no more than 12 people, including the instructor(s), so long as they follow Social Distancing Requirements and wear Face Coverings and subject to any other relevant health and safety requirements contained in any relevant industry-specific Health Officer directives;

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[August 14, 2020]**

iii. Higher Education Programs may not offer in-person instruction indoors unless the specific class:

(1) cannot be held remotely or outdoors due to the need for access to specialized equipment or space, and

(2) trains students to provide essential functions or services relating to the protection of public health or safety (“Core Essential Services”) or Essential Governmental Functions, and

(3) is offered in a specialized indoor settings whose design imposes substantial physical distancing on participants.

Higher Education Programs that wish to resume indoor classes that meet these criteria may submit to the Health Officer a proposed plan detailing:

- the in-person classes the program proposes to offer indoors and why those classes cannot be performed remotely or outdoors under the criteria set forth above;
- how the classes will prepare students to serve a Core Essential Service;
- the sanitation, social distancing, face covering, health screening, ventilation, and other procedures that will be implemented to minimize the risk of transmission; and
- a proposal for PCR COVID-19 testing of students and staff who will be present in the facility, or an explanation of why no testing is necessary in the specific circumstances.
- The plan must also include a statement that the operator of the Higher Education Program recognizes the risks inherent in holding indoor classes and will be responsible for taking all necessary precautions to mitigate the risk of transmission to the greatest extent possible.

Plans must be submitted to [schoolschildcaresites@sfdph.org](mailto:schoolschildcaresites@sfdph.org). Subject to the advance written approval of the Health Officer or the Health Officer’s designee, the classes may begin consistent with the approved plan, including any conditions to approval of the Health Officer or the Health Officer’s designee.

iv. Collegiate athletics teams that wish to resume practices, games, or tournaments in San Francisco, without in-person spectators, may submit to the Health Officer a proposed plan detailing the sanitation, social distancing, health screening, and other procedures that will be implemented to minimize the risk of transmission among players, staff, and any others who will be in the facility. The plan must include a proposal for interval testing (without using City resources) of all players and coaching staff who will be present in the facility. The plan must also include a commitment to comply with local directives governing isolation and quarantine of individuals who are diagnosed with, or have had close contact with a person who is diagnosed with, COVID-19. Plans must be submitted to [healthplan@sfcityattys.org](mailto:healthplan@sfcityattys.org). Subject to the advance written approval of the Health

**Order No. C19-07g – Appendix C-1: Additional Businesses Permitted to Operate**

**[August 14, 2020]**

Officer or the Health Officer’s designee, the team may then resume activities consistent with the approved plan, including any conditions to approval of the Health Officer or the Health Officer’s designee. But in connection with an approved plan no in-person spectators will be allowed under any circumstances.

- v. Subject to applicable land use laws and regulations, housing controlled or operated by IHEs or restricted for the use of students attending an IHE is permitted to open and operate for students in compliance with any relevant health and safety requirements contained in any relevant industry-specific Health Officer directives. Except for family housing, students must be housed in single rooms (i.e., without a roommate) unless the student specifically requests to be housed with a roommate.
- vi. All Higher Education Programs must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with relevant health and safety requirements contained in any relevant industry-specific Health Officer directives.

(Added August 14, 2020)

**Order No. C19-07g – Appendix C-2: Allowed Additional Activities**

**[revised July 20, 2020]**

**A. General Requirements**

The “Additional Activities” listed below may resume, subject to the requirements set forth in the Order and to any additional requirements set forth below or in separate guidance by the Health Officer. These activities were selected based on current health-related information, the risk criteria set forth in Section 3 of the Order, and the overall impact that allowing these activities to resume will have on mobility and volume of activity in the County.

The health-related basis for selection of Additional Activities and the specific requirements for risk mitigation are summarized below. The bases for the additions were amended on July 13, 2020, to reflect an updated and refined analysis under the risk criteria set forth in Section 3 of the amended Order.

**B. List of Additional Activities**

For purposes of the Order, Additional Activities include the following based on the summarized health risk related rationale:

(1) Outdoor Museums, Outdoor Historical Sites, and Outdoor Public Gardens .....	1
(2) Outdoor Recreation: Golf and Tennis.....	3
(3) Outdoor Recreation: Dog Parks .....	3
(4) Small Outdoor Special Gatherings.....	4
(5) Libraries for Curbside Pickup and Return .....	5

**(1) Outdoor Museums, Outdoor Historical Sites, and Outdoor Public Gardens**

- a. Basis for Addition. Personnel and visitors can wear Face Coverings and maintain at least six feet of physical distance from people in different Households at all times. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. And outdoor activities are safer than indoor activities. Finally, the number, frequency and proximity of contacts can be minimized through capacity limitations and the risk of virus transmission can be reduced through other health protocols.
- b. Description and Conditions. Outdoor museums, outdoor historical sites, and outdoor public gardens (for example, the Botanical Gardens and Japanese Tea Garden may reopen to the public—and individuals may leave their residence and travel to visit these locations—subject to the following conditions:
  - 1. Only outdoor spaces may be open to the public, except for restrooms as provided below.

## **Order No. C19-07g – Appendix C-2: Allowed Additional Activities**

**[revised July 20, 2020]**

2. Face Coverings must be worn by all staff and visitors, subject to the limited exceptions in Health Officer Order No. C19-12b (e.g., for young children), including as that order is amended in the future;
3. Physical distancing of at least six-feet must be maintained at all times other than between members of the same Household;
4. Other than picnic tables, which may be available for use with signs instructing patrons to clean them before and after use, common high-touch equipment and fixtures must be off-limits, with signage and with physical barriers as appropriate;
5. Public restrooms, if any, must
  - a. be routinely disinfected frequently throughout the day,
  - b. have open doors to prevent touching of door handles or knobs,
  - c. have soap and paper towels, and
  - d. have signs promoting handwashing;
6. The museum, outdoor historical site, or outdoor public garden must provide for contactless payment systems or, if not feasible, sanitize any payment systems, including touch screens, payment portals, pens, and styluses, after each customer use. Under San Francisco’s Legal Tender Law, customers must be allowed to pay with cash but to further limit person-to-person contact, Personnel should encourage customers to use credit, debit, or gift cards for payment;
7. Signage must be posted at each public entrance to inform all personnel and customers that they must: avoid entering the facility or location if they have a cough or fever, maintain a minimum six-foot distance from one another while in the facility or location, wear a Face Covering at all times, and not shake hands or engage in any unnecessary physical contact (sample signs are available online at <https://sf.gov/outreach-toolkit-coronavirus-covid-19>);
8. Any on-site retail stores (e.g., gift shops) may operate for curbside/outdoor pickup only, and must do so in compliance with Appendix C-1 of this Order and Health Officer Directive 2020-10b (available at <https://www.sfdph.org/directives>);
9. Before resuming operations, outdoor museums, outdoor historical sites, and outdoor public gardens must prepare, post, implement, and distribute to their Personnel a Social Distancing Protocol checklist as required by Appendix A of the Order and a written health and safety plan that addresses all best practices listed in Section 1.b of this Appendix.

For clarity, this section does not apply to outdoor zoos, which are covered under Section 12 of Appendix C-1.

(Added May 17, 2020; revised June 1, 2020; Non-substantive revisions on July 13, 2020)

**Order No. C19-07g – Appendix C-2: Allowed Additional Activities**

**[revised July 20, 2020]**

**(2) Outdoor Recreation: Golf and Tennis**

- a. **Basis for Addition.** Non-contact outdoor sports like tennis and golf involve a low number of contacts and a high proximity of contact, as long as the groups engaged in play together are small, maintain required physical distance, and do not share equipment among different Households. Also, interactions and activities that occur outdoors carry a lower risk of transmission than most indoor interactions and activities. And the risk of transmission can be further mitigated by sanitation and hygiene practices. Finally, because outdoor recreation is already allowed under the Order, resumption of this activity is expected to result in only a relatively modest increase in mobility and may decrease congestion in other outdoor locations like public parks and beaches.
- b. **Description and Conditions.** Individuals may play tennis and golf outdoors, and outdoor tennis and golf facilities/clubs may open, subject to the following conditions:
  1. Face Coverings must be worn by all golf and tennis facility/club Personnel, subject to the limited exceptions in Health Officer Order No. C19-12b (e.g., for young children), including as that order is amended in the future;
  2. All golf and tennis players must wear a Face Covering while in facility/club parking lots, when entering and exiting facilities/clubs, and while waiting to play—Face Coverings may be removed during play if nobody from a different Household is within 30 feet of the player;
  3. For golf, groups must be limited to a maximum of four players per group, unless all players within the group are part of a single Household. Groups of players from different Households must comply with the State of California under its Stay-Safer-At Home Order;
  4. Tennis may only be played between members of the same Household or between a maximum two single individuals outside of the same Household; and
  5. Before resuming operations, each golf or tennis facility/club must create, post and implement a Social Distancing Protocol checklist (Appendix A to this Order) and comply with Health Officer Directive No. 2020-15 regarding required best practices for tennis and golf.

(Added June 1, 2020; Non-substantive revisions July 13, 2020)

**(3) Outdoor Recreation: Dog Parks**

- a. **Basis for Addition.** Although taking a dog to a dog park may involve mixing of Households, individuals can wear Face Coverings at all times and maintain at least six feet of physical distance from members of other Households except for short interactions. No inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) are involved. Also, outdoor activities carry a lower risk of transmission than indoor interactions and activities, and risk of transmission can be reduced through health protocols.

## Order No. C19-07g – Appendix C-2: Allowed Additional Activities

[revised July 20, 2020]

- b. Description and Conditions. Individuals may take their dogs to dog parks (both enclosed and unenclosed), and all dog parks may open, subject to the following conditions:
1. Face Coverings must be worn by all people in the dog park, subject to the limited exceptions in Health Officer Order No. C19-12b (e.g., for young children), including as that order is amended in the future;
  2. The Centers for Disease Control and Prevention (CDC) has advised that “[u]ntil we learn more about how this virus affects animals,” owners should “treat pets as you would other human family members to protect them from a possible infection.” Specifically, the CDC recommends that pet owners: “Do not let pets interact with people or other animals outside the household,” “Walk dogs on a leash, maintaining at least 6 feet (2 meters) from other people and animals,” and “Avoid dog parks or public places where a large number of people and dogs gather.” Accordingly, pet owners are urged to use on-leash dog parks or keep their dogs on a leash, particularly if the dog is not under voice control—pet owners who choose to let their dogs be off leash in an off-leash dog park should prevent their dog from interacting with other people or animals to the greatest extent feasible;
  3. People in the dog park should maintain at least six feet of physical distance from people or animals other than those in their same Household;
  4. People must bring their own water for themselves and their pets, and must not use common touch water facilities in the park;
  5. People must use their sleeve or a disposable cloth to touch high-touch surfaces like gates;
  6. People should bring their own bags for picking up and disposing of pet waste;
  7. Signage must be posted at each dog park to inform people that they must: avoid entering the location if they have a cough or fever, maintain a minimum six-foot distance from one another, wear a Face Covering at all times, and not shake hands or engage in any unnecessary physical contact (sample signs are available online at <https://sf.gov/outreach-toolkit-coronavirus-covid-19>); and
  8. People must follow any other rules and regulations adopted by the operator of the dog park.

(Added June 1, 2020; Non-substantive revisions July 13, 2020)

### **(4) Small Outdoor Special Gatherings**

- a. Basis for Addition. As provided in Section 4.f of the Order, gatherings among different Households are strongly discouraged to help prevent the spread of COVID-19, and larger gatherings pose higher risks. Although small outdoor gatherings involve mixing of Households, individuals can wear Face Coverings at all times, except when eating and drinking, and maintain at least six feet of physical distance from others outside their

## **Order No. C19-07g – Appendix C-2: Allowed Additional Activities**

**[revised July 20, 2020]**

Household at all times. Inherently risky activities (e.g., singing, shouting, eating, drinking, etc.) can and are strongly urged to be minimized to the greatest extent possible. Also, outdoor activities carry a lower risk of transmission than indoor interactions and activities, and risk of transmission can be reduced through health protocols.

- b. **Description and Conditions.** As further provided in Section 4.f of the Order, all people are strongly encouraged to continue staying safe at home and minimizing unnecessary interactions with others to the maximum extent possible. But individuals may participate in small outdoor gatherings—including for ceremonies, religious services, and other special purposes—subject to the following conditions:
1. No more than six people may participate in a gathering that involves eating or drinking within six feet of each other, unless all are members of the same Household;
  2. No more than 12 people may participate in any other outdoor gathering under this section, unless all are members of the same Household.
  3. Unless eating or drinking in a group of six people or fewer, participants outside of the same Household must remain at least six feet apart from each other. Participants must otherwise follow all Social Distancing Requirements (Section 8.o of the Order), and wear Face Coverings unless eating, drinking, or exempted from wearing a Face Covering under Health Officer Order No. C19-12b (the Face Covering Order); and
  4. Participants and hosts of small outdoor gatherings must comply with Health Officer Directive No. 2020-19 regarding required best practices for small outdoor gatherings and with the health guidelines for safer interactions set forth in the Tip Sheet for Safer Interactions During COVID-19 Pandemic, posted at: [www.sfcdep.org/communicable-disease/diseases-a-z/covid19whatsnew](http://www.sfcdep.org/communicable-disease/diseases-a-z/covid19whatsnew).

For clarity, this section does not allow contact sports (e.g., football or boxing) or games with shared equipment (e.g. Frisbee, baseball, or playing catch) to resume among members of different Households. This section also does not apply to organized outdoor fitness classes, which are covered by Section 9 of Appendix C-1.

(Added June 11, 2020; Non-substantive revisions July 13, 2020)

### **(5) Libraries for Curbside Pickup and Return**

- a. **Basis for Addition.** Personnel and patrons can wear Face Coverings at all times and maintain at least six feet of physical distance except for brief interactions (e.g., while picking up items). Patrons interact only with a small number of individuals from other Households, and although Personnel are interacting with a moderate number of people, the duration of those interactions are low and safety limitations can ensure adequate social distancing and decrease the risk of virus transmission. In addition, interactions can occur outdoors, which further decreases risk.

**Order No. C19-07g – Appendix C-2: Allowed Additional Activities**

**[revised July 20, 2020]**

- b. Description and Conditions to Operate. Libraries may open for curbside/outside pickup and drop off of items, and approved by the City Administrator. All Personnel and patrons must comply with Social Distancing Requirements—including the requirement to maintain at least six feet of physical distance—and wear a Face Covering at all times, subject to the limited exceptions in Health Officer Order No. C19-12b (e.g., for young children), as that order may be amended from time to time.

(Added July 20, 2020)

**DIRECTIVE OF THE HEALTH OFFICER No. 2020-21**

**DIRECTIVE OF THE HEALTH OFFICER OF  
THE CITY AND COUNTY OF SAN FRANCISCO REGARDING REQUIRED BEST  
PRACTICES FOR OUT OF SCHOOL TIME PROGRAMS**

**(PUBLIC HEALTH DIRECTIVE)**  
DATE OF DIRECTIVE: August 14, 2020

By this Directive, the Health Officer of the City and County of San Francisco (the “Health Officer”) issues industry-specific direction that out of school time programs as described below must follow as part of the local response to the Coronavirus Disease 2019 (“COVID-19”) pandemic. This Directive constitutes industry-specific guidance as provided under Section 4.e of Health Officer Order No. C19-07g issued on August 14, 2020 (the “Stay-Safer-At-Home Order”) and, unless otherwise defined below, initially capitalized terms used in this Directive have the same meaning given them in that order. This Directive goes into effect immediately upon issuance, and remains in effect until suspended, superseded, or amended by the Health Officer. This Directive has support in the bases and justifications set forth in the Stay-Safer-At-Home Order. As further provided below, this Directive automatically incorporates any revisions to the Stay-Safer-At-Home Order or other future orders issued by the Health Officer that supersede that order or reference this Directive. This Directive is intended to promote best practices as to Social Distancing Requirements and sanitation measures, helping prevent the transmission of COVID-19 and safeguard the health of workers, children, their families, and the community.

**UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, AND 120175, THE HEALTH OFFICER DIRECTS AS FOLLOWS:**

- 1. This Directive applies to educational or recreational institutions or programs that provide care or supervision for school-aged children and youth—including for example, learning hubs, other programs that support distance learning, school-aged childcare programs, youth sports programs, and afterschool programs (“Out of School Time Programs” or “OST Programs”) may open for all children, subject to the following limitations and conditions. This Directive does not apply to schools, childcare programs for young children not yet in elementary school, or summer camps.**
- 2. Attached as Exhibit A to this Directive is guidance from the Department of Public Health for OST Programs (“Guidance”). All OST Programs must comply with all applicable requirements listed in the Guidance.**
- 3. Each OST Program must create, adopt, and implement a written health and safety plan (a “Health and Safety Plan”). The Health and Safety Plan must be substantially in the form attached to this Directive as Exhibit B.**
- 4. Each OST Program must (a) make the Health and Safety Plan available upon request to all Personnel working on site and to the parent(s) or guardian(s) of each child it serves, (b) provide a summary of the plan to all Personnel working on site or otherwise in the City in relation to its operations, and (c) post the plan at the entrance to any other physical location that the OST Program operates within the City. Also, each OST Program must provide a copy of the Health and Safety Plan**

**Health Officer Directive No. 2020-21**

and evidence of its implementation to any authority enforcing this Directive or the Stay-Safer-At-Home Order upon demand.

5. Each OST Program must complete the online registration form available at <https://www.dcyf.org/care>.
6. Each OST Program must require the parent/guardian of each child that participates in the program to sign an acknowledgement of health risks containing the following language:

The collective effort and sacrifice of San Francisco residents staying at home limited the spread of COVID-19. But community transmission of COVID-19 within San Francisco continues, including transmission by individuals who are infected and contagious, but have no symptoms. Infected persons are contagious 48 hours before developing symptoms (“pre-symptomatic”), and many are contagious without ever developing symptoms (“asymptomatic”). Pre-symptomatic and asymptomatic people are likely unaware that they have COVID-19.

The availability of childcare and youth programs is an important step in the resumption of activities. However, the decision by the Health Officer to allow childcare and youth programs for all families at facilities that follow required safety rules, does not mean that attending such programs is free of risk. Enrolling a child in childcare or youth programs could increase the risk of the child becoming infected with COVID-19. While the majority of children that become infected do well, there is still much more to learn about coronavirus in children, including from recent reports of Multisystem Inflammatory Syndrome in Children (MIS-C).

Each parent or guardian must determine for themselves if they are willing to take the risk of enrolling their child in childcare/youth program, including whether they need to take additional precautions to protect the health of their child and others in the household. They should particularly consider the risks to household members who are adults 60 years or older, or anyone who has an underlying medical condition. Parents and guardians may want to discuss these risks and their concerns with their pediatrician or other health care provider.

More information about COVID-19, MIS-C, and those at higher risk for serious illness is available on the Centers for Disease Control and Prevention website at <https://www.cdc.gov/coronavirus/2019-ncov/>.

I understand the risks associated with enrolling my child in childcare/youth programs, and agree to assume the risks to my child and my household. I also agree to follow all safety requirements that the childcare/youth program imposes as a condition of enrolling my child.

7. OST Programs may not enroll children for fewer than three weeks.
8. OST Programs must limit group size to a maximum of 20 children or youth per room or space, or the maximum number of children or youth able to maintain 6 feet

**Health Officer Directive No. 2020-21**

of social distancing, whichever is lower. To minimize the risk of transmission, groups should be limited to the smallest size possible.

9. Because schools are not permitted to be open at this time unless an elementary school receives a waiver from the Health Officer, schools may not operate an OST Program. But for clarity:
  - schools can run small stable physical education cohorts outdoors as part of their distance learning program, subject to the requirements for OST Programs—but team sports where youth are required to attend practice is not permitted; and
  - schools can run childcare programs for the children of its own teachers and staff who are coming to the facility to provide or support distance learning.
10. Subject to agreement of the owner, and compliance with any relevant licensing requirements and land use laws, OST Programs may operate on sites that are otherwise not permitted to be open to the public.
11. Each OST Program subject to this Directive must provide items such as Face Coverings (as provided in Health Order No. C19-12c issued on July 22, 2020, and any future amendment to that order), hand sanitizer or handwashing stations, or both, and disinfectant and related supplies to any of that OST Program’s Personnel. If any OST Program is unable to provide these required items to Personnel or otherwise fails to comply with required Guidance, then it must cease operating until it can fully comply and demonstrate its strict compliance. Further, as to any non-compliant operation, any such OST Program is subject to immediate closure and the fines and other legal remedies described below, as a violation of the Stay-Safer-At-Home Order.
12. For purposes of this Directive, “Personnel” includes all of the following people who provide goods or services associated with the Host in the City: employees; contractors and sub-contractors (such as those who sell goods or perform services onsite or who deliver goods for the business); vendors who are permitted to sell goods onsite (such as farmers or others who sell at stalls in farmers’ markets); volunteers; and other individuals who regularly provide services onsite at the request of the Host. “Personnel” includes “gig workers” who perform work via the business’s app or other online interface, if any.
13. This Directive may be revised by the Health Officer, through revision of this Directive or another future directive or order, as conditions relating to COVID-19 require, in the discretion of the Health Officer. All OST Programs must stay updated regarding any changes to the Stay-Safer-At-Home Order and this Directive by checking the Department of Public Health website ([www.sfdph.org/healthorders](http://www.sfdph.org/healthorders); [www.sfdph.org/directives](http://www.sfdph.org/directives)) regularly.
14. OST Programs must prepare, post, and implement a Social Distancing Protocol substantially in the form of Appendix A to the Stay-Safer-At-Home Order, as provided under applicable provisions of Section 4.d of the Stay-Safer-At-Home Order. The OST Program must follow those Best Practices and update them as necessary for the duration of this Directive, including, without limitation, as this Directive is amended or extended in writing by the Health Officer and consistent

## Interim Guidance for Out of School Time Programs

August 14, 2020

This guidance was developed by the San Francisco Department of Public Health (SFDPH) for local use. It will be posted at <http://www.sfdcp.org/CovidSchoolsChildcare>. This guidance may change as new knowledge emerges and local community transmission changes.

**AUDIENCE:** Out of school time (OST) programs in San Francisco. For the purposes of this guidance, the term “out of school time programs” refers specifically to OST programs as they are commonly known, as well as generally to refer to group care facilities for school-aged children and youth which are not schools. This can include programs that support distance learning, OST programs, after school programs and youth sports programs.

**PURPOSE:** To help OST programs understand health and safety practices needed to prevent spread of COVID-19 in their programs.

**BACKGROUND:** San Francisco Health Orders allow OST programs in San Francisco to open. Many OST programs support remote learning for students, and provide additional in person supports. COVID-19 has mainly spread between adults, or from adults-to-children. Spread of symptomatic COVID-19 from children to adults, or between children has occurred but has been observed less frequently. Children, especially younger children, as a group, appear to be less likely to become infected. Children and adolescents are less likely to have symptoms or develop severe COVID-19 illness.

Our understanding of how COVID-19 spreads and how to prevent COVID-19 transmission has also increased tremendously. We now have evidence that certain precautions effectively decrease the risk of COVID-19 transmission. By coordinating and layering effective interventions, we can greatly reduce the risk of COVID-19 for children and for adult staff, whose overall risk of COVID-19 is greater than for children and youth, and their families.

The guidelines below are based on the best science available at this time and the current degree of COVID-19 transmission in San Francisco. They are subject to change as new knowledge emerges and as local community transmission changes.

## Key messages for OST programs

- Preventing person-to-person transmission via respiratory transmission is more important than frequent cleaning and disinfection. COVID-19 mainly spreads from person-to-person via respiratory transmission.
  - **Coronavirus is easy to kill on surfaces compared to norovirus.** Most household cleaning products are effective. Professional deep cleaning services are generally unnecessary.
- The use of personal protective equipment (PPE) does not eliminate the need for physical distancing, portable barriers/partitions and universal face coverings. PPE can give people a false sense of security. Physical distancing, barriers and face coverings are important in preventing the spread of COVID-19 in OST programs settings.
- **Exposure risk lies along a continuum.** A rule of thumb is that a person must spend at least 15 minutes within 6 feet of someone with COVID-19 to be at risk of infection. Brief interactions and interactions at greater distances are lower risk. Smaller group sizes are better than larger, outdoor settings are better than indoor ones. More people using face coverings is better than fewer people using face coverings. Other factors include whether the infected person was sneezing or coughing, or doing an activity that produced more respiratory droplets (singing or shouting has been shown to spread COVID-19 efficiently, particularly in enclosed spaces).
- **Adult staff are at higher risk of severe COVID-19 than children.** Recommendations for distancing and face coverings should prioritize staff safety and maximal protection of staff.

## Prepare for opening

- Designate a COVID-19 staff liaison to be the single point of contact at each site for questions or concerns around practices, protocols, or potential exposure. This person will also serve as a liaison to SFPDH.
- Establish health and safety protocols to prevent COVID-19 transmission.
  - Train staff and teach children about health and safety practices. Avoid having in-person staff development, meetings, or team-building during the two weeks before the OST program opens or during the program if possible.
  - Create a health and safety plan outlining what the program will do to implement the requirements in this guidance and any relevant Health Officer Directives or orders. Share this plan with staff, families, and other members of the OST programs community.
- Work with SFPDH to support testing strategies to limit spread of COVID-19. This may include testing for staff or children, with parental consent.
- Establish protocols for staff and children and youth with symptoms of COVID-19 and for communication with staff, children and youth and families after COVID-19 exposure or a confirmed COVID-19 case in the facility.

### Staff Considerations

*Protect staff, especially those at higher risk of severe COVID-19 illness. See [sfcdph.org/covid19hcp](https://sfcdph.org/covid19hcp) for a list of groups at higher risk for severe COVID-19.*

- Staff at higher risk for severe COVID-19 illness should not be assigned to screen children and youth for symptoms or monitor/care for sick children waiting to be picked up.
- Consider the use of a portable plexiglass barrier or other barrier, or use a clear window for staff when screening for COVID-19 symptoms (persons entering the building, children who feel sick).
- Consider the use of face shields, to be used with face coverings, for staff. If supplies of face shields are limited, prioritize them for staff who are in groups at higher-risk of severe COVID-19 illness.
- Plan ahead for staff absences in case community transmission of COVID-19 increases. Recruit people experienced caring for children and youth to ensure that you have a roster of substitute caregivers who can fill in. For more information, see SFDPH return-to-work guidelines at <https://www.sfcdcp.org/rtw>.

### Children and Youth Enrollment Considerations

*Prioritize enrollment of the following groups:*

- At-risk children and youth, including:
  - Children and youth who are clients of Family and Children's Services (FCS) or are at risk of abuse, neglect, or exploitation
  - Children eligible through the Emergency Childcare Bridge Program for Foster Children
  - Children and youth experiencing homelessness
  - Foster children
  - Children of domestic violence survivors
  - Children and youth with disabilities or special health care needs whose individualized education programs (IEP) and/or individual family support plans (IFSP) include ELC services
  - Children and youth from low-income families, including those who receive or are eligible for free or reduced school lunch, Medi-Cal, SNAP (food stamps), WIC, Head Start, CalWorks and other public assistance programs.
  - Children and youth of people who work in essential businesses or essential governmental functions, followed by people who work in other businesses and organizations that are allowed to remain open or re-open under San Francisco Health Orders.

*Do not exclude children and youth because of medical conditions such as diabetes, asthma, leukemia and other malignancies, and autoimmune diseases that may put them at higher risk of severe COVID-19. Allow the child's medical team and family to determine whether in-person attendance is safe.*

## Strategies to prevent spread of COVID-19 in OST programs

Screen everyone entering the building for COVID-19 symptoms or exposures.

- Ask all persons entering the OST program facility about symptoms of COVID-19 and exposure to COVID-19—including staff, children and youth, parents/caregivers, contractors, and visitors. Emergency personnel responding to a 9-1-1 call are exempted.
- People who answer “yes” to one or more screening questions should not be allowed to enter.
- Although SFPDH does not require temperature checks, programs may choose to require temperature checks of people entering the building, either on-site or done by parents at home.
  - For specific guidance on conducting symptom screening and temperature checks, see [COVID-19 Health Checks at Programs for Children and Youth](#) (children) and [Asking COVID-19 Screening Questions at Any Business, Organization or Facility](#) (adults)

Staff and children and youth who are sick should stay home.

- Remind parents to keep children home when ill. A parent/guardian handout, “*COVID-19 Health Checks/If Your Child has Symptoms*” is available at <https://sfcdcp.org/covidschoolschildcare>.
- Implement sick leave policies that support OST programs providers to stay home when ill.
- Encourage family members of children and youth and staff to get tested promptly if they have symptoms of COVID-19, to lower the risk of spread to children or staff at the OST programs.
- Staff and students should follow San Francisco Health Orders regarding quarantine after travel outside of the San Francisco Bay Area. Consider asking staff and students to stay at home for 14 days before returning to OST programs if they have traveled to areas with high levels of COVID-19 transmission, even if not required by local or state health orders. This does not apply to staff and children who regularly commute to the program from places outside of San Francisco.

Restrict non-essential visitors.

- If volunteers are necessary for program implementation, have volunteers commit to regular, scheduled participation for at least 3 weeks to avoid too much mixing of cohorts.
- Therapists who are not OST programs employees but work with children and youth on-site at OST programs, such as ABA therapists, occupational therapists and physical therapists, are considered essential staff and should be allowed to provide services. See section titled “*Students receiving special services*”
- Discourage parents and other family members from entering the building.

Keep staff and children and youth in small, stable groups (“cohorts”).

*A cohort is a stable group that has the same staff and children and youth each day, stays together for all activities (e.g., snacks, recess, etc.), and avoids contact with people outside the group. Keeping OST programs providers and children and youth in the same small cohort each day lowers their exposure risk by limiting the number of people they interact with.*

### Limit cohort size

- Limit group size to a maximum of 20 children or youth per room or space. Group size should also be limited by the number of children or youth able to maintain 6 ft social distancing, which may be lower than 20.
- Have a minimum of 2 staff persons per group. Minimum staffing may include trained volunteers.
- Minors ages 14-17 years of age who are employed as program staff, including interns, are not included in the maximum number of children per group.
- The maximum cohort size applies to all children and youth in the cohort, even if not all children attend the OST program at the same time. For example,
  - A cohort may not include 8 children who attend full-time, 8 children on Mon/Wed/Fri, and 8 children on Tue/Thu.. This cohort would consist of 24 children who are mixing with each other.
  - A cohort may include 12 children who attend for the entire day, 4 who attend mornings only, and 4 who attend afternoons only (total of 20).

### Maintain stable enrollment and staff within each cohort

- Newly enrolled children and youth may join a cohort at any time, but they must enroll for a period of at least 3 weeks to maintain the stability of the cohort group.
- Children and youth should only enroll in one program at one time. Concurrent participation in multiple youth programs at one time contributes to the spread of COVID-19 in the community.
- Staff should be assigned to one cohort and must work solely with that cohort. Avoid changing staff assignments if possible.
  - Substitute providers who are covering for short-term staff absences are allowed, but should only work with one cohort of children per day.
  - “Floaters,” who provide brief coverage for providers throughout the day, should only work with one cohort of children per day.
  - For specialist activities, cross-over of staff between cohorts is permitted to meet children’s educational and enrichment needs. Limit cross-over of students and staff to the extent possible. Staff should document visits that are not part of their cohort. Consider a sign-in sheet/log for contact tracing purposes.

### Keep cohorts from mixing.

- Each cohort must be in a separate room or space; keep cohorts separate from each other during activities such as art, music, and exercise.
- Stagger playground time and other activities so that no two cohorts are in the same place at the same time.
- Minimize interactions between cohorts, including interactions between staff assigned to different cohorts.
- Assign children and youth who live together or carpool together to the same cohort, if possible and if consistent with age and learning concerns.

- Avoid moving children and youth from one cohort to another, unless needed for a child's overall safety and wellness.

### Partition large indoor spaces to prevent direct air flow between cohorts.

*A room divider or partition may be used to allow more than one cohort to use a large indoor space if the following requirements are met:*

- All cohorts are from the same OST program.
- Staff, children and youth do not need to enter another cohort's space to access bathrooms, kitchens, other common areas or exits. If one cohort must pass through another cohort's space to access bathrooms, kitchens, exits or other common areas, use partitions to separate the pass-through space from both cohorts.
- The room divider must prevent direct air flow between cohorts.
  - Best Practice: Solid, non-permeable, cleanable partitions extending to as close to the ceiling as practical to reduce direct and indirect air flow between cohorts.
  - Minimum Requirement: Solid non-permeable, cleanable partitions extending from the floor and at least 8 feet high.
- The room divider must not:
  - Interfere with ventilation of each space. If mechanical ventilation is used, supply and return diffusers must be present on each side of the partitions
  - Obstruct sprinkler systems, access to emergency exits and other fire and building codes.

*If smoke detectors are required and/or are in use in the building, separate smoke detectors may be required on each side of the room divider. Seek consultation as needed for each facility.*

## Physical distancing

*Physical distancing decreases the risk of COVID-19 from respiratory droplets.*

*Considerations for maintaining physical distancing between children and youth include:*

- During individual activities, such as when using a computer, space children at least 6 feet apart.
- Have students sit in the same seats each day if feasible.
- Rearrange furniture and work/play spaces to prevent crowding and promote physical distancing between children who are not playing together. Arrange desks/computer stations facing in the same direction, so that students do not sit facing each other.
- Offer more opportunities for individual activities, such as reading, workbooks, painting or crafts. Choose group activities that do not involve close contact between children.
- Do not hold gatherings like sing-alongs, and other activities that bring different cohorts together, even if outdoors wearing face coverings.
- During group activities, such as playtime, physical distancing may be relaxed, especially for younger children who may have difficulty staying 6 feet apart from each other, especially if children are wearing face coverings or outside.

- If it is not possible to stay 6 feet apart, keep the interaction as short as possible, make sure to wear face coverings, and consider wearing a face shield in addition to a face covering, to further provide eye protection.

*Physical distancing between adults should be maintained as much as possible.*

- Adults should stay at least 6 feet from other adults, including staff in the same cohort, as much as possible.
  - Set up offices and staff rooms so that staff do not work or sit within 6 feet of each other.
  - Encourage virtual meetings using video conferencing apps for parent-provider meetings and staff meetings, even when all staff are present.
- Adults should stay at least 6 feet away from children and youth when and to the extent feasible.

## Face masks and cloth face coverings

*Face coverings keep people from spreading the infection to others, by trapping respiratory droplets before they can travel through the air. In the OST programs setting, when physical distancing is not possible, face coverings are very important to protect staff from COVID-19 infection.*

- All adults and children 10 years and older must wear face masks or cloth face coverings over both their nose and mouth at all times.
- Staff, family and visitors may not enter the building unless they are wearing a face covering or have documentation of a medical contraindication to face coverings (in which case, they must wear an alternative face covering, such as a face shield with a drape on the bottom edge, unless a medical professional has provided a written exemption to this alternative face covering requirement). Keep a supply of face coverings for individuals who have forgotten to bring one.
- Family members must wear face coverings when dropping-off or picking-up a child and youth.
- Children 2-9 years old should use face coverings as much as feasible, especially during the following times:
  - During group activities or playtime when children are not physical distancing, especially indoors.
  - In situations where children may encounter staff and children from other cohorts, for example, at drop-off and pickup, and in hallways, bathrooms and outside play areas.
  - If a child becomes ill after arriving and is waiting for pick-up.
- Make efforts to avoid excluding children from OST programs or using punitive measures if they will not wear a face covering. Continue to encourage and remind them to wear their face covering.

*The widespread use of face coverings can significantly reduce the spread of infection, even if a few children are unable to wear face coverings. Consistent face covering use by adults is very important in preventing the spread of COVID-19, since many cases of COVID-19 in youth settings so far have been adult staff who were infected in the community.*

### Exemptions to cloth face coverings; use of face shields

- Children 0-1 year old should not wear face coverings due to the risk of suffocation.
- Children and youth with documented medical or behavioral contraindications to face coverings are exempt. This includes children and youth who are unable to tolerate face coverings due to autism or sensory sensitivity, or children and youth unable to independently remove face coverings due to developmental delay or disability.
- Staff with a medical contraindication documented by a medical provider to a face covering may be allowed to wear a face shield with a cloth drape on the bottom tucked into the top of their shirt. However, this is not thought to be as effective as a face covering in preventing spread of infection.  
[https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/Guidance-for-Face-Coverings\\_06-18-2020.pdf](https://www.cdph.ca.gov/Programs/CID/DCDC/CDPH%20Document%20Library/COVID-19/Guidance-for-Face-Coverings_06-18-2020.pdf)
- Staff working with children and youth who are hard-of-hearing may use a clear mask (a disposable or cloth face mask with a clear window). If this is not feasible, a face shield with a cloth drape tucked into the shirt may also be used. Staff should wear a face covering at other times, for example, in staff-only areas.
- Do not use face shields in place of face coverings unless absolutely required, such when working with hard of hearing children and youth. Face shields have not been shown to keep the wearer from infecting others.
- Consider using a face shield in addition to a face mask or cloth face covering. Face shields provide additional eye protection for the wearer. When used with a mask or face covering, a cloth drape is not needed.

### Hand hygiene

*Frequent handwashing for at least 20 seconds and hand sanitizer use removes COVID-19 germs from people's hands before they can infect themselves by touching their eyes, nose or mouth.*

- Develop routines and schedules for staff and children and youth to wash or sanitize their hands at staggered intervals, especially before and after eating, upon entering/re-entering a space, and before and after touching shared equipment such as computer keyboards.
- Every space and common area (staff work rooms, eating areas) should have hand sanitizer or a place to wash hands upon entering.
- Establish procedures to ensure that sinks and handwashing stations do not run out of soap or paper towels, and that hand sanitizer does not run out.
- Post signs encouraging hand hygiene. A hand hygiene sign in multiple languages is available for download at <http://eziz.org/assets/docs/IMM-825.pdf>

### Ventilation and outdoor spaces

*Increasing outdoor air circulation lowers the risk of infection by "diluting" any infectious respiratory droplets with outdoor air. Being outside is even lower risk.*

- Do as many activities outside as possible, especially snacks/meals and physical activities.

- Stagger use of outdoor spaces to keep cohorts from mixing. If the outdoor space is large enough, consider designating separate spaces for each cohort.
- Open windows to increase ventilation with outdoor air when health and safety allow, for example, when it does not worsen individuals' allergies or asthma. When health and safety allow, also consider also leaving room doors slightly open to promote flow of outdoor air through the indoor space.
- Adjust mechanical ventilation systems to maximize fresh (outdoor) air ventilation. Minimize or eliminate return or recirculated air.
- For mechanical ventilation systems, increasing the intake of outdoor air and minimizing recirculated air should be prioritized over increasing filter efficiency during the COVID-19 pandemic.

*Generally, opening windows and adjusting mechanical ventilation systems to maximize outdoor air intake will effectively increase the amount of outdoor air in a room. Although increased filter efficiency may be desirable for other reasons, such as improving indoor air quality near freeways or during wildfires, it is less important than maximizing outdoor air intake for COVID-19. Improving filter efficiency may require significant upgrades to the mechanical ventilation system. Portable air cleaners may be considered, but must be sized and positioned appropriately for the specific space.*

## Limit sharing

- Limit sharing of art supplies, school supplies, manipulatives, and other high-touch materials as much as possible. If feasible, have a separate set of supplies for each child and youth.
- Limit use of shared playground equipment in favor of activities that have less contact with shared surfaces.
- If used, outdoor play structures and natural play areas only need routine maintenance. Make sure the children wash or sanitize their hands before and after using these spaces. When hand hygiene is emphasized, cleaning and disinfection of outdoor play areas is not required between cohorts.

## Cleaning and disinfection

*Many household disinfectants are effective against COVID-19. Refer to [EPA's List N](#) for EPA-approved disinfectants effective against COVID-19.*

- Clean and disinfect frequently touched surfaces at least daily.
- Routine cleaning for COVID-19 should include:
  - Routine cleaning focuses on frequently touched surfaces like door handles, desks, countertops, phones, keyboards, light switches, handles, toilets and faucets.
  - Cleaning after a suspected or known case of COVID-19 **uses the same cleaning agents and disinfectants** as for routine cleaning, but includes the following steps:
    - Open windows and use fans to increase outdoor air circulation in the areas to be cleaned.
    - Wait 24 hours, or as long as practical, before cleaning and disinfection.

- CDPH recommends waiting at least 1 hour.<sup>1</sup>
- Clean and disinfect all surfaces in the areas used by the ill person, including electronic equipment like tablets, touch screens, keyboards, and remote controls. Vacuum the space if needed.
- For details, refer to CDC guidelines on “Cleaning and Disinfecting Your Facility” at <https://www.cdc.gov/coronavirus/2019-ncov/community/disinfecting-building-facility.html> and CDC guidelines for cleaning schools and community facilities at <https://www.cdc.gov/coronavirus/2019-ncov/community/organizations/cleaning-disinfection.html#Cleaning>
- Note that the term “deep cleaning” can be misleading, and the CDC does not use the term.

## Specific Situations

### Transportation

*Since vehicles are small enclosed spaces that do not allow physical distancing, they can be settings with higher risk of COVID-19 transmission. Biking and walking are lower risk than shared vehicles.*

- Public transportation: Wear face coverings, maintain at least 6 feet of 6ft physical distancing as much as possible, and practice hand hygiene upon arrival.
- Carpools and shared rides: Advise staff and families to carpool with the same stable group of people. Open windows and maximize outdoor air circulation when feasible. Everyone in the vehicle used for these purposes should wear a face covering.

### Drop-off and pick-up

*Children and youth and parents/caregivers from different households should not gather and interact with each other during arrival and dismissal, as this creates an opportunity for COVID-19 to spread in the community.*

#### Limit staff contact with families at drop-off and pick-up

- Stagger arrival and dismissal times to minimize contact, using different entrances/exits for each cohort when possible.
- Mark spaces at least 6 feet apart for children and youth waiting to enter the building and for adults waiting to pick up children. Post signs to remind family members to stay at least 6 feet away from people from other households when dropping off or picking up their student.
- Face coverings are required for adults who are dropping off or picking up children and youth.

### Meals and snacks

*Eating together is especially high risk for COVID-19 transmission because people must remove their face coverings to eat and drink. Children and youth often eat with their hands, and both children and*

---

<sup>1</sup> CDPH Outpatient Healthcare Facility Infection Control Recommendations for Suspect COVID-19 Patients <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/OutpatientHealthcareFacilityInfectionControlRecommendationsforSuspectCOVID19Patients.aspx>

*adults often touch their mouths with their hands while eating. In addition, meals are usually considered time for talking together, which further increases risk, especially if children and youth must speak loudly to be heard.*

- Eating outdoors is safer than eating indoors. Outdoor eating areas may be covered (e.g. with an awning), as long as no more than one side is closed, allowing sufficient air movement. Designate an eating area for each group, and mark places at least 6 feet apart for students to sit. Without marked spaces, children might sit more closely.
- Use individually plated or bagged meals or snacks instead of family-style meals.
- Space children and youth as far apart as possible when eating, and try to seat them so they do not sit face-to-face. Physical distancing is especially important when eating, since face coverings cannot be worn.
- Make sure that children and youth and staff wash their hands or use hand sanitizer immediately before and after eating. Pay special attention to children who like to suck/lick food off their hands.
- Staff should try as much as possible to stay at least 6 feet away from children who are not wearing face coverings, especially when they are eating indoors. Staff should remember to wear face coverings if children are eating.
- Clean and disinfect tables and chairs between different cohorts. If eating outdoors, sidewalks and asphalt do not have to be disinfected.

### Staff spaces: offices, break rooms and work rooms

*Staff often do not view themselves and colleagues as sources of infection, and forget to take precautions with co-workers, especially during social interactions such as breaks or lunch time.*

- Staff should try not to eat with other staff, especially indoors. This is a common way that staff are exposed to COVID-19 at work.
- Post signage reminding staff to stay 6 feet apart, keep their face coverings on unless eating, wash their hands before and after eating, and disinfect their area after using it.
- Consider creating a private outdoor area for staff to eat and take breaks.
- Open windows and doors to maximize ventilation in staff spaces.

### Sports activities:

*Exercising is an area of higher risk for transmission due to the potential for close contact and increased breathing. Youth sports require special consideration and special precautions. Any program that involves sports or physical education, as all or part of its programming, must comply with these guidelines.*

- Youth sports and physical education are permitted only when at least six feet of physical distance can be maintained between all participants at all times. Sports that involve closer contact are not permitted. Physical conditioning and individual training to support such sports (e.g., running drills, practicing skills, and doing calisthenics) is permitted as long as at least six feet of physical distance is maintained between participants at all times.
- Youth from different groups may not play against or with each other.

- Limit sharing of equipment among youth in a cohort. Clean any shared equipment frequently. Equipment should not be shared between cohorts unless and until it has been cleaned and disinfected.
- Face coverings must be worn by all participants at all times (participants should avoid heavy exertion because it may make wearing face coverings more difficult).
- Until San Francisco is off the State monitoring list (AKA “watch-list”) and gyms are allowed to operate indoors under the State Health Order, all youth sports, physical conditioning, and training must occur outside.
- Tournaments, events, and competitions are not permitted.
- Please see the state’s guidance regarding Youth Sports at <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Youth-Sports-FAQ.aspx>.

## Students receiving special services:

- Therapists and other support staff are considered essential staff and should be allowed onsite to provide services.
- Accommodations and related services for special education, learning disabilities and medical conditions should be met, even if it creates cross-over between cohorts. Provide supervision for children who need additional support maintaining physical distancing, wearing a face covering, or handwashing.
- Additional accommodations may be needed for students to safely attend class. For example, a student who cannot tolerate a face covering due to a medical or developmental condition may need a desk with clear screens or privacy barriers.

## Other activities:

- Avoid group singing. Suspend choir and wind instruments (band). These activities are higher risk for COVID-19 transmission due to the larger numbers of respiratory droplets produced. Percussion and string instruments are allowed.
- Field trips are currently not allowed due to the potential for increased transmission. Please stay updated with state and local guidance.

## What to do when someone has suspected or confirmed COVID-19

Refer to “*When someone has suspected or confirmed COVID-19: Quick Guide for Schools, Childcares, and Programs for Children and Youth*” at <https://sfcdcp.org/CovidSchoolsChildcare> for information on:

- Steps to take when staff or children and youth have COVID-19 symptoms, have been exposed (for example, a parent or sibling has tested positive), or have confirmed COVID-19.
- Returning to OST programs after COVID-19 symptoms, close contact, or confirmed COVID-19.

## When a child and youth or staff member has symptoms of COVID-19

- Staff who develop symptoms at work should notify their supervisor and leave work as soon as feasible. For SFDPH guidance on when workers with COVID-19 symptoms may return to work, see <https://sfcdcp.org/rtw>.

- Keep ill children and youth in a separate area, away from other children and youth, until they can be picked up. Make sure that children and youth keep their face coverings on.
- When a parent or guardian arrives, consider walking the child outside to meet them instead of allowing the parent or guardian into the building. Since it is common that children with COVID-19 are infected by a parent or other adult in their home, the parent may also have COVID-19.
- Encourage family members of students and staff with symptoms of COVID-19 to get tested promptly, before they can spread infection to students and staff.
- Open windows in areas used by the sick person to maximize outdoor air circulation. Close off those areas as soon as feasible, until they can be cleaned and disinfected.
- Children and youth with symptoms may return to OST programs when they have met the criteria in “When someone has suspected or confirmed COVID-19: Quick Guide for Schools, Childcares, and Programs for Children and Youth.” A parent handout, “For Parents and Guardians: COVID-19 Health Checks for Children and Youth/If Your Child Has Symptoms” is also available. Both documents are at <http://sfcdcp.org/CovidSchoolsChildcare>.

### When a child and youth or staff member has a positive COVID-19 test

- Contact the SFPDH Schools and Childcare Hub for consultation and guidance at **(415) 554-2830, Press 1 for COVID-19, then press 6 for Schools**  
[Schools-childcaresites@sfdph.org](mailto:Schools-childcaresites@sfdph.org)
- **Work with SFPDH to identify staff, children and youth and other people in the OST programs who had close contact** with the person with COVID-19. Individuals who had close contact should be notified, know how to get tested, and understand when they or their child can return to the program, usually 14 days after their last exposure. Please refer to “*Frequently Asked Questions (FAQ): COVID-19 Contact Tracing at Schools, Childcares, and Programs for Children and Youth*” at <http://sfcdcp.org/CovidSchoolsChildcare>.
- **Close the areas used by the person with COVID-19 until they can be cleaned and disinfected.**
- **Communicate with staff and families.**  
Maintain the confidentiality of the child, youth family, or staff member with COVID-19 as required by the Americans with Disabilities Act, the Family Education Rights and Privacy Act, and possibly HIPAA.

### Health Officer Directive No. 2020-21 (Exhibit B) Health and Safety Plan (issued 8/14/2020)

Each Out of School Time Program must complete, post onsite, and follow this Health and Safety Plan.

Check off all items below that apply and list other required information.

*Business/Entity name:*

*Contact name:*

*Entity Address:*

*Contact telephone:*

*(You may contact the person listed above with any questions or comments about this plan.)*

- Business is familiar with and complies with all requirements set forth in Health Officer Directive No. 2020-21, available at <http://www.sfdph.com/directives>.
- Designate a COVID-19 staff liaison. *Liaison name:*
- Protocols have been established in the event a child or staff member has symptoms of COVID-19, has close contact with a person with COVID-19, or is diagnosed with COVID-19.
- Program prioritizes enrollment for at risk children and youth and children and youth of people who work in essential businesses or essential governmental functions, followed by people who work in other businesses and organizations that are allowed to remain open or re-open under San Francisco Health Orders.
- Everyone who enters the facility is screened for COVID-19 symptoms or exposure.
- Parents are informed to keep children home when ill.
- Sick leave policies support personnel to stay home when ill.
- Limiting non-essential visitors, including volunteers, to the greatest extent possible.
- Cohort size is limited to 20 children or the maximum number of children allowed by the childcare's license, whichever is lower.
- Sessions are a minimum of three weeks long.
- Staff is assigned to one cohort and works solely with that cohort.
- Interaction between cohorts is minimized to the greatest extent feasible.
- Each cohort is in a separate room or space or a solid non permeable, cleanable partitions extending from the floor and at least 8 feet high separates the cohorts.
- Physical distancing between adults is maintained as much as possible.
- Physical distancing between children is encouraged as appropriate depending on the nature and location of the activity.
- All adults and children 10 years and older wear a face covering unless eating or drinking or otherwise exempt.

**Health Officer Directive No. 2020-21 (Exhibit B)**  
**Health and Safety Plan (issued 8/14/2020)**

**Checklist**

Each Out of School Time Program must complete, post onsite, and follow this Health and Safety Plan.

- Children 2-9 years are encouraged to wear face coverings to the extent feasible, especially during the following times:
  - During group activities or playtime when children are not physical distancing, especially indoors;
  - Where children may encounter staff and children from other cohorts; and
  - If a child becomes ill after arriving and is waiting for pick up (and is not asleep)
- Protocols for frequent hand washing and/or sanitizing are in place.
- Activities are done outdoors to the greatest extent possible.
- Ventilation is maximized to the greatest extent possible through opening windows (when safe to do so) and/or adjusting mechanical ventilation to maximize fresh (outdoor) air ventilation, as appropriate.
- Sharing of supplies and high-touch material is limited to the extent possible.
- Frequently touched surfaces, supplies and other objects are cleaned and disinfected regularly.
- Staff contact with families at drop-off and pick-up is limited as much as possible.
- Children are placed as far apart as possible during meals and snacks.
- Sports and physical education are permitted only when at least six feet of physical distance can be maintained between all participants at all times.
- No group singing or playing wind instruments.
- No field trips.

San Francisco, CA 94102-4638

Colleagues,

In accordance with the provisions of California State Government Code, Section 53646, we forward this report detailing the City's pooled fund portfolio as of July 31, 2020. These investments provide sufficient liquidity to meet expenditure requirements for the next six months and are in compliance with our statement of investment policy and California Code.

This correspondence and its attachments show the investment activity for the month of July 2020 for the portfolios under the Treasurer's management. All pricing and valuation data is obtained from Interactive Data Corporation.

The City and County of San Francisco uses the following methodology to determine compliance: Compliance is pre-trade and calculated on both a par and market value basis, using the result with the lowest percentage of the overall portfolio value. Cash balances are included in the City's compliance calculations.

Please note the information in this report does not include cash balances. Due to fluctuations in the market value of the securities held in the Pooled Fund and changes in the City's cash position, the allocation limits may be exceeded on a post-trade compliance basis. In these instances, no compliance violation has occurred, as the policy limits were not exceeded prior to trade execution. The full Investment Policy can be found at <https://sftreasurer.org/investments>

Totals may not add due to rounding.

**Subject:** Submission of Official Ballot Arguments for District Measure "RR, Caltrain Sales Tax," for Inclusion in the San Francisco Voter Information Pamphlet for the November 3, 2020, Consolidated General Election

Department of Elections  
 City and County of San Francisco  
 John Arntz, Director

For Immediate Release

SAN FRANCISCO, Friday, August 14, 2020 – The deadline to submit an official opponent argument associated with district ballot measure "RR, Caltrain Sales Tax" is noon, Tuesday, August 18. The official opponent argument will appear in the San Francisco Voter Information Pamphlet for the November 3, 2020, election.

The argument submission deadlines are as follows:

- Opponent Argument – noon, Tuesday, August 18
- Rebuttals to Proponent or Opponent Arguments – noon, Friday, August 21

All ballot arguments must be submitted to the Department of Elections in person, with original signatures. To facilitate compilation of the Voter Information Pamphlet, submitters are encouraged to send an electronic copy of the text of each argument via email to [publications@sfgov.org](mailto:publications@sfgov.org).

All ballot arguments are subject to a 10-day public examination period. These public examination periods allow an opportunity to review and possibly challenge the language of a proposed ballot argument before it is published in the Voter Information Pamphlet. During each 10-day public examination period, voters may seek a court order requiring changes to or removal of materials related to a ballot measure on which they are eligible to vote. Challenges must be filed no later than the end of the examination period.

The 10-day public examination periods for ballot arguments are as follows:

- Proponents' and Opponents' Arguments – 2 p.m., Tuesday, August 18, until 2 p.m., Friday, August 28.
- Rebuttals to Proponents' and Opponents' Arguments – 2 p.m., Friday, August 21, until 2 p.m., Monday, August 31

The Department is not accepting official proponent arguments since the Peninsula Corridor Joint Powers Board authorized its Executive Director to author and submit the official proponent argument.

If the Department receives more than one opponent argument, the Department will conduct a random selection of one argument at 1 p.m., Tuesday, August 18.

Further information about the November 3 election is available at [sfelections.org](https://sfelections.org) or by contacting the Department of Elections at (415) 554-4375.

 Austin Truong, Youth Commission Community Partnerships Specialist  
 Itzel Estrada, Youth Commission Youth Development Specialist

**DATE:** Tuesday, August 18, 2020

**RE:** Youth Commission Application Outreach Summary

The San Francisco Youth Commission presented their Budget and Policy Priorities report summary to the Budget and Appropriations Committee on Wednesday, July 9th, and they received numerous questions regarding the outreach strategies for engaging youth to apply. Because of these inquiries, we are sending you a summary of our strategic and intentional process for the 2020 - 2021 Youth Commission Application. Our outreach plan determined in Fall September 2019 was planned accordingly by Youth Commission staff and the Community Outreach team of the Youth Commissioners.

As we work with a youth leadership development model, we established Fall as an onboarding time to get an understanding of the political landscape and community needs. Fall is set up to build trust as a Commission and strengthen our relationships with community partners to uplift youth advocacy. By providing and seeking out opportunities to work with community partners such as the youth-led DA forum, March 4 Education, and 29R SFMTA presentation, Youth Commissioners are able to develop a stronger understanding of the work being done in the community and assess the current systems and policies in place.

In Winter, we moved onto expanding our work and issues into schools and community visits through our Youth Commissioners. Our Youth Commissioners spoke to Peer Resources in wellness hour during school, brought a panel at a middle school through Space4Us, sat in on multiple panels with Human Resources where they spoke on LGBTQ+ youth homelessness and with Generation Citizen during their annual Civic's Day conference where they spoke on the importance of civic engagement with youth across San Francisco, and engaged with their peers at the San Francisco Youth Justice Comic-Con. Additionally, we hosted a Youth Commission Mixer held at 518 Valencia that invited alumni and community partners and interested young people to a social that featured our youth commissioners performing live jazz, sharing about their committees, playing in a community bingo activity, and providing space to

learn more about the issues that impact young people that aren't typically heard in City Hall. As we were holding events in communities, we also participated in community events such as the Youth Situation Town Hall hosted by Young Women Freedom Center, Future of Muni Community meeting hosted by SOMCAN, Peer Resources Coaching for Transformative Change Day at June Jordan High School, and the NEN awards.

Unfortunately, due to COVID-19 and Shelter in Place orders, we were unable to fully implement in-person outreach on our Youth Commission Applications nor did we see it as our primary focus. We wanted to dedicate our time to strengthening our digital advocacy and outreach skills and sharing resources and connecting with our community. During this time, we invested heavily on social media by sharing resources through Facebook, Instagram, Twitter, and our newsletter, participating in digital call-to-actions such as the Closure of 850 Bryant, developing our budget recommendations with community organizations and young people, and hosting two informational sessions for the Youth Commission application. We grounded ourselves in the reality that our priority is not to participate in performative activism but to practice active community care. Our commissioners leaned into volunteering within their district through phone-calls to seniors, food drop-offs, and speaking in public comment as budget reallocation is being called into question for SFPD amongst other departments to be reinvested in underfunded communities.

Spring outreach took a creative approach as the events and community visits we had planned were canceled due to the Shelter in Place order. Our application outreach beginning Mid April to June 1st, relied on having 2 information sessions, email outreach to all DCYF programs and community partners, and constant social media posting through Facebook, Instagram, and Twitter. We are very fortunate to have received support on outreach from Supervisors and Board of Education commissioners who shared the application on their social media platforms as well.

In a surprising result, our Youth Commission application received 77 applicants with 11 Commissioners seeking reappointment. We received a staggering amount of young people from ages 15-17, Lowell students, and identified as Cis-Female. We also received a larger demographic of young people that were not Lowell students with college applicants and other public schools such as George Washington, Mission, and Balboa-a testament to the targeted outreach Youth Commission staff and current commissioners engaged in this year. We had a strong turnout from D1, D4, and D7 residents for applications with 10+ applicants from those districts. This is followed by District 2, 5, 8, 10, and 11 with 4+ applicants. With this in mind, we need to strengthen our outreach in District 6,3, 9, 10, 11, and 2. Unsurprisingly, there is still much to be done for Black and Latinx representation, TAY, and public school students.

It is an immense challenge to recruit and outreach to youth from public schools or from poorer neighborhoods in San Francisco because San Francisco Charter Section 4.123 (d) states, **"Members of the [Youth] Commission shall not be compensated, nor shall they be reimbursed for expenses"**. Every year, our outreach results confirm this challenge. Youth Commission staff and current commissioners specifically target public schools and youth voices that are traditionally marginalized. However, the first question we always get is "is there a stipend?" or "is this a paid opportunity?". The SF Youth Commission is considered the top Youth Commission in the nation and the responsibilities of commissioners reflect that. If appointing officers are committed to appointing youth who represent all the diverse identities and voices of youth in San Francisco, then we need to amend the charter to be able to compensate the commissioners for their commitment and time-intensive work while serving as commissioners.

Please see the graphs included for our full demographics of this year's Youth Commission application outreach and our outreach plan for 2020 - 2021.

Best,  
Youth Commission Staff

Count of Supervisorial District (look up here: <http://propertymap.sfplanning.org/> )

We had a strong turnout from D1, D4, and D7 residents for applications with 10+ applicants from those districts. Followed by District 5, 8, 10,11 and 2 with 4+ applicants. With this in mind, we need to strengthen our outreach in District 6,3, 9, 10, 11, and 2.

Count of Ethnicity and / or Race

We received mostly youths of color with predominantly 23.4% identifying as White, 31.2% identifying as Asian, 9.1% identifying as African American, and 7.8% identifying as Latinx.

Count of Sexual Orientation

We received predominantly heterosexual identifying applicants at 54.5%, 20.8% identifying in the LGBTQ community, and 22.1% who did not wish to answer.

Count of Gender

We received 49 applicants identifying as cis-female, 7 identifying as male, 1 identifying as gender-queer, and 6 who did not wish to answer.

We have a strong turnout of highschoolers age 15-18 applying for the commissioners, with less engagement from TAY youth.

**RE:** Youth Commission Application Outreach Summary

---

The San Francisco Youth Commission presented their Budget and Policy Priorities report summary to the Budget and Appropriations Committee on Wednesday, July 9th, and they received numerous questions regarding the outreach strategies for engaging youth to apply. Because of these inquiries, we are sending you a summary of our strategic and intentional process for the 2020 - 2021 Youth Commission Application. Our outreach plan determined in Fall September 2019 was planned accordingly by Youth Commission staff and the Community Outreach team of the Youth Commissioners.

As we work with a youth leadership development model, we established Fall as an onboarding time to get an understanding of the political landscape and community needs. Fall is set up to build trust as a Commission and strengthen our relationships with community partners to uplift youth advocacy. By providing and seeking out opportunities to work with community partners such as the youth-led DA forum, March 4 Education, and 29R SFMTA presentation, Youth Commissioners are able to develop a stronger understanding of the work being done in the community and assess the current systems and policies in place.

In Winter, we moved onto expanding our work and issues into schools and community visits through our Youth Commissioners. Our Youth Commissioners spoke to Peer Resources in wellness hour during school, brought a panel at a middle school through Space4Us, sat in on multiple panels with Human Resources where they spoke on LGBTQ+ youth homelessness and with Generation Citizen during their annual Civic's Day conference where they spoke on the importance of civic engagement with youth across San Francisco, and engaged with their peers at the San Francisco Youth Justice Comic-Con.

Additionally, we hosted a Youth Commission Mixer held at 518 Valencia that invited alumni and community partners and interested young people to a social that featured our youth commissioners performing live jazz, sharing about their committees, playing in a community bingo activity, and providing space to learn more about the issues that impact young people that aren't typically heard in City Hall. As we were holding events in communities, we also participated in community events such as the Youth Situation Town Hall hosted by Young Women Freedom Center, Future of Muni Community meeting hosted by SOMCAN, Peer Resources Coaching for Transformative Change Day at June Jordan High School, and the NEN awards.

Unfortunately, due to COVID-19 and Shelter in Place orders, we were unable to fully implement in-person outreach on our Youth Commission Applications nor did we see it as our primary focus. We wanted to dedicate our time to strengthening our digital advocacy and outreach skills and sharing resources and connecting with our community. During this time, we invested heavily on social media by sharing resources through Facebook, Instagram, Twitter, and our newsletter, participating in digital call-to-actions such as the Closure of 850 Bryant, developing our budget recommendations with community organizations and young people, and hosting two informational sessions for the Youth Commission application. We grounded ourselves in the reality that our priority is not to participate in performative activism but to practice active community care. Our commissioners leaned into volunteering within their district through phone-calls to seniors, food drop-offs, and speaking in public comment as budget reallocation is being called into question for SFPD amongst other departments to be reinvested in underfunded communities.

Spring outreach took a creative approach as the events and community visits we had planned were canceled due to the Shelter in Place order. Our application outreach beginning Mid April to June 1st, relied on having 2 information sessions, email outreach to all DCYF programs and community partners, and constant social media posting through Facebook, Instagram, and Twitter. We are very fortunate to have received support on outreach from Supervisors and Board of Education commissioners who shared the application on their social media platforms as well.

In a surprising result, our Youth Commission application received 77 applicants with 11 Commissioners seeking reappointment. We received a staggering amount of young people from ages 15-17, Lowell students, and identified as Cis-Female. We also received a larger demographic of young people that were not Lowell students with college applicants and other public schools such as George Washington, Mission, and Balboa-a testament to the targeted outreach Youth Commission staff and current commissioners engaged in this year. We had a strong turnout from D1, D4, and D7 residents for applications with 10+ applicants from those districts. This is followed by District 2, 5, 8, 10, and 11 with 4+ applicants. With this in mind, we need to strengthen our outreach in District 6,3, 9, 10, 11, and 2. Unsurprisingly, there is still much to be done for Black and Latinx representation, TAY, and public school students.

It is an immense challenge to recruit and outreach to youth from public schools or from poorer neighborhoods in San Francisco because San Francisco Charter Section 4.123 (d) states, "**Members of the [Youth] Commission shall not be compensated, nor shall they be reimbursed for expenses**".

Every year, our outreach results confirm this challenge. Youth Commission staff and current commissioners specifically target public schools and youth voices that are traditionally marginalized. However, the first question we always get is “is there a stipend?” or “is this a paid opportunity?”. The SF Youth Commission is considered the top Youth Commission in the nation and the responsibilities of commissioners reflect that. If appointing officers are committed to appointing youth who represent all the diverse identities and voices of youth in San Francisco, then we need to amend the charter to be able to compensate the commissioners for their commitment and time-intensive work while serving as commissioners.

Please see the graphs included for our full demographics of this year’s Youth Commission application outreach and our outreach plan for 2020 - 2021.

Best,  
Youth Commission Staff

---

Hello Angela and Alisa,

I hope that you are both well. Each year our office issues a notice of our intention to apply for Edward Byrne Memorial JAG funding. In order to fulfill our local governing body review requirement I have enclosed a packet that we would like to share for the ***Petitions and Communications*** section of the upcoming Board of Supervisor's meeting.

Enclosed please find:

- Cover letter to the Clerk of the Board
- Application materials (Budget Detail Worksheet, Intergovernmental Review, Program Narrative, Disclosure of Lobbying Activities, Financial Capability Questionnaire)
- Local Solicitation Application

Please let me know if you have any additional questions.

Thank you,  
Jasmine

Mayor

August 14, 2020

Ms. Angela Calvillo  
Clerk of the Board of Supervisors  
1 Dr. Carlton B. Goodlet Place  
San Francisco, CA 94102-4689

Dear Ms. Calvillo,

The U.S. Department of Justice, Office of Justice Programs' Bureau of Justice Assistance is seeking applications for funding under the Edward Byrne Memorial Justice Assistance Grant Program (Byrne JAG) FY 2020 Local Solicitation. Department of Children, Youth and Their Families is leading in partnership with Adult Probation Department, the District Attorney's Office, the Police Department, the Public Defender's Office, and the Sheriff's Department, and intends to apply for these Federal grant funds to support San Francisco's Continuum of Alternative Responses to Drug Offenses. This is a multidisciplinary partnership that focuses on adopting a continuum of alternative responses with a harm reduction, recovery-centered approach for appropriate low-level drug offenders that seeks to not only improve their lives but to also increase the quality of life and public safety for all San Franciscans.

A complete copy of the Byrne JAG FY 2020 Local Solicitation and CCSF's application is attached. Please note in particular the following requirements.

### **Governing Body Review**

Byrne JAG FY 2020 grant applications are due August 19, 2020, and the Bureau of Justice Assistance requires the applicant agency to make the grant application available for review by the governing body not fewer than 30 days before the application is submitted. When this requirement cannot be met at the time the application is submitted, BJA will add a withholding of funds special condition to the award, which can be cleared once we confirm the governing body review requirement has been satisfied.

In accordance with this requirement, we respectfully request that you disseminate a copy of this correspondence along with the attached Edward Byrne Memorial Justice Assistance Grant Program FY 2020 Local Solicitation and CCSF's application to each member of the Board of Supervisors for review, and include this application on the next posting of City Petitions and Communications.

**Department of Children, Youth and Their Families**

1390 Market Street Suite 900 \* San Francisco, CA 94102 \* 415-554-8990 \* [www.dcyf.org](http://www.dcyf.org)

## **Reservations Of Rights Letter**

The City and County of San Francisco (“San Francisco”), through its Department of Children, Youth & Their Families (“San Francisco DCYF”), submits this supplement to its application for the 2020 Edward Byrne Memorial Justice Assistance Grant Program (“Byrne JAG program”) regarding certain of the U.S. Department of Justice’s (“DOJ”) requirements associated with that grant. San Francisco DCYF intends that this supplement be part of its Byrne JAG application.

In the solicitation to local governments for FY 2020 Byrne JAG funding, DOJ has stated that units of local government must submit a certification from the chief executive of the applicant unit of local government, entitled the “Certifications and Assurances by Chief Executive of Applicant Government.” (Byrne JAG FY 2020 Local Solicitation at 7 (hereafter “Chief Executive Certification”).) The Chief Executive Certification appears to require the chief executive to certify, among other things, that he or she has reviewed 34 U.S.C. § 10153(a)(5), and to confirm that the unit of local government complies with that provision. The solicitation further states that local jurisdictions must provide answers to questions related to 8 U.S.C. § 1373 in an attachment titled “Information regarding Communication with the Department of Homeland Security (DHS) and/or Immigration and Customs Enforcement (ICE).” (Local Solicitation at 12 (hereafter “Section 1373 Attachment”).)

San Francisco DCYF is submitting this application without executing the Chief Executive Certification and without completing the Section 1373 Attachment, for the following reasons:

With regard to the Chief Executive Certification, DOJ makes clear that applicants for FY 2020 Byrne JAG funds do not need to complete the Chief Executive Certification at this time. Rather, DOJ has stated that “a unit of local government will not be able to access award funds” until it submits the Chief Executive Certification. (Local Solicitation at 7.) Further, DOJ has represented that it will not deny an application for a FY 2020 Byrne JAG award for failure to submit the Chief Executive Certification by the application deadline. (*Id.*) Instead, DOJ states that a unit of local government will not be able to access award funds until it submits that document. (*Id.* at 21.) Consistent with this representation, San Francisco DCYF will not submit the Chief Executive Certification at this time.

With respect to the Section 1373 Attachment, DOJ may not require San Francisco DCYF to complete the Section 1373 Attachment. In litigation brought by San Francisco, a federal district court has enjoined DOJ from using 8 U.S.C. § 1373 as a basis for withholding Byrne JAG grant funds. See Order Granting Pltf.’s Mot. for Summ. Judgment, *City and County of San Francisco v. Sessions*, N.D. Cal. No. 18-cv-05146, Dkt. No. 60 at 7-8, 17-19, *appeal docketed* 9th Cir. No. 19-15947 (May 3, 2019). Specifically, that court held that 8 U.S.C. § 1373 is unconstitutional, and enjoined DOJ from “[e]nforcing 8 U.S.C. § 1373’s statutory obligations against any California state entity or political subdivision.” *Id.* at 2. San Francisco is a party to the litigation and a political subdivision of California. Furthermore, that same court has held that San Francisco’s immigration-related laws and policies comply with 8 U.S.C. § 1373, and has enjoined DOJ from “denying or clawing back San Francisco Byrne JAG funding on the basis of alleged non-compliance with Section 1373.” See Judgment and Order, *City and County of San Francisco v. Sessions*,

**Department of Children, Youth and Their Families**

1390 Market Street Suite 900 \* San Francisco, CA 94102 \* 415-554-8990 \* [www.dcyf.org](http://www.dcyf.org)

N.D. Cal. No. 17-cv-04642, Dkt. No. 146 at 1-2. The Ninth Circuit recently upheld the district court's decision on this topic, and stated that "8 U.S.C. § 1373 cannot be cited" as a basis for withholding Byrne JAG funding from San Francisco. See Opinion, *City and County of San Francisco v. Barr*, 9th Cir. No. 18-17308, at 9 (July 13, 2020); see also *id.* at 22 ("We uphold the injunction barring DOJ from withholding or denying Byrne funds to [San Francisco] based on the assertion that [its] laws violate 8 U.S.C. § 1373 . . ."). Those court orders remain in effect and prohibit DOJ from requiring San Francisco DCYF to complete the Section 1373 Attachment.

San Francisco reserves its right to pursue any further legal action, including litigation, to challenge any award conditions, requirements, and/or certifications imposed on its FY 2020 Byrne JAG award, or used as a basis for denying its FY 2020 Byrne JAG application.

Thank you in advance for your assistance with this matter. Department of Children, Youth and Their Families and all of our City partners are committed to complying with all lawful applicable requirements pertaining to the Edward Byrne Memorial Justice Assistance Grant. If you have any questions, please contact me at (415) 554-8482 or at [jasmine.dawson@dcyf.org](mailto:jasmine.dawson@dcyf.org).

Jasmine Dawson  
Department of Children Youth and Their Families

**Applicant: City and County of San Francisco**  
**Department of Children, Youth and Their Families**  
**Title: The CCSF's Continuum of Alternative Responses to Drug Offenses**  
**PROGRAM NARRATIVE**

❖ **PROBLEM STATEMENT**

The City and County of San Francisco (CCSF) is an urban environment spanning approximately 49 square miles with approximately 881,549 (U.S. Census Bureau 2019)<sup>1</sup> culturally, ethnically, and linguistically diverse residents (17,179 residents per square mile). San Francisco's ethnic diversity includes approximately 52.8% White, 36% Asian, 0.5% Pacific Islander, 15.2% Hispanic/Latino, and 5.6% African American residents. Like many urban cities, low-income African American and Latinos disproportionately live in segmented neighborhoods that are impacted by violent crime.

San Francisco has instituted research based and intelligence driven strategies over the past several years. Research has shown that singularly focused street level enforcement strategies do not meet ultimate crime reduction objectives and disproportionately impact people of color. Intelligence led collaborations with community and law enforcement have been proven successful.

In 2018 five percent of misdemeanor unit incoming cases were drug-related. Twenty two percent of general felonies unit incoming cases were drug-related. During this same year there were 970 reported incidents citywide for possession for sale and sales. In the chart below the City districts with the highest number of incidents account for three quarters of total incidents are Tenderloin 598 (62%) and Southern 99 (10%).<sup>2</sup>

Tenderloin	598

Though the number of arrests for drug offenses in San Francisco have declined dramatically over the last ten years due to statewide legislative shifts in penalties for drug offenses paired with an evolving local perspective toward what works for people with substance abuse issues, our analysis of crime trends and crime drivers has indicated that while drug arrests themselves are greatly reduced, untreated addiction has a significant impact on other offense categories, such as property crimes. The city is striving to ensure that we have a full continuum of alternative responses along all decision points of the criminal justice system for people struggling with substance abuse and addiction. There have been a variety of alternative strategies implemented by different justice-involved agencies and departments that have all seen great measures of success. The City and County of San Francisco hopes to build on these successes by adopting a continuum of alternative responses with a harm reduction, recovery-centered

approach for appropriate low-level drug offenders that seeks to not only improve their lives but to also increase the quality of life and public safety for all San Franciscans.

❖ **CCSF OVERVIEW OF 2020-21 ACTIVITIES**

The City and County of San Francisco will use 2020 JAG funds to continue providing early stage diversion, focused drug deterrence activities, efficient prosecution, intensive probation supervision, recidivism reduction and system-involvement prevention efforts. JAG funding will continue to be used specifically to support evidence-based programs, including:

- **Law Enforcement Assisted Diversion (LEAD SF)**, a new approach that seeks to accomplish the goals of reduced criminal behavior and improved public safety by connecting appropriate low-level drug offenders with services,
- **Focused Drug Deterrence**, short and long-term proactive activities including targeted investigations and enforcement and social network analysis to increase the identification of individuals involved in high-level drug markets,
- **Drug Court Prosecution**, seeks to connect criminal defendants who suffer from a substantial substance use problem to treatment services in the community in order to enhance public safety, reduce recidivism, and to find appropriate dispositions to the criminal charges that take into consideration the individual's substance use needs, mental and physical health, and the seriousness of the offense,
- **Targeted Drug Treatment for Underserved Population**, a treatment intervention conducted by the San Francisco Sheriff's Department (SFSD) for individuals in-custody unable to **participate in therapeutic communities** due to classification **concerns**,
- **Intensive Probation Supervision**, a targeted caseload of probationers with substance

abuse issues handled exclusively by one probation officer at Adult Probation (APD),

- **Reentry Social Work** through the San Francisco Public Defender's Office that provides efficacious legal and wrap around support to help indigent clients charged with felony drug cases and other felony offenses successfully exit the criminal justice system, and
- **Citywide Justice-Involved Youth Planning** that will coordinate funded services and supports for community-based organizations serving youth and young adults in the juvenile and adult criminal justice system. Guide and support a continuum of services for justice system-involved youth and disconnected transitional age youth (age 18-24) and continue implementing the Multi-Agency Local Action Plan: Strategies for San Francisco Juvenile Justice (LAP) direct service strategies through funding and support from Department of Children, Youth and Their Families (DCYF) 2018-2023 RFP funding strategies. DCYF will strengthen partnerships and collaboration at various levels to create a continuum of supports for youth and young adults.

These strategies represent a comprehensive and coordinated approach by the CCSF's justice partners to provide alternative responses to people caught in the criminal justice system because of their struggles with substance abuse while simultaneously ensuring mechanisms are in place to address criminal conduct and link individuals to appropriate services.

### **Strengthening San Francisco's Criminal Justice System**

Three-quarters of individuals were involved in California's criminal justice system cycle through the criminal justice system within three years of release. CCSF realizes that we cannot incarcerate our way towards public safety and that while we need to suppress violence and crime to preserve the safety and vitality of San Francisco, we also need to attend to the mental and behavioral health and substance abuse issues that perpetuate an individual's connection to the

criminal justice system. This recognition is why San Francisco continues implementing the LEAD SF model, based off of Seattle's successful Law Enforcement Assisted Diversion (LEAD) model, while still including a Focused Drug Deterrence component. We will also continue to implement our successful Drug Court Model with an expanded set of eligibility criteria, support our in-custody treatment programs, ensure a targeted intensive supervision probation caseload, and assist indigent clients upon reentry into our community.

CCSF public safety investments will continue to build and strengthen our criminal justice resolve through smart policing and appropriate alternatives to incarceration and system involvement. This updated and targeted multidisciplinary effort with a focus on leveraging resources to efficiently address emerging and chronic crime and substance abuse problems allows San Francisco to respond appropriately to these issues both with a traditional criminal justice approach as well as with an alternative set of evidence-based responses. CCSF looks forward to directing federal, state and local dollars towards this continuum of alternative responses to substance abuse and focused drug deterrence and will also commit funds for promising collaborative courts, upgraded justice technology and community-based interventions and programs that address individual-level resiliency and skills building tactics that help at-risk and reentering individuals permanently exit the criminal justice system, and become productive members of our San Francisco community.

Competitive stimulus JAG, federal and state formula stimulus JAG funds has provided CCSF criminal justice partners an opportunity to strengthen collaboration and to think critically about how we conduct public safety business. These collective funds will continue to help CCSF improve communication, coordination and information sharing amongst criminal justice partners, expand strategies that strengthen public safety system efficacy, and support San

Francisco in constantly reflecting upon our successes and challenges in reducing recidivism and increasing public safety. JAG funds will offer CCSF the ability to balance strategic suppression and system enhancements with pragmatic individual level interventions that will move us towards reaching holistic violence and crime reduction goals and improving quality of life for all San Franciscans.

❖ **CCSF 2020-21 JAG STRATEGIES**

**Strategy 1: Continuum of Strategic Responses, Interventions, Treatment, and Enforcement for Drug Offenses throughout the Justice System**

**Goals of Strategy 1:** Program areas addressed include Law Enforcement, Prosecution, Corrections, Community Corrections, Reentry, Drug Treatment and Enforcement, and Prevention and Education

- 1) To reduce incarceration and recidivism and increase public safety by ensuring that there is a continuum of alternative responses throughout the criminal justice system process (pre-arrest through reentry) to address the needs of people with substantial substance abuse issues.
- 2) To reduce the narcotic trade and associated violence in affected San Francisco neighborhoods through focused and proactive law enforcement, prosecution and probation efforts.
- 3) To reduce the negative impact of street drug trafficking, drug-related crime, violence and addiction through a coordinated multidisciplinary partnership between San Francisco's law enforcement, criminal justice, and substance abuse treatment agencies.

While there will continue to be the traditional routes by which many drug offenders will enter the criminal justice system in San Francisco, the City and County is committed to providing

additional, alternative responses for appropriate drug offenders along all points of the criminal justice system as described below.

**Law Enforcement Assisted Diversion (LEAD SF) (*Pre-Booking*)**

In accordance with updates to the JAG Priority Areas identified in the Fiscal Year 2020 Local Solicitation, the City and County of San Francisco proposal includes expanded evidence-based criminal justice programs and strategies emphasizing early diversion to treatment for those with substance use challenges and/or serious mental illness.

San Francisco currently operates several innovative strategies for substance dependent individuals who come into contact with the criminal justice system. Despite these exemplary programs San Francisco has no formalized pre-booking diversion program. The City and County of San Francisco has generated a robust portfolio of diversion programs and now seeks to expand those to the earliest possible stage of diversion-at point of arrest.

Law Enforcement Assisted Diversion (LEAD SF) is a new approach that seeks to accomplish the goals of reduced criminal behavior and improved public safety by connecting appropriate low-level drug offenders, as determined by SFPD officers at point of contact, with services. LEAD SF will incorporate San Francisco’s standards for harm reduction practice into program planning and implementation. This approach to diversion has been proven to cost less and be more successful at reducing future criminal behavior than processing low-level drug offenders through the traditional criminal justice system.

The LEAD SF pilot is modeled after Seattle’s Law Enforcement Assisted Diversion program (LEAD) which is a proven example of a pre-booking diversion program that identifies low-level drug and prostitution offenders for whom probable cause exists for an arrest, and redirects them from jail and prosecution by providing linkages to community-based treatment

and support services.

The San Francisco Sentencing Commission is a collaborative body made up of representatives from the District Attorney's Office, Public Defender's Office, Sheriff's Department, Adult Probation, Juvenile Probation, Department of Public Health, San Francisco Police Department, BART Police Department, and other appointed members from other criminal justice organizations. Over the last four years the San Francisco Sentencing Commission has heard expert testimony on LEAD program design, implementation and the feasibility of replicating this model program in San Francisco. Formalized law enforcement assisted pre-booking diversion is an evidence based and fiscally prudent alternative. Two recently released University of Washington studies on the LEAD Program found statistically significant reductions in recidivism, most notably LEAD participants showed significant reductions in new felony cases. The evaluation team also found that the program resulted in reduced participant jail bookings, on average 39 fewer jail bed days per participant, an 87% decrease in subsequent state prison incarceration and overall substantial reductions in criminal justice costs. Additionally, a 2014 UC Berkeley analysis completed for the San Francisco Sentencing Commission explored the feasibility, benefits, and cost of replicating the LEAD program in San Francisco. The researchers concluded that, "San Francisco has the necessary tools and systems to meet the challenge of successfully implementing such a program." Ultimately the research team recommended that San Francisco pursue the adoption of a pre-booking diversion program.

In 2016, the State of California issued a Request for Proposals to identify two jurisdictions to implement the LEAD model, and San Francisco was chosen to receive this grant award. FJAG funds will leverage state grant funds for the implementation of LEAD in San Francisco. LEAD partners are currently engaged in leadership- and operations-level planning

meetings.

**Focused Drug Deterrence** (*Upon Arrest*)

The San Francisco Police Department (SFPD) regularly conducts ongoing, proactive investigations into high-rate drug sellers in an effort to reduce the narcotic trade and associated violence in affected San Francisco neighborhoods. These investigations allow SFPD and CCSF to reduce the negative impact of street drug trafficking, drug-related crime, violence and addiction through a coordinated multidisciplinary partnership between San Francisco’s law enforcement, criminal justice, and substance abuse treatment agencies. This strategy entails first, the coordination of SFPD with other city agencies in an effort against chronic violence, then talking directly to those individuals identified as chronically criminally violent and creating the presence that a coordinated law enforcement team will respond to their violence. An on-going goal is to create awareness for drug dealers and users that the police are committed to eliminating street drug trafficking and violence and that police have support from residents and businesses in these communities.

Periodically, after identifying high rate drug sellers in the targeted area, offenders are invited to a call-in meeting, where, like in gang-based approaches, they are told continued offending will not be tolerated. Call-in participants are frequently offered access to services, such as drug treatment and job training that can assist in compliance with the law. If offenders do continue to engage in drug activity, pending banked cases from the surveillance period are pursued.

**Drug Court Prosecution** (*Upon Prosecution*)

The San Francisco Drug Court (SFDC) was established in 1995 as an alternative to traditional sentencing options for drug offenders. SFDC is a collaborative effort among the

Superior Court, the Office of the District Attorney, the Office of the Public Defender, the Adult Probation Department, the Department of Public Health, the Sheriff's Department, and the Police Department.

SFDC has its own treatment clinic located one block from the Hall of Justice and is supported by local funding through the Department of Public Health. After enrollment, the defendants' treatment is monitored by the Court. A series of sanctions and incentives are used to encourage compliance with treatment. Those who are non-compliant receive graduated sanctions such as writing an essay, community service or jail time - to encourage adherence with treatment. Upon successful program completion, probation is terminated or charges are dismissed.

In addition to the legal benefits, the program is designed so that participants can acquire the tools necessary to live a clean and sober lifestyle. Resources are also provided to help further their education and/or obtain vocational training and maintain stable employment allowing them to become contributing members of society.

Since its launch in 1995, San Francisco's Drug Court has worked with over 5,000 drug offenders with an estimated cost savings of over \$48 million accrued from both operating and recidivism costs<sup>3</sup>. An evaluation by an independent evaluator found that over a two year period 43% of Drug Court graduates were re-arrested compared to 67% of comparable offenders<sup>4</sup>. This substantial decrease in re-arrest was true regardless of graduation from the program, with a decline of 37% in the average number of arrests in the three years after drug court entry even for non-graduates. For graduates, the difference was even greater with 73% fewer arrests after Drug

<sup>4</sup> Ibid.

Court<sup>5</sup>. In the last year, the Court, District Attorney, Public Defender and Probation have collaboratively worked to expand legal eligibility for Drug Court to reflect the types of offenses committed by individuals suffering from addiction; for example, expanding the types of property crimes that are eligible for the program.

**Targeted Drug Treatment for Underserved Populations (*In Custody*)**

The San Francisco Sheriff's Department (SFSD) provides substance use disorder treatment services through two in custody programs:

The SISTER program, serves women in the San Francisco County Jail with the goal of preventing relapse and recidivism by helping participants develop the tools needed to live healthy, lives free of substance misuse. Program activities include group and individual substance use counseling, and provides opportunities for women to continue treatment following release from jail.

Roads to Recovery educates men in custody about the recovery process while introducing the fundamental components of drug treatment. Roads offers classes and training in substance misuse, life skills, group and individual counseling, as well as specialized topics including parenting and conflict resolution.

The Care Coordinator position was created to facilitate treatment groups and individual counseling for persons in custody who are underserved by existing programs due to their housing location. The Care Coordinator will facilitate two weekly groups and provide individual counseling to transgender, gender variant, and non-binary persons housed at County Jail 2. In

---

<sup>5</sup> Ibid.

addition, the Care Coordinator will be able to provide women in restrictive housing with independent study work and reentry planning. The Care Coordinator utilizes the Living in Balance curriculum published by Hazelden Publishing. Completing the Living in Balance worksheets, exercises, and activities helps participants to build an understanding of substance use disorders in the context of their life experiences. The Core Program is made up of twelve unique sessions to help clients address life issues that are central to achieving successful recovery. In addition to the curriculum, staff working in the program will use motivation enhancement and cognitive-behavioral therapeutic approaches when working with participants.

**Intensive Probation Supervision** (*Post-Adjudication*)

San Francisco's Adult Probation Department (APD) has several specialized caseloads and often assigns targeted cases to probation officers across the department. Probationers with significant substance abuse can be challenging to supervise, often reoffend and/or continue to use which can lead to non-compliance with their term of probation. Assessing probationers and then assigning them to officers equipped to address their acute issues, allows for an effective officer-probationer dyad in which the assigned probation officer is able to supervise his or her clients, connect them to needed services, and support them in staying in compliance with their probationary terms.

Direct referrals of high-rate drug sellers for whom cases are pursued by SFPD and SFDA (as previously mentioned in the Focused Drug Deterrence Section) as well as Drug Court participants who are current probationers or who will have a term of probation if they refuse to participate or unsuccessfully terminate Drug Court, may fall under this probationer officer's caseload along with all other probationers deemed appropriate by APD.

**Reentry Social Work** (*Upon Reentry*)

As CCSF linkage to services and targeted arrest strategies like the LEAD SF and Focused Drug Deterrence strategies effectively mitigate drug and violence proliferation and the SFDA's Office establishes grounds on which to charge arrested individuals and the most appropriate venue (i.e. Drug Court) through which to prosecute them, there is a commensurate impact on the Public Defender's Office. The Public Defender's Office Reentry Unit provides the Office's adult indigent clients with an innovative blend of legal, social, and practical support through its social work and Clean Slate programs.

The Reentry Social Work services are a cornerstone of the holistic legal defense team approach employed by the Office of the Public Defender. The Reentry Social Workers work hand in hand with the Public Defender Attorneys in order to provide vigorous legal defense by addressing underlying and contributing social and behavioral health needs for their indigent clients. A large proportion of the clients in the Social Work program are facing drug-related charges. The Reentry Unit's Social Workers provide the high quality clinical work and advocacy these clients need, effectively placing hundreds of individuals in drug treatment, prevention and education, and other service programs each year with limited staff.

While client needs are varied and they gain access to an array of social services, an evaluation conducted in the Spring of 2009 showed that the Reentry Unit's Social Work Program largest proportion of clients sought and enrolled in housing and substance abuse treatment programs, medical services and vocational trainings. Through these connections to services and interventions with clients, Reentry Social Workers facilitate a more organized reentry of previously incarcerated people back into their communities and help keep reentering individuals focused on treatment plan program and services.

## **Strategy 2: Citywide Justice-Involved Youth Planning**

**Goals of Strategy 2:** Program area addressed is Planning, Evaluation, and Technology Improvement

1) To coordinate funded services and supports for community-based organizations serving youth and young adults in the juvenile and adult criminal justice system.

2) To continue implementing the Multi-Agency Local Action Plan: Strategies for San Francisco Juvenile Justice (LAP) direct service strategies through funding and support from DCYF's 2018-2023 RFP funding strategies. DCYF's Justice Services aims to prevent further youth engagement in the justice system and reduce rates of youth recidivism.

San Francisco continues to implement many of the policies and practices developed to improve citywide planning efforts directed towards justice-involved youth.

- 2017 – CCSF completed the Comprehensive Multi-Agency Local Action Plan: Strategies for San Francisco Juvenile Justice (LAP). The LAP guided DCYF in refining current funding streams and strategy areas that target system-involved youth and included strengthening partnerships between city agencies and funded community based programs.
- 2018 – DCYF released the Request for Funding Proposals (RFP) for the full portfolio including the Justice Services Service Area which continued to support many of the strategies funded in the 2011 RFP. Over 30 programs were funded to work with youth ages 10 to 24.

DCYF continue to monitor communities based organizations funded from the 2018 RFP as the funding cycle is from 2018-2023 and continue to implement recommendations from the LAP which included joint trainings with justice services professionals and community based

organizations. In May 2019, DCYF hosted the Young Adult Criminal Justice 101 Overview convening. The goal of the convening was to offer a presentation on the adult criminal justice system and included remarks from former District Attorney George Gascón and Sheriff Vicki Hennessy. There were 120 community based organization staff in attendance as well as numerous representatives from justice partner agencies. Simultaneously, DCYF will act as the program manager on all JAG grants and convene all partner departments as well as oversee federal reporting requirements.

❖ **CCSF 2020-21 JAG PARTNER ROLES AND ACTIVITIES**

**Strategy 1: Partner Roles and Activities for Continuum of Alternative Responses for Drug**

**Offenders:**

***Law Enforcement Assisted Diversion (LEAD SF) and Focused Drug Deterrence–  
San Francisco Police Department (SFPD)***

**SFPD** will divide their time, 297 hours, between a series of LEAD SF planning and implementation activities and Focused Drug Deterrence activities and operations. SFPD personnel assigned to the Field Operations Bureau and Investigations Bureau will execute their roles in these programs. After policy and practice planning is completed for LEAD SF with all justice-involved agencies, CCSF will roll out a pilot program in one of the hot zones from the zone strategy (discussed above). SFPD officers will be the first point of contact for low-level drug offenders and will determine if someone is appropriate and eligible to be diverted pre-arrest for LEAD SF. The assumption is that the majority of arrests that result from Focused Drug Deterrence operations, targeting high level dealers will be filed for prosecution by the SFDA's Office. The coordination of these agencies' resources and the diversion and targeted arrest efforts

of the police allow investigators to move efficiently up the distribution hierarchy and identify and arrest larger distributors. When arrests are made, SFPD sends a list of arrestees to all authorized partners to ensure communication and “flagging” of arrestees.

The SFPD Narcotics Division will be tasked with the administrative duties of the programs enforcement component. These duties include in part, record keeping of all LEAD SF contacts and diversions, all Focused Drug Deterrence arrests, date and number of operations, overtime days, hours and personnel worked, source document collection and retention, identification of assets seized with grant funds, data needed to complete the progress report forms and completion of progress report forms. If assets are seized in any contact, it will be reported. Assets will be reported to the Program Director who will make a determination of project expenditures.

**LEAD SF Activities** include but are not limited to:

1. Policy Coordinating group planning and implementation meetings with LEAD SF partners. Time devoted to the development of program eligibility criteria and referral process;
2. Training on Harm Reduction and LEAD SF Eligibility Criteria and Referral Process;
3. LEAD SF Operational Meetings with service providers, Department of Public Health and District Attorney’s Office; and
4. Officer time devoted to pilot program implementation.

**Focused Drug Deterrence** activities include but are not limited to:

1. Officer time devoted to ongoing, proactive identification and investigation of individuals involved in high-level drug markets;

2. Targeted enforcement of individuals identified and coordination of partner agency resources and arrest efforts with police which allow investigators to move efficiently up the distribution hierarchy and identify and arrest larger distributors;
3. Provide direct information to APD related to known/observed probationers' behaviors associated to sale and/or drug use;
4. Notify APD of arrests made during focused drug deterrence operations, including those of people already under probation supervision;
5. Respond to APD's request for support during special operations; and
6. Planning and implementation for call-in meeting policy and procedure for individuals identified as appropriate for this intervention by SFPD.

***Drug Court Prosecution – San Francisco District Attorney's Office (SFDA)***

SFDA will dedicate a 0.34 FTE Attorney, directed by the Head Managing Attorney of the

Commented [A(1)]: Double check so that it matches budget.

Collaborative Courts team to serve as the Drug Court prosecutor. The role of the District Attorney assigned to Drug Court includes but is not limited to the following:

1. Assessment of eligibility and suitability for felony and/or misdemeanor Drug Court, hereafter referred to simply as Drug Court;
2. Handle grant identified probation revocations in collaboration with the Drug Court Team;
3. Work closely with collaborative Drug Court team to ensure that suitable defendants are efficiently connected with Drug Court support and services;
4. Notify SFAPD of any probationer admitted to Drug Court or any participant in Drug Court who has been terminated from the program and carries a term of probation; and
5. Community education and community-based problem solving through regular participation at community meetings in target neighborhoods.

***Targeted Drug Treatment for Underserved Population – San Francisco Sheriff's Department (SFSD)***

SFSD will expand its in-custody substance abuse services to reach an underserved high risk population by:

1. Partially dedicating a 0.25 FTE **SA Care Coordinator** to provide treatment groups in custody at County Jail #4 and post release at the Community Programs site who will:
  - Complete intake assessments for clients referred by SFSD Rehabilitation Service Coordinators and/or Jail Behavioral Health and approved by SFSD Classification for group participation;
  - Conduct a minimum of six hours per week of group time using Living in Balance curriculum; and
  - Refer group participants to SFSD intensive case management for post-release support and transitional housing;
2. Partially dedicating a 0.01 FTE **Transitional Age Youth Services Manager** to provide clinical oversight over all Care Coordinator activities who will
  - Oversee recruitment and assessment for clients;
  - Meet with Facility Commander to determine logistics;
  - Work with SFSD staff to determine group capacity and prioritization method; and
  - Provide information to all “General Population” inmates who are eligible to participate, describe the groups and recruit volunteers.
3. Engaging staff in professional development and training to better support this population of individuals in custody.

Staff working in the program will use motivation enhancement and cognitive-behavioral therapeutic approaches when working with participants:

Motivational Enhancement Therapy or MET is a counseling approach that helps participants resolve their ambivalence about engaging in treatment and quitting their drug use. This approach, which is based on a technique called motivational interviewing, typically includes an initial assessment of the participant's motivation to participate in treatment, followed by interactions designed to help the participant develop a desire to engage in treatment by providing non-confrontational feedback. Being empathic yet directive, the therapist discusses the need for treatment and tries to elicit self-motivational statements from the participant to strengthen his or her motivation and build a plan for change.

Cognitive-Behavioral Therapy or CBT, strategies are based on the theory that learning processes play a critical role in the development of problem behaviors like drug abuse. A core element of CBT is teaching participants how to anticipate problems and helping them develop effective coping strategies. In CBT, participants explore the positive and negative consequences of using drugs. They learn to monitor their feelings and thoughts and recognize distorted thinking patterns and cues that trigger their substance abuse; identify and anticipate high-risk situations; and apply an array of self-control skills, including emotional regulation and anger management, practical problem solving, and substance refusal.

***Intensive Probation Supervision –Adult Probation Department (APD)***

**APD** will dedicate a 0.38 FTE **Probation Officer** time to exclusively handle cases resulting from Focused Drug Deterrence operations and/or Drug Court, when the participant is terminated unsuccessfully from Drug Court. The Probation Officer will file “Motions to Revoke” (MTRs) upon violations of probation, primarily new arrests. Additionally, the Probation Officer will

closely monitor compliance with the terms of probation by conducting field and address visits, actively enforcing stay away orders, conducting warrantless searches, and utilizing licensed community-based treatment services. Caseload ratios will be 1 to 60. The Probation Officer will primarily operate in the community. Immediate access to a range of treatment services provides individuals with the supervision and treatment referrals they need to extricate themselves from their addiction.

APD Intensive Supervision activities will include:

1. Receive notification from SFDA of any probationers refusing to participate in Drug Court, as well as any participant in Drug Court who is terminated unsuccessfully and will likely be granted probation;
2. Receive direct information from Focused Drug Deterrence police officers including SFPD officers in District Stations related to known/observed probationers' behaviors associated with and/or drug use;
3. Receive notification from SFPD related to Focused Drug Deterrence operations regarding probationers actively involved in narcotics activities in the targeted neighborhoods;
4. Interview, assess, and inform each probationer of treatment modalities;
5. Refer each probationer to a substance abuse treatment program when appropriate;
6. Upon re-offense, increase legal sanctions and treatment interventions or if necessary pursue probation revocation proceedings;
7. Conduct probation supervision activities to ensure compliance of probation terms; and
8. Request support of SFPD when necessary during special operations; and
9. Engage in professional development and training around supporting this population of probationers.

***Reentry Social Work – San Francisco Public Defender’s Office***

Reentry Social Workers facilitate a more organized reentry of previously incarcerated people back into their communities and help keep reentering individuals focused on treatment plan program and services. The Reentry Social Workers have extensive knowledge of San Francisco social services and treatment networks as well as deep relationships with the social services staff and directors to which they connect their clients. The Reentry Unit’s ultimate goal is to decrease sentence length and severity of sentencing location (from state prison to jail to program placement) by providing alternatives to incarceration that promise better client, family, and community outcomes through decreased recidivism and healthier reentry into defendants’ communities.

The 0.36 FTE **Reentry Social Worker** activities include but are not limited to:

1. Reviewing client referrals from Deputy Public Defenders. Clients are prioritized if a) they are charged with a felony and b) their probable sentence may likely include state prison time which could be avoided by placement into a treatment program or other alternative to incarceration.
2. Partnering with Deputy Public Defender to critically evaluate the best legal course of action for an indigent client.
3. Conducting a client assessment within 5 days of being assigned the case.
4. Administering a psychosocial assessment tool adapted to Reentry Social Worker’s unique needs, incorporating aspects of instruments that local treatment providers use to ensure accuracy and consistency when making referrals to these local partners.
5. Creating a comprehensive reentry plan if the client is determined appropriate for social services and alternatives to likely incarceration.

6. Solidifying linkages with community-based education, employment, and mental health services detailed in the client's treatment plan.

### **Strategy 2: Partner Roles and Activities for Citywide Justice System-Involved Youth**

#### **Planning:**

CCSF will use a portion of 2020 JAG funds to support a 0.30 FTE **Community Development Specialist** in DCYF to coordinate funded services and supports for community-based organizations serving youth and young adults in the juvenile and adult criminal justice system. DCYF will oversee the RFP process of DCYF Justice Service proposals and make funding recommendations which with the goal of strengthening partnerships between community-based agencies and criminal justice partners. The Analyst will also oversee the implementation of the LAP strategies and implementation. The **JAG Program Manager** (0.25 FTE) will monitor all JAG activities and convene partner departments as well as oversee federal reporting requirements. The **JAG Fiscal Analyst** (Admin 0.10 FTE) will monitor fiscal compliance, submit federally required fiscal reports and process all grant related financial transitions in the CCSF's financial management system.

DCYF's Citywide Planning efforts and activities include but are not limited to:

1. Coordinating funded services and supports for community-based organizations serving youth and young adults in the juvenile and adult criminal justice system; and
2. Overseeing implementation of the Multi-Agency Local Action Plan: Strategies for San Francisco Juvenile Justice (LAP) direct service strategies through funding and support from DCYF's 2018-2023 RFP 5 funding strategies. DCYF's Justice Services will aim to prevent further youth engagement in the justice system and reduce rates of youth recidivism.

## CCSF 2020-21 JAG GOALS, OBJECTIVES, AND OUTCOMES

### Strategy 1: Continuum of Alternative Responses to Drug Offenses

**Goal 1:** To reduce incarceration and recidivism and increase public safety by ensuring that there are a continuum of alternative responses throughout the criminal justice system process (pre-arrest through reentry) to address the needs of people with substantial substance abuse issues through a coordinated multidisciplinary partnership between San Francisco's law enforcement, criminal justice, and substance abuse treatment agencies.

**Objective 1:** SFPD will plan and implement LEAD SF diversion program activities for eligible low-level drug offenders in target area.

#### **Outcomes:**

- Policy and practice memorialized for LEAD SF activities including eligibility criteria and process for referrals.
- At least 100 individuals will be assessed for eligibility for LEAD SF participation.

**Objective 2:** SFDA will ensure appropriate defendants are referred to Drug Court and collaborate with JAG innovation grant partners to ensure consistent charging and handling of narcotics cases (possession, possession-for-sale, and sale) and other eligible cases involving individuals with substance abuse treatment needs.

#### **Outcomes:**

- 100% of people will have a thorough individualized eligibility and suitability review.
- SFDA's office will participate in monthly collaborative Drug Court meetings to troubleshoot issues and strategize on how to continue to strengthen Drug Court operation and successes.

- SFDA's Office will report the number of participants that are referred to Drug Court during the reporting period.
- SFDA's Office will report the number of participants that successfully complete Drug Court during the reporting period.

**Objective 3:** SFSD will recruit and complete intake assessments for inmates interested in substance abuse treatment services who are ineligible to participate in other programming due to classification reasons, and will refer participants to SFSD treatment groups and other post-release services including intensive case management and transitional housing.

**Outcomes:**

- 100% of interested and eligible inmates will be offered an intake assessment and access to the treatment groups.
- 100% of group participants will be referred to SFSD post-release services.

**Objective 4:** APD will refer clients in appropriate treatment programs, have contact with probationers in the community, and coordinate with other JAG partners.

**Outcomes:**

- A Deputy Probation Officer (0.38 FTE) will interview, assess and refer probationers (those arrested through Focused Drug Deterrence activities and other probationers deemed appropriate for this caseload) to treatment programs when appropriate;
- 24 attempt visits per month will be conducted by the Probation Office either to the probationers' homes or to the assigned treatment program;
- At least once per month, more often as needed, APD will contact the SFDA's Office regarding all probationers, especially those involved with Drug Court.

**Objective 5:** To reduce re-incarceration and recidivism amongst clients within the Reentry Social Work program by addressing their social and behavioral needs, and efficiently connecting reentry clients to stabilizing support services including housing, substance abuse treatment, mental health, employment and education.

**Objective 5a:** Ensure critical evaluation and assessment of clients to determine appropriateness for Social Work services, and complete comprehensive intakes to determine legal advocacy and reentry needs.

**Outcomes:**

- 100% of referrals will be discussed with the Deputy Public Defender.
- 100% of eligible clients will receive an intake within 5 days, unless there is a valid reason for the assessment to be delayed.
- 100% of clients will exit jail or court sentencing with a pragmatic reentry treatment plan.

**Objective 5b:** Contingent on space availability, clients will enroll in mental/behavioral health, medical, housing and/or treatment services, education or employment services upon release.

**Outcomes:**

- 100% of clients will receive a direct referral from the Social Worker to the essential services.
- 65% of all clients will enroll in essential services, contingent on space availability.

**Goal 2:** To reduce the narcotic trade and associated violence in affected San Francisco neighborhoods through focused and proactive law enforcement, prosecution and probation efforts.

**Objective 1:** SFPD will plan and implement Focused Drug Deterrence activities and operations targeting high-level market drug sellers throughout the city.

**Outcomes:**

- Policy and practice memorialized for Focused Drug Deterrence call-in process.
- Total of 10 Focused Drug Deterrence operations will take place.
- Total of 10 individuals will be arrested as a result of Focused Drug Deterrence operations in the targeted zones.
- 100% (10 cases) of cases will include communication between SFPD and APD on arrestee information and status.

**Objective 2:** APD will analyze, track and classify every person.

**Outcomes:**

- 10 police reports from the Focused Drug Deterrence operations will be evaluated by APD.
- One intensive probation supervision caseload with up to 60 clients will be supervised by APD.

**Strategy 2: Citywide Justice System-Involved Youth Planning:**

**Goal 1:** To coordinate funded services and supports for community-based organizations serving youth and young adults in the juvenile and adult criminal justice system.

**Objective 1:** DCYF will leverage existing partnerships with community-based agencies that work with justice partner agencies to help strengthen and align efforts in order to create a continuum of supports for young adults impacted by drug abuse, addiction and homicide.

**Outcomes:**

- Facilitate coordination meetings with service providers and criminal justice partners.
- Create a Juvenile Probation Certification process for service providers to strengthen service providers and criminal justice partnerships, collaboration and communication.

**Goal 2:** To implement the LAP direct service strategies through funding and support from DCYF's 2018-2023 RFP Justice Services Area funding strategies.

**Objective 2:** DCYF will support the implementation of the 5-year RFP Justice Service (July 2018 – June 2023) in the following service strategies: Cultural Programming; Detention Based Services; Girls' and Young Women's Programming; Multi-Service; and Young Adult Court Case Management.

**Outcome:**

- DCYF will monitor the service provider grants, implement the LAP strategies that directly align with the RFP that address findings of the LAP and support community based agency services and coordination along with adult justice partners.

❖ **CCSF JAG DATA TRACKING AND DOCUMENTATION**

SFPD maintains an effective protocol for tracking individuals contacted and/or apprehended through all JAG activities. All JAG partners maintain open lines of communication to evaluate criminal history, current charges and department specific perspective on case matters. This level of coordination creates a variety of individual and system benefits and efficiencies – any SFPD arrests that result in detention receive information from SFSD regarding community-based drug treatment and other support services – this information is valuable to an individual whose case results in release and/or probation. While the Public Defender’s Reentry Social Work services are not inextricably woven into this process, any defendant who is custody and/or system involved and struggling with substance abuse may also benefit through the advocacy, community-based support and prevention and education provided by the Social Worker.

All JAG partners maintain internal electronic and hardcopy tracking procedures to measure progress towards JAG goals and maintain department specific records needed to regularly report on required JAG performance measures.

The Public Defender’s Office Reentry Unit, Social Work component will maintain department specific tracking protocols to measure the success of individuals served through social work interventions, and data required for reporting on performance measures. DCYF will provide narrative documentation of the Violence Prevention Planning Analyst’s progress towards the implementation of the planning efforts to strengthen partnerships and collaborations, as well as progress towards the VPI/System-Involved Youth Refinement and new RFP.

**❖ CCSF JAG COORDINATION**

The 2020 JAG funds will be administered by DCYF. CCSF has successfully overseen federal and state JAG funds for over a decade, and will continue to deliver on JAG activities

under the administration of DCYF. The JAG Program Manager will lead CCSF's coordination of JAG partners and project activities. DCYF continues to convene the partners to discuss implementation of JAG-funded strategies, meeting schedules and review reporting protocols. The JAG Steering Committee also convenes to make recommendations for citywide planning that includes making future JAG applications reflective of innovative programming that the City is leading including specialized programs, innovative programs and a range of violence reduction strategies.

❖ **CLOSING**

These JAG funds provide CCSF criminal justice partners an opportunity to strengthen collaboration and to think critically about how we conduct our public safety business. To that end, CCSF looks forward to using 2020 JAG funds to adopt this innovative and comprehensive continuum of alternative responses with a harm reduction, recovery-centered approach for appropriate low-level drug offenders not only to keep them from a cycle of incarceration and improve their lives but to also move us towards reaching holistic violence and crime reduction goals to improve quality of life for all San Franciscans.

**Acronym Table**

<b>Acronym</b>	<b>Term</b>
LEAD SF	Law Enforcement Assisted Diversion San Francisco (CCSF Diversion Program)
APD	Adult Probation Department
CCSF	City and County of San Francisco
DCYF	The Department of Children Youth and Their Families

JPD	Juvenile Probation Department
LAP	City and County of San Francisco's Comprehensive Multi-agency Local Action Plan: Strategies for San Francisco Juvenile Justice
LEAD	Law Enforcement Assisted Diversion (Seattle Diversion Program)
MAG	Mission Analytics Group
MTRs	Motions to Revoke Probations
PD	San Francisco Public Defender
R-NET	CCSF's Rotating Narcotic Enforcement Team
SFPD	San Francisco Police Department
SFDA	San Francisco District Attorney
SFSD	San Francisco Sheriff's Department
SFUSD	San Francisco Unified School District
SVRI	Street Violence Reduction Initiative
VPI	Violence Prevention and Intervention

# Budget Detail - Year 1

Does this budget contain conference costs which is defined broadly to include meetings, retreats, seminars, symposia, and training activities? - Y/N  
(DOJ Financial Guide, Section 3.10)

<b>Total(s)</b>					<b>\$10,198</b>	<b>\$0</b>	<b>\$10,198</b>
<b>Narrative</b>							
<p>POL - The Federal Bureau of Investigation's (FBI) Uniform Crime Reporting (UCR) Program is transitioning the standard being used from the traditional Summary Reporting System (SRS) standard to the National Incident-Based Reporting System (NIBRS). Crime information reported using the SRS standard is organized using a hierarchical rule, wherein only the most severe offense within an incident is reported, even if multiple offenses are tied to the same incident. The newer NIBRS standard collects information using an incident-based approach and reports all offenses involved in a particular incident. Local jurisdictions will contribute data to NIBRS through their designated state repository. The State of California is currently finalizing its California Incident Based Reporting System (CIBRS) UCR standards. Funds from the Justice Assistant Grant will be used to help SFPD partial pay for a contractor to perform a needs assessment and analysis of its current systems and capabilities to assist in the transition to becoming NIBRS accredited.</p>

**Attachment 1: INTERGOVERNMENTAL REVIEW**

---

**GOVERNING BODY REVIEW**

The City and County of San Francisco (CCSF) is a dual jurisdiction governed by the Mayor and the Board of Supervisors. The CCSF will make the grant application available for review by the next upcoming governing body meeting. This item will appear on the Board of Supervisor's agenda. An opportunity to comment will be made available to citizens at that time.

Documentation of this review and comments, if made, will be kept on site for audit purposes throughout the duration of the grant award.

**PUBLIC COMMENT**

Notice for Public comment was made available throughout the San Francisco Public Library System and Department of Children Youth and Their Families website. The following language was posted:

**PUBLIC NOTICE OF AVAILABILITY OF FUNDS**

*On July 9, 2020, the Department of Children Youth and Their Families of the City and County of San Francisco issued a notice of intent to apply for the Edward Byrne Memorial Justice Assistance Grant (JAG) Program FY2020 Local Formula Solicitation. The JAG Program (34 U.S.C. 10151-10158) is the primary provider of federal criminal justice funding to state and local jurisdictions. JAG funds support all components of the criminal justice system, from multijurisdictional drug and gang task forces to crime prevention and domestic violence programs, courts, corrections, treatment and justice information sharing initiatives. The due date for applying for funds under this announcement is August 19, 2020. However, those interested in commenting on this funding opportunity are required to respond by close of business on August 14, 2020.*

*The Solicitation and Fund Guidelines will be available for down load at:*

Re: **Attachment 2: Disclosure of High-Risk Status for Edward Byrne Memorial Justice Assistance Grant FY 2020**

---

This is to confirm that the Department of Children, Youth and Their Families is not currently on High Risk Status.

**Applicant: City and County of San Francisco  
Department of Children, Youth and Their Families  
Title: The CCSF's Continuum of Alternative Responses to Drug Offenses  
Attachment 5: RESERVATION OF RIGHTS LETTER**

---

The City and County of San Francisco ("San Francisco"), through its Department of Children, Youth & Their Families ("San Francisco DCYF"), submits this supplement to its application for the 2020 Edward Byrne Memorial Justice Assistance Grant Program ("Byrne JAG program") regarding certain of the U.S. Department of Justice's ("DOJ") requirements associated with that grant. San Francisco DCYF intends that this supplement be part of its Byrne JAG application.

In the solicitation to local governments for FY 2020 Byrne JAG funding, DOJ has stated that units of local government must submit a certification from the chief executive of the applicant unit of local government, entitled the "Certifications and Assurances by Chief Executive of Applicant Government." (Byrne JAG FY 2020 Local Solicitation at 7 (hereafter "Chief Executive Certification").) The Chief Executive Certification appears to require the chief executive to certify, among other things, that he or she has reviewed 34 U.S.C. § 10153(a)(5), and to confirm that the unit of local government complies with that provision. The solicitation further states that local jurisdictions must provide answers to questions related to 8 U.S.C. § 1373 in an attachment titled "Information regarding Communication with the Department of Homeland Security (DHS) and/or Immigration and Customs Enforcement (ICE)." (Local Solicitation at 12 (hereafter "Section 1373 Attachment").).

San Francisco DCYF is submitting this application without executing the Chief Executive Certification and without completing the Section 1373 Attachment, for the following reasons:

With regard to the Chief Executive Certification, DOJ makes clear that applicants for FY 2020 Byrne JAG funds do not need to complete the Chief Executive Certification at this time. Rather, DOJ has stated that “a unit of local government will not be able to access award funds” until it submits the Chief Executive Certification. (Local Solicitation at 7.) Further, DOJ has represented that it will not deny an application for a FY 2020 Byrne JAG award for failure to submit the Chief Executive Certification by the application deadline. (*Id.*) Instead, DOJ states that a unit of local government will not be able to access award funds until it submits that document. (*Id.* at 21.) Consistent with this representation, San Francisco DCYF will not submit the Chief Executive Certification at this time.

With respect to the Section 1373 Attachment, DOJ may not require San Francisco DCYF to complete the Section 1373 Attachment. In litigation brought by San Francisco, a federal district court has enjoined DOJ from using 8 U.S.C. § 1373 as a basis for withholding Byrne JAG grant funds. See Order Granting Pltf.’s Mot. for Summ. Judgment, *City and County of San Francisco v. Sessions*, N.D. Cal. No. 18-cv-05146, Dkt. No. 60 at 7-8, 17-19, *appeal docketed* 9th Cir. No. 19-15947 (May 3, 2019). Specifically, that court held that 8 U.S.C. § 1373 is unconstitutional, and enjoined DOJ from “[e]nforcing 8 U.S.C. § 1373’s statutory obligations against any California state entity or political subdivision.” *Id.* at 2. San Francisco is a party to the litigation and a political subdivision of California. Furthermore, that same court has held that San Francisco’s immigration-related laws and policies comply with 8 U.S.C. § 1373, and has enjoined DOJ from “denying or clawing back San Francisco Byrne JAG funding on the basis of alleged non-compliance with Section 1373.” See Judgment and Order, *City and County of San Francisco v. Sessions*, N.D. Cal. No. 17-cv-04642, Dkt. No. 146 at 1-2. The Ninth Circuit

recently upheld the district court’s decision on this topic, and stated that “8 U.S.C. § 1373 cannot be cited” as a basis for withholding Byrne JAG funding from San Francisco. *See* Opinion, *City and County of San Francisco v. Barr*, 9th Cir. No. 18-17308, at 9 (July 13, 2020); *see also id.* at 22 (“We uphold the injunction barring DOJ from withholding or denying Byrne funds to [San Francisco] based on the assertion that [its] laws violate 8 U.S.C. § 1373 . . . .”). Those court orders remain in effect and prohibit DOJ from requiring San Francisco DCYF to complete the Section 1373 Attachment.

San Francisco reserves its right to pursue any further legal action, including litigation, to challenge any award conditions, requirements, and/or certifications imposed on its FY 2020 Byrne JAG award, or used as a basis for denying its FY 2020 Byrne JAG application.

**Applicant: City and County of San Francisco**  
**Department of Children, Youth and Their Families**  
**Title: The CCSF's Continuum of Alternative Responses to Drug Offenses**  
**Attachment 4: APPLICANT DISCLOSURE OF PENDING APPLICATIONS**

The City and County of San Francisco does not have pending applications for federally funded assistance that includes requests for funding to support the same project being proposed under this solicitation and would cover the identical cost items outlines in the budget narrative and worksheet in the application under this solicitation.

# DISCLOSURE OF LOBBYING ACTIVITIES

<b>Federal Use Only:</b>		Authorized for Local Reproduction Standard Form LLL (Rev. 7-97)

## INSTRUCTIONS FOR COMPLETION OF SF-LLL, DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, State and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subaward recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee," then enter the full name, address, city, State and zip code of the prime Federal recipient. Include Congressional District, if known.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-90-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, State and zip code of the lobbying registrant under the Lobbying Disclosure Act of 1995 engaged by the reporting entity identified in item 4 to influence the covered Federal action.  
  
(b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a). Enter Last Name, First Name, and Middle Initial (MI).
11. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB control number for this information collection is OMB No. 0348-0046. Public reporting burden for this collection of information is estimated to average 10 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0046), Washington, DC 20503.

## Edward Byrne Memorial Justice Assistance Grant (JAG) Program Fiscal Year 2020 Local Formula Solicitation

CFDA #16.738

**Solicitation Release Date: July 9, 2020**

**Application Deadline: 11:59 p.m. eastern time on August 19, 2020**

The [U.S. Department of Justice](#) (DOJ), [Office of Justice Programs](#) (OJP), [Bureau of Justice Assistance](#) (BJA) is seeking applications for the Edward Byrne Memorial Justice Assistance Grant (JAG) Program. This program furthers the Department's mission by assisting state, local, and tribal law enforcement efforts to prevent or reduce crime and violence.

This solicitation incorporates the [OJP Grant Application Resource Guide](#) by reference. The OJP Grant Application Resource Guide provides guidance to applicants on how to prepare and submit applications for funding to OJP. **If this solicitation expressly modifies any provision in the OJP Grant Application Resource Guide, the applicant is to follow the guidelines in this solicitation as to that provision.**

This solicitation expressly modifies the OJP Grant Application Resource Guide by not incorporating the "Limitation on Use of Award Funds for Employee Compensation; Waiver" provision in the "Financial Information" section of the OJP Grant Application Resource Guide.

### Eligibility

The following entities are eligible to apply:

- Units of local government

By law, for purposes of the JAG Program, the term "units of local government" includes a town, township, village, parish, city, county, borough, or other general purpose political subdivision of a state; or, it may be a federally recognized Indian tribal government that performs law enforcement functions (as determined by the Secretary of the Interior). A unit of local government also may be any law enforcement district or judicial enforcement district established under applicable state law with authority to independently establish a budget and impose taxes; for example, in Louisiana, a unit of local government means a district attorney or parish sheriff.

Eligible allocations under JAG are posted annually on the [JAG web page](#). See the allocation determination and Units of Local Government requirements section for more information.

**Applicants with eligible allocation amounts of less than \$25,000 will apply to Category 1,**

**and applicants with eligible allocation amounts of \$25,000 or more will apply to Category 2.**

All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee.

### **Contact Information**

For technical assistance with submitting an application, contact the Grants Management System (GMS) Support Hotline at 888-549-9901, option 3, or via email at [GMS.HelpDesk@usdoj.gov](mailto:GMS.HelpDesk@usdoj.gov). The GMS Support Hotline operates 24 hours a day, 7 days a week, including on federal holidays.

An applicant that experiences unforeseen GMS technical issues beyond its control that prevent it from submitting its application by the deadline must email the National Criminal Justice Reference Service (NCJRS) Response Center at [grants@ncjrs.gov](mailto:grants@ncjrs.gov) **within 24 hours after the application deadline** in order to request approval to submit its application after the deadline. For information on reporting technical issues, see “Experiencing Unforeseen GMS Technical Issues” under **How to Apply (GMS)** in the [OJP Grant Application Resource Guide](#).

For assistance with any other requirement of this solicitation, applicants may contact the NCJRS Response Center by telephone at 1-800-851-3420; via TTY at 301-240-6310 (hearing impaired only); by email at [grants@ncjrs.gov](mailto:grants@ncjrs.gov); by fax to 301-240-5830, or by web chat at <https://webcontact.ncjrs.gov/ncjchat/chat.jsp>. The NCJRS Response Center hours of operation are 10:00 a.m. to 6:00 p.m. eastern time, Monday through Friday, and 10:00 a.m. to 8:00 p.m. eastern time on the solicitation close date. Applicants also may contact the appropriate BJA [State Policy Advisor](#).

### **Deadline details**

Applicants must register in the OJP Grants Management System (GMS) at <https://grants.ojp.usdoj.gov/> prior to submitting an application under this solicitation. All applicants must register, even those that previously registered in GMS. Select the “Apply Online” button associated with the solicitation title. All registrations and applications are due by 11:59 p.m. eastern time August 19, 2020.

For additional information, see the “**How to Apply (GMS)**” section in the [OJP Grant Application Resource Guide](#).

# Edward Byrne Memorial Justice Assistance Grant (JAG) Program FY 2020 Local Solicitation CFDA #16.738

## A. Program Description

### Overview

The Edward Byrne Memorial Justice Assistance Grant (JAG) Program is the primary provider of federal criminal justice funding to states and units of local government. BJA will award JAG Program funds to eligible units of local government as described in this FY 2020 JAG Program Local Solicitation (BJA will issue a separate solicitation for states).

### Statutory Authority:

The JAG Program is authorized by Title I of Pub. L. No. 90-351 (generally codified at 34 U.S.C. 10151-10726), including subpart 1 of part E (codified at 34 U.S.C. 10151 - 10158); see also 28 U.S.C. 530C(a).

### Program-specific Information

#### Permissible uses of JAG Funds

In general, JAG funds awarded to a unit of local government under this FY 2020 solicitation may be used to provide additional personnel, equipment, supplies, contractual support, training, technical assistance, and information systems for **criminal justice**, including any one or more of the following:

- Law enforcement programs
- Prosecution and court programs
- Prevention and education programs
- Corrections and community corrections programs
- Drug treatment and enforcement programs
- Planning, evaluation, and technology improvement programs
- Crime victim and witness programs (other than compensation)
- Mental health programs and related law enforcement and corrections programs, including behavioral programs and crisis intervention teams

Additionally, JAG funds awarded to a unit of local government under this FY 2020 solicitation may be used to enforce state and local laws that establish offenses similar to offenses established in 21 U.S.C. § 801 *et seq.* and/or to improve the functioning of the **criminal justice** system, with emphasis on violent crime and serious offenders, by providing additional personnel, equipment, training, technical assistance, and information systems for the more widespread apprehension, prosecution, adjudication, detention, and rehabilitation of persons who violate these laws and to assist the victims of such crimes (other than compensation). Additional details can be found on the [JAG Resource Page](#).

Note that the statute defines “criminal justice” as “activities pertaining to crime prevention, control, or reduction, or the enforcement of the criminal law, including, but not limited to, police efforts to prevent, control, or reduce crime or to apprehend criminals, including juveniles, activities of courts having criminal jurisdiction, and related agencies (including but not limited to prosecutorial and defender services, juvenile delinquency agencies and pretrial service or release agencies), activities of corrections, probation, or parole authorities and related agencies assisting in the rehabilitation, supervision, and care of criminal offenders, and programs relating to the prevention, control, or reduction of narcotic addiction and juvenile delinquency.”

### **BJA Areas of Emphasis**

BJA recognizes that many state and local criminal justice systems currently face challenging fiscal environments and that an important, cost-effective way to relieve those pressures is to share or leverage resources through cooperation among federal, state, and local law enforcement. BJA intends to focus much of its work on addressing violent crime, enforcing firearms laws, officer safety and wellness, safe policing for safe communities, and fentanyl detection. BJA encourages each recipient of a FY 2020 JAG award to join federal law enforcement agencies across the board in addressing these challenges. Additional details on the BJA areas of emphasis can be found on the [JAG Resource Page](#).

### **Limitations on the Use of JAG Funds**

Prohibited uses of funds – JAG funds may not be used (whether directly or indirectly) for any purpose prohibited by federal statute or regulation, including those purposes specifically prohibited by the JAG Program statute as set out in [34 U.S.C. § 10152](#).

JAG funds may not be used (directly or indirectly) for security enhancements or equipment for nongovernmental entities not engaged in criminal justice or public safety. Additionally, JAG funds may not be used (directly or indirectly) to pay for any of the following items unless the BJA Director certifies that extraordinary and exigent circumstances exist making them essential to the maintenance of public safety and good order:

- Vehicles, vessels, or aircraft\*
- Luxury items
- Real estate
- Construction projects (other than penal or correctional institutions)
- Any similar matters

\*Police cruisers, police boats, and police helicopters are allowable vehicles under JAG and do not require BJA certification.

For a list of prohibited expenditures under JAG and information about requesting BJA certification for a prohibited item (including unmanned aircraft, unmanned aerial vehicles, and/or unmanned aerial systems purchases) or for examples of allowable vehicles that do not require BJA certification, refer to the JAG Prohibited Guidance section of the [JAG Resource Page](#) or the [JAG FAQs](#).

Cap on use of JAG award funds for administrative costs – Up to 10 percent of a JAG award, including up to 10 percent of any earned interest, may be used for costs associated with administering the award, which can include indirect costs.

Prohibition of supplanting; prohibition on use of JAG funds as match – JAG funds may not be used to supplant state or local funds but must be used to increase the amounts of such funds that would, in the absence of federal funds, be made available. See the [JAG FAQs](#) for examples of supplanting.

Although supplanting is prohibited, the leveraging of federal funding is encouraged.

Absent specific federal statutory authority to do so, JAG award funds may not be used as a match for other federal awards.

Other restrictions on use of JAG funds that require compliance, certification, and/or prior approval – If a unit of local government chooses to use its FY 2020 JAG funds for particular, defined types of expenditures, it must satisfy certain preconditions. Examples of items that require compliance, certification, and/or prior approval by BJA before purchase include: body-worn cameras, body armor, interoperable communications, DNA testing of evidentiary materials, uploading DNA profiles to a database, and entry of records into state repositories. Additional information, including the process to obtain prior approval and as well as a body armor and/or body-worn camera certification form, can be found on the [JAG Resource Page](#).

### **Allocation determination and Units of Local Government requirements regarding use of JAG funds**

Eligible allocations under JAG are posted annually on the [JAG web page](#). Award allocations are determined by a four-step statutory formula. Additional information can be found on the [JAG Resource Page](#) or the [JAG Technical Report](#).

According to the JAG program statute, a “disparity” may exist between the funding eligibility of a county and its associated municipalities. See 34 U.S.C. § 10156(d)(4). Units of local government identified by BJA as disparate must select a fiscal agent that will submit a joint application for the allocation to include all disparate municipalities. A memorandum of understanding (MOU) that identifies which jurisdiction will serve as the applicant or fiscal agent for joint funds must be completed and signed by the authorized representative for each participating jurisdiction. Once an award is made, the fiscal agent will be responsible for distributing award funds to the other jurisdictions in the disparate group through subawards that include all appropriate award conditions. To verify eligibility on the [JAG web page](#), an applicant should click on its respective state and note the following regarding the state’s allocation table:

- (1) Disparate units of local government are listed in shaded groups, in alphabetic order by county. Units of local government identified as disparate must select one unit of local government to submit an application on behalf of the disparate group.
- (2) Counties that have an asterisk (\*) under the “Direct Allocation” column did not submit the level of violent crime data to qualify for a direct award from BJA, but are in the disparate grouping indicated by the shaded area. The JAG legislation requires these counties to remain a partner with the local jurisdictions receiving funds and must be a signatory on the required MOU; and
- (3) Direct allocations are listed alphabetically below the shaded, disparate groupings.

**Please note that disparate jurisdictions do not need to abide by the listed individual allocations, which are provided for information only. Jurisdictions in a funding disparity are**

**responsible for determining individual amounts within the Eligible Joint Allocation and for documenting individual allocations in the MOU.**

A unit of local government that applies for and receives a FY 2020 JAG award **must note the following:**

- Trust Fund – Units of local government may draw down JAG funds either in advance or on a reimbursement basis. To draw down in advance, a trust fund must be established in which to deposit the funds. The trust fund **must** be in an interest-bearing account, unless one of the exceptions in 2 C.F.R. § 200.305(b)(8) apply. If subrecipients draw down JAG funds in advance, they also must establish a trust fund in which to deposit the funds. For additional information, see [2 C.F.R. § 200.305](#).
- Certifications and Assurances by the Chief Executive of the Applicant Government (which incorporates the 30-day governing body review requirement) – A JAG application is not complete, and a unit of local government may not access award funds, unless the chief executive of the applicant unit of local government (e.g., the mayor) properly executes, and the submits, the “Certifications and Assurances by the Chief Executive of the Applicant Government.” The most up-to-date version of this certification can be found at <https://bja.ojp.gov/sites/g/files/xyckuh186/files/media/document/fy-20-local-jag-ce-certification.pdf>.

Please note that this certification takes the place of the review narrative attachment and contains assurances that the governing body notification and public comment requirements, which are required under the JAG statute (at 34 U.S.C. § 10153(a)(2)), have been satisfied.

OJP will not deny an application for a FY 2020 award for failure to submit these “Certifications and Assurances by the Chief Executive of the Applicant Government” by the application deadline, but a unit of local government will not be able to access award funds (and its award will include a condition that withholds funds) until it submits these certifications and assurances, properly executed by the chief executive of the unit of local government (e.g., the mayor).

- National Incident-Based Reporting System (NIBRS) 3 Percent Set-aside – In preparation for the FBI’s 2021 NIBRS compliance deadline, BJA requires, through the application of a special condition, JAG award recipients not certified by the FBI as NIBRS compliant to dedicate 3 percent of their JAG award toward achieving full compliance with the FBI’s NIBRS data submission requirements under the Uniform Crime Reporting Program. Additional information can be found on the [JAG Resource Page](#).

**Required compliance with applicable federal laws**

All applicants should understand that OJP awards, including certifications provided in connection with such awards, are subject to review by DOJ, including by OJP and by the DOJ Office of the Inspector General. Applicants also should understand that a materially false, fictitious, or fraudulent statement (or concealment or omission of a material fact) in a certification submitted to OJP in support of an application may be the subject of criminal prosecution, and also may result in civil penalties and administrative remedies for false claims or otherwise. Administrative remedies that may be available to OJP with respect to a FY 2020

award include suspension or termination of the award, placement on the DOJ high-risk grantee list, disallowance of costs, and suspension or debarment of the recipient.

### **Objectives**

In general, the FY 2020 JAG Program is designed to provide additional personnel, equipment, supplies, contractual support, training, technical assistance, and information systems for criminal justice. Although the JAG Program provides assistance directly to states, through pass-through (and similar) requirements, the JAG Program also is designed to assist units of local government with respect to their criminal justice needs.

As discussed in more detail in the [General Information about Post-federal Award Reporting Requirements](#) discussion, a unit of local government that receives a FY 2020 JAG award will be required to produce various types of reports and to submit data related to performance measurement and accountability.

The objectives are directly related to the JAG Program performance measures described at <https://bjapmt.ojp.gov/help/jagdocs.html> and demonstrate the results of the work completed, as discussed under [What an Application Should Include](#).

### **Evidence-based Programs or Practices**

OJP strongly emphasizes the use of data and evidence in policy making and program development for criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

A useful matrix of evidence-based policing programs and strategies is available through the BJA-supported [Matrix Demonstration Project](#). It offers a number of program models designed to effectively implement promising and evidence-based strategies through the BJA Innovation Suite of programs, including Innovations in Policing, Prosecution, Supervision, Reentry, and others (see <https://www.bja.gov/Programs/CRPPE/innovationsuite.html>). BJA encourages units of local government to use JAG funds to develop and implement these crime innovation strategies, including effective partnerships with universities and research partners and with nontraditional criminal justice partners.

### **Information Regarding Potential Evaluation of Programs and Activities**

Applicants should note OJP may conduct or support an evaluation of the programs and activities funded under the JAG Program. For additional information, see the [OJP Grant Application Resource Guide](#) section, entitled, “Information Regarding Potential Evaluation of Programs and Activities.”

## **B. Federal Award Information**

Maximum number of awards BJA expects to make	1,058
Period of performance start date	October 1, 2019
Period of performance duration	2 or 4 years

**Category 1 – Eligible Allocation Amounts of Less than \$25,000 (Competition ID BJA-2020-18275)** – Units of local government that are listed on the [JAG web page](#) as eligible for an allocation amount of less than \$25,000 should apply under Category 1. This includes direct and joint

(disparate) allocations. Category 1 awards of less than \$25,000 are 2 years in length, and performance periods will be from October 1, 2019 through September 30, 2021. Extensions of up to two years can be requested for these awards via GMS no fewer than 30 days prior to the grant end date, and will be automatically granted upon request.

**Category 2 – Eligible Allocation Amounts \$25,000 or More (Competition ID BJA-2020-18276)**

– Units of local government that are listed on the [JAG web page](#) as eligible for an allocation amount of \$25,000 or more should apply under Category 2. This includes direct and joint (disparate) allocations. Category 2 awards of at least \$25,000 are 4 years in length, and performance periods will be from October 1, 2019 through September 30, 2023. Extensions beyond this period may be made on a case- by-case basis at the discretion of BJA and must be requested via GMS no fewer than 30 days prior to the grant end date.

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by statute.

**Type of Award**

BJA expects to make awards under this solicitation as grants. See the “Administrative, National Policy, and Other Legal Requirements” section of the [OJP Grant Application Resource Guide](#) for additional information.

**Financial Management and System of Internal Controls**

Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities) must, as described in the Part 200 Uniform Requirements<sup>1</sup> as set out at 2 C.F.R. 200.303, comply with standards for financial and program management. See [OJP Grant Application Resource Guide](#) for additional information.

**Budget Information**

**Cost Sharing or Match Requirement**

The JAG Program does not require a match.

Please see the [OJP Grant Application Resource Guide](#) for information on the following:

[Pre-agreement Costs \(also known as Pre-award Costs\)](#)

[Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs](#)

[Costs Associated with Language Assistance \(if applicable\)](#)

**C. Eligibility Information**

For information on eligibility, see the title page.

For information on cost sharing or match requirements, see [Section B. Federal Award Information](#).

---

<sup>1</sup> The “Part 200 Uniform Requirements” means the DOJ regulation at 2 C.F.R Part 2800, which adopts (with certain modifications) the provisions of 2 C.F.R. Part 200.

## D. Application and Submission Information

### What an Application Should Include

See the “Application Elements and Formatting Instructions” section of the [OJP Grant Application Resource Guide](#) for information on what happens to an application that does not contain all the specified elements. (This solicitation expressly modifies the “Application Elements and Formatting Instructions” section of the OJP Grant Application Resource Guide by **not** incorporating paragraph two of that section (referring to nonresponsive applications or applications missing critical elements not “[proceeding] to peer review”).)

#### 1. Application for Federal Assistance (Standard Form (SF)-424)

The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. See the [OJP Grant Application Resource Guide](#) for additional information on completing the SF-424.

#### Intergovernmental Review:

This solicitation (“funding opportunity”) is subject to [Executive Order 12372](#). An applicant may find the names and addresses of State Single Points of Contact (SPOCs) at the following website: [https://www.whitehouse.gov/wp-content/uploads/2020/01/spoc\\_1\\_16\\_2020.pdf](https://www.whitehouse.gov/wp-content/uploads/2020/01/spoc_1_16_2020.pdf). If the applicant’s state appears on the SPOC list, the applicant must contact the State SPOC to find out about, and comply with, the state’s process under E.O. 12372. In completing the SF-424, an applicant whose state appears on the SPOC list is to make the appropriate selection in response to question 19, once the applicant has complied with its State E.O. 12372 process. (An applicant whose state does not appear on the SPOC list should answer question 19 by selecting the response that the: “Program is subject to E.O. 12372, but has not been selected by the State for review.”).

#### 2. Project Identifiers

Applications should identify at least three project identifiers that would be associated with the proposed project activities. The list of identifiers can be found at [www.bja.gov/funding/JAGIdentifiers.pdf](http://www.bja.gov/funding/JAGIdentifiers.pdf).

#### 3. Program Narrative

##### **Category 1 – Eligible Allocation Amounts of Less than \$25,000**

The program narrative for Category 1 applications should include a description of the project(s), including subawards, if applicable, to be funded with JAG funds over the 2 year grant period.

##### **Category 2 – Eligible Allocation Amounts of \$25,000 or More**

The program narrative for Category 2 applications should include:

- (a) Description of the Issue – Identify the unit of local government’s strategy/funding priorities for the FY 2020 JAG funds, the subgrant award process (if applicable, including disparates) and timeline, any progress or challenges, and a description of the programs to be funded over the 2 to 4 year grant period.
- (b) Project Design and Implementation – Describe the unit of local government’s strategic planning process, if any, that guides its priorities and funding strategy. This should include a description of how the local community is engaged in the planning process and the data and analysis utilized to support the plan. It should identify the stakeholders

currently participating in the strategic planning process, the gaps in the needed resources for criminal justice purposes, and how JAG funds will be coordinated with state and related justice funds.

- (c) Capabilities and Competencies – Describe any additional strategic planning/coordination efforts in which the units of local government participate with other criminal justice juvenile justice agencies in the state.
- (d) Plan for Collecting the Data Required for this Solicitation’s Performance Measures – OJP will require each successful applicant to submit specific performance data that demonstrate the results of the work carried out under the award. The performance data directly relate to the objectives identified under " Objectives" in [Section A. Program Description](#).

Applicants should visit OJP’s performance measurement page at [www.ojp.gov/performance](http://www.ojp.gov/performance) for an overview of performance measurement activities at OJP.

The application should demonstrate the applicant’s understanding of the performance data reporting requirements for this grant program and detail how the applicant will gather the required data should it receive funding.

Please note that applicants are **not** required to submit performance data with the application. Rather, performance measures information is included as an alert that successful applicants will be required to submit performance data as part of the reporting requirements under an award.

Post award, recipients will be required to submit quarterly performance measures through BJA’s PMT, located at <https://bjapmt.ojp.gov>. The application should describe the applicant’s plan for collection of all of the performance measurement data listed in the JAG performance measures at <https://bjapmt.ojp.gov/help/jagdocs.html>.

#### **Note on Project Evaluations**

An applicant that proposes to use award funds through this solicitation to conduct project evaluations should follow the guidance under Note on Project Evaluations in the [OJP Grant Application Resource Guide](#).

Please see the [OJP Grant Application Resource Guide](#) for information on the following:

#### **4. [Budget Information and Associated Documentation](#)**

**Please note that the budget narrative should include a full description of all costs, including funds set aside for the NIBRS project(s) and administrative costs (if applicable).**

General requirement for federal authorization of any subaward: statutory authorization of subawards under the JAG Program statute.

Generally, a recipient of an OJP award may not make subawards (“subgrants”) unless the recipient has specific federal authorization to do so. Unless an applicable statute or DOJ regulation specifically authorizes (or requires) particular subawards, a recipient must have authorization from OJP before it may make a subaward.

However, JAG subawards that are required or specifically authorized by statute ([see 34 U.S.C. § 10152\(a\) and 34 U.S.C. § 10156](#)) do not require prior approval. This includes subawards made by states and unites of local government under the JAG Program. For additional information regarding subawards and authorizations, please refer to the subaward section in the [OJP Grant Application Resource Guide](#).

**5. [Indirect Cost Rate Agreement \(if applicable\)](#)**

This rule does not eliminate or alter the JAG-specific restriction in federal law that states charges for administrative costs may not exceed 10 percent of the award amount, regardless of the approved indirect cost rate.

**6. [Financial Management and System of Internal Controls Questionnaire \(including applicant disclosure of high risk status\)](#)**

**7. [Disclosure of Lobbying Activities](#)**

**8. [Applicant Disclosure of Pending Applications](#)**

**9. [Applicant Disclosure and Justification – DOJ High Risk Grantees<sup>2</sup> \(if applicable\)](#)**

**10. [Research and Evaluation Independence and Integrity](#)**

**11. [Certifications and Assurances by the Chief Executive of the Applicant Government](#)**

A JAG application is not complete, and a unit of local government may not access award funds, unless the chief executive of the applicant unit of local government (e.g., the mayor) properly executes, and then submits, the “Certifications and Assurances by the Chief Executive of the Applicant Government.” The most up-to-date version of this certification can be found at <https://bja.ojp.gov/sites/g/files/xyckuh186/files/media/document/fy-20-local-jag-ce-certification.pdf>.

**12. [Information regarding Communication with the Department of Homeland Security \(DHS\) and/or Immigration and Customs Enforcement \(ICE\)](#)**

Each applicant must provide responses to the following questions as an attachment to the application:

- (1) Does your jurisdiction have any laws, policies, or practices related to whether, when, or how employees may communicate with DHS or ICE?
- (2) Is your jurisdiction subject to any laws from a superior political entity (e.g., a state law that binds a city) that meet the description in question 1?
- (3) If yes to either:
  - Please provide a copy of each law or policy.
  - Please describe each practice.
  - Please explain how the law, policy, or practice complies with 8 U.S.C. § 1373.

Note: Responses to these questions must be provided by the applicant as part of the application. Further, the requirement to provide this information applies to all tiers of funding

---

<sup>2</sup> A “DOJ High Risk Grantee” is a recipient that has received a DOJ High Risk designation based on a documented history of unsatisfactory performance, financial instability, management system or other internal control deficiencies, or noncompliance with award terms and conditions on prior awards, or that is otherwise not responsible.

and for all subawards made to state or local government entities, including public institutions of higher education. All subrecipient responses must be collected and maintained by the direct recipient of funding and must be made available to DOJ upon request. Responses to these questions are not required from subrecipients that are either a tribal government/organization, a nonprofit organization, or a private institution of higher education.

OJP will not deny an application for a FY 2020 award for failure to submit these required responses by the application deadline, but a recipient will not receive award funds (and its award will include a condition that withholds funds) until it submits these responses.

### **How to Apply**

An applicant must submit its application through the [Grants Management System \(GMS\)](#), which provides support for the application, award, and management of awards at OJP. Find information, registration and submission steps on how to apply in GMS in response to this solicitation in the [OJP Grant Application Resource Guide](#).

## **E. Application Review Information**

### **Review Process**

BJA reviews the application to make sure that the information presented is reasonable, understandable, measurable, achievable, and consistent with the solicitation. See the [OJP Grant Application Resource Guide](#) for information on the application.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the nonpublic segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

**Important note on FAPIIS:** An applicant, at its option, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, the Assistant Attorney General will make all final award decisions.

## **F. Federal Award Administration Information**

Please see the [OJP Grant Application Resource Guide](#) for information on the following:

[Federal Award Notices](#)

[Administrative, National Policy, and Other Legal Requirements](#)

OJP strongly encourages prospective applicants to review information on post-award legal requirements and common OJP award conditions **prior** to submitting an application. For additional information on these legal requirements, see the “Administrative, National Policy, and Other Legal Requirements” section in [OJP Grant Application Resource Guide](#).

### [Information Technology \(IT\) Security Clauses](#)

#### **General Information about [Post-Federal Award Reporting Requirements](#)**

In addition to addressing the objectives described in [Section A. Program Description](#), any recipient of an award under this solicitation will be required to submit the following reports and data:

#### **Category 1 – Eligible Allocation Amounts of Less than \$25,000**

Recipients must submit:

- Quarterly financial status reports (and one final financial report after all funds have been obligated and expended) through OJP’s Grants Management System (GMS)
- Quarterly performance measures report and final performance measures report through BJA’s [Performance Measurement Tool \(PMT\)](#). Please note that as soon as all project activity has concluded, that report may be marked final
- An annual progress report and final progress report through OJP’s GMS. If all project activity has concluded at the time the first annual progress report is submitted, that report may be marked final
- If applicable, an annual audit report in accordance with the Part 200 Uniform Requirements or specific award conditions should also be submitted

#### **Category 2 – Eligible Allocation Amounts of \$25,000 or More**

Recipients must submit:

- Quarterly financial status reports (and one final financial report after all funds have been obligated and expended) through OJP’s Grants Management System (GMS)
- Quarterly performance measures reports and a final performance measures report (at any time once all project activity has concluded) through BJA’s Performance Measurement Tool (PMT)
- Semi-annual progress reports and a final progress report (at any time once all project activity has concluded) through OJP’s GMS
- If applicable, an annual audit report in accordance with the Part 200 Uniform Requirements or specific award conditions

Future awards and/or fund draw-downs may be withheld if a recipient of an OJP award fails to report the required reports in a timely manner.

See the [OJP Grant Application Resource Guide](#) for additional information on specific post-award reporting requirements, including performance measurement data.

Performance measurement data must be submitted through BJA's [Performance Measurement Tool \(PMT\)](#). The performance measures are available at: <https://bjapmt.ojp.gov/help/jagdocs.html>. (Note that if a unit of local government provides funding to a law enforcement agency, the unit of local government must submit quarterly performance measurement data on training that officers have received on use of force, racial and ethnic bias, de-escalation of conflict, and constructive engagement with the public.)

## **G. Federal Awarding Agency Contact(s)**

For OJP contact(s), see page 2 of this solicitation.

For contact information for GMS, see page 2.

## **H. Other Information**

Please see the [OJP Grant Application Resource Guide](#) for information on the following:

[Freedom of Information and Privacy Act \(5 U.S.C. 552 and 5 U.S.C. 552a\)](#)

[Provide Feedback to OJP](#)

**Certain Relevant Federal Laws, as in Effect on February 26, 2020**

See the [JAG Resource Page](#) for more information.

## Application Checklist

### Edward Byrne Memorial Justice Assistance Grant (JAG) Program: FY 2020 Local Solicitation

This application checklist has been created as an aid in developing an application.

#### What an Applicant Should Do:

##### *Prior to Registering in GMS:*

- Acquire a DUNS Number (see [OJP Grant Application Resource Guide](#))
- Acquire or renew registration with SAM (see [OJP Grant Application Resource Guide](#))

##### *To Register with GMS:*

- For new users, acquire a GMS username and password\* (see [OJP Grant Application Resource Guide](#))
- For existing users, check GMS username and password\* to ensure account access (see [OJP Grant Application Resource Guide](#))
- Verify SAM registration in GMS (see [OJP Grant Application Resource Guide](#))
- Search for and select correct funding opportunity in GMS (see [OJP Grant Application Resource Guide](#))
- Register by selecting the “Apply Online” button associated with the funding opportunity title (see [OJP Grant Application Resource Guide](#))
- Read OJP policy and guidance on conference approval, planning, and reporting available at [ojp.gov/financialguide/DOJ/PostawardRequirements/chapter3.10a.htm](http://ojp.gov/financialguide/DOJ/PostawardRequirements/chapter3.10a.htm) (see [OJP Grant Application Resource Guide](#))

If experiencing technical difficulties in GMS, contact the NCJRS Response Center (see page 2)

\*Password Reset Notice – GMS users are reminded that while password reset capabilities exist, this function is only associated with points of contact designated within GMS at the time the account was established. Neither OJP nor the GMS Help Desk will initiate a password reset unless requested by the authorized official or a designated point of contact associated with an award or application.

#### Overview of Post-Award Legal Requirements:

- Review the “the [Overview of Legal Requirements Generally Applicable to OJP Grants and Cooperative Agreements - FY 2020 Awards](#)” in the [OJP Funding Resource Center](#).

#### Scope Requirement:

- The federal amount requested is within the allowable limit(s) of the FY 2020 JAG Allocations List as listed on BJA’s [JAG web page](#).

**Eligibility Requirement:**

Only units of local government may apply under this solicitation. By law, for purposes of the JAG Program, the term “units of local government” includes a town, township, village, parish, city, county, borough, or other general purpose political subdivision of a state; or, it may be a federally recognized Indian tribal government that performs law enforcement functions (as determined by the Secretary of the Interior). A unit of local government also may be any law enforcement district or judicial enforcement district established under applicable state law with authority to independently establish a budget and impose taxes; for example, in Louisiana, a unit of local government means a district attorney or parish sheriff.

**What an Application Should Include:**

- Application for Federal Assistance (SF-424) (see [OJP Grant Application Resource Guide](#))
- Intergovernmental Review (see page 10)
- Program Narrative (see page 10)
- Budget Detail Worksheet (including Budget Narrative (see page 11)
- Indirect Cost Rate Agreement (if applicable) (see [OJP Grant Application Resource Guide](#))
- Financial Management and System of Internal Controls Questionnaire (see [OJP Grant Application Resource Guide](#))
- Disclosure of Lobbying Activities ([SF-LLL](#)) (see [OJP Grant Application Resource Guide](#))
- Applicant Disclosure of Pending Applications (see [OJP Grant Application Resource Guide](#))
- Applicant Disclosure and Justification – DOJ High Risk Grantees (see [OJP Grant Application Resource Guide](#)) (if applicable)
- Research and Evaluation Independence and Integrity (if applicable) (see [OJP Grant Application Resource Guide](#))
- Certifications and Assurances by Chief Executive (see page 12)
- Information regarding Communication with the Department of Homeland Security (DHS) and/or Immigration and Customs Enforcement (ICE) (see page 12)

**From:** [Board of Supervisors. \(BOS\)](#)  
**To:** [BOS-Supervisors](#)  
**Cc:** [Somera, Alisa \(BOS\)](#)  
**Subject:** FW: Quarterly Report for File 180547  
**Date:** Wednesday, August 19, 2020 3:38:00 PM  
**Attachments:** [Q2 CY20 100% Affordable Hsg - MOHCD.pdf](#)  
[MOHCD Affordable Housing-Q2CY20.pdf](#)

Hi Alisa, Eileen,

Our former director submitted the attached Q2 FY19-20 report to the Clerk back in January, but I'm not sure if you received and circulated it, so I'm sending it again just in case. This report covers October through December 2019.

I will be submitting the next quarterly report for January through March very shortly.

Thanks,

Amy

Re: Q2 CY20 Reporting on Prioritization of 100% Affordable Housing Projects (File #180547)

---

Enclosed please find the quarterly report on MOHCD's 100% Affordable Housing Projects, as required by City Ordinance and as part of OEWD's Executive Directive 17-02, covering Q2 CY-20, the period from April 1 to June 30, 2020. Progress has continued in the entitlement, permitting and construction of a number of key affordable housing developments. **At this time, approximately 1,318 100% affordable multifamily rental units are under construction under MOHCD sponsorship, with another 1,933 units in active predevelopment (3,296 total).**

We continue to face new challenges posed by the COVID-19 pandemic affecting all projects whether in construction or permitting. The full scope of these impacts remains unresolved, but collaborative efforts of the contracting community and City departments have resulted in tangible mitigation of these impacts while also maintaining safety in accordance with the San Francisco Department of Public Health COVID-19 Health Order, as amended. For projects anticipating starting construction in the coming months, we are also seeing market adjustments in pricing for both hard costs of construction and project debt and equity, the full outcome of which is yet to be realized. Other challenges continue also in municipal power application, design and delivery.

Some key milestones and achievements made this quarter (April to June 2020) include:

- **4840 Mission** received Site Permit Approval
- **Treasure Island Parcel 3.2**, the first 100% Affordable Housing at Treasure Island (Maceo May) commenced construction
- **78 Haight Street** received Site Permit Approval.

Overall, MOHCD is pleased to report that despite the unprecedented events of this current time, affordable housing production, at all stages of development, continues to move forward with the collaboration and commitment of our staff, City and private partners.

**MOHCD Affordable Housing Quarterly Report**

Subject: Fine Arts Museums Of SF (Dept. #61) Budget Hearings

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Greetings Supervisor(s),

Thank you for giving me a voice to address my concerns during this budget process necessitated by the pandemic.

As an Essential Worker in Dept. #61: Fine Arts Museums of SF, I report for work 8 hours a day/ 5 days per week at the deYoung museum as if nothing has happened. Although the public is not allowed to visit the museum due to the continued "shelter in place" mandate, our security dept. works 24/7.

My co-workers and I continue to protect the physical building, the priceless art collections and the many employees who continue to work inside our museums. The technicians are painting the galleries; art objects are removed and cleaned; elevator maintenance performed; contractors are on site to complete construction projects; staggered office staff return to work in their cubicles to carry-on with museum business, etc...

Our City security dept. continues to protect and prevent City liability from occurring. We are required to report for scheduled duty and we comply with all the requirements from our HR dept. regarding COVID testing, mask compliance, sanitizing equipment, etc... We await the end of our "shelter status" and look forward to welcoming our visitors back into the galleries.

When we are threatened with lay-offs and cuts, it feels as though we are being kicked while we are down. This is adding insult to injury. What purpose does this serve but to instill fear into those very civil servants who have left their families every day and reported for duty over the last 5 months of this pandemic.

We realize that financial stability needs to be established, but please know that Dept. #61 and Dept. #62 (Asian Art Museum) have frozen dozens of positions for salary savings to help address this necessity. We have given our fair share, and more.

We are essential to restoring normalcy to our public who is patiently awaiting our re-opening. They are dearly missed by our staff.

We do not ask for nor do we expect any extra compensation or reward for our daily efforts.

What we do ask is that as we protect and safeguard our City museums, you continue to protect and safeguard our City jobs.

Thank you. Stay safe and be well!

Rebecca Rozewicz  
#8226 Museum Guard; Dept. #61

**Subject:** Please Defund the Sheriff's Department & Reinvest in Community Services  
**Date:** Friday, August 14, 2020 12:54:34 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello, my name is Jesse Stout and I live and work in West SoMa in District 6 in San Francisco. Here in my neighborhood, we have no city parks except the one literally overshadowed by the Hall of Justice, County Jail 4.

I am writing to implore that you **commit to closing County Jail 4** (located at 850 Bryant Street), **defund the Sheriff's Department**, and **divest from punishment, policing, and criminalization** in this budget cycle.

I applaud the City for setting the November 1 deadline for closing 850 Bryant. However, Sheriff Miyamoto has made it clear that he does not respect the language or spirit of Ordinance 80-20 and plans to continue caging folks for court-holding at County Jail 4 past the November 1 deadline. Sheriff Miyamoto's refusal to follow the law is immoral and will continue to require the city to keep sinking money into a dilapidated and unsafe jail. **Please pressure Sheriff Miyamoto to follow through with closing County Jail 4 by November 1st — no exceptions, not even court-holding — and invest the estimated \$25 million savings in the communities that have been harmed and targeted by the imprisonment system.**

While San Francisco finds itself in a deep budget shortfall, a staggering \$1 billion dollars were set aside for SFPD and the Sheriff's Department in the 2019-2020 budget. Despite the Mayor's rhetoric earlier this year, the Mayor's latest proposed budget would leave both departments with well over \$900 million in their budgets. This is not acceptable. The No New SF Jail Coalition and DefundSFPDNow have identified various potential cuts to policing, **including approximately \$217 million in cuts to the Sheriff's budget.** If we were to prioritize community health and wellbeing rather than criminalization and incarceration, the city General Fund would have *millions* more for the services that are important to me: housing, mental health care, and community-based services that actually make communities safer. Briefly, those proposed cuts include:

#### **Eliminate all non-custodial field operations (\$56M)**

- **End SFSD contracts with the Department of Public Health & hospitals.** The Sheriff's presence in public hospitals, clinics, and public health buildings subjects people seeking care to racist social control, compromises the safety of patients and healthcare workers, and costs us \$18.5M, compared to the \$100M in DPH's budget for *all* primary care. DPH Director Colfax and other public health staff support removing the Sheriff and opting for police-free, deescalation-based supports.

- **Eliminate specialized field units like [unreliable](#) K-9 units, the unnecessary and problematic Election Security Unit, and the Emergency Services Unit (ESU)**, which provides personnel and logistics to other policing agencies and engages with evictions, court proceedings, crowd control, and regional training exercises and competitions that cost millions while further militarizing our police.
- **Eliminate armed public building security and invest in people, not property, by removing** armed Deputy Sheriffs who guard City buildings. We don't need to spend [\\$760,000](#) for the Sheriff to harass and criminalize our neighbors when they visit our libraries. We must reimagine public security and stop relying on armed enforcement.
- **Stop Sheriff civil court enforcement and end criminalization of poverty.** The Sheriff's Department should not be a tool for the rich or a tool to punish people for not being able to afford to pay rent, fines, or fees.
- **Don't trade one police uniform for another at SFO Airport, which is unnecessary and would NOT save the City money on staffing costs.**

#### **Eliminate, transfer, and redirect in-custody, re-entry, and diversion programs (\$48M)**

- **Eliminate Electronic Monitoring (EM), which expands jails and policing into people's homes.** EM has [tripled](#) over the past two years and has resulted in large increases in [Sheriff overtime pay](#). It is a [punitive sanction](#) that fails to provide the services, support, and opportunities that people need.
- **Move SF Pretrial and other educational, vocational, and rehabilitation programs out of the Sheriff's Dept.** SFSD is not a social service agency. Funding for care-focused programs should not be placed under an agency whose purpose is to put people in cages.

#### **Decarcerate jails and cages, and cut jail staffing costs, especially during COVID-19 pandemic (\$113M)**

- **Release people immediately, end policing of quality of life crimes, and stop bookings and transfers.** Jailing and imprisonment disproportionately affects San Francisco's Black community, expands and [exacerbates homelessness](#), and targets people with mental health needs.
- **Ensure the closure of County Jail 4 by Nov. 1, 2020 as mandated by the Board of Supervisors, reduce the overall jail population, and reinvest the money saved in communities.** We must close 850 Bryant, but that's only half the equation. With just one year's worth of costs for operating County Jail 4, we can provide supportive housing to 1,000 people for 2 years and still have a million dollars to spare. Maintaining the

current jailing budget is a moral failing that prevents us from supporting our residents.

- **Freeze hiring of new Deputy Sheriffs & civilianize positions per the [Controller's June 2019 report](#).** In the past 10 years, the Sheriff's budget has increased by more than 50% even though the jail population has FALLEN by almost 60%. Last year, average compensation for a Deputy Sheriff (\$210,000) was the equivalent of more than 2 teachers.

**Eliminate overtime and vow not to renew the memorandum of understanding (MOU) between the Sheriff's Department and the City and County of San Francisco**

- In 2019, the Sheriff's Department accumulated [\\$31 million in overtime](#). One Deputy Sheriff alone received \$321,000 in overtime for a total compensation of \$544,000. The MOUs partly contribute to the Sheriff's overuse of overtime—there is little transparency behind the MOUs and their minimum staffing requirements, which do not account for the significant decreases in the number of people in San Francisco's jails.

For more detailed analysis of these Sheriff budget cuts, please go to <https://defundsfpdnow.com/#sheriff>

**San Francisco has an opportunity to boldly stand with our communities by decreasing our reliance on a system that targets Black, brown, poor, and trans community members.** Black communities make up a rapidly decreasing 6% of the city's population, while representing almost half those locked in jail.

We can and must do better. We must shut down 850, defund the Sheriff, and invest in community solutions that will keep us safe.

Thank you for your time,

Jesse Stout

1400 Mission St., SF 94103

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Good afternoon,

TGI Justice Project (TGIJP) is a group of transgender, gender variant, and intersex (TGI) people—inside and outside of prisons, jails and detention centers—creating a united family in the struggle for survival and freedom. TGIJP is a Black trans led organization that serves TGI people, especially Black trans women, who are currently and formerly incarcerated. The communities we serve have suffered severe harm from the current criminal legal system. They are overpoliced; face high rates of abuse by law enforcement, arrest, prosecution, and incarceration; and receive disparate treatment once incarcerated.

TGIJP recognizes that policing is just one part of the criminal legal system that causes harm to Black and Brown communities, especially TGI communities. We recognize that this system must be transformed in its entirety if we are to stop the cycle of state violence against these communities. In addition to abolishing and divesting from police, we must abolish prisons and jails, defund the District Attorney, and defund the probation and juvenile probation departments. To stop the cycle of structural racist violence, San Francisco must invest in our communities and in models that actually keep people safe. TGIJP asks San Francisco to follow Black trans leadership, as Minneapolis did when they abolished their police department. We ask that San Francisco accept TGIJP's demands, which are as follows:

### **Demand: Defund the Police Department**

- 
- Cut the SFPD budget by
  - 100% this year
  - 
  - 
  - End SFPD minimum staffing
  - requirement in city charter by passing measure on the November 2020 Ballot

- 
- Ban SFPD from bringing revenue
- from sources outside the city budget
- 
- 
- Do not engage in bargaining
- with police unions
- 
- 
- Prohibit private/other
- forms of police funding
- 

**Demand: Disarm and Demilitarize All San Francisco Communities**

- 
- No City or County department or entity shall own, purchase,
- rent, store, or use weapons, vehicles, tools, or equipment that can inflict harm, including
- but not limited to: kinetic impact projectiles, chemical agents/irritants or lachrymator agents, acoustic weapons, directed energy weapons, water cannons, disorientation devices, ultrasonic cannons, firearms, tasers, batons, riot shields, battering rams, cameras
- or surveillance infrastructure, cars, motorcycles, MRAP, bearcats, tanks, helicopters, vans, or paddywagons, or any other device that is designed to be used on individuals or multiple individuals to cause pain or discomfort
- - 
  - Destroy all existing inventory;
  - no sale or transfer to other departments or entities.
  -
- 
- Return all military equipment
- to federal government and ban military training exercises
- 
- 
- Disband gang task force
- initiatives and other explicitly racist policing
- 
-

## Remove SFPD from SF Public

- Schools
  - - 
    - Rescind MOU for SFPD within
    - our public schools
    - 
    - 
    - Remove all surveillance
    - and school surveillance equipment such as metal detectors
    -
- 
- Remove SFPD from community
- programs, including but not limited to:
  - - 
    - Police Activities League
    - 
    - 
    - Reserve Police Officer Program
    - 
    - 
    - Wilderness Adventure Program
    - 
    - 
    - Operation Genesis
    - 
    - 
    - Limited English Proficiency
    - Service
    - 
    - 
    - SAFE (Safety Awareness for
    - Everyone)
    -
- 

## **Demand: Defund and Dismantle the Jails**

- 
- Cut Sheriff's Department
- budget by 100% this year
- 
-

- Close all SF jails now by:
  - - 
    - Working with judges and district attorneys to free everyone from the jails
    - 
    - 
    - Instating a hiring freeze for the SF Sheriff's Office
    - 
    - 
    - Cutting all investment in new training for SF Sheriff employees
    - 
    - 
    - Absolutely no new investments in jails
    -
- 
- Disband and transition Sheriff Department personnel to other roles in alignment with SF labor laws
- 
- 
- Eliminate extensive bargaining with correctional officers' unions
- 
- 
- Ban Sheriff Department from holding people convicted on federal and state felony charges
- 
- 
- Release all people from county jails now
- 
- 
- Close all jails, police headquarters, precinct stations, and other physical infrastructure
- 
- 
- Renovate and give infrastructure to local community groups working on non-carceral, non-violent solutions for community care
- 

**Demand: Defund the Probation Department**

- 
- Cut Probation Department
- and Juvenile Probation Department budget by 100% this year
- 
- 
- End Electronic Monitoring
- 
- 
- End drug testing
- 
- 
- Redirect funding within
- the Probation Department to grassroots community programs that provide life-affirming and restorative resources for all San Franciscans without criminalization or punishment, including those that provide child care and dependent care, education, food security,
- harm reduction, housing security, job development, mental health and physical health care, parenting resources, transportation assistance, and other interventions and supportive services, especially those services that are culturally competent for those most
- impacted by the prison industrial complex
- 

**Demand: Defund Other Forms of Policing**

- 
- Defund and disband transit
- policing
- 
- 
- Continue refusing to collaborate
- with ICE
- 

**Demand: Reconciliation and Reparations**

- 
- Offer all former sheriffs

- and police officers reassignment and require them to go through non-violence workshops, training, and presentations detailing the harms done by the prison industrial complex
- 
- 
- Invest funding that had
- been used for branches of the prison industrial complex in communities who have suffered the most harm, such as Black and Indigenous people, especially transgender, gender-variant, and intersex Black and Indigenous people and other multiply marginalized Black
- and Indigenous people. Fund community infrastructure and basic needs such as housing, food, education, and physical/mental healthcare
- 
- 
- Develop, build, and sustain
- systems of transformative justice, including:
  - 
  - 
  - Skills for violence and crisis intervention
  - 
  - 
  - Accountability systems that do not rely on police intervention or carceral punishment, such as restorative justice programs
  - 
  - 
  - Community based re-entry
  - services for people being released, which are not tied to prison industrial complex agencies and departments, especially those that are culturally competent for those most impacted by the prison industrial complex
  -

**Subject:** Commit to closing County Jail 4, defund the Sheriff's Department, divest from punishment, policing, and criminalization  
**Date:** Tuesday, August 18, 2020 3:52:00 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

## Dear Mayor and Members of the Board of Supervisors

Hi my name is Erik Schnabel and I live District 10 and work on District 6 in San Francisco. I work with transgender community members coming out of jails and prisons, and have seen firsthand the impact of law enforcement on our Black and Brown communities.

I am writing to implore that you **commit to closing County Jail 4** (located at 850 Bryant Street), **defund the Sheriff's Department**, and **divest from punishment, policing, and criminalization** in this budget cycle.

We applaud the City for setting the November 1 deadline for closing 850 Bryant. However, Sheriff Miyamoto has made it clear that he does not respect the language or spirit of Ordinance 80-20 and plans to continue caging folks at County Jail 4 past the November 1 deadline. Sheriff Miyamoto's refusal to follow the law is immoral and will continue to require the city to keep sinking money into a dilapidated and unsafe jail. **We demand that you put pressure on Sheriff Miyamoto to follow through with closing County Jail 4 by November 1st — no exceptions— and use the estimated \$25 million in savings from its closure to invest in the communities that have been harmed and targeted by the imprisonment system.**

While San Francisco finds itself in a deep budget shortfall, a staggering \$1 billion dollars were set aside for SFPD and the Sheriff's Department in the 2019-2020 budget. Despite the Mayor's rhetoric earlier this year, the Mayor's latest proposed budget would leave both departments with well over \$900 million in their budgets. This is not acceptable. The No New SF Jail Coalition and DefundSFPDNow have identified various potential cuts to policing, **including approximately \$217 million in cuts to the Sheriff's budget**. If we were to prioritize community health and wellbeing rather than criminalization and incarceration, the city General Fund would have *millions* more for housing, mental health care, and community-based services that actually make communities safer. Briefly, those proposed cuts include:

### **Eliminate all non-custodial field operations (\$56M)**

- **End SFSD contracts with the Department of Public Health & hospitals.** The Sheriff's presence in public hospitals, clinics, and public health buildings subjects people seeking care to racist social control, compromises the safety of patients and healthcare workers, and costs us \$18.5M, compared to the \$100M in DPH's budget for *all* primary care. DPH Director Colfax and other public health staff support removing the Sheriff and opting for police-free, deescalation-based supports.

- **Eliminate specialized field units like [unreliable](#) K-9 units, the unnecessary and problematic Election Security Unit, and the Emergency Services Unit (ESU)**, which provides personnel and logistics to other policing agencies and engages with evictions, court proceedings, crowd control, and regional training exercises and competitions that cost millions while further militarizing our police.
- **Eliminate armed public building security and invest in people, not property, by removing** armed Deputy Sheriffs who guard City buildings. We don't need to spend [\\$760,000](#) for the Sheriff to harass and criminalize our neighbors when they visit our libraries. We must reimagine public security and stop relying on armed enforcement.
- **Stop Sheriff civil court enforcement and end criminalization of poverty.** The Sheriff's Department should not be a tool for the rich or a tool to punish people for not being able to afford to pay rent, fines, or fees.
- **Don't trade one police uniform for another at SFO Airport, which is unnecessary and would NOT save the City money on staffing costs.**

#### **Eliminate, transfer, and redirect in-custody, re-entry, and diversion programs (\$48M)**

- **Eliminate Electronic Monitoring (EM), which expands jails and policing into people's homes.** EM has [tripled](#) over the past two years and has resulted in large increases in [Sheriff overtime pay](#). It is a [punitive sanction](#) that fails to provide the services, support, and opportunities that people need.
- **Move SF Pretrial and other educational, vocational, and rehabilitation programs out of the Sheriff's Dept.** SFSD is not a social service agency. Funding for care-focused programs should not be placed under an agency whose purpose is to put people in cages.

#### **Decarcerate jails and cages, and cut jail staffing costs, especially during COVID-19 pandemic (\$113M)**

- **Release people immediately, end policing of quality of life crimes, and stop bookings and transfers.** Jailing and imprisonment disproportionately affects San Francisco's Black community, expands and [exacerbates homelessness](#), and targets people with mental health needs.
- **Ensure the closure of County Jail 4 by Nov. 1, 2020 as mandated by the Board of Supervisors, reduce the overall jail population, and reinvest the money saved into communities.** We must close 850 Bryant, but that's only half the equation. With just one year's worth of costs for operating County Jail 4, we can provide supportive housing to 1,000 people for 2 years and still have a million dollars to spare. Maintaining the current jailing budget is a moral failing that prevents us from supporting our residents.
- **Freeze hiring of new Deputy Sheriffs & civilianize positions per the Controller's June 2019 report.** In the past 10 years, the Sheriff's budget has increased by more than 50% even though the jail population has FALLEN by almost 60%. Last year, average compensation for a Deputy Sheriff (\$210,000) was the equivalent of more than 2 teachers.

#### **Eliminate overtime and vow not to renew the memorandum of understanding (MOU) between the Sheriff's Department and the City and County of San Francisco**

- In 2019, the Sheriff's Department accumulated [\\$31 million in overtime](#). One Deputy Sheriff alone received \$321,000 in overtime for a total compensation of \$544,000. The MOUs partly contribute to the Sheriff's overuse of overtime—there is little transparency behind the MOUs and their minimum staffing requirements, which do not account for

the significant decreases in the number of people in San Francisco's jails.

For more detailed analysis of these Sheriff budget cuts, please go to <https://defundsfpdnow.com/#sheriff>

**San Francisco has an opportunity to boldly stand with our communities by decreasing our reliance on a system that targets Black, brown, poor, and trans community members.** Black communities make up a rapidly decreasing 6% of the city's population, while representing almost half those locked in jail.

We can and must do better. We must shut down 850, defund the Sheriff, and invest in community solutions that will keep us safe.

Thank you for your time,

Erik Schnabel

**From:** [Board of Supervisors. \(BOS\)](#)  
**To:** [BOS-Supervisors](#)  
**Subject:** FW: Budget - Union Demands  
**Date:** Friday, August 14, 2020 2:53:00 PM

---

**From:** Lai, Kristine (ASR) <kristine.lai@sfgov.org>  
**Sent:** Friday, August 14, 2020 11:24 AM  
**To:** Board of Supervisors, (BOS) <board.of.supervisors@sfgov.org>  
**Subject:** Budget - Union Demands

Dear Board of Supervisors,

The verbiage below is a pre-written email provided by my Union, suggesting members unite and demand the various terms listed. I am writing to let you know that I do not agree with any of the demands and do not stand behind the union's stance and urge the BOS to not give in to their demands.

I cannot speak for others (although many conversations with co-workers share the same sentiment as me), but as a city employee that is reliant on taxpayer dollars to fund our operations and my salary, I feel it is extremely irresponsible (and immoral) to accept let alone ask for pay raises and demand the city dip into the rainy day fund during this challenging time (including the other demands). I feel so fortunate to be employed, have a good paying wage and benefits - without a single day of furlough or cutbacks. I see thousands upon thousands losing their jobs, their homes, difficulty with work/life balance, and some with no hope of getting back on their feet in the near future.

The demands below are selfish and have no regards for what is happening in the world and specifically San Francisco. So many businesses are closing for good and there is no end in sight. We are fortunate. The definition of "essential" is convoluted - many departments consider themselves "essential", and yes that may be true - as we are all needed to keep the city running. However many of us (most in my union) are office workers and are not on the front line placing lives at risk for the public (i.e., fire, police, all healthcare workers, crisis workers, some Muni, etc). I might suggest these courageous workers need more support than the rest of us who are fortunate enough to work from home or in a setting where there is minimal risk.

To sum it all up, I do not feel the City is in a position to grant any of these demands and city workers need to end the greed and selfishness and remember why we are city servants to begin with. We must be fiscally responsible, period. The city's spending prior to COVID was already out of control, and we must be even leaner as we budget for the future. The union and its leaders are out of touch with reality and their actions in "leading" its members are purely self-serving. They do not exist to benefit their members.

Thank you in advance for your time in reading this and for allowing me to share my sentiments with you. Writing this letter to you may place me in an unpopular position with my colleagues, but as a city servant I feel a deep responsibility to our taxpayers and the public to "do the right thing".

Best wishes,

**Kristine Lai**

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors,

It is essential that we move quickly in this budget season to divest from a law enforcement, compliance-oriented system to a community-based service delivery system. Current practices and policies are detrimental to our black and brown youth.

**The status quo is unacceptable and harmful.**

**The JPD needs to be rightsized. Reallocate \$8 Million.**

- Referrals have gone down by 65% in the past decade - with only minor changes in the overall structure and staffing of the department. During this time we have built one of the most effective community-based youth services system in the country. Our bloated Probation system is not only expensive and duplicative, but it emphasizes approaches to youth that are often harmful.
- We have analyzed the Probation Services budget and the most recent organizational and staffing chart, and have made specific recommendations about structural changes based on the need for less fragmented and redundant services. An inflated law enforcement system only emphasizes surveillance and compliance over relationship-oriented, flexible, culturally specific services. **At least half of the current staff of Probation Services are no longer needed and should be transferred to more urgent community needs to make better use of the city's limited resources.**
- In addition, there is no need for overtime in the Juvenile Hall, with a staff of 90

and a census of 10 - 12. There are also many other superfluous costs which should be addressed.

### **We need to start now to build the new system.**

- \$2 Million - The top priority is to restructure our intake system and move all intake into the community - 24/7. This means young people have contact with community agencies from their first point of entry into the system. San Francisco is uniquely positioned to implement this change very quickly. We already have a nationally -recognized community intake system for misdemeanors and non-violent felonies that can be expanded. The decision about whether a young person sleeps in a cell should not rest solely on law enforcement.
- \$4 Million - Youth should never be in the Juvenile Hall when it is not mandated by law. Even without an alternative secure facility, there is widespread agreement that half of the children now incarcerated could be in a non-secure setting. Community placements need to be developed immediately to reflect our values. We recommend that enhanced placements be developed now. We are pleased that some money has been found to start this process, but it is nowhere near enough.
- \$2 Million - One of the main gaps in our current community-based system is for family support services and incentives for home-based alternatives to detention. That would allow youth to be with their families rather than in a harmful secure setting.

We recommend that the current JPD budget be reduced by \$8 Million, and that money be placed on reserve with the full Board of Supervisors pending the submission of a plan for the implementation of the above priorities.

Thank you for your consideration.

**From:** [Megan Rohrer](#)  
**To:** [Breed, Mayor London \(MYR\)](#); [BOS-Supervisors](#)  
**Subject:** Don't cut civilian jobs from the SFPD  
**Date:** Friday, August 14, 2020 8:51:13 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco wants more civilians, not less, working at the SFPD. During this time when the charter prevents decreasing the number of officers, don't let those who don't understand the realities of our budget move San Francisco backwards in our reform efforts.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Megan Rohrer

**Subject:** Castro resident asking you to defund SFPD  
**Date:** Sunday, August 9, 2020 4:59:32 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Mayor Breed and Supervisors,

My name is Emma Kelsey and I live and work in San Francisco.

I am writing to demand public safety for all.

We must defund SFPD in this year's budget cycle and redirect those funds to investments which make us ALL safe, including public health, housing, reparations for communities most targeted by policing and imprisonment such as Black, Indigenous, and People of Color, trans communities, and our unhoused neighbors.

Let me reiterate -- we demand that SFPD be defunded THIS BUDGET CYCLE. Those who tell us to wait are telling our most marginalized communities that their lives do not matter. That brutalization, suffering, and oppression does not deserve an urgent response. That equity and justice is not a right, but a privilege.

Police don't keep us safe.

American policing began with slave patrols. Modern day policing was a response to the rise of labor unions. Today, approximately 99% of SFPD calls for service are in response to non-violent issues. Most calls are related to public health, unhoused people, traffic/parking, and noise complaints.

Worse than that, police harm our communities.

When the police talk about "public safety", they're speaking in code. The word "public" is not referring to marginalized communities. It's not referring to Alex Nieto, Mario Woods, Jessica Williams, or Luis Góngora Pat. It's referring to the people the system of policing was designed for. The slave owner. The union buster. The wealthy homeowner.

This is reflected not just in the lived experiences of BIPOC, trans people, and unhoused people. It's also reflected in the numbers.

- Black San Franciscans make up only 5% of the city's population, but account for 40% of police searches, 54% of our jail population, and 40% of people killed by police.
- In the fourth quarter of 2019, 76% of all uses of force by SFPD were against people of color.
- In 2019, SFPD officers pointed a gun at San Franciscans an average of 2.4 times PER DAY. Only 14 of the 868 incidents were in defense of self or others.
- After 4 years of DOJ mandated reforms, non-gun related SFPD uses of force have only decreased from 1,142 to 1,110.

Policing can't be reformed because it's working as intended.

SFPD is a violent, racist, and explicitly anti-Black institution. Cal DOJ and the SFPD's implicit bias trainer recently described the level of anti-Black bias in SFPD as "extreme." This presents a clear and imminent danger to our most marginalized communities. The first step towards public safety for all is disbanding SFPD and eliminating that danger.

Disbanding SFPD is an act of harm reduction. It is just one step on the way towards achieving public safety for all. We can't be safe until EVERYONE has access to fundamental human rights -- housing, food, education, healthcare, opportunity.

DefundSFPDNow, a Black-led campaign in San Francisco, has identified at least \$295 million in SFPD line item budget cuts as a step towards reducing the threat to public safety and reinvesting in solutions that begin building public safety.

What can you do as my elected official? Defund SFPD, reinvest in our communities, and reimagine the path to public safety that uplifts ALL San Franciscans.

We are not asking for chaos.

Chaos is responding to someone experiencing a mental health crisis with a gun and combat training instead of care and services.

Chaos is stopping a Black driver for a broken tail light to threaten and harass them instead of offering to replace the light.

Chaos is spending \$23 million a year on police units that criminalize poverty instead of providing housing and opportunity.

We are not asking for chaos. We are asking that you be reasonable.

Defund SFPD, Defund Sheriffs, refund our communities, and reimagine the path to public safety.

Thank you for your time,

Emma Kelsey  
Member, Citizens Committee on Community Development

Dear Ms. Wong,

Please print this out and hand it to the Board of Supervisors on public today, this morning at 10am. Also put this in public record. Thank you.

Dear Board of Supervisors,

My name is Ellen Lee Zhou and I have been living in San Francisco for more than 33 years. I have been advocating for more police presence in each district to reduce crimes. I am a member or the SFPD ALERT member, helping and defending our police and our city.

To protect victims from crimes such car break-ins, drug dealings, human trafficking and sex trafficking, we need to defend our police budget, no cut nor no lay off. You will create any more crime victims if you defund \$120 millions from the police.

All lives matter throughout all 11 districts in San Francisco, stop cutting any funds from the police department. We love our police and we appreciate their work for our city. Keep San Francisco safe, keep the police in each community in each district. Thank you.

Friday, August 14th, 2020 BOS agenda

**Subject:** Public Comment

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi my name is Sarah Boka. I missed my opportunity to get my comment in for today's meeting and really wanted to stress a few points. I'm a part of the Slash SFPD Stash coalition.

The data shows that police do not increase safety for the public, but instead, tear apart communities with violence and incarceration. With the highest prison population of any country in the world (majority of whom are people of color) and a booming prison industrial complex, we can see that the police are not here to serve the people, but are instead a tool to uphold the interests of a corrupt rich and racist ruling class.

While San Francisco is supposed to be one of the most progressive cities, the budget shows terrifying numbers for police support. San Francisco spends 60% more per capita on policing than New York City while spending 39% less on education per student. Our city spends more on SFPD than on the Department of Children, Youth and Families, the Environment, Homelessness Services, the Human Rights Commission, and the Public Defender's office combined. San Francisco Police budget has in fact grown over the last 10 years by 58%.

Black people make up just 5% of San Francisco's population, but 35% of the City's homeless population, 54% of the jail population, and 40% of people who are killed by police.

The mayor claims to be cutting \$120M from policing budgets over two years. However, SFPD faces only an \$18M cut this year, a 2.6% decrease, and is in fact slated to receive a budget INCREASE next year! Meanwhile, the Ethics Commission is facing a 60% cut, and the public library system is facing \$19M in cuts!

We don't want police in our schools. We don't want them in our health institutions. We don't want them in our communities. We demand the police budget be slashed in half.

Thank you so much for your time. And thank you for your hard work in improving our communities.

Kind Regards,  
Sarah

**Subject:** The people of San Francisco demand SIGNIFICANT cuts to SFPD  
**Date:** Tuesday, August 18, 2020 1:35:34 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi my name is Mary Miguel and I live and work in San Francisco's district 1.

### **I am writing to demand public safety for all.**

We must defund SFPD in this year's budget cycle and redirect those funds to investments which make us ALL safe, including public health, housing, reparations for communities most targeted by policing and imprisonment such as Black, Indigenous, and People of Color, trans communities, and our unhoused neighbors.

Let me reiterate -- we demand that SFPD be defunded THIS BUDGET CYCLE. Those who tell us to wait are telling our most marginalized communities that their lives do not matter. That brutalization, suffering, and oppression does not deserve an urgent response. That equity and justice is not a right, but a privilege.

### **Police don't keep us safe.**

American policing began with slave patrols. Modern-day policing was a response to the rise of labor unions. Today, approximately 99% of SFPD calls for service are in response to non-violent issues. Most calls are related to public health, unhoused people, traffic/parking, and noise complaints.

### **Worse than that, police harm our communities.**

When the police talk about "public safety", they're speaking in code. The word "public" is not referring to marginalized communities. It's not referring to Alex Nieto, Mario Woods, Jessica Williams, or Luis Góngora Pat. It's referring to the people the system of policing was designed for. The slave owner. The union buster. The wealthy homeowner.

This is reflected not just in the lived experiences of BIPOC, trans people, and unhoused people. It's also reflected in the numbers.

- Black San Franciscans makeup only 5% of the city's population but account for 40% of police searches, 54% of our jail population, and 40% of people killed by police.
- In the fourth quarter of 2019, 76% of all uses of force by SFPD were against people of color.
- In 2019, SFPD officers pointed a gun at San Franciscans an average of 2.4 times PER DAY. Only 14 of the 868 incidents were in defense of self or others.
- After 4 years of DOJ mandated reforms, non-gun related SFPD uses of force have only decreased from 1,142 to 1,110.

### **Policing can't be reformed because it's working as intended.**

SFPD is a violent, racist, and explicitly anti-Black institution. Cal DOJ and the SFPD's implicit bias trainer recently described the level of anti-Black bias in SFPD as "extreme." This presents a clear and imminent danger to our most marginalized communities. The first step towards public safety for all is disbanding SFPD and eliminating that danger.

Disbanding SFPD is an act of harm reduction. It is just one step on the way towards achieving public safety for all. We can't be safe until EVERYONE has access to fundamental human rights -- housing, food, education, healthcare, opportunity.

DefundSFPDNow, a Black-led campaign in San Francisco, has identified at least \$295 million in SFPD line-item budget cuts as a step towards reducing the threat to public safety and reinvesting in solutions that begin building public safety.

What can you do as my elected official? Defund SFPD, reinvest in our communities, and reimagine the path to public safety that uplifts ALL San Franciscans.

Subject: Please do not further reduce the number of police officers in San Francisco.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors:

Please do not further reduce the number of police officers in San Francisco.

Crimes like burglaries and homicide are up while our police staffing is low due to a record number of retirements and resignations. Yet the movement to defund the police continues to call for even fewer police in San Francisco.

The New York Times recently featured SFPD as a model of reform. We can embrace more reforms. We can shift police calls away from situations best suited for social workers. We can value a diverse police force while ensuring they serve the community at the highest standard. This requires investment.

Arbitrarily cutting beat officers will not make SFPD better or residents safer. We still need police to protect the public and we can't forget about victims of crime.

Sincerely,  
Rachel Podlishevsky

Hello Supervisors,

Please find the attached 846 letters regarding File No. 200567 and 200568.

**File No. 200567** - Budget and Appropriation Ordinance appropriating all estimated receipts and all estimated expenditures for Departments of the City and County of San Francisco as of July 31, 2020, for the FYs ending June 30, 2021, and June 30, 2022.

**File No. 200568** - Annual Salary Ordinance enumerating positions in the Annual Budget and Appropriation Ordinance for the FYs ending June 30, 2021, and June 30, 2022, continuing, creating, or establishing these positions; enumerating and including therein all positions created by Charter or State law for which compensations are paid from City and County funds and appropriated in the Annual Appropriation Ordinance; authorizing appointments or continuation of appointments thereto; specifying and fixing the compensations and work schedules thereof; and authorizing appointments to temporary positions and fixing compensations therefore.

**To:** [Breed, Mayor London \(MYR\); BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Thursday, August 13, 2020 12:00:43 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Nicole Joe

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Wendy Mitchell

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Bart Admonius

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Carmen Gavidia

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Leonardo Cruz

As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,  
Sandy Carter

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.

**Subject:** San Francisco needs a budget for all  
**Date:** Thursday, August 13, 2020 12:31:57 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

David Libunao

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Sherri Merrick

**Subject:** San Francisco needs a budget for all  
**Date:** Thursday, August 13, 2020 12:39:30 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Adriana Ortiz

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

Since the pandemic began, we have had to speak out to get barely adequate safety plexiglass in our very cramped Bed Control office at ZSFGH. To add to the stress, the raise that had been negotiated and agreed to and that we were supposed to get on July 1st was frozen/delayed. These actions add to an environment where we don't feel that management cares.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. - 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Sonam Yangzom

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

Hi,

My names Enkhtuya Bliss, I work for San Francisco International Airport as a leading draftsperson. Guys and gals like me design and draft essential construction drawings. We are in house city workers carry lots of load, for example in my section we are short of 2-3 draftsperson, and we lack of timely training. Therefore I/we wear double hats and strive for the best. However, it's disappointing to hear that we the lower paying professionals getting the treat of layoff like nobody. Therefore I propose the following:

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are INDESPENSABLE in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. To Whom it may concern,

I am a technical engineer who works for San Francisco Public Works and am opposed to the Mayor's proposed budget.

San Francisco cannot praise frontline workers as essential one moment and then treat them as expendable in the next.

The budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers have already had to step up to continue working during these troubled times, which goes double for essential workers on frontlines of COVID-19 along with already having to give back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco,

the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Judie White

Hello supervisors,

My name is Antonio Caceres. I work for SFRPD for the Requity team. Our department has been formed to address the needs of our families living in housing project all across the city. Due to the nature of our population we have had to meet our client where they are at. This means daily visits to parts of the city hit hardest by this pandemic. I take pride in providing recreational activities for young people whose parent can not afford to enroll in summer camps. Me and my team never hesitate or question the importance of what we do, but I question whether all of you do. We stepped up when we were asked to and now we need yall to step up to represent us.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

**To:** [Breed, Mayor London \(MYR\)](#); [BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Thursday, August 13, 2020 12:52:38 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Gary Gregerson

- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Eugene Chang

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I am a Disaster Service Worker serving in the Joint Information Center within the Covid Command Center. I see the City's Situation Report every day and I create the materials the City uses to spread information about how to stop the spread of COVID-19. I am acutely aware of the dangers facing the city of San Francisco and its citizens, especially its frontline workers.

San Francisco cannot praise frontline workers as essential one moment and then treat them like they are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

**To:** [Breed, Mayor London \(MYR\); BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Thursday, August 13, 2020 1:01:29 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Pauline Harris

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Elizabeth Thacker

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Amy Vesper

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Anthony D'Acci

**Date:** Thursday, August 13, 2020 1:20:12 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I have been a nurse for the city and county at SF General for 13 years now. When I started we had support services such as phlebotomy, EKG techs, and CNAs on the floor, basic services that are common place in all other hospitals. Little by little, year by year, they have stripped essentially all supportive services and placed all those additional responsibilities on the nurses. We have travel nurses that think it's remarkable that they have to do everything and have zero CNAs to at least help feed and clean patients. I have been mortified to have to tell a patient that they have to sit soiled until I can find someone to assist me, usually another nurse with their own patient load or the charge nurse that moonlights as a nursing assistant during her shift.

The decrease in quality of care and the amount of stress and burnout we have been experiencing, even before the pandemic, stretched beyond the nursing staff. Every department, except administration, is short staffed. When we have a bed break down and need a new one, when a food tray is missing, when vital supplies to do our work are out of stock, nurses are required to pick up the slack and are asked to go to different departments and even different buildings to pick up the replacement bed, the food, the gloves, etc. and leave the patients that we are assigned to care for on the unit or sit in place for a PCA coach while they run to get the items and hope that our patients don't need us because we can't leave the coach patients.

Year by year, it has already become a near impossible place to work and provide the quality of care that is not only ingrained in us and is our pride, but is also expected of us. It has become a demoralizing work environment where our good nature and professionalism is taken for granted and exploited, as stated in an opinion article for the New York Times by Dr. Danielle Ofri. As she stated, nurse's and doctor's professionalism is a resource that is seemingly infinite and free and hospitals, including SFGH have taken advantage of. But I am here to state that it is not infinite, our tanks are tapped and we are working off fumes.

To strip the resources of already strangled departments is a crime. Our staff, patients and their families deserve better. We are a dedicated group, a group that works with the disenfranchised populations of this city, the populations that others rather not work with and/or wish didn't exist was made clear to me with a statement made by a nurse at UCSF "I don't know how you work with these people" when giving report on a homeless patient being transferred to her care. It was a statement that has left a lasting impression on me. We treat them like the humans they are. It's the type of treatment they don't get from many, apparently, including in healthcare. We bring our patients food, donate clothing, bring books and magazines, come in on our days off to bring in these resources. We frequently get verbally and physically assaulted. Yet we remain dedicated to our patients even though we have chronically felt unappreciated and replaceable.

It's time that that dedication is emulated by the city and administration to their staff that day-in and day-out sacrifice so much not only emotionally and physically, but now also by putting our lives on the line. Something that is not done by those sitting in an office or with the ability to zoom conference in their work.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

1.) Tap into the city's rainy day and reserve funds.

2.) Curtail expensive contracting- and granting-out.

R

3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a of over \$560 million in annualized vacant budget positionse.

result

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

James Catarius

I appreciate my work and hope you do to. Pandemic or not we are on the job. Please help us be able to live adequately in the Bay Area. I only ask for what we earn-our take home pay after all taxes and discounts is about half of what we Earn on paper. Please pay us our cost of living increase, we are only trying to make ends meet like everyone else.

Yours sincerely,  
Monica Martinez

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Justine Sibuyan

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Desiree Perez

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Sarah Takapu

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Ryan Nebres

As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Latara Thomas

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,  
Patricia Arreola

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Guiqin Zhang

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Angelina Tong

**From:** [Gerald Booker](#)  
**To:** [Breed, Mayor London \(MYR\); BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Thursday, August 13, 2020 4:59:28 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Gerald Booker

- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Hector Mero

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

Dear Mayor:

It's time to ensure that the real

Front line workers are taken care of such as doctors nurses staff at SFGH.

As for myself and many of my direct and indirect reports at SFO facilities/ custodial / we are stealing city money at this time. Yes we come to work. My work day is not productive at this time. From high passenger counts of 80 thousand a day to 11 thousand is the number you need to understand. Minimal passenger counts means less cleaning hours are needed to maintain SFO high standards of pre and post COVID-19 hygiene cleanliness and safety for passengers and fellow staff.

At SFO we are well paid maintaining our paycheck is desired. To request that the City break into emergency / rainy day funds is premature.

I applaud governor Newsom

and mayor London Breed leadership during the pandemic it has been a model of precaution and care for all San Francisco residents.

What is important ? Children can return to school safely, that local businesses reopen that tourist return to SF.

As for my personal wishes it would be that my work day is fulfilling, that incentives be proposed for those wishing to retire, that enterprises such as SFO and the Union work together to bring dignity to all workers. Dignity being defined is an honest days work. I also have noticed that SEIU has not offered to lower defer my substantial Union dues, when will SEIU do their part ?

We need the Board of Supervisors to take the necessary steps to protect every resident of San Francisco, not only for today but with foresight into 2023 or beyond.

Yours sincerely,

Richard Deutman

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Sandra Schlechter

- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.
- 4.) Reallocate funding from SFPD and the Sheriff's Department. Defund SFPD Now has outlined 37 line item cuts totaling \$296 million that should be made to SFPD's budget.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions. In spite of our sacrifice, many of us are relegated to "temporary" status, ineligible for benefits, though we've been doing the same job for years. I spend my days serving the youth and elders of San Francisco. All I ask in return is a living wage and guaranteed healthcare, for me and my fellow workers.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face

of a dangerous pandemic.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next. What we're learning is the important roll that essential workers are playing in response to the COVID-19 spread. Instead of calling us 'essential workers' we should be known as "at-risk workers"; "vulnerable workers". The dangers we face warrant recognition. We not only want our wages, we want legislative workers rights and protections that demonstrate a gratitude toward our service. We aren't heroes to be applauded, there's nothing 'heroic' about the grim reality of economic survival.

The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
  
- 2.) Curtail expensive contracting- and granting-out.
  
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services. We need to divest power from the growing technocracy, privatized companies, and governmental institutions, and siphon it back into the hands of the laborer.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

timothy leauropepetele

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Kim McNeSe

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.

**Subject:** San Francisco needs a budget for all  
**Date:** Thursday, August 13, 2020 10:24:02 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi,

My name is Steven Huey and I have always been proud to be San Franciscan since birth. I've always appreciated how hard working our public workers were to keep San Francisco one of the most beautiful cities to live in or visit. About four years ago, I joined San Francisco Public Works (BOE, HYD) and realized how many workers it takes to run a city, especially after volunteering for the EOC (planning dept) during this pandemic. To hear that Mayor London Breed is threatening to cut jobs to San Francisco public workers is an outrage especially since we have a surplus of \$1 billion stacked away for such an event like this... I can say that my colleagues and I work tirelessly to keep San Francisco running and we do not deserve to be threatened like this...

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Megan Papedo

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

As someone who has worked tirelessly for years to ensure that youth, adults and seniors have opportunities for art experiences through classes provided by our talented and dedicated staff, i feel it is a detriment to our city to lose sight of the health benefits that art has on the well being of people. We all need creative outlets if expression to balance the stressors of life and bring value to and understanding to our place in the world. Cuts to the SF Recreation and Parks Department directly affects cuts to recreation and limits our ability to serve the families of our city. this is a mental health issue, as it has been proven that art and recreation provide vital

outlets for well-being. We have been building our capacity to serve the most vulnerable and provide access to recreation for families in our city's equity zones. We do not want to neglect our residents.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. **From:** [Elio West](#)  
**To:** [Breed, Mayor London \(MYR\); BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Friday, August 14, 2020 7:19:53 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Sincerely,

Elio West

**Subject:** San Francisco needs a budget for all  
**Date:** Friday, August 14, 2020 8:20:08 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

As a Disaster Service Worker at the Food Bank I have come face to face with the crisis that this pandemic has caused. Day after day thousands of San Franciscans line up for hours for a bag of groceries, Day after day we pack thousands of bags for seniors who cannot leave their homes. It has been shocking to witness the extent of the need.

Feeding San Francisco is essential work. It has been a privilege to do it. I don't expect praise, though praise has liberally been given. But San Francisco cannot praise frontline workers as essential one moment and then treat us as if we are expendable the next.

That is what the Mayor's proposed budget does. In assuming that we will further defer our raises, the Mayor is not only trying to balance the budget on our backs, she is arrogantly ignoring the fact that we have a legal contract.

That contract specifies that in the event of a budget deficit we will defer our July raise until December. We have done that, and saved the City \$50 million this year. Our disaster service work is also bringing in FEMA dollars. More than that, we have put countless hours of sweat equity into saving our City. The Mayor rightly points out that San Francisco has done a good job. Well, who has done that job? We have kept our side of the contract, and more. Now it is time for the Mayor to keep hers.

In her July 31 presser the Mayor claimed that no public employee had lost their job. That may technically be true, but not all employees are getting paid. Some have had to sign up for unemployment benefit. Some have had to take early retirement. This has not been an easy time for any of us, as we have tried to balance the requirements and risks of frontline work with our personal health and family needs.

Looking forward, San Francisco is going to need its public employees to provide the services that will carry us through the pandemic. The Mayor rightly wants to address the disproportionate impact of COVID-19 on communities of color. How is she going to do that without us? Why is she threatening to lay us off?

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.

2.) Curtail expensive contracting- and granting-out.

3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

**From:** [Shirley Boado](#)  
**To:** [Breed, Mayor London \(MYR\); BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Friday, August 14, 2020 8:37:29 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Loran Hollander

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

**Subject:** San Francisco needs a budget for all  
**Date:** Friday, August 14, 2020 8:52:54 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Mongkol Mahavongtrakul

As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Ying Wu

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.

Dear Mayor London Breed,

I find it in poor form to take away my colleagues and my raises. We can hardly afford to live and thrive in Bay Area. My colleague Susan worked for five years to negotiate this raise.

Your decision is undermining the livelihood of individuals and families.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

**From:** [Trina Hill](#)  
**To:** [Breed, Mayor London \(MYR\); BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Friday, August 14, 2020 9:36:00 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Trina Hill

- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Paulita Valera

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Gemma Mirkinson

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

michael daly

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider FOUR steps that avoids the crushing, harmful austerity that our community cannot endure:

1.) Tap into the city's rainy day and reserve funds. CITY WORKERS HAVE GIVEN THOUSANDS OF MUCH NEEDED INCOME DURING MAYOR NEWSOME'S TERM IN OFFICE TO KEEP THE CITY AFLOAT.

2.) Curtail expensive contracting- and granting-out.

3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services. REQUIRE THESE CORPORATIONS TO RESIDE WITHIN THE CITY.

4.) INVEST IN BUSINESSES WHICH ARE RESIDENTS OF THE CITY OF SAN FRANCISCO. THE REVENUE GENERATED BY IN HOUSE BUSINESSES RETURN BACK TO THE CITY. REDUCE USAGE OF THIRD PARTIES RESIDING IN OTHER STATES.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

A.J. Thomas

**Subject:** San Francisco needs a budget for all  
**Date:** Friday, August 14, 2020 2:31:47 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Timothy Johnston

**From:** [Robin Hansen](#)  
**To:** [Breed, Mayor London \(MYR\)](#); [BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Friday, August 14, 2020 2:40:03 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

In the last 4 years, my work load has tripled due to lack of CCSF hiring and it has become very stressful. I have worked above and beyond to keep up with the multiple design build construction projects. To add insult to injury, SFO has hired multitudes of outside contractors that lack a lot of airport specific knowledge. This is turning me into a trainer of outside consultants who are being paid by the city for knowledge they do not possess. This takes an enormous amount of time to get these people up to speed only to have them disappear when the project is over. Often they leave work incomplete or with flaws not readily apparent until they have taken their money and gone.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out. Especially at SFO!
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the

Dear Board of Supervisors,

I respectfully request that you vote no on the Mayor's proposal to waive City workers' wage increases for the next two years and to vote no on City worker lay-offs.

City workers are essential. Since the pandemic began, City workers have stepped up to continue to provide essential services out in the field to the citizens of San Francisco at great personal risk to their own lives and to those of their families and communities.

City workers are making sacrifices. Their July raises have already been postponed to December, 2020, thereby saving the City some \$55 million.

If you waive raises, if you lay workers off, you will put the City's economy, the Bay Area's economy at additional peril. When people have less money, they spend less, so local businesses have even less revenue; they shut down and more unemployment results. Even pre-pandemic, City workers were struggling financially. Waiving raises for the next two years and/or laying workers off would only make things worse, putting City workers and their families at risk of becoming homeless and stifling the local economy even more.

There is a solution. Open the rainy day funds. During this perilous period, that is just what they are for.

Please acknowledge the worth of City workers. Please do not cut services to the citizens of San Francisco. Please vote no on waiving City worker raises. Please vote no on layoffs. Please open the rainy day funds for the good of San Francisco.

Thank you very much for your consideration.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,  
Roberto Lopez

As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Matthew Greene

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.

**From:** [Bibi Tucker](#)  
**To:** [Breed, Mayor London \(MYR\); BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Saturday, August 15, 2020 12:51:13 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Bibi Tucker

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,  
Tak Hou Fong

Dear SF Board of Supes:

San Francisco cannot praise frontline workers as essential one moment and then treat us as expendable in the next. The idea of the City putting off raises for lengthy periods, when we did our part to voluntarily put them off, is downright disrespectful. We have rent to pay, we have bills, we have families to support.

The Mayor's budget attempts to balance the budget on the backs of public employees, many of us people of color, many of us risking our lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services!

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Gregory Hom, Librarian and deployed DSW worker

I have responded in good faith with CCSF as I have been deployed to 3 DSW assignments so far: Food Bank worker, Site Monitor at emergency housing, and currently, Contact Tracer with DPH. San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,  
Yael Schwartz

Clerk, SEND TO SUPERVISORS Fewer, Ronen, Yee, Mandelman, and Walton.

It is beyond obvious that after the public waited 10 hours to speak, and have our time reduced to 1 minute, we look at our so-called representatives reading, eating and obviously not listening.

Don't you know you paid to at least act like you care?

In truth, Magick

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

During the COVID-19 shelter-in-place, I was deployed as a Disaster Service Worker, where I interacted directly with SF residents who were quarantined because they had been infected. When I came home every night, I worried that I might transmit the disease to my family.

San Francisco government cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next. Yet the budget submitted by the Mayor's office on July 21 does not ensure that we will be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

I have been working as a DSW since this April doing community outreach and education.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. After the new fiscal year (July 6th, 2020 ), my (and other colleagues') working hours are cut off from 40 hours to 20 hours, cause I am a part-time employee of the city. It is also frozen our wages raise. This kind of cutting is not only unsecure my family, also make the DSW assignment harder to catching up the situation changing in this COVID-19 pandemic. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves which originally designed for using in situations like this COVID-19 pandemic, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

**Date:** Monday, August 17, 2020 10:20:45 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Kevin MacMillan

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make ensure that wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, resultant global recession and systemic racism. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Ron Sheredy

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Shahram Sabaghpour

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,  
Jane Wan

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

**Subject:** San Francisco needs a budget for all  
**Date:** Monday, August 17, 2020 11:37:27 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services. I am a retired Public Health Nurse and did some disaster service work following the 1989 earthquake and some bad weather mobilizations at shelters but it was not as long standing as the current COVID-19 pandemic. I did learn that it is important to listen to those on the front lines since they often know first hand what the issues are and I have seen cutbacks over the years while the super rich and corporations were given tax breaks. We need to correct that trend and support those doing the essential work and we citizens who depend on that work.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.

**Date:** Monday, August 17, 2020 11:39:51 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Winy Saputra

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Dorys Lorio

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Karl Johnson

I've recently moved from District 6. I'm a worker behind the scenes on mapping server infrastructure in the Department of Technology.

The budget submitted by the Mayor's office on July 21 attempts to balance the budget on the backs of the public workers. This is not OK as we work to ensure continuity of City services.

There is another path forward. The City has reserves, thousands of vacancies not yet frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, I urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

Dear Supervisors & City Leaders,

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

I work in the San Francisco Police Department Technology Division. Our team is already understaffed in supporting both sworn & civilian staff during this extraordinary crisis. Any budget cuts would have a lasting & devastating impact to our ability to provide our officers & staff with the technology platforms they need to do their jobs.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

We do not want postpone our raise again due to the rise of living costs in San Francisco. We had postpone our raise in July 2020 to end of this year. Postponing another raise would be devastating to our members. Some of member's family members has lost job or cut hours. Their income is important to their household. My income is important to me to support my parents who lost their job at a restaurant due to covid 19. Also my work department have a budget cut and freeze job hires. I do appreciate having a job and having a great union to stand with their members and support members through this difficult time. Please reconsider not postponing our raise.

**Subject:** San Francisco needs a budget for all  
**Date:** Monday, August 17, 2020 2:19:41 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Elizabeth Nakagoshi

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hi my name is Arvel Hernandez and I have lived in San Francisco for 15 years and worked in San Francisco for 13 years.

I am writing to demand public safety for all.

We must defund SFPD in this year's budget cycle and redirect those funds to investments which make us ALL safe, including public health, housing, reparations for communities most targeted by policing and imprisonment such as Black, Indigenous, and People of Color, trans communities, and our unhoused neighbors.

Let me reiterate -- we demand that SFPD be defunded THIS BUDGET CYCLE. Those who tell us to wait are telling our most marginalized communities that their lives do not matter. That brutalization, suffering, and oppression does not deserve an urgent response. That equity and justice is not a right, but a privilege.

Police don't keep us safe.

American policing began with slave patrols. Modern day policing was a response to the rise of labor unions. Today, approximately 99% of SFPD calls for service are in response to non-violent issues. Most calls are related to public health, unhoused people, traffic/parking, and noise complaints.

Worse than that, police harm our communities.

When the police talk about "public safety", they're speaking in code. The word "public" is not referring to marginalized communities. It's not referring to Alex Nieto, Mario Woods, Jessica Williams, or Luis Góngora Pat. It's referring to the people the system of policing was designed for. The slave owner. The union buster. The wealthy homeowner.

This is reflected not just in the lived experiences of BIPOC, trans people, and unhoused people. It's also reflected in the numbers.

- Black San Franciscans make up only 5% of the city's population, but account for 40% of police searches, 54% of our jail population, and 40% of people killed by police.
- In the fourth quarter of 2019, 76% of all uses of force by SFPD were against people of color.
- In 2019, SFPD officers pointed a gun at San Franciscans an average of 2.4 times PER DAY.

Only 14 of the 868 incidents were in defense of self or others.

- After 4 years of DOJ mandated reforms, non-gun related SFPD uses of force have only decreased from 1,142 to 1,110.

Policing can't be reformed because it's working as intended.

SFPD is a violent, racist, and explicitly anti-Black institution. Cal DOJ and the SFPD's implicit bias trainer recently described the level of anti-Black bias in SFPD as "extreme." This presents a clear and imminent danger to our most marginalized communities. The first step towards public safety for all is disbanding SFPD and eliminating that danger.

Disbanding SFPD is an act of harm reduction. It is just one step on the way towards achieving public safety for all. We can't be safe until EVERYONE has access to fundamental human rights -- housing, food, education, healthcare, opportunity.

DefundSFPDNow, a Black-led campaign in San Francisco, has identified at least \$295 million in SFPD line item budget cuts as a step towards reducing the threat to public safety and reinvesting in solutions that begin building public safety.

What can you do as my elected official? Defund SFPD, reinvest in our communities, and reimagine the path to public safety that uplifts ALL San Franciscans.

We are not asking for chaos.

Chaos is responding to someone experiencing a mental health crisis with a gun and combat training instead of care and services.

Chaos is stopping a Black driver for a broken tail light to threaten and harass them instead of offering to replace the light.

Chaos is spending \$23 million a year on police units that criminalize poverty instead of providing housing and opportunity.

We are not asking for chaos. We are asking that you be reasonable.

Defund SFPD, Defund Sheriffs, refund our communities, and reimagine the path to public safety.

Thank you for your time,

Arvel Hernandez  
703 Haight St.  
San Francisco, CA  
94117

(562) 230-9906

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Edward Ho

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

David Chan

**Subject:** San Francisco needs a budget for all  
**Date:** Tuesday, August 18, 2020 2:41:46 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Daniel Lam

As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

HUNG PHAM

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.

**To:** [Breed, Mayor London \(MYR\)](#); [BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Tuesday, August 18, 2020 4:16:09 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Cathy Sulli

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Tim Coné

**From:** [Al Barber](#)  
**To:** [Breed, Mayor London \(MYR\)](#); [BOS-Supervisors](#)  
**Subject:** Good Day SF Supervisors, As you know San Francisco needs a budget for ALL, not just "the few" ... we've prepared for this "rainy day" and now it's time to use those funds.  
**Date:** Wednesday, August 19, 2020 8:23:52 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Good Day SF Supervisors,

I hope you are having an AWESOME & AMAZING day in the Bay like myself and all is well with you and your families.

My name is Al Barber and I am a Real Property Appraiser in the Assessor Recorders Office. My IFPTE Local 21 colleagues and I are responsible for completing commercial and residential real property tax assessments and defending these valuations on an annual basis which generates over a third of the revenue for the City and County of San Francisco and its residents. With the anticipated passage of Prop 15 "Schools & Communities 1st", we Real Property Appraisers will be instrumental in generating additional revenue for the City's budget by reassessing commercial properties benefiting from Prop 13 so that large corporations that have NOT paid their fair share in over 50 years will help fund San Francisco's public schools and communities. It is estimated that the work of our Local 21 IFPTE Members alone will contribute an estimated \$895 BILLION to the City's Budget!!!

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

Yes, these are unprecedented times, but our preparedness from lessons learned in the past has been met with this opportunity we are now faced with acting upon.

As you know San Francisco needs a budget for ALL, not just "the few". We've prepared for this "rainy day" and now it's time to use those funds.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoid the crushing, harmful austerity that our community cannot endure:

1.) Tap into the city's rainy day and reserve funds.

2.) Curtail expensive contracting- and granting-out.

3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Al Barber

Real Property Appraiser

Assessor-Recorders Office

P.S. We are working harder now, more than ever to help this city and its residents survive and thrive. So, please don't forget about those that make the city "go round and round" ... there's strength in numbers and we are all in this together.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

K C

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

Eric Hill  
Park Section Supervisor  
Lake Merced Complex

The Lake Merced Complex has seen an increase in activity, positive and negative. We have seen many families and individuals visit our parks to enjoy what they can during these very difficult times. This has, unfortunately, created a deeper impact on me and my crew as we try to keep our parks safe, clean, and green. We have seen an increase in homelessness, garbage, and dumping. This, we address diligently, in addition to our gardening responsibilities.

We stretch ourselves thin to steward park property and support park visitors. It is taking a physical and psychological toll.

We know it's going to get worse before we see any improvement, so we surely need your leadership.

Please work to find a better way of solving this budget problem. Help us do our jobs. Let us know that we are appreciated.

Thank you

**From:** [Daniel FEERICK](#)  
**To:** [Breed, Mayor London \(MYR\)](#); [BOS-Supervisors](#)  
**Subject:** San Francisco needs a budget for all  
**Date:** Wednesday, August 19, 2020 12:59:32 PM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Daniel FEERICK

I'm an SF native and proud to serve my community. I've already been displaced during this pandemic and am struggling to house myself. I should be able to afford to live in the city I love and serve. Hearing that the Mayor is taking away our raises is a huge disappointment. Shame on her. As an essential City worker I've been showing up and working hard since this whole pandemic has started putting myself and my loved ones at risk because that's what I signed up for and we (SF workers) can be counted on.

Ms Breed: why can't we count on you to honor your contracts? Trust me, we vote. And so do our families and friends. WE are SF. As highest paid Mayor in the United States you should either figure this our or lead by example an take a pay cut.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

I am a front line worker at Larkin Street Youth Services. I work with San Francisco's homeless youth and foster an environment in a home where they are safe from COVID 19 on the streets and the wild fire season. It is vital that the Board of Supervisors provide a budget that supports front line works in this treacherous time.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Dimitri Stavrakis

Board of Supervisor Members,

I hope for you and your families' health and safety as we collectively experience multiple crisis. I write to urge you to take the steps outlined below to support the workers that have kept our city moving during these intertwined crises.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Samantha Yee

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Joseph Huelfenhaus

- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

City workers, in addition to risking our lives every day on the frontlines of COVID-19, have already given back tens of millions in scheduled raises. We are doing more with less each and every day as a result of over \$560 million in annualized vacant budget positions.

San Francisco is reeling from the impacts of a global pandemic, systemic racism, and an economy that favors the wealthy. We need the Board of Supervisors to take these necessary steps to protect every resident of San Francisco, the vital public services we all benefit from, and the dedicated workers who serve our residents each day in the face of a dangerous pandemic.

Yours sincerely,

Matt Swagler

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

There is another path forward. The City has over \$1 billion in reserves, thousands of vacancies yet to be frozen, and federal aid on the way. As the Board of Supervisors deliberates on the next budget, we urge you to consider three steps that avoids the crushing, harmful austerity that our community cannot endure:

- 1.) Tap into the city's rainy day and reserve funds.
- 2.) Curtail expensive contracting- and granting-out.
- 3.) Support initiatives to make sure billionaires and wealthy corporations pay their fair share to fund public services.

San Francisco cannot praise frontline workers as essential one moment and then treat us like we are expendable in the next.

I work as a City gardener for SF Public Works. Our work is considered essential as we perform vital sanitation and public safety functions, cleaning up trash and removing hazardous materials from public right of ways. Our work is hard and dirty but we show up every day because we take pride in our City. Working out in the public during the pandemic has been stressful but we know it has to be done and we are grateful to have our jobs.

But the budget submitted by the Mayor's office on July 21 doesn't ensure that we'll be able to address the disproportionate impact of COVID-19 on communities of color. It instead attempts to balance the budget on the backs of the public workers risking their lives to provide disaster services.

DATE: August 12, 2020

TO: STATE, CITY AND LOCAL OFFICIALS

**NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO CHANGE RATES FOR ITS GT&S CAPITAL EXPENDITURES APPLICATION (A.20-07-020)**

RECEIVED  
BOARD OF SUPERVISORS  
SAN FRANCISCO  
2020 AUG 18 AM 9:18  
BY 

**Acronyms you need to know**

**PG&E:** Pacific Gas and Electric Company

**CPUC:** California Public Utilities Commission

**GT&S:** Gas Transmission & Storage

**Summary**

On July 31, 2020, PG&E filed its GT&S Capital Expenditures Application with the CPUC. The application requests \$410 million in revenue related to investments in GT&S facilities made during the years 2011-2014. If approved, PG&E will collect this amount in gas rates beginning April 2021.

**Background**

"Capital expenditures" is an accounting term describing a type of cost spent on projects that are necessary to safely operate and maintain PG&E's utility system. In 2016, the CPUC ordered a review of the reasonableness of certain GT&S capital expenditures incurred by PG&E between 2011-2014. The review was completed in June 2020 and PG&E is now requesting recovery of the costs found reasonable.

PG&E is proposing to spread most of the increase over 36 months, or 3 years, to minimize the impact to customer rates.

**How will the application affect gas rates?**

Bundled gas customers receive transmission, distribution, and procurement services from PG&E.

Based on rates currently in effect, the gas bill for a typical residential customer averaging 32 therms per month would increase from \$53.81 to \$55.02, or \$1.21 and 2.23% in 2022.

Detailed rate information will be sent directly to customers in a bill insert during August and September. Actual impacts will vary depending on usage and are subject to CPUC regulatory approval.

**CPUC process**

This application will be assigned to a CPUC Administrative Law Judge, who will consider proposals and evidence presented during the formal hearing process. The CPUC Administrative Law Judge will issue a proposed decision which may adopt PG&E's application, modify or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding are currently reviewing PG&E's application, including the Public Advocates Office, which is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information, please call **1-415-703-1584**, email **PublicAdvocatesOffice@cpuc.ca.gov** or visit **PublicAdvocates.cpuc.ca.gov**.

Your participation by providing your thoughts on PG&E's request can help the CPUC make an informed decision.

**Where can I get more information?**

**CONTACT PG&E**

If you have questions about PG&E's filing, please contact PG&E at **1-800-743-5000**. For TTY, call **1-800-652-4712**. Para obtener más información sobre cómo este cambio podría afectar su pago mensual, llame al **1-800-660-6789** • 詳情請致電 **1-800-893-9555**.

If you would like a copy of the filing and exhibits, please write to the address below:  
Pacific Gas and Electric Company  
GT&S Capital Expenditures Application 2011-2014 (A.20-07-020)  
P.O. Box 7442  
San Francisco, CA 94120

## NOTICE OF FINAL DETERMINATION TO APPROVE A PERSONAL WIRELESS SERVICE FACILITY SITE PERMIT

London N. Breed  
Mayor

Alaric Degrafinried  
Acting Director

Edward Yee  
Acting Bureau Manager

Street-Use and Mapping  
1155 Market St., 3rd floor  
San Francisco, CA 94103  
Tel 415-554-5810

sfpublicworks.org  
facebook.com/sfpublicworks  
twitter.com/sfpublicworks

Application No.: 20WR-00013

Applicant Name: **Pacific Bell Company (AT&T Mobility)**

Location: 100 CLEMENT ST

San Francisco Public Works has finally approved the above-referenced Application for a Personal Wireless Service Facility Site Permit in the vicinity of 100 CLEMENT ST submitted by **Pacific Bell Company (AT&T Mobility)**.

The antenna and other equipments to be installed at this location include: One (1) 4G antenna and equipment enclosures (radios, meter, and disconnect switch). A photo-simulation of the approved Personal Wireless Service Facility is attached hereto.

Public Works has made a determination that the Application satisfied the applicable requirements of the Public Works Code. The final approval includes the following condition(s):

### San Francisco Public Works Conditions:

1. This recommendation is based on no variation from the depicted drawings and/or photo simulation; if a variation is different a re-submittal is required. Should the installation vary from said conditions, it should be resubmitted to Department(s) for further review and comment
2. New Poles: no new poles shall be erected or placed in underground districts.
3. Down Guys: Follow all excavation codes to obtain the necessary permits for placement of down guys. Down guy shall avoid crossing conflicting areas but not limited to driveways, curb ramps.
4. Comply with ADA code requirements for Federal, State, local laws. Make sure path of minimum required clear width for accessible path of travel is four feet.
5. At the conclusion of the work, provide a set of as built photos of the installation to the Bureau Street Use & Mapping Permit Office.
6. Maintain a valid certification of insurance annually and forward a copy to the Bureau Street Use & Mapping Permit Office.

### San Francisco Department of Public Health Conditions:

- Ensure that any equipment associated with the pole installation of this antenna does not produce a noise in excess of 45 dBA as measured at three (3) feet from the nearest residential building façade.

RECEIVED  
BOARD OF SUPERVISORS  
SAN FRANCISCO  
2020 AUG 18 AM 9:46  
BY 

- Ensure that there are no publicly occupied areas within four (4) feet from the face of the antenna.
- Once the antenna is installed, AT&T must take RF power density measurements with the antenna operating at full power to verify the level reported in the Hammett and Edison report and to ensure that the FCC public exposure level is not exceeded in any publicly accessible area. This measurement must be taken again at the time of the permit renewal.
- AT&T should be aware that the general public may have concerns about the antenna and potential RF source near their dwellings. AT&T should have in place a procedure for taking RF power density levels in nearby dwellings when requested by the members of the general public.
- In accordance with the San Francisco Public Works Code, Art. 25, Sec. 1527 (a)(2)(C) AT&T is responsible for paying a fee of \$210.00 to the San Francisco Department of Public Health for this review.

Please note that this approval and any conditions apply only to the equipment and installation as described. If any changes in the equipment or any increase in the effective radiated power described above are made, a new review by the Department of Public Health must be conducted.

#### San Francisco Planning Department Conditions:

1. Plant and maintain an appropriate street tree.
2. No exposed meter, meter pan or meter pedestal may be used.
3. Antenna, and all equipment (external conduit, radio relay units, blinders used to shroud bracket bolts [if needed], and mounting mechanisms); except signage, if used for screening, shall all be painted to match the pole and repainted as needed.
4. Cabling below radio relay units shall enter the pole with no more than a five-inch gap between bottom of each radio relay unit and the bottom of the corresponding entry hole on the pole. Conduit connection at pole entry points shall utilize the smallest fitting sizes available. Sealing compounds, if utilized, shall be tidy without excess bubbling and painted to match pole.
5. Remove raised equipment signage (including filling in manufacturer logo indentations on radio relay units/cabinets) and equipment decals that may be visible from sidewalk and dwellings, unless required by government regulation.
6. Utilize smallest RF warning signage allowed (4 x 6 inches); and place the warning sticker facing out toward street, at a location as close to antenna as is feasible. Sticker shall face away from street, when not facing a nearby window within 15 feet. Background color of sticker shall match the pole-mounting surface; and logo and text shall be white.
7. Stack equipment enclosures (not including antenna) as close as allowed by applicable regulation and manufacturer equipment standards.
8. Seams and bolts/screws at antenna and shroud assembly area shall be fabricated and installed in a manner so as to reduce their visibility (e.g. flush mounting screws) from sidewalk level.

9. Not utilize any visible flashing indicator lights or similar.
10. Not obstruct the view from, or the light into any adjacent residential window.
11. New below ground enclosure excavations (vault), if utilized, shall not damage or remove granite curbs. No significant gaps shall be created between vault enclosure lid and primary sidewalk material due to installation. Any other existing historic architectural elements within the public right-of-way shall be retained and protected during installation. No carrier logo or carrier name may be placed on the vault lid.
12. Non-essential radio relay unit elements (handle and legs) shall be removed.
13. The installer shall arrange to have Planning Department staff review the initial installation, in order to ensure compliance with the aforementioned conditions (notwithstanding inspections by pole owner and Department of Public Works).
14. Ensure Wi-Fi Access Points and associated wiring, utilized by the City's Department of Technology, are not damaged during installation (if present).
15. Should the installation vary from said conditions, the application shall be resubmitted to the Planning Department for further review and comment.

Within fifteen (15) calendar days of the issuance of this notice, any person may appeal the issuance of this permit to the Board of Appeals. Appeals must be filed in person by either the appellant or the appellant's agent. Generally, the Board of Appeals requires that an appointment be made to file an appeal. For further information regarding the appeal process, or to schedule an appointment, please contact the Board of Appeals in person at 1650 Mission Street, Suite 304 or call 415-575-6880.

Please visit [sfgov.org/bdappeal](http://sfgov.org/bdappeal) for any changes regarding filing an appeal.

An appeal must be based on one or more of the following grounds:

1. The Department of Public Health incorrectly determined that the Application complies with the Public Health Compliance Standard (Public Works Code § 1507(b)).
2. The Application does not meet the applicable Compatibility Standard for the following reason(s):
  - a. The Planning Department incorrectly determined that the Application meets the applicable Compatibility Standard (see Public Works Code § 1509(b)).
3. The Application does not comply with any other requirement for obtaining a Personal Wireless Service Facility Site Permit.

To obtain additional information concerning the Application and final approval you may contact Jennifer Haas of AT&T Mobility at (415)475-8001 or [jhaas@modusllc.com](mailto:jhaas@modusllc.com). You may also contact San Francisco Public Works at 415-554-5810.

[twitter.com/sfpublicworks](https://twitter.com/sfpublicworks)

Blg. ng Aplikasyon: 20WR-00013

Pangalan ng Aplikante: **Pacific Bell Company (AT&T Mobility)**

Lokasyon: 100 CLEMENT Street

Naprubahan sa wakas ng San Francisco Public Works ang Aplikasyon sa itaas para sa Permiso ng Personal na Wireless Service Facility Site malapit sa 100 Clement Street isinumite ni **Pacific Bell Company (AT&T Mobility)**.

Ang antena at iba pang kagamitan na i-install sa lugar na ito ay kasama ang: 1 antena 4G at kagamitan enclosures (radios, metro, at idiskonekta switch). Naka-attach dito ang isang de-letratong simulation ng inaprubahang Personal Wireless Service Facility.

Pagawaing Bayan na natugunan ng Aplikasyon ang mga angkop na kinakailangan ng Kodigo ng Pagawaing Bayan: Kasama sa huling pag-apruba ang (mga) sumusunod na kondisyon:

## Mga Kondisyon ng Pagawaing Bayan ng San Francisco:

1. Ang rekomendasyong ito ay batay sa walang pagbabago mula sa inilarawang mga guhit at/o de-letratong simulation; kung ang pagbabago ay iba, ang muling pagsusumite ay kinakailangan. Kung iba man ang paglalagay mula sa mga nasabing kondisyon, kailangan itong isumite muli sa (mga) Kagawaran para sa higit pang pagsusuri at puna
2. Mga Bagong Poste: walang bagong poste ang dapat itayo o ilagay sa mga underground na distrito.
3. Mga Down Guy: Sundin ang lahat ng kodigo sa paghuhukay upang makuha ang mga kinakailangang pahintulot para sa paglalagay ng mga down guy. Dapat iwasan ng down guy ang pagtawid sa mga di-akmang lugar kasama ang, ngunit hindi limitado sa, mga daanan ng sasakyan at mga ramp sa gilid ng bangketa.
4. Sumunod sa mga iniaatas ng kodigong ADA para sa mga Pederal na batas, batas ng Estado, o lokal na batas. Tiyaking ang daan na pinakamababang kinakailangang lapad para sa accessible na daan sa paglalakbay ay apat na talampakan.
5. Sa pagtatapos ng trabaho, magbibigay ng isang set ng mga ginawang litrato ng installation para sa Bureau Street Use & Mapping Permit Office.
6. Magpanatili ng isang may bisang sertipikasyon ng kasiguraduhan taun-taon at magbigay ng isang kopya sa Opisina ng Pagpapahintulot ng Kawanihan ng Paggamit ng Kalsada at Pagmamapa.

#### Mga Kondisyon ng Kagawaran ng Pampublikong Kalusugan ng San Francisco:

- Sisiguruhing anumang kagamitang may kinalaman sa paglalagay ng poste ng antenang ito ay hindi gagawa ng ingay na lampas sa 45 dBA na sinukat sa layong tatlong (3) talampakan mula sa pinakamalapit na harapan ng tinitirahang gusali.
- Siguruhin na walang mga okupadong pampublikong lugar na may layong apat na (4) talampakan mula sa harapan ng antena.
- Sa oras na mailagay ang antena, kinakailangang kumuha ang AT&T ng mga RF na sukat ng power density habang ang antena ay ganap na tumatakbo nang buong lakas upang masuri ang antas na inulat sa ulat ng Hammett at Edison at upang matiyak na ang FCC na antas ng public exposure ay hindi higit sa anumang lugar na napupuntahan ng publiko. Kailangang kunin ulit ang sukat na ito sa oras ng pag-renew ng permiso.
- Kinakailangang alam ng AT&T na ang publiko ay maaaring may mga alalahanin tungkol sa antena at ang potensiyal na pagmumulan ng RF source na malapit sa kanilang mga tirahan. Ang AT&T ay kinakailangang may paraan sa pagkuha ng mga RF na antas ng power density sa mga kalapit na tirahan kung hiniling ng mga miyembro ng publiko.
- Alinsunod sa San Francisco Public Works Code, Art. 25, Sec. 1527 (a)(2)(C) Responsable ang AT&T sa pagbabayad ng halagang \$210.00 sa San Francisco Department of Public Health para sa rebisyong ito.

Pakitandaan na ang pag-aprurang ito at anumang kondisyon ay nalalapat lamang sa kagamitan at paglalagay tulad ng inilarawan. Kung may ginawang anumang pagbabago sa kagamitan o anumang pagtaas sa epektibong radiated power na inilarawan sa itaas, kailangang isagawa ng Kagawaran ng Pampublikong Kalusugan ang isang bagong pagsusuri.

#### Mga Kondisyon ng Kagawaran ng Pagpapalano ng San Francisco:

1. Magtanim at magpanatili ng naaakmang puno sa kalsada.
2. Walang nakalantad na metro, meter pan o meter pedestal ang maaaring gamitin.
3. Ang antena at lahat ng kagamitan (panlabas na conduit, mga radio relay unit, mga blinder na ginagamit upang balutin ang mga bracket na trangka [kung kinakailangan], at mga mekanismo sa pagkakabit); maliban sa karatula, kung ginagamit para sa pagsasala, kinakailangang pinturahan ang lahat upang bumagay sa poste at muling pinturahan kung kinakailangan.
4. Ang mga kable sa ibaba ng mga radio relay unit ay kinakailangang dumaan sa poste nang hindi hihigit sa limang pulgadang agwat sa pagitan ng ibaba ng bawat radio relay unit at ng ibaba ng katugmang pasukang butas sa poste. Gagamitin ng koneksiyon ng conduit sa mga pasukan ng poste ang mga pinakamaliit na fitting size na available. Ang mga sealing compound, kung ginamit, ay dapat malinis nang walang labis na pagbubula at pipinturahan upang tumugma sa poste.
5. Alisin ang mga nakaangat na karatula ng kagamitan (kabilang ang pagpupuno sa mga manufacturer logo indentation sa mga radio relay unit/kabinet) at mga kagamitang decal na maaaring makita mula sa bangketa at tirahan, maliban kung iniaatas ng regulasyon ng gobyerno.
6. Gamitin ang pinakamaliit na RF na karatulang pangbabala na pinahihitulutan (4 x 6 pulgada); at ilagay ang pangbabalang sticker nang nakaharap sa kalsada, sa isang lokasyong malapit sa antena, kung maaari. Kinakailangang nakaharap malayo sa kalsada ang sticker, kung hindi nakaharap sa isang kalapit na bintana sa loob ng 15 talampakan. Dapat tumugma ang background na kulay ng sticker sa surface na pinagkakabit nito sa poste; at ang logo at sulat ay dapat kulay puti.
7. Ang mga enclosure ng stack ng kagamitan (hindi kasama ang antena) ay maaaring magkalapit hanggat maaari ayon sa nalalapat na regulasyon at mga pamantayan sa kagamitan ng manufacturer.
8. Ang mga seam at trangka/turnilyo sa assembly area ng antena at pagbabalot ay kinakailangang

gawin at ikabit sa paraang hindi nakikita ang mga ito (hal. mga flush mounting na turnilyo) mula sa lebel ng bangketa.

9. Huwag gumamit ng anumang nakikitang ilaw na flashing indicator o katulad nito.
10. Huwag harangan ang pangitain, o di kaya ang ilaw sa kahit na anong katabing bintana.
11. Ang mga bagong enclosure excavation sa ilalim ng lupa (vault), kung ginamit, ay hindi dapat makasira o maalis ang mga granite na curb. Walang kapansing-pansing siwang ang dapat malikha sa pagitan ng takip ng bakod ng vault at pangunahing materyal ng bangketa dahil sa paglalagay. Ang anumang iba pang umiiral na makasaysayang elementong arkitektural sa loob ng pampublikong right-of-way ay dapat panatilihin at protektahan sa panahon ng paglalagay. Walang maaaring ilagay na logo o pangalan ng carrier sa takip ng vault.
12. Ang mga hindi mahalagang radio relay unit element (hawakan at mga binti) ay tatanggalin.
13. Ang tagalagay ay kinakailangang ihanda ang mga tauhan ng Kagawaran ng Pagpaplanong suriin ang unang paglalagay, upang matiyak ang pagsunod sa mga nabanggit na kondisyon (hindi kabilang mga inspeksyon ng may-ari ng poste at ang Kagawaran ng Pagawaing Bayan).
14. Siguraduhing ang mga Access Points ng Wi-Fi at mga kasamang wiring, na ginagamit ng City's Department of Technology, ay hindi masisira habang ini-install (kung meron).
15. Kung mag-iba man ang paglalagay mula sa mga nasabing kondisyon, muling isusumite ang aplikasyon sa Kagawaran ng Pagpaplano para sa higit pang pagsusuri at puna.

Sa loob ng (15) araw ng kalendaryo mula sa petsa ng paglabas ng abisong ito, maaaring i-apela ng sinumang tao sa Board of Appeals ang paglabas ng permisong ito. Kailangang isumite mismo ng humihingi ng apela o ng ahente ng humihingi ng apela ang mga apela. Sa pagsusumite ng apela, kailangan ng Konseho ng Pag-aapela sa pangkalahatan ang appointment. Para sa higit pang impormasyon tungkol sa proseso ng apela, o sa pagtatakda ng appointment, mangyaring makipag-ugnayan mismo sa Konseho ng Pag-aapela sa 1650 Mission Street, Suite 304 o tumawag sa 415-575-6880.

Mangyaring bisitahin ang [sfgov.org/bdappeal](http://sfgov.org/bdappeal) para sa anumang mga pagbabago tungkol sa pagsumite ng apela.

Ang apela ay dapat na batay sa isa o higit pa sa mga sumusunod na dahilan:

1. Maling natukoy ng Kagawaran ng Pambulikong Kalusugan na ang Aplikasyon ay alinsunod sa Pamantayan ng Pagsunod sa Pampublikong Kalusugan (tinganan ang Kodigo ng Pagawaing Bayan § 1507(b)).
2. Aplikasyon hindi ang nalalapit na Pamantayan ng Pagkakatugma para sa mga sumusunod na kadahilanan:
  - a. Maling natukoy ng Kagawaran ng Pagpaplano na natutugunan ng Aplikasyon ang nalalapat na Pamantayan ng Pagkakatugma (tingnan ang Kodigo ng Pagawaing Bayan § 1509(b)).
3. Hindi naaayon ang Aplikasyon sa anumang kinakailangan para sa pagkuha ng isang Personal Wireless Service Facility Site Permit.

Upang makakuha ng karagdagang impormasyon tungkol sa Aplikasyon at final approval, makipag-ugnay kay Jennifer Haas, kinatawan ng AT&T Mobility sa (415)475-8001 o [jhaas@modusllc.com](mailto:jhaas@modusllc.com). Maaari ka ring makipag-ugnayan kay San Francisco Pagawaing Bayan sa (415) 554-5810.

Programang Wireless ng Pagawaing Bayan

## 最後裁定興建個人無線服務設施據點許可 之申請案的公告通知

申請案編號：20WR-00013

申請人姓名：**Pacific Bell Company (AT&T Mobility)**

位置：Clement 街 100 號

公共工程署最終核准有關於在 Clement 街 100 號由 **Pacific Bell Company (AT&T Mobility)** 所提交的鄰近區域，興建個人無線服務設施據點的上述申請案。

天線等設備將安裝之設備包括：一台 4G 天線和兩個設備外殼 (收音機、儀錶、斷開開關)。在此附上經核准的個人無線服務設施照片模擬資料圖。

公共工程已確定該申請滿足公共工程法規的適用要求。最終核准內容包含以下條件：

### 舊金山公共工程署條件：

1. 本建議是以與描繪之圖例和／或照片模擬之精準情況為基礎；若有任何差異，則需要重新提交。若安裝與所述情況有任何差異，應重新提交至相關各署，進一步進行審核和評估
2. 新電線桿：不得在地下室區域樹立或放置任何新的電線桿。
3. 地錨拉線：請遵守所有開挖規章，以取得放置地錨拉線的必要許可。地錨拉線應避開十字路口交會區，但不限定於車道、路緣坡道。
4. 遵循聯邦、各州、地方法律之 ADA 規章規定。確保維持最小淨寬為四英尺之規定的行進路徑。
5. 在完工時，應對街道使用和勘測製圖許可局提供一組安裝的建構照片。
6. 每年皆應維持一份有效的保險憑證，並將一份複本轉送給街道使用和勘測製圖許可局。

#### 舊金山公共衛生署條件：

- 確保本天線之電線桿安裝相關之任何設備，在從最近居住建築物牆面至少三 (3) 英尺測量時，皆不得發出超過 45 dBA 之噪音。
- 確保距離天線四 (4) 英尺範圍內，無任何公有用地。
- 一旦安裝天線之後，AT&T 就必須在天線以全功率運作的情況下執行射頻 (RF) 密度測量，藉此確認在 Hammett 和 Edison 報告中的等級，並確保在任何公共空間中皆不得超過 FCC 公共空間曝露值。應在更新許可時重新進行本測量。
- AT&T 應知悉一般民眾可能會對其住所附近的任何天線和潛在射頻 (RF) 來源感到疑慮。AT&T 應在一般民眾要求時，在附近建築物放置檢測射頻 (RF) 密度等級之設施。
- 根據舊金山公共工程署規章第 25 條第 1527 (a)(2)(C) 小節，AT&T 需負責對舊金山公共衛生署支付 \$210.00 美元之審核費用。

請注意，本核准和任何條件僅適用於本文所指涉之設備和安裝設施。若設備有任何變更或增加前述之有效輻射功率，就必須由公共衛生署實施新審核。

#### 舊金山規劃署條件：

1. 種植和維護適當之街道樹木。
2. 不得使用任何外露之計量器、計量盤或計量基架。
3. 天線，以及除看板之外之任何用來遮蔽的所有設備（外部導線、無線電中繼系統、用來遮蔽托架螺栓之遮罩 [如果需要的話] 和安裝設施），皆應漆上與電線桿同色之油漆，或視需要重新油漆。
4. 應在每個無線電中繼系統底部和電線桿上的相對應入口的底部之間不超過五吋間隙的情況下，將無線電中繼系統下方之佈線埋入電線桿內。電線桿入口點之導體連線應採用儘可能最小的裝配尺寸。若使用任何密封膠，應保持整潔，不得出現過多起泡，並應漆上與電線桿同色之油漆。
5. 拆除任何可從人行道和住所看到之非政府法規規定以外的凸出設備看板和設備貼紙（包括無線電中繼系統／機櫃中的製造商標誌凹口內的填充物）。
6. 可使用最小型的射頻警告看板（4 x 6 吋），並儘可能在靠近天線的位置放置面向外面街道的警告貼紙。貼紙應面朝街道，但不面朝 15 英尺範圍內之附近窗戶。貼紙之背景色應與柱式安裝表面相符，而標誌及文字應為白色。
7. 應在適用法規和製造商設備標準之許可範圍內，儘可能緊密圍住疊架設備（不包括天線）。
8. 天線處之接合口和網罩組件區域之螺栓／螺絲，應以儘可能降低其從人行道上目測可見程度之方式製造及安裝（例如齊平式安裝螺絲）；
9. 不得使用任何明顯之閃光指示燈或類似設備。
10. 不阻礙視線或阻擋光線照射任何相鄰住宅窗戶。
11. 若使用新的地下機箱開鑿（圓拱），則不得損壞或去除花崗岩緣石。不得因為安裝設備，而在圓拱機箱蓋和主要人行道材質之間造成重大間隙。公共道路用地內的任何其他現有歷史建築體，皆應在安裝設備時予以維持和保護。在圓拱蓋上不得標示任何電信商標誌或電信商名稱。

12. 應拆除非必要的無線電中繼系統元件（把手和腳架）。
13. 安裝人員應安排規劃署人員審查初步安裝作業，藉以確保遵守上述所有條件（不論是由電線桿所有人或公共衛生署檢驗）。
14. 確保城市技術部門使用的Wi-Fi接入點和相關線路在安裝過程中不會受損（如果有）。
15. 若安裝與所述情況有任何差異，應重新提交至規劃署，進一步審核和評估。

自本通知核發的十五 (15) 個曆日內，任何人都能向上訴委員會就本許可的核發提出上訴。上訴人或其代理人必須親自提起上訴。一般來講，需與上訴委員會安排預約，方能提出上訴。如欲取得更多關於上訴流程之資訊或安排預約，請親自前往位於 1650 Mission Street, Suite 304 的上訴委員會或透過 415-575-6880 聯絡。

有關提出上訴的任何更改，請訪問 [sfgov.org/bdappeal](http://sfgov.org/bdappeal)。

上訴必須以下列一或多項觀點為立論基礎：

1. 公共衛生署錯誤判定申請案符合公共衛生法規遵循標準（參見公共工程署規章 § 1507(b)）。
2. 該應用程序不符合適用的兼容性標準，原因如下：
  - a. 規劃署錯誤判定申請案符合適用之相容性標準（參見公共工程署規章 § 1509(b)）。
3. 申請案不符合任何其他取得個人無線服務設施據點許可的要求。

如欲取得更多關於申請案與最終核准之資訊，您可透過 (415)475-8001 及 [jhaas@modusllc.com](mailto:jhaas@modusllc.com) 與 AT&T Mobility 之 Jennifer Haas 聯絡。[jhaas@modusllc.com](mailto:jhaas@modusllc.com) 詳情請洽 詢 舊 金 山 公 共 工 程 署 的 電 話 : (415) 554-5810。

No. de solicitud: 20WR-00013

Nombre del solicitante: **Pacific Bell Company (AT&T Mobility)**

Ubicación: 100 CLEMENT Street

Obras Públicas de San Francisco ha finalmente aprobado la solicitud de permiso para la instalación de un emplazamiento de servicio móvil personal antes mencionada en las proximidades de 100 Clement Street presentada por **Pacific Bell Company (AT&T Mobility)**.

La antena y otros equipos que se instalará en esta ubicación incluye: 1 antena 4G y cajas de equipamiento (radios, medidor y interruptor de desconexión). Se adjunta una simulación de la foto del emplazamiento de servicio móvil personal aprobado al presente documento.

Obras Públicas determinó que la solicitud cumplía con los requisitos correspondientes de la norma de Obras Públicas: La aprobación final incluye las siguientes condiciones:

## Condiciones de Servicios Públicos de San Francisco:

1. Esta recomendación se basa en no realizar ninguna variación sobre los dibujos y/o la simulación de la foto proporcionada; si una variación es diferente, se requiere una nueva presentación. En caso de que la instalación varíe con respecto a dichas condiciones, deberá volver a presentarse a los Departamentos para su posterior revisión y comentarios.
2. Nuevos postes: no se pueden instalar o colocar nuevos postes en los distritos subterráneos.
3. Riendas: Siga todas las normas de excavación para obtener los permisos necesarios para la colocación de las riendas. Las riendas deberán evitar cruzar zonas en conflicto, pero no quedan limitadas a las calzadas o a las rampas del cordón.
4. Cumpla con los requisitos de la norma ADA y las leyes federales, estatales y locales. Asegúrese de que quede un camino del ancho mínimo necesario de cuatro pies para garantizar la accesibilidad.
5. Al finalizar la obra, deberá proporcionar un conjunto de fotos de la instalación con la obra terminada a la Oficina de Permisos de la Oficina de uso de la calle y Cartografía.
6. Mantenga una certificación válida del seguro anual y envíele una copia a la Oficina de Permisos de la Oficina de uso de la calle y Cartografía.

#### Condiciones del Departamento de Salud Pública de San Francisco:

- Asegúrese de que todo equipo relacionado con la instalación del poste de esta antena no produzca un ruido superior a 45 dBA, medido a tres (3) pies de la fachada del edificio residencial más cercano.
- Asegúrese de que no haya zonas ocupadas públicamente dentro de los cuatro (4) pies del frente de la antena.
- Una vez instalada la antena, AT&T debe tomar medidas de densidad de potencia de RF con la antena funcionando a plena potencia para verificar el nivel reportado en el informe Hammett y Edison y para asegurar que no se exceda el nivel de exposición pública de la FCC en ningún área de acceso público. Esta medición debe realizarse nuevamente en el momento de la renovación del permiso.
- AT&T debe ser consciente de que el público en general puede tener inquietudes acerca de la antena y de la fuente potencial de RF cerca de sus viviendas. AT&T debe disponer de un procedimiento para la toma de los niveles de densidad de potencia de RF en las viviendas cercanas cuando sea solicitado por los miembros del público en general.
- De acuerdo con la Norma de Obras Públicas de San Francisco, Artículo 25, Sección 1527 (a) (2) (C) AT&T es responsable de pagar una cuota de \$ 210,00 al Departamento de Salud Pública de San Francisco para esta revisión.

Tenga en cuenta que esta aprobación y las condiciones se aplican sólo a los equipos y a la instalación como se describe. Si se realiza algún cambio en el equipo o se aumenta la potencia radiada efectiva indicada anteriormente, el Departamento de Salud Pública deberá realizar una nueva revisión.

#### Condiciones del Departamento de Planificación de San Francisco:

1. Plante y mantenga un árbol apropiado en la acera.
2. No se puede utilizar un medidor expuesto, caja de medidores o pedestal de medidor.
3. La antena, y todo el equipo (conducto externo, unidades de radio enlace, cegadores utilizados para cubrir los pernos de soporte [si fuera necesario], y los mecanismos de montaje); salvo la señalización, si se utiliza para detección, todos serán pintados del mismo color que el poste y repintados cuando sea necesario.
4. El cableado por debajo de las unidades de radio enlace, entrará en el poste con una brecha de no más de cinco pulgadas entre la parte inferior de cada unidad de radio enlace y la parte inferior del orificio de entrada correspondiente en el poste. La conexión del conducto en los puntos de entrada del poste deberá utilizar los acoples del menor tamaño disponible. Los compuestos selladores, de utilizarse, deberán quedar prolijos y sin exceso de material, y pintados del mismo color que el poste.
5. Remueva la señalización de los equipos elevados (incluyendo el rellenado de las muescas del logotipo del fabricante en las unidades de radioenlace/gabinetes) y pegatinas en equipos que puedan verse desde la acera y las viviendas, a menos que sea requerido por regulaciones gubernamentales.
6. Utilice la señalización de advertencia de RF más pequeña que se permita (4 x 6 pulgadas); y coloque la pegatina de advertencia apuntando hacia afuera, hacia la calle, lo más cercano a la antena como sea posible. La pegatina debe apuntar hacia el otro lado de la calle, cuando no esté frente a una ventana cercana dentro de los 15 pies. El color de fondo de la pegatina debe coincidir con el color de la superficie del poste de montaje; y el logotipo y el texto deben ser blancos.
7. Apile los gabinetes de los equipos (excepto la antena) tan cerca como sea permitido por las

reglamentaciones correspondientes y las normas del fabricante de los equipos.

8. Las costuras y los pernos/tornillos en la antena y en el área de la cubierta deben estar fabricados e instalados de una manera tal que reduzca su visibilidad (por ejemplo, tornillos de montaje al ras) desde la acera.
9. No utilice ningún indicador luminoso intermitente visible o algo similar.
10. No obstruir la vista o la luz que entre por cualquier ventana residencial adyacente.
11. Las nuevas excavaciones para recintos por debajo del suelo (bóvedas), de utilizarse, no deberán dañar o eliminar cordones de granito. No deben quedar espacios importantes entre la tapa de la bóveda y el material primario de la acera causados por la instalación. Todos los elementos arquitectónicos históricos existentes dentro de la vía pública serán mantenidos y protegidos durante la instalación. No se puede colocar el logotipo ni el nombre de la compañía prestadora del servicio en la tapa de la bóveda.
12. Los elementos no esenciales de la unidad de radioenlace (manija y patas) deben ser eliminados.
13. El instalador se encargará de que el personal del Departamento de Planificación revise la instalación inicial, con el fin de garantizar el cumplimiento de las condiciones antes mencionadas (a pesar de las inspecciones realizadas por el propietario de los postes y del Departamento de Obras Públicas).
14. Verifique que los puntos de acceso de Wi-Fi y el cableado asociado utilizado por el Departamento de Tecnología de la Ciudad no sea dañado durante la instalación (si existe).
15. En caso de que la instalación varíe con respecto a dichas condiciones, deberá volver a presentar la solicitud al Departamento de Planificación para su posterior revisión y comentarios.

Dentro de los quince (15) días calendario de la fecha de emisión de esta notificación, cualquier persona puede apelar la emisión de este permiso ante la Junta de Apelaciones. Las apelaciones deben realizarse en persona por el apelante o por su agente. Generalmente, la Junta de Apelaciones requiere solicitar una cita para realizar la apelación. Por mayor información acerca del proceso de apelación, o para solicitar una cita, póngase en contacto con la Junta de Apelaciones en persona en 1650 Mission Street, Suite 304 o llame al 415-575-6880.

Visite [sfgov.org/bdappeal](http://sfgov.org/bdappeal) para cualquier cambio relacionado con la presentación de una apelación.

La apelación debe basarse en uno o más de los siguientes motivos:

1. El Departamento de Salud Pública determinó incorrectamente que la solicitud cumple con la Norma de Cumplimiento de Salud Pública (consulte la Norma de Obras Públicas No. 1507(b)).
2. La solicitud no cumple con la Norma de Compatibilidad aplicable por la siguiente razón:
  - a. El Departamento de Planificación determinó incorrectamente que la solicitud cumple con la Norma de Compatibilidad aplicable (consulte la Norma de Obras Públicas No.1509(b)).
3. La solicitud no cumple con cualquier otro requisito para la obtención de un permiso de un emplazamiento de servicio móvil personal.

Para obtener información adicional sobre la apelación y la aprobación final, puede comunicarse con Jennifer Haas de AT&T Mobility al (415)475-8001 o escribirle a [jhaas@modusllc.com](mailto:jhaas@modusllc.com). También puede comunicarse con Obras Públicas de San Francisco al (415) 554-5810.

**Subject:** Small Independent Fitness Studios Kindly Request Waiver of Park Fees  
**Date:** Monday, August 17, 2020 7:23:44 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Good Morning,

I'm contacting you on behalf of the San Francisco Independent Fitness Studio Coalition to discuss eliminating the permit fees associated with fitness studios using San Francisco parks. Presently we have been closed since March 16 and given no support in any way shape or form from San Francisco. Simply put, we are on the brink of a massive number of closures. We are asking for your immediate help by eliminating the fees associated with our use of San Francisco's parks to allow us to conduct a portion of our business with a decrease of financial burden. Per the Shared Spaces Program, the retail and restaurant industry has had all fees for outdoor spaces waived and we are asking to be afforded the same opportunity. We are also asking for a refund of all previously paid fees by fitness business owners during the quarantine period.

The San Francisco Independent Fitness Studio Coalition is a group of over 70 small San Francisco businesses offering fitness and wellness services. Our purpose as small fitness studios is to support our community's health and wellbeing. We are mind-body fitness studios such as Yoga, Pilates and GYROTONIC, we are Martial Arts centers and small independent gyms providing personal training and group fitness programs. The spectrum of our studios have the commonality of providing wellness through injury prevention and rehabilitative care as well as improving psychological well being. We offer the opportunity to learn movement skills as well as aid in learning responsible social behavior. Further, as hubs for our communities we create spaces that bring our neighbors together and give them the socialization that is lacking in our large and sometimes isolating city.

Unfortunately, we are often misunderstood as providing luxury services. Instead, our programs serve all socio-economic walks of life as evidenced by the community outreach programs we offer. We believe that health is a right, not a privilege. We take this as our credo for existence.

As part of our ongoing social outreach, we carry the cost burden of providing no-cost

and low-cost programs to our neighbors, communities in need and our youth. For example, EHS, a Pilates and fitness center in the Mission district holds community classes regularly and works with underserved communities within the neighborhood. San Francisco GYROTONIC, located on 7th and Mission Street supports the Dance Department at Ruth Asawa's School of the Arts, a SF public school, by giving the students a semester of training with no charge to the school or parents as a means to support the underserved and BIPOC communities. Businesses in our coalition have programs to waive memberships or session fees for local underserved communities and regularly make donations to organizations, schools and foundations in San Francisco. We offer free educational pre and post natal workshops and as well private training to women in underserved neighborhood communities. We donate to charities and nonprofit arts organizations and school scholarship drives. We provide places for civic activities and often serve as anchors in our neighborhoods.

Presently, in our struggle to survive while San Francisco has closed the use of indoor spaces, we are working creatively to stay afloat. We're looking to San Francisco's parks to bring our clients together and generate revenue to offset some of our base operating costs. Please keep in mind that for most of us as small fitness studios, our outdoor revenue does not begin to cover our base operating costs and in fact our net revenue is often zero. Hence, paying the permit fees for the use of parks asks for an additional cost from us that's essentially squeezing blood from a stone.

To put this into perspective, a fitness studio offering 3 classes a day, 7 days a week is paying \$1260 per month in permit fees (this doesn't include insurance). This is \$1260 of income that we cannot use to pay our landlords, it does not allow us to retain our employees, it does not contribute to our base operating costs and it sends us closer to shutting our doors.

We understand the concept that fitness studios could simply pass the fees on to our clients, but this is not a cut-and-dry issue and in some cases it is not without financial challenge to those we serve. In an effort to fight for survival, conducting our outdoor classes in San Francisco's parks is also keeping our businesses alive in our clients' minds. Hence, after paying our instructors as well as the park fees, we may be losing revenue in our attempts to maintain a clientele for a future time when we can open.

The financial cliff that we're clinging to must be addressed. In short, San Francisco has no timeline set to open our doors, and as businesses that are relegated to the last opening phase, our future is uncertain. Collectively we are amassing close to a million dollars in debt to our landlords and they may soon look to collect it. We have not been able to provide usable space for our employees or contractors to work, hence many if not most, no longer have a viable income. Although the City of San Francisco has not given us any semblance of aid, eliminating the fees associated with

using the parks will provide us with some help.

Finally, we must address how the Shared Spaces Program has been extended unfairly to San Francisco small business sectors. While it was enacted to help neighborhood businesses survive by allowing the use of outdoor spaces including parks and plazas, small fitness studios were overlooked. At present, care has been taken to ensure that the restaurant and retail industries may open outdoors and without cost to them. However small fitness studios are unjustifiably required to pay those fees. We understand that this has been brought to your attention via recent contact from Regina Dick-Endrizzi, Executive Director of the Office of Small Businesses and Sharky Laguana of the SF Small Business Commission.

In short, it is our request that The Department of Recreation and Parks waive the permit fees for small independent fitness studios, refund all previously paid fees from fitness business owners during the quarantine period and allow us to conduct fitness classes within San Francisco's parks without further financial burden. To do so is a lifeline for our survival and for the health and wellbeing of our San Francisco communities.

Kind Regards,  
-Artemis Anderson

Dear Supervisors,

I am writing to express Tenderloin People's Congress opposition to the appointment of Jane Natoli to the SFMTA Board. Our reasons are in alignment with those expressed by the Harvey Milk LGBTQ Democratic Club in its recent letter (copied below). While we at the TPC also recognize the historic nature of her appointment, we also believe that her record does not support those most marginalized in the Tenderloin Community as is detailed in the letter from the Harvey Milk Club. We urge you to reject the appointment of Jane Natoli.

Respectfully,

Curtis Bradford, co=Chair Tenderloin People's Congress  
[www.tlpeoplesplan.com](http://www.tlpeoplesplan.com)

(Harvey Milk LGBTQ Democratic Club Letter)

Dear Chair Ronen, Members of the Rules Committee, and Supervisors:

We write in opposition to the appointment of Jane Natoli to the San Francisco Municipal Transportation Agency Board of Directors.

As an organization that has long advocated for LGBTQIA+ representation at all levels of government, we appreciate the fact that Ms. Natoli would be the first transgender person appointed to serve on the MTA Board. Unfortunately, her record shows that she will not represent the interests of the most marginalized members of San Francisco or our community - particularly communities of color, queer people of color, seniors and people with disabilities who depend on safe pedestrian access and public transportation on a daily basis.

Transportation is a key driver of equities and inequities, particularly at a time when normal MTA service has been severely disrupted and indefinitely eliminated for many communities. Ms. Natoli has a robust online presence that raises multiple concerns about her ability to respond effectively to marginalized voices, including:

- Unqualified support for project proposals and for-profit mobility devices over the objections of sensitive communities who see them as instruments of gentrification;
- Calling out public officials who have wrestled with the implications of for-profit

mobility devices on senior and disability advocates and other communities of concern;

- Signaling support for a Muni fare increase that was opposed by ten out of eleven members of the Board of Supervisors; and
- Accepting a contribution during her campaign for DCCC from Josephine Zhao, who has referred to a Chinese member of the Board of Supervisors as a “race-traitor” and described California’s gender neutral bathroom bill as “evil legislation.”

As the conversation around transit increasingly includes discussion of “transit-oriented” housing development, we have serious concerns about appointing a Board member of YIMBY Action, an organization whose policy positions have been repeatedly rejected by San Francisco voters. Those positions include advocating against higher percentages of inclusionary housing in new development (in favor of a trickle-down market rate housing approach that lacks nuance or consideration for impacts to marginalized communities) and hedging on support of 2018’s Prop 10, which would have repealed the Costa Hawkins Act and allowed for local expansion of rent control. Costa Hawkins repeal remains a bellwether issue for tenant and affordable housing advocates.

Ultimately, Natoli’s appointment reeks of political quid-pro-quo for supporting the Mayor, and is not supported by substantive expertise or merit on the issues that matter. We urge you to exercise your discretion under Section 3.100 of the San Francisco Charter to reject the appointment of Jane Natoli to the San Francisco Municipal Transportation Agency Board of Directors and to wait for Mayoral appointees who will elevate the voices of our most marginalized, public transit-reliant residents.

Dear Supervisor Haney,

I, as Director of Governance, am submitting to you the following letter on behalf of the Latinx Young Democrats.

Respectfully,  
Luis Avalos

**Re: Rules Committee Agenda Item 6 - The Latinx Young Democrats Opposes the  
Appointment of Jane Natoli to SFMTA Board**

Dear Board of Supervisors:

We write to convey our strong opposition to the appointment of Jane Natoli to the San Francisco Municipal Transportation Agency's Board of Directors.

The purpose of the Latinx Young Democrats is to create a space that fosters civic engagement for young Latinx folks in the San Francisco Bay Area by providing a safe, inclusive space for youth to activate, build, and organize around issues that directly affect them and their communities. As an organization that firmly advocates for youth representation at all levels of government, we appreciate the fact that Ms. Natoli would be the first transgender person appointed to serve on the MTA Board. Unfortunately, however, her record shows that she will not represent the interests of the most marginalized members of San Francisco or our community

- particularly communities of color (especially the Latinx community), queer people of color, seniors, and people with disabilities who depend on safe pedestrian access and public transportation daily.

Transportation justice is a cornerstone and indication of an equitable society, providing mobility opportunities for low income and transit impacted communities. This is particularly important at a time when normal MTA services have been severely disrupted and indefinitely eliminated for many communities during a pandemic and an economic crisis. Ms. Natoli has a robust online presence that raises multiple notable concerns about her ability to respond effectively to marginalized voices, including:

- Unqualified support for project proposals and for-profit mobility devices over the objections of sensitive communities who see them as instruments of gentrification; this has been consistent for years at the Planning Commission
- Calling out public officials who have wrestled with the implications of for-profit mobility devices on senior and disability advocates and other communities of concern;
- Signaling support for a Muni fare increase that was opposed by ten out of eleven members of the Board of Supervisors; and then flipping on her position just even more recently
- Accepting a contribution during her campaign for DCCC from Josephine Zhao, who has referred to a Chinese member of the Board of Supervisors as a “race-traitor” and described California’s gender-neutral bathroom bill as “evil legislation.”

As the conversation around transit increasingly includes a discussion of “transit-oriented” housing development, we have serious concerns about appointing a Board member of YIMBY

Action, an organization whose policy positions have been repeatedly rejected by San Francisco voters. Those positions include advocating against higher percentages of inclusionary housing in new development (in favor of a trickle-down market-rate housing approach that lacks nuance or consideration for impacts to marginalized communities) and hedging on the support of 2018's Prop 10, which would have repealed the Costa Hawkins Act and allowed for the local expansion of rent control. Costa Hawkins's repeal remains a bellwether issue for the tenant and affordable housing advocates.

Ultimately, Natoli's appointment reeks of political quid-pro-quo for supporting the Mayor and is not supported by substantive expertise or merit on the issues that matter. She is consistently beholden to her interests and those of her supporters, rather than impartially. We urge you to exercise your discretion under Section 3.100 of the San Francisco Charter to reject the appointment of Jane Natoli to the San Francisco Municipal Transportation Agency Board of Directors and to wait for Mayoral appointees who will elevate the voices of our most marginalized, public transit-reliant residents.

Sincerely,

Latinx Young Democrats

SF Latino Democratic Club Eboard

**Re: San Francisco Latino Democratic Club Opposes the Appointment of Jane Natoli to SFMTA Board**

Dear Board of Supervisors:

We write in opposition to the appointment of Jane Natoli to the San Francisco Municipal Transportation Agency Board of Directors. While it is true that Ms. Natoli's nomination was sitting in the Rules Committee waiting to be scheduled for a public hearing, that was presumably to give the nominee time for due diligence and community outreach. We were never notified that the nominee was going to be scheduled at the Rules Committee finally, and were taken by surprise too late when we found out that the item had been heard and forwarded out with recommendation. Our membership surely would have called in or notified the Rules Committee members about our concerns about Ms. Natoli's on-the-record positions about many issues that have long impacted the Latinx community. This is a classic example of the struggles and barriers to political power that Latinx and immigrant communities have historically faced when attempting to gain equitable representation at City Hall. Indeed, we continue to lack Latinx representation on the Board of Supervisors and now, with the departure of SFMTA Board Member Art Torres, we lack any representation on one of the most powerful legislative bodies outside of the Board of Supervisors.

The Latino Democratic Club has long advocated for transit justice and for equitable representation of our most vulnerable and transit-dependent communities on the SFMTA Board, regardless of their zip code. However, we cannot accomplish our vision to have more equitable transit policies if the Board of Supervisors are not willing to stand with the community. We are deeply concerned with the governance of the SFMTA and historic lack of accountability on issues that impact our immigrant and low-income communities the most. Particularly now, when our Latinx/Latino community is facing record vulnerabilities due to COVID-19, it is unacceptable to not not engage our community in the decision making process on the issues that impact us

the most, whether its safe travel to and from our essential jobs, strong leadership on towing fees, regressive funding measures and fare increases (something that Ms. Natoli has stated publicly she supports) or the disproportionate impacts of police enforcement on Black and Brown bodies using our public streets. We have also advocated for stronger regulations on the tech industry's privatization of the public realm and the furtherance of the digital divide that has excluded so many Latinos from accessing everything from Commuter Shuttles and their red bus lanes to e-scooters and e-bikes. Ms. Natoli is a longtime advocate of these industries and has done nothing to understand the incredible suffering that these industries have brought to communities experiencing widespread displacement and gentrification, like the Mission District. Our merchants and immigrant-owned small businesses are suffering and struggling to access the same recovery resources enjoyed by many white-owned businesses that have been bolstered by an infusion of investment capital.

The Mission, Tenderloin and Excelsior neighborhoods have some of the highest Latino demographics in the City, and we expect these Districts to have a voice in this process. By appointing Ms. Natoli, the members of the Board of Supervisors would be excluding the Latino participation amid Covid-19. We understand that Ms. Natoli as a former Board member of the San Francisco Bicycle Coalition was helpful in fundraising and development of this city grantee. With all due respect, the SF Bicycle Coalition's predominantly white membership has also struggled to stand in alliance with Black and Brown and low-income API communities - yet they have been ably represented on the SFMTA Board.

We understand that the Mayor has hired a new Appointments Director. We are hopeful for the opportunity to build a relationship where all Mayoral nominees understand that communities of color must have truly equitable representation on Boards and Commissions, regardless if they have the time, resources and access to sit call in to remote meetings. We look forward to working with the Mayor's Office on vetting candidates that come from our community, and have a history of working on the issues that impact us the most. Until then, the Board of Supervisors is tasked with vetting the candidates put forward by the Mayor with the highest standards of community input in mind.

We respect that the Chinese community has long sought representation on the SFMTA Board, as well, and respect the community process that our API brothers and sisters have undertaken with respect to identifying and vetting a candidate for the SFMTA Board. We support further diversifying the SFMTA Board, particularly with voices that are willing to address the systemic barriers in our transportation system. Unfortunately, Ms. Natoli's record shows that she will not represent the interests of our struggling Latino community, low-income people, immigrants or

people of color in San Francisco. This is an opportunity for San Francisco transportation justice advocates to stand in unity by opposing her appointment and demand better of our elected leadership. We need representatives that fight for the interests of the community, not market rate developers who are invested to further displace marginalized communities across San Francisco. By opposing this appointment, we are sending a strong message to San Franciscans that we are truly committed to repairing years of redlining and transit injustice.

Transportation is a key driver of inequities and redlining in communities of color, particularly at a time when normal SFMTA service has been severely disrupted and indefinitely eliminated. Economic disparities beset Latinos across the city, and the specter of displacement continued to bedevil those living in the Mission. Latinos and people of color are the most impacted by gentrification and the absence of transit justice. In 2019, it was evident when the SFMTA refused to listen to the community input on red lanes which has had a detrimental impact on the Latino community.

We ask that you stand with people of color and the working class by voting in opposition of Jane Natoli's appointment. We urge you to exercise your discretion under Section 3.100 of the San Francisco Charter to reject the appointment of Ms. Natoli to the San Francisco Municipal Transportation Agency Board of Directors and to wait for Mayoral appointees who will elevate the voices of the Latino community and people of color who have experienced the real challenges of public transportation.

Sincerely,

San Francisco Latino Democratic Club E-board

Dear Supervisors,

The Ecosocialist Working Group of the San Francisco Democratic Socialists of America hereby urges you to reject the nomination of Jane Natoli to the San Francisco Metropolitan Transportation Agency Board at this Tuesday's Board of Supervisors meeting.

We are concerned about the following issues:

- Ms. Natoli has had a history of supporting fare increases on Muni in derogation of a resolution passed by the Board of Supervisors that calls for no increases in fares during the COVID-19 pandemic, in which neighboring transit agencies actually made their transit systems free. Though she walked her comments back in committee, we do not think this was genuine, and we do not think that she will keep her promise. She also stated in a questionnaire from the Harvey Milk Democratic Club that she does not ride Muni regularly.
- Ms. Natoli, on her twitter account, has made comments attacking those critical of privatized forms of transportation (ie: scooters, bike share programs), despite concerns about gentrification and the negative impact of scooters on seniors and disabled pedestrians. While we believe in decarbonization, we cannot support someone who does not believe in community-conscious approaches by allowing scooters and bike lanes to operate without robust community input from low-income and working class folks, especially communities of color, seniors, and disabled people.
- Ms. Natoli also has ties to YIMBY Action, an organization that supports continuing to build market rate housing over the objections of working class communities of color. Given the link between transit and development, any SFMTA Commissioner must have an equity lens and must be sensitive to gentrifying communities and support green development without displacement. Ms. Natoli has not shown the level of accountability to at-risk communities necessary to be in a position of such great power.

We join United to Save The Mission, the Harvey Milk Democratic Club, and other organizations to urge the Board of Supervisors to reject Jane Natoli's appointment to the SFMTA board.

**Subject:** Opposition To Jane Natoli

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

As a former commissioner who happens to be trans, I am a deep supporter of transgender representation in San Francisco's robust ecosystem of boards and commissions. However, Jane Natoli is not someone who should be serving on a commission as powerful as the SFMTA board.

Ms. Natoli, a white trans woman who is a recent transplant, does not represent the many equity issues that current face the agency. To wit, she has:

- Supported fare increases, only backtracking in desperation to save her bid.
- Been very dismissive of people who raise concerns about scooters and bike shares, as it relates to seniors, the disabled, and communities of color facing gentrification
- Has genuflected towards out-of-town Falun Gong practitioners over the Chinese Community on the naming of Rose Pak station, and failed to reach out to Chinatown Trip
- Sits on the board of YIMBY Action, which steers the conversation on transit-oriented development towards housing Reaganomics as opposed to development that benefits the community and doesn't displace people.
- During her failed bid for Democratic County Central Committee, received a donation from Josephine Zhao, a former school board candidate who called a Chinese supervisor a "race traitor" and has MADE TRANSPHOBIC REMARKS AND GAVE DUPLICITOUS APOLOGIES!!!!

You don't have to take my word for it, a multiracial and multitendency coalition including such trusted names as: United To Save The Mission, Harvey Milk LGBTQ Democratic Club, Housing Rights Committee, Tenderloin People's Congress, Latinx Democratic Club, Rose Pak Democratic Club, DSA EcoSocialist Committee have all weighed in against Jane Natoli, and I am sure there are others as well. In addition, several people who have signed onto a letter organized by the director of the Office of Transgender Initiatives have expressed second thoughts about signing on to it.

And as a transgender woman, I would like to strongly oppose the use of the Mayor's Office of Transgender Initiatives as a political organizing tool to push trans people who may have a quid pro

quo with the mayor for commissions, but may not care about pushing people like me who are progressive and critical of this mayor. I know I never got help from them, and they would never support me for appointment to any board or commission.

I ask you as a transgender person, a low-income person, a disabled person, an SRO tenant, an environmental studies major, a transit geek, a Muni rider, a pedestrian who has nearly been hit by both cars and scooters, a housing rights advocate, and someone who has been uplifted by the communities of color on the front lines for a more equitable city to oppose the appointment of Jane Natoli, and to consider trans people for committee appointments who are good on equity issues and reflect the diversity of this city.

Sincerely,  
Jordan Davis  
(she/her)  
District 6

Transportation  
Research and  
Improvement  
Project

August 17, 2020

San Francisco Board of Supervisors  
1 Dr. Carlton B. Goodlett Place, Room 244  
San Francisco, CA 94102-4689

Dear Supervisors,

We are writing to you on behalf of the Chinatown Transportation Research and Improvement Project (Chinatown TRIP) to **oppose Jane Natoli's appointment to the San Francisco Municipal Transportation Agency (SFMTA) Board of Directors**. Chinatown TRIP is a community volunteer organization with the mission to improve transportation and pedestrian safety in Chinatown through research and planning, bringing improvements to transit service, traffic circulation, quality of life, and pedestrian safety. With over 40 years of transportation advocacy in the primarily low-income, senior-heavy, and MUNI-reliant neighborhood of Chinatown, our organization has worked diligently to hold the SFMTA accountable to achieving their mission: Connecting San Francisco through a safe, equitable, and sustainable transportation system. A SFMTA Director has the responsibility to represent and listen to **all** communities within the City of San Francisco when making impactful decisions that affect the essence and livelihood of every neighborhood in the City. Throughout Jane Natoli's appointment process to the board, she has failed to perform any outreach to the Chinatown community, a community that has one of the highest transit-usage and lowest car-ownership rates in San Francisco.

Jane Natoli has not demonstrated that she possesses the willingness to listen to our community's concerns or a voice that will echo our community's transportation needs. We support candidates that are proactive in community outreach and show the ability to keep our community top of mind when guiding the SFMTA towards providing equitable transportation options for all. We are disheartened by the fact that Natoli never once reached out for even a brief conversation in the past several months and it is apparent that she treats the Chinatown community as an afterthought in the overall vision for the SFMTA. Now more than ever, a SFMTA board member's future decisions will have a drastic effect on the livelihood of our at-risk and vulnerable population as we prepare for life in a post-pandemic world. As our population represents a significant portion of total MUNI riders, a board member that makes decisions without even attempting to hear our voice can have a significantly detrimental effect on our community.

An example of Jane Natoli's disconnect with the community is represented in her views on the campaign to name the future Central Subway Station as the Chinatown Rose Pak Station in 2019. Rose Pak dedicated her life to making Chinatown a resilient neighborhood, ensuring the city adequately served its predominantly low-income and senior population, and advocated for the creation of the Central Subway. As such, our community felt there was no one more deserving and no place more fitting to name in honor of her legacy than the Chinatown Rose Pak Station. We learned that Natoli tweeted in 2019 that this campaign was being pushed solely by Supervisor Peskin without community backing. In

reality, this is the furthest thing from the truth, as a broad coalition of community groups, concerned citizens, and other members of the Chinatown community, including TRIP, campaigned in full support of the station renaming. As such, this incident is indicative of how far Natoli needs to go in order to truly understand the context and needs of the constituency she wishes to serve. The SFMTA cannot achieve its mission of providing an equitable transportation system without board members that are able to consider the needs of all neighborhoods and communities, especially those that are the most MUNI-reliant, such as Chinatown. It is clear to Chinatown TRIP that Jane Natoli's record is indicative that she will not represent the communities that need their voices to be uplifted most, especially during these unprecedented times which have created social and economic hardships throughout the City. We urge the Board of Supervisors to oppose Jane Natoli's appointment onto the SFMTA Board of Directors and to ensure that the vision and goals of those appointed in the future align with the needs of those who most rely on the services of MUNI in their daily lives.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jon Hee', with a long horizontal flourish extending to the right.

On Fri, Aug 7, 2020 at 4:56 PM Luke Swartz <[lswartz@gmail.com](mailto:lswartz@gmail.com)> wrote:

Supervisor Ronen,

Please advance the nomination of Jane Natoli and Sharon Lai to the Municipal Transportation Agency Board of Directors.

Both have a long history of advocacy for San Franciscans traveling by bicycle, walking, and transit—which is crucial for me, since our family does not own a car (and especially both during and after the pandemic we need to find ways for people to get around safely without cars). Both nominees also bring unique perspectives (transgender & Chinese-speaking immigrant) that will help the MTA Board better serve our diverse City.

As you know, the MTA Board now barely has a quorum, so in addition to their skills/expertise/experience, these nominees can help MTA continue its crucial business during this challenging time.

Thank you for your consideration,

Luke Swartz  
D9 Resident/Voter

**Subject:** Balboa Reservoir Development Agreement (200423)

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS:

You will be approving the Reservoir DA tomorrow at your 8/18/2020 meeting.

You need to be aware and conscious of the fact your Ordinance approving the Development Agreement rests on the unwarranted circumvention of Administrative Code 23.3's requirement for independent appraisal review.

One of the excuses that I've heard is that waivers are "done all the time."

That a waiver of Administrative Code 23.3 is "done all the time" is an indication of corruption to which the BOS is complicit. You will be doing this in direct contradiction to the March 2018 Budget & Legislative Analyst Report that had affirmatively called for "*an independent appraisal and appraisal review conducted in accordance with the requirements set out in Administrative Code Chapter 23.*"

Attached is the Executive Summary for the Balboa Reservoir Appraisal. The methodology used for the appraisal is the cost approach for "highest and best use". The appraisal was commissioned by PUC. The PUC would have discussed with the appraiser the best appraisal methodology to advance the interests of maximizing return for ratepayers.

The Cost Approach and "highest and best use" is inherently biased in favor of the buyer (Reservoir Community Partners) and disadvantages the seller (PUC). "Highest and best use" for whom? Contrary to PUC's obligation to ratepayers, the appraisal's "highest and best use"

methodology favors the private joint venture buyer; NOT THE SELLER (PUC)!

Page 14 of the attached Clifford Advisory Executive Summary shows a revenue-cost sheet to determine the "fair market value."

The \$11.4 Million "fair market valuation" of the Clifford Advisory appraisal guarantees a \$9,913,083 credit for "risk and profit" for Reservoir Community Partners (Risk? What risk?! Profit is guaranteed!). The \$11.4 Million "fair market valuation" includes a discount of \$7,079,746 to Reservoir Community Partners for "entitlement costs."

Why would the appraisal -- that is supposed to be trying to get the best return for ratepayers-- be structured in a manner to favor the buyer (Reservoir Community Partners) instead of the seller (PUC)?

Something is terribly wrong. Why would "progressives" on BOS be complicit in corruption?

**RE:** Executive Summary  
Balboa Reservoir Appraisal

***Introduction***

Clifford Advisory, LLC has prepared a narrative appraisal report that concludes the Fair Market Value of the proposed development site known as Balboa Reservoir. In addition, the analysis includes the Fair Market Rent estimate for a portion of the adjacent Retained Fee Parcel. The total project area contains 17.6-acres that is analyzed as the Fair Market Value of the Fee Simple interest in approximately 16.4 acres, and the Fair Market Rent for a portion of 1.2 acres referred to as a Retained Fee parcel (and further defined herein). The following presents an Executive Summary of the appraisal that identifies only the key elements and characteristics of each subject property, their highest and best use, and the valuation methodology and comments supporting values that pertain to the two pending transactions. The narrative appraisal report is dated June 1, 2020, contains 200 pages, and concludes a Fair Market Value and Fair Market Rental Value as of an effective date of value on January 1, 2020. The intended users of the appraisal report and the Executive Summary is limited to the City and County of San Francisco (City) under the jurisdiction of the San Francisco Public Utilities Commission ("SFPUC"), the Mayor's Office of Housing, and the Mayor's Office of Economic and Workforce Development.

For reasons outlined herein and expanded in the appraisal report, the valuation analyses is prepared subject to a *Hypothetical Condition* that supports an **Alternative** (development) **Plan**, rather than the **Actual RFP** (development) **Plan**. The **Actual RFP Plan** incorporates a 50% affordable housing density, in excess of the 33% affordable density cited in the Balboa Reservoir Request for Proposal (RFP) to determine Fair Market Value. Absent the excess affordable density (17%), intended for affordable units under the **Actual RFP Plan**, use of certain block areas under the Alternative Plan are analyzed for market-rate housing the supports a Highest and Best Use conclusion required for Fair Market Value. There are several other *Hypothetical Conditions* and Extraordinary Assumptions that impact the valuation that are summarized in the appendix of the Executive Summary.

The valuation analysis of the **Alternative Plan** conforms to the condition of the subject properties for purposes of determining Fair Market Value as set forth in the "SFPUC's" Request for Proposal, and meets the appraisal test of Highest and Best Use. The appraisal concludes a Fair Market Value of **\$11.4 million** for the Fee Simple ownership transfer of the 16.2-acre Balboa Reservoir Development site, and **\$227,000** for the Fair Market Rent estimate for use of a portion the Retained Fee parcel that can be made in a single lump sum payment, in advance for use of the property over a 20-year term.

### **Subject Properties**

**The Balboa Reservoir Development Site** - is a 16.4-acre parcel proposed for development by a public-private partnership with the City of San Francisco. The subject site forms a rectangular shape that features varying topography, limited access, and requires construction of extensive infrastructure to support future development. Located north of the Ocean Avenue commercial district, and adjacent to the west of the City College of San Francisco Ocean Campus in San Francisco, Balboa Reservoir was graded to serve as a water reservoir but has never been used for its original purpose. City College uses it for student parking under the terms of a fully revocable no-fee license with the "SFPUC". To the west is the Westwood Park neighborhood, zoned RH-1(D) within the Westwood Park Residential Character District. The Balboa Reservoir is zoned "P" (public) However, it is subject to the City and County of San Francisco General Plan and located within the Balboa Park Station Area Plan that envisions housing at the site and requires that major new developments also provide high-quality public open spaces. The Balboa Reservoir is in a 40' height district similar to the Ocean Avenue Neighborhood Commercial Transit District at up to 45' with some exception up to 55'. Westwood Park is in a 28'-X zone while adjacent City College parcels are limited to 65'. Future development of the site relies upon the Balboa Reservoir Design Standards and Guidelines (DSG) to guide the design of streets, open spaces, and buildings within the Balboa Reservoir neighborhood. The DSG is to be applied in conjunction with the San Francisco Planning Code and with the Balboa Reservoir Master Infrastructure Plan (MIP), Balboa Reservoir Special Use District (SUD), Balboa Reservoir Transportation Demand Management Plan (TDM), and the Balboa Reservoir Development Agreement (DA). The site's proximity to BART, MUNI, and other modes of transportation renders the location of Balboa Reservoir ideal from a transportation perspective and preferred for development investment.

Proposed development of the Balboa Reservoir site requires extensive construction of infrastructure improvements that include water supply, wastewater, drainage, gas and electric, streets, and other utility infrastructure. All utilities constructed on site would be located underground. The infrastructure and site plan creates a series of Blocks labeled A – H served by an oval circulation pattern and backbone infrastructure plan and featuring 4-acres of parks. For this analysis, design features are based on the analysis prepared by BKF Engineers<sup>1</sup> and costs developed by Cahill Contractors. The infrastructure improvements have a significant impact on the valuation of the Balboa Reservoir site.

**Retained Fee Parcel** - contains 1.2 acres that forms the adjacent south border of the Balboa Reservoir site. It is so named due to the pending the sale of the adjacent subject Balboa Reservoir development site, while the "SFPUC" retains in fee an 80' wide parcel of land. Within the 1.2-acre parcel there is a high-pressure underground pipeline that runs east-west through the site that is maintained by the "SFPUC". The Retained Fee Parcel proposed to be conveyed under a license agreement excludes portions at both the west end and east end of this elongate parcel. The east end will be used to support the north-south extension of Lee Avenue north from its current terminus onto the east perimeter of the site. The eastern area excluded from use approximates 4,157 SF. The western end that is excluded from use approximates 2,800 SF, for subterranean location of a wastewater facility and surface location of valves supporting the pipelines. The

interim net area for use under a proposed license approximates 45,315 SF, however, the final license area is subject to the "SFPUC's" review of approved plans and may change in size.

The Retained Fee Parcel is earmarked in the Balboa Reservoir project's Development Agreement to eventually satisfy a portion of the open space requirement and design for the adjacent development site.

### ***Request for Proposal and Developer Selection***

Subject to the "SFPUC" Commission adopting required findings, the "SFPUC" proposed to transfer the fee simple interest in the Balboa Reservoir property to reflect its "as is" condition, without any representation or warranties whatsoever, and any developer was required to rely upon its own due diligence to design, entitle, purchase and develop approximately 16.4 acres. In November 2016, the City, through the "SFPUC", issued a request for qualifications to initiate a developer solicitation and selection process. The selected respondents included Reservoir Community Partners, LLC (RCP) Related Development and the Emerald Fund. The respondents presented their proposals at public meetings where members of the public provided comments. The "SFPUC", selected Reservoir Community Partners, LLC (RCP)<sup>2</sup> to act as master developer for the project site and entered into an Exclusive Negotiating Agreement ("ENA").

The RFP states all horizontal (and vertical) development costs and most ongoing operation and maintenance costs will be paid by the developer and subsequent property owners. In addition, the RFP states a calculation of Fair Market Value should assume the development density include affordable housing of 33% as set forth in the RFP's Development Principles & Parameters.

The selected developer is expected to utilize the standard sources of debt and equity commonly available for similar projects. These sources may include the potential use of four percent (4%) Low Income Housing Tax Credits and associated tax-exempt bonds to subsidize qualifying affordable units. In addition, the City may consider the use of additional public financing resources not obtainable without City support if such resources would allow the developer to exceed the project's baseline Parameters (e.g., provide affordable housing above the 33% threshold, enhanced open space, and other extra public benefits). However, the amount of public financing available, if any, depended on a number of factors to be determined during the ENA period, including the project's final development program, the public financing tool that is ultimately selected, and City-wide fiscal considerations<sup>3</sup>. The RFP further states the sale of the land would occur following City approval of entitlements (i.e., after the project receives the approvals) and approval of the transaction documents by the "SFPUC", the Board of Supervisors, and the Mayor. In addition, consistent with Chapter 23 of the City's Administrative Code, an appraisal is required before the "SFPUC" can convey the site, and hence the logical support for one of the major hypothetical conditions of the appraisal – that its Fair Market Value reflects development approval. All of these property and development conditions underlie the basis for the subject valuation.

### ***Proposed Development***

During the ENA period the selected developer has worked closely with the "SFPUC", OEWD and Planning to refine its proposal to a detailed development program. The **Actual RCP Plan** proposed site acquisition, and development of approximately 1,100 units of market rate and mixed-income affordable housing, open space, a childcare facility/community room available for public use, on- and off-street parking, and new streets, utilities, and other infrastructure. As the ENA, public and planning process evolved, RCP developed a site plan with 50% affordable housing density (not 33%), based on public and private input. In addition,

<sup>3</sup> Under the Extraordinary Assumption of the appraisal, a current \$39.5 million public subsidy amount is reported available for the subject by the San Francisco Mayor's Office of Economic and Workforce Development representatives Ms. Anne Taupier and Ms. Leigh Lutenski.

according to Balboa Reservoir Design Standards and Guidelines (DSG) building heights vary but generally rise from west to east. These criteria are summarized on **Table 1.1** referencing both the **Actual RFP Plan** (and the **Alternative Plan** discussed later) and illustrated on **Exhibit A**.

The **Actual RCP Plan** has designed vertical development on Blocks TH1, TH2 and H adjacent to the Westwood neighborhood are limited to 2-stories for the row of units abutting neighboring SFR's, rising to 3-stories mid-block and then to 4-stories for their east perimeter facing West Street. Blocks A and B are limited to 78' and 48'-68', respectively. Block C, D and F are limited to 48'-68'. Block E and G are limited to 78' and 48'-78' respectively. As a major national multi-family rental property developer and operator, RCP's lead team member, Avalon Bay, is targeting rental housing occupancy, as does its affordable housing partner, Bridge Housing. The Actual public-private partnership 50% development Plan, nearing entitlement as of the January 1, 2020 effective date of value, is slated to serve low-moderate income residents. The **Actual RCP Plan** targets development on Blocks A, B, E, F and H for affordable housing units, and Blocks C, D, G and TH1 and TH2 for market rate units. Therefore, the **Actual RCP Plan** does not conform to the basis of its Fair Market Value as set by the RFP. However, the Actual RCP Plan does not conform to the basis of Fair Market Value, not only because it includes a 50% affordable housing density (not 33%) but because the concept of Fair Market Value is based on Highest and Best Use. Highest and Best Use is defined as that use which is physically possible, legally permitted, economically feasible and produces the highest return or value. A plan that does not support the highest return or value cannot be deemed the Highest and Best Use.

Based on a *pro-forma cash flow model* developed by RCP and its consultants (and reviewed and confirmed by the appraiser), the **Actual RCP Plan with 50% affordable density does not support positive land value or financial feasibility**, including standard sources of debt and equity commonly available for similar projects and the assumed amount of public financing, and hence does not support a **Highest and Best Use conclusion**. Since the Actual RCP Plan does not support a Highest and Best Use conclusion, a Fair Market Value appraisal requires the determination of a use that produces the highest value, and thus an **Alternative Plan** must be examined. Subsequently, RCP and its consultants developed a *modified pro-forma testing its same site plan but based on a 33% affordable density* (as stated in the RFP). Based on a modified RCP 33% pro-forma model the overall development program proposed to construct up to approximately 1,096 units including 602 multi-family rental apartments, 360 affordable rental units (33%), and a range of townhouse units from 100 to 134 in blocks TH1 and TH2. However, at the time the RCP 33% density plan and pro-forma was submitted to the appraiser, the RCP consultants acknowledged there was no certainty the site design had the capacity to support up to 134 units in 2-3 story units designed for Blocks TH1 and TH2. However, it appears the RCP 33% density plan also did not consider the increased building height limit potential of 48' on their eastern perimeter, nor the potential to develop similar townhouse units on the opposite street-facing portion of Blocks F and D (discussed below for the Alternative Plan). The RCP pro-forma was based solely on a residual valuation technique yielding nominal land value for the market rate multi-family units. It was reported that neither land component for market rate multi-family or townhouse units was market tested, and the **33% affordable density model also did not support positive land value or financial feasibility**. Such findings cannot support a viable Highest and Best Use conclusion and suggests that another Alternative Plan be considered.

Consequently, an **Alternative Plan** was developed to by the appraiser that addresses Highest and Best Use criteria, and produces the highest value, representing Fair Market Value. The RCP pro-forma cash flow analyses rely on a much larger component of rental units, along with a smaller component of owner townhouse units. However, by substituting a component of land designated for market rate rental housing units, for a component of land to support townhouse units, significant positive value land value is indicated, and which supports Highest and Best Use criteria. Further, the exchange of lower valued market rate rental housing land with higher valued townhouse land is viable based on consultation with Planning department staff and Balboa Reservoir Design Standards and Guidelines ("DSG"). Absent the affordable density under

(1) Based on consultations with Planner Seung Yen Hong and Architect Karen Murray

the Actual RCP Plan, use of certain block areas, intended for affordable units, is analyzed instead for market-rate housing as illustrated and discussed herein. Block F is available to support market rate units including townhouse units on its western edge, and as well on Block D. Therefore, the Alternative Plan includes development of townhouse units on Blocks TH1 and TH2 and H, and additionally on a portion of Blocks F and D facing West Street as discussed below. Further, the Alternative Plan requires no significant alteration to the overall physical site plan and its required infrastructure backbone, (with only a slight reduction in overall density) that was unanimously approved by the Planning Commission in April 2020 to undergo a General Plan amendment. The agreement for the intended use and users of the appraisal is based on the acceptance that the hypothetical Alternative Plan supports the highest land value for the subject. The highest land value is a fundamental to the determination of Highest and Best Use that is discussed later in the report. Hereafter the **Alternative Plan** is referred to as the 33% plan used to determine the Fair Market Value of the subject property.

Referring to **Table 1** and **Exhibit A** the *Hypothetical Alternative Plan* is presented that supports a 33% affordable housing program, (rather than the Actual RFP Plan that is intended). The **Alternative Plan** includes a total of 1,049 units. The alternate unit count results in an increase in townhouse units, and a small reduction in multi-family units and affordable units overall, but yet closely approximates the **Actual RFP Plan** component unit counts. The analysis does attempt to validate the density capacity for townhouses as described below. Land supporting market rate townhouse development contributes significantly greater economic value to support the extensive costs associated with constructing the required infrastructure improvements and yields a higher return and value for the site.

Due to the reduction of the affordable requirement, the use of Block F is no longer needed to supply affordable inventory. Following discussions with planning and architect support staff, the Alternative Plan is deemed viable that could incorporate townhouse units like those planned directly across West Street to the west on Block TH1 and TH2. It was confirmed that both Block F and D could support townhouse units but only designed for that portion of the blocks facing West Street, while the balance of the development on Blocks F and D would support multi-family (stacked rental units or ownership condos) as actually planned. It is noted the building height on the westernmost portion of Block F and D is 48' rising to 68' inbound. Like Block F, Block H slated to provide affordable units (targeted by Habit for Humanity) would be available for market rate townhouse units consistent with actual development planned for the adjacent Blocks TH1 and TH2 to the north. Based on the illustration that was prepared following discussions with San Francisco Planning staff Seung Yen Hong and consult with Ms. Karen Murray, Partner with Van Meter Williams Pollack LLP Architecture | Urban Design, the site's capacity appears to adequately support approximately 148 townhouse units on Blocks TH1, TH2, and H, and on the street-facing areas of Block F and D. Given the elevated height limits of 48' on the westernmost perimeter of Block F and D facing West Street and as well, opposite those blocks, on the eastern perimeter of Blocks TH1 and TH2, there is the opportunity to construct stacked townhouse units similar to those successfully developed in a nearby project known as 800 Summit Way in the Park Merced neighborhood. Please refer to photographs included in the addenda of the report. The remainder inbound portions of Blocks F and D will continue to support market rate multi-family units (stacked flats).

All other Blocks A, B, E supporting affordable units with market rate multi-family units in Blocks C and G are developed in the same manner as the actual plan. However, with the design substituting stacked multi-family (single-level) units with 2-level townhouses on portions of the Block F and D and H, the overall unit count approximates 1,049 units rather than approximately 1,100. Since the affordable requirement is indexed as a percentage of the total number of units, slightly fewer affordable units are required. For the valuation, the total number of affordable units is reduced to 347 units by modifying the component inventory on Block A or elsewhere on Block E, for example.

### **Highest and Best Use**

Highest and Best Use is defined as that use which is physically possible, legally permitted, economically feasible and produces the highest return or value. Based upon these factors, it is the appraiser's opinion that proposed development set forth under the *Hypothetical Alternative Plan* represents the subject's Highest and Best Use. The Alternative Plan requires no alteration to the overall site plan and its required infrastructure backbone, yielding only a slight overall reduction in density, but substituting a greater number of potential townhouse units than the **Actual RFP Plan** for the analysis. The **Alternative Plan** is illustrated on **Exhibit A** and summarized on **Table 1**. This opinion is supported by the fact:

- The use is physically possible by satisfying the project's environmental and entitlement concerns, and other criteria related to requisite public right-of-way, density, building height, parking, open space, etc. In addition, the alternate plan can rely on the same layout of the backbone infrastructure plan that creates a series of blocks that are circumnavigated by the oval street pattern designed for the Actual RFP Plan that has engineering, planning and community acceptance by virtue of its impending and assumed development approval.
- The use is legal. This finding is appropriate by invoking the Extraordinary Assumption of the appraisal since the sale of the land, as of the effective date of value, is assumed to occur following City approval of entitlements. In this way the appraisal is consistent with Chapter 23 of the City's Administrative Code that requires it, and the logical support for one of the major Extraordinary Assumptions of the valuation.

However, even absent the Extraordinary Assumption, under USPAP Standard 1, it is permissible to consider land use changes that are deemed reasonable and probable. Such conditions give support to analyzing the Highest and Best Use of the subject property under an **Alternative Plan** supporting approximately 1,049 units since it is only slightly different from the **Actual RCP Plan** supporting approximately 1,100 units. It is reported that one of the primary concerns expressed by the surrounding community was that the total density not exceed this level and provide adequate open space. At the same time it supports the approximate maximum efficient reuse of the site for the City to achieve its goals under the Balboa Park Station Area Plan to provide a needed supply of additional housing, especially affordable units. The **Alternative Plan** reflects only a nominal overall density reduction of less than 5%, maintains the open space and other community benefits, and addresses the valuation requirement based on the 33% affordable density without increasing the overall cost of the BKF/Cahill Infrastructure Plan.

For these reasons reliance on the **Alternative Plan** seems reasonable and probable for the valuation of the subject property from a legally permissible perspective.

3. Such use of the site has good potential to be well-supported, which is shown by competitive market and affordable pricing and occupancy levels for competitive residential development projects in San Francisco.

In terms of economic feasibility, the Development Approach method of valuation provides an analysis of requisite market and cost factors such that potential revenues for the aforementioned use components exceed requisite development costs and yield a competitive profit margin to attract capital investment.

The valuation of the **Alternative Plan** with 33% affordable density does support positive land value and financial feasibility, by including an increase in townhouse units, (and a small reduction in multi-family units and affordable units overall), but yet closely approximates the Actual RFP Plan component unit counts. Land supporting market rate townhouse development contributes

significantly greater economic value to support the extensive costs associated with constructing the required infrastructure improvements and yields a higher return and value for the site. The analysis of the **Alternative Plan** relies on standard sources of debt and equity commonly available for similar projects and the assumed amount of public financing, and hence does support a Highest and Best Use conclusion.

4. Other uses are not apparent that would satisfy the Balboa Park Station Area Plan complimented by the considerable efforts of City and community planning (supported by engineering and architectural design professionals) that provide a higher level of income or otherwise enhance the value of the property.

With respect to the subject Retained Fee Parcel, all of the above factors and Highest and Best Use Conclusion apply to it as well, since the subject Retained Fee Parcel is earmarked in the Balboa Reservoir project's Development Agreement to eventually satisfy a portion of the open space requirement and design for the adjacent development site. Absent the prospect of the development potential of the Balboa Reservoir site, the Retained Fee Parcel lacks any contributory value other than its public infrastructure use serving as a utility corridor. However, its Highest and Best Use is altered by virtue of its association with the Balboa Reservoir's adjacent development potential. In this way, it's Fair Market Rental Value is enhanced by a commensurate value related to adjacent site's overall value expressed as \$/SF.

### **Valuation Methodology**

**Introduction** - For this analysis, the market value represents the most probable price likely to be paid by a single purchaser to acquire the subject property in a single transaction. The proposed economic land use for the project area is dominated by proposed housing development summarized on **Table 1**. The subject comprise a complex site proposed for reuse and phased development for which planning entitlements and significant infrastructure and public improvements are necessary to prepare the property for vertical development. There are no recent truly comparable large development land sales, particularly facing similar horizontal development costs and affordable housing requirements, and thus the most appropriate methodology for estimating the market value of the subject is the *Development Approach*.

The *Development Approach*, (also referred to as a *Land Residual* valuation) utilizes a Discounted Cash Flow (DCF) technique. The DCF analyzes cash inflows (**REVENUES**) expected from selling parcels, once infrastructure has been installed, less all cash outflows (**HORIZONTAL DEVELOPMENT COSTS**) necessary to obtain approvals and develop the site infrastructure to sell the finished land parcels over an absorption period. The DCF method converts the expected cash flows into a single present value indication by applying an appropriate discount rate, which accounts for the return necessary to attract investment and for development to occur. The Land Residual valuation most closely reflects what a potential developer/purchaser of the subject would use to evaluate the price they would be willing to pay for the site. Also, institutions extending loans on large land development projects often require such an analysis.

**Development Approach** - The starting point of the residual analysis is estimating **revenues** from the sale of land units for the logical groupings of land areas already prepared for vertical development, often referred to as "superpads". To estimate the land value of these super pads, a Sales Comparison Approach is presented, as well as a (vertical) Land Residual method to supplement the direct value indications derived by comparable land sales. The potential **revenue** from component land sales transactions include:

- land sales transactions supporting townhouse units that each feature 2 – 4 stories, including some that are stacked in a vertical duplex configuration.
- land sales transactions supporting multi-family apartment units that typically are designed as stacked flats, or single level units within 4 - 7 story buildings.

Based on comparable land sales for site acquired to support development of *townhouse units* the appraiser concludes current (land) unit values from approximately \$500,000 - \$550,000/unit is indicated. This is a relatively wide range and may not adequately capture prevailing or anticipated hard and soft costs of vertical construction in San Francisco that have a direct impact on land value. Therefore, a secondary analysis is presented to backstop or add further support to an opinion of land value supporting townhouse development. The secondary analysis is referred to as a Land Residual analysis<sup>4</sup> that tests or measures what land value (\$/unit) can be supported given the revenue potential projected from the retail price of a completed townhouse unit, less the costs to complete its vertical construction. For the subject prototype townhouse unit, its retail value (or revenue) can be reasonably supported at \$1,000/SF or approximately \$1,650,000. Net of costs of sales and warranty reserves, sales proceeds approximate \$1,567,500. The next step in the residual process is to estimate an appropriate deduction for the hard and soft costs required to complete vertical construction of a townhouse unit along with a profit margin. For the subject both Type III and Type V construction is anticipated. These cost factors are subtracted from the aforementioned revenue to determine the contributory value of the land that supports the townhouse unit. Total development costs and profit approximate \$1,069,000/unit and when deducted yield a contributory land residual value of **\$500,000** for the Type V townhouse unit. The same residual exercise is repeated for the Type III unit but with some nominal changes. Typically Type III construction is deemed to be more costly than Type V. However, given its stacked configuration it is deemed to be similar due to potential construction cost efficiency. Therefore, the same \$400/SF cost factor is applied. However, for its garage space located in a structure<sup>5</sup>, the cost factor is greater and increases the overall cost to \$764,138/unit and \$463/SF. The analysis continues as explained for the Type V analysis. The net sales proceeds (revenue) less the total development costs and profit yields a contributory land residual value of **\$460,000** for the Type III townhouse unit. The analysis is deemed to provide a meaningful indication, notwithstanding the significant impact of hard and soft costs that are considered reliable but at best are reported as volatile under prevailing market conditions. In the final analysis, somewhat greater weight is placed on the residual value indication that is more often relied upon in San Francisco's sophisticated development and investment community. Therefore, the current contributory value of those blocks supporting townhouse development is based on **\$470,000/unit**.

The same exercise is applied to estimate the Market Value of the subject land deemed to support *market rate multi-family development units*; first by the Sales Comparison Approach followed by a Land Residual analysis. The Sales Comparison Approach provides an estimated range of value from approximately \$75,000/unit to \$95,000/unit. The residual analysis provides an estimate of value at **\$63,000/unit**. The analysis is deemed to provide a meaningful indication, notwithstanding the significant impact of hard and soft costs that are considered reliable but at best are reported as volatile under prevailing market conditions. In the final analysis, greater weight is placed on the residual value indication that is more often relied upon in San Francisco's sophisticated development and investment community. Therefore, the current contributory value of those blocks supporting multi-family development is based on **\$67,500/unit**.

The aforementioned unit prices estimated for land supporting market rate townhouses (148 units) and multi-family units (554) are forecast to generate nearly **\$120,000,000** over 7 years. The preceding revenue sources support the absorption and gross income presented in the consolidated Discounted Cash Flow projection on **Table 2**.

---

<sup>4</sup> The Land Residual technique used to estimate a value for the subject site by the Development Approach relies on revenue projected from the sale of land units, less the costs of horizontal land development. The (horizontal) Land Residual technique used to estimate the As Is value of the Balboa Reservoir site relies on revenue from the sale of a land parcels, less the costs of horizontal infrastructure construction. The (vertical) Land Residual technique used to estimate the contributory value of a townhouse lot relies on revenue from the sale of a completed townhouse unit, less the costs of vertical construction.

<sup>5</sup> Stacked townhouse units in Blocks F and D would be served by parking spaces in structure also serving multi-family units.

The balance of the project's housing units is slated for affordable uses that do not contribute positive land value, (as their vertical construction costs exceed their formulated value), but rather require significant subsidy in order to satisfy the requirements and goals of the project entitlement.

In addition, it is anticipated the project will rely on formation of a Community Facilities District, more commonly known as Mello-Roos. The services and improvements that **CFDs** can finance include streets, sewer systems and other basic infrastructure, police protection, fire protection, ambulance services, schools, parks, libraries, museums and other cultural facilities. For this analysis the anticipated CFD is limited to the land supporting ownership townhouse units based on their underlying land value. Under this scenario, the townhouse units can support a projected bond amount of approximately **\$3,942,878**. The analysis is presented on **Table 2**.

The next component of the project's cash flow projection includes various financing tools that contribute to the sources<sup>6</sup> and uses of funds to support the project site's financial feasibility and valuation. In addition to the land sales revenues sources estimated above the appraisal analysis assumes the developer can rely on successfully applying for and receiving **tax credits** and as well leverage **public subsidy** to assist the development. The appraisal estimates that the developer could leverage about **\$263,000/unit** in private tax credit investor equity from the sale of federal low-income housing tax credits for affordable apartments in Balboa Reservoir. This estimate was developed based a typical 4% tax credit yield for a multifamily new construction and serves to reduce the gap subsidy discussed below. The appraisal analysis is supported by the expertise of Seifel Consulting, an experienced consultant with the California Tax Credit Allocation Committee (CTCAC) policies and practices, and for this analysis analyzed the 4% tax credit program.

Under an Extraordinary Assumption of the appraisal, the valuation assumes that the developer could leverage approximately **\$39.5 million** in public subsidy sources to assist the development based on information provided by the developer, the "SFPUC", and OEWD, and a review of potential funding sources that could be available to assist the development.

Forecast over the 7-year projection period on **Table 2**, net revenues, financing tools and public subsidies total approximately **\$161 million**.

**Development Approach Continued** - The next step in the residual analysis is to deduct from the aggregate revenue sources, the **estimated gap subsidy** and **horizontal development costs** – that underlie the type and level of information typically relied upon in the marketplace.

The estimated gap subsidy results from the requirement to develop 33% of the project density with rental housing units targeting an average 60% AMI. The formulated value associated with the project net rental income from these units is far less than their construction costs. The resulting gap, or deficit between costs that exceed value is in part offset by leveraging about **\$263,000/unit** in private 4% tax credit investor equity as mentioned above. However, net of the tax credit, a deficit or **gap subsidy** of approximately **\$244,500** for each affordable unit remains that is forecast to total **\$84.9 million** over the projection period in **Table 2**.

The next deduction is required for the completion of the required **horizontal development costs**. Given the methodology, the subject's As-Is value relies upon the accuracy of the design and estimated costs that underlie the type and level of information relied upon in the marketplace. It is a significant and extraordinary assumption of the appraisal the reported hard and soft costs presented herein are accurate and reliable.

As noted, proposed development requires extensive infrastructure improvements that include water supply, wastewater, drainage, gas and electric, and other utility infrastructure. All utilities constructed on site would

---

<sup>6</sup> California Tax Credit Allocation Committee (CTCAC)

be located underground. For this analysis, design features are based on the analysis prepared by BKF Engineers and costs developed by Cahill Contractors. The Cahill sourced horizontal hard costs are projected to total **\$34.95 million** summarized on **Table 5** in the appendix.

In addition to the aforementioned hard costs to prepare the site and install the required infrastructure, such an effort incurs significant soft costs. Current soft costs related to the horizontal development are reported by RCP at \$7.9 million, or 23% of hard costs that can otherwise be expressed as approximately \$7,600/unit. The RCP sourced horizontal soft costs are summarized on **Table 6** in the appendix.

Lastly, the project faces interim property tax liability until the market-rate land is sold resulting in the transfer of this liability to the subsequent owner.

Forecast over the 7-year projection period on **Table 2**, project gap subsidy, horizontal development costs and interim taxes total approximately **\$132.6 million**. The resulting net cash flow approximates **\$28.4 million** before discounting for the time and risk associated with the development (\$161 million - \$132.6 million).

**Development Approach Conclusion** - The aforementioned **gap subsidy, horizontal development costs and interim property taxes** are deducted to derive a **net cash flow that forms the basis for the subject's As-Is value indication**. The indicated Market Value utilizing the DCF capitalization method represents the sum of the present worth of each projected annual net income stream (before depreciation and taxes); and the present worth of the reversion (if any). Most investors price real estate on their outlook for the income and their judgment of the risks involved.

The appraiser's cash flow projection is presented on **Table 2**. The indicated range of value is from approximately **\$18,000,000 to \$19,400,000** based on discount rates ranging from approximately 15% to 18%. The strength and durability of the residential market in land scarce San Francisco tends to reflect investment yield rates at the low end and even below those metrics reported in the national survey. However, reliance on availability and support from projected LIHTC and public subsidy requires further consideration. The appraiser concludes an estimate of **\$18,500,000** to reflect the As-Is condition of the subject property, before consideration of the required adjustment for the contributory value of entitlement costs.

### ***Adjustment for Entitlement Costs and Final Value Conclusion***

The final step in the valuation process is to address the impact based on required entitlement costs. Entitlement costs are typically a factor in the valuation analysis of land like the subject as there is direct market recognition of such future costs and risks, since without required approvals development cannot proceed. However, for this appraisal, the exclusion of the costs of entitlement is due to the sale of the land that occurs following City approval of entitlements. The sale or ownership transfer is presumed under the definition of fair market value, and thus the exclusion accurately reflects only the remaining site costs of (horizontal) development as of the effective date of the appraisal. This is appropriate due to the Development Approach valuation methodology that is employed. The contributory value of the cost of entitlements {that in this case was funded by both the "SFPUC" (seller) and RCP (buyer)} is proportionally deducted or credited as the final adjustment in determining the fair market value of the property. In this way the appraisal is consistent with Chapter 23 of the City's Administrative Code that requires it, and the logical support for one of the major hypothetical conditions of the valuation.

The required entitlement costs have been contributed by the "SFPUC" and the developer, RCP. The reported entitlement expended by the "SFPUC" and the developer, RCP total \$8,094,610. The respective amounts contributed by each is summarized on the bottom of **Table 3**.

<b>(1)</b>	<b>TOTAL ENTITLEMENT COSTS (+3)</b>	<b>\$8,094,610</b>		
		<b>SubTotal</b>	<b>Planning</b>	<b>OEWD</b>
<b>(2)</b>	<b>SFPUC REPORTED ENTITLEMENT COSTS</b>	<b>\$1,014,864</b>	\$400,136	\$614,728
		<b>SubTotal</b>	<b>Previously Spent</b>	<b>2020</b>
<b>(3)</b>	<b>RCP REPORTED ENTITLEMENT COSTS</b>	<b>\$7,079,746</b>	\$5,309,810	\$1,769,937
		<b>Entitlement ( Pre Construction Costs)</b>		

The entitlement costs approximate **\$8.1 million** and accrue significant value to the development potential of the site when completed and avoided by a subsequent buyer. The costs otherwise reflect a unit cost of **\$7,700/unit**, and the breakdown identifies the anticipated entitlement costs yet to be expended by the developer RCP during 2020.

The required entitlement costs of **\$8.1 million** are deducted from the NPV indication, that omits the entitlement costs in the cash flow projection. Once the entire entitlement cost of **\$8.1 million** is deducted, the indicated value approximates **\$10.4 million (\$18.5 – 8.1)**. However, to give the proportionate credit or contribution to the parties that funded the entitlement, an approximate **\$1 million** is added (for the seller's contribution by the "SFPUC") to derive the final value estimate for the subject at **\$11.4 million**. The final valuation analysis is presented on **Table 3**.

### ***Retained Fee Valuation***

The valuation of that portion of the Retained Fee Parcel is based on the terms of the proposed license. Its use and restrictions is explicit in Section 6(a) that allows constructing, installing, and maintaining a public pedestrian path at least 20-feet in width to accommodate City vehicles traversing the License Area in an unobstructed manner, vegetation consisting of low-growing shrubs, grass and other plants approved by City at its sole discretion, a passive public open-space play area limited to activity paths, child play area, landscaping and related irrigation facilities. The area is to be open and used by the general public. The stated uses appear to adequately serve the intended open space use as required for the larger project approval, but otherwise reserved rights and uses are restrictive under Section 8.

The analysis takes into further consideration an estimate of Fair Market Rent that can be made in a single lump sum payment for use of the property over the primary 20-year term. However, the terms of the rent schedule also include a no-rent abatement for the first 10 years. The 10-year rent abatement is considered appropriate in determining a fair market rent estimate for the subject property for the following reason. The lump sum payment effectively pre-pays the rent in advance for the entire 20-year term of a proposed license agreement. However, the intended use of the Retained Fee parcel (to contribute additional open space for the adjoining Balboa Reservoir project and community) is not required until a certificate of occupancy is issued for the last market rate building developed on the adjoining Balboa Reservoir site.<sup>7</sup>

Market rate development on the adjoining Balboa Reservoir site will be completed in phases and the last phase of development is slated for Block G that will support a large 4 – 7 story 200-unit multi-family rental project. Based on the appraisal projection the land sale revenue from Block G is forecast by year end 2026, some seven years hence from the effective date of value. However, the projected Block G land sale date (and extended timeline for the required open space use of the Retained Fee parcel) does not take into consideration of at least a 1 – 2 year construction period before which time the developer qualifies for issuance of a certificate of completion. Secondly, it does not account for any delay if the Balboa Reservoir project faces a potential CEQA lawsuit that could add up to approximately another year to the timeline before the project's initial phased development commences. The risk of future CEQA litigation is imbedded in the selection of a discount in deriving the site's market value but is otherwise not reflected in the projected timeline. Therefore, it appears reasonable that the required deferred use of the Retained Fee parcel could extend from 9 – 10 years and must be taken into consideration in deriving its fair market rent. Further consideration is given to the fact that the Retained Fee parcel has no other economic use during the interim period serving only as a public utility corridor until the adjoining development site supports an economic value for it. Therefore, the fair market rent analysis concludes it is appropriate to consider an approximate 10-year

---

<sup>7</sup> Development Agreement Exhibit N, Section 7 - *SFPUC Open Space & Gateway Landscape* states the following. The open space improvements on the SFPUC Retained Fee Area and Gateway Landscape, as described in Exhibit C must have commenced construction of improvements as a condition of issuance of an FCO for the Market Rate Units in Phase 2, as described in Schedule 1-A (i.e., Parcel G).

period of rent abatement over the 20-year license period. The impact of the 10-year abatement is presented on **Table 4**.

The valuation of the Retained Fee Parcel is based on its unit value contribution equal to that of the adjacent Balboa Reservoir Development site. However, due to the restricted uses conveyed under a 20-year license term, its baseline value is adjusted since it does not represent a fee interest. The adjusted unit value is applied to that portion of the retained fee to derive an annual rental amount that provides the fee owner a competitive rate of return on the underlying value of its asset. The 20-year rent schedule is discounted to derive a lump sum payment in advance, as shown on **Table 4**. The indicated value is concluded to be **\$227,000**.

**FAIR MARKET RENTAL VALUE - RETAINED FEE SITE AT BALBOA RESERVOIR**

**TABLE 4**

Fair Market Rent determination is to provide Fee Owner with an amount of rent that provides reasonable rate of return on its underlying asset value. Value is based on the NET USEABLE AREA of the Retained Fee (excluding portion allocated for Lee St. on EAST end and Valve equipment on west end of retained fee site).

**Line 4** - FMR begins with allocation of fee value of Balboa Reservoir Site expressed as overall \$/SF

## APPENDIX

## Valuation Subject To Hypothetical Conditions and Extraordinary Assumptions

The value estimate is made as of a current date and under major assumptions that are relied upon for the valuation of the subject property. These may include hypothetical conditions and extraordinary assumptions that have been made for the purpose of this analysis as defined by USPAP. The definitions are provided below.

**HYPOTHETICAL CONDITION:** that which is contrary to what exists but is supposed for the purpose of analysis. Hypothetical conditions assume conditions contrary to known facts about the physical, legal or economic characteristics of the subject property or about conditions external to the property, such as market conditions, trends, or the integrity of data used in an analysis.

**EXTRAORDINARY ASSUMPTION:** Extraordinary assumptions presume as fact otherwise uncertain information about the physical, legal, or economic characteristics of the subject property or about conditions external to the property, such as market conditions or trends, or the integrity of the data used in an analysis.

For the valuation of the subject site, and by agreement for the intended use and users of the appraisal, the **Hypothetical Conditions and Extraordinary Assumptions** are listed below.

1. The subject valuation discussion and analysis that follows refers to 3 different **development plans** defined below.

**RFP Plan** - For purposes of its valuation and by agreement with the intended use and users of the appraisal, the determination of Fair Market Value for the subject site should assume a development density of affordable housing at 33%, as set forth in the RFP's Development Principles & Parameters.

**Actual RCP Plan** – The “SFPUC”, selected Reservoir Community Partners, LLC (RCP) in 2017 to act as master developer for the project site and entered into an Exclusive Negotiating Agreement (“ENA”). During the ENA period the selected developer worked closely with the “SFPUC”, OEWD and Planning to refine its proposal to a detailed development program with a set of design and development controls to ensure the project is built as intended. As the ENA, public and planning process evolved, RCP developed a site plan with 50% affordable housing density, based on public and private input. As a major national multi-family rental property developer and operator, RCP's lead team member, Avalon Bay, is targeting rental housing occupancy, as does its

affordable housing partner, Bridge Housing. The **Actual** public-private partnership 50% development **Plan**, nearing entitlement as of the January 1, 2020 effective date of value, is slated to serve low-moderate income residents. However, as set forth in the RFP, public financing sources would support the project's additional affordable housing density in excess of 33% affordability. The **Actual RCP Plan** targets development on Blocks A, B, E, F and H for affordable housing units, and Blocks C, D, G and TH1 and TH2 for market rate units. Therefore, the **Actual RCP Plan** does not represent the condition of the property that is the basis of its Fair Market Value as set by the RFP. Hereafter the **Actual RCP Plan** is referred to as the 50% plan.

Based on a pro-forma cash flow model developed by RCP and its consultants (and reviewed and confirmed by the appraiser), the **Actual RCP Plan** with 50% affordable density does not support positive land value or financial feasibility, and hence a Highest and Best Use conclusion. Since the **Actual RCP Plan** does not support a Highest and Best Use conclusion, a Fair Market Value appraisal requires the determination of a use that produces the highest value, and thus an Alternative Plan must be examined. Subsequently, RCP and its consultants developed a modified pro-forma testing its same plan but based on a 33% affordable density (as stated in the RFP). The RCP 33% pro-forma is discussed later in the report, but it too did not support positive land value or financial feasibility and cannot be deemed the Highest and Best Use.

**Alternative Plan** – The intended use of the appraisal is to estimate the current Fair Market Value of the subject property under an **alternative** plan that represents a hypothetical condition as defined herein. Invoking a hypothetical condition is triggered for two primary reasons. First, the hypothetical condition of the appraisal is due to the fact that since the Balboa Reservoir site is a water utility ratepayer asset, the “SFPUC” must receive Fair Market Value for the site. The concept of Fair Market Value is based on Highest and Best Use. Highest and Best Use is defined as that use which is physically possible, legally permitted, economically feasible and produces the highest return or value. A plan that does not support the highest return or value cannot be deemed the Highest and Best Use.

Consequently, an **Alternative Plan** was developed by the appraiser that addresses Highest and Best use criteria, and produces the highest value, representing Fair Market Value. The RCP pro-forma cash flow analyses rely on a much larger component of rental units, along with a smaller component of owner townhouse units. However, substituting a component of land designated for market rate rental housing units, for a component of land to support townhouse units, yields positive land value, and supports Highest and Best Use criteria. Further, the exchange of lower valued market rate rental housing land with higher valued townhouse land is viable based on consultation with Planning department staff and Balboa Reservoir Design Standards and Guidelines (“DSG”). Absent the affordable density under the Actual RCP Plan, use of certain block areas, intended for affordable units, is analyzed instead for market-rate housing as illustrated and discussed herein. Block F is available to support market rate units including townhouse units on its western edge, and as well on Block D. Therefore, the **Alternative Plan** includes development of townhouse units on Blocks TH1 and TH2 and H, and additionally on a portion of Blocks F and D facing West Street. Further, the **Alternative Plan** requires no significant alteration to the overall physical site plan and its required infrastructure backbone, (with only a slight reduction in overall density) that was unanimously approved by the Planning Commission in April 2020 to undergo a General Plan amendment. The agreement for the intended use and users of the appraisal is based on the acceptance that the hypothetical alternative plan supports the highest land value for the subject. The highest land value is a fundamental to the determination of Highest and Best Use that is discussed later in the report. Hereafter the **Alternative Plan** is defined as the 33% affordable housing density plan used to determine the Fair Market Value of the subject property.

2. Future use of the site has been the subject of extensive environmental and development approval processes to support market rate and affordable housing development. The physical orientation of the overall **Actual RCP (site) Plan** has been developed with community and planning department input and was unanimously approved by the Planning Commission to undergo a General Plan amendment in April 2020. Board of Supervisors President Norman Yee introduced legislation to the Board at the end of April that details the development agreement and a special use district to rezone the property. Given its high level of similarity, the valuation is based on furtherance that the hypothetical **Alternative Plan is approved** as of the effective date of value.
3. The analysis assumes the site will be granted approval as of the effective date of value for the uses and approximate density outlined herein that is concluded to be (and assumed) to reflect the Highest and Best Use of the subject property. Based on consultation with City of San Francisco Planning Department representatives, RCP representatives, and community groups, there exists reasonable probability the proposed development will obtain approval as discussed herein to support medium-high density townhouse and multi-family development under current and anticipated market conditions. The current market value analysis does take into consideration the significant time, costs and risk associated with obtaining development approvals, subsequent completion of horizontal infrastructure construction, and preparing the site of marketability and revenue generation.
4. The **RCP Actual Plan** and the **Alternative Plan** provide 50% and 33% affordability, respectively. Both levels of affordability are in excess of prevailing affordable typically required for sites under *private* ownership, set forth in Section 415 of the San Francisco Planning Code, but that it is deemed appropriate for the development of the Balboa Reservoir subject site under its history of *public* ownership, and designation of the subject site in the 2014 Public Land For Housing policy. Consequently, the City and County of San Francisco's requires significantly more affordable housing, than required for privately owned development land. This is due to the City's effort to mitigate its housing shortage crisis that relies on a variety of creative methods of subsidy to preserve and develop new affordable housing units. In this way, the use of public land serves to contribute to the community's support and acceptance of the site's development plan.
5. The valuation assumes public subsidies totaling approximately \$39.5 million are available to support the project site that may be derived from park bonds IIGA, AHSC or other State funding sources. The current amounts are projected to grow until funding occurs in projection years 2022- 2025.
6. The estimated Low Income Housing Tax Credit is available targeting a 4% credit program.
7. The parking for the alternative plan is based on an overall .5 parking ratio.

8. The scale and complexity of the subject development site is best estimated by the Development Approach that is otherwise referred to as the Land Residual Valuation technique. This is supported by the fact that no truly comparable land sales could be located that offer the similar size (density) and also face the same level and cost of infrastructure improvements required for the subject site. Secondly, for sites with similar development capacity and complexity, the Development Approach is most often utilized and relied upon in the marketplace. Given the methodology, the current valuation relies upon the accuracy of the design and estimated horizontal development costs for the subject (discussed later) that underlies the type and level of information relied upon in the marketplace. However, as part of the Development Approach process, the analysis does rely on comparable and competitive land sales data (generally for smaller sites already served by infrastructure) to derive potential revenue generation from the subject property. In this way the methodology attempts to assure the reliability of the Development Approach methodology.
9. The "SFPUC" transferred ownership of a 6.21-acre parcel in the northeastern corner of Balboa Reservoir to City College on May 17, 2012. In exchange, City College transferred ownership of a 6.60-acre parcel at the southwestern corner of Balboa Reservoir to the "SFPUC". The new configuration allowed City College to expand its campus, while the western portion of Balboa Reservoir remained suitable for future water storage. As part of the associated transfer agreement, City College granted the City a 60-foot access easement running east-west on the northern boundary of the City College parcel. This easement allows the "SFPUC" to construct a 60-foot-wide right-of-way to Phelan Avenue. Also in accordance with the agreement, the "SFPUC" granted City College a 50-foot access easement running north-south, to be built along the eastern edge of the "SFPUC" property. The accessway, also known as the Lee Avenue Extension, allows for pedestrian and vehicular access. The transfer agreement ultimately calls for City College to connect the accessway to Lee Avenue. Easements and encroachments may require resolution before future development of Balboa Reservoir can proceed. It is assumed the required resolution does not face any extraordinary cost or delay in the development of the subject property.
10. The mapping, dedication and acceptance of streets and other infrastructure improvements is anticipated to occur through the subdivision mapping process. Except as otherwise noted, the infrastructure shall be constructed within the public right-of-way to provide for access and maintenance of infrastructure facilities.
11. The Balboa Reservoir Land Transfer with City College parcel map indicates a total acreage of 17.6 acres, excluding Lot 3 that BKF Engineers quantify as 1.2 acres that is the **Retained Fee** area supporting 1 underground pipelines and potentially a second pipeline or replacement pipeline. BKF Engineers quantifies the project site at 16.4 acres as summarized on Table 1. The significant metric of economic development recognized in the marketplace is the housing density expressed in terms of the number of potential development units, notwithstanding essential non-economic infrastructure uses such as streets, open space and community benefits that contribute to the overall functional characteristics and appeal of the project area. For purposes of reporting and valuation of the **Fee Simple** interest representing the conveyance of the subject property is defined as 16.4 acres.
12. Entitlement costs are typically a factor in the valuation analysis of raw land like the subject as there is direct market recognition of such future costs and risks, since without required approvals development cannot proceed. However, the exclusion of the costs of entitlement (within the cash flow projection) is due to the sale of the land that occurs following City approval of entitlements. The sale or ownership transfer is presumed under the definition of Fair Market Value, and thus the exclusion accurately reflects only the remaining site costs of (horizontal) development as of the effective date of the appraisal. This is appropriate due to the Development Approach valuation methodology that is employed and defined later in the report. However, the contributory value of the cost of entitlements that in this case was funded by both the "SFPUC" (seller) and RCP (buyer) is proportionally deducted or credited as the final adjustment in determining the Fair Market Value of the property. In this way the appraisal is consistent with Chapter 23 of the City's Administrative Code that requires it and the logical support for one of the major hypothetical conditions of the valuation. It is reported that approximately \$8.1 million has been, or will soon be, spent to obtain project entitlement. The \$7.1 million and \$1 million spent by RCP and the "SFPUC", respectively, will serve as the basis for the final adjustment in determining the Fair Market Value of the subject site.

13. The Retained Fee Parcel is earmarked in the Balboa Reservoir project's Development Agreement to eventually to satisfy a portion of the open space requirement and design under a 20-year license agreement. The open space requirement extends beyond this period, however, the Fair Market Rent estimate presented herein (that that can be made in a single lump sum payment in advance) addresses its valuation for the initial 20-year license period only. The interim net area for use under the license approximates 45,315 SF, however, the final license area is subject to the "SFPUC's" review of approved plans and may change in size.
14. By agreement for the intended use and users the valuation date of January 1, 2020 is deemed a retrospective value opinion. A retrospective date of value is an opinion as of a specified historic date. The reference to the valuation date as retrospective is due to the initial research and analysis that commenced in the Fall 2019. However due to the onset of the Covid-19 pandemic that began to strangle global and local economic activity in March 2020, indiscernible market activity has occurred since then leading up to the date of report publication.
15. The descriptive elements of the subject property relied on by the appraiser include multiple technical reports, exhibits, and other published resources including, but not limited to:
  - The draft Environmental Impact Report for the Balboa Reservoir Project prepared by the SAN FRANCISCO PLANNING DEPARTMENT CASE NO. 2018-007883ENV
  - THE BALBOA RESERVOIR Neighborhood Design Standards and Guidelines 02.24.2020
  - BALBOA RESERVOIR INFRASTRUCTURE PLAN (DECEMBER 23, 2019); Prepared by BKF Engineers, With assistance from: Van Meter Williams Pollack, Pyatok Architects, GLS Landscape Architecture, Urban Design Consulting Engineers, and Rockridge Geotechnical Engineers
  - RFI responses and telecom discussions with BKF Engineers, Bridge Housing, Van Meter Williams Pollack, the "SFPUC", Mayor's OEWD representatives, San Francisco Planning Department representatives, Century Urban, Seifel Consulting, competitive project managers and market transactions participants.

The use of any hypothetical conditions or extraordinary assumptions in this report may affect the assignment results.

## Appraisal Certification Statement

The appraiser certifies that, to the best of his knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- The appraiser has no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- The appraiser has no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- The appraiser's engagement in this assignment was not contingent upon developing or reporting predetermined results.
- The appraiser's compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- The appraiser has made a personal inspection of the property that is the subject of this report.
- No one, other than Seifel Consulting, provided significant real property appraisal assistance to the person signing this certification.
- The appraiser has not completed a prior appraisal of the subject property in the prior three years.
- The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- As of the date of this report, the appraiser has completed the continuing education program of the Appraisal Institute.

## **Assumptions and Standard Limiting Conditions**

This appraisal is subject to the following limiting conditions.

1. The legal description and area dimensions furnished the appraiser is assumed to be correct. No survey of the boundaries of the property was completed.
2. No responsibility for matters legal in character is assumed, nor is any opinion as to title rendered, which is assumed to be marketable. All existing liens, encumbrances, and assessments have been disregarded, except where noted, and the property is appraised as though free and clear, under responsible ownership and competent management. It is specifically noted the appraisal assumes the property will be competently managed, leased and maintained by financially sound owners over a reasonable period of ownership.
3. Unless otherwise noted herein, it is assumed that there are no encroachments, zoning, or restrictive violations existing in the subject property.
4. No opinion is intended to be expressed on matters which require legal expertise or specialized investigation or knowledge beyond that customarily employed by real estate appraisers.
5. The exhibits in this report are included to assist the reader in visualizing the property. No survey of the property has been made and no responsibility in connection with such matters is assumed.
6. The distribution or allocation, if any, of the total valuation of this report between land and improvements applies only under the existing program of utilization. The separate valuations for land and improvements must not be used in conjunction with any other appraisal and are invalid if so used. Any value estimates provided in the report apply to the entire property, and any proration or division of the total into fractional interests will invalidate the value estimate, unless such proration or division of interests has been set forth in the report.
7. The statements of value and all conclusions shall apply as of the date shown herein.
8. No responsibility for economic or physical factors is assumed which may affect the opinions herein stated, which may be present or occur at some date after the date of value.
9. An inspection, as far as possible, by observation, the land has been made; however, it was impossible to personally inspect conditions beneath the soil; therefore, no representations are made as to these matters unless specifically considered in the appraisal. Further, no opinion is expressed as to the value of sub-surface oil, gas, or mineral rights, or whether the property is subject to surface entry for the exploration or removal of such materials, except as is expressly stated.
10. This appraisal is predicated on the assumption that the existence of hazardous material, which may or may not be present in, on or near the property, was not observed by the appraiser, unless otherwise stated. The appraiser has no knowledge of the existence of such materials in, on or near the property. The appraiser, however, is not qualified to detect such substances, and assumes no responsibility for such conditions, or for engineering or other inspections which might be required to discover such factors. The presence of asbestos or other potentially hazardous materials may affect the value of the property. The value estimate herein is predicated on the assumption that there is no such material on or in the property that would cause a loss in value. No responsibility is assumed for any such condition, or for any expertise or knowledge required to discover them.
11. No engineering survey has been made by us. Except as specifically stated, data relative to size and area were taken from sources considered reliable. Furthermore, no warranty is implied with regard to physical or structural or operational deficiencies which are not disclosed to the appraiser and noted herein.

12. The appraiser assumes no responsibility for determining if the property requires environmental approval by the appropriate governing agencies, nor if it is in violation thereof, unless otherwise noted herein. The appraiser assumes that there is full compliance with all applicable federal, state, and local environmental regulations and laws unless noncompliance is stated, defined and considered in the appraisal report. The appraiser assumes that all required licenses, certificates of occupancy, consents or other legislative or administrative authority from any local, state, or national government or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.
13. Information, estimates, and opinions contained in this report are obtained from sources considered reliable and where feasible, has been verified. However, no liability can be assumed for information supplied by others.
14. The right to make such adjustments to the valuation herein reported is reserved, as may be required by the consideration of additional data or more reliable data that may become available.
15. All projections of income and expenses in this report are estimates of current market expectations, not predictions of the future. No warranty or representation is made that these projections will materialize. Where Discounted Cash Flow Analyses have been completed, the discount rates utilized to bring forecast future revenues back to estimates of present value, reflect both the appraiser's market investigations of yield anticipations and judgment as to the risks and uncertainties in the subject property and the consequential rates of return required to attract an investor under such risk conditions.
16. The appraiser may not be required to give testimony or to appear in court or any governmental or other hearing by reason of this appraisal, unless prior arrangements have been made.
17. The liability of John C. Clifford, MAI and CLIFFORD ADVISORY, LLC is limited to the Client only and to the amount of fee actually paid for services rendered, as liquidated damages, if any related dispute arises. Further, there is no accountability, obligation, or liability to any third party. If this report is placed in the hands of any one other than the Client, the Client shall make such party aware of all assumptions and limiting conditions of the assignment and related discussions. John C. Clifford, MAI and CLIFFORD ADVISORY, LLC is in no way to be responsible for any costs incurred to discover or correct any deficiencies of any type present in the property, physical, financially and/or legally. Any claims or damages made against the Appraiser by the Client will be limited to the amount paid by the Client to the Appraiser for the appraisal report or services. Client waives all other claims to consequential or special damages arising from the use of the report, and agrees to hold harmless CLIFFORD ADVISORY, LLC from any liability, loss, or expense incurred by the client in such action, regardless of its outcome.
18. The appraiser has no present or contemplated future interest in the property which is not specifically disclosed in this report.
19. This report shall be used for its intended purpose only and by the parties to whom it is addressed as of the current date of valuation. Possession of this report does not carry with it the right of publication, or duplication. One of the signatories of this appraisal is a member of the Appraisal Institute. The Bylaws and Regulations of the Institute require each member or candidate to control the use and distribution of each appraisal signed by such member or candidate. Therefore, except as hereinafter provided, the party for whom this appraisal was prepared may distribute copies of this report, in its entirety, to such third parties as may be selected by the party for whom this report was prepared; however, selected portions of this appraisal shall not be given to third parties without the prior written consent of the signatories of this report. Neither all nor any part of the contents of this report shall be conveyed to the public through advertising, public relations, news, sales, or other media without the written consent or approval of the author. This applies particularly to value conclusions, the identity of the appraiser or firm with which is connected, and any reference to the Appraisal Institute, or MAI designation.

21. Information regarding any earthquake and flood hazard zones for the subject property was provided by outside sources. Accurately reading flood hazard and earthquake maps, as well as tracking constant changes in the zone designations, is a specialized skill and outside the scope of the services provided by this appraisal assignment. No responsibility is assumed by the appraisers in the misinterpretation of these maps. It is strongly recommended that any lending institution reverify earthquake and flood hazard locations for any property for which they are providing a mortgage loan.

Real Estate Valuation ■ Arbitration

**QUALIFICATIONS  
OF  
JOHN C. CLIFFORD, MAI**

Mr. John C. Clifford is a designated member of the Appraisal Institute (MAI) and is qualified by the State of California as a Certified General Appraiser. The following is a brief resume of his background and experience.

**Experience**

Mr. Clifford is the principal of CLIFFORD ADVISORY, LLC and has provided real estate appraisal, arbitration and consultation services since 1982. He has performed a wide variety of appraisal and valuation consulting assignments.

Based in San Francisco, Mr. Clifford has benefited from the unique opportunity to analyze many complex properties including:

**Complex Properties**

- San Francisco Giants AT&T Baseball Stadium
- Treasure Island
- Mission Bay MXU Development Project
- Hamilton Army Air Field (HAAF)
- Hunters Point Naval Shipyard
- Ferry Building - Embarcadero
- Fisherman's Wharf Restaurants
- United Airlines Maintenance Facility

**Arbitration**

- 400,000 SF - Pacific Bell  
370 Third Street, SOMA
- 200,000 SF - Heller Ehrman  
333 Bush Street, Financial  
District
- 500,000 SF - Nordstroms Centre  
Union Square District
- Pier 41 - Fisherman's Wharf

Valuation property types include major high-rise office and mixed-use retail/office projects, retail projects, biotech facilities, medical office buildings, regional malls, neighborhood shopping centers, hotels and restaurants, industrial and manufacturing buildings and facilities, high-rise and suburban multi-family residential projects, subdivision analysis, special purpose properties, recreational properties, vacant land and open space.

Mr. Clifford has provided litigation support in numerous condemnation valuation assignments, and has testified as a qualified expert witness in the Superior Court of the State of California, U.S. Bankruptcy Court, and before various quasi-judicial and municipal hearings.

## **Condemnation**

- **Moscone West Convention Center Site**
- **Transbay Terminal Project Sites**
- **San Francisco Cable Car Line**
- **The Rock**
- **Richmond Parkway**
- **Golden Gate Ministorage vs. The State of California**

## **Client**

- City of San Francisco**
- Property Owner**
- Property Owner**

Mr. Clifford participated in a landmark inverse condemnation land use case which upheld the use of public agency purchases as comparables following the 1987 revision to the State's evidence code (*City and County of San Francisco v. Golden Gate Heights Inv.* (1993) 14 Cal.App.4th 1203).

Other major assignments demonstrating the extent of his experience are listed as follows:

- **Genentech Research Facility**
- **Biorad Research Facility**
- **Port Sonoma-Marin Marina**
- **Marin County Civic Center**
- **Sea Cliff Sinkhole Properties**
- **Hamilton Airfield Reuse Plan**
- **Wal-Mart Distribution Facility**
- **Silverado Country Club**
- **Renaissance Estates Golf & SFR Community**
- **Fountaingrove Ranch Golf & SFR Community**
- **Northeast Ridge Subdivision**
- **Lagoon Valley MXU Golf, SFR, Business Park**
- **Bel Marin Keys Unit 5**
- **AT&T Cable Franchise – Possessory Interest**

After earning his MAI designation in 1983, he established an appraisal and consulting practice. As his practice and reputation has grown, he now maintains offices in San Francisco and Mill Valley, California.

## **Development Consulting**

Mr. Clifford is a specialist in evaluating real estate economic feasibility, completing land use entitlement processes, and formulating development strategies. He successfully processed tentative and final subdivision maps, secured development financing and acted as project manager in the construction and marketing of the 100-unit Cotati Station project in Sonoma County.

## **Education and Professional Affiliation**

Mr. Clifford graduated from Indiana University in 1974, Bloomington, Indiana, with a Bachelor of Arts degree.

During the years 1979 through 1983, Mr. Clifford completed a curriculum of study in the understanding and application of the theory and practice of appraisal principles. The course subjects include appraisal and economic theory, real property law, finance, and professional ethics, and are presented by the Appraisal Institute, which ultimately awards the MAI (Member of the Appraisal Institute) designation. After satisfying the additional five years of experience requirements, demonstration reports, and successfully completing a Comprehensive Exam, he was awarded the MAI designation in 1983.

**Subject:** Interpretation of Reservoir appraisal

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

BOS:

Here's my layman's understanding of the Balboa Reservoir appraisal.

The appraisal's methodology for arriving at the "fair market value" of the Reservoir is the "cost approach."

The cost approach is not based on supply/demand, or what the market will bear. The cost approach arrives at a land valuation according to what a buyer can afford to pay based on the feasibility of the buyer building with a guaranteed profit: guaranteed affordability for the buyer!

The hypothetical equivalent situation for cost of housing for normal people:

The general rule of thumb for housing cost is 30% of income, so I'll use 30% as the hypothetical:

John Does has an annual income of \$60,000. 30% of his annual income is \$18,000. So ideally, his monthly housing cost should be \$1,500. \$1,500/month for housing is what is 'fiscally feasible and responsible' for John Doe. It ensures that he has 70% of his income to spend on other stuff.

John Doe looks for housing and finds a nice place, a very nice place. A nice place that in the open market would rent easily for \$5,000 per month. However because that nice place's valuation is based on a "cost approach" that guarantees that John Doe will have disposable income beyond his housing expenses, the landlord (Avalon Bay?) will rent that nice place to him for \$1,500.

UNfortunately, in the real world, John Doe ain't gonna get that nice place for \$1,500. Instead, he might actually have to live out of a car.

On the other hand, Avalon Bay is gonna come out pretty good. Avalon Bay will come out **really** good because a guaranteed profit of \$9,913,083 has been cooked into the \$11.4 Million sale price of the Reservoir parcel. It guarantees the "highest and best use" for Avalon Bay; not the ratepayers. It guarantees "fiscal feasibility and responsibility" for Avalon Bay; not the ratepayers.

Socialism and guaranteed income for the rich! What a deal!

--aj

**Subject:** Balboa Reservoir Development Agreement (200423)

BOS:

You will be approving the Reservoir DA tomorrow at your 8/18/2020 meeting.

You need to be aware and conscious of the fact your Ordinance approving the Development Agreement rests on the unwarranted circumvention of Administrative Code 23.3's requirement for independent appraisal review.

One of the excuses that I've heard is that waivers are "done all the time."

That a waiver of Administrative Code 23.3 is "done all the time" is an indication of corruption to which the BOS is complicit. You will be doing this in direct contradiction to the March 2018 Budget & Legislative Analyst Report that had affirmatively called for "*an independent appraisal and appraisal review conducted in accordance with the requirements set out in Administrative Code Chapter 23.*"

Attached is the Executive Summary for the Balboa Reservoir Appraisal. The methodology used for the appraisal is the cost approach for "highest and best use". The appraisal was commissioned by PUC. The PUC would have discussed with the appraiser the best appraisal methodology to advance the interests of maximizing return for ratepayers.

The Cost Approach and "highest and best use" is inherently biased in favor of the buyer (Reservoir Community Partners) and disadvantages the seller (PUC). "Highest and best use" for whom? Contrary to PUC's obligation to ratepayers, the appraisal's "highest and best use" methodology favors the private joint venture buyer; NOT THE SELLER (PUC)!

Page 14 of the attached Clifford Advisory Executive Summary shows a revenue-cost sheet to determine the "fair market value."

The \$11.4 Million "fair market valuation" of the Clifford Advisory appraisal guarantees a \$9,913,083 credit for "risk and profit" for Reservoir Community Partners (Risk? What risk?! Profit is guaranteed!). The \$11.4 Million "fair market valuation" includes a discount of \$7,079,746 to Reservoir Community Partners for "entitlement costs."

Why would the appraisal -- that is supposed to be trying to get the best return for ratepayers-- be structured in a manner to favor the buyer (Reservoir Community Partners) instead of the seller (PUC)?

Something is terribly wrong. Why would "progressives" on BOS be complicit in corruption?

**RE:** Executive Summary  
Balboa Reservoir Appraisal

***Introduction***

Clifford Advisory, LLC has prepared a narrative appraisal report that concludes the Fair Market Value of the proposed development site known as Balboa Reservoir. In addition, the analysis includes the Fair Market Rent estimate for a portion of the adjacent Retained Fee Parcel. The total project area contains 17.6-acres that is analyzed as the Fair Market Value of the Fee Simple interest in approximately 16.4 acres, and the Fair Market Rent for a portion of 1.2 acres referred to as a Retained Fee parcel (and further defined herein). The following presents an Executive Summary of the appraisal that identifies only the key elements and characteristics of each subject property, their highest and best use, and the valuation methodology and comments supporting values that pertain to the two pending transactions. The narrative appraisal report is dated June 1, 2020, contains 200 pages, and concludes a Fair Market Value and Fair Market Rental Value as of an effective date of value on January 1, 2020. The intended users of the appraisal report and the Executive Summary is limited to the City and County of San Francisco (City) under the jurisdiction of the San Francisco Public Utilities Commission ("SFPUC"), the Mayor's Office of Housing, and the Mayor's Office of Economic and Workforce Development.

For reasons outlined herein and expanded in the appraisal report, the valuation analyses is prepared subject to a *Hypothetical Condition* that supports an **Alternative** (development) **Plan**, rather than the **Actual RFP** (development) **Plan**. The **Actual RFP Plan** incorporates a 50% affordable housing density, in excess of the 33% affordable density cited in the Balboa Reservoir Request for Proposal (RFP) to determine Fair Market Value. Absent the excess affordable density (17%), intended for affordable units under the **Actual RFP Plan**, use of certain block areas under the Alternative Plan are analyzed for market-rate housing the supports a Highest and Best Use conclusion required for Fair Market Value. There are several other *Hypothetical Conditions* and Extraordinary Assumptions that impact the valuation that are summarized in the appendix of the Executive Summary.

The valuation analysis of the **Alternative Plan** conforms to the condition of the subject properties for purposes of determining Fair Market Value as set forth in the "SFPUC's" Request for Proposal, and meets the appraisal test of Highest and Best Use. The appraisal concludes a Fair Market Value of **\$11.4 million** for the Fee Simple ownership transfer of the 16.2-acre Balboa Reservoir Development site, and **\$227,000** for the Fair Market Rent estimate for use of a portion the Retained Fee parcel that can be made in a single lump sum payment, in advance for use of the property over a 20-year term.

### **Subject Properties**

**The Balboa Reservoir Development Site** - is a 16.4-acre parcel proposed for development by a public-private partnership with the City of San Francisco. The subject site forms a rectangular shape that features varying topography, limited access, and requires construction of extensive infrastructure to support future development. Located north of the Ocean Avenue commercial district, and adjacent to the west of the City College of San Francisco Ocean Campus in San Francisco, Balboa Reservoir was graded to serve as a water reservoir but has never been used for its original purpose. City College uses it for student parking under the terms of a fully revocable no-fee license with the "SFPUC". To the west is the Westwood Park neighborhood, zoned RH-1(D) within the Westwood Park Residential Character District. The Balboa Reservoir is zoned "P" (public) However, it is subject to the City and County of San Francisco General Plan and located within the Balboa Park Station Area Plan that envisions housing at the site and requires that major new developments also provide high-quality public open spaces. The Balboa Reservoir is in a 40' height district similar to the Ocean Avenue Neighborhood Commercial Transit District at up to 45' with some exception up to 55'. Westwood Park is in a 28'-X zone while adjacent City College parcels are limited to 65'. Future development of the site relies upon the Balboa Reservoir Design Standards and Guidelines (DSG) to guide the design of streets, open spaces, and buildings within the Balboa Reservoir neighborhood. The DSG is to be applied in conjunction with the San Francisco Planning Code and with the Balboa Reservoir Master Infrastructure Plan (MIP), Balboa Reservoir Special Use District (SUD), Balboa Reservoir Transportation Demand Management Plan (TDM), and the Balboa Reservoir Development Agreement (DA). The site's proximity to BART, MUNI, and other modes of transportation renders the location of Balboa Reservoir ideal from a transportation perspective and preferred for development investment.

Proposed development of the Balboa Reservoir site requires extensive construction of infrastructure improvements that include water supply, wastewater, drainage, gas and electric, streets, and other utility infrastructure. All utilities constructed on site would be located underground. The infrastructure and site plan creates a series of Blocks labeled A – H served by an oval circulation pattern and backbone infrastructure plan and featuring 4-acres of parks. For this analysis, design features are based on the analysis prepared by BKF Engineers<sup>1</sup> and costs developed by Cahill Contractors. The infrastructure improvements have a significant impact on the valuation of the Balboa Reservoir site.

**Retained Fee Parcel** - contains 1.2 acres that forms the adjacent south border of the Balboa Reservoir site. It is so named due to the pending the sale of the adjacent subject Balboa Reservoir development site, while the "SFPUC" retains in fee an 80' wide parcel of land. Within the 1.2-acre parcel there is a high-pressure underground pipeline that runs east-west through the site that is maintained by the "SFPUC". The Retained Fee Parcel proposed to be conveyed under a license agreement excludes portions at both the west end and east end of this elongate parcel. The east end will be used to support the north-south extension of Lee Avenue north from its current terminus onto the east perimeter of the site. The eastern area excluded from use approximates 4,157 SF. The western end that is excluded from use approximates 2,800 SF, for subterranean location of a wastewater facility and surface location of valves supporting the pipelines. The

interim net area for use under a proposed license approximates 45,315 SF, however, the final license area is subject to the "SFPUC's" review of approved plans and may change in size.

The Retained Fee Parcel is earmarked in the Balboa Reservoir project's Development Agreement to eventually satisfy a portion of the open space requirement and design for the adjacent development site.

### ***Request for Proposal and Developer Selection***

Subject to the "SFPUC" Commission adopting required findings, the "SFPUC" proposed to transfer the fee simple interest in the Balboa Reservoir property to reflect its "as is" condition, without any representation or warranties whatsoever, and any developer was required to rely upon its own due diligence to design, entitle, purchase and develop approximately 16.4 acres. In November 2016, the City, through the "SFPUC", issued a request for qualifications to initiate a developer solicitation and selection process. The selected respondents included Reservoir Community Partners, LLC (RCP) Related Development and the Emerald Fund. The respondents presented their proposals at public meetings where members of the public provided comments. The "SFPUC", selected Reservoir Community Partners, LLC (RCP)<sup>2</sup> to act as master developer for the project site and entered into an Exclusive Negotiating Agreement ("ENA").

The RFP states all horizontal (and vertical) development costs and most ongoing operation and maintenance costs will be paid by the developer and subsequent property owners. In addition, the RFP states a calculation of Fair Market Value should assume the development density include affordable housing of 33% as set forth in the RFP's Development Principles & Parameters.

The selected developer is expected to utilize the standard sources of debt and equity commonly available for similar projects. These sources may include the potential use of four percent (4%) Low Income Housing Tax Credits and associated tax-exempt bonds to subsidize qualifying affordable units. In addition, the City may consider the use of additional public financing resources not obtainable without City support if such resources would allow the developer to exceed the project's baseline Parameters (e.g., provide affordable housing above the 33% threshold, enhanced open space, and other extra public benefits). However, the amount of public financing available, if any, depended on a number of factors to be determined during the ENA period, including the project's final development program, the public financing tool that is ultimately selected, and City-wide fiscal considerations<sup>3</sup>. The RFP further states the sale of the land would occur following City approval of entitlements (i.e., after the project receives the approvals) and approval of the transaction documents by the "SFPUC", the Board of Supervisors, and the Mayor. In addition, consistent with Chapter 23 of the City's Administrative Code, an appraisal is required before the "SFPUC" can convey the site, and hence the logical support for one of the major hypothetical conditions of the appraisal – that its Fair Market Value reflects development approval. All of these property and development conditions underlie the basis for the subject valuation.

### ***Proposed Development***

During the ENA period the selected developer has worked closely with the "SFPUC", OEWD and Planning to refine its proposal to a detailed development program. The **Actual RCP Plan** proposed site acquisition, and development of approximately 1,100 units of market rate and mixed-income affordable housing, open space, a childcare facility/community room available for public use, on- and off-street parking, and new streets, utilities, and other infrastructure. As the ENA, public and planning process evolved, RCP developed a site plan with 50% affordable housing density (not 33%), based on public and private input. In addition,

<sup>3</sup> Under the Extraordinary Assumption of the appraisal, a current \$39.5 million public subsidy amount is reported available for the subject by the San Francisco Mayor's Office of Economic and Workforce Development representatives Ms. Anne Taupier and Ms. Leigh Lutenski.

according to Balboa Reservoir Design Standards and Guidelines (DSG) building heights vary but generally rise from west to east. These criteria are summarized on **Table 1.1** referencing both the **Actual RFP Plan** (and the **Alternative Plan** discussed later) and illustrated on **Exhibit A**.

The **Actual RCP Plan** has designed vertical development on Blocks TH1, TH2 and H adjacent to the Westwood neighborhood are limited to 2-stories for the row of units abutting neighboring SFR's, rising to 3-stories mid-block and then to 4-stories for their east perimeter facing West Street. Blocks A and B are limited to 78' and 48'-68', respectively. Block C, D and F are limited to 48'-68'. Block E and G are limited to 78' and 48'-78' respectively. As a major national multi-family rental property developer and operator, RCP's lead team member, Avalon Bay, is targeting rental housing occupancy, as does its affordable housing partner, Bridge Housing. The Actual public-private partnership 50% development Plan, nearing entitlement as of the January 1, 2020 effective date of value, is slated to serve low-moderate income residents. The **Actual RCP Plan** targets development on Blocks A, B, E, F and H for affordable housing units, and Blocks C, D, G and TH1 and TH2 for market rate units. Therefore, the **Actual RCP Plan** does not conform to the basis of its Fair Market Value as set by the RFP. However, the Actual RCP Plan does not conform to the basis of Fair Market Value, not only because it includes a 50% affordable housing density (not 33%) but because the concept of Fair Market Value is based on Highest and Best Use. Highest and Best Use is defined as that use which is physically possible, legally permitted, economically feasible and produces the highest return or value. A plan that does not support the highest return or value cannot be deemed the Highest and Best Use.

Based on a *pro-forma cash flow model* developed by RCP and its consultants (and reviewed and confirmed by the appraiser), the **Actual RCP Plan with 50% affordable density does not support positive land value or financial feasibility**, including standard sources of debt and equity commonly available for similar projects and the assumed amount of public financing, and hence does not support a **Highest and Best Use conclusion**. Since the Actual RCP Plan does not support a Highest and Best Use conclusion, a Fair Market Value appraisal requires the determination of a use that produces the highest value, and thus an **Alternative Plan** must be examined. Subsequently, RCP and its consultants developed a *modified pro-forma testing its same site plan but based on a 33% affordable density* (as stated in the RFP). Based on a modified RCP 33% pro-forma model the overall development program proposed to construct up to approximately 1,096 units including 602 multi-family rental apartments, 360 affordable rental units (33%), and a range of townhouse units from 100 to 134 in blocks TH1 and TH2. However, at the time the RCP 33% density plan and pro-forma was submitted to the appraiser, the RCP consultants acknowledged there was no certainty the site design had the capacity to support up to 134 units in 2-3 story units designed for Blocks TH1 and TH2. However, it appears the RCP 33% density plan also did not consider the increased building height limit potential of 48' on their eastern perimeter, nor the potential to develop similar townhouse units on the opposite street-facing portion of Blocks F and D (discussed below for the Alternative Plan). The RCP pro-forma was based solely on a residual valuation technique yielding nominal land value for the market rate multi-family units. It was reported that neither land component for market rate multi-family or townhouse units was market tested, and the **33% affordable density model also did not support positive land value or financial feasibility**. Such findings cannot support a viable Highest and Best Use conclusion and suggests that another Alternative Plan be considered.

Consequently, an **Alternative Plan** was developed to by the appraiser that addresses Highest and Best Use criteria, and produces the highest value, representing Fair Market Value. The RCP pro-forma cash flow analyses rely on a much larger component of rental units, along with a smaller component of owner townhouse units. However, by substituting a component of land designated for market rate rental housing units, for a component of land to support townhouse units, significant positive value land value is indicated, and which supports Highest and Best Use criteria. Further, the exchange of lower valued market rate rental housing land with higher valued townhouse land is viable based on consultation with Planning department staff and Balboa Reservoir Design Standards and Guidelines ("DSG"). Absent the affordable density under

(1) Based on consultations with Planner Seung Yen Hong and Architect Karen Murray

the Actual RCP Plan, use of certain block areas, intended for affordable units, is analyzed instead for market-rate housing as illustrated and discussed herein. Block F is available to support market rate units including townhouse units on its western edge, and as well on Block D. Therefore, the Alternative Plan includes development of townhouse units on Blocks TH1 and TH2 and H, and additionally on a portion of Blocks F and D facing West Street as discussed below. Further, the Alternative Plan requires no significant alteration to the overall physical site plan and its required infrastructure backbone, (with only a slight reduction in overall density) that was unanimously approved by the Planning Commission in April 2020 to undergo a General Plan amendment. The agreement for the intended use and users of the appraisal is based on the acceptance that the hypothetical Alternative Plan supports the highest land value for the subject. The highest land value is a fundamental to the determination of Highest and Best Use that is discussed later in the report. Hereafter the **Alternative Plan** is referred to as the 33% plan used to determine the Fair Market Value of the subject property.

Referring to **Table 1** and **Exhibit A** the *Hypothetical Alternative Plan* is presented that supports a 33% affordable housing program, (rather than the Actual RFP Plan that is intended). The **Alternative Plan** includes a total of 1,049 units. The alternate unit count results in an increase in townhouse units, and a small reduction in multi-family units and affordable units overall, but yet closely approximates the **Actual RFP Plan** component unit counts. The analysis does attempt to validate the density capacity for townhouses as described below. Land supporting market rate townhouse development contributes significantly greater economic value to support the extensive costs associated with constructing the required infrastructure improvements and yields a higher return and value for the site.

Due to the reduction of the affordable requirement, the use of Block F is no longer needed to supply affordable inventory. Following discussions with planning and architect support staff, the Alternative Plan is deemed viable that could incorporate townhouse units like those planned directly across West Street to the west on Block TH1 and TH2. It was confirmed that both Block F and D could support townhouse units but only designed for that portion of the blocks facing West Street, while the balance of the development on Blocks F and D would support multi-family (stacked rental units or ownership condos) as actually planned. It is noted the building height on the westernmost portion of Block F and D is 48' rising to 68' inbound. Like Block F, Block H slated to provide affordable units (targeted by Habit for Humanity) would be available for market rate townhouse units consistent with actual development planned for the adjacent Blocks TH1 and TH2 to the north. Based on the illustration that was prepared following discussions with San Francisco Planning staff Seung Yen Hong and consult with Ms. Karen Murray, Partner with Van Meter Williams Pollack LLP Architecture | Urban Design, the site's capacity appears to adequately support approximately 148 townhouse units on Blocks TH1, TH2, and H, and on the street-facing areas of Block F and D. Given the elevated height limits of 48' on the westernmost perimeter of Block F and D facing West Street and as well, opposite those blocks, on the eastern perimeter of Blocks TH1 and TH2, there is the opportunity to construct stacked townhouse units similar to those successfully developed in a nearby project known as 800 Summit Way in the Park Merced neighborhood. Please refer to photographs included in the addenda of the report. The remainder inbound portions of Blocks F and D will continue to support market rate multi-family units (stacked flats).

All other Blocks A, B, E supporting affordable units with market rate multi-family units in Blocks C and G are developed in the same manner as the actual plan. However, with the design substituting stacked multi-family (single-level) units with 2-level townhouses on portions of the Block F and D and H, the overall unit count approximates 1,049 units rather than approximately 1,100. Since the affordable requirement is indexed as a percentage of the total number of units, slightly fewer affordable units are required. For the valuation, the total number of affordable units is reduced to 347 units by modifying the component inventory on Block A or elsewhere on Block E, for example.

### **Highest and Best Use**

Highest and Best Use is defined as that use which is physically possible, legally permitted, economically feasible and produces the highest return or value. Based upon these factors, it is the appraiser's opinion that proposed development set forth under the *Hypothetical Alternative Plan* represents the subject's Highest and Best Use. The Alternative Plan requires no alteration to the overall site plan and its required infrastructure backbone, yielding only a slight overall reduction in density, but substituting a greater number of potential townhouse units than the **Actual RFP Plan** for the analysis. The **Alternative Plan** is illustrated on **Exhibit A** and summarized on **Table 1**. This opinion is supported by the fact:

- The use is physically possible by satisfying the project's environmental and entitlement concerns, and other criteria related to requisite public right-of-way, density, building height, parking, open space, etc. In addition, the alternate plan can rely on the same layout of the backbone infrastructure plan that creates a series of blocks that are circumnavigated by the oval street pattern designed for the Actual RFP Plan that has engineering, planning and community acceptance by virtue of its impending and assumed development approval.
- The use is legal. This finding is appropriate by invoking the Extraordinary Assumption of the appraisal since the sale of the land, as of the effective date of value, is assumed to occur following City approval of entitlements. In this way the appraisal is consistent with Chapter 23 of the City's Administrative Code that requires it, and the logical support for one of the major Extraordinary Assumptions of the valuation.

However, even absent the Extraordinary Assumption, under USPAP Standard 1, it is permissible to consider land use changes that are deemed reasonable and probable. Such conditions give support to analyzing the Highest and Best Use of the subject property under an **Alternative Plan** supporting approximately 1,049 units since it is only slightly different from the **Actual RCP Plan** supporting approximately 1,100 units. It is reported that one of the primary concerns expressed by the surrounding community was that the total density not exceed this level and provide adequate open space. At the same time it supports the approximate maximum efficient reuse of the site for the City to achieve its goals under the Balboa Park Station Area Plan to provide a needed supply of additional housing, especially affordable units. The **Alternative Plan** reflects only a nominal overall density reduction of less than 5%, maintains the open space and other community benefits, and addresses the valuation requirement based on the 33% affordable density without increasing the overall cost of the BKF/Cahill Infrastructure Plan.

For these reasons reliance on the **Alternative Plan** seems reasonable and probable for the valuation of the subject property from a legally permissible perspective.

3. Such use of the site has good potential to be well-supported, which is shown by competitive market and affordable pricing and occupancy levels for competitive residential development projects in San Francisco.

In terms of economic feasibility, the Development Approach method of valuation provides an analysis of requisite market and cost factors such that potential revenues for the aforementioned use components exceed requisite development costs and yield a competitive profit margin to attract capital investment.

The valuation of the **Alternative Plan** with 33% affordable density does support positive land value and financial feasibility, by including an increase in townhouse units, (and a small reduction in multi-family units and affordable units overall), but yet closely approximates the Actual RFP Plan component unit counts. Land supporting market rate townhouse development contributes

significantly greater economic value to support the extensive costs associated with constructing the required infrastructure improvements and yields a higher return and value for the site. The analysis of the **Alternative Plan** relies on standard sources of debt and equity commonly available for similar projects and the assumed amount of public financing, and hence does support a Highest and Best Use conclusion.

4. Other uses are not apparent that would satisfy the Balboa Park Station Area Plan complimented by the considerable efforts of City and community planning (supported by engineering and architectural design professionals) that provide a higher level of income or otherwise enhance the value of the property.

With respect to the subject Retained Fee Parcel, all of the above factors and Highest and Best Use Conclusion apply to it as well, since the subject Retained Fee Parcel is earmarked in the Balboa Reservoir project's Development Agreement to eventually satisfy a portion of the open space requirement and design for the adjacent development site. Absent the prospect of the development potential of the Balboa Reservoir site, the Retained Fee Parcel lacks any contributory value other than its public infrastructure use serving as a utility corridor. However, its Highest and Best Use is altered by virtue of its association with the Balboa Reservoir's adjacent development potential. In this way, its Fair Market Rental Value is enhanced by a commensurate value related to adjacent site's overall value expressed as \$/SF.

### **Valuation Methodology**

**Introduction** - For this analysis, the market value represents the most probable price likely to be paid by a single purchaser to acquire the subject property in a single transaction. The proposed economic land use for the project area is dominated by proposed housing development summarized on **Table 1**. The subject comprise a complex site proposed for reuse and phased development for which planning entitlements and significant infrastructure and public improvements are necessary to prepare the property for vertical development. There are no recent truly comparable large development land sales, particularly facing similar horizontal development costs and affordable housing requirements, and thus the most appropriate methodology for estimating the market value of the subject is the *Development Approach*.

The *Development Approach*, (also referred to as a *Land Residual* valuation) utilizes a Discounted Cash Flow (DCF) technique. The DCF analyzes cash inflows (**REVENUES**) expected from selling parcels, once infrastructure has been installed, less all cash outflows (**HORIZONTAL DEVELOPMENT COSTS**) necessary to obtain approvals and develop the site infrastructure to sell the finished land parcels over an absorption period. The DCF method converts the expected cash flows into a single present value indication by applying an appropriate discount rate, which accounts for the return necessary to attract investment and for development to occur. The Land Residual valuation most closely reflects what a potential developer/purchaser of the subject would use to evaluate the price they would be willing to pay for the site. Also, institutions extending loans on large land development projects often require such an analysis.

**Development Approach** - The starting point of the residual analysis is estimating **revenues** from the sale of land units for the logical groupings of land areas already prepared for vertical development, often referred to as "superpads". To estimate the land value of these super pads, a Sales Comparison Approach is presented, as well as a (vertical) Land Residual method to supplement the direct value indications derived by comparable land sales. The potential **revenue** from component land sales transactions include:

- land sales transactions supporting townhouse units that each feature 2 – 4 stories, including some that are stacked in a vertical duplex configuration.
- land sales transactions supporting multi-family apartment units that typically are designed as stacked flats, or single level units within 4 - 7 story buildings.

Based on comparable land sales for site acquired to support development of *townhouse units* the appraiser concludes current (land) unit values from approximately \$500,000 - \$550,000/unit is indicated. This is a relatively wide range and may not adequately capture prevailing or anticipated hard and soft costs of vertical construction in San Francisco that have a direct impact on land value. Therefore, a secondary analysis is presented to backstop or add further support to an opinion of land value supporting townhouse development. The secondary analysis is referred to as a Land Residual analysis<sup>4</sup> that tests or measures what land value (\$/unit) can be supported given the revenue potential projected from the retail price of a completed townhouse unit, less the costs to complete its vertical construction. For the subject prototype townhouse unit, its retail value (or revenue) can be reasonably supported at \$1,000/SF or approximately \$1,650,000. Net of costs of sales and warranty reserves, sales proceeds approximate \$1,567,500. The next step in the residual process is to estimate an appropriate deduction for the hard and soft costs required to complete vertical construction of a townhouse unit along with a profit margin. For the subject both Type III and Type V construction is anticipated. These cost factors are subtracted from the aforementioned revenue to determine the contributory value of the land that supports the townhouse unit. Total development costs and profit approximate \$1,069,000/unit and when deducted yield a contributory land residual value of **\$500,000** for the Type V townhouse unit. The same residual exercise is repeated for the Type III unit but with some nominal changes. Typically Type III construction is deemed to be more costly than Type V. However, given its stacked configuration it is deemed to be similar due to potential construction cost efficiency. Therefore, the same \$400/SF cost factor is applied. However, for its garage space located in a structure<sup>5</sup>, the cost factor is greater and increases the overall cost to \$764,138/unit and \$463/SF. The analysis continues as explained for the Type V analysis. The net sales proceeds (revenue) less the total development costs and profit yields a contributory land residual value of **\$460,000** for the Type III townhouse unit. The analysis is deemed to provide a meaningful indication, notwithstanding the significant impact of hard and soft costs that are considered reliable but at best are reported as volatile under prevailing market conditions. In the final analysis, somewhat greater weight is placed on the residual value indication that is more often relied upon in San Francisco's sophisticated development and investment community. Therefore, the current contributory value of those blocks supporting townhouse development is based on **\$470,000/unit**.

The same exercise is applied to estimate the Market Value of the subject land deemed to support *market rate multi-family development units*; first by the Sales Comparison Approach followed by a Land Residual analysis. The Sales Comparison Approach provides an estimated range of value from approximately \$75,000/unit to \$95,000/unit. The residual analysis provides an estimate of value at **\$63,000/unit**. The analysis is deemed to provide a meaningful indication, notwithstanding the significant impact of hard and soft costs that are considered reliable but at best are reported as volatile under prevailing market conditions. In the final analysis, greater weight is placed on the residual value indication that is more often relied upon in San Francisco's sophisticated development and investment community. Therefore, the current contributory value of those blocks supporting multi-family development is based on **\$67,500/unit**.

The aforementioned unit prices estimated for land supporting market rate townhouses (148 units) and multi-family units (554) are forecast to generate nearly **\$120,000,000** over 7 years. The preceding revenue sources support the absorption and gross income presented in the consolidated Discounted Cash Flow projection on **Table 2**.

---

<sup>4</sup> The Land Residual technique used to estimate a value for the subject site by the Development Approach relies on revenue projected from the sale of land units, less the costs of horizontal land development. The (horizontal) Land Residual technique used to estimate the As Is value of the Balboa Reservoir site relies on revenue from the sale of a land parcels, less the costs of horizontal infrastructure construction. The (vertical) Land Residual technique used to estimate the contributory value of a townhouse lot relies on revenue from the sale of a completed townhouse unit, less the costs of vertical construction.

<sup>5</sup> Stacked townhouse units in Blocks F and D would be served by parking spaces in structure also serving multi-family units.

The balance of the project's housing units is slated for affordable uses that do not contribute positive land value, (as their vertical construction costs exceed their formulated value), but rather require significant subsidy in order to satisfy the requirements and goals of the project entitlement.

In addition, it is anticipated the project will rely on formation of a Community Facilities District, more commonly known as Mello-Roos. The services and improvements that **CFDs** can finance include streets, sewer systems and other basic infrastructure, police protection, fire protection, ambulance services, schools, parks, libraries, museums and other cultural facilities. For this analysis the anticipated CFD is limited to the land supporting ownership townhouse units based on their underlying land value. Under this scenario, the townhouse units can support a projected bond amount of approximately **\$3,942,878**. The analysis is presented on **Table 2**.

The next component of the project's cash flow projection includes various financing tools that contribute to the sources<sup>6</sup> and uses of funds to support the project site's financial feasibility and valuation. In addition to the land sales revenues sources estimated above the appraisal analysis assumes the developer can rely on successfully applying for and receiving **tax credits** and as well leverage **public subsidy** to assist the development. The appraisal estimates that the developer could leverage about **\$263,000/unit** in private tax credit investor equity from the sale of federal low-income housing tax credits for affordable apartments in Balboa Reservoir. This estimate was developed based a typical 4% tax credit yield for a multifamily new construction and serves to reduce the gap subsidy discussed below. The appraisal analysis is supported by the expertise of Seifel Consulting, an experienced consultant with the California Tax Credit Allocation Committee (CTCAC) policies and practices, and for this analysis analyzed the 4% tax credit program.

Under an Extraordinary Assumption of the appraisal, the valuation assumes that the developer could leverage approximately **\$39.5 million** in public subsidy sources to assist the development based on information provided by the developer, the "SFPUC", and OEWD, and a review of potential funding sources that could be available to assist the development.

Forecast over the 7-year projection period on **Table 2**, net revenues, financing tools and public subsidies total approximately **\$161 million**.

**Development Approach Continued** - The next step in the residual analysis is to deduct from the aggregate revenue sources, the **estimated gap subsidy** and **horizontal development costs** – that underlie the type and level of information typically relied upon in the marketplace.

The estimated gap subsidy results from the requirement to develop 33% of the project density with rental housing units targeting an average 60% AMI. The formulated value associated with the project net rental income from these units is far less than their construction costs. The resulting gap, or deficit between costs that exceed value is in part offset by leveraging about **\$263,000/unit** in private 4% tax credit investor equity as mentioned above. However, net of the tax credit, a deficit or **gap subsidy** of approximately **\$244,500** for each affordable unit remains that is forecast to total **\$84.9 million** over the projection period in **Table 2**.

The next deduction is required for the completion of the required **horizontal development costs**. Given the methodology, the subject's As-Is value relies upon the accuracy of the design and estimated costs that underlie the type and level of information relied upon in the marketplace. It is a significant and extraordinary assumption of the appraisal the reported hard and soft costs presented herein are accurate and reliable.

As noted, proposed development requires extensive infrastructure improvements that include water supply, wastewater, drainage, gas and electric, and other utility infrastructure. All utilities constructed on site would

---

<sup>6</sup> California Tax Credit Allocation Committee (CTCAC)

be located underground. For this analysis, design features are based on the analysis prepared by BKF Engineers and costs developed by Cahill Contractors. The Cahill sourced horizontal hard costs are projected to total **\$34.95 million** summarized on **Table 5** in the appendix.

In addition to the aforementioned hard costs to prepare the site and install the required infrastructure, such an effort incurs significant soft costs. Current soft costs related to the horizontal development are reported by RCP at \$7.9 million, or 23% of hard costs that can otherwise be expressed as approximately \$7,600/unit. The RCP sourced horizontal soft costs are summarized on **Table 6** in the appendix.

Lastly, the project faces interim property tax liability until the market-rate land is sold resulting in the transfer of this liability to the subsequent owner.

Forecast over the 7-year projection period on **Table 2**, project gap subsidy, horizontal development costs and interim taxes total approximately **\$132.6 million**. The resulting net cash flow approximates **\$28.4 million** before discounting for the time and risk associated with the development (\$161 million - \$132.6 million).

**Development Approach Conclusion** - The aforementioned **gap subsidy, horizontal development costs and interim property taxes** are deducted to derive a **net cash flow that forms the basis for the subject's As-Is value indication**. The indicated Market Value utilizing the DCF capitalization method represents the sum of the present worth of each projected annual net income stream (before depreciation and taxes); and the present worth of the reversion (if any). Most investors price real estate on their outlook for the income and their judgment of the risks involved.

The appraiser's cash flow projection is presented on **Table 2**. The indicated range of value is from approximately **\$18,000,000 to \$19,400,000** based on discount rates ranging from approximately 15% to 18%. The strength and durability of the residential market in land scarce San Francisco tends to reflect investment yield rates at the low end and even below those metrics reported in the national survey. However, reliance on availability and support from projected LIHTC and public subsidy requires further consideration. The appraiser concludes an estimate of **\$18,500,000** to reflect the As-Is condition of the subject property, before consideration of the required adjustment for the contributory value of entitlement costs.

### ***Adjustment for Entitlement Costs and Final Value Conclusion***

The final step in the valuation process is to address the impact based on required entitlement costs. Entitlement costs are typically a factor in the valuation analysis of land like the subject as there is direct market recognition of such future costs and risks, since without required approvals development cannot proceed. However, for this appraisal, the exclusion of the costs of entitlement is due to the sale of the land that occurs following City approval of entitlements. The sale or ownership transfer is presumed under the definition of fair market value, and thus the exclusion accurately reflects only the remaining site costs of (horizontal) development as of the effective date of the appraisal. This is appropriate due to the Development Approach valuation methodology that is employed. The contributory value of the cost of entitlements {that in this case was funded by both the "SFPUC" (seller) and RCP (buyer)} is proportionally deducted or credited as the final adjustment in determining the fair market value of the property. In this way the appraisal is consistent with Chapter 23 of the City's Administrative Code that requires it, and the logical support for one of the major hypothetical conditions of the valuation.

The required entitlement costs have been contributed by the "SFPUC" and the developer, RCP. The reported entitlement expended by the "SFPUC" and the developer, RCP total \$8,094,610. The respective amounts contributed by each is summarized on the bottom of **Table 3**.

LAND VALUE INDICATION AFTER APPLYING CREDIT FOR COST OF ENTITLEMENTS		<b>\$10,405,390</b>	
PLUS AMOUNT SPENT BY OWNER FOR ENTITLEMENT COSTS (VALUE ADDED AS COST AVOIDED BY DEVELOPER/BUYER)		<b>\$1,014,864</b>	<b>(2)</b>
<b>VALUE CONCLUSION</b>		<b>\$11,400,000</b>	

**ENTITLEMENT COSTS SUMMARY AND ALLOCATION**

<b>(1)</b>	TOTAL ENTITLEMENT COSTS <b>⊕ + 3)</b>	<b>\$8,094,610</b>		
		SubTotal	Planning	OEWD
<b>(2)</b>	SFPUC REPORTED ENTITLEMENT COSTS	<b>\$1,014,864</b>	\$400,136	\$614,728
		RCP REPORTED ENTITLEMENT COSTS	Previously Spent	2020
<b>(3)</b>	Entitlement ( Pre Construction Costs)	<b>\$7,079,746</b>	\$5,309,810	\$1,769,937

The entitlement costs approximate **\$8.1 million** and accrue significant value to the development potential of the site when completed and avoided by a subsequent buyer. The costs otherwise reflect a unit cost of **\$7,700/unit**, and the breakdown identifies the anticipated entitlement costs yet to be expended by the developer RCP during 2020.

The required entitlement costs of **\$8.1 million** are deducted from the NPV indication, that omits the entitlement costs in the cash flow projection. Once the entire entitlement cost of **\$8.1 million** is deducted, the indicated value approximates **\$10.4 million (\$18.5 – 8.1)**. However, to give the proportionate credit or contribution to the parties that funded the entitlement, an approximate **\$1 million** is added (for the seller's contribution by the "SFPUC") to derive the final value estimate for the subject at **\$11.4 million**. The final valuation analysis is presented on **Table 3**.

### ***Retained Fee Valuation***

The valuation of that portion of the Retained Fee Parcel is based on the terms of the proposed license. Its use and restrictions is explicit in Section 6(a) that allows constructing, installing, and maintaining a public pedestrian path at least 20-feet in width to accommodate City vehicles traversing the License Area in an unobstructed manner, vegetation consisting of low-growing shrubs, grass and other plants approved by City at its sole discretion, a passive public open-space play area limited to activity paths, child play area, landscaping and related irrigation facilities. The area is to be open and used by the general public. The stated uses appear to adequately serve the intended open space use as required for the larger project approval, but otherwise reserved rights and uses are restrictive under Section 8.

The analysis takes into further consideration an estimate of Fair Market Rent that can be made in a single lump sum payment for use of the property over the primary 20-year term. However, the terms of the rent schedule also include a no-rent abatement for the first 10 years. The 10-year rent abatement is considered appropriate in determining a fair market rent estimate for the subject property for the following reason. The lump sum payment effectively pre-pays the rent in advance for the entire 20-year term of a proposed license agreement. However, the intended use of the Retained Fee parcel (to contribute additional open space for the adjoining Balboa Reservoir project and community) is not required until a certificate of occupancy is issued for the last market rate building developed on the adjoining Balboa Reservoir site.<sup>7</sup>

Market rate development on the adjoining Balboa Reservoir site will be completed in phases and the last phase of development is slated for Block G that will support a large 4 – 7 story 200-unit multi-family rental project. Based on the appraisal projection the land sale revenue from Block G is forecast by year end 2026, some seven years hence from the effective date of value. However, the projected Block G land sale date (and extended timeline for the required open space use of the Retained Fee parcel) does not take into consideration of at least a 1 – 2 year construction period before which time the developer qualifies for issuance of a certificate of completion. Secondly, it does not account for any delay if the Balboa Reservoir project faces a potential CEQA lawsuit that could add up to approximately another year to the timeline before the project's initial phased development commences. The risk of future CEQA litigation is imbedded in the selection of a discount in deriving the site's market value but is otherwise not reflected in the projected timeline. Therefore, it appears reasonable that the required deferred use of the Retained Fee parcel could extend from 9 – 10 years and must be taken into consideration in deriving its fair market rent. Further consideration is given to the fact that the Retained Fee parcel has no other economic use during the interim period serving only as a public utility corridor until the adjoining development site supports an economic value for it. Therefore, the fair market rent analysis concludes it is appropriate to consider an approximate 10-year

---

<sup>7</sup> Development Agreement Exhibit N, Section 7 - *SFPUC Open Space & Gateway Landscape* states the following. The open space improvements on the SFPUC Retained Fee Area and Gateway Landscape, as described in Exhibit C must have commenced construction of improvements as a condition of issuance of an FCO for the Market Rate Units in Phase 2, as described in Schedule 1-A (i.e., Parcel G).

period of rent abatement over the 20-year license period. The impact of the 10-year abatement is presented on **Table 4**.

The valuation of the Retained Fee Parcel is based on its unit value contribution equal to that of the adjacent Balboa Reservoir Development site. However, due to the restricted uses conveyed under a 20-year license term, its baseline value is adjusted since it does not represent a fee interest. The adjusted unit value is applied to that portion of the retained fee to derive an annual rental amount that provides the fee owner a competitive rate of return on the underlying value of its asset. The 20-year rent schedule is discounted to derive a lump sum payment in advance, as shown on **Table 4**. The indicated value is concluded to be **\$227,000**.

**FAIR MARKET RENTAL VALUE - RETAINED FEE SITE AT BALBOA RESERVOIR**

**TABLE 4**

Fair Market Rent determination is to provide Fee Owner with an amount of rent that provides reasonable rate of return on its underlying asset value. Value is based on the NET USEABLE AREA of the Retained Fee (excluding portion allocated for Lee St. on EAST end and Valve equipment on west end of retained fee site).

**Line 4** - FMR begins with allocation of fee value of Balboa Reservoir Site expressed as overall \$/SF

## APPENDIX

## Valuation Subject To Hypothetical Conditions and Extraordinary Assumptions

The value estimate is made as of a current date and under major assumptions that are relied upon for the valuation of the subject property. These may include hypothetical conditions and extraordinary assumptions that have been made for the purpose of this analysis as defined by USPAP. The definitions are provided below.

**HYPOTHETICAL CONDITION:** that which is contrary to what exists but is supposed for the purpose of analysis. Hypothetical conditions assume conditions contrary to known facts about the physical, legal or economic characteristics of the subject property or about conditions external to the property, such as market conditions, trends, or the integrity of data used in an analysis.

**EXTRAORDINARY ASSUMPTION:** Extraordinary assumptions presume as fact otherwise uncertain information about the physical, legal, or economic characteristics of the subject property or about conditions external to the property, such as market conditions or trends, or the integrity of the data used in an analysis.

For the valuation of the subject site, and by agreement for the intended use and users of the appraisal, the **Hypothetical Conditions and Extraordinary Assumptions** are listed below.

1. The subject valuation discussion and analysis that follows refers to 3 different **development plans** defined below.

**RFP Plan** - For purposes of its valuation and by agreement with the intended use and users of the appraisal, the determination of Fair Market Value for the subject site should assume a development density of affordable housing at 33%, as set forth in the RFP's Development Principles & Parameters.

**Actual RCP Plan** – The “SFPUC”, selected Reservoir Community Partners, LLC (RCP) in 2017 to act as master developer for the project site and entered into an Exclusive Negotiating Agreement (“ENA”). During the ENA period the selected developer worked closely with the “SFPUC”, OEWD and Planning to refine its proposal to a detailed development program with a set of design and development controls to ensure the project is built as intended. As the ENA, public and planning process evolved, RCP developed a site plan with 50% affordable housing density, based on public and private input. As a major national multi-family rental property developer and operator, RCP's lead team member, Avalon Bay, is targeting rental housing occupancy, as does its

affordable housing partner, Bridge Housing. The **Actual** public-private partnership 50% development **Plan**, nearing entitlement as of the January 1, 2020 effective date of value, is slated to serve low-moderate income residents. However, as set forth in the RFP, public financing sources would support the project's additional affordable housing density in excess of 33% affordability. The **Actual RCP Plan** targets development on Blocks A, B, E, F and H for affordable housing units, and Blocks C, D, G and TH1 and TH2 for market rate units. Therefore, the **Actual RCP Plan** does not represent the condition of the property that is the basis of its Fair Market Value as set by the RFP. Hereafter the **Actual RCP Plan** is referred to as the 50% plan.

Based on a pro-forma cash flow model developed by RCP and its consultants (and reviewed and confirmed by the appraiser), the **Actual RCP Plan** with 50% affordable density does not support positive land value or financial feasibility, and hence a Highest and Best Use conclusion. Since the **Actual RCP Plan** does not support a Highest and Best Use conclusion, a Fair Market Value appraisal requires the determination of a use that produces the highest value, and thus an Alternative Plan must be examined. Subsequently, RCP and its consultants developed a modified pro-forma testing its same plan but based on a 33% affordable density (as stated in the RFP). The RCP 33% pro-forma is discussed later in the report, but it too did not support positive land value or financial feasibility and cannot be deemed the Highest and Best Use.

**Alternative Plan** – The intended use of the appraisal is to estimate the current Fair Market Value of the subject property under an **alternative** plan that represents a hypothetical condition as defined herein. Invoking a hypothetical condition is triggered for two primary reasons. First, the hypothetical condition of the appraisal is due to the fact that since the Balboa Reservoir site is a water utility ratepayer asset, the “SFPUC” must receive Fair Market Value for the site. The concept of Fair Market Value is based on Highest and Best Use. Highest and Best Use is defined as that use which is physically possible, legally permitted, economically feasible and produces the highest return or value. A plan that does not support the highest return or value cannot be deemed the Highest and Best Use.

Consequently, an **Alternative Plan** was developed by the appraiser that addresses Highest and Best use criteria, and produces the highest value, representing Fair Market Value. The RCP pro-forma cash flow analyses rely on a much larger component of rental units, along with a smaller component of owner townhouse units. However, substituting a component of land designated for market rate rental housing units, for a component of land to support townhouse units, yields positive land value, and supports Highest and Best Use criteria. Further, the exchange of lower valued market rate rental housing land with higher valued townhouse land is viable based on consultation with Planning department staff and Balboa Reservoir Design Standards and Guidelines (“DSG”). Absent the affordable density under the Actual RCP Plan, use of certain block areas, intended for affordable units, is analyzed instead for market-rate housing as illustrated and discussed herein. Block F is available to support market rate units including townhouse units on its western edge, and as well on Block D. Therefore, the **Alternative Plan** includes development of townhouse units on Blocks TH1 and TH2 and H, and additionally on a portion of Blocks F and D facing West Street. Further, the **Alternative Plan** requires no significant alteration to the overall physical site plan and its required infrastructure backbone, (with only a slight reduction in overall density) that was unanimously approved by the Planning Commission in April 2020 to undergo a General Plan amendment. The agreement for the intended use and users of the appraisal is based on the acceptance that the hypothetical alternative plan supports the highest land value for the subject. The highest land value is a fundamental to the determination of Highest and Best Use that is discussed later in the report. Hereafter the **Alternative Plan** is defined as the 33% affordable housing density plan used to determine the Fair Market Value of the subject property.

2. Future use of the site has been the subject of extensive environmental and development approval processes to support market rate and affordable housing development. The physical orientation of the overall **Actual RCP (site) Plan** has been developed with community and planning department input and was unanimously approved by the Planning Commission to undergo a General Plan amendment in April 2020. Board of Supervisors President Norman Yee introduced legislation to the Board at the end of April that details the development agreement and a special use district to rezone the property. Given its high level of similarity, the valuation is based on furtherance that the hypothetical **Alternative Plan is approved** as of the effective date of value.
3. The analysis assumes the site will be granted approval as of the effective date of value for the uses and approximate density outlined herein that is concluded to be (and assumed) to reflect the Highest and Best Use of the subject property. Based on consultation with City of San Francisco Planning Department representatives, RCP representatives, and community groups, there exists reasonable probability the proposed development will obtain approval as discussed herein to support medium-high density townhouse and multi-family development under current and anticipated market conditions. The current market value analysis does take into consideration the significant time, costs and risk associated with obtaining development approvals, subsequent completion of horizontal infrastructure construction, and preparing the site of marketability and revenue generation.
4. The **RCP Actual Plan** and the **Alternative Plan** provide 50% and 33% affordability, respectively. Both levels of affordability are in excess of prevailing affordable typically required for sites under *private* ownership, set forth in Section 415 of the San Francisco Planning Code, but that it is deemed appropriate for the development of the Balboa Reservoir subject site under its history of *public* ownership, and designation of the subject site in the 2014 Public Land For Housing policy. Consequently, the City and County of San Francisco's requires significantly more affordable housing, than required for privately owned development land. This is due to the City's effort to mitigate its housing shortage crisis that relies on a variety of creative methods of subsidy to preserve and develop new affordable housing units. In this way, the use of public land serves to contribute to the community's support and acceptance of the site's development plan.
5. The valuation assumes public subsidies totaling approximately \$39.5 million are available to support the project site that may be derived from park bonds IIGA, AHSC or other State funding sources. The current amounts are projected to grow until funding occurs in projection years 2022- 2025.
6. The estimated Low Income Housing Tax Credit is available targeting a 4% credit program.
7. The parking for the alternative plan is based on an overall .5 parking ratio.

8. The scale and complexity of the subject development site is best estimated by the Development Approach that is otherwise referred to as the Land Residual Valuation technique. This is supported by the fact that no truly comparable land sales could be located that offer the similar size (density) and also face the same level and cost of infrastructure improvements required for the subject site. Secondly, for sites with similar development capacity and complexity, the Development Approach is most often utilized and relied upon in the marketplace. Given the methodology, the current valuation relies upon the accuracy of the design and estimated horizontal development costs for the subject (discussed later) that underlies the type and level of information relied upon in the marketplace. However, as part of the Development Approach process, the analysis does rely on comparable and competitive land sales data (generally for smaller sites already served by infrastructure) to derive potential revenue generation from the subject property. In this way the methodology attempts to assure the reliability of the Development Approach methodology.
9. The "SFPUC" transferred ownership of a 6.21-acre parcel in the northeastern corner of Balboa Reservoir to City College on May 17, 2012. In exchange, City College transferred ownership of a 6.60-acre parcel at the southwestern corner of Balboa Reservoir to the "SFPUC". The new configuration allowed City College to expand its campus, while the western portion of Balboa Reservoir remained suitable for future water storage. As part of the associated transfer agreement, City College granted the City a 60-foot access easement running east-west on the northern boundary of the City College parcel. This easement allows the "SFPUC" to construct a 60-foot-wide right-of-way to Phelan Avenue. Also in accordance with the agreement, the "SFPUC" granted City College a 50-foot access easement running north-south, to be built along the eastern edge of the "SFPUC" property. The accessway, also known as the Lee Avenue Extension, allows for pedestrian and vehicular access. The transfer agreement ultimately calls for City College to connect the accessway to Lee Avenue. Easements and encroachments may require resolution before future development of Balboa Reservoir can proceed. It is assumed the required resolution does not face any extraordinary cost or delay in the development of the subject property.
10. The mapping, dedication and acceptance of streets and other infrastructure improvements is anticipated to occur through the subdivision mapping process. Except as otherwise noted, the infrastructure shall be constructed within the public right-of-way to provide for access and maintenance of infrastructure facilities.
11. The Balboa Reservoir Land Transfer with City College parcel map indicates a total acreage of 17.6 acres, excluding Lot 3 that BKF Engineers quantify as 1.2 acres that is the **Retained Fee** area supporting 1 underground pipelines and potentially a second pipeline or replacement pipeline. BKF Engineers quantifies the project site at 16.4 acres as summarized on Table 1. The significant metric of economic development recognized in the marketplace is the housing density expressed in terms of the number of potential development units, notwithstanding essential non-economic infrastructure uses such as streets, open space and community benefits that contribute to the overall functional characteristics and appeal of the project area. For purposes of reporting and valuation of the **Fee Simple** interest representing the conveyance of the subject property is defined as 16.4 acres.
12. Entitlement costs are typically a factor in the valuation analysis of raw land like the subject as there is direct market recognition of such future costs and risks, since without required approvals development cannot proceed. However, the exclusion of the costs of entitlement (within the cash flow projection) is due to the sale of the land that occurs following City approval of entitlements. The sale or ownership transfer is presumed under the definition of Fair Market Value, and thus the exclusion accurately reflects only the remaining site costs of (horizontal) development as of the effective date of the appraisal. This is appropriate due to the Development Approach valuation methodology that is employed and defined later in the report. However, the contributory value of the cost of entitlements that in this case was funded by both the "SFPUC" (seller) and RCP (buyer) is proportionally deducted or credited as the final adjustment in determining the Fair Market Value of the property. In this way the appraisal is consistent with Chapter 23 of the City's Administrative Code that requires it and the logical support for one of the major hypothetical conditions of the valuation. It is reported that approximately \$8.1 million has been, or will soon be, spent to obtain project entitlement. The \$7.1 million and \$1 million spent by RCP and the "SFPUC", respectively, will serve as the basis for the final adjustment in determining the Fair Market Value of the subject site.

13. The Retained Fee Parcel is earmarked in the Balboa Reservoir project's Development Agreement to eventually to satisfy a portion of the open space requirement and design under a 20-year license agreement. The open space requirement extends beyond this period, however, the Fair Market Rent estimate presented herein (that that can be made in a single lump sum payment in advance) addresses its valuation for the initial 20-year license period only. The interim net area for use under the license approximates 45,315 SF, however, the final license area is subject to the "SFPUC's" review of approved plans and may change in size.
14. By agreement for the intended use and users the valuation date of January 1, 2020 is deemed a retrospective value opinion. A retrospective date of value is an opinion as of a specified historic date. The reference to the valuation date as retrospective is due to the initial research and analysis that commenced in the Fall 2019. However due to the onset of the Covid-19 pandemic that began to strangle global and local economic activity in March 2020, indiscernible market activity has occurred since then leading up to the date of report publication.
15. The descriptive elements of the subject property relied on by the appraiser include multiple technical reports, exhibits, and other published resources including, but not limited to:
  - The draft Environmental Impact Report for the Balboa Reservoir Project prepared by the SAN FRANCISCO PLANNING DEPARTMENT CASE NO. 2018-007883ENV
  - THE BALBOA RESERVOIR Neighborhood Design Standards and Guidelines 02.24.2020
  - BALBOA RESERVOIR INFRASTRUCTURE PLAN (DECEMBER 23, 2019); Prepared by BKF Engineers, With assistance from: Van Meter Williams Pollack, Pyatok Architects, GLS Landscape Architecture, Urban Design Consulting Engineers, and Rockridge Geotechnical Engineers
  - RFI responses and telecom discussions with BKF Engineers, Bridge Housing, Van Meter Williams Pollack, the "SFPUC", Mayor's OEWD representatives, San Francisco Planning Department representatives, Century Urban, Seifel Consulting, competitive project managers and market transactions participants.

The use of any hypothetical conditions or extraordinary assumptions in this report may affect the assignment results.

## Appraisal Certification Statement

The appraiser certifies that, to the best of his knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- The appraiser has no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
- The appraiser has no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.
- The appraiser's engagement in this assignment was not contingent upon developing or reporting predetermined results.
- The appraiser's compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- The appraiser has made a personal inspection of the property that is the subject of this report.
- No one, other than Seifel Consulting, provided significant real property appraisal assistance to the person signing this certification.
- The appraiser has not completed a prior appraisal of the subject property in the prior three years.
- The reported analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Code of Professional Ethics and Standards of Professional Appraisal Practice of the Appraisal Institute.
- The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- As of the date of this report, the appraiser has completed the continuing education program of the Appraisal Institute.

## **Assumptions and Standard Limiting Conditions**

This appraisal is subject to the following limiting conditions.

1. The legal description and area dimensions furnished the appraiser is assumed to be correct. No survey of the boundaries of the property was completed.
2. No responsibility for matters legal in character is assumed, nor is any opinion as to title rendered, which is assumed to be marketable. All existing liens, encumbrances, and assessments have been disregarded, except where noted, and the property is appraised as though free and clear, under responsible ownership and competent management. It is specifically noted the appraisal assumes the property will be competently managed, leased and maintained by financially sound owners over a reasonable period of ownership.
3. Unless otherwise noted herein, it is assumed that there are no encroachments, zoning, or restrictive violations existing in the subject property.
4. No opinion is intended to be expressed on matters which require legal expertise or specialized investigation or knowledge beyond that customarily employed by real estate appraisers.
5. The exhibits in this report are included to assist the reader in visualizing the property. No survey of the property has been made and no responsibility in connection with such matters is assumed.
6. The distribution or allocation, if any, of the total valuation of this report between land and improvements applies only under the existing program of utilization. The separate valuations for land and improvements must not be used in conjunction with any other appraisal and are invalid if so used. Any value estimates provided in the report apply to the entire property, and any proration or division of the total into fractional interests will invalidate the value estimate, unless such proration or division of interests has been set forth in the report.
7. The statements of value and all conclusions shall apply as of the date shown herein.
8. No responsibility for economic or physical factors is assumed which may affect the opinions herein stated, which may be present or occur at some date after the date of value.
9. An inspection, as far as possible, by observation, the land has been made; however, it was impossible to personally inspect conditions beneath the soil; therefore, no representations are made as to these matters unless specifically considered in the appraisal. Further, no opinion is expressed as to the value of sub-surface oil, gas, or mineral rights, or whether the property is subject to surface entry for the exploration or removal of such materials, except as is expressly stated.
10. This appraisal is predicated on the assumption that the existence of hazardous material, which may or may not be present in, on or near the property, was not observed by the appraiser, unless otherwise stated. The appraiser has no knowledge of the existence of such materials in, on or near the property. The appraiser, however, is not qualified to detect such substances, and assumes no responsibility for such conditions, or for engineering or other inspections which might be required to discover such factors. The presence of asbestos or other potentially hazardous materials may affect the value of the property. The value estimate herein is predicated on the assumption that there is no such material on or in the property that would cause a loss in value. No responsibility is assumed for any such condition, or for any expertise or knowledge required to discover them.
11. No engineering survey has been made by us. Except as specifically stated, data relative to size and area were taken from sources considered reliable. Furthermore, no warranty is implied with regard to physical or structural or operational deficiencies which are not disclosed to the appraiser and noted herein.

12. The appraiser assumes no responsibility for determining if the property requires environmental approval by the appropriate governing agencies, nor if it is in violation thereof, unless otherwise noted herein. The appraiser assumes that there is full compliance with all applicable federal, state, and local environmental regulations and laws unless noncompliance is stated, defined and considered in the appraisal report. The appraiser assumes that all required licenses, certificates of occupancy, consents or other legislative or administrative authority from any local, state, or national government or private entity or organization have been or can be obtained or renewed for any use on which the value estimate contained in this report is based.
13. Information, estimates, and opinions contained in this report are obtained from sources considered reliable and where feasible, has been verified. However, no liability can be assumed for information supplied by others.
14. The right to make such adjustments to the valuation herein reported is reserved, as may be required by the consideration of additional data or more reliable data that may become available.
15. All projections of income and expenses in this report are estimates of current market expectations, not predictions of the future. No warranty or representation is made that these projections will materialize. Where Discounted Cash Flow Analyses have been completed, the discount rates utilized to bring forecast future revenues back to estimates of present value, reflect both the appraiser's market investigations of yield anticipations and judgment as to the risks and uncertainties in the subject property and the consequential rates of return required to attract an investor under such risk conditions.
16. The appraiser may not be required to give testimony or to appear in court or any governmental or other hearing by reason of this appraisal, unless prior arrangements have been made.
17. The liability of John C. Clifford, MAI and CLIFFORD ADVISORY, LLC is limited to the Client only and to the amount of fee actually paid for services rendered, as liquidated damages, if any related dispute arises. Further, there is no accountability, obligation, or liability to any third party. If this report is placed in the hands of any one other than the Client, the Client shall make such party aware of all assumptions and limiting conditions of the assignment and related discussions. John C. Clifford, MAI and CLIFFORD ADVISORY, LLC is in no way to be responsible for any costs incurred to discover or correct any deficiencies of any type present in the property, physical, financially and/or legally. Any claims or damages made against the Appraiser by the Client will be limited to the amount paid by the Client to the Appraiser for the appraisal report or services. Client waives all other claims to consequential or special damages arising from the use of the report, and agrees to hold harmless CLIFFORD ADVISORY, LLC from any liability, loss, or expense incurred by the client in such action, regardless of its outcome.
18. The appraiser has no present or contemplated future interest in the property which is not specifically disclosed in this report.
19. This report shall be used for its intended purpose only and by the parties to whom it is addressed as of the current date of valuation. Possession of this report does not carry with it the right of publication, or duplication. One of the signatories of this appraisal is a member of the Appraisal Institute. The Bylaws and Regulations of the Institute require each member or candidate to control the use and distribution of each appraisal signed by such member or candidate. Therefore, except as hereinafter provided, the party for whom this appraisal was prepared may distribute copies of this report, in its entirety, to such third parties as may be selected by the party for whom this report was prepared; however, selected portions of this appraisal shall not be given to third parties without the prior written consent of the signatories of this report. Neither all nor any part of the contents of this report shall be conveyed to the public through advertising, public relations, news, sales, or other media without the written consent or approval of the author. This applies particularly to value conclusions, the identity of the appraiser or firm with which is connected, and any reference to the Appraisal Institute, or MAI designation.

21. Information regarding any earthquake and flood hazard zones for the subject property was provided by outside sources. Accurately reading flood hazard and earthquake maps, as well as tracking constant changes in the zone designations, is a specialized skill and outside the scope of the services provided by this appraisal assignment. No responsibility is assumed by the appraisers in the misinterpretation of these maps. It is strongly recommended that any lending institution reverify earthquake and flood hazard locations for any property for which they are providing a mortgage loan.

Real Estate Valuation ■ Arbitration

**QUALIFICATIONS  
OF  
JOHN C. CLIFFORD, MAI**

Mr. John C. Clifford is a designated member of the Appraisal Institute (MAI) and is qualified by the State of California as a Certified General Appraiser. The following is a brief resume of his background and experience.

**Experience**

Mr. Clifford is the principal of CLIFFORD ADVISORY, LLC and has provided real estate appraisal, arbitration and consultation services since 1982. He has performed a wide variety of appraisal and valuation consulting assignments.

Based in San Francisco, Mr. Clifford has benefited from the unique opportunity to analyze many complex properties including:

**Complex Properties**

- San Francisco Giants AT&T Baseball Stadium
- Treasure Island
- Mission Bay MXU Development Project
- Hamilton Army Air Field (HAAF)
- Hunters Point Naval Shipyard
- Ferry Building - Embarcadero
- Fisherman's Wharf Restaurants
- United Airlines Maintenance Facility

**Arbitration**

- 400,000 SF - Pacific Bell  
370 Third Street, SOMA
- 200,000 SF - Heller Ehrman  
333 Bush Street, Financial  
District
- 500,000 SF - Nordstroms Centre  
Union Square District
- Pier 41 - Fisherman's Wharf

Valuation property types include major high-rise office and mixed-use retail/office projects, retail projects, biotech facilities, medical office buildings, regional malls, neighborhood shopping centers, hotels and restaurants, industrial and manufacturing buildings and facilities, high-rise and suburban multi-family residential projects, subdivision analysis, special purpose properties, recreational properties, vacant land and open space.

Mr. Clifford has provided litigation support in numerous condemnation valuation assignments, and has testified as a qualified expert witness in the Superior Court of the State of California, U.S. Bankruptcy Court, and before various quasi-judicial and municipal hearings.

## **Condemnation**

- **Moscone West Convention Center Site**
- **Transbay Terminal Project Sites**
- **San Francisco Cable Car Line**
- **The Rock**
- **Richmond Parkway**
- **Golden Gate Ministorage vs. The State of California**

## **Client**

- City of San Francisco**
- Property Owner**
- Property Owner**

Mr. Clifford participated in a landmark inverse condemnation land use case which upheld the use of public agency purchases as comparables following the 1987 revision to the State's evidence code (*City and County of San Francisco v. Golden Gate Heights Inv.* (1993) 14 Cal.App.4th 1203).

Other major assignments demonstrating the extent of his experience are listed as follows:

- **Genentech Research Facility**
- **Biorad Research Facility**
- **Port Sonoma-Marin Marina**
- **Marin County Civic Center**
- **Sea Cliff Sinkhole Properties**
- **Hamilton Airfield Reuse Plan**
- **Wal-Mart Distribution Facility**
- **Silverado Country Club**
- **Renaissance Estates Golf & SFR Community**
- **Fountaingrove Ranch Golf & SFR Community**
- **Northeast Ridge Subdivision**
- **Lagoon Valley MXU Golf, SFR, Business Park**
- **Bel Marin Keys Unit 5**
- **AT&T Cable Franchise – Possessory Interest**

After earning his MAI designation in 1983, he established an appraisal and consulting practice. As his practice and reputation has grown, he now maintains offices in San Francisco and Mill Valley, California.

## **Development Consulting**

Mr. Clifford is a specialist in evaluating real estate economic feasibility, completing land use entitlement processes, and formulating development strategies. He successfully processed tentative and final subdivision maps, secured development financing and acted as project manager in the construction and marketing of the 100-unit Cotati Station project in Sonoma County.

## **Education and Professional Affiliation**

Mr. Clifford graduated from Indiana University in 1974, Bloomington, Indiana, with a Bachelor of Arts degree.

During the years 1979 through 1983, Mr. Clifford completed a curriculum of study in the understanding and application of the theory and practice of appraisal principles. The course subjects include appraisal and economic theory, real property law, finance, and professional ethics, and are presented by the Appraisal Institute, which ultimately awards the MAI (Member of the Appraisal Institute) designation. After satisfying the additional five years of experience requirements, demonstration reports, and successfully completing a Comprehensive Exam, he was awarded the MAI designation in 1983.

Dear Supervisors,

I am writing in opposition to the proposed development at 1846 Grove Street. The environmental impacts of four single-family dwelling units in a landlocked lot need to be properly analyzed by CEQA.

The developers have failed to meet California Environment Quality Act and San Francisco Policies and have not demonstrated that the proposed development will not have significant adverse impacts. We respectfully request that you vote to reverse the granting of the CEQA exemption and require a full environmental review of the potential impacts of the project.

Sincerely,

Brandon Keefe

1858 Grove St, San Francisco, CA 94117

**Date:** Thursday, August 20, 2020 10:35:27 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

We oppose the landlocked lot construction project at 1846 Grove Street and ask the Board to disapprove this proposal.

The project site has one narrow 3.5-foot-wide breezeway as its only entrance and exit. Building four units at this site will lead to an unsafe situation for occupants and responding emergency personnel in the event of an emergency such as a fire. We ask that you enforce the applicable building and fire codes and deny this project's conditional use application.

Mark D'Avignon

**Subject:** dangerous proposed development at 1846 Grove Street  
**Date:** Thursday, August 20, 2020 10:37:27 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am writing in opposition to the proposed development at 1846 Grove Street. The environmental impacts of four single-family dwelling units in a landlocked lot need to be properly analyzed by CEQA.

The developers have failed to meet California Environment Quality Act and San Francisco Policies and have not demonstrated that the proposed development will not have significant adverse impacts. We respectfully request that you vote to reverse the granting of the CEQA exemption and require a full environmental review of the potential impacts of the project.

Also, the property's sole means of access and egress is a 3.5-foot wide (42 inches) by 50-foot long breezeway which is unsafe. In the event of a fire, earthquake or another adverse event, it could be difficult for residents to exit safely and quickly, especially if first responders were trying to enter simultaneously.

This would be further exacerbated by the fact that the development is much too dense: it is four units when the lot is only zoned for two. **And what if a fire occurs near the egress or the older buildings bordering the tight breezeway? Historically, many flag lots in the city were purposely left vacant after the 1906 earthquake to act as a "fire block" to prevent rapid spread of fires.**

Building four units at this site will lead to an unsafe situation for occupants and responding emergency personnel in the event of an emergency such as a fire. We ask that you enforce the applicable building and fire codes and deny this project's conditional use application.

Lastly, the investor has dismissed neighborhood input throughout the process. This type of construction is not the solution we need to our housing crisis. Please vote to approve the appeal and overturn the Planning Commission's decision regarding the 1846 Grove Street project.

These market-rate housing units are neither necessary nor desirable and will do nothing to alleviate the shortage of affordable housing in San Francisco. We respectfully urge you to protect the City's quality of life and disallow this development from being built.

Sincerely,  
Carolyn "Mitsi" Hanrahan

**Subject:** I oppose the landlocked lot construction project at 1846 Grove  
**Date:** Thursday, August 20, 2020 10:44:47 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisors,

I am opposed to the proposed flag lot development at 1846 Grove Street. The property's sole means of access and egress is a 3.5-foot wide (42 inches) by 50-foot long breezeway which is unsafe. In the event of a fire, earthquake or other adverse event, it could be difficult for residents to exit safely and quickly, especially if first responders were trying to enter simultaneously.

This would be further exacerbated by the fact that the development is much too dense: it is four units when the lot is only zoned for two. And what if a fire occurs near the egress or the older buildings bordering the tight breezeway? Historically, many flag lots in the city were purposely left vacant after the 1906 earthquake to act as a "fire block" to prevent rapid spread of fires.

Lastly, the investor has dismissed neighborhood input throughout the process. This type of construction is not the solution we need to our housing crisis. Please vote to approve the appeal and overturn the Planning Commission's decision regarding the 1846 Grove Street project.

Thank you,  
Ian Robertson

**Subject:** Oppose Unsafe Landlocked Construction at 1846 Grove  
**Date:** Thursday, August 20, 2020 11:01:57 AM

---

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Supervisors,

Thank you for considering the opinions and concerns of our neighborhood throughout this process. I am opposed to the proposed flag lot development at 1846 Grove Street. The property's sole means of access and egress is a 3.5-foot wide (42 inches) by 50-foot long breezeway which is unsafe. In the event of a fire, earthquake or other adverse event, it could be difficult for residents to exit safely and quickly, especially if first responders were trying to enter simultaneously.

This would be further exacerbated by the fact that the development is much too dense: it is four units when the lot is only zoned for two. And what if a fire occurs near the egress or the older buildings bordering the tight breezeway? Historically, many flag lots in the city were purposely left vacant after the 1906 earthquake to act as a "fire block" to prevent rapid spread of fires.

Lastly, the investor has dismissed neighborhood input throughout the process. This type of construction is not the solution we need to our housing crisis. Please vote to approve the appeal and overturn the Planning Commission's decision regarding the 1846 Grove Street project.

Thank you again for your consideration.

Sincerely,

Grant Keefe

1860 Grove Street

Dear Supervisors,

I am opposed to the proposed flag lot development at 1846 Grove Street. While I am a proponent of sensible development that increases the quality of life for all our residents, this is not the way to go about it and retain what we love most about this city.

The property's sole means of access and egress is a 3.5-foot wide (42 inches) by 50-foot long breezeway which is unsafe. In the event of a fire, earthquake or other adverse event, it could be difficult for residents to exit safely and quickly, especially if first responders were trying to enter simultaneously.

This would be further exacerbated by the fact that the development is much too dense: it is four units when the lot is only zoned for two. And what if a fire occurs near the egress or the older buildings bordering the tight breezeway? Historically, many flag lots in the city were purposely left vacant after the 1906 earthquake to act as a "fire block" to prevent rapid spread of fires.

Lastly, the investor has dismissed neighborhood input throughout the process. This type of construction is not the solution we need to our housing crisis.

I am a fourth generation San Francisco native. I love this city and want to see it grow in a way that is consistent with our core values. I sincerely hope this development does not go forward.

Please vote to approve the appeal and overturn the Planning Commission's decision regarding the 1846 Grove Street project.

Thank you,  
Matt Bissinger

Lastly, the investor has dismissed neighborhood input throughout the process. This type of construction is not the solution we need to our housing crisis. Please vote to approve the appeal and overturn the Planning Commission's decision regarding the 1846 Grove Street project.

These market-rate housing units are neither necessary nor desirable and will do nothing to alleviate the shortage of affordable housing in San Francisco. We respectfully urge you to protect the City's quality of life, PROMOTE AFFORDABLE HOUSING WHICH THIS IS DEFINITELY NOT, and disallow this development from being built.

Don't allow paid lobbyists disguised as YIMBY activists sway you. Research and discover that these multimillion dollar price-tagged with zero lot setbacks and 18-21 foot high windowless walls are

"luxury condos" that SF does not need! In the age of COVID19, no one can physically distance in a 3 1/2 foot wide utility easement that will be used as the only egress/ingress pathway. Indeed, if one of the owners revokes their voluntary easement (to be used for utility maintenance), the width goes down to 2 feet! Six feet distancing is impossible.

Thank you

Jason Chu, MPH

Historically, many flag lots in the city were purposely left vacant after the 1906 earthquake to act as a "fire block" to prevent rapid spread of fires.

I live in a house directly abutting this lot, and the development would make me, my partner, and our 6 year old daughter feel fundamentally unsafe and unprotected from fire.

Lastly, the investor has dismissed neighborhood input throughout the process. This type of construction is not the solution we need to our housing crisis.

Thank you so much for your consideration - I know you are busy! Please vote to approve the appeal, and overturn the Planning Commission's decision regarding the 1846 Grove Street project.

All best wishes,  
Elaine Robertson, 625 Masonic Avenue, SF

 Subject: Notice of Proposed Basin Plan Amendment Regarding Chlorine Water Quality Objectives  
 Date: Tuesday, August 18, 2020 5:13:56 PM  
 Attachments: [Chlorine BPA Draft Staff Report BPA 8.18.pdf](#)

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

 This is a message from the California Regional Water Quality Control Board, San Francisco Bay Region (2).

Notice Date: August 18, 2020

**NOTICE OF FILING, NOTICE OF OPPORTUNITY FOR PUBLIC COMMENT, AND NOTICE OF PUBLIC HEARING  
ON AMENDMENT TO THE WATER QUALITY CONTROL PLAN, SAN FRANCISCO BAY BASIN, AND DRAFT SUBSTITUTE ENVIRONMENTAL DOCUMENT**

**NOTICE IS HEREBY GIVEN** that the San Francisco Bay Regional Water Quality Control Board (Water Board) has filed a draft substitute environmental document supporting a proposed amendment to the Water Quality Control Plan for the San Francisco Bay Basin (Basin Plan) to:

**Add Chlorine Water Quality Objectives and Establish Total Residual Chlorine Water Quality-Based Effluent Limitations for Wastewater Discharges in the San Francisco Bay Region**

The proposed Basin Plan amendment would adopt chlorine water quality objectives for the protection of aquatic life beneficial uses in marine, estuarine, and freshwaters within the San Francisco Bay region, and replace the existing total residual chlorine technology-based effluent limitation with new water quality-based effluent limitations to be implemented in the region's National Pollutant Discharge Elimination System permits. The BPA would also make three minor editorial changes to the Basin Plan to correct past errors and to make the Basin Plan consistent with the recently adopted statewide mercury objectives. The Water Board is considering the BPA in accordance with a certified regulatory program exempt under section 21080.5 of the Public Resources Code from the requirement to prepare an environmental impact report under the California Environmental Quality Act. (Pub. Res. Code, §§ 21000 et seq.) The draft staff report serves as the substitute environmental documentation required under the Water Board's certified regulatory program (Cal. Code Regs., tit. 23, §§ 3775 et seq.) and includes the required environmental analyses of the proposed BPA.

**NOTICE IS ADDITIONALLY HEREBY GIVEN** that the Water Board will receive public comments on the proposed Basin Plan amendment and draft staff report in accordance with this notice.

**NOTICE IS ADDITIONALLY HEREBY GIVEN** that the Water Board will hold a public hearing to receive public comments on and consider adoption of the proposed amendment and draft staff report. The hearing will be held as follows:

DATE: **November 18, 2020**

TIME: 9:00 a.m. (approximate)

LOCATION: Virtual meeting via Zoom. Please check the Water Board's Covid-19 webpage: [https://www.waterboards.ca.gov/sanfranciscobay/board\\_info/remote\\_meeting/index.html](https://www.waterboards.ca.gov/sanfranciscobay/board_info/remote_meeting/index.html) to find out more about how to participate in San Francisco Bay Regional Water Board Meetings during the COVID-19 Emergency.

STAFF CONTACT: Tong Yin  
 San Francisco Bay Regional Water Quality Control Board  
 1515 Clay Street, Suite 1400  
 Oakland, CA 94612  
[Tong.Yin@waterboards.ca.gov](mailto:Tong.Yin@waterboards.ca.gov)

DOCUMENT AVAILABILITY: The proposed BPA and supporting draft staff report will be available online at the Water Board's public notice page: [https://www.waterboards.ca.gov/sanfranciscobay/public\\_notices/](https://www.waterboards.ca.gov/sanfranciscobay/public_notices/).

**SUBMISSION OF WRITTEN COMMENTS:** The Water Board will accept written comments on the proposed BPA and draft staff report. Written comments must be received no later than 5:00 p.m. on October 2, 2020 to be considered in the revised BPA or draft staff report and be included in the written response to comments before the Board hearing. Please send all written comments to the staff contact identified above. Additionally, all evidence, testimony, and exhibits to be offered at the hearing must be submitted in writing by this date to the above staff contact. Non-evidentiary policy statements to be made at the hearing need not be submitted in advance. Due to Covid-19 and telework, we encourage you to email a copy of your written comments to the staff contact by the same deadline.

One week before the Board hearing date, any proposed changes to the proposed BPA and draft staff report, along with written responses to all comments received during the public comment period, will be posted at the Board Meeting agenda page: [https://www.waterboards.ca.gov/sanfranciscobay/board\\_info/agenda.html](https://www.waterboards.ca.gov/sanfranciscobay/board_info/agenda.html).

**PROCEDURAL MATTERS:** The Water Board will receive oral public testimony on the proposed BPA and draft staff report at the hearing. At the conclusion of the hearing, the Board will consider adoption of the proposed BPA and draft staff report, including changes to the proposed BPA that are consistent with the general purpose of the proposed amendment and are a logical outgrowth of the comments received.

The public hearing will be conducted in accordance with the California Code of Regulations, title 23, section 649.3. To ensure a productive, efficient and fair hearing in which all participants have an opportunity to be heard, oral comments will generally be limited to five minutes. Participants with similar comments are strongly encouraged to make joint presentations.

The meeting will be held virtually. Individuals who require special accommodations are requested to contact Executive Assistant Guy Gutterman, (510) 622-2399, [Guy.Gutterman@Waterboards.ca.gov](mailto:Guy.Gutterman@Waterboards.ca.gov), at least five (5) working days before a meeting. TTY users may contact the California Relay Service at 1-800-735-2929 or voice line at 1-800-735-2922.

**Future Notices:** Any changes in the date of the hearing, the availability of responses to comments or any other updates will be noticed by the Lyris e-mail list. Any person desiring to receive future notices concerning the proposed BPA and substitute environmental document must sign up for the Lyris e-mail list. To sign up, access the E-mail List Subscription form at the Lyris subscription page: [https://www.waterboards.ca.gov/resources/email\\_subscriptions/reg2\\_subscribe.html](https://www.waterboards.ca.gov/resources/email_subscriptions/reg2_subscribe.html), and select the box for "ALL Basin Planning/TMDL Notices and Information" option.

µg/L – micrograms per liter  
U.S. EPA – United State Environmental Protection Agency  
WEF – Water Environment Federation

# 1 Introduction

This staff report provides the technical background and basis for a proposed amendment to the Water Quality Control Plan for the San Francisco Bay Basin (Basin Plan). The proposed amendment, shown in Appendix A, would add chlorine water quality objectives for marine, estuarine, and freshwaters consistent with the U.S. Environmental Protection Agency's (U.S. EPA) ambient chlorine criteria (U.S. EPA 1984) and add provisions governing the implementation of these new objectives in National Pollutant Discharge Elimination System (NPDES) permits. These proposed implementation provisions include replacing the Basin Plan's current total residual chlorine (TRC) technology-based effluent limitations with water quality-based effluent limitations derived from the new chlorine objectives.

The Basin Plan requires that all NPDES permits for discharges containing sanitary waste include effluent limitations for bacteria to ensure protection of beneficial uses in receiving waters. Most municipal wastewater treatment plants apply a chlorine-based product to disinfect their effluent to comply with these bacterial effluent limitations. Chlorine not consumed in the disinfection process results in TRC. TRC is harmful to aquatic organisms at very low concentrations, and the Basin Plan currently contains a TRC effluent limitation of 0.0 milligrams/liter (mg/L) as a technology-based instantaneous maximum. Thus, treatment plants that use chlorine to disinfect must apply a dechlorinating chemical, typically liquid sodium bisulfite, to remove residual chlorine and comply with the TRC effluent limitation. Because wastewater is a complex chemical mixture and the technology-based effluent limitation is zero (i.e., no amount may be discharged), wastewater treatment plant operators routinely add sodium bisulfite in amounts well beyond those that would theoretically neutralize the TRC.

This over-application of sodium bisulfite results in extra operational cost and potential water quality concerns without providing environmental benefits, as described in this report. For this reason, NPDES wastewater dischargers requested economic relief from complying with the TRC technology-based effluent limitation. The San Francisco Bay Regional Water Quality Control Board (Water Board) staff finds their request compelling as wastewater treatment plants across the region plan for major upgrades to respond to sea level rise and increased nutrient concentrations in the Bay. This Basin Plan amendment would provide cost savings that could help fund wastewater treatment plant improvements needed to address other issues with substantial environmental consequences. Water Board staff concurs that the need for future wastewater infrastructure improvements is vast, and could include green infrastructure and/or advanced treatment for nutrients, reconstruction in response to sea level rise, additional holding capacity for increased wet weather flows, collection system upgrades, and more. The elements of this project provide a sensible regulatory solution that both protects beneficial uses and provides economic and environmental benefits by minimizing the need for the over-application of sodium bisulfate.

The proposed amendment also includes some minor non-regulatory updates to language in the Basin Plan needed to harmonize our Basin Plan with the revised water quality objectives included in the Water Quality Control Plan for Inland Surface Waters, Enclosed Bays, and Estuaries of California and to correct previous errors.

## 1.1 Regulatory Authority

A water quality standard defines the water quality goals of a water body by designating the use or uses to be made of the water, by setting numeric or narrative water quality objectives necessary to protect the uses, and by preventing degradation of water quality through antidegradation provisions (U.S. EPA 1994). Clean Water Act Section 303(c) requires states to adopt and modify, as appropriate, water quality standards for surface waters that protect the public health or welfare, enhance the quality of water, and serve the purposes of the Clean Water Act (33 U.S. Code Section 1313(c)). Water quality objectives must be based on sound scientific rationale and protect the designated beneficial uses of the receiving water (40 Code of Federal Regulations or CFR 131.11). California Water Code Section 13240 additionally authorizes water boards to adopt water quality objectives that reasonably protect beneficial uses and prevent nuisance based on factors listed in Section 13241.

## 1.2 Scientific Peer Review

This draft Report conforms to Section 57004 of the California Health and Safety Code which requires external scientific peer review of the scientific basis for any rule proposed by any board, office or department within California Environmental Protection Agency. Based on the interpretation of Health and Safety Code, Section 57004 and the State Water Resources Control Board's (State Water Board) Administrative Procedures Manual Section 8, III. D., we have determined that the proposed Basin Plan amendment does not contain new science that would require a peer review. The proposed amendment is an application of earlier, extensively peer-reviewed water quality criteria. Specifically, the water quality objectives are the same water quality criteria adopted by U.S. EPA in Ambient Water Quality Criteria for Chlorine – 1984 (U.S. EPA 1984). These criteria were adopted by U.S. EPA pursuant to Clean Water Act Section 304(a) and provide guidance for states and tribes to use in establishing water quality standards. The water quality-based effluent limitations are based on the same U.S. EPA criteria and are calculated in the manner set forth in "*Policy for Implementation of Toxics Standards for Inland Surface Waters, Enclosed Bay, and Estuaries of California*" (State Implementation Policy or SIP). The State Implementation Policy had also gone through extensive scientific peer review before adoption by the State Water Resources Control Board and approval by U.S. EPA.

The proposed amendment does not depart from the scientific approach of the water quality criteria from which it is derived. Therefore, the proposed amendment has satisfied the peer review requirement of Health and Safety Code Section 57004, and no additional peer review is needed.

## 1.3 Report Organization

The report is organized into sections that present the information and analyses required by state and federal law. The sections are as follows:

- Section 2. Project Description – defines the project, its necessity, and objectives;

- Section 3. Project Background – provides technical details concerning the new chlorine objectives and other relevant background information for the project;
- Section 4. Implementation Plan – describes how the new chlorine objectives will be implemented as water quality-based effluent limitations in NPDES permits;
- Section 5. Regulatory Analyses – demonstrates the project’s compliance with the California Water Code and California Environmental Quality Act (CEQA);
- Section 6. References – lists information sources cited and relied upon to prepare this report.

Specific proposed changes to the Basin Plan are shown in Appendix A. The CEQA environmental checklist is included as Appendix B.

## **2 Project Description**

The need for and elements of the proposed Basin Plan amendment are described in this section.

### **2.1 Project Definition and Necessity**

The project is a proposed Basin Plan amendment that includes regulatory changes to the Basin Plan with regards to chlorine, which are further discussed in Section 2.1.1 below. The amendment also proposes non-regulatory editorial changes to the Basin Plan language to correct previous errors as described in Section 2.1.2 below.

The Basin Plan, as first adopted in 1975, did not include chlorine water quality objectives to protect aquatic life beneficial uses. The Basin Plan does contain a technology-based TRC effluent limitation, 0.0 mg/L, as an instantaneous maximum, to ensure that no TRC is discharged into the receiving water. To comply with this effluent limitation, wastewater treatment system operators choose to overdose their chlorinated effluent with dechlorination chemicals, usually sodium bisulfite, to neutralize TRC before discharging to receiving waters. The thirteen largest municipal wastewater dischargers in the region report that sodium bisulfite overdosing costs them approximately \$1.4 million per year, out of a total cost of \$4.3 million for sodium bisulfite (Fono 2020b). As detailed in Section 3.5, sodium bisulfite overdosing can decrease dissolved oxygen concentration and depress pH in the effluent and receiving water. Reducing the level of excess sodium bisulfite will provide cost savings and modest environmental benefits.

Bay Area Clean Water Agencies (BACWA), representing all Bay Area municipal wastewater dischargers, requested replacement of the Basin Plan’s TRC technology-based effluent limitation with water quality-based effluent limitations to allow for ease of compliance and operational cost saving, while still protecting receiving water beneficial uses. To calculate water quality-based effluent limitations, chlorine water quality objectives must be included in the Basin Plan.

### **2.1.1 Regulatory Changes with Regards to Chlorine/Total Residual Chlorine**

The proposed changes pertaining to chlorine entail the following components:

- a. Add new one (1)-hour average and four (4)-day average chlorine water quality objectives to protect aquatic life beneficial uses in marine, estuarine, and freshwaters;
- b. Replace the TRC technology-based effluent limitation with 1-hour average water quality-based effluent limitations, derived from the newly added chlorine water quality objectives, to be implemented in NPDES permits for wastewater discharges;
- c. Specify manner of implementation of the TRC water quality-based effluent limitations in NPDES permits, including minimum level requirements, treatment of measurements below minimum level, application of dilution credits, and other elements of compliance determination.

### **2.1.2 Non-regulatory Editorial Changes**

We propose three minor non-regulatory editorial changes to the Basin Plan.

- a. Remove the phrase in footnote “a” of Tables 3-3 and 3-4 stating that these objectives shall apply to all marine waters or freshwaters “except for the South Bay south of Dumbarton Bridge, where the California Toxics Rule (CTR) applies.” This phrase is erroneous because the objectives apply to all segments of the bay.
- b. Update the Basin Plan to reflect the new statewide mercury water quality objectives for aquatic life protection. On May 2, 2017, the State Water Resources Control Board adopted Resolution 2017-0027, which approved *Part 2 of the Water Quality Control Plan for Inland Surface Waters, Enclosed Bays, and Estuaries of California—Tribal and Subsistence Fishing Beneficial Uses and Mercury Provisions* (Mercury Provisions). Resolution 2017-0027 provides a consistent regulatory approach throughout the state by setting mercury limits to protect beneficial uses associated with the consumption of fish by people and wildlife. These provisions specifically supersede our Basin Plan’s 4-day average mercury objective for freshwaters. Accordingly, we propose to delete the 4-day average objective for mercury in freshwater listed in Basin Plan Table 3-4 to avoid potential confusion and to conform the Basin Plan to the statewide objectives. In this project, we do not propose further mercury water quality objective updates to the Basin Plan, and the statewide Mercury Provisions remain as the applicable mercury water quality objectives.
- c. Remove footnote “d” for Oil & Grease in Basin Plan Table 4-2 and replace it with footnote “g,” so that Oil & Grease effluent limitations do not apply to treatment facilities with secondary and advanced secondary treatment. Footnote “d” specifies that “*These effluent limitations apply to all wastewater facilities,*” which is overly broad. 40 CFR Parts 133 and 125 specify that secondary or secondary equivalent treatment facilities must meet treatment standards for a number of parameters, including biochemical oxygen demand, suspended solids, pH, and percent removal for biochemical oxygen demand and suspended solids, but does not include those for Oil and Grease. Application of the Oil and Grease effluent limitations to secondary and advanced

sewage treatment facilities was not intended and does not afford better beneficial use protection. The new footnote g corrects this inappropriate application of the Oil & Grease effluent limitation.

The specific changes are shown in underline-strikeout in the Basin Plan amendment, Appendix A of this Staff Report.

## **2.2 Project Objectives**

The objectives of the proposed Basin Plan amendment are consistent with the mission of the Water Board and with the requirements of the Clean Water Act and California Water Code (Porter-Cologne Water Quality Control Act). Specific objectives of the Basin Plan amendment project are as follows:

- a. Add chlorine water quality objectives for marine, estuarine, and freshwaters to Basin Plan that are
  - consistent with state and federal law, and criteria promulgated by U.S. EPA;
  - based on the best available scientific information; and
  - fully protective of aquatic life use in marine, estuarine, and freshwaters in the region.
- b. Add implementation provisions for the new chlorine water quality objectives to the Basin Plan to describe how water quality-based effluent limitations will be implemented in NPDES wastewater permits; and
- c. Add regulatory requirements (chlorine water quality objectives and implementation provisions) that meet water quality standards and result in reasonable cost relative to environmental benefits.

## **3. Project Background**

This chapter describes the project's physical setting; summarizes information on chlorine chemistry, discharges and sources in the region; and describes the proposed chlorine water quality objectives and their scientific basis.

### **3.1 Chlorine Water Chemistry**

This section is intended to provide the reader with basic information about the fate of chlorine in an aqueous environment. This information is a summary of peer-reviewed literature (Singleton 1989; USEPA 1984; USEPA 1999b).

When chlorine is added to water, it hydrolyzes to form hypochlorite ion ( $\text{OCl}^-$ ) and hypochlorous acid ( $\text{HOCl}$ ), which are generally found in equilibrium, depending on pH conditions. The reactions are shown in the chemical equations below. Hypochlorous acid is dominant at lower pH conditions, and hypochlorite ion at higher pH conditions. Under the normal wastewater pH range of 6.5 - 8.5, both hypochlorite ion and hypochlorous acid will be present.

Chlorine hydrolysis (1):  $\text{Cl}_2 + \text{H}_2\text{O} \rightarrow \text{HOCl} + \text{H}^+ + \text{Cl}^-$

Chlorine hydrolysis (2):  $\text{HOCl} \leftrightarrow \text{H}^+ + \text{OCl}^-$

Hypochlorous acid and hypochlorite ion are referred to as “free chlorine.” Hypochlorous acid is a strong oxidizing agent, and it has a sanitizing effect on organic and inorganic contaminants.

When water solutions contain ammonia ( $\text{NH}_3$ ), chloramines are formed, mainly in the forms of monochloramine and dichloramine, depending on initial chlorine to ammonia ratio, pH, temperature, and reaction time. The reactions are shown in the following equations:

Monochloramine:  $\text{NH}_3 + \text{HOCl} \rightarrow \text{NH}_2\text{Cl} + \text{H}_2\text{O}$

Dichloramine:  $\text{NH}_2\text{Cl} + \text{HOCl} \rightarrow \text{NHCl}_2 + \text{H}_2\text{O}$

These chloramines are referred to as “combined chlorine.” They are weaker oxidizing agents than free chlorine and can also act as disinfectant.

Free and combined chlorine together are referred to as “total residual chlorine” or TRC, representing all forms of chlorine able to act as an oxidant. U.S. EPA uses the term “TRC” in its criteria for chlorine in freshwaters.

Chlorine reacts differently in saltwater than in freshwater because of high concentrations of bromide naturally present in seawater. Chlorine added to saltwater rapidly reacts with bromide to produce hypobromous acid ( $\text{HOBr}$ ) and hypobromite ion ( $\text{OBr}^-$ ), present in equilibrium. Under normal conditions, all free chlorine is reduced to chloride ion. Normal conditions would mean relatively low levels of chlorine discharged from anthropogenic sources (0.5 – 10 mg/L) as compared to the high levels of bromide in seawater (approximately 67 mg/L  $\text{Br}^-$  in seawater with a salinity of 35 parts per thousand). The following equations illustrate all chemical reactions that can happen when chlorine is added or when chlorinated effluent is discharged to saltwater:

$\text{HOCl} + \text{Br}^- \leftrightarrow \text{HOBr} + \text{Cl}^-$

$\text{OCl}^- + \text{Br}^- \leftrightarrow \text{OBr}^- + \text{Cl}^-$

$\text{HOBr} \leftrightarrow \text{OBr}^- + \text{H}^+$

When ammonia is present, bromamines are formed. The relative concentration of bromamines is dependent on the ammonia to bromide ratio and water pH. Monobromamine prefers alkaline pH; dibromamine dominates between pH 6 to 9; tribromamine is formed under more acid conditions.

Monobromamine:  $\text{HOBr} + \text{NH}_3 \leftrightarrow \text{NH}_2\text{Br} + \text{H}_2\text{O}$

Dibromamine:  $\text{HOBr} + \text{NH}_2\text{Br} \leftrightarrow \text{NHBr}_2 + \text{H}_2\text{O}$

Tribromamine:  $\text{HOBr} + \text{NHBr}_2 \leftrightarrow \text{NBr}_3 + \text{H}_2\text{O}$

The sum of free and combined bromine, as well as any free and combined chlorine (if present) together are referred to as “chlorine produced oxidants” or CPO, to indicate that bromine is

involved in the reaction when chlorine is added to saltwater. All these chlorine-containing molecules are toxic to aquatic organisms. U.S. EPA uses the term “CPO” in its criteria for chlorine in saltwater.

Although U.S. EPA differentiates between TRC in freshwater and CPO in saltwater, the analytical methods for TRC measure the sum of free and combined chlorine and bromine, i.e., CPO, in a water sample. Therefore, for the purposes of effluent and ambient characterization, conducting reasonable potential analysis, establishing effluent limitations and compliance monitoring in the NPDES permitting program, this Staff Report uses the term “TRC” to refer to both TRC in freshwater and CPO in saltwater.

### **3.2 Physical Setting**

The proposed chlorine objectives would apply to all surface water bodies within the San Francisco Bay region. The freshwater chlorine objectives will apply to all freshwater lakes, rivers, reservoirs, and creeks of the region. The marine/estuarine chlorine objectives would apply to the region’s water bodies where marine or estuarine conditions exist and for which the Ocean Plan does not apply.

### **3.3 Chlorine Sources**

Unlike the chlorides that exist ubiquitously in almost all natural waters, free chlorine rarely occurs naturally (Singleton 1989). Accordingly, TRC in ambient waters is assumed to mostly come from anthropogenic sources, such as sewage wastewater discharges that have been disinfected with chlorine, once-through cooling water discharges with chlorine added for antifouling purposes, industrial wastewater discharge that uses potable water in the production process, or potable water treatment plant or distribution system discharges. Within the San Francisco Bay Region, the primary TRC source is discharge of chlorine-disinfected municipal sanitary wastewater.

The majority of municipal wastewater treatment facilities in the San Francisco Bay region use chlorine, commonly liquid hypochlorite, for effluent disinfection. Chlorine compounds are injected at the beginning of the contact chamber, with high turbulence for complete initial mixing to occur in less than one second. Adequate contact time and chlorine dosage are critical to ensure microorganisms are killed. Chlorine dosage will vary based on chlorine demand, wastewater characteristics, and discharge requirements. The dosage usually ranges from 5 – 20 mg/L (U.S. EPA 1999b).

After disinfection is complete, any remaining TRC must be neutralized via addition of a dechlorinating agent (typically sodium bisulfite) to protect aquatic life beneficial uses of the receiving waters. At most facilities, continuous on-line monitoring systems are used to control the dosage of these chemicals via associated supervisory control and data acquisition (SCADA) systems. Chlorine concentrations are monitored and recorded with the SCADA systems at multiple locations, both before and after dechlorination. With the current sodium bisulfite overdosing practices, discharges rarely contain any detected TRC.

### 3.4 Possible Effects of Past Total Residual Chlorine Violations

As mentioned in Section 3.3, TRC from wastewater discharges is the main source of TRC in ambient waters. Because TRC compliance is measured directly in effluent and discharges rarely contain TRC, the Water Board has not required monitoring for TRC in the receiving water. Furthermore, TRC is a nonconservative pollutant, meaning that it breaks down rapidly when discharged. When treated effluent is released into receiving waters, any free residual chlorine dissipates rapidly (half-life 1.3 to 5 hours), so there is no buildup of chlorine in the aqueous environment.

Occasionally, discharges do contain TRC as a result of equipment or plant process control failure, power outages, or operator errors. Based on historical TRC discharge records, TRC violations were few and have occurred sporadically, as described below.

In this region, most treatment facilities that discharge continuously are required to report hourly readings for compliance determination with the TRC effluent limitation. That equates to 8,760 hourly results per year per facility. Based on violation records retrieved from the State Water Resources Control Board’s California Integrated Water Quality System (CIWQS), between January 2014 and December 2019 there were 32 TRC effluent limitation violations from sanitary wastewater Publicly Owned Treatment Works (POTWs), five from wet weather discharge facilities and water treatment plants, and 37 from industrial facilities. These violations resulted in discharges of chlorinated effluent with TRC concentrations from 0.1 mg/L to 7.7 mg/L that lasted from a few minutes to three hours. Most violations were less than one hour.

For those violations with reported flow rates, the volume discharged ranged from a few thousand gallons to 400,000 gallons. Most discharges are into deep water (see Section 4.3, list of POTWs and their receiving water types); therefore, the discharges receive a minimum 10:1 dilution, and under many occasions, much higher than 10:1. Treatment plant operators have the ability to correct chlorine exceedances quickly, which results in very few violations lasting long enough for field sampling to be conducted. Thus, we do not have data evaluating the impacts from past wastewater TRC violations; however, evidence of chlorine impacts, such as fish kills, have not been observed or reported in association with these TRC effluent limitation violations. Table 1 below summarizes the number of violations by year and facility type.

**Table 1. Number of TRC Effluent Limitation Violations by Year and Facility Type (January 2014 – December 2019)**

Year	Sum	2019	2018	2017	2016	2015	2014
POTWs	32	9	0	9	5	1	8
Wet weather or water treatment facilities	5	0	0	1	2	0	2
Industrial facilities (refinery, aggregate or sand washing)	37	0	12	1	2	19	3

Not all facilities experienced TRC violations; for example, 14 of a total 28 POTWs had no TRC effluent limitation violations during this five-year time period.

### 3.5 Potential Dechlorination Overdosing Impacts

Overdosing of sodium bisulfite may cause impacts to the aquatic environment. Sodium bisulfite is a reducing agent and reacts with free or combined chlorine quickly to remove TRC. This reaction produces hydrochloric acid (HCl), which decreases the pH of the effluent. Excess sodium bisulfite also reacts with dissolved oxygen and can potentially lead to reduced dissolved oxygen concentrations in the effluent and in the receiving water. For these reasons, U.S. EPA and the Water Environment Foundation suggest that overdosing should be avoided (U.S. EPA 2000, WEF 1996). Although decreased pH and dissolved oxygen can occur in receiving waters, we expect such impacts to be minimal, and there have been no reports of fish kills related to sodium bisulfite overdosing.

### 3.6 Proposed Chlorine Objectives for Marine, Estuarine, and Freshwaters

The Basin Plan currently has no numeric chlorine water quality objectives. The Water Board regulates TRC discharges through a technology-based effluent limitation. Because the technology exists to eliminate chlorine in discharges, the technology-based effluent limitation for chlorine is 0.0 mg/L. The proposed Basin Plan amendment would add chlorine water quality objectives to protect aquatic life beneficial uses in marine, estuarine, and freshwaters consistent with the criteria currently recommended by the U.S. EPA (U.S. EPA 1984). The new chlorine objectives would provide the basis for establishing water quality-based effluent limitations that would replace the existing technology-based effluent limitation.

The lethality of a chemical, in this case chlorine, is determined by calculating the LC<sub>50</sub>, or the concentration at which 50 percent mortality of test organisms occurs. The toxicity slope represents the percent of test species exposed to the chemical that die over time. Laboratory toxicity tests conducted to investigate chlorine toxicity to aquatic organisms have shown that, in general, the lethality due to TRC is rapid and the toxicity slope is steep. This means that a large proportion of the mortality occurs during the first twelve hours of exposure, so there is not a large difference between LC<sub>50</sub> for 1-day exposures versus 4-day exposures, which represent the two time periods for which U.S. EPA developed criterion.

When developing the chlorine water quality criteria, U.S. EPA reviewed short-term, or acute, toxicity test data for 33 freshwater species in 28 genera and 24 saltwater species in 21 genera. The TRC acute values (LC<sub>50</sub>) for freshwater species ranged from 28 micrograms per liter (µg/L) for *Daphnia magna* (a small planktonic arthropod) to 710 µg/L for the three-spine stickleback (fish). The CPO acute values for saltwater species ranged from 26 µg/L for the eastern oyster to 1,418 µg/L for a mixture of two shore crab species. Using these data and applying procedures detailed in U.S. EPA guidelines (U.S. EPA 1985), a freshwater final acute value (FAV) of 38.32 µg/L and saltwater FAV of 25.24 µg/L were derived. The criterion maximum concentration is then computed as one-half the FAV (U.S. EPA 1984). These are the 1-hour average concentrations listed in Table 2 below.

Chronic criteria are developed by applying a factor representing the ratio of acute to chronic toxicity. To develop this ratio, one must evaluate data for species for which both acute and chronic toxicity data exist. U.S. EPA reviewed chronic toxicity data for six freshwater species and one saltwater species, and the final acute-to-chronic ratio (ACR) was taken as the geometric mean of the three lowest ratios, resulting in a value of 3.345. The freshwater and saltwater FAVs were divided by this ACR to yield the Criterion Continuous Concentrations (U.S. EPA 1984). These are the 4-day average concentrations listed in Table 2 below. Both the 1-hour average and 4-day average concentrations are proposed for incorporation into the Basin Plan.

**Table 2. Proposed Chlorine Water Quality Objectives for the Protection of Aquatic Life Beneficial Uses**

Receiving Water Type*	4-Day Average (µg/L)	1-Hour Average (µg/L)
Marine or Estuarine (Chlorine-Produced Oxidants)	7.5	13
Freshwater (Total Residual Chlorine)	11	19

\* Marine waters are those in which the salinity is equal to or greater than 10 parts per thousand 95 percent of the time; freshwaters are those in which the salinity is equal to or less than 1 part per thousand 95 percent of the time; estuarine waters are those with salinities in between the above two categories, as set forth in Chapter 4 of the Basin Plan.

U.S. EPA derived these 4-day average chronic and 1-hour average acute maximum concentration criteria such that aquatic organisms and their uses should not be affected unacceptably if these values are not exceeded more than once every three years on the average.

### 3.7 Non-regulatory Change to Basin Plan Tables 3-3 and 3-4 Footnote “a”

Footnote “a” for Basin Plan Table 3-3, “Marine Water Quality Objectives for Toxic Pollutants for Surface Waters,” and Table 3-4, “Freshwater Water Quality Objectives for Toxic Pollutants for Surface Waters” states that these objectives shall apply to all marine waters or freshwaters “except for the South Bay south of Dumbarton Bridge, where the California Toxics Rule (CTR) applies.” We propose to remove this phrase from both table footnotes because it is erroneous.

Contrary to the implication in Footnote a, the CTR is the basis for most of the objectives in Tables 3-3 and 3-4, and CTR water quality objectives apply to the entire San Francisco Bay. Some pollutants in Tables 3-3 and 3-4 have water quality objectives that are not based on the CTR, including chromium III, cyanide, mercury, selenium, tributyltin, and PAHs (marine water only). The objectives for these pollutants also apply to all the segments of the San Francisco Bay, unless otherwise indicated by footnotes for these individual pollutants.

By removing this phrase “except for the South Bay south of Dumbarton Bridge, where the California Toxics Rule (CTR) applies,” the erroneous and confusing reference is corrected.

### **3.8 Non-regulatory Change to Mercury 4-Day Average Water Quality Objective**

On May 2, 2017, the State Water Resources Control Board adopted Resolution 2017-0027, which approved "Part 2 of the Water Quality Control Plan for Inland Surface Waters, Enclosed Bays, and Estuaries of California – Tribal and Subsistence Fishing Beneficial Uses and Mercury Provisions." Resolution 2017-0027 (Statewide Mercury Provisions) provides a consistent regulatory approach throughout the state by setting mercury limits to protect the beneficial uses associated with the consumption of fish by both people and wildlife. The Statewide Mercury Provisions explicitly supersede the Water Board's freshwater quality objective for chronic effects, as stated in Section III.D.3:

#### ***"3. Interaction of Mercury Water Quality Objectives with Basin Plans***

*The MERCURY WATER QUALITY OBJECTIVES do not supersede any site-specific numeric mercury water quality objectives established in a Basin Plan, except (i) the freshwater mercury water quality objective for chronic effects to aquatic life (0.025 µg/L) established in the San Francisco Bay Basin Water Quality Control Plan (Table 3-4 and corresponding note)"*

In accordance with this directive in the Statewide Mercury Provisions, we propose editorial changes to remove the 4-day average freshwater water quality objectives from Basin Plan Table 3-4 and from footnote "k", which says "which established a mercury criterion of 0.012 ug/l. The Basin Plan set the objective at 0.025 based on considerations of the level of detection attainable at that time. The 4-day average value for mercury does not apply to Walker Creek and SoulaJule Reservoir and their tributaries nor to waters of the Guadalupe River watershed; instead, the water quality objectives specified in Table 3-4A apply."

Mercury objectives and implementation provisions adopted in the Statewide Mercury Provisions apply to the region's inland surface waters, enclosed bays, and estuaries wherever applicable. For example, these mercury objectives would be applicable in waterbodies that support a beneficial use for which the Statewide Mercury Provisions establish mercury water quality objectives and which do not have site-specific mercury objectives or a mercury TMDL. Thus, we added a statement in Table 3-4, footnote "k" to inform the reader of the additional mercury water quality objectives in the Statewide Mercury Provisions.

### **3.9 Non-regulatory Change to Oil and Grease Effluent Limitations**

Basin Plan Table 4-2 includes effluent limitations for conventional pollutants for all sewage treatment facilities, including Oil and Grease effluent limitations. The footnote for Oil and Grease specifies that "These effluent limitations apply to all treatment facilities."

This is an overly broad application of these effluent limitations. 40 CFR Parts 133 and 125 specify the treatment standards for the parameters, including biochemical oxygen demand, suspended solids, pH, and percent removal for biochemical oxygen demand and suspended solids that secondary or secondary equivalent treatment facilities must meet. These parameters

do not include Oil and Grease. Application of the Oil and Grease effluent limitations to secondary and advanced sewage treatment facilities was not intended and does not afford better beneficial use protection. To correct this overly broad application of the Oil and Grease limitations, we propose to delete footnote “d” and replace it with footnote “g” which states the effluent limitations apply to all treatment facilities except those with secondary and advanced secondary sewage treatment facilities.

## 4. Implementation Plan

The new chlorine objectives require a program of implementation consisting of water quality-based effluent limitations derived from the new objectives, effluent monitoring, and guidance for how the effluent limitations should be implemented in NPDES permits, e.g., how to determine compliance with effluent limitations. Most of these implementation elements result in changes to Basin Plan Table 4-2, an underline-strikeout version of which can be found in Appendix A to this report.

### 4.1 Total Residual Chlorine Water Quality-Based Effluent Limitations

With the addition of the proposed chlorine water quality objectives, it is possible to develop water quality-based effluent limitations based on the State Implementation Policy (SIP), using the following equations (Section 1.4 of the SIP):

$$ECA = C + D \times (C-B)$$

Where ECA = Effluent Concentration Allowance (effluent limitation), C = water quality objective, D = dilution factor, and B = ambient background concentration.

For TRC, normally the ambient background is zero (B = 0), and the equation is simplified to:

$$ECA = (D + 1) \times C$$

If no dilution is allowed, i.e., D = 0, then

$$ECA = C$$

We propose to establish the 1-hour water quality-based effluent limitations based on the 1-hour average chlorine objectives and not to impose 4-day average effluent limitations based on the 4-day objectives. This is because TRC dissipates quickly once entering the receiving water. For this reason, we find it unlikely that discharges that meet 1-hour effluent limitations will have TRC concentrations that persist in the receiving water long enough to cause the 4-day water quality objective to be exceeded.

Thus, the proposed 1-hour average TRC water quality-based effluent limitations, without considering a mixing zone, are:

- 0.019 mg/L for discharges into freshwaters;

- 0.013 mg/L for discharges into marine or estuarine waters.

These water quality-based effluent limitations would replace the existing Residual Chlorine effluent limitation of 0.0 mg/L in Basin Plan Table 4-2. A footnote to these water quality-based effluent limitations would specify implementation provisions related to these effluent limitations that would:

- provide for establishment of 4-day average TRC water quality-based effluent limitations in NPDES permits using the procedures in the SIP at the discretion of the Water Board, for example, if there is a reasonable potential that the receiving water could exceed the 4-day objective while discharges comply with the 1-hour effluent limitations;
- explain that water quality-based effluent limitations may be adjusted to account for a mixing zone in a manner consistent with procedures in the State Implementation Policy; and
- indicate how compliance will be determined with the specified averaging period and analytical method minimum levels.

#### **4.2 TRC Effluent Monitoring, Data Assessment, and Minimum Level**

Chapter 4 of the Basin Plan specifies how water quality objectives are implemented in our region. For the TRC water quality-based effluent limitations, we propose specifying the following elements pertaining to monitoring, data assessment, and the minimum level (ML).<sup>1</sup>

We propose that TRC compliance monitoring samples be collected not less than once every five minutes; less frequent monitoring may be allowed for smaller facilities or intermittent discharges, such as seasonal or wet weather discharges. For compliance determination, the TRC effluent limitations in Basin Plan Table 4-2 would be compared to the arithmetic mean of all TRC measurements collected during each hour. When computing the 1-hour arithmetic means, measured values below the ML would be treated as zero.

We note that treating TRC values below the ML as zero gives us cause to propose a reasonably stringent ML to limit the amount of TRC that can be discharged without triggering an exceedance. Federal Standard Provisions for all NPDES wastewater permits require that

---

<sup>1</sup> The ML is the concentration at which the entire analytical system gives a recognizable signal and acceptable calibration point. The ML is the concentration in a sample that is equivalent to the concentration of the lowest calibration standard analyzed by a specific analytical procedure, assuming that all the method specified sample weights, volumes, and processing steps have been followed.

samples be analyzed using sufficiently sensitive test methods<sup>2</sup>. This means that either the ML must be at or below the applicable effluent limitation or the method must have the lowest ML of the analytical methods approved by U.S. EPA in 40 CFR Part 136 or required under 40 CFR Chapter 1, Subchapter N. However, 40 CFR does not provide MLs for TRC analytical methods. To ensure dischargers use the most sensitive analytical methods, we propose a TRC ML of 0.05 mg/L based on U.S. EPA recommendations described below.

To derive a ML where promulgated MLs are not available, U.S. EPA's 1994 *Draft National Guidance for Permitting, Monitoring, and Enforcement of Water Quality-Based Effluent Limitations* recommends using a multiplication factor of 3.18 and the method detection limit (MDL). The lowest published MDL for chlorine residual analysis (Standard Methods 4500-CI E and G) is 0.01 mg/L under ideal conditions. Therefore, an appropriate level of quantitation or ML under ideal conditions would be approximately 0.03 mg/L. U.S. EPA permitting division (U.S. EPA 1998) recommended that 0.05 mg/L is the appropriate ML for wastewater discharges and pointed out that some states, like Tennessee and South Carolina, had already started using 0.05 mg/L as the TRC ML. An Ohio EPA general permit for discharges from sewage treatment systems (Ohio 2020) includes 0.05 mg/L as the ML. Massachusetts Town of Rockland's 2006 NPDES permit (NPDES Permit No. MA0101923) has 0.02 mg/L as the ML.

We understand that some permits nationwide have higher MLs for TRC, for example, 0.1 mg/L (Fono 2020a); however, many of them are for facilities using handheld chlorine devices for compliance monitoring. In this region, some NPDES dischargers, especially shallow water dischargers, have stated that their laboratories cannot achieve a ML of 0.05 mg/L using TRC Methods 4500-CI C, F, or G. Factors that affect a method's ML include instrument sensitivity, instrumental precision, variability in extraction processes, and analyst's performance (Chang 2011).

---

<sup>2</sup> Monitoring must be conducted according to sufficiently sensitive test methods approved under 40 C.F.R. part 136 for the analysis of pollutants or pollutant parameters or required under 40 C.F.R. chapter 1, subchapter N. For the purposes of this paragraph, a method is sufficiently sensitive when:

"(1) The method minimum level (ML) is at or below the level of the effluent limitation established in the permit for the measured pollutant or pollutant parameter, and either (a) the method ML is at or below the level of the applicable water quality criterion for the measured pollutant or pollutant parameter, or (b) the method ML is above the applicable water quality criterion but the amount of the pollutant or pollutant parameter in a facility's discharge is high enough that the method detects and quantifies the level of the pollutant or pollutant parameter in the discharge; or

(2) The method has the lowest ML of the analytical methods approved under 40 C.F.R. part 136 or required under 40 C.F.R. chapter 1, subchapter N, for the measured pollutant or pollutant parameter."

Dischargers that cannot achieve the ML of 0.05 mg/L will likely evaluate whether the cost savings from reducing sodium bisulfite overdosing justifies the cost of improving its laboratory performance in TRC analysis. We expect that many shallow water dischargers will continue sodium bisulfite overdosing to meet the TRC water quality-based effluent limitations. Proposing a higher ML to accommodate dischargers with technical limitations is not appropriate because raising the ML would effectively allow these facilities to discharge chlorine at concentrations that are well above the water quality-based effluent limitations. For discharges to shallow waters there is little assimilative capacity and these discharges could negatively impact beneficial uses.

For comparison, for the current technology-based effluent limitation of 0.0 mg/L, chlorine concentrations of up to 0.049 mg/L are rounded to 0.0 mg/L when determining compliance with these limitations; thus, the proposed ML of 0.05 mg/L is not significantly different from the existing compliance concentration.

### **4.3 Wastewater Treatment Facilities Foreseeably Affected**

As stated in the above section, adoption of the water quality-based effluent limitations will likely not prompt all dischargers to reduce dechlorination agent usage.

To illustrate how the universe of the POTWs in this region will likely reduce sodium bisulfate overdosing as a result of this Basin Plan amendment, we categorize these facilities by how they disinfect (chlorination or ultraviolet light) and whether they discharge to shallow or deep waters. Figure 1 shows the results of this analysis. Treatment capacity is determined by the plant's average daily dry weather influent flow. The combined designed flows for POTWs are also displayed in Figure 1.

There are 44 POTWs in the San Francisco Bay region, of which seven use ultraviolet light (UV) for disinfection (purple box in Figure 1). Because UV disinfection does not use chlorine, these seven POTWs will not be affected by this Basin Plan amendment.

The remaining 37 POTWs disinfect their effluent with chlorine and dechlorinate prior to discharging via 28 outfalls, as shown in the green box in Figure 1, with some POTWs sharing a common outfall. When several POTWs share an outfall, dechlorination occurs and compliance with the TRC effluent limitations is determined at the outfall for the combined effluent. The combined outfalls in this region are as follows:

- Six POTWs discharge via the East Bay Dischargers Authority outfall;
- Four POTWs discharge via the North Bayside System Unit outfall; and
- Two POTWs discharge via the West County Agency outfall.

Of these 37 POTWs, 28 are deep water dischargers (discharging via 19 outfalls) that discharge into estuarine or marine waters. These 19 deep water outfalls have a combined design flow of approximately 470 million gallons per day (mgd), which is about 67 percent of the total combined design flow of all the POTWs that chlorinate (700 mgd). All 28 are expected to reduce their sodium bisulfite dosage (blue box in Figure 1).

Nine of the 37 POTWs are shallow water dischargers (as noted in orange boxes). Of these nine, six discharge into estuarine waters, and three discharge into the upper reach of Napa River, which is freshwater. These shallow water dischargers are unlikely to reduce sodium bisulfite use because they would unlikely to be able to meet the ML under current lab performance, as described above.

**Figure 1. San Francisco Bay Region POTWs by Disinfection Method and Discharge Receiving Water Type**

In addition to the POTWs summarized above, industrial facilities with permits containing TRC effluent limitations include C&H Sugar Company and Phillips 66 San Francisco Refinery. Both are deep water dischargers and are expected to reduce sodium bisulfite use as a result of this Basin Plan amendment. Shallow water industrial dischargers are not expected to change their dechlorination practices, if they dechlorinate their effluent, because they discharge into shallow water and will not be able to meet the proposed ML, as stated above.

## 5. Regulatory Analyses

This section provides the regulatory analyses required when adding water quality objectives and an associated implementation plan to the Basin Plan. California Water Code Section 13241 requires consideration of specific factors when establishing a water quality objective. CEQA requires an environmental impact analysis when adopting a Basin Plan amendment under the Water Board’s certified regulatory program (California Public Resources Code Section 15251 [g]). This Staff Report, including the CEQA Checklist and analyses, constitute a substitute environmental document. This section also includes a discussion of economic considerations in accordance with Public Resources Code Section 21159 (a)(3)(c), which requires an analysis of

economic factors related to costs of implementation of the rules or regulations. An anti-backsliding analysis, which addresses the state's antidegradation requirements, is included in this section as well.

## **5.1 California Water Code Section 13241**

California Water Code Section 13241 identifies six factors that must be considered when establishing a water quality objective.

- Past, present and probable beneficial uses of water;
- Environmental characteristics of the hydrographic unit under consideration, including the quality of water available thereto;
- Water quality conditions that could reasonably be achieved through the coordinated control of all factors that affect water quality in the area;
- Economic considerations;
- The need for developing housing within the region; and
- The need to develop and use recycled water.

### ***5.1.1 Existing and Potential Beneficial Uses***

The Basin Plan defines beneficial uses and water quality objectives for waters in the San Francisco Bay region. The beneficial uses cited in Chapter 2 of the Basin Plan for San Francisco Bay water bodies are (in alphabetical order by abbreviation):

- Agricultural supply (AGR)
- Areas of special biological significance (ASBS)
- Cold freshwater habitat (COLD)
- Commercial, and sport fishing (COMM)
- Estuarine Habitat (EST)
- Freshwater replenishment (FRSH)
- Groundwater recharge (GWR)
- Industrial service supply (IND)
- Marine habitat (MAR)
- Fish migration (MIGR)
- Municipal and domestic supply (MUN)
- Navigation (NAV)
- Industrial process supply (PRO)
- Preservation of Rare and Endangered Species (RARE)
- Water contact recreation (REC-1)
- Noncontact water recreation (REC-2)

- Shellfish harvesting (SHELL)
- Fish spawning (SPWN)
- Warm freshwater habitat (WARM)
- Wildlife habitat (WILD)

These beneficial uses adequately represent past, present and probable future uses. The proposed chlorine objectives were developed in accordance with U.S. EPA's *Guidelines for Deriving Numerical National Water Quality Criteria for the Protection of Aquatic Organisms and Their Uses* (U.S. EPA 1985) to protect aquatic life. The aquatic life protection-related beneficial uses of the surface waters of the region are: COLD, COMM, EST, MAR, MIGR, RARE, SHELL, SPWN, WARM, and WILD. These objectives are expected to be fully protective of the relevant aquatic life-related beneficial uses in marine, estuarine, and freshwaters.

### **5.1.2 Environmental Characteristics of the Hydrographic Unit**

The San Francisco Bay system is the largest coastal embayment on the Pacific Coast of the United States. The watershed encompasses about 155,000 square kilometers. Its waters have a surface area of about 2800 square kilometers and are divided into two major hydrographic units, which are connected by the Central Bay to the Pacific Ocean. The northern reach is relatively well flushed because more than half of California's freshwater flows into the Bay through the Sacramento and San Joaquin Rivers from the Central Valley watershed. In contrast, the southern reach receives limited flushing from the smaller streams draining these smaller local watersheds. There are multiple freshwater streams, creeks, and rivers that flow into the Bay, some of which may receive treated wastewater effluent.

The chlorine objectives will apply to all surface waters of the San Francisco Bay region that are not subject to the Ocean Plan. Based on U.S. EPA water quality criteria, we propose separate water quality objectives for freshwater and marine or estuarine environments to reflect the distinct environmental characteristics of the two categories of surface waters to chlorine is discharged in the region.

Though the quality of individual surface waters in the region varies, the chlorine objectives are not expected to exacerbate existing water quality problems or otherwise degrade water bodies. We expect this Basin Plan amendment would have very little or no quantifiable negative impact on water quality because TRC in effluent will continue to be limited. Moreover, any decrease in the use of sodium bisulfite by permittees who implement the new water quality-based effluent limitations at their facilities would have a slightly positive or neutral effect on water quality.

### **5.1.3 Water Quality Conditions That Could Reasonably be Achieved**

It is well understood (Jolley et al. 1982, Singleton 1989) that TRC rapidly decays and breaks down to chloride ion in seawater, which is already present at high concentrations in the marine and estuarine portions of San Francisco Bay, where most wastewater treatment plant discharges occur. It is exceedingly unlikely that implementation of the proposed project would have a discernible impact on receiving water chloride concentrations.

The Water Board has not required receiving water monitoring for sodium bisulfite because the sulfite is oxidized to sulfate; thus, sodium bisulfite dissociates to sodium and sulfate. Both ions are already present at naturally high concentrations in the marine and estuarine environments. Following adoption of this Basin Plan amendment, deep water dischargers will likely reduce the use of excess sodium bisulfite, which could otherwise result in a pH depression and oxygen demand exerted by excess sodium bisulfite. These changes will be small and difficult to discern given the relatively high background dissolved oxygen concentrations present at most discharge locations around the Bay.

#### **5.1.4 Economic considerations**

The economic analysis requires, at a minimum, a review of available information to determine:

- Whether the proposed water quality objectives are currently being attained; and if not,
- What methods are available to achieve compliance with the water quality objective and the costs of those methods of compliance.

In addition to the California Water Code Section 13241 economic analysis requirements, CEQA requires that whenever a state or regional board adopts rules that require the installation of pollution control equipment or establish a performance standard or treatment requirement, the board must conduct an environmental analysis of the reasonably foreseeable methods of compliance [Pub. Res. Code Section 21159, 14 CCR 15064]. Both the CEQA analysis of reasonably foreseeable methods of compliance and the California Water Code Section 13241 economic analyses of the proposed amendment are provided in this section.

#### *Economic Considerations of National Pollutant Discharge Elimination System Permit Effluent Limitations*

There are no substantial, foreseeable adverse economic impacts that would result from the implementation of the proposed TRC water quality-based effluent limitations in NPDES permits. Conversely, it is expected that changing from the current technology-based effluent limitation to the proposed water quality-based effluent limitations will allow for a reduction in the amount of excess sodium bisulfite added for dechlorination and associated cost savings. There will be secondary cost savings associated with the reduced energy required to produce and transport lower amounts of sodium bisulfite to treatment facilities and to pump the chemicals from storage tanks to dechlorination locations within the treatment facilities. Existing monitoring and control equipment will not need to be modified or replaced to implement the resultant reductions in chemical dosages.

BACWA provided the results of a survey of the 12 largest dischargers (POTWs with a design flow at or above 10 mgd) regarding their chlorine and sodium bisulfite dosage, cost, and how much of sodium bisulfite cost is for overdosing (Fono 2020a). Central Marin Sanitation Agency provided an approximate cost estimate for sodium bisulfite use after the survey (Fono 2020b). Of the 13 largest POTWs in the San Francisco Bay region, ten are deep water dischargers and are likely to reduce sodium bisulfite overdosing if this Basin Plan amendment is adopted. Results are shown in Table 3 below. The total cost of sodium bisulfite used by the largest

dischargers is estimated to be in excess of \$4.25 million, and the excess sodium bisulfite cost exceeds \$1.4 million.

**Table 3. Bay Area 13 Largest POTWs Sodium Bisulfite Usage and Cost for Fiscal Year 2018 – 2019**

Discharger	Design Flow (mgd)	Deep or Shallow Water Discharge	Total Sodium Bisulfite Dosage (mg/L)	Excess Sodium Bisulfite Dosage (mg/L)	Total Sodium Bisulfite Cost (\$)	Excess Sodium Bisulfite Cost (\$)	Possible to reduce Sodium Bisulfite Use
Central Marin Sanitation Agency	10	Deep	NA	NA	\$200,000	\$100,000	Yes
Delta Diablo	19.5	Deep	13 - 39	3 - 13	\$216,479	\$13,800	Yes
East Bay Dischargers Authority	107.8	Deep	Variable	Variable	\$182,621	\$137,000	Yes
East Bay Municipal Utility District	120	Deep	6.5 – 20.5	1.6 – 9.8	\$781,000	\$347,000	Yes
Napa Sanitation District	15.4	Shallow	6 - 7	2 - 3	\$117,000	\$53,000	No
San Francisco, Southeast Plant	85.4	Deep	2 - 4	1 - 2	\$615,000	\$185,000	Yes
Cities of San Jose/Santa Clara	167	Shallow	As needed	Average 0.54	\$713,000	\$107,000	No
City of San Mateo	15.7	Deep	11 - 14	2 – 4	\$400,000	\$132,000	Yes
Silicon Valley Clean Water	29	Deep	3.3 - 6.1	1.2 - 4.4	\$203,174	\$44,700	Yes
South San Francisco and San Bruno (North Bay System Unit dechlorination)	13	Deep	12 - 14	2 - 4	\$335,400	\$80,000	Yes
City of Sunnyvale	29.5	Shallow	5 - 12	2 - 3	\$128,000	\$51,000	No
Vallejo Flood and Wastewater District	15.5	Deep	2 - 6	1 - 1.5	\$104,000	\$20,000	Yes
West County Agency (dechlor at Richmond)	28.5	Deep	6 - 10	3 - 5	\$268,000	\$133,500	Yes

As stated previously, we expect that shallow water dischargers will continue their existing operations rather than reduce sodium bisulfite usage. For the ten largest deep water dischargers, the survey results shown in Table 3 indicate that eliminating sodium bisulfite

overdosing by the ten deep water dischargers would save up to \$1.2 million, out of a total sodium bisulfite cost of \$4.3 million per year, a 28 percent savings.

### *Economic Considerations of Monitoring*

No new monitoring requirements are proposed as part of this project. Existing continuous monitoring and control facilities at wastewater treatment plants should be able to operate without significant modifications at the lower sodium bisulfite dosages that would be possible following implementation of this project. Existing effluent TRC monitoring data from continuous analyzers will be used to calculate 1-hour average concentrations. If smaller or intermittent dischargers wish to reduce sodium bisulfite overdosing and are not equipped with continuous analyzers for TRC compliance monitoring, Water Board permit writers have the discretion to allow less frequent monitoring.

Continuous on-line TRC effluent monitoring data is typically collected and stored by SCADA systems. TRC continuous monitoring data stored in the SCADA system at 5-minute intervals would be compiled and used to calculate the arithmetic averages over 60-minute periods. Those 24 discrete 60-minute average values will be reported and compared to the 1-hour average water quality-based effluent limitation for compliance determination purposes.

### **5.1.5 Need for Housing**

The proposed chlorine water quality objectives and water quality-based effluent limitations would not restrict the development of housing in the San Francisco Bay region because they do not result in discharge requirements that affect housing or any economic costs related to housing development. Nor does the proposed amendment constrain the ability of wastewater treatment facilities to respond to population growth.

### **5.1.6 Need to Develop and Use Recycled Water**

Adopting the proposed chlorine objectives and water quality-based effluent limitations will have no foreseeable impact on the quality and no impact on the quantity of wastewater available for recycling or reclamation in the region. Recycled water is required to be disinfected to comply with Title 22 drinking water criteria, so not with these effluent limitations. This Basin Plan amendment does not apply to discharges of disinfected recycled water to land or to groundwater, so it will not directly affect the use or production of recycled water.

## **5.2 California Environmental Quality Act Analysis**

CEQA requires agencies to review the potential for their actions to result in adverse environmental impacts. The water quality planning process is a certified regulatory program approved by the Secretary of Resources as exempt from CEQA's requirements for preparation of an environmental impact report or negative declaration. As part of the regulatory program, the State Water Board's regulations at 23 Cal. Code of Regs. Section 3720 et seq. require any standard, rule, regulation or plan proposed for board approval to be accompanied by a completed Environmental Checklist and a written report containing: (1) a brief description of the proposed activity; (2) reasonable alternatives to the proposed activity; and (3) mitigation

measures to minimize any significant environmental impacts of the proposed activity. Upon completion of the written report, the Water Board is required to provide a Notice of Filing of the report to the public. This Staff Report, including the analysis in this section and the Environmental Checklist in Appendix B, meets the requirements of CEQA for adopting Basin Plan amendments and serves as a substitute environmental document.

Consistent with Public Resources Code Section 21159, the substitute document does not engage in speculation, but rather considers only the possible environmental impacts of reasonably foreseeable methods of compliance, reasonably foreseeable feasible mitigation measures, and reasonably foreseeable alternative means of compliance, which would avoid or reduce the identified impacts.

### **5.2.1 Project Description**

The project is a proposed Basin Plan amendment to add chlorine water quality objectives for protection of aquatic life beneficial uses in marine, estuarine, and freshwaters; these objectives provide the basis for calculating water quality-based effluent limitations, which are also included in this project.

Sections 2 through 4 of this report contain additional information about the project. The project objectives are detailed in section 2.2, and Appendix A contains the proposed amendment language. Appendix B contains the Environmental Checklist for the proposed project.

### **5.2.2 Consideration of Alternatives for the Proposed Amendment**

Four project alternatives are considered: (1) no action (no Basin Plan amendment); (2) the proposed Basin Plan amendment; (3) using TRC effluent limitations based on the 4-day average TRC water quality objective; and (4) including an implementation element that does not allow the application of dilution when computing effluent limitations for NPDES permits.

#### *No Action*

Under this alternative, the Water Board would not amend the Basin Plan to adopt the proposed chlorine objectives, and no new implementation activities would be initiated. This alternative would not meet all the project objectives set forth in Section 2.2. Specifically, the 'No Action' alternative would not meet the project objective that the Basin Plan include water quality criteria adopted by U.S. EPA, and the 'No Action' alternative would mean not adding water quality-based effluent limitations for TRC. This alternative also would not allow for the desired reduction in costs and excess chemical (e.g., sodium bisulfite) discharges to the Bay or the reduction in greenhouse gas emissions related to reduced transportation of the chemicals.

#### *Proposed Basin Plan Amendment*

The proposed project is the adoption of the Basin Plan amendment presented in Appendix A. The technical background for the Basin Plan amendment is provided in Sections 2 through 4 of this report and is summarized above. Because this alternative is the only one considered that

meets all project objectives and would not result in adverse environmental impacts (see Appendix B for a complete CEQA checklist results), it is the preferred alternative.

### *TRC Water Quality-Based Effluent Limitations Based on 4-day Average Water Quality Objectives*

Under this alternative, TRC effluent limitations would be calculated based on the 4-day average water quality objectives, as allowed for in the SIP, instead of the proposed 1-hour average water quality objectives. The SIP procedures use both the 4-day average to derive chronic limitations (normally Average Monthly Effluent Limitations) and the 1-hour average water quality objectives to derive acute limitations (normally Maximum Daily Effluent Limitations) for inclusion in NPDES permits.

The SIP calculation procedures were developed for conservative pollutants in contrast to TRC, which is a non-conservative pollutant, meaning it undergoes chemical change and cannot be effectively monitored as TRC in receiving waters. TRC can exert toxicity in the receiving water in much shorter periods than one day or one month but will not be measurable in receiving water over longer periods. Therefore, a monthly limitation would not effectively protect aquatic beneficial uses. Limitations calculated based directly on the 4-day average water quality objective and implemented by the average of measurements collected over a 4-day period, instead of a 1-hour period, would similarly be inappropriate for protecting aquatic life beneficial uses. Compliance with the 4-day average would not necessarily protect aquatic life because monitoring would not detect spikes of acutely toxic levels of TRC. Therefore, this alternative would not meet the project objective that new regulatory requirements should be as stringent as necessary but not more stringent than necessary to attain and maintain water quality standards.

### *No Initial Dilution Allowed for Calculation of TRC Water Quality-Based Effluent Limitations*

Under this alternative, the implementation plan would not allow consideration of dilution in the calculation of TRC water quality-based effluent limitations. This alternative is not consistent with the SIP because the TRC effluent limitations are water quality-based effluent limitations and are eligible for application of dilution.

For deep water discharges in particular, the receiving water provides assimilative capacity. The SIP contains procedures for calculating the concentrations of pollutants that can be assimilated without causing an adverse impact to water quality. If this Basin Plan amendment established effluent limitations without a dilution credit, such effluent limitations would be unnecessarily stringent to protect beneficial uses. Dischargers would be unlikely to reduce their usage of dechlorination chemical. This alternative, therefore, does not meet all project objectives.

### *Preferred Alternative*

The proposed Basin Plan amendment meets all the project objectives and will not result in any significant adverse environmental impacts. None of the other considered alternatives, including

'No Action,' meets all the project objectives. Therefore, the proposed Basin Plan amendment is the preferred alternative.

### 5.3 Antidegradation Analysis

California's "Statement of Policy with Respect to Maintaining High Quality of Waters in California," adopted on October 28, 1968, in Resolution 68-16 serves as the state's Antidegradation Policy, which is consistent with the federal antidegradation policy contained in Code of Federal Regulations, title 40, section 131.12. Where a receiving water is of higher quality than applicable water quality standards, the higher water quality must be maintained unless certain conditions are met. Specifically, any decrease in water quality must be consistent with the maximum benefit to the people of the state, must not unreasonably affect any current or anticipated beneficial uses, and must not result in lower water quality than that prescribed in the policies. Activities that produce an increased volume or concentration of waste and that discharge to existing high quality waters will be required to meet waste discharge requirements that will "result in the best practicable treatment or control of the discharge necessary to assure that (a) a pollution or nuisance will not occur and (b) the highest water quality consistent with maximum benefit to the people of the State will be maintained."

Adoption and implementation of the water quality objectives for chlorine is expected to be consistent with Resolution No. 68-16, although antidegradation is considered during permit issuance and reissuance on a discharge-by-discharge basis. While revising effluent limitations to reflect the new objectives will allow POTWs to discharge increased volumes and/or concentrations of chlorine, such increase is expected to be consistent with the maximum benefit of the people of the state because it will reduce discharges of dechlorination chemicals, which themselves have harmful effects on water quality; will reduce costs and emissions associated with deliveries of dechlorination chemicals; and will permit POTWs to redirect their limited resources to climate resilience, which is essential to protecting critical infrastructure and human health across the region. Moreover, this Basin Plan Amendment reflects recognition that overdosing with dechlorination chemicals may no longer be the best practicable treatment or control of chlorine because of its adverse impacts to water quality. Compliance with the new objectives will not unreasonably affect current or anticipated beneficial uses because the objectives were developed by U.S. EPA and are protective of water quality and aquatic life. Finally, any increase in chlorine in wastewater discharges will not result in lower water quality than prescribed in the Basin Plan because the discharges will comply with the new water quality objectives.

In addition to satisfying the requirements of the antidegradation policy, the Regional Board, when modifying or reissuing permits with existing water quality-based effluent limitations for chlorine, must ensure that new effluent limitations comply with Clean Water Act anti-backsliding requirements, which prohibit reissued permits from containing less stringent effluent limitations than previous permits unless specific conditions are met. (33 U.S.C. §1342(o); 40 C.F.R. §122.44(l)).

## 5.4 Anti-backsliding Analysis for Future Permits

Because the existing technology-based effluent limitations are equal to 0 (0.0 mg/L), the proposed TRC water quality-based effluent limitations are technically less stringent than the existing technology-based effluent limitation included in NPDES permits. When individual permits are reissued or amended, this effluent limitation must comply with the Clean Water Act's (CWA's) anti-backsliding provisions.

The term anti-backsliding refers to statutory and regulatory provisions that prohibit the renewal, reissuance, or modification of an existing NPDES permit that contains effluent limitations, permit conditions, or standards less stringent than those established in the previous permit. Here, regulatory and, potentially, statutory backsliding could be used to justify inclusion of the new water quality-based chlorine effluent limitations in reissued permits.

Code of Federal Regulations, title 40, section 122.44, subdivision (l) requires that "when a permit is renewed or reissued, interim effluent limitations, standards or conditions must be at least as stringent as the final effluent limitations, standards, or conditions in the previous permit (unless the circumstances on which the previous permit was based have materially and substantially changed since the time the permit was issued and would constitute cause for permit modification or revocation and reissuance under § 122.62.) Code of Federal Regulations, title 40, section 122.62 allows modification under certain circumstances, including when there "are material and substantial alterations or additions to the permitted facility or activity... which occurred after permit issuance which justify the application of permit conditions that are different or absent in the existing permit," and when the permitting authority has received new information that "was not available at the time of permit issuance (other than revised regulations, guidance, or test methods) and would have justified the application of different permit conditions at the time of issuance." Here, the deeper understanding of the environmental impacts resulting from the use of excess dechlorination chemicals likely amounts to new information that would justify permit modification under section 122.62. The decrease in use of dechlorination chemicals potentially could also amount to a material and substantial alteration to the permitted activity. However, the permit writer must determine whether backsliding from prior permit limitations is justified on a permit-by-permit basis. Backsliding may also be justified under CWA section 402(o), which prohibits backsliding from an effluent limitation that is based on state standards, such as water quality standards or treatment standards, unless the change is consistent with CWA Section 303(d)(4). (33 U.S.C. §§ 1311(b)(1)(C); 1342, subd. (o)(1); see also U.S. EPA, NPDES Permit Writers' Manual, Ch. 7, § 7.2.1.3; U.S. EPA, Interim Guidance on Implementation of Section 402(o) Anti-backsliding Rules For Water Quality-Based Permits.) Section 303(d)(4) may be applied independently of section 402(o). Here, the previous chlorine effluent limitations were based on state treatment standards reflecting the level of treatment achievable by overdosing with dechlorination chemicals. Thus, in order for backsliding to be permissible, it must be consistent with CWA Section 303(d)(4).

The analysis for revising effluent limitations for a particular constituent under CWA section 303(d)(4) depends on whether the discharge enters receiving waters that meet the water quality

standard (attainment waters) or to receiving waters that do not meet the water quality standard for that constituent (non-attainment waters). (33 U.S.C. § 1313, subd. (d)(4)(B).) Here, no surface waters of the San Francisco Bay region appear on the 303(d) list as impaired for chlorine and, as described in sections 3.2 and 3.3, *supra*, existing ambient chlorine levels are considered to be protective of aquatic life beneficial uses. Therefore, we expect that permits will use the analysis in 303(d)(4)(B) for attainment waters. This analysis provides that a limitation based on a permitting standard may only be relaxed where the action is consistent with a state's antidegradation policy.

Accordingly, chlorine effluent limitations in individual permits may only be relaxed where they are consistent with California's Antidegradation Policy. As described in Section 5.3, *supra*, antidegradation is already considered during permit issuance and reissuance and the Regional Board expects the inclusion of water quality-based effluent limitations for chlorine to be consistent with the Antidegradation Policy. Accordingly, the conclusion that the new effluent limitations are consistent with the Antidegradation Policy will also ensure that effluent limitations are consistent with statutory anti-backsliding provisions.

## Appendix A – Annotated Basin Plan Amendment

### PROPOSED BASIN PLAN AMENDMENT

Revisions indicated in single underline/~~strikeout~~ represent new or revised language. Numeric footnotes provide background for proposed changes.

**Table 3-3: Marine<sup>a</sup> Water Quality Objectives for Toxic Pollutants for Surface Waters (all values in µg/L)**

<b>Compound</b>	<b>4-day Average</b>	<b>1-hr Average</b>	<b>24-hr Average</b>
Arsenic <sup>b, c, d</sup>	36	69	
Cadmium <sup>b, c, d</sup>	9.3	42	
Chromium VI <sup>b, c, d, e</sup>	50	1100	
Copper <sup>c, d, f, l</sup>			
Cyanide <sup>g</sup>			
Lead <sup>b, c, d</sup>	8.1	210	
Mercury <sup>h</sup>	0.025	2.1	
Nickel <sup>b, c, d, l</sup>	8.2	74	
Selenium <sup>i</sup>			
Silver <sup>b, c, d</sup>		1.9	
Tributyltin <sup>j</sup>			
Zinc <sup>b, c, d</sup>	81	90	
PAHs <sup>k</sup>			15

**NOTES:**

- a. Marine waters are those in which the salinity is equal to or greater than 10 parts per thousand 95% of the time, as set forth in Chapter 4 of the Basin Plan. Unless a site-specific objective has been adopted, these objectives shall apply to all marine waters ~~except for the South Bay south of Dumbarton Bridge (where the California Toxics Rule (CTR) applies)~~ or as specified in note h (below). For waters in which the salinity is between 1 and 10 parts per thousand, the applicable objectives are the more stringent of the freshwater (Table 3-4) or marine objectives.
- b. Source: 40 CFR Part 131.38 (California Toxics Rule or CTR), May 18, 2000.
- c. These objectives for metals are expressed in terms of the dissolved fraction of the metal in the water column.
- d. According to the CTR, these objectives are expressed as a function of the water-effect ratio (WER), which is a measure of the toxicity of a pollutant in site water divided by the same

## ***Appendix A – Annotated Basin Plan Amendment***

measure of the toxicity of the same pollutant in laboratory dilution water. The 1-hr. and 4-day objectives = table value X WER. The table values assume a WER equal to one.

- e. This objective may be met as total chromium.
- f. Water quality objectives for copper were promulgated by the CTR and may be updated by U.S. EPA without amending the Basin Plan. Note: at the time of writing, the values are 3.1 ug/l (4-day average) and 4.8 ug/l (1-hr. average). The most recent version of the CTR should be consulted before applying these values.
- g. Cyanide criteria were promulgated in the National Toxics Rule (NTR) (Note: at the time of writing, the values are 1.0 µg/l (4-day average) and 1.0 µg/l (1-hr. average)) and apply, except that site-specific marine water quality objectives for cyanide have been adopted for San Francisco Bay as set forth in Table 3-3C.
- h. Source: U.S. EPA Ambient Water Quality Criteria for Mercury (1984). The 4-day average value for mercury does not apply to San Francisco Bay; instead, the water quality objectives specified in Table 3-3B apply. The 1-hour average value continues to apply to San Francisco Bay.
- i. Selenium criteria were promulgated for all San Francisco Bay/Delta waters in the National Toxics Rule (NTR). The NTR criteria specifically apply to San Francisco Bay upstream to and including Suisun Bay and Sacramento-San Joaquin Delta. Note: at the time of writing, the values are 5.0 ug/l (4-day average) and 20 ug/l (1-hr. average).
- j. Tributyltin is a compound used as an antifouling ingredient in marine paints and toxic to aquatic life in low concentrations. U.S. EPA has published draft criteria for protection of aquatic life (Federal Register: December 27, 2002, Vol. 67, No. 249, Page 79090-79091). These criteria are cited for advisory purposes. The draft criteria may be revised.
- k. The 24-hour average aquatic life protection objective for total PAHs is retained from the 1995 Basin Plan. Source: U.S. EPA 1980.
- l. Table 3-3A contains site-specific water quality objectives for copper and nickel applicable to specific San Francisco Bay segments.

**Table 3-4: Freshwater<sup>a</sup> Water Quality Objectives for Toxic Pollutants for Surface Waters (all values in µg/L)**

Compound	4-day Average	1-hr Average
Arsenic <sup>b, c, d</sup>	150	340
Cadmium <sup>b, d</sup>	e	e
Chromium III <sup>f</sup>		
Chromium VI <sup>b, c, d, g</sup>	11	16
Copper <sup>b, c, d</sup>	9.0 <sup>h</sup>	13 <sup>h</sup>
Cyanide <sup>i</sup>		
Lead <sup>b, c, d</sup>	2.5 <sup>j</sup>	65 <sup>j</sup>
Mercury <sup>k</sup>	0.025	2.4
Nickel <sup>b, c, d</sup>	52 <sup>l</sup>	470 <sup>l</sup>
Selenium <sup>m</sup>		
Silver <sup>b, c, d</sup>		3.4 <sup>n</sup>
Tributyltin <sup>o</sup>		
Zinc <sup>b, c, d</sup>	120 <sup>p</sup>	120 <sup>p</sup>

Notes:

- a. Freshwaters are those in which the salinity is equal to or less than 1 part per thousand 95% of the time, as set forth in Chapter 4 of the Basin Plan. Unless a site-specific objective has been adopted, these objectives shall apply to all freshwaters ~~except for the South Bay south of Dumbarton Bridge, where the California Toxics Rule (CTR) applies.~~ For waters in which the salinity is between 1 and 10 parts per thousand, the applicable objectives are the more stringent of the marine (Table 3-3) and freshwater objectives.
- b. Source: 40 CFR Part 131.38 (California Toxics Rule or CTR), May 18, 2000.
- c. These objectives for metals are expressed in terms of the dissolved fraction of the metal in the water column.
- d. These objectives are expressed as a function of the water-effect ratio (WER), which is a measure of the toxicity of a pollutant in site water divided by the same measure of the toxicity of the same pollutant in laboratory dilution water. The 1-hr. and 4-day objectives = table value x WER. The table values assume a WER equal to one.
- e. The objectives for cadmium and other noted metals are expressed by formulas where H = ln (hardness) as CaCO<sub>3</sub> in mg/l: The four-day average objective for cadmium is  $e^{(0.7852 H - 3.490)}$ . This is 1.1 µg/l at a hardness of 100 mg/l as CaCO<sub>3</sub>. The one-hour average objective for cadmium is  $e^{(1.128 H - 3.828)}$ . This is 3.9 µg/l at a hardness of 100 mg/l as CaCO<sub>3</sub>.
- f. Chromium III criteria were promulgated in the National Toxics Rule (NTR). The NTR criteria specifically apply to San Francisco Bay upstream to and including Suisun Bay and Sacramento-San Joaquin Delta. Note: at the time of writing, the values are 180 ug/l (4-day average) and 550 ug/l (1-hr. average). The objectives for chromium III are based on

## Appendix A – Annotated Basin Plan Amendment

hardness. The values in this footnote assume a hardness of 100 mg/l CaCO<sub>3</sub>. At other hardnesses, the objectives must be calculated using the following formulas where H = ln (hardness): The 4-day average objective for chromium III is  $e^{(0.8190H+1.561)}$ . The 1-hour average for chromium III is  $e^{(0.8190 H+3.688)}$ .

- g. This objective may be met as total chromium.
- h. The objectives for copper are based on hardness. The table values assume a hardness of 100 mg/l CaCO<sub>3</sub>. At other hardnesses, the objectives must be calculated using the following formulas where H = ln (hardness): The 4-day average objective for copper is  $e^{(0.8545H-1.702)}$ . The 1-hour average for copper is  $e^{(0.9422H-1.700)}$ .
- i. Cyanide criteria were promulgated in the National Toxics Rule (NTR). The NTR criteria specifically apply to San Francisco Bay upstream to and including Suisun Bay and Sacramento-San Joaquin Delta. Note: at the time of writing, the values are 5.2 ug/l (4-day average) and 22 ug/l (1-hr. average).
- j. The objectives for lead are based on hardness. The table values assume a hardness of 100 mg/l CaCO<sub>3</sub>. At other hardnesses, the objectives must be calculated using the following formulas where H = ln (hardness): The 4-day average objective is  $e^{(1.273H -4.705)}$ . The 1-hour average for lead is  $e^{(1.273H-1.460)}$ .
- k. Source: U.S. EPA Quality Criteria for Water 1986 (EPA 440/5-86-001), ~~which established a mercury criterion of 0.012 ug/l. The Basin Plan set the objective at 0.025 based on considerations of the level of detection attainable at that time. The 4-day average value for mercury does not apply to Walker Creek and Soulajule Reservoir and their tributaries nor to waters of the Guadalupe River watershed; instead, the water quality objectives specified in Table 3-4A apply. The 1-hour average value continues to apply to waters specified in Table 3-4A. Part 2 of the Water Quality Control Plan for Inland Surface Waters, Enclosed Bays, and Estuaries of California—Tribal and Subsistence Fishing Beneficial Uses and Mercury Provisions (Statewide Mercury Provisions) contains additional mercury objectives that may apply to some waters.~~
- l. The objectives for nickel are based on hardness. The table values assume a hardness of 100 mg/l CaCO<sub>3</sub>. At other hardnesses, the objectives must be calculated using the following formulas where H = ln (hardness): The 4-day average objective is  $e^{(0.8460H + 0.0584)}$ . The 1-hour average objective is  $e^{(0.8460H + 2.255)}$ .
- m. Selenium criteria were promulgated for all San Francisco Bay/Delta waters in the National Toxics Rule (NTR). The NTR criteria specifically apply to San Francisco Bay upstream to and including Suisun Bay and Sacramento-San Joaquin Delta. Note: at the time of writing, the values are 5.0 ug/l (4-day average) and 20 ug/l (1-hr. average).
- n. The objective for silver is based on hardness. The table value assumes a hardness of 100 mg/l CaCO<sub>3</sub>. At other hardnesses, the objective must be calculated using the following formula where H = ln (hardness): The 1-hour average objective for silver is  $e^{(1.72H -6.52)}$ . U.S. EPA has not developed a 4-day criterion.
- o. Tributyltin is a compound used as an antifouling ingredient in marine paints and toxic to aquatic life in low concentrations. U.S. EPA has published draft criteria for protection of aquatic life (Federal Register: December 27, 2002, Vol. 67, No. 249, Page 79090-79091). These criteria are cited for advisory purposes. The draft criteria may be revised.
- p. The objectives for zinc are based on hardness. The table values assume a hardness of 100 mg/l CaCO<sub>3</sub>. At other hardnesses, the objectives must be calculated using the following

## ***Appendix A – Annotated Basin Plan Amendment***

formulas where H = ln (hardness): The 4-day average objective for zinc is  $e^{(0.8473 H+0.884)}$ .  
The 1-hour average for zinc is  $e^{(0.8473 H+ 0.884)}$ .

3.3.23 CHLORINE

The discharge of wastes shall not cause receiving waters to contain concentrations of chlorine-produced oxidants or total residual chlorine in excess of the following objectives for the protection of marine, estuarine, and freshwater aquatic life beneficial uses:

**Table 3-8: Chlorine Water Quality Objectives for the Protection of Aquatic Life Beneficial Uses in Marine, Estuarine, and Freshwaters (all values in ug/l)**

<u>Receiving Water Type<sup>a</sup></u>	<u>4-day Average</u>	<u>1-hour Average</u>
<u>Marine or Estuarine (Chlorine-Produced Oxidants<sup>b</sup>)</u>	<u>7.5</u>	<u>13</u>
<u>Freshwater (Total Residual Chlorine<sup>c</sup>)</u>	<u>11</u>	<u>19</u>

**Notes:**

a. Marine waters are those in which the salinity is equal to or greater than 10 parts per thousand 95 percent of the time; freshwaters are those in which the salinity is equal to or less than 1 part per thousand 95 percent of the time; estuarine waters are those with salinities in between the above two categories, as set forth in Chapter 4 of the Basin Plan.

b. Chlorine-produced oxidants are the sum of free and combined chlorine and bromine, as measured by the methods for “total residual chlorine.”

c. Total residual chlorine is the sum of free and combined chlorine.

Source: 1984 national ambient water quality criteria for chlorine (EPA 440/5-84-030).

**Appendix A – Annotated Basin Plan Amendment**

**Table 4-2 Effluent Limitations for Conventional Pollutants (all units in mg/L, except as otherwise noted)**

<b>Parameters:</b>	<b>3-Day Average</b>	<b>7-Day Average</b>	<b>Daily Maximum</b>	<b>1-Hour <u>Average</u></b>	<b>Instan- taneous Limit</b>
Biochemical Oxygen Demand (BOD <sub>5</sub> ) <sup>a,b</sup>	30	45			
Suspended Solids (SS) <sup>a</sup>	30	45			
85% removal of BOD and SS <sup>a,c</sup>					
pH <sup>d</sup> (in pH units)					
- Shallow Water Discharge					6.5-8.5
- Deep Water Discharge					6.0-9.0
<u>Total Residual Chlorine</u> <sup>d,f</sup> (free chlorine plus chloramines)					0-0
- <u>Marine/Estuarine Discharge</u>				<u>0.013</u>	
- <u>Freshwater Discharge</u>				<u>0.019</u>	
Settleable Matter <sup>e</sup> (in ml/l-hr)	0.1		0.2		
Oil & Grease <sup>d,g</sup>	10		20		

**Notes:**

a. These effluent limitations apply to all sewage treatment facilities that discharge to inland surface waters and enclosed bays and estuaries. The Water Board may also apply some of these limitations selectively to certain other non-sewage discharges, but they will not be used to preempt Effluent Guideline Limitations established pursuant to Sections 301, 302, 304, or 306 of the federal Water Pollution Control Act, as amended. (Such Effluent Guideline Limitations are included in NPDES permits for particular industries.)

b. The federal regulation allows the parameter BOD to be substituted with Carbonaceous BOD at levels that shall not exceed 25 mg/l as a 30-day average, nor 40 mg/l as a 7-day average.

c. The arithmetic mean of the biochemical oxygen demand (5-day 20°C) and suspended solids values, by weight, for effluent samples collected in any month shall not exceed 15 percent of the arithmetic mean of the respective values, by weight, for simultaneous influent samples.

d. These effluent limitations apply to all treatment facilities.

e. Discharges from sedimentation and similar cases should generally not contain more than 1.0 ml/l-hr of settleable matter. Design and maintenance of erosion and sediment control structures shall comply with accepted engineering practices as identified in the Association of Bay Area Government's (ABAG's) *Manual of Standards for Erosion and Sediment Control Measures*.

f. These effluent limitations apply to all treatment facilities with potential to discharge chlorine.

These effluent limitations may be adjusted to account for a mixing zone in a manner consistent with procedures in the Policy for Implementation of Toxics Standards for Inland Surface Waters, Enclosed Bays, and Estuaries of California. Total residual chlorine should be monitored with a

## ***Appendix A – Annotated Basin Plan Amendment***

frequency of not less than one sample every five minutes. Less frequent sampling may be appropriate for smaller or intermittent discharge facilities. To determine compliance with the 1-hour average effluent limitation, all readings recorded within each hour shall be considered. All readings below the minimum level shall be treated as zero for compliance determination. The discharger shall calculate the arithmetic mean for each hour with all the readings within the hour and compare it with the 1-hour average effluent limitation.

The Water Board will establish water quality-based effluent limitations based on the 4-day average chlorine water quality objective if it is deemed necessary to ensure receiving waters meet the 4-day average water quality objective.

In most cases, the minimum level (which is the concentration in a sample that is equivalent to the concentration of the lowest calibration standard analyzed by a specific analytical procedure, assuming that all the method specified sample weights, volumes, and processing steps have been followed) shall be no greater than 0.05 mg/L and shall be reported along with the arithmetic mean of the total residual chlorine results. Higher minimum levels may be used where justified, for example, if a discharger must rely on field instruments.

g. These effluent limitations apply to all treatment facilities except those that provide secondary or advanced secondary treatment.

## **Appendix B – Environmental Checklist**

**1. Project Title:** Basin Plan amendment to add chlorine water quality objectives to protect aquatic life beneficial uses in marine, estuarine, and freshwaters in the San Francisco Bay region and to replace Basin Plan total residual chlorine (TRC) technology-based effluent limitation with water quality-based effluent limitations

**2. Lead Agency Name and Address:** San Francisco Bay Regional Water Quality Control Board  
1515 Clay Street, Suite 1400  
Oakland, California 94612

**3. Contact Person and Phone:** Tong Yin, (510) 622-2418  
[Tong.Yin@waterboards.ca.gov](mailto:Tong.Yin@waterboards.ca.gov)

**4. Project Locations:** The new chlorine objectives will apply in marine, estuarine, and freshwaters in the San Francisco Bay region where Ocean Plan does not apply.

**5. Project Sponsor's Name & Address:** San Francisco Bay Regional Water Quality Control Board  
1515 Clay Street, Suite 1400  
Oakland, California 94612

6. General Plan Designation: Not Applicable

**7. Zoning:** Not Applicable

**8. Description of Project:**

The project is a proposed Basin Plan amendment (BPA) to adopt chlorine water quality objectives for the protection of aquatic life beneficial uses in marine, estuarine, and freshwaters within the San Francisco Bay region. The BPA will also replace the TRC technology-based effluent limitations in the Basin Plan with water quality-based effluent limitations, to be implemented in the region's National Pollutant Discharge Elimination System (NPDES) permits, along with implementation provisions for the water quality-based effluent limitations. The BPA will also make three minor editorial changes to the Basin Plan: to correct Footnote "a" to Tables 3-3 and 3-4, by removing the text stating that these objectives do not apply to the South Bay south of Dumbarton Bridge, which is erroneous; to remove the 4-day average freshwater mercury objective consistent with the Statewide Mercury Provisions; and to replace the Oil and Grease effluent limitation footnote annotation in Table 4-2, stating that "these effluent limits apply to all treatment facilities," which is overly broad, with a footnote saying the Oil and Grease effluent limitations shall be applied to all treatment facilities except those with secondary and advanced secondary treatment.

**9. Surrounding Land Uses and Setting:**

The land uses and setting are those of the entire San Francisco Bay region, except the coastal region that drain to the ocean, where Ocean Plan applies.

**10. Other public agencies whose approval is required:**

The State Water Board, the California Office of Administrative Law, and the U.S. EPA must approve the Basin Plan amendment following adoption by the Water Board.

**11. Have California Native American tribes traditionally and culturally affiliated with the project area requested consultation pursuant to Public Resources Code section 21080.3.1? If so, is there a plan for consultation that includes, for example, the determination of significance of impacts to tribal cultural resources, procedures regarding confidentiality, etc.?**

California Native American tribes in the project area, namely, the Federated Indians of Graton Rancheria and Mishewal Wappo Tribe of Alexander Valley, Ohlone/Costanoan-Esselen Nation, United Auburn Indian Community of the Auburn Rancheria, and Wilton Rancheria, were informed of this project on May 5, 2020. The tribes did not request consultation pursuant to Public Resources Code section 21080.3.1.

## Appendix B – Environmental Checklist

### ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The project would not have any significant adverse impacts on the environment; hence, there are no physical, biological, social and/or economic factors that might be affected by the proposed project. See the checklist on the following pages for more details.

### DETERMINATION: On the basis of this initial evaluation:

- I find that the proposed project **COULD NOT** have a significant effect on the environment, and a **NEGATIVE DECLARATION** will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A **MITIGATED NEGATIVE DECLARATION** will be prepared.
- I find that the proposed project **MAY** have a significant effect on the environment, and an **ENVIRONMENTAL IMPACT REPORT** is required.
- I find that the proposed project **MAY** have a "potentially significant impact" or "potentially significant unless mitigated" impact on the environment, but at least one effect 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An **ENVIRONMENTAL IMPACT REPORT** is required, but it must analyze only the effects that remain to be addressed.

**Appendix B – Environmental Checklist**

I find that although the proposed project could have a significant effect on the environment, because all potentially significant effects (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further is required.

**Appendix B – Environmental Checklist**

**ENVIRONMENTAL CHECKLIST**

I. <u>AESTHETICS</u> . Except as provided in Public Resources Code Section 21099, would the project:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) In non-urbanized areas, substantially degrade the existing visual character or quality of public views of the site and its surroundings? (Public views are those that are experienced from publicly accessible vantage point). If the project is in an urbanized area, would the project conflict with applicable zoning and other regulations governing scenic quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Create a new source of substantial light or glare that would adversely affect day or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

We do not anticipate that the project would impact aesthetics, because this project would not result in additional construction or change of land use.

II. <u>AGRICULTURAL AND FOREST RESOURCES</u> . In determining whether impacts to agricultural resources are significant environmental impacts, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry and Fire Protection regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. Would the project:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
---	--------------------------------	--	------------------------------	-----------

**Appendix B – Environmental Checklist**

- |  |                          |                          |                          |                                     |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g))? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Result in the loss of forest land or conversion of forest land to non-forest use?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

We do not anticipate that the project would impact agricultural or forest resources, because the sole change in resource use would be an expected decrease in usage of sodium bisulfate.

- | III. AIR QUALITY. Where available, the significance criteria established by the applicable air quality management district or air pollution control district may be relied upon to make the following determinations. Would the project: | Potentially Significant Impact | Less Than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact                           |
|--|--------------------------------|--|------------------------------|-------------------------------------|
| a) Conflict with or obstruct implementation of the applicable air quality plan?  | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| b) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard?  | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| c) Expose sensitive receptors to substantial pollutant concentrations?   | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| d) Result in other emissions (such as those leading to odors) adversely affecting a substantial number of people?  | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |

We do not anticipate that the project would have negative impacts to air quality. Conversely, the project may result in modest reductions of greenhouse gas emissions related to a decrease in the production and transport of sodium bisulfate.

**Appendix B – Environmental Checklist**

<u>IV. BIOLOGICAL RESOURCES.</u> Would the project:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the DFG or USFWS?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the DFG or USFWS?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Have a substantial adverse effect on state or federally-protected wetlands (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption or other means?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory corridors, or impede the use of native wildlife nursery sites?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

We do not anticipate that the project would impact biological resources significantly. The proposed water quality objectives were developed to be protective of aquatic life. The project would have no impacts to land. In deep waters of the Bay, the project could alter the quality of wastewater discharges by decreasing the mass of sodium bisulfate released; this could have modest positive impacts to aquatic life; any potential increase in the concentration of chlorine is not expected to harm fish or other aquatic life due to the low concentrations and high mixing in deep water.

<u>V. CULTURAL RESOURCES.</u> Would the project:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Cause a substantial adverse change in the significance of a historical resource pursuant to in §15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Appendix B – Environmental Checklist**

- |   |                          |                          |                          |                                     |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| b) Cause a substantial adverse change in the significance of an archaeological resource as defined in §15064.5? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Disturb any human remains, including those interred outside of formal cemeteries?                            | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

We do not anticipate that the project would impact cultural resources. The project is not expected to trigger construction activities or cause increased noise, transportation, or disturbance in the vicinity of the wastewater treatment facilities.

- | <u>VI. ENERGY.</u> Would the project:   | Potentially Significant Impact | Less Than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact                           |
|---|--------------------------------|--|------------------------------|-------------------------------------|
| a) Result in potentially significant environmental impact due to wasteful, inefficient, or unnecessary consumption of energy resources, during project construction or operation? | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| b) Conflict with or obstruct a state or local plan for renewable energy or energy efficiency?   | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |

We do not anticipate that the project would impact energy significantly. In fact, the reduced use of dechlorination chemicals would save energy, by reducing the energy needed for transportation, storage, and application of the chemicals.

- | <u>VII. GEOLOGY and SOILS.</u> Would the project:  | Potentially Significant Impact | Less Than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact                           |
|--|--------------------------------|--|------------------------------|-------------------------------------|
| a) Directly or indirectly cause potential substantial adverse effects, including the risk of loss, injury, or death involving:   | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| i) Rupture of a known earthquake fault, as delineated in the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines & Geology Special Publication 42. | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| ii) Strong seismic ground shaking?   | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| iii) Seismic-related ground failure, including liquefaction?   | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| iv) Landslides?  | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |

**Appendix B – Environmental Checklist**

- |   |                          |                          |                          |                                     |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| b) Result in substantial soil erosion or the loss of topsoil?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction, or collapse? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Be located on expansive soils, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial direct or indirect risks to life or property?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Have soils incapable of adequately supporting the use of septic tanks or alternate wastewater disposal systems where sewers are not available for the disposal of wastewater?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

We do not anticipate that the project would impact geology and soils. The project would not result in any physical changes of the wastewater treatment facilities and surrounding areas. Therefore, the geology and soils would not be impacted.

- | <u>VIII. GREENHOUSE GAS EMISSIONS.</u> Would the project:  | Potentially Significant Impact | Less Than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact                           |
|--|--------------------------------|--|------------------------------|-------------------------------------|
| a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?                    | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| b) Conflict with any applicable plan, policy or regulation of an agency adopted for the purpose of reducing the emissions of greenhouse gases? | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |

We do not anticipate that the project would impact greenhouse gas emissions. Emissions would be slightly reduced to the extent that the project results in lower usage of sodium bisulfite and the associated production, transport, storage and use of those chemicals.

- | <u>IX. HAZARDS and HAZARDOUS MATERIALS.</u> Would the project:  | Potentially Significant Impact | Less Than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact                           |
|---|--------------------------------|--|------------------------------|-------------------------------------|
| a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |

**Appendix B – Environmental Checklist**

- |   |                          |                          |                          |                                     |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within ¼ mile of an existing or proposed school?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code §65962.5 and, as a result, would it create a significant hazard to the public or to the environment?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or a public use airport, would the project result in a safety hazard or excessive noise for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g) Expose people or structures, either directly or indirectly, to a significant risk of loss, injury, or death involving wildland fires?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

We do not anticipate that the project would impact hazards and hazardous materials. The project will not increase the application of chlorine as a disinfectant above the status quo. The potential hazard to the public or the environment could be reduced to the extent that the project results in lower usage sodium bisulfite and the associated production, transport, storage and use of this chemical.

- | <u>X. HYDROLOGY AND WATER QUALITY.</u> Would the project:   | Potentially Significant Impact | Less Than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact                           |
|---|--------------------------------|--|------------------------------|-------------------------------------|
| a) Violate any water quality standards or waste discharge requirements or otherwise substantially degrade surface or ground water quality?  | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| b) Substantially decrease groundwater supplies or interfere substantially with groundwater recharge such that the project may impede sustainable groundwater management of the basin? | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |

**Appendix B – Environmental Checklist**

- |  |                          |                          |                          |                                     |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river or through the addition of impervious surfaces, in a manner which would: | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (i) result in substantial erosion or siltation on- or off-site;  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (ii) substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or offsite;  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (iii) create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff; or                            | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| (iv) impede or redirect flood flows?   | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) In flood hazard, tsunami, or seiche zones, risk release of pollutants due to project inundation?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Conflict with or obstruct implementation of a water quality control plan or sustainable groundwater management plan?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

We do not expect the project to impact hydrology or water quality. To the extent that implementation of the water quality objectives increases concentrations of chlorine in certain dischargers' effluent, such increases are not expected to adversely impact aquatic life. In fact, implementation of this project may result in slightly improved water quality in the waters of the Region by reducing excess sodium bisulfite discharge and thus potentially reducing oxygen demand and pH depression in the receiving waters.

- | <u>XI. LAND USE AND PLANNING.</u> Would the project:   | Potentially Significant Impact | Less Than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact                           |
|--|--------------------------------|--|------------------------------|-------------------------------------|
| a) Physically divide an established community?   | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |
| b) Cause a significant environmental impact due to a conflict with any land use plan, policy, or regulation adopted for the purpose of avoiding or mitigating an environmental effect? | <input type="checkbox"/>       | <input type="checkbox"/>                           | <input type="checkbox"/>     | <input checked="" type="checkbox"/> |

There is no foreseeable potential for the project to physically divide an established community or conflict with a land use plan or policy. The project would not result in construction of new treatment or chemical storage facilities.

**Appendix B – Environmental Checklist**

<u>XII. MINERAL RESOURCES.</u> Would the project:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Result in the loss of availability of a known mineral resource that would be of future value to the region and the residents of the State?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

The project will not result in any foreseeable impacts on mineral resources. No mineral resources are needed to implement the project.

<u>XIII. NOISE.</u> Would the project result in:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Generation of a substantial temporary or permanent increase in ambient noise levels in the vicinity of the project in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Generation of, excessive groundborne vibration or groundborne noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) For a project located within the vicinity of a private airstrip or an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing in or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

We do not anticipate that the project would impact noise. The project would not result in noise associated with construction, transportation of materials for construction, or plant operation. The project could potentially result in minor noise reduction from reduced truck trips to transport chemicals to the wastewater treatment facilities.

<u>XIV. POPULATION AND HOUSING.</u> Would the project:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

**Appendix B – Environmental Checklist**

- |  |                          |                          |                          |                                     |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Induce substantial unplanned population growth in an area either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Displace substantial numbers of existing people or housing, necessitating the construction of replacement housing elsewhere?  | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

We do not anticipate that the project would impact population or housing. The project would not increase wastewater treatment capacity which could allow for additional population and housing construction.

XV. PUBLIC SERVICES.

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

We do not anticipate that the project would impact parks or other recreational facilities. The project would not result in additional wastewater treatment capacity, construction of new treatment facilities, or expansion of existing facilities such that a need for new schools or other services could occur as a result of the project.

XVI. RECREATION. Would the project:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Appendix B – Environmental Checklist**

- |   |                          |                          |                          |                                     |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| b) Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|

We do not anticipate that the project would impact recreation facilities. The project would not result in additional wastewater treatment capacity, construction of new treatment facilities, or expansion of existing facilities such that a need for new parks or other services could occur as a result of the project.

<u>XVII. TRANSPORTATION.</u> Would the project:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Conflict with a program plan, ordinance or policy addressing the circulation system, including transit, roadway, bicycle and pedestrian facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Would the project conflict or be inconsistent with CEQA Guidelines section 15064.3, subdivision (b)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Substantially increase hazards due to a geometric design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

We do not anticipate that the project will impact transportation or traffic. The project would not result in increased transportation/traffic to wastewater treatment facilities because their operations would largely stay the same. However, the projected decrease of dechlorination chemical use at deep water discharge facilities could result in modest reduction of traffic to the treatment facilities.

<u>XVIII. TRIBAL CULTURAL RESOURCES.</u>	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:				

**Appendix B – Environmental Checklist**

- i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k), or
- ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.

We do not expect this project would have any impacts on tribal cultural resources. The project would not result in physical changes of the tribal land because no wastewater treatment facilities affected by this Basin Plan amendment are located on Tribal lands, nor are fishery resources affected by this proposed amendment. Formal notification of this project was sent to five tribal contacts in letters dated May 5, 2020. None of the tribal contacts responded with a request to consult on this project.

<u>XIX. UTILITIES AND SERVICE SYSTEMS.</u> Would the project:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Require or result in the relocation or construction of new or expanded water, wastewater treatment or storm water drainage, electric power, natural gas, or telecommunications facilities, the construction or relocation of which could cause significant environmental impacts?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Have sufficient water supplies available to serve the project and reasonably foreseeable future development during normal, dry and multiple dry years?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Generate solid waste in excess of State or local standards, or in excess of the capacity of local infrastructure, or otherwise impair the attainment of solid waste reduction goals?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g) Comply with federal, state, and local management and reduction statutes and regulations related to solid waste?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

**Appendix B – Environmental Checklist**

We do not anticipate that the project would impact utilities or service systems. Implementation of these water quality objectives would primarily occur through Water Board issuance of waste discharge requirements. No new wastewater treatment facilities are required.

<u>XX. WILDFIRE.</u> If located in or near state responsibility areas or lands classified as very high fire hazard severity zones, would the project:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Substantially impair an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Due to slope, prevailing winds, and other factors, exacerbate wildfire risks, and thereby expose project occupants to, pollutant concentrations from a wildfire or the uncontrolled spread of a wildfire?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Require the installation or maintenance of associated infrastructure (such as roads, fuel breaks, emergency water sources, power lines or other utilities) that may exacerbate fire risk or that may result in temporary or ongoing impacts to the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Expose people or structures to significant risks, including downslope or downstream flooding or landslides, as a result of runoff, post-fire slope instability, or drainage changes?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

We do not anticipate that the project would impact wildfire. There will be no new construction or wastewater treatment facilities or the road for transportation to the facilities. Therefore, would not result in alteration of the landscape or the surrounding areas that may start a wildfire.

<u>XXI. MANDATORY FINDINGS OF SIGNIFICANCE.</u>	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, substantially reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

**Appendix B – Environmental Checklist**

- b) Does the project have impacts that are individually limited, but cumulatively considerable?      
("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)
- c) Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?

**Potential to Degrade and Cumulative impacts:** The project is not expected to cause significant degradation or cumulative impacts to the environment, as it would not result in increased wastewater treatment or wastewater discharges. Discharges complying with the new water quality-based effluent limitations would be protective of the receiving waters' beneficial uses. There would not be construction of additional treatment facilities or housing as a result of this project. On the contrary, implementation of this project will likely result in slightly improved water quality in the waters of the Region, as there would be fewer chemicals (sodium bisulfite) entering the receiving waters.

**Authority:** Public Resources Code Sections 21083, 21084, 21084.1, and 21087.

**Reference:** Public Resources Code Sections 21080(c), 21080.1, 21080.3, 21082.1, 21083, 21083.1 through 21083.3, 21083.6 through 21083.9, 21084.1, 21093, 21094, 21151; Sundstrom v. County of Mendocino, 202 Cal. App. 3d 296 (1988); Leonoff v. Monterey Board of Supervisors, 222 Cal. App. 3d 1337 (1990).

**Explanations of Impact Assessment**

The foregoing analysis of potential environmental impacts is based on current wastewater treatment plant disinfection and dechlorination practices and likely future practices following project implementation.

Potential impacts stemming from the project are discussed above and we find there to be no impacts. Most of the impacts resulting from reduced chemical use and discharge are expected to be positive.

Based on this review, we conclude that there are no adverse impacts.

**PRELIMINARY STAFF DETERMINATION**

- The proposed project COULD NOT have a significant effect on the environment, and, therefore, no alternatives or mitigation measures are proposed.
- The proposed project MAY have a significant or potentially significant effect on the environment, and therefore alternatives and mitigation measures have been evaluated.

**Re: Agenda Item 5**

**Testimony: Appointment to Police Commission (Cohen)**  
**— Strongly Support**

Dear Chair Ronen and Members of the Rules Committee,

This is testimony for the Rules Committee meeting on August 17, 2020.

I strongly **support** the nomination of Malia Cohen to the Police Commission for the following reasons.

1. Malia served admirably as president of the Board of Supervisors, and was always thoughtful.
2. She served as President of the SFERS Board of Trustees, and supported several transparency initiatives, including supporting budgeting to broadcast SFERS Board meetings on SFGOV-TV, and agreeing to comply with provisions of the Sunshine Ordinance to place written 150-word testing in meeting minutes adjacent to discussion of a given agenda item, among other accomplishments benefiting City retirees.
3. Ms. Cohen's leadership developing the legislation to create the *Department of Police Accountability*, elimination of SFPD's use of the carotid hold, banning *stop-and-frisk*, and revising SFPD's *Use of Force* policy all demonstrate she has a superior grasp of issues involving SFPD.
4. Her leadership in many areas have strengthened the *Black Lives Matter* movement, for which all San Franciscans should be eternally grateful for.

5. The Department on the Status of Women's 2019 report on gender equity on City boards and commissions reported that women comprise only 43% of Police Commissioners. Appointing Malia to this Commission would go a long way toward rectifying gender and racial equity on the Police Commission.

As justifiable nationwide efforts to defund and re-imagine Police Departments rightfully intensifies, Ms. Cohen's fiscal experience suggests she will prudently consider the financials behind doing so in San Francisco. San Franciscans desperately need her leadership on, and appointment to, this Commission.

I urge the Rules Committee to vote unanimously to approve Ms. Cohen's nomination, and forward a strong recommendation to the full Board of Supervisors urging approval of her nomination.

Respectfully submitted,

**Patrick Monette-Shaw**

**Subject:** Regarding Nominee to Police Commission - Malia Cohen

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear President Yee, Supervisors Haney, Mandelman, Mar, Peskin, Preston, Fewer, Ronen, Safai, Stefani, and Walton:

My name is Julie Traun; I am an attorney, long time resident of San Francisco, and active member of the Bar Association of San Francisco's Criminal Justice Task Force (CJTF) formed after the killing of Michael Brown in Ferguson. Our CJTF includes prosecutors, defense counsel, civil rights attorneys, representatives from DPA, law enforcement (SFPD and SFSD) academia as well as the Superior Court and Federal bench.

Our goal is to assist law enforcement achieve 21<sup>st</sup> Century policing. As lawyers, we volunteer our skillset to arm ourselves with the research and best practices throughout the country to help assure this City that we have access to what is most needed in order to reach our shared goals for policing.

Our independent voice and thorough research contributed greatly to the 2016 Use of Force Policy, led us to oppose Prop H and Tasers, and our detailed Data Collection and Analysis report mirrored the recommendations of the DOJ. We filed a strong amicus brief in support of the Use of Force policy when the POA challenged the Police Commission's work. Our work is vetted by the Bar Association of San Francisco's board of directors prior to issuing studies, reports and/or recommendations as well as amicus briefing on behalf of this large and diverse legal organization of nearly 8,000 members.

Our hardworking and committed CJTF members participate on each of the 5 Executive Sponsor Working Groups (ESWG) established under the COPS DOJ. I sit on three of those groups: Use of Force, Bias and Community Policing.

We are so mindful of events preceding and following the killing of George Floyd, and while we appreciate the work underway with SFPD, we have far to more to do.

There has *never* been a more important time to add commissioners who are knowledgeable and have demonstrated a commitment to reform by their actions and their capacity to move us forward. Historically, the Commission itself has fallen short on its obligations to keep up with research and stay current with reform. This is a complex undertaking and at this critical time, there is a clear need for informed commissioners.

This Bar Association is invested and concerned; we ask our Supervisors and our Mayor to assure all San Franciscans that *any* nominee to the Commission has a demonstrated commitment to effective police reform and is thoroughly informed by the research and the state of policing locally and beyond. Each nominee must demonstrate that he or she is a strong and informed steward to bring us into compliance with 21<sup>st</sup> Century policing and the recommended reforms enumerated more than 4 years ago by COPS DOJ. Changing police culture takes strong leadership by those well versed in reform and the research supporting it.

We are pleased that the Mayor has nominated Malia Cohen to the Commission who worked closely with many of our subcommittees of the Criminal Justice Task Force to assure reform for SFPD. Specifically, she worked with us on Use of Force General Order 5.01, publicly defending the critical role of the Commission when criticized by the POA; she supported our work on data collection and analysis, understanding that the collection of data is meaningless in the absence of analysis by outside experts; she worked with our body-worn camera subcommittee to require implementation, as well as our police oversight committee to greatly improve oversight and accountability; finally, she worked closely with our Taser subcommittee to defeat Proposition H. She

was a featured panelist on BASF's widely viewed presentation on Police Reform and Changing Police Culture. <https://vimeo.com/219882282>.

These important and informed contributions to police reform in San Francisco will benefit the work of the Police Commission going forward and for these reasons, we are so pleased with this nomination.

Very truly yours,

Julie

**Subject:** Proposed change to Soft Story Tier IV deadline

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Good afternoon,

I am a local architect with a small office in Hayes Valley. I am writing today in STRONG SUPPORT of your proposed legislation to extend the Tier IV soft story deadline for one additional year.

September 15<sup>th</sup> is rapidly approaching and I have several clients who are not able to proceed with their construction due to permit delays on both their soft story plans/revisions and also on associated ADU permits.

Property safety is critical, especially to me as an architect. But right now, permit delays are adding 4-6 months to the most basic of applications. I have several projects with both soft story and ADU scope combined, but our ADU approvals have slowed to almost a stand-still since the Covid Shut-down. My clients in the Tier IV category are very concerned about having a violation notice posted on their buildings in a time when so many tenants are failing to pay rent. In addition, property tenants are now all working from home and the disruption from construction noise is a major issue. We are finding tenants asking for construction to be slowed down, or limited to portions of the day so they can continue to work without disruption even for a portion of each day. Obviously, that results in construction delays, making a deadline in just 1 month almost impossible to achieve for many property owners.

I urge you to support this important, common-sense legislation so we can make our buildings safer, but in a time limit that takes the Covid impacts into consideration.

Thank you so much,

Serina Calhoun

Re: Notice of Closure of San Francisco Gap Flagship location at 890 Market Street, San Francisco

Dear Government Officials:

This letter is notice that Gap Inc. (the “Company”) will be implementing the closure of its Store located at 890 Market Street, San Francisco, California 94102 (“Gap Flood”). Approximately 79 employees are affected, with termination dates beginning on August 2, 2020. Gap Inc. will provide 60 days’ pay in lieu of any notice that may have been due. No union represents the affected employees. None of the affected employees has a right to claim another job at the Company by displacing another employee (so-called “bumping rights”).

Whether or not this action triggers the requirements of the Worker Adjustment and Retraining Notification Act or California Labor Code section 1400 *et seq.*, we thought it appropriate to give you this notice. We are notifying you of this decision as soon as it was practicable to do so.

As permitted by 20 C.F.R. § 639.7(f), which is incorporated into California Labor Code section 1400 *et seq.* by reference (*see* California Labor Code section 1401(b)), the following additional information is available to you upon request: the job titles of positions to be affected and the number of affected employees in each job classification.

By providing this information, Gap Inc. does not concede that either the Worker Adjustment and Retraining Notification (WARN) Act or California Labor Code Section § 1400 et seq. (Cal-WARN) (collectively, “the Acts”) apply or that notice is required. To the extent that the above actions constitute a covered event under the Acts, this notice is intended to fulfill the requirements imposed under the Acts for notice to governmental entities. This notice is provided without prejudice to the Company's rights and defenses under the Acts or any other law, including the application of the Acts to any individual employee or site of employment.

The information contained in this letter is based on the best information available to the Company at this time. Should you wish further information, please contact me at (718) 594-7804.

Sincerely,

A handwritten signature in cursive script that reads "Joanne Rafferty".

Joanne Rafferty  
Senior Director, Human Resources  
Gap Brand

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Board of Supervisors President Yee and Members of the Board of Supervisors:

I live in District 4. Although we do not see many tents out here in the fog (at least, not yet), I am shocked when I visit other neighborhoods and see the number of people living on our streets all over San Francisco. Yesterday, I noticed a new group of tents in front of the tiny native plant park, across from Ocean Beach and at the foot of Sutro Heights. That must be the coldest, barest, windiest place in San Francisco, and yet people feel they have no choice but to live there.

We need to start DOING something. Months ago I wrote supporting housing the homeless in our currently empty hotels and motels. That has moved along too slowly.

Now we are in the budget season. Please support the funding for psychiatric, mental health, street-crisis response, and safe sleeping villages.

I also urge you to support the recommendations of RescueSF, a new grassroots coalition to address homelessness. RescueSF emailed Supervisor Fewer, Chair of the Budget & Finance Committee, and your colleagues with their recommendations on August 12.

These recommendations include:

- increasing funding for safe sleeping villages to end street sleeping more quickly;
- providing trained behavioral health teams to manage those in crisis on our streets;
- and funding enough beds and outpatient mental health services to address the most vulnerable on our streets.

Thank you for your consideration.

Katherine Howard

District 4

Subject: Resolution by AFT 2121 Retiree Chapter on Black Lives Matter, passed July 24 General meeting.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Please forward this to all of the BOS individually.

Thank you,

Joe Berry, Secretary, AFT 2121 Retired

AFT 2121 Retiree Chapter Resolution on Black Lives Matter

Whereas police brutality, disproportionately directed at people of color, has been a long-standing problem in the US, is often covered-up, and is connected to the historic injustice of slavery and the continuing disproportionate exploitation of people of color, and

Whereas such brutality is part of systemic racism manifesting itself today in policing, the courts, education, housing, job opportunities, access to decent healthcare and a healthy environment, and in many other areas of life, and

Whereas, the AFT 2121 Retiree Chapter, representing the retired faculty of AFT 2121, joining with AFT 2121, stands united with African-Americans to condemn the ongoing racist police attacks and killings of Black people, most recently the murder of Breonna Taylor, an off-duty first responder who was sleeping in her home, and George Floyd, whose breath was cruelly and shockingly choked out of him, likewise the racist acts that resulted in the murder of Ahmaud Arbery as he was jogging in his own neighborhood, and

Whereas, as we grieve for these recent deaths, we continue to seek justice for Alex Nieto, Mario Woods, Luís Góngora, and Amilcar Pérez-López, young Latino and African-American men, some of them CCSF students, who were killed at the hands of San Francisco Police officers. And now we must say the name of CCSF student Sean Monterrosa as we add yet another name to the growing list of those killed by Bay Area police, and

Whereas, these assaults have been ongoing and target the very communities served by our college. Each death is one death too many. Police accountability is lacking nationwide and in San Francisco.

THEREFORE, in order to establish accountability and integrity in policing and public trust for police, be it

Resolved that AFT 2121 Retiree Chapter strongly support the Black Lives Matter movement in pursuit of an end to police brutality and racial profiling, and in support of a more just and egalitarian society, and be it further

Resolved, that the AFT 2121 Retiree Chapter support actions by Congress to create a national law enforcement database to record and track behavioral misconduct by police and prison guards, and be it further

Resolved, that the AFT 2121 Retiree Chapter support actions by Congress to end distribution of military equipment and end training in military tactics for state and local police, and be it further

Resolved that the AFT 2121 Retiree Chapter support actions by the California Community College, California State University, and the University of California Systems to develop standardized Administration of Justice degrees that require substantial course work in the Civil Rights Movement, Conflict De-escalation Techniques, Ethnic Studies, Labor History, Psychology, and Sociology, and be it further

Resolved that the AFT 2121 Retiree Chapter support actions by the California legislature mandating that an Associate or higher degree in Administration of Justice be required for employment as a police officer in California. Degrees from out of state must include course work equivalent to required California coursework, and be it further

Resolved, that the AFT 2121 Retiree Chapter support strengthening state certification requirements for police officers including requirements for continuing education, and support the creation of a licensing body for police, and be it further

Resolved, that the AFT 2121 Retiree Chapter support changes to state law that ban the police from using, among others:

1. choke holds and/or carotid artery holds
2. sustained restraint by kneeling on prone individuals
3. racial profiling
4. stop-and-frisk style programs, and be it further

Resolved, that the AFT 2121 Retiree Chapter support actions by the California legislature, municipalities and counties that require an evidence-based confirmation of mortal danger to justify the police use of deadly force, with appropriate sanctions and punishments for criminal police misuse of deadly force, and be it further

Resolved that the AFT 2121 Retiree Chapter support actions by the California legislature, municipalities and counties to reallocate available first responder funds to restructured first responder services, so that requests for assistance are matched to responses by medical, social service, fire, or police personnel, as appropriate, and so that police no longer handle matters for which they lack training or are otherwise ill-qualified, and be it further

Resolved that the AFT 2121 Retiree Chapter support substantially reducing funding for police departments in California and moving resources to social programs in local communities, such as education, environmental justice, family services, health care, housing, jobs, mental health counseling, and recreation, with a special focus on programs that reduce violence and promote safety in underserved communities of color, and be it further

Resolved that the AFT 2121 Retiree Chapter support changes to state law that mandate that all police agencies and all prisons in California

1. automatically terminate the employment, certification and licensing of police or prison guards, who have been found to have physically harmed a person because of the victim's race.
2. require that police or prison guards who have been found to have demeaned a person because of the person's race be required to go through state-approved racial sensitivity training, and that police or prison guards be sanctioned or have employment, certification and licensing terminated if such incidents recur.
3. keep permanently on file all disciplinary records of police and prison personnel, and also report all disciplinary actions to the California Attorney General's office.
4. require that applicants list in their application all previous employment anywhere in the United States with a police agency or prison, and all disciplinary actions against them by these employers, with appropriate penalties for failure to comply.
5. contact previous police agency or prison employers and the California Attorney General's office, to verify the applicant's disciplinary record and status upon termination of employment when screening an applicant; and police agencies and prisons must cooperate fully with any police agency or prison contacting them for similar job application information, and be it further

Resolved, that the AFT 2121 Retiree Chapter support the establishment by the California legislature of a committee to develop guidelines for the psychological screening of all police and prison guard applicants, with a view to mandating that all police agencies and prisons in California administer psychological evaluations of applicants which applicants must pass before being offered employment, and be it further

Resolved, that the AFT 2121 Retiree Chapter support changes to state law that mandate that the California Attorney General's office investigate complaints against police and prison guards and, upon finding fault, make recommendations to the appropriate police agency or prison administrators, and maintain a public record of their findings, and be it finally

Resolved, that the AFT 2121 Retiree Chapter support strengthening state and local civilian review boards for police with power to implement effective accountability measures for law enforcement agencies and officers that violate their duty to protect and serve.

**Subject:** what is going on with OUR taxes?

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

What is happening with MY/OUR taxes? I woke up early to mail a letter and the streets and alleys are filled with trash and filth as far as I or anyone can see. I always wake up early but, today I did it to specifically mail ONE letter, and it looked like the apocalypse. So, I want to know what are YOU doing with OUR money? i have lived here for over 30 years! and never have I or anyone encountered such a squandering and mismanagement of tax money. I want YOUR answer(s). I pay you to work for ME. as do ALL of the taxpayers. this farce is over, do you really think you can continue to steal from us? you think when you clean it up and make everything nice for ONE week before the election that will make everything OK? See, this city is emptying out. of course NOT the illegal/criminals(all illegals ARE criminals for simply being here they break federal law. period) and you give THEM MY/OUR tax money while Americans live on the streets and suffer and die, how do you live with yourselves? you have so much sympathy for people from foreign lands but not for OUR fellow citizens. you take photos all smiling and dressed up. in OUR building how dare you all. while Americans, citizens suffer and die you pull this crap. how dare you. you close down everything, and you make our city filthy. you shutter businesses, you ruin lives, people who worked hard and played by your ever changing rules and then you change them and ruin lives.

and before you all say 'we didn't do this, we are just here AFTER it was ruined', no, you all could have fixed it not by making it worse by passing more crap and Orwellian laws to shackle us further. In my opinion you all should be put before a judge and jury and the sentence should be life and no parole and work off all the money you all have squandered, and the wage should be the pittance you pay prisoners now. and you pass a tax on sugary beverages and you say it is for whom? to benefit kids? really? but, not outlaw cigarettes, oh yeah you wont the tax is too high to outlaw those. you make too much from those. and, dont add a tax to foods that are worse. no, you focus on what lies you can justify. and you wonder why people are FLEEING COMMIE-FORNIA AND SAN- FRAN-SICKO. don't take my word for it ask WSJ and FORBES and every real NON censored news agency. you don't even have the decency to answer MY questions you think i will just go away? of course you hope so. and replace me with whom? illegals you can brainwash? of course they don't even speak the language, WE must speak THEIR language, right? Well I do BUT I REFUSE TO SPEAK THEIR LANGUAGE IN MY COUNTRY. Si? porque, por que, deberia hablar su? Why do you force me to speak the language of invaders who steal jobs, welfare, section 8, EDD money, EBT, and GOD knows what else, while being here is breaking OUR laws? and you are the board of supervisors? you know MAO that guy who murdered millions and CASTRO, AND STALIN, AND HITLER ALL murdered tens of millions and they all

had the same story the clowns that worked for them while re-educating them, shooting them, loading in trains and shipped to prisons, 'we are just following orders', OK and whose? following orders from murders is wrong following orders from lawbreakers is wrong. and you will ALL read this and pick it apart and find flaws and imperfections, and seek ways to imprison me. for DARING to convey truth and logic. how dare he! we are the board of supervisors! Have you ever read Orwell? His greatest works are 1984. and Animal Farm. WHY? because he espoused what Americans came here for. his line he wrote from Napoleon, 'All animals are equal', then it became 'All animals are equal BUT some are more equal than others'.

sound familiar? while OUR people are homeless YOU dine, you slumber in comfort. And before you dare try and tell me many homeless are boozers and dopers. NO MOST ARE NOT! maybe 20% are boozers and dopers, and WHO brought in and sold them the dope? WHO? the fentanyl and heroin and cooked the meth besides the homeless you paid to cook it in the civic center motel, besides them. who? the ILLEGAL/CRIMINALS. THAT IS WHO. AND THOSE ILLEGAL/CRIMINALS RAPE, MURDER, ASSAULT, ROB, STEAL. and you wonder why this city this state is emptying out. And for those citizens who worked their entire lives and applied for unemployment, you make it impossible? how much longer until people say enough, I'm off to Texas, Florida, Idaho, Utah, South Dakota, North Dakota. Alaska, Arizona and every state still knowing POLITICIANS WORK FOR US NOT ILLEGAL/CRIMINALS NOT FOR THEMSELVES FOR US you break the laws to make illegal/criminals happy. BUT you turn your backs on citizens. I will wait for your response. I will wait and then I will send your response to FOX, CNN, MSNBC, it will be public property like my email to you. so, I will look forward to your response. we pay for this. We pay for these public records and we are NOT happy with the way you have run our city. you have run it into the ground while inviting in illegal/criminals, and remember OUR citizens have kids and needs and THEY pay taxes. NOT the illegal/criminals whatever they pay is PITTANCE compared to WHAT they steal not even mentioning they are here illegally. We have plenty of people who can sweep ,mop, do menial work, and we don't need to import millions of criminals to do it. you think we are stupid? all of us? Many of us went to college, are educated, many more than YOU. So, how are you going to fix this? you took the job, remember you took the job and receive a salary, and what have you done?

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

TO: Board of Supervisors members

I am opposing the reappointment of Susan Diamond to the Planning Commission.

The Commission doesn't need a land use and real estate attorney as its member as this expertise is provided by the Deputy City Attorney.

Also, from 2003 - 2011 Ms. Diamond was a partner and counsel for Morgan, Lewis and Bockius LLP.

One of the notable clients in their Investment Funds, Private Equity Funds division is Blackstone Strategic Partners.

Blackstone Strategic Partners is Blackstone's secondary and fund solutions business.

Blackstone was a major player in the mortgage meltdown of 2008.

In 2019, the United Nations criticized Blackstone for making the global housing crisis worse.

Based on Ms. Diamond's prior connection with Morgan, Lewis and Bockius and that law firm's connection with Blackstone, I am opposing her reappointment to the Planning Commission.

August, 17, 2020

Mayor Breed, Supervisors and Staff,

### **Hands off our neighborhoods and communities! Hands off our Housing Choices!**

Please stop passing short-sighted legislation that adds to inequity and makes housing more expensive and send the message to our Sacramento representatives to do the same. Pause dense development until we find out who will be left in the city after the fallout of the pandemic.

There are so many overlapping and contradictory bills going through the city and the state that the Planning Department can't even figure out what the outcome may be, according to their latest report on the effect of these bills. Deal with immediate problems like evictions, testing and feeding people this year.

The vast majority of California residents reside in single family homes, and many others may choose to do so if and when they can. During the pandemic, people are moving out of the city to be able to socially distance in a safer environment, leaving many units empty. Bills that restrict the chosen lifestyle of a majority of the citizens are going to backfire. Work to keep people housed.

According to an article in the LA Times by Liam Dillon, [California could bring radical change to single-family-home neighborhoods](#), 64.9% of the residences in California were single-family homes when the last census was taken.

In [Sacramento's coming war on neighborhoods](#), Christopher LeGras reaches the conclusion that "The wise course would be to pause and recalibrate, not double down on policies that were dubious even before the world changed." We agree.

*Please protect the housing we have. Oppose these bills that have not been pulled by their authors: SB 902, 995, 1085, 1120, 1385, and AB 725, 1279, 2345, and 3040.*

Sincerely,

Mari Eliza

**Subject:** EMERGENCY: the welfare of disabled tenants at 988 Howard Street (permanent "supportive" housing)

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

We need help. Immediately.

For years now I have been fighting for the safety of the tenants warehoused at 988 Howard Street/ Plaza Apartments (a so-called permanent supportive housing building) yet we are still in peril without appropriate services, particularly in the evenings and on weekends. On Saturdays, Sundays, and by the late afternoon there are *\*no\** supportive services and we have *\*no\** nursing care. We do not have a nurse present on Mondays either.

I am emailing you all to beg someone- anyone- to begin ensuring tenants are *\*actually still alive\** over the weekends. No one from any department or agency within San Francisco bothered to call me this weekend to ensure I was OK in my overheated apartment during this heat wave. Adding insult to (literal) injury: many, if not all, of you are already aware the apartment units at 988 Howard Street overheat most days of the year. The ventilation is exceedingly poor/ nonexistent and we suffer a lot in our own homes. Did any of you wonder if we were doing even worse during some actually hot weather? Because we were, indeed, doing even worse.

No one made direct, intentional contact with all tenants. Every tenant here is disabled, and we are further endangered due simply to the poor conditions we are forced to try and survive under.

There are no excuses for continuing to neglect us en masse. Please think beyond whatever the

capitalistic parameters there may be for your job and start seeing us as human beings. We need regular welfare checks not simply so that you can say you actually did something to stop the preventable injuries and deaths (though there certainly is that, too) but because we are PEOPLE. Your lives away from work do not magically matter more than our own lives. So make masked, socially distanced check-ins, will you?! Or at least just pick up the phone and make some calls.

I sincerely hope if this building kills me too, you never forget my name. Especially whenever you feel too hot.

-Mary Rogus  
988 Howard Street, Unit 608  
(415) 846-6493

\*\*\*\*\*

This is what it looks like when everyone knows we are suffering, but no one acts in any way which protects our immediate safety and welfare:

Police Code - Discriminatory Reports to Law Enforcement  
File No. 200735 (introduced on July 7)

*Existing Law*

*It is not currently unlawful under City law to cause a peace officer to contact a person with the intent to discriminate against that person on the basis of the person's race, ethnicity, religious affiliation, gender, sexual orientation, or gender identity.*

*Amendments to Current Law*

*The proposed ordinance would make it unlawful to cause a peace officer to contact a person with the specific intent to discriminate against that person on the basis of race, ethnicity, religious affiliation, gender, sexual orientation, or gender identity. The ordinance creates a civil cause of action for the victim of such discrimination against the person who caused such contact to occur, allowing a successful plaintiff to recover special and general damages of at least \$1,000 plus costs and attorney's fees, and punitive damages in the proper case.*

Dear Committee Members of the Board of Supervisors of the City of San Francisco:

I write to address the proposed CAREN Act and to have you consider a different acronym only. I have no issue with the proposed amendments to current law (*supra*) or its substantive aspects. The acronym for the CAREN Act has discriminatory implications for the following reasons stemming from the treatment of the name "Karen" in recent times:

### **History of the "Karen" Meme and Its Usage in the Media**

The Karen meme has several suspected origins. (Greenspan, Rachel [May 27, 2020]. "How the name Karen became a stand-in for problematic white women and a hugely popular meme". Business Insider. Retrieved July 17, 2020.) It is most popularly associated with an anonymous Reddit user, who posted "Fuck\_You\_Karen" denigrating his ex-wife, Karen, whom he alleged had taken both his children and his house during divorce proceedings.

In modern times a Karen has been depicted as one who "demands the world exist according to her standards with little regard for others, and she is willing to risk or demean others to achieve her ends." (Tiffany, Kaitlyn [May 6, 2020]. "How 'Karen' Became a Coronavirus Villain". The Atlantic. Retrieved May 20, 2020.)

In recent memory, the most glaring example of a "Karen" is Amy Cooper who notoriously and falsely accused Christian Cooper, a black man, who asked her to put her dog on a leash in Central Park, New York.

In San Francisco, Lisa Alexander who is most recognized as the "San Francisco Karen," after a clip went viral this year, in which she demands to know if James Juanillo (a Filipino American) was defacing private property, when he in fact was stenciling "Black Lives Matter" in chalk on the front of his own home.

All the Karen memes/stories which have been publicized this year, feature white women behaving badly. The media has overlooked or ignored abysmal behavior of non-white women named "Karen" or otherwise. There could be a justifiable reason for that. At least in my personal view, 2020 has been a year of vindication for many. White women for some have been seen as a pinnacle of American society as the untouchable and the unassailable. A sort of individual, who at all times must be protected, can be incorrigible, and can command others, or the system, to abide by her wishes at the snap of her fingers. In its ugliest form, it is against minorities, as Amy Cooper and Lisa Alexander exemplify.

### **Discriminatory Intent and Disparate Impact**

In *Washington v. Davis* (1976) 426 U.S. 229, 244 the Court held that that one claiming harm based on the disparate or disproportionate impact of a facially neutral law must prove intent or motive to discriminate. However, the Court noted that "an invidious discriminatory purpose may often be inferred from the totality of the relevant facts, including the fact, if it be true, that the law bears more heavily on one race than another. It is also not infrequently true that the discriminatory impact . . . may for all practical purposes demonstrate unconstitutionality because in various circumstances the discrimination is very difficult to explain on nonracial grounds." (See also *Village of Arlington*

*Heights v. Metropolitan Housing Development Corp, (1977) 429 U.S. 252).*

With the CAREN Act, the discriminatory purpose can be potentially discerned by the name of Act itself, due to the Act's promulgation within the context of the Karen memes discussed (*supra*). The two foregoing examples of Amy Cooper ("Central Park Karen") and Lisa Alexander ("San Francisco Karen") are prototypical "Karen" stories that may form the backdrop of the CAREN Act's title. This would evidence the purpose behind the Act, thus evidencing discriminatory intent.

More importantly disparate impact is a real consequence of the Act. The CAREN Act would allow "a successful plaintiff to recover special and general damages of at least \$1,000 plus costs and attorney's fees, and punitive damages in the proper case." It is hard to imagine, how a white woman as a plaintiff would leverage the Act in her favor in a judicial setting, as well as a non-white woman. As a civil litigator, with experience in with juries, I can say with complete confidence that a white woman plaintiff would face an uphill challenge in seeking the damages, costs, and punitive damages proposed by the Act among a diverse member of her juror peers.

Other examples of potential disparate impact are white women named Karen or Caren who in their daily interactions with people would face ostracism simply because of their skin color and their gender. Even worse of a situation would arise, if a white female job applicant experiences discrimination solely based on her gender and her name. Another hypothetical (but not unrealistic) example is an Asian woman named Karen or Caren who makes a complaint, and in doing so is ridiculed as a "Karen". Depending on the circumstances she could have a colorable claim of gender discrimination.

From a personal and anecdotal perspective, a few months ago I made some joking remarks to my black male paralegal about the whole Karen phenomenon. Wondering why he was not laughing with me, he shared that his mother is named Karen. My take away from that, is that there are blacks who may have that name, or know people close to them with that name, that are not sharing the humor.

The foregoing examples are non-exhaustive. It is a given that the CAREN Act is to provide a legal recourse to persons, against others who use police powers for abuse. The only issue is how the Act will be perceived by the public, and how it will actually be enforced, and the disparate impacts that it creates. The name of the Act itself at the very least provides an environment for the media's retort on white women acting out of line, to breed and foster.

Dr. André Brock, associate professor of Black digital culture at Georgia Tech whose research is leading the conversation on the impact of Black Twitter, writes:

"Memes have power above and beyond just humor. We often use metaphor, which is often at the heart of memes, and emotion or affect to make shorthand of things which deeply affect us. A lot of times, it's funny; a lot of times, it's cathartic; and other times, it's racist. I try to push back on the idea that memes are frivolous way of articulating a particular phenomenon because in many ways, it's much more potent shorthand than me trying to explain to you exactly the way people are reacting to a certain situation...Social media is a platform for communicating feelings and the stronger the feeling, the more viral things go." (<https://time.com/5857023/karen-meme-history->

[meaning/](#))

Dr. Brock, in my view, articulates the role of social media and memes quite effectively. However, the role of memes and internet culture should not be the standard that a public entity adopts. The City of San Francisco, Public Safety and Neighborhood Services Committee, has a role and function that lies far above that of internet trolls, popular culture, or the despicable examples that is Amy Cooper or Lisa Alexander; women who happen to not be named Caren or Karen.

The stated purpose of the Committee on File No. 200735 is to redress a wrong caused by systemic racism. However, for maintaining a face of neutrality in its legislative function, the Committee must not be swayed by embracing the racially charged fulminations that have dominated this tumultuous year. The Committee must rise above that and create a facially neutral law, with equal treatment and application among all. Otherwise, the proposed legislation faces realistic Constitutional challenges ahead.

As this letter began, it is not its purpose to change the proposed Amendment to existing law in its substantive aspects. The ONLY aspect I wish the Committee to consider is changing the name of the Act. Even if this letter is mistaken in its analysis of racial or gender equality, the Committee must also consider the impact it has on innocent women's names that have nothing to do with the atrocious behavior of the women being mocked as the "Karens" of the world. We all go through life with our skin color and our name. The former less mutable than the latter. However, we can spend a lifetime building our name and reputation, which can be lost in a moment. The Committee should not participate in that effect.

As a public entity the Committee must hold itself to the highest standard of fairness and progressiveness and ensure that its actions create a safe haven for all who will abide and be affected by its actions.

Respectfully submitted.

Daniel Ip, Esq.

Dear Dean Preston, Mayor London Breed and the Board of Supervisors,

I am the mother of four and six-year-old daughters who attend the French American International School (FAIS) here in San Francisco.

As someone who provides employment and credit screening for pre-hire due diligence, I was relying on the daycare options being made available by FAIS, which were set to start next week.

Two hours ago, I was informed by FAIS that the SFDPH is forbidding schools to offer day care and the program is being cancelled. In its place are Zoom clases which run everyday from 930-230.

Questions: Have you sat a four and six year old in front of a screen for five hours a day, five days a week?! Have you also tried to get anything meaningful accomplished as this was happening?! What is this?! Please explain!?

My family is diligent and careful about COVID. We are regularly tested. We practice social distancing and have been cooped up since March.

How is it that certain businesses are able to function, but options for our children are limited to the point where their parents are hobbled professionally and economically, while at the same time expected to stay on top of all the bills, mortgages, tuition, and last but not least, property taxes?

I look forward to getting some clarity about how this all makes sense to you and how long you intend to keep this up.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Hello,

I have a public comment regarding File # 200883, the "slow streets" appeal.

The appellant's claim that the covid pandemic doesn't meet the CEQA definition of an "emergency" is ridiculous. With 50% of the surface area of our city gifted to drivers, pedestrians have always been crammed into a tiny space dotted with obstacles. Now they have to also contend with outdoor dining areas and increased homeless encampments, all while practicing social distancing. To reduce the chance of sickness or death (or passing it on if they are unknowingly infected) they might venture into the street, but then they are just trading one risk for another. Simply observe the large uptick in pedestrians being killed by automobiles in San Francisco in the past few months. Setting aside a small portion of our streets for pedestrians to navigate safely is both necessary and reasonable and meets the definition of an emergency.

Regards,  
Brandon Duncan

**Subject:** Concerns about safety in Hayes Valley

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Board of Supervisors,

I live near the Gough & Fell Walgreens store in Hayes Valley. Over the past several months, I have seen at least seven instances of massive theft with cases of violence breaking out (shattering glass, breaking metal gates with crowbars, etc.). I have reported these cases to SF Police several times, and no action has been taken. I have been told this is due to a policy that does not prosecute theft.

The employees at this store deal with this every day where merchandise is restocked, and thieves come in ready to go with their luggage, filling them with shampoo, candy bars, laundry detergent .... everything. In one instance, I saw a man carry in a whole roller recycling bin from the streets to fill with stolen goods (in that case, they even broke into the ATM). The store shelves end up completely empty with no merchandise. Happy to send a photo if this will help drive the point home.. This is organized and deliberate theft at scale, and as a resident of the neighborhood, I feel unsafe and sad to see this occur.

Does the Board of Supervisors view this activity to be acceptable? Please help me find a solution here. Thank you.

Best,  
Alice Yen

**Re: Game-Changing Clarifications of Federal Telecom Law in Aug 2020 Obviates the Need for Many Article 25 Objective Standards**

[Ms. Erica Major and/or David Steinberg, will you please add this email to the San Francisco Public record, attached to the Land Use and Transportation Committee's 12/16/19 Hearing re: the Repeal of Ordinance 190-19 and/or the Repeal of Ordinance 190-19 and Suggested changes to SF-DPW Article 25? Thank you for doing so.]

In 2019-2020 -- **including on Aug 12, 2020** -- there have been game-changing clarifications of federal Telecom law which the City of San Francisco must now take into consideration with higher priority than the proceedings scheduled for August 19, 2020: Public Works Order No: 203367 re: the **now unnecessary and inappropriate SF-DPW Objective Aesthetic Standards** for placing, constructing, modifying and operating so-called "small" Wireless Telecommunications Facilities (sWTFs) in San Francisco's public rights-of-way. See common sense improvements to SF-DPW Article 25 in **Appendix A**, below.

>>> DPW-Wireless-Program wrote to "Everyone" on **8/18/2020 at 6:39 pm, PT:**

"Hello Everyone,

I attached a finalized version of the Objective Standards, which contain minor grammatical edits.

A friendly reminder that the hearing is on August 19, 2020 at 10 A.M.

Please review the *Instructions for Public Comment* document carefully before the hearing. The document contains the procedure for participation during the hearing.

Bureau of Street Use and Mapping  
San Francisco Public Works  
City and County of San Francisco  
49 South Van Ness Ave Suite 300  
San Francisco, CA 94103

[sfpublishworks.org](http://www.sfpublishworks.org/) <<http://www.sfpublishworks.org/>> · [twitter.com/sfpublishworks](https://twitter.com/sfpublishworks)  
<<http://www.twitter.com/sfpublishworks>>

The documents sent to "Everyone" by SF-DPW at 8/18/2020 at 6:39 pm, PT are these:

1. [2020-0818-Order-203367.pdf](#)
2. [2020-0818-Order-203367- Final-Small-Wireless-Facility-Design-Final.pdf](#)
3. [2020-0818-Instructions-for-Public-Comment.pdf](#)

The City of San Francisco must recognize that on **Aug 12, 2020**, the US Court of Appeals, Ninth Circuit ruling in Case No. 18-72689 City of Portland et al. v FCC re: repeal of FCC Orders 18-111 and 18-133 holding (quotation in [blue text](#); emphasis added):

"We therefore hold that the FCC's requirement in the Small Cell Order that **aesthetic regulations be "no more burdensome" than** regulations applied to other infrastructure deployment **is contrary to the controlling statutory provision**. See 47 U.S.C. § 332(c)(7)(B)(i) (II).

We also hold that the FCC's requirement that all **local aesthetic regulations be "objective"** is not adequately explained and is therefore **arbitrary and capricious**.

We therefore: **GRANT** the petitions as to those requirements, **VACATE** those portions of the rule and **REMAND** them to the FCC."

Similarly, the California Supreme Court in T-Mobile West, LLC v. City and County of San Francisco ruled that the city has the power to limit installations of Wireless Transmission Facilities to protect the "quiet enjoyment of the streets", including power to protect the health of those using the streets (quotation in [blue text](#); emphasis added):

"Travel is not the sole use of public roads; other uses may be incomed beyond the obstruction of travel. (T-Mobile West, at pp. 355-356.) For example, lines or equipment might

- generate noise,
- cause **negative health consequences**, or
- create **safety concerns**.

All these impacts could disturb public road use, or disturb its quiet enjoyment."

Without changing its agenda, it now appears the hearing will very inefficiently spend its time and energy on "objective standards" that do not exercise the City's full power to protect the health and safety of its people.

Therefore, the most efficient and farsighted actions that could be taken at the August 19, 2020 hearing would be for SF-DPW to:

1. Postpone the scheduled proceedings, and

2. Send SF-DPW Article 25 back to the drawing board to be revised in accordance with current court rulings that clarify the city's power and responsibility to protect its people from injury from pulsed, data-modulated, Radio-frequency Electromagnetic Microwave Radiation (RF-EMR).

Article 25 could then be re-written, with the input of key stakeholders, including San Francisco residents and other interested members of the public, in order to maximize the enforcement of the City of San Francisco's Police Powers over the wireless industry to ensure that the City of San Francisco

- Takes effective actions to address the obvious **elephant in the room** (see *Mozilla v. FCC* below) and
- **Regulates the maximum allowed Effective Radiated Power** of any so-called "small" Wireless Telecommunications Facilities (sWTFs) to a level which would provide only telecommunications service (outdoor wireless phone calls in a carrier specified radius in feet from the sWTF) -- **and no higher** (see <https://scientists4wiredtech.com/vhp>)

It is now clear the City has the power and the duty to adopt policies and standards that make the health and lives of its citizens its top priority. That priority must be the primary guide in the City's decisions on its objective standards and on its decisions about the types and locations of Densified 4G/5G so-called "small" Wireless Telecommunications Facilities (sWTFs) allowed to radiate San Francisco's residents' streets and homes.

Some of the major recent federal Telecom law clarifications are the following:

#### [KEY 2019-2020 CA State & U.S. Courts of Appeals Rulings](#)

- **A. [April 4, 2019](#)** — CA Supreme Court Ruling in Case No. S238001 *T-Mobile West, LLC et al. v City and County of San Francisco et al.* re: incommoding the quiet enjoyment of streets
- **B. [Aug 9, 2019](#)** — DC Circuit Ruling in Case No. 18-1129, *Keetoowah et al. v FCC*, re: National Environmental Policy Act (NEPA)
- **C. [Oct 1, 2019](#)** — DC Circuit Ruling in Case No. 18-1051, *Mozilla et al. v FCC*, re: Net Neutrality & State Preemption
- **D. [Aug 12, 2020](#)** — Ninth Circuit Ruling in Case No. 18-72689, *City of Portland et al. v FCC*, re: Streamline Small Cell Deployment

**Note:** quotations are in [blue text](#), below.

#### **A. Apr 4, 2019 Ruling, Case No. S238001 T-Mobile West, LLC et al. v City and County of San Francisco et al.**

From pages 8-9

". . . the City has inherent local police power to determine the appropriate uses of land within its jurisdiction. **That power includes the authority to establish aesthetic conditions for land use** . . . We also disagree with plaintiffs' contention that section 7901's incommode clause limits their right to construct [telephone] lines only if the installed lines and equipment would obstruct the path of travel. Contrary to plaintiffs' argument, the **incommode clause need not be read**

so narrowly.

As the Court of Appeal noted, the word “incommoded” means “to give inconvenience or distress to: disturb.” (T-Mobile West, supra, 3 Cal.App.5th at p. 351, citing Merriam-Webster Online Dict., available at <http://www.merriam-webster.com/dictionary/incommoded> [as of April 3, 2019].)8 The Court of Appeal also quoted the definition of “incommoded” from the 1828 version of Webster’s Dictionary. Under that definition, “incommoded” means “**‘[t]o give inconvenience to; to give trouble to; to disturb or molest in the quiet enjoyment of something, or in the facility of acquisition.’**” (T-Mobile West, supra, 3 Cal.App.5th at p. 351, citing Webster’s Dict. 1828—online ed., available at <http://www.webstersdictionary1828.com/Dictionary/incommoded> [as of April 3, 2019].)

For our purposes, it is sufficient to state that the meaning of incommoded has not changed meaningfully since section 7901’s enactment. Obstructing the path of travel is one way that telephone lines could disturb or give inconvenience to public road use. But **travel is not the sole use of public roads; other uses may be incommoded beyond the obstruction of travel.** (T-Mobile West, at pp. 355-356.) For example, lines or equipment might

- generate **noise**,
- cause **negative health consequences**, or
- create **safety concerns**.

**All these impacts could disturb public road use, or disturb its quiet enjoyment.**” (Emphasis added.)

### **B. Aug 9, 2019 Ruling, Case No. 18-1129, Keetoowah et al. v FCC, re: NEPA Exemption & APA violations**

“We rule that the Order’s **deregulation of small cells is arbitrary and capricious** because its public-interest analysis did not meet the standard of reasoned decisionmaking.”

### **C. Oct 1, 2019 Ruling, Case No. 18-1051, Mozilla et al. v FCC, re: Net Neutrality & State Preemption**

“For the Preemption Directive to stand, then, the Commission must have had express or ancillary authority to issue it. **It had neither** . . . By reclassifying broadband as an information service, the **Commission placed broadband outside of its Title II jurisdiction.** And broadband is not a “radio transmission” under Title III or a “cable service” under Title VI. So the Commission’s express authority under Titles III or VI does not come into play either. Nor did Congress statutorily grant the Commission freestanding preemption authority to displace state laws even in areas in which it does not otherwise have regulatory power. With express and ancillary preemption authority off the table, the Commission was explicit that it was grounding its Preemption Directive in (i) the “impossibility exception” to state jurisdiction, and (ii) the “federal policy of nonregulation for information services.” 2018 Order ¶¶ 198, 202. **Neither theory holds up.** . . . [The FCC] just cannot completely disavow Title II with one hand while still clinging to Title II forbearance authority with the other . . . the Commission’s power to choose one regulatory destination or another does not give it the option to mix and match its favorite parts of both . . . Congress, the Court has explained, “does not alter the fundamental details of a regulatory scheme,” let alone step so heavily on the balance of power between the federal government and the States, “in vague terms or ancillary provisions — **it does not, one might say, hide elephants in mouseholes.**” *Whitman v. American Trucking*

Ass'ns, 531 U.S. 457, 468 (2001)"

### **D. Aug 12, 2020 Ruling, Case No. 18-72689, City of Portland et al. v FCC, re: Streamline Small Cell Deployment**

See [Link to](#) Ninth Circuit Court of Appeals Case No. 18-72689 *City of Portland et al. v FCC* re: repeal of FCC Orders 18-111 and 18-133.

"We therefore hold that the FCC's requirement in the Small Cell Order that aesthetic regulations be "no more burdensome" than regulations applied to other infrastructure deployment is **contrary to the controlling statutory provision**. See 47 U.S.C. § 332(c)(7)(B)(i)(II). We also hold that the FCC's requirement that all local aesthetic regulations be "objective" is not adequately explained and is therefore **arbitrary and capricious**. We therefore: **GRANT the petitions** as to those requirements, **VACATE** those portions of the rule and **REMAND** them to the FCC."

**The City of San Francisco Has To Finally Address the Elephant in the Room** (see Mozilla above)

Consider:

1. **§ 332. Mobile Services (1996)** — "(a) Factors which Commission **must consider** — (1) **promote the safety of life and property.**"
2. **Title 47 §332(c)(7)(B)(iv)** — "No State or local government or instrumentality thereof may regulate the placement, construction, and modification of personal wireless service facilities on the basis of the **environmental effects** of radio frequency emissions to the extent that such facilities comply with **the Commission's regulations concerning such emissions.**"

Because it is unlikely that Congress' intent was for the population to sicken and die in order to further enrich the \$500 billion Wireless industry, it is most reasonable to read its intent in using the words "environmental effects" to mean neither 'health effects' nor 'health concerns', but most likely the rate of radiation emission, which is not the total dose of radiation administered. The Current FCC RF-EMR guideline, as written, does not and cannot insure public safety.

The current FCC RF-EMR Guideline is nonscientific **nonsense** because it is only an industrial guideline, **not a safety guideline** and it only addresses the **rate of poison delivery** — **NOT** the total **dose of poison delivered** over time (see [rate x time](#)) --> view <https://youtu.be/LvUxqT9IAPg?t=110>

Therefore, the elephant in the room is that **compliance** with the current FCC RF-EMR Guideline **does not and cannot insure public safety.**

Rather than update its nonscientific exposure guidelines for RF-EMR, in light of post-1996 research and improved knowledge of RF-EMR's scientifically-established health hazards, the FCC (for reasons not clear to outsiders) re-issued its outdated, flawed and much criticized 1996 RE-EMR guideline. On December 4, 2019, the FCC adopted [Order 19-126](#) affirming the adequacy of its 1996 wireless radiation exposure safety guidelines. These guidelines ignore the overwhelming evidence of harm, both in scientific reports and medical data about human injury, illness and death from RF-EMR. By adopting and maintaining defective guidelines, the FCC has enabled and forced the uncontrolled proliferation of radiation injury. Densified 4G and 5G wireless infrastructure in San Francisco and elsewhere has led to a growing epidemic of sickness among children and adults, and according to scientific consensus has caused harm to animals, plants and the ecosystem at large. Presumably FCC Ordinance 126 will be vacated in the pending DC Circuit case (ETH v. FCC, below).

In 2012, the General Accounting Office of Congress published a [report](#) recommending that the FCC reassess its 1996 guidelines. As a result, in 2013, the FCC opened [docket 13-84](#) asking for public comment. This docket was open for six (6) years. On December 4, 2019, the FCC closed the docket and affirmed the adequacy of its guidelines without proper re-assessment.

The Environmental Health Trust, the Children's Health Defense, the National Resources Defense Council, the International Building Biology Institute and others have sued the the FCC to have this order vacated and remanded back to the FCC. See details here --> <https://scientists4wiredtech.com/regulation/fcc-19-126/>

Understandably, FCC Order 19-126 regulations **which have been scientifically-established as hazardous and not protective of public health and public safety, were immediately challenged under the Administrative Procedure Act as being arbitrary and capricious, (and therefore invalid). That challenge is now pending in the DC Circuit Court of Appeals.** The court will determine whether FCC Order 19-126 will be vacated due to the lack of the FCC's reasoned decisionmaking.

Given the widespread and near unanimous findings of scientists studying those issues, (See the Joel Moskowitz, PhD binder that has been in the San Francisco public record since April 2019 as part of Cheryl Lea Hogan's Appeal of a sWTF that was improperly constructed and operated at 3535 Sacramento Street since Nov 20, 2019 — without the legally necessary FCC compliance with NEPA), it appears highly probable that these FCC rules will be found to be "arbitrary and capricious" and, therefore, unlawful.

- [Link to](#) 2020-0729-EHT-CHD-Case-20-1025-Petitioners-Brief
- [Link to](#) 2020-0805-NRDC-Case-20-1025-Amicus-Brief
- [Link to](#) 2020-0805-Building-Biology-Institute-Case-20-1025-Amicus-Brief
- [Link to](#) 2020-0805-BBI-Addendum-to-Amicus-Brief

FCC regulations that affect California streets were clarified by the California Supreme Court, Apr 4, 2019 Ruling, Case No. S238001 T-Mobile West, LLC et al. v City and County of San Francisco et al. That Court found that the this City had the power to regulate telecom facilities in order to protect against "negative health consequences" of those using the streets and they are not limited in so doing by FCC regulations. There is no preemption of local power by the FCC when a city restricts WTF tower construction for that reason. If San Francisco uses this power to protect the health of those using the streets, then it will, as a side-effect, also protect the health of those on private property adjoining the protected streets.

One especially troubling matter remains. Many peer-reviewed, scientific studies on the "negative health effects" caused by RF-EMR from cellular devices and infrastructure at intensities hundreds of thousands of times lower than that allowed by current FCC RF-EMR guidelines were given to the City Public Health Department by the city's Board of Appeals in May of 2019 for review and comment.

The documents provided are peer-reviewed, Daubert-rule admissible scientific studies on the biological effects of pulsed, modulated RF-EMR. Failure to comment on those documents, despite many repeated requests from other San Francisco Departments, including the SF Board of Appeals, certainly **could** increase San Francisco's liability if it blindly proceeds down the current path of installing Densified 4G/5G Wireless antennas closer than 1,500 feet from homes at locally unregulated Effective Radiated Power levels.

**There can be no legitimate reason for failure of someone, anyone, in the SF-DPH to report back to the City Departments requesting this update after over a year of waiting.** Despite many empty promises, Dr. Tomas Aragon has not followed through on the assignment given to him: to update the [June 14, 2010 Memo SF-DPH Memo](#) by Dr. Rajiv Bhatia re: *Health Effects and Regulation of*

*Wireless Communications Networks*. We urge the city to make a public statement about the findings and conclusions of those reports ASAP. Delay for this long appears to be a case of the city shooting itself in the foot or somewhere higher. The copious documentation about this (<https://scientists4wiredtech.com/covid19/#fail>) has been entered into the San Francisco public record.

In short, the City of San Francisco can no longer argue that the FCC regulations prevent it from protecting the health and safety of its people. Given the recent judicial holdings on power to protect those using the streets, and in view of the ongoing litigation on the viability of FCC regulations, the City is free to go with its top priority, and halt all sWTF and larger WTF placement, construction, modification and operations **until the Telecom industry can offer a non-defective product/service**.

The inadequate security protection of current 4G and 5G proposals also fail to protect the security of the United States. As reported in Feb 2020, IMP4GT Attacks (IMPersonation attacks in 4G neTworks) allows an attacker to impersonate a user towards the network and vice versa. The authors of the paper **Impersonation Attacks in 4G/5G Networks**, say : [web](#) | [pdf](#)

- "For the first time, our demonstrated exploit completely breaks the mutual authentication aim of 4G/LTE and 5G on the user plane in real world settings
- The results of our work demonstrate that Wireless carriers can no longer rely on mutual authentication for billing, access control, and legal prosecution.
- The work emphasizes the need for user-plane integrity protection in mobile communication standards, which means the **US Government** — as a matter of National Security — **should not allow the installation** of the current 5G equipment, **until this problem is fixed at the hardware layer"**
- More details can be found here:

### **Long-standing, Established 3G/4G/5G Equipment Security Flaw**

**Security researchers have discovered a novel 4G LTE / 5G attack vector.**

[Steve Gibson](#) from [Security Now](#) | The paper, **Impersonation Attacks in 4G/5G Networks**, is here: [web](#) | [pdf](#)

[Link to](#) **Forget TikTok. Feebly Secured Infrastructure Is Our Real Problem**

One alternative, the use of fiber-optic cable installed all the way to homes with no wireless antennas in the public rights of way is a far preferable solution.

In conclusion, we strongly recommend, that the hearing of Aug. 19, 2020 be postponed, with Article 25 to be tabled and set aside for reworking in accordance with current law.

Regards,

Gary Widman, 415-435-0360  
Paul McGavin, 707-981-5522

---

# Appendix A

## Recommended Changes to SF-DPW Article 25

### Add **The Written Evidence – Wireless Antenna Need Test – In Telecommunications (WE-WANT-IT) Ordinance to Article 25**

**WE-WANT-IT** would require a Comprehensive Wireless Signal Strength Test to be conducted every six months by an independent RF Engineer, who will log, second-by-second, the Wireless signal-strength levels in dBm (decibel-milliWatts) of every carrier-specific licensed and unlicensed wireless frequency that is being transmitted to the streets of San Francisco. The full data file for each **WE-WANT-IT** test will be placed in the public record of each respective authority for anyone to view, analyze and verify and will serve as the basis for local decisions, regarding:

- the need for any additional Wireless infrastructure; and
- the placement, construction, modification and operations of WTFs of Any G within the authority's borders.

The Cost for each WE-WANT-IT test would be paid by antenna operators on a pro rata basis: the share of each Wireless Company's antenna capabilities, meaning the percentage of the sum of the maximum Effective Radiated Power that could be transmitted by each antenna operating within the authority's borders.

The common sense proposal, above, is for San Francisco to establish policies and procedures for placing, constructing, modifying and operating only Wireless Telecommunications Facilities (WTFs) that are determined to be needed to close a significant gap in telecommunications service coverage. Need Tests would be in the form of industry-standard *Drive Tests* of carrier-specific telecommunications frequencies conducted every six months by a neutral, third-party, licensed RF Engineer selected, hired and supervised by San Francisco — but paid for by Wireless Cos. on a pro rata share, based on an market share analysis of the maximum antenna Effective Radiated Power output capability of existing antennas operating in San Francisco.

Industry-standard *Drive Tests* can easily measure actual signal strength for all antennas currently installed and operating in San Francisco. The *Drive Tests* would log, second-by-second, the existing signal strengths in decibel-milliWatts (dBm) for each frequency transmitted from antennas that reach the streets of San Francisco. The raw data and report would be entered into the public record every six months, so the results can be verified by any member of the public.

Importantly, the dates of the *Drive Tests* would need to be kept secret from all Wireless Telecommunications carriers and their agents, so such parties would have no opportunity to power down antennas under their control during the *Drive Tests* — to prevent these parties from artificially creating a temporary significant gap in telecommunications service coverage in an attempt to game the results of the *Drive Tests*.

The results of the *Drive Tests* would provide verifiable, objective data to determine if a particular proposed WTF would be legally necessary to be installed in the public rights-of-way within the City of San Francisco's jurisdiction and legal authority. The raw data would then be used to establish if any carrier-specific significant gaps in telecommunications service coverage actually exist, considering results from all frequencies in the aggregate. Any new WTF would only be licensed by San Francisco if there is a proven significant gap in telecommunications service corrected by the antenna in the application, consistent with the ideas of "significant gap in coverage" and "least intrusive means" in the 2005 Ninth Circuit Ruling, [Metro PCS v San Francisco](#).

Other requirements for WTF applications, added to Article 25 should include the following for each WTF application:

- A determination if the WTF application provides public benefits, consistent with the preservation of the integrity, safe usage, ambiance, and visual qualities of San Francisco's public rights-of-way.
- Substantial written evidence of NEPA review (a requirement of every WTF application, per FCC NEPA Attorney Erica Rosenberg. NEPA requirements: see <https://scientists4wiredtech.com/action/nepastrategies/>
- Proper liability insurance that protects the county from claims of injuries, illnesses and/or deaths from pulsed, data-modulated, Radio-frequency Electromagnetic Microwave Radiation (RF-EMR) exposures: see <https://scientists4wiredtech.com/thisworks>
- A listing of the names of the board of directors toward positive identification of the applicant, and the assets of the entity actually signing the MLA and other licensing agreements and WTF applications: see <https://scientists4wiredtech.com/davis>

Therefore, San Francisco needs to significantly amend Article 25, which currently primarily fulfills the business goals of Wireless Telecommunications Carriers, at the expense of San Francisco residents — this is an unjust "taking" of property values to enrich private companies who are operating in the public rights-of-way, without sufficient public benefit, such as sharing access to Fiber Optic cables installed in the public rights-of-way. Changes to Article 25 are needed to bring it in accordance with the 1996 Telecommunications Act (1996-TCA), which governs Title II-regulated telecommunications service, and which leaves all four above-cited activities related to wireless infrastructure — in the lands of the City and County of San Francisco. A regulatory obligation must be fulfilled and not avoided by omission.

The authority to properly regulate the maximum Effective Radiated Power of any antenna installed in the public rights-of-way is established in the [1996-TCA](#) and its [conference report](#):

From <https://scientists4wiredtech.com/compare>

"[This page](#) is one of three legs of the stool that establishes local control over the operations of Wireless Telecommunications Facilities (WTFs); the other two are the US House/Senate [Conference Report](#) for the 1996 Telecommunications Act ("1996-Act") and the [stated purpose](#) of the 1996-Act: 'to promote the safety of life and property'."

From the 1996-TCA [Conference Report](#)

"The conferees also **intend** that the phrase "unreasonably discriminate among providers of functionally equivalent services" will provide localities with the flexibility to treat facilities that create different visual, aesthetic, or safety concerns differently to the extent permitted under generally applicable zoning requirements even if those facilities provide functionally equivalent services. For example, the conferees **do not intend** that if a State or local government grants a permit in a commercial district, it must also grant a permit for a competitor's **50-foot tower in a residential district.**"

...

"If a request for placement of a personal wireless service facility involves a zoning variance or a public hearing or comment process, the time period for rendering a decision will be the usual period under such circumstances. **It is not the intent** of this provision **to give preferential treatment to the personal wireless service industry** in the processing of requests, or to subject their requests to any but the generally applicable time frames for zoning decision."

**SB 50 is Hiding Inside 9 bad bills: Stop SB 1120, SB 902, SB 1085, SB 995 AND AB 725, AB 2345, AB 3040!  
 REJECT THEM!!!**

COVID-19 presents new dynamics for housing, malls emptied as well as many other store fronts which can be converted. The office vacancy rate 13% in SF as people will be working at home as an increasing and continuing trend presents an opportunity for conversion. Public transportation is down 75%. Increased density results in increased contagion opportunity.

The people who live in the area where the development will come to rest should have the greatest say and have the most knowledge of what is appropriate to the character, needs, infrastructure and general well being of their unique neighborhood. Their local political leaders must have the authority to make those calls and are the ones most easily accessible and accountable to the local people. These bills eviscerate that local control and accountability and I for one will be voting for anyone who opposes their proponents and I will be joined by many many others.

Dear Kate Toran and all Taxi Regulators

It's no wonder that the Taxi Medallion Industry is struggling.

You all don't want to admit that your all at fault for regulating the Taxis to extreme that is why it's hanging on a noose.

The Taxi industry is unhealthy is because of SFMTA and it's tight rope regulation, and your doing it to the people that are low income and working hard. That the people SFMTA chooses to bully.

You sell the medallions and make drivers pay all the fee's and when they are too sick or dead and you go and take back the medallions they have work hard and pay with all there hard earn life.

Medallions drivers actually buys are not even own by them, no wonder nobody wants to buy any future medallions!

Congratulations to you all for doing a great job at bullying actual hard working citizens.

“As a regulator, I can’t guarantee a healthy market,” said Kate Toran, SFMTA director of taxis and accessible services. “Unfortunately the world changed when these other services (Uber and Lyft) came onto the streets.”

**Subject:** A Plea for support for a Childcare Center-District 5

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Dear Supervisor Dean Preston,

My name is Masha LePort, I am working to start a childcare center at 2112-2118 Hayes Street. To say it has been a challenge is an understatement. I'm reaching to you for support because we are stuck in a nightmare with the Department of Building Inspections. Our construction permit has been stuck at DBI since March 5th. Starting a childcare center has been a lifelong dream, it has been an almost 2 years process and it has been such a challenge. I have poured my family's life savings into the project, I have 7 teachers who I've hired and are counting on employment, and I have 30 local families who are enrolled anxiously waiting for me to open.

We have been assigned a DBI plan reviewer who is withholding approval and I do not know why. For the past 5 months we have received inconsistent information (between Mark Walls/our assigned reviewer and the Pre-App DBI team) and tense dialogue, which my architect and the construction team say is inconsistent with previous interactions and review processes even with CV-19 related issues.

We have been struggling with this reviewer for 5 months and we have fulfilled every request he has made of us and each time, when we think we are about to get a sign off, he finds another issue and the delays continue. Something is seriously off and broken in their system and my business is failing as a result. This is a tiny project, that should have taken a couple of weeks. It truly does not make sense.

We have requested support from Patrick O'Riordan, the Interim Director and Dan Lowrey, the deputy director. They have been responsive and Dan Lowrey was helping us and it seemed we were making progress and he let us know that the reviewer has reviewed our plans and would sign off. Still no sign off and Dan unfortunately is out of the office and the delays continue.

Obviously CV-19 has wreaked havoc on everyone. I can only imagine the level of work you have on your plate. And I acknowledge that I'm not special and everyone is scrambling to get their projects through. We are a small childcare center who will be serving 35-40 local families and I'm just trying to create something good for the community in this

unprecedented time.

I just don't know what to do, then to plead my case with you. Is there anything you could do to help us sort this out and get through this process?

I have a lease, I owe rent, Child Care Licensing is telling me they may need to close my application because the process is taking too long, parents and teachers are waiting and relying on my opening, and I'm being severely financially impacted. My only wish is to get my construction permit and safely open the childcare center and welcome families. Would you be willing to help?

I wouldn't make this request if I wasn't desperate. I know everyone is in the same boat and has their own story. Thank you in advance for any support or guidance on this issue.

Warm regards,  
Masha LePort

Dear San Francisco Board of Supervisors,

ATTACHED please find photos of the San Francisco Police Department (SFPD), who's annual budget is reported to be \$675 million dollars, spending expensive tax-payer dollars on the clearly 'threatening Black man' sitting solitarily on a SOMA SFMTA bench at 11th Street and Howard (~7:30 PM) on this balmy Summer Sunday evening.

--!-> "Power outages threatened through Wednesday" read local Covid-19 text alerts.<---

Perhap SFPD Chief William Scott received yet another private text message from his Princess-Mayor to 'de-bench' yet another 'cherished' Black and unhoused San Franciscan. They make up 40% of San Francisco's unhoused population after all, although they represent a diminishing and paltry 5% of the city's overall population.

I did not witness Princess-Mayor Breed on the recent 'Community Alternatives to Policing' Zoom calls thoughtfully moderated by San Francisco Human Rights Commission (SFHRC) Cheif Ms. Sheryl Davis.

Princess-Mayor Breed migh have brought her deep listening skills and mute-button to the multiple and quite moving community brainstorm sessions with her 'cherished' Black community before drafting her quite untenable proposed 2021 city budget.

The Annual 'woke Mayor's annual budget presentation' to the public was yet another patently shallow, dressy event released via another Mayor's Press Office news conference (future political campaign advertisement?).

The world is watching. Again, if indeed God speaks through the insane, I'll happily accept the stigmatization.

See "SF Mayor Endorses Posting in SFPD Precinct Booking Rooms Laminated #BLM Propaganda. 'Cherished' SF Black Community Population Finally Dwindles to Zero. (tk)"

**Subject:** Development at 3516/3526 Folsom Street

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

We live in Bernal Heights at 45 Wool Street. We are very concerned about the a proposed project on Folsom Street and the shoddy nature of the safety measures being taken with respect to a PG&E gas transmission pipeline on the development. Expert-certified safety measures should be put in place prior to the building of two residential houses (3516/3526 Folsom Street) and a new 125' access street - on a steep undeveloped Bernal hillside where a major PG&E gas transmission pipeline runs.

The proposed project entails heavy-duty excavation activity over, under and next to a massive PG&E 26" gas pipeline - the same type of pipeline that catastrophically exploded in San Bruno - and is located at the top of Folsom Street on the south side of the hill adjacent to the Community Garden.

Since **construction mistakes are the major cause of pipeline accidents**, there exists a real possibility of a **catastrophic explosion** if proper safety measures are not followed. Certifying - and ensuring accountability of - those safety measures is critical to the safety of the neighborhood.

During those seven years, **the Planning Department** and Project Sponsors have **repeatedly short changed public safety** over developer's interests. **Planning has had rescinded, vacated or revoked three previous California Environmental Quality Act ("CEQA") decisions, unprecedented in SF history** and evidence of the validity of our concerns.

Best,

Stephanie Smith and Carol Anderson

*Submitted via electronic mail*

**Re: File #200758—Settlement of Lawsuit - Hastings College of the Law—OPPOSE**

Dear President Yee and Supervisors:

On behalf of GLIDE, we urge you, the San Francisco Board of Supervisors, to reject the settlement of the lawsuit filed by Hastings College of the Law (UC Hastings) against the City and County of San Francisco. Furthermore, we respectfully request you to issue instructions to the City to negotiate an agreement that ensures critical protections and provides for more resources for people experiencing homelessness. The Board of Supervisors should send a clear message to UC Hastings and the City that the University does not get to determine San Francisco's response to the needs of an impoverished community.

As a leading social service provider in San Francisco's Tenderloin neighborhood, in the ever-changing landscape of the pandemic, GLIDE continues to meet the growing needs of the city's most vulnerable residents. We have modified and expanded essential services to address rising unemployment, food insecurity, and other vulnerabilities among unhoused and extremely-low-income people to support thousands of individuals and families through a deeply precarious and challenging time, while also helping them establish foundations for meaningful change.

Almost two months into San Francisco's order to shelter-in-place, UC Hastings sued the City and County of San Francisco, demanding that the tents across the Tenderloin neighborhood be removed. A little over a month later, the City and UC Hastings entered into a settlement agreement without the participation of any unhoused person. Since the beginning of the pandemic, we have been advocating that the City move unhoused persons into hotels to protect them from COVID-19. Although we support the City's recent efforts to move persons into these hotel rooms, the agreement lacks basic constitutional protections, especially for persons with disabilities, and does not compel the City to procure enough hotel rooms to adequately shelter or provide real solutions to the over 2,000 unhoused San Franciscans in the area.<sup>1</sup>

Troubled by the implications of such a lawsuit during the global pandemic, we at GLIDE, along with over two dozen other Tenderloin and San Francisco based organizations sent a [letter to UC Hastings Chancellor David](#)

---

<sup>1</sup> <https://www.courthousenews.com/wp-content/uploads/2020/05/SFTenderloinBlight-COMPLAINT.pdf>

[Faigman with an attached pledge](#): that any settlement must respect legal precedent, Centers for Disease Control and Prevention guidelines,<sup>2</sup> and the broader human rights of unhoused in the Tenderloin. Faigman dismissed our concerns and refused to sign the pledge. Concurrent to our efforts, UC Hastings students and alumni began organizing and subsequently expressed their concerns with the lawsuit in an open letter to the University.<sup>3</sup> With our concerns dismissed and legal proceedings continuing, Coalition on Homelessness, Hospitality House, and Faithful Fools filed in the courts to join the UC Hastings lawsuit as an interested party in an effort to stave off the worst parts of the UC Hastings lawsuit.<sup>4</sup> Though included, the unapproved settlement had already been agreed upon.

Lawyers from the City and UC Hastings had met extensively, culminating in the June 12 announcement<sup>5</sup> by Mayor London Breed of a [settlement](#), unapproved by the courts or the Board of Supervisors. The unapproved settlement stipulated that the City would transition approximately 375 people, or just 18 percent of the Tenderloin unhoused population, into hotels and safe shelter villages in an attempt to clear tents from sidewalks. Furthermore, the settlement stated that the City and UC Hastings share a “goal of permanently reducing the number of tents, along with all other encamping materials and related personal property, to zero.” An unreasonable expectation, when only 18 percent of residents were to be offered alternative shelter. Over 40 organizations, including GLIDE, signed a [letter](#) asking the City to reject the stipulated agreement, and we now ask the same of you.

As members of the GAO, please recommend that the Board of Supervisors reject the UC Hastings settlement, and call for an agreement that incorporates protections for persons with disabilities and safeguards the constitutional rights of people experiencing homelessness. You have the opportunity to allow for a more humane, person-centered approach to acquiring resources for the Tenderloin’s unhoused.

By rejecting the settlement, the GAO can:

- Avert the disaster of a “zero tents” policy with “enforcement measures” set against the reality of over 1,600 unhoused now left in the Tenderloin;
- Heed the widespread calls to remove the police from their roles in HSOC and DPW, and ensure SFPD will not participate in efforts to move people into alternative housing sites;

---

<sup>3</sup> Sisto, Carrie, “UC Hastings students, alumni warn lawsuit could increase police force against unhoused,” *Hoodline*, June 1, 2020. <https://hoodline.com/2020/06/uc-uc-hastings-students-alumni-warn-lawsuit-could-increase-police-force-against-unhoused>

<sup>4</sup> Howey, Brian, “Nonprofits Want Added Homeless Protections in UC Hastings Lawsuit Against SF,” *SF Public Press* June 11, 2020. <https://sfpublicpress.org/nonprofits-want-added-homeless-protections-in-uc-uc-hastings-lawsuit-against-s-f/>

<sup>5</sup> City and County of San Francisco, Office of the Mayor, “San Francisco and UC Hastings and Co-Plaintiffs Announce Settlement Agreement Regarding Tenderloin,” June 12, 2020. <https://sfmayor.org/article/san-francisco-and-uc-uc-hastings-and-co-plaintiffs-announce-settlement-agreement-regarding>

- Prevent the establishment of a dangerous precedent of litigating away the unhoused; and,
- Allow the Coalition on Homelessness, Hospitality House, and Faithful Fools—parties who were granted intervention in the lawsuit but who did not have an opportunity to participate in the initial settlement discussions—a seat at the table to ensure the interests of the Tenderloin’s unhoused are represented, and that any settlement provides for protection of unhoused people’s rights and acquisition of the necessary resources to meet their needs.

We ask that the Board of Supervisors return the settlement with instructions to:

- Ensure that the settlement leads with a health-based response to homelessness during COVID-19, that centers on meeting the needs of human beings, not on the removal of tents;
- Ensure that the settlement contains provisions that ensure that the City offers reasonable accommodations to persons with disabilities in implementing the agreement;
- Ensure that the City increases the resources that those unhoused community members have access to in order to move off the streets, such as hotel rooms; and,
- Ensure that the agreement includes protections against unlawful property confiscations.

The settlement between the City and UC Hastings did not call for one additional hotel room beyond what was already promised, and instead will lead to the criminalization of visible poverty without offering unhoused people the services they need to get off the streets. The focus on tents, rather than individuals, is deeply dehumanizing; the settlement’s stated goal of permanently ridding the Tenderloin of tents will necessitate policing and sweeps, which does nothing to abate homelessness. This settlement sets a disturbing precedent, and people experiencing homelessness in the Tenderloin and in your districts deserve better. For these reasons and more, GLIDE opposes the UC Hastings settlement, and **we urge you to please vote no on the ordinance**. If you have any questions about our position, you may contact me via email at [wsaver@glide.org](mailto:wsaver@glide.org).

Sincerely,

Wesley Saver

<sup>5</sup> City and County of San Francisco, Office of the Mayor, “San Francisco and UC Hastings and Co-Plaintiffs Announce Settlement Agreement Regarding Tenderloin,” June 12, 2020. <https://sfmayor.org/article/san-francisco-and-uc-uc-hastings-and-co-plaintiffs-announce-settlement-agreement-regarding>

- Prevent the establishment of a dangerous precedent of litigating away the unhoused; and,
- Allow the Coalition on Homelessness, Hospitality House, and Faithful Fools—parties who were granted intervention in the lawsuit but who did not have an opportunity to participate in the initial settlement discussions—a seat at the table to ensure the interests of the Tenderloin’s unhoused are represented, and that any settlement provides for protection of unhoused people’s rights and acquisition of the necessary resources to meet their needs.

We ask that the Board of Supervisors return the settlement with instructions to:

- Ensure that the settlement leads with a health-based response to homelessness during COVID-19, that centers on meeting the needs of human beings, not on the removal of tents;
- Ensure that the settlement contains provisions that ensure that the City offers reasonable accommodations to persons with disabilities in implementing the agreement;
- Ensure that the City increases the resources that those unhoused community members have access to in order to move off the streets, such as hotel rooms; and,
- Ensure that the agreement includes protections against unlawful property confiscations.

The settlement between the City and UC Hastings did not call for one additional hotel room beyond what was already promised, and instead will lead to the criminalization of visible poverty without offering unhoused people the services they need to get off the streets. The focus on tents, rather than individuals, is deeply dehumanizing; the settlement’s stated goal of permanently ridding the Tenderloin of tents will necessitate policing and sweeps, which does nothing to abate homelessness. This settlement sets a disturbing precedent, and people experiencing homelessness in the Tenderloin and in your districts deserve better. For these reasons and more, GLIDE opposes the UC Hastings settlement, and **we urge you to please vote no on the ordinance**. If you have any questions about our position, you may contact me via email at [wsaver@glide.org](mailto:wsaver@glide.org).

Sincerely,

Wesley Saver  
Policy Manager, GLIDE

Dear Director Rodriguez,

Please see the attached letter, submitted on behalf of a coalition of social equity community members and allies, regarding the utilization of Bradford equity grant funds in San Francisco.

Thank you for your consideration.

Director Marisa Rodriguez  
Office of Cannabis  
San Francisco City Hall  
1 Dr. Carlton B. Goodlett Pl. #18  
San Francisco, CA 94102

Dear Director Rodriguez,

San Francisco has been a leader in supporting the cannabis movement over the decades. It is because of this leadership that we, a coalition of social equity businesses and allies, are requesting action to help bolster this community. Sen. Bradford's statewide legislation has provided the City with grant funds to support the start and sustainability of social equity businesses. The Cannabis Oversight Committee and Office of Cannabis are currently discussing how to best utilize these funds.

To best support the goals of this social equity grant, we urge the City to consider the following elements:

- **Eligible businesses should be prioritized by ownership type.** Sole proprietors should gain access to funds first, as they are not supported by additional investors. This should then be followed by the highest percentage of ownership by a social equity licensee in descending order. After ownership percentages are granted funding, the city should then look at the percentage of ownership in the permit review process, followed by applicants without a permit submitted.
- **An award cap should be put in place that varies depending on the licensing phase the applicant is in (applying, pending license, or currently operating).** The highest cap should be set for current operators, and caps should be tiered based on how far the operator is in the licensing process. Additionally, each tier should be further broken down by the percentage of ownership. For example, sole proprietors, that are current operators, should be able to receive the greatest amount of funding. This is because current operators carry the most overhead and tax responsibility, and sole proprietors do not have additional investors to help with these burdens.
- **Funds should be distributed based on operators' needs, not evenly across eligible recipients.** Operator needs vary greatly, and therefore fund disbursements should be matched to those with the greatest need. We propose the creation of an evaluation process, which should take into account the resources that operators have on hand, the funds they have received from other investors, and current expenses. Determinations should first be granted to operators with the greatest expenses, least capital, and the least amount of outside investments as a top priority for funding, as well as the top tier of allocated.

Throughout 2020, the social equity community has faced many challenges – including the COVID-19 pandemic, the mass uprisings against systemic anti-blackness, and mass loss of product due to theft. As a result, we are asking the city to double down on its efforts to distribute

these funds in a way that will truly benefit the social equity community. We thank you for your consideration.

Sincerely,

San Francisco social equity community and allies

Ramon Garcia of

I am worried that our transportation system is crumbling at a rapid rate. It is essential that the mayor nominate two new members of the SFMTA board and that they are approved quickly. It would be disastrous if meetings or votes are delayed due to vacancies on the board.

Please reconsider Jane Natali's appointment to the SFMTA Board. She would be a great addition. A shout out to my supervisor Mandelman for supporting her.
